Chairman's statement

Our business in 2013

Since our establishment in 1991, the Group has been dedicated to our strategy of brand internationalization and product professionalization to make ourselves stand out from the sportswear peers. After over 20 years of diligent focus, Peak has created a clear vision of building its own global brand and accomplished a number of key fundamental frameworks around the world including internationalization of the corporate name, trademark registration, management standards, brand image and capital funding. In recent years, Peak has been actively preparing for the next stage of brand upgrade and internationalization of markets. During 2013, Peak has maintained alliances with the world's renowned athletes and sporting organizations, continuing our efforts to execute our professionalism-focused marketing strategy from our specialization in basketball sector to other sectors such as tennis and running.

At the end of 2013, we had spokesperson agreements with 12 NBA players including the NBA All-Star player Tony Parker and sponsored three NBA teams — Houston Rockets, Miami Heat and San Antonio Spurs. We also entered into sponsorship arrangements with national basketball associations of 10 countries including Germany, Australia and Serbia, etc. In tennis, we had 26 WTA spokespersons at the end of 2013. We believe these sponsorships have further enhanced our influence in the tennis sector. In addition, we have sponsored Olympic delegations of 4 countries including New Zealand, Slovenia, Lebanon and Jordan in 2013 as part of a new round of Olympic marketing campaign. Peak aims to further leverage its brand awareness in the international market and to strengthen customer loyalty through the campaign.

Dear respectful shareholders,

On behalf of the Board of Directors, I have pleasure to report our audited annual results for the year ended 31 December 2013.

2013 remained a challenging year for the China's consumer industry which includes the sportswear companies, because of the weak momentum of the domestic and international economies during the year. Encouragingly, the excess channel inventory which troubled the sportswear industry for quite some time has been gradually resolved. In addition, we have spotted signs of recovery in the second half of 2013, such as a bettering retail discount rate, shrinkage of channel inventory and reduced closures of retail outlets. Therefore, we believe that demand for sportswear will rebound after this cycle and we expect the sales will resume growth in near future.

The turnover of the Group in 2013 totaled RMB2,612.9 million, a drop of 10.0% when compared to RMB2,902.9 million in 2012. Profit attributable to equity shareholders was RMB244.3 million, with basic earnings per share at RMB11.64 cents. The Board recommended a final dividend of HK6 cents per share and a special final dividend of HK2 cents per share. Together with the interim dividend and special interim dividend of HK2 cents per share and HK6 cents per share respectively, our dividend payout ratio for the year was approximately 108.8%.

Besides strengthening efforts in recruiting distributors in new markets domestically, the Group has also been actively expanding overseas markets for its products. The Group's overseas sales totaled RMB532.6 million in 2013, representing 20.4% of total turnover. Peak has sold its products to over 80 countries and regions of the globe and become the leading Chinese sportswear brand with the highest overseas sales proportion.

Regarding the distribution network, the Group has continued to penetrate domestic market by actively adjusting and increasing the number of distributors according to the "flattening structure" strategy in 2013. Through screening by efficiency and size, we upgraded some of qualified retailers into distributors, increasing the Group's number of distributors to 66 at the end of 2013 from 59 at the end of 2012. Meanwhile, we also encouraged existing distributors to open more authorized Peak retail outlets. Both measures enable our distributors and retailers to respond more quickly to market changes. In terms of channel management, the Group also adopted a number of measures to proactively manage inventory level and order visibility, including continuous consolidation of small and less-efficient retail outlets, change of ordering system and increase of replenishment proportion, in order to further improve the Group's operation. As a result of our more focused channel adjustment strategy, the number of the Group's retail outlets in China decreased from 6,483 at the end of 2012 to 6,012 at the end of 2013, representing a net decrease of 471. The number of retail outlets directly operated by our distributors in our distribution network also increased to 36% of the total outlets.

Looking Ahead

In 2013, we experienced another low year in the sportswear industry as market demand growth rate fell and many sportswear companies generally offered substantial discounts to clear the excess inventory. I expect the consolidation of the sportswear industry is near the end, since a considerable number of small sportswear companies have already exited the market. We believe the remaining players in the industry will take a cautious stance when expanding business in order to avoid another round of excess inventory. It is believed that the economy of China will benefit from The New Type of Urbanization Plan proposed at the Third Plenary Session of the 18th Central Committee of the Communist Party of China, and we are expecting another round of demand growth for sportswear industry in China as the economy growth model shifts to one which is primarily driven by consumption. I am still optimistic about the future development of China's sportswear industry which is likely to rebound gradually after the recent cycle of active de-stocking and order adjustments.

Strategy

In 2014, the Group shall seize all opportunities to further promote both the international and professional attributes of the Peak brand. We believe important sports events offer the best arena for international brands to demonstrate their presence and we face a series of influential sports events in 2014, such as the Australian Open Tennis Tournament, the Sochi Winter Olympics and the FIBA Basketball World Cup in Spain, all of which are the focuses of the Group's marketing plans. We are the promotion partner of four national teams including New Zealand, Slovenia, Lebanon and Jordan in the Sochi Winter Olympics and the official sponsor for the coming FIBA Basketball World Cup.

The national basketball teams of 10 countries including Australia, Serbia and Germany under Peak's sponsorship will participate in the FIBA Basketball World Cup. We believe all these sponsorships can yield excellent promotion results for Peak's brand and products through the performance and media exposure of the delegations, national teams and elite athletes sponsored by Peak.

In our distribution network, we continue to focus on the second-tier and third-tier cities, while optimizing and adjusting our distribution resources. In addition to working closely with distributors, the Group will upgrade its information management system to improve its market monitoring capacity, enabling fast and accurate responses to retail market changes in our research and development, manufacturing, marketing and other processes.

In terms of product research and development, the Group will continue to invest in technology innovation and strengthen cooperation among its existing research and development workshops. We believe that quality products and a good brand name help us build a solid customer base and attract new customers. In addition to the existing patents, the Group has applied six new patents for shoes and apparel products in 2013 to address the actual needs of the consumers and to further enhance Peak's competitiveness in sports science and technology. The patents mentioned above

lay a solid foundation for product upgrades regarding technology innovation in the next three to five years as some of these patents are expected to be put into use in near term. At the same time, we will strategically introduce several outstanding external research and development partners to inject fresh ideas into our products and further improve the Group's research and development overall capability.

Meanwhile, the Group will integrate existing resources and utilize electronic commerce platforms to expand overseas markets.

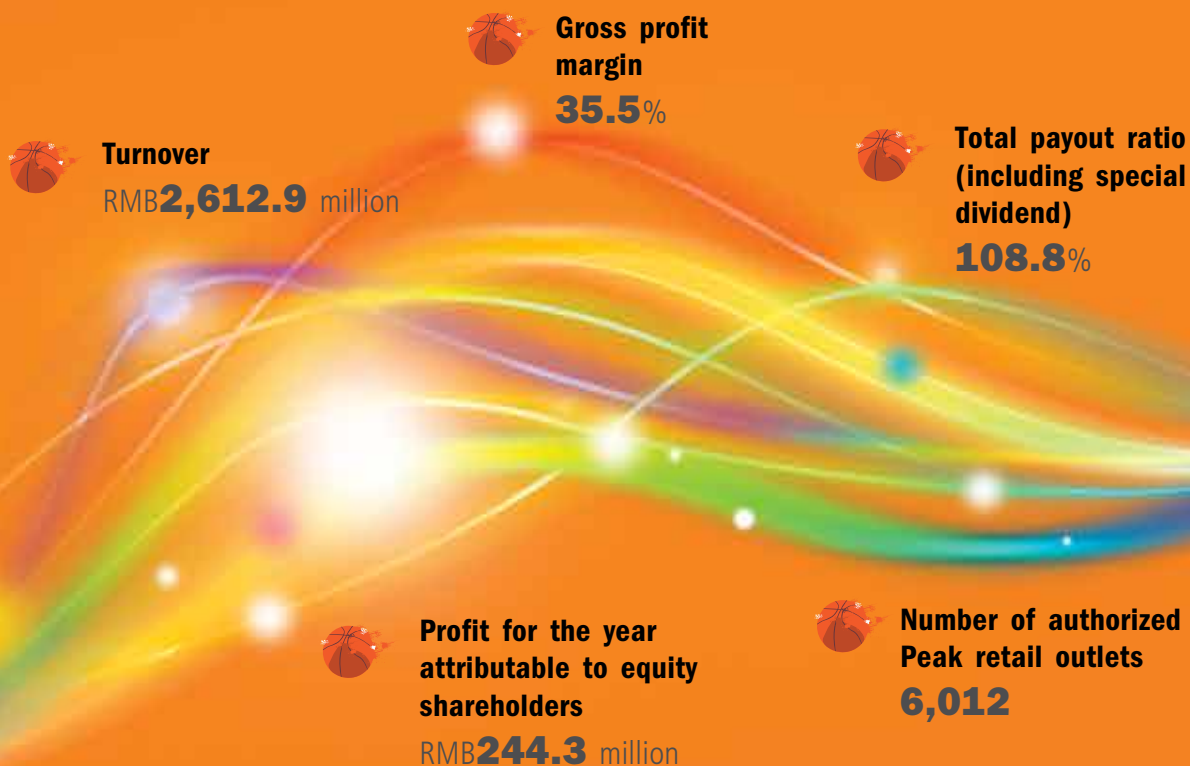

Lastly, and on behalf of the Board, I wish to express my sincere appreciation for the devotion and contribution of our employees across all our business segments and divisions. I also wish to express my gratitude to the long-term support and trust from our shareholders and business partners. As management, we will endeavor to achieve greater results and to create value for our shareholders, our employees and society.

Market overview

Global economic conditions

The economy in China still lacked momentum in 2013. Though domestic consumption remained weak during the year as a result of slack demand in the export sector, a wide array of reforms introduced at the Third Plenary Session of the 18th Central Committee of the Communist Party of China, combined with the cyclical recovery, is expected to contribute positively to China's economic growth in the future. On the other hand, the US economy has been recovering steadily in 2013 as evidenced by a record high household net worth in the third quarter, the lowest unemployment rate for the past five years and mild inflation. However, the winding down by the US Federal Reserve of the current exceptionally accommodating loose monetary policy has cast a shadow over the market during the second half of the year. The economy in Europe, however, was still vulnerable during the year with expectations of negative growth for quite a number of European countries in 2013. Despite the fact that certain countries were still plagued by a debt crisis, a modest recovery spearheaded by UK and Germany has been observed backed by strengthening household consumption and domestic demand. For emerging markets, 2013 was a tough year as many countries experienced slower growth, stagnant capital flows or social unrest. Overall, the world economy sent out mixed signals in 2013.

Sportswear industry in China

The sportswear industry in China has been lingering at the trough of the business cycle in the first half of 2013. Rationalization of the industry is near the end as a considerable number of small sportswear companies have exited the industry and operating costs of distribution channels, notably rentals in many locations, have returned to a reasonable level. Initial signs of recovery, such as improving retail discounts, leaner channel inventories and fewer store closures, have been observed in the second half of the year after aggressive industry consolidation since 2011. Sales growth from restocking is expected in the near future as distributors and retailers replenish new products after they have cleared most of their excessive inventories. As different sportswear companies have different quantities of excessive inventories, the recovery time for each company may vary. Nonetheless, it is generally believed that the sportswear industry in China has bottomed out with a healthier competitive environment going forward.

Prospects

The New Type of Urbanization Plan was proposed at the Third Plenary Session of the 18th Central Committee of the Communist Party of China in November 2013. Urbanization of the rural population, reform of Hukou (the household registration system) and change of urban development pattern will rebalance the economy to a more domestic consumption-driven growth model and the sportswear industry is well-positioned for another wave of demand growth in the coming years. In addition, improvements in the US and European economies will stimulate demand for exports from China, indirectly boosting domestic consumption and hence demand for sports products in China. Further, with the increase in the concentration of the sportswear industry resulting from the current rationalization, most of the remaining sportswear companies will benefit as they face less competition and gain market share from small competitors exiting the market. We expect that existing players will adopt a more prudent approach in their future expansion to avoid repeating inventory problems. In the light of better prospects for the economy and the industry, we are confident about the revival of the sportswear industry in 2014.

Turnover

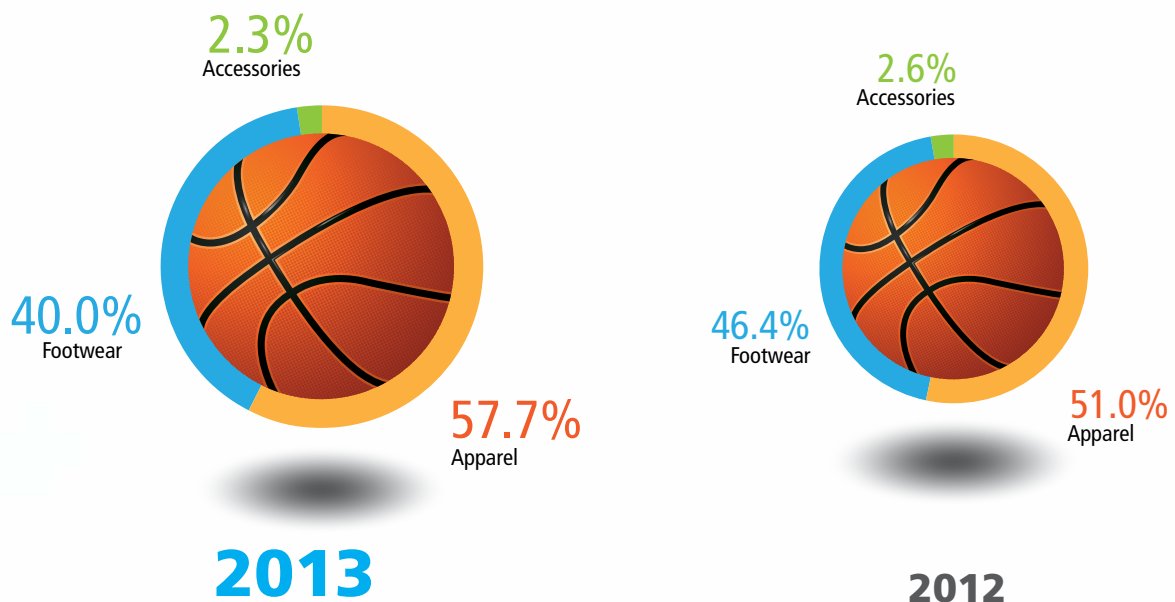

The Group's turnover for 2013 amounted to RMB2,612.9 million (2012: RMB2,902.9 million), representing a decline of 10.0% when compared to that for 2012. The decrease was mainly attributable to sustained industry-wide destocking prevailing in the first half of 2013 and the sluggish economy which adversely affected the demand for new products during the year.

Analysis of turnover by product category:

	Year ended 31 December				
	2013 RMB (million)	% of turnover	2012 RMB (million)	% of turnover	Change (%)
Footwear	1,044.3	40.0	1,348.0	46.4	(22.5)
Apparel	1,508.5	57.7	1,481.0	51.0	1.9
Accessories	60.1	2.3	73.9	2.6	(18.7)
Total	2,612.9	100.0	2,902.9	100.0	(10.0)

The ratio of turnover contributed by footwear products decreased to 40.0% in 2013 from 46.4% in 2012 while the corresponding ratio for apparel products increased to 57.7% in 2013 from 51.0% in 2012. As the Group had more inventory of apparel products than that of footwear products in 2013, it offered distributors special discounts on more apparel products than footwear products to promote the sale of apparel products. As a result, the turnover of apparel products was boosted to a level higher than that of footwear products and the ratio of turnover contributed by apparel products was increased.

The China market contributed 79.6% of the total turnover while the overseas markets contributed 20.4% of the total turnover in 2013. The turnover derived from the China market declined by 17.3% while the turnover derived from the overseas markets increased by 37.2% when compared to those in 2012. The decrease in turnover derived from the China market was primarily attributable to the sustained industry-wide destocking and sluggish economy prevailing in 2013. The increase in turnover derived from the overseas markets in 2013 was a net effect caused mainly by: (i) strong growth in sales in a number of countries in South Asia such as India and Pakistan, and in the Middle East such as United Arab Emirates, Saudi Arabia and Jordan due to successful marketing campaigns in those countries; (ii) strong growth in sales in European countries such as France, United Kingdom and Germany as a result of improving economic conditions and successful marketing campaigns in those countries; (iii) increased demand from North America due to improvement in economic conditions; and (iv) decreased sales due to political disturbances and deteriorating economic conditions in a number of countries in Africa.

Gross profit

Analysis of contribution to gross profit by product category:

	2013		2012		Change in gross profit margin (% points)
	Gross profit RMB (million)	Gross profit margin (%)	Gross profit RMB (million)	Gross profit margin (%)	
Footwear	367.8	35.2	484.8	36.0	(0.8)
Apparel	536.3	35.6	549.8	37.1	(1.5)
Accessories	22.5	37.4	23.6	31.9	5.5
Total	926.6	35.5	1,058.2	36.5	(1.0)

The gross profit margins for footwear and apparel products in 2013 decreased by 0.8 percentage point and 1.5 percentage points respectively when compared to those in 2012. Such decreases were mainly due to: (i) an increase in the amount of special discounts offered by the Group to distributors during the year so as to clear excessive inventories; and (ii) an increase

in the amount of regular discounts offered by the Group to distributors so as to promote the sales of new products during the year. As the Group offered special discounts on more apparel products than footwear products during the year, the gross profit margin of apparel products decreased more than that of footwear products.

Selling price and volume

Analysis of average unit selling price and sales volume by product category:

	Year ended 31 December					
	2013		2012		Change	
	Quantity sold (million)	Average unit selling price (RMB)	Quantity sold (million)	Average unit selling price (RMB)	Quantity sold (%)	Average unit selling price (%)
Footwear (pairs)	11.6	90.0	15.1	89.3	(23.2)	0.8
Apparel (pieces)	24.7	61.1	24.7	60.0	—	1.8

Notes:

1. We have not included the respective information on our accessory products because we have a broad range of accessory products that vary significantly in terms of unit price. We believe that a unit-based analysis of this product category would not be meaningful.
2. Average unit selling price of each product category represents the turnover of that product category for the year divided by its quantity sold for the year.

The average unit selling prices of footwear products and apparel products increased slightly in 2013 mainly due to the net effect of: (i) an upward adjustment of the selling prices of the products in response to an increase in the production cost, notably the direct labour cost, during the year; and (ii) the offering of special discounts to distributors to clear excessive inventories during the year. The decrease in the quantity sold for footwear products was mainly attributable to industry-wide destocking and the sluggish economy which adversely affected the demand for new footwear products during the year. The

quantity sold for apparel products in 2013 remained steady when compared to that in 2012 despite the decline in the quantity sold for footwear products in 2013. This is mainly because the Group offered more special discounts on apparel products than footwear products to clear excessive inventories, which alleviated the impact of weak demand on apparel products during 2013.

Average turnover per retail outlet and per unit retail floor area

Analysis of turnover (at wholesale level) by number of retail outlets and floor area in China:

	As at 31 December			Year ended 31 December			Average turnover per unit retail floor area (RMB'000) (Note 2)
	No. of retail outlets	Total retail floor area (sq. m.)	Average floor area per retail outlet (sq. m.)	Average no. of retail outlets (Note 1)	Average total retail floor area (sq. m.) (Note 2)	Average turnover per retail outlet (RMB'000) (Note 1)	
2013	6,012	541,607	90.1	6,248	551,736	333	3.8
2012	6,483	561,865	86.7	7,145	589,663	352	4.3
Change (%)	(7.3)	(3.6)	3.9	(12.6)	(6.4)	(5.4)	(11.6)

Notes:

1. Average turnover per retail outlet is equal to the total turnover (China market) divided by the average number of retail outlets, which is equal to the average of the opening and closing numbers of the retail outlets for the year.
2. Average turnover per unit retail floor area is equal to the total turnover (China market) divided by the average total retail floor area, which is equal to the average of the opening and closing total retail floor areas for the year.

The average floor area per authorized Peak retail outlet in China increased to 90.1 square metres as at 31 December 2013 from 86.7 square metres as at 31 December 2012, which was in line with the Group's strategy to increase gradually the size of our new outlets to accommodate our increasing product offerings and to match our enhanced brand image. The average turnover per authorized Peak retail outlet in China and the average turnover per unit retail floor area in China in 2013 decreased by 5.4% and 11.6% respectively when compared to those in 2012.

Cost of sales

Analysis of cost of sales by production method:

	Year ended 31 December				
	2013 RMB (million)	% of total	2012 RMB (million)	% of total	Change (%)
Self-production					
Raw materials	543.9	64.6	602.3	65.1	(9.7)
Direct labour	181.3	21.5	189.7	20.5	(4.4)
Overhead	117.4	13.9	132.9	14.4	(11.7)
Total	842.6	100.0	924.9	100.0	(8.9)
Cost of sales					
Self-production	842.6	50.0	924.9	50.2	(8.9)
OEM	446.6	26.5	506.0	27.4	(11.7)
Subcontracting arrangements	397.1	23.5	413.8	22.4	(4.0)
Total	1,686.3	100.0	1,844.7	100.0	(8.6)

An increase in the per unit direct labour cost due to labour shortage during 2013 caused an increase in the ratio of direct labour cost to total cost of self-production and a decrease in the ratio of raw materials to total cost of self-production when compared to those in 2012.

Other revenue and other net income

Other revenue for 2013 increased to RMB54.3 million (2012: RMB33.2 million) mainly because interest income derived from bank deposits increased as a result of placement of more excess working capital in time deposits by the Group during the year. The increase in the amount of government grants also contributed to the increase in other revenue. Other net income decreased to RMB7.6 million (2012: RMB11.8 million) mainly due to a reduction in the profit derived from the sale of materials during the year.

Selling and distribution expenses

Total selling and distribution expenses for 2013 amounted to RMB333.7 million (2012: RMB460.8 million), representing a decrease of 27.6% when compared to those for 2012. The decrease was mainly attributable to decreased advertising and promotion activities, decreased subsidies and performance bonuses to distributors, the reductions of which were in line with the decrease in the Group's turnover during the year.

Administrative expenses

Total administrative expenses for 2013 amounted to RMB251.5 million (2012: RMB228.5 million), representing an increase of 10.1% when compared to those for 2012. The increase was a net effect caused mainly by the following items when compared to those for 2012: (i) increased research and development expenses; (ii) increased depreciation charges for using new office buildings and staff quarters; (iii) decreased write down of inventories; and (iv) provision for doubtful debts for distributors during the year.

Finance expenses

The increase in finance expenses was caused by an increase in short-term and long-term bank loans during 2013. These bank loans were primarily used for settlement of advertising and promotion expenses denominated in foreign currencies and payment of dividends.

Income tax

Income tax expenses increased by 53.7% to RMB145.9 million in 2013 from RMB94.9 million in 2012 mainly due to an increase in the effective tax rate in 2013. The effective tax rate for 2013 increased to 37.4% from 23.4% for 2012 mainly because: (i) two subsidiaries of the Group enjoyed a tax concession in 2012 while they no longer enjoy the tax concession starting from 2013; and (ii) the payment of special interim and final dividends increased the provision for the relevant withholding tax during the year.

Net profit and net profit margin

Net profit decreased by 21.3% to RMB244.3 million for 2013 from RMB310.6 million for 2012. Such decrease in net profit in 2013 was primarily a net result of: (i) a decrease in gross profit; (ii) an increase in other revenue; (iii) a decrease in selling and distribution expenses; (iv) an increase in administrative expenses; and (v) an increase in income tax.

Net profit margin decreased to 9.3% in 2013 from 10.7% in 2012. Such decrease in net profit margin in 2013 was primarily a net effect due to: (i) a decrease in gross profit margin; (ii) an increase in the ratio of other revenue to turnover; (iii) a decrease in the ratio of selling and distribution expenses to turnover mainly caused by the decreased advertising expenses and subsidies to distributors; (iv) an increase in the ratio of administrative expenses to turnover mainly caused by increased research and development expenses, and the provision for doubtful debts for distributors; and (v) an increase in the ratio of income tax to turnover because of the increase in the effective tax rate.

Working capital ratios

The average inventory turnover days for the year ended 31 December 2013 increased slightly to 81 days from 80 days for the year ended 31 December 2012.

As our distributors have been experiencing a rationalization of sportswear industry and sluggish demand during 2013, the Group allowed some of them to have more time to settle their debts. As a result, the average trade receivables and bills receivable turnover days increased to 135 days for the year ended 31 December 2013 from 127 days for the year ended 31 December 2012.

The average trade payables and bills payable turnover days for the year ended 31 December 2013 decreased slightly to 45 days from 48 days for the year ended 31 December 2012.

Liquidity and capital resources

The net cash inflow from operating activities of the Group for the year ended 31 December 2013 amounted to RMB506.8 million (2012: RMB180.5 million). The increase in the net cash inflow from operating activities was mainly due to decreases in the balances of inventories, trade receivables and bills receivable as at 31 December 2013 when compared to those as at 31 December 2012. As at 31 December 2013, our Group's cash and bank deposits (including cash at bank and on hand, fixed deposits held at bank and pledged deposits at bank) amounted to RMB3,280.7 million, representing a net increase of RMB518.0 million when compared to the position as at 31 December 2012.

The increase in the Group's cash and bank deposits is analyzed below:

	Year ended 31 December 2013 RMB'000
Net cash inflow from operating activities	506,780
Net capital expenditure	(74,694)
Dividends paid	(217,475)
Net proceeds from bank loans	270,009
Other net cash inflow	33,395
Net increase in cash and bank deposits	518,015

The Group borrowed bank loans during the year ended 31 December 2013. All these bank loans were repayable within two years and primarily used for settlement of advertising and promotion expenses denominated in foreign currencies and payment of dividends of the Company.

The Group has been adopting a prudent treasury management policy and has strong liquidity position with sufficient standby banking facilities to cope with funding needs arising from daily operations and future developments.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted net debt-to-capital ratio. For this purpose, the Group defines net debt as interest-bearing loans less cash and capital as the total equity. As at 31 December 2013, the Group had cash in excess of interest-bearing loans. It is the management's intention to restrict the ratio below 50% in the long run. To achieve this end, the Group may adjust the amount of dividends to be paid to shareholders, issue new shares or control the growth of new debts.

Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

Foreign exchange risk

The Group's operating activities were principally carried out in China with most of our transactions denominated and settled in Renminbi, and therefore the overall foreign currency risk was not considered to be significant. The Group's foreign exchange exposure mainly arose from our revenue derived from our export sales that were denominated predominantly in United States dollars and bank loans which were denominated in Hong Kong dollars or United States dollars. If Renminbi appreciates against a foreign currency, the value of the foreign currency denominated assets (e.g. trade receivables) will decline accordingly. The Group has not used any forward contracts, currency borrowings or other means to hedge our foreign exchange exposure. Nevertheless, the management will continue to monitor the foreign exchange exposure and adopt prudent measures as appropriate.

Pledge of assets

The following assets were pledged to banks as security for bills payable and certain banking facilities:

	Carrying amount as at 31 December	
	2013 RMB'000	2012 RMB'000
Buildings	103,631	110,051
Bank deposits	347,507	300,766
Lease prepayments	10,078	10,307

Distribution network

The network of authorized Peak retail outlets, which components are owned and operated either by our distributors or by retail outlet operators, has been providing an effective retail channel for our products throughout China. To prepare for our future growth and further enhance our brand image, the Group continued to optimize our distribution network by closing down small and less efficient retail outlets while opening larger retail outlets in 2013. As at 31 December 2013, the total number of authorized Peak retail outlets was 6,012, representing a net decrease of 471 outlets when compared to that at the end of 2012.

Analysis of authorized Peak retail outlets in China by geographical region:

	Number of retail outlets as at 31 December		
	2013	2012	change (%)
Southern region	2,122	2,249	(5.6)
Eastern region	2,062	2,330	(11.5)
Northern region	1,828	1,904	(4.0)
Total	6,012	6,483	(7.3)

Note: Please refer to page 16 for details of classification of geographical regions.

Analysis of authorized Peak retail outlets in China by type of city:

	Number of retail outlets as at 31 December		
	2013	2012	Change (%)
First-tier city	227	342	(33.6)
Second-tier city	760	1,126	(32.5)
Third-tier city	5,025	5,015	0.2
Total	6,012	6,483	(7.3)

The second-tier and third-tier cities in China have been the Group's focused markets in recent years because of their faster economic growth and less intense competition when compared to the first-tier cities. Accordingly, most of authorized Peak retail outlets are located in the second-tier and third-tier cities.

Analysis of authorized Peak retail outlets in China by store category:

	Number of retail outlets as at 31 December		
	2013	2012	Change (%)
Flagship Store	20	21	(4.8)
Basic Store	3,626	3,938	(7.9)
Department Store or Shopping Mall Outlet	2,303	2,455	(6.2)
Basketball Specialty Outlet	63	69	(8.7)
Total	6,012	6,483	(7.3)

The authorized Peak retail outlets are classified into the above 4 categories. Flagship stores are street-level stores situated in prime locations in major cities and each flagship store has a floor area of at least 200 square metres. Basic stores are also street-level stores but do not satisfy the above criteria for flagship stores. Basketball specialty outlets are either street-level stores or shopping mall outlets and offer mainly premium basketball sports products to basketball enthusiasts.

Management of distributors and retail outlets

Our strict policies in managing our distributors and the operations of the authorized Peak retail outlets are crucial to the success of our business.

China market

We organize and host four sales fairs a year to introduce our new product collections for each season. Our domestic distributors and retail outlet operators attend the sales fairs and place orders which are generally six months in advance of the delivery of the ordered products.

We select our distributors according to a range of factors such as retail experience in sports products, ability to expand and operate a network of retail outlets, and adequacy of financial resources. We enter into an agreement with each distributor, whereby we grant the distributor an exclusive right to distribute our products in a specified area for a specified period of time, which is generally one year. Our distribution agreement contains principal terms such as geographical exclusivity, sales and expansion targets and credit terms. Subject to our written approval, our distributors may appoint retail outlet operators. We do not enter into agreements with such retail outlet operators except for licensing our trademarks to them. Our distributors are responsible for supervising and managing the operations of the authorized Peak retail outlets according to our policies and guidelines regarding the store layout, sales and expansion targets, pricing, customer and after-sale services, etc.

We invite representatives of our distributors and retail outlet operators to attend training sessions to familiarize themselves with Peak's policies and procedures. The training sessions take the form of in-house training as well as external training conducted by experienced retail management consultants.

On-site inspections of authorized Peak retail outlets are regularly carried out by our marketing teams to identify and inform distributors of any non-performing or non-compliant retail outlets. We coordinate with distributors to monitor the performance of these retail outlets and any recurring non-performance or non-compliance may cause a distributor to lose its distributorship.

The performance of each distributor is reviewed annually prior to the renewal of its distribution agreement. Key elements that form part of such review include whether the distributor has achieved the sales and expansion targets and complied with the credit terms.

During the year, the Group continued to expand the coverage of our computerized management information system (“MIS”), which collected real-time operational data and feedback from authorized Peak retail outlets connected to the system. As at 31 December 2013, 2,617 retail outlets were connected to our MIS.

As an incentive for our distributors to expand the network of authorized Peak retail outlets and to maintain consistency of store image and layout, we provide certain renovation work to retail outlets and rental subsidies to retail outlet operators when they open retail stores with high rentals in prime locations.

We also offer performance bonuses (or rewards) to our distributors who meet or exceed annual sales targets.

Overseas markets

We sell our Peak branded products overseas on a wholesale basis to overseas customers who learn about our products from our website or at international exhibitions or trade fairs. These customers then sell our products to consumers, retailers, sports teams or clubs.

During 2013, we participated in the following international exhibitions and trade fairs:

- International Trade Fair for Sports Equipments and Fashion in Munich, Germany;
- East China Fair in Shanghai, China;
- MOSSHOES in Moscow, Russia;
- China Import and Export Fair in Guangzhou, China;
- China Commodities Fair in Kazakhstan;
- China Brands Exhibition in Budapest, Hungary;
- FRANCAL 2013 in San Paulo, Brazil;
- China-Asean (Thailand) Commodity Fair in Bangkok, Thailand;
- Brands of China African Showcase in Dar es Salaam, Tanzania; and
- 2013 China-Asean (Myanmar) Commodities Exhibition, Myanmar.

E-commerce

We believe e-commerce is an effective and efficient way to further promote our brand and products beyond geographical boundaries. In addition to Peak's official online store (www.epeaksport.com), our reach has extended to other well-known third party e-commerce platforms including amazon.cn, dangdang.com, JD.com, paipai.com, Tmall.com, vjia.com and yhd.com.

Brand promotion and marketing strategy

We believe that marketing and promotion of our brand are crucial to success in the sportswear industry. To create a simple and powerful brand message to our consumers, the Group has been employing a focused marketing strategy by focusing on the basketball sports category in marketing and promoting the Peak brand since our inception in 1991 although we offer products in almost every sports category. The Group promotes Peak as an international and professional brand through association with internationally renowned tournament organizers and provision of products with premium functionality and performance. Our promotion partners are therefore not restricted to domestic partners and include sports associations, leagues, federations, event organizers and individual athletes throughout the world. The Group also employs various means of promotion such as national and local television commercials, outdoor media, online advertising, newspapers and magazines.

Leveraging our success in focusing on the basketball sports category, the Group has rolled out our new marketing strategy focusing on two other sports categories (i.e. running and tennis) in addition to basketball in recent years. The Group believes that the new strategy will further enhance our brand image and positioning and ensure sustained growth in popularity of the Peak brand.

Basketball promotion partners

The utilization of basketball promotion partners such as federations, leagues, teams, event organizers and individual athletes is an integral part of the Group's brand promotion and marketing strategy to differentiate us from our peers. Such focused strategy also disseminates a clear profile to consumers. The Group has had an association with most of the top renowned basketball promotion partners around the world and this enables the Group to build up successfully the most international brand image in the basketball sector among our Chinese peers. By requiring our endorsed basketball athletes to wear our basketball footwear during all tournaments, we demonstrate that our products can withstand the severest tests of functionality and performance and this further enhances our professional brand image. Although the Group has started promoting the other sports categories in addition to basketball under the new marketing strategy, we will continue to dedicate the most significant portion of our resources to the basketball sports category so as to maintain our leading position in the basketball sector in coming years.

FIBA

The Group has had an association with FIBA since 2008 and has become the official and exclusive footwear partner of FIBA worldwide and the exclusive sportswear (apparel and headwear) partner of FIBA in Asia since August 2011. Under relevant sponsorship and licensing agreements, the Group is required, among other things, to supply footwear to all staff, referees and volunteers at all FIBA and FIBA Zones Championships, and has an exclusive right to use globally specified logos and mascots associated with certain FIBA sports competitions on some of our products.

Stanković Continental Champions' Cup

The Stanković Continental Champions' Cup ("Stanković Cup") is an international basketball tournament for men's national teams of a number of countries. It is also the most well-known international basketball game and one of the highest ranking international basketball tournaments in China. The Group has been sponsoring the Stanković Cup since 2005. Under the relevant sponsorship agreement, the Group is required, among other things, to supply sportswear to all officials and staff of the tournaments.

National Basketball Federations

The Group has association with a number of national basketball federations which are responsible for managing national teams of their own countries. Under the relevant sponsorship agreements, the Group is required, among other things, to supply relevant national teams with sports products in specified games and matches. During 2013, these national basketball federations were as follows:

- Basketball Australia;
- Basketball Federation of Montenegro;
- Basketball Federation of Serbia;
- Basketball New Zealand;
- Cameroon Basketball Federation;
- Cote d'Ivoire Basketball Federation;
- German Basketball Federation;
- Icelandic Basketball Federation;
- Iran Basketball Federation; and
- Lebanese Basketball Federation.

2013 ABA Championship

2013 ABA Championship was held in August 2013. Being a sponsor and official sports apparel supplier of the tournament, the Group, among other things, supplied sports apparel to all officials and staff of the tournament.

Peak Team China Tour

The "Peak Team China Tour" is one of the most important events among all our marketing activities. The tour is held once a year in China with an aim to promote the NBA spirit and increase the popularity of basketball games in China. The 2013 Peak Team China Tour kicked-off in Beijing on 2 July 2013. The Group invited several of our NBA spokespersons to participate in the tour. These spokespersons interacted with Chinese basketball fans in more than 10 cities, including Beijing, Guangzhou, Chengdu and Xiamen. Both the Peak brand and NBA players gained intense media exposure throughout the tour.

NBA Nation

NBA Nation is an interactive basketball event officially launched by NBA. The event, which involves basketball as well as elements of entertainment, provides an excellent platform to deliver the best of the NBA experience to basketball fans. This was the second year that the event was held in China and the event took place across more than 10 cities including Beijing, Shanghai and Guangzhou from June to August 2013. As the official marketing partner of the NBA Nation, the Group supplied all sports products for the event and the event provided a great opportunity to further promote both NBA and the Peak brand.

Other basketball sponsorships

The Group also sponsored the following basketball events in 2013:

- The Peak Cup for the 18th Quanzhou 100 Teams/1000 Matches Basketball Competition (泉州市第十八屆「中國匹克杯」百隊千場籃球賽) held from April to August;
- The 14th Xiamen-Peak Basketball Camp (廈門市第十四屆匹克籃球夏令營) held from July to August;
- The Peak Cup for the 5th Quanzhou University Student Basketball League (「匹克杯」泉州市第五屆大學生籃球聯賽) held from November to December; and
- The Peak Cup for the Sub-branches of Quanzhou Chamber of Commerce Basketball Competition (異地泉州商會「匹克杯」籃球賽) held in December.

Tennis promotion partners

With a view to attracting more female customers and boosting female sportswear sales, the Group has gradually been strengthening our promotion in the tennis sector. Leveraging the success in the basketball sector, the Group has adopted the same marketing strategy of building up an international and professional brand image for our tennis sports products. Accordingly, the Group utilizes promotion partners which can manifest the internationalism and professionalism of the Peak brand to promote our tennis sports products.

Women's Tennis Association ("WTA") Tour

The Group entered into a product sponsorship and promotion agreement in 2010 with WTA, which is the worldwide circuit of women's professional tennis. Pursuant to the agreement, the Group is the official footwear and apparel partner for the following tournaments, which make up the WTA Tour during 2013:

- ASB Classic (Auckland, New Zealand);
- Brisbane International (Brisbane, Australia);
- Apia International Sydney (Sydney, Australia);
- Moorilla Hobart International (Hobart, Australia);
- PTT Pattaya Women's Open (Pattaya, Thailand);
- Guangzhou International Women's Open (Guangzhou, China);
- BMW Malaysian Open (Kuala Lumpur, Malaysia); and
- Shenzhen Longgang Gemdale Open (Shenzhen, China).

The Group, among other things, obtains a licence to develop, manufacture, market and sell the WTA-PEAK co-branded products in the Asia Pacific region. In addition, the Group is the official partner of the WTA Tour Festival and has organized interactive games and tennis-related activities for tennis fans in Guangzhou and Beijing in September 2013.

Running promotion partners

In line with our new marketing strategy, the Group consistently strengthens the promotion of our running footwear. The promotion partners of our running footwear include CCTV, Guangdong Sports TV and a number of sports magazines. The Group has also launched an interactive online platform specifically for our running footwear. We attract online users to buy sports products at our retail outlets by offering online games and prizes to them. As a result, we promote our running footwear effectively.

Other promotion partners and events

National Olympic Committees

The Group entered into sponsorship agreements with a number of national Olympic committees. Under the agreements, the Group is committed to provide sports products in certain sports games to the national teams. As at 31 December 2013, the Group sponsored the following national Olympic committees:

- The National Olympic Committee of New Zealand;
- The National Olympic Committee of Slovenia;
- The National Olympic Committee of Lebanon; and
- The National Olympic Committee of Jordan.

2013 Tour of Qinghai Lake International Cycling Race (“QLCR”)

QLCR is a top-tier international highway cycling competition held at a racing track with the highest altitude above sea level. The competition is recognized by the International Cycling Association and is held from July to August every year in Qinghai Lake with participants of top cyclists from five continents of the world. The Group has become the collaborative partner and the sole supplier of sports products to the officials of the competition for eight consecutive years since 2006.

The United States International University Sports Federation (“USIUSF”)

The Group sponsored USIUSF in the 27th Summer Universiade which was held in Kazan, Russia in July 2013. Under the relevant sponsorship agreement with USIUSF, the Group was responsible for supplying USIUSF sports apparel in the competition.

Production capacity

Our products are manufactured either by the Group’s own production facilities or through outsourcing arrangements with contract manufacturers. We believe that maintaining our own production capabilities has several advantages including better control over the production process, greater flexibility and ability to respond promptly to market changes, and better bargaining power over contract manufacturers.

Footwear production facilities

The Group currently has three footwear production facilities at Fengze in Fujian Province, Hui’an in Fujian Province and Shang’gao in Jiangxi Province. We also outsource a portion of our footwear production to contract manufacturers. The total footwear production volume for 2013 was approximately 13.1 million pairs, of which approximately 71.8% were produced in-house and approximately 28.2% were produced through outsourcing to contract manufacturers.

Apparel production facilities

The Group currently has three apparel production facilities at Fengze in Fujian Province, Hui'an in Fujian Province and Shang'gao in Jiangxi Province. We also outsource a major portion of our apparel production to contract manufacturers. The total apparel production volume for 2013 was approximately 23.2 million pieces, of which approximately 39.2% were produced in-house and approximately 60.8% were produced through outsourcing to contract manufacturers.

Expected production capacity upon full production (pairs/pieces)	N/A	N/A	12.0 million	N/A	16.4 million	0.8 million	

Note: Estimated annual production capacity is an estimate we make each year taking into account a number of factors and assumptions, including, among others, number of production lines, amount of equipment and personnel, rate of production per worker per hour, number of hours and days our workers work per month, and seasonal impact on production. As these factors and assumptions may vary over time, there can be no assurance that total amounts we would have been able to produce in any year would have been higher or lower than the actual amount we produce for that year.

Research & development ("R&D")

Being a professional sportswear manufacturer, we endeavour to introduce high quality products with innovative designs and functionality to our customers. To this end, the Group continues to invest in R&D of new products. As at 31 December 2013, the Group operated four R&D workshops located in Beijing, Guangzhou, Quanzhou and Los Angeles. These workshops altogether employed 225 research and design professionals. Through the interactions of the design teams in different workshops, we are capable of rolling out more innovative and stylish products to satisfy the needs of different consumer segments all over the world. During the year, the Group introduced 623 new footwear products, 1,439 new apparel products and 349 new accessory products to consumers.

In addition to product functionality and style, the R&D workshops take account of environmental protection issues when selecting raw materials and designing new products. The Group will continue to introduce more environmentally friendly or recycled materials and to adopt energy-saving processes to manufacture its products.

Supply chain management

A significant portion of the Group's footwear and apparel was outsourced to contract manufacturers. We have two types of outsource arrangements with our contract manufacturers: (i) subcontract arrangements; and (ii) arrangements with original equipment manufacturers ("OEM"). Under the subcontract arrangements, we provide subcontractors with raw materials and pay them processing fees for completing certain production processes for us. Under the OEM arrangements, we provide OEMs with the designs and specifications of our products and recommend suppliers to them to procure raw materials for their production. OEMs are responsible for all the production processes and produce finished goods for us. The OEM arrangements allow us to devote less of our management time to monitoring the whole production processes so as to divert our resources to other areas such as monitoring Peak's distribution network and enhancing our brand image while the subcontract arrangements enable us to obtain more control over the production processes.

The Group carefully selects and evaluates our contract manufacturers. Each of our contract manufacturers is subject to an annual evaluation and assessment of product quality and timeliness of product delivery. We monitor the operation and performance of our contract manufacturers by checking each batch of products delivered to us so as to report in a timely manner to relevant contract manufacturers any failure to meet our product quality requirements or incidents of late delivery.

In addition to the above procedures, the Group also adopts the following measures to ensure an efficient and effective supply of raw materials and finished goods:

- We source our raw materials from suppliers located in nearby regions such as Fujian Province, Guangdong Province and Jiangxi Province. The proximity of these suppliers to our production facilities helps reduce our procurement costs.
- We do not enter into any long-term agreements with any of our suppliers. This gives us flexibility to switch to other suppliers for lower raw material costs with better quality and delivery schedules that best suit our production needs.
- We organize four sales fairs each year to allow our distributors and retail outlet operators to review our new product collections and place pre-season orders generally six months in advance of the delivery of the ordered products. With this practice, production can be better planned in advance to ensure smooth supply of products to the market.

Human resources

We consider our people to be the most valuable asset to the Group and will continue to allocate sufficient resources to recruiting, training and rewarding our staff. As at 31 December 2013, the Group's total headcount was 8,174.

We care for the career development of our staff and provide various kinds of training courses to enhance their technical and product knowledge as well as knowledge of industry quality standards and workplace safety standards. We launched pre-job training programmes for new staff and other training programmes related to management skills, professional roles, etc.

We provide systematic training to our front-line sales staff, distributors and retail outlet operators regarding Peak's product knowledge and selling and promotion skills. During the year, we held 11 training camps for store managers and other training courses on topics such as regional training policy set-up, standard display set-up, project marketing and knowledge of current offerings to support our front-line operations.

We determine the remuneration of our employees based on factors such as qualifications, performance and years of experience. We generally distribute bonuses to our employees at each year end to reward their contribution to the Group. As an additional incentive to our employees, the Company grants share options to those employees that have demonstrated exceptional performance.

Prospects

In the past two years, our proactive strategies including distribution channel optimization and a flexible ordering system have helped us weather the industry downturn. As large-scale store closures and inventory clearance have come to an end, we are optimistic about the future prospects of the sportswear industry. To ensure sustained growth of our business, the Group will use its best endeavors to accomplish the following tasks in the coming years.

Further enhancing professionalism of the Peak brand

The Group strives to enhance the professionalism of its products under the Peak brand as we acknowledge consumers' perceptions of brand positioning to be crucial to our development and success in future. As one of the top player sponsors in NBA, the Group currently endorses a total of 12 players from 11 teams, including all-star player Tony Parker. As well as wearing Peak's products in games, our sponsored elite athletes have successfully demonstrated the professionalism of our brand to millions of basketball fans globally. Going forward, we will continue to allocate a significant portion of our resources to new endorsements and maintenance of existing ones. While we still focus on the basketball sports category to maintain our leading position in the basketball sector in China, we will also increase the marketing and promotion activities for other sports categories such as running and tennis. Looking ahead, the Group will continue to utilize renowned tournament organizers such as FIBA, WTA and other promotion partners including teams, events and individual athletes to extend our brand reach throughout the world.

Continuously improving product functionality and variety

The Group aims to deliver high quality products with innovative designs and functionality to our customers. Currently, we have more than 200 professionals dedicated to product design, materials development, manufacturing process improvement and product quality and compliance management at our four R&D workshops in Beijing, Guangzhou, Quanzhou and Los Angeles. Going forward, we will continuously increase our input in technical innovation to improve our products on comfort, durability, and performance. In addition to our in-house R&D team, our endorsed athletes also play an important role in product design and development as they field-test and evaluate the prototypes before they are turned into commercial products. By strengthening collaboration with sponsored elite athletes and enhancing communication with customers, the Group seeks to further advance the functionality and design of professional sportswear under the Peak brand in 2014. While we still place emphasis on basketball, running and tennis sectors, we are consistently looking at opportunities to expand our footprint to meet new customer needs. We may consider expanding some of our current product lines, for example, outdoor products and kids wear.

Optimization of distribution channels

The Group will continue to optimize its distribution channels to prepare for the future development of the sportswear industry. After the store rationalization in the past two years, store closures have stabilized at a slower rate as many small and less efficient stores were closed or replaced with larger ones. In 2014, we expect the total number of authorized retail outlets to remain at approximately 6,000 while we strive to bolster store profitability and efficiency. At the same time, the Group will continue to improve its distribution channels by increasing the number of distributors and adjusting their coverage to deepen market penetration and to strengthen overall competitiveness. The Group may introduce a new distributor by allocating part of a region previously managed by an underperforming distributor to the new distributor. When the area managed by the underperforming distributor has been reduced, the distributor can concentrate its resources to better manage the smaller region. The Group will also encourage our distributors to open more of their own retail outlets to further enhance their responsiveness to market changes.

Corporate governance report

The Board is pleased to present this Corporate Governance Report in the Company's annual report for the year ended 31 December 2013.

The Company believes that good corporate governance practices are very important for maintaining and promoting investor confidence and for a sustainable growth of the Group. The Company has made continued efforts to maintain and uplift the quality of corporate governance, so as to ensure an effective Board, a sound internal control system, and transparency and accountability to its shareholders.

The Company has applied the principles as contained in the CG Code during the year ended 31 December 2013.

In the opinion of the Board, the Company has complied with all the code provisions set out in the CG Code during the year ended 31 December 2013. The Company will continue to enhance its corporate governance practices appropriate to the conduct and growth of its business and to review its corporate governance practices from time to time to ensure they comply with relevant regulatory requirements and to meet the rising expectations of shareholders and other stakeholders. The following summarizes the Company's corporate governance practices.

(A) The Board

(A.1) Responsibilities and Delegation

The Board, led by the Chairman, is responsible for the leadership, management and control of the Company, oversees the Group's business strategic direction and performance and is collectively responsible for promoting the success of the Group by directing and supervising the Group's affairs. In addition, the Board is responsible for performing corporate governance functions set out in code provision D.3.1 of the CG Code. During 2013, the Board has performed such corporate governance functions as follows: (i) reviewed and developed the Group's policies and practices on corporate governance in response to the implementation of the CG Code; (ii) reviewed and monitored the training and continuous professional development of Directors and senior management; (iii) reviewed and monitored the Group's policies and practices on compliance with legal and regulatory requirements; (iv) developed, reviewed and monitored the compliance with the Model Code and the employees' written guidelines for securities transactions; and (v) reviewed the Group's compliance with the CG Code and disclosure in the Corporate Governance Report.

The Board has also delegated various responsibilities to the board committees. All the Directors carry out their duties in good faith and in compliance with applicable laws and regulations, making decisions objectively and acting in the interests of the Company and its shareholders. The Chairman is responsible for the leadership and effective functioning of the Board, while the EDs and the senior management are delegated with the authority to manage the day-to-day business of the Group in all aspects. The Chairman approves board meeting agendas and ensures that the Directors receive adequate, reliable and timely information on all board matters.

The EDs are responsible for different business and functional divisions of the Group in accordance with their respective areas of expertise. Daily operations and administration are delegated to the management, which are given clear directions as to their powers — particularly with respect to circumstances under which they should report back to and obtain prior approvals from the Board before making decisions or entering into any commitments on behalf of the Company.

(A.2) Board Composition

The Board members during the year ended 31 December 2013 and up to the date of this report are as follows:

EDs:

Mr. Xu Jingnan	<i>(Chairman of the Board, Chairman of the Executive Committee and Member of the Remuneration Committee)</i>
Mr. Xu Zhihua	<i>(Chief Executive Officer and Member of the Executive Committee)</i>
Mr. Xu Zhida	<i>(Member of the Executive Committee)</i>

NEDs:

Ms. Wu Tigao	
Mr. Shen Nanpeng	<i>(resigned on 11 January 2014; Former member of the Remuneration Committee)</i>
Mr. Zhu Linan	

INEDs:

Dr. Xiang Bing	<i>(Chairman of both the Audit Committee and Remuneration Committee and Member of the Nomination Committee)</i>
Mr. Wang Mingquan	<i>(Chairman of the Nomination Committee and Member of both the Audit Committee and Remuneration Committee)</i>
Dr. Ouyang Zhonghui	<i>(Member of the Audit Committee, Remuneration Committee and Nomination Committee)</i>

Mr. Xu Jingnan, Mr. Xu Zhihua, Mr. Xu Zhida and Ms. Wu Tigao are members of the same family with Mr. Xu Jingnan being the spouse of Ms. Wu Tigao and father of both Mr. Xu Zhihua and Mr. Xu Zhida. Biographical details of the current Directors and the relationship among them are also set out in the section headed "Directors and senior management" on pages 52 to 54 of this annual report.

The Board includes a balanced composition of EDs, NEDs and INEDs such that there is a sufficient independent element in the Board to exercise independent judgement on issues of strategy, policy, performance, accountability, resources, key appointment and standards of conduct.

The NEDs and INEDs possess different business and professional backgrounds. Throughout the year ended 31 December 2013, the Board has met the requirements of Listing Rules 3.10 and 3.10A of having three independent non-executive directors (representing not less than one-third of the Board) with one of them possessing appropriate accounting and related financial management expertise.

The Board has received from each of the existing INEDs an annual written confirmation of independence pursuant to Listing Rule 3.13 and the Board considers each of them independent up to the date of this report.

(A.3) Board Meetings and Board Practices

The Board meets regularly and holds at least four regular meetings every year, for considering, reviewing and approving the financial and operating performance, matters on corporate governance and overall strategies and policies of the Company. Additional meetings are held when significant events or important issues are required to be discussed and resolved. During the year ended 31 December 2013, the Board held four meetings. Details of individual attendance of each Director at these meetings are set out below:

Directors	Meetings attended/held	Attendance (%)
<i>EDs</i>		
Mr. Xu Jingnan (<i>Chairman</i>)	4/4	100
Mr. Xu Zhihua	4/4	100
Mr. Xu Zhida	4/4	100
<i>NEDs</i>		
Ms. Wu Tigao	3/4	75
Mr. Shen Nanpeng (resigned on 11 January 2014)	2/4	50
Mr. Zhu Linan	1/4	25
<i>INEDs</i>		
Dr. Xiang Bing	3/4	75
Mr. Wang Mingquan	4/4	100
Dr. Ouyang Zhonghui	4/4	100

A formal notice of at least 14 days would be given to all Directors before each regular Board meeting. For all other Board meetings, reasonable notice would be given. All Directors are consulted on any matters proposed for inclusion in an agenda. Board papers and related materials are made available to the Directors not less than three days before the intended date of a Board meeting to enable the Directors to make informed decisions on Board matters. In addition, draft and final versions of minutes of Board meetings are sent to all Directors for comments and records respectively within a reasonable time after the Board meetings. The Company Secretary is responsible to keep minutes of all Board meetings.

The Chief Financial Officer, Company Secretary and members of the senior management normally attend regular Board meetings and, when and where necessary, other Board meetings to advise on business developments, financial and accounting matters, statutory compliance, corporate governance and other major aspects of the Group.

Directors are required to declare their interests in the matters to be passed in a resolution, if any. If a substantial shareholder or a Director has a material conflict of interest in a matter to be considered by the Board, such matter will be dealt with pursuant to applicable rules and regulations in a Board meeting and, if appropriate, an independent Board committee will be set up to deal with such matter.

Directors are timely informed of any major changes that may affect the Group's business, as well as changes in relevant rules and regulations. They have an access to advice and services of the Company Secretary to ensure that Board procedures and all applicable rules and regulations are followed. Where appropriate, they can also obtain independent professional advice at the expense of the Company.

(A.4) Chairman and Chief Executive

Code provision A.2.1 of the CG Code provides that the roles of Chairman and Chief Executive should be separate and should not be performed by the same individual. The positions of the Chairman and Chief Executive Officer of the Company are currently held by Mr. Xu Jingnan and Mr. Xu Zhihua respectively in order to maintain an effective segregation of duties in respect of the leadership of the Board and the day-to-day management of the Group's business and a balance of power and authority.

The respective responsibilities of the Chairman of the Board and the Chief Executive Officer have been established and set out in writing. The Chairman provides leadership to the Board so that the Board works effectively and discharges its responsibilities and that all key issues are discussed by the Board in a timely manner.

The Chief Executive Officer is responsible for the formulation of business directions and operational decisions of the management and performance of the Group. The Chief Executive Officer, together with other EDs and the senior management, are responsible for the implementation of strategies adopted by the Board and assume full accountability to the Board for the operations of the Group.

(A.5) Appointment and Re-election of Directors

All directors, including the NEDs and the INEDs, are appointed for a term of three years and are subject to retirement by rotation and re-election in accordance with the Company's Articles of Association.

According to the Company's Articles of Association, one-third of the Directors for the time being (if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation at each AGM provided that every Director shall be subject to retirement at an AGM at least once every three years. In addition, any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting after his appointment and any Director appointed by the Board as an addition to the existing Board shall hold office until the next following AGM. The retiring Directors are eligible for re-election by the shareholders at the respective general meetings.

Pursuant to the aforesaid provisions in the Company's Articles of Association, Mr. Xu Zhihua, Ms. Wu Tigao and Mr. Wang Mingquan, being the number of directors nearest to but not less than one-third of the Directors, shall retire by rotation at the forthcoming 2014 AGM. The above retiring Directors, being eligible, will offer themselves for re-election at the 2014 AGM. The Nomination Committee of the Company has also considered and recommended the re-election of these three retiring Directors. The Company's circular, sent together with this annual report, contains detailed information of these Directors pursuant to the requirements set out in the Listing Rules.

(A.6) Induction and Continuing Development for Directors

Each newly appointed Director shall receive induction on the first occasion of his/her appointment, so as to ensure that he/she has appropriate understanding of the business and operations of the Group and that he/she is aware of his/her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

The existing Directors are updated with legal and regulatory developments, and the business and market changes to refresh their knowledge and to facilitate the discharge of their duties. Continuing briefings to Directors are arranged whenever necessary. In addition, reading materials on legal and regulatory updates are provided to Directors from time to time for their studying and reference.

For the year ended 31 December 2013, all Directors complied with the code provision A.6.5 of the CG Code on continuous professional training through participating in the following activities:

Directors	Activities
Mr. Xu Jingnan	A, B, C, D
Mr. Xu Zhihua	A, B
Mr. Xu Zhida	A, B

Mr. Shen Nanpeng (resigned on 11 January 2014)	A, D
Mr. Zhu Linan	B, D
Dr. Xiang Bing	C
Mr. Wang Mingquan	A
Dr. Ouyang Zhonghui	C, D

Key:

A:	As an attendee to seminars/conferences organized by independent third parties
B:	As an attendee to seminars/conferences organized by the Group or related parties
C:	As a presenter in seminars/conferences organized by independent third parties
D:	Reading technical bulletins, periodicals and other publications on subjects relevant to the roles, functions and duties of a director of a listed company

(A.7) Securities Transactions by Directors and Relevant Employees

The Company has adopted the Model Code as its own code of conduct regarding directors' securities transactions in the Company. All the Directors have confirmed, following specific enquiry by the Company, that they have complied with the required standards set out in the Model Code throughout the year ended 31 December 2013 and up to the date of this report.

The Company has also established written guidelines on no less exacting terms than the Model Code for securities transactions by employees who are likely to possess inside information of the Company and/or its securities. No incident of non-compliance of the written guidelines by the Group's employees has been noted by the Company throughout the year ended 31 December 2013 and up to the date of this report.

When the Company is aware of any restricted period for dealings in the Company's securities, the Company will notify its Directors and relevant employees in advance. The Company has implemented compliance procedures which, among other things, include requiring Directors to copy all notifications of intended dealing in the Company's securities to the Company Secretary in addition to the Chairman (or a specifically designated Director).

(B) Board Committees

The Board has established four Board committees, namely the Executive Committee, the Audit Committee, the Remuneration Committee and the Nomination Committee, for overseeing particular aspects of the Group's affairs. All Board committees have been established with defined written terms of reference which are now available on the Hong Kong Stock Exchange's website www.hkexnews.hk and the Company's website (except for the written terms of reference of the Executive Committee which is available to Shareholders upon request). All the Board committees should report to the Board on their decisions or recommendations made.

The practices, procedures and arrangements in conducting meetings of Board committees follow in line with, so far as practicable, those of the Board meetings set out in section (A.3) above.

All Board committees are provided with sufficient resources to discharge their duties and, upon reasonable request, are able to seek independent professional advice in appropriate circumstances at the Company's expense.

(B.1) Executive Committee

The Executive Committee comprises all the EDs with the Chairman of the Board, Mr. Xu Jingnan, acting as the chairman of such Committee. The Executive Committee operates as a general management committee under the direct authority of the Board to increase the efficiency for business decisions. It monitors the execution of the Group's strategic plans and operations of all business units of the Group and discusses and makes decisions on matters relating to the management and day-to-day operations of the Group.

(B.2) Audit Committee

The Audit Committee comprises three members, namely Dr. Xiang Bing, Mr. Wang Mingquan and Dr. Ouyang Zhonghui, who are all INEDs. The chairman of the Audit Committee is Dr. Xiang Bing who possesses the appropriate accounting and financial management expertise as required under Rule 3.10(2) of the Listing Rules. None of the members of the Audit Committee is a former partner of the Company's existing external auditor.

The primary duties of the Audit Committee include: (i) to review the financial statements and reports and consider any significant or unusual items raised by the Company's staff responsible for the accounting and financial reporting function, compliance officer or auditor before submission to the Board; (ii) to review the work of the external auditor, its fees and terms of engagement, and make recommendation to the Board on the appointment, re-appointment and removal of the external auditor; and (iii) to review the adequacy and effectiveness of the Company's financial reporting system, internal control system and risk management system and associated procedures.

During the year ended 31 December 2013, the Audit Committee held four meetings. Details of individual attendance of each member at these meetings are set out below:

Audit Committee Members	Meetings attended/held	Attendance (%)
Dr. Xiang Bing (<i>Chairman</i>)	2/4	50
Mr. Wang Mingquan	4/4	100
Dr. Ouyang Zhonghui	4/4	100

The external auditor attended three of the above four meetings to discuss with the Audit Committee members on audit and financial reporting matters.

There is no disagreement between the Board and the Audit Committee regarding the appointment of the external auditor.

The Audit Committee has performed the following major works during the year ended 31 December 2013:

- Review and discussion of the annual report and accounts for the year ended 31 December 2012, and the related accounting principles and practices adopted by the Group;
- Review of the independence of the external auditor and recommendation of its re-appointment at the Company's 2013 AGM;
- Discussion of the nature, plan and scope of the Group's audit for the year ended 31 December 2013;
- Review and discussion of the half-year report and accounts for the six months ended 30 June 2013, and the related accounting principles and practices adopted by the Group;
- Review and discussion of the Group's internal control system; and
- Approval of the offering of share options of the Company to all INEDs and an associate of an ED who is also a substantial shareholder of the Company.

In addition, the Audit Committee considered the compliance of the non-competition undertaking provided by the Company's controlling shareholders and their affiliates (each a "Covenantor" and collectively, "Covenantors") during the year ended 31 December 2013.

Pursuant to a deed of non-competition (the "Non-competition Deed") made between the Company (for itself and on behalf of its subsidiaries) and the Covenantors dated 8 September 2009, the Covenantors are, among other things, not permitted to carry on, participate, acquire or hold any right or interest, directly or indirectly, in any business which is in any respect in competition directly or indirectly with or similar to the Group's business (the "Restricted Business") within Hong Kong and the PRC and such other parts of the world where any member of the Group carries on business from time to time (the "Restricted Territories"). In addition, when any of the Covenantors is offered or becomes aware of any business investment or commercial opportunity directly or indirectly relating to the Restricted Business in any of the Restricted Territories, the Covenantor should notify the Company and refer such business opportunity to the Company for consideration. The Covenantor should not

invest or participate in any business opportunity unless such opportunity has been rejected by the Company in writing and the principal terms of which the Covenantor invests or participates are no more favourable than those made available to the Company.

All the Covenantors have declared, following specific enquiry by the Audit Committee, that they have complied with the non-competition undertaking as set out in the Non-competition Deed during the year ended 31 December 2013.

The Audit Committee reviewed the compliance of the non-competition undertaking and considered that all the Covenantors complied with such undertaking during the year ended 31 December 2013.

(B.3) Remuneration Committee

Throughout the year ended 31 December 2013, the Remuneration Committee comprised five members, being one ED, Mr. Xu Jingnan, one NED, Mr. Shen Nanpeng, and three INEDs, Dr. Xiang Bing, Mr. Wang Mingquan and Dr. Ouyang Zhonghui. On 11 January 2014, Mr. Shen Nanpeng resigned as a NED and also a member of the Remuneration Committee. The chairman of the Remuneration Committee is Dr. Xiang Bing.

The primary functions of the Remuneration Committee include the followings:

- to make recommendations to the Board on the Company's policy and structure of the remuneration of the Directors and senior management and on the establishment of a formal and transparent procedure for developing policy on such remuneration;
- to review and make recommendations to the Board on performance-based remuneration by reference to corporate goals and objectives resolved by the Board from time to time;
- to ensure that no Director or any of his/her associate is involved in deciding his/her own remuneration; and
- to make recommendations to the Board on the remuneration packages of individual Director (both executive and non-executive) and senior management (i.e. the model described in the code provision B.1.2(c)(ii) was adopted).

The Directors receive their remuneration in the form of salaries, benefits in kind and discretionary bonuses relating to the performance of the Group. They are also reimbursed for expenses which are necessarily and reasonably incurred for providing services to the Company or the Group or executing their functions in relation to the operations of the Company and the Group. The Directors' remuneration packages may also include options granted under the Company's share option scheme. The Remuneration Committee reviews the remuneration or compensation packages of the Directors and senior management with reference to the remuneration packages adopted by comparable companies, time commitment and responsibilities of relevant personnel and performance of the Group.

During the year ended 31 December 2013, the Remuneration Committee held one meeting. Details of individual attendance of each member at the meeting are set out below:

Remuneration Committee Members	Meetings attended/held	Attendance (%)
Dr. Xiang Bing (<i>Chairman</i>)	0/1	0
Mr. Wang Mingquan	1/1	100
Mr. Shen Nanpeng (resigned on 11 January 2014)	0/1	0
Mr. Xu Jingnan	1/1	100
Dr. Ouyang Zhonghui	1/1	100

At the aforesaid Remuneration Committee meeting, the Remuneration Committee: (i) reviewed and recommended the 2013 year-end bonuses for the EDs and senior management, and the remuneration of all Directors and senior management in 2014; and (ii) considered and recommended the offering of share options of the Company to all INEDs and certain employees of the Group. Details of the remuneration of Directors are set out in note 7 to the consolidated financial statements on page 89 of this annual report. Details of remuneration paid to members of senior management for the year ended 31 December 2013 fall within the following bands:

Remuneration	Number of individuals
HK\$1,000,000 or below	5
HK\$2,000,001 to HK\$2,500,000	1

(B.4) Nomination Committee

The Nomination Committee comprises three INEDs, namely Dr. Xiang Bing, Mr. Wang Mingquan and Dr. Ouyang Zhonghui. The chairman of the Nomination Committee is Mr. Wang Mingquan.

The primary duties of the Nomination Committee include the followings:

- to review the structure, size and composition (including the skills, knowledge and experience) of the Board on a regular basis and to recommend any changes to the Board;
- to identify qualified and suitable individuals to become Board members and to select or make recommendations to the Board on the selection of individuals nominated for directorships;
- to assess the independence of INEDs, having regard to the requirements under the Listing Rules; and
- to make recommendations to the Board on relevant matters relating to the appointment or re-appointment of Directors and succession planning for Directors, in particular the Chairman and the Chief Executive Officer of the Company.

In considering the appointment of a new Director, the Nomination Committee may make reference to certain criteria such as integrity, independent mindedness, experience, skill, board diversity and the amount of time and effort that a candidate will devote to carry out his/her duties and responsibilities as a Director.

During the year ended 31 December 2013, the Nomination Committee held three meetings. Details of individual attendance of each member at the meeting are set out below:

Nomination Committee Members	Meetings	
	attended/held	Attendance (%)
Mr. Wang Mingquan (<i>Chairman</i>)	3/3	100
Dr. Xiang Bing	1/3	33
Dr. Ouyang Zhonghui	3/3	100

At the foregoing meetings, the Nomination Committee: (i) reviewed the structure, size and composition of the Board to ensure that it has a balance of expertise, skills and experience appropriate to the requirements for the business of the Group; (ii) considered and recommended the re-election of the retiring Directors at the 2013 AGM; (iii) assessed the independence of INEDs; and (iv) considered and recommended the adoption of a policy on the diversity of the Board.

According to the diversity policy of the Board adopted by the Company in August 2013, the Board takes into account various elements of diversity including but not limited to age, gender, cultural and educational background, skills, professional knowledge, and industry experience in designing the composition of the Board. All Board appointments are based on meritocracy and due regard is given to Board diversity to ensure the Company can obtain the benefits of such diversity. The Nomination Committee is responsible for the monitoring and review of the policy. During the year ended 31 December 2013, the Nomination Committee was satisfied with the diversity of the existing Board and did not, for the time being, set up any measurable objective regarding board diversity.

(C) Accountability and Audit

The Board is provided with explanations and information by the senior management of the Company, so that the Directors have an informed assessment of the financial and other information of the Group putting forward to the Board for discussion and approval.

All the Directors have acknowledged their responsibilities for preparing and reviewing the financial statements of the Company and the Group and ensure that the financial statements give a true and fair view of the state of affairs of the Company and the Group as at 31 December 2013 and of the profit and cash flows of the Group for the year then ended. In preparing the above financial statements, the Board has selected and applied suitable accounting policies and principles generally accepted internationally, has made prudent and reasonable judgements and estimates, and has prepared the financial statements on a going concern basis. The statement by the external auditor of the Company regarding its reporting responsibilities on the financial statements of the Company and the Group is set out in the "Independent auditor's report" on page 65 of this annual report.

The Board's endeavors to present a balanced, clear and understandable assessment of the Group's position and prospects extend to annual and interim reports, other price-sensitive announcements and financial disclosures of the Company required under the Listing Rules and other applicable rules, and to other reports to regulators as well as to other information required to be disclosed pursuant to statutory requirements. Accordingly, the Board will exercise due care in reviewing any relevant announcements, reports, or any other information before they are published.

For the year ended 31 December 2013, the remuneration paid and payable to KPMG, the Company's external auditor, amounted to RMB2.6 million for audit services to the Group and RMB1.2 million for non-audit services. The non-audit services related to a review of the Group's interim financial report and assistance in the Group's review of its internal control system.

(D) Company Secretary

The Board appoints its Company Secretary in accordance with the Company's Articles of Association and in compliance with the requirements of the Listing Rules. Biographical details of the current Company Secretary is set out in the section headed "Directors and senior management" on pages 52 to 54 of this annual report. The Company Secretary complied with the professional training requirement as set out in the Listing Rule 3.29 during the year ended 31 December 2013.

(E) Internal Controls

The Board acknowledges its responsibility in maintaining effective and sound internal control system for the Group to safeguard the Group's assets and protect the interests of its shareholders. The internal control system is also designed to ensure the effectiveness and efficiency of the Group's operations, to enhance reliability of internal and external financial reporting, and to ensure compliance of applicable laws and regulations.

During the year ended 31 December 2013, the Board conducted a review of the effectiveness of the Group's internal control system. The review covered all material controls, including financial, operational and compliance controls and risk management functions. The Board also considered the Group's adequacy of resources, qualifications and experience of staff in its accounting and financial reporting functions, and their training programmes and budget.

(F) Shareholders' Rights

The Company's shareholders may convene an extraordinary general meeting or put forward proposals at shareholders' meetings according to the following procedures:

- (1) Shareholder(s) holding not less than one-tenth of the paid-up capital of the Company may request the Board to convene an extraordinary general meeting pursuant to Article 58 of the Company's Articles of Association by sending a written requisition to the Board or the Company Secretary at the Company's principal place of business in Hong Kong. The objects of the meeting must be stated in the written requisition.
- (2) If a shareholder wishes to put forward proposals at a shareholders' meeting, the shareholder, who has satisfied the shareholding requirements set out in (1) above, may follow the same procedures as described in (1) above by sending a written requisition to the Board or the Company Secretary at the Company's principal place of business in Hong Kong. The shareholder should state his/her proposals in the written requisition and submit the written requisition as early as practicable to enable the Company Secretary to make necessary arrangement.
- (3) If a shareholder wishes to propose a person other than a retiring director for election as a director of the Company at a general meeting, pursuant to Article 85 of the Company's Articles of Association, the shareholder (other than the person to be proposed) should prepare a written notice duly signed by him/her of his/her intention to propose a person for the election and a notice duly signed by the person to be proposed of his/her willingness to be elected. These notices should be lodged at the Company's principal place of business in Hong Kong or its

share registrar at least 7 days prior to the date of the general meeting. Where the notices are submitted after the dispatch of the notice of the general meeting, the period for the lodgment of the notices should commence on the day after the dispatch of the notice of the general meeting and end not later than 7 days prior to the date of the general meeting.

For the avoidance of doubt, the shareholder must provide his/her full name, contact details and identification, in the signed requisition, notice or statement (as the case may be), in order to give effect thereto.

During 2013, the Company has not made any changes to its Articles of Association. An up-to-date version of the Articles of Association is available on the websites of the Company and the Hong Kong Stock Exchange. Shareholders may refer to the Articles of Association for further details of the rights of shareholders.

(G) Investor Relations and Communications with Shareholders

The Company highly values its relationship with its shareholders and other stakeholders. It has put in place an effective corporate communication system which provides transparent, regular and timely public disclosures to its shareholders and other stakeholders. The main features of the system are as follows:

- The Company maintains a corporate website www.peaksport.com on which comprehensive information about the Group, including products and services provided, financial reports, public announcements, circulars and news of the Group, is disclosed. Shareholders can obtain corporate communication electronically via the Company's website.
- The Company establishes and maintains different communication channels with its shareholders and other stakeholders through annual reports, interim reports and press releases.
- AGM provides a useful forum for shareholders to exchange views with the Board. The respective chairmen of the Board and Audit, Remuneration and Nomination Committees (or in the absence of the chairmen of such Committees, another member of each Committee or failing this his duly appointed delegate) will endeavor to be available to answer questions raised by shareholders.
- Separate resolutions are proposed at general meetings for each substantially separate issue, including the election of individual Directors.
- Details of the proposed resolutions to be put forward at a general meeting are, where necessary or appropriate, included in a circular to the shareholders dispatched prior to the date of the relevant general meeting.
- All resolutions put to the vote of a general meeting are taken by poll. The poll results are published on the Hong Kong Stock Exchange's website www.hkexnews.hk and on the Company's website.

In addition, the Company has established the investor relations department with designated senior management for maintaining regular dialogue with institutional investors and analysts to keep them abreast of the Company's developments. Enquiries from shareholders and other stakeholders are dealt with in an informative and timely manner. Corporate social responsibility report

Statement of Policies

The Group has incorporated the performance of corporate social responsibilities into its development strategies, corporate governance structures, corporate culture and business processes. The above arrangement coupled with the Group's determination to create a harmonious environment for its shareholders, staff and the community at large, enable the Group to achieve sustainable development.

Based on its understanding of the risks and opportunities in the market, the Group has established its strategic mission for corporate social responsibilities as "Efficiency in operation, growth for staff, cooperation for win-win situation and contribution to society" to ensure a sustainable development.

To enhance corporate governance

The Group believes that good corporate governance practices are very important for maintaining and promoting investor confidence and for the sustainable growth of the Group. The Group has therefore made continued efforts to uplift its quality of corporate governance. It has established a highly effective system of internal controls and adopted a series of measures to ensure its safety and effectiveness. As a result, the Group is able to safeguard its assets and protect the interests of its shareholders.

Starting from 2011, the Group appoints independent corporate advisory firm to review its risk and internal controls every year from the perspective of its organizational structure, operations, financial function, etc. A report with recommendations on improvement is issued after each review for reference. In addition, the Group pays much emphasis on using electronic information system to enhance management efficiency. It has engaged an external software supplier to develop customized application software so as to further enhance the Group's management information system.

To grow with our staff

The Group strives to resolve safety issues in its production workshops that may be hazardous to the health of its workers. It monitors and assesses safety measures periodically and carries out emergency drills half-yearly. The Group also provides training on safety matters for its employees so as to reduce the occurrence of accidents. The Group places much emphasis on the career development of its employees. It organizes various professional education and training activities to enhance business skills and professional ethics of its employees. The Group also holds training sessions on knowledge about Peak branded products and marketing techniques for employees from the Group's marketing department, its distributors and third party retail outlets operators. These training sessions received good responses from participants.

The Group is dedicated to creating a good working environment through continuous improvement in employee benefits such as refurbishment of staff dormitory and improvement of facilities at staff canteens. The Group organizes various recreational and entertainment activities for its employees to enrich their lives at leisure. The Group also allows its employees to form a labour union and women's association. These organizations provide all kinds of assistance to employees.

To fulfill environmental protection responsibilities

The Group obtained the ISO14001 certification regarding its environmental protection system and has prepared and implemented the “Peak Sport Environmental Protection Manual”. The manual covers modules on management for environmental protection, including directions, strategies, implementation, operation, inspection, appraisal, etc. The Group carries out inspection on the operation of its system on environmental management twice a year. In addition, it also conducts a review of compliance of rules and regulations on environmental protection regarding research and development of new products, production processes, and related management practices and activities every year. A compliance review report is issued for reference.

The Group strictly controls the discharge of sewage, exhaust gas and residual materials during its daily production processes. It also actively implements measures on the reduction of noises and separation of residual materials for different treatments. All these controls and measures have enabled the Group to comply with relevant rules and regulations of the state and local authorities on sewage, noises and residual materials. In addition, the Group carries out an inspection of its environmental management in all production workshops every month to reduce the impact on the environment arising from the production processes.

Further, the Group takes account of environmental protection issues in developing and designing new products. It only uses materials which have passed relevant physical and safety tests and complied with relevant rules and regulations. In its day-to-day operations, the Group advocates “paperless office” and actively promotes electronic management information system. In addition, the Group concerns about the responsibilities of its suppliers on environmental protection. The Group signs with all suppliers contracts having an environmental protection clause that all suppliers are required to submit certified inspection reports on materials used and/or products manufactured issued by inspection institutions approved by the state before the suppliers deliver their products to the Group.

To participate in charitable activities

As the Group has been receiving a lot of support from different segments of society since its establishment, it always upholds the principle of “rewarding to society and creating value for society” and has been actively participating in community and charitable activities.

2013 is the second consecutive year that the Group has cooperated with “Yao Foundation” to support “Yao Foundation Hope Primary School Basketball Season” by supplying apparel and footwear to participants and volunteers in competitions to enable the children in all Hope schools throughout China to have an opportunity to know more about basketball sport and its spirit. In addition, the Group also arranged and supported its promotion partners and endorsed athletes to participate in charitable activities. During the Peak Team China Tour, the Group arranged its endorsed NBA players to teach children from remote areas basketball skills and donated Peak’s products so that these children were able to experience the glamour of basketball sport.

Every year, the Group makes contribution to the Peak Sport Charity Fund which is set up by the Group and Quanzhou Charity Foundation and other charitable organizations. During 2013, the Group’s total contribution for charitable purposes amounted to RMB4 million.

Share option scheme

Pursuant to the Company's share option scheme which was adopted and revised on 8 September 2009 and 18 May 2011 respectively (the "Scheme"), the Company may grant share options to "Eligible Persons" (including Directors, employees, suppliers, customers or other business partners of any member of our Group) to subscribe for the Company's shares. The purpose of the Scheme is to provide incentive or reward to the Eligible Persons for their contribution to, and continuing efforts to promote the interests of, our Group and to enable our Group to attract and retain high-calibre employees and business partners.

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other schemes of the Company must not exceed 30% of the total number of shares in issue from time to time. No option may be granted to any participant of the Scheme such that the total number of shares issued and to be issued upon exercise of the options granted and to be granted to that person (including exercised, cancelled and outstanding options) in any 12-month period up to the date of the latest grant exceeds 1% of the Company's issued share capital from time to time. Any grant or further grant of share options in excess of this limit is subject to shareholders' approval in advance in a general meeting of the Company.

Each grant of share options to a Director, chief executive or substantial shareholder of the Company, or to any of their associates, is subject to approval in advance by the INEDs. In addition, any grant of share options to a substantial shareholder or an INED, or to any of their associates, resulting in the shares issued and to be issued upon exercise of all options already granted and to be granted (including options exercised, cancelled and outstanding) to such person, in a 12-month period up to and including the date of such grant in excess of 0.1% of the shares of the Company in issue and with an aggregate value (based on the closing price of the Company's shares at the date of the grant) in excess of HK\$5 million, is subject to shareholders' approval in advance in a general meeting of the Company.

The subscription price of share options is determined by the Board and must not be less than the highest of (i) the closing price of the Company's shares as stated in the Hong Kong Stock Exchange's daily quotations sheet on the date of offer of the share options, which must be a business day; (ii) the average of the closing prices of the Company's shares as stated in the Hong Kong Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of offer of the share options; and (iii) the nominal value of a share of the Company.

An option may be exercised in accordance with the terms of the Scheme at any time during a period as determined by the Board and not exceeding 10 years from the date of a grant. Unless the Directors determine otherwise, there is no minimum period for which an option must be held before it can be exercised. The offer of a grant of share options may be accepted within 28 days from the date of offer upon payment of a nominal consideration of RMB1 in total by the grantee. The Scheme shall be valid and effective for a period of 10 years since the approval of the Scheme (i.e. 8 September 2009) after which no further options will be granted or offered.

The total number of shares of the Company currently available for issue under the Scheme is 178,535,339 shares, representing approximately 8.51% of the issued share capital of the Company as at the date of this annual report.

Share option scheme (continued)

Notes: (continued)

2. On 1 November 2013, the Company granted a total of 14,880,000 share options to certain distributors of the Group with an exercise price of HK\$1.910 per share. The share options shall be exercisable from 1 April 2014 to 31 March 2015 provided that the distributors have achieved 2013 payment target. The 2013 payment target refers to the minimum total amount of payment that each distributor is expected to make during the year ended 31 December 2013 to settle its account due to the Group arising from its purchase of the Group's products. Different distributors may have different payment targets set by the Group. The closing price of the Company's shares immediately before the date of grant on 1 November 2013 was HK\$1.78.
3. In respect of the share options granted to the Directors and employees, the vesting periods start from the dates of grant and end at the days immediately before the commencement of the respective exercise periods. The share options granted to a distributor will not be vested if the distributor cannot achieve the aforesaid 2013 payment target set by the Company.
4. The number and/or exercise price of the options may be subject to adjustment in the case of rights or bonus issues, or other changes in the Company's share capital.
5. On 1 January 2014, the Company granted a total of 21,725,000 share options to all the INEDs and certain employees (including an associate of an ED who is also a substantial shareholder of the Company) of the Group with an exercise price of HK\$1.938 per share and varying vesting periods ranging from 4 months to 3 years. Set out below are the number of the share options granted to the INEDs and the associate of the ED who is also a substantial shareholder of the Company:

Name of option holder	Job title and relationship	Number of options granted
Dr. Xiang Bing	INED	200,000

Chairman

Hong Kong, 12 March 2014

Independent auditor's report

To the shareholders of
Peak Sport Products Co., Limited
(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Peak Sport Products Co., Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 66 to 111, which comprise the consolidated and company statements of financial position as at 31 December 2013, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The Directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2013 and of the Group's profit and cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

1 Significant accounting policies

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with applicable International Financial Reporting Standards (“IFRSs”), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards (“IASs”) and Interpretations issued by International Accounting Standards Board (“IASB”). These consolidated financial statements also comply with the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). A summary of the significant accounting policies adopted by the Group is set out below.

The IASB has issued certain new and revised IFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 1(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these consolidated financial statements.

(b) Basis of preparation of the consolidated financial statements

The Company was incorporated in the Cayman Islands on 15 February 2008.

The consolidated financial statements for the year ended 31 December 2013 comprise the Company and its subsidiaries.

The measurement basis used in the preparation of these consolidated financial statements is the historical cost basis.

The functional currency of the Company is Hong Kong Dollars (“HK\$”). These consolidated financial statements are presented in Renminbi (“RMB”) as the functional currency of the Group’s operating subsidiaries is RMB. These consolidated financial statements presented in RMB have been rounded to the nearest thousand.

The preparation of these consolidated financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRSs that have significant effect on the consolidated financial statements and major sources of estimation uncertainty are discussed in note 2.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

1 Significant accounting policies (continued)

(c) Changes in accounting policies

The IASB has issued a number of new IFRSs and amendments to IFRSs that are first effective for the current accounting period of the Group. Of these, the following new standards and amendments to IFRSs are relevant to the Group's current financial statements.

- Amendments to IAS1, *Presentation of financial statements — Presentation of items of other comprehensive income*
- IFRS 10, *Consolidated financial statements*
- IFRS 13, *Fair value measurement*
- Amendments to IFRS 7, *Financial instruments: Disclosures — offsetting financial assets and financial liabilities*

These new standards and amendments to IFRSs have no material impact on the Group's consolidated financial statements as they were consistent with policies already adopted by the Group. The Group has not adopted any new standard or amendment to IFRSs that is not yet effective for the current accounting period.

(d) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flow and any unrealized profits arising from intra-group transactions are eliminated in full in preparing these consolidated financial statements. Unrealized losses resulting from intra-group transactions are eliminated in the same way as unrealized gains but only to the extent that there is no evidence of impairment.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 1(j)).

(e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see note 1(j)).

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognized in profit or loss on the date of retirement or disposal.

1 Significant accounting policies (continued)

(e) Property, plant and equipment (continued)

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

- Buildings held for own use which are situated on leasehold land are depreciated over the shorter of the unexpired term of the lease and their estimated useful lives, being no more than 20 years after the date of completion.
- Plant and machinery 5–10 years
- Motor vehicles 5 years
- Furniture and fixtures 5 years

Both the useful life of an asset and its residual value, if any, are reviewed annually.

(f) Construction in progress

Construction in progress represents property, plant and equipment under construction and equipment pending installation, and is stated at cost less impairment losses (see note 1(j)). Cost of self-constructed items of property, plant and equipment include the cost of materials, direct labour and an appropriate proportion of production overheads and borrowing costs (see note 1(u)). Capitalization of these costs ceases and the construction in progress is transferred to property, plant and equipment when substantially all of the activities necessary to prepare the assets for their intended use are completed.

No depreciation is provided in respect of construction in progress until it is substantially completed and ready for its intended use.

(g) Lease prepayments

Lease prepayments represent the cost of land use rights paid to the People's Republic of China ("PRC") governmental authorities. Lease prepayments are carried at cost less accumulated amortization and impairment losses (see note 1(j)). Amortization of lease prepayments is charged to profit or loss on a straight-line basis over respective periods of the leases.

(h) Intangible assets

Intangible assets represent trademarks and software and are stated at cost less accumulated amortization (where the estimated useful life is finite) and impairment losses (see note 1(j)).

Trademarks are not amortized while their useful lives are assessed to be indefinite. Any conclusion that the useful lives of trademarks are indefinite is reviewed annually to determine whether events and circumstances continue to support the indefinite useful life assessment for those trademarks. If they do not, the change in useful life assessment from indefinite to finite is accounted for prospectively from the date of change and in accordance with the policy for amortization of intangible assets with finite useful lives.

Software is amortized on the straight-line basis over its estimated useful life of five years.

Both the useful life and method of amortization of an intangible asset are reviewed annually.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

1 Significant accounting policies (continued)

(i) Operating lease charges

Lease payments made under an operating lease are charged to profit or loss in equal instalments over the accounting periods covered by the lease terms, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased assets. Lease incentives received are recognized in profit or loss as an integral part of the aggregate net lease payments made.

(j) Impairment of assets

(i) Impairment of trade and other receivables

Trade and other receivables that are stated at cost or amortized cost are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganization; and
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

If any such evidence exists, any impairment loss is determined and recognized as follows:

The impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss has been recognized, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognized in prior years.

Impairment losses recognized in respect of trade debtors are included within trade and other receivables if recovery of the debt is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade debtors directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognized in profit or loss.

1 Significant accounting policies (continued)

(j) Impairment of assets (continued)

(ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognized no longer exists or may have decreased:

- property, plant and equipment;
- construction in progress;
- lease prepayments;
- deposits and prepayments for purchase of non-current assets;
- intangible assets; and
- investments in subsidiaries.

If any such indication exists, the asset's recoverable amount is estimated.

- **Calculation of recoverable amount**

The recoverable amount of an asset is the greater of its fair value less cost of disposal and value in use. In assessing an asset's value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

- **Recognition of impairment losses**

An impairment loss is recognized in profit or loss whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognized in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable), or value in use (if determinable).

- **Reversals of impairment losses**

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognized in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognized.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

1 Significant accounting policies (continued)

(k) Inventories

Inventories are carried at the lower of cost and net realizable value.

Cost is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognized as an expense in the period in which the related revenue is recognized. The amount of any write down of inventories to net realizable value and all losses of inventories are recognized as an expense in the period when the write down or loss occurs. The amount of any reversal of any write down of inventories is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

(l) Trade and other receivables

Trade and other receivables are initially recognized at fair value and thereafter stated at amortized cost using the effective interest method, less allowance for impairment of doubtful debts (see note 1(j)), except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of doubtful debts.

Bills receivable are derecognized if substantially all the risks and rewards of ownership of the bills receivable are transferred. If substantially all the risks and rewards of ownership of bills receivable are retained, the bills receivable are continued to recognize in the consolidated statement of financial position.

(m) Interest-bearing borrowings

Interest-bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortized cost with any difference between the cost and redemption value being recognized in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

(n) Trade and other payables

Trade and other payables are initially recognized at fair value and thereafter stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(o) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

1 Significant accounting policies (continued)

(p) Employee benefits

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Share-based payment

The fair value of share options granted to eligible persons is recognized as an expense with a corresponding increase in the share-based payment reserve in equity. The fair value is measured at the grant date using the Black-Scholes-Merton Option Pricing Model, taking into account the terms and conditions upon which the options are granted.

Where the eligible persons have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest. During the vesting period, the number of share options that is expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognized in prior years is charged/credited to profit or loss for the year of the review, unless the original expense qualify for recognition as an asset, with a corresponding adjustment to the share-based payment reserve. On vesting date, the amount recognized as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the share-based payment reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the company's shares. The equity amount is recognized in the share-based payment reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to retained profits).

(q) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognized in profit or loss except to the extent that they relate to items recognized in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognized in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

1 Significant accounting policies (continued)

(q) Income tax (continued)

Apart from differences which arose on initial recognition of assets and liabilities that affect neither accounting nor taxable profit, all deferred tax liabilities and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilized, are recognized. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilized.

The amount of deferred tax recognized is measured based on the expected manner of realization or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognized when the liability to pay the related dividends is recognized in profit or loss.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities if the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Group intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realize the current tax assets and settle the current tax liabilities on a net basis or realize and settle simultaneously.

1 Significant accounting policies (continued)

(r) Provisions and contingent liabilities

Provisions are recognized for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(s) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognized in profit or loss as follows:

(i) Sale of goods

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, trade discounts, rebates, value added taxes and other sales taxes. Revenue is recognized when the significant risks and rewards of ownership of the goods have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of the goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably.

(ii) Interest income

Interest income is recognized as it accrues using the effective interest method.

(iii) Government grants

Government grants are recognized in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognized as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are initially recognized as deferred income and subsequently recognized as revenue in profit or loss over the useful life of the asset.

Notes to the Financial Statements

1 Significant accounting policies (continued)

(t) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognized in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates.

The results of operations outside the PRC are translated into RMB at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into RMB at the foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognized in other comprehensive income and accumulated separately in the exchange reserve in equity.

(u) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalization of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare that asset for its intended use or sale are in progress. Capitalization of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

(v) Research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred. Expenditure on development activities is capitalized if the product or process under development is technically and commercially feasible and the Group has sufficient resources and the intention to complete the development. The expenditure capitalized includes the costs of materials, direct labor, and an appropriate proportion of overheads and borrowing costs, where applicable (see note 1(u)). Capitalized development costs, if any, are stated at cost less accumulated amortization and impairment losses (see note 1(j)). Other development expenditure is recognized as an expense in the period in which it is incurred.

(w) Dividends

Dividends are recognized as a liability in the period in which they are declared.

(x) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.

1 Significant accounting policies (continued)

(x) Related parties (continued)

- (b) An entity is related to the Group if any of the following conditions applies:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(y) Segment reporting

Operating segments and the amounts of each segment item reported in the consolidated financial statements are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

No segment information is presented for the Group's business segment as the Group is principally engaged in manufacture and sale of sports products in the PRC.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

2 Significant accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The selection of critical accounting policies, the judgements and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in condition and assumptions are factors to be considered when reviewing these consolidated financial statements. The principal accounting policies are set forth in note 1. The Group believes the following critical accounting policies involve the most significant judgements and estimates used in the preparation of these consolidated financial statements.

(a) Impairments

If circumstances indicate that the carrying value of an asset may not be recoverable, the asset may be considered "impaired", and an impairment loss may be recognized in profit or loss. The carrying amounts of assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount.

The recoverable amount is the greater of the fair value less costs to sell and the value in use. In determining the value in use, expected cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to level of sales volume, sales revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of recoverable amount, including estimates based on reasonable and supportable assumptions and projections of sales volume, sales revenue and amount of operating costs.

(b) Net realizable value of inventories

Net realizable value of inventories is the estimated selling price in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale. These estimates are based on the current market conditions and the historical experience of selling products with similar nature. It could change significantly as a result of changes in customer taste or competitor actions. The Group reassesses these estimates at the end of each reporting period.

(c) Impairment of trade and other receivables

The Group estimates the impairment allowances for trade and other receivables by assessing the recoverability based on credit history and prevailing market conditions. This requires the use of estimates and judgements. Allowances are applied to trade and other receivables where events or changes in circumstances indicate that the balances may not be collectible. Where the expectation is different from the original estimate, such difference will affect the carrying amounts of trade and other receivables and thus the impairment loss in the period in which such estimate is changed. The Group reassesses the impairment allowances at the end of each reporting period.

2 Significant accounting estimates and judgements (continued)

(d) Depreciation and amortization

Property, plant and equipment are depreciated on a straight-line basis over the estimated useful lives, after taking into account the estimated residual value. Intangible assets except for those with indefinite lives are amortized on a straight-line basis over the estimated useful lives. The Group reviews the estimated useful lives of the assets regularly in order to determine the amount of depreciation and amortization expenses to be recorded during any reporting period. The useful lives are based on the Group's historical experience with similar assets and take into account anticipated technological changes. The depreciation and amortization expenses for future periods are adjusted prospectively if there are significant changes from previous estimates.

3 Turnover

The principal activities of the Group are manufacturing and trading of sports products, including footwear, apparel and accessories. Turnover represents the sales value of goods sold less returns, discounts, rebates, value added taxes and other sales taxes, and is analyzed as follows:

	2013 RMB'000	2012 RMB'000
Footwear	1,044,352	1,348,004
Apparel	1,508,471	1,481,056
Accessories	60,069	73,856
	2,612,892	2,902,916

The Group had one customer with whom transactions exceeded 10% of the Group's aggregate turnover. The amount of sales from this customer amounted to approximately RMB326,329,000 for the year ended 31 December 2013 (2012: RMB462,222,000).

The Group's revenue by geographical location is determined by the destination to which the goods are delivered.

	2013 RMB'000	2012 RMB'000
PRC	2,080,344	2,514,682
Overseas	532,548	388,234
	2,612,892	2,902,916

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

4 Other revenue and net income

	2013 RMB'000	2012 RMB'000
Other revenue		
Interest income	43,234	24,275
Government grants	10,918	8,669
Others	149	233
	54,301	33,177
Other net income		
Exchange gain	6,081	5,372
Gain on sales of materials	1,382	6,217
Others	168	249
	7,631	11,838

Government grants were received from local authorities for the Group's contributions to local communities and its achievement in export sales. The grants, which were unconditional, also included refunds of value added tax from local governments.

5 Profit before income tax

Profit before income tax is arrived at after charging:

	2013 RMB'000	2012 RMB'000
(a) Finance expenses:		
Interest on bank borrowings	13,085	8,460
(b) Staff costs:		
Contributions to defined contribution retirement plans	8,764	7,757
Equity-settled share-based payments	276	1,919
Salaries, wages and other benefits	354,604	342,398
	363,644	352,074
(c) Other items:		
Amortization of lease prepayments	3,303	1,139
Auditors' remuneration	3,554	3,861
Depreciation	43,317	38,598
Operating lease charges in respect of properties	13,965	11,376
Research and development expenses*	61,197	46,866
Cost of inventories#	1,686,309	1,844,737
Loss on disposal of property, plant and equipment	118	307

5 Profit before income tax (continued)

- * Research and development expenses for the year ended 31 December 2013 includes RMB29,793,000 (2012: RMB25,342,000) relating to staff costs, depreciation and operating lease charges, which amount is included in the respective total amounts disclosed separately in notes 5(b) and (c) above for each of these types of expenses.
- # Cost of inventories for the year ended 31 December 2013 includes RMB261,846,000 (2012: RMB253,519,000) relating to staff costs, depreciation and amortization expenses and operating lease charges, which amount is included in the respective total amounts disclosed separately in notes 5(b) and (c) above for each of these types of expenses.

6 Income tax in the consolidated statement of comprehensive income

(a) Income tax in the consolidated statement of comprehensive income represents:

	2013 RMB'000	2012 RMB'000
Current tax — PRC income tax		
Provision for the year	121,423	90,164
Deferred tax		
Origination and reversal of temporary differences	24,469	4,783
	145,892	94,947

Pursuant to the rules and regulations of the Cayman Islands and British Virgin Islands ("BVI"), the Group is not subject to any income tax in the Cayman Islands or BVI.

No provision has been made for Hong Kong Profits Tax as the Group did not earn any income that was subject to Hong Kong Profits Tax for the years ended 31 December 2013 and 31 December 2012.

Pursuant to the income tax rules and regulations of the PRC, provision for PRC corporate income tax is calculated based on the statutory rate of 25% of the assessable profits of the subsidiaries incorporated in the PRC comprising the Group. During the year, none of the PRC subsidiaries of the Group are entitled to tax concessions (2012: two).

In addition, from 1 January 2008, a non-resident enterprise without an establishment or place of business in the PRC or which has an establishment or place of business in the PRC but whose relevant income is not effectively connected with the establishment or place of business in the PRC, will be subject to withholding tax at the rate of 10% (unless reduced by treaty) on various types of passive income such as dividends derived from sources within the PRC. As all the Group's subsidiaries incorporated in the PRC are foreign-invested enterprises directly and wholly owned by a Hong Kong incorporated subsidiary, a rate of 5% is applicable to the calculation of this withholding tax under the double tax arrangement between Hong Kong and the mainland of the PRC.

6 Income tax in the consolidated statement of comprehensive income (continued)

(b) Reconciliation between income tax and accounting profit at applicable tax rates:

	2013 RMB'000	2012 RMB'000
Profit before income tax	390,172	405,524
Notional tax on profit before income tax, calculated at the standard tax rates applicable to the respective tax jurisdictions	102,131	107,756
Effect of lower tax rates applicable to subsidiaries as a result of preferential tax policy as described in note 6(a)	—	(37,074)
Tax effect of non-deductible expenses	30,478	19,375
Effect of withholding tax	13,283	7,604
Effect on deferred tax balances at 1 January resulting from a change in tax rate	—	(2,714)
Income tax	145,892	94,947

7 Directors' remuneration

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

7 Directors' remuneration (continued)

During the year, no amount was paid or payable by the Company to the Directors or any of the five highest paid individuals set out in note 8 as an inducement to join or upon joining the Group or as compensation for loss of office. There was no arrangement under which a Director waived or agreed to waive any remuneration during the year.

8 Individual with highest emoluments

Of the five individuals with the highest emoluments, three (2012: three) are Directors whose remuneration is disclosed in note 7 above. The aggregate of the emoluments in respect of the remaining two individuals for 2013 (2012: two) are as follows:

	2013 RMB'000	2012 RMB'000
Salaries and other emoluments	1,602	2,088
Discretionary bonuses	513	324
Equity-settled share-based payments	48	134
Contributions to defined contribution retirement plans	13	11
	2,176	2,557

The emoluments of the two individuals (2012: two) with the highest emoluments fall within the following bands:

	2013 Number of individuals	2012 Number of individuals
HK\$1 to HK\$1,000,000	1	1
HK\$2,000,001 to HK\$2,500,000	1	1

9 Profit attributable to equity shareholders of the Company

The consolidated profit attributable to equity shareholders of the Company includes a loss of RMB13,502,000 (2012: RMB10,610,000) which has been dealt with in the financial statements of the Company.

10 Dividends

(a) Dividends attributable to equity shareholders of the Company in respect of the current year

	2013 RMB'000	2012 RMB'000
Interim dividend declared and paid of HK2 cents per ordinary share (2012: HK5 cents per ordinary share)	33,387	85,765
Special interim dividend declared and paid of HK6 cents per ordinary share (2012: nil)	100,162	—
Final dividend proposed after the end of the reporting period of HK6 cents per ordinary share (2012: HK3 cents per ordinary share)	99,240	51,005
Special final dividend proposed after the end of the reporting period of HK2 cents per ordinary share (2012: HK2 cents per ordinary share)	33,080	34,003
	265,869	170,773

The final and special final dividends proposed after the end of the reporting period have not been recognized as a liability at the end of the reporting period.

(b) Dividends attributable to equity shareholders of the Company in respect of the previous financial year, approved and paid during the year

	2013 RMB'000	2012 RMB'000
Final dividend in respect of the previous financial year, approved and paid during the year, of HK3 cents per ordinary share (2012: HK11 cents per ordinary share)	50,356	186,436
Special final dividend in respect of the previous financial year, approved and paid during the year, of HK2 cents per ordinary share (2012: nil)	33,570	—
	83,926	186,436

11 Earnings per share

The calculation of the basic earnings per share and diluted earnings per share are based on the profit for the year attributable to equity shareholders of the Company of RMB244,280,000 (2012: RMB310,577,000) and the weighted average number of issued ordinary shares of 2,098,029,000 (2012: 2,098,029,000 shares) during the year.

The diluted earnings per share for the year ended 31 December 2013 is the same as the basic earnings per share for the same period as taking into account the deemed issue of ordinary shares under the share options scheme (see note 25) would have an anti-dilutive effect in calculating the diluted earnings per share.

19 Trade and other receivables (continued)

(a) The Group (continued)

All of the trade and other receivables are expected to be recovered or recognized as expense within one year.

As at 31 December 2013, the Group had endorsed bank acceptance bills totalling RMB556,970,000 (2012: RMB305,880,000), which were derecognized as financial assets. These bank acceptance bills matured within six months from the date of issue.

(i) Ageing analysis

Set out below is an aging analysis of the total balance of the trade receivables and bills receivable (net of allowance for doubtful debts) at the end of the reporting period based on relevant invoice dates:

	2013 RMB'000	2012 RMB'000
Within 3 months	714,518	622,819
After 3 months but within 6 months	167,252	362,159
After 6 months but within 1 year	25,169	36,533
	906,939	1,021,511

The Group offers a revolving credit to each domestic distributor. This revolving credit sets a maximum amount that a distributor can owe the Group at any one time. In determining the amount of a revolving credit for a distributor, the Group takes into account factors including the credit history, prior year's purchases, estimated purchases for the current year, and funding need to expand the retail network of a distributor, and market conditions. The Group generally evaluates the revolving credit of a domestic distributor annually upon renewal of relevant distribution agreement.

(ii) Impairment of trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that the prospect of recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly (see note 1(j)(i)).

The movement in the allowance for doubtful debts during the year is as follows:

	2013 RMB'000	2012 RMB'000
At 1 January	—	—
Impairment loss recognized	14,911	—
At 31 December	14,911	—

As at 31 December 2013, the Group's trade receivables of RMB14,911,000 (2012: nil) were individually determined to be impaired. The individually impaired receivables related to distributors that were in default and management considered that the recovery of such receivables was doubtful but not remote. Consequently, specific allowances for doubtful debts were recognized.

(b) The Company

The balance as at 31 December 2013 represented amounts due from a subsidiary. These amounts are unsecured, non-interest bearing and are expected to be repaid within one year.

Notes to the Financial Statements

Trade payables	217,835	77,564
Other payables and accruals	173,638	200,529
	415,463	372,673

Bills payable as at 31 December 2013 were secured by the Group's property, plant and equipment, lease prepayments and bank deposits (see notes 12, 14 and 20).

All of the trade and other payables are expected to be settled within one year.

Set out below is an aging analysis of the total balance of the trade payables and bills payable at the end of the reporting period based on relevant invoice dates:

	2013 RMB'000	2012 RMB'000
Within 3 months	183,261	124,942

After 6 months but within 1 year	884	102
Over 1 year	4	—
	241,825	172,144

(b) The Company

The balance as at 31 December 2013 represented amounts due to subsidiaries. These amounts are unsecured, non-interest bearing and have no fixed terms of repayment.

24 Employee retirement benefits

Defined contribution retirement plans

Pursuant to the relevant labour rules and regulations in the PRC, the Group's subsidiaries in the PRC participate in defined contribution retirement benefit schemes (the "Schemes") organized by the PRC municipal government authorities in Fujian, Jiangxi and Shandong provinces whereby the Group is required to make contributions to the Schemes at the rates ranging from 18% to 20% of the eligible employees' salaries. The local government authorities are responsible for the entire pension obligations payable to retired employees.

The Group does not have any material obligation for the payment of retirement benefits except for those schemes described above.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

25 Share-based payments

Pursuant to the shareholders' resolutions passed on 8 September 2009 and 18 May 2011, the Company adopted a share option scheme ("the Scheme") whereby the Directors of the Company are authorized, at their discretion, to invite any persons (including Directors, employees, suppliers, customers and other business partners) who have made valuable contribution to the Group to take up options to subscribe for the shares of the Company.

Each option gives the holder the right to subscribe for one ordinary share in the Company and is settled gross in shares.

(a) Share options granted under the Scheme during the year ended 31 December 2013

On 1 November 2013, the Company granted a total of 14,880,000 share options to certain distributors of the Group with an exercise price of HK\$1.910 per share. The share option shall be exercisable from 1 April 2014 to 31 March 2015 provided that the distributors have achieved 2013 payment targets. The 2013 payment target refers to the minimum total amount of payment that each distributor is expected to make during the year ended 31 December 2013 to settle its account due to the Group arising from its purchase of the Group's products. Different distributors may have different payment targets set by the Group.

(b) The terms and conditions of the share options granted under the Scheme as at 31 December 2013 are as follows:

Date of grant		Number of options granted	Vesting conditions	Contractual life of options
Options granted to directors:				
1 June 2010	Batch 4	180,000	1 year after the date of grant	5 years

		30,675,000		

25 Share-based payments (continued)

(c) Details of the movements of the share options granted under the Scheme are as follows:

	Year ended 31 December 2013		Year ended 31 December 2012	
	Weighted average exercise price	Number of options '000	Weighted average exercise price	Number of options '000
Outstanding at the beginning of the year	HK\$5.2752	11,695	HK\$5.2729	12,740

Exercisable at the end of the year	HK\$5.2817	10,469	HK\$5.2752	7,021

The share options outstanding as at 31 December 2013 had an exercise price of HK\$5.1960, HK\$5.6040 or HK\$1.9100 (2012: HK\$5.1960 or HK\$5.6040) and a weighted average remaining contractual life of 1.2 years (2012: 2.2 years).

(d) Fair value of share options and assumptions

The fair value of performance achieved by the distributors and services rendered by the directors and employees in return for the share options granted is measured by reference to the fair value of the share options granted. Set out below are the estimate of such fair value and the related assumptions based on the Black-Scholes-Merton Option Pricing Model:

The contractual life of the share option is used as an input into the Black-Scholes-Merton Option Pricing Model. Expectations of early exercise are also incorporated into the model. The expected volatility is based on the historic volatility (calculated based on the weighted average remaining life of the share options), adjusted for any expected changes to future volatility based on publicly available information. Expected dividends are based on historical dividends. Changes in the subjective input assumptions could materially affect the fair value estimate.

(a) Share premium

The application of the share premium of the Company is governed by the Companies Law (Revised) of the Cayman Islands. The share premium is distributable to the shareholders of the Company provided that immediately following the date on which a distribution or dividend is proposed to be paid, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

(b) Statutory reserve

Pursuant to applicable PRC regulations, the PRC subsidiaries of the Group are required to appropriate 10% of their after-tax profit (after offsetting prior year losses) to the statutory reserve until the reserve reaches 50% of the registered capital. The transfer to the reserve must be made before distribution of dividends to equity holders. The statutory reserve can be used upon approval by relevant authorities to offset the accumulated losses or to increase the registered capital of the subsidiary, provided that the balance of the reserve after such increase is not less than 25% of its registered capital.

(c) Other reserve

The other reserve of the Group represents the difference between the nominal value of the shares issued by the Company as a consideration to acquire Peak (Hong Kong) International Company Limited ("Peak Hong Kong") and the historical carrying value of Peak Hong Kong's share capital and share premium.

28 Reserves (continued)

(d) Exchange reserve

The exchange reserve of the Group comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations.

(e) Share-based payment reserve

The share-based payment reserve represents the fair value of services rendered and performance achieved by eligible persons to whom the Company has granted share options. The relevant services rendered and performance achieved are recognized in accordance with IFRS 2, "Share-based payment".

(f) Distributable reserve

The distributable reserve of the Company as at 31 December 2013 was RMB873,061,000 (2012: RMB1,134,311,000).

(g) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for its shareholders and benefits for other stakeholders by pricing products commensurately with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of an adjusted net debt-to-capital ratio. For this purpose, the Group defines net debt as interest-bearing loans less cash and capital is defined as the total equity. As at 31 December 2013, the Group had cash in excess of interest-bearing loans. It is the management's intention to restrict the ratio below 50% in the long run. To achieve this end, the Group may adjust the amount of dividends to be paid to shareholders, issue new shares or raise new debts.

Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

29 Financial risk management and fair values of financial instruments

Exposure to credit, liquidity, interest rate, currency, commodity price and business risks arise in the normal course of the Group's business. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risks are described below.

(a) Credit risk

The Group's credit risk is primarily attributable to trade and other receivables.

Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. The Group offers a revolving credit to each domestic distributor. This revolving credit sets a maximum amount that a distributor can owe the Group at any one time. In determining the amount of a revolving credit for a distributor, the Group takes into account factors including the credit history, prior year's purchases, estimated purchases for the current year, and funding need to expand the retail network of a distributor, and market conditions. The Group generally evaluates the revolving credit of a domestic distributor annually upon renewal of relevant distribution agreement.

29 Financial risk management and fair values of financial instruments (continued)

(a) Credit risk (continued)

At the end of the reporting period, 11% (2012: 22%) and 22% (2012: 37%) of the total trade receivables and bills receivable were due from the Group's largest customer and the five largest customers respectively.

As set out in note 19, at 31 December 2013, the Group had endorsed bank acceptance bills totaling RMB556,970,000 (2012: RMB305,880,000), which were derecognized as financial assets. The transferees have recourse to the Group in case of default by the issuing banks. In such cases, the Group would have to repurchase these bank acceptance bills at face value. The Group's maximum loss in case of default is RMB556,970,000 for these endorsed bills. Nonetheless, the Group only accepts bank acceptance bills issued by major banks in the PRC and considers that the credit risk associated with such bank acceptance bills to be insignificant.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated statement of financial position after deducting any impairment allowance.

(b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to approval by the head office when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer terms.

Set out below are the details of the remaining maturities of the financial liabilities of the Group and the Company in undiscounted cash flows (including interest payments computed using relevant contractual rates or, if floating, based on rates current as at the end of the reporting period) as at the end of the reporting period based on relevant contracts or the earliest days that the liabilities can be required for their settlements:

	The Group				The Company

29 Financial risk management and fair values of financial instruments (continued)

(c) Interest rate risk

The Group's interest rate risk arises primarily from bank loans. The interest rates of the Group's bank loans are disclosed in note 22.

Sensitivity analysis

The following interest rate sensitivity analysis for the Group's bank loans has been determined assuming that a change in interest rates had occurred at the end of the reporting period. The impact on the Group's after-tax profit is estimated as an annualized impact on interest expense of such a change in interest rates.

A general increase of 100 basis points (i.e. 1%) in interest rates, with all other variables held constant, would have decreased the Group's after-tax profit by an amount as follows:

	2013 RMB'000	2012 RMB'000
100 basis point increase	(7,662)	(4,962)

A general decrease of 100 basis points in interest rates would have had the equal but opposite effect on the after-tax profit by the amount shown above, with all other variables held constant.

(d) Currency risk

The Group is exposed to foreign currency risk primarily through bank deposits, bank loans, proceeds from export sales and settlement of accounts of overseas service providers that are denominated in currencies other than the functional currency of the operations to which they relate. The currencies giving rise to this risk are primarily US\$ and HK\$.

Included in assets and liabilities are the following amounts that are denominated in a currency other than the functional currency:

	2013 '000	2012 '000
Trade and other receivables		
US\$	36,537	10,924
HK\$	463	257
Cash and cash equivalents		
US\$	6,248	2,297
HK\$	7,284	1,305

29 Financial risk management and fair values of financial instruments (continued)

(d) Currency risk (continued)

Sensitivity analysis

The following foreign currency sensitivity has been calculated based on a major net foreign currency exposure of the Group as at the end of the reporting period, assuming 5% shift of RMB against US\$/HK\$ as follows:

A 5% strengthening of the RMB against US\$/HK\$ at 31 December 2013 would have increased/(decreased) the after-tax profit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant.

	2013 RMB'000	2012 RMB'000
Effect in RMB'000		
US\$	16,061	4,180
HK\$	(283)	4,416
AU\$	—	(1,605)

A 5% weakening of the RMB against US\$/HK\$ at 31 December 2013 would have had the equal but opposite effect on the after-tax profit by the amounts shown above, on the basis that all other variables remain constant.

(e) Commodity price risk

The major raw materials used in the production of the Group's products include cotton, polyester and rubber. The Group is exposed to price fluctuations of these raw materials which are influenced by global as well as regional supply and demand conditions. Price fluctuations of raw materials could adversely affect the Group's financial performance. The Group historically has not entered into any commodity derivative instruments to hedge the potential commodity price changes.

(f) Business risk

The Group's primary business is the design, manufacture and distribution of branded sports products including footwear, apparel and related accessories. The Group's financial results are influenced by the rapidity of its designs to be copied by competitors and reproduced at much lower prices, as well as by the Group's ability to continue to create new designs that appeal to consumers, maintain an extensive distribution network, manufacture sufficient quantities to meet customer demand, and dispose of excess inventories without excessive losses. Based on these factors, the Group may experience significant fluctuations in its future financial results.

(g) Fair values measurement

All financial instruments are carried at amounts not materially different from their fair values as at 31 December 2013 and 2012.

30 Commitments

(a) Capital commitments

Capital commitments outstanding as at 31 December 2013 that were not provided for in the consolidated financial statements were as follows:

	The Group	
	2013 RMB'000	2012 RMB'000
Contracted for	169,256	227,431
Authorized but not contracted for	13,568	23,575
	182,824	251,006

(b) Operating leases

The total future minimum lease payments under non-cancellable operating leases at the end of the reporting period are payable as follows:

	The Group	
	2013 RMB'000	2012 RMB'000
Within 1 year	11,916	6,798
After 1 year but within 5 years	18,785	17,746
After 5 years	90	3,436
	30,791	27,980

The Group leased a number of properties under operating leases. The lease periods range from one to more than ten years. Some of the leases have options to renew upon expiry. None of the leases include contingent rentals.

Notes to the Financial Statements

(Expressed in Renminbi unless otherwise indicated)

31 Material related party transactions

(a) Key management personnel compensation

Remuneration for key management personnel of the Group, including amounts paid to the Company's Directors as disclosed in note 7, is as follows:

	2013 RMB'000	2012 RMB'000
Short-term employee benefits	9,051	9,175
Equity-settled share-based payments	122	415
Contributions to defined contribution retirement plans	66	65
	9,239	9,655

The above remuneration is included in "staff costs" (note 5(b)).

(b) Lease of land and properties

During the year ended 31 December 2013, the Group leased certain land and properties from Fujian Peak Group Co., Ltd, which is controlled by controlling shareholders of the Company. The rental expenses for the year ended 31 December 2013 were RMB2,259,000 (2012: RMB2,259,000).

The Directors of the Company are of the opinion that the above related party transaction was conducted on normal commercial terms and in the ordinary course of business.

(c) Transactions and balances with related parties

During the year ended 31 December 2013, the Group had amounts due to entities controlled by the Company's controlling shareholders, Mr. Xu Jingnan and Mr. Xu Zhihua, with a maximum balance of RMB51,771,000.

As at the end of the reporting period, the Group had the following balance with the entity controlled by Mr. Xu Jingnan:

	31 December 2013 RMB'000	31 December 2012 RMB'000
Amount due to a related party	—	1,257

32 Immediate and ultimate controlling party

The Directors consider that the immediate holding companies of the Company as at 31 December 2013 are the three entities incorporated in BVI and controlled by Mr. Xu Jingnan, Mr. Xu Zhihua, Mr. Xu Zhida and Ms. Wu Tigao (the "Xu's family"). Accordingly, the ultimate controlling party of the Company as at 31 December 2013 is the Xu's family. These three entities in BVI do not provide financial statements for public use.

33 Non-adjusting events after the reporting Period

After the end of the reporting period, the Directors proposed a final and a special final dividend which are disclosed in note 10(a).

On 1 January 2014, the Company granted share options to all its independent non-executive directors and certain employees (including an associate of an executive director who is also a substantial shareholder of the Company). Further details of the share options are disclosed in note 25(e).

34 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 December 2013

Up to the date of issue of these consolidated financial statements, the IASB has issued a number of amendments, new standards and interpretations which are not yet effective for the year ended 31 December 2013 and which have not been adopted in these consolidated financial statements. These include the following which may be relevant to the Group:

	Effective for accounting periods beginning on or after
Amendments to IAS 32, <i>Financial instruments:</i> <i>Presentation — offsetting financial assets and financial liabilities</i>	1 January 2014
Amendments to IAS 36, <i>Impairment of assets:</i> <i>Recoverable amount disclosures for non-financial assets</i>	1 January 2014
IFRIC 21, <i>Levies</i>	1 January 2014
Annual improvements to IFRSs 2010–2012 cycle	1 July 2014
Annual improvements to IFRSs 2011–2013 cycle	1 July 2014
IFRS 9, <i>Financial instruments</i>	1 January 2015

The Group is in the process of making an assessment of what the impact of these amendments, new standards and new interpretations is expected to be in the period of initial application.

So far it has concluded that the adoption of them is unlikely to result in material impacts to the Group's results of operations and financial position.
