**REPORT OF THE MANAGER TO THE UNITHOLDERS**

Introduction

The CSOP FTSE China A50 ETF (the “CSOP A50 ETF”), a sub-fund of the CSOP ETF Series, is a unit trust authorised under the Securities and Futures Ordinance (Cap. 571) of Hong Kong. It was launched on 23 August 2012 and commenced trading in RMB under the stock code 82822 on The Stock Exchange of Hong Kong Limited (the “SEHK”) on 28 August 2012; following the SEHK’s dual counter model, the CSOP A50 ETF started trading in HKD under the stock code 02822 on the SEHK on 8 November 2012. The CSOP A50 ETF is benchmarked against the FTSE China A50 Index (the “A50 Index”) and adopts the full-replication strategy. The Manager and RQFII Holder of the CSOP A50 ETF is CSOP Asset Management Limited (the “Manager”). The trustee is HSBC Institutional Trust Services (Asia) Limited (the “Trustee”).

The CSOP A50 ETF is a physical ETF which invests directly in the A50 Index securities through the RQFII quotas of the Manager. Under current regulations in the PRC, foreign investors can invest only in the domestic securities market through certain qualified foreign institutional investors that have obtained status as a QFII or a RQFII from the CSRC and have been granted quota(s) by SAFE to remit foreign freely convertible currencies (in the case of a QFII) and RMB (in the case of a RQFII) into the PRC for the purpose of investing in the PRC’s domestic securities markets. The Manager has obtained RQFII status and the total RQFII quotas obtained by the Manager amount to RMB18.5 billion as of 30 June 2013.

The FTSE China A50 Index (The “Index”) is compiled and published by FTSE International Limited. It comprises the top 50 A-Share companies from both the Shanghai and Shenzhen markets by market capitalization. The Index operates under clearly defined rules published by the index provider and is a tradable index.

Capital Gains Tax (“CGT”) Treatment

Specific rules governing taxes on capital gains derived by QFIIs or RQFIIs from the trading of PRC Securities (including China A-Shares) have yet to be announced. It is possible that the relevant tax authorities may in the future clarify the tax position on capital gains realised by the Sub-Fund dealing in PRC Securities or by a relevant QFII from dealing in PRC Securities. In the absence of such specific rules, the CGT should be governed by the general tax provisions of the PRC CIT Law, according to the Manager’s tax adviser. Therefore, the Manager currently provisioned to withhold 10% of realised and unrealised capital gains.

With the uncertainties under the applicable PRC tax laws and the possibility of such laws being changed and taxes being applied retrospectively, the provision for taxation made by the Manager may be excessive or inadequate to meet actual PRC tax liabilities on gains derived from investments held by the CSOP A50 ETF. Upon any future resolution of the abovementioned uncertainty or further changes to tax law or policies, the Manager will, as soon as practicable, make relevant adjustments to the amount of tax provision as it considers necessary. As a result, investors may be advantaged or disadvantaged depending on the final rules of the relevant PRC tax authorities since the net asset value of the CSOP A50 ETF may be affected. The Manager reasonably believes the current provision is adequate and will monitor the situation closely.

The difference in performance between the NAV of the CSOP A50 ETF and the Index is mainly attributed to dividends, fees and expenses, including tax on dividends and CGT withholding. YTD Price return of the RMB counter (stock code 82822) was -18.37%.

**Exchange Liquidity**

Since inception, the CSOP A50 ETF has attracted great investor attention from investors across the globe. **CSOP FTSE CHINA A50 ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS**

**1. GENERAL INFORMATION**

CSOP ETF Series (the “Trust”) is an umbrella unit trust governed by its a trust deed dated 25 July 2012 (the “Trust Deed”) and authorised by the Securities and Futures Commission of Hong Kong (the “SFC”) pursuant to Section 104(1) of the Securities and Futures Ordinance. The terms of the Trust Deed are governed by the laws of Hong Kong. On 23 August 2012, the Trust has established a sub-fund, namely, the CSOP FTSE China A50 ETF (the “Sub-Fund”). As at 30 June 2013, the Trust only has one sub-fund which is the Sub-Fund. The Sub-Fund is listed on The Stock Exchange of Hong Kong Limited. The date of inception of the Sub-Fund was 23 August 2012.

The manager and the trustee of the Sub-Fund are CSOP Asset Management Limited (the “Manager”) and HSBC Institutional Trust Services (Asia) Limited (the “Trustee”) respectively.

The investment objective of the CSOP FTSE China A50 ETF is to provide investment results that, before deduction of fees and expenses, closely correspond to the performance of the underlying index, namely, FTSE China A50 Index. In order to achieve the investment objective of the Sub-Fund, the Manager will only adopt a full replication strategy by directly investing all, or substantially all, of the assets of the Sub-Fund in index securities constituting the underlying index in substantially the same weightings (i.e. proportions) as these index securities have in the underlying index.

Under current regulations in the People’s Republic of China (“PRC”), generally foreign investors can invest only in the domestic securities market through certain qualified foreign institutional investors that have obtained status as a Qualified Foreign Institutional Investor (“QFII”) or a Renminbi Qualified Foreign Institutional Investor (“RQFII”) from the China Securities Regulatory Commission (“CSRC”) and have been granted quota(s) by the State Administration of Foreign Exchange (“SAFE”) of the PRC to remit foreign freely convertible currencies (in the case of a QFII) and Chinese Renminbi (“RMB”) (in the case of a RQFII) into the PRC for the purpose of investing in the PRC’s domestic securities markets.

The Sub-Fund obtains exposure to securities issued within the PRC through the RQFII quotas of the Manager. The Manager has obtained RQFII status in the PRC and the RQFII quotas have been granted, on behalf of the CSOP FTSE China A50 ETF. To the extent that the Manager has, on behalf of the CSOP FTSE China A50 ETF, utilised its entire RQFII quota, the Manager may, subject to any applicable requirements, apply for an increase of the RQFII quota. On the other hand, the Manager actively manages the RQFII quota obtained and may impose limits on creation applications as it considers appropriate.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these condensed financial statements are set out below. These policies have been consistently applied to the period presented, unless otherwise stated.

These condensed semi-annual financial statements for the six months ended 30 June 2013 have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting”. The condensed semi-annual financial statements should be read in conjunction with the annual financial statements for the period from 23 August 2012 (date of inception) to 31 December 2012, which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”).

The accounting policies applied are consistent with those of the annual financial statements for the period from 23 August 2012 (date of inception) to 31 December 2012, as described in the annual financial statements.

**CSOP FTSE CHINA A50 ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)**

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

New standards, amendments and interpretations effective 1 January 2013

HKFRS 12, “Disclosures of Interests in Other Entities”, effective for annual periods beginning on or after 1 January 2013, includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The adoption of the standard does not have any impact on the Sub-Fund’s condensed financial statements.

HKFRS 13, “Fair value measurement”, effective for annual periods beginning on or after 1 January 2013, has been early adopted in the annual financial statements for the period from 23 August 2012 (date of inception) to 31 December 2012. The Standard improves consistency and reduces complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across HKFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within HKFRS. If an asset or a liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid-ask spread that is most representative of fair value and allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurement within a bid-ask spread. On adoption of the standard, the Sub-Fund uses last traded prices as its valuation inputs for listed financial assets and liabilities to be consistent with the inputs prescribed in the Sub-Fund’s offering document for the calculation of its per unit trading value for subscriptions and redemptions. The use of last traded prices is recognised as a standard pricing convention within the industry.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2013 and not early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2013, and have not been applied in preparing these condensed financial statements. None of these are expected to have a significant effect on the condensed financial statements of the Sub-Fund except the following set out below:

HKFRS 9, “Financial instruments”, effective for annual periods beginning on or after 1 January 2015, it addresses the classification, measurement and recognition of financial assets and financial liabilities. It replaces the parts of HKAS 39 that relate to the classification and measurement of financial instruments. HKFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortised cost. The determination is made at initial recognition. The classification depends on the entity’s business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the HKAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity’s own credit risk is recorded in other comprehensive income rather than the income statement, unless this creates an accounting mismatch. The standard is not expected to have a significant impact on the Sub-Fund’s financial position or performance, as it is expected that the Sub-Fund will continue to classify their financial assets and financial liabilities as being at fair value through profit or loss.

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Sub-Fund.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)**

**3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of these condensed financial statements in conformity with HKFRS requires the Manager to make estimates and assumptions that affect the amounts reported in the condensed financial statements and accompanying notes. Actual results could differ from those estimates.

The Manager makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial period are outlined below.

**Taxation**

In preparing these condensed financial statements, the Manager has made certain assumptions and used various estimates concerning the tax exposure which is dependent on what might happen in the future. The resulting accounting estimates may not equal the related actual results.

The Sub-Fund invests in A-Shares securities which are issued within the PRC through the RQFII quotas of the Manager. Under the general taxing provision of PRC corporate tax law, a 10% withholding tax may be payable on the gains derived from the sale of A-Shares by RQFIIs. The Manager considers that the enforcement of PRC tax on gains on A-Shares is uncertain as at the date of approval of these condensed financial statements and has exercised its judgment when assessing whether the Sub-Fund may be liable for taxation on its gains, the amount of potential tax liability and the probability of such tax being levied up to the reporting date. However, significant uncertainties exist and estimation of the Manager may substantially differ from the actual events. The Manager consider that its estimation may be impacted by any future clarification by the PRC State Administration of Taxation (“SAT”), such as a decision by the SAT to levy capital gains tax on the RQFII investments, which may be materially different from what the Manager envisioned.

The Manager estimates the gross realised gains and unrealised gains of the Sub-Fund which could be exposed to PRC taxation at the rate of 10% for the period ended 30 June 2013 to be approximately RMB329,474,560 (31 December 2012: RMB44,813,823) and approximately RMB381,780,218 (31 December 2012: RMB2,173,650,375) respectively, and the Manager has made tax provision accordingly. The capital gains tax provision in relation to A-Shares investments of the Sub-Fund included in the condensed financial statements of RMB75,606,860 (31 December 2012: RMB221,846,420) represents 0.50% (31 December 2012: 1.32%) of the net assets attributable to unitholders of the Sub-Fund as at 30 June 2013. The Manager considers that the capital gains tax provision amount may differ significantly from the amounts that may have to ultimately borne by the Sub-Fund. In the event a capital gains tax is levied at an amount that is different from what was provided for by the Sub-Fund, the Sub-Fund may incur a liability that is different from the existing tax provision, which could significantly impact the net assets attributable to unitholders and consequently, the price per unit of the Sub-Fund based on the calculation of the net assets attributable to unitholders when distributing to the unitholders at such relevant time. When the SAT issues clarifications, this might ultimately result in either an increase or a decrease in the amount provided. Refer to Note 6 for more details.

**4. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT**

The Sub-Fund’s capital is represented by the units in the Sub-Fund, and shown as “net assets attributable to unitholders” in the Condensed Statement of Financial Position. Subscriptions and redemptions of units during the period are shown in the Condensed Statement of Changes in Net Assets Attributable to Unitholders. In order to achieve the investment objectives, the Sub-Fund endeavors to invest its capital in accordance with the investment policies, whilst maintaining sufficient liquidity to meet redemption requests.

**CSOP FTSE CHINA A50 ETF  
(A SUB-FUND OF CSOP ETF SERIES)**

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)**

**4. NUMBER OF UNITS IN ISSUE AND NET ASSETS ATTRIBUTABLE TO UNITHOLDERS PER UNIT (continued)**

In accordance with the provisions of the Sub-Fund's Trust Deed dated 25 July 2012 and Prospectus dated 20 August 2012, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations.

Redeemable units of the Sub-Fund are classified as equity and they are carried at the redemption amount that would be payable at the reporting date if the unitholder exercised the right to redeem the units in the Sub-Fund.

The movements of the redeemable units for the period ended 30 June 2013 are as follows:

**(i) Market price risk (continued)**

The Sub-Fund is designated to track the performance of the FTSE China A50 Index, therefore the exposures to market risk in the Sub-Fund will be substantially the same as the tracked index. The Manager manages the Sub-Fund's exposures to market risk by ensuring that the key characteristics of the portfolio, such as security weight and industry weight, are closely aligned with the characteristics of the tracked index.

As at 30 June 2013 and 31 December 2012, the Sub-Fund's investments were concentrated in the following industries:

The Sub-Fund held 50 out of 50 constituents (31 December 2012: 50 out of 50 constituents) comprising the FTSE China A50 Index. The Sub-Fund is therefore exposed to substantially the same market price risk as the FTSE China A50 Index.

Sensitivity analysis in the event of a possible change in the index by 10% as estimated by the Manager

As at 30 June 2013, if the FTSE China A50 Index were to increase by 10% (31 December 2012: 10%) with all other variables held constant, this would increase the post-tax profit for the period by approximately RMB1,498,853,150 (31 December 2012: 1,693,996,082). Conversely, if the FTSE China A50 Index were to decrease by 10%, this would decrease the post-tax profit for the period by an equal amount.

**NOTES TO THE CONDENSED FINANCIAL STATEMENTS (continued)**

**8. FINANCIAL RISK MANAGEMENT (continued)**

**(a) Market risk (continued)**

**(ii) Interest rate risk**

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow.

As at 30 June 2013 and 31 December 2012, interest rate risk arises only from bank balances which are reset monthly. As these interest bearing assets are short-term in nature, the Manager considers that changes in their fair value and future cash flows in the event of a change in market interest rates will not be material. Therefore, no sensitivity analysis has been disclosed.

**(iii) Currency risk**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Sub-Fund is not exposed to currency risk arising from balances and transactions in foreign currencies as its assets and liabilities are denominated in RMB, the Sub-Fund's functional and presentation currency. Therefore, no sensitivity analysis has been disclosed.

**(b) Credit and counterparty risk**

Credit and counterparty risk is the risk that an issuer or counterparty will be unable or unwilling to meet a commitment that it has entered into with the Sub-Fund.

The Sub-Fund limits its exposure to credit and counterparty risk by carrying out the majority of its investment transactions and contractual commitment activities with well established broker-dealers, banks and regulated exchanges with high credit ratings.

All transactions in listed securities are settled or paid for upon delivery using approved and reputable brokers. And the Sub-Fund places bank balances with reputable financial institutions. As such, the Manager does not consider the Sub-Fund to be exposed to significant credit and counterparty risk.

As at 30 June 2013, the Sub-Fund placed bank balances of RMB186,638,082 (31 December 2012: RMB2,316,387) with The Hong Kong and Shanghai Banking Corporation Limited ("HSBC"), which is the custodian of the Sub-Fund. The S&P credit rating of HSBC is AA- (31 December 2012: AA-).

As at 30 June 2013, the Sub-Fund placed bank balances of RMB53,169,240 (31 December 2012: RMB67,484,657) and investments of RMB14,988,531,496 (31 December 2012: RMB16,939,960,824) with HSBC Bank (China) Company Limited ("HSBC China"), which is the PRC custodian of the Sub-Fund. The Moody's credit rating of HSBC China is A2 (31 December 2012: A2).

The Manager considers that none of assets are impaired nor past due as at 30 June 2013 and 31 December 2012.

**(c) Liquidity risk**

Liquidity risk is the risk that the Sub-Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Sub-Fund is exposed to daily redemptions of units in the Sub-Fund. The Sub-Fund invests the majority of its assets in securities that are traded in an active market which can be readily disposed of.

The table below analyses the Sub-Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

**(c) Liquidity risk (continued)**

The Sub-Fund manages its liquidity risk by investing in securities that it expects to be able to liquidate within 7 days or less. The following table illustrates the expected liquidity of assets held:

**(d) Fair value estimation**

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset or liability.

The determination of what constitutes “observable” requires significant judgment by the Sub-Fund. The Sub-Fund considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities. The Sub-Fund does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. As at 30 June 2013 and 31 December 2012, the Sub-Fund did not hold any investments classified in level 2.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. As at 30 June 2013 and 31 December 2012, the Sub-Fund did not hold any investments classified in level 3.

During the period ended 30 June 2013, there were no transfers between levels of investments held by the Sub-Fund.
