2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION – The condensed consolidated financial statements for the six months period ended June 30, 2012 have been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34"). In addition, the condensed consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the HKSE and by the disclosure requirements of the Hong Kong Companies Ordinance and SGX-ST Listing Manual.

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, leasehold land and building and investment property, which are measured at revalued amounts or fair values, as appropriate.

The same accounting policies and methods of computation have been applied in the preparation of the condensed consolidated financial statements for the six months period ended June 30, 2012 as the most recent audited financial statements as at and for the year ended December 31, 2011.

For the six months period ended June 30, 2012, the Group has applied, for the first time, the following new and revised International Financial Reporting Standards ("IFRS(s)") issued by the International Accounting Standards Board:

- amendment to IFRS 7	Financial Instruments: Disclosures – Transfers of Financial Assets; and
- amendment to IAS 12	Deferred Tax: Recovery of Underlying Assets.

10 INTERIM REPORT 2012

Six months period ended June 30, 2012

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Except as disclosed below, the adoption of these new or revised IFRSs in the current period has no material effect on the amounts reported in these condensed consolidated financial statements and/or disclosures set out in these condensed consolidated financial statements.

AMENDMENTS TO IAS 12 DEFERRED TAX: RECOVERY OF UNDERLYING ASSETS

Under the amendments to IAS 12 *Deferred Tax: Recovery of Underlying Assets*, investment properties that are measured using the fair value model in accordance with IAS 40 *Investment Property* are presumed to be recovered entirely through sale for the purposes of measuring deferred taxes, unless the presumption is rebutted in certain circumstances.

The Group measures its investment properties using the fair value model. As a result of the application of the amendments to IAS 12, the directors reviewed the Group's investment property portfolios and concluded that the Group's investment property is not held under a business model whose objective is to consume substantially all of the economic benefits embodies in the investment property over time, and that the presumption set out in the amendments to IAS 12 is not rebutted.

As a result of the application of the amendments to IAS 12, the Group does not recognise any deferred taxes on changes in fair value of the investment property as the Group is not subject to any income taxes on disposal of its investment property. Previously, the Group recognised deferred taxes on change in fair value of investment property on the basis that the carrying amount of the property was mainly recovered through use.

The amendments to IAS 12 have been applied retrospectively, resulting in the Group's deferred tax liabilities being decreased by US\$90,000 as at December 31, 2011, with the corresponding adjustment being recognised in retained earnings.

In addition, the application of the amendments has resulted in the Group's income tax expense for the six months ended June 30, 2012 being reduced by US\$17,000 and hence resulted in the loss for the six months ended June 30, 2012 being decreased by US\$17,000 and there was no material impact to the loss per share attributable to the owners of the Company for the six months period ended June 30, 2012.

SUMMARY OF THE EFFECT OF THE ABOVE CHANGE IN ACCOUNTING POLICY

The effect of the change in accounting policy described above on the financial position of the Group on January 1, 2012 is as follows:

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated financial statements, the significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the year ended December 31, 2011.

4 SEASONALITY

For the six months period ended June 30, 2012, revenue declined by 1.5%, while the Group's cost of sales decreased by 34.1% due to the reduction of high fixed overhead costs (i.e. depreciation) and fuel expense as a result of the disposal of certain old vessels by the Group during the period. As such, the Group recorded a gross loss of approximately US\$1.4 million.

For the six months period ended June 30, 2011, despite a 65% decline in revenue, the Group's cost of sales only declined by 14% due to high fixed overhead costs such as depreciation. As such, the Group recorded a gross loss of approximately US\$7 million.

Notes:

The amount of deferred consideration for disposal of investment in an associate of US\$3,767,000 was due from Jason Chang, an independent third party. Background of this deferred consideration was detailed in Note 9 to the consolidated financial statements as at and for the year ended December 31, 2011.

On May 18, 2012, 上海悦勇投資管理有限公司 ("上海悦勇") was established in the People's Republic of China (the "PRC") which was owned as to 41.7% by the Group and 58.3% by 上海悦嘉金屬工業有限公司 ("上海悦嘉") (formerly known as 悦軒(上海)金屬工業有限公司), a foreign enterprise established in the PRC which was wholly owned by Pure Casual Inc., a company controlled by Jason Chang. The Group's investment in 上海悦 勇 was accounted for as an associate of the Group at June 30, 2012.

On the same day, a supplemental settlement agreement and property transfer agreement were entered into between the Group and the relevant parties, under which the receivables due from Jason Chang were agreed to be settled by way of transferring a property interest in an industrial building, which is held by 上海悦嘉 and situated in Shanghai, to 上海悦勇. After completion of the property transfer, the Group would, through its associate, hold effectively 41.7% interest in the industrial building.

As agreed among all parties, the completion date of the property transfer should not be later than December 31, 2012.

In addition, on May 18, 2012, Mr. Wu Chao-Huan and Mr. Hsu Chih-Chien, two of the directors and controlling shareholders of the Company, signed a second deed of indemnity pursuant to which they will jointly and severally indemnify the Group against all the losses, costs and expenses the Group may suffer from the default of Jason Chang, provided that the total liability thereunder shall not exceed US\$3,803,381.00.

(ii) The amount represented mainly the deposits paid for the purchase of coal. During the year ended December 31, 2011, the Group entered into an agreement with an independent third party for sourcing of coals and delivery of coals to a customer. For the six months period ended June 30, 2012, deposits totalling US\$2,646,000 (December 31, 2011: US\$997,000) were paid to the third party, representing 90% (December 31, 2011: 30%) of total consideration for the purchase of coal. The delivery quantity may be varied within a determined range and the unit price is determined.

Six months period ended June 30, 2012

8 MOVEMENTS IN PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTY

During the period, the Group disposed of certain vessels with an aggregate carrying amount of US\$24,191,000, resulting in a loss on disposal of US\$3,409,000 recognised in other gains and losses in profit or loss.

The recoverable amount of the vessels has been determined on the basis of their fair value less cost to sell.

The Group's leasehold land and building was revalued by the directors of the Company as at June 30, 2012. The resulting revaluation gain of US\$190,000 (six months period ended June 30, 2011: US\$827,000) has been credited to the revaluation reserve during the six months period ended June 30, 2012.

The Group's investment property was fair valued by the directors of the Company as at June 30, 2012. The resulting increase in fair value of investment property of US\$106,000 (six months period ended June 30, 2011: US\$520,000) has been recognised in profit or loss (recorded in other gains and losses) for the six months ended June 30, 2012.

As at June 30, 2012, the cost and valuation amount of the property, plant and equipment in aggregate amounted to US\$69,995,000 (December 31, 2011: US\$90,653,000) and the accumulated depreciation and accumulated impairment loss in aggregate amounted to US\$2,444,000 (December 31, 2011: US\$20,469,000) and US\$8,977,000 (December 31, 2011: US\$9,492,000), respectively.

The bank overdrafts carried interest at the higher of LIBOR or deposit rate plus certain basis points for the pledged deposits.

Six months period ended June 30, 2012

9 BANK BORROWINGS (Continued)

The bank loans are secured by the followings:-

- (i) Corporate guarantee from the Company on the outstanding loan balance;
- (ii) First preferred mortgage over the vessels held by Zorina Navigation Corp. and Heroic Marine Corp., named "ZORINA" and "HEROIC", respectively; and
- (iii) Assignment of insurance in respect of ZORINA and HEROIC.

The proceeds arising from the bank loans and bank overdrafts were used to finance the acquisition of vessels included in property, plant and equipment and for daily operating use, respectively.

(I) **BUSINESS REVIEW**

REVENUE

The Group turnover decreased by 1% from approximately US\$10.1 million in the six months ended June 30, 2011 to approximately US\$10 million in the six months ended June 30, 2012. The dry bulk market was still poor. The demand for commodities, especially in the Greater China region, slowed down in the first half of 2012. In addition, the financial crisis in the Euro zone has still not been resolved yet. These factors led to the low demand for commodities trading and affected the freight rate adversely.

PROFITABILITY

Despite decrease in turnover by 1%, the Group's cost of sales decreased by 34% from approximately US\$17.2 million in the first half of 2011 to approximately US\$11.3 million in the first half of 2012. It was mainly due to lower fixed costs, including insurance, crew fees and depreciation arising from the disposal of aged vessels during the second half of 2011 and the first half of 2012. The Group recorded a decrease of 81% on gross loss from approximately US\$7.1 million in the first half of 2011 to US\$1.4 million in the first half of 2012.

OTHER INCOME

Other income consists of interest income from banks and certificate of deposit, sundry income and other one-off income. The Group recorded other income of US\$146,000 in the first half of 2012, a decrease of 66% compared to the first half of 2011. This was largely due to a one-off insurance claim received in the first half of 2011.

OTHER GAINS AND LOSSES

Other gains and losses consist of changes in fair value of investment property, changes in fair value of held-for-trading investments, gains and losses on the disposal of fixed assets and exchange gains and losses. The Group recorded other losses of approximately US\$3.3 million in the first half of 2012 due to the disposal losses of aged vessels, namely MV Raffles, MV Valour, MV Cape Warrior and MV Courage.

ADMINISTRATIVE EXPENSES

Administrative expenses increased by less than 1% as the Group maintained a relatively stable administrative cost.

OTHER EXPENSES

The Group recorded listing expenses of approximately US\$2.1 million as other expenses in the first half of 2011 and did not record such expenses in the first half of 2012.

IMPAIRMENT LOSS

An impairment loss of approximately US\$3.5 million has been recognised in respect of the vessels to profit or loss during the interim period in light of decrease in revenue, utilisation rate, market value of the vessels and scrap materials of the vessels of the Group. The recoverable amount of the vessels has been determined on the basis of their fair value less cost to sell.

(I) **BUSINESS REVIEW** (Continued)

FINANCE COSTS

The Group recorded finance costs of approximately US\$0.4 million in the first half of 2012 compared to US\$0.03 million in the first half of 2011 mainly due to new bank borrowings for the acquisition of two new vessels.

INCOME TAX EXPENSES

The Group's subsidiaries recorded an income tax expense of US\$20,000 during the first half of 2012 compared to approximately US\$16,000 in the first half of 2011.

NET LOSS

Overall, since the Group recorded losses on disposal of fixed assets and impairment loss in respect of the vessels for a total amount of approximately US\$7 million, the Group recorded a net loss of US\$9.88 million in the first half of 2012 compared to US\$9.87 million in the first half of 2011.

OTHER COMPREHENSIVE INCOME

The Group recorded a gain on revaluation of leasehold land and building for approximately US\$0.2 million in the first half of 2012 compared to US\$0.8 million in the first half of 2011.

(II) FINANCIAL REVIEW

GEARING RATIOS

The Group's gearing ratios (being calculated as the Group's total liabilities divided by the Group's total equity) for the first half of 2012 and the year of 2011 were approximately 55% and 24.2% respectively. The higher level of the Group's gearing ratio was mainly due to the Group's obtaining two new bank loans for the acquisition of MV Zorina and MV Heroic during such period.

(III) PROSPECTS

The dry bulk market remains weak over the past few months. The Baltic Dry Index (BDI), which has a close correlation to freight rates, has dropped to 700 level recently. Low demand of commodities in the Greater China Region, over-supply of vessels and lingering financial crisis of the Euro zone led to the pressure on the freight rate of dry bulk market. The Group remains cautious on the outlook for the year.

The Group took delivery of two new supermax vessels, MV Zorina and MV Heroic in December 2011 and February 2012 respectively, and had disposed of four aged vessels, MV Raffles, MV Valour, MV Cape Warrior and MV Courage. Besides, the Group had entered into the MOA for acquiring a second hand capesize vessel in early August 2012. This capesize vessel is expected to be delivered in late August 2012. After completion of this acquisition, the new tonnage of the Group's fleet will be approximately 330,000 dwt. Following the replacement of the vessels, the Group expects to be able to operate with higher efficiency when the dry bulk market recovers in full.

In the light of the weak dry bulk market, the Group is taking opportunities to diversify its income base to reduce its dependence on freight income. The Group had entered into the MOU dated 11 July 2012 with certain other joint ventures partners in respect of the JV Participation. The Group is optimistic about the residential property market in Singapore and the JV Participation represents an opportunity for the Group to diversify from its principal activity of providing vessel chartering services to charterers. The JV Participation is subject to, inter alia, shareholders' approval being obtained by the Company at a general meeting of its shareholders.

The Group expects the financial performance for 2012 to continue to be adversely affected by the current challenging economic conditions and uncertain outlook.
