- (ii) Non-taxable income primarily includes interest income from PRC government bonds.

7 Earnings per share

Basic earnings per share for the six months ended 30 June 2014 and 2013 have been computed by dividing the net profit attributable to equity shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period. There was no difference between basic and diluted earnings per share as there were no potentially dilutive shares outstanding during the six months ended 30 June 2014 and 2013.

The notional amounts of derivatives only represent the unsettled transaction volumes as at the end of the reporting period, instead of the amounts of risk assets. Since 1 January 2013 the Group has adopted Administrative Measures for the Capital of Commercial Banks (for Trial Implementation) and other related policies. According to the new rules set out by the CBRC, the credit risk-weighted assets included credit valuation adjustments, with the considerations of the status of counterparties, maturity characteristics and back-to-back client-driven transactions.

(3) Hedge accounting

The following designated hedging instruments are included in the derivate financial instruments as disclosed above.

Group

| | 30 June 2014 | | 31 D | ecember 2 | 2013 | |

| Total | 16,648 | 190 | (102) | 61,113 | 58 | (1,962) |

(a) Fair value hedge

The Group uses interest rate swaps to hedge against changes in fair value of available-for-sale financial assets, certificates of deposit issued, placements with banks and non-bank financial institutions, loans and advances to customers arising from changes in interest rates.

Gains or losses on fair value hedges are as follows:

| | Six months end | Six months ended 30 June | |
|---------------------------------------|----------------|--------------------------|--|
| | 2014 | 2013 | |
| Net gains/(losses) on | | | |
| hedging instruments | 27 | (13) | |
| hedged items | (27) | 13 | |

The gain and loss arising from ineffective portion of fair value hedge was immaterial for the six month ended 30 June 2013 and 2014.

(b) Cash flow hedge

The Group uses foreign exchange forwards to hedge against exposures to cash flow variability primarily from foreign exchange risks of loans and advances to customers. The maturities of hedging instruments and hedged items are both within one year.

For the six months ended 30 June 2014, a net gain from the cash flow hedge of RMB168 million was recognised in other comprehensive income and accumulated in "capital reserve" (six months ended 30 June 2013: RMB193 million), and the gain and loss arising from ineffective portion of cash flow hedge was immaterial for the six months ended 30 June 2014.

There were no transactions for which cash flow hedge accounting had to be ceased on 30 June 2014 and 31 December 2013 as a result of the highly probable cash flows no longer being expected to occur.

10 Profit distribution

The Bank declared a cash dividend of RMB75,003 million for the year ended 31 December 2013 according to the profit distribution plan approved by the Annual General Meeting held on 26 June 2014.

11 Commitments and contingent liabilities

(1) Credit commitments

Credit commitments take the form of undrawn loan facilities which are approved and contracted, unutilised credit card limits, financial guarantees, letters of credit etc. The Group assesses and makes allowance for any probable losses accordingly.

The contractual amounts of loans and credit card commitments represent the cash outflows should the contracts be fully drawn upon. The amounts of guarantees and letters of credit represent the maximum potential loss that would be recognised if counterparties failed completely to perform as contracted. Acceptances comprise undertakings by the Group to pay bills of exchange drawn on customers.

As credit commitments may expire without being drawn upon, the total of the contractual amounts set out in the following table do not represent the expected future cash outflows.

| | 30 June | 31 December |
|---|-----------|-------------|
| | 2014 | 2013 |
| Loan commitments | | |
| with an original maturity within one year | 145,964 | 179,790 |

| Others | 45,477 | 35,685 |
| Total | 2,394,755 | 2,310,227 |

(2) Credit risk-weighted amount

The credit risk-weighted amount refers to the amount as computed in accordance with the rules set out by the CBRC and depends on the status of the counterparty and the maturity characteristics.

| | 30 June 2014 |
|---|-----------------|
| Credit risk-weighted amount of contingent liabilities and commitments | 928,574 |

11 Commitments and contingent liabilities(continued)

(3) Operating lease commitments

The Group leases certain property and equipment under operating leases, which typically run for an initial period of one to five years and may include an option to renew the lease when all terms are renegotiated. As at the end of the reporting period, the future minimum lease payments under non-cancellable operating leases for property and equipment were as follows:

| | 30 June 2014 | 31 December 2013 |
|---|--------------|------------------|
| Within one year | 4,870 | 4,596 |
| After one year but within two years | 3,935 | 3,749 |
| After two years but within three years | 3,082 | 2,999 |
| After three years but within five years | 3,405 | 3,557 |
| After five years | 2,429 | 2,543 |
| Total | 17,721 | 17,444 |

(4) Capital commitments

As at the end of the reporting period, the Group had capital commitments as follows:

| | 30 June 2014 | 31 December 2013 |
|-----------------------------------|--------------|------------------|
| Contracted for | 3,421 | 4,618 |
| Authorised but not contracted for | 4,661 | 2,770 |
| Total | 8,082 | 7,388 |

(5) Underwriting obligations

As at 30 June 2014, there was no unexpired underwriting commitment of the Group and the Bank (as at 31 December 2013: nil).

(6) Redemption obligations

As an underwriting agent of PRC government bonds, the Group has the responsibility to buy back those bonds sold by it should the holders decide to early redeem the bonds held. The redemption price for the bonds at any time before their maturity date is based on the coupon value plus any interest unpaid and accrued up to the redemption date. Accrued interest payables to the bond holders are calculated in accordance with relevant rules of the MOF and the PBOC. The redemption price may be different from the fair value of similar instruments traded at the redemption date.

The redemption obligations, which represent the nominal value of government bonds underwritten and sold by the Group, but not yet matured as at 30 June 2014, were RMB52,317 million (as at 31 December 2013: RMB50,794 million)

11 Commitments and contingent liabilities(continued)

(7) Outstanding litigation and disputes

As at 30 June 2014, the Group was the defendant in certain pending litigation and disputes with gross claims of RMB2,529 million (as at 31 December 2013: RMB3,167 million). Provisions have been made for the estimated losses arising from such litigations based upon the opinions of the Group's internal and external legal counsels. The Group considers that the provisions made are reasonable and adequate.

(8) Provisions against commitments and contingent liabilities

The Group and the Bank assessed and made provisions for any probable outflow of economic benefits in relation to the above commitments and contingent liabilities in accordance with their accounting policies.

12 Operating segments

The Group has presented the operating segments in a manner consistent with the way in which information is reported internally to the Group's chief operating decision makers for the purposes of resource allocation and performance assessment. Measurement of segment assets and liabilities and segment income and results is based on the Group's accounting policies.

Transactions between segments are conducted under normal commercial terms and conditions. Internal charges and transfer prices are determined with reference to market rates and have been reflected in the performance of each segment. Net interest income and expense arising from internal charges and transfer pricing adjustments are referred to as "internal net interest income/expense". Interest income and expense earned from third parties are referred to as "external net interest income/expense".

Segment revenues, results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment income and results are determined before intra-group transactions are eliminated as part of the consolidation process. Segment capital expenditure is the total cost incurred during the period to acquire fixed assets, intangible assets and other long-term assets.

(1) Geographical segments

The Group operates principally in Mainland China with branches covering all provinces, autonomous regions and municipalities directly under the central government, and several subsidiaries located in Mainland China. The Group also has bank branch operations in Hong Kong, Taiwan, Singapore, Frankfurt, Johannesburg, Tokyo, Seoul, New York, Sydney, Ho Chi Minh City, Luxembourg and Macau and certain subsidiaries operations in Hong Kong, London, Moscow, Dubai, Luxembourg, British Virgin Islands and New Zealand.

In presenting information on the basis of geographical segments, operating income is allocated based on the location of the branches and subsidiaries that generate the income. Segment assets, liabilities and capital expenditure are allocated based on their geographical location.

Geographical segments of the Group, as defined for management reporting purposes, are defined as follows:

- "Yangtze River Delta" refers to the following areas where the tier-1 branches and the subsidiaries of the Bank operate: Shanghai Municipality, Jiangsu Province, Zhejiang Province, City of Ningbo and City of Suzhou;
- "Pearl River Delta" refers to the following areas where the tier-1 branches of the Bank operate: Guangdong Province, City of Shenzhen, Fujian Province and City of Xiamen;
- "Bohai Rim" refers to the following areas where the tier-1 branches and the subsidiaries
 of the Bank operate: Beijing Municipality, Shandong Province, Tianjin Municipality,
 Hebei Province and City of Qingdao;
- the "Central" region refers to the following areas where the tier-1 branches and the subsidiaries of the Bank operate: Shanxi Province, Guangxi Autonomous Region, Hubei Province, Henan Province, Hunan Province, Jiangxi Province, Hainan Province and Anhui Province:
- the "Western" region refers to the following areas where the tier-1 branches and the subsidiaries of the Bank operate: Sichuan Province, Chongqing Municipality, Guizhou Province, Yunnan Province, Tibet Autonomous Region, Inner Mongolia Autonomous Region, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Autonomous Region and Xinjiang Autonomous Region; and
- the "Northeastern" region refers to the following areas where the tier-1 branches and the subsidiaries of the Bank operate: Liaoning Province, Jilin Province, Heilongjiang Province and City of Dalian.

(2) Business segments

Business segments, as defined for management reporting purposes, are as follows:

Corporate banking

This segment represents the provision of a range of financial products and services to corporations, government agencies and financial institutions. The products and services include corporate loans, trade financing, deposit taking and wealth management services, agency services, financial consulting and advisory services, cash management services, remittance and settlement services, custody services and guarantee services, etc.

Personal banking

This segment represents the provision of a range of financial products and services to individual customers. The products and services comprise personal loans, deposit taking and wealth management services, card business, remittance services and agency services, etc.

Treasury business

This segment covers the Group's treasury operations. The treasury enters into inter-bank money market transactions, repurchase and resale transactions, and invests in debt securities. It also trades in derivatives and foreign currency for its own account. The treasury carries out customer-driven derivatives, foreign currency and precious metal trading. Its function also includes the management of the Group's overall liquidity position, including the issuance of debt securities.

Others

These represent equity investments and the revenues, results, assets and liabilities of overseas branches and subsidiaries.

Unaudited supplementary financial information

(a) Liquidity ratios

| | As at 30 June 2014 | Average for the six months ended 30 June 2014 | As at 31 December 2013 | Average for the year ended 31December 2013 |
|---|-----------------------|--|------------------------------|---|

| Foreign currency current assets to foreign currency current liabilities | 56.70% | 55.95% | 55.20% | 49.16% |

The above liquidity ratios are calculated in accordance with the formula promulgated by the CBRC.

The Hong Kong Banking (Disclosure) Rules (the "Rules") took effect on 1 January, 2007. It requires the disclosure of average liquidity ratio, which is the arithmetic mean of each calendar month's liquidity ratio. The Group prepared the liquidity ratios on a semi-annual basis and the disclosed average liquidity ratio is the arithmetic mean of two consecutive liquidity ratios as at 30 June and 31 December.

| Net structural position | 5,775 | 3,775 | (1,645) | 7,905 | |

The net option position is calculated using the delta equivalent approach required by the Hong Kong Monetary Authority (the "HKMA"). The net structural position of the Group includes the structural positions of the Bank's overseas branches, banking subsidiaries and other subsidiaries substantially involved in foreign exchange. Structural assets and liabilities include:

- investments in property and equipment, net of accumulated depreciation;
- capital and statutory reserves of overseas branches; and
- investments in overseas subsidiaries and related companies.

(c) Cross-border claims

The Group is principally engaged in business operations within Mainland China, and regards all claims on overseas third parties as cross-border claims.

For the purpose of this unaudited supplementary financial information, Mainland China excludes Hong Kong Special Administrative Region of the PRC ("Hong Kong"), Macau Special Administrative Region of the PRC ("Macau") and Taiwan.

Cross-border claims include loans and advances to customers, deposits and placements with banks and non-bank financial institutions, holdings of trade bills and certificates of deposit and investment securities.

Cross-border claims have been disclosed by country or geographical area. A country or geographical area is reported where it constitutes 10% or more of the aggregate amount of cross-border claims, after taking into account any risk transfers. Risk transfers are only made if claims are guaranteed by a party in a country which is different from that of the counterparty or if claims are on an overseas branch of a bank whose head office is located in another country.

The above analysis represents the gross amount of loans and advances overdue for more than three months.

Loans and advances with a specific repayment date are classified as overdue when the principal or interest is overdue.

Loans and advances repayable on demand are classified as overdue when a demand for repayment has been served on the borrower but repayment has not been made in accordance with the instructions. If the loans and advances repayable on demand are outside the approved limit that was advised to the borrower, they are also considered as overdue.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

In the first half of 2014, the global economy continued its moderate recovery. The US Federal Reserve accelerated exit from quantitative easing, the European Central Bank introduced a negative interest rate, the Bank of Japan (BOJ) continued its easy monetary policy, and emerging economies were faced with increasing capital inflow. China's economy developed steadily as a whole, with improved economic structure. In the first half of the year, China's GDP reached RMB26.9 trillion, a year-on-year growth of 7.4%, and the consumer price index increased by 2.3% over the same period last year.

The Group closely monitored the trend of national economy and changes in regulatory requirements, persisted in sound development, deepened strategic transformation and structural adjustment, and strengthened risk prevention and control, maintaining a good momentum in business development.

Statement of Comprehensive Income Analysis

In the first half of 2014, the Group recorded profit before tax of RMB169,516 million, up 9.23% over the same period last year. Net profit was RMB130,970 million, up 9.17% over the same period last year. The steady growth of the Group's profitability was mainly due to the following factors: First, the interest-earning assets increased moderately, with a steady rise in net interest margin, pushing up net interest income by RMB23,632 million, or 12.59% compared to the same period in 2013. Second, the Group actively conducted service and product innovations. Net fee and commission income increased by RMB4,656 million, or 8.39% over the same period last year, as a result of structural adjustment. Third, the Group further improved its cost management and optimised its expenses structure. Cost-to-income ratio fell by 0.45 percentage points to 24.18% compared with the same period last year.

The following table sets forth the composition of the Group's statement of comprehensive income and the changes during the respective periods.

In the first half of 2014, the Group actively responded to challenges and opportunities arising from interest rate liberalisation by constantly improving the pricing capability, optimising its asset and liability structure and adjusting credit structure and customer mix, which positively counteracted the negative impacts of interest rate liberalisation. As a result, the net interest margin rose to 2.80%.

The following table sets forth the effects of the movement of the average balances and average interest rates of the Group's assets and liabilities on the change in interest income or expense for the first half of 2014 versus that of 2013.

^{1.} Change caused by both average balances and average interest rates was allocated to volume factor and interest rate factor respectively based on the respective proportions of the volume factor and interest rate factor in terms of absolute values.

Net interest income increased by RMB23,632 million over the same period last year. In this amount, an increase of RMB18,695 million was due to the movement of average balances of assets and liabilities, and an increase of RMB4,937 million was due to the movement of average yields or costs.

Interest income

In the first half of 2014, the Group's interest income was RMB356,473 million, an increase of RMB43,126 million, or 13.76%, over the same period of 2013. In this amount, the proportions of interest income from loans and advances to customers, investments in debt securities, deposits with central banks, deposits and placements with banks and non-bank financial institutions were 72.04%, 17.34%, 5.36% and 3.51% respectively.

Interest income from loans and advances to customers

The following table sets forth the average balance, interest income and average yield of each component of the Group's loans and advances to customers.

| Gross loans and advances to customers | 8,889,177 | 256,818 | 5.83 | 7,841,914 | 227,120 | 5.84 |

Interest income from loans and advances to customers rose by RMB29,698 million, or 13.08% year-on-year, to RMB256,818 million, mainly because the average balance of loans and advances to customers increased by 13.35% year-on-year. The Group actively adjusted credit structure by increasing loans to retail trade and enhanced pricing management. The interest rate for newly granted loans maintained at a good level, and the average yield of loans and advances to customers was roughly equal to that of the same period last year.

Interest income from investments in debt securities

Interest income from investments in debt securities grew by RMB9,971 million, or 19.23%, to RMB61,821 million over the same period last year. This was mainly because the average yield of investments in debt securities increased by 37 basis points over the same period last year, due to the optimisation of investment portfolios in RMB debt securities and increased investments in debt securities by seizing favourable market opportunities. In addition, the average balance of investments in debt securities increased by 8.46% year-on-year.

Interest income from deposits with central banks

Interest income from deposits with central banks amounted to RMB19,090 million, an increase of RMB677 million, or 3.68% over the same period last year. This was mainly because the average balance of deposits with central banks increased by 3.78% year-on-year. In addition, the amount of excess reserve was kept at a reasonable level, and the average yield roughly remained unchanged compared to that of the same period last year.

Interest income from deposits and placements with banks and non-bank financial institutions

Interest income from deposits and placements with banks and non-bank financial institutions grew by RMB122 million to RMB12,497 million, a year-on-year increase of 0.99%. This was primarily because the average yield of deposits and placements with banks and non-bank financial institutions increased by 107 basis points over the same period in 2013, which was partly offset by the decrease in average balance.

Interest income from financial assets held under resale agreements

Interest income from financial assets held under resale agreements increased by RMB2,658 million, or 74.06% year-on-year, to RMB6,247 million. This was mainly because the average balance of financial assets held under resale agreements increased by 32.08%, and the average yield increased by 130 basis points over the same period of 2013, due to enhanced centralised fund operation.

Interest expense

In the first half of 2014, the Group's interest expense was RMB145,181 million, a year-on-year increase of RMB19,494 million, or 15.51%.

Interest expense on deposits from customers

The following table sets forth the average balance, interest expense and average cost of each component of the Group's deposits from customers during the respective periods.

| - | Six months ended 30 June 2014 | | | Six months ended 30 June 2013 | | |
|--|-------------------------------|---------------------|------------------|-------------------------------|---------------------|------------------|

| Total deposits from customers | 12,086,081 | 113,942 | 1.90 | 11,537,567 | 109,018 | 1.91 |

Interest expense on deposits from customers amounted to RMB113,942 million, representing an increase of RMB4,924 million, or 4.52%, over the same period of 2013, mainly because the average balance of deposits from customers rose by 4.75% year-on-year. From the second half of last year, the Bank designated the newly issued principal-guaranteed wealth management products as financial liabilities at fair value through profit or loss, which pushed down the growth rate and cost of deposit balance to some extent.

Interest expense on deposits and placements from banks and non-bank financial institutions

Interest expense on deposits and placements from banks and non-bank financial institutions reached RMB24,976 million, an increase of RMB14,344 million, or 134.91%, over the same period in 2013, largely because the average balance of deposits and placements from banks and non-bank financial institutions increased by 59.46% and the average cost increased by 115 basis points to 3.55% over the same period last year.

Interest expense on financial assets sold under repurchase agreements

Interest expense on financial assets sold under repurchase agreements decreased by RMB493 million or 85.74% year-on-year to RMB82 million. This was primarily because the average balance of financial assets sold under repurchase agreements decreased by 69.02% and the average cost decreased by 205 basis points to 1.75% over the same period last year.

Net non-interest income

The following table sets forth the composition of the Group's net non-interest income and the changes during the respective periods.

| (In millions of RMB, except percentages) | Six months ended 30 June 2014 | Six months ended 30 June 2013 | Change(%) |

| Other net non-interest income | 5,255 | 9,123 | (42.40) |
| Total net non-interest income | 65,435 | 64,647 | 1.22 |

In the first half of 2014, the Group's net non-interest income reached RMB65,435 million, an increase of RMB788 million, or 1.22% over the same period in 2013.

Net fee and commission income

The following table sets forth the composition of the Group's net fee and commission income and the changes during the respective periods.

| (In millions of RMB, except percentages) | Six months ended 30 June 2014 | Six months ended 30 June 2013 | Change(%) |
|--|----------------------------------|----------------------------------|-----------|
| Fee and commission income | 61,854 | 56,995 | 8.53 |
| Bank card fees | 14,662 | 11,947 | 22.73 |

| Agency service fees | 7,276 | 6,509 | 11.78 |
| Commission on trust and fiduciary activities | 5,161 | 5,300 | (2.62) |
| Wealth management service fees | 4,689 | 5,189 | (9.64) |
| Electronic banking service fees | 3,281 | 2,807 | 16.89 |
| Credit commitment fees | 1,736 | 1,518 | 14.36 |
| Guarantee fees | 1,117 | 1,009 | 10.70 |
| Others | 2,891 | 3,167 | (8.71) |
| Fee and commission expense | (1,674) | (1,471) | 13.80 |
| Net fee and commission income | 60,180 | 55,524 | 8.39 |

In the first half of 2014, the Group's net fee and commission income increased by RMB4,656 million, or 8.39%, over the same period of 2013 to RMB60,180 million. The ratio of net fee and commission income to operating income decreased by 0.26 percentage points to 21.75%.

Bank card fees grew by 22.73% to RMB14,662 million. In this amount, income from credit cards increased by over 30%, boosted by instalment transactions. Relying on strong customer base and service systems, debit cards maintained steady growth in terms of transaction volume and income.

Consultancy and advisory fees decreased by 1.63% to RMB12,822 million. It was mainly because income from routine financial advisory services dropped considerably as the regulations and management on fee collection of consultancy and advisory business were further strengthened, and the traditionally advantageous businesses such as cost advisory service grew steadily.

Settlement and clearing fees increased by 26.17% to RMB8,219 million. This was because the Bank proactively promoted new settlement products such as self-service of statement of corporate account, electronic bank acceptance bill and corporate settlement card. The relevant business volume and income increased rapidly.

Agency service fees increased by 11.78% to RMB7,276 million. This was mainly because businesses such as underwriting of debt securities, agency fund sales and bancassurance grew well.

Commission on trust and fiduciary activities decreased by 2.62% to RMB5,161 million. In this amount, traditionally advantageous businesses such as housing finance business gained steady growth.

Wealth management service fees dropped by 9.64% to RMB4,689 million. It was mainly because the newly allocated underlying assets had lower risks and shorter durations, as required by the cautious and prudent operation strategy, resulting in the decrease in the average yield of the assets. In addition, the product yield was improved compared to that of the same period last year to fulfil customers' demands and respond to market competition.

Electronic banking service fees grew by 16.89% to RMB3,281 million. This was mainly due to the rapid growth of customer base and steady expansion in trading volume via electronic banking channels including online banking, mobile phone banking and SMS financial service.

Going forward, the Group will continue to expand customer base, increase business volume, make greater efforts in product innovation and service upgrade, and strive for improvement in customer experience to promote sustainable growth in fee and commission income.

Other net non-interest income

The following table sets forth the composition of the Group's other net non-interest income and the changes during the respective periods.

| (In millions of RMB, except percentages) | Six months ended 30 June 2014 | Six months ended 30 June 2013 | Change(%) |
|---|----------------------------------|----------------------------------|-----------|

| Dividend income | 240 | 193 | 24.35 |
| Net gain arising from investment securities | 1,138 | 302 | 276.82 |
| Other net operating income | 2,284 | 7,358 | (68.96) |
| Total other net non-interest income | 5,255 | 9,123 | (42.40) |

Other net non-interest income of the Group was RMB5,255 million, a decrease of RMB3,868 million, or 42.40%, compared to the same period last year. It was mainly because of the decrease in other net operating income.

Operating expenses

The following table sets forth the composition of the Group's operating expenses during the respective periods.

| (In millions of RMB, except percentages) | Six months ended 30 June 2014 | Six months ended 30 June 2013 |
|--|----------------------------------|----------------------------------|
| Staff costs | 38,957 | 35,985 |

| Business taxes and surcharges | 17,231 | 15,780 |
| Others | 14,191 | 17,220 |
| Total operating expenses | 84,139 | 81,067 |
| Cost-to-income ratio | 24.18% | 24.63% |

In the first half of 2014, the Group enhanced cost management, and optimised expenses structure. Cost-to-income ratio fell by 0.45 percentage points to 24.18% year-on-year, as cost efficiency further improved. The Group's operating expenses were RMB84,139 million, a year-on-year increase of RMB3,072 million, or 3.79%. In this amount, premises and equipment expenses were RMB13,760 million, a year-on-year increase of RMB1,678 million, or 13.89%. This was mainly because the expenses on rent and premises management and maintenance increased along with the rising prices and greater investments in outlets construction in recent years.

Impairment losses

The following table sets forth the composition of the Group's impairment losses during respective periods.

| (In millions of RMB) | Six months ended 30 June 2014 | Six months ended 30 June 2013 |
|---|----------------------------------|-------------------------------|

| Debt securities classified as receivables | 84 | (130) |
| Others | 1,415 | 639 |
| Total impairment losses | 23,122 | 16,054 |

In the first half of 2014, the Group's impairment losses were RMB23,122 million, an increase of RMB7,068 million year-on-year. In this amount, impairment losses on loans and advances to customers were RMB21,286 million, an increase of RMB5,219 million year-on-year. Impairment losses on investments were RMB421 million, an increase of RMB1,073 million over the same period last year, which was mainly because part of the allowances for impairment losses on foreign currency bonds were reversed in the first half of 2013.

Income tax expense

In the first half of 2014, the Group's income tax expense reached RMB38,546 million, an increase of RMB3,321 million year-on-year. The Group's effective income tax rate was 22.74%, lower than the 25% statutory rate, largely because the interest income from the PRC government bonds held by the Group was non-taxable in accordance with the tax regulations.

^{1.} These comprise financial assets at fair value through profit or loss, available-for-sale financial assets, held-to-maturity investments, and debt securities classified as receivables.

As at 30 June 2014, the Group's total assets stood at RMB16,399,790 million, an increase of RMB1,036,580 million, or 6.75%, over the end of last year. This was mainly due to the increases in loans and advances to customers, deposits and placements with banks and non-bank financial institutions, and financial assets held under resale agreements. With the Group's active support for the development in the real economy and people's livelihood sectors, net loans and advances to customers accounted for 54.59% of total assets, an increase of 0.17 percentage points over the end of 2013. The Group increased the amount of fund use as required by liquidity and profitability management, and the ratio of deposits and placements with banks and non-bank financial institutions and financial assets held under resale agreements to total assets increased by 0.62 and 0.31 percentage points respectively. The Group adjusted the amount of investments in debt securities in accordance with the interest rate trend and liquidity situation, and investments accounted for 21.41% of total assets, a decrease of 0.82 percentage points. Cash and deposits with central banks accounted for 15.72% of total assets, a decrease of 0.39 percentage points.

^{2.} These comprise precious metals, positive fair value of derivatives, interests in associates and joint ventures, fixed assets, land use rights, intangible assets, goodwill, deferred tax assets and other assets.

The outstanding balance of property development loans was RMB460,052 million, an increase of RMB15,401 million over the end of last year.

Small enterprise business

The Bank regards small and micro enterprise business as its important strategic business in support of the real economy. The Bank gives priority to the development of small and micro enterprise business, sticks to retail and batch operation models, and constantly expands the coverage of financial services for small and micro enterprises by following the guidance of subdivided, standardised and intensified business transformation. In the first half of 2014, the Bank made active efforts to accommodate financial needs of small and micro enterprises, with continuously improved service model and quality. The Bank promoted cluster and batch service via products including credit cooperation loan and supply chain financing, through the platforms of business communities, industrial chains, enterprise clusters and relying on the third-party information and credit strength of governments and associations, so as to boost the availability of small and micro loans. By capitalising on outlets being familiar with and close to customers, the Bank strengthened the application and promotion of "big data" micro credit loan products to expand the coverage of small and micro finance. The Bank further consolidated and improved the operation model based on "Credit Factory" and scorecard, and enhanced the professionalism and intensiveness of business handling. At the end of June, according to the standards of SMEs jointly issued by four ministries and commissions including the Ministry of Industry and Information Technology in 2011 as well as the CBRC's latest regulatory requirements, loans to small and micro business were RMB1,068,783 million, up 8.02% over the end of last year, and the number of credit customers for small and micro business reached 240,229, an increase of 8.268.

Cost advisory service

Cost advisory service is the Bank's unique fee-based business product with a strong brand. It has had a history of 60 years since it emerged and developed along with the Bank's long-term practices of investment in fixed assets and being the agency of the state financial functions. The Bank's 36 tier-one branches had the grade-A qualification for engineering cost advisory service issued by the Ministry of Housing and Urban-Rural Development, and 157 tier-two branches set up specialised units for cost advisory service. In the first half of 2014, the Bank continued to reinforce the unique advantages of engineering cost advisory service and enhance its profitability and market influence, while strengthening standardised business management and ensuring compliance operation. Income from cost advisory service amounted to RMB6,284 million, a year-on-year increase of 12.23%.

Institutional business

The Bank vigorously promoted its updated "Minben Tongda" comprehensive financial services brand. With a focus on high quality customers in areas of education, health, social security, culture and environmental protection, the Bank further expanded the range of comprehensive services. The Bank entered into a comprehensive strategic cooperation agreement with Zhejiang University, and initiated self-service equipment registration and payment service for Peking Union Medical College Hospital, West China Hospital of Sichuan University and other key customers. The application of financial social security card continuously expanded. The Bank

ranked first in terms of the number of customers of the central finance authorised payment and non-tax revenue collection agency service. CAPITAL MANAGEMENT

The Group has implemented a comprehensive capital management which covers regulatory capital, economic capital and accounting capital management, including but not limited to management of capital adequacy ratio, capital planning, capital raising and economic capital.

In the first half of 2014, the Group continuously strengthened the fundamental capability of capital management and proactively promoted its business transformation towards more intensive utilisation of capital. As a result, the guiding and restraint functions of capital on business development were further upgraded.

The Group promoted the implementation of the advanced capital measurement approach, and enhanced capital management capabilities. In April 2014, the Bank was officially approved by the CBRC to implement the advanced measurement approach for capital management, being one of the first batch of banks in China to implement the advanced measurement approach. The Bank will complete the parallel information disclosure for both the new and old capital management methods in accordance with the regulatory approval requirements during the transition period, and periodically push forward the application for the implementation of the advanced approach of internal rating of credit risk and the advanced measurement approach of operational risk, in order to achieve continuous regulatory compliance after the approval.

The Group reinforced restraints of capital on business and accelerated the business transformation towards more intensive utilisation of capital. The Group researched on the implementation impact of the advanced capital measurement approach, performed in-depth analysis on the items of capital occupation and risk-weighted assets, and actively promoted the implementation of the operation philosophy featuring intensive utilisation of capital throughout the whole process of business development. It pushed forward refined capital management to facilitate the improvement in business management process, reduced ineffective capital occupation, and constantly improved capital utilisation efficiency.

Analysis of Capital Adequacy Ratio

In accordance with the regulatory requirements, the Group has to calculate and disclose capital adequacy ratios simultaneously in accordance with the *Measures for Capital Management of Commercial Banks (Trial)* and the *Measures for the Management of Capital Adequacy Ratios of Commercial Banks*. The scope for calculating capital adequacy ratios includes both the Bank's domestic and overseas branches and sub-branches, and financial subsidiaries (insurance companies excluded).

Capital adequacy ratio

The CBRC officially approved the Bank to implement the advanced measurement approach for capital management during this reporting period. The capital requirements of corporate credit risk exposure that meet regulatory requirements are calculated with the foundation internal rating-based approach, the capital requirements of retail credit risk exposure are calculated with the internal rating-based approach, the capital requirements of market risk are calculated with the internal models approach, and the capital requirements of operational risk are calculated with the standardised approach. Pursuant to the regulatory requirements, from this reporting period on, the Bank calculates capital adequacy ratios simultaneously with advanced capital measurement approach and other methods, and complies with the relevant capital floors.

As at 30 June 2014, considering relevant rules in the transition period, the Group's total capital ratio, tier 1 ratio and common equity tier 1 ratio, which were calculated in accordance with the *Measures for Capital Management of Commercial Banks (Trial)*, were 13.89%, 11.21% and 11.21%, respectively, and were in compliance with the regulatory requirements. The total capital

ratio, tier 1 ratio and common equity tier 1 ratio increased by 0.55, 0.46 and 0.46 percentage points respectively compared with those as at 31 December 2013.

Increases in capital adequacy ratios in this reporting period are mainly due to adjustment of capital measurement rules. With the capital adequacy ratios being calculated based on the latest rules above, the sensitivity of various risk capital requirements to risks was further enhanced, and risk-weighted assets decreased. Meanwhile, the requirements of capital floors had certain impact on the measurement result of capital adequacy ratios. Besides the adjustment of measurement rules, despite the impact of deduction of unqualified subordinated debt securities and implementation of dividend payout plan for the year ended 31 December 2013, the growth rate of total capital after deductions from internal capital accumulation in the first half of 2014 still outpaced that of risk-weighted assets, contributing to the rise of capital adequacy ratios.

The following table sets forth, as at the dates indicated, the information related to the capital adequacy ratios of the Group and the Bank.

Unrealised potential risk gains or losses are the portion of gains or losses that have been recognised in the balance sheet but not in the income statement.

PROSPECTS

In the second half of 2014, from the perspective of external environment, despite the varying situations in different geographical areas, the global economy as a whole is still on the track of moderate recovery. The economic growth is expected to be better than that of last year and the overseas market demand is relatively stable.

The Chinese economy is now in the stage of growth rate changing and transformation of development model. As the throes of structural adjustments and the vitalities stimulated by adjustments and reforms are intertwined with each other, the economic development takes on characteristics of the specific stage and the new normal. With various positive elements and a supportive macroscopic policy environment, the Chinese economy is expected to maintain steady growth. Meanwhile, there are many risks and challenges in economic development, mainly because new and strong growth engines are yet to be formed while the existing growth engines such as external demands and real estate are weakening. Structural adjustments and reforms remain extremely arduous tasks.

Against the above-mentioned background, the Group will adhere to the development direction featuring "integration, multifunction, and intensiveness", firmly push forward operation transformation, and further strengthen risk prevention and control, to maintain steady development of various businesses. Efforts will be made in the following areas. First, the Group will strive to promote comprehensive service transformation, electronic transformation, management model transformation at the Group level and innovation-driven transformation. Second, the Group will further support the real economy, continuously follow the national economic transformation and industrial adjustments, and enhance the supporting efforts of financial services. The Group will proactively support the development of weak links in economy including "agriculture, farmers and rural areas", small and micro-enterprises, and people's livelihood sectors. Third, the Group will positively respond to changes of customer requirements on funds under interest rate liberalisation, consolidate customer base, and improve products and services, to boost stable growth of deposits. Fourth, the Group will strengthen risk management and control, promote the event of "Year of Credit Risk Prevention and Control", enhance authenticity investigation on pre-lending evaluations, improve post-lending management mechanism and optimise collateral management system. The Group will strengthen the examination and rectification in key areas, and re-inspect and optimise credit policies. The Group will strengthen overall risk management in liquidity risk, market risk, operational risk and reputation risk, and firmly hold the risk bottom line. Fifth, the Group will strive to increase revenue and reduce expenses to ensure stable increase in profit. The Group will increase "smart" product services and maintain standardised and sound development of fee-based businesses. The Group will enhance the capabilities of comprehensive pricing and differentiated pricing, strengthen cost management, and improve the intensive level of spending.

OTHER INFORMATION

Corporate Governance

The Bank continued to improve its corporate governance structure in strict compliance with the Company Law of the People's Republic of China, the Law of the People's Republic of China on Commercial Banks and other laws and regulations, as well as the listing rules of the relevant stock exchanges, based on its practical conditions, in order to enhance its corporate governance. During the reporting period, the general meeting of the Bank reviewed and approved the resolutions of electing new directors and supervisors.

In order to promote sustainable development and diversify the composition of the Board, the Bank formulated the *Diversity Policy for the Board of Directors* in August 2013. For nomination of directors, the Board should consider both professional capabilities and working ethics of the candidates, and at the same time, take into account the requirements under the diversity policy. The candidates should be selected as complementary to each other, with diversified backgrounds in terms of gender, age, cultural and educational background, professional experience, specialty, knowledge and term of service. The final decision should be based on candidates' overall competence and possible contributions to the Board. Nomination and Remuneration Committee supervises the implementation of the *Diversity Policy for the Board of Directors*.

The Bank has complied with the code provisions of the *Corporate Governance Code* and *Corporate Governance Report* as set out in Appendix 14 of the Listing Rules of Hong Kong Stock Exchange. The Bank has also substantially complied with the recommended best practices therein.
