OVERSEAS REGULATORY ANNOUNCEMENT

ANNOUNCEMENT ON POWER GENERATION FOR THE FIRST QUARTER OF 2013

Special Notice:

The board of directors (the “Board”) and all directors (the “Directors”) of the Company warrant that there are no false representations and misleading statements contained in, or material omissions from this announcement, and severally and jointly accept the responsibility for the truthfulness, accuracy and completeness of the contents of this announcement.

This announcement is made pursuant to Rule 13.10(B) of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Datang International Power Generation Co., Ltd. (the “Company”) announces that, based on the Company’s preliminary statistics, as of 31 March 2013, total power generation of the Company and its subsidiaries (the “Group”) amounted to 44.6860 billion kWh, representing a decrease of approximately 5.07% when compared to the corresponding period of the previous year. Total on-grid power generation of the Group amounted to 42.1613 billion kWh, representing a decrease of approximately 5.04% when compared to the corresponding period of the previous year.

The Group’s power generation of thermal power generation units decreased by approximately 7.07% when compared to the corresponding period of the previous year attributable to lower overall regional on-grid utilization hours of thermal power generation units and the impact brought by planned units maintenance. The Group’s power generation of hydro-electric power generation units increased by approximately 30.58% when compared to the corresponding

period of the previous year as a result of an increase in inflow water in the basin where the generation units situated. Since the capacity and efficiency of the Group's wind power generation units were enhanced on a year-to-year basis, power generation of the Group's wind power generation units increased by approximately 54.06% when compared to the corresponding period of the previous year.

Details of the power generation of the Group for the first quarter of 2013 were as follows
