How much will you receive upon occurrence of the Mandatory Call Event?

The Mandatory Call Event occurs when the Spot Level of the Index is, at any time on any day on which the Index is scheduled to be published during the Observation Period:

- (a) in respect of a series of callable bull contracts, at or below the Call Level; and
- (b) in respect of a series of callable bear contracts, at or above the Call Level.

“**Spot Level**” means the spot level of the Index as compiled and published by Hang Seng Indexes Company Limited.

“**Observation Period**” means the period commencing from and including the Observation Commencement Date up to and including the close of trading on the Stock Exchange on the Trading Day (as defined in the conditions of the CBBCs) immediately preceding the Expiry Date.

Subject to the limited circumstances set out in the conditions of the CBBCs in which the Mandatory Call Event may be reversed, upon the occurrence of the Mandatory Call Event, we must terminate the CBBCs and you may receive a Residual Value per Board Lot in Hong Kong dollars calculated as follows (if positive):

In respect of a series of callable bull contracts:

$$\text{Residual Value per Board Lot} = \frac{(\text{Minimum Index Level} - \text{Strike Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Entitlement Ratio}}$$

If the Residual Value is at or below zero, you will lose all your investment in the CBBCs.

Where “**Minimum Index Level**” means the lowest Spot Level of the Index during the MCE Valuation Period (being the period commencing from the time of the occurrence of the Mandatory Call Event and up to the end of the following trading session on the Stock Exchange subject to any potential extension).

In respect of a series of callable bear contracts:

$$\text{Residual Value per Board Lot} = \frac{(\text{Strike Level} - \text{Maximum Index Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Entitlement Ratio}}$$

If the Residual Value is at or below zero, you will lose all your investment in the CBBCs.

Where “**Maximum Index Level**” means the highest Spot Level of the Index during the MCE Valuation Period (being the period commencing from the time of the occurrence of the Mandatory Call Event and up to the end of the following trading session on the Stock Exchange subject to any potential extension).

How much will you receive at expiry?

If no Mandatory Call Event has occurred during the Observation Period, the CBBCs will be automatically exercised on the relevant Expiry Date if the Cash Settlement Amount is greater than zero. You will receive a Cash Settlement Amount per Board Lot in Hong Kong dollars calculated as follows (if positive):

In respect of a series of callable bull contracts:

$$\text{Cash Settlement Amount per Board Lot} = \frac{(\text{Closing Level} - \text{Strike Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Entitlement Ratio}}$$

In respect of a series of callable bear contracts:

$$\text{Cash Settlement Amount per Board Lot} = \frac{(\text{Strike Level} - \text{Closing Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Entitlement Ratio}}$$

For Series 1, the “**Closing Level**” means the Final Settlement Price for settling the Hang Seng Index May 2012 Futures Contracts determined pursuant to Regulation 012 of the Regulations for trading Stock Index Futures and the Contract Specifications for Hang Seng Index Futures Contracts (as amended from time to time) of the Hong Kong Futures Exchange.

For Series 2 and Series 3, the “**Closing Level**” means the Final Settlement Price for settling the Hang Seng Index July 2012 Futures Contracts determined pursuant to Regulation 012 of the Regulations for trading Stock Index Futures and the Contract Specifications for Hang Seng Index Futures Contracts (as amended from time to time) of the Hong Kong Futures Exchange.
