Notes:

1. The financial statements have been reviewed by the Audit Committee.

2. Change of financial year end date

Pursuant to a resolution of the Board of Directors of the Company dated November 27, 2011, the Company's financial year end date has been changed from June 30 to December 31. The change is to align with the financial year end date of the Company with that of its subsidiaries established in mainland China, the financial results of which are consolidated into its consolidated financial statements each year, and their financial statements are statutorily required to be closed with the financial year end date of December 31.

As a result of the change in financial year end date, the current financial period covers a twelve-month period from January 1, 2012 to December 31, 2012 (the "year ended December 31, 2012"), and the comparative figures in these financial statements covers a six-month period from July 1, 2011 to December 31, 2011 (the "period ended December 31, 2011" or "P.E. 12/2011"). As the comparative figures are not comparable with those of current financial period, financial information for the twelve-month period from January 1, 2011 to December 31, 2011 (the "year ended December 31, 2011" or "Y.E. 12/2011"), prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"), has been disclosed for the consolidated income statement, the consolidated statement of comprehensive income and certain selected notes to enhance comparability.

3. Basis of preparation

These financial statements have been prepared in accordance with all applicable HKFRSs, which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The principal accounting policies adopted are consistent with those followed in the preparation of the Group's annual financial statements for the period ended December 31, 2011.

The HKICPA has issued several amendments to HKFRSs that are first effective for the current accounting period of the Group and the Company. These revised HKFRSs have no significant impact on the financial statements of the Group for the year ended December 31, 2012 and the period ended December 31, 2011.

The Group has not applied any new standard, amendment or interpretation that is not yet effective for the current accounting period.

Notes:

4. Turnover and segment information

The Group manages its businesses according to the nature of services and products provided. Management has determined three reportable operating segments for the measurement of performance and the allocation of resources. The segments are property leasing in Hong Kong and mainland China and property sales in Hong Kong.

Property leasing segment includes property leasing operation. The Group's investment properties portfolio, which mainly consists of retail, office, residential, serviced apartments and carparks are primarily located in Hong Kong and mainland China. Property sales segment includes development and sale of the Group's trading properties in Hong Kong.

Management evaluates performance primarily based on profit before taxation.

Segment assets principally comprise all non-current assets and current assets directly attributable to each segment with the exception of interest in jointly controlled entities, other assets, deferred tax assets and cash and deposits with banks. The investment properties of the Group are included in segment assets at their fair values whilst the change in fair value of investment properties is not included in segment profits.
