

## Powering the Future in Hong Kong

HK Electric Investments, constituted in January 2014, is the first fixed single investment trust in Hong Kong focusing purely on the energy sector. We are listed on the Main Board of The Stock Exchange of Hong Kong together with our stapled entity, HK Electric Investments Limited (collectively known as “HKEI”). Our trust is structured to enable us to maintain a single-minded focus on delivering stable distributions to unitholders, while ensuring we have the potential for sustainable long-term growth.

Our main operating company, The Hongkong Electric Company, Ltd (“HK Electric”), is a vertically integrated power utility responsible for the generation, transmission, distribution and supply of electricity to 569,000 customers in Hong Kong. Through HK Electric, we have a heritage of powering Hong Kong’s economic growth for over a century, investing in the most appropriate technologies and fuels to support the provision of affordable, reliable and clean electricity to both businesses and residential communities.

We are committed to continuing HK Electric’s long tradition of community engagement and support for the underprivileged, and to remaining a welcome and positive member of the Hong Kong community.
