Dear Sir or Madam,

**DISCLOSEABLE AND CONNECTED TRANSACTION
IN RELATION TO PROPOSED ACQUISITION OF THE REMAINING
8.7% INTEREST IN A MAJOR SUBSIDIARY
INVOLVING ISSUE OF NEW SHARES UNDER SPECIFIC MANDATE
AND
NOTICE OF EXTRAORDINARY GENERAL MEETING**

(I) INTRODUCTION

Reference is made to the Company's Announcement dated November 3, 2014 whereby the Board announced that the Company and the Purchaser (being a wholly-owned subsidiary of the Company) entered into the Sale and Purchase Agreement with the Vendors and the Warrantors, pursuant to which the Purchaser has conditionally agreed to acquire, and the Vendors have conditionally agreed to sell, the Sale Shares representing the entire issued share capital of Goodfar Holdings for the Consideration of approximately HK\$3,185 million. The Consideration will be satisfied by the issuance of a total of 366,344,605 Shares of the Company to the Vendors.

LETTER FROM THE BOARD

Both the Vendors and Goodfar Holdings are investment holding companies. Goodfar Holdings' principal asset is its indirect 8.7% equity interest in Chongqing Longhu Development that is held through various wholly-owned subsidiaries of Goodfar Holdings in the PRC. Chongqing Longhu Development's principal business and assets include property investment, development and management in the PRC. The remaining 91.3% interest in Chongqing Longhu Development is held by the Purchaser. The Consideration, being approximately HK\$3,185 million, has been arrived at after arm's length negotiations between the Company, the Purchaser and the Vendors, and represents 0.92x Adjusted Net Book Value of Chongqing Longhu Development of RMB31,936 million, further adjusted for the Vendors' 8.7% equity interest in Chongqing Longhu Development and the outstanding material liabilities of the Target Group at Completion which is expected to be not more than RMB20 million.

The Consideration shall be satisfied by the allotment and issue of the Consideration Shares to the First Vendor as to 230,797,101 Consideration Shares (or as it may direct) and to the Second Vendor as to 135,547,504 Consideration Shares (or as it may direct), credited as fully paid up and ranking pari passu in all respects with the Shares in issue at the time of such allotment and issue at Completion.

An application will be made to the Listing Committee of the Stock Exchange for the listing of and permission to deal in the Consideration Shares.

As at the Latest Practicable Date, each of the First Vendor and the Second Vendor is a Substantial Shareholder of the Company. As such, the First Vendor and the Second Vendor are both connected persons of the Company within the meaning of the Listing Rules. Therefore, the entering into of the Sale and Purchase Agreement by the Purchaser (being a wholly-owned subsidiary of the Company) shall constitute a connected transaction for the Company. Based on the Consideration and the number of Consideration Shares, certain of the applicable percentage ratios stipulated under Rule 14.07 of the Listing Rules in respect of the Acquisition exceed 5%, thus the Acquisition as a connected transaction is subject to the reporting, announcement and Independent Shareholders' approval requirements set out in Chapter 14A of the Listing Rules. Further, as the applicable percentage ratio calculations under the Listing Rules for the Acquisition exceed 5% but are less than 25%, the Acquisition shall also constitute a discloseable transaction for the Company under Chapter 14 of the Listing Rules.

The Independent Board Committee has been established to advise the Independent Shareholders in respect of the terms of the Sale and Purchase Agreement and the transactions contemplated thereunder. Somerley Capital Limited has been appointed as the Independent Financial Adviser to advise the Independent Board Committee and the Independent Shareholders in the same regard.

Since Madam Wu is the founder of the discretionary trust which beneficially owns the First Vendor, Madam Wu is considered to have a material interest in the Acquisition and the transactions contemplated by it. Madam Wu has therefore abstained from voting in the relevant resolutions of the Board meeting approving the Acquisition and the transactions contemplated thereunder.

Save for Madam Wu, no other directors of the Company have any material interest in the Acquisition and none of them was required to abstain from voting in the relevant resolutions of the Board meeting approving the Acquisition and the transactions contemplated thereunder.

LETTER FROM THE BOARD

The Company proposes to convene the EGM to consider, and if thought fit, to approve the Acquisition and the allotment and issue of the Consideration Shares. Each of the First Vendor and the Second Vendor and their respective associates, being the connected persons of the Company and having material interests in the Acquisition (which are different from those of the Independent Shareholders), will abstain from voting at the EGM. As at the Latest Practicable Date, each of the First Vendor and the Second Vendor, and their respective associates, respectively held 2,343,736,600 Shares and 1,559,394,400 Shares in the Company, which constituted 43.065% and 28.653%, respectively, of the issued share capital of the Company. The votes of the Independent Shareholders regarding the resolution for approval of the Sale and Purchase Agreement and the transactions contemplated thereunder will be taken by way of a poll at the EGM.

The purpose of this circular is:

- (i) to provide Shareholders with further details of the proposed Acquisition, the Target Group and the transactions contemplated under the Sale and Purchase Agreement, including the allotment and issue of the Consideration Shares;
- (ii) to set out the recommendations of the Independent Board Committee to the Independent Shareholders regarding the Acquisition and the transactions contemplated under the Sale and Purchase Agreement, including the allotment and issue of the Consideration Shares;
- (iii) to set out the recommendations of the Company's independent financial adviser, Somerley, to the Independent Board Committee and the Independent Shareholders regarding the Acquisition and the transactions contemplated under the Sale and Purchase Agreement, including the allotment and issue of the Consideration Shares;
- (iv) to set out the property valuation report on the Property Projects from Savills;
- (v) to give notice of the EGM; and
- (vi) other information as required by the Listing Rules.

(II) THE PROPOSED ACQUISITION

(A) The Sale and Purchase Agreement

Date: November 3, 2014 (after trading hours)

Parties:

- (1) The Company;
- (2) The Purchaser;
- (3) The First Vendor;
- (4) The Second Vendor; and
- (5) The Warrantors

LETTER FROM THE BOARD

Sale Shares

Being the entire issued share capital of Goodfar Holdings as at the Latest Practicable Date of 100 ordinary shares of US\$1.00 each, registered in the name of and beneficially owned as to 63 Shares (63%) by the First Vendor and 37 Shares (37%) by the Second Vendor, and such additional shares as may have been issued by Goodfar Holdings to the First Vendor and/or the Second Vendor on or prior to Completion (if any).

Consideration

The Consideration, being approximately HK\$3,185 million, and to be satisfied by the issuance of 366,344,605 Shares of the Company to the Vendors, has been arrived at after arm's length negotiations between the Company, the Purchaser and the Vendors. The Consideration represents 0.92x Adjusted Net Book Value of Chongqing Longhu Development of RMB31,936 million, further adjusted for the Vendors' 8.7% equity interest in Chongqing Longhu Development and the outstanding material liabilities of the Target Group at Completion, which is expected to be not more than RMB20 million. The Adjusted Net Book Value of Chongqing Longhu Development was derived from the unaudited consolidated equity attributable to the owners of Chongqing Longhu Development of RMB33,086 million as at June 30, 2014, less the dividend declared by Chongqing Longhu Development to its shareholders on October 9, 2014 in the amount of RMB1,150 million. The Consideration shall be satisfied by the allotment and issue of the Consideration Shares to the First Vendor as to 230,797,101 Consideration Shares (or as it may direct) and to the Second Vendor as to 135,547,504 Consideration Shares (or as it may direct), credited as fully paid up and ranking *pari passu* in all respects with the Shares in issue at the time of such allotment and issue at Completion.

Conditions precedent

Completion is subject to, *inter alia*, the Conditions that:

- (1) the Independent Shareholders having approved by way of poll at the EGM of the Sale and Purchase Agreement and the transactions contemplated thereunder including but not limited to the Acquisition by the Company of the Sale Shares, the allotment and issue of the Consideration Shares to the First Vendor and the Second Vendor (or as directed by either of them) and, to the extent applicable, the transactions arising out of and in pursuance to the Sale and Purchase Agreement;
- (2) the Listing Committee of the Stock Exchange granting the listing of and permission to deal in the Consideration Shares, either unconditionally or subject only to conditions which the Vendors, the Purchaser and the Company have no reasonable objection; and
- (3) a valuation report having been obtained in relation to the assets of Chongqing Longhu Development prepared by Savills, an independent valuer, and the Purchaser having been satisfied at its absolute discretion with the valuation report in all respects.

The Purchaser may waive the Conditions on or before the Long Stop Date, except Conditions (1) and (2) which are not capable of being waived in any event.

LETTER FROM THE BOARD

As at the Latest Practicable Date, the Purchaser has no intention to waive any of the Conditions.

If the Conditions have not been fulfilled (or to the extent permitted, waived) by the Long Stop Date (or such other date as the parties to the Sale and Purchase Agreement may agree in writing), the Sale and Purchase Agreement shall thereupon become null and void.

Deed of Indemnity

On Completion, the Purchaser and the Warrantors will enter into the Deed of Indemnity. Subject to certain limitations as stated in the Deed of Indemnity, the Warrantors undertake to the Purchaser to indemnify and keep indemnified the Purchaser from and against any tax liabilities in relation to the business activities of the Target Group prior to Completion and other liabilities as specified in the Deed of Indemnity.

Completion

Completion will take place on or before the 15th Business Day after the Conditions have been fulfilled in accordance with the Sale and Purchase Agreement or such other date as the parties to the Sale and Purchase Agreement may agree.

(B) Lock Up Undertaking

Each of the Vendors has, individually and separately, entered into a deed of undertaking with the Company (the “**Deed of Lock-Up Undertaking**”), pursuant to which the First Vendor and the Second Vendor have undertaken to the Company that, for a period of six (6) months after the Completion Date of the Sale and Purchase Agreement, it shall not:

- (a) sell, offer to sell, contract or agree to sell, lend, grant or sell any option, warrant, contract or right to purchase, purchase any option, warrant, contract or right to sell, or otherwise transfer or dispose of or create an encumbrance over, or agree to transfer or dispose of or create an encumbrance over, either directly or indirectly, conditionally or unconditionally, any of their respective Consideration Shares; or
- (b) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of their respective Consideration Shares, or agree to transfer or dispose of or create an encumbrance over, either directly or indirectly, conditionally or unconditionally, any of their respective Consideration Shares or any interest in the foregoing; or
- (c) enter into any transaction with the same economic effect as any transaction specified in paragraphs (a) or (b) above; or

LETTER FROM THE BOARD

- (d) offer to or agree to or announce any intention to effect any transaction specified in paragraphs (a), (b) or (c) above, in each case, whether any of the transactions specified in paragraphs (a), (b) or (c) above is to be settled by delivery of the Shares or any other equity securities of the Company, or in cash or otherwise.

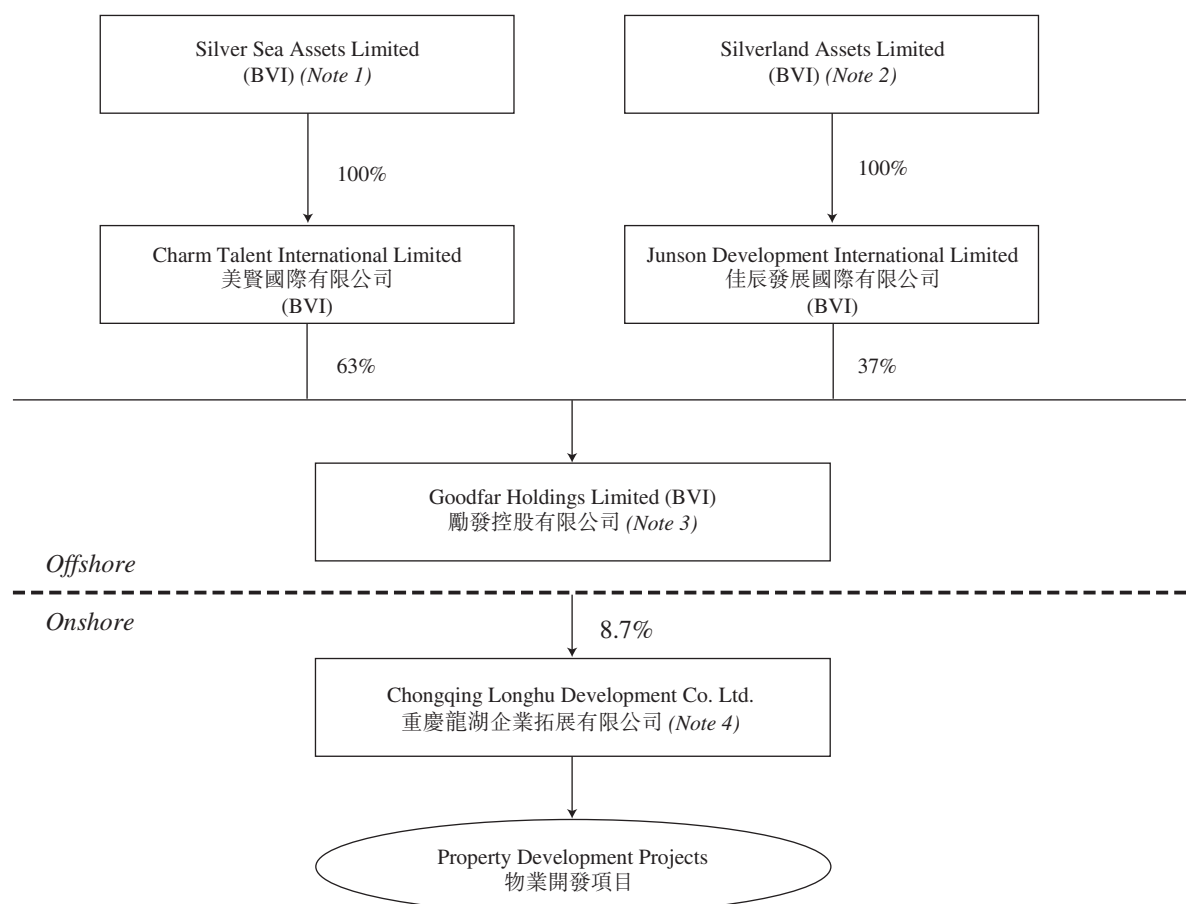

(C) Information on the Target Group

Goodfar Holdings is an investment holding company and its principal asset is its 8.7% equity interest in Chongqing Longhu Development that is held through various wholly-owned subsidiaries of Goodfar Holdings in the PRC. Chongqing Longhu Development's principal business and assets include property investment, development and management in the PRC. The remaining 91.3% interest in Chongqing Longhu Development is held by the Purchaser. The First Vendor and the Second Vendor are indirectly owned by the discretionary trust founded by Madam Wu for certain of her family members and the discretionary family trust founded by Mr. Cai Kui for certain of his family members, respectively.

Immediately prior to the listing of the Company on November 19, 2009, the 8.7% equity interest in Chongqing Longhu Development was indirectly held by Madam Wu and Mr. Cai Kui. Such interest subsequently became held indirectly through the First Vendor and the Second Vendor. The cumulative cost of the Vendors' investments in the 8.7% interest of Chongqing Longhu Development was approximately RMB120 million.

LETTER FROM THE BOARD

The following diagram illustrates the simplified shareholding structure of the Target Group as at the Latest Practicable Date:

Notes:

- (1) The entire share capital of Silver Sea Assets Limited is wholly-owned by HSBC International Trustee Limited (“**HSBC International Trustee**”) as the trustee of the Wu Family Trust. The Wu Family Trust is a discretionary trust set up by Madam Wu as settlor and protector and HSBC International Trustee as trustee on June 11, 2008.
- (2) The entire share capital of Silverland Assets Limited is wholly-owned by HSBC International Trustee as the trustee of the Cai Family Trust. The Cai Family Trust is a discretionary trust set up by Mr. Cai as settlor and protector and HSBC International Trustee as trustee on June 11, 2008.
- (3) Principally engaged in investment holding.
- (4) The 8.7% equity interest is indirectly held by Goodfar Holdings through various wholly-owned subsidiaries in the PRC. The remaining 91.3% interest is held by the Purchaser.

LETTER FROM THE BOARD

For the purposes of this circular, set out below are certain unaudited financial information of Chongqing Longhu Development and of the 8.7% interest therein attributable to the Target Group for each of the two financial years ended December 31, 2013 and December 31, 2012:

	For the year ended December 31, 2013 <i>(Approximately HK\$ million)</i>	For the year ended December 31, 2012 <i>(Approximately HK\$ million)</i>
Profit before taxation of Chongqing Longhu Development	13,657	13,843
Profit after taxation of Chongqing Longhu Development ¹	8,449	8,415
Profit before taxation of Chongqing Longhu Development attributable to the 8.7% interest held by the Target Group ²	1,008	1,017
Profit after taxation of Chongqing Longhu Development attributable to the 8.7% interest held by the Target Group ³	624	618

Based on the minority interest adjustments made to the Company's statement of profit and loss for the financial year ended December 31, 2013 in relation to the 8.7% interest in Chongqing Longhu Development, assuming that the Acquisition was completed at the beginning of the 2013 financial year, the net income attributable to the owners of the Company for the financial year ended December 31, 2013 would be RMB 8,608.4 million, representing an increase of RMB 571.2 million or 7.1% as compared with the net income attributable to owners of RMB 8,037.2 million originally recorded for the same period.

In addition to the financial impact associated with its 8.7% interest in Chongqing Longhu Development, Goodfar Holdings incurred immaterial net expenses of less than RMB50,000 since its establishment in 2013.

¹ Before subtracting profit after taxation attributable to non-controlling interests of Chongqing Longhu Development

² Assuming the amount of profit before taxation attributable to non-controlling interests of Chongqing Longhu Development to represent the same percentage as profit after taxation attributable to non-controlling interests accounts for total profit after taxation

³ Subtracted profit after taxation attributable to non-controlling interests of Chongqing Longhu Development

(D) Basis of the Consideration

The Consideration, being approximately HK\$3,185 million, and to be satisfied by the issuance of 366,344,605 Shares of the Company to the Vendors, has been arrived at after arm's length negotiations between the Company, the Purchaser and the Vendors. The Consideration represents 0.92x Adjusted Net Book Value of Chongqing Longhu Development of RMB31,936 million, further adjusted for the Vendors' 8.7% equity interest in Chongqing Longhu Development and the outstanding material liabilities of the Target Group at Completion, which is expected to be not more than RMB20 million. The Adjusted Net Book Value of Chongqing Longhu Development was derived from the unaudited consolidated equity attributable to the owners of Chongqing Longhu Development of RMB33,086 million as at June 30, 2014, less the dividend declared by Chongqing Longhu Development to its shareholders on October 9, 2014 in the amount of RMB1,150 million.

The Consideration, which represents 0.92x Adjusted Net Book Value, implies a 2.5% discount to the Company's price-to-book multiple of 0.94x, calculated based on the unaudited consolidated equity attributable to the owners of the Company as at June 30, 2014 in an amount of RMB39,919 million, and the average closing price of the Shares for the last five (5) Trading Days, as stated in the daily quotation sheets of the Stock Exchange, immediately prior to the date of the Announcement of HK\$8.694.

Chongqing Longhu Development has been the Company's principal operating subsidiary in the PRC since the Company's listing in November 2009, and still contributes to a significant portion of the Company's business. Prior to the Acquisition, the Company already owned 91.3% of the equity interest of Chongqing Longhu Development, and hence fully consolidates the financial performance and financial position of Chongqing Longhu Development in the Company's accountants' report. LETTER FROM THE BOARD

at 30 June 2014, Chongqing Longhu Development had total assets of RMB 142.1 billion, as compared to RMB 161.9 billion for the Company, and in terms of equity attributable to owners, Chongqing Longhu Development had RMB 33.1 billion, as compared to RMB 39.9 billion for the Company. Given the Company derives such a significant proportion of its total asset value and net asset value from Chongqing Longhu Development, the Directors are of the view that the market valuation of the Company should be largely reflective of a fair assessment of the value of the underlying assets held within Chongqing Longhu Development by the market.

As mentioned, prior to the Completion of the Acquisition, the financial position and financial performance of Chongqing Longhu Development have been fully consolidated into the Company. As such, the Independent Shareholders have always had economic exposure to the business of the unlisted Chongqing Longhu Development via shareholding of the listed Company since its IPO. Furthermore, both the 8.7% equity interest in Chongqing Longhu Development and the listed Shares of the Company represent minority interests in and economic exposure to principal legal entities controlled by the Company. Hence, the price-to-book multiple implied by the market share price of the Company can be considered a fair and reasonable reflection of the public investors' views on the valuations of both the Company and the 8.7% interest in Chongqing Longhu Development. Furthermore, since November 2009, the Company's stock has been listed on the Stock Exchange and has maintained active trading volume. As of the date of this circular, all material information relating to the Company has been disseminated and therefore the Directors have no reason to believe the market share price of the Company does not fully reflect the market's view of the Company's fundamentals, operating environment and outlook. As a result, the Directors have no reason to believe that the Company's stock price is materially distorted and that the Company's stock price is unable to fairly and reasonably reflect the valuation views of the Independent Shareholders.

Also, at the time of undertaking the arm's length negotiation between the Company, the Purchaser and the Vendors, the Company represented that it had no intention to dispose of any interest in Chongqing Longhu Development upon Completion of the Acquisition. The beneficial owners of the Vendors, on the other hand, are the founders and have been long-term and substantial shareholders of the Company since its IPO. They also demonstrated their commitment to the long-term shareholding in the Company through the Vendors agreeing to enter into a 6-month lock-up undertaking for the Consideration Shares. As a result, it is considered that there is no fundamental change in the liquidity status from the 8.7% minority interest in Chongqing Longhu Development to the Consideration Shares. As such, it was agreed among the Company, the Purchaser and the Vendors, and the Directors concur, that as there is no fundamental change in the liquidity status of the economic exposure being transacted, it would be inappropriate to explicitly make any related adjustment.

Under the Acquisition, as the Vendors receive Consideration Shares, the Company will also benefit from a number of aspects as described in the section headed "(G) Reasons for and Benefits of the Acquisition" below.

LETTER FROM THE BOARD

In light of the above, the Directors are of the view that the Company's market valuation level indicated on a price-to-book basis serves as a fair and reasonable benchmark for deriving the Consideration for the 8.7% interest in Chongqing Longhu Development under the Acquisition. The 2.5% discount was derived through an arm's length negotiation between the Company, the Purchaser and the Vendors. The additional 2.5% discount with respect to the Company's market valuation is expected to provide incremental benefit to the Independent Shareholders, and hence is in the interests of the Company's shareholders as a whole.

The Consideration also implies a 57.3% discount to the reassessed net asset value estimate of Chongqing Longhu Development of RMB68,503 million, which is before the adjustment of the outstanding material liabilities of the Target Group at the Completion Date which is expected to be not more than RMB20 million. Reassessed net asset value discount is one of the common methodologies used by investors when determining the valuation of real estate companies or assets. Reassessed net asset value discount of different real estate assets or companies can vary significantly depending on investors' perception of the risk levels associated with the specific property projects or activities involved. The implied reassessed net asset value discount provided above is meant to offer Independent Shareholders an additional reference point on valuation. The reassessed net asset value estimate of Chongqing Longhu Development was determined based on the following formula:

	<i>RMB million</i>
Unaudited consolidated equity value attributable to the owners of Chongqing Longhu Development as at 30 June 2014	33,086
Less: Dividend declared by Chongqing Longhu Development on 9 October 2014	(1,150)
Adjusted consolidated equity value attributable to the owners of Chongqing Longhu Development as at 30 June 2014	<u>31,936</u>
Add: Property revaluation gain attributable to Chongqing Longhu Development arising from the appraisal of the Property Projects as at 31 August 2014 (<i>Note</i>)	<u>36,567</u>
Reassessed net asset value of Chongqing Longhu Development	<u>68,503</u>

Note: This represents the revaluation surplus arising from the difference between the valuation of the Property Projects of approximately RMB170,000 million as at 31 August 2014 (as valued by Savills and set out in Appendix I to the Circular) and their respective book value of approximately RMB104,769 million as at 30 June 2014, net of interests in unconsolidated joint venture projects that are not attributable to Chongqing Longhu Development and the relevant taxes payable by Chongqing Longhu Development with respect to the Property Projects.

The Directors (excluding the independent non-executive Directors whose opinion is set out in the "Letter from the Independent Board Committee" on pages 24 to 25 in this circular) consider that the basis of the Consideration is fair and reasonable, and the settlement of the Consideration by the allotment and issue of the Consideration Shares is in the interests of the Company and the Shareholders as a whole.

LETTER FROM THE BOARD

The appraised value of the Property Projects as at August 31, 2014 is prepared by Savills, an independent property valuer (not being connected with the Company or any of its connected persons) based on the following methodology:

- (i) In relation to properties held for sale or owner occupation in the PRC, by direct comparison approach by making reference to comparable sales transactions as available in the relevant markets;
- (ii) In relation to properties held for investment in the PRC, by making reference to comparable market transactions as available in the market and where appropriate, valuing properties on the basis of capitalisation of incomes as shown on schedules provided with due allowance for reversionary income potential of the properties; and
- (iii) In relation to properties held under development or for future development in the PRC, by direct comparison approach on the basis that it will be developed and completed in accordance with the latest development proposal provided, taking into account the construction cost expended as at the valuation date.

A property valuation report containing such information is set out in Appendix I to this circular.

(E) Consideration Shares

At Completion, the Consideration Shares will be allotted and issued as to 230,797,101 Consideration Shares to the First Vendor (or as it may direct) and as to 135,547,504 Consideration Shares to the Second Vendor (or as it may direct), representing approximately 63% and 37% of the Consideration Shares respectively.

The Issue Price of the Consideration Shares will be HK\$8.694 per Share, which represents the average closing price of the Shares for the last five (5) Trading Days, as stated in the daily quotation sheets of the Stock Exchange, immediately prior to the date of the Announcement.

The Consideration Shares represent approximately:

- (a) 6.7% of the existing issued share capital of the Company; and
- (b) 6.3% of the issued share capital of the Company as enlarged by the issue of the Consideration Shares.

The Consideration Shares, when issued, will be credited as fully paid up, free from all encumbrances and rank *pari passu* in all respects with the Shares in issue at the time of allotment and issue of the Consideration Shares. Given that the Acquisition constitutes a connected transaction for the Company for which Independent Shareholders' approval is required, specific mandate for the allotment and issue of the Consideration Shares will be sought from the Independent Shareholders. An application will be made to the Listing Committee of the Stock Exchange for granting the listing of and permission to deal in the Consideration Shares.

LETTER FROM THE BOARD

The Directors (excluding the independent non-executive Directors whose opinion is set out in the “Letter from the Independent Board Committee” on pages 24 to 25 in this circular) consider that the terms of the Consideration Shares are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

(F) Effect of the Acquisition on the Shareholding Structure

Assuming there is no change in the issued share capital of, and the shareholding in, the Company from the Latest Practicable Date and up to Completion pursuant to the Sale and Purchase Agreement, and assuming the Consideration Shares are issued for the Acquisition, the shareholding structure of the Company (a) as at the Latest Practicable Date; and (b) immediately after Completion and including issue of the Consideration Shares will be as follows:

(G) Reasons for and Benefits of the Acquisition

The Group is principally engaged in property investment, development and management in the PRC.

The principal business activity of the Vendors and the Target Group is investment holding and the principal business activity of Chongqing Longhu Development is property investment, development and management in the PRC.

The 8.7% interest in Chongqing Longhu Development was not transferred to the Group at the time of the IPO reorganization due to some uncertainty as to the interpretation of the relevant PRC laws and regulations with respect to the transfer of equity interest to Juntion Development (holder of the remaining 91.3% interest) as a foreign investor. As a result of such uncertainty, it was decided then that the 8.7% interest in Chongqing Longhu Development would remain beneficially owned by Madam Wu and Mr. Cai. The Company's PRC legal adviser has confirmed that the said uncertainty has since been removed and such 8.7% equity interest was subsequently transferred to be indirectly held by the First Vendor and Second Vendor in accordance with applicable PRC laws and regulations.

At the time of the Announcement, the Consideration, which represents 0.92x Adjusted Net Book Value of Chongqing Longhu Development, implies a 2.5% discount to the Company's market valuation of 0.94x price-to-book multiple. The discount allows Independent Shareholders to benefit from the attractive valuation of the assets acquired. In addition, due to the valuation discount, the increase in equity attributable to the owners of the Company resulting from the Acquisition would more than offset the increase in number of Shares, leading to an accretion to the Company's per share book value of equity based on the latest financial positions of the Company and Chongqing Longhu Development as at 30 June 2014.

The minority interest adjustments made to the Company's statement of profit and loss owing to the Acquisition would increase the net income attributable to the owners of the Company. Based on the minority interest adjustments provided above on page 13 of this circular, the increase in net income attributable to the owners of the Company resulting from the Acquisition could more than offset the increase in number of Shares, leading to an accretion to the Company's earnings per share.

The Vendors' decision to accept the Consideration Shares and, individually and separately, submit to a six (6)-month lock up undertaking demonstrates their continued support for the Company in the current market environment. It also aligns the Vendors' interests with that of minority investors and further reinforces their willingness to support the Company's continued success.

Furthermore, the Acquisition will allow the Company to benefit from a more streamlined and transparent corporate structure, which will in turn enhance the Company's efficiency in developing strategies and implementing business decisions for its PRC property business, while minimizing potential conflict of interests and optimizing governance.

LETTER FROM THE BOARD

In addition, through increasing its effective interest in Chongqing Longhu Development to 100% and issuing the Consideration Shares, the Company will be able to reduce the amount of minority interests in its subsidiaries and increase the equity attributable to owners on the Company's balance sheet. As a result of the enlarged shareholders' equity base, the Company will become more capitalized upon Completion, although Shareholders will experience a dilution effect on their existing shareholdings of the Company following the issue of the Consideration Shares.

The Directors (excluding the independent non-executive Directors whose opinion is set out in the "Letter from the Independent Board Committee" on pages 24 to 25 in this circular) of the view that the terms of the Sale and Purchase Agreement and the transactions contemplated thereunder (including the allotment and issue of the Consideration Shares by the Company as settlement of the Consideration) are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.

(III) GENERAL

The Independent Board Committee has been established to advise the Independent Shareholders in respect of the terms of the Acquisition and the allotment and issue of the Consideration Shares as contemplated in the Sale and Purchase Agreement. Somerley has been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in the same regard.

Since Madam Wu is the founder of the discretionary trust which beneficially owns the First Vendor, Madam Wu is considered to have a material interest in the Acquisition and the transactions contemplated by it. Madam Wu has therefore abstained from voting in the relevant resolutions of the Board meeting approving the Acquisition and the transactions contemplated thereunder.

Save for Madam Wu, no other directors of the Company have any material interest in the Acquisition and none of them was required to abstain from voting in the relevant resolutions of the Board meeting approving the Acquisition and the transactions contemplated thereunder.

Your attention is drawn to the letters from the Independent Board Committee and the Independent Financial Adviser as set out in this circular. As set out in the letter from the Independent Board Committee, members of the Independent Board Committee are of the view that: (i) the terms of the Sale and Purchase Agreement and the allotment and issue of the Consideration Shares as contemplated by the Sale and Purchase Agreement are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned, (ii) the business to be conducted by the Target Group is in the normal and usual course of business of the Group, and (iii) the entering into of the Sale and Purchase Agreement is in the interests of the Company and the Independent Shareholders as a whole.

(IV) EXTRAORDINARY GENERAL MEETING

You will find on page EGM-1 of this circular a notice of the EGM to be held at Cliftons Hong Kong, Level 5, Hutchison House, 10 Harcourt Road, Central, Hong Kong on Monday, December 15, 2014 at 2:30 p.m. for the purpose of considering and, if thought fit, approving the Acquisition and the allotment and issue of the Consideration Shares as contemplated in the Sale and Purchase Agreement.

LETTER FROM THE BOARD

In accordance with the Listing Rules, connected persons of the Company who have material interests in the Acquisition are required to abstain from voting in respect of the resolutions approving the Acquisition and the allotment and issue of the Consideration Shares as contemplated in the Sale and Purchase Agreement. Therefore, each of the First Vendor and the Second Vendor and their respective associates, being the connected persons of the Company and having material interests in the Acquisition (which are different from those of the Independent Shareholders), will abstain from voting at the EGM.

Pursuant to Rule 13.39(4) of the Listing Rules, the resolutions relating to the Sale and Purchase Agreement and all other transactions contemplated respectively thereby must be taken by poll at the EGM. Therefore, the votes of the Independent Shareholders regarding the resolution for approval of the Sale and Purchase Agreement and the transactions contemplated thereunder will be taken by way of a poll at the EGM.

A form of proxy for use at the EGM is enclosed. Whether or not you intend to be present at the meeting, you are requested to complete this form of proxy in accordance with the instructions printed thereon and deposit the same at Computershare Hong Kong Investor Services Ltd., the branch share registrar of the Company, at Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wan Chai, Hong Kong as soon as possible and in any event not less than 48 hours before the time of the EGM or any adjourned meeting. The completion and return of the form of proxy will not preclude you from attending and voting in person should you so wish.

(V) RECOMMENDATION

The Directors (excluding the independent non-executive Directors whose opinion is set out in the letter from the Independent Board Committee on pages 24 to 25 to this circular) consider that the terms of the Acquisition and the allotment and issue of the Consideration Shares as contemplated in the Sale and Purchase Agreement are fair and reasonable and in the interests of the Company and the Shareholders as a whole. Accordingly, the Directors recommend the Shareholders to vote in favour of the relevant resolution to be proposed at the EGM.

Your attention is drawn to the recommendation of the Independent Board Committee as set out on pages 24 to 25 to this circular and the letter from Somerley as set out on pages 26 to 47.

(VI) ADDITIONAL INFORMATION

Your attention is also drawn to the additional information set out in the appendix to this circular.

Yours faithfully,
for and on behalf of the Board

To the Independent Shareholders

Dear Sir and Madam,

**DISCLOSEABLE AND CONNECTED TRANSACTION
IN RELATION TO PROPOSED ACQUISITION OF THE REMAINING
8.7% INTEREST IN A MAJOR SUBSIDIARY
INVOLVING ISSUE OF NEW SHARES UNDER SPECIFIC MANDATE**

We refer to the circular (the “**Circular**”) dated November 28, 2014 issued by the Company to its Shareholders of which this letter forms part. Terms defined in the Circular shall have the same meanings when used in this letter, unless the context otherwise requires.

We have been appointed as members of the Independent Board Committee to advise the Independent Shareholders in respect of the Acquisition and the allotment and issue of the Consideration Shares as contemplated under the Sale and Purchase Agreement, details of which are described in the letter from the Board as set out in the Circular.

We also draw your attention to the advice of Somerley, the independent financial adviser appointed in respect of the Acquisition and the allotment and issue of the Consideration Shares as contemplated under the Sale and Purchase Agreement, as set out on pages 26 to 47 to the Circular.

As your Independent Board Committee, we have discussed with the management of the Company the reasons for entering into the Sale and Purchase Agreement, and the allotment and issue of the Consideration Shares and the basis upon which its terms have been determined as described in the letter from the Board as set out in the Circular. We have also considered the key factors taken into account by Somerley in arriving at its opinion regarding the terms of the Acquisition and the allotment and issue of the Consideration Shares as contemplated under the Sale and Purchase Agreement as set out in the letter from Somerley in the Circular, which we urge you to read carefully.

LETTER FROM THE INDEPENDENT BOARD COMMITTEE

Having taken into account, amongst other things, the advice of Somerley, the independent financial adviser to the Company, we are of the view that: (i) the terms of the Sale and Purchase Agreement and the allotment and issue of the Consideration Shares as contemplated by the Sale and Purchase Agreement are on normal commercial terms and are fair and reasonable so far as the Independent Shareholders are concerned, (ii) the business to be conducted by the Target Group is in the normal and usual course of business of the Group, and (iii) the entering into of the Sale and Purchase Agreement is in the interests of the Company and the Independent Shareholders as a whole.

Accordingly, we recommend you to vote in favour of the ordinary resolution to be proposed at the EGM to approve the Acquisition and the allotment and issue of the Consideration Shares as contemplated under the Sale and Purchase Agreement.

Yours faithfully,

LETTER FROM SOMERLEY

The following is the letter of advice to the Independent Board Committee and Independent Shareholders from Somerley for the purpose of incorporation into this circular.

SOMERLEY CAPITAL LIMITED

20th Floor
China Building
29 Queen's Road Central
Hong Kong

28 November 2014

To: the Independent Board Committee and the Independent Shareholders

Dear Sirs,

**DISCLOSEABLE AND CONNECTED TRANSACTION
IN RELATION TO PROPOSED ACQUISITION OF THE REMAINING
8.7% INTEREST IN A MAJOR SUBSIDIARY INVOLVING
ISSUE OF NEW SHARES UNDER SPECIFIC MANDATE**

INTRODUCTION

We refer to our appointment to advise the Independent Board Committee and the Independent Shareholders in connection with the Company's proposed acquisition from the Vendors of the whole equity interest in Goodfar Holdings which in turn holds 8.7% equity interests in Chongqing Longhu Development (the "**Acquisition**"). Details of the Acquisition are contained in the circular to the Shareholders dated 28 November 2014 (the "**Circular**"), of which this letter forms a part. Unless the context otherwise requires, capitalised terms used in this letter shall have the same meanings as those defined in the Circular.

As at the Latest Practicable Date, the Vendors, which comprise of the First Vendor and the Second Vendor, of which the respective entire issued share capital is beneficially owned by the Wu Family Trust and the Cai Family Trust, are the two substantial shareholders of the Company. Accordingly, the Vendors are connected persons of the Company, and the entering into of the Sale and Purchase Agreement with the Purchaser (being a wholly-owned subsidiary of the Company) constitutes a connected transaction of the Company. Based on the Consideration and the number of Consideration Shares, certain of the applicable percentage ratios stipulated under Rule 14.07 of the Listing Rules in respect of the Acquisition exceed 5%. The Acquisition is therefore subject to the approval of the Independent Shareholders by way of poll at the EGM under the Listing Rules.

LETTER FROM SOMERLEY

The Independent Board Committee comprising all the independent non-executive Directors, namely Mr. Frederick Peter Churchouse, Mr. Chan Chi On, Derek, Dr. Xiang Bing and Dr. Zeng Ming, has been formed to advise the Independent Shareholders on whether (i) the Acquisition is on normal commercial terms and fair and reasonable so far as the Independent Shareholders are concerned and (ii) the entering into of the Sale and Purchase Agreement is in the ordinary and usual course of business of the Company and in the interests of the Company and its shareholders as a whole. We, Somerley, have been appointed as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in this regard.

During the past two years, we have not acted as an independent financial adviser to the independent board committee and independent shareholders of the Company. As at the Latest Practicable Date, there were no relationships or interests between (a) Somerley and (b) the Group, the Vendors and their respective subsidiaries and associates that could reasonably be regarded as a hindrance to our independence as defined under Rule 13.84 of the Listing Rules to act as the independent financial adviser to the Independent Board Committee and the Independent Shareholders in respect of the Acquisition as detailed in the Circular.

In formulating our advice, we have relied on the information and facts supplied, and the opinions expressed, by the Directors and the management of the Group and have assumed that such information, facts and opinions were true, accurate and complete in all material aspects and will remain so up to the time of the EGM. We have also sought and received confirmation from the Directors that all material relevant information has been supplied to us and that no material facts have been omitted from the information supplied and opinions expressed to us. We have no reason to doubt the truth or accuracy of the information provided to us, or to believe that any material information has been omitted or withheld. We have relied on such information and consider that the information we have received is sufficient for us to reach our advice and recommendation as set out in this letter and to justify our reliance on such information. However, we have not conducted any independent investigation into the business, affairs and financial position of the Group, the Vendors and the Target Group, nor have we carried out any independent verification of the information supplied.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In considering whether the terms of the Sale and Purchase Agreement are fair and reasonable in so far as the Independent Shareholders are concerned, we have taken into account the principal factors and reasons set out below:

1. Background to and reasons for the Acquisition

(i) Background of the Group and the Acquisition

The Group is principally engaged in property development, property investment, and property management businesses in the PRC. Being one of the leading PRC property developers, the Group has a large number of property projects nationwide, including properties for sale and investment properties for rental purpose. For the year ended 31 December 2013, the Group recorded revenue and profit attributable to Shareholders of approximately RMB41,510.2 million and RMB8,037.2 million respectively. As at 30 June 2014, the Group had total assets of approximately RMB161,878.9 million,

LETTER FROM SOMERLEY

out of which approximately RMB127,983.2 million (or approximately 79.1% of the total assets) represents property assets (including investment properties, prepaid lease payments, inventories, properties under development for sales, properties held for sales and deposits paid for acquisitions of land use rights) (the “**Property Assets**”). The market capitalisation of the Company was approximately HK\$54,419.3 million as at the Latest Practicable Date.

Chongqing Longhu Development is one of the Group’s principal operating subsidiaries in the PRC. It is currently 91.3% owned by the Purchaser, a wholly-owned subsidiary of the Company. The remaining 8.7% equity interest, indirectly held by Madam Wu and Mr. Cai Kui at the time of the Company’s listing in 2009, was not included in the Group at that time due to relevant PRC regulatory uncertainties.

Such 8.7% equity interest in Chongqing Longhu Development subsequently became indirectly held by the Vendors, which are in turn wholly-owned by the Wu Family Trust and the Cai Family Trust.

On 3 November 2014, the Purchaser entered into the Sale and Purchase Agreement with the Vendors to acquire the entire equity interest in Goodfar Holdings and accordingly the remaining 8.7% interest in Chongqing Longhu Development. Following Completion, Chongqing Longhu Development will become an indirect wholly-owned subsidiary of the Company.

(ii) *Reasons and benefits for entering into the Acquisition*

The Company currently owns 91.3% interest in Chongqing Longhu Development, and is therefore very familiar with the business and operation of Chongqing Longhu Development which is under its control. Through the Acquisition, such interest will be increased to 100%, thereby maximizing the total profit contribution from Chongqing Longhu Development to the Company. The Acquisition can also result in a slight accretion on the Group’s net asset value per Share upon Completion based on latest available financial information as at 30 June 2014, and a potential accretion to the Company’s per share earnings.

The Acquisition will also allow the Company to have full control of Chongqing Longhu Development, and accordingly to benefit from a more streamlined and transparent corporate structure, which will in turn enhance the Company’s efficiency in developing strategies and implementing business decisions for its PRC property business.

In terms of pricing, the Consideration was determined based on the Company’s price-to-book (“**P/B**”) multiple with reference to the 5-day average closing prices of the Shares immediately prior to the date of the Announcement, with an additional 2.5% discount. As illustrated further in the section below headed “5. Evaluation of the Consideration”, we concur with the Directors in using the Company’s own market valuation in arriving at the Consideration for the 8.7% interest in Chongqing Longhu Development, given a substantial portion of the Group’s business comes from its 91.3% interest in Chongqing Longhu Development. In addition, there is a 2.5% discount applied to the Consideration which, in our view, serves as a sweetener and increase the attractiveness of the Acquisition to the Company.

LETTER FROM SOMERLEY

As both the Consideration and the issue price of the Consideration Shares are determined with reference to the 5-day average closing price of the Shares immediately prior to the date of the Announcement, the number of Consideration Shares to be issued is not affected by the market price of the Shares, thereby eliminating any change on the level of dilution to existing Shareholders regardless of the movements of the Company's share price.

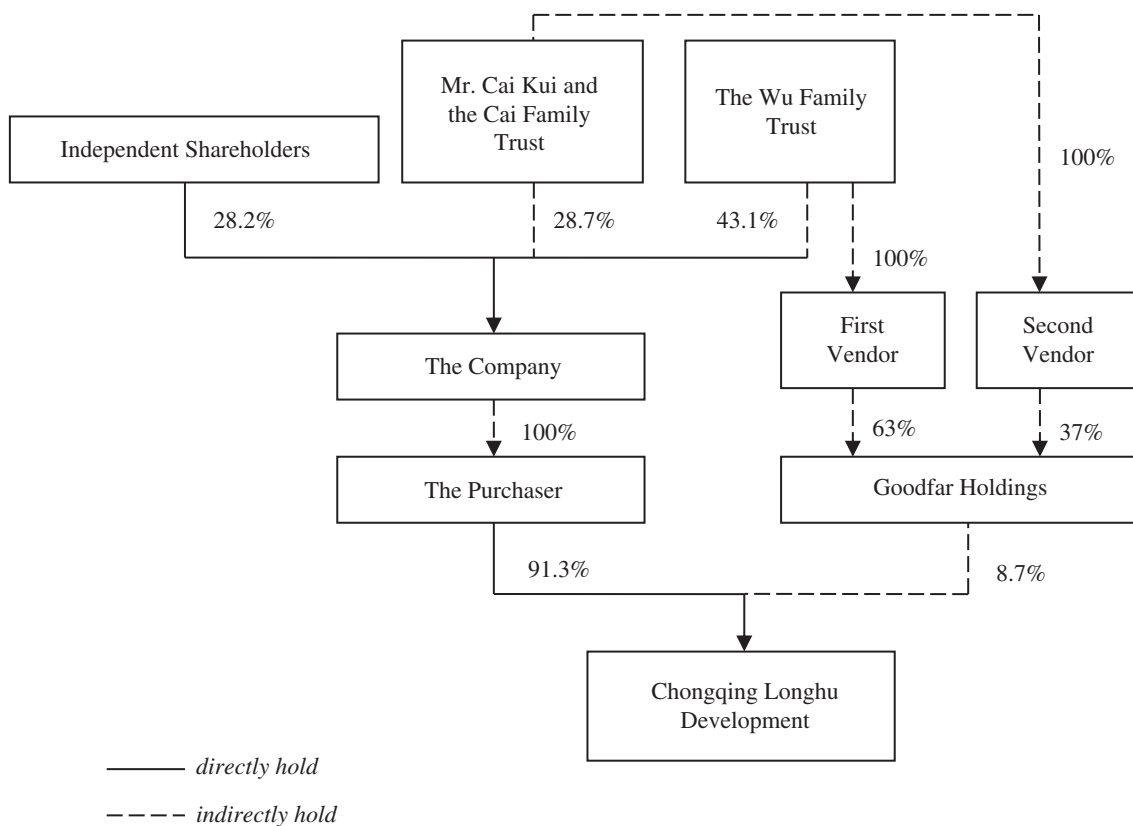

2. Principal terms of the Sale and Purchase Agreement

(i) Subject matters

Pursuant to the Sale and Purchase Agreement, the Purchaser agrees to acquire from the Vendors the Sale Shares, representing the entire issued share capital of Goodfar Holdings. Goodfar Holdings is currently directly owned as to 63% by the First Vendor (which in turn is beneficially held by the Wu Family Trust) and 37% by the Second Vendor (which in turn is beneficially owned by the Cai Family Trust).

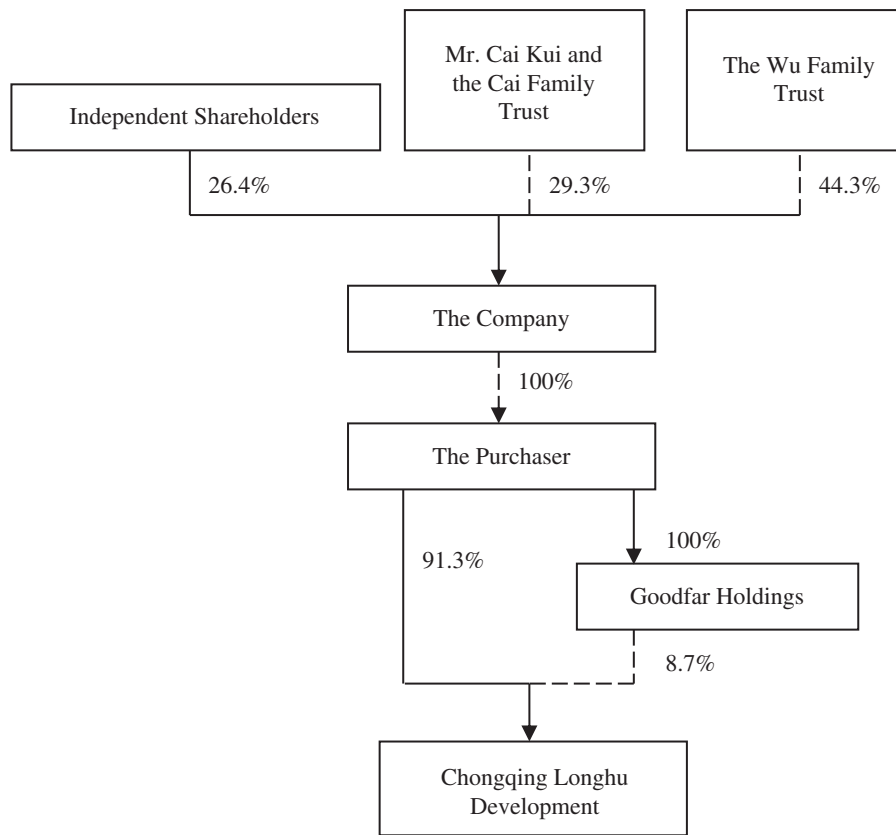

The following diagram illustrates the simplified shareholding structure of the Target Group (i) as at the Latest Practicable Date and (ii) immediately upon Completion:

LETTER FROM SOMERLEY

(ii) Consideration

Pursuant to the Sale and Purchase Agreement, the consideration of the Acquisition is approximately HK\$3,185 million (or approximately RMB2,524 million), which was principally arrived at arm's length negotiations between the Company, the Purchaser and the Vendors, with reference to the Vendor's 8.7% equity interest in the adjusted net book value of Chongqing Longhu Development, and the Company's trading P/B multiple, as follows:

	<i>RMB million</i>
Unaudited consolidated equity attributable to the owners of Chongqing Longhu Development as at 30 June 2014	33,086
Less: Dividend declared by Chongqing Longhu Development on 9 October 2014	<u>(1,150)</u>
The Adjusted Book Value of Chongqing Longhu Development	31,936
Company's P/B multiple (<i>Note</i>)	0.94 times
Discount applied to Company's P/B multiple	2.5%
Vendors' equity interest in Chongqing Longhu Development	<u>8.7%</u>
	2,544
Less: Estimated outstanding material liabilities of the Target Group at Completion	<u>20</u>
Consideration	2,524
	(or approximately HK\$3,185 million)

Note: The Company's P/B multiple of 0.94 times is calculated based on the average closing price of the Shares for the last five Trading Days of HK\$8.694 per Share immediately prior to the date of the Announcement and the unaudited consolidated equity attributable to the owners of the Company of RMB39,919 million as at 30 June 2014, taking into account 5,442 million Shares in issue as at the date of the Announcement and the exchange rate of RMB1.0000 to HK\$1.2618 as stated in the Circular

Issue of the Consideration Shares

The Consideration shall be satisfied by the allotment and issue on the Completion Date a total of 366,344,605 Consideration Shares, as to (i) 230,797,101 Consideration Shares to the First Vendor, and (ii) 135,547,504 Consideration Shares to the Second Vendor, pro rated to their respective existing shareholdings of Goodfar Holdings. The number of Consideration Shares is fixed and is not subject to adjustments. The Consideration Shares represent approximately 6.7% of the existing issued share capital of the Company as at the Latest Practicable Date, and approximately 6.3% of the enlarged issued share capital of the Company as at the Latest Practicable Date.

The Consideration Shares will be issued at the Issue Price of HK\$8.694 per Share, which represents the average closing price of the Shares for the last five Trading Days immediately before the date of the Announcement and the Sale and Purchase Agreement.

LETTER FROM SOMERLEY

As advised by the management of the Group, the decision to issue new Shares to satisfy the Consideration is principally to align the interests of the Independent Shareholders and the Vendors pursuant to the arm's length negotiation between the parties. Given (i) the shareholdings by the Independent Shareholders will only be slightly reduced by approximately 1.8%, (ii) the gearing level of the Group is not particularly low, as indicated by the fact that the net gearing ratio of the Group has reached approximately 66.2% as at 30 June 2014, and (iii) the Group's net asset value per Share is expected to be slightly accretive upon Completion, as further analysed in the section below headed "9. Financial effect of the Acquisition on the Group", we concur with the Directors that it is appropriate to issue Consideration Shares to satisfy the Consideration.

Comment

As shown above, both the Consideration and the Issue Price were determined with reference to the 5-day average closing price of the Shares immediately prior to the date of the Announcement. Furthermore, the Consideration was determined at a fixed level of discount to the trading P/B multiple of the Shares. In the hypothetical scenario where the market prices of the Shares are higher prior to the date of the Announcement, both the Consideration and the Issue Price would be higher to the same extent. As a result, the number of Consideration Shares to be issued to the Vendors in such scenario, which is calculated by dividing the Consideration by the Issue Price, would still remain the same and unaffected by the change in price level of the Shares. This pricing mechanism ensures the shareholding dilution to Independent Shareholders remains constant irrespective of the price level of the Shares.

(iii) *Conditions precedent*

Completion is subject to, inter alia, the Conditions that:

- (a) the Independent Shareholders having approved by way of poll at the EGM of the Sale and Purchase Agreement and the transactions contemplated thereunder including but not limited to the Acquisition by the Company of the Sale Shares, allotment and issue of the Consideration Shares to the First Vendor and the Second Vendor (or as directed by either of them) and, to the extent applicable, the transactions arising out of and in pursuance to the Sale and Purchase Agreement;
- (b) the Listing Committee of the Stock Exchange granting the listing of and permission to deal in the Consideration Shares, either unconditionally or subject only to conditions which the Vendors, the Purchaser and the Company have no reasonable objection; and
- (c) a valuation report having been obtained in relation to the assets of Chongqing Longhu Development prepared by Savills, an independent valuer, and the Purchaser having been satisfied at its absolute discretion with the valuation report in all respects.

The Purchaser may waive the Conditions on or before the Long Stop Date, except Conditions (a) and (b) which are not capable of being waived in any event. As stated in the letter from the Board of the Circular, the Purchaser has no intention to waive any of the Conditions.

LETTER FROM SOMERLEY

If the Conditions have not been fulfilled (or to the extent permitted, waived) by the Long Stop Date (or such other date as the parties to the Sale and Purchase Agreement may agree in writing), the Sale and Purchase Agreement shall thereupon become null and void.

Completion will take place on or before the 15th Business Day after the Conditions have been fulfilled in accordance with the Sale and Purchase Agreement or such other date as the parties to the Sale and Purchase Agreement may agree.

(iv) *Lock up undertaking*

Pursuant to the Sale and Purchase Agreement, each of the Vendors has undertaken to the Company not to sell or enter into any swap or other arrangement that transfers the Consideration Shares, for a period of six months after Completion.

(v) *Deed of indemnity*

On Completion, the Purchaser and the Warrantors will enter into the Deed of Indemnity. Subject to certain limitations as stated in the Deed of Indemnity, the Warrantors undertake to the Purchaser to indemnify and keep indemnified the Purchaser from and against any tax liabilities in relation to the business activities of the Target Group prior to Completion and other liabilities as specified in the Deed of Indemnity.

(vi) *Pre-completion undertakings*

Pursuant to the Sale and Purchase Agreement, prior to Completion, save with the written consent of the Purchaser, the Vendors shall ensure, amongst other things, that the Target Group (a) shall not make or agree to make any payment other than routine payments in the ordinary and usual course of business and (b) enter into any contract, document or arrangement not excluded in the ordinary course of business and having a value or contracted liability, on an individual basis, in excess of HK\$5 million.

In addition, the Vendors also jointly and severally undertake to the Purchaser that the net liability of the Target Group at Completion shall not be more than RMB20 million.

3. **Information on the Group**

(i) *Business*

The Group is principally engaged in the development of residential and commercial properties, property investment and property management businesses in the PRC. As extracted from the schedule of principal properties in its 2014 interim report, the Group had 80 principal development property projects in various major cities in the PRC as at 30 June 2014. In addition, the Group also holds interests in 28 principal properties as at 30 June 2014 for rental purpose.

LETTER FROM SOMERLEY

(ii) *Operating results and financial position*

Set out below are the condensed operating results of the Group for the six months ended 30 June 2014 and 2013, and the two years ended 31 December 2013 and 2012, as extracted from the relevant annual and interim reports of the Company (the “**Review Period**”).

	For the six months ended 30 June		For the year ended 31 December	
	2014	2013	2013	2012
	<i>RMB million</i>	<i>RMB million</i>	<i>RMB million</i>	<i>RMB million</i>
	<i>(Unaudited)</i>	<i>(Unaudited)</i>	<i>(Audited)</i>	<i>(Audited)</i>
Revenue	15,944.9	15,230.8	41,510.2	27,892.8
Profit before taxation	6,430.3	6,243.8	13,218.7	11,301.5
Profit for the period	4,352.2	4,121.8	8,635.9	6,865.5
Profit attributable to the Shareholders	4,007.0	3,845.7	8,037.2	6,301.1

The Group’s revenue in general has been on an upward trend during the Review Period, albeit tempered by the increasing signs since early 2014 that the real estate market in the PRC is entering a correctional phase. For the first half of 2014 revenues increased by approximately 4.7% when compared to the same period in 2013, while the Group’s revenues increased by approximately 48.8% for the year 2013 when compared to 2012. The property development business contributes a majority of the Group’s revenues. Its revenue increase in the year 2013 was principally due to strong growth of the PRC real estate industry and the Group’s successful delivery of a number of property projects, while the growth slowed in the first half of 2014.

The profit attributable to the Shareholders increased by approximately 4.2% for the first half of 2014 when compared to the same period in 2013 due to, amongst others, a higher valuation surplus on the Group’s investment properties, offset by higher administrative expenses. Overall, profitability during the Review Period was mainly affected by sales of properties and changes in fair value of the Group’s investment properties.

LETTER FROM SOMERLEY

Set out below are the condensed financial positions of the Group as at 30 June 2014 and 31 December 2013, as extracted from the relevant annual and interim reports of the Company.

	As at 30 June 2014	As at 31 December 2013
	<i>RMB million (Unaudited)</i>	<i>RMB million (Audited)</i>
Investment properties	31,198.4	23,813.4

Net assets	43,854.6	39,775.4
Equity attributable to Shareholders	39,919.4	36,983.6

As at 30 June 2014, properties under development for sales amounted to approximately RMB68,745.9 million, with the Group planning to complete a total of approximately 6.9 million square metres of properties in 2014 across various cities in the PRC.

The Group's investment properties mainly comprise various types of shopping centres in the PRC. As at 30 June 2014 the Group had investment properties of approximately 763,349 square meters with an occupancy rate of approximately 95.8%.

As at 30 June 2014, the Group's bank balances and cash and pledged bank deposits amounted to approximately RMB18,113.5 million, the Group's borrowings principally comprised of various secured and unsecured bank loans and senior notes to the total amount of approximately RMB47,159.8 million, and the net debt to equity ratio (net debt divided by total equity) of the Group was approximately 66.2%.

4. Information on the Target Group

(i) Background and business of the Target Group

Goodfar Holdings

Goodfar Holdings was incorporated in the BVI on 21 May 2013 and is a wholly-owned subsidiary of the Vendors. Its principal asset is its 8.7% equity interest in the Property Projects through Chongqing Longhu Development.

Chongqing Longhu Development

Chongqing Longhu Development was incorporated in the PRC on 18 October 2002, and is principally engaged in property investment, development and management in the PRC, same as the principal businesses of the Group. It is a sino-foreign equity joint venture which is indirectly owned as to 91.3% by the Company and 8.7% by the Vendors. As a 91.3% subsidiary, its financial performance and financial position have been fully consolidated into the Group's accounts. As at the Latest Practicable Date, it has a fully paid-up capital of RMB1,308.0 million.

(ii) Financial information of Chongqing Longhu Development

Set out below are the unaudited condensed operating results of Chongqing Longhu Development and its subsidiaries (together the “**Chongqing Longhu Development Group**”) for the six months ended 30 June 2014, prepared in accordance with International Financial Reporting Standards:

	For the six months ended 30 June 2014
	<i>RMB million (Unaudited)</i>
Revenue	13,925.4
Profit before taxation	6,130.5
Profit for the period	4,217.9
Profit attributable to the Shareholders	3,879.6

As mentioned previously, Chongqing Longhu Development Group's financial performance has been consolidated into the Group as a 91.3% subsidiary. As shown in the above table, for the first half of 2014, Chongqing Longhu Development Group's revenue and profit attributable to the Shareholders represented a substantial portion of the Group's revenue and profit for the period.

LETTER FROM SOMERLEY

Set out below are the unaudited condensed financial positions of Chongqing Longhu Development Group as at 30 June 2014, prepared in accordance with International Financial Reporting Standards:

	As at 30 June 2014
	<i>RMB million</i>
	<i>(Unaudited)</i>
Investment properties	29,526.4
Prepaid lease payments	6,723.3
Deposits paid for acquisition of land use rights	4,388.6
Others	2,674.8
Total non-current assets	43,313.1
Inventories	815.1
Properties under development for sales	58,048.0
Properties held for sales	8,183.7
Bank balances and cash	14,662.2
Others	17,112.1
Total current assets	98,821.1
Total assets	142,134.2
Total liabilities	(98,045.9)
Net assets	44,088.3
Equity attributable to Shareholders	33,086.4

Major assets of the Chongqing Longhu Development Group are similar to those of the Group, comprising mainly properties under development for sales, properties held for sales, and investment properties. The Property Assets of Chongqing Longhu Development Group of approximately RMB107,685.1 million as at 30 June 2014 represented a significant portion of the Property Assets of the Group of approximately RMB127,983.2 million.

5. Evaluation of the Consideration

The Consideration of approximately HK\$3,185 million has been largely determined based on the Vendor's 8.7% equity interest in Chongqing Longhu Development's net asset value, adjusted by a discount of 2.5% to the Company's trading P/B multiple of 0.94 times, based on the average price of its shares before the Announcement. Given the Group and Chongqing Longhu Development are both principally engaged in property businesses which are heavily asset-based, we consider the use of P/B multiple, which tracks the relationships between market price of the Shares and the net asset value of a company, a reasonable basis in arriving at the Consideration.

LETTER FROM SOMERLEY

In considering the use of the Company's trading P/B multiple for determination of the Consideration, the Directors have taken into account the fact that, unlike an outright acquisition of a new property company, the Acquisition is to squeeze out the 8.7% minority of Chongqing Longhu Development, and that the operating performance of Chongqing Longhu Development has all along been consolidated to the Group's financial statements as a 91.3% subsidiary, representing a significant portion of the Group's business. Below sets forth the comparison of the relative scale of the Group and Chongqing Longhu Development:

	The Group	Chongqing Longhu Development
	<i>RMB million</i>	<i>RMB million</i>
Revenue for the six months ended 30 June 2014	15,944.9	13,925.4
Profit after tax for the six months ended 30 June 2014	4,352.2	4,217.9
Property Assets as at 30 June 2014	127,983.2	107,685.1
Total assets as at 30 June 2014	161,879.0	142,134.2

As shown above, Chongqing Longhu Development contributed significantly to the revenue, profit after tax, Property Assets and total assets of the Group, and should also contribute most to the market valuation of the Company from a P/B multiple perspective, compared to the remaining businesses of the Group (other than those held by Chongqing Longhu Development). Although Chongqing Longhu Development itself is a private company, based on its significant contribution to the Group's business, we agree with the Directors that the Company's trading P/B multiple of 0.94 times, which represents the valuation that the market applies to the Company, is an appropriate yardstick in determining the Consideration for the equity interest in Chongqing Longhu Development.

We consider the additional 2.5% reduction to the Consideration, enabling the Company to purchase the remaining 8.7% interest in Chongqing Longhu Development at a further discount, beneficial to the Independent Shareholders.

The Company's trading P/B multiple, based on the market price of the Shares, is with reference to a value attributable to a minority interest. This is similar to the 8.7% interest in Chongqing Longhu Development which also represents a minority interest. The Acquisition will allow the Company to have a complete control of Chongqing Longhu Development, thereby facilitating a more streamlined and transparent corporate structure, as opposed to the current shareholding structure where a minority shareholder is present. Such complete control will in turn enhance the Company's efficiency in developing strategies and implementing business decisions for its PRC property business, while minimizing potential conflict of interests and optimizing governance. On the other hand, as Chongqing Longhu Development makes significant contribution to the Group's business, the Company considers the market valuation of the Company is largely reflective of its assessment of the underlying assets held within Chongqing Longhu Development.

LETTER FROM SOMERLEY

As stated in the letter from the Board in the Circular, based on the arm's length negotiation between the Company, the Purchaser and the Vendors, the Company represented that it has no intention to dispose of any interest in Chongqing Longhu Development upon Completion of the Acquisition, which is at present a principal subsidiary of the Group representing significant portion of the Group's business. Further, as mentioned in the section above headed "2(iv) Lock up Undertaking", each of the Vendors has undertaken to the Company to lock up the Consideration Shares for a period of six months after Completion. Based on the above, we concur with the Directors' view that there is no fundamental change in the liquidity status of the 8.7% equity interest of Chongqing Longhu Development, and accordingly, it would be inappropriate to make any corresponding adjustment to the valuation of Chongqing Longhu Development for this factor.

Although the Company and Chongqing Longhu Development are established in different jurisdictions, we consider the underlying business activities of the Group and that of the target is more relevant to our analyses. As mentioned above, Chongqing Longhu Development already represents a significant portion of the Group's business. Through the Acquisition, the Group is acquiring the remaining interest in exactly the same business that it already owns 91.3% interest. As such, the different requirements and environments being faced by Chongqing Longhu Development are also faced by the Group, being a 91.3% shareholder of Chongqing Longhu Development.

We have also performed a search for Hong Kong listed companies principally engaged in property development in the PRC, with at least half of their revenues generated from this activity, and which had market capitalisations of 50% to 200% of the market capitalisation of the Company as at

Notes:

- (1) The consolidated NAV per share of the Company and the Comparable Companies is calculated by the respective consolidated NAV attributable to equity holders as extracted from the latest published financial statements, divided by the respective number of issued shares as at 31 October 2014.
- (2) Being the Adjusted Net Book Value of Chongqing Longhu Development of RMB31,936 million, further adjusted for the Vendors' 8.7% equity interest in Chongqing Longhu Development and the outstanding material liabilities of the Target Group at Completion which is expected to be RMB20 million.

LETTER FROM SOMERLEY

As shown above, the P/B multiples of the Comparable Companies ranged from approximately 0.62 times to 1.09 times, with mean and median of 0.81 times and 0.74 times respectively. The P/B multiple as represented by the Consideration of approximately 0.92 times falls within the above range of P/B multiples of the Comparable Companies.

The Comparable Companies, depending on their own business activities, statuses of their development projects and financial positions, can have different valuations attributed by the market. On the other hand, Chongqing Longhu Development already represents a significant portion of the Group's business. It follows that the Company's trading P/B multiple, instead of the trading P/B multiples of the Comparable Companies, is the more reasonable basis to arrive at the Consideration. In addition, the pricing mechanism of the Acquisition, as mentioned in the section above headed "2(ii) Consideration", ensures that a higher Consideration due to a higher Company's trading P/B multiple will be compensated by a higher Issue Price of the Consideration Shares to be issued to the Vendors, due to the fact that the Consideration and the Issue Price are both determined with reference to the same 5-day average closing price of the Shares.

Reassessed net asset value

The Property Projects of Chongqing Longhu Development have been valued by Savills and the full text of the property valuation report and certificate dated 31 August 2014 is set out in Appendix I to the Circular. As the property development projects for sales are typically carried at cost, the reassessed net asset value ("**Reassessed NAV**") of Chongqing Longhu Development reflects its underlying net asset backing after taking into account the valuation of the Property Projects:

	<i>RMB million</i>
Unaudited consolidated equity attributable to the owners of Chongqing Longhu Development as at 30 June 2014	33,086
Less: Dividend declared by Chongqing Longhu Development on 9 October 2014	(1,150)
Add: Net revaluation surplus arising from the valuation of property interests attributable to Chongqing Longhu Development as at 31 August 2014 (<i>Note</i>)	<u>36,567</u>
Reassessed NAV of Chongqing Longhu Development	68,503
Goodfar Holding's interest in Chongqing Longhu Development	<u>8.7%</u>
Goodfar Holding's share of the Reassessed NAV of the Chongqing Longhu Development	5,960
Discount of Consideration to the Reassessed NAV of Chongqing Longhu Development	<u>57.3%</u>
	2,544
Less: Target Group liabilities at the Completion Date	<u>(20)</u>
Consideration	<u><u>2,524</u></u>

LETTER FROM SOMERLEY

Note: This represents the revaluation surplus arising from the difference between the valuation of the Property Projects of approximately RMB170,000 million as at 31 August 2014 (as valued by Savills and set out in Appendix I to the Circular) and their respective book value of approximately RMB104,769 million as at 30 June 2014 (as derived from the unaudited financial information of Chongqing Longhu Development as at 30 June 2014), net of interests in unconsolidated joint venture projects and the estimated amount of the relevant taxes attributable to such revaluation surplus.

As shown above, the Consideration of approximately HK\$3,185 million (or approximately RMB2,524 million) represents a 57.3% discount to the Reassessed NAV of 8.7% equity interests of Chongqing Longhu Development of RMB5,960 million, which is before the adjustment of the Target Group liabilities at the Completion Date of RMB20 million. We are not able to compare the 57.3% discount to the Group's peers in the market due to unavailability of such Reassessed NAVs of the peers, supported by independent valuation, from public source. As mentioned above, due to the significant contribution by Chongqing Longhu Development to the Group's business, we agree with the Directors that the Company's trading P/B multiple is the appropriate yardstick in determining the Consideration, compared to other bases of valuation with reference to market peers.

6. Valuation of the Property Projects

The Property Projects have been valued by Savills and the full text of the property valuation report and certificate dated 31 August 2014 is set out in Appendix I to the Circular.

Savills has principally adopted the (i) direct comparison approach and (ii) the basis of capitalisation of incomes in valuing the Property Projects.

In valuing the Property Projects, the direct comparison approach was principally adopted. Under this approach, sales of properties of nature and character similar to the subject properties are collated and analysed in order to arrive at a value appropriate to the subject properties. Comparisons are made in respect of the differences in locations, sizes and characters between the subject properties and the relevant comparable properties in order to arrive at a value appropriate to the subject properties.

For properties held under development or for future development in the PRC, Savills has taken into account the costs that will be expended to complete the proposed development. As regards the properties held for investment in the PRC, Savills has adopted the basis of capitalisation of incomes, by taking into account the current net income of the subject properties being held under existing states with due allowance for reversionary income potential of the subject properties.

The above methodologies are, in our opinion, reasonable approach in establishing the market value of the Property Projects.

Savills has also carried out inspections, made relevant enquiries and searches for the purpose of the valuation. We have reviewed and discussed with Savills the bases and assumptions adopted for the valuation of the Property Projects. We consider that the assumptions adopted by Savills are fair and reasonable and the basis used is a normal one for valuing the Property Projects. We have also interviewed Savills as to its experience and qualification, reviewed its terms of engagement, performed work as required under note (1)(d) to the Listing Rule 13.80 in relation to Savills and its

LETTER FROM SOMERLEY

work as regards the valuation of the Property Projects. We are further confirmed by Savills that, apart from being the Company's independent valuer for the preparation of (i) its listing in November 2009 and (ii) annual consolidated financial statements, Savills does not have any current or prior relationships with the Company, other parties to the transaction, and connected persons.

7. Share price performance and comparison with issue price

(i) Analysis of Share price performance

The share price chart below illustrates the daily closing price per Share quoted on the Stock Exchange from 1 November 2013 (approximately one year before the date of the Sale and Purchase Agreement) up to the Latest Practicable Date (both dates inclusive) (the “Share Review Period”):

Source: Bloomberg

As illustrated in the above share price chart, the Shares have generally been trading on a downward trend during the Share Review Period. The price per Share dropped from HK\$12.7 per Share on 1 November 2013, the highest share price during the Share Review Period, to HK\$8.52 per Share on 28 October 2014, the lowest price during the Share Review Period. On the last Trading Day before the entering into the Sale and Purchase Agreement (the “**Last Trading Day**”), the Shares closed at HK\$8.99 per Share. After the announcement of the Acquisition, the price of the Shares generally fluctuated at around HK\$9 per Share before shooting up. As at the Latest Practicable Date, the Shares closed at HK\$10.0 per Share.

LETTER FROM SOMERLEY

It is shown above that the Issue Price is in general lower than the historical market price of the Shares. However, as described in the section above headed “2(ii) Consideration”, both the Consideration and the Issue Price are determined with reference to the 5-day average price of the Shares immediately prior to the date of the Announcement. Accordingly, a lower Issue Price compared to historical market price also means that the Company is purchasing the Target Group at a lower Consideration due to a lower trading P/B multiple of the Company. The number of Consideration Shares to be issued to the Vendors (thereby the dilution to the Independent Shareholders), calculated by dividing the Consideration by the Issue Price, is not affected by the price level of the Shares. Based on the above, we consider the basis of setting the Issue Price, based on shorter term average price of the Shares, to be acceptable.

(ii) *Trading volume of the Shares*

The table below sets out the total number of Shares traded per month, the percentage of the monthly trading volume to the issued share capital of the Company and the percentage of the monthly trading volume to Shares held by the public respectively during the Share Review Period:

	Total monthly trading volume of the Shares	Approximate % of total monthly trading volume to the total issued Shares	Approximate % of total monthly trading volume to the public float
	<i>(Note)</i>		
2013			
November	81,916,657	1.5%	5.4%
December	72,417,407	1.3%	4.8%
2014			
January	96,497,418	1.8%	6.4%
February	52,854,530	1.0%	3.5%
March	107,380,748	2.0%	7.1%
April	71,818,330	1.3%	4.7%
May	68,354,228	1.3%	4.5%
June	38,947,191	0.7%	2.6%
July	131,160,292	2.4%	8.6%
August	67,073,522	1.2%	4.4%
September	54,668,039	1.0%	3.6%
October	48,099,308	0.9%	3.2%
From 1 November to the Latest Practicable Date	48,724,884	0.9%	3.2%

Source: Bloomberg and the Company

As shown in the above table, the trading volumes were within the range of approximately 0.7% and 2.4% of the total issued Shares, and between approximately 2.6% and 8.6% of the issued Shares

LETTER FROM SOMERLEY

constituting the public float of the Company. On this basis, we consider the market in which the Shares are traded is not considered to be illiquid, and we did not note any instances or significant irregularities which indicate material distortion of the price of the Shares.

(iii) *Comparison of the issue price for the Consideration Shares*

The issue price of the Consideration Shares of HK\$8.694 per Share is arrived based on the average closing price of the Shares for the last five Trading Days immediately before the date of the Sale and Purchase Agreement. The issue price of the Consideration Shares also represents:

- a discount of approximately 13.1% to the closing price of Shares of HK\$10.0 as quoted by the Stock Exchange as at the Latest Practicable Date;
- a discount of approximately 11.5% to the average closing price of the Shares of approximately HK\$9.82 as quoted by the Stock Exchange for the 90 full Trading Days up to and including the Last Trading Day; and
- a discount of approximately 13.2% to the average closing price of the Shares of approximately HK\$10.02 as quoted by the Stock Exchange for the 180 full trading days up to and including the Last Trading Day.

As shown above, the issue price of the Consideration Shares represents discounts of approximately 11.5% and 13.2% to the 90 and 180 days average share price respectively. However, as mentioned in the sub-section above headed “7(i) Analysis of Share price performance”, since both the Consideration and the Issue Price are determined with reference to the 5-day average price of the Shares immediately prior to the date of the Announcement, a lower Issue Price compared to historical market price also means the Company is purchasing the Target Group at a lower Consideration.

8. Shareholding structure

The following table sets out the shareholding structure of the Company as at the Latest Practicable Date and immediately after Completion and issue of the Consideration Shares (assuming no further Shares are issued between the Latest Practicable Date and the date of Completion):

	As at the Latest Practicable Date		Immediately after Completion and issue of the Consideration Shares	
	No. of Shares	Approx. %	No. of Shares	Approx. %
First Vendor	2,343,736,600	43.1%	2,574,533,701	44.3%
Second Vendor and its associate (<i>Note</i>)	1,562,494,400	28.7%	1,698,041,904	29.3%
Independent Shareholders	<u>1,536,141,500</u>	<u>28.2%</u>	<u>1,536,141,500</u>	<u>26.4%</u>
	<u>5,442,372,500</u>	<u>100.0%</u>	<u>5,808,717,105</u>	<u>100.0%</u>

Note: Balance represents the aggregate of (i) 1,559,394,400 Shares held by the Second Vendor as registered holder and (ii) 3,100,000 Shares which is beneficially held by Mr. Cai Kui.

LETTER FROM SOMERLEY

Assuming there is no further issue of Shares between the Latest Practicable Date and the date of issue of the Consideration Shares, Independent Shareholders' holdings would be slightly diluted by approximately 1.8% upon Completion, from approximately 28.2% to approximately 26.4%. Following the Completion, Chongqing Longhu Development would be wholly-owned by the Group and thereby its profit contribution to the Group would be increased. Given the benefits of the Acquisition, we consider the slight ownership dilution of approximately 1.8% acceptable.

9. Financial effect of the Acquisition on the Group

(i) *Earnings and net asset value*

Following Completion, the Company's shareholdings in Chongqing Longhu Development will increase from 91.3% to 100%. Financial results and financial position of Chongqing Longhu Development would continue to be consolidated into the financial statements of the Group, with the relevant minority interest fully eliminated. The Acquisition can also result in increase in future contribution of profit by Chongqing Longhu Development to the Group, and potential accretion to the Company's per share earnings. As stated in the letter from the board of the Circular, assuming that the Acquisition was completed at the beginning of the 2013 financial year, the net income attributable to Shareholders in 2013 would be RMB8,608.4 million, an increase of RMB571.2 million as compared with the net income of approximately RMB8,037.2 million originally recorded for the same period.

As the consideration for the Acquisition is to be satisfied by the issue of new Shares, the equity attributable to Shareholders of the Group is expected to increase upon Completion. Further, there is a discount of 2.5% to the Company's trading P/B multiple in arriving at the Consideration, which can result in a slight accretion on the Group's net asset value per Share upon Completion based on the financial positions of the Group and Chongqing Longfor Development as at 30 June 2014. The actual financial effect of the Acquisition to the Group upon Completion will only be ascertained based on the financial position of Chongqing Longhu Development on the Completion Date.

(ii) *Gearing and working capital*

Based on the Group's net debt (defined as total borrowings, net of cash and bank balances and pledged bank deposits) of approximately RMB29,046.3 million and total equity of approximately RMB43,854.5 million as at 30 June 2014, the Group's net gearing ratio (defined as net debt divided by total equity of the Company) as at 30 June 2014 was approximately 66.2%. The Group's net gearing ratio is expected to remain stable upon Completion, given the debt of Chongqing Longhu Development has all along been consolidated to the Group's financial statements, and the Group's total equity is not expected to change significantly.

As the Acquisition is financed by the issue of the Consideration Shares, it is expected that there will be no material cash outlay or significant change to the Group's working capital as a result of the Acquisition.

LETTER FROM SOMERLEY

OPINION AND RECOMMENDATION

Having taken into account the above principal factors and reasons, we consider that the Acquisition is on normal commercial terms and is fair and reasonable so far as the Independent Shareholders are concerned. We consider the entering into of the Sale and Purchase Agreement is in the ordinary and usual course of business of the Company and in the interests of the Company and its shareholders as a whole. We therefore advise the Independent Board Committee to recommend the Independent Shareholders, and we ourselves recommend the Independent Shareholders, to vote in favour of the ordinary resolution to be proposed at the EGM to approve the Acquisition.

Yours faithfully,
for and on behalf of

Longfor Properties Co. Ltd.

November 28, 2014

Dear Sirs,

In accordance with your instructions for us to value the properties situated in the People's Republic of China (the "PRC") in which Longfor Properties Co. Ltd. (the "Company") and its subsidiaries, associates and joint-ventured companies (hereinafter together referred to as the "Group") have interests, we confirm that we have carried out inspections, made relevant enquiries and obtained such further information as we consider necessary for the purpose of providing you with our opinion of values of the properties as at August 31, 2014 (the "date of valuation") for the purpose of incorporation in a circular.

Basis of Valuation

Our valuation of each of the properties is our opinion of the market value which we would define as intended to mean "the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion".

Our valuation is prepared in compliance with the requirements set out in Chapter 5 and Practice Note 12 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and in accordance with The HKIS Valuation Standards (2012 Edition) published by The Hong Kong Institute of Surveyors.

Property Categorization and Valuation Methodology

In valuing the properties in Group I, which are held for sale or owner occupation by the Group in the PRC, we have valued such properties by the direct comparison approach assuming sale with the benefit of vacant possession in their existing states by making reference to comparable sales transactions as available in the relevant markets.

In valuing the properties in Groups II and III, which are held under development or for future development by the Group in the PRC, we have valued such properties on the basis that they will be developed and completed in accordance with the latest development proposals provided to us. We have assumed that all consents, approvals and licenses from relevant government authorities for the development proposals have been obtained without onerous conditions or delays. In arriving at our opinion of values, we have adopted the direct comparison approach by making reference to comparable sales transactions as available in the relevant markets and have also taken into account the costs that will be expended to complete the developments to reflect the quality of the completed developments.

In valuing the properties in Group IV, which are held by the Group for investment in the PRC, we have made reference to the comparable market transactions as available in the relevant markets and where appropriate, valued the properties on the basis of capitalisation of incomes as shown on the schedules handed to us with due allowance for reversionary income potential of the properties.

Title Investigations

We have been provided with copies of title documents relating to the properties. However, we have not searched the original documents to verify ownership or to ascertain the existence of any amendments which may not appear on the copies handed to us. In the course of our valuation, we have relied to a very considerable extent on the information given by the Group and the legal opinion issued by the Group's legal adviser, Commerce & Finance Law Offices (通商律師事務所), regarding the titles to the properties in the PRC.

Valuation Consideration and Assumptions

In valuing the properties in the PRC, unless otherwise stated, we have assumed that transferable land use rights of the properties for respective specific terms at nominal annual land use fees have been granted and that any land grant premium payables have already been fully paid. Unless otherwise stated, we have also assumed that the Group has enforceable titles to the properties and has free and uninterrupted rights to occupy, use, transfer, lease or assign the properties for the whole of the respective unexpired terms as granted.

In the course of our valuation, we have relied to a considerable extent on information and advice from the Group on such matters as planning approvals, statutory notices, easements, tenure, particulars of occupancy, development proposals, total and outstanding construction costs, site and floor areas, transaction records, sale prices, sales and purchases agreements and all other relevant matters. Dimensions, measurements and areas included in the valuation certificates are based on the information contained in the documents provided to us and are therefore only approximations. No on-site measurements have been taken. We have no reason to doubt the truth and accuracy of the information provided to us by the Group, which is material to our valuation. We are also advised by the Group that no material facts have been omitted from the information supplied. We consider that we have been provided with sufficient information to reach an informed view.

No allowance has been made in our valuation for any charges, mortgages or amounts owing on any property nor for any expenses or taxation which may be incurred in effecting a sale. Unless otherwise stated, it is assumed that the properties are free from encumbrances, restrictions and outgoing of an onerous nature which could affect their values.

Site Inspections

We have inspected the exterior and, where possible, the interior of the properties. Site inspections of the properties were carried out in the period between September and October of 2014 by our Mr. James Woo (Director), Ms. Gracy Zhou (Senior Manager) and various valuation assistants. Mr. James Woo is a professional member of The Royal Institution of Chartered Surveyors. Ms. Gracy Zhou is a China Registered Real Estate Appraiser and a China Registered Land Valuer. During the course of our inspections, we did not note any serious defects. However, no structural survey has been made and we are therefore unable to report that the properties are free from rot, infestation and any other defects. No tests were carried out on any of the services. We have also not carried out investigations on site to determine the suitability of the ground conditions and the services for any future development. Our valuation is prepared on the assumption that these aspects are satisfactory and no extraordinary expenses or delay will be incurred during the development period.

Remarks

Unless otherwise stated, all money amounts stated are in Renminbi (“RMB”).

We enclose herewith our summary of values and valuation certificate.

Yours faithfully,
For and on behalf of
