

Hong Kong Exchanges and Clearing Limited (“HKEx”), The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) and Hong Kong Securities Clearing Company Limited take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

This document, for which we accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “Rules”) for the purpose of giving information with regard to us. We, having made all reasonable enquiries, confirm that to the best of our knowledge and belief the information contained in this document is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this document misleading.

This document is for information purposes only and does not constitute an offer, an advertisement or invitation to the public to subscribe for or to acquire the Warrants.

Investors are warned that the price of the Warrants may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. Prospective purchasers should therefore ensure that they understand the nature of the Warrants and carefully study the risk factors set out in the Base Listing Document (as defined below) and this document and, where necessary, seek professional advice, before they invest in the Warrants.

The Warrants constitute general unsecured contractual obligations of us as the Issuer and of no other person and will rank equally among themselves and with all our other unsecured obligations (save for those obligations preferred by law) upon liquidation. If you purchase the Warrants, you are relying upon the creditworthiness of us, and have no rights under the Warrants against the Trust which has issued the underlying Units, the manager or the trustee of the Trust or any other person. If we become insolvent or default on our obligations under the Warrants, you may not be able to recover all or even part of the amount due under the Warrants (if any).

## IMPORTANT INFORMATION

**The Warrants are listed structured products which involve derivatives. Do not invest in them unless you fully understand and are willing to assume the risks associated with them.**

### **What documents should you read before investing in the Warrants?**

You must read this document together with our base listing document dated 12 May 2014 (the “**Base Listing Document**”), as supplemented by any addendum thereto (together, the “**Listing Documents**”), in particular the section “Terms and Conditions of Cash-Settled Warrants over Single Unit Trusts” (the “**Conditions**”) set out in our Base Listing Document. This document (as read in conjunction with our Base Listing Document and each addendum referred to in the section headed “Product Summary Statement”) is accurate as at the date of this document. You should carefully study the risk factors set out in the Listing Documents. You should also consider your financial position and investment objectives before deciding to invest in the Warrants. We cannot give you investment advice. You must decide whether the Warrants meet your investment needs before investing in the Warrants.

### **Is there any guarantee or collateral for the Warrants?**

No. Our obligations under the Warrants are neither guaranteed by any third party, nor collateralised with any of our assets or other collaterals. When you purchase our Warrants, you are relying on our creditworthiness only, and of no other person. If we become insolvent or default on our obligations under the Warrants, you can only claim as an unsecured creditor of the Issuer. In such event, you may not be able to recover all or even part of the amount due under the Warrants (if any).

### **What are the issuer’s credit ratings?**

The Issuer has not been assigned any ratings by any credit rating agencies as at the date of this document.

**The Warrants are not rated.**

### **Is the Issuer regulated by the Hong Kong Monetary Authority referred to in Rule 15A.13(2) or the Securities and Futures Commission referred to in Rule 15A.13(3)?**

We are licensed for types 1 and 6 regulated activity by the SFC and are not regulated by any of the bodies referred to in Rule 15A.13(2) of the Listing Rules.

### **Is the Issuer subject to any litigation?**

Save as disclosed in the Listing Documents, we are not aware, to the best of our knowledge, of any claims, litigation or arbitration proceedings pending or threatened against us or that we are involved in, which could have (taking into consideration the amounts involved and the likelihood of success of such proceedings), a material adverse effect in our ability to perform our obligations in the context of the issue of Warrants.

### **Has our financial position changed since last financial year-end?**

Save as disclosed in the Listing Documents, there has been no material adverse change in our financial position since the date of our most recently published audited financial statements that would have a material adverse effect on our ability to perform our obligations under the Warrants.

## PRODUCT SUMMARY STATEMENT

*The Warrants are listed structured products which involve derivatives. This statement provides you with key information about the Warrants. You should not invest in the Warrants based on the information contained in this statement alone. You should read and understand the remaining sections of this document, together with the other Listing Documents, before deciding whether to invest.*

### Overview of the Warrants

- **What is a derivative warrant?**

A derivative warrant is an instrument which gives the holder a right to “buy” or “sell” an underlying asset at a pre-set price called the exercise price on or prior to the expiry date. Investing in a derivative warrant does not give you any right in the underlying asset. Derivative warrants usually cost a fraction of the price of the underlying asset and may provide a leveraged return to you. Conversely, such leverage could also magnify your losses.

A call warrant is designed for an investor holding a view that the price of the underlying asset will increase during the term of the warrant.

A put warrant is designed for an investor holding a view that the price of the underlying asset will decrease during the term of the warrant.

- **How and when can you get back your investment?**

The Warrants are European style cash settled derivative warrants linked to the underlying Unit. European style warrants can only be exercised on the expiry date. When the Warrants are exercised, the holder is entitled to a cash amount called the “**Cash Settlement Amount**” net of any Exercise Expenses (as defined under the heading “Exercise Expenses” in the sub-section titled “What are the fees and charges?” below) according to the terms and conditions in the Listing Documents. **If the Cash Settlement Amount is equal to or less than the Exercise Expenses, you will lose all of your investment in the Warrants.**

- **How do the Warrants work?**

The potential payoff at expiry for the Warrants is calculated by reference to the difference between the Exercise Price and the Average Price of the underlying Unit.

A call Warrant will be automatically exercised at expiry without the need for the holder to deliver an exercise notice if the Average Price of the underlying Unit is greater than the Exercise Price. The more the Average Price is above the Exercise Price, the higher the payoff at expiry. If the Average Price is at or below the Exercise Price, you will lose all of your investment in the call Warrant.

A put Warrant will be automatically exercised at expiry without the need for the holder to deliver an exercise notice if the Average Price of the underlying Unit is below the Exercise Price. The more the Average Price is below the Exercise Price, the higher the payoff at expiry. If the Average Price is at or above the Exercise Price, you will lose all of your investment in the put Warrant.

- **Can you sell the Warrants before the Expiry Date?**

Yes. We have made an application for listing of, and permission to deal in, the Warrants on the Stock Exchange. All necessary arrangements have been made to enable the Warrants to be admitted into the Central Clearing and Settlement System (“CCASS”). Issue of the Warrants is conditional upon listing approval being granted. From the Listing Date up to the last trading day of the Warrants (both dates inclusive), you may sell or buy the Warrants on the Stock Exchange. There shall be three CCASS Settlement Days between the last trading day of the Warrants and the Expiry Date. No application has been made to list the Warrants on any other stock exchange.

The Warrants may only be transferred in a Board Lot (or integral multiples thereof). Where a transfer of Warrants takes place on the Stock Exchange, currently settlement must be made not later than two CCASS Settlement Days after such transfer.

The Liquidity Provider will make a market in the Warrants by providing bid and/or ask prices. See the section headed “Liquidity” below.

- **What is your maximum loss?**  
The maximum loss in the Warrants will be your entire investment amount plus any transaction costs.
- **What are the factors determining the price of a derivative warrant?**  
The price of a derivative warrant generally depends on the price of the underlying asset (being the underlying Unit for the Warrants). However, throughout the term of a derivative warrant, its price will be influenced by a number of factors, including:
  - the exercise price of the derivative warrants;
  - the value and volatility of the price of the underlying asset (being a measure of the fluctuation in the price of the underlying asset over time);
  - the time remaining to expiry: generally, the longer the remaining life of the derivative warrant, the greater its value;
  - the interim interest rates and expected distributions on the underlying asset;
  - the liquidity of the underlying asset;
  - the supply and demand for the derivative warrant;
  - our related transaction cost; and
  - the creditworthiness of the issuer of the derivative warrant.

As the price of a derivative warrant is not only affected by the price of the underlying asset, movements in the price of a derivative warrant may not be proportionate or may even be opposite to the price movement of the underlying asset. For example:

- if the price of the underlying asset increases (in respect of a call warrant) or decreases (in respect of a put warrant), but the volatility of the price of the underlying asset decreases, the price of the warrant may decrease;
- if a warrant is deep-out-of-the-money (eg. when the fair market value is less than HK\$0.01), the price of the warrant may be insensitive to any increase (in respect of a call warrant) or decrease (in respect of a put warrant) in the price of the underlying asset;
- if the outstanding volume of a series of warrants in the market is high, the supply and demand of the warrant may have a greater impact on the warrant price than the price of the underlying asset; and/or
- the decrease in time value may offset any increase (in respect of a call warrant) or decrease (in respect of a put warrant) in the price of the underlying asset, especially when the warrant is close to its expiry where the time value decreases at a faster pace.

#### **Risks of investing in the Warrants**

You must read the section headed “Key Risk Factors” in this document together with the risk factors set out in our Base Listing Document. You should consider all these factors collectively when making your investment decision.

## Liquidity

- **How to contact the Liquidity Provider for quotes?**

Liquidity Provider: BOCI Securities Limited  
Address: 20/F, Bank of China Tower, 1 Garden Road, Hong Kong  
Telephone Number: (852) 3988 6909

The Liquidity Provider is regulated by the Stock Exchange and the Securities and Futures Commission. It is an affiliate of the Issuer and will act as our agent in providing quotes. You can request a quote by calling the Liquidity Provider at the telephone number above.

- **What is the Liquidity Provider's maximum response time for a quote?**

The Liquidity Provider will respond within 10 minutes and the quote will be displayed on the Stock Exchange's designated stock page for the Warrants.

- **Maximum spread between bid and ask prices:** 20 spreads

- **Minimum quantity for which liquidity will be provided:** 20 Board Lots

- **What are the circumstances under which the Liquidity Provider is not obliged to provide liquidity?**

There will be circumstances under which the Liquidity Provider is not obliged to provide liquidity. Such circumstances include:

- (i) during the first 5 minutes of each morning trading session or the first 5 minutes after trading commences for the first time on a trading day;
- (ii) during a pre-opening session or a closing auction session (if applicable) or any other circumstances as may be prescribed by the Stock Exchange;
- (iii) when the Warrants or the underlying Unit are suspended from trading for any reason;
- (iv) when there are no Warrants available for market making activities. In such event, the Liquidity Provider shall continue to provide bid prices. Warrants held by us or any of our affiliates in a fiduciary or agency capacity are not Warrants available for market making activities;
- (v) when there are operational and technical problems beyond the control of the Liquidity Provider hindering the ability of the Liquidity Provider to provide liquidity;
- (vi) if the underlying Unit or the stock market experiences exceptional price movement and high volatility over a short period of time which materially affects the Liquidity Provider's ability to source a hedge or unwind an existing hedge; or
- (vii) if the theoretical value of the Warrants is less than HK\$0.01. If the Liquidity Provider chooses to provide liquidity under this circumstance, both bid and ask prices will be made available.

You should read the sub-section entitled "Possible limited secondary market" under the "Key Risk Factors" section for further information on the key risks when the Liquidity Provider is not able to provide liquidity.

### How can you obtain further information?

- **Information about the underlying Trust and the underlying Units**

You may obtain information on the underlying Units (including the underlying Trust's financial statements) by visiting the Stock Exchange's website at [www.hkex.com.hk](http://www.hkex.com.hk) or (if applicable) the underlying Trust's website(s) as follows:

<i>Underlying Trust</i>	<i>Website</i>
CSOP FTSE China A50 ETF	<a href="http://www.csopasset.com/etf">www.csopasset.com/etf</a>
CSOP FTSE China A50 ETF	<a href="http://www.csopasset.com/etf">www.csopasset.com/etf</a>

- **Information about the Warrants after issue**

You may visit the Stock Exchange's website at [www.hkex.com.hk/eng/prod/secprod/dwrc/dw.htm](http://www.hkex.com.hk/eng/prod/secprod/dwrc/dw.htm) or our website at [www.bocifp.com](http://www.bocifp.com) to obtain information on the Warrants or any notice given by us or the Stock Exchange in relation to the Warrants.

- **Information about us**

You should read the section "Updated Information about Us" in this document. You may visit [www.bocifp.com](http://www.bocifp.com) to obtain general corporate information about us.

*We have included references to websites in this document to indicate how further information may be obtained. Information appearing on those websites does not form part of the Listing Documents. We accept no responsibility for the accuracy or completeness of the information appearing on those websites. You should conduct your own due diligence (including without limitation web searches) to ensure that you are viewing the most up-to-date information.*

### What are the fees and charges?

- **Trading Fees and Levies**

The Stock Exchange charges a trading fee of 0.005 per cent. and the Securities and Futures Commission charges a transaction levy of 0.0027 per cent. for each transaction effected on the Stock Exchange payable by each of the seller and the buyer and calculated on the value of the consideration for the Warrants. The levy for the investor compensation fund is currently suspended.

- **Exercise Expenses**

You are responsible for any Exercise Expenses. Exercise Expenses mean any charges or expenses including any taxes or duties which are incurred in respect of the exercise of the Warrants. Any Exercise Expenses will be deducted from the Cash Settlement Amount (if any). If the Cash Settlement Amount is equal to or less than the Exercise Expenses, no amount is payable. As at the date of this document, no Exercise Expenses are payable for cash settled warrants (including the Warrants).

- **Stamp Duty**

No stamp duty is currently payable in Hong Kong on transfer of cash settled warrants (including the Warrants).

You should note that any transaction cost will reduce your gain or increase your loss under your investment in the Warrants.

### What is the legal form of the Warrants?

Each series of the Warrants will be represented by a global certificate in the name of HKSCC Nominees Limited who is the only legal owner of the Warrants. We will not issue definitive certificates for the Warrants. You may arrange for your broker to hold the Warrants in a securities account on your behalf, or if you have a CCASS Investor Participant securities account, you may arrange for the Warrants to be held in such account. You will have to rely on the records of CCASS and/or the statements you receive from your brokers as evidence of your beneficial interest in the Warrants.

### **Can we adjust the terms or early terminate the Warrants?**

The occurrence of certain events (including, without limitation, a rights issue, bonus issue or cash distribution by the Trust, a subdivision or consolidation of the underlying Units or a restructuring event affecting the Trust) may entitle us to adjust the terms and conditions of the Warrants. However, we are not obliged to adjust the terms and conditions of the Warrants for every event that affects the underlying Units.

We may early terminate the Warrants if it becomes illegal or impracticable for us (i) to perform our obligations under the Warrants as a result of a change in law event, or (ii) to maintain our hedging arrangement with respect to the Warrants due to a change in law event. In such event, the amount payable by us (if any) will be the fair market value of the Warrants less our cost of unwinding any related hedging arrangements as determined by us, which may be substantially less than your initial investment and may be zero.

Please refer to Conditions 5, 12 and 13 for details about adjustments or early termination events. Such events may negatively affect your investment and you may suffer a loss.

### **Mode of settlement for the Warrants**

The Warrants will be automatically exercised on the Expiry Date in integral multiples of the Board Lot if the Cash Settlement Amount is positive. If the Cash Settlement Amount is zero or negative, or is equal to or less than the Exercise Expenses, you will lose all of your investment.

We will deliver a cash amount in the Settlement Currency equal to the Cash Settlement Amount net of any Exercise Expenses (if any) no later than the Settlement Date to HKSCC Nominees Limited (as the registered holder of the Warrants), which will then distribute such amount to the securities account of your broker (and if applicable, its custodian) or to your CCASS Investor Participant securities account (as the case may be). You may have to rely on your broker (and if applicable, its custodian) to ensure that the Cash Settlement Amount (if any) is credited to your account maintained with your broker. Once we make the payment to HKSCC Nominees Limited, who operates CCASS, you will have no further right against us for that payment, even if CCASS or your broker (and if applicable, its custodian) does not transfer your share of payment to you, or is late in making such payment transfer.

Payment of the Cash Settlement Amount (if any) may be delayed if a Settlement Disruption Event occurs on the Settlement Date, as a result of which we are unable to deliver such amount through CCASS on such day. See Condition 3(G) for further information.

### **Where can you inspect the relevant documents of the Warrants?**

The following documents are available for inspection during usual business hours on any weekday (Saturdays, Sundays and holidays excepted) until the Expiry Date at 20/F, Bank of China Tower, 1 Garden Road, Hong Kong:

- each of the Listing Documents (in separate English and Chinese versions), including:
  - this document
  - our Base Listing Document
  - an addendum to the Base Listing Document dated 29 September 2014
- our latest audited consolidated financial statements and any interim or quarterly financial statements;
- the consent letter issued by Ernst & Young dated 12 May 2014; and
- the instrument executed by us by way of deed poll on 7 May 2009.

The Listing Documents are also available on the website of the HKEx at [www.hkexnews.hk](http://www.hkexnews.hk) and our website at [www.bocifp.com](http://www.bocifp.com).

各上市文件亦可於香港交易所披露易網站[www.hkexnews.hk](http://www.hkexnews.hk)以及本公司網站[www.bocifp.com](http://www.bocifp.com)瀏覽。

**Are there any dealings in the Warrants before the Listing Date?**

It is possible that there may have been dealings in the Warrants before the Listing Date. If there are any dealings in the Warrants by us or any of our subsidiaries or associated companies from the Launch Date prior to the Listing Date, we will report those dealings to the Stock Exchange by the Listing Date and such report will be released on the website of the Stock Exchange.

**Has the auditor consented to the inclusion of its report to the Listing Documents?**

Ernst & Young (“**Auditor**”) has given and has not withdrawn its written consent to the inclusion of its report dated 30 April 2014 and/or the references to its name in our Base Listing Document, in the form and context in which they are included. Its report was not prepared exclusively for incorporation into our Base Listing Document. The Auditor does not own any of our shares or shares in any member of our group, nor does it have the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for our securities or securities of any member of our group.

**Authorisation of the Warrants**

The issue of Warrants was authorised by resolution of directors on 15 May 2012.

**Selling restrictions**

The Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), and will not be offered, sold, delivered or traded, at any time, indirectly or directly, in the United States or to, or for the account or benefit of, any U.S. person (as defined in the Securities Act).

The offer or transfer of the Warrants is also subject to the selling restrictions specified in our Base Listing Document.

**Disclaimer**

The name of the Trust is included here for identification purposes only. “FTSE®” is a trade mark of London Stock Exchange Group (“LSEG”) and is used by FTSE International Limited (“FTSE”) under licence. The Warrants are not sponsored, endorsed, sold, or promoted by FTSE, LSEG or CSOP Asset Management Limited (“CSOP”). FTSE, LSEG and CSOP make no representations or warranties with respect to this document or to the holders of the Warrants or any member of the public regarding the advisability of investing in the Warrants. FTSE, LSEG and CSOP have no obligation or liability in connection with the operation, marketing, trading or sale of the Warrants.

**Capitalised terms and inconsistency**

Unless otherwise specified, capitalised terms used in this document have the meanings set out in the Conditions. If this document is inconsistent with our Base Listing Document, this document shall prevail.

## KEY RISK FACTORS

You must read these key risk factors together with the risk factors set out in our Base Listing Document. These key risk factors do not necessarily cover all risks related to the Warrants. If you have any concerns or doubts about the Warrants, you should obtain independent professional advice.

### Non-collateralised structured products

The Warrants are not secured on any of our assets or any collateral.

### Credit risk

If you invest in the Warrants, you are relying on our creditworthiness and of no other person. If we become insolvent or default on our obligations under the Warrants, you can only claim as unsecured creditor regardless of the performance of the underlying Unit and you may not be able to recover all or even part of the amount due under the Warrants (if any). You have no rights under the terms of the Warrants against the Trust, the manager or the trustee of the Trust.

### Warrants are not principal protected and may expire worthless

Although the cost of a Warrant may cost a fraction of the value of the underlying Unit, the Warrant's price may change more rapidly than the price of the underlying Unit. Given the gearing feature inherent in the Warrants, a small change in the price of the underlying Unit may lead to a substantial price movement in the Warrants.

Unlike stocks, the Warrants have a limited life and will expire on the Expiry Date. In the worst case, the Warrants may expire with no value and you will lose all of your investment. Derivative warrants may only be suitable for experienced investors who are willing to accept the risk that they may lose all their investment.

### The Warrants can be volatile

Prices of the Warrants may rise or fall rapidly. You should carefully consider, among other things, the following factors before dealing in the Warrants:

- (i) the prevailing trading price of the Warrants;
- (ii) the Exercise Price of the Warrants;
- (iii) the value and volatility of the price of the underlying Unit;
- (iv) the time remaining to expiry;
- (v) the probable range of the Cash Settlement Amount;
- (vi) the interim interest rates and expected distributions on the underlying Unit;
- (vii) the liquidity of the underlying Unit;
- (viii) the related transaction costs (including the Exercise Expenses, if any);

- (ix) the supply and demand for the Warrants; and
- (x) the creditworthiness of the Issuer.

The price of a Warrant may be affected by all these factors in addition to the trading price of the underlying Unit. Therefore, movements in the price of the Warrants may not be proportionate or may even be opposite to the price movement of the underlying Unit. You should consider all these factors collectively when making your investment decision.

### Time decay

All other factors being equal, the value of a Warrant is likely to decrease over time. Therefore, the Warrants should not be viewed as a product for long term investments.

### Not the same as investing in the underlying Units

Investing in the Warrants is not the same as investing in the underlying Unit. You have no rights in the underlying Unit throughout the term of the Warrants. Changes in the market value of the Warrants may not correspond with the movements in the price of the underlying Unit, especially when the theoretical value of the Warrants is at HK\$0.01 or below. If you buy the Warrants with a view to hedge against your exposure to the underlying Unit, it is possible that you could suffer loss in your investment in the underlying Unit and the Warrants.

### Suspension of trading

If trading in the underlying Unit is suspended on the Stock Exchange, trading in the Warrants will be suspended for a similar period. In the case of a prolonged suspension period, the price of the Warrants may be subject to a significant impact of time decay due to such prolonged suspension and may fluctuate significantly upon resumption of trading, which may adversely affect your investment.

### Possible limited secondary market

The Liquidity Provider may be the only market participant for the Warrants and therefore the secondary market for the Warrants may be limited. The more limited the secondary market, the more difficult it may be for you to realise the value in the Warrants prior to expiry.

You should also be aware that the Liquidity Provider may not be able to provide liquidity when there are operational and technical problem hindering its ability to do so. Even if the Liquidity Provider is able to provide liquidity in such circumstances, its performance of liquidity provision may be adversely affected. For example:

- (i) the spread between bid and ask prices quoted by the Liquidity Provider may be significantly wider than its normal standard;
- (ii) the quantity for which liquidity will be provided by the Liquidity Provider may be significantly smaller than its normal standard; and/or
- (iii) the Liquidity Provider's response time for a quote may be significantly longer than its normal standard.

#### **Adjustment related risk**

The occurrence of certain events (including, without limitation, a rights issue, bonus issue or cash distribution by the Trust, a subdivision or consolidation of the underlying Unit and a restructuring event affecting the Trust) may entitle us to adjust the terms and conditions of the Warrants. However, we are not obliged to adjust the terms and conditions of the Warrants for every event that affects the underlying Unit. Any adjustment or decision not to make any adjustment may adversely affect the value of the Warrants. Please refer to Condition 5 and 12 for details about adjustments.

#### **Possible early termination**

The Warrants will lapse and cease to be valid in the event of liquidation of the Trust. We may also early terminate the Warrants if it becomes illegal or impracticable for us (i) to perform our obligations under the Warrants as a result of a change in law event, or (ii) to maintain our hedging arrangement with respect to the Warrants due to a change in law event. In such event, the amount payable by us (if any) will be the fair market value of the Warrants less our costs of unwinding any related hedging arrangements as determined by us, which may be substantially less than your initial investment and may be zero. Please refer to Condition 13 for details about our early termination rights.

#### **Liquidation**

In the event of a liquidation or dissolution of the trustee of the Trust or the appointment of a liquidator, receiver or administrator or analogous person under applicable law in respect of the whole or substantially the whole of its undertaking, property or assets, all unexercised Warrants will lapse and shall cease to be valid for any purpose, in the case of a voluntary liquidation, on the effective date of the relevant resolution and, in the case of an involuntary liquidation or dissolution, on the date of the relevant court order or, in the case of the appointment of a liquidator or receiver or administrator or analogous person under applicable law in respect of the whole or substantially the whole of its undertaking, property or assets, on the date when such appointment is effective but subject (in any such case) to any contrary mandatory requirement of law.

#### **Time lag between exercise and settlement of the Warrants**

There is a time lag between exercise of the Warrants and payment of the Cash Settlement Amount net of Exercise Expenses (if any). There may be delays in the electronic settlement or payment through CCASS.

#### **Conflict of interest**

We and our subsidiaries and affiliates engage in a wide range of commercial and investment banking, brokerage, funds management, hedging, investment and other activities and may possess material information about the Trust and/or the underlying Units or issue or update research reports on the Trust and/or the underlying Units. Such activities, information and/or research reports may involve or affect the Trust and/or the underlying Units and may cause consequences adverse to you or otherwise create conflicts of interests in connection with the issue of the Warrants. We have no obligation to disclose such information and may issue research reports and engage in any such activities without regard to the issue of the Warrants.

In the ordinary course of our business, we and our subsidiaries and affiliates may effect transactions for our own account or for the account of our customers and may enter into one or more transactions with respect to the Trust and/or the underlying Units or related derivatives. This may indirectly affect your interests.

#### **No direct contractual rights**

The Warrants are issued in global registered form and are held within CCASS. You will not receive any definitive certificate and your name will not be recorded in the register of the Warrants. The evidence of your interest in the Warrants, and the efficiency of the ultimate payment of the Cash Settlement Amount net of Exercise Expenses (if any), are subject to the CCASS Rules. You will have to rely on your broker (or, if applicable, its direct or indirect custodians) and the statements you receive from it as evidence of your interest in the Warrants. You do not have any direct contractual rights against us. To assert your rights as an investor in the Warrants, you will have to rely on your broker (and, if applicable, its direct or indirect custodian) to take action on your behalf. If your broker or, if applicable, its direct or indirect custodian:

- (i) fails to take action in accordance with your instructions;
- (ii) becomes insolvent; or
- (iii) defaults on its obligations,

you will need to take action against your broker in accordance with the terms of arrangement between you and your broker to establish your interest in the Warrants first before you can assert your right of claim against us. You may experience difficulties in taking such legal proceedings. This is a complicated area of law and you should seek independent legal advice for further information.

#### **The Listing Documents should not be relied upon as the sole basis for your investment decision**

The Listing Documents do not take into account your investment objectives, financial situation or particular needs. Nothing in the Listing Documents should be construed as a recommendation by us or our affiliates to invest in the Warrants or the underlying Unit.

### **Not the ultimate holding company of the group**

We are not the ultimate holding company of the group to which we belong. The ultimate holding company of the group to which we belong is Bank of China Limited.

### **Risks related to the Single Unit Trusts in general**

Subject to the circumstances as set out in the subsection titled “Conflict of interest” above, neither we nor any of our affiliates have the ability to control or predict the actions of the sponsor, the trustee or the manager of the Single Unit Trusts. Neither the sponsor, the trustee nor the manager of the Single Unit Trusts (i) is involved in the offer of the Warrants in any way, or (ii) has any obligation to consider your interest in taking any corporate actions that might affect the value of the Warrants.

The sponsor, the trustee or the manager of the Single Unit Trusts is responsible for making investment and other trading decisions with respect to the management of the Single Unit Trusts consistent with its investment objectives and in compliance with the investment restrictions as set out in the constitutive documents of the Single Unit Trusts. The manner in which the Single Unit Trusts is managed and the timing of actions may have a significant impact on the performance of the Single Unit Trusts. Hence, the market price of the underlying Units is also subject to these risks.

There is also a risk that the investment objectives and/or investment restrictions as set out in the constitutive documents of the Single Unit Trusts are materially changed or are not complied with or the method of calculating the net asset value of the Single Unit Trusts is materially changed. In addition, the applicable laws and regulations governing the Single Unit Trusts may also restrict the operations of the Single Unit Trusts and restrict its ability to achieve the investment objectives.

### **Risks related to an exchange traded fund**

The Single Unit Trusts is an exchange traded fund (“ETF”). The Warrants are linked to units of an ETF. An ETF is exposed to the economic, political, currency, legal and other risks of a specific sector or market related to the underlying asset pool or index or market that the ETF is designed to track.

Besides, there may be disparity between the performance of the ETF and the performance of the underlying asset pool or index or market that the ETF is designed to track as a result of, for example, failure of the tracking strategy, currency differences, fees and expenses.

### **Risks specific to RQFII A-share ETF (“RQFII ETF”)**

The Trust is a RQFII ETF denominated in Renminbi (“RMB”) issued and traded outside Mainland China with direct investment in the Mainland China’s A-share markets through the RMB Qualified Foreign Institutional Investor (“RQFII”) regime. You should note that, amongst others:

- (a) the novelty and untested nature of a RQFII ETF make the Trust riskier than traditional ETFs investing directly in more developed markets. The policy and rules for RQFII prescribed by the Mainland China government are new and subject to change, and there may be uncertainty to its implementation. The uncertainty and change of the laws and regulations in Mainland China may adversely impact the performance of the Trust and the trading price of the Units; and
- (b) as disclosed in its offering documents, a RQFII ETF primarily invests in securities traded in the Mainland China’s A-share markets and is subject to concentration risk. Investment in the Mainland China’s A-share markets (which are inherently stock markets with restricted access) involves certain risks and special considerations as compared with investment in more developed economies or markets, such as greater political, tax, economic, foreign exchange, liquidity and regulatory risks. The operation of a RQFII ETF may also be affected by interventions by the applicable government(s) and regulators in the financial markets.

The above risks may have a significant impact on the performance of the Units and the price of our Warrants.

Please read the offering documents of the RQFII ETF to understand its key features and risks.

### **Risks specific to dual counter RQFII ETF**

The Trust is one of the first batches of RQFII ETFs with units traded in RMB and Hong Kong dollars (“HKD”) separately through the Stock Exchange’s dual counters model. The novelty and relatively untested nature of the Stock Exchange’s dual counters model may bring additional risks for investing in the Trust:

- (a) the Warrants relate to the HKD traded units of the Trust only. Movements in the trading prices of the RMB traded units of the Trust should not directly affect the price of the Warrants;
- (b) if there is a suspension of inter-counter transfer of units of the Trust between the HKD counter and the RMB counter for any reason, units of the Trust will only be able to be traded in the relevant currency counter on the Stock Exchange, which may affect the demand and supply of the Units and have adverse effect on the price of the Warrants; and

- (c) the trading price on the Stock Exchange of the HKD traded units and RMB traded units of the Trust may deviate significantly due to different factors, such as market liquidity, RMB conversion risk, supply and demand in each counter and the exchange rate between the RMB and the HKD. Changes in the trading price of HKD traded units of the Trust may adversely affect the price of the Warrants.
