IMPORTANT INFORMATION

The CBBCs are structured products which involve derivatives. Do not invest in them unless you fully understand and are willing to assume the risks associated with them.

What is this document about?

This document is for information purposes only and does not constitute an offer, an advertisement or invitation to the public to subscribe for or to acquire the CBBCs. It is possible that there may have been dealings in the CBBCs since the Launch Date.

What documents should I read before investing in the CBBCs?

You must read this document together with our base listing document dated 10 April 2012 (as supplemented by any addenda to be issued from time to time) (together, the “**Listing Documents**”). The Listing Documents are accurate as at the date of this document. You should carefully study the risk factors set out in the Listing Documents.

What are our credit ratings?

Our long term debt ratings are:

Rating agency	Rating as of the Launch Date
Moody's Investors Service, Inc., New York	Aa3
Standard and Poor's Ratings Services, a division of the McGraw-Hill Companies Inc	A
Fitch Ratings Ltd., London	A

Rating agencies usually receive a fee from the issuers that they rate.

When evaluating our creditworthiness, you should not solely rely on our credit ratings because:

- a credit rating is not a recommendation to buy, sell or hold the CBBCs;
- ratings of issuers may involve difficult-to-quantify factors such as market competition, the success or failure of new products and markets and managerial competence; and
- a high credit rating is not necessarily indicative of low risk. Our credit ratings as of the Launch Date are for reference only. Any downgrading of our ratings could result in a reduction in the value of the CBBCs.

The CBBCs are not rated.

Are we regulated by any bodies referred to in Rule 15A.13(2) or (3)?

We are a licensed bank regulated by the Hong Kong Monetary Authority. We are also regulated by, among others, the Swiss Financial Market Supervisory Authority and the Financial Services Authority of United Kingdom.

Are we subject to any litigation?

Save as disclosed in the Listing Documents, we and our subsidiaries are not aware of any litigation or claims of material importance pending or threatened against us or them.

Authorisation of the CBBCs

The issue of the CBBCs was authorised by our board of directors on 19 September 2001.

Has our financial position changed since last financial year-end?

There has been no material adverse change in our financial or trading position since 31 December 2011.

Do I need to pay any transaction cost?

The Stock Exchange charges a trading fee of 0.005 per cent. and the Securities and Futures Commission charges a transaction levy of 0.003 per cent in respect of each transaction effected on the Stock Exchange payable by each of the seller and the buyer and calculated on the value of the consideration for the CBBCs. The levy for the investor compensation fund is currently suspended. You do not need to pay any stamp duty in respect of the CBBCs.

Where can I inspect the relevant documents?

The following documents are available for inspection during usual business hours on any weekday (Saturdays, Sundays and holidays excepted) until the Expiry Date at the offices of UBS Securities Asia Limited:

Have the auditors consented to the inclusion of their report to the Listing Documents?

Our auditors (“**Auditors**”) have given and have not withdrawn their written consent to the inclusion of their report dated 13 March 2012 and/or the references to their name in our base listing document, in the form and context in which they are included. Their report was not prepared exclusively for incorporation into our base listing document. The Auditors do not have our shares or shares in our subsidiaries, nor do they have the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for our securities or securities of any of its subsidiaries.

Capitalised terms and inconsistency

OVERVIEW OF CBBCs

What are callable bull/bear contracts?

Callable bull/bear contracts are a type of structured products that track the performance of an underlying asset. Subject to any early termination triggered by the mandatory call feature described below, it gives you a right to a cash amount at expiry called the Cash Settlement Amount as determined on the Valuation Date by reference to a pre-set price called the Strike Price.

The value of a CBBC with entitlement ratio to the underlying Shares of 1 to 1 tends to move virtually on a ratio of 1 to 1 with the underlying Shares. The trading price of every Board Lot of the CBBCs tends to mirror the movement in the price of the Shares in dollar value.

Similar to derivative warrants, callable bull/bear contracts may provide leveraged return to you (but conversely, it could also magnify your losses).

How do the CBBCs work?

The CBBCs are issued as callable bull contracts.

Callable bull contracts are designed for investors who have an optimistic view on the Shares.

The CBBCs are “European Style” and, subject to no occurrence of a Mandatory Call Event (see “What is the mandatory call feature?” below), the CBBCs are only exercisable on the Expiry Date by payment of a Cash Settlement Amount (if any) less the Exercise Expenses on the Settlement Date.

The Cash Settlement Amount (if any) payable at expiry represents the difference between the Closing Price and the Strike Price. If on the Expiry Date, the Cash Settlement Amount is zero or a negative amount, you will lose all of your investments in the CBBCs.

The CBBCs will be issued as Category R. See “Category R or Category N?” below for details about your entitlement following the occurrence of a Mandatory Call Event.

What is the mandatory call feature?

Subject to the limited circumstances set out in the relevant Conditions in which a Mandatory Call Event may be reversed, we must terminate the CBBCs if a Mandatory Call Event occurs during the Observation Period.

The Observation Period commences from the Observation Commencement Date to the Trading Day immediately preceding the Expiry Date (both dates inclusive).

A Mandatory Call Event occurs if the Spot Price is at or below the Call Price on any Trading Day in the Observation Period.

Subject to the limited circumstances set out in the relevant Conditions in which a Mandatory Call Event may be reversed, all Post MCE Trades (as defined in the paragraph headed “Mandatory Call Event” under the section headed “Other Key Terms, Liquidity and Settlement” of this document) will be invalid and will be cancelled and will not be recognised by us or the Stock Exchange.

The time at which a Mandatory Call Event occurs will be determined by reference to the Stock Exchange’s automatic order matching and execution system time at which the Spot Price is at or below the Call Price.

Category R or Category N?

The CBBCs are Category R as the Call Price is different from the Strike Price. You may receive a cash payment called the Residual Value upon the occurrence of a Mandatory Call Event. The Residual Value payable (if any) is calculated by reference to the difference of the Minimum Trade Price and the Strike Price. If the Residual Value is zero or a negative number, you will lose all of your investment.

See “Residual Value” in the section headed “Other Key Terms, Liquidity and Settlement” for calculation of the Residual Value.

What are the factors determining the price of the CBBCs?

Throughout the term of the CBBCs, the price of the CBBCs will be influenced by a number of factors, including:

- the Strike Price and the Call Price;
- the likelihood of the occurrence of a Mandatory Call Event;
- the probable range of Residual Value (if any) upon the occurrence of a Mandatory Call Event;
- the time remaining to expiry;
- any change(s) in interim interest rates;
- expected dividend payments or other distribution on the Shares;
- the supply and demand for the CBBCs;
- the probable range of the Cash Settlement Amounts;
- the depth of the market or liquidity of the underlying Shares;
- any related transaction cost; and
- our creditworthiness.

What is your maximum loss?

Your maximum potential loss in the CBBCs is limited to the purchase price for the CBBCs plus the cost involved in such purchase.

Can you sell the CBBCs before maturity?

Yes. We have made an application for the listing of, and permission to deal in, the CBBCs on the Stock Exchange. All necessary arrangements have been made to enable the CBBCs to be admitted into the Central Clearing and Settlement System (“CCASS”). Issue of the CBBCs is conditional upon listing being granted. From the Dealing Commencement Date, you may sell or buy the CBBCs on the Stock Exchange.

The Liquidity Provider will make a market in the CBBCs by providing bid and/or sell prices. See the section headed “Liquidity” of this document for further information.

OTHER KEY TERMS, LIQUIDITY AND SETTLEMENT

You must read this summary together with our base listing document, in particular, the Conditions.

Summary of other key terms

Mandatory Call Event

A Mandatory Call Event occurs when the Spot Price on any Trading Day during the period commencing from and including the Observation Commencement Date and ending on and including the close of the Trading Day (Hong Kong time) immediately preceding the Expiry Date (“**Observation Period**”) is at or below the Call Price.

“**Spot Price**” means:

- (a) in respect of a continuous trading session of the Stock Exchange, the price per Share concluded by means of automatic order matching on the Stock Exchange as reported in the official real-time dissemination mechanism for the Stock Exchange during such continuous trading session in accordance with the Rules and Regulations of the Exchange (“**Trading Rules**”), excluding direct business (as defined in the Trading Rules); and
- (b) in respect of a pre-opening session or a closing auction session (if applicable) of the Stock Exchange, as the case may be, the final Indicative Equilibrium Price (as defined in the Trading Rules) of the Share (if any) calculated at the end of the pre-order matching period of such pre-opening session or closing auction session (if applicable), as the case may be, in accordance with the Trading Rules, excluding direct business (as defined in the Trading Rules),

subject to such modification and amendment prescribed by the Stock Exchange from time to time.

Subject to the limited circumstances set out in the Conditions in which a Mandatory Call Event may be reversed, upon the occurrence of a Mandatory Call Event, we must terminate the CBBCs, and you may receive a Cash Settlement Amount (if any). If the Cash Settlement Amount is less than or equal to zero, you will lose all your value of investment in the CBBCs.

Subject to such modification and amendment prescribed by the Stock Exchange from time to time, all trades in the CBBCs concluded via auto-matching or manually after the time of the occurrence of a Mandatory Call Event, and in the case where the Mandatory Call Event occurs during a pre-opening session or a closing auction session (if applicable), all auction trades in the CBBCs concluded in such session and all manual trades concluded after the end of the pre-order matching period in such session (“**Post MCE Trades**”), will be invalid and will be cancelled and will not be recognised by us or the Stock Exchange.

Cash Settlement Amount upon occurrence of a Mandatory Call Event

You may receive the Residual Value calculated as follows for each Board Lot:

$$\text{Residual Value per Board Lot} = \frac{\text{Entitlement} \times (\text{Minimum Trade Price} - \text{Strike Price}) \times \text{one Board Lot}}{\text{Number of CBBC(s) per Entitlement}}$$

Where:

“**Minimum Trade Price**” means the lowest Spot Price of the Shares during the MCE Valuation Period; and

“**MCE Valuation Period**” means, subject to potential extension (as described in further details in the Conditions), the period commencing from and including the moment upon which the Mandatory Call Event occurs and up to the end of the following trading session on the Stock Exchange.

Form of the CBBCs

The CBBCs will be represented by a global certificate in the name of HKSCC Nominees Limited. We will not issue definitive certificates for the CBBCs. You may arrange for your broker to hold the CBBCs in a securities account on your behalf, or if you have a CCASS Investor Participant securities account, you may arrange for the CBBCs to be held in such account. You will have to rely on the records of CCASS and/or the statements you receive from your brokers as evidence of your beneficial interest in the CBBCs.

Settlement Date

The third CCASS Settlement Day after the MCE Valuation Period or the Valuation Date, as the case may be.

RISK FACTORS

You must read these risk factors together with the “Risk Factors” set out in our base listing document.

You may lose all your investment in the CBBCs

The price of the CBBCs may fall in value as rapidly as it may rise and you should be prepared to sustain a significant or total loss of the purchase price of the CBBCs. In particular, if the Cash Settlement Amount payable at expiry or the Residual Value payable upon the occurrence of a Mandatory Call Event is less than or equal to zero, you will lose all of your investment in the CBBCs.

Mandatory Call Event is irrevocable

A Mandatory Call Event is irrevocable unless it is triggered as a result of any of the following events:

- (i) report of system malfunction or other technical errors of HKEx (such as the setting up of wrong Call Price and other parameters) by the Stock Exchange to us; or
- (ii) report of manifest errors caused by the relevant third party price source where applicable by us to the Stock Exchange,

and we agree with the Stock Exchange that such Mandatory Call Event is to be revoked provided that such mutual agreement must be reached no later than 30 minutes before the commencement of trading (including the pre-opening session) (Hong Kong time) on the Trading Day of the Stock Exchange immediately following the day on which the Mandatory Call Event occurs or such other time frame as prescribed by the Stock Exchange from time to time.

In such case, the Mandatory Call Event so triggered will be reversed and all trades cancelled (if any) will be reinstated and the trading of the CBBCs will resume.

Delay in Mandatory Call Event notification

We will notify the market as soon as practicable after the CBBCs have been called. You should be aware that there may be a delay in the announcement of a Mandatory Call Event due to technical errors, system failures and other factors that are beyond the control of the Stock Exchange and us.

Non-Recognition of Post MCE Trades

The Stock Exchange and its recognised exchange controller, HKEx, will not incur any liability (whether based on contract, tort, (including, without limitation, negligences), or any other legal or equitable grounds and without regard to the circumstances giving rise to any purported claim except in the case of wilful misconduct on the part of the Stock Exchange and/or HKEx) for, any direct, consequential, special, indirect, economic, punitive, exemplary or any other loss or damage suffered or incurred by us or any other party arising from or in connection with the Mandatory Call Event or the suspension of trading (“**Trading Suspension**”) or the non-recognition of trades after a Mandatory Call Event (“**Non-Recognition of Post MCE Trades**”), including without limitation, any delay, failure, mistake or error in the Trading Suspension or Non-Recognition of Post MCE Trades.

We and our affiliates shall not have any responsibility for any losses suffered as a result of the Trading Suspension and/or Non-Recognition of Post MCE Trades in connection with the occurrence of a Mandatory Call Event, notwithstanding that such Trading Suspension or Non-Recognition of Post MCE Trades may have occurred as a result of an error in the observation of the event.

Fluctuation in the Funding Cost

The Issue Price of the CBBCs is set by reference to the difference between the initial reference spot price of the Shares and the Strike Price, plus the applicable Funding Cost. The initial Funding Cost

applicable to the CBBCs is specified on the cover page. It will fluctuate throughout the life of the CBBCs as the funding rate changes from time to time. The funding rate is a rate determined by us based on one or more of the following factors, including but not limited to the Strike Price, the prevailing interest rate, the expected life of the CBBCs, any expected notional dividends of the Shares and the margin financing provided by us.

The CBBCs can be volatile

Although the price of the CBBCs tends to follow closely with the price of the Shares, in some situations, the price of the CBBCs may not track the price of the Shares. You should carefully consider, among other things, the factors set out in the section headed “Overview of CBBCs” in this document before dealing in the CBBCs.

You should note that when the Spot Price of the Shares is close to the Call Price, the trading price of the CBBCs will be more volatile which may not be comparable and may be disproportionate with the change in the price of the Shares.

Our hedging activities

Our trading and/or hedging activities or our related parties related to the CBBCs and/or other financial instruments issued by us from time to time may have an impact on the price of the Shares and may trigger a Mandatory Call Event.

In particular, when the price of the Shares is close to the Call Price, our unwinding activities in relation to the Shares may cause a fall or rise (as the case may be) in the price of the Shares leading to a Mandatory Call Event as a result of such unwinding activities.

Before the occurrence of a Mandatory Call Event, we or our related party can unwind our hedging transactions relating to the CBBCs in proportion to the amount of the CBBCs we repurchase from the market from time to time. Upon the occurrence of a Mandatory Call Event, we or our related party can unwind any hedging transactions relating to the CBBCs. Such unwinding activities after the occurrence of a Mandatory Call Event may affect the price of the Shares and consequently the Residual Value for the CBBCs.

Adjustment related risk

The occurrence of certain events (including, without limitation, a rights issue, bonus issue or cash distribution by the Company, a subdivision or consolidation of the Shares and a restructuring event of the Company) may entitle us to adjust the Conditions. However, we are not obliged to adjust the Conditions for every event that affects the Shares. Any adjustment or decision not to make any adjustment may adversely affect the value of the CBBCs. See Condition 6 for details about such adjustments.

Possible limited secondary market

The Liquidity Provider may be the only market participant for the CBBCs and therefore the secondary market for the CBBCs may be limited. The more limited the secondary market, the more difficult it may be for you to realise the value in the CBBCs prior to expiry.
