TO THE BOARD OF DIRECTORS OF
AUTOMATED SYSTEMS HOLDINGS LIMITED
(incorporated in Bermuda with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 3 to 28, which comprises the condensed consolidated balance sheet of Automated Systems Holdings Limited (the "Company") and its subsidiaries (together the "Group") as at 30th June 2011 and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated cash flow statement for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

For the six months ended 30th June 2011

1. General information

The Company was incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of its registered office is Canon's Court, 22 Victoria Street, Hamilton HM12, Bermuda.

The condensed consolidated interim financial information is presented in Hong Kong dollars, unless otherwise stated. This condensed consolidated interim financial information was approved for issue on 19th August 2011.

This condensed consolidated interim financial information has not been audited.

Key events

The operational highlight of the period was the acquisition of i-Sprint Innovations Pte. Ltd. ("i-Sprint"). The i-Sprint group is principally engaged in the business of developing, distributing, implementing and supporting technology risk management products. Further details are given in Note 22.

2. Basis of preparation

This is the Company's first condensed consolidated interim financial information after the change of financial year end date of the Company from 31st March to 31st December (Note 28). This financial information covers a period of six months from 1st January to 30th June 2011 and has been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The condensed consolidated interim financial information should be read in conjunction with the consolidated financial statements of the Group for the nine months ended 31st December 2010, which have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs").

3. Principal accounting policies

Except as described below, the accounting policies applied are consistent with those of the financial statements for the nine months ended 31st December 2010, as described in those financial statements.

The following amendment to standard is mandatory for the first time for the financial year beginning 1st January 2011.

Amendment to HKAS 34 "Interim financial reporting" is effective for annual periods beginning on or after 1st January 2011. It emphasises the existing disclosure principles in HKAS 34 and adds further guidance to illustrate how to apply these principles. Greater emphasis has been placed on the disclosure principles for significant events and transactions. Additional requirements cover disclosure of changes to fair value measurement (if significant), and the need to update relevant information from the most recent annual report. The change in accounting policy only results in additional disclosures.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Cont'd)

3. Principal accounting policies (Cont'd)

The following standards, amendments and interpretations are mandatory for the first time for the financial period beginning 1st January 2011, but do not have any financial impact on the Group:

HKAS 24 (Revised), "Related party disclosures" is effective for annual period beginning on or after January 2011. It introduces an exemption from all of the disclosure requirements of HKAS 24 for transactions among government related entities and the government. It also clarifies and simplifies the definition of a related party. This is not currently applicable to the Group, as it does not have any related parties which is a government related entity.

Amendment to HKAS 32 "Classification of rights issues" is effective for annual periods beginning on or after 1st February 2010. This is not currently applicable to the Group, as it has not made any rights issue.

Amendment to HK(IFRIC) – Int-14 "Prepayments of a minimum funding requirement" is effective for annual periods beginning on or after 1st January 2011. This is not currently relevant to the Group, as it does not have a minimum funding requirement.

HK(IFRIC) – Int 19 "Extinguishing financial liabilities with equity instruments" is effective for annual periods beginning on or after 1st July 2010. This is not currently applicable to the Group, as it has no extinguishment of financial liabilities replaced with equity instruments currently.

Third improvements to Hong Kong Financial Reporting Standards (2010) were issued in May 2010 by HKICPA, except for amendment to HKAS 34 "Interim financial reporting" as disclosed above and the clarification to allow the presentation of an analysis of the components of other comprehensive income by item within the notes, all are not currently relevant to the Group. All improvements are effective in the financial year of 2011.

4. Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements of the Group for the nine months ended 31st December 2010, with the exception of changes in estimates that are required in determining the provision for income taxes.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Cont'd)

5. Financial risk management

5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's financial statements as at 31st December 2010.

There have been no changes in the risk management department since year end or in any risk management policies.

After the acquisition of i-Sprint during the period (Note 22), the Group is exposed to foreign exchange risk arising from Singapore dollar ("S$"). Foreign exchange risk arises from recognised assets and liabilities. As at 30th June 2011, if S$ had weakened/strengthened by 5% against the HKD with all other variables held constant, profit for the period would have been approximately HK$732,000 higher/lower, mainly a result of the foreign exchange difference on translation of S$ denominated liabilities.

5.2 Liquidity risk

Comparing to year end, there was no material change in the contractual undiscounted cash out flows for financial liabilities except for the contingent consideration payable associated with the acquisition of i-Sprint (Note 22). Depending on the upcoming financial performance of i-Sprint, the cash consideration for this acquisition may range from S$6,000,000 (HK$36,000,000) to S$7,900,000 (HK$47,400,000). As at 30th June 2011, approximately S$4,900,000 (HK$30,222,000) of the acquisition costs had been settled and financial liabilities of S$2,319,000 (HK$14,640,000) were recognised in the condensed consolidated balance sheet for the remaining portion of the fair value of the contingent consideration. The Group expects to settle this financial liabilities based on the payment schedule as specified in the corresponding sales and purchase agreement, ranging from one to three years.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Cont'd)

5. Financial risk management (Cont'd)

5.3 Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method.

The different levels have been defined as follows:

– Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

– Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

– Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's financial liabilities that are measured at fair value as at 30th June 2011.

	Level 1 HK$'000	Level 2 HK$'000	Level 3 HK$'000	Total HK$'000
Liabilities				
Contingent consideration payable	–	–	14,640	14,640
Total liabilities	–	–	14,640	14,640

6. Revenue and segment information

Revenue represents the net amounts received and receivable for goods sold by the Group to outside customers, less returns and allowances, and revenue from service contracts, and is analysed as follows:

	Unaudited Six months ended 30th June 2011 HK$'000	2010 HK$'000
Sales of goods	**460,469**	466,326
Revenue from service contracts	**300,673**	263,118
	761,142	729,444

The chief operating decision maker has been identified as the Board of Directors (the "Board"). The Board reviews the Group's internal reporting in order to assess the performance and allocate resources. The Board has determined the operating segments based on the Group's internal reporting.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (Cont'd)

6. Revenue and segment information (Cont'd)

The Group is currently organised into two (six months ended 30th June 2010: two) operating divisions – Information Technology Products ("IT Products") and Information Technology Services ("IT Services"). These divisions are the basis on which the Group reports its primary segment information to the chief operating decision maker. The business nature of each segment is disclosed as follows:

IT Products

Being the business of information technology in supplying of information technology and associated products.

IT Services

Being the business of information technology in providing systems integration, software and consulting services, engineering support for products and solutions and managed services.

The Group's revenue and results by operating segment for the period under review are presented below.

(a) The accounting policies of the reportable segments are the same as the Group's accounting policies. Performance is measured based on segment profit that is used by the chief operating decision maker for the purposes of resource allocation and assessment of segment performance. Income tax expense is not allocated to reportable segments.

The revenue, profit, assets and liabilities of the Group are allocated based on the operations of the segments.

Reportable segment profit is profit before income tax, excluding share of results of associates, unallocated other income, unallocated other loss, unallocated gain/(loss) on disposal of property, plant and equipment, unallocated depreciation for property, plant and equipment that are used for all segments, fair value gain on revaluation of investment properties and other corporate expenses (mainly include staff costs and other general administrative expenses) of the head office.

Reportable segment assets exclude interests in associates, restricted bank deposits, cash and cash equivalents and unallocated corporate assets (mainly include property, plant and equipment, investment properties and intangible assets that are used by all segments, prepayments and deposits).

Reportable segment liabilities exclude current income tax liabilities, deferred income tax liabilities and unallocated corporate liabilities (mainly include accrued charges of the head office).

Additions to property, plant and equipment, intangible assets and goodwill include additions resulting from acquisition through business combinations.

14. Property, plant and equipment (Cont'd)

If the leasehold land and buildings had not been revalued, they would have been included in these condensed consolidated financial statements at historical cost, less accumulated depreciation of approximately HK$53,529,000 (31st December 2010: HK$54,562,000).

The Group's interest in leasehold land represents finance lease payments held in Hong Kong between 10 to 50 years.

As at 30th June 2011, the Group has pledged leasehold land and buildings having a carrying amount of approximately HK$127,529,000 (31st December 2010: HK$129,300,000) for banking facilities granted to the Group.

15. Investment properties

The investment properties of the Group were last revalued by DTZ Debenham Tie Leung Limited, an independent professional valuer at 31st December 2010, on the basis of market value.

As at 30th June 2011, the Directors of the Company considered that the carrying amount of the Group's investment properties which are carried at revalued amounts do not differ significantly from that which would be determined using fair value at the balance sheet date.

As at 30th June 2011, the Group has pledged investment properties having a carrying amount of approximately HK$24,700,000 (31st December 2010: HK$24,700,000) for banking facilities granted to the Group.

16. Trade receivables

22. Business combination

On 28th March 2011, the Group acquired 100% of the share capital of i-Sprint for S$7,900,000 (equivalent to approximately HK$47,400,000). i-Sprint group is principally engaged in the business of developing, distributing, implementing and supporting technology risk management products.

As a result of the acquisition, a goodwill of S$5,338,000 (equivalent to approximately HK$32,920,000) was recognised. The goodwill arises from a number of factors. The most significant amongst these is the premium attributable to a pre-existing, well-positioned business that is in operation in a competitive market. Other significant factors include synergies through accessing a highly skilled workforce and obtaining economies of scale.

The Group's competitive position in the information technology market is expected to be strengthened as the acquisition provides the opportunity for the Group to serve more clients with regional presence, especially those in the financial services sector. Besides which, the addition of i-Sprint's products provides an opportunity for the Group to expand its credential in management solutions and to enrich the Group's existing security solutions offerings.

The following table summarise the consideration paid for i-Sprint and the amounts of the assets acquired and liabilities assumed recognised as at the acquisition date.

22. Business combination (Cont'd)

(a) Contingent consideration

Depending on the upcoming financial performance of i-Sprint, the cash consideration for this acquisition may range from S$6,000,000 (equivalent to approximately HK$36,000,000) to S$7,900,000 (equivalent to approximately HK$47,400,000). S$4,900,000 (equivalent to approximately HK$30,222,000) was paid on the date of acquisition. The potential undiscounted amount of all future payments that the Group could be required to make under this arrangement is between S$1,100,000 (equivalent to approximately HK$6,785,000) and S$3,000,000 (equivalent to approximately HK$18,503,000). The fair value of the amount payable of S$2,244,000 (equivalent to approximately HK$13,838,000) was recognised as contingent consideration payable on the date of acquisition. The amount was estimated based on an assumed probability weighting in fulfilling the performance requirements, using a discount rate of 15%. During the period from the date of acquisition to 30th June 2011, fair value loss of S$76,000 (equivalent to approximately HK$477,000) was recognised in the profit or loss for the contingent consideration.

(b) Acquired receivables

The fair value of trade receivables is S$1,018,000 (equivalent to approximately HK$6,277,000). The gross contractual amount for trade receivables due is S$1,018,000 (equivalent to approximately HK$6,277,000), all of which is expected to be collectible.

(c) Provisional fair value of identifiable assets acquired and liabilities assumed

The fair value of the identifiable assets acquired and liabilities assumed is provisional pending receipt of the final valuations for those assets.

(d) Revenue and profit contribution

The acquired business contributed revenues of S$911,000 (equivalent to approximately HK$5,720,000) and net profit of S$275,000 (equivalent to approximately HK$1,701,000) to the Group for the period from 28th March 2011 to 30th June 2011. If the acquisition had occurred on 1st January 2011, consolidated revenue and consolidated profit for the six months ended 30th June 2011 would have been HK$766,711,000 and HK$18,408,000, respectively.

23. Contingent liabilities

At 30th June 2011, bank deposits held as security for banking facilities and performance bonds amounted to approximately HK$2,870,000 (31st December 2010: HK$1,924,000). At 30th June 2011, the amount of available bank facilities was HK$112,870,000 (31st December 2010: HK$112,230,000) and the performance bonds of HK$33,403,000 (31st December 2010: HK$31,330,000) has been issued by the Group to customers as security of contracts.

24. Pledge of assets

At 30th June 2011, the Group's leasehold land and buildings of approximately HK$127,529,000 (31st December 2010: HK$129,300,000) and investment properties of approximately HK$24,700,000 (31st December 2010: HK$24,700,000) were pledged to secure the banking facilities of the Group.

At 30th June 2011, the Group's restricted bank balances of approximately HK$2,870,000 (31st December 2010: HK$1,924,000) were pledged to secure the banking facilities of the Group.

25. Capital commitments

At 30th June 2011, the Group has contracted capital commitments of HK$1,065,000 (31st December 2010: HK$411,000).

28. Change of financial year end date

By a board resolution passed on 15th July 2010, the Company changed its financial year end date from 31st March to 31st December. As a result of the change, the comparative amounts for the condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated cash flow statement and related notes are for the six months ended 30th June 2010.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Results

For the six months ended 30th June 2011, the Group's revenue was HK$761.1 million, higher by 4.3% compared to the six months ended 30th June 2010. For the three months ended 30th June 2011, the Group's revenue was HK$338.6 million, higher by 2.2% compared to the corresponding period last year.

For the six months ended 30th June 2011, product sales and service revenue were HK$460.4 million and HK$300.7 million, decreased by 1.3% and increased by 14.3% year on year respectively. Product sales and service revenue contributed 60.5% and 39.5% to total revenue respectively compared to 63.9% and 36.1% from the corresponding period last year. For the three months ended 30th June 2011, product sales and service revenue were HK$177.0 million and HK$161.6 million, decreased by 9.7% and increased by 19.4% respectively compared to the corresponding period last year.

Commercial and public sector sales for the six months ended 30th June 2011 contributed 39.8% and 60.2% to revenue respectively compared to 46.9% and 53.1% for the corresponding period in 2010. Commercial and public sector sales for the three months ended 30th June 2011 contributed 46.6% and 53.4% to revenue respectively compared to 52.1% and 47.9% for the corresponding period in 2010.

Profit before income tax was HK$24.3 million for the first six months, lowered by 38.6% compared to the corresponding period last year. For the three months ended 30th June 2011, profit before income tax was HK$7.6 million, lowered by 29.2% compared to the corresponding period last year. The decrease in profit before income tax was mainly attributable to incremental costs arising from the increase in staff costs, investment in staff training as well as various projects and the expense of acquiring the entire interest of i-Sprint Innovations Pte. Ltd. ("i-Sprint"), during the period under review. The Group will continue its effort to explore possible solutions for a better balance between our income and expenditure. With a view towards growth in its service business, the Group plans to implement efficient project management and lower its software business overhead through outsourcing and strengthening of its human resources management, investing in the establishment of a software management system and standardizing of its services through the creation of a software library.

As of 30th June 2011, the order book balance was approximately HK$622.9 million, an increase of HK$72.9 million compared with the corresponding period last year. The Group's cash stood at approximately HK$194.7 million with a working capital ratio 1.66:1. The Group maintained a healthy balance sheet and no debt was recorded during the period under review.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

Business Review

In accordance with our strategic plan, our revenue has steadily increased in the first half of the year.

Strengthened foothold in Asia Pacific market

On 28th March 2011, the Group acquired the entire interest of i-Sprint, a Singapore-based company which strives to provide world-class credential and access management solutions. In April 2011, i-Sprint signed a Master Software License agreement with the largest independent listed Pan-Asian life insurance group in the world. Pursuant to this agreement, all of the offices designated by the customer can avail of i-Sprint's application security solutions at pre-negotiated terms. As a result, our position in the Information Technology ("IT") security market has strengthened.

The above acquisition continuously laid out a solid foundation for the expansion of the Group's customer base. During the review period, the Group received a total of 6 orders from our target customers in the banking and financial industry, all of whom have high demands towards IT security, with the majority of the orders coming from Chinese owned financial institutions. Through effective market penetration, the Group successfully introduced a full suite of i-Sprint products into Hong Kong marketplace. Hence, this proved that we are capable of providing secure and reliable solutions, as well as increasing customer faith.

Provision of IT solutions that are in upward demand

The Group has been constantly striking for better results in its solutions business. In view of the upward market demand for cloud computing, mobility, business intelligence and security solutions, the Group actively participates in the development of the above IT solutions.

In particular, in view of the increasing demand for cloud computing in both public and commercial sectors, the Group took the initiative to invest in cloud services. With such expertise, the Group successfully secured a breakthrough project to provide a scalable and reliable cloud solution for a government department. The Group was mainly responsible for the provision of system analysis, designs and configurations, enabling the government department to provide other government bureaus and departments in need of Geographical Information System (GIS) services with the requisite services and applications on this cloud platform. This cloud solution initiative also incorporated our ultimate holding company Beijing Teamsun Technology Co., Ltd. ("Teamsun")'s market-proven GIS products in order to enhance the performance and price efficiency thereof.

With its end-to-end cloud competencies – from infrastructure provisioning to applications development; from systems integration to managing customers' IT assets on different IT areas such as servers, security, database and storage, etc., the Group is devoted to replicating its success to other sectors. Our business focus here is also in accordance with Teamsun's strategy of assisting customers in applying cloud technology.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

Business Review (Cont'd)

Expanded managed services into other regions

Our ongoing strategy of managed services, which focused particularly on long-standing and key customers, paid off. Significant deals included the continuous supply of complex and large-scale managed services to an international airline. Such services included the provision of desk side and server operations in Hong Kong and the management of thousands of desktops for all of its offices in both Hong Kong and the mainland China.

In tandem with its success in Hong Kong, the Group has also introduced its business to customers in other regions. We have been providing services to a renowned bank in Thailand since 2008, with the amount of recent infrastructure managed services we provided reaching a high of several million dollars. Moreover, we won a long-term managed services contract to provide the subsidiary of a renowned public transport operator in Hong Kong for the management of all IT applications and infrastructure managed services and the provision of helpdesk services of its Shenzhen data center, the establishment of which is expected to be completed by the end of this year.

The Group has long been dedicated to providing high quality services, thereby earning the continuous trust and achieving satisfactory results for customers.

Solid performance in IT infrastructure

Benefiting from the needs for operational efficiency enhancement and business expansion of our customers in the region, the Group's IT infrastructure business continued to maintain good performance. Significant projects won during the review period included the supply of several thousand units of hardware for a disciplinary government department to all of its offices in Hong Kong; the provision of hardware and software applications to all of an international airline company's offices in Hong Kong and mainland China; as well as the supply, delivery, installation, commissioning and maintenance of enterprise servers and storage system and the provision of other related services for a statutory entity in Hong Kong.

Continuous expansion of cross-territories business

Our cross-territories business is growing steadily with our continuing efforts to collaborate with Teamsun. During the review period, the renewal or new projects we received were in greater complexity, of wider scope and covered more cities in mainland China. Among others, we entered into a 3-year maintenance services contract this quarter with a leading international bank upon securing a 1-year maintenance services contract covering its offices in major cities in China last year.

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

Outlook and Prospects

As a leading IT services provider in the region, the Group will continue to strive to provide high quality services and solutions. In fact, the Procurement and Logistics Department of Automated Systems (HK) Ltd, a subsidiary of the Group, has been certified with an ISO9001 accreditation since May 2011. We have further extended the scope of services coverage under the ISO9001 certification (as recognised by HKQAA) in June 2011, making us one of the IT companies with the widest scope of coverage in the region. In addition, we obtained a number of Unix-based system infrastructure certifications, which evidences that our leading position amongst a host of IT services providers remains unchanged.

Looking forward, the Group wishes to expand across Asia Pacific region and to explore more business opportunities through the constant provision of the above long-standing and market-proven solutions and services. In July 2011, we successfully secured a contract from a government department to provide systems integration and managed services for the e-government platform running in its data centers. We will continue to look for opportunities in managed services in the region for further business expansion.

Moreover, the Group expects to achieve results in the IT security market in Greater China in the near future upon the continuous efforts spent on the market in the first half of the year. We will also endeavour to capture other opportunities going forward to fulfill the needs of regional customers on various IT areas.

As regards our cross-territories business, the Group will further explore the potential of Teamsun's market-proven products in order to enhance our existing services offerings and to meet customers' needs flexibly. With the above initiatives forming a clear blueprint for our future development, the outlook for the Group remains positive.

Financial Resources and Liquidity

As at 30th June 2011, the Group's total assets of HK$872.3 million were financed by current liabilities of HK$375.1 million, non-current liabilities of HK$33.3 million and shareholders' equity of HK$463.9 million. The Group had a working capital ratio of approximately 1.66:1.

As at 30th June 2011, the Group had an aggregate composite banking facility from banks of approximately HK$112.9 million (31st December 2010: HK$112.2 million). The Group had pledged land and buildings and investment properties in an aggregate amount of HK$152.2 million (31st December 2010: HK$154.0 million) and restricted bank deposits of approximately HK$2.9 million (31st December 2010: HK$1.9 million) for banking facilities and performance bonds granted to the Group respectively. The performance bonds issued by the Group to customers as security of contracts were approximately HK$33.4 million as at 30th June 2011 (31st December 2010: HK$31.3 million). The Group's gearing ratio was zero as at 30th June 2011 (31st December 2010: zero).

MANAGEMENT DISCUSSION AND ANALYSIS (Cont'd)

Treasury Policies

The Group generally financed its operations with internally generated resources and credit facilities provided by banks. Bank facilities available for the Group include trust receipt loans, overdrafts and term loans. The interest rates of most of them are fixed by reference to the respective countries' Interbank Offer Rate. The bank deposits are mainly denominated in Hong Kong dollars and United States dollars ("US dollars").

Foreign Exchange Exposure

The Group mainly earns revenue and incurs costs in US dollars and Hong Kong dollars.
