PROFIT WARNING

This announcement is made by Hengshi Mining Investments Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) and Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The capitalized terms used in this announcement have the same meanings ascribed to them in the prospectus of the Company published on 18 November 2013.

The board of directors (the “**Board**”) of the Company wishes to inform the shareholders of the Company (the “**Shareholders**”) and potential investors that, based on the Company’s preliminary review of the latest unaudited financial information of the Group, it is expected that the Group’s revenue and profit attributable to the owners of the Company for the six months ended 30 June 2014 will decline by 20% to 30% as compared with that of the corresponding period in 2013. Such decline has arisen due to the following reasons.

1. The price of iron ore concentrates has declined as compared with that of the corresponding period in 2013.
2. The management of the Company has duly adjusted its sales strategy by taking into account the current market conditions, according to which as at the end of June 2014 the Company has kept relatively more iron ore inventories which has led to the decline in the revenues and profits of the Company as compared with that of the corresponding period in 2013.

The Board is of the view that the overall financial status of the Group is well and stable. Benefiting from the upgrading production capacity brought by the launch of new wet processing plants and technology innovation, the production volume of iron ore concentrates of the first half year of 2014 has reached the Group’s historical high. The following table sets out the production and sales volume of the Group’s products.

The Group	Production Volume (Kt)			Sales Volume (Kt)			% of change
