MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

During the first half of 2013, the Group has maintained a robust growth for its core business. On the other hand, it has also kicked off a good start for its new business stream of beverage products. Total sales of the Group for the first half of 2013 increased by 17.3%, as compared with the same period of last year. During the six months ended 30 June 2013, the cost of most of the raw materials remained low, gross profit margin and EBITDA margin showed good improvement. Net profit and earnings per share surged by 16.1% and 21.4% respectively year on year. Operating cash flow remained strong and increased 20.5% from a year back.

Sales

Sales surged 17.3% to RMB975.5 million in the first half of 2013. The Group continued to penetrate "Labixiaoxin" products into new areas via expansion of existing distribution networks and new distributorships. As at 30 June 2013, the Group had a total number of 316 wholesale distributors and key account agents. The sales contributed from new distributors, net of terminated distributors, represents 3.9% of total domestic sales in the first half of 2013. Meanwhile, the current distributors demonstrated a strong growth of 13.5% in domestic sales, as compared with the same period in last year. The performance in Northern China outstood from the rest and delivered 27.5% growth year on year. Sales in Western and Central China remained robust which soared by 24.2% and 23.6% respectively from a year back. The sales momentum in Eastern China was maintained which increased by 10.2% from the same period in last year. Sales in modern retail channels remained robust, sales via key account agents grew 13.6% to RMB142.4 million in the first half of 2013 or 15.0% of total domestic sales. Sales in traditional retail channels demonstrated a even stronger growth. Sales via wholesale distributors increased 21.2% from a year back to RMB804.7 million.

Starting from 2013, the delivery cost previously borne by the Group, being the cost of delivering products from the Group's warehouses to distributors' warehouses, were taken up by the distributors. The Group granted extra discount to subsidize the distributors. The said discount of RMB33.4 million, or 3.1% of gross sales, were directly net off against sales in 2013. Consequently, the reported sales and gross profit in 2013 were cut down while the selling and distribution expenses also dropped by the same amount without affecting profit for the period. For comparison purpose, assuming the extra sales discount were not deducted from sales, the adjusted sales surged 21.3% from a year back and adjusted gross profit margin improved by 2.5 percentage points from the same period in last year.

Jelly products

Sales of jelly products increased by 8.6% from RMB697.8 million in the first half of 2012 to RMB758.1 million in the first half of 2013, of which sales attributable to jelly snacks and jelly beverages increased by 7.0% to RMB455.8 million and 11.3% to RMB302.4 million, respectively. The Group's brand image played a key role particularly after the gelatin scandal. The Group was glad to note that consumers were eventually restoring confidence in consuming jelly products. The year-on-year growth rate of jelly products' sales was improving throughout the first half of 2013. The new Angry Bird series of jelly bar and jelly beverages also boosted the consumption sentiment.

MANAGEMENT DISCUSSION AND ANALYSIS

Confectionary products

Sales of confectionary products increased by 54.5% to RMB83.9 million in the first half of 2013. The new Angry Bird series of lollipop and gummy candy not only boosted up the consumption sentiment but also generated higher margin for the portfolio.

Beverage products

The Group soft launched "Xiaoxin Ru Guo" flavored milk in April 2013 which contributed RMB9.5 million sales in the first half of 2013. By the end of June 2013, the Group has engaged 43 wholesale distributors selling the flavored milk products mainly in the second or third tier cities at Fujian, Zhejiang and Anhui Provinces, etc. The Group has received encouraging feedback from the market, in particular the banana flavored milk. There was ample number of distributors in the pipeline who has indicated their interest to join the distributorship. Besides, certain key account customers have also agreed to allow "Xiaoxin Ru Guo" selling via their network. However, the Group must breakthrough the immediate hurdle of production capacity constraint before expanding the market further. The Group has expedited the installation process of the production machinery in Anhui Production Facilities which is now under test running.

Other snacks products

Sales of other snacks products soared 55.5% to RMB123.9 million in the first half of 2013. This was mainly due to sales attributable from new products including, "Megg" egg rolls, "Megg" red bean bun and "Xiaoxin cup" – chocolate cracker ball, which generated a robust demand.

Cost of Sales

Cost of sales increased 16.0% to RMB568.8 million in the first half of 2013. The increase in cost of sales was less than that of sales because the cost of most of the raw materials and packaging materials were falling since last year.

Gross Profit

Gross profit increased by 19.1% to RMB406.7 million in the first half of 2013 and gross profit margin increased by 0.6 percentage point from 41.1% in the first half of 2012 to 41.7% in the first half of 2013. The margin improvement was primarily due to falling in prices of raw materials since last year.

Selling and Distribution Expenses

Selling and distribution expenses increased marginally by 6.7% to RMB118.8 million in the first half of 2013 primarily due to increase in advertising and promotion expenses, operating costs of sales department, off-set by decrease in freight and transportation expenses.

As mentioned in previous paragraph, the delivery cost previously borne by the Group, being the delivering cost of products from the Group's warehouses to distributors' warehouses were taken up by the distributors in 2013. The Group granted an extra sales discount as subsidy. The said discount represents 3.1% of gross sales while the freight and transportation expenses represents 3.3% of sales in the first half of 2012 which was more or less the same level.

MANAGEMENT DISCUSSION AND ANALYSIS

During the six months ended 30 June 2013, the Group had invested heavily in various media and retail channels to promote “Labixiaoxin – Xiaoxin Ru Guo” flavored milk series. The advertising and promotion expenses were jetting up by 39.2% to RMB90.7 million or 9.3% of sales. The Group will disciplinarily monitor the advertising and promotion expenses at the range of 8–10% of sales.

Administrative Expenses

Administrative expenses increased slightly by 4.4% to RMB33.5 million in the first half of 2013. The overall administrative expenses to sales ratio was 3.4% which was comparable to that of same period in last year.

Other Net Gains

Balance primarily comprised net exchange gains, loss on disposal of machinery and equipment and net gain on sales of scrap materials. During the period, the Group incurred net gains of RMB1.9 million, primarily due to exchange gain as a result of appreciate of Renminbi during the period.

Income Tax Expense

The Group’s income tax expense increased significantly by 81.8% to RMB70.6 million in the first half of 2013, representing an effective income tax rate of 27.4% versus that of 19.5% in the same period of last year. This was mainly because the tax benefit of one of the Group’s subsidiaries expired in the second half of 2012. That subsidiary was subjected to preferential income tax rate of 15% in the first half of 2012 and was restored to the standard rate of 25% after expiry of the tax benefit in the second half of 2012. In fact, the subsidiary was charged retrospectively to the first half of 2012 at standard income tax rate of 25% after expiry of the tax benefit, leading the Group’s effective income tax rate for the second half of 2012 and full year of 2012 were 31.0% and 24.7% respectively.

If the income tax expense for the first half of 2012 was adjusted retrospectively, taking into account the captioned arrangement, the effective income tax rate for that period would have been 24.3% which was relatively comparable to that of the current period.

Net Profit for the Period

Net Profit for the period increased by 16.1% from RMB160.8 million in the first half of 2012 to RMB186.7 million in the first half of 2013. This was primarily due to increase in sales and margin improvement, partially offset by increase in effective income tax rate from 19.5% in first half of 2012 to 27.4% in the first half of 2013.

As aforesaid mentioned, the effective income tax rate in the first half of 2012 would have been 24.3% if taking into account the retrospective income tax charge to the first half of 2012. Consequently, the adjusted net profit for the first half of 2012 would have been RMB151.1 million. Accordingly, the net profit for current period would surge by 23.6% from a year back and net profit margin improved by 0.9 percentage points for comparison purpose.

Financial Review

Financial resources and liquidity

The Group mainly finances its operations and capital expenditure by cash and bank balances, internal generated cash flows and bank borrowings.

As at 30 June 2013, the bank balances and deposits amounted to RMB832.1 million, representing an increase of RMB426.0 million as compared with the year ended 31 December 2012. This was mainly due to good cash flow generated from operating activities and fund raised from 3-year syndicated bank loan during the period. Total borrowings of the Group as at 30 June 2013 increased sharply by 551.3% to RMB489.1 million which was primarily due to the 3-year syndicated bank loans that the Group secured during the period under review. Over 90% of the Group’s cash and bank balances were denominated in RMB while over 90% of the Group’s borrowings were denominated in USD. While the Group’s gearing ratio (total borrowings divided by total equity) as at 30 June 2013 increased to 27.5% (31 December 2012: 4.5%), the Group maintained at net cash position as at 30 June 2013.

MANAGEMENT DISCUSSION AND ANALYSIS

The Group maintains sufficient cash and available banking facilities for its working capital requirements and for capitalizing on any potential investment opportunities in the future. The Group will from time to time make prudent financial arrangements and decisions to address changes in the domestic and international financial environment.

Cash flow

Cash flow generated from operating activities surged 20.5% from RMB201.6 million in the first half of 2012 to RMB243.0 million in the first half of 2013. As at 30 June 2013, the Group has spent RMB147.2 million in investing activities mainly for expansion of production facilities. The Group has inflow cash of RMB330.2 million from financing activities which primarily represents fund raise from the 3-year syndicated bank loan.

Capital expenditure

In first half of 2013, the Group has spent RMB152.0 million in capital expenditure mainly for construction of production facilities in Anhui Province and expansion of production facilities in Tianjin and Sichuan Provinces. The flavored milk production lines at Anhui Production Facilities have recently commenced operation in August 2013 as planned. The production lines of jelly products at Anhui Production Facilities will commence operation by end of this year. The Group will build 4 production houses at Sichuan Production Facilities for future expansion.

The above capital expenditure was primarily financed by proceeds from the 3-year syndicated bank loan and operating cash flows.

Inventory analysis

The Group's inventories primarily consist of finished goods of jelly products, confectionary products, beverage products and other snacks products, as well as raw materials and packaging materials. As at 30 June 2013, balance increased RMB5.9 million from the beginning of the year mainly due to procurement of raw materials toward the end of the reporting period. The inventories turnover days for the first half of 2013 and 2012 were 21 days and 20 days, respectively.

Trade receivables

Trade receivables mainly represent the balance due from wholesales distributors and key account agents. The Group typically sells its products on credit and grant 30 days credit to most of the wholesale distributors and 90 days credit to key account agents. Balance decreased by RMB66.7 million from the beginning of the year mainly due to seasonal factor. The trade receivable turnover days for the first half of 2013 and 2012 were 44 days and 52 days, respectively.

Trade payables

Trade payables mainly represent the balances due to the Group's suppliers who generally grant credit terms ranging from 30 days and 60 days to the Group. The Group also settled some of the procurement by bank bills which typically have 180 settlement days, at cost of bank charges and pledged deposits to the banks. Trade payables turnover days for the first half of 2013 and 2012 were 53 days and 74 days respectively.

Charges on assets

As at 30 June 2013, the Group had the following charge of assets:

- (i) bank deposits of RMB14.1 million (31 December 2012: RMB9.6 million);
- (ii) land and building with net asset value of RMB9.8 million (31 December 2012: RMB10.0 million); and
- (iii) shares of certain wholly-owned subsidiaries of the Group.

Contingent liabilities

As at 30 June 2013, the Group had no contingent liabilities (31 December 2012: Nil).

MANAGEMENT DISCUSSION AND ANALYSIS

Disclosure pursuant to Rule 13.18 of the Listing Rules

On 25 February 2013, the Company as borrower entered into a Facility Agreement (the "Facility Agreement") with certain banking institutes as original lenders in relation to a US\$75,000,000 term loan facility. The Facility has a term of 36 months commencing from the date of the Facility Agreement.

The Facility Agreement includes a condition imposing specific performance obligations on Mr. Zheng Yu Long, Mr. Zheng Yu Shuang, Mr. Zheng Yu Huan and Mr. Li Hung Kong, the controlling shareholders of the Company (the "Controlling Shareholders") who are collectively interested in approximately 64.10% of the issued share capital of the Company as of the date of the Facility Agreement. It will be a change of control in the event that (i) the Controlling Shareholders collectively do not or cease to, at any time directly or indirectly own at least 35% of the issued share capital of the Company on a fully diluted basis; or (ii) the Controlling Shareholders collectively do not or cease to, at any time directly or indirectly, have the ability to direct the affairs of the Company.

If a change of control occurs, the facility agent to the Facility Agreement may cancel all the available Facility and declare all or part of the outstanding loan, together with all accrued interests, breaks costs (if any) and all other amounts accrued pursuant to the Facility Agreement then due and payable, whereupon the Facility Agreement will be cancelled and all such outstanding amounts will be immediately due and payable.

Employment and Remuneration Policy

As at 30 June 2013, the Group had approximately 2,700 employees and total remuneration expenses for the first half of 2013 amounted to RMB55.3 million including amortisation cost of share option of RMB1.8 million. The employees' salaries are reviewed and adjusted annually based on employee's performance and experience. The Group's employee benefits include performance bonus, mandatory provident fund for Hong Kong employees, social insurance packages for the PRC employees and education subsidy to encourage continuous professional development of staff.

On 30 March 2012, the Group has granted 15,000,000 share options to certain employees of the Group with an exercisable period from 31 March 2012 to 30 March 2017 at an exercise price of HK\$2.68 per share. There are three vesting periods for these share options. As at 30 June 2013, 7,000,000 share options were vested and were fully exercised subsequently in July 2013.

Material Acquisition and Disposal of Subsidiaries and Associated Companies

There was no material acquisition and disposal of subsidiaries and associated companies during the six months ended 30 June 2013.

Prospect

The economic data indicates that China economy is under downward pressure. The new administration has demonstrated their commitment to transform the economy from intense investment and export driven to domestic consumption driven, at the expense of short term economic slowdown. The Group's previous investment in branding and distribution networks has provided a solid foundation to meet the future challenges. Particularly, the Group is seeing a good recovery of consumers' confidence in jelly products after the gelatin scandal. The market feedback to "Xiaoxin Ru Guo" flavored milk is also encouraging. Besides, there is no indication of immediate rising pressure to most of the raw material cost. The Group is cautiously optimistic to its performance in the second half of 2013, albeit the short term volatility of China economy.

**REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION
TO THE BOARD OF DIRECTORS OF LABIXIAOXIN SNACKS GROUP LIMITED**
(incorporated in Bermuda with limited liability)

Introduction

We have reviewed the interim financial information set out on pages 10 to 23, which comprises the condensed consolidated balance sheet of Labixiaoxin Snacks Group Limited (the "Company") and its subsidiaries (together, the "Group") as at 30 June 2013 and the related condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting". The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

This condensed consolidated interim financial information has not been audited.

2 Basis of Preparation

The condensed consolidated interim financial information for the six months ended 30 June 2013 has been prepared in accordance with International Accounting Standard ("IAS") 34 "Interim Financial Reporting". The condensed consolidated interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2012, which have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The preparation of interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing the condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual financial statements for the year ended 31 December 2012.

The accounting policies used in the preparation of the condensed consolidated interim financial information are consistent with those used in the annual financial statements for the year ended 31 December 2012, except as mentioned below.

(a) New standards, amendments and interpretations to standards adopted by the Group

The following new standards, amendments and interpretations to standards are mandatory for accounting periods beginning on or after 1 January 2013. The adoption of these new standards, amendments and interpretations to standards does not have any significant impact to the results and financial position of the Group.

IAS 1 (Amendment)	Presentation of financial statements
IAS 19 (Amendment)	Employee benefits
IAS 27 (2011)	Separate financial statements
IAS 28 (2011)	Investments in associates and joint ventures
IFRS 1 (Amendment)	Government grants
IFRS 7 (Amendment)	Financial instruments: disclosures – offsetting financial assets and financial liabilities
IFRS 10	Consolidated financial statements
IFRS 11	Joint arrangements
IFRS 12	Disclosure of interests in other entities
IFRS 13	Fair value measurements
IFRIC – Int 20	Stripping costs in the production phase of a surface mine
Annual improvements project	Fourth 2011 annual improvements project

2 Basis of Preparation (continued)

(b) New standards, amendments to standards and interpretations that have been issued but are not effective

The following new standards, amendments to standards and interpretations have been issued and are mandatory for the Group's accounting periods beginning on or after 1 January 2014 and which the Group has not early adopted.

IAS 32 (Amendment)	Financial instruments: Presentation – offsetting financial assets and financial liabilities ¹
IAS 36 (Amendment)	Recoverable amount disclosures for non-financial assets ¹
IFRS 7 and IFRS 9 (Amendments)	Mandatory effective date and transition disclosures ²
IFRS 9	Financial instruments ²
IFRS 10, IFRS 12 and IAS 27 (Amendments)	Investment entities ¹
IFRIC – Int 21	Levies ¹

¹ Effective for the Group for annual periods beginning on or after 1 January 2014

² Effective for the Group for annual periods beginning on or after 1 January 2015

The Group is currently assessing the impact of the adoption of the above new standards, amendments to standards and interpretations and does not expect there will be any significant impact to the results and financial position of the Group.

3 Financial Risk Management

The Group's activities expose it to market risks (including currency risk and interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2012.

There have been no changes in the risk management department since year end or in any risk management policies since the year end.

4 Segment Information

The Group is principally engaged in the manufacturing and sale of jelly products, confectionary products, beverage products and other snacks products.

The chief operating decision-maker ("CODM") has been identified as the executive directors of the Company. CODM reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

CODM considers the business by products and assesses the performance of the following operating segments:

- i. Jelly products
- ii. Confectionary products
- iii. Beverage products
- iv. Other snacks products

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

4 Segment Information (continued)

Although the beverage products segment does not meet the quantitative thresholds required by IFRS 8 "Operating segments", management has concluded that this segment should be reported, as it is closely monitored by the CODM as a potential growth segment and is expected to materially contribute to group revenue in the future.

CODM assesses the performance of the operating segments based on measure of segment results. Finance income and costs, corporate income and expenses are not included in the results for each operating segment that is reviewed by the CODM. Other information provided to the CODM is measured in a manner consistent with that in the financial information.

The revenue from external parties reported to the CODM is measured in a manner consistent with that in the condensed consolidated statement of comprehensive income.

During the six months ended 30 June 2013, none of the individual customer account for 10% or more of the Group's external revenue (2012: none). As at 30 June 2013 and 31 December 2012, substantially all of the Group's assets, liabilities and capital expenditure are located or utilised in the PRC.

OTHER INFORMATION

Share Option Scheme

On 23 September 2011, the Company conditionally adopted a share option scheme (the "Share Option Scheme") whereby the board of Directors (the "Board") can grant options for the subscription of shares of the Company (the "Shares") to any directors of the Company ("Directors"), employees and officers of any member of the Group and any advisers, consultants, distributors, contractors, contract manufacturers, agents, customers, business partners, joint venture business partners and service providers of any member of the Group who the Board considers that they will contribute or have contributed to the Group (the "Eligible Participants") as described in the Share Option Scheme in order to serve as compliment and to reciprocate their contribution to the Group. The maximum number of Shares that can be issued according to the Share Option Scheme or any other share option schemes adopted by the Company (and to which the provisions of Chapter 17 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") are applicable) shall not exceed 10% of the aggregate number of the shares in issue as at the date of the Listing which was 112,560,000 Shares, representing 10% of the issued share capital of the Company as at the date of this Interim Report. The total number of Shares which may be issued upon exercise of all the options granted and yet to be exercised under the Share Option Scheme or any other share option schemes adopted by the Company (and to which the provisions of Chapter 17 of the Listing Rules are applicable) must not exceed 30% of the aggregate number of the Shares in issue from time to time. Unless otherwise approved by the shareholders of the Company, the number of Shares that may be granted to a Eligible Participant (including both exercised, cancelled and outstanding options) under the Share Option Scheme or any other share option scheme adopted by the Company (and to which the provisions of Chapter 17 of the Listing Rules are applicable) in any 12 month period must not exceed 1% of the Shares in issue. There is no minimum period that the options must be held before they become exercisable, and the options granted shall be exercised within the period decided by the Board, however no options shall be exercised 10 years after they have been granted. The exercise price of the option shall be the higher of (a) the closing price of the Shares on the daily quotation sheet of the Stock Exchange on the date of grant; (b) the average closing price of the Shares on the daily quotation sheet of the Stock Exchange for the five business days immediately preceding the date of grant; and (c) nominal value of the Share on the date of grant. Each grantee shall pay a consideration of HK\$1.00 at the time the option is granted. The Share Option Scheme shall take effect from the date it is granted and shall remain effective within a period of 10 years from that relevant date of grant.

Movements of the share options granted under the Share Option Scheme

On 30 March 2012, 15,000,000 share options were granted to certain employees of the Group with an exercisable period from 31 March 2012 to 30 March 2017 at an exercise price of HK\$2.68 per Share. There are three vesting periods for these share options. The estimated fair value of these share options was approximately RMB8,003,000, based on the Black-Scholes valuation model. The variables and assumptions used in computing the fair value of the share options are based on the Company's best estimate. The value of an option varies with different variables of certain subjective assumptions. Any change in variables so adopted may materially affect the estimation of the fair value of an option. The significant inputs into the model are as follows:

Date of grant:	30 March 2012
Exercise price:	HK\$2.68 per Share
Expected life:	2.57 years–3.79 years
Risk-free rate:	0.28%–0.39%
Expected volatility:	41.03%–45.43%
Expected dividend yield:	2.24%

None of the options granted as stated above were granted to a director, chief executive or substantial shareholder of the Company nor an associate (as defined in the Listing Rules) of any of them. Save as disclosed above, no other options have been granted during the six months ended 30 June 2013.
