9. LOSS PER SHARE

The calculation of the basic and diluted loss per share attributable to the owners of the Company is based on the following data:

	Six months ended 30 June	
	2014	2013
	RMB'000	RMB'000
	(Unaudited)	(Unaudited)
Loss		
Loss for the period attributable to owners of the Company for the purpose of basic and diluted loss per share	(10,699)	(8,210)
	'000	'000
Number of shares		
Weighted average number of ordinary shares for the purpose of basic loss per share	4,169,023	2,060,975

The computation of diluted loss per share does not assume the exercise of the Company's share options because the exercise price of those share options were higher than the average market price for shares or their exercise would result in a decrease in loss per share. Diluted loss per share was the same as the basis loss per share as there were no potential dilutive ordinary shares outstanding on share options and convertible loan notes for both periods.

10. MOVEMENTS IN PLANT AND EQUIPMENT

During the six months ended 30 June 2014, the Group paid approximately RMB639,000 for acquisition of certain plant and equipment in the PRC (six months ended 30 June 2013: Nil).

BUSINESS OUTLOOK

The Group established an online education platform facilitating online learning to public services, intelligent management of online education, and educational resources trading with the capacity of supporting large-scale online users using online education simultaneously. Currently, the platform mainly provides specific online education and training service to two types of users: 1) those who require further education due to career development, as demonstrated by providing online education for domestic civil servants who need on-the-job training, professional and technical personnel who need further education, and employees of enterprises, public institutions as well as the cadres from the organizations of the Ministry of Human Resources and Social Security; 2) those who prepare for professional qualification examinations to obtain corresponding qualification certificates, as demonstrated by providing them with online education before relevant examinations. As at the end of the first half of 2014, our services have covered 44 provinces and cities and industries across the PRC with 2.42 million registered users and 1.69 million paid users, and are expected to continue to grow in the future.

MANAGEMENT DISCUSSION AND ANALYSIS

According to the forecast conducted by GSV Global Education Industry Report, it is expected that the global online education market scale in 2017 will expand to a value of US\$255.5 billion, representing a compound annual growth rate (CAGR) of 23%. Meanwhile, the online education in the PRC will embrace an explosive growth. According to the Sohu White Paper on Education Industry of 2012, the scale of online education market in the PRC in 2012 has amounted to a value of RMB72.3 billion. It is expected that by 2017, the CAGR of the online education market in the PRC will reach 31.7% with an overall market scale surpassing a value of RMB170 billion. In respect of the Group's on-the-job training of the PRC's civil servants and continuing education market that serves professional and technical personnel, as stipulated by the 2013-2017 National Cadre Education and Training Planning announced by the Chinese government, civil servants and professional and technical personnel shall satisfy the annual minimum professional training requirements, of which hours for online training course shall not be less than 40% of those for the whole training course. In the mean time, relevant authorities issued notices to require that the cadre training course shall make possible use of information technologies (including the network and videos) and greatly encourage cadres to have elective study or self-study while on job or other ways of study, aiming to reduce training costs and improve training efficiency. Therefore, it is obvious that only a small portion of the market was explored by the Group and that a huge potential market is waiting to be explored.

While actively promoting the existing principal business of online training, the Group will, on the basis of our core competences in cooperation with local governments, step up investment in education and training and the strategic layout of business centres in the PRC and improve the online to offline (OTO) integrated business model of online education. In May this year, the Group has finally set up a branch in Guangxi and made investments jointly with an enterprise directly under the Guangxi Zhuang Autonomous Region State-owned Asset Management Commission to establish the Guangxi Beibu Gulf Guolian Jichuang Education Investment Company Limited* (廣西北部灣國聯集創教育投資有限公司). The joint venture will serve Guangxi enterprises, institutions, social organizations, educational institutes and students and the business of the Group will then be extended to a wider area in human resources including financial advisory services, talent import and export and headhunting services. In the second half of the year, the Group will set up similar branches in 3 to 4 provinces and municipalities progressively and diversified regional business centres will be formed gradually.

MANAGEMENT DISCUSSION AND ANALYSIS

CONTINGENT LIABILITIES

On 12 June 2010, an indirectly-owned subsidiary of the Company, ChuangZhi LiDe (Beijing Technology Development Limited* (創智利德(北京)科技發展有限公司 or “ChuangZhi LiDe”) has been brought to the first court hearing at 河北省廊坊經濟技術開發區人民法院 by 日本赤見電機株式會社 (“Japan Chijian”). Japan Chijian has brought a claim for alleged breach of contractual undertakings in relation to the construction of a LED display panel located in the PRC for an amount of approximately RMB12,378,000.

A hearing was held on 4 July 2012 at 河北省石家莊中級人民法院 (the “Court”). No decision had been concluded during the hearing, however, based on principal of equitable liability, the Court has revealed an arbitration of claim of RMB7,500,000 to be paid by the Group for the ownership of the LED display panel. On 12 December 2012, another hearing was brought but no decision has been recognised and concluded.

With reference to a legal opinion obtained from the PRC legal advisor, likelihood of an unfavorable outcome is probable and the amount of the loss of RMB7,500,000 can be reasonably estimated. As a result, provision of RMB7,500,000 in respect of such claim was made and included in other payables in the condensed consolidated financial statements.

On 13 December 2013, a decision has been concluded by the Court which the indirectly-owned subsidiary of the Company is ordered to pay approximately RMB10,593,000 to Japan Chijian and borne the related court expenses of approximately RMB129,000. However, an appeal was applied by the Group on 30 December 2013.

As advised by Chuangzhi LiDe on 9 April 2014, High Court of Hebei province* (河北省高級人民法院) (the “High Court”) promulgated the final decision, which the judgment issued by the Intermediate Court has been upheld. Accordingly, ChuangZhi LiDe has to pay an amount of approximately RMB10,332,000 plus the accrued interest with reference to the loan interest rate determined by the People’s Bank of China as from 16 April 2008 until payment thereon to Japan Chijian and borne the related court expenses of approximately RMB206,000.

The total provision for the litigation claims in the consolidated financial statement of the Group as at 31 December 2013 was approximately RMB10,722,000 and the Board considered that the amount is adequate and no further provision is required. After due and careful consideration, the Board resolved not to lodge further appeal against the High Court ruling. It is in the interest of the Company and the shareholders of the Company as a whole and has no material adverse impact on the existing business of the Group.

Details regarding the above-mentioned legal proceedings have been set out in the announcement dated 22 April 2014 published by the Company.
