### CHAIRMAN'S STATEMENT 主席報告

It is a great honour for me, on behalf of the board of directors (the "**Board**") of Honworld Group Limited (the "**Company**" or "**Lao Heng He**"), to present the first annual report of the Company and its subsidiaries (collectively, the "**Group**") for the financial year ended 31 December 2013. I would like to express, on behalf of the Board, our appreciation to all shareholders of the Company (the "**Shareholders**") and all our friends who have given their support to the development of Lao Heng He.

During 2013, the Company focused on expanding its primary business which yielded results at record levels, while we also devoted our resources for the preparation of the Company's initial public offering (the "**IPO**") in Hong Kong. This could not have been achieved without the support of the Shareholders and the concerted effort of all staff. On 28 January 2014 (the "**Listing Date**"), the shares of the Company (the "**Shares**") were successfully listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**"), which enabled Lao Heng He to enter into the international capital market and secure an advantageous position for its rapid development in the coming future.

### **BUSINESS REVIEW**

According to a report dated 29 March 2013 prepared by Euromonitor International in relation to the condiment and cooking wine market in the PRC (the "**Euromonitor Report**"), the Company is the largest manufacturer of cooking wine in the People's Republic of China (the "**PRC**" or "**China**"), with a retail market share of 13.8% in value terms and 5.8% in volume terms in 2012. The Company offers high-quality, healthy cooking wine and other condiments, including soy sauce and vinegar.

In 2013, the Group recorded significant growth in various grades of cooking wine, soy sauce and vinegar as compared to the previous year, due to the Company's sales strategy of having a better product mix, which captured the desirable consumer market segment and allowed the Company to have better pricing power, thereby achieving an outstanding growth in the financial results. For the year ended 31 December 2013, the Group's revenue reached approximately RMB530.4 million (2012: RMB337.1 million), representing an increase of approximately 57.3% over 2012.

本人非常榮幸地代表老恒和釀造有限公司 (「本公司」或「老恒和」)董事會(「董事會」),提 呈本公司及其附屬公司(統稱「本集團」)首份 截至二零一三年十二月三十一日止財年的年 報。在此,本人代表董事會,向本公司全體股 東(「股東」)和我們各界友人致以誠摯的謝意, 感謝你們對老恒和發展的鼎力支持。

二零一三年,本公司重點拓展其主營業務, 業績創下歷史新高,同時,我們亦投入資源籌 備本公司於香港首次公開發售(「首次公開發 售」)。本公司的成功上市,離不開各位股東的 支持和全體員工的通力協作。於二零一四年 一月二十八日(「上市日期」),本公司股份(「股 份」)成功在香港聯合交易所有限公司(「聯交 所」)主板上市,這使得老恒和能夠打入國際資 本市場,並為老恒和未來的快速發展搶得先 機。

### 業務回顧

根據Euromonitor International於二零一三年三月 二十九日編製的一份有關中國調味品及料酒 市場的報告(「Euromonitor報告」),本公司是 中華人民共和國(「中國」)最大的料酒生產商, 按金額及數量計,二零一二年本集團所佔零 售市場份額分別為13.8%及5.8%。本公司供應 優質、健康的料酒及包括醬油和醋在內的其 他調味品。

二零一三年,本集團各檔次的料酒、醬油及醋 均比上年度明顯增長,原因是本公司採取具 有優化產品組合的銷售策略,藉此把握理想 的消費者市場分部及使得本公司擁有更強的 議價能力,因而財務業績取得驕人的增長,截 至二零一三年十二月三十一日止年度,本集 團收入達到約人民幣530.4百萬元(二零一二 年:人民幣337.1百萬元),較二零一二年增長 約57.3%。

Profit before tax was approximately RMB207.2 million for the year ended 31 December 2013 (2012: RMB135.4 million), representing an increase of approximately 53.0% over 2012. Profit attributable to owners of the Company was approximately RMB174.2 million for the year ended 31 December 2013 (2012: RMB98.4 million), representing an increase of approximately 77.0% over 2012.

The Company's key product, cooking wine, continues to be our major source of revenue, representing approximately 74% of the total revenue. Due to the various key drivers of the PRC cooking wine market, including: (1) growing urban population and rising consumer purchasing power; (2) increasing health and food safety awareness; (3) gradual convergence of consumer taste and demand; and, (4) government policies favouring China's agricultural industry and grain production, demand for better-quality cooking wine has grown rapidly in the past few years. The Group has continued to increase its investments in production and used naturally-brewed yellow rice wine as a base to manufacture various grades of cooking wine. Notably, there is a significant upside on consumer demands for naturally-brewed and betterquality cooking wine. Therefore, the Company is optimistic about the long term outlook for cooking wine demand going forward, particularly in the higher-end cooking wine products.

However, the Company do face certain risks in its production and business development, potentially including: (1) the significant increase in the prices of raw materials (including rice, soy beans and wheat) which might significantly increase the production costs for the Company; (2) the changes in consumer habits for Chinese food might impact its sales; and (3) the pressure for exploring new markets might be larger than what the Company has expected.

To certain extent, cooking wine are commodity products. However, increasingly, Chinese consumers are choosing quality products with greater brand recognition, and consumers are attaching greater importance to quality and food safety, and becoming less price sensitive.

The Company's profitability is mainly affected by relevant domestic policies, its cost of sales, product structure and product mix as well as its product quality. In 2013, the increase in cost of sales is mainly due to the increase in sales revenue. The Company is actively managing its cost of sales, and enhancing its production and operation efficiency.

截至二零一三年十二月三十一日止年度,除 税前利潤為約人民幣207.2百萬元(二零一二 年:人民幣135.4百萬元),較二零一二年增加 約53.0%。截至二零一三年十二月三十一日 止年度,本公司擁有人應佔利潤為約人民幣 174.2百萬元(二零一二年:人民幣98.4百萬 元),較二零一二年增長約77.0%。

本公司的主要產品料酒繼續為我們的主要收 入來源,佔總收入約74%。由於推動中國料酒 市場增長的多個關鍵因素,包括:(1)城市人口 增加及消費者購買力提高;(2)健康及食品安 全意識增強;(3)消費者的口味及需求逐漸趨 同;及(4)政府實施有利於中國農業及糧食生 產的政策,過去幾年市場對優質料酒的需求 快速增長。本集團不斷加大生產投入,使用天 然釀造料酒作為基酒生產各檔次料酒。顯然, 天然釀造假的料酒對消費者有著很大的需 求發展空間。因此,本公司看好未來料酒需求 的長期前景,尤其是較高檔料酒產品。

然而,本公司在生產及業務發展過程中同樣 面臨一定風險,可能包括:(1)原材料(包括大 米、大豆和小麥)價格大幅上漲,將大幅影響 本公司的生產成本;(2)消費者消費中餐的習 慣的轉變,將影響其銷售;及(3)新市場的拓展 壓力超過本公司預計等等。

從某種程度上而言,料酒為商品。然而,越 來越多的中國消費者選擇市場品牌知名度較 高,品質優異的產品,相對於追求品質及食品 安全的人群而言,對價格的敏感度下降。

本公司的盈利能力主要受國內相關政策,其 銷售成本、產品結構及產品組合、產品品質等 因素影響。二零一三年,銷售成本上升乃主要 由於銷售收入增加。本公司正積極管理其銷 售成本及提升其生產和經營效率。

### **FUTURE PROSPECTS**

Looking ahead, despite the uncertainty in the global economic conditions, China's GDP is expected to continue its growth steadily. The Chinese Government is widely expected to reinforce its economic restructuring policies to expand domestic demand. Riding on China's strong economic growth, sustained growth in China's disposable income which coincides with an increase in consumer spending in the PRC and increasing health and food safety awareness which lead to consumer consumption upgrades, the Company believes its products trading under the "Lao Heng He" brand, will benefit from these factors.

Leveraging on the Company's well known heritage brand "Lao Heng He" which dates back to more than 130 years ago, extensive distribution network and strong relationship with key distributors, the Company is determined to capture the opportunities brought by these healthy market trends.

According to the Euromonitor Report, between 2008 and 2012, the PRC cooking wine market grew at a CAGR of 21.5% in terms of production value, and reached RMB5.8 billion in 2012. The historical retail sales value of the total PRC cooking wine market grew at a CAGR of 23.4% from 2008 to 2012. Cooking wine as one of the fastest growing segment in the overall PRC condiment market, the PRC cooking wine market, in terms of retail sales value, is expected to grow at a CAGR of 20.3% from 2012 to 2017 and reach approximately RMB10.6 billion by 2017, according to the Euromonitor Report. The Company targets to achieve and outperform industry growth rate, and aims to achieve strong growth in its revenue and profit in 2014.

The Company plans to expand its production capacity through additional production facilities at its headquarters in Huzhou City, Zhejiang Province. The addition of these facilities is expected to allow the Company to increase its stock of base wine to approximately 169 million liters by the end of 2014 fermentation season through increased production. The Company will also continue to improve its research and development capabilities to focus on standardization of production process, new product development and product improvement.

### 未來前景

展望未來,儘管全球經濟環境存在不明朗因 素,預期中國的國內生產總值將穩定維持其 增長。普遍分析預計中國政府將加強其經濟 重整政策,以擴大內需。憑藉中國經濟強勁增 長、中國可支配收入持續增長配合中國消費 者支出增長以及健康及食品安全意識增強導 致消費者消費升級,本公司認為其「老恒和」牌 產品將受惠於該等因素。

憑藉本公司可追溯到130多年前的著名老字號 「老恒和」、廣闊的經銷網絡及與主要經銷商的 牢固關係,本公司決心在健康的市場發展趨 勢下把握機遇。

根據Euromonitor報告,二零零八年至二零一 二年,中國料酒市場產值的年複合增長率為 21.5%,二零一二年產值達到人民幣58億元。 二零零八年至二零一二年,中國整個料酒市 場的過往零售額按年複合增長率23.4%增長。 根據Euromonitor報告,料酒作為中國總體調味 品市場增長最快的分類之一,二零一二年至 二零一七年中國料酒市場零售額預期按年複 合增長率20.3%增長,並於二零一七年達到約 人民幣106億元。本公司的目標為達到及超越 行業增長率,並於二零一四年努力實現其收 入及利潤的強勁增長。

本公司計劃透過本公司在浙江省湖州市總部 的新增生產設施擴大其產能。本公司預計該 等新增生產設施可以增加產量,在二零一四 年發酵季節末將其基酒庫存量提高至約169百 萬升。本公司亦將繼續提升研究及開發能力, 專注於生產流程標準化、新產品開發及產品 改良。

In 2014, the Company will focus on higher-end cooking wine products, and will endeavour to continue to streamline its cooking wine portfolio and develop natural and healthy products, to shape the "Lao Heng He" brand image of superior product quality and strengthen its competitiveness in the cooking wine market in China. In addition, the Company will also increase its efforts on the high quality soy sauce and vinegar products.

Furthermore, the Company will look for suitable merger and acquisition opportunities to enhance its production capacity and product portfolio, which will bring long term strategic and economic value to the Group. The Company is determined to become one of the leading condiment producers in China.

### **GOAL AND STRATEGY**

The Company aims to maintain its leadership in the cooking wine industry, to consolidate market share, and continue to expand the market share of its cooking wine products in the national markets (among key cities and consumers), to increase the Company's sales and market share in the naturally-brewed cooking wine industry.

The Company aims to introduce new condiment products through R&D and innovation and improvement of traditional techniques, and to increase the quality and profit margin for its condiment products. In addition, the Company will leverage on the opportunities presented by its successful IPO on the main board of the Stock Exchange and the stability in prices of agricultural products currently, to accelerate the process of increasing the stock of base wine in earthen jars, which is intended to guard against the risks of future price increase of agricultural and sideline products and prepare for enough base wine in earthen jars for its rapid development in the future.

### APPRECIATION

This is the result of years of hard work. We know that the listing of the Company is not the end of a goal, but the beginning of another stage, where new visions, new challenges and new opportunities co-exist. The Board and the management will always be thankful and work tirelessly to build Shareholders' value in the long run. 於二零一四年,本公司將專注於較高檔料酒 產品,並將致力於繼續精簡其料酒產品組合 及開發天然健康產品,為「老恒和」樹立優質產 品品牌形象,加強其在中國料酒市場中的競 爭力。此外,本公司亦將增加其對優質醬油及 醋製品的投入。

此外,本公司將積極物色合適的併購商機以 提升其產能及產品組合,從而為本集團帶來 長遠的策略及經濟價值。本公司決心成為中 國領先的調味品生產商之一。

### 目標及策略

本公司的目標為保持其在料酒行業的龍头 地位, 鞏固市場份額及繼續擴大其料酒產品 在全國市場(重點城市和消費者)的市場佔有 率,提高本公司銷售額及在天然釀造廚用酒 行業的市場份額。

本公司的目標為通過對傳統工藝的研發、創 新及改善,提升其調味品的品質和獲利空間。 此外,本公司將借助其成功於聯交所主板首 次公開發售的契機,利用現階段農產品價格 較為穩定的時機,加快提升壇裝基酒的儲備, 在預測未來農副產品價格上漲風險的同時, 做好未來快速增長壇裝基酒的儲備基礎。

Revenue from cooking wine products increased by 34.6% from RMB292.3 million for the year of 2012 to RMB393.4 million for the year of 2013, reflecting increases in all product lines except for our mass-market cooking wine products. The increase in sales volume for all cooking wine products except for our mass-market products primarily reflected an increase in demand for our higher-end products, especially the high-end and mid-range cooking wine products, such as the 15% ABV Cooking Wine (15度料酒), Steamed Fish Cooking Wine (蒸魚料酒), Scallion & Ginger Cooking Wine (蔥 薑料酒) and Lao Heng He Cooking Wine (老恒和料酒). This change in product mix of the cooking wine products contributed mainly to the increased revenue.

Revenue from the Group's soy sauce products increased by 696.1% from RMB12.8 million for the year of 2012 to RMB101.9 million for the year of 2013. The increase in sales of the Group's soy sauce products for the year of 2013 as compared to the year of 2012 primarily reflected an increase in sales volume and average selling prices for the Group's soy sauce products due to (i) the addition to the Group's distribution network of a leading soy sauce distributor, which helps to deepen our market penetration, especially in eastern China market which had high purchasing power for condiment products; and (ii) the Group's increasing focus on the production of higherend soy sauce, with an increasing demand for the Group's high-end soy sauce products with higher retail prices such as the new Premium Flavored Soy Sauce (鮮上鮮醬油).

Revenue from the Group's vinegar products increased by 52.7% from RMB9.3 million for the year of 2012 to RMB14.2 million for the year of 2013, which was mainly attributable to the growing market demand of the naturally-brewed vinegar, such as Crab Vinegar (蟹醋), Rose Rice Vinegar (玫瑰米醋) and Premium Zhejiang Vinegar (上品浙醋).

The Group's shift in focus to the cooking wine business affected the Group's other products, which decreased by 8.3% from RMB22.8 million for the year of 2012 to RMB20.9 million for the year of 2013.

The Company believes the strong performance of the Group's sales is largely contributed by (i) increasing recognition of the "Lao Heng He" ("老恒和") brand; (ii) growing consumer consciousness of food safety and preference for naturally-brewed cooking wine products which the Company introduced to the market; (iii) rising disposable income level in the PRC, and (iv) the Group's expansion of its distribution network which resulted in further market penetration.

料酒產品的收入由二零一二年的人民幣292.3 百萬元增加34.6%至二零一三年的人民幣 393.4百萬元,反映我們除平價料酒產品外的 所有產品類別銷量增加。我們除平價產品外 的所有料酒產品銷量增加,主要反映我們較 高檔產品的需求增加,尤其是高檔及中檔料 酒產品,如15度料酒、蒸鱼料酒、葱薑料酒及 老恒和料酒。料酒產品的產品組合調整是推 動收入增加的主因。

本集團醬油產品的收入由二零一二年的人民 幣12.8百萬元增加696.1%至二零一三年的人 民幣101.9百萬元。本集團二零一三年醬油產 品的銷售額較二零一二年增加,主要反映本 集團醬油產品的銷量及平均售價增加,原因 是(i)本集團的經銷網絡中增加了一名領先的醬 油經銷商,這有助於深化我們的市場滲透,尤 其是在對調味品擁有高購買力的華東市場; 及(ii)隨著市場對本集團零售價較高的高端醬油 產品(如新品鮮上鮮醬油)的需求不斷增加,本 集團增加對生產更高端醬油的重視。

本集團醋製品的收入由二零一二年的人民幣 9.3百萬元增加52.7%至二零一三年的人民幣 14.2百萬元,主要由於蟹醋、玫瑰米醋及上品 浙醋等天然釀造醋的市場需求不斷增加。

本集團將重心轉向料酒業務,影響了本集團 其他產品,由二零一二年的人民幣22.8百萬元 下降8.3%至二零一三年的人民幣20.9百萬元。

本公司認為本集團銷售額的強勁表現很大程 度上受惠於:(1)「老恒和」品牌的知名度日益上 升;(ii)消費者食品安全意識不斷提升,並更青 睞本公司引入市場的天然釀造料酒產品;(ii) 中國的可支配收入水平提升;及(iv)本集團拓 展其經銷網絡導致進一步市場滲透。

#### **Cost of Sales**

The Group's cost of sales increased by 50.8% from RMB144.2 million in 2012 to RMB217.4 million in 2013, reflecting increases in all major cost of sales components. The increase in cost of sales was mainly in line with the increase in sales revenue.

#### Gross Profit and Gross Profit Margin

As a result of the foregoing, the Group's gross profit increased by 62.3% from RMB192.9 million in 2012 to RMB313.1 million in 2013. The gross profit margin increased from 57.2% in 2012 to 59.0% in 2013, primarily contributed by the increase in the gross profit margin of soy sauce products with higher selling prices such as the Premium Flavored Soy Sauce (鮮上鮮醬油).

#### **Other Income and Gains**

Other income increased by 125.5% from RMB5.1 million in 2012 to RMB11.5 million in 2013. Other income consists primarily of subsidy received and gains from sales of materials. The increase in other income is primarily due to the RMB10.3 million subsidy received, partially offset by the decrease in interest compensation from RMB3.6 million to zero in 2013.

#### Selling and Distribution Expenses

Selling and distribution expenses primarily consist of advertising expenses, marketing expenses, travelling expenses, and salaries and wages for our sales employees.

The Group's selling and distribution expenses increased slightly from RMB24.1 million in 2012 to RMB25.7 million in 2013. The Group's selling and distribution expenses as a percentage of the Group's revenue decreased from 7.1% for 2012 to 4.8% for 2013, primarily reflecting the increase in revenue for the year of 2013. Despite the considerable increase in revenue, our selling and distribution expenses remained stable as the Group mainly adopted the distributorship model for its sales.

#### 銷售成本

本集團的銷售成本由二零一二年的人民幣 144.2百萬元增加50.8%至二零一三年的人民 幣217.4百萬元,反映所有主要銷售成分的成 本增加。銷售成本的增加乃主要由於銷售收 入的增加。

#### 毛利及毛利率

由於上述原因,本集團的毛利由二零一二年 的人民幣192.9百萬元增加62.3%至二零一三 年的人民幣313.1百萬元。毛利率由二零一二 年的57.2%增加至二零一三年的59.0%,主要 是因為具有較高零售價的鮮上鮮醬油等醬油 產品的毛利率上升。

#### 其他收入及收益

其他收入由二零一二年的人民幣5.1百萬元增 加125.5%至二零一三年的人民幣11.5百萬元。 其他收入主要包括已收補貼及銷售材料的收 益。其他收入增加主要是因為,已收補貼人民 幣10.3百萬元被利息補償由人民幣3.6百萬元 降低至二零一三年的人民幣零元部分抵銷。

#### 銷售及經銷開支

銷售及經銷開支主要包括廣告開支、營銷開 支、差旅開支及我們銷售員工的薪金及工資。

本集團的銷售及經銷開支由二零一二年的人 民幣24.1百萬元輕微增加至二零一三年的人 民幣25.7百萬元。本集團的銷售及經銷開支佔 本集團收入的百分比由二零一二年的7.1%下 降至二零一三年的4.8%,主要反映二零一三 年的收入增加。儘管收入大幅增長,惟我們的 銷售及經銷開支仍維持穩定,因為本集團就 其銷售主要採用了非直營模式。

#### **Administrative Expenses**

The administrative expenses increased by 223.6% from RMB22.9 million in 2012 to RMB74.1 million in 2013. This increase mainly reflected (i) research and development expenses of RMB42.8 million for new fermentation and processing methods of base wine and soy sauce to improve their nutrition and flavor; and (ii) listing expenses of RMB19.2 million.

#### **Finance Cost**

Finance cost increased by 13.5% from RMB15.5 million in 2012 to RMB17.6 million in 2013. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# 2. BASIS OF PREPARATION

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRSs"), which comprise all International Financial Reporting Standards, International Accounting Standards ("IASs") and Interpretations issued by the International Accounting Standards Board.

They have been prepared under the historical cost convention. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

#### **Basis of Consolidation**

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2013. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## 3.2 IMPACT OF ISSUED BUT NOT EFFECTIVE IFRSS (Continued)

IFRS 9 issued in November 2009 is the first part of phase 1 of a comprehensive project to entirely replace IAS 39 *Financial Instruments Recognition and Measurement*. This phase focuses on the classification and measurement of financial assets. Instead of classifying financial assets into four categories, an entity shall classify financial assets as subsequently measured at either amortised cost or fair value, on the basis of both the entity's business model for managing the financial assets. This aims to improve and simplify the approach for the classification and measurement of financial assets compared with the requirements of IAS 39.

The Group expects to adopt these new or revised IFRSs upon the mandatory effective dates and is in the process of making an assessment of the impact of these new and revised IFRSs on the Group's results of operations and financial position upon initial application. So far, the Group considers that these new and revised IFRSs are unlikely to have any significant impact on the Group's results of operations and financial position.

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Subsidiaries**

78

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(a) the contractual arrangement with the other vote holders of the investee;

## 3.2 已頒佈但尚未生效的國際 財務報告準則之影響(續)

於二零零九年十一月頒佈之國際財務報 告準則第9號為完全取代國際會計準則 第39號金融工具:確認及計量之全面計 劃第一階段之第一部分。該階段重點為 金融資產之分類及計量。金融資產不再 分為四類,而應根據實體管理金融資產 之業務模式及金融資產合同現金流量特 徵,於後續期間按攤銷成本或公平值計 量。此舉旨在改進和簡化國際會計準則 第39號規定之金融資產分類與計量方 式。

本集團預期於該等強制生效日期後採納 該等新訂或經修訂國際財務報告準則, 而目前正評估該等新訂及經修訂國際財 務報告準則於初次應用時會對本集團的 經營業績及財務狀況構成的影響。迄今 為止,本集團認為該等新訂及經修訂國 際財務報告準則不大可能對本集團的經 營業績及財務狀況構成任何重大影響。

# 3.3 主要會計政策概要

#### 附屬公司

附屬公司指由本公司直接或間接控制之 實體(包括結構性實體)。倘本集團能透 過其參與承擔或享有投資對象可變回報 之權利,並能夠向投資對象使用其權力 影響回報金額(即現有權利可使本集團 能於當時指揮投資對象之相關活動),即 代表獲得控制權。

倘本公司直接或間接擁有少於投資對象 大多數投票或類似權利的權利,則本集 團於評估其是否擁有對投資對象的權力 時會考慮一切相關事實及情況,包括:

(a) 與投資對象其他投票持有人的合約安排;

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Subsidiaries (Continued)

- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The results of subsidiaries are included in the Company's statement of profit or loss to the extent of dividends received and receivable. The Company's investments in subsidiaries that are not classified as held for sale in accordance with IFRS 5 are stated at cost less any impairment losses.

#### Impairment of Non-financial Assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made as at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/ amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Property, Plant and Equipment and Depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	5%
Machinery and equipment*	5% to 20%
Furniture and fixtures	20% to 331/3%
Motor vehicles	20%

\* Included in the machinery and equipment are earthen jars, for which the estimated useful lives are 20 years.

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

#### 物業、廠房及設備以及折舊

除在建工程外,物業、廠房及設備乃按 成本減累計折舊及任何減值虧損列賬。 物業、廠房及設備項目的成本,包括其 購買價及使該資產達至營運狀況及地點 作擬定用途之任何直接應佔成本。

物業、廠房及設備項目投產後所產生的 支出,如維修及保養費用,一般於產生 期間在損益表中支銷。於符合確認準則 的情況下,用於重大檢測的支出將於該 資產的賬面值中撥充資本,列作重置項 目。倘物業、廠房及設備的重要部分 不時更換,則本集團會將該等部分確認 為擁有特定可使用年限的個別資產,並 予以相應折舊。

折舊乃按物業、廠房及設備各項目的估 計可使用年限以直線法撇銷其成本至其 剩餘價值計算。就此目的所使用的主要 年率如下:

樓宇	5%
機器及設備*	5%至20%
傢俬及裝置	20%至331/3%
汽車	20%

機器及設備包括瓦壇,其估計可使用年 限為20年。

倘物業、廠房及設備項目的部分有不同 可使用年限,則該項目的成本以合理基 準在該等部分之間分配,而各部分分開 折舊。至少於各財政年度結束時,檢討 並在適當情況下調整剩餘價值、可使用 年限及折舊方法。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# Property, Plant and Equipment and Depreciation (Continued)

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents property, plant and equipment under construction, which are stated at cost less any impairment losses, and are not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

#### Intangible Assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

#### **Research and Development Costs**

All research costs are charged to the statement of profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalised and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Research and Development Costs (Continued)

Deferred development costs are stated at cost less any impairment losses and are amortised using the straight-line basis over the commercial lives of the underlying products not exceeding five to seven years, commencing from the date when the products are put into commercial production.

#### **Operating Leases**

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases.

Where the Group is the lessor, assets leased by the Group under operating leases are included in the non-current assets and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

#### **Investments and Other Financial Assets**

#### **Initial Recognition and Measurement**

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and availablefor-sale financial investments, as appropriate. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

#### Investments and Other Financial Assets (continued)

#### Subsequent Measurement

#### Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the statement of profit or loss. The loss arising from impairment is recognised in the statement of profit or loss in finance costs for loans and in other expenses for receivables.

#### **Derecognition of Financial Assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "passthrough" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Derecognition of Financial Assets (Continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

#### Impairment of Financial Assets

The Group assesses as at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### 取消確認金融資產(續)

本集團在轉讓其從資產收取現金流量的 權利或訂立轉付安排之後,將評估其有 否保留與擁有該資產相關的風險及回報 以及保留的程度。倘並無轉讓或保留資 產的絕大部分風險及回報,亦無轉讓資 產控制權,本集團將以本集團持續參與 之程度為限繼續確認所轉讓資產。在此 情讓的資產及相關負債按反映本集團所 保留的權利和義務的基準計量。

#### 金融資產減值

本集團於各報告期末評估是否有客觀跡 象顯示一項金融資產或一組金融資產出 現減值。倘初步確認後發生一項或多項 事件,且對可合理估計之金融資產」 組金融資產未來估計現金流量產生影響 時,則存在減值。減值證據可包括債務 人或一組債務人正經歷重大財務困難、 拖欠或拖慢利息或本息付款、彼等可能 會示估計未來現金流量有可計量之減少 (例如與拖欠有關之延遲或經濟狀況之 變動)。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Impairment of Financial Assets (Continued)

#### **Financial Assets Carried at Amortised Cost**

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in the statement of profit or loss.

#### 金融資產減值(續)

以攤銷成本列賬之金融資產 對於按攤銷成本列賬的金融資產,本集 團首先單獨評估個別重大的金融資產是 否存在減值,或共同評估非個別重大的 金融資產有否客觀減值跡象。倘本集團 釐定個別已評估金融資產無客觀減值跡 象,則有關資產不論是否重大,會計入 一組信貸風險特徵相若的金融資產,共 同作減值評估。對於個別作減值評估的 資產,倘其減值虧損會確認或繼續會確 認,則不會計入共同減值評估。

任何所發現減值虧損的金額按資產賬面 值與估計未來現金流量(不包括尚未產 生的未來信貸虧損)現值之差額計量。估 計未來現金流量現值按金融資產原實際 利率(即首次確認時計算的實際利率)折 現。

有關資產之賬面值可通過使用備抵賬 目作出抵減,而有關減值於損益表中確 認。利息收入於經扣減之賬面值中持續 產生,並採用計算減值虧損時用以折現 未來現金流量之利率累算。貸款及應收 款項連同任何相關撥備在預期日後不可 能收回且所有抵押品已變現或轉至本集 團時撇銷。

倘於其後期間之估計減值虧損之數額因 確認減值後發生之事件而增加或減少, 則先前確認之減值虧損可通過調整備 抵賬目而增加或減少。倘若撤銷於其後 收回,則收回金額計入損益表的其他開 支內。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Financial Liabilities**

#### **Initial Recognition and Measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or loans and other borrowings, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and other borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, an amount due to the ultimate holding company and interest-bearing bank and other borrowings.

#### Subsequent Measurement

The measurement of financial liabilities depends on their classification as follows:

#### Loans and Other Borrowings

After initial recognition, interest-bearing bank and other borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

#### 金融負債

初步確認及計量

金融負債於初始確認時乃分類為按公平 值計入損益之金融負債或貸款及其他借 款(倘適用)。

所有金融負債於初步確認時以公平值計 算,如為貸款及其他借款,則扣除直接 應佔交易成本。

本集團之金融負債包括應付貿易款項及 其他應付款項、應付最終控股公司款項 以及計息銀行及其他借款。

**其後計量** 金融負債之計量取決於其如下分類:

#### 貸款及其他借款

初步確認後,計息銀行及其他借款其後 以實際利率法按攤銷成本計量。若貼現 之影響並不重大,則按成本計量。有關 收益及虧損於負債取消確認時及透過實 際利率攤銷程序在損益表確認入賬。

攤銷成本於計及收購事項任何折讓或溢 價及屬實際利率不可分割部分之費用或 成本後計算。實際利率攤銷計入損益表 之財務費用內。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Derecognition of Financial Liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

#### **Offsetting of Financial Instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### **Cash and Cash Equivalents**

For the purpose of the consolidated statements of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the statements of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits which are not restricted as to use.

#### 對銷財務工具

倘有現行可強制執行之法律權利對銷已 確認金額,並且擬以淨額基準進行結算 或同時將資產變現及清償負債,方可將 金融資產及金融負債對銷,淨額於財務 狀況表呈報。

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

#### **Income Tax**

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

## 撥備

倘因過往事件而導致本集團須承擔法定 或推定責任,且日後大有可能因履行有 關責任而導致資源流失,而有關責任數 額能被可靠估計,則須就此作出撥備。

倘折算影響重大,則確認撥備之數額為 預期日後履行有關責任所需開支於報告 期末之現值。倘已折算之現值隨時間而 有所增加,則該等增幅將於損益表列作 融資成本。

#### 所得税

所得税包括當期税項及遞延税項。涉及 於損益以外確認之項目之所得税於損益 以外確認,即於其他全面收益或直接於 權益中確認。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Income Tax (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **Revenue Recognition**

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset;
- (c) rental income, on a time proportion basis over the lease terms; and
- (d) subsidy, when it is received.

遞延税項資產及負債乃根據於報告期 末已頒佈或實質上已頒佈之税率(及税 法),按預期於資產獲變現或負債償還期 間適用之税率計算。

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Employee Retirement Benefits**

As stipulated by the rules and regulations of the PRC, the Company's subsidiaries registered in the PRC are required to contribute to a statesponsored retirement plan for all its PRC employees at certain percentages of the basic salaries predetermined by the local governments. The state-sponsored retirement plan is responsible for the entire retirement benefit obligations payable to retired employees and the Group has no further obligations for the actual retirement benefit payments or other post-retirement benefits beyond the annual contributions.

The contributions are recognised as expenses when the Company consumes the economic benefit arising from service provided by an employee in exchange for employee benefits.

#### Early Retirement and Retirement Benefits

During the fiscal 2005 restructuring, the Group undertook the expense related to both the retirement and the early retirement schemes for the medical and social welfare of those early retired and retired employees as of 30 June 2005. The Group recognised the relevant estimated liabilities as well as charges to the statement of profit or loss once the Group undertook the obligations. These benefits are unfunded.

Where these schemes fall due more than 12 months after the statement of financial position, they shall be discounted using the appropriate discount rate, and carried at discounted amount as liabilities. The discount rate is determined using the yield rate of government bonds with similar terms at the date of the financial statements.

Actuarial gains or losses include the experience adjustment (the impact of difference between previous actuarial assumption and actual results) and the impact of changes on actuarial assumption. The actuarial gains or losses are recognised in other comprehensive income when incurred and will not be reclassified to profit or loss in a subsequent period.

## 3.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Employee Retirement Benefits (Continued)

Early Retirement and Retirement Benefits (Continued) Interest expense is charged to the statement of profit or loss which is derived from the discount rate determined at the commencement of the retirement scheme within an accounting period and the early retirement scheme multiplying with the average present value over the entire terms.

#### **Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### Dividends

Final dividends proposed by the directors are classified as a separate allocation of retained profits within the equity section of the statement of financial position, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

#### **Foreign Currencies**

These financial statements are presented in RMB, which is the Group's presentation currency. The functional currency of the Company is Hong Kong dollars while RMB is used as the presentation currency of the financial statements of the Company for the purpose of aligning with the presentation currency of the Group. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss, respectively).

The functional currencies of certain Hong Kong subsidiaries are currencies other than RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates prevailing at the end of the reporting period and their statements of comprehensive income are translated into RMB at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

#### Foreign Currencies (Continued)

For the purpose of the consolidated statement of cash flows, the cash flows of Hong Kong subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of Hong Kong subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

## 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

#### **Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

#### **Tax Provision**

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates the tax implications of transactions and tax provisions are made accordingly. The tax treatment of such transactions is assessed periodically to take into account all the changes in tax legislation and practices.

## 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

#### Judgements (Continued)

Deferred Tax Liabilities for Withholding Taxes

Deferred tax liabilities have not been established for income tax and withholding tax that would not be payable on certain undistributed earnings of the subsidiaries in Mainland China if the directors consider that the timing of the reversal of the related temporary differences in relation to the undistributed earnings of the subsidiaries in Mainland China can be controlled and such temporary differences will not be reversed in the foreseeable future. For those undistributed earnings of the subsidiaries in Mainland China that are considered to be repatriated and distributed by way of dividends, the related deferred tax liabilities have been recognised.

#### **Estimation Uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

(a) Useful Lives and Residual Values of Property, Plant and Equipment

In determining the useful life and residual value of an item of property, plant and equipment, the Group has to consider various factors, such as technical or commercial obsolescence arising from changes or improvements in production, or from a change in the market demand for the product or service output of the asset, expected usage of the asset, expected physical wear and tear, the repair and maintenance of the asset, and legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way. Additional depreciation is made if the estimated useful lives and/or the residual values of items of property, plant and equipment are different from the previous estimation. Useful lives and residual values are reviewed at each financial year end date based on changes in circumstances. The carrying amounts of the property, plant and equipment are disclosed in note 15.

於報告期末有關未來之主要假設及其他 估計之不確定性之主要來源,會使下一 個財政年度內的資產及負債賬面值引致 有重大調整的風險,並於下文描述。

物業、廠房及設備的可使用 (a) 年限及剩餘價值 為釐定物業、廠房及設備項目的可 使用年限及剩餘價值,本集團須考 慮多項因素,如因生產改變或改進 引致技術或商業過時、或因市場對 該資產的產品或服務輸出的需求 改變、該資產的預期使用情況、預 期實際損耗及損毀、該資產的維修 保養及對使用該資產的法律或類 似限制引致技術或商業過時。該資 產的可使用年限的估計乃基於本 集團以類似方式使用類似資產的 經驗。倘物業、廠房及設備項目的 估計可使用年限及/或剩餘價值有 別於先前的估計,則會作出額外折 舊。可使用年限及剩餘價值會於各 財政年度結束日期根據情況變動 進行檢討。物業、廠房及設備之賬 面金額披露於附註15。

## 4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

#### Estimation Uncertainty (Continued)

- (b) Impairment of Trade and Other Receivables The policy for provision for impairment losses of the Group is based on the evaluation of collectibility, the aged analysis of trade and other receivables and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.
- (c) Write-down of Inventories to Net Realisable value Write-down of inventories to net realisable value is made based on the estimated net realisable value of the inventories. The assessment of the provision required involves management's judgement and estimates on market conditions. Where the actual outcome or expectation in future is different from the original estimate, such differences will have impact on the carrying amounts of inventories and the write-down charge/write-back of inventories in the period in which such estimate has been changed.

#### (d) Early Retirement and Retirement Benefits

The Group has recognised the early retirement and retirement benefits as a liability. The initial recognition of early retirement and retirement benefits is measured at the best estimate of the expenditure required to settle early-retired and retired employees. When the Group determines the best estimate, it takes into account headcount changes of early-retired and retired employees, effect on future expenditure arising from inflation of prices and other factors. When selecting a proper discount rate, the Group takes into account the average period of future payment for early retirement and retirement benefits and other factors. The difference between the actuarial assumptions and actual results will have an impact on the relevant accounting estimation. Although management considered that the above assumptions are reasonable, any changes in assumptions may affect the amount of provision for early retirement and retirement benefits. The assumptions that the Group used in measuring the early retirement and retirement benefits are disclosed in note 26.

- (b) 貿易及其他應收款項之減值 本集團減值虧損撥備政策乃根據 可收回性評估、貿易及其他應收款 項之賬齡分析以及管理層之判斷 作出。於評估該等應收款項之最終 變現數額時須作出大量判斷,包 括各客戶現時之信譽及過往收回 歷史。倘本集團客戶之財務狀況惡 化,導致其付款能力減低,則可能 須作額外撥備。
- (c) 撇減存貨至可變現淨值 撇減存貨至可變現淨值按存貨的 估計可變現淨值為基準作出。管理 層須就撥備的評估因應市況作出 判斷和估計。倘日後的實際結果或 預期有別於最初的估計,有關差異 將會對存貨的賬面值造成影響,並 須於估計有變的期間內作出存貨 的撇減支出/撇回。

The weighted average number of ordinary shares in issue during the years ended 31 December 2013 and 2012 used in the basic earnings per share calculation is determined on the assumption that the 10,000,000 ordinary shares with a par value of US\$0.0005 each issued in connection with the incorporation of the Company on 4 December 2012 and the 365,000,000 shares with a par value of US\$0.0005 each issued in connection through capitalisation of the share premium account arising from the Listing of the Company on 28 January 2014 had been in issue since 1 January 2012.

#### 25. DEFERRED TAX LIABILITIES (Continued)

Pursuant to the Corporate Income Tax Law of the People's Republic of China, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

As at 31 December 2013, the Group has not recognised deferred tax liabilities of RMB20,532,000 (2012: RMB7,996,000) in respect of temporary differences relating to the unremitted profits of subsidiaries amounting to RMB205,323,000 (2012: RMB79,961,000), that would be payable on the distribution of these retained profits as the Company controls the dividend policy of these subsidiaries and it is probable that these profits will not be distributed in the foreseeable future.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

#### 34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank and other borrowings, other receivable and payables, and cash and cash equivalents. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and bills receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, credit risk and liquidity risk. The directors review and agree policies for managing each of these risks and they are summarised below.

#### **Interest Rate Risk**

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations.

The effective interest rates and terms of repayment of the interestbearing bank and other borrowings of the Group are set out in note 24 above.

The following table demonstrates the sensitivity to a reasonably possible change in RMB interest rates, with all other variables held constant, of the Group's profit before tax (through the impact of floating rate borrowings) during the reporting period.

#### 34. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

#### **Credit Risk**

The major concentration of credit risk arises from the Group's exposure to a substantial number of trade receivables, other receivables, time deposits, and cash and cash equivalents.

Trade receivables are typically unsecured and derived from revenue earned from customers in the PRC, which are exposed to credit risk. The Group has policies in place to ensure that the sales of products are made to customers with an appropriate credit limit, and has strict control over credit limits of trade and other receivables. In addition, the balance of trade receivables is monitored on an ongoing basis and the Group's exposure to bad debts is not significant. Further quantitative data in respect of the Group's exposure to credit risk arising from trade and other receivables are disclosed in notes 19 and 20 above.

Cash and time deposits are mainly deposited with registered banks in Mainland China. The Group has policies that limit its credit exposure to any financial institutions and management believes these financial institutions are of high credit quality.

The carrying amounts of trade receivables, other receivables, time deposits, and cash and cash equivalents included in the consolidated statement of financial position represent the Group's maximum exposure to credit risk in relation to its financial assets. The Group has no other financial assets which carry significant exposure to credit risk.
