Note: According to the Group's accounting policies, the four hotel properties were carried at cost less accumulated depreciation. To give further information on the economic substance of its hotel properties investments, the Group hereby presents supplementary unaudited financial information taking into account the fair market value of hotel properties and excluding the corresponding deferred income tax on Hong Kong properties as Hong Kong tax jurisdiction does not include capital gain tax.

The four hotel properties in Hong Kong and Canada were revalued by Vigers Appraisal & Consulting Limited and Grant Thornton Management Consultants respectively, independent professional valuers, on an open market value basis as at 31st March 2013 and 2012.

Chairman's Statement

For the year ended 31st March 2013, the Group recorded a consolidated net profit of approximately HK\$424 million (2012: loss of HK\$311 million), which was mainly attributed to a net gain on investments in financial assets as opposed to a net loss of last year. Basic earnings per share during the year was HK27 cents (2012: loss of HK20 cents).

The Group had a revalued net assets increase of 14% to HK\$9,152 million, representing HK\$5.90 per share. Net gearing (net debt over the revalued net asset value) was at 17% as of the year end.

The Group has managed to acquire two buildings adjoining our Kowloon and Causeway Bay operations. These acquisitions will not only enhance the land value combined, but also improve economies of scales, operational synergies and eventually greater sales.

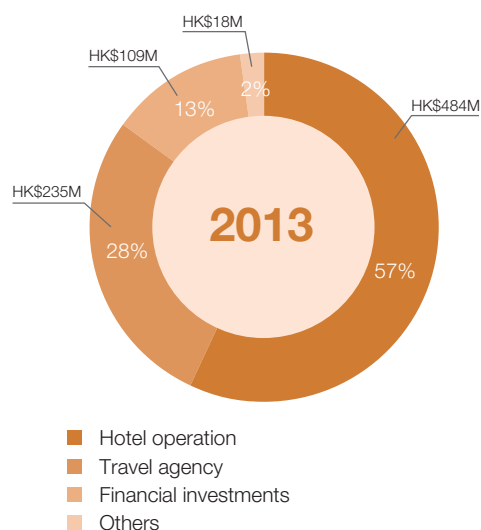

Looking ahead, as the economic environment remains challenging, the Management is cautious about uncertainties that it faces and remain optimistic about the future of the Group.

On behalf of the Board, I would like to express my gratitude to our staff for their invaluable contribution, and our customers, shareholders and the investment community for their support.

Poon, Jing
Chairman

Business Model and Strategies

Asia Standard Hotel is an established hospitality owner and operator which its business is primarily based in Hong Kong. The Group owns and operates four hotels under the “Empire Resort and Hotel” brand; three of which are in core CBDs of Hong Kong and one in downtown Vancouver, Canada. Our hotels are strategically located in central shopping or business districts. The Group also engages in travel agency operations and financial investment, which contributes to the Group with a diversified source of stable recurring income. Our business diversification thus reduces the adverse impact of market volatility and offsets market cyclicalities to which some of our businesses are exposed to.

The Group is focused on enhancing the performance of its core business and is dedicated to maximise value for shareholders through pursuit of attractive investment opportunities with the following strategies:

(i) To expand and grow our hospitality business in prime CBDs of Hong Kong, and to strive for excellence in management and operations

The Group’s three hotels in Hong Kong are strategically located within core CBDs and are targeted at business travelers as well as visitors from the PRC. Our hospitality chain has a centralised management team to optimise revenue generation and to ensure efficient deployment of resources for achieving maximum cost benefit. In particular, our “Empire Hotel Hong Kong” in Wanchai benefits from high occupancy and room rates due to its proximity to the Hong Kong Convention and Exhibition Centre. The prime locations allow us to cater to both business visitors and tourists, which has led us to maintain a high occupancy and RevPAR at our hotels.

(ii) Focus on profitable growth on the Company’s solid recurring income from its investment portfolio

The Group has a diversified investment portfolio generating a recurring and steady income stream. The Group’s investment portfolio provides a liquidity buffer and recurring income as well as a diversified cash flow stream, enabling us to finance existing hotel extension projects and seize potential investment as opportunities arise.

(iii) Continue to manage risk effectively, through a prudent financial management policy

The Group aims to monitor risk and manages exposures to a range of debt maturities and a range of debt types in a disciplined and prudent manner. The Group strives to maintain a strong financial position with a healthy level of liquidity and low level of gearing.

We are confident that our strategies will deliver maximum value to the shareholders in the long term.

Management Discussion and Analysis

(opening in 2017)

RESULTS

For the year ended 31st March 2013, the Group's revenue rose by 3% to approximately HK\$846 million and recorded a profit attributable to shareholders of HK\$424 million when compared to a loss of HK\$311 million for the same period of last year. The turnaround from loss to profit was mainly attributable to a net gain on investments in financial assets as opposed to a net loss of last year.

BUSINESS REVIEW

Hong Kong visitors' cumulative arrivals between April 2012 and March of 2013 reached 49 million, a year-on-year increase of 13%. Mainland arrivals remain the key driving factor with arrivals growing by 20% to 35 million, representing approximately 71% of total visitor arrivals.

The Group's hotel operation continued with its stable contribution to the Group's overall performance, supported by high occupancy and increasing average room rates sales from Hong Kong.

EMPIRE HOTEL KOWLOON

Empire Kowloon's average occupancy rate increased by 4% to 97%, and total room revenue amounted to HK\$126 million, an increase of 1% from last year.

(opening in 2016)

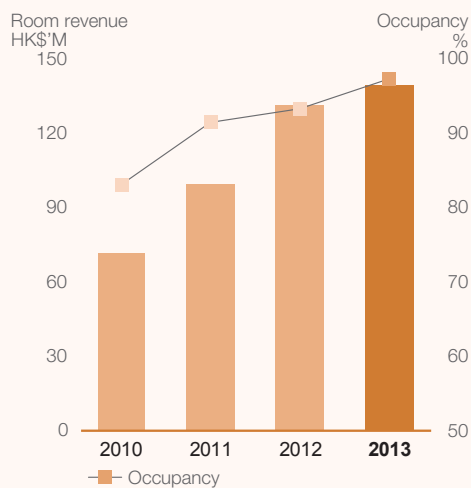

EMPIRE HOTEL HONG KONG

Empire Hong Kong's average occupancy rate increased by 4% to 97%, and total room revenue amounted to HK\$139 million, an increase of 6% from last year.

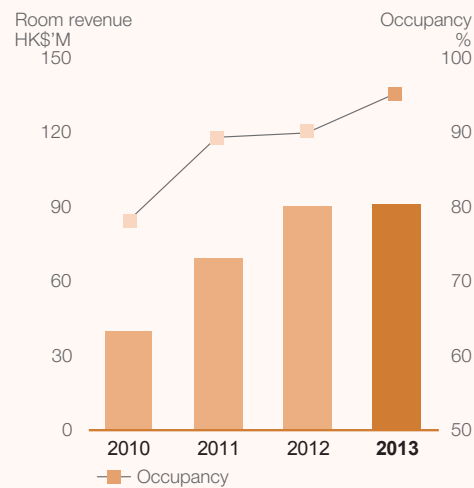

EMPIRE HOTEL CAUSEWAY BAY

Empire Causeway Bay's average occupancy rate increased by 5% to 95%, and total room revenue amounted to HK\$91 million, an increase of 2% from last year.

Empire Hotel Hong Kong

Empire Hotel Causeway Bay

Management Discussion and Analysis

EMPIRE LANDMARK HOTEL VANCOUVER

Empire Landmark's average occupancy rate decreased by 7% while its average room rate in Canadian dollar remained the same as last year. Total room revenue amounted to HK\$53 million.

HOTEL DEVELOPMENT PROJECTS

Over the past twelve months, the Group has successfully strengthened its hotel asset portfolio through the acquisitions of property interests in Causeway Bay and in TsimShaTsui. These 2 property sites are located adjacent to the Group's two existing hotels in Hong Kong. Upon completion of redevelopments of these two sites into hotels by 2016/2017, the 184 additional rooms or 19% increase from the existing room portfolio in Hong Kong will provide the Group greater operational synergies and further business opportunities.

The above hotel development projects will have a total gross floor area of approximately 65,000 square feet, and the total investment cost is approximately HK\$859 million.

TRAVEL AND CATERING

Revenue for the travel segment amounted to HK\$235 million. Revenue for catering amounted to HK\$15 million, and this segment of business has ceased to be reported separately in the notes to the financial statements due to immateriality as it represents less than 2% and 1% of the Group's total revenue and results.

FINANCIAL INVESTMENTS

As at 31st March 2013, the Group's financial investment portfolio amounted to HK\$1,413 million (2012: HK\$1,421 million). The investment portfolio consisted of listed equity (45%) and debt (55%) securities. They were denominated in Hong Kong Dollars (16%), United States Dollars (54%), Sterling (18%), Euro (5%) and Renminbi (7%). During the year ended 31st March 2013, the Group recorded a net investment gain of HK\$218 million, as opposed to a loss of HK\$567 million in last year. A total of HK\$109 million in interest and dividend income were generated from the investment portfolio (2012: HK\$121 million).

As at 31st March 2013, approximately HK\$60 million (2012: HK\$250 million) of these investments were pledged to banks as collateral for credit facilities granted to the Group.

FINANCIAL REVIEW

The Group's total assets amounted to HK\$4,718 million (2012: HK\$4,160 million). Based on independent valuation, the total revalued amount of our four hotel properties in operation as at 31st March 2013 was HK\$8,703 million, an increase of 7% when compared with that as at 31st March 2012.

The shareholders' funds amounted to HK\$2,896 million (2012: HK\$2,439 million), of which the increase was mainly due to profit for the year. Taking into account the market value of the hotel properties in operation, the revalued net assets of the Group would be HK\$9,152 million (2012: HK\$8,045 million).

Management Discussion and Analysis

The consolidated net debt was HK\$1,551 million (2012: HK\$1,452 million). 90% of the gross bank borrowings or HK\$1,523 million was denominated in HK dollars, and the remaining 10% or to the equivalent of HK\$164 million were in foreign currencies incurred in operations and investment in financial assets overseas.

The maturity of our debts were spread over a long period of up to 6 years. 10% of total borrowings were from revolving credit facilities secured by hotel properties. 3% of total borrowings were in the form of revolving credit facilities through the pledge of financial assets investment. 54% was repayable between one to five years and 29% was repayable after five years, which were also secured by hotel properties. At 31st March 2013, the Group had current assets of HK\$1,470 million (2012: HK\$1,477 million).

The Group's gearing ratio, expressed as a percentage of net debt over the revalued net asset value, decreased to 17% (2012: 18%).

The aggregate net book value of hotel properties pledged as collateral for banking facilities of the Group as at 31st March 2013 amounted to HK\$2,944 million (2012: HK\$2,492 million).

HUMAN RESOURCES

As at 31st March 2013, the total number of employees of the Company and its subsidiaries was 419 (2012: 439). In addition to salary payment, the Group provides other benefits including insurance, share options, medical scheme and retirement plans etc. to its employees.

FUTURE PROSPECTS

Looking into 2013, we expect Mainland China and the short-haul markets to continue to be the growth engine of our hotel business. Our Empire Hotels, with premier locations and constantly improved product offerings, will continue to capture the growing spending from the vibrant tourism inflows.

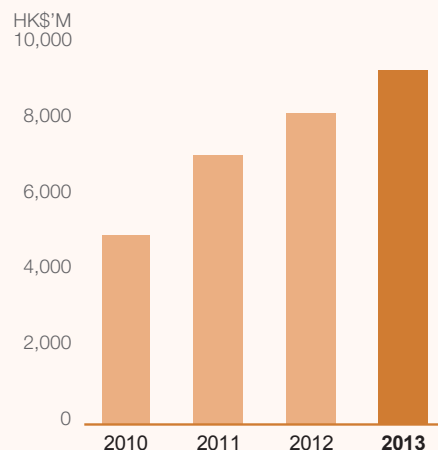

Leveraging our healthy financial position and solid hotel business in Hong Kong, we remain confident in the longer-term prospects for the Group, and will continue to plan and exercise asset enhancement initiatives to bring long term growth in hotel room numbers and revenue to the Group.

With investment sentiments remaining volatile around the globe, our management continues to adopt a cautious approach towards our investment portfolio.

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The Company is committed to sustaining its corporate governance standards by emphasising transparency, independence, accountability, responsibility and fairness. The Company exercises corporate governance through the board of Directors (the “Board”) and various committees.

BOARD OF DIRECTORS

The Board consists of five Executive Directors and three Independent Non-executive Directors. The posts of Chairman and Chief Executive are separate and are held by different individuals. The Chairman, Mr. Poon Jing is responsible for overseeing the functioning of the Board and the strategies and policies of the Group. The Chief Executive and Deputy Chairman, Dr. Lim Yin Cheng, is responsible for managing the Group’s business. The biographical details and relationship of the Directors are disclosed in the biography of Directors set out in the Directors and Senior Management section.

According to the bye-laws (the “Bye-Laws”) of the Company, at every annual general meeting of the Company, one-third of the Directors (other than the Chairman and the Managing Director) for the time being, or, if their number is not three or a multiple of three, then the number nearest to, but not exceeding one-third, shall retire from office by rotation. Pursuant to the Appendix 14 (the “Code”) of the Rules Governing the Listing of Securities (the “Listing Rules”) on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Chairman and the Managing Director shall also retire at the annual general meeting every three years. A retiring Director shall be eligible for re-election at the meeting. The Independent Non-executive Directors are not appointed for a specific term but are subject to retirement by rotation and re-election in accordance with the Bye-Laws of the Company and the Code.

The Board meets quarterly and is responsible for the formulation and reviewing of long-term business directions and strategies, to monitor the operating and financial performance of the Group and to perform corporate governance functions set out in the Code. It also considers and approves future strategic plans and budgets for the Group. The management is delegated with the authority to make decisions and responsible for daily operations of the Group under the leadership of the Chief Executive. The management provides explanation and information to the Board to enable the Board to make an informed assessment of the financial and other information put forward to the Board for approval. The Chief Executive, working with the other Executive Directors and the head of each division, is responsible for managing the business of the Group, including implementation of strategies adopted by the Board and assuming full accountability to the Board for operations of the Group. All Executive Directors have made full and active contributions to the affairs of the Board.

During the year, the Board has reviewed the Company’s policies and practices on corporate governance, and reviewed and monitored the training and continuous professional development of Directors and senior management. The Board has also reviewed and ensured compliance of the relevant legal and regulatory requirements, the code of conducts, the Code and the disclosure in the Corporate Governance Report.

The Directors are responsible for selecting and consistently applying appropriate accounting policies and preparing financial statements which give a true and fair view. The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. Accordingly, the Directors have prepared the financial statements on a going concern basis.

The Board acknowledges that it is its responsibility to prepare the financial statements and to present a balanced, clear and comprehensive assessment to annual and interim reports, other financial disclosures required under the Listing Rules on the Stock Exchange, and reports to regulators as well as to information required to be disclosed pursuant to statutory requirements.

During the year, the Board held four meetings. The Directors of the Board and the attendance of each Director at the Board Meeting and the general meeting of the Company held during the year are as follows:

Director	Title	Number of meetings attended/ Number of meetings held	
		Board meeting	General meeting
Mr. Poon Jing	Chairman	4/4	1

REMUNERATION COMMITTEE

Mr. Hung Yat Ming, an Independent Non-executive Director of the Company is the Chairman of the Remuneration Committee. The Remuneration Committee currently comprises the Deputy Chairman and Chief Executive of the Company, Dr. Lim Yin Cheng, and two Independent Non-executive Directors, Mr. Ip Chi Wai and Mr. Hung Yat Ming. The terms of reference were revised and adopted by the Board in compliance with the Code. The duties of the Committee include making recommendations to the Board on the remuneration policy and structure of the Directors and senior management, approving the remuneration, determining the remuneration packages of all Executive Directors and senior management and approving the compensation to all Directors and senior management on termination or dismissal. The remuneration packages including basic salary, annual bonus, retirement and other benefit such as share options are commensurate with their job nature and experience level. No director may be involved in any decisions as to his own remuneration or other benefit. The Group's remuneration policy seeks to provide a fair market remuneration so as to attract, retain and motivate high quality staff. The remuneration is determined with reference to his duties and responsibility, remuneration benchmark in the industry and prevailing market conditions. During the year, the Committee held one meeting, which all members except Mr. Ip Chi Wai had attended, to review, discuss and approve the remuneration packages of the Directors and senior management.

Corporate Governance Report

AUDIT COMMITTEE

The Audit Committee currently comprise all the Independent Non-executive Directors, Mr. Hung Yat Ming (as the Chairman), Mr. Leung Wai Keung and Mr. Ip Chi Wai. The terms of reference were revised and adopted by the Board in compliance with the Code. The principal activities of the Audit Committee include the review and supervision of the Group's financial reporting process and internal controls and review of the published financial statements. The Audit Committee meets at least twice a year. During the year, the Audit Committee met twice to review the Company's annual and interim financial statements and the recommendation by the auditor on enhancement of internal control. All the members had attended the meetings. The Audit Committee has reviewed the annual financial statements for the year ended 31st March 2013.

SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 of the Listing Rules on the Stock Exchange. The Company has made specific enquiry of all Directors regarding any non-compliance with the Model Code during the year, and they all confirmed that they have fully complied with the required standard set out in the Model Code throughout the year ended 31st March 2013.

CORPORATE GOVERNANCE CODE

During the year, the Company has complied with both the code provisions of the Code on Corporate Governance Practices (effective until 31st March 2012) ("CG Practices") and the Corporate Governance Code (effective from 1st April 2012) ("CG Code") as set out in Appendix 14 of the Listing Rules, except the following deviations:–

- (1) Code Provision A.4.1 of CG Practices and CG Code provide that non-executive directors should be appointed for a specific term, subject to re-election. The Independent Non-executive Directors of the Company are not appointed for specific terms, but subject to retirement by rotations and re-elections at the annual general meeting of the Company in accordance with the Bye-Laws of the Company; and
- (2) Code Provision A.5.1 of CG Code provides that issuers should establish a nomination committee which is chaired by the chairman of the board or an independent non-executive director and comprises a majority of independent non-executive directors. The Company does not have a nomination committee. The Board as a whole is responsible for reviewing the structure, size and composition of the Board, the appointment of new Directors and the nomination of Directors for re-election by shareholders at the general meeting of the Company. Under the Bye-Laws of the Company, the Board may at any time, and from time to time, to appoint any person as a Director, either to fill a casual vacancy, or as an addition to the Board. Any Director so appointed shall hold office until the next annual general meeting of the Company and shall then be eligible for re-election at the meeting.

INTERNAL CONTROL

It is the responsibility of the Board to ensure that the Group maintains sound and effective internal controls to safeguard the shareholders' investments and the Group's assets. During the year, the Board reviewed the effectiveness of the internal control system of the Group. The review covered all material controls, including financial, operational and compliance controls and risk management functions of the Group.

AUDITOR'S REMUNERATION

PricewaterhouseCoopers has been appointed as the auditor of the Company by the shareholders at the annual general meeting. The services provided by PricewaterhouseCoopers include audit, taxation related and other services. A statement by PricewaterhouseCoopers about their reporting responsibilities as the auditor of the Company is included in the Independent Auditor's Report on pages 34 to 35 of this annual report.

An amount of HK\$3,406,000 (2012: HK\$3,437,000) was charged to the financial statements of the Group for their audit services. Taxation services, review on interim results and other services provided by PricewaterhouseCoopers to the Group amounted to HK\$964,000 (2012: HK\$324,000).

SHAREHOLDERS' RIGHTS

Subject to the applicable laws and regulations, the Listing Rules on the Stock Exchange and the Bye-Laws of the Company as amended from time to time, the shareholders ("Shareholders") of the Company may put forward proposals at an annual general meeting (an "AGM") of the Company and convene general meetings of the Company.

(I) PROCEDURE FOR SHAREHOLDERS TO MAKE PROPOSALS AT SHAREHOLDERS' MEETING

The number of Shareholders required to move a resolution at an AGM or to circulate any statement by written request (the "Requisitionists") shall be:-

- i. any number of Shareholders representing not less than one-twentieth (1/20) of the total voting rights of all the Shareholders having a right to vote at the AGM or the relevant general meeting; or
- ii. not less than one hundred (100) Shareholders.

The written request (the "Requisition") must state the resolution to be moved at the AGM or the statement of not more than one thousand (1,000) words in relation to any particular resolution being proposed or business to be dealt with in the relevant general meeting of the Company (as the case may be), and signed by all the Requisitionists in one or more document in like form.

A copy of the Requisition, or two or more copies which between them contain the signatures of all the Requisitionists, shall be lodged at Canon's Court, 22 Victoria Street, Hamilton HM12, Bermuda and a copy thereof at the principal office of the Company in Hong Kong at 30/F., Asia Orient Tower, Town Place, 33 Lockhart Road, Wanchai, Hong Kong, for the attention of the Company Secretary (i) not less than six (6) weeks before the AGM in the case of a Requisition requiring notice of a resolution, unless an AGM is called for a date six weeks or less after the deposit of the Requisition, in which case the Requisition will be deemed to have been properly deposited; or (ii) not less than one (1) week before the relevant general meeting in the case of any other Requisition.

The Requisitionists must deposit a sum which is reasonably sufficient to meet the Company's expenses in giving effect to the Requisition.

(II) PROCEDURE FOR SHAREHOLDER TO CONVENE SPECIAL GENERAL MEETING

Shareholders holding not less than one-tenth (1/10) of the paid-up capital of the Company carrying the right of voting at the general meetings of the Company (the “SGM Requisitionists”) may require the Board to convene a special general meeting of the Company (“SGM”) by depositing a written requisition (the “SGM Requisition”) at Canon’s Court, 22 Victoria Street, Hamilton HM12, Bermuda and a copy thereof at the principal office of the Company in Hong Kong at 30/F., Asia Orient Tower, Town Place, 33 Lockhart Road, Wanchai, Hong Kong for the attention of the Company Secretary.

The SGM Requisition must state the objects of the SGM and be signed by the SGM Requisitionists and may consist of one or more documents in like form, each signed by one or more of the SGM Requisitionists.

Upon receipt of the SGM Requisition, the Directors shall forthwith proceed duly to convene the SGM, and such SGM shall be held within two months after the deposit of the SGM Requisition.

Where, within twenty-one (21) days of the lodging of the SGM Requisition, the Directors do not proceed duly to convene the SGM, the SGM Requisitionists, or any of them representing more than one-half (1/2) of the total voting rights of all of them, may themselves convene the SGM, provided that any SGM so convened shall be held within three (3) months from the date of deposit of the SGM Requisition. The SGM Requisitionists shall convene a SGM in the same manner, as nearly as possible, as that in which SGMs are to be convened by Directors. Under the Bye-Laws and pursuant to the requirements of the Listing Rules, a notice specifying the time and place and the general nature of the proposed business to be transacted at the SGM shall be given to all Shareholders entitled to attend the SGM for consideration in the following manner:

- i. notice of not less than twenty-one (21) clear days or ten (10) clear business days, whichever is longer, if a special resolution is to be passed at the SGM; and
- ii. notice of not less than (14) clear days or ten (10) clear business days, whichever is the longer, in all other cases, provided that a SGM may be called by a shorter notice if it is so agreed by a majority in number of the Shareholders having the right to attend and vote at the SGM, being a majority together holding not less than 95% in nominal value of the issued shares of the Company giving such right.

PROFESSIONAL DEVELOPMENT

Every newly appointed Director will receive briefing and professional development so as to ensure that he has appropriate understanding of the Group's business and of his duties and responsibilities under the Listing Rules and the relevant statutory and regulatory requirements.

The Company also provides regular updates and presentation on the business development of the Group. The Directors are regularly briefed on the latest development regarding the Listing Rules and other applicable statutory requirements to ensure compliance and upkeep of good corporate governance practices. In addition, the Company has been encouraging the Directors to enroll in professional development courses and seminars relating to the Listing Rules, companies ordinance and corporate governance practices organised by professional bodies or chambers in Hong Kong.

INVESTOR RELATIONSHIP

The Group aims to provide its shareholders and investors with high level of transparency. During the year, the Executive Directors had various meetings with local and institutional investors and analysts. The Board is committed to providing clear and full performance information of the Group to shareholders and the public through the publication of interim and annual reports, announcements, circulars and press releases.

The Company has also maintained a website at <http://www.asiastandardhotelgroup.com> which enables shareholders, investors and public to access to the information of the Company on a timely basis.

PROCEDURE FOR RAISING ENQUIRIES

Shareholders may at any time send their enquiries and concerns to the Board in writing to the principal place of business of the Company in Hong Kong or by e-mail to info@asia-standand.com.hk for the attention of the company secretary.

CORPORATE SOCIAL RESPONSIBILITY REPORT

At the Empire Hotels, we are committed to making a positive contribution to society and communities in Hong Kong and China, a place in which we operate and have grown over the past decade. Focusing our corporate social responsibility and effort on imminent and important social issues, we endeavour to contribute, support and help to provide for those who most need a great place to live, learn and grow.

THE COMMUNITY

'The Art of Caring' Community Care Program was launched in 2009 by the Empire Hotels in conjunction with SAHK, a rehabilitation service organisation. Since then, the Program has been giving support to local children and youth with special needs in their education and rehabilitation through the creation of art pieces and a series of educational workshops, learning events and life enriching activities. During 2012/2013, the following activities were organised:

- OLE² (Other Learning Experiences x Opportunities for Life Enrichment) Job Shadowing Project was designed in support of the new secondary school curriculum OLE (Other Learning Experiences), aiming to provide students from three special secondary schools of SAHK with valuable working and life experiences and better preparation in developing their future career. Students were selected to experiment a work life in the different department of the hotel industry during October and November in 2012.
- Dining Etiquette Workshops in Empire's Kitchen of Empire Hotel Kowloon • Tsim Sha Tsui where groups of 15 secondary schools students of SAHK learnt the proper dinner etiquette and table manner by the hotel's restaurant manager in November and December 2012.
- 'SAHK Angels in the Realm of Empire Glory' musical performances at Empire Hotel Kowloon • Tsim Sha Tsui where school bands of three secondary schools from SAHK performed festive Christmas music in the hotel lobby on 20th and 24th December 2012.

Joining hands with SAHK, the Group will continue to expand the breadth and depth of 'The Art of Caring' Community Care Program enabling more learning opportunities and rehabilitation support for children and youth with special needs.

RECOGNITION OF CONTRIBUTION

The Group has been for a fourth year awarded the Caring Company title 2012/13 by The Hong Kong Council of Social Service (HKCSS) in recognition of its contribution to the community. This recognition signifies a solid testimonial and a renewed impetus for the Group on its commitment to making positive contribution to society and communities.

ENVIRONMENTAL PROTECTION

The design of our Empire Hotel in Causeway Bay was divided in four zones for optimal gas supply and energy saving. Airconditioning in Empire Hotel Causeway Bay and Empire Hotel Kowloon has a zone valve whereby electricity supply will be switched off on idle floors for energy preservation purposes. In our Empire Hotel Kowloon, the two latest renovated floors have an individual electric heater supply system and the system can be switched off individually for energy reduction purposes. In our Empire Hotel Hong Kong, the air cool chiller system has been replaced by a water cool chiller system, which is environmentally friendly and has greater energy efficiency, better controllability, and longer life.

Daily monitoring of energy and fuel consumption to identify areas for energy conservation is in place. Phased replacements of chillers, fan coil units, air handling units, laundry and kitchen equipment, electrical appliances and lighting have been enhanced to more energy-efficient models.

THE PEOPLE

The Group is an equal opportunity employer and does not discriminate on the basis of personal characteristics. Employee Handbooks outline terms and conditions of employment, expectations for employees' behaviour and service delivery, employees' rights and benefits. We establish and implement policies that promote a fair and respectful workplace. We provide ongoing training and development opportunities to enhance our employees' career progression.

RESPONSIBLE SOURCING

The Group has adopted high standards for all building materials in our premises construction, and equipment and products varying from more efficient and environmentally-responsible refrigerators in the guest rooms of our Empire Hotel in Causeway Bay, to high-quality, durable linens and towels that are used in all our hotels.

To enhance our procurement of environmentally responsible items, we continue to review options to purchase more products from organic and/or sustainably managed sources, environmentally superior products, as well as local or regional companies to reduce the environmental impact of their manufacture and transportation.

To reduce paper consumption, we maximise the use of electronic communications and file storage systems for general office work, guest logs and nightly reports and whenever possible we use e-confirmations for guest reservations.

SHARE OPTION SCHEME

The Company's Share Option Scheme was adopted on 28th August 2006. The board of Directors of the Company may grant options to any Director, employee, consultant, customer, supplier, agent, partner or advisers of or contractor to the Company, its subsidiary or any invested entity, their discretionary trust or the companies owned by them. The purpose was to provide incentives, recognise and acknowledge the contributions of, motivate and maintain relationship with the eligible participants.

The total number of shares available for issue upon exercise of all options to be granted under the Company's Share Option Scheme must not exceed 125,088,061 shares, representing about 8.07% of the shares in issue at the date of this report. The total maximum number of shares which might be issued upon exercise of all outstanding options granted and yet to be exercised under the Company's Share Option Scheme and any other share option scheme must not exceed 30% of the shares in issue from time to time. The maximum number of shares in respect of which options might be granted to a participant, when aggregated with shares issued and issuable (including exercised, outstanding and cancelled options) under any options granted to the same participant under the Company's Share Option Scheme or any other share option scheme within any 12 months period, must not exceed 1% of the shares in issue from time to time.

Report of the Directors

There was no requirement for a grantee to hold the option for a certain period before exercising the option unless otherwise determined by the Directors. The exercise period should be any period determined by the board of the Directors but in any event the exercise period should not be later than 10 years from the date of grant. The grantee has to accept an option within 21 days from the date of offer by making a non-refundable payment of HK\$1 to the Company.

The subscription price shall be at the discretion of the board of the Directors provided that it shall be not less than the highest of (i) the closing price of a share on the relevant date of grant; (ii) the average of the closing prices of the shares for the five trading days immediately preceding the date of grant; and (iii) the nominal value of a share. The Company's Share Option Scheme is effective for 10 years from 28th August 2006.

The following table discloses details of the Company's share options granted under the Company's Share Option Scheme held by employees (including Directors):

During the year ended 31st March 2013, a total rent of HK\$1,788,600 (2012: HK\$1,951,200) was paid by JBC to Hoi Chak for the aforesaid tenancy agreement.

Report of the Directors

- (b) Pursuant to a tenancy agreement dated 28th February 2013 entered into between JBC and Hoi Chak, JBC has been leasing the Premise from Hoi Chak for a period of two years commencing from 1st March 2013 to 28th February 2015 at a monthly rental of HK\$216,800. The annual cap in respect of the amount of annual rent and related expense is not exceeding HK\$245,000 for the year ended 31st March 2013.

During the year ended 31st March 2013, a total rent and related expense of HK\$244,735 (2012: Nil) was paid by JBC to Hoi Chak for the aforesaid tenancy agreement.

PROJECT MANAGEMENT SERVICES AGREEMENTS

Pursuant to a master agreement dated 26th June 2012 entered into between the Company and Winfast Engineering Limited (“Winfast”), a subsidiary of ASI, Winfast provides the project management services to the member(s) of the Group in connection with the regular building maintenance services, fitting-out works, improvement works and/or other works incidental thereto at the hotels owned and operated by and the properties owned by the Group for a period of three years commencing from 1st April 2012 to 31st March 2015. The annual cap in respect of the amount of project management fees is not exceeding HK\$5,000,000 for the year ended 31st March 2013.

During the year ended 31st March 2013, a total project management fees of HK\$3,780,000 (2012: Nil) was paid by the subsidiaries of the Company to Winfast for the aforesaid project management services agreement.

Hoi Chak and Winfast are the indirect wholly owned subsidiaries of ASI, which is in turn a substantial shareholder of the Company holding approximately 70.06% of the issued share capital of the Company. Hoi Chak, Winfast and ASI are regarded as connected persons of the Company under the Listing Rules. Accordingly, the aforesaid tenancy agreements and project management service agreement constitute continuing connected transactions of the Company for the purpose of the Listing Rules.

Pursuant to Rule 14A.37 of the Listing Rules, the Independent Non-executive Directors of the Company have reviewed the continuing connected transaction and confirmed that the continuing connected transactions have been entered into (a) in the ordinary and usual course of business of the Group; (b) on normal commercial terms or on terms no less favourable to the Group than terms available to or from independent third parties; and (c) in accordance with the relevant agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

Pursuant to Rule 14A.38 of the Listing Rules, the board of Directors engaged the independent auditor to report on the Group’s continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 “Assurance Engagements Other Than Audits or Reviews of Historical Financial Information” and with reference to Practice Note 740 “Auditor’s Letter on Continuing Connected Transactions under the Hong Kong Listing Rules” issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued his unqualified letter containing his findings and conclusion in respect of the above continuing connected transaction. A copy of the auditor’s letter has been provided by the Company to the Stock Exchange.

INDEPENDENT NON-EXECUTIVE DIRECTORS

Confirmation of independence pursuant to the independence guidelines under the Listing Rules on the Stock Exchange has been received from each of the Independent Non-executive Directors of the Company and the Company considers all existing Independent Non-executive Directors are independent.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to and within the knowledge of the Directors, it is confirmed that there is sufficient public float of more than 25% of the Company's issued shares at the latest practicable date prior to the issuance of this report.

AUDITOR

The financial statements have been audited by PricewaterhouseCoopers who retire and, being eligible, offer themselves for re-appointment.

On behalf of the Board

Chairman

Hong Kong, 25th June 2013

Independent Auditor's Report

To the Shareholders of Asia Standard Hotel Group Limited

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Asia Standard Hotel Group Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 36 to 96, which comprise the consolidated and company balance sheets as at 31st March 2013, and the consolidated profit and loss account, the consolidated statement of comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Companies Act 1981 of Bermuda and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31st March 2013, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes to the Financial Statements

1 BASIS OF PREPARATION

The consolidated financial statements have been prepared under the historical cost convention as modified by the revaluation of available-for-sale investments, financial assets at fair value through profit or loss and derivative financial instruments, which are carried at fair value, and in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2 PRINCIPAL ACCOUNTING POLICIES

(A) THE ADOPTION OF NEW/REVISED HKFRS

The accounting policies and methods of computation used in the preparation of these annual financial statements are consistent with those used in 2012. There are no new or revised standards or interpretations that are effective for the first time for this year which are relevant to the Group’s operation and have a material impact on the Group’s annual financial statements.

The following new HKFRSs are relevant to the Group’s operation but not yet effective

Effective for accounting periods beginning on or after:

1st January 2013

HKFRS 10	Consolidated Financial Statements
HKFRS 13	Fair Value Measurement

1st January 2015

HKFRS 9	Financial Instruments
---------	-----------------------

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(A) THE ADOPTION OF NEW/REVISED HKFRS (Continued)

HKFRS 10 'Consolidated financial statements' builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess.

HKFRS 13 'Fair value measurement' aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRS/HKFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within HKFRSs.

HKFRS 9 establishes the principles for financial reporting of financial assets. Financial assets are required to be classified into two measurement categories: those to be measured subsequently at fair value, and those to be measured subsequently at amortised cost. The decision is to be made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.

An instrument is subsequently measured at amortised cost only if it is a debt instrument and both the objective of the entity's business model is to hold the asset to collect the contractual cash flows, and the asset's contractual cash flows represent only payments of principal and interest (that is, it has only 'basic loan features'). All other debt instruments are to be measured at fair value through profit or loss.

All equity instruments are to be measured subsequently at fair value. Equity instruments that are held for trading will be measured at fair value through profit or loss. For all other equity investments, an irrevocable election can be made at initial recognition, to recognise unrealised and realised fair value gains and losses through other comprehensive income rather than profit or loss. There is to be no recycling of fair value gains and losses to profit or loss. This election may be made on an instrument-by-instrument basis. Dividends are to be presented in profit or loss, as long as they represent a return on investment.

The Group has not early adopted the above new/revisted HKFRSs. The Group has already commenced an assessment of the related impact to the Group. The Group is not yet in a position to state whether they will have substantial change to the Group's accounting policies and presentation of the financial statements.

Notes to the Financial Statements

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(B) BASIS OF CONSOLIDATION

The consolidated financial statements of the Group include the financial statements of the Company and all its subsidiaries made up to 31st March.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the statement of comprehensive income.

The profit or loss on disposal of subsidiaries, is calculated by reference to the net assets at the date of disposal including the attributable amount of goodwill, and any related exchange reserve.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated. Accounting policies of subsidiaries have been changed where necessary in the consolidated financial statements to ensure consistency with the accounting policies adopted by the Group.

Non-controlling interests represent the interests of outside shareholders in the operating results and net assets of subsidiaries.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(C) SUBSIDIARIES

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

In the Company's balance sheet, the investments in subsidiaries are stated at cost less provision for impairment losses. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

(D) BALANCES WITH SUBSIDIARIES

Balances with subsidiaries are split into its financial assets/liabilities and equity components at initial recognition. The financial assets/liabilities component is initially stated at fair value and subsequently carried at amortised cost. The equity component is recognised at cost.

(E) FINANCIAL ASSETS/LIABILITIES

The Group classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, available-for-sale investments and derivative financial instruments. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition.

(i) Financial assets at fair value through profit or loss and derivative financial instruments

This category represents financial assets that are either designated in this category at inception by the management or held for trading, i.e. if acquired for the purpose of selling them in the short term. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the balance sheet date.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(E) FINANCIAL ASSETS/LIABILITIES (Continued)

(iii) Available-for-sale investments

Available-for-sale investments are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the balance sheet date.

Purchases and sales of investments are recognised on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the profit and loss account. Investments are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Financial assets at fair value through profit or loss and available-for-sale investments are subsequently carried at fair value. Loans and receivables are carried at amortised cost using the effective interest method.

Gains and losses arising from changes in the fair value of the “financial assets at fair value through profit or loss” category are included in the profit and loss account in the period in which they arise. Dividend income from financial assets at fair value through profit or loss and available-for-sale investments is recognised in the profit and loss account when the right to receive payment is established. Changes in the fair value of available-for-sale investments are recognised in other comprehensive income. When securities classified as available-for-sale investments are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the profit and loss account as net investment gain or loss.

The fair values of financial instruments traded in active markets are based on quoted market price at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

The fair values of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Quoted market prices or dealer quotes for similar instruments are used for long term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments. The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(E) FINANCIAL ASSETS/LIABILITIES (Continued)

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. In the case of equity securities classified as available-for-sale investments, a significant or prolonged decline in the fair value of the securities below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale investments, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the profit and loss – is removed from equity and recognised in the profit and loss account. Impairment losses recognised in the profit and loss account on equity instruments are not reversed through the profit and loss account. Impairment test of receivables is described in note 2(l).

Derivatives financial instruments are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value.

Changes in the fair value of derivative financial instruments are recognised immediately in the profit and loss account.

The Group may choose to reclassify a non-derivative trading financial asset out of the held for trading category if the financial asset is no longer held for the purpose of selling it in the near term. Financial assets other than loans and receivables are permitted to be reclassified out of the held for trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near term. In addition, the Group may choose to reclassify financial assets that would meet the definition of loans and receivables or held-to-maturity investments out of the held-for-trading or available-for-sale categories if the Group has the intention and ability to hold these financial assets for the foreseeable future or until maturity at the date of reclassification.

Reclassifications are made at fair value as of the reclassification date. Fair value becomes the new cost or amortised cost as applicable, and no reversals of fair value gains or losses recorded before reclassification date are subsequently made. Effective interest rates for financial assets reclassified to loans and receivables and held-to-maturity categories are determined at the reclassification date. Further increases in estimates of cash flows adjust effective interest rates prospectively.

(F) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at historical cost less depreciation and impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are expensed in the profit and loss account during the financial period in which they are incurred.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(F) PROPERTY, PLANT AND EQUIPMENT (Continued)

Leasehold land classified as finance lease commences amortisation from the time when the land interest become available for its intended use. Amortisation on leasehold land classified as finance lease and depreciation of property, plant and equipment is calculated using straight-line method to allocate the cost to their residual values over their estimated useful lives, as follows:

Leasehold land classified as finance lease	Remaining lease term
Hotel and other buildings in Hong Kong	Shorter of 50 years or the remaining lease period of the land on which the buildings are located
Hotel buildings in overseas	25 years
Plant and equipment	3 – 10 years

Freehold land is not amortised.

No depreciation is provided for hotel properties under development.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

The gain or loss on disposal of an asset is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in the profit and loss account.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2(G)).

(G) IMPAIRMENT OF NON-FINANCIAL ASSETS

Assets that have an indefinite useful life or are not yet available for use are not subject to depreciation or amortisation and are tested annually for impairment. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(H) INVENTORIES

Inventories comprise primarily food, beverages and operating supplies and are stated at the lower of cost and net realisable value. Cost is calculated on the weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less selling expenses.

(I) TRADE AND OTHER RECEIVABLES

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade and other receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the assets is reduced through the use of an allowance account, and the amount of the loss is recognised in the profit and loss account within "selling and administrative expenses". When a receivable is uncollectible, it is written off against the allowance account for receivables. Subsequent recoveries of amounts previously written off are credited against "selling and administrative expenses" in the profit and loss account. Trade and other receivables in the consolidated balance sheet are stated net of such provision.

(J) TRADE PAYABLES

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

(K) PROVISIONS

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

(L) BORROWINGS

Borrowings are recognised initially at fair value, net of transaction costs incurred. Transaction costs are incremental costs that are directly attributable to the initiation of the borrowings, including fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Borrowings are subsequently stated at amortised cost with any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit and loss account or capitalised when applicable (note 2(S)) over the period of the borrowings using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(M) EMPLOYEE BENEFITS

(i) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(ii) Retirement benefit obligations

The Group contributes to several defined contribution retirement schemes which are available to employees. The assets of the schemes are held separately from those of the Group in independently administered funds. The Group's contributions to these schemes are expensed as incurred.

(iii) Share-based compensation

The Group operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to vest. At each balance sheet date, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting conditions. It recognises the impact of the revision of original estimates, if any, in the consolidated profit and loss account, with a corresponding adjustment to equity.

When the options are exercised, the Company issue new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the options are exercised.

The Group has adopted the transitional provisions under HKFRS 2 for options granted after 7th November 2002 and vested at the effective date of HKFRS 2.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(N) CURRENT AND DEFERRED INCOME TAX

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or a liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

(O) SHARE CAPITAL

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(P) SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources, assessing performance of the operating segments and making strategies decisions, is identified as the Board of Directors of the Company.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(Q) REVENUE RECOGNITION

Revenue comprises the fair value of the consideration received or receivable for the sales of goods and services in ordinary course of the Group's activities. Revenue is recognised as follows:

Revenue from hotel and catering operations is recognised upon provision of services.

Operating lease rental income is recognised on a straight-line basis over the term of the lease.

Revenue from sale of air tickets is recognised when the tickets are delivered.

Revenue from hotel reservation service is recognised when service is rendered.

Interest income is recognised on a time proportion basis using the effective interest method.

Dividend income is recognised when the right to receive payment is established.

(R) FOREIGN CURRENCY TRANSLATION

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollars, which are the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account.

Changes in the fair value of monetary securities denominated in foreign currency classified as available-for-sale are analysed between translation differences resulting from changes in the amortised cost of the securities and other changes in the carrying amount of the securities. Translation differences related to changes in the amortised cost are recognised in the profit and loss account, and other changes in the carrying amount are recognised in equity.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in the profit and loss account as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as available-for-sale are included in the fair value reserve in equity.

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(R) FOREIGN CURRENCY TRANSLATION (Continued)

(iii) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (b) income and expenses for each profit and loss account are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- (c) all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, are taken to other comprehensive income. When a foreign operation is sold, exchange differences that were recorded in equity are recognised in the profit and loss account as part of the gain or loss on sale.

Fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(S) BORROWING COSTS

Borrowing costs incurred on hotel properties under development that necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of the hotel properties under development.

All borrowing costs are recognised in the consolidated profit and loss account in the year in which they are incurred.

(T) OPERATING LEASES

Leases in which a significant portion of risks and rewards of ownership are retained by the lessors are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessors), are charged in the profit and loss account on a straight-line basis over the period of the leases.

Notes to the Financial Statements

2 PRINCIPAL ACCOUNTING POLICIES (Continued)

(U) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less and bank overdrafts.

(V) RELATED PARTIES

Related parties are individuals and companies, including subsidiaries, fellow subsidiaries and key management (including close members of their families), where the individual, company or group has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions.

(W) DIVIDEND DISTRIBUTION

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and the Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors where applicable.

(X) SCRIP DIVIDEND

Where the Company pays its dividends in the form of shares or gives the shareholders the options to receive a dividend in either cash or ordinary shares (referred to as scrip dividend), the shares issued are recognised at fair value.

(Y) FINANCIAL GUARANTEE (INSURANCE CONTRACTS)

The Company assesses at each balance sheet date the liabilities under its financial guarantee contracts using current estimates of future cash flows. Changes in carrying amount of these liabilities are recognised in the profit and loss account.

The Company accounts for its financial guarantee contracts in respect of guarantees provided to its subsidiaries in accordance with HKFRS 4, "Insurance Contracts".

3 FINANCIAL RISK MANAGEMENT

(II) FINANCIAL RISK FACTORS

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's overall risk management seeks to minimise potential adverse effects on the Group's financial performance.

(a) Market risk

(i) Foreign exchange risk

The Group's operations are mainly in Hong Kong. Entities within the Group are exposed to foreign exchange risk from future commercial transactions and monetary assets and liabilities that are denominated in a currency that is not the entity's functional currency.

The Group has certain investments in foreign operations including Canada and Mainland China, whose net assets are exposed to foreign currency translation risk. Currency exposure arising from the net assets of the Group's foreign operations is managed primarily through borrowings denominated in the relevant foreign currencies.

The Group currently does not have a foreign currency hedging policy. It manages its foreign currency risk by closely monitoring the movement of the foreign currency rates and will consider entering into forward foreign exchange contracts to reduce the exposure should the need arise.

Currency risks as defined by HKFRS 7 arise on account of monetary assets and liabilities being denominated in a currency that is not the functional currency, differences resulting from the translation of financial statements into the Group's presentation currency are not taken into consideration.

The Group is also exposed to foreign currency risk with respect to financial assets at fair value through profit or loss, bank balances and borrowings which are denominated in United States dollars, Sterling, Euros and Japanese Yen.

At 31st March 2013, the Group's entities with functional currency of Hong Kong dollar had United States dollar net monetary assets of HK\$770,827,000 (2012: HK\$487,048,000). Under the Linked Exchange Rate System in Hong Kong, Hong Kong dollar is pegged to United States dollar, management considers that there is no significant foreign exchange risk with respect to United States dollar.

(II) FINANCIAL RISK FACTORS (Continued)

(a) Market risk (Continued)

(i) Foreign exchange risk (Continued)

If the foreign currency had strengthened/weakened by 5%, with all other variables held constant, the Group's post tax result would have the following changes:

Japanese Yen	(55,962)	(2,336)	2,336	(64,114)	(2,677)	2,677

(ii) Price risk

The Group is exposed to equity and debt securities price risk from the Group's available-for-sale investments, financial assets at fair value through profit or loss and derivative financial instruments. The performance of the Group's investments are closely monitored, together with an assessment of their relevance to the Group's long term strategic plans.

The Group's listed investments in equity and debts securities of other entities (classified as "available-for-sale investments" and "financial assets at fair value through profit or loss") are traded in the Hong Kong Stock Exchange, London Stock Exchange, New York Stock Exchange, Singapore Exchange and Luxembourg Stock Exchange. Gains and losses arising from changes in fair value of available-for-sale investments and financial assets at fair value through profit or loss are dealt with in equity and the profit and loss account respectively.

(ii) Price risk (Continued)

For every 10% increase/decrease in the prices of financial instruments, with all other variables held constant, the Group's post tax result would have the following changes:

Available-for-sale investments	-	-	22,392	(22,392)	-	(306)	18,633	(18,327)

(iii) Cash flow interest rate risk

Other than bank balances and deposits, financial investments with fixed coupon and loan receivables (collectively "Interest Bearing Assets"), the Group has no other significant interest bearing assets. The Group's interest rate risk also arises from borrowings ("Interest Bearing Liabilities").

Interest Bearing Assets are mostly at fixed rates. Interest Bearing Liabilities are primarily issued at variable rates which therefore expose the Group to cash flow interest rate risk. The Group manages this risk by limited use of floating-to-fixed interest rate swaps.

At 31st March 2013, with all other variables held constant, if the interest rate had increased/decreased by 10 basis point, the Group's post tax profit (2012: post tax loss) would have been HK\$1,250,000 lower/higher (2012: HK\$992,000 higher/lower).

3 FINANCIAL RISK MANAGEMENT (Continued)

(I) FINANCIAL RISK FACTORS (Continued)

(b) Credit risk

The credit risk of the Group mainly arises from cash and cash equivalents, financial assets at fair value through profit or loss (note 18), derivative financial assets (note 19) as well as credit exposures to trade and other receivables.

Sales are either made in cash, via major credit cards or to customers with appropriate credit history.

The Group has limited its credit exposure by restricting their selection of financial institutions. Trade and other receivables and debt securities are assessed based on the credit quality of the debtors, taking into account their financial position, past experience and other factors. Individual risk limits are set by management and the utilisation of credit limits is regularly monitored.

(c) Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its current obligations when they fall due. The Group closely monitors its liquidity through maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of credit facilities and compliance of financial covenants of borrowings. The Group maintains flexibility in funding by keeping credit lines available and maintaining a reasonable level of marketable securities to meet any unexpected and material cash requirements in the course of ordinary business and to provide contingency liquidity support.

The Group measures its liquidity using the gearing ratio, which represents the net debt against the net assets, after taking into account the fair value of hotel properties in operation. Currently it is at a relatively low level compared to the thresholds stated at the financial covenants of the bank borrowings.

The relevant maturity groupings on the contractual undiscounted cash flow based on the remaining period at the balance sheet date to the contractual maturity date of the Group's and the Company's financial liabilities are analysed in the financial statements.

The tables below analyse the Group's financial liabilities that will be settled into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual face value without applying discounted cash flow model based on the earliest date on which the Group is required to pay.

Specifically, for term loans which contain a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, that is if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The maturity analysis for other borrowings is prepared based on the scheduled repayment dates.

The table that follows summarises the maturity analysis of term loans with a repayment on demand clause based on agreed scheduled repayments set out in the loan agreements. The amount includes interest payments computed using contractual rates. As a result, these amounts were greater than the amounts disclosed in the "on demand" time band in the maturity analysis above. Taking into account the Group's financial position, the directors do not consider that it is probable that the bank will exercise its discretion to demand immediate repayment. The directors believe that such term loans will be repaid in accordance with the scheduled repayment dates set out in the loan agreements.

3 FINANCIAL RISK MANAGEMENT (Continued)

(II) CAPITAL RISK MANAGEMENT

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group monitors capital on the basis of the gearing ratio against revalued net assets. Revalued net assets ("Revalued net assets") are prepared having taken into account the fair value of hotel properties, net of relevant deferred income taxes, in addition to the net assets shown in the consolidated balance sheet. According to the Group's accounting policies, no properties other than investment properties are to be carried at valuation. Details of the valuation of the hotel properties in operation, prepared for readers' information only, are set out in note 15(a) to the financial statements.

The gearing ratio against Revalued net assets is calculated as net debt divided by Revalued net assets. Net debt is calculated as total borrowings (including current and non-current borrowings as shown in the consolidated balance sheet) less bank balances and cash.

The gearing ratios at 31st March 2013 and 2012 were as follows:

	2013 HK\$'000	2012 HK\$'000
Borrowings (note 25)	1,687,455	1,585,910
Less: bank balances and cash (note 21)	(136,071)	(133,710)

Gearing ratio against Revalued net assets	17%	18%

(III) FAIR VALUE ESTIMATION

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

3 FINANCIAL RISK MANAGEMENT (Continued)

(III) FAIR VALUE ESTIMATION (Continued)

- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities that are measured at fair value at 31st March 2013.

Notes to the Financial Statements

3 FINANCIAL RISK MANAGEMENT (Continued)

(III) FAIR VALUE ESTIMATION (Continued)

The fair value of financial instruments that are not traded in an active market is determined by using the latest available transaction price or valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date.

The carrying value less impairment provision of trade receivables and payables are a reasonable approximation of their fair values. The fair values of financial liabilities for disclosure purposes are estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below:

(A) FAIR VALUES OF DERIVATIVE FINANCIAL INSTRUMENTS

The fair values of derivative financial instruments (note 19) that are not traded in active markets are determined by using valuation techniques. Where valuation techniques are used to determine fair values, they are periodically reviewed. To the extent practical, models use only observable data, however areas such as credit risk, volatilities and correlations require management to make estimates. Changes in assumptions about these factors could affect the fair values of derivative financial instruments.

(B) INCOME TAXES

The Group is subject to income taxes in Hong Kong and other jurisdictions. Judgement is required in certain provision for income taxes for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for potential tax exposures based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current and deferred income tax provisions in the period in which such determination is made.

Recognition of deferred income tax assets (note 26), which principally relate to tax losses, depends on management's expectation of future taxable profits that will be available against which tax losses can be utilised. The outcome of their actual utilisation may be different.

(C) IMPAIRMENT OF TRADE AND OTHER RECEIVABLES

The policy for provision for impairment of receivables of the Group is based on the evaluation of collectability and aging analysis and by management judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

(D) IMPAIRMENT OF AVAILABLE-FOR-SALE INVESTMENTS

The Group follows the guidance of HKAS 39 to determine when an available-for-sale investment is impaired. This determination requires significant judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost.

5 TURNOVER AND SEGMENT INFORMATION

The Company is a limited liability company incorporated in Bermuda and listed on The Stock Exchange of Hong Kong Limited. The address of its registered office is 30th Floor, Asia Orient Tower, Town Place, 33 Lockhart Road, Wanchai, Hong Kong.

(A) TURNOVER

The Group is principally engaged in hotel, travel agency operations and securities investment.

Revenue includes revenue from hotel, catering services, travel agency operations and interest income and dividend income. Management regards turnover as comprising these revenue as defined under generally accepted accounting principles together with gross consideration from disposal of financial assets at fair value through profit or loss and derivative financial instruments.

In the past, the Group was organised into four main reportable operating segments comprising of hotel operation, catering services, travel agency and investments. As the Group's restaurant operation in Hong Kong and Mainland China reported under catering services segment represents less than 2% and 1% of the Group's total revenue and results, this segment of business is not reported separately. Corresponding comparative figures have been adjusted to conform with the re-classification.

5 TURNOVER AND SEGMENT INFORMATION (Continued)

(B) SEGMENT INFORMATION

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments. The operating segments were determined based on the reports reviewed by the chief operating decision-maker. The Group is organised into three main operating segments, comprising hotel operation, travel agency and financial investments.

Hotel operation	–	hotel operation in Hong Kong and Canada
Travel agency	–	sale of air tickets and hotel reservation service in Hong Kong
Financial investments	–	Investments in financial instruments

Segment assets consist primarily of property, plant and equipment, inventories, trade and other receivables, available-for-sale investments and financial assets at fair value through profit or loss. Segment liabilities comprise mainly borrowings.

Gross contributions	4,631	4,664
Termination benefit	83	160
Net contributions	4,714	4,824

The Group participates in various types of defined contribution schemes for employees, namely the Mandatory Provident Fund (“MPF”) Scheme and Occupational Retirement Scheme Ordinance (“ORSO”) Scheme in Hong Kong, Canada Pension Plan (“CPP”) in Canada and retirement plans in Mainland China.

In Hong Kong, the Group participates in defined contribution schemes under the ORSO which are available to employees joining before 1st December 2000. Under these schemes, contributions of 5% of the employee’s monthly salaries are made by the employees and by the Group. The Group’s contributions may be reduced by contributions forfeited by those employees who leave the schemes prior to vesting fully in the contributions.

The Group also participates in the MPF schemes, which are available to all employees not joining the ORSO schemes in Hong Kong and in the CPP organised by the Canadian Government for all employees in Canada. Monthly contributions to the MPF scheme and CPP are made equal to 5% (2012: 5%) or a fixed sum and 4.95% (2012: 6.20%) respectively, of the employee’s relevant income in accordance with the local legislative requirements.

As at 31st March 2013, no forfeitures (2012: Nil) was available to reduce the Group’s future contributions to the ORSO scheme.

12 PROFIT ATTRIBUTABLE TO SHAREHOLDERS OF THE COMPANY

The profit for the year attributable to shareholders is dealt with in the financial statements of the Company to the extent of profit of HK\$120,004,000 (2012: HK\$424,000).

Notes to the Financial Statements

13 DIVIDENDS

	2013 HK\$'000	2012 HK\$'000
Interim, paid, of nil (2012: Nil) per share	–	–
Final, proposed, of HK1 cent (2012: Nil) per share	15,498	–
	15,498	–

At a meeting held on 25th June 2013, the Board of Directors has proposed to pay a final dividend of HK1 cent (2012: Nil) per share for the year ended 31st March 2013. The proposed dividend is not reflected in the financial statements, but will be reflected as an appropriation of revenue reserve in the year ending 31st March 2014.

The amount of HK\$15,498,000 is based on 1,549,842,336 issued shares as at 25th June 2013.

14 EARNINGS/(LOSS) PER SHARE

The calculation of basic earnings/(loss) per share is based on the profit for the year attributable to shareholders of HK\$423,777,000 (2012: loss of HK\$311,454,000) and divided by the weighted average number of 1,549,842,336 (2012: 1,543,771,729) shares in issue during the year.

For the years ended 31st March 2013 and 2012, the Company's outstanding share options did not have a dilution effect on the earnings/(loss) per share, so the basic and diluted earnings/(loss) per share were equal.

17 AVAILABLE-FOR-SALE INVESTMENTS

	2013 HK\$'000	2012 HK\$'000
Equity securities listed in Hong Kong	223,923	186,331

Notes:

- (a) In 2009, the Group reclassified certain financial assets at fair value through profit or loss into the available-for-sale investments. In respect of the reclassified financial assets, the Group recognised fair value loss of HK\$16,317,000 before such reclassification. The Group believed that the deterioration of the world's financial markets that occurred during the third quarter of 2008 represents a rare circumstance that allows such a reclassification. The fair values of reclassified financial assets as of the date of reclassification amounted to HK\$67,943,000, which was gradually disposed in subsequent years. No such reclassification was made for the years ended 31st March 2010, 2011, 2012 and 2013.

At 31st March 2012, the fair value of the remaining reclassified financial assets was HK\$4,815,000, and at 31st March 2013, all the remaining reclassified financial assets were disposed.

During the year, there was no fair value gain (2012: loss of HK\$3,729,000) while impairment loss of HK\$395,000 (2012: HK\$2,261,000) for the reclassified financial assets were recognised in other comprehensive income and profit and loss account respectively.

- (b) Impairment provision of HK\$395,000 (2012: HK\$2,261,000) on available-for-sale investments was recognised in the consolidated profit and loss account during the year (note 6).

20 TRADE AND OTHER RECEIVABLES (Continued)

The aging analysis of trade receivables net of provision for impairment is as follows:

	2013 HK\$'000	2012 HK\$'000
0 – 60 days	63,637	31,328
61 – 120 days	1,453	901
More than 120 days	–	60
	65,090	32,289

The majority of past due but not impaired trade receivables are less than 60 days. These relate to a number of independent customers for whom there is no recent history of default. The aging analysis of these trade receivables is as follows:

	2013 HK\$'000	2012 HK\$'000
0 – 60 days	10,621	5,174
More than 60 days	–	233
	10,621	5,407

As at 31st March 2013, no trade receivables (2012: HK\$287,000) were impaired.

The credit terms given to the customers vary and are generally based on the financial strengths of individual customers. In order to effectively manage the credit risks associated with trade debtors, credit evaluations of customers are performed periodically.

The carrying amounts of the trade and other receivables approximate their fair values. They are denominated in the following currencies:

	2013 HK\$'000	2012 HK\$'000
Hong Kong dollar	79,456	71,389
United States dollar	48,666	9,642
Sterling	3,324	10,743
Canadian dollar	8,013	12,526
Others	2,424	2,126
	141,883	106,426

Loan receivables were interest bearing at 2% (2012: 2%) above Hong Kong prime rate per annum.

20 TRADE AND OTHER RECEIVABLES (Continued)

The maximum exposure to credit risk at the balance sheet date is the carrying value of each class of receivable mentioned above. The Group does not hold any collateral as security.

The interest rates of the borrowings at the balance sheet date range from 0.58% to 3.16% (2012: 0.59% to 2.7%) per annum.

The carrying amounts of short term and long term borrowings approximate their fair values.

26 DEFERRED INCOME TAX

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current income tax assets with current income tax liabilities and when the deferred income tax related to the same tax jurisdiction. The offset amounts are as follows:

	2013 HK\$'000	2012 HK\$'000
Deferred income tax liabilities	45,629	46,737

Deferred income tax is calculated in full on temporary differences under the liability method using applicable tax rates prevailing in the countries in which the Group operates.

Notes to the Financial Statements

26 DEFERRED INCOME TAX (Continued)

The movement of the net deferred income tax liabilities is as follows:

	2013 HK\$'000	2012 HK\$'000
At the beginning of the year	46,737	26,619
Recognised in the profit and loss account (note 11)	(1,108)	20,118
At the end of the year	45,629	46,737

The movement of deferred income tax assets and liabilities during the year, without taking into consideration the offsetting of balances within the same tax jurisdiction is as follows:

Deferred income tax liabilities

	Accelerated tax depreciation		Fair value adjustments		Total	
	2013 HK\$'000	2012 HK\$'000	2013 HK\$'000	2012 HK\$'000	2013 HK\$'000	2012 HK\$'000

At the beginning of the year	3,959	17,377
Recognised in the profit and loss account	(3,959)	(13,418)
At the end of the year	–	3,959

Deferred income tax assets are recognised for tax loss carry forwards to the extent that realisation of the related tax benefit through the future taxable profits is probable. The Group did not recognise deferred income tax assets of HK\$17 million (2012: HK\$18 million) in respect of losses amounting to HK\$95 million (2012: HK\$97 million) that can be carried forward against future taxable income. Except for tax losses of HK\$76 million (2012: HK\$75 million) which have no expiry date, the balance will expire at various dates up to and including 2029 (2012: 2029).

27 OPERATING LEASE ARRANGEMENTS

(A) LESSOR
