2. Segment information

The Group is principally engaged in the retailing and wholesale of high-end to luxury menswear in Greater China and Europe, as well as licensing its major brands globally. The jointly controlled entities/associates are retailers of luxury fashion and accessories in South Korea and various countries in Southeast Asia.

Management has determined the operating segments based on reports reviewed by the senior executive management of the Group that are used to make strategic decisions. Management considers the business from both geographic and business lines perspectives. Geographically, management considers the performance of the retail businesses in the Chinese Mainland, Hong Kong & Macau, Taiwan, Europe and others. Management also assesses the performance of the individual business line, namely retail, wholesale and licensing. Management assesses the performance of operating segments based on a measure of segment profit before tax. Corporate employee benefit expenses and overhead, finance income/(costs) and other gains-net are not allocated to segments.

Segment asset consists only of inventories.

The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

MANAGEMENT DISCUSSION & ANALYSIS

Financial Review

Softening exports and the turbulent global economy resulted in a change in consumer confidence. The Chinese Government's promotion of austerity measures also dampened conspicuous consumption. This led to repercussions for the Chinese Mainland domestic retail market in 2012. Nevertheless, the Group was able to deliver mild growth in profit attributable to shareholders. Additionally, lower tax charges and a gain from disposal of its 30.0% interest in the Ferragamo joint ventures contributed to the growth in profit.

Revenue

Revenue increased by 7.4% to HK\$2,800.7 million. The slowdown in growth for the domestic retail sector in Greater China affected the Group, which managed to deliver subdued growth of 1.5 %.

Gross Profit

As a result of the softening of the domestic retail sector in Greater China, competition on price intensified, resulting in a drop of the gross profit margin for the Group from 80.7% to 78.1%.

Selling and Marketing Expenses

Selling and marketing expenses increased by 15.2% in 2012, out of which 6.0% increase was attributable to Europe following mainly the acquisition of the Gieves & Hawkes business in the United Kingdom and increases in store operating expenses in Greater China. Meanwhile, advertising and promotion expenses expressed as a percentage of revenue increased from 5.3% to 5.8%, reflecting higher investments in brand building including global activities in Europe.

Administrative Expenses

The Group implemented tight cost control and managed to maintain 2012 administrative expenses at a level similar to 2011.

Operating Profit

Full year operating margin declined from 23.5% to 20.8% which was mainly attributable to a drop in gross profit margin and higher growth in selling and marketing expenses as a percentage of revenue.

Share of Profit of Jointly Controlled Entities

The Group's share of profit of jointly controlled entities increased by 4.9% to HK\$65.3 million as a result of improved performances in Singapore and Thailand.

As announced on 20 December 2012, the Group has disposed of its 30.0% interest in the Ferragamo joint venture companies with a gain of HK\$34.8 million. Consequently, the Group's share of interest in each of the Ferragamo joint venture companies was reduced to 20.0%.

Effective Tax Rate

The effective tax rate of the Group decreased from 24.2% in 2011 to 15.2% in 2012. The improvement was partly attributable to a shift in geographical mix of profit to a lower tax rate jurisdiction. In addition, the recognition of share option costs as tax deductible expenses in Hong Kong and the release of previously provided withholding tax provision on the 30.0% share of retained profits of a Ferragamo joint venture company also helped to reduce the effective tax rate.

Profit Attributable to Shareholders

Profit attributable to shareholders increased by 5.2% to HK\$540.0 million and as a percentage of revenue decreased slightly to 19.3% in 2012 from 19.7% achieved in 2011. Basic earnings per share of the Group improved to 31.5 HK cents in 2012 from 30.3 HK cents in 2011.

Working Capital Management

The Chinese New Year in 2013 fell in early February thereby delaying the arrival of the peak sales period. As a result, the consumption of inventory was delayed, resulting in a slight jump of inventory turnover days from 372 days in 2011 to 378 days in 2012. However, further improvement in managing receivables reduced the trade receivable turnover days from 31 in 2011 to 28 in 2012.

The Group's trade payable turnover days decreased from 80 days in 2011 to 61 days in 2012 as there was a delay in inventory built up for the launch of the 2013 Spring/Summer season after a late Chinese New Year.

Financial Position and Liquidity

The Group generated net cash from operating activities of HK\$331.9 million, which is lower than the HK\$452.1 million achieved in 2011. The decrease was mainly due to a drop in operating profit and an increase in tax payment during the year for 2011 profit.

The Group achieved a net cash position of HK\$129.1 million in 2012. The major movements of investing activities during the year were the payment for the acquisition of the Gieves & Hawkes business in the United Kingdom and the receipt of proceeds on the disposal of its 30.0% interest in the Ferragamo joint venture companies.

Credit Risk Management

Trade receivables from department stores and receivables owed by licensees are the major credit risk of the business. The Group established procedures to evaluate and monitor the credit risk of department stores and licensees in order to control its exposure in this area. The Group's trade receivable turnover days improved from 31 days in 2011 to 28 days in 2012. At the end of December 2012, the Group's debtors ageing analysis showed that the percentage of debtors over three months old was 6.6% of total trade receivables. The Group's cash and cash equivalents were deposited with major international banks.

Foreign Exchange Management

The Group purchases a substantial part of its production materials and finished goods in foreign currencies. To minimise foreign-exchange risks, the Group has a hedging policy in place.

Interest Rate Management

The Group evaluates interest-rate risks periodically to determine the need to hedge against adverse interest-rate movements. Since the volatility of interest-rate movements was expected to be mild during the year, no interest-rate hedge was taken in 2012.

Banking Facilities

The Group has secured adequate bank lines of approximately HK\$1,341.4 million for operational contingencies. A total of HK\$870.0 million revolving loans were obtained, and HK\$31.4 million was utilised for trade financing at year end. The undrawn facilities at year end amounted to HK\$440.0 million.

Use of Proceeds from Initial Public Offering

With the balance of fund-designated for retail network expansion consumed during the year, all proceeds raised from the Initial Public Offering in November 2009 were fully utilised at 31 December 2012.

Geographical Analysis for Retail and Licensing Businesses

The Greater China retail business contributed 90.6% of the Group's total revenue in 2012 while retail and licensing income in Europe contributed 9.1% to the total, up from 4.0% as a result of the acquisition of Gieves & Hawkes in the United Kingdom in May 2012. The slowdown in the growth in demand for luxury products in Greater China was more pronounced in the second half of the year as portrayed by the 5.0% decline in same-store sales which contrasted with a 6.5% growth in the first half of 2012. The Chinese Mainland recorded subdued annual revenue growth of 1.9% as an increase in new store sales was dragged down by a 1.6% decline in same-store sales. Meanwhile, Hong Kong and Macau managed 2.7% growth on the back of a 6.6% increase in same-store sales. As the economy remained sluggish, Taiwan posted a drop of 4.5% in revenue mainly as a result of a 11.9% fall in same-store sales.

Geographic Gross Profit Margin

The slowdown in demand in the domestic retail sector has affected net retail prices in the Greater China market. The retail gross profit margins were 78.6% for the Chinese Mainland, 79.3% for Hong Kong and Macau and 72.5% for Taiwan and they were 2.1, 1.7 and 2.8 percentage points lower than those achieved in 2011 respectively. In Europe, where the business comprises retail and licensing operations, the margin was 77.1%.

Operations Review

The year 2012 was challenging due to ongoing turbulence in the global economy and the impact on the Chinese Mainland. Slowing down export in Eastern China had a significant effect on our Group's sales there, while consumer spending decreased in general, especially in the area of corporate gifts. The Group dedicated considerable effort to cost control and supply chain management to maximise efficiency.

The year under review marked the beginning of the "Global Brands, Global Networks" strategy. The Group is intently focused on building global brands with enhanced international appeal. Trinity's owned global brands will establish business in new markets in the United States and Europe to drive even greater affinity among wealthy Chinese travellers.

The acquisition of Gieves & Hawkes in May 2012, combined with the earlier acquisitions of Cerruti and Kent & Curwen, has given Trinity ownership of well over 90.0% of its revenue stream. The Group now controls an enviable menswear portfolio and enjoys a leadership position in the valuable Chinese Mainland market, where the luxury retail sector remains fundamentally sound and offers substantial room for growth in the long run.

The Group is now embarking on expanding the presence of Cerruti and Gieves & Hawkes and their profile in Europe through a much strengthened management and design team in Paris and London respectively. Licensing arrangement for Kent & Curwen was made with British Heritage Brands ("BHB"), a US company, in 2012. Through this arrangement, Kent & Curwen will enter the United States market and strengthen its presence in Europe.

Store Network

During the year, the Group further expanded its network by penetrating into 59 cities in the Chinese Mainland and closed underperforming stores. The Group entered into travel retail with six stores at key high traffic domestic airports in Greater China.

In 2012, Trinity added 101 new stores, including 14 stores in the United Kingdom and Ireland through acquisition of Gieves & Hawkes, and closed 75 stores, a 5.7% net increase. Total store footage increased by 13.8% to 58,060 square metres. In the Chinese Mainland the Group opened a total of 78 new stores and closed 66 stores.

The Group can leverage BHB's in-depth understanding of the American and European markets to expand the Kent & Curwen brand internationally. One significant early initiative was the establishment of a showroom at Trump Tower in New York City that enables department store buyers to preview and place orders. The Group is also looking to expand the brand's retail presence in New York as well as in Europe, where it has secured the space at No. 2 Savile Row, next door to Gieves & Hawkes at No. 1 Savile Row. Despite economic difficulties and softening of the United Kingdom retail market, London remains resilient and a valuable market for Trinity's British heritage brands.

As at 31 December 2012, the Group operated a total of 486 stores, of which 386 were located in the Chinese Mainland, 42 in Hong Kong and Macau, 42 in Taiwan, 15 in the United Kingdom and Ireland, as well as one in France.

During the year, the Group rolled out a new store concept from an Italian architecture firm for Cerruti at the premiere Chinese tourist destination Harbour City shopping mall in Hong Kong. It is also testing a new design concept for Gieves & Hawkes, while Kent & Curwen is embarking on a new store concept with a celebrity architect and interior designer.

Marketing & Promotion

Trinity's spending on marketing – comprising advertising, public relations, events, online and digital marketing, visual merchandising, and celebrity endorsements increased to 5.8% of revenue during the year.

One of Trinity's priorities under the "Global Brands, Global Networks" strategy is to raise the profiles of its wholly owned brands – Kent & Curwen, Cerruti and Gieves & Hawkes – in European and American markets. During the year under review, the Group made a number of significant inroads in this direction.

The acquisition of Gieves & Hawkes gave Trinity a second wholly-owned British heritage brand alongside Kent & Curwen, and the Group is aggressively marketing these brands in new and exciting ways. The partnership with BHB in New York will help increase exposure for the Kent & Curwen brand together with support from advertising and promotion activities in autumn 2013.

Gieves & Hawkes, managed from London, recently welcomed a new creative director, Mr Jason Basmajian, formerly of Brioni. Gieves & Hawkes already enjoys the famed No. 1 Savile Row address, and now the Group plans on housing a new Kent & Curwen store at No. 2 for added synergy between these two heritage brands. Both of these initiatives offer considerable marketing opportunities.

Cerruti, at No. 3 Place de la Madeleine, Paris, has also welcomed a new artistic director, Mr Aldo Maria Camillo who had formerly worked for Valentino men and Ermenegildo Zegna. Cerruti debuted at Paris Men's Fashion Week in January 2013, gaining exposure that should greatly contribute to the brand's global credibility.

The Group is proud of Kent & Curwen being the first sponsor of the Kent & Curwen Royal Charity Polo Cup, held last year at Watership Down in the United Kingdom, the private estate and home of famed musical composer Sir Andrew Lloyd Webber. Thanks to extensive public relations efforts, the Cup was covered widely by leading media in target markets. HRH Prince Harry and Mr Aaron Kwok received exposure in the coverage, deepening their support for Kent & Curwen. The Group also continued its annual Kent & Curwen Centenary Spring Cup at Shatin Racecourse, Hong Kong in January 2013, featuring Mr Aaron Kwok as brand ambassador, which successfully attracted leading media, landlords and VIPs to view the Kent & Curwen featuring BHB collection and the upcoming new brand concept.

The Group launched new websites for Trinity in March and Kent & Curwen in September 2012, and has dedicated websites for each Trinity brand.

Celebrity endorsements and appearances have had a significantly positive impact on brand recognition in key markets. International artist Mr Aaron Kwok and up-and-coming Taiwanese actor Mr Mark Chao are both involved in promoting Kent & Curwen and Cerruti respectively. In 2012, Gieves & Hawkes also dressed the Jerusalem Quartet during the Hong Kong International Chamber Music Festival.

Joint promotions played a significant role in the Group's merchandising during the year under review. Trinity worked together with leading Hong Kong and Chinese Mainland shopping malls, luxury brand Davidoff, Dah Sing Bank and the Hong Kong Jockey Club. The sponsorship of the Hong Kong team's uniform at London's Olympics was a great boost of pride for Chinese people. We leveraged the International Olympic Committee's strength to host an exhibition and press conference at the prime Hong Kong shopping mall, Pacific Place, and the Hong Kong Jockey Club respectively.

Sourcing

The Group continues to source approximately 85.1% of quality raw materials from Europe, in particular Italy. The Group made further improvements to the order placement process, which has been shortened to reduce lead times and inventory as well as bringing products closer to its markets.

Human Resources

Trinity's success is predicated on having the best personnel in the business, so its hiring, training and staff retention practices are critical to meeting its goals.

In 2012, the Group continued to participate in the staff development programme organised by the Fung Group and Stanford University Centre for Professional Development in collaboration with the University of Hong Kong. It was an initiative designed to develop high-calibre managers and ensure smooth succession planning. The Group conducts its own management training in areas such as retail operations and customer service. Also, the Trinity Elite Lessons in Leadership ensures sound succession planning and cross-company communications by involving staff from various departments and markets in the same classroom.

As at 31 December 2012, the Group had a total workforce of 3,891, of whom 962 were based in Hong Kong and Macau, 2,552 in the Chinese Mainland, 179 in Taiwan and 198 in other countries. The Group's total staffing costs for 2012 were HK\$626.3 million, compared with HK\$565.9 million for 2011.

Information Technology

In 2012, the Group deployed a budgeting and planning system for inventory control which enables the Group to plan the inventory one year in advance by starting from a revenue target for each brand and region, the clearance level of aged inventory, and the anticipated sell through percentage of inventory in the new seasons.

Our IT Department also enhanced the operation management system to support our country teams for the management of new store openings as well as, renovation and relocation, especially in the Chinese

Mainland. The purpose of this system is to help monitor the status of a store's opening, particularly to facilitate communication between operations teams and also to record important dates related to the activities with our landlords, contractors and internal teams.

Corporate Social Responsibility & Sustainability Initiatives

Being a responsible corporate citizen and running our business in a sustainable manner are core fundamentals of our culture. The Group is happy to report that 2012 marked a number of milestones in these important areas, in terms of the number of initiatives undertaken, the breadth of geographies involved and the number of times staff participating.

Trinity executed a total of 44 programmes and activities throughout the year, an increase of more than 50.0% over 2011. These largely focused on community service, environmental conservation, and employee development. One particularly positive note is that our offices in the Chinese Mainland were more involved than ever, with employees there registering a 14.8% increase in participation. Our European operations also got in on the act this year with a good number of employees taking part.

Overall, Trinity saw record employee participation in 2012. Along with the significant increase in participation among our Mainland Chinese staff, the participation rate for Hong Kong staff increased by 9.1%. In Hong Kong, total volunteer service hours increased 26.4% while in the Chinese Mainland it went up by an amazing 191.1% from a modest start in 2011.

Trinity closely aligns many of its activities with those supported by the Fung (1906) Foundation, which in recent years has focused on children and youth. In 2012, these included the "Sponsor a Child" activity in support of World Vision and PLAN International, "Strollerthon" for the Children's Medical Foundation's efforts in expanding lifesaving care for babies in rural China, and the "Little Gardener" activity on behalf of the World Wildlife Fund, which educates the public about plant life and biodiversity.

One of the most important initiatives of the year was the Group's first-ever Sustainability Day, including activities such as sustainability quizzes as well as free cholesterol and body mass index screenings for staff to encourage healthier living. The Group also held Occupational Health and Safety ("OHS") talks as it is an important part of policy for our staff to help promote a safe, healthy workplace. In addition, Trinity is proud to have attained for the second time, the third-highest number of participants in World Vision's "Skip a Meal" programme for hunger awareness.

In 2012, the Group continued to take part in restoration projects for stilt homes inhabited by the elderly in the Tai O area of Hong Kong. Staff also helped paint schools as well as clean homes for disabled people living in Wong Tai Sin during the year. These activities required both physical stamina and creativity from enthusiastic and well-intentioned colleagues.

Trinity is an ardent supporter of the United Nations Global Compact and is making every effort to ensure compliance with its 10 principles both within the Group's operations and those of its vendors. The Group is also in the process of implementing an Environment Management System to measure and manage our carbon emissions footprint.

Looking Ahead

Despite a slowdown in its domestic retail sector, the Chinese Mainland remains the most important market in the world for luxury goods. We believe the "Global Brands, Global Networks" strategy positions our brands as desirable icons for wealthy Chinese whether this new emerging class of luxury travellers is shopping in China or abroad, while appealing to high-end consumers in more developed markets. We have considerable assets for the development of our heritage brands such as a network of stores in the United Kingdom and Continental Europe as well as in top-and second-tier cities in China, high-quality and fashionable products created by leading designers, significant brand exposure and innovative marketing as well as creative visual merchandising.

Trinity anticipates that while the Chinese luxury retail market may not continue to expand at the 20%-plus rates seen previously, it will nevertheless enjoy healthy growth in the medium term. This will be driven by the country's growing number of wealthy as well as an aspirational middle to upper class. The Central Government's ongoing drive to create an economy led more by domestic consumption than investment should also support this growth.

Trinity's transformation from a regional retail operator to an owner of a portfolio of global heritage brands will continue to elevate its fundamental business prospects. The Group will continue to seek opportunities to further build this brand portfolio through acquisitions or partnerships. Based within the framework of the Group's "Global Brands, Global Networks" strategy, these attributes will be key to achieving sustainable growth in the long term.
