MANAGEMENT STATEMENT

The Board of Directors (the "Board") of Incutech Investments Limited (the "Company") hereby presents the audited consolidated result of the Company and its subsidiaries (the "Group") for the financial year ended 31 December 2012.

Review of Results

For the year ended 31 December 2012, the Group recorded a net loss of HK\$3,927,748 (2011: HK\$4,971,164) and loss per share of HK\$0.05 (2011: HK\$0.07). The decrease in net loss as compared to last year was mainly attributable to decrease in unrealised loss on listed securities held for trading. During the year, the Group received HK\$190,960 in dividend income (2011: HK\$132,120) from listed securities held for trading.

Management Discussion and Analysis

The year of 2012 was full of challenge. The global economy was confronted by the abrupt deterioration of euro debt situation in mid-2012, recession of the eurozone economy, slowdown of the US economy and uncertainty over the US fiscal cliff. China's economic expansion slowed to 7.8% year-on-year in 2012. The growth rate was down from 9.3% in 2011 and 10.4% in 2010. Toward the end of 2012, the global equity markets advanced and boosted by easing policy implemented by the European Central Bank and Fed's third Quantitative Easing with an extended low interest rate environment until mid-2015.

For the year of 2012, Hong Kong economy grew by a mere 1.4%, down from the growth of 4.9% in 2011. In the 4th quarter of 2012, the economic growth picked up prominently to 2.5% year-on-year because of the improvement in external trade upon the faster growth in the China's economy and stabilisation of the euro debt crisis. Toward the year end of 2012, the US fiscal cliff was averted but issues of automatic spending cuts and debt ceiling still have to be resolved.

Business Review and Prospects

The Company is an investment company and the Company's shares were listed on the main board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Chapter 21 of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). The Group is principally engaged in the investments in the listed securities for the short term and in the unlisted equities with a potential for earnings growth and capital appreciation. As at 31 December 2012, the Group has approximately HK\$5.2 million in listed securities held for trading.

The Group reported a net loss from operation of HK\$3,927,748 on turnover of HK\$190,960 as compared with a loss from operation of HK\$4,971,164 on turnover of HK\$132,120 in 2011. Due to improvement in market sentiment, the Company recorded unrealised gain on listed securities of HK\$450,308 (2011: unrealised loss of HK\$1,492,884) and received cash dividend income of HK\$190,960 (2011: HK\$132,120).

Looking forward, the global economy is expected to improve in 2013 compared to last year. The mild restoration of market confidence, together with the expectation of further monetary policies from major central banks, constitutes a slow-growing trend to global economy. Hong Kong market is expected to benefit from improving Chinese economy and continuous liquidity inflows from global easing efforts in 2013, but the global economic outlook remains challenging because of the uncertainty over the European debt crisis and slow economic growth of the European markets.

Apart from trading securities and existing investments, the management will also keep seeking more investment opportunities with potential of asset appreciation as well as with sustainable income stream across various sectors to enhance returns to the Group and shareholders within the acceptable risk profile.

Financial Review

Liquidity and financial resources

As at 31 December 2012, the Group's current ratio was 0.20, based on the current assets of HK\$5,570,223 and current liabilities of HK\$27,430,016. No gearing ratio was available as the Group was in a negative equity position.

Capital structure

There has been no change to the capital structure of the Company during the year ended 31 December 2012.

Capital commitment and contingent liabilities

As at 31 December 2012, no material capital commitment and contingent liabilities were noted by the directors of the Company.

Share options

The Company does not have any share option scheme.

Employment and Remuneration Policies

As at 31 December 2012, the Group employed a total of 4 employees (2011: 4) including the executive directors. The remuneration packages consist of basic salary, mandatory provident fund, medical insurance, and other benefits considered as appropriate. Remuneration packages are generally structured by reference to market terms, individual qualification and performance. They are under periodic review based on individual merit and other market factors.

Staff Costs

The Group's total staff costs for the year under review amounted to HK\$2,080,150 (2011: HK\$2,078,400).

Charges on the Group's Assets

As at 31 December 2012, there were no charges on the Group's assets.

Exposure to Fluctuations in Exchange Rates and Related Hedges

The Group's assets and liabilities are denominated in Hong Kong Dollars and, therefore, the Group has no significant exposure to foreign exchange fluctuation.

Appreciation

The Directors would like to take this opportunity to extend our sincere thanks and express appreciation to those who have supported us during the year.

The Company's investment portfolio is managed by Hua Yu Investments Limited (the "Investment Manager"), in accordance with the terms and conditions of an investment management agreement (the "Investment Management Agreement") entered into between the Company and the Investment Manager dated 1 March 2011.

The Investment Manager is regarded as a connected person of the Company under Rule 21.13 of the Listing Rules. Accordingly, the Investment Management Agreement constitutes a continuing connected transaction of the Company.

The Investment Manager is appointed for a term of two years commencing from 1 March 2011 and either the Investment Manager or the Company can terminate the appointment without serving prior notice to the other party. In accordance with the terms of the Investment Management Agreement, the Investment Manager is entitled to receive a quarterly management fee of HK\$150,000.

During the year ended 31 December 2012, investment management fees of HK\$600,000 (2011: HK\$600,000) were charged by the Investment Manager.

The transaction was entered into by the Company in the ordinary and usual course of business in accordance with the terms of Investment Management Agreement, conducted on normal commercial terms and is subject to reporting, announcement and independent shareholders' approval requirements under Rule 14A.35 of the Listing Rules. The transaction had been reviewed by the independent non-executive Directors and obtained approval from the Company's board of directors.

On 25 February 2013, the Company and the Investment Manager has entered into a new investment management agreement for a term of one year from 1 March 2013 (the "Renewal Date") at a quarterly management fee of HK\$150,000. The management agreement is conditional upon approval of independent shareholders and shall, if approved in the extraordinary general meeting, commence on the Renewal Date.

Audit Committee

The Company established an audit committee in accordance with rule 3.21 of the Listing Rules, for the purpose of reviewing and providing supervision over the Group's financial reporting process and internal controls. The audit committee of the Company has reviewed the final results for the year ended 31 December 2012.

Model Code for Securities Transactions by Directors

The Company had complied with the code of conduct regarding securities transactions by the Directors on terms no less exacting than the required standard of dealings as set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code"). Having made specific enquiry of all Directors, they have complied with the required standard set out in the Model Code and the code of conduct regarding securities transaction by the Directors adopted by the Company.

Compliance with the Code on Corporate Governance Practices

The Company has applied the principles set out in the Code on Corporate Governance Practices contained in Appendix 14 of the Listing Rules, which was revised and renamed as the Corporate Governance Code with effect from 1 April 2012 except the following deviation:

Code provision A.4.1 stipulates that non-executive directors should be appointed for a specific term, subject to re-election. The Company has not fixed the term of appointment for non-executive directors, which constitutes a deviation from code provision A.4.1. However, all independent non-executive directors of the Company are subject to retirement by rotation at least once every three years and re-election at the annual general meeting of the Company pursuant to the Articles of Association of the Company. As such, the Board considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting those in the code provision.

The practice of the corporate governance of the Company will be reviewed and updated from time to time in order to comply with the requirements of the Listing Rules.

Auditor

W.H. Tang & Partners CPA Limited was appointed as auditor of the Company on 2 March 2010 to fill the casual vacancy following the resignation of World Link CPA Limited with effect from 22 February 2010.

At the request of the Company, trading in the shares of the Company has been suspended with effect from 9:30 a.m. on 13 June 2008 and will remain suspended until further notice.

On behalf of the Board

Tung Tat Wah

Chairman

Hong Kong, 26 March 2013

CORPORATE GOVERNANCE REPORT

The board of directors of the Company ("Board") is committed to maintain and ensure high standard of corporate governance. It is regularly reviewing and improving the corporate governance practices and standards of the Group to ensure that business activities and decision making processes are conducted in a proper manner and to enhance the Company's competitiveness and operating efficiency.

Corporate Governance Code Compliance

The Company has complied with the code provisions of the Code on Corporate Governance Practices for the period from 1 January 2012 to 31 March 2012 and the Corporate Governance Code (the "CG Code") for the period from 1 April 2012 to 31 December 2012 as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") except the following deviation:

Code provision A.4.1 stipulates that non-executive Directors should be appointed for a specific term, subject to re-election. The Company has not fixed the term of appointment for non-executive Directors, which constitutes a deviation from code provision A.4.1. However, all independent non-executive Directors of the Company are subject to retirement by rotation at least once every three years and re-election at the annual general meeting of the Company pursuant to the articles of association of the Company. As such, the Board considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting those in the code provision.

The Board of Directors

The Board's primary responsibilities are to formulate the Company's long-term corporate strategy, to oversee the management of the Group, to evaluate the performance of the Group and to assess the achievement of targets periodically set by the Board.

In addition, the Board has also established Board Committees and has delegated to these Board Committees various responsibilities set out in their terms of reference respectively.

Board Composition

The Board consists of two executive Directors and three independent non-executive Directors ("INED(s)"). Mr. Allan Kwok Ming Fai, INED and chairman of audit committee has the appropriate professional accounting experience and expertise. The names and biographical details of each Director are disclosed on pages 7 to 8 of this annual report. All Directors have confirmed that they have taken an active interest in the Company's affairs and obtained a general understanding of its business.

Chairman and Chief Executive Officer

The Company does not at present have any officer with the title of "chief executive officer" but instead, its duties are performed by Mr. Wu Chun Wah, the managing Director. To have a clear division between the management of the Board and the daily management of the business operations of the Company, the role of the chairman is separated from that of the managing Director. The chairman focuses on overall corporate development and strategic direction of the Group and provides leadership for the Board and oversees the efficient functioning of the Board. The managing Director is responsible for all daily management including planning and developing the Group's strategy. Such division of responsibilities helps to reinforce their independence and to ensure a balance of power and authority. The Company shall ensure and facilitate each Director to take an active interest in the affairs of the Group so that each Director could make positive contribution to the Group.

All the Directors had received training/briefing which covered topics in Directors' duties and liabilities, continuing obligations of a listed company, corporate governance and compliance issues after their appointments. Ongoing updates of any applicable laws and regulations were provided by the Company to the Directors in a reasonable time frame.

In April 2012, the Company has arranged directors' and officers' liabilities insurance cover to indemnify the Directors against claims for breach of their duties in managing the Group business and activities.

Independent Non-Executive Directors

Each INED has, pursuant to the guidelines set out in rule 3.13 of the Listing Rules, confirmed he is independent of the Company and the Company also considers that they are independent. Each INED is subject to the requirement that one-third of all the Directors shall retire from office by rotation at each annual general meeting pursuant to the Articles of Association of the Company. There is no relationship (including financial, business, family or other material or relevant relationship) among members of the Board.

Function

The overall management of the Group's operation is vested in the Board. The Board takes overall responsibility to oversee all major matters of the Group, including the formulation and approval of all policy matters, overall strategic development of the Group, monitoring and controlling the Group's operation and financial performance, internal control and risk management systems, and monitoring of the performance of the senior management. The Directors have to make decisions objectively in the interests of the Company and its shareholders as a whole.

The day-to-day management, administration and operation of the Group are delegated to the senior management of the Group. The delegated functions and work tasks are periodically reviewed. Pursuant to the levels of authority approved by the Board, the senior management executes day-to-day operations unless the subject matter exceeds the authority granted by the Board or relates to any matters specifically reserved to the Board, they would seek approval from the Board.

Board Meetings

The Board held at least 4 regular Board meetings at approximately quarterly interval during year 2012 and additional board meetings were held when necessary. An agenda and accompanying board papers are sent in full to all Directors in a timely manner and at least three days before the intended date of a board or board committee meeting. Adequate information related to the issues is also supplied for the board and its committee to make decisions which is for the best interests of the Group. Notice of at least fourteen days are given to give all Directors an opportunity to attend. The Directors who cannot attend in person might through other electronic means of communications to participate. Details of individual attendance of Directors are set out in the table below:

	Number of Board meeting attended/ Number of Board meeting held	Attendance Rate
Executive Directors		
Mr. Tung Tat Wah	5/5	100%
Mr. Michael Wu Chun Wah	5/5	100%
Independent non-executive Directors		
Mr. Allan Kwok Ming Fai	4/5	80%
Mr. Robert Siu Siu Ling	5/5	100%
Mr. Stephen Lee Ming Ching	5/5	100%

The Board has established procedure to enable Directors, upon reasonable request, to seek independent professional advice in appropriate circumstances at the Company's expense.

Appointment and re-election of Directors

Pursuant to the corporate governance code and the provisions of the Articles of Association of the Company, Mr. Michael Wu Chun Wah and Mr. Allan, Kwok Ming Fai shall retire by rotation at the forthcoming annual general meeting and will offer themselves for re-election as the Directors.

The term of office of each of the independent non-executive Directors is the period up to his retirement by rotation in accordance with the Company's Articles of Association and CG Code.

Board Committees

The Board has established (i) Remuneration Committee, (ii) Nomination Committee; and (iii) Audit Committee, with defined terms of reference. The terms of reference of the board committees which explain their respective roles and the authority delegated to them by the Board are posted on the websites of The Hong Kong Exchange and Clearing Limited (“HKEx”) and the Company. The board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice and other assistance in appropriate circumstances, at the Company’s expenses.

Remuneration Committee

The Board has established a Remuneration Committee comprising one executive Director, Mr. Michael Wu Chun Wah and three independent non-executive Directors, Mr. Allan Kwok Ming Fai, Mr. Robert Siu Siu Ling and Mr. Stephen Lee Ming Ching. It is chaired by Mr. Stephen Lee Ming Ching. The terms of reference of the Remuneration Committee have been reviewed with reference to the CG Code.

The revised written terms of reference of the remuneration committee was adopted in order to be in line with certain CG Code provisions which are implemented in April 2012.

The Remuneration Committee has adopted the operation model where it performs to make recommendations to the Board on the Company’s policy and structure for all Director’s and senior management remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy.

The Remuneration Committee’s responsibilities are to review and consider Company’s policy for remuneration of Directors and senior management, to determine remuneration packages of executive Directors including benefits in kind, pension rights and compensation payments, and to recommend to the Board remuneration of independent non-executive Directors.

Set out below is the summary of work of the Remuneration Committee done in 2012:

- to consider the corporate policy on remuneration basis for the executive Directors and the INEDs;
- to review the remuneration of the executive Directors and the INEDs;
- to consider and approve the payment of bonus (if any); and
- to ensure that no Director or any of his associates is involved in deciding his own remuneration.

The Remuneration Committee held 1 meeting for the financial year ended 31 December 2012. Details of individual attendance of its members are set out in the table below:

	Number of meeting attended/ Number of meeting held	Attendance Rate
Executive Director		
Mr. Michael Wu Chun Wah	1/1	100%
Independent non-executive Directors		
Mr. Stephen Lee Ming Ching	1/1	100%
Mr. Robert Siu Siu Ling	1/1	100%
Mr. Allan Kwok Ming Fai	0/1	NIL

Audit Committee

The Company's Audit Committee is composed of three independent non-executive Directors, namely Mr. Allan Kwok Ming Fai, Mr. Robert Siu Siu Ling and Mr. Stephen Lee Ming Ching. It is chaired by Mr. Allan Kwok Ming Fai. It reports directly to the Board and reviews matters within the scope of audit, such as financial statements and internal controls, to protect the interests of the Company's shareholders.

The revised written terms of reference of the audit committee was adopted in order to be in line with certain CG Code provisions which are implemented in April 2012. In particular, the Board has delegated the corporate governance function to the Audit Committee, which is a new provision in the CG Code.

The major roles and functions of the Audit Committee of the Company are as follows:

- to review the annual report and interim report before submission to the Board;
- to review the Group's financial and accounting policies and practices;
- to review the financial controls, internal control and risk management systems;
- to discuss with management the system of internal control and ensure that management has discharged its duty to have an effective internal control system;
- to be primarily responsible for making recommendation to the Board on the appointment of the external auditor, and to approve the remuneration and terms of engagement of the external auditor;
- to report to the Board on the matters set out in the code provision relating to Audit Committee as set out in the CG Code; and
- to review the Company's policies and practices on corporate governance and training and continuous professional development of Directors and senior management.

Internal Control

The Company places great importance on internal control and risk management.

The Company encourages a risk aware and control conscious environment throughout the Company. The Board, either directly or through its committees, sets objectives, performance targets and policies for management of key risks facing the Company. These include strategic planning, political and regulatory, acquisitions, investments, expenditure control, treasury and environment.

Throughout the year 2012 the Company complied with the code provisions on internal controls as stipulated in the CG Code. In particular, during the year the Company conducted a review of the effectiveness of the internal control system of the Group. The Directors are satisfied that the prevailing internal control systems as appropriate to the Group are in place and have been implemented properly and that no significant areas of improvement which are required to be brought to the attention to the members of the Audit Committee are revealed. The Audit Committee has reviewed the internal control and discussed the assessment bases with the management, and concurred that the Company has set up an effective internal control system to safeguard the assets of the Group.

Shareholder Communication

The objective of shareholder communication is to provide our shareholders with detailed information about the Company so that they can exercise their rights as shareholders in an informed manner.

The Company uses a range of communication tools to ensure its shareholders are kept well informed of key business imperatives. These include annual general meeting, annual report, various notices, announcements and circulars. Procedure for voting by poll has been included in all circulars accompanying notice convening general meeting and has been read out by the chairman at general meeting.

Directors' and Auditor's Responsibilities in Preparing the Financial Statements

The Directors acknowledge that it is their responsibilities for the preparation of the financial statements of the Group and ensure that the financial statements are in accordance with statutory requirements and applicable accounting standards. The Directors also ensure timely publication of the financial statements of the Group. The Directors are aware that the auditor's report included an emphasis of matter paragraph concerning material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

In preparing the consolidated financial statements, the Directors of the Company have given careful consideration to the future liquidity of the Group in light of a loss of HK\$3,927,748 for the year ended 31 December 2012 and the Group's net current liabilities and net liabilities as at 31 December 2012 amounted to HK\$21,859,793 and HK\$21,787,208 respectively. A resumption proposal was approved by the Board of Directors on 21 March 2011 to improve the financial position of the Group but such proposal has yet to be implemented. The Directors of the Company have been taking measures to improve the liquidity of the Group. These measures include (i) extending the Group's short term loans upon maturity; (ii) implementing cost controls over operating expenses; (iii) negotiating with the suppliers to reschedule the payments of the Group's expenditures; and (iv) exploring options to conduct fund raising activities. In addition, Biggish Management Limited, the substantial shareholder of the Company, and Mr. Tung Tat Wah, the chairman and executive Director of the Company, have agreed to provide continuing financial support to the Group so as to enable the Group to continue its day-to-day operations as a going concern and to meet its obligation for at least twelve months from the date of the consolidated financial statements.

Provided that the aforesaid measures are successful and the continuing financial support is given by the substantial shareholder and the Director of the Company that can effectively improve the liquidity position of the Group, the Directors of the Company are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due for the foreseeable future. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

The statement of the external auditor of the Company, W. H. Tang & Partners CPA Limited, about their reporting responsibilities is set out in the Independent Auditor's Report on pages 21 to 22.

Voting by Poll

The voting procedures for demanding a poll by shareholders were written in the 2012 annual general meeting (the "AGM") circular, and the voting procedures were explained in the AGM.

TO THE SHAREHOLDERS OF INCUTECH INVESTMENTS LIMITED

(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Incutech Investments Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 23 to 55, which comprise the consolidated statement of financial position as at 31 December 2012, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of principal accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2012, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Emphasis of Matter

We draw attention to note 1(b) to the consolidated financial statements. The Group incurred a loss of HK\$3,927,748 for the year ended 31 December 2012 and the Group's net current liabilities and net liabilities as at 31 December 2012 amounted to HK\$21,859,793 and HK\$21,787,208 respectively. This condition indicates the existence of material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. As explained in note 1(b) to the consolidated financial statements, the directors of the Company have taken measures to improve the liquidity of the Group, which include extending short term loans upon maturity, implementing cost controls over operating expenses, negotiating with the suppliers to reschedule the payments and exploring options for fundraising. In addition, a substantial shareholder and a director of the Company have agreed to provide continuing financial support to the Group so as to enable the Group to continue as a going concern. The consolidated financial statements have been prepared on a going concern basis on the assumption that the aforesaid measures are successful and the continuing financial support are given by the substantial shareholder and the director of the Company. Our opinion is not qualified in this matter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

1. General Information

- (a) Incutech Investments Limited (the "Company") was incorporated in the Cayman Islands with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and have been suspended for trading since 13 June 2008.

The principal activities of the Company and its subsidiaries during the year are investments in securities listed on the Stock Exchange and unlisted securities with a potential for earning growth and capital appreciation.

- (b) The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term include all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKASs") and interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), the disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). The consolidated financial statements have been prepared under the historical cost convention, except that investments held for trading are stated at fair value.

The preparation of consolidated financial statements in conformity with the HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision effects both current and future periods.

In preparing the consolidated financial statements, the directors of the Company ("Directors") have given careful consideration to the future liquidity of the Group in light of a loss of HK\$3,927,748 for the year ended 31 December 2012 and the Group's net current liabilities and net liabilities as at 31 December 2012 amounted to HK\$21,859,793 and HK\$21,787,208 respectively. A resumption proposal was approved by the Board of Directors on 21 March 2011 to improve the financial position of the Group but such proposal has yet to be implemented. The Directors have been taking measures to improve the liquidity of the Group. These measures include (i) extending the Group's short term loans upon maturity; (ii) implementing cost controls over operating expenses; (iii) negotiating with the suppliers to reschedule the payments of the Group's expenditures; and (iv) exploring options to conduct fund raising activities. In addition, Biggish Management Limited, the substantial shareholder of the Company, and Mr. Tung Tat Wah, the chairman and executive director of the Company, have agreed to provide continuing financial support to the Group so as to enable the Group to continue its day-to-day operations as a going concern and to meet its obligation for at least twelve months from the date of the consolidated financial statements.

Provided that the aforesaid measures are successful and the continuing financial support is given by the substantial shareholder and one of the directors of the Company that can effectively improve the liquidity position of the Group, the Directors are satisfied that the Group will have sufficient financial resources to meet its financial obligations as they fall due for the foreseeable future. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

2. Application of New and Revised Hong Kong Financial Reporting Standards (Continued)

New and revised standards on consolidation, joint arrangements, associates and disclosures

In June 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including HKFRS 10, HKFRS 11, HKFRS 12, HKAS 27 (as revised in 2011) and HKAS 28 (as revised in 2011). Key requirements of these five standards are described below.

HKFRS 10 replaces the parts of HKAS 27 “Consolidated and separate financial statements” that deal with consolidated financial statements. HK(SIC) – INT 12 “Consolidation – Special purpose entities” will be withdrawn upon the effective date of HKFRS 10. Under HKFRS 10, there is only one basis for consolidation, that is, control. In addition, HKFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor’s returns. Extensive guidance has been added in HKFRS 10 to deal with complex scenarios.

HKFRS 11 replaces HKAS 31 “Interests in joint ventures”. HKFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. HK(SIC) – INT 13 “Jointly controlled entities – Non-monetary contributions by venturers” will be withdrawn upon the effective date of HKFRS 11. Under HKFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under HKAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under HKFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under HKAS 31 can be accounted for using the equity method of accounting or proportionate consolidation.

HKFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in HKFRS 12 are more extensive than those in the current standards. The Directors are currently assessing the financial impact of these revisions to the Group’s financial position and performance.

In July 2012, the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 were issued to clarify certain transitional guidance on the application of these five HKFRSs for the first time.

These five standards, together with the amendments relating to the transitional guidance, are effective for annual periods beginning on or after 1 January 2013 with earlier application permitted, provided that all of these standards are applied early at the same time.

The Directors anticipate that these five standards will be adopted in the Group’s consolidated financial statements for the annual period beginning 1 January 2013. The application of these five standards will not have material impact on amounts reported in the consolidated financial statements.

2. Application of New and Revised Hong Kong Financial Reporting Standards (Continued)

HKFRS 13 Fair value measurement

HKFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of HKFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other HKFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in HKFRS 13 are more extensive than those in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under HKFRS 7 “Financial instruments: Disclosures” will be extended by HKFRS 13 to cover all assets and liabilities within its scope.

HKFRS 13 is effective for annual periods beginning on or after 1 January 2013, with earlier application permitted.

The Directors anticipate that HKFRS 13 will be adopted in the Group’s consolidated financial statements for the annual period beginning 1 January 2013. The application of the new standard will not have material impact on amounts reported in the consolidated financial statements but will result in more extensive disclosures in the consolidated financial statements.

Amendments to HKAS 1 Presentation of items of other comprehensive income

The amendments to HKAS 1 “Presentation of items of other comprehensive income” introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a ‘statement of comprehensive income’ is renamed as a ‘statement of profit or loss and other comprehensive income’ and an ‘income statement’ is renamed as a ‘statement of profit or loss’. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis – the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The amendments to HKAS 1 are effective for annual periods beginning on or after 1 July 2012. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied in future accounting periods.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. Principal Accounting Policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below.

(a) **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein.

Allocation of total comprehensive income to non-controlling interests

Total comprehensive income and expense of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, it (i) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost, (ii) derecognises the carrying amount of any non-controlling interests in the former subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them), and (iii) recognises the aggregate of the fair value of the consideration received and the fair value of any retained interest, with any resulting difference being recognised as a gain or loss in profit or loss attributable to the Group. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognised in other comprehensive income and accumulated in equity, the amounts previously recognised in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the related assets (i.e. reclassified to profit or loss or transferred directly to retained earnings as specified by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39 "Financial instruments: Recognition and measurement" or, when applicable, the cost on initial recognition of an investment in an associate or a jointly controlled entity.

(b) Translation of foreign currencies

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in the currency of Hong Kong dollars, which is the Company's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss. Foreign exchange gains and losses resulting from the retranslation of non-monetary items carried at fair value are recognised in profit or loss except for those arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income, in which cases, the gains or losses are also recognised directly in other comprehensive income.

(c) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is recognised in profit or loss in the year in which the item is derecognised.

Depreciation is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follow:

Decoration and office equipment	2 years
---------------------------------	---------

(d) Impairment of investment in subsidiaries and non-financial assets

Assets that have an indefinite useful life or have not yet been available for use are not subject to amortization and are tested annually for impairment. Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstance indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

(e) Operating leases

Leases where substantially all the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases net of any incentives received from the leasing company are charged to profit or loss on a straight-line basis over the lease period.

(f) Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when an entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of the three categories, including financial assets at fair value through profit or loss ("FVTPL"), loans and receivables and available-for-sale financial assets. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

Financial assets at fair value through profit or loss ("FVTPL")

Financial assets at FVTPL include financial assets held for trading and financial assets designated upon initial recognition as at FVTPL. They are carried at fair value, with any resultant gain and loss recognised in profit and loss, which incorporates any dividend or interest earned on the financial assets.

Financial assets are classified as held for trading if they are (i) acquired principally for the purpose of selling in the near future; (ii) part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or (iii) derivatives that are not designated and effective hedging instruments.

Financial assets are designated at initial recognition as at FVTPL, if (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognition gains or losses on a different basis; or (ii) they are part of a group of financial assets and/or financial liabilities that are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) they contain embedded derivatives that would need to be separately recorded.

Where a contract contains one or more embedded derivatives, the entire hybrid contract may be designated as a financial asset at FVTPL, except where the embedded derivative does not significantly modify the cash flows or it is clear that separation of the embedded derivative is prohibited.

(f) Financial instruments (Continued)

Financial assets (Continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including prepayments, other receivables and bank balances) are carried at amortised cost using the effective interest method, less any identified impairment losses.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at FVTPL or loans and receivables. The Group designated investments in unlisted securities as available-for-sale financial assets.

Investments in unlisted securities are available-for-sale equity investments measured at fair value. Changes in fair value are recognised in other comprehensive income and accumulated in capital reserve, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously accumulated in capital reserve is removed from capital reserve and recognised in profit or loss. Investments in unlisted securities which fair values cannot be reliably measured are stated at cost less any identified impairment losses at the end of the reporting period subsequent to initial recognition.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of the reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been impacted.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of that investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organization.

For financial assets carried at amortised cost, an impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

3. Principal Accounting Policies (Continued)

(f) Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

The carrying amount of the financial asset is reduced by the impairment loss directly.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment losses on available-for-sale equity investments will not be reversed in profit or loss in subsequent periods. Any increase in fair value subsequent to impairment loss is recognised directly in other comprehensive income and accumulated in capital reserve.

Financial liabilities and equity

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities including short term loans, other payables and accruals and amount due to a director are subsequently measured at amortised cost, using the effective interest rate method.

Equity instruments

Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

(g) **Cash and cash equivalents**

For the purposes of consolidated statement of cash flows, cash equivalents represent short-term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

(h) **Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

(i) **Contingent liabilities and contingent assets**

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably. A contingent liability is not recognised but is disclosed in the notes to the consolidated financial statements. When a change in the probability of an outflow occurs so that outflow is probable, they will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group. Contingent assets are not recognised but are disclosed in the notes to the consolidated financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognised.

(j) **Employee benefits**

Short term employee benefits

Salaries, annual bonuses, paid annual leave, contribution to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

Defined contribution plans

The Group participates in a retirement benefit scheme under the rules and regulations of the Mandatory Provident Fund Scheme Ordinance ("MPF Scheme") for all employees. The contributions to the MPF Scheme are based on minimum statutory contribution requirement of 5% of eligible employees' relevant aggregate income. The assets of this MPF Scheme are held separately from those of the Group in independently administered funds. The Group's contributions to the defined contribution retirement schemes are expensed as incurred.

For the year ended 31 December 2012

3. Principal Accounting Policies (Continued)

(k) Borrowing Costs

All borrowings costs are recognised as an expense in the period in which they are incurred.

(l) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amount of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

3. Principal Accounting Policies (Continued)

(m) Revenue recognition

Interest income is recognised on a time proportion basis, taking into account the principal amounts outstanding and the interest rates applicable.

Dividend income is recognised when the right to receive payment is established.

Gains or losses on sale of investment securities and other investments are recognised on the transfer of risks and rewards of ownership which generally coincides with the time when investments are delivered and title has passed.

(n) Related parties

(i) A person, or a close member of that person's family, is related to the Group if that person:

- (a) has control or joint control over the Group;
- (b) has significant influence over the Group; or
- (c) is a member of the key management personnel of the Group or of the Group's parent.

(ii) An entity is related to the Group if:

- (a) the entity and the Group are members of the same group;
- (b) one entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
- (c) both entities are joint venture of the same third party;
- (d) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
- (e) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
- (f) the entity is controlled or jointly controlled by a person identified in (i); or
- (g) a person identified in (i)(a) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close family members of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include (i) that person's children and spouse or domestic partner; (ii) children of that person's spouse or domestic partner; and (iii) dependents of that person or that person's spouse or domestic partner.

4. Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Going concern assumption

Management makes an assessment of the Group's ability to continue as a going concern when preparing the consolidated financial statement. The Group is dependent upon the successful outcome of the measures and continuing financial support from the substantial shareholder and director of the Company as set forth in note 1(b) in order to meet the Group's future working capital and financing requirements.

In assessing whether or not the going concern assumption is appropriate, management takes into account all available information about the future, which is at least but is not limited to, twelve months from the approval date of the consolidated financial statements.

If the Group were unable to continue as a going concern, adjustments relating to the recoverability and classification of recorded assets and liabilities may need to be incorporated in the consolidated financial statements.

5. Capital Risk Management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The Group also monitors the current and expected liquidity requirements regularly to ensure that sufficient working capital and adequate committed lines of funding are maintained to meet its liquidity requirements. Upon the discovery of any default, the Group would negotiate immediately with the relevant lenders for proper arrangement in order to maintain sufficient working capital. The Group manages its operating cashflow in order to achieve optimum utilization and certain costs-cutting measures are implemented to streamline its operating costs.

The capital structure of the Group consists of (deficit) equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. The Group will also balance its overall capital structure through new share issues and the issue of new debt or the redemption of existing debt, if necessary.

The Group has negative equity at both years ended 31 December 2011 and 2012, resulting primarily from the significant loss suffered by the Group. The Group monitors its current and expected liquidity requirements to ensure it maintains sufficient cash and cash equivalents and mainly relies on short term financing from a director of the Company to meet its working capital requirements.

Financial risk management objectives and policies

The Group's major financial instruments include investments held for trading, prepayments, other receivables, cash and bank balances, short term loans, other payables, accruals and amount due to a director. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

The Group's activities expose it primarily to the financial risks of changes in interest rates, foreign currency rates and equity prices. Market risk exposures are further measured by sensitivity analysis. There has been no significant change to the Group's exposure to market risks or the manner in which it manages and measures the risk. Details of each type of market risks are described as follows:

(i) *Currency risk*

The Group has limited exposure to market risk resulting from changes in foreign currency exchange rates since other than the functional and presentation currency of HK dollar, the Group holds no financial assets in foreign currency and thus the Group currently does not have a foreign currency hedging policy.

(ii) *Interest rate risk*

The Group is exposed to cash flow interest rate risk in relation to variable-rate short term loans (see note 18 for details of the short term loans). It is the Group's policy to keep its borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Prime Rate arising from the Group's Hong Kong dollars borrowings.

6. Financial Instruments (Continued)

Financial risk management objectives and policies (Continued)

Market risk (Continued)

(ii) Interest rate risk (Continued)

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for financial instruments at the end of the reporting period. For short term loans, the analysis is prepared assuming the amount of the outstanding loans at the end of reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's loss for the year ended 31 December 2012 would increase/decrease by HK\$35,021 (2011: increase/decrease by HK\$31,930). This is mainly attributable to the Group's exposure to interest rates on its short term loans.

(iii) Other price risk

The Group is exposed to equity price risk through its investments in financial assets at fair value through profit or loss. The management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on listed equity instruments quoted in the Stock Exchange. In addition, the Group has appointed an investment manager to monitor the price risk and will consider hedging the risk exposure should the need arise.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risks at the end of the reporting period.

If the prices of the respective equity instruments had been 5% higher/lower, the Group's loss for the year ended 31 December 2012 would decrease/increase by HK\$260,210 (2011: decrease/increase by HK\$305,340) as a result of the changes in fair value of financial assets at fair value through profit or loss.

Credit risk

As at 31 December 2012, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements, to ensure that it maintains sufficient reserves of cash to meet its liquidity requirements in the short and longer term.

The following table details the Group's remaining contractual maturities for its non-derivative financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date the Group can be required to pay:

Fair values

The fair values of financial assets and financial liabilities are determined as follows:

- the fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices; and
- the fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The carrying amount of other financial assets and liabilities carried at amortised cost, approximate their respective fair values due to the relatively short-term nature of these financial instruments.

Fair value measurements recognised in the statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets or liability that are not based on observable market data (unobservable inputs).
