Chairman's Statement

In 2012, the global economy remained uncertain, as consumers and businesses alike waited for clear directions on a range of economic risks, from the US deficit to the Euro zone crisis. Impacted by the global economic conditions, growth in many Asian markets has slowed down. The conditions of Taiwan retail business remained grim in 2012. Given the economic growth in Taiwan was lower than that expected at the beginning of 2012 and uncertainties in the employment markets, domestic demand and private consumption were weak. Consumer spending was also affected by high inflation. Due to the abovementioned reasons, customers were more conscious about their spending on non-essential items. Furthermore, there was an influx of international fast fashion brands to Taiwan and the Group had to compete with all these brands. The Group has contended with several challenges, including increasingly demanding, value conscious customers and cut-throat competition.

As a result of the slowdown of domestic demand and fierce price competition, the revenue of the Group has decreased by 10% in 2012 and the profit margin has dropped to 49.7% in 2012 from 56.7% in 2011. The segment loss attributable to the Taiwan business has increased to HK\$10.9 million in 2012 from HK\$5.4 million in 2011. On the other hand, as the share options granted under the Company's share option scheme in 2010 were vested in 2012, the share-based compensation expenses decreased, the loss of the Group being reduced to HK\$43.3 million in 2012 from HK\$64.7 million in 2011.

The Group has established a joint venture company in 2011 with the proposed principal business of design, assembling, processing and sales of premium wedge-shaped synthetic jade stone floor panels and related premium jade decoration products. The construction of the production plant was completed and the custom-made machineries were delivered from a manufacturer to the Group in late 2012. Upon satisfactory completion of the test running, the joint venture company will commence its normal business operation.

The performance of our joint venture business on synthetic jade floor panels relies highly on the prosperity of the real estate market in the PRC. In view that the home prices are increasing again, the PRC government has announced a series of property control policies to cool down the real estate market. In early March 2013, the PRC Government has announced the "Five Regulations" relating to real estate sector. We believe the "Five Regulations" would have a serious impact on real estate sector and related industries such as steel and construction materials. The risk for joint venture business has increased and impairment loss has been provided for joint venture investment. Taking into account the impairment loss, the Group shared the loss of jointly controlled entity of HK\$9.2 million this year.

The Group will be sensitive to consumer needs and preferences, be flexible in building the sales networks and be nimble in dealing with fierce competition, in order to strengthen the business of retailing of garment in Taiwan. In addition to the premium synthetic jade stone floor business, the Group will continue to look for more business and investment opportunities to diversify the business of the Group and achieve substantial and sustainable financial growth for the Group and to maximize shareholders' value.

I would like to take this opportunity to express my deepest gratitude to all the shareholders, my fellow directors, management team and staff to the Group for their support and contributions to the Group throughout the year.

(d) Directors' Training

Pursuant to the new CG Code which has come into effect from 1 April 2012, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant.

During the year of 2012, all Directors have participated in continuous professional development programmes such as external seminars organized by qualified professionals, to develop and refresh their knowledge and skills in relation to their contribution to the Board.

(e) Chairman and Chief Executive Officer

In the year of 2012, the roles of chairman and chief executive officer are separate and are not performed by the same individual to reinforce their independence and accountability. During 2012, Mr. Wong Lik Ping served as the Chairman of the Company and Mr. Cheung Wing Hong Shannon served as the chief executive officer of the Company. The Chairman provides leadership for the Board. The chief executive officer has overall chief executive responsibility for the Group's business development and day-to-day management generally. With the support of Executive Directors and the Company Secretary, the Chairman seeks to ensure that all Directors are properly briefed on issues arising at Board meetings and receive adequate and reliable information in a timely manner.

Upon Mr. Cheung Wing Hong Shannon's resignation as executive director and chief executive officer on 28 February 2013, the Company has no officer with the title of chief executive officer and the role of chief executive officer is temporarily handled by the Chairman until a new candidate is appointed as chief executive officer of the Company. Although this is a deviation from the Code Provision on A.2.1, the Board considers that it is appropriate and in the best interests of the Company at the present stage for Mr. Wong Lik Ping to hold both positions as it helps to maintain the continuity of the Company's policies and the stability of the Company's operations. As the Board meets regularly to consider matters relating to business operations of the Company, the Board is of the view that such arrangement will not impair the balance of power and authority of the Board and the executive management. The effectiveness of the corporate planning and implementation of corporate strategies and decisions will not be affected.

(f) Non-executive Directors

Under code provision A.4.1 of the CG Code, non-executive director should be appointed for a specific term, subject to re-election. On 1 January 2013, the Company has entered into service contracts with non-executive directors of the Company for a term of one year. Their directorships of which are all subject to retirement by rotation and re-election at the annual general meeting of the Company in accordance with the Bye-laws of the Company.

(g) Remuneration Committee

The Company established a remuneration committee ("Remuneration Committee") in 2005 with written terms of reference in accordance with the relevant requirements of the CG Code. The composition of the Remuneration Committee is shown on page 64 of this report. The Remuneration Committee comprises three independent non-executive directors, namely, Mr. To Yan Ming Edmond (Chairman of the Remuneration Committee), Mr. Kee Wah Sze and Mr. Chan Pat Lam. The members' attendance to the Remuneration Committee meeting is listed out on page 17. The role and function of the Remuneration Committee include the determination of the specific remuneration packages of all executive and non-executive directors, including benefits in kind, pension rights and compensation payments (such as compensation payable for loss or termination of their office or appointment), and to make recommendations to the Board on the remuneration package of the Directors and senior management. The Remuneration Committee should consider factors such as the salaries index, time commitment and responsibilities of the directors.

Details of the directors' remuneration are set out in note 12 to the consolidated financial statements.

(h) Nomination Committee

The Company established a nomination committee ("Nomination Committee") in 2012 with written terms of reference in compliance with the CG Code. The Nomination Committee comprises of three independent non-executive directors and one executive director, namely Mr. To Yan Ming Edmond (Chairman of the Nomination Committee), Mr. Kee Wah Sze, Mr. Chan Pat Lam and Mr. Ma Chi Shing. The primary duties of the Nomination Committee are to review the structure, size and composition (including the skills, knowledge and experience) of the Board, make recommendations on any proposed changes to the Board to complement the Company's corporate strategy, identify individuals suitably qualified to become Board members, and assess the independence of independent non-executive directors and make recommendations to the Board on the selection of individuals nominated for directorships and succession planning for directors, in particular the chairman and the chief executives.

(i) Audit Committee

The Company has an Audit Committee which was established in accordance with the requirements of the CG Code for the purposes of reviewing and supervising the Group's financial reporting process and internal controls. The written terms of reference which describe the authority and duties of the Audit Committee were prepared and adopted with reference to "A Guide for The Formation of An Audit Committee" published by the Hong Kong Institute of Certified Public Accountants. The primary roles and functions of the Audit Committee are to review and monitor integrity of the financial reporting process and internal controls systems of the Group. The Audit Committee is also responsible for considering the appointment of the external auditors and reviewing any non-audit functions performed by the external auditors, including whether such non-audit functions would lead to any potential material adverse effect on the Company. The Audit Committee comprises three independent non-executive directors, namely Mr. To Yan Ming Edmond (Chairman of the Audit Committee), Mr. Kee Wah Sze and Mr. Chan Pat Lam. The members' attendance to the Audit Committee meeting is listed out on page 17. During the year ended 31 December 2012, the Audit Committee held two meetings to review the annual and interim results, to evaluate the Group's financial reporting process and to make recommendations to improve the Company's internal control system. Draft minutes were circulated to members of the Audit Committee within a reasonable time after each meeting. No member of the Audit Committee is a former partner of the existing auditing firm of the Company during the one year after he ceases to be a partner of the auditing firm.

(j) Auditors' Remuneration

The Company's external auditor is Deloitte Touche Tohmatsu. For the year ended 31 December 2012, the Auditors of the Company and subsidiaries received approximately HK\$889,000 for audit service and HK\$35,100 for non-audit services. The nature of non-audit services in 2012 is tax services.

(k) Internal Control

The Board has overall responsibilities for maintaining sound and effective internal control system of the Group to safeguard shareholders' investments and the Group's assets, as well as for reviewing the system of internal control of the Group. The internal control system is designed to provide reasonable, but not absolute, assurance against material misstatement or loss and to manage rather than eliminate risks of failure in operational systems and achievement of the Group's objectives.

During the Year, the Board reviewed and ensured the internal control process had been properly carried out and adequacy of resources, qualifications and experience of staff of the Group's accounting and financial reporting were maintained properly. The Board satisfies that, given the size and activities of the Company, adequate internal control systems have been established and considers continuing reviews of internal controls will be undertaken to ensure its adequacy and effectiveness.

(I) Communication with Shareholders

At 2012 Annual General Meeting ("2012 AGM"), a separate resolution was proposed by the Chairman of that meeting in respect of each separate issue, including the re-election of directors. The Chairman of the Board, and chairmen of the Audit, Remuneration and Nomination Committees, or in absence of the chairman of such committees, any member from the respective committees, attended the 2012 AGM to address shareholders' queries. The Company establishes different communication channels with shareholders and investors: (i) shareholders can receive printed copies of corporate information, (ii) the general meeting provides a forum for shareholders to raise comments and exchange views with the Board, (iii) the Company's website offers communication channel between the Company and its shareholders and investors; and (iv) the Company's Sub-Registrar and Transfer Agent in Hong Kong serve the shareholders respecting all share registration matters.

(m) Shareholders' Rights

Pursuant to the bye-law 58 of the Bye-laws of the Company, members holding at the date of deposit of the requisition of not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all time have the right, by written requisition to the Board or the Secretary of the Company, to require a special general meeting to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting, the requisitionists themselves may do so in accordance with the provisions of Section 74(3) of the Bermuda Companies Act 1981.

The shareholders who intend to make enquiries of or obtain information shall give prior written notice to the Company, and the Company shall provide such information as soon as possible. Enquiries with the Board of Directors or the Company may be posted to the principal place of business in Hong Kong of the Company, the address of which is 12/F., Kwan Chart Tower, 6 Tonnochy Road, Wanchai, Hong Kong, with telephone number: (852) 2891 5666, being available at normal business hours.

(1) Any number of shareholder(s) representing not less than one-twentieth of the total voting rights of all shareholders having at the date of the requisition a right to vote at the meeting to which requisition relates; or (2) not less than 100 shareholders may, at their expense, provide a written request to the attention of the Company Secretary signed and deposited in accordance with the Bermuda Companies Act 1981.

(n) Investor Relations

A printed copy of the memorandum and articles of association of the Company has been published on the websites of the Company and the Stock Exchange. There has been no changes in the Company's constitutional documents during the year ended 31 December 2012.

(o) Directors' Responsibility for the Financial Statements

The directors of the Company acknowledge their responsibilities for preparing the financial statements of the Group in accordance with statutory requirements and applicable accounting standards. The directors of the Company also ensure that the financial statements of the Group are published in a timely manner. The reporting responsibilities of our Company's external auditors on the financial statements of the Group are set out in the section headed "Independent Auditor's Report" on pages 22 to 23 of this annual report.

TO THE MEMBERS OF THEME INTERNATIONAL HOLDINGS LIMITED

榮暉國際集團有限公司

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Theme International Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 24 to 63, which comprise the consolidated statement of financial position as at 31 December 2012, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Report

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2012, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

1. General

The Company was incorporated in Bermuda as an exempted company and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Its immediate holding company is Golden Bright Energy Limited, a company incorporated in the British Virgin Islands (the "BVI") with limited liability. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company acts as an investment holding company. The principal activities of the Company's subsidiaries are retailing of garments. Details of the principal activities of the Company's subsidiaries are set out in note 30. The Company and its subsidiaries are collectively referred to as the "Group".

The consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the same as the functional currency of the Company.

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs")

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

Amendments to HKAS 12 Deferred tax: Recovery of underlying assets; and

Amendments to HKFRS 7 Financial instruments: Disclosures – Transfers of financial assets.

The application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

For the year ended 31 December 2012

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (continued)

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective:

Amendments to HKFRSs Annual improvements to HKFRSs 2009-2011 cycle¹

Amendments to HKFRS 7 Disclosures – Offsetting financial assets and financial liabilities¹

New and revised standards on consolidation, joint arrangements, associates and disclosures

In June 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including HKFRS 10, HKFRS 11, HKFRS 12, HKAS 27 (as revised in 2011) and HKAS 28 (as revised in 2011).

¹ Effective for annual periods beginning on or after 1 January 2013.

² Effective for annual periods beginning on or after 1 January 2014.

Effective for annual periods beginning on or after 1 January 2015.

⁴ Effective for annual periods beginning on or after 1 July 2012.

For the year ended 31 December 2012

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (continued)

New and revised standards on consolidation, joint arrangements, associates and disclosures (continued)

HKFRS 11 replaces HKAS 31 "Interests in joint ventures" and HK(SIC)-INT 13 "Jointly controlled entities – Non-monetary contributions by venturers". HKFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. Under HKFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under HKAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under HKFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under HKAS 31 can be accounted for using the equity method of accounting or proportionate accounting.

HKFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in HKFRS 12 are more extensive than those in the current standards.

In July 2012, the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 were issued to clarify certain transitional guidance on the application of these five HKFRSs for the first time.

The directors of the Company anticipate that these five standards will be adopted in the Group's consolidated financial statements for the annual period beginning 1 January 2013. Other than the application of the disclosure standard of HKFRS 12, the application of the other four standards is not expected to have material impact on the amounts reported in the consolidated financial statements.

Amendments to HKAS 1 Presentation of items of other comprehensive income

The amendments to HKAS 1 "Presentation of items of other comprehensive income" introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a "statement of comprehensive income" is renamed as a "statement of profit or loss and other comprehensive income". The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis-the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

For the year ended 31 December 2012

2. Application of New and Revised Hong Kong Financial Reporting Standards ("HKFRSs") (continued)

Amendments to HKAS 1 Presentation of items of other comprehensive income (continued)

The amendments to HKAS 1 are effective for the Group for annual period beginning on 1 January 2013. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied.

The directors of the Company anticipate that the application of the other new and revised HKFRSs will have no material impact on the consolidated financial statements.

3. Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Joint ventures

Jointly controlled entities

Joint venture arrangements that involve the establishment of a separate entity in which venturers have joint control over the economic activity of the entity are referred to as jointly controlled entities.

The results and assets and liabilities of jointly controlled entities are incorporated in the consolidated financial statements using the equity method of accounting. Under the equity method, investments in jointly controlled entities are initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the jointly controlled entities. When the Group's share of losses of a jointly controlled entity equals or exceeds its interest in that jointly controlled entity (which includes any long-term interests that, in substance, form part of the Group's net investment in the jointly controlled entity), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that jointly controlled entity.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a jointly controlled entity. When necessary, the entire carrying amount of the investment (including loan to jointly controlled entities) is tested for impairment in accordance with HKAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Property, plant and equipment

Property, plant and equipment are stated in the consolidated financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the leasee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

For the year ended 31 December 2012

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme and state-managed retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interest in a jointly controlled entity, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Taxation (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are calculated using the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

The Group's financial assets are loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Financial instruments (continued)

Financial assets (continued)

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade receivables, other receivables, loan to a jointly controlled entity, amount due from a related company and bank balances) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment of financial assets below).

Impairment of loans and receivables

Loans and receivables are assessed for indicators of impairment at the end of each reporting period. Loans and receivables are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the loans and receivables have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of loans and receivables (continued)

For certain categories of loans and receivables, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with default on receivables.

The amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the loans and receivables, is reduced by the impairment loss directly for all loans and receivables with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities including trade payables, other payables and dividend payable are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

For the year ended 31 December 2012

3. Significant Accounting Policies (continued)

Impairment losses on assets

At the end of the reporting period, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

For the year ended 31 December 2012

Share-based payment transactions

Equity-settled share-based payment transactions

The fair value of services received determined by reference to the fair value of share options granted at the grant is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share-based compensation reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share-based compensation reserve.

When share options are exercised, the amount previously recognised in share-based compensation reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share-based compensation reserve will be transferred to accumulated losses.

4. Key Source of Estimation Uncertainty

The following is the key assumption concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that has a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

Allowance for inventories

The management of the Group reviews an aging analysis at the end of the reporting period, and makes allowance for obsolete and slow-moving inventory items identified that are not expected to be sold in the foreseeable future. The management estimates the net realisable value for such stocks based primarily on the current market conditions. However, given the competitiveness of the market, these prices may subsequently be affected. As at 31 December 2012, the carrying amount of inventories is HK\$16,178,000 (2011: HK\$13,445,000). During the year ended 31 December 2012, net provision for allowance for obsolete inventories of HK\$1,784,000 (2011: net write back of allowance of HK\$97,000) was recognised in profit or loss.

For the year ended 31 December 2012

5. Capital Risk Management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends and issue of new shares.

6. Financial Instruments

Categories of financial instruments

	2012 HK\$'000	2011 HK\$'000
Financial assets Loans and receivables (including cash and cash equivalents)	46,526	69,947
Financial liabilities Amortised cost	38,053	30,724

Financial risk management objectives and policies

The Group's major financial instruments include trade receivables, other receivables, loan to a jointly controlled entity, amount due from a related company, bank balances, trade payables, other payables and dividend payable. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

For the year ended 31 December 2012

6. Financial Instruments (continued)

Financial risk management objectives and policies (continued)

Market risk

Currency risk

The Group's major monetary assets and liabilities are denominated in the functional currencies of the respective group entities, except for other payable of HK\$16,597,000 (2011: HK\$16,441,000) denominated in HK\$ of a group entity with New Taiwan Dollar ("TWD") as its functional currency. Other than the other payable as stated above, the directors consider that the Group's exposure to foreign currency exchange risk is insignificant.

Sensitivity analysis

Sensitivity analysis is prepared to demonstrate the effect of foreign exchange differences by 5% change in exchange rate of TWD against HK\$ of the respective group entity, assuming all other variables were held constant. 5% is the sensitivity rate used which represents management's assessment of the reasonable possible change in foreign exchange rate. An increase in post-tax loss for the year of approximately HK\$830,000 (2011: HK\$822,000) will be resulted where TWD weakens 5% against HK\$. For a 5% strengthening of TWD, there would be an equal and opposite impact on the loss for the year.

Interest rate risk

As at 31 December 2012 and 2011, the Group is exposed to cash flow interest rate risk arising from variable interest bearing bank balances. The directors do not expect there will be a significant interest rate adjustment on bank deposits and in view of the short maturity of the bank deposits, no sensitivity analysis is prepared at the end of the reporting period.

As at 31 December 2012 and 2011, the Group did not have any interest bearing borrowings and therefore the Group is not exposed to any interest rate risk.

Credit risk

As at 31 December 2012 and 2011, the Group's maximum exposure to credit risk which causes a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

For the year ended 31 December 2012

6. Financial Instruments (continued)

Financial risk management objectives and policies (continued)

Credit risk (continued)

The Group has significant concentration of credit risk in respect of loan to a jointly controlled entity of HK\$9,993,000 (2011: HK\$19,213,000).

As at 31 December 2012, the loan to a jointly controlled entity of HK\$9,993,000 (2011: HK\$19,213,000) serves as a shareholder's loan to the jointly controlled entity for financing its business development. In the opinion of the directors, the risk of non-recoverability of the amount is minimal.

The credit risk on liquid funds is limited because the counterparties are banks with good reputation.

In order to minimise the credit risk of trade receivables, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Liquidity risk

In management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

Fair value

The fair value of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

For the year ended 31 December 2012

7. Revenue

Revenue represents the amounts received and receivable for goods sold by the Group to outsider customers, less discounts and sales related tax, for the year.

8. Other income

9. Segment Information

Information reported to the directors of the Company, being the chief operating decision maker, for the purpose of resource allocation and assessment of segment performance focuses. The Group currently has only one segment, i.e. retailing of garments.

The segment revenue of HK\$89,762,000 (2011: HK\$99,730,000) represents the consolidated revenue of the Group for the year. The segment loss is reported as HK\$10,931,000 (2011: HK\$5,447,000) which represented loss before taxation excluding corporate administrative expenses incurred by the Group amounting to HK\$23,083,000 (2011: HK\$58,368,000) and share of loss of a jointly controlled entity of HK\$9,220,000 (2011: HK\$787,000).

The segment assets and liabilities of the retailing business are analysed as follows:

Reconciliation of segment assets

	2012 HK\$'000	2011 HK\$'000
Segment assets	39,160	44,830
Unallocated assets:		
Property, plant and equipment	680	964

Revenue was derived from external customers of retailing business located in Taiwan for both years.

Other segment information

The following (income) expenses are included in the measure of segment profit or loss reviewed by the chief operating decision maker:

	2012 HK\$'000	2011 HK\$'000
Interest income	(15)	(20)
Depreciation of property, plant and equipment	2,976	2,789

Amounts regularly provided to the chief operating decision maker but not included in the measure of segment profit or loss or segment assets:

	2012 HK\$'000	2011 HK\$'000
Interest in a jointly controlled entity	_	_
Loan to a jointly controlled entity	20,000	20,000
Share of loss of a jointly controlled entity	(9,220)	(787)

During the year ended 31 December 2012, additions of HK\$1,232,000 (2011: HK\$3,842,000) was made to non-current assets.

As the Group is principally engaged in retailing business, there is no transaction with a single external customer contributed more than 10% of the Group's revenue. As at 31 December 2012, non-current assets (excluding financial instruments) of HK\$3,344,000 (2011: HK\$5,127,000) and HK\$680,000 (2011: HK\$964,000) was located in Taiwan and Hong Kong, respectively.

For the year ended 31 December 2012

10. Income Tax Expense

	2012 HK\$'000	2011 HK\$'000
Tax charge comprises:		
Current tax charge	52	79

No provision for Hong Kong Profits Tax has been made for both years as the Company and its subsidiaries have no assessable profit arising in Hong Kong.

The profit tax rate prevailing in Taiwan is 17% for both years.

The tax charge for the year can be reconciled to the loss before taxation per the consolidated statement of comprehensive income as follows:

	2012 HK\$'000	2011 HK\$'000
Loss before taxation	43,234	64,602
Tax at the applicable tax rate of 17% Tax effect of expenses not deductible for tax purpose Tax effect of income not taxable for tax purpose Tax effect of estimated tax losses not recognised Tax effect of share of loss of a jointly controlled entity Others	7,350 (2,531) - (3,319) (1,567) 15	10,982 (8,441) 1 (2,428) (134) (59)
Tax charge for the year	(52)	(79)

At the end of the reporting period, the Group has unused tax losses of HK\$366,181,000 (2011: HK\$346,657,000) available for offset against future profits. No deferred tax asset has been recognised due to the unpredictability of future profit streams. The unused tax losses may be carried forward indefinitely.

For the year ended 31 December 2012

11. Loss for the Year

	2012 HK\$'000	2011 HK\$'000
Loss for the year has been arrived at after charging (crediting):		
Cost of inventories recognised as expenses (included net provision for allowance of HK\$1,784,000 (2011: net write back of allowance of HK\$97,000) for obsolete inventories (note a)) Depreciation of property, plant and equipment Net foreign exchange (gain) loss Auditor's remuneration Operating lease rentals in respect of rented premises Contingent rents (note b) Loss on disposal of property, plant and equipment Directors' remuneration (note 12) Other staff costs Salaries and allowances	45,133 3,259 (823) 889 9,844 13,393 220 7,382	43,212 2,897 230 890 9,979 14,863 - 13,896

19. Trade Receivables

	2012 HK\$'000	2011 HK\$'000
Trade receivables	9,644	7,611

Trade receivables from third parties mainly represent receivables from department stores in relation to the collection of sales proceeds from concessionaire sales of merchandise to customers. The average credit period granted to the department stores is 60 days.

⁽a) Total registered capital of 北京珠峰 is HK\$40,000,000 of which HK\$20,000,000 and HK\$12,000,000 had been injected by Crown Age as at 31 December 2012 and 2011 respectively.

For the year ended 31 December 2012

19. Trade Receivables (continued)

The following aging analysis of trade receivables, net of allowance for bad and doubtful debts, presented based on the invoice date at the end of the reporting period which approximated the respective revenue recognition dates:

	2012 HK\$'000	2011 HK\$'000
Within 60 days	9,644	7,611

The Group has policy of providing allowance for bad and doubtful debts which is based on the evaluation of collectability and age of accounts and on management's judgement including credit worthiness and past collection history of each debtor.

In determining the recoverability of the trade receivables, the Group considers any changes in the credit quality of the trade receivables from the date credit was initially granted up to the end of the reporting period. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the directors believe that there is no further credit provision required in excess of the allowance for bad and doubtful debts. No allowance for bad and doubtful debts are provided for trade receivables at the end of the reporting period.

As at 31 December 2012 and 2011, no balances of the Group's trade receivables are past due at the end of reporting period.

20. Deposits, Prepayments and other Receivables

	2012 HK\$'000	2011 HK\$'000
Deposits and prepayments Other receivables	3,884 911	4,208 887
Total deposits, prepayments and other receivables	4,795	5,095

Other receivables are unsecured, interest-free and repayable on demand.

21 Amount Due from a Related Company

The amount was unsecured, interest-free and repayable on demand and it was fully settled during the year ended 31 December 2012.

For the year ended 31 December 2012

22. Bank Balances and Cash

Bank balances and cash comprise cash and short-term bank deposits held by the Group which carried effective interest at 0.01% (2011: 0.19%) per annum and have an original maturity of three months or less.

23. Trade Payables

The following is an aging analysis of the trade payables presented based on the invoice date at the end of the reporting period:

26. Share Option Scheme

The 2009 Share Option Scheme (the "2009 Scheme")

The 2009 Scheme was adopted by the Company on 29 December 2009.

The purpose of the 2009 Scheme is to encourage the eligible participants to perform their best in achieving the goals of the Group and at the same time allow the participants to enjoy the results of the Company attained through their efforts and contributions and to provide the participants with incentives and help the Company in retaining its existing employees and recruiting additional employees. A stronger business relationship will accordingly be established by the Group with the participants. Eligible participants of the 2009 Scheme include any employee, business associate and trustee.

The total number of shares which may be issued upon exercise of all options which may be granted under the 2009 Scheme shall not exceed 10% of the total number of shares in issue at anytime. The maximum number of shares issuable under share options to each eligible participant in the 2009 Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Any grant of option to a director, chief executive or substantial shareholder of the Company or any of their respective associates must be approved by the independent non-executive directors. In addition, any share options granted to a substantial shareholder of the Company or an independent non-executive director or any of their respective associates in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the Company's shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 21 days from the date of the offer with no consideration being payable by the grantee. The share option may be exercised at any time during the option period, which is determinable by the Company's board of directors and will not exceed 10 years from the date of grant of the options.

The exercise price of the share options is determinable by the Company's Board of Directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of the offer of the share options (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of the offer and (iii) the nominal value of the Company's shares.

For the year ended 31 December 2012

26. Share Option Scheme (continued)

The 2009 Share Option Scheme (the "2009 Scheme") (continued)

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

On 15 April 2010, the Company granted 180,000,000 share options to certain of its directors, employees and other eligible participants at the exercise price of HK\$1.70 per share with 2 years vesting period. The closing share price at date of grant on 15 April 2010 was HK\$1.63.

On 21 June 2010, the Company granted 20,000,000 share options to a director at the exercise price of HK\$1.70 per share with 2 years vesting period. The closing share price at date of grant on 21 June 2010 was HK\$1.17.

The fair values of the share options granted in 2010 were determined using the Black-Scholes Option Pricing Model. Significant inputs into the calculation included expected volatilities ranging from 38.74% to 49.43%, estimated weighted average expected life of 3 years, risk-free interest rates ranging from 0.95% to 2.02% and dividend yield of 0%.

The fair values of the share options granted in 2010, measured at the date of grant, were approximately HK\$99,297,000. As the options vest after two years from the dates of grant, the amounts are recognised as share-based compensation in profit or loss over 2 years from the date of grant. An amount of HK\$14,885,000 has been charged as share-based compensation expense to profit or loss during the year (2011: HK\$49,648,000). The corresponding amount has been credited in the share-based compensation reserve.

All share-based compensation will be settled in equity. The Group has no legal or constructive obligation to repurchase or settle the options other than by issuing the Company's ordinary shares.

For the year ended 31 December 2012

For the year ended 31 December 2012

26. Share Option Scheme (continued)

The 2009 Share Option Scheme (the "2009 Scheme") (continued)

No share option was exercised, granted, cancelled or lapsed under the 2009 Scheme during the years ended 31 December 2012 and 2011.

Apart from the 2009 Scheme, during the years ended 31 December 2012 and 2011, no rights were granted to the directors, chief executives of the Company, or any of their spouses or children under 18 years of age to subscribe for equity or debt securities of the Company.

27. Operating Lease Commitments

The Group as lessee

At the end of the reporting period, the Group had commitments for future minimum lease payments in respect of rented premises which fall due as follows:

	2012 HK\$'000	2011 HK\$'000
Within one year In the second to fifth year inclusive	8,372 8,847	8,005 11,632
	17,219	19,637

Leases are negotiated for terms ranging from one to five years and rentals are fixed over the lease terms. In addition to the fixed rentals which are disclosed above, pursuant to the terms of certain rental agreements, the Group has to pay a rental based on certain percentage of the gross sales of the relevant shops.

For the year ended 31 December 2012

28. Retirement Benefits Schemes

The Group operates a mandatory provident fund scheme (the "MPF Scheme") and the ROC Labour Pension Act (the "New System") for all qualifying employees of the Group in Hong Kong and Taiwan, respectively. The assets of the MPF Scheme and the New System are held separately from those of the Group, in funds under the control of the trustees.

The contributions were charged to profit or loss as incurred.

The Group has defined benefit plans for certain Taiwan employees. Under the defined benefit retirement plans, the calculation of the retirement benefits to the employees is based on years of services and average monthly salary at the time of retirement. The Group's contributions to the defined benefit retirement plans are calculated as certain percentages of salaries paid to employees and charged to profit or loss as incurred. The assets of the plans are held separately from those of the Group in a central fund administered by the relevant government body in Taiwan.

During the year ended 31 December 2012, retirement benefit scheme contribution of HK\$975,000 (2011: HK\$1,053,000) was charged to profit or loss as incurred.
