- property investment and development

The ultimate holding company of the Company is Jinchuan Group Limited\*金川集團有限公司, which is incorporated in the People's Republic of China (the "PRC").

#### 2. FIRST-TIME ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Group prepared these condensed consolidated interim financial statements in accordance with International Financial Reporting Standards ("IFRSs"), its amendments and interpretations issued by the International Accounting Standards Board ("IASB").

Prior to 2011, the Group prepared its condensed consolidated financial statements in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") and its amendments and interpretations issued by the Hong Kong Institute of Certified Public Accountants.

Although HKFRSs have been fully converged with IFRSs except for certain differences in transitional provisions since 1 January 2005, management has given due consideration to the requirements under IFRS 1 First-time Adoption of International Financial Reporting Standards ("IFRS1") in preparing these condensed consolidated financial statements. For this purpose, the date of the Group's transition to IFRSs was determined to be 1 January 2010, being the beginning of the earliest period for which the Group presents comparative information in these condensed consolidated financial statements. With due regard to the Group's accounting policies in previous periods and the requirements of IFRS 1, management has concluded that no adjustments to the amounts reported under HKFRSs were required as at the date of IFRSs transition, or in respect of the period ended 30 lune 2010.

#### 3. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements have been prepared in accordance with the disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and the International Accounting Standard ("IAS") 34 "Interim Financial Reporting" issued by IASB.

<sup>\*</sup> For identification purposes

#### 4. PRINCIPAL ACCOUNTING POLICIES

The unaudited condensed consolidated interim financial statements have been prepared under the historical cost convention except for certain financial instruments which have been measured at fair values. The financial statement is presented in Hong Kong Dollar ("HKD") and all values are rounded to the nearest thousand except when otherwise indicated.

The following of new and revised IFRSs, which also include IASs and Interpretations were adopted, as of 1 January 2011:

IFRS 1 Amendments Amendment to IFRS 1 First-time Adoption of International Financial

Reporting Standards—Limited Exemption from Comparative IFRS 7

Disclosure for First-time Adopters

IFRS 7 Amendments Amendments to IFRS 7 Financial Instruments: Disclosures-Transfers of

Financial Assets

IAS 24(Revised) Related Party Disclosures

IAS 32 Amendment Amendment to IAS 32 Financial Instruments: Presentation-

Classification of Rights Issues

IFRIC 14 Amendment Amendment to IFRIC 14 Prepayments of a minimum Funding

Requirement

IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

Apart from the above, Improvement to IFRS 2010 has been issued which sets out amendments to a number of IFRSs primarily with a view to removing inconsistencies and clarifying wording. The amendments to IFRS 3 and IAS 27 are effective for annual periods beginning on or after 1 July 2010 while the amendments to IFRS 1, IFRS 7, IAS 1, IAS 34 and IFRIC 13 are effective for annual periods beginning on or after 1 January 2011 although there are separate transitional provisions for each standard or interpretation.

The principal effects of adopting these new and revised IFRSs are as follows:

The IASB has issued an amendment to IAS 24 that clarifies the definitions of a related party. The new definitions emphasise a symmetrical view of related party relationships as well as clarifying in which circumstances persons and key management personnel affect related party relationships of an entity. Secondly, the amendment introduces an exemption from the general related party disclosure requirements for transactions with a government and entities that are controlled, jointly controlled or significantly influenced by the same government as the reporting entity. The adoption of the amendment did not have any impact on the financial position or performance of the Group.

Except as stated above, the adoption of these new and revised IFRSs has had no significant financial effect on the Group's condensed consolidated interim financial statements.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

### 5. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has two reportable operating segments as follows:

- the manufacture and trading of cosmetic and related products, and provision of beauty technical and tutoring services segment ("Cosmetic and Beauty"); and
- (b) the property investment and development segment.

Management monitors the results of the Group's operating segments separately for the purpose of resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit before tax except that interest income, unallocated other income and gains as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude certain cash and cash equivalents and other unallocated head office and corporate assets as these assets are managed on a group basis.

## MANAGEMENT DISCUSSION AND ANALYSIS BUSINESS REVIEW

The change of the controlling shareholder of the Company to Jinchuan Group Limited\*金川集團有限公司("Jinchuan Group")in November 2010 had marked the Company's change of future business direction to operating as Jinchuan Group's flagship for undertaking its overseas operations in mining assets investment and mineral and metal trading in the region and across the world. Jinchuan Group is a leading nickel and cobalt producer in the world as well as one of the largest producers of nickel, copper, cobalts and platinum group of metals in the People's Republic of China (the "PRC"), and it has been conducting its international mining and mineral resources operations in over 20 countries. The Group would benefit from the extensive global network established by Jinchuan Group over the past decades in forming its trade relationship with the world-renowned miners and traders. The extensive experience and expertise of the new Directors and other staff who joined the Company after the change of the Controlling Shareholder would enable the Group to seek and grab the attractive opportunities in the mining sector.

Along with the Group's move to the mining sector, two of the Group's existing business segments, namely the Cosmetic and Beauty and the Property Investment and Development, continued to operate during the period. The details of their results are separately set out in the following sections.

## **Cosmetic and Beauty**

Our Cosmetic and Beauty segment is composed of CMM International Group Limited and its subsidiaries ("CMM Group") which are engaged in cosmetic and beauty products distribution as well as the related service provision in both Hong Kong and the PRC. It brings prevailing beauty trends through providing innovative services in beauty centers to retail customers and educating beauty professionals in beauty schools.

After two decades' development in the major cities in the PRC, CMM Group successfully extended its coverage to second and third tier cities in the PRC. It had revised its strategy to target customers in the second and third tier cities. It had sourced a number of new distributors in different provinces through participating in national events like the Shanghai Beauty Expo in May 2011. These distributors would be able to help CMM Group to expand its distribution to local retail outlets in addition to the existing department store counter channels, thus leading to potential sales growth in these cities. The launch of the new official website at "CMM.tmall.com" on Tao Bao electronic business shopping site together with product sales on TV shopping channel in the PRC enables CMM Group to build up a younger consumer portfolio.

### MANAGEMENT DISCUSSION AND ANALYSIS (continued)

## **Cosmetic and Beauty** (continued)

The innovative curriculum, including wedding planning and events planning, introduced in CMM Monita Academy in Hong Kong was very well received by the public, which led to a growth in its income derived from tuition fee under its school operations. At the same time, these courses also strengthen its student base which forms a good platform for CMM Group's future business growth.

## **Property Investment and Development**

Consistent with the Company's strategic intention to focus on its business in the mining and mineral resources sector, the Company disposed of its indirect equity interest in one of its two Macau property projects in May 2011, from which a gain of HK\$0.8 million was realized. Going forward, the Company will be seeking opportunities to dispose of its remaining property assets in this segment for fair consideration.

#### **FINANCIAL REVIEW**

## Revenue and gross profit

The revenue for the six months ended 30 June 2011 was HK\$60.0 million, representing a decrease of 11.5% from HK\$67.8 million for the comparative period in 2010, which was due to the fierce competition from international players in the PRC.

The Group's own-branded products of the Cosmetic and Beauty segment continued to face fierce competition from international players in major cities in the PRC where the customers with strong consumption capability prefer renowned imported cosmetic brands. Notwithstanding the growth in service income from tuition for beauty courses during the period, the drop in product sales resulted in a decline in overall revenue.

The gross profit margin increased from 64.0% for the comparative period in 2010 to 68.7%. This is mainly attributable to the upward price adjustment in certain beauty brands.

## Other income and gains

Other income and gains for the six months ended 30 June 2011 amounted to HK\$3.2 million, representing a significant increase from HK\$0.6 million for the comparative period in 2010. The increase was mainly due to the increase of bank interest income by HK\$1.8 million derived from the share subscription funds from Jinchuan Group and the share placement funds in November 2010, the proceeds from disposal of the property interest in Macau as discussed above and the assignment of a related shareholder loan in May 2011.

## MANAGEMENT DISCUSSION AND ANALYSIS (continued) Selling and distribution costs

The increase of HK\$2.5 million in selling and distribution costs by 9.8% mainly resulted from the increase in promotion expenses for holding of a product exhibition and a new product conference at Hangzhou to attract new distributors. More beauty counter decoration and renovation activities also caused an increase in expenses under this category.

## **Administrative expenses**

The increase of HK\$12.2 million in administrative expenses by 71.9% was principally driven by the repositioning of the Group's business focus to the mining sector. The Company organized a celebration ceremony in Hong Kong inviting governmental officials, business partners and finance community to witness the milestone of its development upon change of the company name in February 2011. In addition, the rise in professional fees and the costs associated with share options prior to their exercisable period also attributed to the rise in administrative expenses.

## Liquidity, Financial Resources and Capital Structure

As at 30 June 2011, the Group had cash and bank deposits of HK\$713.6 million. The interest-bearing bank borrowings of the Group of HK\$19.3 million is due within one year.

The Group generally finances its operations with internally generated cash flows. Following the share subscription and placement raising a total of HK\$582.0 million in November 2010, the disposal of its interest in one of its two Macau property projects and the related shareholder loan assignment generated HK\$78.0 million (in aggregate). In addition, exercise of share options during the period generated proceeds of HK\$15.6 million. The Group is in a net cash position as at 30 June 2011.

## Material acquisitions and disposals of investments

In May 2011, the Group disposed of its available-for-sale investments, being its entire equity interest in a wholly-owned subsidiary which held interest in one of its two Macau property projects, together with the related shareholder loan assignment, for a total cash consideration of HK\$78.0 million.

Save as the above, the Group had no other material acquisitions or disposals of investments during the period.

## Significant capital expenditures

Save for the purchase of property, plant and equipment for HK\$2.5 million in the Cosmetic and Beauty segment, there were no significant capital expenditures during the six months ended 30 June 2011.

## MANAGEMENT DISCUSSION AND ANALYSIS (continued) Details of charges on the Group's assets

The Group's buildings and prepaid land lease payments with net book values of HK\$15.9 million and HK\$5.0 million, respectively, were pledged to secure general banking facilities granted to the Group.

### **Contingent liabilities**

The Group had no material contingent liabilities as at 30 June 2011.

## Foreign exchange risk management

Since the Group generated most of its revenue from sale of goods, the proceeds of which were denominated either in Hong Kong dollars or Renminbi, and the Group's payments for purchases of materials and salaries were either made in Hong Kong dollars, Renminbi, or Hong Kong dollars pegged currencies, the Group has not entered into any transactions for hedging purposes and the Group's foreign currency exposure is minimal. The Group monitors its exposure to foreign currency risk and will consider hedging such risk if necessary.

#### Other information

### **Prospects**

Following the change of the controlling shareholder of the Company in November 2010, the Group has been repositioning its business focus on overseas operations in the exploration and exploitation of mining assets and related trading by leveraging Jinchuan Group's background and established market position in the metals and mining industry. The independent shareholders' approval in the extraordinary general meeting held on 24 August 2011 demonstrates the tremendous support from our shareholder and investors to the Group's commissioning of its mineral and metal trading operations in the second half of this year. It represents the first step to implement the Company's strategy to develop into a flagship of Jinchuan Group for undertaking the overseas operations in the mining and mineral resources sector.

Leveraging on Jinchuan Group's leading market position and management expertise in the mining sector, since the beginning of this year, the Group has been seeking overseas investment opportunities mainly in nickel, copper and cobalt mines. The Group will be making active efforts to identify appropriate mining investment projects. By engaging in these new businesses, the Group expects to reach a higher return for its shareholders.
