Where,

- (i) “n” is the number of days remaining to expiration; initially, “n” is the number of days from (and including) the Launch Date to (and including) the trading day immediately preceding the Expiry Date; and
- (ii) the funding rate will fluctuate throughout the term of the CBBCs as further described in the relevant supplemental listing document in respect of the CBBCs. As of the Launch Date, the funding rates were 0.3437% for Series 1 and 22.8642% for Series 2.

### How much will you receive upon occurrence of a Mandatory Call Event?

A Mandatory Call Event occurs when the Spot Level of the Index on any day on which the Index Exchange (being the Stock Exchange) is scheduled to be open for trading during the Observation Period is at or below the Call Level.

“**Spot Level**” means the spot level of the Index as compiled and published by Hang Seng Indexes Company Limited.

“**Observation Period**” means the period commencing from and including the Observation Commencement Date and ending on and including the close of the Trading Day (Hong Kong time) immediately preceding the Expiry Date.

Subject to limited circumstances set out in the terms and conditions of the CBBCs in which a Mandatory Call Event may be reversed, upon the occurrence of a Mandatory Call Event, we must terminate the CBBCs and you may receive a Residual Value per Board Lot in Hong Kong dollars calculated as follows (if positive):

$$\text{Residual Value per Board Lot} = \frac{(\text{Minimum Index Level} - \text{Strike Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Divisor}}$$

If the Residual Value is at or below zero, you will lose all your investment in the CBBCs.

Where “**Minimum Index Level**” means the lowest Spot Level of the Index during the MCE Valuation Period (being the period immediately following the Mandatory Call Event and up to the end of the following trading session on the Index Exchange subject to any potential extension).

### How much will you receive at expiry?

If no Mandatory Call Event occurs during the Observation Period, the CBBCs will be automatically exercised on the relevant Expiry Date if the Cash Settlement Amount is greater than zero. You will receive a Cash Settlement Amount per Board Lot in Hong Kong dollars calculated as follows (if positive):

$$\text{Cash Settlement Amount per Board Lot} = \frac{(\text{Closing Level} - \text{Strike Level}) \times \text{one Board Lot} \times \text{Index Currency Amount}}{\text{Divisor}}$$

“**Closing Level**” means the final settlement price for settling (i) (for Series 1) the Hang Seng Index January 2013 Futures Contracts and (ii) (for Series 2) the Hang Seng Index February 2013 Futures Contracts (the “**Index Futures Contracts**”), determined pursuant to Regulation 012 of the Regulations for Trading Stock Index Futures and the Contract Specifications for Hang Seng Index Futures Contracts (as amended from time to time) of the Hong Kong Futures Exchange Limited.
