Chairman's Statement

{{ The Mining and Mineral Trading Operations recorded an operating revenue of RMB191,133,000 with a gross profit of RMB23,481,000 and gross profit margin of approximately 12.3%. }}

Chen Yunhua

Chairman

On behalf of the board ("Board") of directors ("Directors") of Yue Da Mining Holdings Limited (the "Company"), I am pleased to present to the shareholders the results of the Company and its subsidiaries (the "Group") for the year ended 31st December, 2013 (the "Year").

FINANCIAL PERFORMANCE

Turnover and gross operating profit of the Group for the Year amounted to RMB191,133,000 and RMB23,481,000, representing a decrease of approximately 43.4% and 79.4%, respectively, over the year ended 31st December, 2012 ("2012"). Audited loss and total comprehensive expenses attribute to the owners of the Company for the Year amounted to RMB141,351,000 (2012: RMB230,293,000) and basic loss per share amounted to RMB15.44 cents for the Year.

Chairman's Statement

BUSINESS DEVELOPMENT

During the Year, the Group was principally engaged in exploration, mining and processing of metal minerals (the "Mining Operations") and (before end of May 2013) the operation of a toll road (the "Toll Road Operations").

Mining Operations

The nonferrous metal market was challenging during the Year due to the uncertainties of the global economy. The Group faced a general decline in the price of zinc, lead and gold during the Year. As a result, both revenue and segment results of Mining Operations have decreased.

During the Year, Tengchong Ruitu Mining and Technology Company Limited ("Tengchong Ruitu"), a subsidiary of the Company, completed the construction of tailings main warehouse. The construction was fully completed during the Year, thus securing the normal production of its processing plant for over 10 years in the future.

Baoshan Feilong Nonferrous Metal Co., Ltd. ("Baoshan Feilong"), a subsidiary of the Company, has further strengthened its effort in exploration activities and has made a smooth progress as planned.

In May 2013, Yaoan Feilong Mining Co., Ltd. ("Yaoan Feilong"), another subsidiary of the Company, having regard to (i) the decline of price of lead and silver in the past two years; and (ii) the fact that Yaoan Feilong has been making loss since 2011 and it is not likely to turnaround with profit within a short period of time, the Board has decided the suspension of the operations of Yaoan Feilong.

Zhen'an County Daqian Mining Development Co., Ltd. ("Daqian Mining"), another subsidiary of the Company in Shaanxi Province of the PRC was affected by further deterioration of the metal market and relatively lower grade of ores. The production of Daqian Mining has also been suspended.

On 30th June, 2010, the Group completed the acquisition of 70% equity interests in Tong Ling Guan Hua Mining Company Limited ("Tong Ling Guan Hua") which is the holder of mining rights of a gold mine and an exploration licence of an iron mine in Anhui Province, the PRC. During the Year, the performance of Tong Ling Guan Hua was affected by the deferral of the production plan and the decline in market price of gold during the six months ended 30th June, 2013, the Group recognized a compensation of approximately RMB24,394,000 in relation to the shortfall of performance. Tong Ling Guan Hua still contributed significant revenue and profit to the Group during the Year.

To maintain recurring sales and cashflows to the Group, four strategic co-operation agreements, each with a term of 10 years, were entered into by the Group with Zhuzhou Smelter Group Co. Limited ("Zhuzhou Smelter"), Yunnan Yuntong Zinc Alloy Company Limited ("Yunnan Yuntong"), Panzhihua Steel Group International Economic Trading Company Limited ("Panzhihua Steel") and Wugang Group Kunming Iron and Steel Company Limited, a subsidiary of Wuhan Iron and Steel (Group) Corp. ("Wugang"), details of which were disclosed in the announcements of the Company dated 21st November, 2008, 9th December, 2008 and 22nd December, 2009 respectively. The above agreements continued to be in force during the Year.

Chairman's Statement

PROSPECTS

The Group has from time to time sought to enhance its exploration and mining activities by identifying suitable exploration and mining methods, improve and enhance explosive and blasting technology by setting up appropriate explosive and blasting method in order to maximize explosive effects. Such measures aim at raising production capacity of the Group's existing mines as well as reducing its mining costs. To reduce cleansing and processing costs, the Group will further emphasis on technology improvements, optimize production processes of processing plant and maximize grade and recovery of ore concentrates.

Looking forward to 2014, the environment for the mining business is expected to be as difficult as in 2013. In 2014, on one hand, the Group's strategy is to realize its potential processing capacity as well as to further enhance its production processes and technology improvements for achieving cost efficiency. On the other hand, the Group is making preparations for an acquisition of peripheral mining rights with high potential at an appropriate time. At the same time, the Group target to capture opportunities for acquisition of projects with rich reserves, high quality, immense value-added potentials and quick cashflow returns, in order to allow the Group to further expand its scale of production, diversify into new profit streams and deliver higher returns to our shareholders.

APPRECIATION

Finally, I would like to take this opportunity to express my gratitude to the Directors, management personnel and all staff for their contributions to the development of the Group. Likewise, I would like to express my appreciation to the shareholders for their support. The Group is fully committed to do its best to bring better returns to the shareholders.

By order of the Board
Chen Yunhua
Chairman

Hong Kong, 27th March, 2014

Management Discussion and Analysis

The Mining Operations included the processing of such metal ore concentrates as zinc ore concentrates of 5,188.34 metal tons, lead ore concentrates (including silver) of 1,213.6 metal tons, iron ore concentrates of 111,311.62 tons and gold of 273.95 kilograms.

FINANCIAL HIGHLIGHTS

The Group recorded an operating revenue of RMB191,133,000 in the Year, representing a decrease of approximately 43.4% from RMB337,712,000 in 2012. Gross operating profit amounted to RMB23,481,000 in the Year, representing a decrease of approximately 79.4% as compared to RMB114,117,000 in 2012. The nonferrous metal market was challenging during the Year due to the uncertainties of the global economy. The Group faced a general decline in the price of zinc, lead and gold in the commodity market during the Year. Affected by the impairment of mining rights and property, plant and equipment of the Group of RMB116,768,000 and RMB19,215,000 respectively, audited loss and total comprehensive expense attributable to the owners of the Company for the Year amounted to RMB141,351,000 (corresponding period of last year: RMB230,293,000) and basic loss per share amounted to RMB15.44 cents for the Year.

DIVIDENDS

The Board did not recommend the payment of any final dividend for the Year (2012: nil).

Management Discussion and Analysis

BUSINESS REVIEW

Overview

The Group was principally engaged in the Mining Operations and (before end of May 2013) the Toll Road Operation. During the Year, the Mining Operations realized an operating revenue of RMB191,133,000 with a segment loss of RMB147,164,000, whereas the Toll Road Operation recorded a net operating revenue of RMB8,042,000 and a segment loss of RMB5,306,000.

Mining Operations

During the Year, the Mining Operations recorded an operating revenue of RMB191,133,000 (corresponding period of 2012: RMB337,712,000) with a gross profit of RMB23,481,000 (corresponding period of 2012: RMB114,117,000) and gross profit margin of approximately 12.3% (corresponding period of 2012: 33.8%).

The ores extracted during the Year amounted to 2,115,408 tons with a unit mining cost (excluding gold ores) of approximately RMB121.7 per ton (2012: RMB115.5 per ton) and a unit processing cost (excluding gold ores) of approximately RMB93.7 per ton (2012: RMB100.3 per ton). The Mining Operations included the processing of metal ore concentrates such as zinc ore concentrates of 5,188.34 metal tons, lead ore concentrates (including silver) of 1,213.6 metal tons, iron ore concentrates of 111,311.62 tons and gold of 273.95 kilograms. During the Year, the metal ore concentrates were sold at an average price (after tax) of RMB7,097.52 per metal ton for zinc ore concentrates, RMB11,169.15 per metal ton for lead ore concentrates (with silver content), RMB638.68 per ton for iron ore concentrates and RMB265.74 per gram of gold.

Toll Road Operation

Wen An Section of the National Highway 106 in Hebei Province (the "Wen An Section") is located in Langfang, Hebei Province and is in the proximity to Beijing. It has a toll collection station at Wen An. Annual average daily traffic (AADT) was 8,045 during the period from January to May 2013 (January 2012 to December 2012: 15,055). The operating revenue achieved RMB8,042,000 and recorded a loss of RMB5,306,000.

Upon the expiry of the operation rights of Wen An Section in May 2013, the Group ceased the Toll Road Operation.

Management Discussion and Analysis

Impairment Losses on Assets

During the Year, the Mining Operations segment recorded an impairment losses on mining rights and property, plant and equipment of RMB116,768,000 and RMB19,215,000 respectively, on the related assets of certain subsidiaries which are engaging in mining and processing of zinc, lead and silver and located in Yunnan Province and Shaanxi Province of the PRC, due to (1) continuing decline in the price of zinc and lead; and (2) the suspension of the operations of Yaoan Feilong in view of the decline in market price of lead and silver and the loss making operational conditions.

Acquisition of 95% interests in Tong Ling Renewable

On 13th May, 2013, Tong Ling Guan Hua, a non-wholly owned subsidiary of the Company, entered into a conditional agreement to acquire 95% equity interest of Tong Ling Guan Hua Renewable Energy Company Limited (“Tong Ling Renewable”) for a consideration of RMB12 million. Tong Ling Renewable is principally engaged in the processing and sale of tailings and leach residue of gold ores. The tailings and residues remained after the mining and processing of gold ores by Tong Ling Guan Hua are currently used by Tong Ling Renewable for its further processing and sale and generate further revenue for the Group. The acquisition of Tong Ling Renewable was completed during the Year.

Proposed investment in a Vietnam slag factory

On 21st January, 2013, the Company announced that Yue Da Mining Limited (“YDM”), a wholly owned subsidiary of the Company, entered into the following agreements:

- (i) a conditional subscription agreement (“Subscription Agreement”) for the subscription of 60% (as enlarged upon completion of the Subscription Agreement) of the issued share capital of Everwise Technology Limited (“Everwise”) at US\$6 million; and New Aims Holdings Limited (“New Aims”) shall subscribe 40% (as enlarged upon completion of the Subscription Agreement) of the issued share capital of Everwise at US\$4 million;
- (ii) a conditional loan agreement to grant to Mineral Land Holdings Limited (“Mineral Land”) a term loan facility up to US\$16 million for a term of one year, which carries a fixed-sum of US\$1 million interest; and
- (iii) a call option deed pursuant to which Solid Success International Limited (“Solid Success”) has granted an option to YDM to enter into a sale and purchase agreement to sell (a) the entire issued share capital of Mineral Land and (b) the benefit of shareholder’s loan from Solid Success to Mineral Land at not more than US\$36 million (subject to adjustment).

Management Discussion and Analysis

Upon completion of the Subscription Agreement, the Company will indirectly held a majority interest in a slag factory in Vietnam (through Everwise).

To enjoy the benefit from possible recovery of slags price at a minimal cost, on 17th October, 2013, YDM entered into a call option agreement (“Call Option Agreement”) with New Aims. Under the Call Option Agreement, New Aims has granted an option to YDM to acquire 35% of the issued share capital of Everwise during the period from the completion of the Subscription Agreement to 31st December, 2014 at a consideration of US4 million at an option premium of HK\$100.

Please refer to the circular of the Company dated 17th April, 2013 and the announcement of the Company dated 17th October, 2013 for details of the above transactions. As at the date of this announcement, the completion of the Subscription Agreement has not taken place.

Proposed acquisition of the entire equity interests in a Vietnam mining company

On 5th September, 2013, the Company announced that YDM entered into a conditional sale and purchase agreement to acquire 100% equity interests and related shareholder’s loan of Expert Union Investments Limited and Sky Modern Investments Limited (“Target Companies”) at a consideration of US34 million (subject to adjustment) (“Acquisition Agreement”). The principal asset of the Target Companies is 100% equity interests in Sao Mai Joint Stock Company (“Sao Mai”), a Vietnam company principally engaged in the exploration of the mine which contain ilmenite, zircon, rutile and monazite ore deposits located in Hong Phong Ward and Hoa Thang Ward, Bac Binh District, Binh Thuan Province, Vietnam, which covers an aggregate site area of not less than 320 hectares, where the mining license in respect of which is to be held by Sao Mai.

Please refer to the announcement of the Company dated 5th September, 2013 for details of the above transaction. As at the date of this announcement, the completion of the Acquisition Agreement has not taken place.

Disposal of 49% equity interests in Liangshan Prefecture Yuechuan Mining Co., Limited (“Yuechuan Mining”)

On 27th May, 2013, Yue Da Pingchuan Limited, a wholly owned subsidiary of the Company, entered into a conditional sale and purchase agreement for the disposal of 49% equity interest in Yuechuan Mining for a consideration of RMB56.99 million. Upon completion of such disposal, Yuechuan Mining will cease to be a subsidiary of the Company. As at the date of this announcement, due to the requests for further information by the commerce department and other relevant authorities which have not yet been provided by the purchasers, the disposal is not yet completed.

Management Discussion and Analysis

Prospect

As mentioned in the 2013 interim report of the Company, the environment for the mining business in the second half of 2013 was as difficult as in the first half of 2013. Nevertheless, the Group has from time to time sought to enhance its exploration and mining activities by identifying suitable exploration and mining methods, improving and enhancing explosive and blasting technology by setting up appropriate explosive and blasting method in order to maximize explosive effects. Such measures aim at raising production capacity of the Group's existing mines as well as reducing its mining costs. To reduce cleansing and processing costs, the Group will further focus on technology improvements, optimize production processes of processing plant and maximize grade and recovery of ore concentrates. Through the completion of tailing main warehouse of Tengchong Ruitu, the smooth progress made by Baoshan Feilong in its exploration activities as planned and the entering of the long-term strategic co-operation agreements with Zhuzhou Smelter, Yunnan Yuntong, Panzhihua Steel and Wugang, the Group has built a concrete foundation to have steady cash flow and reasonable level of profit. Tong Ling Guan Hua has also contributed significant revenue and profit to the Group. Meanwhile, the optimization and technology improvement of its operation flow is in progress.

As mentioned in the paragraphs headed "Proposed investment in a Vietnam slag factory" and "Proposed acquisition of the entire equity interests in a Vietnam mining company" above, the Company proposed to invest in ilmenite, rutile, zircon and monizate mine and slag factory in Vietnam. The Board believes that such proposed investments will diversify the revenue stream of the Group and have significant contribution to the performance of the Group in the future.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from 4th June, 2014 to 12th June, 2014, both days inclusive, during which period no transfer of shares in the Company will be registered. In order to determine the identity of the shareholders of the Company who are entitled to attend and vote at the annual general meeting (the "AGM") of the Company to be held on 12th June, 2014, all transfer of shares in the Company accompanied by the relevant share certificates must be lodged with the Company's branch shares registrar in Hong Kong, Hong Kong Registrars Limited at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong not later than 4:30 p.m. on 3rd June, 2014.

Notice of the AGM will be published and despatched to the shareholders of the Company in the manner as required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited ("Listing Rules") in due course.

Corporate Governance Report

The Company also maintains on its website (www.yueda.com.hk) an updated list of its Directors identifying their roles and functions and whether they are independent non-executive Directors. Members of the Board, with different backgrounds and possessing different expertise, have extensive experience in corporate planning and operation management, capital market, financial accounting, auditing, geology and so forth as a whole.

The Company has received, from each of the independent non-executive Directors an annual confirmation of his/her independence pursuant to Rule 3.13 of the Listing Rules. The Company considers that all the independent non-executive Directors are independent.

There is no relationship (including financial, business, family and other material/relevant relationship) among the members of the Board (including between the chairman and the Chief Executive).

The Company encourages the Directors to participate in the continuous professional development programme to develop and update their knowledge and skills to ensure that they are equipped with all information and can continue to contribute to the Board when required. The Company is responsible for the costs of such programme. During the Year, all Directors are committed to comply with Code A6.5 and have attended training on topics such as corporate governance and inside information disclosures.

The Directors have also provided the Company with a record of training they received during the Year. To indemnify Directors and officers of the Company against all costs, charges, losses, expenses and liabilities incurred by them in the execution of and discharge of their duties or in relation thereto, the Company has arranged insurance for this purpose.

CHAIRMAN AND CHIEF EXECUTIVE

Pursuant to the Code, the roles of chairman and chief executive should be separated and should not be performed by the same individual so as to ensure a balance of power and authority and that power is not concentrated in any one individual.

The functions of the Chairman and the chief executive of the Company are clearly segregated. The Chairman of the Board, Mr. Chen Yunhua, is responsible for providing leadership for the Board. His main responsibility is to ensure that the Board works effectively and that all key and appropriate issues are discussed by it in a timely manner. The Chairman is also responsible for ensuring that good corporate governance practices and procedures are established and followed. The Chairman is also responsible for ensuring appropriate steps be taken to provide effective communication with the shareholders and that the views of shareholders are communicated to the Board as a whole.

The present chief executive of the Company, Mr. Dong Li Yong, is responsible for managing the business operations and general operations of the Company, implementing significant strategies of the Board and making decisions regarding daily operations of the Company.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as provided in Appendix 10 to the Listing Rules. All Directors of the Company, in response to the specific enquiries made by the Company, confirmed that they have complied with the requirements set out in the Model Code throughout the Year.

Corporate Governance Report

BOARD COMMITTEES

Audit Committee

Pursuant to the Code, a board of directors should establish formal and transparent arrangements for considering how it will apply the financial reporting and internal control principles and for maintaining an appropriate relationship with the company's auditors. The audit committee established by an issuer pursuant to the Listing Rules should have clear terms of reference.

The Board has established the Audit Committee. As a standing committee of the Board, the Audit Committee is mainly responsible for monitoring the completeness of the financial statements and regular reports issued by the Company and reviewing the financial control, internal control and risk management system of the Company. The members of the Audit Committee comprised Ms. Leung Mei Han and Mr. Cui Shuming, all being independent non-executive Directors, and Mr. Qi Guangya, a non-executive Director, with Ms. Leung Mei Han as the chairman of the Audit Committee.

Corporate Governance Report

The terms of reference of the Audit Committee setting out the committee's authority and duties are available from the Company's website.

The main duties of the Audit Committee include, but not limited to:

- (1) to be responsible for making recommendations to the Board on the appointment, re-election and removal of the external auditor, to approve the remuneration and terms of engagement of the external auditor, and to handle any questions on resignation or dismissal of any relevant auditor;
- (2) to review and monitor the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standard. The Audit Committee should discuss with the auditor the nature and scope of the audit and reporting obligations before the audit commences;
- (3) to develop and implement policy on the engagement of an external auditor to supply non-audit services and to report to the Board, identifying any matters in respect of which it considers that action or improvement is needed and making recommendations as to the steps to be taken;
- (4) to monitor the integrity of the financial statements, annual report and accounts and interim report and to review significant financial reporting opinions contained therein;
- (5) to review the Company's financial control, internal control and risk management systems;
- (6) to discuss the internal control system with the management and ensure that management has discharged its duty in establishing an effective internal control system;
- (7) to consider any findings of major investigations of internal control matters and management responses as delegated by the Board or on its own initiative;
- (8) to review the Group's financial and accounting policies and practices;
- (9) to review the external auditor's management letter to the management of the Company, any material queries raised by the auditor to the management in respect of accounting records, financial accounts or systems of control and management's response;
- (10) to ensure that the Board will provide a timely response to the issues raised in the management letter from the external auditor to the management; and
- (11) to report to the Board on the matters set out in the Code; and consider other topics, as defined by the Board.

The Audit Committee held two meetings during the Year, at which the Audit Committee reviewed the annual report and interim report of the Company and matters relating the connected transactions and made recommendations to the Board. The Audit Committee also reviewed the internal control system of the Company. The Board and the Audit Committee concurred in their opinions regarding the election and appointment of the external auditor.

Corporate Governance Report

Remuneration Committee

The Company has set up the Remuneration Committee with written terms of reference, whose members are currently Mr. Cui Shuming (Chairman of the Remuneration Committee, an independent non-executive Director), Mr. Han Runsheng (an independent non-executive Director) and Mr. Dong Li Yong (an executive Director). Regular meetings are held by the committee to review and discuss matters relating to the remuneration policy, remuneration levels and the remuneration of executive Directors.

The terms of reference of the Remuneration Committee setting out the committee's authority and duties are available in the Company's website.

The principal role of the Remuneration Committee is to provide advice and recommendation to the Board on the remuneration package of Directors, on any specific remuneration package with reference to market conditions, performance of the Group and the individuals against present goals and targets as set by the Board from time to time, and if necessary, on any compensation policy for termination of office of Directors.

The Remuneration Committee held one meeting during the year ended 31 December 2013, with all committee members attended the meeting. In the meeting, the Remuneration Committee reviewed and recommended (i) the remuneration package of Directors and senior management; and (ii) adjustment of the fees for certain directors and senior management.

Nomination Committee

The Company has set up the Nomination Committee with written terms of reference, whose members are currently Mr. Cui Shuming (chairman of the Nomination Committee, an independent non-executive Director), Ms. Leung Mei Han (an independent non-executive Director), Mr. Liu Yongping (an independent non-executive Director) and Mr. Dong Li Yong (an executive Director). Duties of the Nomination Committee include reviewing the Board composition and identifying and nominating candidates for appointment to the Board such that it has the relevant blend of skills, knowledge and experience.

The terms of reference of the Nomination Committee setting out the committee's authority and duties are available in the Company's website.

The principal duties of the Nomination Committee are as follows:

1. reviews the structure, size and composition (including skills, knowledge and experience) of the Board at least annually and makes recommendations on any proposed changes to the Board to complement the Company's corporate strategy;

3. assesses the independence of the Independent Non-executive Directors; and
4. makes recommendations to the Board on the appointment or re-appointment of Directors and succession planning for Directors, in particular the chairman and the chief executive.

During the Year, a meeting was held to (i) review the existing structure, size and composition of the Board; (ii) confirm independence of independent non-executive Directors; and (iii) make recommendation to the Board on the proposed re-election of the retiring Directors at the forthcoming annual general meeting.

Corporate Governance Report

Internal controls

Pursuant to the Code, a board of directors should ensure that the company maintains sound and effective internal controls to safeguard shareholders' investment and company's assets. The Board has conducted a review on the efficiency of the Group's internal control systems, including financial, operation and compliance control and risk management procedures. The Board authorised the financial controller of the Company to set up the scope of review and work timetable of the internal control system under the supervision of the Audit Committee, to seek help from a consultancy firm in respect of the designated scope as deemed necessary by the Audit Committee, to engage a consultancy firm to assist in reviewing the internal control system within the budget approved by the Board and to report the contents and results of such review to the Board.

The Company has not set up a specialised internal control department, but it has required its financial department to specifically take up the responsibility of reviewing the internal control system of the Group.

The Board believes that the Group is responsible to improve the internal control system continuously in order to give heed to the risk of the deficiency in the operating system, if any, with an aim to achieve the Group's objectives.

Investors' Relations and Communication with Shareholders

Pursuant to the Code, a board of directors should endeavour to maintain an on-going dialogue with shareholders and, in particular, to communicate through annual general meetings with shareholders and encourage their participation. The company should regularly inform shareholders of the procedure for voting by poll and ensure compliance with the requirements about voting by poll contained in the Listing Rules and the constitutional documents of the company.

The Company, the Board and the management place high regard on the opinions and needs of shareholders.

The Company attempts to enhance the communication with its shareholders through publishing interim and annual results and reports and press releases as well as announcing publicly its latest developments on its website (www.yueda.com.hk). Shareholders may also receive the latest information released by the Company electronically. The annual general meeting of the Company is a communication channel between the shareholders and the Board members, including independent non-executive Directors and the senior management. The chairman of the Board and chairmen of each committee shall try their best to attend the meeting to answer questions raised by the shareholders. During the Year, the Company held two general meetings (including the 2012 AGM), at which a separate resolution was proposed in respect of each motion.

The procedures for and the rights of shareholders to demand for a poll and details of the proposed resolutions were disclosed in the circular sent to shareholders prior to each of the general meeting.

The Company is committed to ensure that it is fully compliant with the disclosure obligations stipulated under the Listing Rules and other applicable laws and regulations, and that all shareholders of the Company and potential investors have an equal opportunity to receive and obtain externally available information released by the Group.

The Company's share option scheme (the "Scheme") was adopted pursuant to a resolution passed on 9th June, 2011 for the primary purpose of providing incentives or rewards to selected participants for their contribution to the Group. Under the Scheme, the Directors may, at their discretion, invite any person belonging to any of the following classes of participants to take up options to subscribe for shares in the Company:

- (i) any employee (whether full time or part time) of the Company, any of its subsidiaries or any entity in which the Group holds an equity interest ("Invested Entity"), including any executive Director of the Company, any of such subsidiaries or any Invested Entity;
- (ii) any non-executive Directors (including independent non-executive directors) of the Company, any of its subsidiaries or any Invested Entity;
- (iii) any supplier of goods or services to any member of the Group or any Invested Entity;
- (iv) any customer of the Group or any Invested Entity;
- (v) any person or entity that provides research, development or other technological support to the Group or any Invested Entity;
- (vi) any shareholder of any member of the Group or any Invested Entity or any holder of any securities issued by any member of the Group or any Invested Entity;
- (vii) any adviser (professional or otherwise) or consultant to any area of business or business development of any member of the Group or any Invested Entity; and
- (viii) any other group or classes of participants from time to time determined by the directors as having contributed or may contribute by way of joint venture, business alliance or other business arrangement to the development and growth of the Group,

and, for the purposes of the Scheme, the options may be granted to any company wholly owned by one or more persons belonging to any of the above classes of participants. For the avoidance of doubt, the grant of any options by the Company for the subscription of shares in the Company or other securities of the Group to any person who fall within any of the above classes of participants shall not, solely by itself, unless the directors otherwise determine, be construed as a grant of option under the Scheme.

The basis of eligibility of any of the above classes of participants to the grant of any options shall be determined by the directors from time to time.

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share option scheme of the Group must not in aggregate exceed 30% of the relevant class of securities of the Company in issue from time to time. Unless with prior approval from the Company's shareholders, the total number of shares in respect of which options might be granted at the same time under the Scheme and any other share option scheme of the Group was not permitted to exceed 10% of the shares of the Company in issue at the date of adoption of the Scheme (i.e. on 9th June, 2011, the 10% limit being 68,665,195 shares of the Company).

Directors' Report

Without prior approval from the Company's shareholders, the number of shares in respect of which options may be granted to any participant in any 12-month period is not permitted to exceed 1% of the shares of the Company in issue at any point in time. Options granted to directors, chief executives or substantial shareholders of the Company or any of their respective associates must be approved by independent non-executive Directors of the Company (excluding any independent non-executive Director who is the grantee of the options). Options granted to substantial shareholders or independent non-executive Directors or any of their respective associates in the 12-month period up to and including the date of such grant in excess of 0.1% of the shares of the Company in issue and with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

The subscription price for shares under the Scheme shall be a price determined by the directors, but shall not be less than the higher of (i) the closing price of shares as stated in the Stock Exchange's daily quotations on the date of the offer for grant; (ii) the average closing price of shares as stated in the daily quotations of the Stock Exchange for the five business days immediately preceding the date of the offer for grant; and (iii) the nominal value of the shares.

Further particulars and details of movements of the Scheme are set out in Note 35 to the consolidated financial statements.

ARRANGEMENTS TO PURCHASE SHARES OR DEBENTURES

Other than the Company's Scheme disclosed above, at no time during the Year was the Company, or any of its holding companies, subsidiaries and fellow subsidiaries, a party to any arrangement to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate. Further, save for the Scheme, the Group had not issued or granted any convertible securities, options, warrants or other similar rights during the year. As at 31st December, 2013, the Group had no redeemable securities.

DIRECTORS' INTERESTS IN CONTRACTS OF SIGNIFICANCE

No contracts of significance, to which the Company, or any of its holding companies, subsidiaries and fellow subsidiaries was a party and in which a Director of the Company had a material interest, whether directly or indirectly, subsisted at the end of the Year or at any time during the Year.

CONNECTED TRANSACTIONS

The following are the continuing connected transactions that took place during the Year ended 31st December, 2013 and which were not exempted under Rule 14A.31, Rule 14A.33 or Rule 14A.65 of the Listing Rules.

Tenancy agreement (“HK Office Tenancy Agreement”) with Yue Da HK and Yue Da Enterprise (Group) H.K. Co. Ltd. (“Yue Da Enterprise”)

On 21st March, 2013, the Company (as tenant) entered into the HK Office Tenancy Agreement with Yue Da HK (as landlord) for renting the Company's office in Hong Kong for a term of three years from 1st January, 2013 to 31st December, 2015. The rental payable to Yue Da HK is HK\$250,000 per month (excluding rates, management fees and utility charges). Yue Da HK is a controlling shareholder of the Company and accordingly is a connected party. Further, the Company has, on the same date, also entered into two tenancy agreements with Yue Da HK and Yue Da Enterprise for staff quarter purpose, each for a term of three years from 1st January, 2013 to 31st December, 2015 and at a monthly rental of HK\$25,000 and HK\$20,000, respectively together with the HK Office Tenancy Agreement, collectively as the “Tenancy Agreements”. Yue Da Enterprise is a fellow subsidiary of the Company and deemed to be a connected party. During the Year ended 31st December, 2013, the total rentals paid by the Company to Yue Da HK and Yue Da Enterprise are HK\$3,300,000 (equivalent to RMB2,640,000) and HK\$240,000 (equivalent to RMB192,000), respectively. These transactions constituted continuing connected transactions of the Company and are subject to announcement and reporting requirements under Chapter 14A of the Listing Rules, details of which were disclosed in the announcement of the Company dated 21st March, 2013.

Pursuant to Rule 14A.38 of the Listing Rules, the Board of Directors engaged the auditor of the Company to perform certain agreed-upon procedures in respect of the continuing connected transactions of the Group. The auditor has reported the factual findings on these procedures to the Board of Directors. The independent non-executive Directors have reviewed the continuing connected transactions and the report of the auditor and have confirmed that the transactions were entered into by the Group in the ordinary course of its business; on normal commercial terms, or on terms no less favourable than terms available to or from (as the case may be) independent third parties, and in accordance with the terms of the agreements governing such transactions that were fair and reasonable and in the interests of the shareholders of the Company as a whole.

Details of the above continuing connected transactions and other discloseable connected transactions are set out in Note 43 to the consolidated financial statements.

Directors' Report

CONTROLLING AND SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTEREST

TO THE MEMBERS OF YUE DA MINING HOLDINGS LIMITED
(incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Yue Da Mining Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 36 to 115, which comprise the consolidated statement of financial position as at 31st December, 2013, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITY- CONTINUED

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31st December, 2013, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Consolidated Statement of Changes in Equity

For The Year Ended 31st December, 2013

Notes:

- (i) The non-distributable reserves represent statutory reserves appropriated from the profit after tax of the Company's subsidiaries established in the People's Republic of China (the "PRC") under the PRC laws and regulations and capital deficit arising from capital injections by the Group into the Company's subsidiaries in the PRC in the form of foreign currencies.
- (ii) The special reserve represents the difference between the nominal value of the share capital issued by the Company and the nominal value of the share capital of the subsidiaries acquired pursuant to the group reorganisation in 2001 and the surplus arising on the capitalisation of an amount payable to a fellow subsidiary as part of the group reorganisation.
- (iii) The capital contribution represents deemed contribution from (distribution to) the ultimate parent and a shareholder arising from:
 - (a) compensation in relation to the termination of the acquisition of Balin Zuo Qi Hong Ling Lead and Zinc Mine ("Hong Ling") paid on behalf of the Group without any consideration by Yue Da Enterprise (Group) HK Ltd. ("Yue Da Enterprise"), which is a fellow subsidiary of the Company and a related party as it is a subsidiary of Jiangsu Yue Da Group Company Limited ("Jiangsu Yue Da"). In 2008, a settlement deed was entered with the vendor of Hong Ling and the Group agreed to pay compensation of RMB7,827,000 for termination of the acquisition. The entire amount was subsequently paid by Yue Da Enterprise for the Group without any consideration, and was recognised as a deemed capital contribution from the ultimate parent;
 - (b) non-current interest-free loan granted and extension of their repayment date by Yue Da Enterprise, and their early repayment. In prior periods, the difference between the nominal value and the fair value on inception date and the difference between the carrying value and the fair value on extension date of the non-current interest-free loan were recognised as deemed contribution by the ultimate parent, and the difference between the carrying value and nominal value on the date of early repayment of the non-current interest-free loan was recognised as deemed distribution to the ultimate parent;
 - (c) promissory notes issued and extension of their repayment dates by an affiliate of Mr. Yang Long. Mr. Yang Long had significant influence over the mining subsidiaries of the Company and therefore he and his affiliates were related parties. This relationship ceased from 1st October, 2010 onwards. Mr. Yang Long was and continues to be a shareholder of the Company. In prior periods, the difference of the nominal value and the fair value on inception date and the differences between the carrying value and the fair value on extension dates of the promissory notes were recognised as a deemed contribution by a shareholder, and the difference between the carrying value and nominal value on the date of early repayment of the promissory notes was recognised as deemed distribution to a shareholder. During the year ended 31st December, 2011, the Group early repaid a portion of the promissory notes with a nominal value of RMB16,674,000. A difference of RMB1,644,000 between the carrying value and the nominal value of this repaid portion of promissory notes at the date of early repayment has been recognised as a deemed distribution to a shareholder.
- (iv) The other reserve represents the difference between the fair value and the book value of the mining rights attributable to additional interests acquired in 2007 and the difference between amount of non-controlling interests acquired and the fair value of consideration paid during the year ended 31st December, 2011.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

1. GENERAL

The Company is incorporated and registered as an exempted company in the Cayman Islands under the Companies Law of the Cayman Islands with limited liability. The shares of the Company are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). In the opinion of the directors of the Company, the Company’s parent is Yue Da Group (H.K.) Co., Limited (“Yue Da HK”), a company incorporated in Hong Kong with limited liability, and the Company’s ultimate parent is Jiangsu Yue Da, a state-owned enterprise established with limited liability in the PRC. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information of the annual report.

The Company is an investment holding company. The principal activities of its subsidiaries are (i) exploration, mining and processing of zinc, lead, iron and gold and trading of iron ore and related products; and (ii) management and operation of toll highway and bridge in the PRC.

As all of the Group’s operations are in the PRC, the consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Company.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

In current year, the Group has applied the following new and revised HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time in the current year:

Amendments to HKFRSs	Annual improvements to HKFRSs 2009 - 2011 cycle
Amendments to HKFRS 7	Disclosures - Offsetting financial assets and financial liabilities
Amendments to HKFRS 10, HKFRS 11 and HKFRS 12	Consolidated financial statements, joint arrangements and disclosure of interests in other entities:
	Transition guidance
HKFRS 10	Consolidated financial statements
HKFRS 11	Joint arrangements
HKFRS 12	Disclosure of interests in other entities
HKFRS 13	Fair value measurement
HKAS 19 (as revised in 2011)	Employee benefits
HKAS 27 (as revised in 2011)	Separate financial statements
HKAS 28 (as revised in 2011)	Investments in associates and joint ventures
Amendments to HKAS 1	Presentation of items of other comprehensive income
HK(IFRIC) - INT 20	Stripping costs in the production phase of a surface mine

Except as described below, the application of the new and revised HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSS”) — CONTINUED

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In the current year, the Group has applied for the first time the package of five standards on consolidation, joint arrangements, associates and disclosures comprising HKFRS 10 “Consolidated financial statements”, HKFRS 11 “Joint arrangements”, HKFRS 12 “Disclosure of interests in other entities”, HKAS 27 (as revised in 2011) “Separate financial statements” and HKAS 28 (as revised in 2011) “Investments in associates and joint ventures”, together with the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 regarding transitional guidance.

HKAS 27 (as revised in 2011) is not applicable to the Group as it deals only with separate financial statements.

HKFRS 10 Consolidated financial statements

HKFRS 10 replaces the parts of HKAS 27 “Consolidated and separate financial statements” that deal with consolidated financial statements and HK(SIC) INT - 12 “Consolidation - Special purpose entities”. HKFRS 10 changes the definition of control such that an investor has control over an investee when a) it has power over the investee, b) it is exposed, or has rights, to variable returns from its involvement with the investee and c) has the ability to use its power to affect its returns. All three of these criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Additional guidance has been included in HKFRS 10 to explain when an investor has control over an investee.

The directors of the Company reviewed and assessed the Group’s investees in accordance with the requirements of HKFRS 10. The directors of the Company concluded that there was no impact to the Group’s consolidated financial statements for the adoption of HKFRS 10.

Notes To The Consolidated Financial Statements

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSS”) — CONTINUED

Amendments to HKAS 1 Presentation of items of other comprehensive income

The Group has applied the amendments to HKAS 1 “Presentation of items of other comprehensive income”. Upon the adoption of the amendments to HKAS 1, the Group’s ‘statement of comprehensive income’ is renamed as the ‘statement of profit or loss and other comprehensive income. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. Furthermore, the amendments to HKAS 1 require additional disclosures to be made in the other comprehensive income section such that items of other comprehensive income are grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis - the amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes. Other than the above mentioned presentation changes, the application of the amendments to HKAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective:

Amendments to HKFRS	Annual improvements to HKFRSs 2010 - 2012 cycle ⁴
Amendments to HKFRS	Annual improvements to HKFRSs 2011 - 2013 cycle ²
Amendments to HKFRS 9 and HKFRS 7	Mandatory effective date of HKFRS 9 and transition disclosures ³
Amendments to HKFRS 10, HKFRS 12 and HKAS 27	Investment entities ¹
HKFRS 9	Financial instruments ³
Amendments to HKAS 19	Defined benefit plans: Employee contributions ²
Amendments to HKAS 32	Offsetting financial assets and financial liabilities ¹
Amendments to HKAS 36	Recoverable amount disclosures for non-financial assets ¹
Amendments to HKAS 39	Novation of derivatives and continuation of hedge accounting ¹
HK(IFRIC) - INT 21	Levies ¹

¹ Effective for annual periods beginning on or after 1st January, 2014, with earlier application permitted.

² Effective for annual periods beginning on or after 1st July, 2014, with earlier application permitted.

³ Available for application - the mandatory effective date will be determined when the outstanding phases of HKFRS 9 are finalised.

⁴ Effective for annual periods beginning on or after 1st July, 2014, with limited exceptions.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSS”) — CONTINUED

HKFRS 9 Financial instruments

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include the requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for hedge accounting.

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 “Financial instruments: Recognition and measurement” are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

The directors of the Company anticipate that the adoption of HKFRS 9 in the future will have impact on the classification and measurement in respect of the Group’s available-for-sale investments but not on the Group’s other financial assets and financial liabilities. It is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

The directors of the Company anticipate that the application of other new and revised HKFRSs will have no material impact on the Group’s financial performance and positions and/or on the disclosures set out in these consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Basis of consolidation — continued

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 "Income taxes" and HKAS 19 "Employee benefits" respectively.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Business combinations — continued

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments made against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with HKAS 39 or HKAS 37 "Provisions, contingent liabilities and contingent asset", as appropriate, with the corresponding gain or loss being recognised in profit or loss.

Property, plant and equipment

Property, plant and equipment, including buildings held for use in the production or supply of goods or services, or for administrative purpose, other than construction in progress, are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Property, plant and equipment — continued

Depreciation is recognised so as to write off the cost of items of assets, other than construction in progress, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Mining rights

Mining rights are stated at cost less subsequent accumulated amortisation and accumulated impairment losses. Mining rights are amortised using the units of production method based on the proven and probable mineral reserves.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination.

A CGU to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than the carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata basis based of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Other intangible assets

Other intangible assets, which represent the cost incurred to obtain the right to operate a highway and bridge infrastructure, are stated at cost less amortisation and any accumulated impairment losses. Amortisation is provided to write off the cost of other intangible assets over the remaining concessionary period of the toll highway and bridge, using the straight-line method.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss (“FVTPL”)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Financial assets

Financial assets are classified into the following specified categories: financial assets at FVTPL, loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Financial instruments — continued

Financial assets — continued

Financial assets at FVTPL

Financial assets at FVTPL are those designated as at FVTPL on initial recognition.

A financial asset may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised directly in profit or loss in the period in which they arise. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including long term deposits, trade and other receivables, amounts due from related companies, pledged bank deposit and bank balances and cash) are carried at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated as available-for-sale or are not classified as financial assets at FVTPL, loans and receivables or held-to-maturity investments.

Available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are measured at cost less any identified impairment losses at the end of each reporting period (see accounting policy on impairment loss on financial assets below).

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Financial instruments — continued

Financial assets — continued

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of the investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, such as trade receivables, that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of loans and receivables is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For available-for-sale equity investments which are measured at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in the subsequent periods.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Financial instruments — continued

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities

The Group's financial liabilities (including trade and other payables, amounts due to a related company/directors, obligations under finance leases and bank borrowings) are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Financial instruments — continued

Derecognition — continued

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Provisions

The Group is required to make payments for restoration and rehabilitation of certain land after the underground sites have been mined. Provision for restoration, rehabilitation and environmental cost is required when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation. Provision is measured in accordance with the relevant rules and regulations applicable in the PRC at the end of the reporting period, and using the cash flows estimated to settle the present obligation. Its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

Impairment losses on tangible and intangible assets other than goodwill (see the accounting policy in respect of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Impairment losses on tangible and intangible assets other than goodwill (see the accounting policy in respect of goodwill above) — continued

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU) in prior years. A reversal of an impairment loss is recognised as income immediately.

Revenue recognition

Revenue is measured at fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Toll revenue is recognised on receipt.

Revenue from sale of goods are recognised when the goods are delivered and title has passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Retirement benefit costs

Payments to state-managed retirement benefit schemes and Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's policy on borrowing costs (see the accounting policy below). Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis.

Equity-settled share-based payment transactions

For grants of share options that are conditional upon satisfying specified vesting conditions, the fair value of services received is determined by reference to the fair value of share options granted at the grant date of grant and is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share options reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share options reserve.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Equity-settled share-based payment transactions — continued

When the share options are exercised, the amount previously recognised in the share options reserve will be transferred to share premium.

At the time when the Group modifies the terms and conditions of the share options previously granted, if the modification increases the fair value of the equity instruments granted measured immediately before and after the modification, the entity shall include the incremental fair value granted in the measurement of the amount recognised for services received as consideration for the equity instruments granted. The incremental fair value granted is the difference between the fair value of the modified equity instrument and that of the original equity instrument, both estimated as at the date of the modification. If the modification occurs after vesting date, the incremental fair value granted is recognised immediately.

When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in the share options reserve will be transferred to accumulated losses.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “profit before tax” as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

3. SIGNIFICANT ACCOUNTING POLICIES — CONTINUED

Taxation — continued

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. When current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment of property, plant and equipment, mining rights, goodwill and other intangible assets

Determining whether an impairment loss is required requires an estimate of the recoverable amount of relevant assets or the CGU to which the asset belongs. In determining the amount of an impairment loss, the management compares the fair value less costs to sell of the relevant assets/CGUs with their value in use and concludes that the value in use is higher. In determining the value in use, the Group estimated the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate the present value. Where the future cash flows are less than expected or due to changes in estimates, a material impairment loss may arise. As at 31st December, 2013, the carrying amounts of property, plant and equipment, mining rights, goodwill and other intangible assets were RMB138,048,000 (2012: RMB126,620,000), RMB802,903,000 (2012: RMB956,533,000), RMB2,119,000 (2012: nil) and nil (2012: RMB345,000) respectively. Details of the recoverable amount calculation for the CGUs are set out in notes 15, 17, 19 and 20. During the year ended 31st December, 2013, impairment losses of RMB19,215,000 (2012: RMB32,327,000), RMB116,768,000 (2012: RMB160,274,000), nil (2012: RMB482,000) and nil (2012: RMB20,777,000) were recognised for property, plant and equipment, mining rights, goodwill and other intangible assets respectively.

Useful lives of mining rights

The Group's management determines the estimated useful lives of 13 to 25 years (2012: 13 to 25 years) for its mining rights based on the proven and probable reserves. However, the mining rights were granted for terms of one to eight years (2012: one to eight years). The directors of the Company are of the opinion that the Group will be able to continuously renew the mining rights and the business licences of the respective mining subsidiaries without significant costs. Accordingly, the Group has used the proven and probable reserves as a basis of estimation for the useful lives of its mining rights.

Amortisation rates are determined based on estimated proven and probable mine reserve volume with reference to the independent technical assessment report. The estimates involve subjective judgements in developing such information and have taken into account the technical information about each mine. The capitalised cost of mining rights are amortised using the units of production method. Any change to the estimated proven and probable mine reserves will affect the amortisation charge of those mining rights. Management will reassess the useful lives whenever the ability to renew the mining rights and business licences is changed.

As at 31st December, 2013, the carrying amount of mining right was RMB802,903,000 (2012: RMB956,533,000).

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

4. KEY SOURCES OF ESTIMATION UNCERTAINTY — CONTINUED

Allowances for bad and doubtful debts

When there is objective evidence that loans and receivables may be impaired, the Group estimates the future cash flows of those balances. The amount of the impairment loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial assets' original effective interest rate (i.e. the effective interest rate computed on initial recognition). Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2013, the carrying amounts of trade receivables, contingent consideration receivable, loan receivables, deferred consideration receivable, amount due from Disposal Group (as defined in Note 18), and amounts due from related companies were RMB9,539,000 (2012: RMB59,699,000), RMB43,525,000 (2012: RMB 20,731,000), RMB48,775,000 (2012: nil), RMB41,395,000 (2012: RMB53,406,000), RMB45,641,000 (2012: RMB41,742,000) and RMB27,895,000 (2012: RMB31,037,000) respectively with no allowance for bad and doubtful debts.

5. REVENUE AND SEGMENT INFORMATION

Revenue

Revenue represents the aggregate of the net amounts received and receivable for the goods sold from continuing operation during the year and is analysed as follows:

	2013 RMB'000	2012 RMB'000
Sale of zinc, lead and iron ore concentrates	132,830	173,952
Sale of compound gold	58,303	163,760
	191,133	337,712

Segment information

The Group's reportable and operating segments under HKFRS 8, based on information reported to the chief operating decision maker ("CODM"), represented by the executive directors, for the purposes of resource allocation and performance assessment are as follows:

- exploration, mining and processing of zinc, lead, iron and gold ("Mining Operations")
- management and operation of toll highway and bridge ("Toll Road Operation")

The Toll Road Operation was discontinued in the current year. Segment information for the year ended 31st December, 2012 has been restated. Details are set out in note 12.

5. REVENUE AND SEGMENT INFORMATION — CONTINUED

Segment information — continued

Segment result

After the discontinuance of the Toll Road Operation, the Group has one operating segment being Mining Operations which contribute the entire revenue of the continuing operation of the Group. The CODM reviewed the segment loss, other income, other gains and losses as described below, impairment loss on available-for-sale investments, central administration costs and finance costs for the purposes of resource allocation and performance assessment.

	2013 <i>RMB'000</i>	2012 <i>RMB'000</i> (Restated)
Continuing operation		
Mining Operations revenue	191,133	337,712
Segment loss	(147,164)	(123,361)
Other income	12,536	3,682
Other gains and losses

Net foreign exchange gains (losses)	1,678	(341)
	25,600	(7,303)

Note: During the year ended 31st December, 2010, the Group completed the acquisition of the entire equity interest in Absolute Apex Limited, an investment holding company, from Bright Harvest Holdings Limited ("Bright Harvest"), an independent third party. Absolute Apex Limited owned the entire equity interest in Ample Source Investment Limited, which owned 70% equity interest in Tong Ling Guan Hua, which are engaging in investment holding, and mining and processing of gold, respectively. Bright Harvest and the remaining non-controlling interest of Tong Ling Guan Hua agreed to, jointly and severally, compensate the Group in relation to the shortfall of performance by Tong Ling Guan Hua up to 30th June 2013. The amount represented the change in fair value of the contingent consideration receivable as the compensation in relation to the shortfall of performance by Tong Ling Guan Hua relating to the period from 1st January, 2013 to 30th June, 2013 (2012: 1st January, 2012 to 31st December, 2012). The shortfall for the six months ended 30th June, 2013 was mainly due to the deferral of the production plan and the decline in market price of gold during the six months ended 30th June, 2013. As a result, a fair value change in contingent consideration of RMB24,394,000 (2012: RMB20,731,000) was recognised in the consolidated statement of profit or loss and other comprehensive income for the year ended 31st December, 2013. As at 31st December, 2013, the contingent consideration receivable amounted to RMB43,525,000 (2012: RMB20,731,000) was included in trade and other receivables as set out on Note 24.

8. DIRECTORS', CHIEF EXECUTIVE'S AND EMPLOYEES' REMUNERATION — CONTINUED

Notes:

- (i) This director was appointed on 31st August, 2011.
- (ii) This director is the chief executive of the Group for the year ended 31st December, 2013 and 2012.
- (iii) Discretionary bonus was determined by the remuneration committee having regard to the performance of directors and the Group's operating result.

Of the five individuals with the highest emoluments in the Group, two (2012: two) were directors and chief executive of the Company whose emoluments are included in the disclosures above. The emoluments of the remaining three (2012: three) individuals as follows:

	2013 <i>RMB'000</i>	2012 <i>RMB'000</i>
Salaries and other benefits	1,512	1,512
Bonus	471	471
Contributions to retirement benefits schemes	96	96

Their emoluments were within the following bands:

	2013 Number of employees	2012 Number of employees
Nil to HK\$1,000,000	2	2
HK\$1,000,001 to HK\$1,500,000	1	1

During both years, no emoluments were paid by the Group to the five highest paid individuals (including directors, chief executive and employees) as an inducement to join or upon joining the Group or as compensation for loss of office. Neither the chief executive nor any of the directors waived any emoluments in the year ended 31st December, 2013 (2012: nil).

No provision for Hong Kong Profits Tax has been made as the Group's income neither arises in, nor is derived from, Hong Kong.

Under the Law of PRC on Enterprise Income Tax (the "EIT" Law) and the Implementation Regulation of the EIT Law, the applicable income tax rate for the PRC subsidiaries of the Group is 25% from 1st January, 2008 onwards.

Notes To The Consolidated Financial Statements

For The Year Ended 31st December, 2013

10. INCOME TAX CREDIT — CONTINUED

Certain PRC mining subsidiaries are entitled to (i) the preferential tax rate pursuant to the relevant regulations applicable to enterprises situated in the western regions of the PRC (subject to confirmation by relevant tax authorities) and (ii) an exemption from PRC Enterprise Income Tax for the two years starting from their first profit-making year, followed by a 50% tax deduction in the three years thereafter. The applicable tax rates of those PRC mining subsidiaries ranged from 15% to 25% for the year ended 31st December, 2013 (2012: 15% to 25%).

The income tax credit for the year can be reconciled to the loss before tax from continuing operation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2013 RMB'000	2012 RMB'000
Loss before tax	(165,624)	(210,417)
Tax at the domestic income tax rate of 25% (2012: 15%) (Note)	(41,406)	(31,563)

13. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following data:

	Continuing and discontinued operations		Continuing operation	
	2013 RMB'000	2012 RMB'000	2013 RMB'000	2012 RMB'000
Loss				
Loss for the year attributable to owners of the Company and loss for the purposes of basic and diluted loss per share	(141,351)	(230,293)	(138,645)	(211,004)
Number of shares	Number	Number	Number	Number
Weighted average number of ordinary shares for the purposes of basic and diluted loss per share	915,691,876	877,716,754	915,691,876	877,716,754

Basic loss per share for the discontinued operation is RMB0.30 cents (2012: RMB2.20 cents), based on the loss for the year attributable to owners of the Company from the discontinued operation of RMB2,706,000 (2012: RMB19,289,000) and the denominators detailed above for basic loss per share.

The computation of the diluted loss per share for the year ended 31st December, 2013 and 2012 does not assume the exercise of the share options because they would result in reduction in loss per share.

14. DIVIDEND

Dividend recognised as distribution during the year:

	2013 RMB'000	2012 RMB'000
2013 Interim - nil per share (2012: HK1 cent per share)	—	7,267

No final dividend has been proposed by the directors for both years.

15. PROPERTY, PLANT AND EQUIPMENT — CONTINUED

Depreciation is provided to write off the cost of items of property, plant and equipment, other than construction in progress, over their estimated useful lives and after taking into account their estimated residual value, using the straight-line method, as follows:

Buildings	Over the shorter of 20 years or remaining terms of the lease
Leasehold improvement	Over the shorter of 20 years or remaining terms of the lease
Mining shafts	5 years
Plant and machinery	5 - 10 years
Furniture, fixtures and equipment	5 years
Motor vehicles	5 years

Certain buildings of the Group are erected in the PRC with respect to which the Group had not been granted formal title of ownership. As at 31st December, 2013, the carrying value of such buildings amounted to RMB29,226,000 (2012: RMB25,009,000). In the opinion of directors of the Company, the absence of formal title does not impair the value of the relevant buildings.

During the year ended 31st December, 2013, an impairment loss amounting to RMB19,215,000 (2012: RMB31,401,000) for continuing operation and nil (2012: RMB926,000) for discontinued operation was recognised respectively. Impairment assessment is set out in notes 17 and 20.

As at 31st December, 2012, the carrying value of property, plant and equipment in respect of assets held under finance leases was RMB4,632,000.

16. PREPAID LEASE PAYMENTS

17. MINING RIGHTS — CONTINUED

The mining rights represent the rights to conduct mining activities in various locations in the PRC, and have legal lives of one to eight years (2012: one to eight years). The Group's mining rights are expiring in the period from February 2014 to August 2016. In the opinion of the directors of the Company, the Group will be able to renew the mining rights with the relevant government authorities continuously without significant costs.

The mining rights are amortised by using the units of production method based on the proven and probable mineral reserves under the assumption that the Group can renew the mining rights indefinitely till all proven reserves have been mined.

During the year ended 31st December, 2013, the management conducted an impairment review on the related assets of certain subsidiaries which are engaging in mining and processing of zinc, lead and silver located in Yunnan Province and Shannxi Province of the PRC, due to (1) continuing decline in market price of zinc and lead; and (2) the suspension of the operations of Yaoan Feilong in view of the decline in market price of lead and silver and the loss making operational conditions. Management considered each subsidiary represents a separate CGU for the purpose of impairment testing.

For the purpose of the impairment testing, the management compared the value in use of the CGUs with the fair value less costs to sell of the CGUs and concluded that the value in use is higher than the fair value less costs to sell. Value in use calculations are based on estimated cash flow projections prepared from financial forecasts approved by the directors of the Company that reflect the net cash flows to be generated from the CGUs which represented the cash flows from the sales of the mineral concentrates from the production of the estimated minerals as extracted from the mines of each CGU less the estimated cost of the production of the mineral concentrates, at discount rates with a range of 18.73% to 22.73% (2012: 20.25% to 24.25%). Other key assumptions for the value in use calculation relate production rate. The value in use calculations of these CGUs that are engaged in mining and processing of zinc, lead and silver are less than the carrying amounts of the respective CGUs. Hence, aggregate impairment losses of RMB116,768,000 and RMB19,215,000 (2012: RMB160,274,000 and RMB31,401,000) have been recognised on mining rights and production assets of Mining Operations included in the Group's property, plant and equipment respectively.

On 16th August, 2011, the Group entered into a disposal agreement with Feng Hua Group Limited ("Feng Hua"), an independent third party, to dispose of the 41.1% of the issued capital of certain subsidiaries which held the entire equity interest in certain subsidiaries incorporated in PRC (collectively refer to as the "Disposal Group"), the principal activities of which are mining and processing of zinc and lead, at a cash consideration of RMB59,097,000. In addition, the Group's shareholders' loan to the Disposal Group amounted to RMB31,903,000 has been assigned to Feng Hua. Total consideration for the disposal of 41.1% of issued capital and the assignment of shareholders' loan amounted to RMB91,000,000. The disposal was completed on 30th December, 2011 on which date control of the Disposal Group was passed to the acquirer. Upon completion of the disposal, the Group has retained 49% of the equity interest in Disposal Group and will not be entitled to appoint any director to Disposal Group nor allowed to involve in the management, financial and operating decisions, and day to day operations of Disposal Group. The future operations of the Disposal Group shall be funded solely by Feng Hua when necessary. Accordingly, the remaining 49% interest of Disposal Group owned by the Group was classified as available-for-sale investments of the Group and measured at fair value at initial recognition. Since the Disposal Group does not have a quoted market price in an active market, in the opinion of the directors of the Company, the fair values of these unlisted equity securities cannot be measured reliably subsequent to initial recognition and are measured at cost less any identified impairment losses.

Certain group entities of the Disposal Group are the holders of certain exploration and mining licenses in respect of certain mines located at Wengniuteqi, Chifeng City, Inner Mongolia, the PRC. The predominant minerals in the mines are lead and zinc. The Disposal Group is principally engaged in the exploration, mining and processing of lead ore and zinc ore extracted from these mines. During the year ended 31st December, 2012, an objective evidence of impairment was considered to exist due to (i) the continuous decline of the market price of minerals in the second half of 2012; (ii) tight of safety and environmental requirements introduced by the PRC government on mining industry; (iii) an increase in raw material prices and production costs; and (iv) the deferral of the production schedule of the Disposal Group, which results in operating losses incurred by the Disposal Group. The major assets and liabilities of the Disposal Group are certain mining rights and the shareholders' loan. The directors of the Company performed an impairment assessment during the year ended 31st December, 2012 and determined the impairment loss based on the present value of the estimated future cash flows expected to be generated by the investee which represented the net cash flows of (i) the revenue from the sales of the mineral concentrates from the production of the estimated minerals as extracted from the mines of the CGU and (ii) the estimated cost of the production of the mineral concentrates. Other key assumptions for the calculation related to the estimation of cash inflows/outflows which include production rate and gross margin.

In the opinion of the directors, with the decline in the estimated economic benefits to be generated from the Disposal Group, the Group recognised an impairment loss on the available-for-sale investments by RMB54,493,000 during the year ended 31st December, 2012.

20. OTHER INTANGIBLE ASSETS — CONTINUED

The operating rights of toll highway and bridge were granted by the Hebei Provincial Government to the Group for 16 years, which is from 1997 to 2013. During the concessionary period, the Group has the rights of operation and management of Wen An section of National Highway 106 and the toll-collection rights thereof. The Group is required to manage and operate the toll highway and bridge in accordance with the regulations promulgated by the Ministry of Transport of the PRC and relevant government authorities.

The Group's right to operate the toll highway and bridge is amortised over the remaining concessionary period of the toll highway and bridge, using the straight-line method.

The operating period granted to the Group in respect of its toll highway and bridge was ended in 2013. During the year ended 31st December, 2012, in the absence of any binding agreement for the extension of the operation period and the continuing operating losses incurred by the CGU in Toll Road Operation, the management conducted an impairment review of the CGU in Toll Road Operation, which comprises goodwill, other intangible assets and production assets.

For the purpose of the impairment testing, the recoverable amount of the CGU was determined on the basis of value in use calculation. Value in use calculation is based on a discount rate of 14.4% and cash flow projection prepared from financial forecasts approved by the directors of the Company covering the remaining operation period. Other key assumption for the value in use calculation relate to the estimation of cash inflows/outflows which include annual average daily traffic, gross margin and other operating costs, such estimation was based on the estimation provided by the management. Based on the assumption applied, the carrying amount of the CGU was significantly above its recoverable amount, accordingly, the Group impaired its goodwill, other intangible assets and production assets of RMB482,000, RMB20,777,000 and RMB926,000 respectively.

The concessionary period was ended in May 2013, no extension of the operating rights was granted. Since then, the Group ceased its Toll Road Operation accordingly.

21. LONG TERM DEPOSITS

Long term deposits represent environmental rehabilitation deposits paid to the local government in the PRC, carrying interest at prevailing market rate of 0.35% (2012: 0.35%) per annum. The amounts will be refunded at the cessation of mining activities or closure of mines if and only if the environmental rehabilitation work of the relevant mines meets government's requirements. They are not expected to be refunded within the next twelve months.

22. DEPOSITS PAID FOR INVESTMENTS

- (i) During the year ended 31st December, 2013, a wholly owned subsidiary of the Company, Yue Da Mining Limited (“YDM”), entered into a conditional subscription agreement (“Subscription Agreement”) for the subscription of 60% (as enlarged upon completion of the Subscription Agreement) of the issued share capital of Everwise Technology Limited (“Everwise”), a company incorporated in the British Virgin Islands, at US\$6 million (approximately RMB37,692,000); and New Aims Holdings Limited (“New Aims”), an independent third party and the original shareholder of Everwise shall subscribe for 40% (as enlarged upon completion of the Subscription Agreement) of the issued share capital of Everwise at US\$4 million (approximately RMB25,128,000). Up to 31st December, 2013, pursuant to the Subscription Agreement, a deposit of US\$3 million (approximately RMB18,846,000) has been paid to Everwise and the transaction has not completed. A wholly owned subsidiary of Everwise is in the progress to incorporate a new subsidiary which will be principally engaged in the processing and exporting titanium slags in Vietnam.

During the year ended 31st December, 2013, YDM and New Aims also entered into a call option agreement, pursuant to which New Aims has granted an option (“Everwise Option”) to YDM at an option premium of HK\$100. Pursuant to the Everwise Option, YDM can acquire an aggregate of 350 shares of Everwise which represent 35% of the issued share capital of Everwise to be held by New Aims immediately after the completion of the Subscription Agreement at an exercisable price of US\$4 million. The Everwise Option is exercisable immediately after completion of the Subscription Agreement to 31st December, 2014.

Additional time is required by Everwise and its subsidiary to fulfill the conditions set out in the Subscription Agreement. On 31st December, 2013, YDM, New Aims and Everwise have agreed in writing to extend the long stop date to 30th June, 2014 in accordance with the Subscription Agreement.

- (ii) During the year ended 31st December, 2013, YDM entered into an acquisition agreement (“Acquisition Agreement”) with the vendor, an independent third party (“Vendor”). Pursuant to the Acquisition Agreement, YDM conditionally agreed to acquire and the Vendor conditionally agreed to sell (i) the entire issued share capital of two companies which are incorporated in the British Virgin Islands (“Target Companies”) and (ii) the shareholder loans which represent the aggregate amount as equals the entirety of the face value of the loans outstanding as at the completion date of the Acquisition Agreement made by or on behalf of the Vendor to the Target Companies and all title, benefits and interests thereon, at the consideration of US\$34 million (subject to any downward adjustments). Up to 31st December, 2013, pursuant to the Acquisition Agreement, a deposit of US\$6 million (approximately RMB37,084,000) has been paid to the Vendor and the transaction has not completed. The deposit in sum of US\$6 million was paid in cash of US\$5.5 million and by the assignment of loan of US\$0.5 million under the Loan Agreement (as defined in Note 24) to the Vendor.

Target Companies have entered into sale and purchase agreements to acquire the entire capital of a company incorporated in Vietnam which is principally engaged in the exploration of the certain mines in Vietnam which contain ilmenite, zircon, rutile and monazite ore resources.

Notes:

- (i) During the year ended 31st December, 2013, YDM entered into a loan agreement (with supplemental agreement) (“Loan Agreement”) with Mineral Land Holdings Limited (“Mineral Land”), an independent third party which has the same ultimate shareholder of New Aims and Everwise. The term loan facility is up to US\$16 million (approximately RMB100,500,000) for a term of one year, which carries a fixed-sum of US\$1 million interest payable on the maturity date of the loan. The facility is secured by (1) a pledge of 60% equity interest in a company incorporated in Vietnam and (2) a charge of the entire issued share capital of Everwise as held by New Aims. The facility is also guaranteed by a personal guarantee executed by an independent third party. Up to 31st December, 2013, loan amount of US\$8 million (approximately RMB48,775,000) was due from Mineral Land and the amount is repayable within one year from the drawdown date in accordance with the terms of the Loan Agreement.

During the year ended 31st December, 2013, a call option deed (“Mineral Land Option Deed”) was executed by Solid Success International Limited (“Solid Success”), an independent third party and the immediate holding company of Mineral Land, in favour of YDM pursuant to which Solid Success has granted a call option (“Mineral Land Option”) to YDM to require Solid Success to sell (a) the entire issued share capital of Mineral Land as held by Solid Success and (b) the benefit of shareholder’s loan from Solid Success to Mineral Land, at not more than an aggregate consideration of US\$36 million (subject to adjustment). The Mineral Land Option is exercisable within a period of one year from the date when the call option deed was entered into which shall expire on 20th January, 2014.

- (ii) At 31st December, 2012, the amount was receivable from Feng Hua for the remaining balance of the deferred consideration for the disposal of 41.1% of the entire issued capital of the Disposal Group as detailed in Note 18. Under the original sales and purchase agreement, the amount was unsecured, interest-free and repayable on or before 30th June, 2012.

During the year ended 31st December, 2012, Feng Hua repaid RMB13,144,000. On 29th June, 2012, the Company and Feng Hua entered into the supplemental sales and purchase agreement, pursuant to which the Company and Feng Hua agreed to extend the date of repayment of the remaining balance amounting to RMB53,406,000 to 30th June, 2014. The 51% equity interest of the Disposal Group as held by Feng Hua have been pledged in favour of the Group to secure the performance of payment obligations of Feng Hua. 24. TRADE AND OTHER RECEIVABLES — CONTINUED

Notes: — continued

- (iv) On 29th June, 2012, the Company and Feng Hua entered into the supplemental shareholders agreement, pursuant to which the Company and Feng Hua agreed to extend the date of repayment of the amount owing by the Disposal Group of RMB38,035,000 to 30th June, 2014. It is secured by the 51% equity interest of the Disposal Group as held by Feng Hua and interest-free. The directors of the Company considered that the amount will not be repaid within one year from 31st December, 2012 and 31st December, 2013. The amount is classified as non-current asset as at 31st December, 2012 and 31st December, 2013.

The principal amount of the remaining balance of RMB23,012,000 (2012: RMB23,012,000) is unsecured and interest-free. The directors of the Company considered that the amount will not be repaid within one year at the end of the reporting periods and, accordingly, the amount is classified as non-current asset as at 31st December, 2012 and 31st December, 2013.

As at 31st December, 2012 and 31st December, 2013, the non-current amount due from Disposal Group is carried at amortised cost. Taking into account the delay in repayment, a loss of RMB20,331,000 (see Note 6) was recognised for the year ended 31st December, 2012 that represented the difference between the present value of the future cash inflows of RMB40,716,000 and the carrying amount before loss upon extension of repayment of RMB61,047,000. An imputed interest of RMB3,899,000 (2012: RMB1,026,000) is recognised as other income in profit or loss during the year ended 31st December, 2013 (see Note 11).

The Group allows its trade customers an average credit period of 60-90 days. The following is an aged analysis of trade receivables, presented based on the invoice date at the end of the reporting period:

	2013 RMB'000	2012 RMB'000
0 - 60 days	6,955	56,861
121 - 180 days	2,584	1,067
over 180 days	—	1,771
	9,539	59,699

Before accepting any new customer, the Group assesses the potential customer's credit quality and defines its credit limits. Credit sales are made to customers with a satisfactory trustworthy history. Credit limits attributed to customers are reviewed regularly.

In determining the recoverability of trade and bills receivables that were neither past due nor impaired, the Group considers any change in the credit quality of the trade receivables from the date credit was initially granted up to the report date. In view of no default payment history was noted and the amounts are within its credit period, the directors of the Company considered that there is no credit provision is required. As at 31st December, 2013, the trade receivables of RMB2,584,000 (2012: RMB2,838,000 aged over 121 days) were past due but not impaired as there has not been a significant change in credit quality and with no historical default of payments. The amounts are still considered recoverable. Accordingly, the directors of the Company believe that there is no credit provision required.

35. SHARE-BASED PAYMENTS — CONTINUED

On 30th January, 2012, the following share options were granted:

- (i) 10,400,000 share options exercisable commencing from 1st April, 2012 to 29th January, 2017, which vested immediately. The fair value of each option at the date of grant was approximately HK\$0.18;
- (ii) 7,800,000 share options exercisable commencing from 1st April, 2013 to 29th January, 2017, with vesting period from 31st January, 2012 to 31st March, 2013. The fair value of each share option at the date of grant was approximately HK\$0.18;
- (iii) 7,800,000 share options exercisable commencing from 1st April, 2014 to 29th January, 2017 with vesting period from 31st January, 2012 to 31st March, 2014. The fair value of each share option at the date of grant was approximately HK\$0.18.

The fair value of the share options granted was calculated using the Black-Scholes pricing model. The variables and assumptions used in computing the fair value of the options are based on the directors' best estimate. The value of a share option varies with different variables of certain subjective assumptions.

The following assumptions were used to calculate the fair value of the share options:

Share options granted on 30th January, 2012

Grant date share price	HK\$0.584
Exercise price	HK\$0.5503
Expected life	2.37 years
Expected volatility	51.23%
Expected dividend yield	0%
Risk-free interest rate	0.24%

The closing price of the Company's shares immediately before the date of grant was HK\$0.59.

Expected volatility was determined by using the historical volatility of the Company's share price. The expected life used in the model has been adjusted, based on the management's best estimate, for the effects of non-transferability, exercise restrictions and behavioral considerations.

The Group recognised the total expenses of RMB763,000 (2012: RMB2,958,000) for the year ended 31st December, 2013 in relation to the share options granted by the Company.

36. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior years.

The capital structure of the Group consists of debts, which include amount due to a related company, amounts due to directors, bank borrowings and equity reserves attributable to owners of the Company, comprising issued share capital and various reserves.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors of the Company consider the cost of capital and the risks associates with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through new share issues and share buy-backs as well as the issue of new debts or the redemption of existing debts.

Financial risk management objectives and policies

The Group's major financial instruments include available-for-sale investments, trade and other receivables, amounts due from related companies, pledged bank deposit, bank balances and cash, trade and other payables, amounts due to a related company/directors, obligations under finance leases, promissory notes and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

The carrying amounts of the Group's monetary assets and monetary liabilities which are denominated in a currency other than the functional currency of the relevant group entities at the end of the reporting period date are as follows:

	Liabilities		Assets	
	2013 RMB'000	2012 RMB'000	2013 RMB'000	2012 RMB'000
US\$	70,114	—	153	9
HK\$	54,557	88,004	2,248	30,942

Sensitivity analysis

The Group is mainly exposed to HK\$ and US\$ exchange risk.

The following table details the Group's sensitivity to a 5% increase and decrease in RMB against HK\$ and US\$. 5% is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% change in foreign currency rate. The sensitivity analysis includes amount due to a related company, amounts due to directors, promissory notes, bank borrowings and bank balances that are denominated in HK\$ and US\$. A positive number below indicates an increase in post-tax loss for the year where HK\$ and US\$ weakening 5% (2012: 5%) against the functional currency of the relevant group entities. For a 5% (2012: 5%) strengthen of HK\$ and US\$ against the functional currency of the relevant group entities, there would be an equal and opposite impact on the result.

	US\$ Impact		HK\$ Impact	
	2013 RMB'000	2012 RMB'000	2013 RMB'000	2012 RMB'000
Loss for the year	2,921	—	2,184	2,382

The Group's sensitivity to foreign currency has increased during the current year mainly due to an increase in liabilities that are denominated in HK\$ and US\$.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to other receivables, pledged bank deposit and obligations under finance leases. Currently, the Group does not have a hedging policy. However, management monitors interest rate exposure and will consider hedging significant fixed rate borrowings should the need arise.

The Group is also exposed to cash flow interest rate risk in relation to long term deposits, variable-rate bank balances and bank borrowings. It is the Group's policy to keep its bank balances and bank borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Interbank Offer Rate and The People's Bank of China Base Lending Rate arising from the Group's bank borrowings and bank balances.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for bank borrowings and variable-rate bank balances at the end of the reporting period and management considers that such exposure for long term deposits is not significant. The analysis is prepared assuming the amounts of liabilities outstanding at the end of the reporting period were outstanding for the whole year. 50 basis points (2012: 50 basis points) increase or decrease is used for bank borrowings respectively for the management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower for bank borrowings variable-rate bank balances and all other variables were held constant, the Group's post-tax loss the year ended 31st December, 2013 would increase/decrease by RMB632,000 (2012: RMB523,000). This is mainly attributable to the Group's exposure to interest rates on its variable-rate bank borrowings.

Financial risk management objectives and policies — continued

Credit risk

As at 31st December, 2013, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties or related companies is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group reviews the recoverable amount of each individual debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

The Group has concentration of credit risk on trade and other receivables and amounts due from related companies. Trade receivables were mainly due from one (2012: two) external customers within the Mining Operations while other receivables were mainly due from six (2012: five) external parties. And the amounts due from related companies in trade nature and non-trade nature were mainly attributed to zero (2012: two) related companies and two (2012: one) related companies respectively.

In order to minimise the credit risk, the Group has monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade and other receivable and amounts due from related companies at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

Fair value

The fair value of financial assets and financial liabilities, except other financial asset, are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of the financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

Fair value measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial instrument that is measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the fair value is observable.

- Level 1: fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2: fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group did not have any level 1 and 2 financial instruments measured at fair value at the end of the reporting period.

Impact of acquisition on the results of the Group

Included in the Group's loss for the year is profit of RMB984,000 attributable to the additional business generated by Tong Ling Renewable. Revenue included in the Group's revenue for the year amounted to RMB1,519,000.

If the above acquisition had been completed on 1st January, 2013, total group revenue and loss for the year would have been RMB200,945,000 and RMB142,784,000 respectively. The pro forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of the operations of the Group that actually would have been achieved had above acquisition been completed on 1st January, 2013, nor is it intended to be projection of future results.

39. RETIREMENT BENEFITS SCHEMES

The relevant PRC subsidiaries are required to make contributions to the state-managed retirement schemes in the PRC based on 20% (2012: 20%) of the monthly salaries of their current employees to fund the benefits. The employees are entitled to retirement pension calculated with reference to their basic salaries on retirement and their length of service in accordance with the relevant government regulations. The PRC government is responsible for the pension liability to these retired staff.

In addition, the Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the scheme are held separately from those of the Group, in funds under the control of trustees. The Group contributes either 5% or 10% (2012: 5% or 10%) of the relevant payroll costs to the scheme, which contribution is matched by employees.

The total cost of RMB3,083,000 (2012: RMB2,107,000) recognised to profit or loss represents contributions payable to these schemes by the Group in respect of current year.

40. MAJOR NON-CASH TRANSACTION

During the year ended 31st December, 2012, Yue Da Enterprise settled the amount due from a third party amounting of RMB20,135,000 on behalf of that third party by offsetting against part of the amount due to Yue Da Enterprise by the Group after the acquisition of the third party by Yue Da Enterprise.
