## BASIS OF PREPARATION OF CERTAIN FINANCIAL INDICATORS

Under the IFRS, the restructuring of the Bank was accounted for as an acquisition of the business from the 39 Rural Credit Unions and Chongqing Rural Credit Cooperative Union (the “CRCU”) by the Bank on 27 June 2008 instead of merger accounting due to the fact that there were no same party or parties ultimately controlling the 39 Rural Credit Unions, CRCU and the Bank before and after the restructuring. Therefore, certain disclosures in relation to loans and advances to customers and relevant assets quality indicators in the “Management Discussion and Analysis” in this report were prepared based on the contractual amount of relevant loans and advances for management discussion and analysis purpose, which are not the same as the carrying amount of these loans and advances to customers stated in the reviewed condensed consolidated financial statements of the Group.

For the six months ended 30 June 2013, the Group has applied the new and revised International Financial Reporting Standards (“new and revised IFRSs”) that are effective for the financial year beginning on 1 January 2013. International Accounting Standards 19 (Revised 2011): Employee Benefits has been applied retrospectively for the comparative periods. For relevant analysis, please refer to Notes 3 “Principal accounting policies” to the Condensed Consolidated Financial Statements. The financial impact arising from the adoption of other new and revised IFRSs in the reporting period is not material and has not resulted in any retrospective adjustments.

# Management Discussion and Analysis

## FINANCIAL REVIEW

The first half of 2013 passed swiftly amidst an overall improved global economy. However, the economic growth was still feeble. Three major risk factors, namely debt crisis in the euro area, fiscal cliff in the United States and sharp slowdown of certain developing countries, left the world economy downside risks and uncertainties. According to the latest report published by the United Nations entitled World Economic Situation and Prospects as of mid-2013, the growth of Gross World Product (GWP) is expected to be 2.3% in 2013, 0.1 percentage point lower than the forecast at the beginning of the year.

The environment is complex and ever-changing at home and abroad. Chinese new leaders, insisting on the keynote of seeking progress while maintaining stability, continued to carry out proactive fiscal policy and prudent monetary policy. Focusing on improving the quality and efficiency of economic growth, a reform was launched to propel the adjustment, and the adjustment in turn promoted the development. The national economy achieved progress in a steady manner. In the first half of the year, the gross domestic product (GDP) amounted to RMB24,800.9 billion, a year-on-year increase of 7.6%. On a month-on-month basis, GDP increased by 1.7% in the second quarter. The fixed assets investment reached RMB18,131.8 billion, a year-on-year increase of 20.1%. As at the end of June 2013, outstanding broad money (M2) reached RMB105.45 trillion, up 14.0% year on year; outstanding narrow money (M1) reached RMB31.36 trillion, up 9.1% year on year. As at the end of June 2013, the balance of RMB loan amounted to RMB68.08 trillion. New RMB-denominated loans amounted to RMB5.08 trillion, representing a year-on-year increase of RMB221.7 billion. The balance of RMB deposits amounted to RMB100.91 trillion. New RMB-denominated deposits amounted to RMB9.09 trillion, representing a year-on-year increase of RMB1.71 trillion.

In the first half of 2013, Chongqing Municipal Government focused on improving the quality and efficiency of economic growth, accelerated the economic transition and development, thus maintained a sound development momentum of economy with progress achieved in stability. In the first half of 2013, the Gross Regional Product (GRP) of Chongqing reached RMB584.051 billion, representing a year-on-year increase of 12.4%. The fixed assets investment reached RMB453.116 billion, representing a year-on-year increase of 21.3%. Foreign trade maintained a relatively fast growth, with the total exports and imports reached US\$30.159 billion, representing a year-on-year increase of 20.4% in the first half of 2013. The total amount of exports and imports of Chongqing was among the top 10 in the PRC for the first time and ranked the first place in the western region of China.

In the first half of 2013, the Group recorded profit before tax of RMB4,239 million, representing an increase of 15.21% over the same period of the previous year, and net profit of RMB3,220 million, representing an increase of 14.58% over the same period of the previous year. Profit before tax and net profit saw faster growth year on year, which was primarily due to an increase of RMB1,358 million, or 21.78% of net interest income over the same period of the previous year, resulting from a steady growth of interest-earning assets.

(1) *Net interest income*

In the first half of 2013, the Group recorded a net interest income of RMB7,593 million, representing an increase of RMB1,358 million, or 21.78% over the same period of the previous year, including an increase of RMB1,416 million of net interest income arising from changes in average balance of various assets and liabilities, and a decrease of RMB58 million in net interest income attributable to the decrease in average yield or average cost rate under the impact of interest rate cut. Net interest income accounted for 95.34% of the total operating income of the Group.

The table below sets forth, for the periods indicated, the interest income, the interest expense and the net interest income of the Group.

Under the influence of two interest rate cuts in 2012, the average yield on overall interest-earning assets decreased by 27 basis points to 5.76% from the same period of the previous year. Both the average cost rate of due to customers and the average cost rate of deposits from banks and other financial institutions declined from the same period of the previous year, whereas the average cost rate of overall interest-bearing liabilities decreased by 20 basis points to 2.58% from the same period of the previous year. The average yield of interest-earning assets decreased by 27 basis points from the same period of the previous year, the average cost rate for interest-bearing liabilities decreased by 20 basis points from the same period of the previous year, resulting in a decrease of 7 basis points in net interest spread to 3.18% from the same period of the previous year, whereas the net interest margin dropped by 11 basis points to 3.39% from the same period of the previous year.

The following table sets out the changes in the Group's interest income and interest expense as compared with the same period of the previous year due to changes in volume and interest rate. Changes in volume are measured by the movement of average balance, while changes in interest rate are measured by the movement of average interest rate.

1. Interest Income

In the first half of 2013, the Group recorded interest income of RMB12,903 million, representing an increase of RMB2,160 million or 20.11% over the same period of the previous year.

(1) Interest Income from Loans and Advances to Customers

The average balance, interest income and annualised average yield for each component of loans and advances to customers of the Group are set forth as follows:

(Expressed in RMB million, unless otherwise stated)	For the six months ended 30 June 2013			For the six months ended 30 June 2012		
	Average balance	Interest income	Annualised average yield (%)	Average balance	Interest income	Annualised average yield (%)
Corporate loans	110,437.8	3,951.1	7.16	98,975.4	3,619.3	7.31

Discounted bills	6,203.1	186.0	6.00	3,207.7	135.9	8.47
<b>Total loans and advances to customers</b>	<b>182,145.8</b>	<b>6,534.6</b>	<b>7.18</b>	<b>153,532.3</b>	<b>5,803.2</b>	<b>7.56</b>

Interest income from loans and advances to customers amounted to RMB6,535 million, representing an increase of RMB731 million or 12.60% over the same period of the previous year, primarily due to the increase in average balance of loans and advances to customers.

(2) Interest Income from Debt Securities Investments

In the first half of 2013, interest income from debt securities investments of the Group amounted to RMB2,938 million, representing an increase of RMB676 million or 29.89% over the same period of the previous year, primarily owing to the rise in both the average balance and average yield of debt securities investments.

## (3) Interest Income from Balances with Central Bank

In the first half of 2013, the Group's interest income from balances with central bank amounted to RMB484 million, representing an increase of 82 million or 20.52% over the same period of the previous year, which was primarily due to an increase of 22.32% in average balance of balances with central bank over the same period of the previous year, following the increase in due to customers.

## (4) Interest Income from Due from Banks and Other Financial Institutions

The average balance, interest income and annualised average yield for each component from due from banks and other financial institutions of the Group are set forth as follows:

(Expressed in RMB million, unless otherwise stated)	For the six months ended 30 June 2013			For the six months ended 30 June 2012		
	Average balance	Interest income	Annualised average yield (%)	Average balance	Interest income	Annualised average yield (%)

In the first half of 2013, the interest income from deposits and placements with banks of the Group amounted to RMB1,146 million, representing an increase of RMB194 million, or 20.40% over the same period of the previous year, which was primarily due to the increase of 33.22% in average balance of deposits and placements with banks as compared to the same period of the previous year. However, under the impact of low market interest rates, the increase was partially offset by the decrease in average yield.

In the first half of 2013, the interest income from financial assets held under resale agreements of the Group amounted to RMB1,801 million, representing an increase of RMB476 million, or 35.96% over the same period of the previous year. This was primarily due to the increase of 54.35% in average balance of financial assets held under resale agreements as compared to the same period of the previous year. However, under the impact of low market interest rates, the increase was partially offset by the decrease in average yield.

2. Interest Expense

In the first half of 2013, interest expense of the Group amounted to RMB5,310 million, representing an increase of RMB802 million, or 17.79% over the same period of the previous year.

(1) Interest Expense on Due to Customers

The average balance, interest expense and annualised average cost rate for each component of due to customers of the Group are set forth as follows:

(Expressed in RMB million, unless otherwise stated)	For the six months ended 30 June 2013			For the six months ended 30 June 2012

In the first half of 2013, interest expense on due to customers of the Group amounted to RMB3,237 million, representing an increase of RMB514 million, or 18.88% over the same period of the previous year, which was primarily due to the average balance of due to customers increased by 23.94% over the same period of the previous year. Under the lagging effect of interest rate cut implemented by the central bank in 2012, the average cost rate of due to customers dropped by 9 basis points to 2.01% as compared to the same period of the previous year.

## (2) Interest Expense on Due to Banks and Other Financial Institutions

The average balance, interest expense and annualised average cost rate for each component of due to banks and other financial institutions of the Group are set forth as follows:

(Expressed in RMB million, unless otherwise stated)	For the six months ended 30 June 2013			For the six months ended 30 June 2012		
	Average balance	Interest expense	Annualised average cost rate (%)	Average balance	Interest expense	Annualised average cost rate (%)
Deposits and placements from banks and other financial institutions	44,466.7	1,114.1	5.01	23,585.0	728.0	6.17
Financial assets sold under repurchase agreements	42,359.7	894.4	4.22	38,837.6	993.5	5.12
<b>Total due to banks and other financial institutions</b>	<b>86,826.4</b>	<b>2,008.5</b>	<b>4.63</b>	<b>62,422.6</b>	<b>1,721.5</b>	<b>5.52</b>

In the first half of 2013, the Group's interest expense on deposits and placements from banks amounted to RMB1,114 million, representing an increase of RMB386 million, or 53.04% over the same period of the previous year, which was primarily due to the rise in the average balance of deposits from banks and other financial institutions.

In the first half of 2013, the interest expense on financial assets sold under repurchase agreements amounted to RMB894 million, representing a decrease of RMB99 million, or 9.97% from the same period of the previous year, which was primarily due to the decrease of 90 basis points in the average cost rate of financial assets sold under repurchase agreements as compared with the previous year.

3. Net Interest Spread and Net Interest Margin

In the first half of 2013, the Group posted a net interest spread of 3.18%, representing a decrease of 7 basis points from the same period of the previous year. The decrease of the net interest spread reflected a more substantial decrease in the average rate of return on interest-earning assets than the decrease in the average cost rate of interest-bearing liabilities over the same period of the previous year.

In the first half of 2013, the net interest margin was 3.39%, representing a decrease of 11 basis points from the same period of the previous year.

(II) Non-interest Income

1. Net Fee and Commission Income

(Expressed in RMB million, unless otherwise stated)	For the six months ended 30 June 2013	For the six months ended 30 June 2012	Change in amount	Change (%)
<b>Fee and commission income</b>	<b>327.0</b>	198.8	128.2	64.49

Others	3.0	2.2	0.8	36.36
<b>Fee and commission expense</b>	<b>(24.0)</b>	(19.7)	(4.3)	21.83
<b>Net fee and commission income</b>	<b>303.0</b>	179.1	123.9	69.18

In the first half of 2013, the net fee and commission income amounted to RMB303 million, representing an increase of RMB124 million or 69.18% over the same period of the previous year, and its proportion to operating income increased by 1.05 percentage points to 3.80%, primarily attributable to the increase in consultancy and advisory fees, bank card fees and agency commissions.

Settlement and clearing fees amounted to RMB26 million, representing an increase of RMB10 million or 57.14% over the same period of the previous year, primarily attributable to an increase in the volume of settlement.

Agency commissions increased by RMB18 million or 31.11% to RMB75 million as compared with the same period of the previous year, which was primarily attributable to the growth in trust agency business volume over the same period of the previous year.

Bank card fees amounted to RMB80 million, representing an increase of RMB29 million, or 57.48% over the same period of the previous year, which was primarily attributable to a continuous increase in resources invested, rapid development of E-banking business and remarkable improvement in card quality, and a sustained stable growth in amount of settled transaction and inter-bank transactions through self-service facilities.

Custodian and other fiduciary service fees amounted to RMB4 million, representing an increase of RMB2 million, or 115.79% over the same period of the previous year.

Consultancy and advisory fees amounted to RMB139 million, representing an increase of RMB69 million, or 97.86% over the same period of the previous year, which was primarily attributable to the growth in wealth management business over the same period of the previous year.

## 2. Net Trading Gain

Net trading gain primarily comprises changes in the fair value of held-for-trading debt securities and gain arising from trading. In the first half of 2013, the Group's net trading gain amounted to RMB38 million, primarily due to the restructuring of debt securities investment portfolio.

## 3. Other Operating Income, Net

In the first half of 2013, other operating income, net, amounted to RMB30 million, representing an increase of RMB23 million or 362.5% over the same period of the previous year, which was primarily due to the increase of RMB14 million in the exchange gain (losses) and government subsidy as compared to the same period of the previous year.

(III) Operating expenses

In the first half of 2013, the operating expenses of the Group amounted to RMB3,261 million, representing an increase of RMB674 million, or 26.07% over the same period of the previous year.

(Expressed in RMB million, unless otherwise stated)	For the Six months ended 30 June 2013	For the Six months ended 30 June 2012	Change in amount	Change (%)
Staff costs	2,006.9	1,540.5	466.4	30.28
Business tax and surcharges	503.9	437.5	66.4	15.18

Others	524.3	424.3	100.0	23.57
<b>Total operating expenses</b>	<b>3,260.5</b>	<b>2,586.2</b>	<b>674.3</b>	<b>26.07</b>

1. Staff Costs

Staff costs is the largest component of operating expenses of the Group, accounting for 61.55% and 59.57% of its total operating expenses for the six months ended 30 June 2013 and 30 June 2012 respectively.

(Expressed in RMB million, unless otherwise stated)	For the Six months ended 30 June 2013	For the Six months ended 30 June 2012	Change in amount	Change (%)
Salaries, bonuses and allowances	1,436.3	1,142.9	293.4	25.67
Staff welfare, social insurance and housing funds	385.8	304.3	81.5	26.78
Others	184.8	93.3	91.5	98.07
<b>Total staff costs</b>	<b>2,006.9</b>	<b>1,540.5</b>	<b>466.4</b>	<b>30.28</b>

In the first half of 2013, staff costs of the Group amounted to RMB2,007 million, representing an increase of RMB466 million, or 30.28% over the same period of the previous year, which was primarily due to an increase of RMB293 million in salaries, bonuses and allowances over the same period of the previous year as a result of stricter compliance with the results of quarterly evaluations in granting bonuses and allowances. Staff welfare, social insurance and housing funds increased by RMB82 million, or 26.78% over the same period of the previous year, which was primarily due to the recognition of actuarial losses on retirement benefits amounted to RMB44 million.

## 2. Business Tax and Surcharges

Business tax and surcharges mainly relate to revenue generated from lending (interest income), transfer of securities and provision of other financial products and services. In the first half of 2013, business tax and surcharges amounted to RMB504 million, representing an increase of RMB66 million, or 15.18% over the same period of the previous year.

## 3. Depreciation and Amortisation

In the first half of 2013, depreciation and amortisation of the Group was RMB225 million, representing an increase of RMB42 million, or 22.57% over the same period of the previous year, which was primarily due to more investment put in properties and equipment in support of business development.

## 4. Others

For the six months ended 30 June 2013, other expenses increased by 23.57% to RMB524 million over RMB424 million for the same period of the previous year, primarily due to business expansion.

(IV) *Impairment on Assets*

Impairment on assets consists primarily of provisions charged on loans and advances to customers and other assets. Provisions charged for impairment on assets was RMB464 million for the six months ended 30 June 2013, representing an increase of RMB226 million or 95.08% over the same period of the previous year.

The following table sets forth, for the periods indicated, the principal components of the provisions for impairment on assets.

(Expressed in RMB million, unless otherwise stated)	For the Six months ended 30 June 2013	For the Six months ended 30 June 2012	Change in amount	Change (%)
Loans and advances to customers	460.3	237.7	222.6	93.65
Other assets	3.4	—	3.4	100.00
<b>Total impairment on assets</b>	<b>463.7</b>	<b>237.7</b>	<b>226.0</b>	<b>95.08</b>

In the first half of 2013, provisions for impairment on loans and advances to customers were RMB460 million, representing an increase of RMB223 million over the same period of the previous year, primarily due to an increase in loans and a strengthened portfolio of provisions on loans as the Group fully took account of the uncertainties hanging over the macro economy.

(V) *Income Tax Expense*

In the first half of 2013, income tax expense amounted to RMB1,019 million, representing an increase of RMB150 million over the same period of the previous year. The effective tax rate was 24.05%, which was lower than the statutory tax rate due to the fact that the interest income from government bonds held by the Group was tax-free pursuant to tax regulations and the revenue from small-amount loans to farmers was partially tax-exempted.

## II. Analysis on Statement of Financial Position

*Notes:*

- (1) Loans and advances to customers, gross and allowances for impairment on loans and advances to customers were disclosed on basis of the contractual amount, resulting in discrepancies with those set out in the condensed consolidated financial statements prepared under the IFRS.
- (2) Investment securities consist of available-for-sale financial assets, held-to-maturity investments and debt securities classified as receivables.
- (3) Other assets consist of property and equipment, deferred tax assets and other assets.

As at 30 June 2013, the Group's total assets amounted to RMB487,977 million, representing an increase of RMB54,150 million, or 12.48% as compared to the end of the previous year. Among which:

The amount of gross loans and advances to customers increased by RMB18,769 million, or 10.81% as compared to the end of the previous year. This was primarily due to the fact that the Group increased loans to prime projects and key customers under effective risk control, whilst extending its support to areas with great market potentials and robust customer demand in line with the features in the economic development of Chongqing;

Investment securities decreased by RMB4,132 million or 4.98% as compared to the end of the previous year, primarily due to decreased holdings of treasury bonds classified as receivables and wealth management products;

Cash and balances with central bank increased by RMB12,668 million, or 21.48% as compared to the end of the previous year, primarily because of the growth in reserve deposits with central bank following the increase in due to customers;

The total amount of deposits with banks and other financial institutions and placements with banks and other financial institutions increased by RMB20,297 million or 48.31%, whilst the proportion to total assets increased by 3.08 percentage points as compared to the end of the previous year, primarily due to the enhancement of utilisation efficiency of surplus funds under the premise of ensuring sufficiency of liquidity;

Financial assets held under resale agreements increased by RMB1,939 million or 3.75% as compared to the end of the previous year. This was mainly because the Group increased holdings of trust beneficial rights held under resale agreements to enhance capital utilisation efficiency.

<b>Loans and advances to customers, gross</b>	<b>192,328.5</b>	<b>100.00</b>	173,559.3	100.00

## Notes:

- (1) Short-term loans primarily consist of loans with contractual maturities of one year or less.
- (2) Medium-and-long-term loans primarily consist of loans with contractual maturities over one year.
- (3) Residential mortgage and personal commercial property loans primarily consist of personal mortgage loans, second mortgage loans and loans to retail customers to acquire property for small business purposes, such as store premises.
- (4) Personal business and re-employment loans primarily consist of personal loans for business purposes, personal working capital loans and employment and re-employment related small amount loans.
- (5) Loans to farmers primarily consist of rural cross-guaranteed loans, rural small credit loans and rural home appliance consumption loans.
- (6) Other loans mainly include personal commercial property mortgage loans, personal residential maximum mortgage loans, credit card loans, personal car loans, loans for personal durables and personal education loans.

As at 30 June 2013, the amount of gross loans and advances to customers of the Group increased by RMB18,769 million, or 10.81%, to RMB192,329 million as compared to the end of the previous year.

Corporate loans (excluding discounted bills) increased by RMB8,888 million, or 8.37%, to RMB115,093 million as compared to the end of the previous year, and accounted for 59.84% of loans and advances to customers, gross, 1.35 percentage points lower than that of the end of the previous year. During the period, the Group actively adjusted the credit structure in support of the State's industrial policy, and focused on real economy. During the period, loans to manufacturing industry, retail and wholesale industry, as well as the water, environment and public utilities management industry increased by RMB2,578 million, RMB1,449 million and RMB4,820 million respectively, the total of which accounted for 99.53% of additional corporate loans.

The Group also reinforced credit structural adjustment and risk control by looking closely into the general direction and development trend of the industry whilst diligently adopting a differentiated approach to loan extension plans based on different regions, customers and industries under the strategy of “promoting some loans while curtailing others, advancing the superior while exiting the inferior” (「有保有壓、有進有退」). Strict control was imposed on industries with “high pollution, high energy consumption and excess capacity” (「兩高一剩」) as well as the real estate industry. In particular, the balance of loans to the real estate industry decreased by 1.64 percentage points as compared to the end of the previous year.

Retail loans increased by RMB9,473 million, or 15.26%, to RMB71,571 million as compared to the end of the previous year, which accounted for 37.21% of total loans and advances to customers with a rise of 1.43 percentage points as compared to the end of the previous year. Among which, the residential mortgage and personal commercial property loans, mainly to finance self-occupied home purchases, rose by RMB4,881 million, or 13.87% as compared to the end of the previous year; personal business and re-employment loans grew by RMB4,509 million, or 24.03% as compared to the end of the previous year; and other loans increased by RMB221 million, or 3.35% as compared to the end of the previous year. In face of complicated market changes, the Group took active measures to avoid systemic risks in markets, and stressed on meeting credit needs of premium personal customers.

Discounted bills increased by RMB408 million, or 7.75%, to RMB5,664 million as compared to the end of the previous year, largely due to the increase in the discounted bills of counter-parties with high credit ratings.

### Distribution of loans and advances by type of collateral (Contractual amount)

The following table sets forth, for the dates indicated, the distribution of loans and advances to customers by type of collateral.

(Expressed in RMB million, unless otherwise stated)	As at 30 June 2013		As at 31 December 2012

Notes:

- (1) Loans and advances to customers for which allowance is collectively assessed consist of loans and advances which have not been specifically identified as impaired.
- (2) Identified impaired loans and advances include loans for which objective evidence of impairment exists and which have been identified as bearing an impairment loss and assessed either individually or collectively.

In the first half of 2013, the Group adhered to its prudent principle and was in strict compliance with the relevant requirements of accounting standards, so as to provide sufficient allowances for impaired loans and advances to customers whilst fully considering external economic dynamics and macro monitoring policies. As at 30 June 2013, balance of allowances for impairment on loans and advances to customers increased by RMB593 million to RMB6,538 million over the end of the previous year. The allowance to non-performing loans was 464.82%, representing an increase of 114.22 percentage points as compared with the end of the previous year.

## 2. Investments

The following table sets forth, for the dates indicated, the composition of the Group's investments.

(Expressed in RMB million, unless otherwise stated)	As at 30 June 2013		As at 31 December 2012	
	Amount	% of Total	Amount	% of Total

<b>Total</b>	<b>105,208.8</b>	<b>100.00</b>	<b>104,874.1</b>	<b>100.00</b>

As at 30 June 2013, total investments increased by RMB335 million to RMB105,209 million as compared to the end of the previous year, among which, financial assets held for trading increased by RMB1,931 million to RMB5,705 million as compared with the end of the previous year, which was mainly attributable to the Bank's increase in the holdings of corporate bonds with controllable risks and higher yield to adapt to the market. Financial assets designated as at fair value through profit or loss of the period increased by RMB2,536 million or 14.00% as compared to the end of the previous year, primarily due to the achievement of higher profit resulting from the Group's timely seizing of the market opportunities and proactive adjustment of the investment structure. Available-for-sale financial assets increased by RMB1,425 million as compared to the end of previous year, primarily due to increase in holdings of corporate bonds with controllable risk and higher yield. Held-to-maturity investments increased by RMB2,905 million as compared to the end of previous year, primarily due to increased holdings of corporate bonds and public sector, quasi-government bonds with comparatively higher yields within the credit facility limits. Debt securities classified as receivables decreased by RMB8,462 million as compared to the end of the previous year, primarily due to strict control of credit risk and adjustment in investment structure upon the maturity of certain wealth management products.

### III. Loan Quality Analysis (the Group)

#### (I) Five-Category Classification of Loans

The following table sets forth, for the dates indicated, the distribution of the Group's loans by the five-category classification under which non-performing loans include loans classified into substandard, doubtful and loss categories.

(Expressed in RMB million, unless otherwise stated)	As at 30 June 2013		As at 31 December 2012	
	Amount	% of Total	Amount	% of Total
Normal	184,968.9	96.17	167,865.4	96.72
Special mention	5,953.1	3.10	3,998.4	2.30
Substandard	437.6	0.23	661.1	0.38
Doubtful	968.9	0.50	1,034.4	0.60
Loss	—	—	—	—
<b>Total loans and advances to customers</b>	<b>192,328.5</b>	<b>100.00</b>	<b>173,559.3</b>	<b>100.00</b>
Amount of non-performing loans	1,406.5		1,695.5	
Non-performing loan ratio (%)		<b>0.73</b>		<b>0.98</b>

Amid complex macro-economic dynamics in the first half of 2013, the Group strengthened its efforts in restructuring its credit structure, conducted a roll-over risk surveillance of credit assets, actively prevented and mitigated risks and strengthened early risk warning and tracking as well as post loan management, resulting in continuous improvement in credit asset quality. As at 30 June 2013, the balance of non-performing loans dropped by RMB289 million from the end of the previous year to RMB1,407 million; while the non-performing loan ratio posted 0.73%, or 0.25 percentage point down from the end of the previous year. The proportions of substandard and doubtful loans were on a decline. The portion of special mention loans accounted for 3.10%, representing an increase of 0.80 percentage point as compared to the end of the previous year, which was mainly attributable to the fact that the Group conducted collation and surveillance on industries and enterprises significantly affected by downturn of economy, categorised the credit risks for the enterprises involved, adopted a more prudent categorisation principle and degraded some normal loans to special mention under the current complex economic dynamics.

## (II) Concentration of Loans

## 1. Concentration by industry and distribution of non-performing loans

The following table sets forth, for the dates indicated, the loans and non-performing loans by industry.

(Expressed in RMB million, unless otherwise stated)	As at 30 June 2013				As at 31 December 2012

## VI. Analysis of Off-balance-sheet Items

Off-balance-sheet items of the Group mainly include contingent liabilities and commitments, such as the credit commitments, capital commitments and operating lease commitments and so on. Credit commitments, the major component of off-balance-sheet items, comprise bank acceptances, credit card commitments, issuance of letters of credit and issuance of letters of guarantee etc. Among which, the bank acceptances, credit card commitments and issuance of letters of credit are the major components. As at 30 June 2013, the balances of bank acceptances, credit card commitments and issuance of letters of credit were RMB9,159 million, RMB1,801 million and RMB594 million, respectively.

## VII. Significant Accounting Estimates and Judgments

In determining the carrying amounts of some assets and liabilities and the related profit or loss during the reporting period, the Group makes estimates and judgments in certain aspects according to its accounting policies. These estimates and judgments involve assumptions about items such as risk adjustment to cash flows or discount rates used, and future changes in prices affecting other costs. The Group makes estimates and assumptions based on historical experience and expectations of future events, and reviews them on a regular basis. In addition, the Group needs to make further judgments in respect of the application of accounting policies. The Group's management believes that the estimates and judgments made by the Group reflect appropriately the economic context the Group was subject to. The major areas affected by the estimates and judgments include: provision for financial assets, supplementary retirement benefit and early retirement benefit obligation, fair value of financial instruments, held-to-maturity investments, and income taxes.

## BUSINESS OPERATION

### I. Corporate Banking Business

The following table sets forth the major operating figures of the corporate banking business and changes thereof.

	As at 30 June 2013	As at 31 December 2012	Change (%)
Segment assets	116,839.7	106,239.4	9.98

In the first half of 2013, the total profit before tax from the corporate banking business accounted for 22.33% of the Group's profit before tax. The overall growth in corporate loan business of the Group had driven the net interest income of corporate banking business to increase by 26.50% over the same period of the previous year.

#### 1. *Corporate deposits*

Corporate deposits maintained steady growth. The Group strived to capture the corporate deposits market, thereby maintaining a steady growth in corporate deposits. As at 30 June 2013, the balance of corporate deposits of the Group, including pledged deposits and other deposits, reached RMB93,426 million, which accounted for 27.60% of the balance of deposits of the Group whilst posting a growth of RMB16,325 million or 21.17% over the end of the previous year.

#### 2. *Corporate loans*

The Group adopted a prudent and moderate credit policy for corporate loans. On credit extension, it persisted in operating in compliance with laws and abided by the principle of "promoting some loans while curtailing others" (有保有壓). The Group effectively observed the macro-economic control policy of the country and expanded its corporate loan business in a prudent, steady and appropriate manner. As at 30 June 2013, the balance of corporate loans (including discounted bills) amounted to RMB120,757 million, representing an increase of RMB9,296 million or 8.34% over the end of the previous year. Meanwhile, asset quality of corporate loans continued to improve, with a balance of non-performing loans (excluding discounted bills) of RMB625 million and a non-performing loan ratio of 0.54%, representing a decrease of RMB314 million and 0.34 percentage point as compared with the end of the previous year, respectively.

The structure of credit assets continued to improve. On industry structure, in consideration of the 3 pillar industries and 7 key industries of Chongqing, the Group speeded up the integrated development of Chongqing's industry. The Group primarily extended loans to industries of manufacturing, water and environment and public utility management, real estate, retail and wholesale as well as construction, which accounted for 27.33%, 20.19%, 12.63%, 6.93% and 6.79% of the total amount of corporate loans (excluding discounted bills), respectively. In working on its customer portfolio, the Group forged closer collaboration with quality enterprises among the top 500 enterprises in the world, top 500 enterprises of China, top 100 enterprises of Chongqing, industry leaders as well as government institutions whilst maintaining and strengthening its partnership with prime SME customers. As at 30 June 2013, the Group had a total of 4,766 SME customers with RMB91,452 million loans outstanding (including discounted bills), accounting for 75.73% of the corporate loan balance (including discounted bills).

### 3. *Corporate banking products*

A more established system of corporate banking products has taken shape. Taking regional economy, development of major industries and customer needs, the Bank kept pushing forward innovation in product development. In the first half of 2013, domestic factoring, inventory mortgage business and Bank-Hospital Express business (銀醫通) were officially launched. Research and development concerning new products such as domestic credit letter, overdraft facility of legal person's account, Financing and Leasing Express (融租通), discounted bills with interest payments payable by buyers, and bills pool business has been commenced, and these products are expected to be launched in the second half of the year. Meanwhile, to go along with the trend of industrialisation, economies of scale and integration of agriculture, the Bank keeps actively exploring and introducing innovative modes for financing for agricultural land. These endeavours will improve the Bank's system of corporate banking products.

### 4. *Corporate customer managers*

The establishment of the corporate customer manager mechanism has been reinforced. Over years of development, the team of the corporate customer managers of the Bank has taken shape with more members and higher quality. To continue improving the team of customer managers, the Bank compiled books and periodicals, offered training based on levels, and conducted examinations prior to commencement of work. These efforts enhanced the business knowledge of customer managers, and improved their overall quality as a team with competitiveness. As at 30 June 2013, the number of corporate customer managers increased by 6.46% as compared to the end of the previous year. The expansion and growth of the team of the corporate customer managers will substantially facilitate the growth of corporate business.

### 5. *Small and micro enterprise business*

The Bank actively implemented the instructions of the State Council and CBRC on strongly supporting the development of small and micro enterprise business. It has been improving the quality of financial services for small and micro enterprises to support the development of real economy. As at 30 June 2013, the balance of loans to small and micro enterprises reached RMB31,427 million (excluding discounted bills), representing an increase of RMB2,796 million or 9.77% as compared with the end of the previous year.

(1) Specialised institutions for small and micro enterprises

The Bank has been actively facilitating the development of specialised branches for small and micro enterprises. Pursuant to the requirements of “six mechanisms” (「六項機制」) issued by CBRC on lending business for small enterprises, and Guiding Opinions on Establishing Specialised Branches for Small and Micro Enterprises (《關於設立小微企業專營支行的指導意見》) issued by Banking Regulatory Commission Chongqing Bureau, the Bank selected three branch outlets that met the requirements for establishing specialised branches for small and micro enterprises, including Beibei Caijia branch outlet, Jiangjin Shuangfu branch outlet and Wanzhou Gaosuntang branch outlet and upgraded them as specialised branches for small and micro enterprises, so as to further facilitate the “establishment of six mechanisms” (「六項機制建設」) for small and micro enterprises of the Bank, and sharpened the competitive edge of its business.

(2) Credit products for small and micro enterprises

Since this year, the Bank has been optimising and innovating credit products with the philosophy of “change according to customers and the market”. On the one hand, an effective system has been established for tracking on the operation of credit products which have entered the market, and collecting customers’ feedback and experience on time. The existent products under the “Easy Commercial Loans” (商易貸) series were perfected and optimised. On the other hand, the Bank reinforced its efforts in product innovation, segmented customers and markets, and intended to introduce three specialised products, namely, domestic invoice financing credit (「國內發票融資貸」), order credit (「訂單貸」) and Easy Tax Loans for Small Businesses (「小企業稅易貸」) for segmented customers and markets which lack effective security and third party guarantee. These products meet the needs of industrial chain, commercial circle and individual customers. The credit products system of small and micro enterprises is more complete.

(3) Credit approval process for small and micro enterprises

First, the credit approval process has been streamlined. The investigation reports traditionally presented in words were now changed to tables, which facilitated the review of reviewers and improve the efficiency through more direct presentation. Second, renewal procedures of credit approval have been established for small enterprise customers with existing loans. For small and micro enterprises with existing loans to apply for renewal of the old and make new loans for turnaround of liquidity, creating a case at the front office departments at the headquarters for inspection would not be needed but a direct application to credit approval department for their approval would suffice if their credit ratings have fallen as compared with the end of the previous year and conditions like loan limit, terms and type of guarantee have not changed. Third, information collection has been simplified. In the past, auditor's report was required for credit approval on loans over RMB10 million, but now there is no mandatory requirements on that for credit approval for small enterprises with credit rating above "AA" (including "AA") for loans below RMB30 million (including RMB30 million). The credit approval process for small and micro enterprises is simplified and more convenient.

6. *International business*

The international business experienced a rapid growth. In the first half of 2013, the volume of agency international settlement and agency sale and purchase of foreign exchange handled by the Bank increased by 63.94% and 28.78% year on year to US\$757 million and US\$370 million, respectively, ranking first among local legal person financial institutions in Chongqing. By putting in more efforts in marketing campaigns, the Bank strived to build its international business into a brand with core competitiveness and distinctive characteristics. The Bank recorded a robust growth in the trade financing business. For the six months ended 30 June 2013, the finance amount reached US\$361 million, representing an increase of 81.37% over the same period of the previous year. As the network of correspondent banks further expanded, the Bank has established correspondent banking relationship with 328 well-known banks at home and abroad and obtained credit extension from overseas banks including China CITIC Bank International, Fubon Bank, and Cathay United Bank, thus broadening the channels for capital income and utilisation. Leveraging on continuous improvement of the product system of the international business, the Bank spared no efforts in developing new products of the foreign exchange business and successfully obtained the qualification to develop the business of letter of guarantee for foreign exchange through application to regulatory authorities, and has initiated the application for offshore foreign exchange settlement, and research and development as well as reporting on the transaction of financial derivatives in response to the diversified needs from customers.

## 7. Investment Banking Business

The Bank maintained steady and rapid growth in its wealth management business. Under the precondition that the capital was utilised in compliance with the requirements of the national macro-control and regulatory policies, the Bank strived to satisfy the needs of investors. In the first half of 2013, the Bank designed and issued 220 tranches of wealth management products in total and raised proceeds of RMB47,626 million, 134.17% higher than that for the corresponding period of previous year. The balance of wealth management products amounted to RMB27,048 million, representing an increase of 103.94% over the corresponding period of the previous year.

### 1. *Retail Deposits*

To address China's macro economic adjustment and intense market competitions, the Bank positioned itself by aligning its brand value services with key marketing campaigns, highlighting streamlined management and taking full advantage of the regional competitiveness of its brands whilst strengthening its active liability management together with targeted sales and marketing strategies. Based on the provision of classification guidance, the transformation of branch outlets in urban areas as well as the promotion of the value of branch outlets, the Bank dedicated itself to extending the base of middle- and high-end customers. The Bank carried forward the campaign of bringing financial services to villages, to communities, to companies, to the market and to the gathering place of immigrant workers (the "Five To-s"), and consolidated its customer base and reinforced its leading edge in the market. For the product and service strategies, the Bank diversified its retail banking products and stepped up efforts in the sales of non-deposit products and the distribution of automatic service machines, in an attempt to secure and attract deposit customers. Moreover, given its efforts in refining the anonymous inspection system, enhancing the quality of counter services, enhancing the team-building of marketing personnel, setting up and improving the differentiated customer service system, boosting customer satisfaction and increasing the proportion of the financial assets owned by middle- and high-end customers, the Bank continued to maintain a stable and rapid growth in retail deposits, which amounted to RMB245,097 million, representing an increase of RMB27,688 million or 12.74% in retail deposits over the end of the previous year. The Bank continued to set itself apart from its counterparts in Chongqing in terms of the total amount, annual growth and market share of retail deposits.

### 2. *Retail Loans*

With a view to becoming the largest and the best local retail bank, the Bank managed to further consolidate its leading presence in retail loan business by sparing no efforts in creating its retail loan business brand, strengthening its sales and marketing management on retail loans, strengthening its capability of price negotiation and price level subject to negotiation, optimising its credit structure whilst actively developing employment assistance loans and personal automobile loans (個人汽車消費貸款). The Bank also proactively promoted residential mortgage loans for first housing with over 98% of its loans customers on first housing. It further strengthened its ties with leading real estate developers and large-scale automobile distributors in Chongqing City. Initiatives were further introduced to equip its retail loan centres with consolidated services and to optimise the process of retail loan business for more efficient and better customer services in a sustainable manner. Henceforward, retail loans maintained steady growth. As at 30 June 2013, the balance of retail loans amounted to RMB71,571 million, representing an increase of RMB9,473 million or 15.26% over the end of the previous year. In particular, residential mortgage and personal commercial property loans amounted to RMB40,066 million, posting a growth of RMB4,881 million or 13.87% over the end of the previous year.

Policy loans saw a steady growth. The government-supported employment and re-employment related small amount loans, a cutting-edge policy-based loan project of the Bank, had remarkably contributed to the employment conditions of the urban and rural citizens of Chongqing and the profitability of the Bank. The Bank deepened its communication with regional fiscal and employment departments. Through measures such as raising the cap of credit line for a single household and raising the proportion for guarantee fund, the Bank effectively eliminated the setback against business development due to the low cap of credit line and insufficient guarantee fund, and led to a steady and fast growth in employment and re-employment related small amount loans. As at 30 June 2013, the balance of employment and re-employment related small amount loans reached RMB4,197 million, representing an increase of RMB459 million or 12.29% over the end of the previous year.

### 3. *Bank Cards*

The Bank is committed to branding a bank card business with distinctive features. On one hand, the Bank has been enriching bank card product series, on another, it scaled up the promotion of products and services. Through the marketing campaign for bank card series featuring the fifth anniversary of the Bank, the Bank realised integrate promotion of card issuance and acquiring market, the two major businesses. By initiating large-scale featured campaigns together with famed businesses in the city, the Bank kept expanding the influence of “One Alliance” (1聯盟) in the market. Taking the chance of transformation of outlets and the initiation of the “Five To-s” (五走進), the Bank scaled up the promotion of cutting-edge customised products such as Jiangyu Xiangqing Card (江渝鄉情卡) and Farmer’s Fortune Card (福農卡) as well as products with differentiated services, namely VIP debit card, gold, platinum and diamond cards. For the six months ended 30 June 2013, the total number of debit cards in issue reached 11,873,500, representing an increase of 1,070,100 or 9.91% as compared with that at the end of the previous year; spending related to credit cards amounted to RMB30,150 million; the fee income reached RMB79,989,000, representing an increase of 57.35% over the same period of the previous year. Since the beginning of this year, the interbank yield dropped significantly with the release of liquidity. In the meantime, issue of trust, wealth management and other relevant products decreased due to the decrease in the demand of financing from business enterprises, drop in economic growth and the further opening of direct financing channels. Compared to the previous year, the investment environment this year was more complicated and the pressure on capital utilisation increased. Under this situation, the Bank selectively targeted at the investment of bonds, wealth management, bills and interbank lending with increased investment in bonds and interbank lending and innovation in financial products, thereby maintained stable growth in profit in a capital market where the spread of the interest rates was tightening.

Firstly, the Bank adopted prudent operation style and multiple financing channels, effectively guarding against liquidity risk. Secondly, the Bank swiftly seized market opportunities and continued to expand the business of bills held under resale agreement so as to ensure a steady growth in earnings. Thirdly, the Bank strove to raise the efficiency of capital operation by stressing the refinement of risk management. Fourthly, the Bank improved its interbank lending business, created new investments in trust plans and purchased business of beneficial interests in trust plan held under resale agreements, thereby further broadening its capital utilisation channels and increasing exchange and cooperation with peers.

The treasury businesses recorded profit before tax of RMB1,817 million in the first half of 2013, representing an increase of RMB467 million or 34.59% as compared with the same period of the previous year, which contributed 42.86% to the Group's profit and became an important source of profit of the Group.

#### IV. Distribution Channels

##### 1. Physical outlets

Operating outlets are the primary distribution channels of the Bank. As at 30 June 2013, the Bank had 1,767 branches of various kinds, including one headquarters, one branch, one business department of the headquarters, 42 sub-branches, four tier-two sub-branches and 1,718 branch outlets, among which Qujing Branch in Yunnan became the first cross-regional branch among the domestic rural commercial banks. The network of branches of the Bank covers all the 38 administrative districts and counties of Chongqing with 1,460 distribution outlets in the County Area of Chongqing, including 306 outlets in the city's urban area. The Bank ranked first in the number of branches among its peers in both County Area and the urban area.

The Bank will strategically develop its distribution channels, optimise the layout of outlets and step up restructuring to improve its service coverage, service capabilities and operational efficiency. In the first half of 2013, the Bank presses ahead with the construction work of its branches pursuant to the plan of establishing five new branches, relocating 65 existing branches and refurbishing 211 existing branches throughout the year, craving for improvement and enhancement in the overall image and services of the outlets.

## 2. *Self-service channels*

In order to expand the scope of customer services and provide customers with more convenient services, as at 30 June 2013, the Bank established 22 24-hour self-service centres and increased the number of ATMs and self-service enquiry terminals to 2,508, of which the number of ATMs increased by 258 to 1,903 and the number of self-service enquiry terminals increased by 117 to 605 over the end of the previous year. The proportion of machine to outlet exceeded 1.4:1.

72 units of convenient rural financial self-service terminals have been newly launched in the first half of 2013. A total of 690 units were launched. As at 30 June 2013, 616 convenient rural financial self-service centres had been established and commenced on-line operation across the organisation while the remaining ones are to be constructed as soon as possible. As such, the Bank greatly extended its financial service coverage whilst bringing convenience and benefits to the people in the rural area, with both social and economic benefits well achieved.

## 3. *E-banking*

The Bank, being fully aware of the significance of the supporting role of E-channel business, leveraged its comprehensive E-banking business to build an all-round E-banking service system, in the hope of extending the scope of services to match the customers' interests. Given the efforts in providing convenient and responsive financial services and promoting the sound development of green finance, the Bank further bolstered up customers' satisfaction to its services.

### (1) Internet banking

#### *Corporate internet banking*

The Bank upgraded the customer E-banking system according to the "needs of the customers", adding auto-pay function of corporate annuity upon expiry and e-Tax function in corporate internet banking, which enabled corporate internet banking customers to pay the annual fees and taxes on their own without accessing the outlets, which saved the customers' time and strength. Meanwhile, the Bank enriched and optimised the inter-link business function between banks and enterprises according to the personal requirements of corporate customers. Newly added functions, such as controlled/uncontrolled/control deduction, withholding of batches, signing of amount deduction agreement by proxies and examination were popular among the customers. More excellent corporate customers were attracted to register the internet banking of the Bank.

As at 30 June 2013, the number of corporate internet banking customers of the Bank accumulated to 8,055. 2,457 new accounts were registered in the first half of 2013, representing an increase of 105.01% as compared to the same period of the previous year. The transaction volume for the first half of the year amounted to RMB198.196 billion, representing an increase of 185.07% over the same period of the previous year.

### *Personal internet banking*

A series of convenient services through E-banking, such as the payment functions of Chongqing gas charges and national telephone fees were launched for personal internet banking. The services have covered every daily aspect, including the payment of communication fees, water, electricity and gas fees and traffic penalty. New payment channels, such as water fees of the whole city and cable television fees, would be launched later.

The number of personal internet banking customers reached 337,200 on 30 June 2013, representing an increase of 389.40% over the same period of the previous year. The number of financial transactions in the first half of the year aggregated to 2,838,300, representing an increase of 1,394.63% as compared with the same period of the previous year with an aggregate transaction amount up to RMB22,732 million, an increase of 188.62% over the same period of the previous year.

### (2) Mobile banking

The Bank continued to enrich the business functions of its mobile banking, adding an O2O mobile banking electricity supplier platform which allowed pushing notifications and payment functions of bills. Payment channels were further expanded, while the payment processes were simplified, which helped increasing customer loyalty. With the commencement of simultaneous mobile banking payment and real-time remittance mobile service, the service functions of its three-dimensional banking had been further expanded.

As at 30 June 2013, the number of mobile banking customers of the Bank reached 999,500, representing an increase of 356,100 new customers or 214.70% as compared to the same period of the previous year. ## VI. Information Technology

The Group attached great importance to the application and construction as well as research and development of information technology. As at the first half of 2013, the Group committed to the development of core business, electronic channels and management systems, promoting innovation of financial products and the development of application systems.

The Group strengthened the management of repair, maintenance and safety to ensure safe and stable operation of various businesses systems. The normal and stable operation of all business systems are considered by the Bank the focus of its information technology initiatives. Management is as significant as technology in terms of information safety. Firstly, the Group strengthened the management of its customer data, improving the data withdrawal and usage system and ensuring the safety of the customer data by virtually cycling the data within the system. Secondly, the Group constructed a platform for maintenance management, monitoring, managing and protecting all data systems altogether, embedding the process of service management into that of maintenance management. Thirdly, the management of the operational control rooms was enhanced by modifying the internet and electricity of the main-board room. Fourthly, the Group promoted the establishment of a private network for full-time video surveillance. As at the end of 2013 June the Group controlled 1,793 outlets, including unmonitored ATMs, and completed the construction of 1,716 outlets across the organisation. The coverage was up to 96%.

The Group proceeded with the establishment of projects and the modification of systems steadily. Firstly, it optimised the establishment of processing banks, including public transfers and intra-city tickets into the central database system. Secondly, it completed the transfer of counters by doing teller insurance-related business, controlling over the transactional amount under certain predetermined levels of authority and opening accounts of certificates of deposits in batches. Meanwhile, the Group embedded the verification of the two-dimension codes into the new counter systems. Interactive multi-purpose PIN pads also operated successfully in the system of new counters. Thirdly, the Group established a modern call centre which can handle communication channels, such as telephone calls, facsimiles, WebChat, Web voice memo, emails, 3G internet videos, telephone messages and Weibo. Fourthly, the testing over the coordination of the 2nd generation payment system was fully underway. Fifthly, the Group established a lifespan management platform for the non-structural data which process independent intellectual property rights. Sixthly, a monitoring platform for the quantity and quality of the data was established. Special solutions and management for the data were introduced. The data were standardised through means of systemic technology. In addition, the development of an E-banking risk monitoring system, a derivative system, a bill pool system, “Bank-Hospital Express” (銀醫通), credit card submission (信用卡進件) and collecting loans were under progress.

## VII. Employees and Human Resources Management

### 1. *Basic Information on Employees*

## FINANCIAL BUSINESS IN COUNTY AREA

The banking business in County Area has been a long-term strategic focus, and also one of the Bank's major sources of revenue. The Bank provides diversified financial services for customers in County Area through 1 branch, 31 sub-branches located in County Area and their 1,429 distribution outlets as well as 9 village and township banks. During the reporting period, the Bank took the advantage of interactive linkage between urban and rural areas (城鄉聯動優勢), deepened internal reforms, stimulated innovation in financial services, and kept on increasing the total financial supply in County Area, all of which have led to the rapid growth of financial services in County Area. As at 30 June 2013, the loan balance of the banking business in County Area amounted to RMB98,376 million, representing an increase of RMB14,586 million or 17.41% over the end of the previous year; non-performing loan ratio stood at 1.27%, down 0.54 percentage point from the end of the previous year; the deposit balance amounted to RMB225,848 million, representing an increase of RMB27,102 million or 13.64% over the end of the previous year.

### I. Reform and Innovation

#### 1. Organisational Structure

During the reporting period, the Bank further improved its management structure. The responsibilities of the operation department, the risk control department and management department were clarified. Counter marketing departments for companies, small enterprises and personal business divisions were set up, under which divisions such as Agricultural Industry Division (農業產業科) and the Farmers' Financial Division (農戶金融科) were in place to be responsible for "Sannong" (三農) business marketing and management. With guidance from Sannong Financial Service Committee (三農金融服務委員會), Sannong Business Management Department (三農業務管理部) led professional operation and management for financial business in County Area. The Sannong Business Management Department together with the Marketing Department and the Risk Control and Management Department carried out their respective duties effectively, vigorously spurring the rapid development of the Bank's financial businesses in County Area.

#### 2. Credit Management

During the reporting period, the Bank further revised and improved the systems for management measures, operation standards and authorisation of credit business, and standardised the process of Sannong credit business. By arranging dedicated staff to examine and approve loans, and building the team of customer managers, the Bank effectively stepped up efforts in investigation, review and examination of loans of County Area in a bid to improve lending efficiency and enhance loan management.

### 3. *Assessment and Incentives*

To further improve the comprehensive assessment system of branches in County Area, the Bank formulated separately the credit plan for County Area banking business, implemented differentiated incentives, offered more incentives and strengthened the assessments in relation thereof, and effectively allocated more resources to County Area credit business.

### 4. *Product Innovation*

During the reporting period, the Bank launched and promoted land revenue-insured loans (土地收益保證貸款), operation loans for rural tourism, tobacco cultivation loans etc. In the meantime, it further improved and perfected the management practices and operational procedures of certain credit products, so as to make them more applicable and user-friendly.

## II. **Corporate Banking Business in County Area**

During the reporting period, concentrating on agricultural industrialisation, agricultural technology, circulation of villages, countryside urbanisation and infrastructure construction of the countryside, the Bank continued to, with leading enterprises in such industries as its major target customers, tighten classified management of corporate customers, step up efforts in marketing and strive to foster core customer groups. For flagship companies of different industries, the Bank developed integrated banking services plans, improved its banking services, consolidated and deepened its cooperative relations with enterprises.

As at 30 June 2013, the corporate loan balance (including discounted bills) of the Bank's banking business in County Area stood at RMB49,152 million, representing 40.70% of the corporate loan balance (including discounted bills), up RMB7,312 million or 17.48% over the end of the previous year.

### III. Personal Banking Business in County Area

During the reporting period, the Bank devised and implemented special marketing plans in a bid to drive the growth of personal banking business in County Area. Targeting at the county's individual and private business owners, farmer entrepreneurs and middle- and high-end premium customers among urban and rural residents, the Bank energetically developed personal products for specific areas and promoted loans secured by forest property rights, rural residential housing, contractual management rights of rural lands and loans for individual consumption and employment assistance at a steady pace in order to satisfy diversified credit needs in County Area effectively.

As at 30 June 2013, as the only bank in Chongqing offering the new type of pension insurance services in rural areas, the Bank carried out social pension insurance agency services for urban and rural residents in all districts/counties throughout the city, with coverage of over 11 million people. Departments of finance and social insurance of the city and district/county have opened 124 social insurance accounts with the Bank, with a capital balance of RMB5,418 million. In the first half of 2013, the number of individual pensions withheld by the Bank amounted to 3,889,800, totaling RMB614 million; the number of individual pensions paid by the Bank as an agent amounted to 21,075,700, totalling RMB1,937 million. These services provided the Bank with an extensive customer base and helped stabilise the customer resources and facilitate the development of the Bank's businesses.

The Bank made greater efforts in the construction of electronic channels in County Area and vigorously marketed the Jiangyu Card, the Jiangyu Xiangqing Card, the Farmer's Fortune Card (福農卡), credit card and personal internet banking. As at 30 June 2013, the Bank owned 1,314 ATMs, 484 multi-media enquiry machines in County Area and set up 605 convenient rural financial self-service centres. The number of debit cards and credit cards issued by the Bank in County Area also increased by 846,900 and 6,400 over the end of the previous year, respectively to 9,383,700 and 56,900, respectively, which accounted for 79.03% of the debit cards issued by the Bank and 77.10% of the credit cards issued by the Bank, respectively. With the gradual enhancement in electronic equipment and so the increase in the number of cards, the Bank is well poised to keep expanding its customer base in County Area and increase the penetration of banking business in County Area, and build good business relationship with customers.

As at 30 June 2013, the personal loan balance of the Bank's banking business in County Area stood at RMB49,224 million, representing 68.78% of the total personal loan balance of the Bank, up RMB7,274 million or 17.34% over the end of the previous year.

#### IV. Summary of Information on Geographical Segments

When information is prepared based on the geographical segments, total operating income is allocated in accordance with the locations of branches recording gains. The table below sets forth the total operating income attributable to County Area branches and urban area branches for the periods indicated.

(Expressed in RMB million)	For the six months ended 30 June 2013			For the six months ended 30 June 2012		
	County Area	Urban Area	Total	County Area	Urban Area	Total
Net interest income	1,334.1	6,258.4	7,592.5	927.2	5,307.2	6,234.4
Net fee and commission income	92.1	210.9	303.0	89.9	89.2	179.1
Net trading gain	—	38.2	38.2	—	83.3	83.3
Other operating income, net	18.7	10.9	29.6	45.3	(38.9)	6.4
Total operating income	1,444.9	6,518.4	7,963.3	1,062.4	5,440.8	6,503.2

Gain after adjustment	4,039.5	3,923.8	7,963.3	3,204.0	3,299.2	6,503.2

For the six months ended 30 June 2013, the gain of County Area segment after adjustment was RMB4.04 billion, up 26.08% in comparison with that for the same period of the previous year, which was mainly attributable to increases in net interest income and internal transfer of income and expense.

#### RISK MANAGEMENT

The Group further improved its risk management system in the first half of 2013. Guided by the New Basel Capital Accord and in compliance with the requirements of the CBRC in the “Guidelines for the Establishment of the Risk Management System of Small-and-Medium-sized Rural Financial Institutions” (《農村中小金融機構風險管理機制建設指引》), the Bank deepened the cultural and organisational construction of risk management system, refined various policy guidelines and procedures of risk management and expedited the development and application of risk management instruments, with an aim to ensuring capital adequacy, optimising its asset quality and strengthening the comprehensive risk management capability gradually.

## I. Credit Risk Management

Credit risks refer to the risk of economic loss arising from the failure of the counter party to a transaction to fulfill the corresponding responsibilities in compliance with contracted provisions.

Confronted with macro-economic and financial changes in the first half of 2013, the Group responded by adhering to the operational principle of “foundation consolidation, restructuring, and risk control”. It conscientiously adhered to the PRC macro control policy thoroughly and continued to optimise the regime and system development of credit-risk management. It adjusted the credit policy timely and strengthened the risk management and control in key areas, especially the governmental financing platforms, the real estate sector, industries with high-energy consumption, high pollution and overcapacity as well as key industries with reference to both the macro changes and the trend of industry restructuring. It also reinforced the identification and rectification of risks. New means of non-site surveillance were introduced for the Group to actively identify and resolve potential risks. The capital flow of enterprises was monitored closely and greater efforts were made to terminate loans to customers with potential risks and to dispose non-performing loans. The loan portfolio thus gradually improved and the functions and scope of applications of the credit business management system were optimised continuously, resulting in stronger credit risk management on all fronts.

## II. Liquidity Risk Management

Liquidity risk refers to the risk of inability in financing or liquidating a position at reasonable costs in a timely manner to cope with increase in assets or debt obligations on maturity. The Group’s objective in liquidity risk management is to ensure that it is able to meet all payment obligations and fund all operations in accordance with the Group’s development strategy. To this end, the Group gradually and effectively identifies, measures, monitors and controls its liquidity risk over its major operations to strike a balance between risk and income. Meanwhile, the Group monitored its mobility, safety and profitability to meet all payment obligations and fund all operations for the development of business.

The Asset and Liability Management Commission of the Group is responsible for establishing policies and strategies relating to the Group’s overall management of liquidity risk. The Financial Planning Department and Risk Management Department of the Group are responsible for implementing the liquidity risk management policies and strategies, monitoring and evaluating the liquidity risks. In the first half of 2013, the Group insisted on the business ideology of prudence and compliance. It prioritised asset safety and mobility in its operation and adopted a series of measures to improve its asset and liability structure. By reducing the proportion of corporate medium-and long-term loans, boosting the growth of deposits whilst enhancing the stability of deposits, it reduced its potential liquidity risks.

The Group, leveraging on its unremitting efforts in strengthening liquidity monitoring and forecast as well as the application of the FTP system, had improved the management of internal fund allocation under the system. To avoid potential liquidity risks, the Group had also carried out real-time monitoring and prepared monthly reports on all liquidity control indicators to reflect the liquidity position of the Bank in a comprehensive and continuous manner. Facing with the pressure from “liquidity shortage” in mid- to late-June 2013, the Group adjusted its active liability structure appropriately to utilize the capital with more flexibility and to optimize the liquidity structure. The management of liquidity risks had become more difficult but the risks were controllable. There were no difficulties in settling payment falling due, and no other liquidity crisis had occurred.

Analysis of Remaining Maturity:

(Expressed in as RMB million)	Past due/ Undated	On demand	1 month	As at 30 June 2013			Over 5 years	Total
				1 to 3 months	3 to 12 months	1 to 5 years		
Net position of assets and liabilities	61,910.4	(140,965.0)	(5,229.5)	(9,397.6)	(73,893.8)	116,415.2	84,364.8	33,204.5

### III. Market Risk Management

Market risk refers to the risk of losses from on-balance-sheet and off-balance-sheet businesses of the Group arising from adverse changes in the market price (such as interest rate, exchange rate, commodity price and stock price).

The Group manages its interest rate risk and exchange rate risk in accordance with the requirements of the Guidelines of Market Risk Management of Commercial Banks (《商業銀行市場風險管理指引》), the Guidelines of Internal Control of Commercial Banks (《商業銀行內部控制指引》) and the Guidelines for Stress Testing of Commercial Banks (《商業銀行壓力測試指引》) of the CBRC and with reference to the relevant provisions in the New Basel Capital Accord. The Group has also formulated a management system for market risk through regulations, monitoring, reporting and other measures to govern authorisation, credit extension and limit of risks.

(1) *Interest Rate Risk*

The market risk of the Group is mainly the interest rate risk. The Group measures interest rate sensitivity gap on a regular basis, evaluates interest rate risk through gap analysis, and further assesses the impact of interest rate changes on net interest income and corporate net value in varied interest rate scenarios.

In the first half of 2013, China further liberalised interest rates, which intensified the competition of the banking industry. The interest rates of the PRC inter-bank market once surged. The Group kept a close eye on changes in macro monetary policy and domestic and foreign financial markets. By applying the FTP pricing system properly, the Group further improved the management of interest rate pricing, duly adjusted the pricing of funds and effectively controlled the fall of interest rates for loans and interest costs for deposits with a view to improving the proactiveness of risk management and ensuring the sustained growth in the profit and market value of the Group.

The structure of the Group's interest rate risk gap on the contract re-pricing date or maturity date (whichever was earlier) is as follows:

(Listed as RMB million)	As at 30 June 2013					Non-interest bearing	Total
	Within 1 month	1 to 3 months	3 to 12 months	1 to 5 years	Over 5 years		
Interest rate gap	<u>(79,744.4)</u>	<u>11,729.3</u>	<u>13,063.2</u>	<u>62,005.0</u>	<u>23,684.5</u>	<u>2,466.9</u>	<u>33,204.5</u>

As at 30 June 2013, the Group's accumulated gaps for all maturities amounted to RMB33,205 million, representing an increase of RMB3,105 million from the end of the previous year.

(2) *Exchange rate risk*

Exchange rate risk primarily results from mismatches in the currency denomination of the Group's assets and liabilities, either on- or off-balance sheet, and currency position mismatches caused by foreign currency transactions. The Group mainly adopts foreign exchange exposure analysis and sensitivity analysis to measure exchange rate risk. The Group is mainly engaged in the Renminbi business with certain transactions related to US dollars and HK dollars but seldom conducts transactions in other currencies, whereas transactions in foreign currencies are mainly the Group's business of agency sale and purchase of foreign exchange.

During the first half of 2013, the exchange rate of Renminbi, hit record high for several times since the exchange reform with revaluation on a large scale. During the same period, State Administration of Foreign Exchange (SAFE) enhanced the management of the inflow of foreign exchange by pegging the consolidated position quota of foreign exchange settlements and sales of banks and the loan-to-deposit ratio of foreign exchange. The Group strengthened its management of its exposure to foreign exchange risks and the management standard of off-balance of foreign exchange by enhancing the dynamic management of the deposits and loans of foreign exchange and arranging the utilisation of foreign exchange assets reasonably. It also explored the usage of exchange rate financial instruments to hedge against exchange rate risk.

#### IV. Operational Risk Management

Operational risk refers to the risk of loss resulting from incompleteness or faults in internal procedures, human error and system failure, or external events. The operational risk of the Group mainly comprises internal and external risks. Internal risks mainly include risks arising from human error, inappropriate procedures and operation flow and IT system failure. External risks include risks arising from external contingencies.

With a view to meeting the demands of the New Basel Capital Accord and the establishment of process-based banking as well as working towards the long-term target necessary for a comprehensive risk management, the Group further strengthened its construction of the internal control system and improved its control and management over operational risks. Firstly, the Group sustained the implementation of a system for experts' review and a subsequent assessment system to ensure that all internal control systems were in line with the laws, regulations and requirements and to satisfy the needs of business operation and management. Secondly, to prevent the occurrence of similar risks, the Group timely issued the Risk Reminder (風險提示) and the Comprehensive Risk Management Communication (全面風險管理信息交流) to regions with frequent operational risks. Thirdly, the Group optimised the two core functions, i.e. "centralised authorisation, centralised operation" by introducing the construction of a post-event monitoring system and strengthening risk aversion and control of fundamental outlet operations. Fourthly, the Group enhanced risk aversion of credit cards and E-banking by strengthening the safety of the E-banking system through introducing the "control system of risky transactions" and the "consolidated evaluation for E-banking security risks". Fifthly, the Group established a "problem tracking system" and an "audit information system" which consisted of functions such as abnormal activities warning, on-site working, off-site analysis and problem rectification, thus improved the efficiency of rectification. Sixthly, the Group strengthened the behavioral management of staff by examining staff's behaviour, cultivating the culture of compliance, promoting and optimising the loyalty points management system and actively preventing the risk of internal operation. Seventhly, the Group perfected the case-prevention system by screening case risks in all dimensions and multiple channels. Through various methods such as dynamic case-prevention screening and specific governance on basis of each cases, it discovered and eliminated potential risks timely. Eighthly, the Group promoted continuous business management in a sustained manner. It launched cutover rehearsals and proposal renewals for important production systems, thus enhanced its contingency capability in case of emergency.

## V. Anti-money Laundering

In the first half of 2013, the Group implemented the newly proposed international standards of anti-money laundering (反洗錢國際標準新建議) diligently, carried out in-depth anti-money measures with a “risk-based approach”, improved and optimised working system continuously and strived to enhance its performance. During the reporting period, the Group newly established a classification proposal for customers’ monetary risks and revised the data extracting regulation about supplementation of data in the anti-money system, which is strictly according to the requirements of the People’s Bank and the current situation of customers. Data are supplemented automatically from the notes of transaction details. The pressure of tellers was alleviated, while the operational risk of manual supplementation was effectively controlled. The Group actively launched the promotional activity “Prevention and Attacking of Illegal Fund-raising”, further improved public alertness of illegal fund-raising, reduced their losses greatly and maintained financial order and social stability in Chongqing City. The Group wrote its operational suggestions and experiences by collecting and organising all the anti-money laundering photos and information in a decade to support the People’s Bank’s promotion of anti-money laundering which it had been carried out for a decade. The Group participated in People’s Bank’s anti-money laundering trainings seriously, enhanced the anti-money laundering prevention skills of our staff and strengthened the overall management standard of anti-money laundering.

## INTERNAL AUDIT

The Group constructed an independent internal audit system. An Audit Committee is established under the Board which reported to the Board. The Internal Audit Department which reported to the Board and the Audit Committee is responsible for performing audit overall operation and management of the Bank. The Internal Audit conducted audits independently by the authorisation of the Board and is not interfered by any other department or individual. The Internal Audit Department does not participate in any actual operating activities of other departments to ensure the independence of internal audit.

During the reporting period, the Internal Audit Department of the headquarter adjusted and optimised the tier-two departments, enhanced the guidance and examination to the internal audit of branches, further strengthened the risk-oriented audit ideology, while the focus of internal audit gradually became all-dimension and management-wise. The Group utilized the audit information system reasonably to enhance the specificity of on-site inspection by organising and implementing risk prevention and inspection for cases, comprehensive internal control appraisal, truthful annual appropriation audit, comprehensive controlling village and township banks audit, audit for termination of managers and key personnel, comprehensive audit for three branches and spot checks and key assistance to internal control. The efficiency of auditing raised effectively. The Group specifically strengthened the operational risk audit for key business procedures, such as counters and credit extension. Meanwhile, risk control for asset operations, investment banks, international business, E-banking and departments such as Information Technology. During the reporting period, the Group prevented systemic risks in key business, key organisations, key staff and key regions effectively and motivated sustainable improvement in the standard of internal control.

## OUTLOOK

Looking into the second half of 2013, the global economy will continue to recover under the sustained recovery of the U.S. economy, the recovery of the European economy from the second recession and the generally steady new markets. The nation will insist on improvement, competence, quality amid steady growth. It will coordinate and motivate steady growth, adjust the structure, promote reform, sustain the sustainability and steadiness of the macro-economic policy, strengthen the specificity and predictability of adjustment, better manifest the market mechanism, triggers internal impetus of the market and the economy and promote sustained national economic growth to upgrade China's economy. Benefited from policies such as the Western Development Plan (西部大開發), the coordinated reform for urban and rural areas (統籌城鄉綜合配套改革), the development and opening of the Liangjiang New Area (兩江新區開發開放) and the subsequent projects for the Three Gorges (三峽後續工程), etc. Chongqing concentrates on its general mission of "realising common prosperity in Chongqing through scientific development" (科學發展、富民興渝) in which it strives to introduce the "one-coordination, three-transformation and two-transition" (一統三化兩轉變) strategy, to deepen the economic reform, to enhance the quality and benefits of economic development and to establish the first middle-class community in the western region of China.

Opportunities are fleeting, while time waits for no one. The Bank will continue to reform and upgrade itself in the second half of the year by implementing the "Three-Transformation Strategy" fully. It will address three issues, i.e. how to make the most of the new scenario to achieve a scientific and effective development, how to regulate internal governance and improve the management standard in reforms and transformation period, and how to maintain the positive state of spirit and constantly improve overall quality of the team under the rapid development of the society. It will prioritise rapid growth of its business, strengthen the leading position of the retail business, enhance profitability of the financial market, improve the regulatory standard of internal management and strengthen the cultivation of team culture. It will bring cohesion with vision, motivate people with spirit and strive to open a new horizon with relentless efforts. Through practice and aspirations, we will create a better tomorrow.

# Report on Review of Condensed Consolidated Financial Statements

**TO THE BOARD OF DIRECTORS OF CHONGQING RURAL COMMERCIAL BANK CO., LTD.**

**重慶農村商業銀行股份有限公司**

*(Incorporated in the People's Republic of China with limited liability)*

## **INTRODUCTION**

We have reviewed the condensed consolidated financial statements of Chongqing Rural Commercial Bank Co., Ltd. (the "Bank") and its subsidiaries (collectively referred to as the "Group") set out on pages 82 to 138, which comprise the condensed consolidated statement of financial position as of 30 June 2013 and the related condensed consolidated statement of profit or loss, statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and certain explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board. The directors of the Bank are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

## **SCOPE OF REVIEW**

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of these condensed consolidated financial statements consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## **CONCLUSION**

Based on our review, nothing has come to our attention that causes us to believe that these condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

## 1. GENERAL INFORMATION

Chongqing Rural Commercial Bank Co., Ltd. (the “Bank”) is a joint-stock commercial bank incorporated in the People’s Republic of China (“PRC”) on 27 June 2008. Prior to its incorporation, the business acquired by the Bank (the “Business”) was carried out by 38 rural credit cooperative unions and Chongqing Wulong Rural Cooperative Bank in Chongqing of the PRC (collectively, the “39 Rural Credit Unions”). All of them were managed by the Chongqing Rural Credit Cooperative Union (the “CRCCU”) at the municipal level of Chongqing, the PRC.

Pursuant to the promoters’ agreement among the promoters of the Bank, the Bank acquired all the assets and liabilities of the 39 Rural Credit Unions and the CRCCU on 27 June 2008, and the Business was transferred to the Bank.

The Bank was listed on The Stock Exchange of Hong Kong Limited on 16 December 2010.

The Bank has financial services certificate No. B0335H250000001 issued by the China Banking Regulatory Commission (the “CBRC”), and business license No. 500000000001239 issued by the Chongqing Administration of Industry and Commerce.

The principal activities of the Bank and its subsidiaries (together referred to as the “Group”) comprise the provision of banking services, which includes deposits, loans, payment and settlement services, and other services as approved by the CBRC.

The condensed consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Bank.

## 2. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34 (“IAS 34”) Interim Financial Reporting issued by the International Accounting Standards Board (“IASB”) as well as with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”).

### 3. PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

Except as described below, the accounting policies and methods of computation used in the condensed consolidated financial statements for the six months ended 30 June 2013 are the same as those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2012. The condensed consolidated financial statements should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2012.

In the current interim period, the Group has applied a number of new and revised International Financial Reporting Standards ("IFRSs") issued by IASB that are mandatorily effective for the Group's financial year beginning on 1 January 2013.

#### **Amendments to IFRS 7 Disclosures — Offsetting Financial Assets and Financial Liabilities**

The Group has applied the amendments to IFRS 7 Disclosures - Offsetting Financial Assets and Financial Liabilities for the first time in the current interim period. The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under enforceable master netting agreement or similar arrangement.

The amendments have been applied retrospectively. As the Group does not have any offsetting arrangements in place, the application of the amendments has had no material impact on the disclosures or on the amounts recognised in the condensed consolidated financial statements.

#### **New and revised standards on consolidation, joint arrangements, associates and disclosures**

In the current interim period, the Group has applied for the first time IFRS 10, IFRS 11, IFRS 12 and IAS 28 (as revised in 2011) together with the amendments to IFRS 10, IFRS 11 and IFRS12 regarding the transitional guidance. IAS 27 (as revised in 2011) is not applicable to these condensed consolidated financial statements as it deals only with separate financial statements.

### 3. PRINCIPAL ACCOUNTING POLICIES — CONTINUED

The impact of the application of these standards that is relevant to the Group is set out below.

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements and SIC 12 Consolidation — Special Purpose Entities. Under IFRS 10, there is only one basis for consolidation, that is, control. In addition, IFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's returns. All three of these criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

IFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in IFRS 12 are more extensive.

In June 2012, the amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the application of these IFRSs for the first time.

Amendments to IFRS 10, IFRS 12 and IAS 27 were issued in October 2012 for providing an exception to the consolidation requirement in IFRS 10 and requiring "investment entities" to measure its investments of controlled investees at fair value through profit or loss, instead of consolidation. Disclosure requirements for investment entities are set out in IFRS 12.

The application of these standards has no material impact on the Group's profit or loss, other comprehensive income and financial position in the current and prior periods. However, the directors consider that the application of IFRS 12 will affect the Group's disclosures in the annual consolidated financial statements for the year ending 31 December 2013.

### 3. PRINCIPAL ACCOUNTING POLICIES – CONTINUED

#### IFRS 13 Fair Value Measurement

The Group has applied IFRS 13 for the first time in the current interim period. IFRS 13 establishes a single source of guidance for, and disclosures about, fair value measurements, and replaces those requirements previously included in various IFRSs. Consequential amendments have been made to IAS 34 to require certain disclosures to be made in the interim condensed consolidated financial statements.

The scope of IFRS 13 is broad, and applies to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, subject to a few exceptions. IFRS 13 contains a new definition for ‘fair value’ and defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions. Fair value under IFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Also, IFRS 13 includes extensive disclosure requirements.

In accordance with the transitional provisions of IFRS 13, the Group has applied the new fair value measurement and disclosure requirements prospectively. Disclosures of fair value information are set out in note 40 of the condensed consolidated financial statements.

#### IAS 19 (as revised in 2011) Employee Benefits

In the current interim period, the Group has applied IAS 19 Employee Benefits (as revised in 2011) and the related consequential amendments for the first time.

IAS 19 (as revised in 2011) changes the accounting for defined benefit plans and termination benefits. The most significant change relates to the accounting for changes in defined benefit obligations and plan assets. The amendments require the recognition of changes in defined benefit obligations and in the fair value of plan assets when they occur, and hence eliminate the ‘corridor approach’ permitted under the previous version of IAS 19 and accelerate the recognition of past service costs. All actuarial gain and losses are recognised immediately through other comprehensive income in order for the net pension asset or liability recognised in the consolidated statement of financial position to reflect the full value of the plan deficit or surplus. Furthermore, the interest cost and expected return on plan assets used in the previous version of IAS 19 are replaced with a ‘net interest’ amount under IAS 19 (as revised in 2011), which is calculated by applying the discount rate to the net defined benefit liability or asset.

#### Amendments to IAS 1 Presentation of Items of Other Comprehensive Income

The Group has applied the amendments to IAS 1 Presentation of Items of Other Comprehensive Income for the first time in the current interim period. The amendments introduce new terminology, whose use is not mandatory, for the statement of comprehensive income and income statement. Under the amendments to IAS 1, the “statement of comprehensive income” is renamed as the “statement of profit or loss and other comprehensive income” and the “income statement” is renamed as the “statement of profit or loss”. The amendments to IAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to IAS 1 require items of other comprehensive income to be grouped into two categories in the other comprehensive income section: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis — the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes. Other than the above mentioned presentation changes, the application of the amendments to IAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

#### New and revised IFRSs issued but not yet effective

The Group has not early applied the following new or revised IFRSs that have been issued but are not yet effective.

Amendments to IFRS 10, IFRS 12 and IAS 27	Investment Entities <sup>1</sup>
Amendments to IAS 32	Offsetting Financial Assets and Financial Liabilities <sup>1</sup>
Amendments to IAS 36	Recoverable Amount Disclosures for Non-Financial Assets <sup>1</sup>
Amendments to IAS 39	Novation of Derivatives and Continuation of Hedge Accounting <sup>1</sup>
IFRIC 21	Levies <sup>1</sup>
IFRS 9	Financial Instruments <sup>2</sup>
Amendments to IFRS 9 and IFRS 7	Mandatory Effective Date of IFRS 9 and Transition Disclosures <sup>2</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2014

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2015

The amendments to IFRS 10, IFRS 12 and IAS 27 are effective for annual periods beginning on or after 1 January 2014, with early application permitted. The directors anticipate that the application of the amendments will have no effect on the Group as the Bank is not an investment entity.

IAS 32 Amendment provides additional application guidance to clarify some of the requirements for offsetting financial assets and financial liabilities on the statement of financial position. The directors anticipate that the application of these amendments to IAS 32 will be adopted for the annual period beginning on 1 January 2014. As the Group does not apply any offsetting, the application of the amendments has had no material impact on the amounts recognised in the condensed consolidated financial statements

The directors anticipate that IFRS 9 that will be adopted in the Group's consolidated financial statements for the annual period beginning on 1 January 2015 and that the application of IFRS 9 will affect the classification and measurement of the Group's available-for-sale investments and may have impact on the Group's other financial assets and the Group's financial liabilities. The directors have not yet completed the assessment of financial impact to the Group.

### 19. LOANS AND ADVANCES TO CUSTOMERS – CONTINUED

#### (7) Credit quality of loans and advances to customers at contractual amounts – continued

##### (i) Loans and advances neither past due nor impaired – continued

Note: The Group generally measures and manages the quality of credit risk-bearing assets based on the Guideline for Loan Credit Risk Classification issued by the CBRC, which requires the Group to classify loans into the following five category loan classification: normal, special mention, substandard, doubtful and loss. The category for normal and special mention is set out as below:

- Normal: Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.
- Special mention: Borrowers are able to service their loans currently, although repayment may be adversely affected by specific factors.

### 33. CAPITAL RESERVE

The Bank issued shares at share premium. Share premium was recorded in the capital reserve after deducting direct issue costs which mainly included underwriting fees and professional fees.

### 34. SURPLUS RESERVE

Under relevant PRC Laws, the Group is required to transfer 10% of its net profit to a non-distributable statutory surplus reserve. Appropriation to the statutory surplus reserve may cease when the balance of such reserves has reached 50% of the share capital.

After making the appropriation to the statutory surplus reserve, the Bank may also appropriate its profit for the year determined under the generally accepted accounting principles of the PRC ("PRC GAAP") to the discretionary surplus reserve upon approval by the shareholders in general meetings. Subject to the approval by the shareholders, the discretionary surplus reserve may be used to offset accumulated losses of the Bank, if any, and may be converted into capital.

### 35. GENERAL RESERVE

Pursuant to the Administrative Measures for the Provision of Reserves of Financial Enterprises (Cai Jin [2012] No. 20) issued by the MOF, in addition to the specific and collective allowances for impairment losses, the Bank is required to establish and maintain a general reserve within equity to address potential unidentified impairment losses. The general reserve should not be less than 1.5% of the aggregate amount of risk assets as defined by the above measures.

Pursuant to the above regulatory requirements in Mainland China, the Bank's subsidiaries are required to appropriate certain amounts of their net profit as general reserve.

During the six months ended 30 June 2013, the Group transferred RMB2,649 million to general and regulatory reserve pursuant to regulatory requirement in the PRC (Six months ended 30 June 2012: RMB928 million).

### 37. SEGMENT ANALYSIS

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board of the directors and relevant management committees (chief operating decision maker) for the purposes of allocating resources to segments and assessing their performance. The Group operates mainly in Chongqing, PRC. Majority of its customers and non-current assets are located in the Chongqing, PRC. The Group's chief operating decision maker reviews financial information based on business activities for the purpose of allocating resources and performance assessment.

The measurement of segment assets and liabilities, segment income and results is based on the Group's accounting policies in accordance with accounting rules and financial regulations applicable to PRC enterprises. There is no significant difference between the segment accounting policy and the policies applied in preparing the condensed consolidated financial statements.

Internal charges and transfer pricing are determined with reference to market rates and have been reflected in the performance of each segment. Interest income and expense arising from internal charges and transfer pricing adjustments are referred to as "inter-segment interest income/expense". Interest income and expense earned from third parties are referred to as "external interest income/expense".

### 37. SEGMENT ANALYSIS – CONTINUED

The Group has no major customers which contribute 10 percent or more of the Group's income.

Segment revenues, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

#### Operating Segment

The Group provides a diversified range of banking and related financial services. The products and services offered to customers are organised into three operating segments:

##### *Corporate banking*

The corporate banking segment provides financial products and services to corporations, government agencies and financial institutions. The products and services include corporate loans, trade financing, deposit takings and other types of corporate intermediary services.

##### *Personal banking*

The personal banking segment provides financial products and services to individual customers. The products and services include personal loans, deposit products, card business, personal wealth management services and other types of personal intermediary services.

##### *Treasury operations*

The Group's treasury operations conduct money market or repurchase transactions, and debt instruments investment for its own accounts or on behalf of customers.

### 39. CONTINGENT LIABILITIES AND COMMITMENTS – CONTINUED

#### Credit risk weighted amounts for credit commitments

	At 30 June 2013 (Unaudited)	At 31 December 2012 (Restated)
Credit commitments	<u>2,140,924</u>	<u>1,374,265</u>

The credit risk weighted amounts are the amounts calculated in accordance with the guidelines issued by the CBRC and are dependent on, among other factors, the creditworthiness of the counterparty and the maturity characteristics. The risk weightings used range from 0% to 100%, for contingent liabilities and commitments.

In accordance with the Administrative Measures on the Capital of Commercial Banks (Trial) (「商業銀行資本管理辦法(試行)」) promulgated by CBRC, which has come into force from 1 January 2013, new methods have been introduced to compute the credit risk weighted amounts for credit commitments. Thus the Group restated the comparative figure.

#### Operating lease commitment

At the end of each reporting period, the Group has the following non-cancellable operating lease commitments as lessee with fixed lease term and lease payment:

	At 30 June 2013 (Unaudited)	At 31 December 2012 (Audited)

### 40. FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

#### **Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis**

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available such as the market price of the listed equity securities on exchanges. Where Level 1 inputs are not available, the fair value of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models, including discounted cash flow analysis, using prices from observable current market transactions for similar instruments to the extent available.

The main valuation techniques used by the Group is the discounted cash flow model for financial instruments. The main inputs used in discounted cash flow model include recent transaction prices, interest rates, own credit spread and counterparty credit spreads, as appropriate. If these parameters used in the model are substantively based on observable market data and/or obtainable from active open market, the instruments are classified as level 2.

### CROSS-BORDER CLAIMS

The Group is principally engaged in business operations within Mainland China, and regards all claims on third parties outside Mainland China as cross border claims.

Cross-border claims mainly include balances with banks.

Cross-border claims have been disclosed by different countries or geographical areas. A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of cross-border claims, after taking into account any risk transfers. Risk transfer is only made if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country.
