# Chairman's Statement

On behalf of the board of directors (the "Board") of Renhe Commercial Holdings Company Limited (the "Company", together with its subsidiaries, collectively the "Group"), I report to all shareholders on the annual results of the Group for the financial year ended 31 December 2012.

During the period under review, the Group's net profit attributable to shareholders was RMB895 million. Recurring lease income and revenue from property management and relevant service combined was RMB515 million. The value for the Group's investment properties excluding inventories was RMB26,169 million. The Group's gearing ratio was 20%.

As per the Group's strategy laid out at the end of 2011, the Group focused its resources in consolidating its existing investment properties while managing expansion prudently. The Group worked towards commencing operation for new malls and enhancing the operation of existing malls. The Group did not commence construction for new projects in 2012.

During the period under review, the Group successfully commenced operation of three malls. The Group's Fushun "The First Tunnel" mall was opened for operation in February 2012 while Yueyang "The First Tunnel" mall and a mall in Harbin was opened for operation in December 2012. Rents level and occupancy rate for these malls were satisfactory. With the addition of these new malls, the Group's leasable gross floor area ("GFA") reached 0.77 million square meters ("sq.m") and GFA under management is at 1.39 million sq.m. The Group currently manages 24 malls across 16 cities in China.

In 2012, asset enhancement works and tenants repositioning activities at selected malls continue to progress well. For example, the Group's Wuhan mall underwent extensive upgrading works and tenants repositioning in 2012. The mall was renamed "1828武汉新天地" and the new tenant mix will focus on young retail fashion.

The Group kept expansion to the minimal in 2012 and did not commence construction for new projects. Nevertheless, the Group continues to work hard towards obtaining valuable projects for future growth. In November 2012, the Group entered into a Strategic Co-operative Agreement with Beijing Lize Financial Business District Holdings Ltd. with the intention to invest in the development and construction of underground space in the Lize Financial Business District of Beijing. Detailed terms and conditions for such strategic co-operative arrangement will be subject to further negotiation and agreement between the parties.

Moving on to the Group's financial position, the Group's gearing ratio remains at a healthy level of 20%. Prudent steps such as scaling down construction starts amongst others were taken to better manage the Group's cash flow.

## Outlook

The Group believes that China's positive stance and support towards the consumption sector and underground shopping centers development remains intact. Looking ahead to 2013, the Group will continue to focus its resources in consolidating its existing investment properties. The Group will be selective and be opportunistic in terms of commencing construction on new projects. On top of that, the Group will continue to search for more good projects across China; including both new cities and cities in which the Group already has a project.

Lastly, I would like to thank all members of the Board for their positive inputs, and our shareholders and business partners for their full support and trust in us. I would also like to thank the management and all employees wholeheartedly for their team work and commitment. On behalf of the Board, I sincerely thank various local governments for their support in Renhe Commercial, and contribution towards the success of our projects.

# Management Discussion and Analysis

## Business Review

The Group currently manages 24 malls across 16 cities in China. GFA under management (includes GFA sold but continue to provide management and advisory services) currently stands at 1.39 million sq.m; leasable GFA stands at 0.77 million sq.m. The Group's project reserves stands at 4.98 million sq.m. This includes 12 projects under construction, equivalent to 1.45 million sq.m of construction GFA and 20 projects approved and under planning stage, equivalent to 3.54 million sq.m of approved GFA.

Throughout 2012, the Group commenced operation of three underground malls. The Group's Fushun "The First Tunnel" mall was opened for operation in February 2012. This mall is located beneath Zhongyang Avenue and Dongyi Road of Fushun City, Liaoning Province. This underground shopping mall has a total GFA of approximately 10,596 sq.m. In December 2012, the Group's Yueyang "The First Tunnel" mall was officially opened for operation. This mall is located beneath Dongmaoling Road and Pedestrian Street, Yueyang City of Hunan Province. This underground shopping mall has a total GFA of approximately 81,780 sq.m. The Group also commenced operation of a mall in Harbin in December 2012, This mall is an extension of the Group's Harbin Phase 6 project and is located beneath Toulong Street of Harbin City, Heilongjiang Province. This mall has a total GFA of approximately 9,534 sq.m.

## Management Discussion and Analysis

### Financial Review

#### Revenue

For the year ended 31 December 2012, the Group recorded a consolidated revenue of approximately RMB688.1 million, as compared with RMB2,244.7 million in 2011.

Operating lease income grew by 16.6% to RMB416.2 million in this year as compared to RMB356.8 million last year while revenue from transfer of operation rights dropped by 85.7% to RMB270.5 million from RMB1,887.9 million last year.

	<b>2012</b>	<b>2011</b>	<b>Change</b>	<b>Change</b>
	<b>RMB'000</b>	<b>RMB'000</b>	<b>RMB'000</b>	<b>%</b>
Operating lease	<b>416,225</b>	356,828	59,397	16.6
Transfer of operation rights	<b>270,537</b>	1,887,884	(1,617,347)	(85.7)
Others	<b>1,348</b>	–	1,348	100.0
Revenue	<b>688,110</b>	2,244,712	(1,556,602)	(69.3)

#### Operation Rights Transfer

Revenue generated from transfer of operation rights was recognized when the significant risks and rewards of the operation rights have been transferred to the buyers. Revenue generated from transfer of operation rights during the financial year 2012 was RMB270.5 million, down by 85.7% as compared with RMB1,887.9 million last year. During 2012, the Group has transferred 13,529 sq.m in various projects as compared to 77,719 sq.m in 2011. Transfer in this year mainly comprised 9,062 sq.m of Yueyang Project and 4,069 sq.m of Harbin Project. As the location of the projects were different, the average transfer price of RMB19,997 per sq.m for this year was lower than that of RMB24,291 per sq.m last year.

#### Operating Lease Income

As we derive all our operating lease income from the lease of space in our shopping centres, our operating lease income for a given period depends primarily on the following factors: (i) the GFA of shops available for leasing during the period; and (ii) the average rental of shops during the period.

Revenue generated from operating lease income for this year increased by 16.6% to RMB416.2 million from RMB356.8 million last year. The increase in operating lease income was mainly attributed to the average increase in rental per sq.m of around 11.4%. In addition, upon opening of the malls in Handan, Putian, Fushun and Ganzhou in late 2011 and 2012, the Group recorded total rental income of RMB20.1 million from these four projects.

### **Cost of Sales**

Cost of sales mainly comprise the cost for the transfer of operation rights amounting to RMB143.4 million which represent either costs of construction of properties or carrying amount of properties relating to the operation rights transferred during the year. Cost for the transfer of operation rights decreased to RMB143.4 million this year from RMB648.0 million last year as a result of the decrease in the area of transfer to 13,529 sq.m from 77,719 sq.m last year. The costs of trading goods sold was RMB1.2 million.

### **Gross Profit**

Gross profit decreased to RMB543.5 million in 2012 from RMB1,596.7 million in last year.

Gross margin for the transfer operation rights decreased to 47.0% in 2012 from 65.7% in 2011 as the average transfer price realized decreased to RMB19,997 per sq.m from RMB24,291 per sq.m last year.

### **Net Valuation Gain on Investment Properties**

The net valuation gain on investment properties decreased to RMB2,162.8 million from RMB6,867.3 million in 2011 which was mainly due to less construction work was carried out this year as compared to last year. The net revaluation gain after deducting the related deferred tax and non-controlling interest was RMB1,514.8 million (2011: RMB4,945.5 million).

### **Other Income**

Other income slightly decreased by 1.9% to RMB121.3 million from RMB123.7 million. This mainly comprised of revenue from property management and relevant services.

### **Administrative Expenses**

Administrative expenses increased by 13.0% to RMB450.3 million in 2012 from RMB398.4 million in 2011, which is mainly due to the rise in depreciation, trip expenses and property tax expenses.

### **Other Operating Expenses**

Other operating expenses decreased by 1.5% to RMB305.4 million in 2012 from RMB310.1 million in 2011, principally due to decrease in advertisement expense after netting off the increase in staff costs and utilities expenses.

### **Finance Income**

Finance income decreased to RMB25.8 million in 2012 from RMB38.8 million in 2011 as a result of decrease in average bank balance.

### **Finance Expenses**

Finance expenses increased to RMB625.1 million in 2012 from RMB498.1 million in 2011. This was mainly attributable to the recording of the discount effect of trade receivables amounting to RMB200.0 million this year. This arose from the re-negotiation of repayment schedule with the buyers of operating rights.

## Management Discussion and Analysis

### Investment Properties

Investment properties, either completed or under construction, are revalued in accordance with the valuation report prepared by CB Richard Ellis Ltd., a professional firm of professional surveyors. The analysis of investment properties as at 31 December 2012 is as follows:

	2012 RMB'million	2011 RMB'million	Change RMB'million	Change %
Completed projects	15,095.8	13,281.6	1,814.2	13.7
Projects under construction	11,073.7	9,571.2	1,502.5	15.7
Total	26,169.5	22,852.8	3,316.7	14.5

The total value of investment properties increased by 14.5% to RMB26,169.5 million as at 31 December 2012 from RMB22,852.8 million last year as a result of increase in value of both completed projects and projects under construction. Completed projects increased by 13.7% to RMB15,095.8 million this year from RMB13,281.6 million last year which was mainly attributable to the completion of projects in Fushun, Ganzhou Phase 2 and Yueyang. Projects under construction increased by 15.7% to RMB11,073.7 million from RMB9,571.2 million which was mainly attributable to the projects under construction in Shenyang and Humen.

### Trade and Other Receivables

Trade and other receivables that were recorded as current asset as at 31 December 2012 was RMB2,612.8 million as compared with RMB5,341.1 million as at 31 December 2011. This balance mainly comprised trade receivables of RMB396.7 million arose from the transfer of operating rights which purchasers would obtain bank loan or use cash to settle and receivables of RMB1,589.2 million from disposal of subsidiaries. Up to 15 March 2013, around HKD200 million of the receivables from disposal of subsidiaries has been subsequently settled. In addition, there was an trade receivable booked as non-current asset amounted to RMB1,499.9 million as at 31 December 2012 (Nil as at 31 December 2011) which solely arose from the transfer of operation rights in previous year that the company has re-negotiated repayment schedules with the buyers to settle the outstanding balance within three years.

### Bank Deposits

The Group's bank deposits represented restricted bank deposits placed with several banks in PRC, either to assist our buyers of the operations right to obtain bank loan or as a security for our own bank loan.

Some of our subsidiaries in the People's Republic of China ("PRC") have entered into agreements with banks with respect to bank loans provided to our buyers of the operations right under which our subsidiaries made deposits as security for repayment of the loans under these agreements. These deposits will be released when the loans are repaid by the buyers. As at 31 December 2012, such deposits amounted to approximately RMB169.3 million (31 December 2011: RMB172.1 million).

In addition, deposits totalling RMB21.1 million was also made as at 31 December 2012 (31 December 2011: 163.6 million) to obtain bank loans for certain PRC subsidiaries.

### Liquidity and Financial Resources

As at 31 December 2012, total assets of the Group amounted to RMB37,653.2 million (31 December 2011: RMB36,127.7 million). For 2012, profit attributable to equity shareholders of the Company amounted to RMB895.3 million (31 December 2011: RMB5,270.7 million). In 2010, capital base of the Group has been strengthened as a result of net proceeds of RMB5,801.7 million through issuing Senior Notes 2015 of USD300,000,000 on 18 May 2010 and Senior Notes 2016 totalling USD600,000,000 on 10 September 2010 and 15 November 2010. The Senior Notes 2015 bear interest at 11.75% per annum, payable semi-annually in arrears, and will be due in 2015 while the Senior Notes 2016 bear interest at 13% per annum, payable semi-annually in arrears, and will be due in 2016.

In terms of available financial resources as at 31 December 2012, the Group's total available cash at bank and on hand was RMB1,233.4 million (31 December 2011: RMB2,153.9 million). The total restricted bank deposits was RMB190.4 million (31 December 2011: RMB335.6 million).

At the end of 2012, gearing ratio for the Group was 20.1%, which is calculated by dividing the interest bearing borrowings by total assets (31 December 2011: 20.5%).

The Group services its debts primarily with recurring cash flow generated from its operation. Together with the proceeds raised by our initial public offering and the second offering, the Board is confident that the Group has adequate financial resources to meet its future debt repayment and support its working capital and future expansion requirements.

Apart from the senior notes, the Group has bank loans totalling RMB2,021.8 million as at 31 December 2012 (2011: RMB1,862.1 million).

### Foreign Exchange Rate Risk

Renminbi is not freely convertible into foreign currencies. All foreign exchange transactions involving Renminbi must take place through People's Bank of China (the "PBOC") or other institutions authorised to buy and sell foreign exchange. The exchange rate adopted for the foreign exchange transactions are the rates of exchange quoted by the PBOC that would be subject to a managed float against an unspecified basket of currencies. Foreign currency payments, including the remittance of earnings outside China, are subject to the availability of foreign currency (which depends on the foreign currency denominated earnings of the Group) or must be arranged through the PBOC with government approval.

All cash and bank balances of the Group denominated in Renminbi were placed in banks in PRC. Renminbi is not freely convertible and the remittance of funds out of the PRC is subject to exchange restriction imposed by the PRC government. All the revenue-generating operations of the Group are transacted in Renminbi. The Group is exposed to foreign currency risk on financing transactions denominated in currencies other than the functional currency of the PRC subsidiaries (Renminbi) and functional currency of the overseas group entities (Hong Kong dollar). Depreciation or appreciation of the Renminbi and Hong Kong dollar against foreign currencies can affect the Group's results. The Group currently does not hedge our foreign exchange risk but may do so in the future.

## Management Discussion and Analysis

### Capital Commitments

As of 31 December 2012, the future capital expenditure for which the Group had contracted but unprovided for and authorized but not yet contracted amounted to approximately RMB2,628.5 million (31 December 2011: RMB2,604.9 million) and RMB3,650.1 million (31 December 2011: RMB5,582.5 million), respectively.

### Contingent Liabilities

#### **Guarantees**

The Group has provided guarantees and made deposits to bank to assist the buyers of operation rights to obtain bank loans. The outstanding guarantees as at 31 December 2012 amounted to RMB721.0 million (31 December 2011: RMB1,004.4 million). The guarantees and deposit will be released accordingly along with the repayment of loan principal by the buyers.

### Human Resources

As at 31 December 2012, the Group employed 3,446 staff (31 December 2011: 4,668). The Group's employees are remunerated according to the nature of job, individual performance and market trends with built-in merit components. Total remuneration for the year ended 31 December 2012 was approximately RMB235.0 million (2011: approximately RMB238.0 million). We have established a training programme that aims to support and encourage members of our management team to continue improving their management skills, including arranging for seminars and their skill and develop their careers. We provide orientation training as well as on-the-job training on a regular basis on various topics, such as internal regulations, computer and management skills, sales skills and career development. Employees in Hong Kong participate in Mandatory Provident Fund scheme, and employees in Mainland China also participate in similar schemes.

In order to reward and motivate our employees, Wealthy Aim Holdings Limited which is previously owned by the Company's controlling shareholder and total shareholdings subsequently transferred to Broad Long Limited, a private company incorporated in the British Virgin Islands which is in turn wholly-owned by an employee of the Company to streamline the administration and the management of the pre-IPO option scheme, implemented a management incentive scheme by granting rights to selected employees and other individuals who have made contributions to our Group. An option scheme was also adopted by our shareholders at the extraordinary general meeting held on 25 August 2008 to provide an incentive for, amongst others, our employees to work with commitment towards enhancing the value of the Company.

### Dividend

# Corporate Governance Report

## Introduction

The Company recognizes the importance of corporate transparency and accountability. The Company is committed in achieving a high standard of corporate governance and leading the Group to attain better results and improve our image with effective corporate governance procedures.

Since listing, the Company had adopted the code provisions as set out in the Former Code and the Revised Code, save and except for the following:

### Code Provision A.2.1

Mr. Dai Yongge is the Chairman and Chief Executive Officer of the Company. With extensive experience in the management of underground shopping centres, Mr. Dai is responsible for the Group's overall strategic planning and the management of our business. The Board considers that vesting the roles of chairman and chief executive officer in the same person is beneficial to the business prospects and management of the Group. The balance of power and authority is ensured by the operation of the senior management and the Board, which comprise experienced and high caliber individuals. The Board currently comprises seven executive directors, three non-executive directors and five independent non-executive directors and therefore has a strong independence element in its composition.

### Code Provision A.2.7

The Chairman of the Company did not hold any formal meeting with the independent non-executive directors and other non-executive directors due to the tight schedule of the Chairman and the non-executive directors. The Chairman may communicate with the independent non-executive directors and other non-executive directors on a one-to-one or group basis to understand their concerns and to discuss pertinent issues.

### Code Provision A.6.7 and E.1.2

The Chairman of the Company and certain independent non-executive directors and other non-executive directors did not attend the AGM held on 26 June 2012 due to other business commitments or being overseas. In absence of the Chairman, Mr. Wang Hongfang, an executive director of the Company, acted as the Chairman of the AGM. The Board will finalize and inform the date of the AGM as earliest as possible to make sure that the Chairman and other non-executive directors (including independent non-executive directors) would attend the AGM of the Company in the future.

Save as disclosed above, there has been no deviation from the code provisions in the Former Code and the Revised Code of the Company for the year ended 31 December 2012.

## Corporate Governance Report

### Compliance with the Model Code for Securities Transactions by Directors

The Company has adopted the Model Code contained in Appendix 10 to the Listing Rules as the guidelines for the Directors' dealings in the securities of the Company. Upon specific enquiries of all the Directors, each of them confirmed that they have complied with the required standards set out in the Model Code during the year ended 31 December 2012 (the "Relevant Period") in relation to their securities dealings, if any.

### Directors' Training

All Directors have been given relevant guideline materials regarding the duties and responsibilities of being as a Director, the relevant laws and regulations applicable to the Directors, duty of disclosure of interests and business of the Group. Such induction materials will also be provided to newly appointed Directors shortly upon their appointment as Directors.

During the year, the Company continuously updated the Directors on the latest developments regarding the Listing Rules and other applicable regulatory requirements, to ensure compliance and enhance their awareness of good corporate governance practices. All Directors were encouraged to participate in continuous professional development by attending seminars/in-house briefing/reading materials on different topics to develop and refresh their knowledge and skills.

### The Board

The Board is responsible for the leadership and control of the Company and overseeing the Group's business, strategic decisions and performances. The management is delegated with the authority and responsibility by the Board for the management of the Group. In addition, the Board has also established various Board committees on 25 August 2008 and has delegated various responsibilities to the Board committees including the audit committee (the "Audit Committee"), the remuneration committee (the "Remuneration Committee") and the nomination committee (the "Nomination Committee") (together, the "Board Committees"). All the Board Committees perform their distinct roles in accordance with their respective terms of reference. Further details of these committees are set out hereunder.

All of the non-executive Directors and independent non-executive Directors are appointed for a term of one year, which are subject to retirement in accordance with the articles of association of the Company (the "Articles"). According to the Articles, at each AGM, one-third of the Directors for the time being (or, if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation provided that every Director shall be subject to retirement at an AGM at least once every three years.

The Company has received from each of the independent non-executive Directors a confirmation of his independence in accordance with Rule 3.13 of the Listing Rules. The Company considers all of the independent non-executive Directors are independent.

The Board reviews its own structure, size and composition regularly to ensure that it has a balance of expertise, skills and experience appropriate to the requirements of the business of the Company.

During the year under review, the Board held five meetings and attendance of each Director at the meetings and AGM is set out below:

# Independent Auditor's Report

## **Independent auditor's report to the shareholders of Renhe Commercial Holdings Company Limited**

*(Incorporated in the Cayman Islands with limited liability)*

We have audited the consolidated financial statements of Renhe Commercial Holdings Company Limited ("the Company") and its subsidiaries (together "the Group") set out on pages 43 to 123, which comprise the consolidated and company balance sheets as at 31 December 2012, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

## **Directors' responsibility for the consolidated financial statements**

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards promulgated by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Independent Auditor's Report

### Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2012 and of the Group's profit and cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

# Notes to the Financial Statements

(Expressed in Renminbi)

## 1 General information

Renhe Commercial Holdings Company Limited (the "Company") was incorporated in the Cayman Islands on 20 November 2007 and registered as an exempted company with limited liability under the Companies Law Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The Company and its subsidiaries (collectively referred to as the "Group") are principally engaged in development, lease and management of shopping mall in the People's Republic of China (the "PRC").

## 2 Significant accounting policies

### (a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) and its interpretations promulgated by the International Accounting Standards Board (IASB) and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). A summary of the significant accounting policies adopted by the Group is set out below.

The IASB has issued certain new and revised IFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

### (b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2012 comprise the Company and its subsidiaries. The measurement basis used in the preparation of the financial statements is the historical cost basis except for the investment properties which are stated at their fair value (Note 2(h)).

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other resources. Actual results may differ from these estimates.

## 2 Significant accounting policies *(Continued)*

### (b) Basis of preparation of the financial statements *(Continued)*

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 36.

### (c) Functional and presentation currency

The consolidated financial statements are presented in Renminbi ("RMB"), rounded to the nearest thousand, which is the functional currency of the subsidiaries carrying on the principal activities of the Group. The Company and its overseas subsidiaries' functional currency is Hong Kong dollar ("HKD"). Since the Group's operations are conducted in the PRC, the Group has adopted RMB as its presentation currency.

### (d) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The Group measures goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies (Continued)

#### (d) Business combinations (Continued)

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

#### (e) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances and transactions and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at their proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated balance sheet within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated income statement and the consolidated statement of comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

## 2 Significant accounting policies *(Continued)*

### (e) Subsidiaries and non-controlling interests *(Continued)*

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss.

In the Company's balance sheet, an investment in a subsidiary is stated at cost less impairment losses (Note 2(l)).

### (f) Goodwill

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see Note 2(l)).

On disposal of a cash generating unit during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

### (g) Derivative financial instruments

Derivative financial instruments are recognised initially at fair value. At the end of each reporting period the fair value is remeasured. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

### (h) Investment property

Investment properties are land and/or buildings which are owned or held under a leasehold interest (see Note 2(k)) to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property.

Investment properties are stated at fair value, unless they are still in the course of construction or development at the end of the reporting period and their fair value cannot be reliably determined at that time. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognised in profit or loss. Rental income from investment properties is accounted for as described in Note 2(u)(i).

Transfers to, or from, investment properties are made when, and only when, there is a change in use. For a transfer from investment property carried at fair value to inventories, the property's deemed cost shall be its fair value at the date of change in use. For a transfer from inventories to investment property that will be at fair value, any difference between the fair value of the property at that date and its previous carrying amount should be recognised in profit or loss.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies (Continued)

#### (h) Investment property (Continued)

When the Group holds a property interest under an operating lease to earn rental income and/or for capital appreciation, the interest is classified and accounted for as an investment property on a property-by-property basis. Any such property interest which has been classified as an investment property is accounted for as if it were held under a finance lease (see Note 2(k)), and the same accounting policies are applied to that interest as are applied to other investment properties leased under finance leases. Lease payments are accounted for as described in Note 2(k).

#### (i) Property and equipment

##### (i) Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses (Note 2(l)(ii)).

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the asset to a working condition for its intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs.

When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

The gain or loss on disposal of an item of property and equipment is determined by comparing the proceeds from disposal with the carrying amount of property and equipment and is recognised net within "other income" in profit or loss.

##### (ii) Subsequent costs

The cost of replacing a component of an item of property and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied with the component will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property and equipment are recognised in profit or loss as incurred.

## 2 Significant accounting policies *(Continued)*

### (i) Property and equipment *(Continued)*

#### ***(iii) Depreciation***

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property and equipment.

The estimated useful lives for current and comparative years are as follows:

- Office equipment 5 years
- Vehicles 5-20 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

### (j) Intangible assets (other than goodwill)

Intangible assets that are acquired by the Group are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment losses (see Note 2(l)).

Amortisation of intangible assets with finite useful lives is charged to profit or loss on a straight-line basis over the assets' estimated useful lives.

Intangible assets are not amortised while their useful lives are assessed to be indefinite. Any conclusion that the useful life of an intangible asset is indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for that asset. If they do not, the change in the useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortisation of intangible assets with finite lives as set out above.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies (Continued)

#### (k) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

#### (i) Classification of assets leased to the Group

Assets that are held by the Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exceptions:

- property held under operating leases that would otherwise meet the definition of an investment property is classified as investment property on a property-by-property basis and, if classified as investment property, is accounted for as if held under a finance lease (see Note 2(h)); and
- land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

#### (ii) Assets acquired under finance leases

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are included in fixed assets and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost or valuation of the assets over the term of the relevant lease or, where it is likely the Group will obtain ownership of the asset, the life of the asset, as set out in Note 2(i). Impairment losses are accounted for in accordance with the accounting policy as set out in Note 2(l). Finance charges implicit in the lease payments are charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

## 2 Significant accounting policies *(Continued)*

### (k) Leased assets *(Continued)*

#### (iii) Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

The cost of acquiring land held under an operating lease is amortised on a straight-line basis over the period of the lease term except where the property is classified as an investment property (see Note 2(h)) or is held for development for sale (see Note 2(m)(i)).

### (l) Impairment

#### (i) Impairment of investments in subsidiaries and other receivables

Investments in subsidiaries and other current and non-current receivables that are stated at cost or amortised cost are reviewed at the balance sheet date to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

### 2 Significant accounting policies (Continued)

#### (I) Impairment (Continued)

##### (i) Impairment of investments in subsidiaries and other receivables (Continued)

If any such evidence exists, any impairment loss is determined and recognised as follows:

- For investments in subsidiaries, the impairment loss is measured by comparing the recoverable amount of the investment with its carrying amount in accordance with Note 2(l)(ii). The impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount in accordance with Note 2(l)(ii).
- For trade and other current receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade debtors included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade debtors directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

## 2 Significant accounting policies *(Continued)*

### (I) Impairment *(Continued)*

#### (ii) **Impairment of other assets**

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property and equipment;
- intangible assets; and
- goodwill.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

- Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

- Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, or value in use, if determinable.

### 2 Significant accounting policies (Continued)

#### (I) Impairment (Continued)

##### (ii) Impairment of other assets (Continued)

- Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

##### (iii) Interim financial reporting and impairment

Under the Listing Rules, the Group is required to prepare an interim financial report in compliance with IAS 34, *Interim financial reporting*, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see Notes 2(I)(i) and (ii)).

Impairment losses recognised in an interim period in respect of goodwill carried at cost are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

## 2 Significant accounting policies *(Continued)*

### (m) Inventories

Inventories are carried at the lower of cost and net realisable value. Cost and net realisable value are determined as follows:

#### (i) *Property development*

Inventories in respect of property development activities represent units of shopping mall under development and completed units of which operation rights will be transferred subsequently. The cost of inventories comprises specifically identified cost, including the acquisition cost of land, aggregate cost of development, materials and supplies, wages and other direct expenses, an appropriate proportion of overheads and borrowing costs capitalised (Note 2(w)). Net realisable value represents the estimated selling price less estimated costs of completion and costs to be incurred in transferring the operation right of units.

#### (ii) *Trading goods*

Cost is calculated using the specific identification of their individual costs and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any written-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

### (n) Trade and other receivables

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method, less allowance for impairment losses for bad and doubtful debts (Note 2(l)(i)).

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies *(Continued)*

#### (o) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

#### (p) Trade and other payables

Trade and other payables are initially recognised at fair value. Except for financial guarantee liabilities measured in accordance with Note 2(t)(i), trade and other payables are subsequently stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

#### (q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

#### (r) Employee benefits

##### (i) **Short term employee benefits and contributions to defined contribution retirement plans**

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

## 2 Significant accounting policies (Continued)

### (r) Employee benefits (Continued)

#### (ii) Share-based payments

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a reserve within equity. The fair value is measured at grant date, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/credited to the profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares.

### (s) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies *(Continued)*

#### (s) Income tax *(Continued)*

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

## 2 Significant accounting policies *(Continued)*

### (s) Income tax *(Continued)*

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

### (t) Financial guarantees issued, provisions and contingent liabilities

#### (i) Financial guarantees issued

Financial guarantees are contracts that require the issuer (i.e. the guarantor) to make specified payments to reimburse the beneficiary of the guarantee (the “holder”) for a loss the holder incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument.

Where the Group issues a financial guarantee, the fair value of the guarantee (being the transaction price, unless the fair value can otherwise be reliably estimated) is initially recognised as deferred income within trade and other payables. Where consideration is received or receivable for the issuance of the guarantee, the consideration is recognised in accordance with the Group’s policies applicable to that category of asset where no such consideration is received or receivable, an immediate expense is recognised in profit or loss on initial recognition of any deferred income.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 2 Significant accounting policies *(Continued)*

#### (t) Financial guarantees issued, provisions and contingent liabilities *(Continued)*

##### (i) **Financial guarantees issued** *(Continued)*

The amount of the guarantee initially recognised as deferred income is amortised in the profit or loss over the term of the guarantee as income from financial guarantees issued. In addition, provisions are recognised in accordance with Note 2(t)(ii) if and when (i) it becomes probable that the holder of the guarantee will call upon the Group under the guarantee, and (ii) the amount of that claim on the Group is expected to exceed the amount currently carried in trade and other payables in respect of that guarantee i.e. the amount initially recognised, less accumulated amortisation.

##### (ii) **Contingent liabilities assumed in business combinations**

Contingent liabilities assumed in a business combination which are present obligations at the date of acquisition are initially recognised at fair value, provided the fair value can be reliably measured. After their initial recognition at fair value, such contingent liabilities are recognised at the higher of the amount initially recognised, less accumulated amortisation where appropriate, and the amount that would be determined in accordance with Note 2(t)(iii). Contingent liabilities assumed in a business combination that cannot be reliably fair valued or were not present obligations at the date of acquisition are disclosed in accordance with Note 2(t)(iii).

##### (iii) **Other provisions and contingent liabilities**

Provisions are recognised for other liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

## 2 Significant accounting policies *(Continued)*

### (u) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

#### (i) *Lease income from operating lease*

Lease income from operating lease is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised in profit or loss as an integral part of the total lease income, over the term of the lease. Contingent rentals are recognised as income in the accounting period in which they are earned.

#### (ii) *Revenue from transfer of operation rights*

Revenue from transfer of operation rights in the ordinary course of business is recognised when all of the following criteria are satisfied:

- the significant risks and rewards of the operation rights have been transferred to the customers;
- neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the properties are retained;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue from transfer of operation rights excludes sales tax and is after deduction of any trade discounts.

### 2 Significant accounting policies (Continued)

#### (u) Revenue recognition (Continued)

##### (iii) Sales of goods

Revenue is recognised when goods are delivered at the customers' premises which is taken to be the point in time when the customer has accepted the goods and the related risks and rewards of ownership. Revenue excludes value added tax or sales taxes and is after deduction of any trade discounts.

##### (iv) Services

Revenue from services rendered is recognised in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed.

##### (v) Dividends

- Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established.
- Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

##### (vi) Interest income

Interest income is recognised as it accrues using the effective interest method.

##### (vii) Government grants

Government grants are recognised in the consolidated balance sheet when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as revenue in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

## 2 Significant accounting policies *(Continued)*

### (v) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of each reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was determined.

The results of foreign operations are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Balance sheet items are translated into RMB at the closing foreign exchange rates at the end of each reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation is reclassified from equity to profit or loss when the profit or loss on disposal is recognised.

### (w) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

#### (x) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
- (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

### (y) Dividends

Dividends are recognised as a liability in the period in which they are declared.

### (z) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

The Group manages its business in a single segment, namely the shopping mall operating business. The Group's most senior executive management assesses performance and allocates resources on a group basis. Accordingly, no operating segment information is presented.

As the Group's operations are all located in the PRC, no geographic segment reporting is presented.

## 3 Changes in accounting policies

The IASB has issued several amendments to IFRSs that are first effective for the current accounting period of the Group. Of these, the following developments are relevant to the Group's financial statements:

- Amendments to IFRS 7, Financial instruments: Disclosures – Transfers of financial assets
- Amendments to IAS 12, Income taxes – Deferred tax: Recovery of underlying assets

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 3 Changes in accounting policies (Continued)

#### Amendments to IFRS 7, Financial instruments: Disclosures

The amendments to IFRS 7 require certain disclosures to be included in the financial statements in respect of transferred financial assets that are not derecognised in their entirety and for any continuing involvement in transferred financial assets that are derecognised in their entirety, irrespective of when the related transfer transaction occurred. However, an entity need not provide the disclosures for the comparative period in the first year of adoption. The Group did not have any significant transfers of financial assets in previous periods or the current period which require disclosure in the current accounting period under the amendments.

#### Amendments to IAS 12, Income taxes

Under IAS 12 deferred tax is required to be measured with reference to the tax consequences that would follow from the manner in which the entity expects to recover the carrying amount of the asset(s) in question. In this regard, the amendments to IAS 12 introduced a rebuttable presumption that the carrying amount of investment properties carried at fair value under IAS 40, *Investment property*, will be recovered through sale. This presumption is rebutted on a property-by-property basis if the investment property in question is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. Since the Group's investment properties are located in Mainland China, the Group determined that these properties are held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time and consequently the presumption in the amended IAS 12 is rebutted for these properties. As a result, the Group continues to measure the deferred tax relating to these investment properties using the tax rate that would apply as a result of recovering their value through use.

### 9 Income tax (Continued)

#### (a) Income tax in the consolidated income statement represents: (Continued)

- (i) According to the Corporate Income Tax Law of the PRC, from 1 January 2008, the statutory income tax rate applicable to the Group's subsidiaries in the PRC is 25%.
- (ii) According to the Implementation Rules of the Corporate Income Tax Law, the overseas investor to foreign investment enterprises ("FIEs") shall be liable for withholding tax at 10% on the dividend derived from the profits of the year 2008 and thereafter of the FIEs in the PRC. In addition, tax treaties between the PRC and other countries could override the withholding tax rate on dividend if a tax treaty provides a more favourable withholding tax rate. Under the Sino-Hong Kong Double Tax Arrangement, a Hong Kong company will be liable for withholding tax at the rate of 5% for dividend income derived from the PRC if the Hong Kong Company holds 25% of equity interests or more of the Chinese company directly. As the holding companies of such FIEs in the Group are Hong Kong companies (the "Group's Hong Kong Holding Companies"), the Group calculated relevant withholding tax based on the withholding tax rate of 5%.
- Along with the implementation of Circular of the State Administration of Taxation on How to Understand and Determine "Beneficial Owners" under Tax Conventions (Guo Shui Han [2009] No. 601), the Group's Hong Kong Holding Companies need to get approval from tax authorities for the determination of "beneficial owners" for the purpose of enjoying withholding tax rate of 5%. As at 31 December 2012, the Group obtained all the approvals for the PRC companies which declared dividends.
- (iii) Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands (the "BVI"), the Group is not subject to any income tax in the Cayman Islands and the BVI.
- (iv) No provision for Hong Kong Profits Tax has been made as the Group did not earn any income subject to Hong Kong Profits Tax during the year.
- (v) In accordance with the Land Appreciation Tax Law of the PRC, Land Appreciation Tax is levied at the properties developed with legal title by the Group for sale in the PRC. Land Appreciation Tax is charged on the appreciated amount at progressive rates ranged from 30% to 60%.

#### (b) Reconciliation between tax expenses and accounting profit at applicable tax rates:

All of the investment properties owned by the Group are located in the PRC.

All completed and under development investment properties of the Group were revalued at 31 December 2012 by CB Richard Ellis Ltd. ("CBRE"), an independent firm of professional surveyors who have among their staff Fellows of the Hong Kong Institute of Surveyors with recent experience in the location and category of property being valued. The Group's completed investment properties were valued in their existing states by reference to comparable market transactions. The Group's investment properties under construction were valued by estimating the fair value of such properties as if they were completed in accordance with the relevant development plan and then deducting from that amount the estimated costs to complete the construction, financing costs, marketing and legal costs and an allowance for developer's risk and profit.

### 16 Investment properties *(Continued)*

As at 31 December 2012, investment properties with original cost of RMB1,742,096,000 (31 December 2011: RMB1,452,903,000) were pledged as security for the Group's interest-bearing borrowings (Note 24).

### 17 Goodwill

Goodwill relates to the acquisition of Wuxi Project, which is identified to be a cash-generating unit (CGU). The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use cash flow projection based on financial budgets approved by management covering a 10-year period. Cash flows beyond the 10-year period are extrapolated using an estimated weighted average growth rate of 4%. The cash flows are discounted using a discount rate of 7.7%. The discount rate used is pre-tax and reflect specific risks relating to the business.

Except as disclosed in Note 20(i) below, the balance of trade and other receivables are expected to be settled or recovered within one year.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 20 Trade and other receivables (Continued)

#### (i) Trade receivables arose from the transfer of operation rights

The Group normally requested a 30%-50% cash payment upon the purchase from buyers and the remaining balance would be mainly settled by loans obtained by buyers from commercial banks or by cash. As at 31 December 2012, the Group is in the process of negotiating the cash payment schedule with the buyers or arranging loans with banks for the buyers of the shopping mall units. As at 31 December 2012, the management estimated the receivables will be recovered:

	2012 RMB'000
Within one year	396,671
Over one year	1,499,918
	<b>1,896,589</b>

#### (ii) Ageing analysis

Included in trade and other receivables are trade receivables with the following ageing analysis as of the balance sheet date:

	2012 RMB'000	2011 RMB'000
Within 6 months	65,281	1,118,224
6 months to 1 year	–	52,079
More than 1 year	1,831,308	1,224,677
	<b>1,896,589</b>	2,394,980

## 20 Trade and other receivables *(Continued)*

### (iii) Impairment of trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly (Note 2(l)(i)).

### (iv) Trade receivables that are not impaired

All of the trade receivables are neither individually nor collectively considered to be impaired.

Receivables that were past due but not impaired relate to a number of independent buyers of operation rights who are in the process of getting bank loans to finance the payment or have determined to cease applying for bank loans and instead have begun the process of negotiating semi-annual instalment payment schedule with the Group. As at 15 March 2013, the amount of receivables which were agreed to be settled in cash by instalment was RMB1,156,485,000. During the year ended 31 December 2012, the Group re-performed credit evaluations for all buyers who have unsettled receivables. In addition, according to the terms in the operation rights transfer agreement, if the buyers fail to repay the receivables of the Group, the Group is entitled to transfer the operation rights to other buyers to indemnify the loss of the Group. Based on the assessment of these buyers' credit quality and the indemnification the Group is entitled to, the directors of the Company are of the opinion that the trade receivables are collectible and no impairment is considered necessary.

For details of the Group's credit policy and analysis on credit risk, please refer to Note 32(a).

### (v) Amounts due from subsidiaries

Amounts due from subsidiaries are unsecured, interest free and have no fixed repayment term.

	<b>1,589,224</b>	<b>2,446,573</b>	<b>1,147,600</b>	<b>1,147,388</b>

(a) In 2010, the Group disposed of 100% equity interest of five wholly-owned subsidiaries registered in the BVI at a total consideration of HKD4,666,838,000. Up to 31 December 2012, all the consideration has been settled.

(b) Other receivables represent the amounts due from the subsidiaries disposed of at the date of disposal. Shares of these five disposed BVI entities were pledged to the Group. In addition, the directors of the buyers provided guarantee to the Group in respect of the repayment. As at the date of this report, HKD200 million has been subsequently settled. The Group has been chasing the buyers to settle the remaining balance. However, the buyers have requested for the negotiation of the amount to be paid due to some issues noted in the disposed subsidiaries. The directors of the Company believe the Group has no legal obligation to fulfil the buyers' request and is entitled to enforce its rights under the share pledge agreement and personal guarantee to secure the collection of the receivables. However, the directors of the Company are considering all factors such as legal and commercial in arriving at the plan to deal with these requests.

#### (vii) Deposits for acquisition

The balances represent deposits made as a security for acquisition of a new project in Mainland China. The acquisition plan has been cancelled by the Group and the deposit is subsequently received by the Group in January 2013.

### 21 Other assets (Continued)

- (i) Bank deposits represent deposits for guarantees for loans: (Continued)
- (a) The Group's subsidiaries in PRC have entered into agreements with certain banks with respect to loans provided to buyers of the operation rights. The Group makes deposits as security for repayment of the loans under these agreements. The deposits will be released along with the repayment of loan principal by the buyers.
- (b) The amounts of the Group represent deposits made as security to obtain the bank loans from certain PRC banks (Note 24(i)(b)). The deposit will be released along with the Group's repayment of such related bank loans.
- As at 31 December 2011, the amount of the Company represented the bank deposits secured for the two-year bank loan facility obtained by a PRC subsidiary in 2011. The PRC subsidiary has not fully used the facility and repaid the loans in 2012. The security has been released accordingly.
- (ii) Prepayments for construction mainly include prepayments for purchase of steel amounting to RMB326,930,000 (31 December 2011: RMB570,000,000) and prepayments for constructors amounting to RMB1,000,803,000 (31 December 2011: RMB1,335,672,000).
- (iii) Prepayment for acquisition of non-controlling interests represents prepayment for the acquisition of the entire issued share capital of Wise Track Group Limited which holds 10% equity interest in Dongguan New World, one of the Group's PRC subsidiaries. The Group has not completed the above acquisition as at 31 December 2012.

#### (d) Nature and purpose of reserves

##### (i) Share premium

The share premium represents the difference between the par value and the proceeds from the issuance of the shares of the Company and the difference between the par value and the consideration paid on the repurchase of the shares of the Company. The application of the share premium account is governed by the Companies Law of the Cayman Islands. Under the Companies Law, the funds in the share premium account of the Company are distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of the business.

## 26 Capital and reserves *(Continued)*

### (d) Nature and purpose of reserves *(Continued)*

#### (ii) **Capital redemption reserve**

Pursuant to section 37 Companies Law of the Cayman Islands, capital redemption reserve represents the par value of the shares of the Company cancelled and transferred from the retained earnings.

#### (iii) **Capital surplus**

Capital surplus mainly represents the book value of assets injected by the investors of Harbin Baorong and Harbin Renhe Century in excess of their share of the registered capital, and the fair value of the estimated number of unexercised share options granted to employees of the Company (Note 28) recognised in accordance with the accounting policy adopted for share-based payments in Note 2(r)(ii).

#### (iv) **Reserve fund**

Pursuant to the Articles of Association of the PRC subsidiaries comprising the Group, appropriations to the general reserve fund were made at a certain percentage of profit after tax determined in accordance with the accounting rules and regulations of the PRC. The percentage for this appropriation was decided by the directors of the subsidiaries. From 1 January 2008, the Group's PRC subsidiaries are required to transfer 10% of their profit after tax to statutory reserve fund in accordance with the relevant PRC regulations since these subsidiaries became wholly foreign owned enterprises by then. The transfer could no longer be recognised when the accumulated statutory reserve fund reaches 50% of the registered capital. This reserve fund can be utilised in setting off accumulated losses or increasing capital of the subsidiaries and is non-distributable other than in liquidation.

#### (v) **Exchange reserve**

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

#### (vi) **Merger reserves**

The merger reserves represent the aggregate amount of paid-in capital of the PRC subsidiaries now comprising the Group after elimination of investments in these subsidiaries.

### 26 Capital and reserves *(Continued)*

#### (e) Distributability of reserves

For dividend purposes, the amount which the PRC subsidiaries can legally distribute by way of a dividend is by reference to the profits as reflected in their PRC statutory financial statements prepared in accordance with the accounting rules and regulations of the PRC. These profits differ from those reflected in this report, which are determined in accordance with IFRSs.

As at 31 December 2012, the aggregate amount of reserves available for distribution to equity shareholders of the Company was RMB4,302,319,000 (2011: RMB5,097,344,000). After the balance sheet date, no dividend was proposed by the directors (2011: Nil).

#### (f) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can fund its development, lease and management of shopping malls, and continue to provide returns for shareholders, by pricing rental and operation rights and property management services commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of a gearing ratio, being the interest-bearing borrowings divided by the total assets. As at 31 December 2012, the gearing ratio of the Group was 20.14% (31 December 2011: 20.51%).

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

### 27 Employee benefit plan

#### (a) Defined contribution retirement benefit schemes

Pursuant to the relevant labour rules and regulations in the PRC, the Group participates in defined contribution retirement benefit schemes (the "Schemes") organised by the relevant local government authorities in the cities the PRC subsidiaries operate. The Group is required to make contributions to the Schemes at the rate ranges from 12% to 22% of the eligible employee's salaries. The local government authorities are responsible for the entire pension obligations payable to retired employees.

The Group has no other obligation for the payment of pension benefits associated with the Schemes and other post-retirement benefits beyond the annual contributions described above.

### 27 Employee benefit plan *(Continued)*

#### (a) Defined contribution retirement benefit schemes *(Continued)*

The Group also operates a Mandatory Provident Fund Scheme (the “MPF scheme”) under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance and not previously covered by the defined benefit retirement plan. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees’ relevant income, subject to a cap of monthly relevant income of HKD25,000. Contributions to the plan vest immediately.

### 28 Equity settled share-based transactions

#### (a) Share option scheme granted on 15 April 2008

Wealthy Aim Holdings Limited (“Wealthy Aim”) adopted a share option scheme on 15 April 2008 whereby Wealthy Aim invited employees of the Group to take up options at HKD1 consideration to acquire shares of the Company from Wealthy Aim. Each option gives the holder the right to acquire one ordinary share in the Company.

	<b>29,357</b>	50,854

### 31 Capital commitments

As at 31 December 2012, the Group has the following commitments in respect of the development of shopping malls not provided for in the financial statements:

	<b>2012</b> <b>RMB'000</b>	2011 RMB'000
Contracted for	<b>2,628,549</b>	2,604,863
Authorised but not contracted for	<b>3,650,096</b>	5,582,488
	<b>6,278,645</b>	8,187,351

### 32 Financial risk management and fair values

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

#### (a) Credit risk

Cash is deposited with financial institutions with acceptable credit quality. Except for cash of the Group's PRC subsidiaries deposited in the PRC banks, cash in the Group's subsidiaries outside PRC was deposited in The Hong Kong and Shanghai Banking Corporation Limited, Bank of China (Hong Kong) Limited, China Merchants Bank and China Minsheng Banking Corp., Ltd. (Hong Kong Branch). Management does not expect any of these financial institutions will fail to meet their obligations.

The Group's credit risk is primarily attributable to trade and other receivables. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

## Notes to the Financial Statements

(Expressed in Renminbi)

### 32 Financial risk management and fair values *(Continued)*

#### (a) Credit risk *(Continued)*

Credit evaluations are performed on all customers requiring credit over a certain amount. Given the Group requests the tenants to pay rental and other service fees in advance, the credit risks of rental and service fee receivables are considered low. In respect of the balances of trade receivables due from the buyers of the operation rights, the Group normally provides credit period of 6 months and arranges bank financing for buyers up to 70% of the total purchase price and provides guarantee to secure repayment obligations of the buyers or agrees cash repayment schedule with buyers to settle the outstanding balance within one to three years. In the year 2012, the Group requests at least 50% of purchase price as down payment to reduce the credit risk. The overdue receivables are reviewed and the credits of the customers are reassessed.

In addition, if a buyer fails to repay the bank loans, the bank may demand the Group to repay the outstanding amount of the loans and any unpaid interests thereon. Under such circumstances, the Group is entitled to indemnification from the buyers which includes to transfer the operation rights to other buyers to recover any amounts paid by the Group to the bank but there can be no assurance that the price of the transfer of operation rights can be equal to or greater than the amount of loan principals and interests requested by the bank. If a buyer fails to pay the considerations of transfer of operation rights, the Group could also get the same indemnification from buyers as it fails to repay the loans.

As at 15 March 2013, RMB34,932,000 of trade receivables have been subsequently collected.

#### (b) Liquidity risk

The Group manages cash including the short term investment of cash surpluses and the raising of loans to cover expected cash demands on a group basis. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. There is no unused bank facilities as at 31 December 2012 (31 December 2011: RMB23,500,000).

### (c) Interest rate risk

The Group's interest rate risk arises primarily from long-term interest-bearing borrowings. The interest rates of the Group's interest-bearing borrowings are disclosed in Note 24.

As at 31 December 2012, it is estimated that a general increase/decrease of 100 basis point in borrowing interest rates for bank loans with floating interest rates, with all other variable held constant, would decrease/increase the Group's profit after tax and retained earnings by approximately RMB12,652,000 (31 December 2011: 9,365,000).

## Notes to the Financial Statements

(Expressed in Renminbi)

### 32 Financial risk management and fair values *(Continued)*

#### (c) Interest rate risk *(Continued)*

Given the current turbulent market, the estimated increase/decrease in interest rates are based on the Group's best estimate considering the historical information and the forecast of the future economic situation. The actual interest rate fluctuation may be different from the Group's estimate.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the balance sheet date and had been applied to the exposure to interest rate risk for non-derivative financial instruments in existence at that date. The 100 basis point increase or decrease represents management's assessment of a reasonable possible change in respective interest rates over the period until the next annual balance sheet date. The analysis is performed on the same basis for 2011.

#### (d) Foreign currency risk

RMB is not freely convertible into foreign currencies. All foreign exchange transactions involving RMB must take place through the People's Bank of China ("PBOC") or other institutions authorised to buy and sell foreign exchange. The exchange rate adopted for the foreign exchange transactions are the rates of exchange quoted by the PBOC that would be subject to a managed float against an unspecified basket of currencies.

Foreign currency payments, including the remittance of earnings outside the PRC, are subject to the availability of foreign currency (which depends on the foreign currency denominated earnings of the Group) or must be arranged through the PBOC with government approval.

All the Group's cash and bank balances in RMB were placed with banks in the PRC. RMB is not a freely convertible currency and the remittance of funds out of the PRC is subject to the exchange restriction imposed by the PRC government.

All the revenue-generating operations of the Group are transacted in RMB. The Group is exposed to foreign currency risk on financing transactions denominated in currencies other than the functional currency of the PRC subsidiaries (RMB) and the overseas group entities (HKD). Depreciation or appreciation of the RMB and HKD against foreign currencies can affect the Group's results. The Group did not hedge its foreign currency exposure.

### 32 Financial risk management and fair values *(Continued)*

#### (d) Foreign currency risk *(Continued)*

The following table indicates the approximate change in the Group's profit after tax in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the balance sheet date. This analysis assumes that all other variables, in particular interest rates, remain constant.

	2012		2011	
	Increase/ (decrease) in foreign exchange rates	Increase/ (decrease) in profit after tax (RMB'000)	Increase/ (decrease) in foreign exchange rates	Increase/ (decrease) in profit after tax (RMB'000)
HKD	0.4% (0.4)%	22,098 (22,098)	0.4% (0.4)%	21,537 (21,537)
RMB	5% (5)%	(15,058) 15,058	5% (5)%	(37,425) 37,425

Given the current turbulent market, the reasonably possible changes estimated by the Group are based on the Group's best estimate considering the historical information and the forecast of the future economic situation. Actual changes in foreign exchange rates may be different from the Group's estimate.

#### (e) Fair value

The Group has no financial instruments carried at fair value. The carrying amount of the Group's and the Company's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 31 December 2012 and 2011. The fair value is estimated as the present value of future cash flows, discounted at current market interest rates for similar financial instruments.

## Notes to the Financial Statements

(Expressed in Renminbi)

### **34 Possible impact of amendments, new standards and interpretations issued but not yet adopted** *(Continued)*

The Group is in the process of making an assessment of what the impact of these amendments, new standards and interpretations is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Group's results of operations and financial position.

### **35 Ultimate holding company**

The directors of the Company consider the ultimate holding company of the Company as at 31 December 2012 to be Shining Hill Investments Limited, which is incorporated in the BVI.

### **36 Accounting judgement and estimates**

The Group's financial condition and results of operations are sensitive to accounting methods, assumptions and estimates that underlie the preparation of the financial statements. The Group bases the assumptions and estimates on historical experience and on various other assumptions that the Group believes to be reasonable and which form the basis for making judgements about matters that are not readily apparent from other sources. On an on-going basis, management evaluates its estimates. Actual results may differ from those estimates as facts, circumstances and conditions change.

The selection of critical accounting policies, the judgements and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing the financial statements. The significant accounting policies are set forth in Note 2. The Group believes the following critical accounting policies involve the most significant judgements and estimates used in the preparation of the financial statements.

#### **(a) Valuation of investment properties**

As described in Note 2(h), completed investment properties and investment properties under construction are stated at fair value based on the valuation performed by an independent firm of professional valuers.

## 36 Accounting judgement and estimates *(Continued)*

### (a) Valuation of investment properties *(Continued)*

In determining the fair value of investment properties, the valuers have based on a method of valuation which involves the current market value of property by reference to recent comparable transactions. Valuers may make adjustments to recorded transactions by taking into account such factors as differences in the transaction timing, location, character and other matters affecting the value of property. Investment properties under development are valued by estimating the fair value of such properties as if they were completed in accordance with the relevant development plan and then deducting from that amount the estimated costs to complete the construction, financing costs and an allowance for developer's risk and profit. In relying on the valuation report, the management has exercised their judgement and is satisfied that the method of valuation is reflective of the current market condition.

### (b) Impairment losses for bad and doubtful debts

The Group estimates impairment losses for bad and doubtful debts resulting from the inability of the customers and other debtors to make the required payments. The Group bases the estimates on the aging of the receivable balance, debtors creditworthiness, and historical write-off experience. If the financial condition of the customers and debtors were to deteriorate, actual write-offs would be higher than estimated.

### (c) Impairment losses of non-current assets

If circumstances indicate that the net book value of a non-current asset may not be recoverable, the asset may be considered "impaired", and an impairment loss may be recognised in accordance with IAS 36 "Impairment of Assets". The carrying amounts of non-current assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of its fair value less costs to sell and the value in use. It is difficult to precisely estimate selling price because quoted market prices for the Group's assets are not readily available. In determining the value in use, expected cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to level of sales volume, selling price and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sale volume, selling price and amount of operating costs.
