## **3. ACCOUNTING ESTIMATES AND JUDGMENTS**

The preparation of condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2013.

## **4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS**

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk and cash flow interest rate risk), credit risk and liquidity risk.

These condensed consolidated interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2013. There have been no changes in any risk management policies since the year end.

# Notes to the Condensed Consolidated Interim Financial Statements

## 4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the Group's liabilities that are measured at fair value as at 30 June 2014.

	Level 1 <i>HK\$'000</i> (Unaudited)	Level 2 <i>HK\$'000</i> (Unaudited)	Level 3 <i>HK\$'000</i> (Unaudited)	Total <i>HK\$'000</i> (Unaudited)
Contingent consideration payable	–	–	6,627	6,627

The following table presents the Group's liabilities that are measured at fair value as at 31 December 2013.

	Level 1 <i>HK\$'000</i> (Audited)	Level 2 <i>HK\$'000</i> (Audited)	Level 3 <i>HK\$'000</i> (Audited)	Total <i>HK\$'000</i> (Audited)
Contingent consideration payable	–	–	6,099	6,099

# Notes to the Condensed Consolidated Interim Financial Statements

## 4. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS *(Continued)*

As one or more of the significant inputs to fair value the contingent consideration payable is not based on observable market data, it is included in Level 3. The valuation technique used to value it is discounted cash flow.

The Group has no assets that are measured at fair value as at 30 June 2014 and 31 December 2013.

There were no transfers between Levels 1, 2 and 3 and changes in valuation techniques during the periods.

## 5. REVENUE AND SEGMENT INFORMATION

The Group primarily operates in Hong Kong and the People's Republic of China (the "PRC"). The Group's operating businesses are structured and managed separately according to the nature of their operations and the products or services they provide. Each of the Group's business segments represent a strategic business unit that offers products or services which are subject to risks and returns that are different from those of the other business segments. The Group's business segments are as follows:

- (a) the toys business segment engages in the manufacturing and trading of recreational and educational toys and equipment; and
- (b) the clubhouse business segment engages in the operation of clubhouse business (*Note 20*).

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Board is identified as the Group's chief operating decision-maker.

## 10. LOSS PER SHARE

### Basic

The calculation of basic loss per share is based on the consolidated loss for the period attributable to the equity holders of the Company of approximately HK\$29,890,000 (six months ended 30 June 2013: HK\$9,065,000) and on the weighted average number of 1,348,588,586 (six months ended 30 June 2013: 904,007,900) ordinary shares in issue during the period, after taking into consideration of the mandatorily convertible bonds issued on 30 January 2014 as partial satisfaction of the consideration for the acquisition of a clubhouse business (*Note 20*).

# Notes to the Condensed Consolidated Interim Financial Statements

## 10. LOSS PER SHARE (Continued)

### Basic (Continued)

	Six months ended 30 June	
	2014 (Unaudited)	2013 (Unaudited)
Loss for the period attributable to the equity holders of the Company (HK\$'000)	(29,890)	(9,065)
Weighted average number of ordinary shares in issue (thousands)	1,348,589	904,008
Basic loss per share (HK cents)	(2.22)	(1.00)

### Diluted

Diluted loss per share is calculated by adjusting the weighted average number of ordinary shares outstanding (after taking into consideration of the mandatorily convertible bonds as mentioned above) to assume exercise/conversion of all dilutive potential ordinary shares (excluding shares issuable upon the conversion of the mandatorily convertible bonds as mentioned above). The Company has 3 categories of dilutive potential ordinary shares: share options (Note 16(b)), convertible bonds (Note 17) and convertible bonds issuable for the acquisition of Tai Cheng International Limited in 2012 (the "Tai Cheng CB") (Note 18).

For the share options, a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average market price of the Company's shares during the period) based on the monetary value of the subscription rights attached to the outstanding share options. The number of shares calculated above is compared with the number of shares that would have been issued assuming the exercise of the share options. Hence, the share options have a dilutive effect only when the average market price of ordinary shares during the period exceeds the exercise price of the share options.

# Notes to the Condensed Consolidated Interim Financial Statements

## 10. LOSS PER SHARE *(Continued)*

### **Diluted** *(Continued)*

For the convertible bonds and the Tai Cheng CB, they are assumed to have been converted into ordinary shares, and the loss for the period attributable to the equity holders of the Company is adjusted to eliminate the interest expense of the convertible bonds and fair value change of the liability component of the Tai Cheng CB.

The computation of diluted loss per share for the six months ended 30 June 2014 did not assume the exercise of the Company's outstanding share options since their exercise would result in a decrease in loss per share. The computation of diluted loss per share for the six months ended 30 June 2013 did not assume the exercise of the Company's outstanding share options because the exercise price of the Company's share options was higher than the average market price during the period.

The computation of diluted loss per share for the six months ended 30 June 2014 and 30 June 2013 did not assume the conversion of the Company's outstanding convertible bonds and the Tai Cheng CB since their conversion would result in a decrease in loss per share.

## 11. DIVIDEND

The Directors have performed an impairment review of the carrying amount of goodwill as at 31 December 2013 and have concluded that an impairment charge of approximately HK\$1,744,000 arose in a cash generating unit from the toys business segment, resulting in the carrying amount of the related goodwill being fully written off.

As at 30 June 2014 and 31 December 2013, none of the property, plant and equipment were pledged for any facilities granted to the Group.

## 13. DEPOSIT PAID FOR ESTABLISHMENT OF AN ASSOCIATED COMPANY

Green Capital (Hong Kong) Limited (“Green Capital”), a wholly-owned subsidiary of the Company, paid RMB20,000,000 (equivalent to approximately HK\$25,110,000) in June 2014 for 20% equity interests in a company to be established at Qianhai, Shenzhen, the PRC, to be engaged in the provision of internet finance services.

The Group’s trade receivables are generally with credit periods of 90 days (31 December 2013: 90 days). The Group has policies in place to ensure that sales of products are made to customers with an appropriate credit history to minimise the credit risk.

The maximum exposure to credit risk at the end of the reporting period was the carrying amounts of the trade receivables. The Group does not hold any collateral as security.

# Notes to the Condensed Consolidated Interim Financial Statements

## 14. TRADE RECEIVABLES *(Continued)*

The carrying amounts of trade receivables approximate their fair values. The ageing analysis of trade receivables, based on invoice dates, as at 30 June 2014 and 31 December 2013 were as follows:

	<b>30 June 2014 HK\$'000 (Unaudited)</b>	31 December 2013 HK\$'000 (Audited)
0 – 30 days	<b>8,484</b>	39,806

61 – 90 days	<b>976</b>	7,929

Over 180 days	<b>155,918</b>	234,887
	<b>177,626</b>	323,988

Management assessed the credit quality of those trade receivables of approximately HK\$20,867,000 (31 December 2013: HK\$86,013,000) that are neither past due nor impaired by reference to the repayment history and current financial position of those customers. Those receivables are related to individual customers for whom there was no recent history of default and no significant change in credit quality. Management believes that no provision for impairment is necessary and those balances are expected to be fully recoverable.

## 14. TRADE RECEIVABLES *(Continued)*

As at 30 June 2014, trade receivables of approximately HK\$156,759,000 (31 December 2013: HK\$237,975,000) were past due but not impaired. These relate to customers for whom there have been settlements during the period. The ageing analysis of these trade receivables is as follows:

	<b>30 June 2014 HK\$'000 (Unaudited)</b>	31 December 2013 HK\$'000 (Audited)
91 – 180 days	<b>841</b>	3,088
Over 180 days	<b>155,918</b>	234,887
	<b>156,759</b>	237,975

Since there have been settlements from these customers, the Directors are optimistic to have most of the outstanding balances be collected in the foreseeable future.

The Group has made a total provision of approximately HK\$41,378,000 to account for the discounting effect of the time value of money because of the delay in settlements of the outstanding trade receivables.

Subsequent to the end of the reporting period, due to the completion of an open offer on 19 August 2014 (*Note 24(b)*), the conversion prices of the 1st Tai Cheng CB, the Big Point CB and the Shanghai Zhenrong CB were adjusted from HK\$0.50 per share to HK\$0.43 per share with effect from 19 August 2014 (*Note 24(c)*).

The values of the liability component and the equity component were determined at issuance of the convertible bonds. The fair value of the liability component was calculated using a market interest rate for an equivalent non-convertible bond. The residual amount, representing the value of the equity conversion option, is included in equity within other reserves.

## 18. CONTINGENT CONSIDERATION PAYABLE

On 8 May 2012, the Group acquired 55% equity interests in Tai Cheng International Limited (“Tai Cheng”), at a total consideration of not exceeding HK\$30,000,100. Tai Cheng is principally engaged in trading of toys in Hong Kong.

Pursuant to the sale and purchase agreement, contingent consideration payable in aggregate not exceeding HK\$30,000,000 (the remaining consideration of HK\$100 was settled in cash) shall be settled by the issue of the Tai Cheng CB in 3 tranches of not exceeding HK\$10,000,000 each for each financial year ended 31 December 2012, 2013 and 2014 respectively.

The principal amount of the Tai Cheng CB to be issued in each tranche shall be determined by the proportion of the audited profit after taxation of Tai Cheng to the benchmark profit, as multiplied by HK\$10,000,000. The benchmark profit is HK\$12,000,000, HK\$13,000,000 and HK\$14,000,000 for the financial years ended 31 December 2012, 2013 and 2014 respectively.

## 18. CONTINGENT CONSIDERATION PAYABLE *(Continued)*

The Tai Cheng CB, if issued, will be denominated in Hong Kong dollars, unsecured, interest free, will mature on the date falling on the third anniversary of the date of issue and will be convertible into the shares of the Company at an initial conversion price of HK\$0.50 per share (subject to adjustments). The Company issued the first tranche of the Tai Cheng CB on 29 October 2013 in an aggregate principal amount of HK\$6,163,639 (*Note 17(b)*).

A liability component and an equity component were classified at initial recognition of the contingent consideration payable.

The fair value of the liability component of the contingent consideration payable was initially recognised at the date of acquisition at approximately HK\$13,267,000 by using the discounted cash flow model. ## **BUSINESS REVIEW AND PROSPECTS**

Following the acquisition of a clubhouse business on 30 January 2014 (detailed in Note 20 to the condensed consolidated interim financial statements), the Group was principally engaged in the manufacturing and trading of recreational and educational toys and equipment and operation of clubhouse business. Total revenue of approximately HK\$132,619,000 was recorded by the Group during the six months ended 30 June 2014, as compared to approximately HK\$169,711,000 for the same period in 2013. Excluding the contribution from the clubhouse business segment in the current period, revenue arising from the toys business segment was approximately HK\$124,158,000.

The drop in revenue from the toys business segment was due to the decline in orders ultimately from Japan, which was mainly attributable to downside risks and uncertainties of the global economy. The slow recovery of the global economy from Eurozone debt crisis and the US fiscal cliff further adversely affects the sentiment of the customers and compresses the business of the toys industry.

On 30 January 2014, the Group completed the acquisition of Big Point and its subsidiaries, which were principally engaged in operation of clubhouse business. The clubhouse business is loss-making and the Group is undergoing assessment for rebranding and repositioning of the clubhouse. "Health and Wellness" will be the principal theme of the clubhouse. In view of the continuous economic growth in the PRC and increasing spending power of the residents and visitors of Shenzhen, the Directors are confident of the prospects of the clubhouse business in the PRC, in particular in the well-developed cities such as Shenzhen.

The overall gross profit margin of the Group has also dropped from the previous period's 6.8% to that of 5.9% in the current period. During the first half of 2014, the macro-economic and operating environment continued to be plagued by the increase in the cost of raw materials and labor in the PRC. Besides, due to the increasingly competitive market, it has become more difficult and costly to solicit orders from the toys business segment. The Group expects uncertainties to persist in the second half of 2014. In light of this, management has taken a close look at the developments of the toys business and clubhouse business segments, and will take appropriate strategic measures to reshape the segments and markets of the Group's business when necessary.

## Management Discussions and Analysis

Management has also focused on cost control in this difficult operating environment, in order to strive for a higher profit margin and return to the stakeholders. Developments on new products were slowed down as their initial research and development costs are high and the cost recovery period is long. Management is adopting a prudent and conservative approach in order to sustain the Group for the long term development.

During the six months ended 30 June 2014, the loss for the period attributable to equity holders of the Company amounted to approximately HK\$29,890,000 whilst it was approximately HK\$9,065,000 in the same period in 2013. The increase was mainly attributable to the decrease of gross profit margin as explained above, the start-up costs for the establishment of new production facilities at Guangxi, the PRC, and the operating loss of approximately HK\$10,826,000 arising from the clubhouse business segment which was acquired by the Group in January 2014.

The Group would also like to point out that the trade receivables ageing period might seem long. Management has noted this and is taking proactive measures in chasing the repayments from the customers which include, among other things, (a) liaison with the customers for repayment schedules; (b) close chasing and monitoring of the settlement amounts; and (c) tightening controls over the credit terms granted to customers in respect of new transactions. The Group will closely follow up with the customers in relation to the repayments and the Directors consider it is unlikely that the trade receivables will not be recovered as approximately HK\$81,050,000 trade receivables that were past due were settled during the period. The Directors are optimistic to have most of the outstanding balances be collected in the foreseeable future.

Increase in salaries, difficulties in labour recruitment and increase of production and material costs have put strain on the growth and profitability of the Group's different business segments. Besides, the toys business and clubhouse business are becoming more competitive. The profit margin becomes lower, the new products have shorter life cycles and the customers have more choices. To stand out in this environment, the Group must focus on producing innovative and creative products, providing services of higher qualities as well as cost control.

# Management Discussions and Analysis

As a loss was recorded by the Group during the reporting period, management is prudent on the Group's business development. Management has taken proactive and initiative approach in observing and analyzing the prospects of the different business segments and will exercise caution towards new developments to relieve cost pressures on the Group.

The Group is actively identifying and exploring other investment and business opportunities to broaden its assets and revenue base. Potential acquisitions or mergers will be assessed by management for expansion of the business segments of the Group. Management believes diversified investments could be beneficial to the interests of the Group and the shareholders as a whole. Management will cautiously search for investment opportunities so as to produce a steady growth in the Group's long term performance.

As at the reporting date, the Group has entered into several memorandums of understanding with an intention to acquire new assets/businesses/companies and in preliminary negotiations with several independent third parties regarding other potential acquisitions and investments, details of which are described in the section headed "Significant Acquisition and Disposal of Assets" below.

## **LIQUIDITY AND FINANCIAL RESOURCES**

As at 30 June 2014, the Group held cash and bank balances of approximately HK\$78,197,000 (31 December 2013: HK\$80,486,000). Net current assets amounted to approximately HK\$99,659,000 (31 December 2013: HK\$89,578,000). Current ratio (defined as total current assets divided by total current liabilities) was approximately 1.76 times (31 December 2013: 1.31 times). The gearing ratio of the Group (defined as total liabilities to total assets) was approximately 41.7% (31 December 2013: 57.9%). As at 30 June 2014, the carrying amounts and the principal amounts of the outstanding borrowings of the Group amounted to approximately HK\$119,223,000 (31 December 2013: HK\$126,760,000) and approximately HK\$183,861,000 (31 December 2013: HK\$128,755,000), respectively. The mandatorily convertible Big Point CB with outstanding principal amount of HK\$51,080,000 was included in the principal amounts of the outstanding borrowings of the Group.
