1 BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements (the "Interim Financial Statements") have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities ("Listing Rules") on The Stock Exchange of Hong Kong Limited ("Stock Exchange") and with the Hong Kong Accounting Standard ("HKAS") 34 "Interim financial reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

The Interim Financial Statements should be read in conjunction with the annual financial statements for the year ended 31 December 2010, which has been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs").

2 ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the annual financial statements of the Group for the year ended 31 December 2010.

New and revised standards, amendments and interpretations effective in the current period

In the current interim period, the Group has applied, for the first time, the new and revised standards, amendments and interpretations ("new and revised HKFRSs") issued by the HKICPA, which are effective for the Group's financial year beginning on 1 January 2011. The adoption of these new and revised HKFRSs had no material effect on the condensed consolidated financial statements of the Group for the current or prior accounting periods.

New and revised HKFRSs issued but not yet effective

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective.

HKAS 12 (Amendments)

Deferred Tax: Recovery of Underlying Assets²

HKFRS 7 (Amendments)

Disclosures – Transfers of Financial Assets¹

HKFRS 9

Financial Instruments²

- 1 Effective for annual periods beginning on or after July 1, 2011
- Effective for annual periods beginning on or after January 1, 2012
- Effective for annual periods beginning on or after January 1, 2013

The directors of the Company anticipate that the application of the new and revised HKFRSs issued but not yet effective will have no material impact on the results and the financial position of the Group.

For the six months ended 30 June 2011

3 SEGMENT INFORMATION

The Group operates one business segment, which is the provision of "automatic teller machines" services. No separate segment information is prepared according to HKFRS 8 "operating segments".

All operating assets and operations of the Group during the periods ended 30 June 2011 and 2010 were substantially located and carried out in the PRC.

Management has determined the operating segments based on the reports reviewed by the Group's Chief Executive Officer ("CEO") (being the chief operating decision maker) to make strategic decisions about resources allocation and performance assessment.

The Group's CEO assesses the performance of the operating segment based on a measure of earnings before interest, tax, depreciation and amortisation. This measurement basis of segment results excludes the effects of non-recurring expenditures from the operating segment such as gain on disposal of property, plant and equipment and loss on write-off of property, plant and equipment.

Bank and cash balances held by the Group are not considered to be segment assets but rather are centrally managed by the Chief Finance Officer ("CFO") in Hong Kong.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

During the period under review, FinTronics adhered to a prudent strategy and has strived to consolidate its competitive position in China's ATM market. As China's domestic economy continues to improve, with people enjoying greater consumption power, and the bank card business continues to prosper, the Group is engaged in securing new customers through closer cooperation and negotiation with banks, China UnionPay and China Yinshang (中國銀商), and also participated in the project linking up the platforms between China UnionPay and China Yinshang. The Group is tapping the fresh opportunities by providing better ATM business solutions.

Currently, the ATM network operated by FinTronics covers several major cities including Shenzhen, Jinan, Qingdao, Yantai, Shenyang and Changsha. Capitalising on our carefully selected locations, prudent cost control measures and long-term cooperation with customers, we recorded an increase in turnover during the period under review.

To create new income sources and lower the inherent risk in its current unified payment model, the Group and its partners are studying the possibility of generating other income from interbank transaction fees, including a series of value-added services such as on behalf payment services, advertising and online shopping, so as to create a win-win situation for all parties.

Moreover, the Group has continued to implement strict financial and credit controls to ensure the stability of our financial position and minimise financial risk. Meanwhile, we have also enhanced our competitive edge in operation, implemented business consolidation measures and actively controlled operating costs. These measures have enabled us to remain competitive and maintain market share in the industry.

PROSPECTS

According to the statistics of The People's Bank of China, number of ATM reached by 271,900 terminals in 2010, an increase of 26.10% when compared to last year. We forecast that the growth trend in the first half of 2011 will continue in the second half. However, since the growth was mostly attributable to the coverage managed directly by the banks, we expect the growth trend in the industries within which we cooperate with operators in the ATM business to become more conservative. The rising ATM operating costs caused by the persistently high inflation rate in Mainland China should intensify the competition in the industry, which will directly affect the industries where players cooperate with ATM business operators, posing difficulties for their development.

MANAGEMENT DISCUSSION AND ANALYSIS

During the period under review, the "Bank Card IC Chips Transfer" implemented across the country has caused uncertainties in resources deployment and effectiveness. Major operators have become cautious, slowing down their business development. With respect to this, the management is assessing industry development in a conservative and prudent way and deferring its expansion plan. We will also closely monitor the progress of the "Bank Card IC Chips Transfer" and devise strategic planning accordingly.

In addition, standalone ATMS have been gaining popularity in Mainland China and presents room for development. As an independent ATM operating organisation, FinTronics has unique advantages in this area. We are identifying opportunities for business development and facilitate expansion of its business.

Looking forward to the second half of the year, the Group will continue to adjust its business strategies to actively control operating costs and address the ever-changing market trends as well as develop the ATM business in a prudent and pragmatic way. In the long term, the Group will continue to expand its existing business, leveraging its healthy financial position and abundant capital on hand. It will also pay close attention to the opportunities that will aid its business growth, thus generating long term return for shareholders.

LIQUIDITY AND FINANCIAL RESOURCES

As at 30 June 2011, the Group had cash and bank balances of HK\$175.6 million (31 December 2010: HK\$156.1 million), of which HK\$5 million (31 December 2010: HK\$5 million) were pledged to banks for facilities granted to the Group.

The Group had no bank and other borrowings but finance lease liabilities of HK\$4.4 million as at 30 June 2011 (31 December 2010: Nil). As at 30 June 2011, the total asset value of the Group was HK\$246.3 million (31 December 2010: HK\$258.1 million) whereas the total liabilities was HK\$14.7 million (31 December 2010: HK\$12.1 million). The gearing ratio of the Group, calculated as total liabilities over total assets, was 6.0% (31 December 2010: 4.7%).

As at 30 June 2011, the Group had available aggregate banking facilities of HK\$5 million (31 December 2010: HK\$5 million) of which HK\$5 million (31 December 2010: HK\$5 million) has not been utilised.

The Group maintained a net cash (being the total cash and bank balances net of total bank borrowings) to equity ratio of 75.8% (31 December 2010: 63.5%) as at 30 June 2011. With net cash of HK\$175.6 million (31 December 2010: HK\$156.1 million) as at 30 June 2011, the Group's liquidity position is healthy and the directors of the Company ("Directors") believe that the Group has sufficient financial resources to satisfy its commitments and working capital requirements.

The Board members have considerable experience and qualities which they bring to the Company and there is a balanced composition of Executive Directors and Non-executive Directors (including Independent Non-executive Directors). Given the composition of the Board, the Board believes that it is able to ensure that the balance of power between the Board and the management is not impaired. The Board believes that having the same person performing the roles of both Chairman and CEO does provide the Group with strong and consistent leadership and that, operating in this manner allows for more effective and efficient overall strategic planning of the Group. Such arrangement will be subject to review by the Board from time to time.
- 2. The independent non-executive directors are not appointed for specific terms but are subject to retirement by rotation in accordance with the Company's Bye Laws.
