CORPORATE PROFILE

Incorporated on 17 November 2000 as an investment holding company, listed on 23 February 2004 on Singapore Exchange Securities Trading Limited ("SGX-ST") and on 6 October 2010 on The Stock Exchange of Hong Kong Limited ("SEHK"), Midas Holdings Limited (the "Company" or "Midas", together with its subsidiaries, referred to the "Group") has grown over the years to gain recognition as a leading manufacturer of aluminium alloy extrusion products for the rail transportation sector in the People's Republic of China ("PRC").

Under the Group are three business divisions, namely:

- (a) the Aluminium Alloy Extruded Products Division,
- (b) the Polyethylene Pipe ("PE Pipe") Division, and
- (c) the Aluminium Alloy Plates and Sheets Division.

These three divisions are strategically located in the PRC to take on the opportunities as well as to capitalise on the potential benefits of the vast developments that are taking place in the infrastructure and rail transport sectors.

Besides our core business, we have a 32.5% stake in a metro train manufacturing company in the PRC, Nanjing SR Puzhen Rail Transport Co., Ltd. ("NPRT")

ALUMINIUM ALLOY EXTRUDED PRODUCTS DIVISION

Our Aluminium Alloy Extruded Products Division consists of two wholly-owned subsidiaries, namely, Jilin Midas Aluminium Industries Co., Ltd ("Jilin Midas") and Luoyang Midas Aluminium Industries Co., Ltd ("Luoyang Midas"). This division is a leading manufacturer of aluminium alloy extrusion products for the passenger rail transportation sector in the PRC. It is our principal business division and accounted for 98.2% of our total revenue for the financial year ended 31 December 2014 ("FY2014"). We are also one of the first and amongst the few in the PRC aluminium alloy extrusion industry to possess capabilities for the downstream fabrication of passenger train car body components. We have an established track record of supplying aluminium alloy extrusion products to many metro and high speed train projects in the PRC since 2003, representing a majority of the aluminium metro and high speed train projects in the PRC during this period.

Our customer base consists of major domestic train manufacturers including CNR Changchun Railway Vehicles Co., Ltd, CNR Tangshan Railway Vehicles Co., Ltd, NPRT, CSR Zhuzhou Electric Locomotive Co., Ltd., Bombardier Sifang (Qingdao) Transportation Ltd, and the top three global train manufacturers, namely, Alstom Transport ("Alstom"), Siemens AG ("Siemens") and Bombardier Inc. ("Bombardier").

Our large section aluminium alloy extrusion products are used in a variety of industries. They are utilised in the rail transportation industry to manufacture body frames of high-speed trains and metro trains. In addition, our aluminium alloy products are also used in power stations for power transmission purposes, electrical energy distribution, transmission cables as well as production of mechanical parts for industrial equipment.

CORPORATE PROFILE

Jilin Midas currently has five production lines, with annual production capacity of up to 50,000 tonnes and three downstream fabrication lines that are able to process train car body components for approximately 1,000 train cars.

In order to meet the increasing demand from our PRC passenger rail transportation customers, we are in the process of setting up a new production plant in Luoyang City, Henan Province. This is in line with our strategy to expand our aluminium extrusion capacity in a new geographic location beyond north-eastern PRC to be in closer proximity to our customers. The new plant is expected to commence commercial production in the second quarter of 2015 and we have entered into a master supply agreement with Luoyang CSR Mass Transit Vehicle Co., Ltd (洛陽南車城市軌道車輛有限公司) ("Luoyang CSR"). Under the terms of the agreement, Luoyang CSR has agreed to procure 100% of its requirements for aluminium alloy extrusion products and fabricated parts from Luoyang plant on a "preferred supplier basis".

Since 2004, we have successfully exported/secured contracts to supply large section aluminium alloy extruded profiles to manufacture body frames for metro train/high speed train projects in various countries, including Belgium, Singapore, Russia, Iran, Saudi Arabia, South Korea, Malaysia, Turkey, Brazil, Switzerland, Norway, United States, etc.

Moving forward, we aim to expand our international presence by capitalising on opportunities emanating from the overseas market.

We have participated in many metro train projects in the PRC since 2003 in cities including Changchun, Guangzhou, Hangzhou, Kunming, Nanjing, Ningbo, Shanghai, Shenzhen, Tianjin and Zhengzhou.

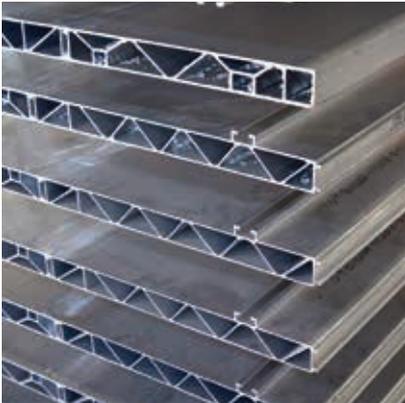

We are currently the market leader in supplying large section aluminium alloy extruded profiles for the railway industry in the PRC. Significantly, we were appointed the supplier for some major high speed and inter-city train projects in the PRC, including:

- Beijing to Tianjin High Speed Train Project
- Regional Line EMU Phase 1 Project
- CRH3-380 Project
- CRH3-300 Project
- CRH5 EMU Project
- CRH1 EMU Project
- Pearl River Delta Inter-City Train Project (Dongguan – Shenzhen Section)
- Dongguan – Huizhou Inter-City Train Project
- Nanjing – Gaochun Intercity Rail Project

We are a certified supplier for the world's top three renowned train manufacturers, which is a testimony and endorsement of the quality of our aluminium alloy extrusion products. This recognition given by Alstom, Siemens and Changchun Bombardier Railway Vehicles Co., Ltd ("CBRC") has provided us the platform to expand our business both in the PRC and the international export markets. CBRC is a joint venture between Bombardier, the world leader in rail cars manufacturing, and PRC's leading train manufacturer, CNR Changchun Railway Vehicles Co., Ltd.

CORPORATE PROFILE

In addition, Jilin Midas has entered into a Master Agreement with Siemens Aktiengesellschaft, Berlin und München, Sector Infrastructure & Cities, Division Rail Systems. Under this agreement, Siemens will engage Jilin Midas as a long term high technology supplier of aluminium alloy extrusion products in the context of long term partnership-based cooperation on a global basis.

The recognition for our manufacturing capability of aluminium alloy extrusion products positions us for greater growth in the PRC and international markets.

PE PIPE DIVISION

Our PE Pipe Division manufactures PE pipes for use in gas piping networks and water distribution networks.

Made of high density polyethylene, PE pipes are relatively light-weight and chemically inert. Considered as viable substitutes for traditional concrete and metal pipes, PE pipes are easier and safer to install, more durable and flexible. A proponent that is non-toxic in nature, our PE pipes are cost efficient and possess high resistance to corrosion.

Broadly categorised into two types of PE pipes, namely the Gas PE Pipes and the Water PE Pipes which are manufactured through the extrusion process. We manufacture the various parts required in a piping network, including pipes, joints and fittings.

Our PE Pipe Division accounted for 1.8% of our total revenue for FY2014. As we consider our PE Pipe Division to be a non-core business, representing a relatively small portion of our Group's revenue, we currently do not have plans to further expand our PE Pipe business.

ALUMINIUM ALLOY PLATES AND SHEETS DIVISION

Our Aluminium Alloy Plates and Sheets Division will focus on manufacturing high precision, high specification aluminium alloy plates, sheets, strips and foils to further diversify our products. We will target a broader scope of transportation related industries, such as aviation, railway, automobile and shipbuilding. Testing and trial production is expected to commence in the second half of 2015 with a planned annual production capacity of up to 200,000 tonnes.

ASSOCIATE

We have a 32.5% equity stake in a Sino-foreign joint venture, NPRT, which started commercial production in 2007. Many PRC cities have plans to build metro lines to facilitate urban transportation; we believe that NPRT will be a direct beneficiary of the high growth metro train industry in the PRC given the limited number of players in the market.

Since inception, NPRT, together with its consortium partners, has secured many high profile metro train projects in various cities in the PRC, including Dongguan, Hangzhou, Hefei, Nanjing, Shanghai, Shenzhen, Suzhou and Wuxi.

MOVING FORWARD

Moving forward, we are committed to springboard towards greater expansion, growth value creation, as well as strengthen our key competencies.

MESSAGE FROM THE EXECUTIVE CHAIRMAN

DEAR SHAREHOLDERS,

On behalf of the Board of Directors, I am pleased to present to you Midas Holdings Limited's Annual Report for the FY2014.

FY2014 was a year of significant developments and growth for the railway industry, especially within the PRC market. The year in review saw a resurgence of high-speed rail projects and sustained investments in the PRC's metro rail network, supported by the government's push to further enhance transport infrastructure and connectivity within the country. Also within the Chinese rail industry, a major consolidation activity took place during the year: The PRC's two largest train makers, China CNR Corp. Ltd. ("CNR") and CSR Corp. Ltd ("CSR"), announced a landmark proposed merger to form a new entity tentatively named CRRC Corporation Ltd. The move was aimed at enhancing China's competitiveness in the global rail market.

Against a positive backdrop of industry growth, the continued support of our valued customers, and strengthening contributions from our associated company, NPRT, we delivered a 24.0% jump in profit after tax to RMB53.1 million in FY2014.

We are delighted to have delivered a strong set of results that continues to reaffirm shareholders' faith in the company, having weathered the challenges of the past few years with us.

Our Strengthening Core

I am pleased that our core Aluminium Alloy Extruded Products Division, Jilin Midas, continued to perform strongly during the year. Jilin Midas was a key participant in metro train contract opportunities during the year, further reinforcing our pole position as the dominant aluminium alloy extruded products manufacturer for the PRC passenger rail transport industry. Its business growth was further supported by a strong order flow from the high-speed rail ("HSR") sector, with more than RMB600 million in contracts for high-speed train car body components secured during the year.

We also expanded our footprint on the international front, securing supply contracts worth RMB256.8 million to two major European train projects in October 2014, which marked the Group's largest collective project win for the international market then. As we enter the year 2015, I am pleased to update shareholders that we have surpassed that achievement with yet another major milestone in March: Jilin Midas successfully penetrated the US market with a US\$58.3 million (approximately RMB365.9 million) contract to supply aluminium alloy extrusion profiles and fabricated parts for a rail

MESSAGE FROM THE EXECUTIVE CHAIRMAN

project in the United States. This marks Midas' single largest export contract to-date as well as the Group's maiden rail contract in the United States. These contract wins signify our growing presence in the global arena and ability to ride on the growing opportunities internationally together with our customers.

In addition, the Group's commitment to excellence and quality also gained recognition from an international customer, with Jilin Midas receiving the prestigious supplier award, 'Our Stars for Rail Systems 2014', from Siemens Rail Systems, the rail systems division within Siemens' Infrastructure & Cities business sector. This significant achievement underscores the Group's growth and position as an international supplier of aluminium alloy extruded products.

Further to our operational achievements, our Board and Management's continuing commitment to uphold the best corporate practices was also rewarded, with Midas being conferred the "Most Transparent Company Award" at the Singapore Investors Association (Singapore) ("SIAS") 15th Investors' Choice Awards. This marks the third year running that Midas has topped the list in corporate governance for the Chemical & Resources Category.

The Year Ahead

Notwithstanding a cautious outlook on global economic growth and China's moderating pace of growth, we believe that the PRC railway sector will continue to benefit from a sustained investment on transportation infrastructure over the mid- to long-term. While the recent consolidation move by the two state-owned train car makers may have spurred follow-on concerns of consolidation and streamlining of players along the rail equipment supply chain, we do not foresee any adverse impact to our business. The Group's strong relationships and established track record as well as its size, scale and capabilities continue to position Midas favourably against the competition. We are also in regular dialogue with our key customers, and will continue to innovate and enhance our product and service offerings in the years to come.

We are therefore of the view that the consolidation move by CSR and CNR is a positive development, which will yield more opportunities for industry players on the global stage.

Domestically, there is a continual push to improve and expand China's transportation network. In January 2015, the National Development and Reform Commission approved RMB53.1 billion worth of railway projects in the northern and southwestern

parts of the PRC. China's high-speed rail line is also expected to reach 18,000 kilometres by end 2015, from 16,000 kilometres as at the end of 2014. Such positive industry developments will potentially translate into opportunities for downstream rail equipment and train car component manufacturers.

Moving forward, I am optimistic that the Group will be able to leverage its strong reputation and value proposition to grow our core businesses and generate greater value for our stakeholders.

Dividends

To thank our valued shareholders for their continued support, the Board of Directors is pleased to have proposed a final cash dividend of 0.25 Singapore cent per share. Combined with an interim cash dividend of 0.25 Singapore cent declared in August 2014, this brings the total dividends for FY2014 to 0.50 Singapore cent per share.

A Word of Thanks

FY2014 has been a year of exciting developments as well as achievements. We have experienced growth both domestically and in the export market, and achieved a significant improvement in our financial performance. As such, I would like to extend my deepest appreciation to my Board members, the management and all valued employees for their hard work and commitment. I must also thank all our customers, suppliers and business partners for their unwavering support over the past year.

With all of your support, I believe that Midas is set to embark on yet another year of new opportunities and growth. Thank you!

CHEN WEI PING
Executive Chairman

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

DEAR SHAREHOLDERS,

FY2014 marked a year of growth for Midas as we continued to benefit from the recovery and growth of the PRC railway industry. Backed by a healthy flow of new opportunities in both the PRC and export markets, and building on our strong track record as the market leading supplier of aluminium alloy extruded products, our core Aluminium Alloy Extruded Products Division delivered yet another year of commendable performance in FY2014.

Our associated company, NPRT, was also a beneficiary of the positive industry dynamics, bringing further contributions to the Group during the review year.

FY2014 Financial Review

The Group turned in a strong performance in FY2014, achieving a 14.8% rise in revenue to RMB1.3 billion, as compared to RMB1.1 billion in the previous financial year ("FY2013"). The higher revenue was backed by a heightened level of business activities at our Aluminium

Alloy Extruded Products Division, which accounted for 98.2% of total revenue during the year as compared to 95.7% in FY2013.

Within the Aluminium Alloy Extruded Products Division, the "Transport Industry" segment was the largest revenue contributor, accounting for 80.7% of the division's revenue in FY2014, with the "Power Industry" and "Others" segments accounting for the remaining 4.1% and 15.2% respectively.

Cost of sales rose 11.7% to RMB967.6 million in the year under review, from RMB866.3 million in FY2013, and was largely in line with the increase in revenue. Correspondingly, gross profit rose 24.5% to RMB350.2 million in FY2014, from RMB281.2 million in FY2013.

Overall gross profit margin in FY2014 rose 2.1 percentage points to 26.6%, from 24.5% in the previous year. The increase was due mainly to the Aluminium Alloy Extruded Products Division achieving a higher gross profit margin of 26.8% in FY2014, compared to 24.8% in FY2013.

The increase in business volume contributed to higher transportation and packaging costs as well as higher staff costs, which resulted in selling and distribution expenses rising 11.3% to RMB60.7 million in FY2014, from RMB54.5 million in FY2013. Administrative expenses rose to RMB148.3 million in FY2014, from RMB117.1 million a year ago, which was due mainly to higher depreciation expenses and start-up costs associated with the Group's new production plants in the PRC.

Finance costs rose 68.5% to RMB128.5 million in FY2014, and approximately RMB120.9 million (FY2013: RMB57.8 million) of the interest on borrowings used to finance the construction of property, plant and equipment for the new plants was capitalised.

MESSAGE FROM THE CHIEF EXECUTIVE OFFICER

An increase in train car deliveries also contributed to a strong showing by NPRT, with contributions from this associated company increasing by 112.9% to RMB29.0 million in FY2014, from RMB13.6 million a year ago.

The Group also recorded lower income tax expense in FY2014, which amounted to RMB2.8 million in FY2014, representing an 83.2% decrease from RMB16.7 million in FY2013. This was mainly due to deferred tax income amounting to RMB17.1 million for two operating subsidiaries – Luoyang Midas and Jilin Midas Light Alloy Co., Ltd. (“JMLA”). In addition, Jilin Midas was awarded a High Technology Enterprise status, which enabled it to benefit from a concessionary tax rate of 15% for the financial years ending December 31, 2011 to December 31, 2016.

As a result, the Group ended the year with an 18.1% increase in profit attributable to equity holders to RMB56.3 million.

A Strong Track Record

The Group was also able to capitalise on the positive industry landscape for growth, securing more than RMB1.0 billion in new orders during the year. This comprised of new metro train contracts from both domestic and international customers, and a pick-up in orders from the PRC high-speed rail sector.

In FY2014, we secured eight supply contracts for the PRC metro train market, which comprised orders for the following metro train projects:

- Hangzhou Metro Line 4
- Hefei Metro Line 1
- Nanchang Metro Line 1
- Nanjing Metro Line 1
- Shenzhen Metro Lines 2 and 5
- Wuhan Metro Lines 3 & 4

Our new orders from the PRC high-speed rail market included supply contracts from CNR Tangshan Railway Vehicle Co., Ltd worth RMB318.0 million, and two rounds of orders from CNR Changchun Railway Vehicle Co., Ltd with a combined value of RMB298.7 million.

Our growing participation in export opportunities was backed by a RMB256.8 million order for the supply of aluminium alloy extrusion profiles and fabricated parts to two major European train projects.

Underpinned by new orders, the order book of our Aluminium Alloy Extruded Products Division remains strong at approximately RMB850.0 million as at December 31, 2014.

Full Speed Ahead

Building on the strong performance we have achieved in FY2014, we started 2015 on a strong note with a sizeable US\$58.3 million (approximately RMB365.9 million) contract for a rail project in the United States. This contract is both our single largest export contract to-date, and is also our first ever rail project in the United States. It underscores our growing competitiveness, and customers' increasing recognition and confidence in Midas as a quality international supplier of aluminium alloy extruded products. Along with our customers, we are well-positioned to tap the burgeoning opportunities in the overseas market, as more countries embark on rail transportation projects.

On the business front, we are positioned for capacity expansion and an enhanced product mix in 2015 following the completion of two new production facilities. This includes a second aluminium alloy extrusion facility – Luoyang

Midas – located in Luoyang City, Henan Province and an aluminium cold rolling mill facility – JMLA – in Liaoyuan City, Jilin Province. Luoyang Midas is expected to begin commercial production in second quarter of 2015 and JMLA is expected to enter testing and trial production by the second half of 2015.

The new aluminium alloy extrusion facility will initially add an additional 10,000 tonnes to our extrusion capacity and expand our footprint to bring the Group closer in proximity to customers in Central China. The cold rolling mill facility underpins our efforts to diversify, and will equip the Group with the ability to manufacture high precision, high specification aluminium alloy plates, sheets, strips and foil.

As we move towards greater value creation and business expansion, we are also mindful of rising overhead costs in the PRC, and will continue to practice prudent cost management to support our margins and ensure the sustainable long-term growth of our businesses.

With the abovementioned strategies in place, we are confident that Midas will be able to ride on the positive industry trends to grow in the years ahead.

Appreciation

In closing, I would like to thank all of our staff, shareholders, clients, business partners and associates for their continued commitment and support for the Group. Moving forward, we will continue to work hard to further strengthen the Group's track record and capabilities, and manage our business prudently while actively seeking new opportunities that will contribute to the Group's long-term growth.

BUSINESS MODEL AND STRATEGY

The Group seeks to capitalise and capture the vast opportunities available in the aluminium processed products sector, delivering quality and customised products to our customers on a timely basis. We believe in planning for the long term and making appropriate investments in machineries, technology and human capital so that we maintain the edge in our manufacturing capabilities and expertise. In furthering this objective, the Group is mindful of achieving good financial performance with proper risk diversification. Having entrenched our position in the PRC aluminium alloy extruded products market for use in the rail transport industry, plans are being made for the longer term by researching and developing aluminium alloy extruded products suitable for use in other industries such as oil and gas. At the same time, the Group is also venturing into the manufacture of other aluminium processed products as a lateral extension of this product diversification strategy. A new manufacturing facility capable of producing high precision, high specification aluminium rolled plates and sheets for use in industries such as aviation and automobile is being built. Testing and trial production is expected to commence in second half of 2015. We have also devoted more resources into establishing our global networks and links with existing and new international customers in a bid to intensify our reach into other geographical markets besides the PRC.

REVENUE

Our Group's principal activities for FY2014 are as follows:

- a. manufacture of large section aluminium alloy extruded products for use mainly in the following:
 - Transport Industry – We produce aluminium alloy profiles which are used to manufacture train car body frames for use by high-speed trains, metro trains and freight wagons;
 - Power Industry – We produce aluminium alloy tubing which are used in power stations for power transmission purposes, electrical energy distribution and transmission cables; and
 - Others – We produce aluminium alloy rods and other specialized profiles which are used in the production of mechanical parts for industrial machinery.
- b. manufacture of PE pipes for gas piping networks and water distribution networks.

Our revenue by business activities is set out below:

| Business segments (RMB'000) | FY2014 | FY2013 | Change | % |
|--|------------------|------------------|----------------|-------------|
| Aluminium Alloy Extruded Products Division | 1,294,761 | 1,098,226 | 196,535 | 17.9 |
| PE Pipe Division | 23,102 | 49,342 | (26,240) | (53.2) |
| Total | 1,317,863 | 1,147,568 | 170,295 | 14.8 |

FINANCIAL REVIEW

The table below shows the revenue segmentation in Aluminium Alloy Extruded Products Division

| | FY2014 % | FY2013 % |
|--------------------|--------------|--------------|
| Transport Industry | 80.7 | 67.1 |
| Power Industry | 4.1 | 7.1 |
| Others | 15.2 | 25.8 |
| Total | 100.0 | 100.0 |

Sales by end usage indicate that revenue contribution from the "Transport Industry" is still the major revenue contributor, contributing approximately 80.7% of the revenue for the Aluminium Alloy Extruded Products Division. "Others" segment included mainly revenue from the supply of aluminium alloy rods and other specialised profiles for industrial equipment.

Our Aluminium Alloy Extruded Products Division is well placed to compete effectively, especially in supplying aluminium alloy profiles for use as train car body frames in the rail transport industry. In addition, our Aluminium Alloy Extruded Products Division also has the capabilities to process car body components for train cars. Our Aluminium Alloy Extruded Products Division is certified by the world's three leading train manufacturers, namely Alstom, Siemens and Changchun Bombardier. It was also awarded the EN 15085-2 certification for the welding of railway vehicles and components issued by GSI SLV Duisburg, one of the largest welding engineering institutes in Europe and the International Railway Industry Standard certification. We believe that such recognition would provide us the platform to expand our business both in the PRC and the international markets. We have demonstrated our capabilities in supplying aluminium alloy extruded profiles of international standards and meeting the stringent requirements of our international customers by securing more contracts in the international markets.

Our Aluminium Alloy Extruded Products Division commenced the setting up of a new production plant, Luoyang Midas, in Luoyang City, Henan Province. This is in line with our strategy to expand our aluminium alloy extrusion capacity in a new geographic location beyond north-eastern PRC to be in closer proximity to our customers. The new plant is expected to commence commercial production in the second quarter of 2015.

PROFITABILITY

Our gross profit by business activities is set out below:

| Business segments (RMB'000) | FY2014 | FY2013 | Change | % |
|--|----------------|----------------|---------------|-------------|
| Aluminium Alloy Extruded Products Division | 347,329 | 272,139 | 75,190 | 27.6 |
| PE Pipe Division | 2,917 | 9,097 | (6,180) | (67.9) |
| Total | 350,246 | 281,236 | 69,010 | 24.5 |
| Gross Profit Margin (%) | 26.6 | 24.5 | | |

Gross profit increased by approximately RMB69.0 million or 24.5% from RMB281.2 million in FY2013 to RMB350.2 million in FY2014. Gross profit margin for FY2014 was 26.6% versus 24.5% in FY2013. This was due to higher gross profit margin at our Aluminium Alloy Extruded Products Division of 26.8% in FY2014 as compared to 24.8% in FY2013.

| *Segment results are derived after the following: | | | | |
| Other operating income | 14,081 | 12,587 | 1,494 | 11.9 |
| Selling and distribution expenses | (60,669) | (54,501) | (6,168) | 11.3 |
| Administrative expenses | (148,295) | (117,147) | (31,148) | 26.6 |

N.M – Not meaningful

Other operating income comprised mainly interest income and income derived from the disposal of scrap materials at our Aluminium Alloy Extruded Products Division.

Selling and distribution expenses increased by approximately RMB6.2 million in FY2014, driven mainly by higher transportation costs, packaging expenses and staff costs as compared with FY2013, in line with the growth in business volume at our Aluminium Alloy Extruded Products Division in FY2014.

Administrative expenses increased by about RMB31.1 million in FY2014 mainly due to increase in depreciation and higher start up staff costs at our new plants as compared with FY2013.

Finance costs comprised interest on borrowings, bank charges and financing costs relating to discounted notes receivables. Approximately RMB120.9 million (FY2013: RMB57.8 million) of the interest on borrowings that are used to finance the construction of property, plant and equipment for our new production lines were capitalised.

The Group's share of profit from its associated company, NPRT, is approximately RMB29.0 million in FY2014. This was attributed to an increase in delivery of train cars to its customers during the year.

FINANCIAL REVIEW

Income tax expense for FY2014 decreased by about RMB13.9 million mainly due to deferred tax income of RMB17.1 million in Luoyang Midas and JMLA. Jilin Midas was awarded with the approved High Technology Enterprise status and enjoyed a concessionary rate of 15% for the financial years 2011 to 2016.

FY2014 ended with profits of approximately RMB53.1 million which represented 24.0% increase over FY2013.

Details of collateral

The secured borrowings consist of bank loans that are provided to Jilin Midas and JMLA.

The bank loans to Jilin Midas are secured by the mortgage of land use rights, property, plant and equipment and various trade receivables with net book value of about RMB1,327.4 million (31 December 2013: RMB1,202.7 million). The bank loans to JMLA are guaranteed by the Company, Jilin Midas and Dalian Huicheng Aluminium Industries Co., Ltd (which is ultimately owned by Mr. Chen Wei Ping, who is the Executive Director and Chairman of the Company). The bank loans to JMLA are also secured by land use rights, future constructions and developments on the land including factory buildings, office buildings and workshops for auxiliary facilities, and two cold-rolling mills. The bank loans to Luoyang Midas are guaranteed by Jilin Midas.

FINANCIAL REVIEW

GROUP'S ORDER BOOK

The order book of our Aluminium Alloy Extruded Products Division as at 31 December 2014 is approximately RMB850.0 million.

EMPLOYEES, REMUNERATION POLICY AND EMPLOYEE SHARE OPTIONS

As at 31 December 2014, there were 2,156 (2013: 1,754) employees in the Group. Staff remuneration packages are determined in consideration of market conditions and the performance of the individuals concerned, and are subject to review from time to time. The Group also provides other staff benefits including medical and life insurance.

As at 31 December 2014, there were no unexercised share options under the "Midas Employee Share Option Scheme" (the "Scheme"). The Scheme expired on 5 January 2014.

GEARING

The Group monitors capital using a gearing ratio, which is derived by dividing total liabilities by total equity. Our gearing ratio was 145.5% as at 31 December 2014 and 93.0% as at 31 December 2013. If the gearing ratio were derived by dividing total interest bearing loans by total equity, the gearing ratio would be 124.6% as at 31 December 2014 and 80.0% as at 31 December 2013. Our gearing ratio increased from FY2013 to FY2014, mainly due to the issuance of bonds pursuant to the medium term note programme.

RISK MANAGEMENT

Business Risk

Our revenue comes mainly from the sales of aluminium alloy extrusion products to the transport industry. We intend to further our growth opportunities by marketing our products overseas to minimise any over reliance on the local PRC markets. Since 2004, we have successfully exported or secured contracts to supply large section aluminium alloy profiles to manufacture body frames for metro train/high speed train projects in various countries, including Singapore, Russia, Iran, Saudi Arabia, South Korea, Malaysia, Turkey, Brazil, Switzerland, Norway, United States, etc.

Our Aluminium Alloy Plates and Sheets Division is expected to commence testing and trial production in the second half of 2015. Once it commences commercial production, it will raise our aluminium processing capabilities and capacity whilst providing both growth and diversification to our Group revenue. Aluminium alloy plates and sheets are in demand in the aviation, shipbuilding and automobile sectors.

The raw materials used in our manufacturing processes are plastic resins (for our PE Pipe Division) and aluminium alloy billets (for our Aluminium Alloy Extruded Products Division). Raw materials make up a significant component of the cost of sales. We are therefore vulnerable to fluctuations in the prices of these raw materials and components. Purchases of raw materials are generally made in response to customers' orders. Our Group makes use of this natural hedge to minimise any impact of fluctuations in raw materials prices on our Group's profitability. Any unusual sharp movements in raw material prices within a short time may impact our profitability. As part of our risk management, but not as part of our principal business activities, we initiated long positions in aluminium futures in 2015 as a hedge against raw material price fluctuations.

Interest Rate Risk

Our interest rate risk relates primarily to our restricted bank deposits, bank deposits and borrowings. We place our cash balances with reputable banks and financial institutions. Our policy is to obtain the most favourable rates available. We currently have not entered into interest rate swaps to hedge against our exposure to changes in fair values of our borrowings.

In addition, to the extent that we may need to raise debt financing in the future, upward fluctuations in interest rates will increase the cost of new debts. Fluctuations in interest rates can also lead to significant fluctuations in the fair values of our debt obligations. We currently do not use any derivative instruments to manage our interest rate. To the extent we decide to do so in the future, there can be no assurance that any future hedging activities will protect us from fluctuations in interest rates.

Liquidity Risk

Liquidity risk is the risk that we will encounter difficulty in meeting obligations. We are exposed to liquidity risk if we are unable to raise sufficient funds to meet our financial obligations as and when they fall due. To manage liquidity risk, we monitor and maintain a level of cash and cash equivalents and trade and other receivables considered adequate by our management to finance our operations and mitigate the effects of fluctuations in cash flow. In doing so, our management monitors the utilisation of borrowings to ensure adequate unutilised banking facilities and compliance with loan covenants.

RISK MANAGEMENT

Foreign Currency Risk

Foreign currency risk refers to the risk that the fair value or future cash flows of our financial instruments will fluctuate due to changes in foreign exchange rates and consequently affect our Group's financial results and cash flow. Certain of our bank accounts, deposits, receivables and payables are denominated in U.S. dollars and Euros, which are different from the respective functional currencies of those entities for which these balances reside in, which exposes us to foreign currency risk. Other than the aforementioned, most of our operating expenses and revenue are denominated in Renminbi. Our Company's cash flow is derived from dividend income from our subsidiaries in Singapore dollars. Hence, our Company would be exposed to foreign exchange risks when we receive dividends from our PRC subsidiaries in Renminbi. As we expand our operations, we may incur a certain portion of our cash flow in currencies other than Renminbi and, thereby, may increase our exposure to fluctuations on exchange rates. We have not engaged in any foreign currency hedging activities as at the date of this annual report but may use financial derivatives to hedge exchange risks in the future.

Credit Risk

Our principal financial assets are trade and other receivables and bank balances, which represent our maximum exposure to credit risk in relation to financial assets. Our credit risk is primarily attributable to trade receivables. In order to minimise credit risk, our management continuously monitors the level of our exposure to ensure that follow-up action is taken on a timely basis to recover overdue debts. In this regard, our Directors consider that our credit risk is significantly reduced. In addition, we review the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses, if necessary, are provided for irrecoverable amounts. The maximum exposure to credit risk in the event that the counterparties fail to perform their obligations as at end of the financial year in relation to each class of recognised financial assets is the carrying amount of those assets stated in the statements of financial position. The Group has a concentration of credit risk of the trade receivables due from the five largest debtors. As at 31 December 2014 and 2013, approximately 77% and 74% of total trade receivables, respectively, were due from the five largest debtors. In addition, the credit risk on bank deposits and bank balances is limited because a majority of the counterparties are reputable banks and financial institutions.

CORPORATE GOVERNANCE STATEMENT

Midas Holdings Limited (the "Company") is committed to achieving and maintaining high standards of corporate governance and has established practices and procedures for compliance with the principles and code provisions set out in the revised Code of Corporate Governance 2012 (the "Singapore CG Code") and the Corporate Governance Code and Corporate Governance Report (the "HK CG Code") under Appendix 14 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "SEHK").

The Company has complied with all the code provisions set out in the HK CG Code for the year ended 31 December 2014 save for the deviation from code provision A.4.1.

Under code provision A.4.1, non-executive directors should be appointed for a specific term, subject to re-election. Currently, none of the existing Independent Non-Executive Directors of the Company is appointed for a specific term. However, all directors of the Company (the "Directors") are subject to the retirement and re-election provisions of the Articles of Association of the Company (the "Articles"), which require that one third of the Board shall retire from office by rotation every year and the retiring Directors are eligible for re-election. In addition, a director appointed to fill a casual vacancy will be subject to election by the shareholders at the first general meeting after such appointment. In view of this, the Board considers that such requirements are sufficient to meet the underlying objective of the said code provision A.4.1 and, therefore, does not intend to take any remedial steps in this regard.

The main corporate governance practices that were in place since are set out below.

A BOARD MATTERS

Board's conduct of its affairs

The Board shall be responsible for the overall direction, supervision and control of the Company and its subsidiaries (the "Group"). The Board shall provide overall leadership in determining the Group's long-term strategic direction, approve the Group's overall business and commercial strategic plans, operating goals, operating budget and key performance indicators as well as to ensure that the necessary financial and human resources are in place for the Group to meet its objectives.

The Board has delegated the day-to-day management of the Company's business to the management and shall supervise the management of the business and affairs of the Group.

The Board is responsible for the Group's corporate governance policies and practices and approves the Group's appointment of Directors and key management personnel, major funding and investment proposals, and reviews the financial performance of the Group.

To assist the Board in the execution of its responsibilities, an Audit Committee ("AC"), a Remuneration Committee ("RC") and a Nominating Committee ("NC") have been established. Each of these committees has its own written terms of reference and whose actions are reported to and monitored by the Board.

The Company has adopted internal guidelines setting forth matters that require Board approval.

CORPORATE GOVERNANCE STATEMENT

The types of material transactions that require the Board's approval under such guidelines include the following:

- Approval of quarterly results announcement;
- Approval of the annual reports and accounts;
- Declaration of interim dividends and proposal of final dividends;
- Convening of shareholders' meetings;
- Approval of broad policies, strategies and financial objectives of the Group and monitoring the performance of management;
- Oversight of the processes for evaluating the adequacy of internal controls, risk management, financial reporting and compliance;
- Approval of nominations of Directors;
- Approval of material acquisitions and disposals of assets; and
- Authorisation of major transactions.

The Board comprises business leaders and professionals with financial backgrounds. Profiles of our Directors can be found on pages 10 to 11 of this Annual Report.

The Board conducts scheduled meetings on a regular basis. Ad hoc meetings will be convened to deliberate on urgent substantive matters when necessary. Telephonic attendance and conference via audio-visual communications at Board meetings are allowed under the Company's Articles. The attendance of the Directors at meetings of the Board and Board committees, as well as the frequency of such meetings, is disclosed in Part H of this Corporate Governance Statement.

The Directors are provided with important and relevant information of the Company and the Group. In addition, they are also provided with the contact details of the Company's senior management, Singapore Company Secretary and Hong Kong Company Secretary to facilitate access to the Group's information.

Newly appointed Directors are given an orientation on the Group's business strategies and operations, including plant visits to ensure their familiarity with the Group's operations and governance practices. In addition, the Company will also arrange plant visits for Directors to our various factory locations annually. A copy of "A Guide on Directors' Duties" published by the Hong Kong Companies Registry, "Guidelines for Directors" and "Guide for Independent Non-executive Directors" published by the Hong Kong Institute of Directors were provided to all Directors so that they could acquaint themselves with the general duties of Directors and the required standard of care, skill and diligence in the performance of their functions and exercise of their powers as Directors. The Company continuously updates Directors on the latest developments regarding the changes in the applicable laws, rules and regulations to ensure compliance and enhance their awareness of good corporate governance practices. Directors are also provided regular updates on the industry developments and assessments of the Group's performance.

Directors are welcome to request further explanations, briefings or informal discussions on any aspects of the Group's operations or business issues from the management. The Chief Executive Officer ("CEO") will make the necessary arrangements for the briefings, informal discussions or explanations required by the Directors.

CORPORATE GOVERNANCE STATEMENT

Either one of the Company Secretaries and/or their representative attend(s) all Board meetings and, together with the Directors, they are responsible for ensuring that the Board procedures are followed and that applicable rules and regulations are complied with. The Singapore Company Secretary and/or Hong Kong Company Secretary and/or their representative administer(s), attend(s) and prepare(s) minutes of all Board and Board committee meetings.

All Directors are encouraged to participate in professional development programmes and/or activities to develop and refresh their knowledge and skills. Directors are requested to provide the Company with their respective training records pursuant to the HK CG Code. According to the records maintained by the Company, the current Directors have received the following training in compliance with the HK CG Code on continuous professional development during the year ended 31 December 2014:

| Name of Director | Type of Continuous Professional Development | | |
|-------------------------|--|-------------------------------|--------------|

Roles of Chairman and CEO

The roles of Chairman and CEO in the Company are separately assumed by Mr. Chen Wei Ping and Mr. Chew Hwa Kwang, Patrick, respectively. As such, there is a clear division of responsibilities at the top of the Group. Mr. Chen bears responsibility for the effectiveness of the Board and ensures that the Group complies with the Singapore CG Code and HK CG Code. On the other hand, Mr. Chew bears executive responsibility for the Group's businesses.

As the Chairman is part of the executive management team and is not an independent Director, Mr Tong Din Eu has been appointed as the lead independent Director to ensure and strengthen the independence of the Board.

The lead independent Director will make himself available, where appropriate, to shareholders when they have concerns for which contact through the normal channels of the Chairman, the CEO or the Chief Financial Officer ("CFO") have failed to resolve their concerns or are inappropriate. He will act as the leader of the independent Directors at Board meetings in raising queries and pursuing matters. He will also lead meetings of independent Directors, without the presence of executive Directors.

CORPORATE GOVERNANCE STATEMENT

Nominating Committee

The NC comprises 3 Independent Non-Executive Directors:

- Dr. Xu Wei Dong, Chairman of the NC and Independent Non-Executive Director
- Mr. Chan Soo Sen, Independent Non-Executive Director
- Mr. Tong Din Eu, Independent Non-Executive Director

The principal functions of the NC are to:

- Review the structure, size and composition (including the skills, knowledge and experience) of the Board and make recommendations to the Board with regards to any adjustments that are deemed necessary and which would complement corporate strategy.
- Identify suitable candidates and review all nominations for the appointment to the Board before making recommendations to the Board for appointment.
- Assess the independence of the Directors annually and is of the opinion that the Directors who have been classified as independent under the “Board of Directors” section are indeed independent.
- Decide whether or not a Director is able to and has been adequately carrying out his duties as a Director of the Company particularly where the Director has multiple board representations.
- Assess the effectiveness of the Board.
- To recommend Directors who are retiring by rotation to be put forward for re-election, having regard to their contribution and performance.
- To recommend to the Board on the appointment and re-appointment of Directors and succession planning for Directors, in particular the Chairman and CEO.

The terms of reference setting out the NC’s authority, duties and responsibilities are available on the websites of Singapore Exchange Limited (“SGX”), the SEHK and our Company.

CORPORATE GOVERNANCE STATEMENT

Board composition and balance

The Board comprises two Executive Directors and three Independent Non-Executive Directors.

| Name of Director | Board Committee as Chairman or Member | Directorship: Date of first appointment/Date of last re-election | Board appointment: Executive or non-executive/Independent | Due for re-election at next AGM |
|-------------------------|---------------------------------------|--|---|---|
| Chen Wei Ping | NA | 21 August 2002/30 April 2014 | Executive | NA |
| Chew Hwa Kwang, Patrick | NA | 17 November 2000/30 April 2013 | Executive | NA |
| Tong Din Eu | Chairman of AC, Member of NC and RC | 8 August 2011/30 April 2012 | Independent | Retirement pursuant to Article 91 of the Company's Articles |
| Chan Soo Sen | Chairman of RC, Member of AC and NC | 29 June 2006/30 April 2013 | Independent | Retirement pursuant to Article 91 of the Company's Articles |
| Xu Wei Dong | Chairman of NC, Member of AC and RC | 17 March 2010/30 April 2014 | Independent | NA |

The independence of each Independent Non-Executive Director is reviewed annually by the NC. The NC adopts the Singapore CG Code and HK CG Code's definition of what constitutes an Independent Non-Executive Director in its review, and the Company requires the Independent Non-Executive Directors to declare their independence annually. As a result of the review of the independence of each Director for the year and upon receipt of confirmation of independent pursuant to Rule 3.13 of the Listing Rules from each of the Independent Non-Executive Director, the NC is satisfied with the independence of all the Independent Non-Executive Directors.

Board Diversity

The Board has adopted the "Board Diversity Policy" which sets out the approach to diversity on the Board. The Company recognises and embraces the benefits of diversity in the boardroom. A diverse board will steer the Company towards achieving its strategic objectives and sustainable development. An effective board should, amongst other qualities and capabilities, capitalise and leverage on the differences in the cultural and education background, race, gender, professional training, regional and industry experience, skills, knowledge and length of service of the Directors. These differences, coupled with the due consideration given to the Company's business model and its needs from time to time, will determine the optimum composition of the Board. Board appointments will be based on merit against objective criteria, having due regard for the benefits of diversity on the Board. The NC will review the policy, as appropriate, to ensure the effectiveness of the policy.

The NC is of the view that the current Board comprises persons who as a group, provide core competencies necessary to meet the Company's targets and that the current Board size is adequate, taking into account the nature and scope of the Group's operations.

CORPORATE GOVERNANCE STATEMENT

Key information on the individual Directors of the Company is set out on pages 10 to 11 of this Annual Report. Their shareholdings are also disclosed on page 43 of the Directors' Report. None of the Directors holds shares in the subsidiaries of the Company.

Board Performance

The NC will use its best efforts to ensure that Directors appointed to the Board possess the relevant background, experience and knowledge to enable balanced and well-considered decisions to be made. The performance criteria that the NC will consider in relation to an individual Director include the Director's industry knowledge and/or functional expertise, contribution and workload requirements, sense of independence and attendance at the Board and Board committee meetings. One of the NC's responsibilities is to undertake a review of the Board's performance. The NC will consider practicable methods to assess the effectiveness of the Board.

During the year, the NC held one meeting to review and evaluate the performance of the Board, taking into consideration the attendance record at the meetings of the Board and the Board committees and also the contribution of each Director to the effectiveness of the Board. The NC also reviewed and confirmed the independence of the Independent Directors, and recommended Directors who were retiring by rotation to be put forward for re-election after considering their contribution and performance.

Where a Director has multiple board representations, the NC will evaluate whether or not the Director is able to carry out and has been adequately carrying out his/her duties as a director of the Company. As a guide, Directors should not have more than six listed company board representations.

For the year under review, the Board is satisfied that each Director has allocated sufficient time and resources to the affairs of the Company.

B REMUNERATION MATTERS

Remuneration Committee

The RC comprises 3 Independent Non-Executive Directors:

1. Mr. Chan Soo Sen, Chairman of the RC and Independent Non-Executive Director
2. Mr. Tong Din Eu, Independent Non-Executive Director
3. Dr. Xu Wei Dong, Independent Non-Executive Director

The RC has adopted the operation model where it performs an advisory role to the Board, with the Board retaining the final authority to approve the remuneration packages of individual Executive Directors and key management personnel.

CORPORATE GOVERNANCE STATEMENT

The principal functions of the RC are to:

- Review and recommend to the Board the framework or broad policy for the remuneration of the Company's Board and key management personnel, and to review and recommend specific remuneration packages for each Executive Director and CEO and such other persons having authority and responsibility for planning, directing and controlling the activities of the Group.
- Make recommendations to the Board with regards to the fee of Non-Executive Directors, taking into account factors such as efforts, time spent and responsibilities.
- Make recommendations on the targets for any performance related pay schemes operated by the Company, taking into account time commitment, responsibilities, pay and employment conditions within the industry and in comparable companies.
- Administer the Midas Employees Share Option Scheme.

The terms of reference setting out the RC's authorities, duties and responsibilities are available on the websites of SGX, the SEHK and our Company.

The members of the RC do not have specialised knowledge in the field of executive compensation. However, they have gained experiences in this area through managing the business and/or the human resources aspects of the Group and companies outside the Group. The Company will ensure that the RC has access to expert advice on the human resource matter whenever there is a need to consult externally. In setting remuneration packages, the Group takes into account pay and employment conditions within the same industry and in comparable companies, as well as the Group's performance and individual's performance. No Director or management personnel will be involved in deciding his own remuneration.

The remuneration packages for our Executive Chairman and CEO include a basic salary component, a profit sharing component as well as share option elements, which are performance related. Both our Executive Chairman and CEO have respectively entered into service agreements with the Group with effect from 1 January 2012 for a period of three years and their service agreements will be automatically renewed annually thereafter unless otherwise agreed in writing or terminated in accordance with the terms of the agreements.

Independent and Non-Executive Directors do not have service contracts with the Company. Independent and Non-Executive Directors will receive Directors' fees, in accordance with their contributions, taking into factors such as effort and time spent, responsibilities of the Directors and the need to pay competitive fees to attract, retain and motivate the Directors. Directors' fees have been recommended by the Board for approval at the Company's Annual General Meeting ("AGM").

During the year, the RC held one meeting to discuss remuneration related matters and recommended to the Board the proposed quantum of Directors' fees for Independent Non-Executive Directors.

C ACCOUNTABILITY AND AUDIT

Audit Committee

The AC comprises 3 Independent Non-Executive Directors:

- Mr. Tong Din Eu, Chairman of the AC and Independent Non-Executive Director
- Mr. Chan Soo Sen, Independent Non-Executive Director
- Dr. Xu Wei Dong, Independent Non-Executive Director

The principal functions of the AC are to:

- Review the audit plans of the Company's external auditors and to discuss with external auditors the nature and scope of audit and reporting obligations before commencement.
- Review the external auditors' reports and to review external auditors' management letter and ensure that the Board has a timely response to issues raised.
- Review the financial statements of the Company and that of the Group before their submission to the Board, with particular focus on changes in accounting policies and practices, major judgemental areas, significant adjustments resulting from audit, going concern assumptions and any qualifications, compliance with accounting standards and compliance with applicable listing rules and legal requirements in relation to financial reporting.
- Be primarily responsible for making recommendations to the Board on the appointment, re-appointment and removal of the external auditors and to review and recommend to the Board the remuneration and terms of engagement of the external auditors, and any questions of its resignation or dismissal.
- Review the Group's financial and accounting policies and practices.
- Review the scope and results of the internal audit procedures.

The AC Charter setting out the AC's authorities, duties and responsibilities is available on the websites of SGX, the SEHK and our Company.

The Chairman of the AC, Mr. Tong Din Eu has many years of experience in the corporate finance and accounting profession. Mr. Chan Soo Sen and Dr. Xu Wei Dong have many years of experience in business and financial management. The AC members bring with them extensive managerial and financial expertise. They are also board members of various listed companies in Singapore and PRC. The AC meets at least 4 times a year, with additional meetings when circumstances require. The Board is of the view that the members of the AC have sufficient financial management expertise and experience to discharge the AC's functions.

The AC assists the Board in maintaining a high standard of corporate governance, particularly in the areas of effective financial reporting and the adequacy of internal control systems of the Group.

The AC keeps abreast of changes to accounting standards and issues which have a direct impact on the financial statements by regular communication with the management, the external auditors and the internal auditors.

CORPORATE GOVERNANCE STATEMENT

During the year, the AC reviewed and approved the audit plans submitted by both the internal and external auditors. The AC has also reviewed the findings and recommendations from the auditors and reviewed and discussed the announcements of the quarterly, half year and full year results.

The AC evaluates the assistance given by the management to the external auditors and also reviews any interested person transactions.

The AC has full access to management and is given the resources required for it to discharge its functions. It has the full authority and discretion to invite any Director or executive officer to attend its meetings.

The AC meets with the external auditors and the internal auditors, without the presence of management, at least once a year.

The AC, having reviewed all non-audit services provided by the external auditors to the Group, is satisfied that the nature and extent of such services would not affect the independence of the external auditors. The Group has complied with Rules 712 and 715 of the Listing Manual of the SGX-ST in relation to its auditors and will continue to do so. The AC recommends Mazars LLP to the Board for re-appointment as external auditors of the Company. Except for the appointment of Mazars LLP as the external auditors since financial year ended 31 December 2012, there have been no changes in the auditors in the preceding three years.

Internal Audit

The internal audit function is outsourced to a firm of certified public accountants. The internal auditors report directly to the Chairman of the AC. The AC reviews and approves the annual internal audit plans and reviews the scope of internal audit procedures. The internal auditors will also report to the AC directly their significant findings and recommendations arising from the internal audit carried out by them.

D CORPORATE GOVERNANCE

The Board is responsible for performing the corporate governance duties as set out below:

- To develop and review Group's policies and practices on corporate governance.
- To review and monitor the training and continuous professional development of Directors and senior management.
- To review and monitor the Group's policies and practices on compliance with legal and regulatory requirements.
- To develop, review and monitor the code of conduct and compliance applicable to employees and Directors.
- To review the Group's compliance with the Singapore CG Code and HK CG Code and disclosure in the Corporate Governance Statement.

CORPORATE GOVERNANCE STATEMENT

The Board is cognizant of the need to stay abreast of developments and best practices, especially in areas where it will enable them to discharge their fiduciary duties more effectively. To that extent, the Board as a whole is encouraged to attend appropriate courses and/or seminars which are proposed either by the Directors or the Company. The Directors are required to keep the Board updated on a timely basis on the training(s) that they have received. The Board reviews and monitors the training and continuous professional development of the Directors on a periodic basis.

During the year, the Board reviewed the Group's corporate governance policies and practices and that such policies and practices are compliant with the Singapore CG Code and HK CG Code. The Board also reviewed the Group's compliance with the necessary disclosure requirements in the Corporate Governance Statement.

E RISK MANAGEMENT AND INTERNAL CONTROLS

The Board is responsible for overseeing the Group's system of risk management and internal controls and for reviewing its adequacy and effectiveness. The system of risk management and internal controls are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Group has established a risk identification and management framework. In the Group, the risks are proactively identified and addressed. The ownership of these risks lies with the respective business and corporate executive heads with stewardship residing with the Board. Action plans to manage the risks are continually monitored and refined by the management and the Board. Internal auditors conduct review on the effectiveness of the material internal control systems in the Group, including material financial, operational, compliance and information technology controls. Any material non-compliance or lapses in internal controls together with corrective measures are reported to the AC. The external auditors, in the course of their audit, consider internal controls relevant to the Group's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls. Any significant deficiencies noted during the course of the audit in such internal controls will be reported to the AC.

The Board has received assurance from the CEO and CFO that:

- (a) the financial records of the Group have been properly maintained and the financial statements for the year ended 31 December 2014 give a true and fair view of the Group's operations and finances; and
- (b) the system of risk management and internal controls in place within the Group is adequate and effective in addressing the material risks in the Group in its current business environment including material financial, operational, compliance and information technology risks. The CEO and CFO have obtained similar assurance from the business and corporate executive heads in the Group.

Based on the framework established and the reviews conducted, the Board opines pursuant to Rule 1207(10) of the Listing Manual of the SGX-ST, with the concurrence of the AC, that there are adequate internal controls in place within the Group addressing material financial, operational and compliance risks.

CORPORATE GOVERNANCE STATEMENT

The Board notes that the system of risk management and internal controls established by the Company provides reasonable, but not absolute, assurance that the Group will not be significantly affected by any event that can be reasonably foreseen as it strives to achieve its business objectives. However, the Board also notes that no system of risk management and internal controls can provide absolute assurance in this regard, or absolute assurance against poor judgment in decision making, human error, losses, fraud or other irregularities.

F COMMUNICATIONS WITH SHAREHOLDERS

The Group is mindful of the obligation to provide regular, effective and fair communication with shareholders on a timely basis, without practising selective disclosure. The announcements of results are published through the websites of SGX, the SEHK and the Company and news releases. All information on the Company's and/or the Group's new initiatives are first disseminated via the websites of SGX, the SEHK and the Company followed by a news release. Results and annual reports are announced or issued within the mandatory period.

All shareholders of the Company receive the annual report, circulars and notices of the shareholders' meetings. The notices are also advertised in newspapers in Singapore. The Company encourages shareholders to attend the AGM to ensure a high level of accountability and to stay informed of the Group's strategies and goals. The notice of this AGM has been dispatched to the shareholders, at least 20 clear business days before the meeting. The Board welcomes questions from shareholders either formally or informally before or at the AGM.

The Company's Articles allow a shareholder of the Company to appoint more than one proxy to attend and vote in place of the shareholder.

G SHAREHOLDERS' RIGHTS

Procedures by Which Shareholders Can Convene an Extraordinary General Meeting ("EGM")

Two or more members holding not less than 10% of the total number of issued shares of the Company (excluding treasury shares) may call a general meeting of the Company. The Directors shall, on the requisition of members holding at the date of the deposit of the requisition not less than 10% of such of the paid-up capital, immediately proceed duly to convene an EGM of the Company to be held as soon as practicable but in any case not later than 2 months after the receipt by the Company of the requisition. The requisition shall state the objects of the meeting and shall be signed by the requisitionists and deposited at the registered office of the Company, and may consist of several documents in like form each signed by one or more requisitionists. If the Directors do not within 21 days after the date of the deposit of the requisition proceed to convene a meeting, the requisitionists, or any of them representing more than 50% of the total voting rights of all of them, may themselves, in the same manner as nearly as possible as that in which meetings are to be convened by Directors convene a general meeting, but any meeting so convened shall not be held after the expiration of 3 months from that date.

Any reasonable expenses incurred by the requisitionists by reason of the failure of the Directors to convene a general meeting shall be paid to the requisitionists by the Company, and any sum so paid shall be retained by the Company out of any sums due or to become due from the Company by way of fees or other remuneration in respect of their services to such of the Directors as were in default. A general meeting at which a special resolution is to be proposed shall be deemed not to be duly convened by the Directors if they do not give such notice thereof as is required by Singapore Companies Act in the case of special resolutions.

CORPORATE GOVERNANCE STATEMENT

Procedures by Which Proposals Could Be Put Forward At Shareholders' Meetings

The Company holds its AGM every year, and this is usually held at the end of April. Two or more members holding not less than 10% of the total number of issued shares of the Company (excluding treasury shares) can submit a written request to move a resolution at the AGM. The written request must state the resolution signed by all the shareholders concerned and may consist of several documents in like form (which between them contains the signatures of all the shareholders concerned). The written request must be deposited at the registered office of the Company, for the attention of the Company Secretaries not less than eight weeks before the meeting in the case of a requisition requiring notice of a resolution. The request will be verified with the Company's Share Registrars and upon their confirmation that the request is proper and in order, the Company Secretaries will ask the Board to include the resolution in the agenda for the AGM. On the contrary, if the request has been verified as not in order, the shareholders concerned will be advised of this outcome and accordingly, the proposed resolution will not be included in the agenda for the AGM.

If a shareholder wishes to propose a person other than a Director of the Company for election as a Director at the AGM, he/she can deposit a written notice to that effect at the registered office of the Company for the attention of the Company Secretaries. In order for the Company to inform shareholders of that proposal, the written notice must state the full name of the person proposed for election as a Director, include the person's biographical details as required by Rule 13.51(2) of the Listing Rules, and be signed by the shareholder concerned and that person indicating his/her willingness to be elected. The period for lodgement of such a written notice will commence no earlier than the day after the despatch of the notice and end no later than seven days prior to the date of the AGM. If the notice is received less than 20 clear business days prior to the AGM, the Company will need to consider the adjournment of the AGM in order to allow shareholders to be given 21 days' notice of the proposal.

Securities Trading

The Group has adopted a code of conduct rules regarding securities transactions by the Directors on terms no less exacting than the required standard set out in the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 of the Listing Rules (the "Model Code") and in compliance with the best practices stipulated in Rule 1207(19) of the SGX-ST Listing Manual with respect to the dealings in securities for the guidance of Directors and officers. In addition, having made specific enquiry to all Directors, the Company understands that all Directors have complied with the required standard set out in the Model Code and its code of conduct regarding Directors' securities transactions throughout the year 2014. In line with the guidelines, Directors and executive officers of the Group are not permitted to deal in the Company's shares on short-term consideration and during the period of 30 days immediately preceding the publication date of the quarterly results and half-year results or, if shorter, the period from the end of the quarterly or half-year period up to the publication date of the results; or during the period of 60 days immediately preceding the publication date of the annual results or, if shorter, the period from the end of financial year up to the publication date of the results; or when they are in possession of any unpublished inside information on the Group.

CORPORATE GOVERNANCE STATEMENT

Interested Person Transactions Policy

The Group has adopted an internal policy in respect of any transactions with interested persons and has set out the procedures for periodic review and approval of these transactions by the AC.

Director's Responsibility for the Financial Statements

The Directors are responsible for overseeing the preparation of financial statements for each financial period with a view to ensuring such financial statements give a true and fair view of the state of affairs of the Group and of the results and cash flows for that period. The Group's financial statements are prepared in accordance with all relevant statutory requirements and applicable accounting standards. The Directors are responsible for ensuring that appropriate accounting policies are selected and applied consistently; and that judgments and estimates made are prudent and reasonable. The statement of the independent auditors of the Company, Messrs. Mazars LLP, with regard to their reporting responsibilities on the Company's financial statements is set out in the Independent Auditors' Report on page 50.

Whistle-Blowing Program

As a further enhancement to internal risk control processes, the Company has introduced and implemented the "Policy on Reporting Wrongdoing" across the Group. Under this "Whistleblowing" policy, all forms of "wrong-doings" can be reported to an investigation unit, with the "whistle-blower" being provided confidentiality protections. "Wrong-doings" can include fraud, theft, abuse of authority, breach of regulations or non-compliance with corporate policy such as improper banking or financial transactions.

Material Contracts

Save as disclosed, there are no other material contracts entered into by the Company and its subsidiaries involving the interest of the CEO, Director or controlling shareholder, which are either subsisting at the end of the financial year or, if not then subsisting, entered into since the end of the previous financial year.

Auditors' remuneration

For the year ended 31 December 2014, the remuneration paid or payable to the Group's external auditors for providing the audit and other non-audit services is set out in Note 9 to the consolidated financial statements.

REPORT OF THE DIRECTORS

14. Share options (Continued)

Midas Employee Share Options Scheme (Continued)

Under the Scheme, an option entitles the option holder to subscribe for a specific number of new ordinary shares in the Company comprised in the option at a subscription price per share determined with reference to the market price of the share at the time of grant of the option. The Remuneration Committee may at its discretion, fix the subscription price at a maximum discount of 20% off the market price. Options granted with the subscription price set at the market price shall only be exercised after the first anniversary from the date of the grant of the option. Options granted with the market price set at a discount to the market price shall only be exercised after the second anniversary from the date of the grant of the option. The shares under option may be exercised in whole or in part thereof. Options granted will lapse when the option holder ceases to be a full-time employee of the Company or any Company of the Group subject to certain exceptions at the discretion of the Company.

The number of shares available under the Scheme shall not exceed 15% of the issued share capital of the Company.

The Scheme became operative with options to subscribe for 2,500,000 ordinary shares of the Company being granted on 18 May 2005 ("2005 Options"). Particulars of the 2005 Options were set out in the Directors' Report for the financial year ended 31 December 2005.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF MIDAS HOLDINGS LIMITED

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Midas Holdings Limited (the "Company") and its subsidiaries (collectively the "Group") which comprise the statements of financial position of the Group and of the Company as at 31 December 2014, and the statements of profit or loss and other comprehensive income, changes in equity and cash flows of the Group for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 52 to 109.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act, Cap. 50 (the "Act"), applicable disclosure requirements of the Hong Kong Companies Ordinance and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair profit and loss accounts and balance sheets and to maintain accountability of assets.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal controls relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions of the Act, applicable disclosure requirements of the Hong Kong Companies Ordinance and Singapore Financial Reporting Standards so as to give a true and fair view of the state of affairs of the Group and of the Company as at 31 December 2014 and the results, changes in equity and cash flows of the Group for the financial year ended on that date.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF MIDAS HOLDINGS LIMITED

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company and by those subsidiaries incorporated in Singapore of which we are the auditors, have been properly kept in accordance with the provisions of the Act.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements.

1. General

Midas Holdings Limited (the "Company") (Registration Number: 200009758W) is a public limited liability company incorporated and domiciled in Singapore with its registered office and principal place of business at No. 4 Shenton Way, #18-03 SGX Centre 2, Singapore 068807. The Company is listed on the Main Board of the Singapore Exchange Securities Trading Limited and the Main Board of the Stock Exchange of Hong Kong Limited.

The principal activity of the Company is that of an investment holding.

The principal activities of the subsidiaries are set out in note 18 to the consolidated financial statements.

The consolidated financial statements relate to the Company and its subsidiaries (hereinafter known as the "Group") and the Group's interest in an associate.

2. Summary of significant accounting policies

2.1 Basis of preparation

The consolidated financial statements have been drawn up in accordance with the provisions of the Singapore Companies Act, Cap. 50 (the "Act"), the applicable disclosure requirements of the Hong Kong Companies Ordinance and the rules governing the listing of securities on the Stock Exchange of Hong Kong Limited, and Singapore Financial Reporting Standards ("FRS") including related Interpretations of FRS ("INT FRS") issued by the Singapore Accounting Standards Council. The consolidated financial statements are prepared under the historical cost convention, except as disclosed in the accounting policies below.

Subsequent to the Hong Kong Listing during the financial year 2011, the Company submitted its application to ACRA to prepare its consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS"). At the same time, the Company also made further enquiries with the Stock Exchange of Hong Kong Limited with regard to whether the Company should adopt IFRS or FRS. The Stock Exchange of Hong Kong Limited has agreed to accept that the Group's financial statements could be prepared in accordance with FRS, on the condition that the Company would include in its financial reports a reconciliation of its consolidated financial statements in accordance with IFRS, with a narrative description of the major differences between the two position and standards, in a form that facilitates investors' understanding of the Company's financial performance.

The Company informed ACRA of the outcome of their enquiry with the Stock Exchange of Hong Kong Limited, and did not obtain approval from ACRA on the Company's application to prepare its consolidated financial statements in accordance with IFRS. Therefore, the Company continues to prepare the current set of consolidated financial statements for the financial year ended 31 December 2014 in accordance with FRS and the Company has included a reconciliation of its financial statements in accordance with IFRS in note 40 to the consolidated financial statements which will contain a narrative description of the major differences between the two standards if any, that is relevant to the preparation of the consolidated financial statements of the Group, in a form that facilitates investors' understanding of the Company's financial position and performance.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

The individual financial statements of each Group entity are measured and presented in the currency of the primary economic environment in which the entity operates (its functional currency). The functional currency of the Company is Singapore dollar ("S\$"). The consolidated financial statements of the Group and the statement of financial position of the Company are presented in Renminbi ("RMB") and all values presented are rounded to the nearest thousand ("RMB'000"), unless otherwise stated.

The preparation of the consolidated financial statements in conformity with FRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. Actual results may differ from these estimates. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 3 to the consolidated financial statements.

In the current financial year, the Group has adopted all the new and revised FRS and INT FRS that are relevant to its operations and effective for the current financial year. The adoption of these new/revised FRS and INT FRS does not result in changes to the Group's accounting policies and has no material effect on the amounts reported for the current or prior years.

FRS and INT FRS issued but not yet effective

At the date of authorisation of these financial statements, the following FRS and INT FRS that may be relevant to the Group have been issued but not yet effective:

| | | Effective date (annual periods beginning on or after) |
|-----------------|---|--|
| FRS 16, FRS 38 | Amendments to FRS 16 and FRS 38: Clarification of Acceptance Methods of Depreciation and Amortisation | 1 January 2016 |
| FRS 16, FRS 41 | Amendments FRS 16 and FRS 41: Agriculture: Bearer Plants | 1 January 2016 |
| FRS 19 | Amendments to FRS 19: Defined Employee Plans: Employee Contributions | 1 July 2014 |
| FRS 110, FRS 28 | Amendments to FRS 110 and FRS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture | 1 January 2016 |
| FRS 109 | Financial Instruments | 1 January 2018 |
| FRS 27 | Amendments to FRS 27: Equity Method in Separate Financial Statements | 1 January 2016 |
| FRS 111 | Amendments to FRS 111: Accounting Acquisitions of Interest in Joint Operations | 1 January 2016 |
| FRS 114 | Regulatory Deferral Accounts | 1 January 2016 |
| FRS 115 | Revenue from Contracts with Customers | 1 January 2017 |
| Various | Improvements to FRSs (January 2014) | Various |
| Various | Improvements to FRSs (February 2014) | Various |
| Various | Improvements to FRSs (November 2014) | Various |

Consequential amendments were also made to various standards as a result of these new/revised standards.

The management anticipates that the adoption of the above FRS in future periods will not have a material impact on the financial statements of the Group in the period of their initial adoption.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.2 Basis of consolidation

The financial statements of the Group comprise the financial statements of the Company and its subsidiaries. Subsidiaries are entities (including structured entities) (i) over which the Group has power and the Group is (ii) able to use such power to (iii) affect its exposure, or rights, to variable returns from then through its involvement with them.

The Group reassesses whether it controls the subsidiaries if facts and circumstance indicate that there are changes to the one or more of the three elements of control.

When the Group has less than a majority of the voting rights of an investee, it still has power over the investee when the voting rights are sufficient, after considering all relevant facts and circumstances, to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers, amongst others, the extent of its voting rights relative to the size and dispersion of holdings of the other vote holders, currently exercisable substantive potential voting rights held by all parties, rights arising from contractual arrangements and voting patterns at previous shareholders' meetings.

Subsidiaries are consolidated from the date on which control is transferred to the Group up to the effective date on which control ceases, as appropriate.

Intra-group assets and liabilities, equity, income, expenses and cashflows relating to intragroup transactions are eliminated on consolidation.

The financial statements of the subsidiaries used in the preparation of the financial statements are prepared for the same reporting date as that of the Company. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

Non-controlling interests are identified separately from the Group's equity therein. On an acquisition-by-acquisition basis, non-controlling interests may be initially measured either at fair value or at their proportionate share of the fair value of the acquiree's identifiable net assets. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Losses in the subsidiary are attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any differences between the amount by which the non-controlling interests are adjusted to reflect the changes in the relative interests in the subsidiary and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

Investments in subsidiaries are carried at cost less any impairment loss that has been recognised in profit or loss in the Company's separate financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.3 Business Combinations

Business combinations from 1 January 2010

The acquisition of subsidiaries is accounted for using the acquisition method. The cost of the acquisition is measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 are recognised at their fair values at the acquisition date, except for non-current assets (or disposal groups) that are classified as held-for-sale in accordance with FRS 105 *Non-Current Assets Held for Sale and Discontinued Operations*, which are recognised and measured at the lower of cost and fair value less costs to sell.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under FRS 103 are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with FRS 12 *Income Taxes* and FRS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with FRS 102 *Share-based Payment*; and
- assets (or disposal groups) that are classified as held for sale in accordance with FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.3 Business Combinations (Continued)

Business combinations from 1 January 2010 (Continued)

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date, and is subject to a maximum of one year.

Goodwill arising on acquisition is recognised as an asset at the acquisition date and is initially measured at cost, being the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer previously held equity interest (if any) in the entity over net acquisition-date fair value amounts of the identifiable assets acquired and the liabilities assumed.

If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Business combinations before 1 January 2010

In comparison to the above mentioned requirements, the following differences applied:

Business combinations were accounted for by applying the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest (formerly known as minority interest) was measured at the proportionate share of the acquiree's identifiable net assets.

Business combinations achieved in stages were accounted for as step acquisitions. Adjustments to those fair values relating to previously held interests were treated as a revaluation and recognised in equity.

When the Group acquired a business, embedded derivatives separated from the host contract by the acquiree were not reassessed on acquisition unless the business combination resulted in a change in the terms of the contract that significantly modified the cash flows that would otherwise be required under the contract.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was probable and a reliable estimate was determinable. Subsequent measurements to the contingent consideration affected goodwill.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.4 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment comprises its purchase price and any direct attributable cost of bringing the property, plant and equipment to the location and condition necessary for its intended use. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Depreciation is charged so as to write off the depreciable amount of property, plant and equipment to their residual values over their estimated useful lives, using the straight-line method on the following bases:

| | Annual depreciation rates |
|----------------------------|--|
| Buildings and improvements | 3% to 5% |
| Plant, equipment and mould | 3% to 20% |
| Motor vehicles | 10% to 20% |
| Office equipment | 10% |

Construction-in-progress is stated at cost less impairment losses. Cost comprises direct costs of construction as well as borrowing costs capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction-in-progress is transferred to the appropriate class of property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction-in-progress until it is completed and ready for its intended use.

The estimated useful lives, residual values and depreciation methods are reviewed, and adjusted as appropriate, at the end of each financial year.

On disposal of an item of property, plant and equipment, the difference between the net disposal proceeds and its carrying amount is recognised in profit or loss.

Fully depreciated items are retained in the financial statement until they are no longer in use.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.5 Subsidiaries

Subsidiaries are entities over which the Company has power to govern the financial and operating policies, generally accompanied by a shareholding giving rise to a majority of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity.

Investments in subsidiaries are accounted for at cost in the statements of financial position of the Company less any accumulated impairment losses.

2.6 Associate

An associate is an entity over which the Group has significant influence, being the power to participate in the financial and operating policy decisions of the entity but is not control or of joint control of those policies, and generally accompanying a shareholding of 20% or more of the voting power.

On acquisition of the associate, any excess of the cost of the investment over the Group's share of the net fair value of the associate identifiable assets and liabilities is accounted as goodwill and is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the associate identifiable assets and liabilities over the cost of the investment is included as income in the determination of the Group's share of the associate's profit or loss in the reporting period in which the investment is acquired. Investments in associates are carried at cost less any impairment loss that has been recognised in profit or loss in the Company's separate financial statements.

The results and assets and liabilities of an associate are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held-for-sale, in which case it is accounted for under FRS 105 *Non-current Assets Held for Sale and Discontinued Operations* from the date on which the investee become an associate. Under the equity method, investments in associates are carried at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associate, less any impairment loss of individual investments. The Group's share of losses in an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are not recognised, unless the Group has incurred legal or constructive obligations or made payments on behalf of the associate. Distributions received from the associate reduce the carrying amount of the investment. Any goodwill arising on the acquisition of the Group's interest in an associate is accounted for in accordance with the Group's accounting policy for goodwill arising on such acquisitions (see above).

Unrealised profits and losses are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated in the same way as unrealised gains, but only to the extent that there is no impairment.

The Company has accounted for its investments in associates at cost in its separate financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.7 Land use right

Land use right is carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is calculated on the straight-line basis to write off the cost of land use right over the lease terms.

2.8 Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of the following assets to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- land use right; and
- interests in subsidiaries and an associate.

If any such indication of impairment loss exists, the asset's recoverable amount is estimated. Recoverable amount is determined for individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. The fair value less costs to sell is the amount obtainable from the sale of an asset or cash-generating unit in an arm's length transaction between knowledgeable, willing parties, less costs of disposal. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life, discounted at a pre-tax rate that reflects current market assessments of the time value of the money and the risks specific to the asset or cash-generating unit for which the future cash flow estimates have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognised as income immediately.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis. Cost includes all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. The net realisable value is the estimated selling price in the ordinary course of business less all estimated cost of completion and cost to be incurred in marketing, selling and distribution.

2.10 Financial instruments

Financial instruments (financial assets and financial liabilities) are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets

All financial assets are recognised on a trade date where the purchase of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

The Group classifies its financial assets as loans and receivables and available-for-sale financial assets. The classification depends on the nature and purpose of these financial assets, which are initially measured at fair value plus transaction costs that are directly attributable to the acquisition.

Loans and receivables

These assets, including trade receivables, loans and other receivables, are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade receivables), and also incorporate other types of contractual monetary asset. Subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses.

Available-for-sale financial assets

These assets are non-derivative financial assets that are designated as available-for-sale or are not included in other categories of financial assets. Subsequent to initial recognition, these assets are carried at fair value with changes in fair value recognised in other comprehensive income until the financial asset is derecognised, except for impairment losses, foreign exchange gains and losses on monetary instruments, which are recognised in profit or loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment losses.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Impairment loss on financial assets

The Group assesses, at the end of each reporting period, whether there is any objective evidence that financial asset is impaired. Financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- granting concession to a debtor because of the debtor's financial difficulty; or
- it becoming probable that the debtor will enter bankruptcy or other financial restructuring.

For loans and receivables

An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. The carrying amount of a financial asset is reduced through the use of an allowance account. When any part of a financial asset is determined as uncollectible, it is written off against the allowance account for the relevant financial asset.

Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For available-for-sale financial assets

Where a decline in the fair value constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognised in profit or loss.

Any impairment losses on available-for-sale debt investments are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investment, any increase in fair value subsequent to an impairment loss is recognised directly in other comprehensive income.

For available-for-sale equity investment that is carried at cost, the amount of impairment loss is measured as the difference between the carrying amount of the asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss shall not be reversed.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial liabilities

Financial liabilities include trade and other payables and bank borrowings. They are initially recognised at fair value, net of directly attributable transaction costs incurred and subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant periods. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

Equity instruments and treasury shares

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

When shares recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in the statement of profit or loss and other comprehensive income on the purchase, sale issue or cancellation of treasury shares.

When treasury shares are subsequently cancelled, the cost of treasury shares is deducted against the share capital account if the shares are purchased out of capital of the Company, or against the accumulated profits of the Company if the shares are purchased out of profits of the Company.

When treasury shares are subsequently sold or reissued pursuant to the employee share options scheme, the cost of treasury shares is reversed from the treasury share account and the realised gain or loss on sale or reissue, net of any directly attributable incremental transaction costs and related income tax, is recognised in the capital reserve of the Company.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.10 Financial instruments (Continued)

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds receivables.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. On derecognition of a financial liability, the difference between the carrying amount and consideration paid is recognised in profit or loss.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks and on hand, demand deposits with banks and other financial institutions which are subject to an insignificant risk of changes in value.

2.12 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Changes in the estimated timing or amount of the expenditure or discount rate are recognised in profit or loss when the changes arise.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.13 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, net of discounts and sales related taxes.

Revenue from the sale of goods is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership of the goods and retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Dividend income from investments is recognised when the shareholders' right to receive payment has been established.

2.14 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

2.15 Operating leases

Leases of assets in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are recognised as an expense on a straight-line basis over the period of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases, if any, are recognised as an expense in the period in which they are incurred.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

2.16 Employee benefits

(i) *Defined contribution plans*

The Company makes contributions to the Central Provident Fund (“CPF”) Scheme in Singapore, a defined contribution pension scheme. Contributions to national pension schemes are recognised as an expense in the period in which the related service is performed.

Pursuant to the relevant regulations of the People’s Republic of China (“PRC”) government, the subsidiaries in the PRC have each participated in a local municipal government retirement benefits scheme (the “Scheme”), whereby the subsidiaries in the PRC are required to contribute a certain percentage of the basic salaries of its employees to the Scheme to fund their retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of the subsidiaries in the PRC. The only obligation of the Group with respect to the Scheme is to pay the ongoing required contributions under the Scheme mentioned above.

Contributions under the Scheme are recognised as an expense as incurred. There is no provision under the Scheme whereby forfeited contributions may be used to reduce future contributions.

(ii) *Share-based payment*

The Group operates an equity-settled share-based compensation plan.

Where share options are awarded to employees, the fair value of the options at the date of grant is charged to profit or loss with a corresponding increase in the share option reserve over the vesting period. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at the end of each reporting period so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also recognised as an expense over the remaining vesting period.

Where equity instruments are granted to persons other than employees, the fair value of goods and services received is recognised in profit or loss unless the goods or services qualify for recognition as an asset.

2.16 Employee benefits (Continued)

(ii) *Share-based payment* (Continued)

Fair value is measured using the Hull-White option pricing model. Under this pricing model, the fair value takes into account the impact of events, such as the early exercise of options by employees or employee exit rates after vesting, which occur during the term of the option. The exit rate is defined as the probability that an employee will leave the Company during the vesting period. The Hull-White model also incorporates the employee's early exercise strategy or possibility of the employee's termination after the vesting period. It assumes that early exercise may occur when the stock price is a certain multiple of the exercise price. The exercise multiple is defined as the average ratio of the stock price to the exercise price at the time of exercise.

2.17 Tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the financial year.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each financial year and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.17 Tax expense (Continued)

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the financial year and based on the tax consequence that will follow from the manner in which the Group expects, at the end of the financial year, to recover or settle the carrying amounts of its assets and liabilities except for the investment properties where investment properties measured at fair value are presented to be recovered entirely through sale. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items credited or debited directly to equity, in which case the tax is also recognised directly in equity, or where they arise from the initial accounting for a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

Sales tax

Revenue, expenses and assets are recognised net of the amount of sales tax except:

- when the sales tax that is incurred on purchases is not recoverable from the tax authorities, in which case the sales tax is recognised as part of cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

2.18 Dividends

Dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which the dividends are approved by the shareholders.

Dividends proposed or declared after the end of each reporting period, are not recognised as a liability at the end of each reporting period.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

2. Summary of significant accounting policies (Continued)

2.19 Foreign currencies

Transactions entered into by Group entities in currencies other than the currency of the primary economic environment in which it operates (the "functional currency") are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of the financial year. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income, in which case, the exchange differences are also recognised directly in other comprehensive income.

On consolidation, the results of foreign operations are translated into the presentation currency of the Group at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of the financial year. The exchange differences arising on the translation are recognised directly in other comprehensive income and accumulated as foreign currency translation reserve. Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to the foreign currency translation reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign currency translation reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

2.20 Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the statement of financial position and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalment.

2.21 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the group of executive directors and the chief executive officer who make strategic decisions.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

3. Critical accounting judgements and key sources of estimation uncertainty

The Group made judgements, estimates and assumptions about the carrying amounts of assets and liabilities that were not readily apparent from other sources. The estimates and associated assumptions were based on historical experience and other factors that were considered to be reasonable under the circumstances. Actual results may differ from these estimates.

3.1 Critical judgements made in applying the accounting policies

(i) *Impairment of financial assets*

The Group follows the guidance of FRS 39 “Financial Instruments: Recognition and Measurement” in determining whether a financial asset is impaired. This determination requires significant judgement. The Group evaluates, among other factors, the duration and extent to which the fair value of a financial asset is less than its cost and the financial health of and near-term business outlook for the financial asset, including factors such as industry and sector performance, changes in technology and operational and financing cash flow.

(ii) *Impairment of non-financial assets*

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable.

When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

3.2 Key sources of estimation uncertainty

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) *Depreciation of property, plant and equipment*

These assets are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these assets to be within 5 to 30 years. The carrying amounts of the Group’s and Company’s property, plant and equipment as at 31 December 2014 were approximately RMB3,617,443,000 (2013: RMB3,032,823,000) and RMB1,905,000 (2013: RMB2,454,000) respectively. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

3. Critical accounting judgements and key sources of estimation uncertainty (Continued)

3.2 Key sources of estimation uncertainty (Continued)

(ii) Income taxes

The Group has exposure to income taxes in the People's Republic of China ("PRC") and Singapore. Due to its inherent nature, judgement is involved in determining the Group's provisions for income taxes.

The Group recognised liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provision in the financial year in which such determination is made. The income tax expense incurred during the financial year was RMB2,803,000 (2013: RMB16,733,000).

(iii) Equity-settled share-based payments

The charge for equity-settled share-based payment is calculated in accordance with estimates and assumptions which are described in note 2.16(ii) and note 33 to the consolidated financial statements. The option valuation model used requires highly subjective assumptions to be made including the future volatility of the Company's share price, expected dividend yields, risk-free interest rates and expected staff turnover. The management draws upon a variety of external sources to aid them in determination of the appropriate data to use in such calculations. The carrying amounts of share options reserves for the Group and the Company for the financial year ended 31 December 2014 were RMBnil (2013: RMB2,740,000).

4. Revenue

Revenue of the Group is as follows:

| | 2014 RMB'000 | 2013 RMB'000 |
|---------------------------------------|------------------|------------------|
| Sales of aluminium extrusion products | 1,294,761 | 1,098,226 |
| Sales of polyethylene pipes | 23,102 | 49,342 |
| | 1,317,863 | 1,147,568 |

5. Segment information

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

All the segments are managed separately as each business offers different products and services and requires different business strategies. The following summary describes the operations in each of the Group's reportable segments:

- Aluminium Alloy Extruded Products Division – manufacturing and sale of aluminium alloy extrusion products;
- Polyethylene Pipe Division – manufacturing and sale of polyethylene pipes; and
- Aluminium Alloy Plates and Sheets Division – manufacturing and sales of aluminium alloy plates and sheets.

On 3 February 2014 and 28 May 2014, the Company issued an aggregate principal amount of S\$85 million 5.75% fixed rate notes due 2017 and S\$75 million 6.00% fixed rate notes due 2016 respectively (the "Notes") under the S\$500,000,000 Multicurrency Medium Term Note Programme established by the Company on 2 October 2013. The corresponding interest for the issued Notes will be payable semi-annually in arrears. The net proceeds from the issue (after deducting issue expenses of RMB9,209,000) will be used for refinancing of existing borrowings and financing of acquisitions, investments and working capital, as well as to meet capital expenditure requirements of the Issuer or the Group. The carrying amount of the borrowings approximately its fair value as of reporting date.

The effective interest rates, which are also equal to contracted interest rates, per annum are as follows:

| | <u>2014</u> | <u>2013</u> |
|------------------|--------------------|-------------|
| | <u>%</u> | <u>%</u> |
| Short-term loans | 4.92 – 7.20 | 5.60 – 7.40 |
| Long-term loans | 6.55 – 7.40 | 6.55 – 7.40 |

All bank borrowings are variable-rate borrowings, and these borrowings carried interest at rates ranging from 100% to 130% (2013: 70% to 120%) of the benchmark interest rate as quoted by The People's Bank of China.

Bank borrowings are all denominated in Renminbi as at the reporting date.

Notes:

- (i) The bank borrowings were secured by certain property, plant and equipment, land use rights and various trade receivables owned by the Group as set out in notes 16, 17 and 24 to the consolidated financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

28. Deferred tax assets/(liability)

| | 2014 RMB'000 | 2013 RMB'000 |
|----------------------------|-----------------|-----------------|
| Deferred tax assets (a) | 17,138 | – |
| Deferred tax liability (b) | (2,141) | (2,141) |

- (a) Deferred tax assets are recognised to the extent that the realisation of the related tax benefits through future tax profits is probable. The deferred tax assets as of 31 December 2014 relate to cumulative tax losses of certain PRC subsidiaries which are expected to commence operations in the next two years and to generate future taxable profits in excess of the profits arising from the reversal of taxable temporary differences.
- (b) During the financial year ended 31 December 2008, an inter-company loan within the Group was capitalised that gave rise to an exchange difference of approximately S\$1,635,000 (RMB7,411,000 equivalent) which was credited to the foreign currency translation reserve at the Group level.

This exchange difference had also given rise to a future tax obligation of approximately S\$419,000 (RMB1,899,000 equivalent) which was recognised as a deferred tax liability on the consolidated statement of financial position with a corresponding entry to the foreign currency translation reserve as at 31 December 2008.

Under the New Law of PRC, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred tax has not been provided for in the consolidated statements of comprehensive income in respect of temporary differences attributable to accumulated profits of the PRC subsidiaries and associate as at 31 December 2014 and 2013 amounting to approximately RMB745,118,000 and RMB757,000,000 respectively as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

31. Foreign currency translation reserve

The Group and the Company

The foreign currency translation reserve comprises all foreign exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency. Movements in the Group's foreign currency translation reserve are set out in the consolidated statement of changes in equity.

32. PRC statutory reserve

The Group

PRC statutory reserve represents the amounts transferred from profit after income tax of the subsidiaries incorporated in the PRC in accordance with the PRC statutory requirements. The PRC statutory reserve cannot be reduced except where approval is obtained from the relevant PRC authority to apply the amount either in setting off the accumulated losses or increasing share capital. Movement in this account is set out in the consolidated statement of changes in equity.

33. Share options reserve

The Group and the Company

Share options reserve represents the equity-settled share options granted to employees. The reserve is made up of the cumulative value of services received from employees recorded on grant of equity-settled share options. Movement in this account is set out in the consolidated statement of changes in equity.

Equity-settled share options scheme

The Company has a share options scheme known as Midas Employee Share Options Scheme (the "Scheme") for all employees of the Group. Under the Scheme, an option entitles the option holder to subscribe for a specific number of new ordinary shares in the Company comprised in the option at a subscription price per share determined with reference to the market price of the share at the time of grant of the option.

Options granted with the subscription price set at the market price shall only be exercisable after the first anniversary from the date of grant of the option. Options granted with the subscription price set at a discount to the market price shall only be exercisable after the second anniversary from the date of the grant of the option. The shares under option may be exercised in whole or in part thereof.

Options granted will lapse when the option holder ceases to be a full-time employee of the Group subject to certain exceptions at the discretion of the Company.

NOTES TO THE FINANCIAL STATEMENTS

37. Financial risk and capital management

37.1 Financial risk management

The Group's activities expose it to capital risk, credit risk, market risk (including interest rate risk and foreign currency risk), and liquidity risk. The Group's overall risk management strategy seeks to minimise adverse effects from the volatility of financial markets on the Group's financial performance.

The Board of Directors is responsible for setting the objectives and underlying principles of financial risk management for the Group. The Group management then establishes the detailed policies such as risk identification and measurement, exposure limits and hedging strategies, in accordance with the objectives and underlying principles approved by the Board of Directors.

The Group does not hold or issue derivative financial instruments for trading purposes or to hedge against fluctuation, if any, in interest rates and foreign exchange rates. There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

37. Financial risk and capital management (Continued)

37.1 Financial risk management (Continued)

(a) Credit risk

The Group places its bank balances and restricted bank balances with approved credit worthy financial institutions which are regulated. The Group performs ongoing credit evaluation of its customers' financial condition and generally does not require collateral. The Group assesses the customers' credibility and performs periodic reviews of the credit limits granted to the latter based on the findings from such assessments.

The maximum exposure to credit risk in the event that the counterparties fail to perform their obligations as at end of the financial year in relation to each class of recognised financial assets is the carrying amount of those assets stated in the statements of financial position.

The Group has a concentration of credit risk of the trade receivables due from the five largest debtors. As at 31 December 2014 and 2013, approximately 77% and 74% of total trade receivables respectively, were due from the five largest debtors.

(b) Market risk

(i) Interest rate risk

The Group's exposure to changes in interest rates relates primarily to interest-earning financial assets and interest-bearing financial liabilities. Interest rate risk is managed by the Group on an on-going basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates.

The following tables set out the respective carrying amounts, by maturity, of the Group's financial instruments as at end of the financial year, that are exposed to interest rate risk.

| | Weighted average effective interest rate | | Carrying amount | |

(c) Liquidity risk

Liquidity risk refers to the risk in which the Group encounters difficulties in meeting its obligations. Liquidity risk is managed by monitoring and maintaining a level of cash and cash equivalents and trade and other receivables considered adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flow. In doing so, the management monitors the utilisation of borrowings to ensure adequate unutilised banking facilities and compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up using undiscounted cash flows of financial liabilities based on the earlier of the contractual date or when the Group is expected to pay. The table includes both interest and principal cash flows.

The Group's operations are financed mainly through equity, retaining earnings and bank borrowings. Adequate lines of credits are maintained to ensure the necessary liquidity is available when required.

As at 31 December 2014 and 2013, the Company has a net current assets position of RMB8,346,000 and RMB23,623,000 respectively. The Company's cash flow obligations are supported by dividend income and management fee income derived from its subsidiaries and associate.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2014

37. Financial risk and capital management (Continued)

37.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the Group consists of equity attributable to equity holders of the Company, comprising share capital, treasury shares, foreign currency translation reserve, PRC statutory reserve, share options reserve and retained earnings as disclosed in notes 29 to 33 to the consolidated financial statements.

The Group monitors capital on the basis of the debt to equity ratio. This ratio is calculated as total liabilities divided by equity. Total liabilities are the sum of "current liabilities" and "non-current liabilities" as shown on the consolidated statement of financial position and equity is "capital and reserves" as shown on the consolidated statement of financial position. The strategy remained unchanged from 2013.

The debt-equity ratio as at 31 December 2014 and 2013 were as follows:

| | 2014 | 2013 |
|------------------------------|-----------------------|-----------------------|
| <u>The Group</u> | <u>RMB'000</u> | <u>RMB'000</u> |
| Total liabilities | 4,360,254 | 3,019,835 |
| Equity | 2,997,488 | 3,248,189 |
| Debt to equity ratio (times) | 1.45 | 0.93 |

As disclosed in note 32 to the consolidated financial statements, all PRC subsidiaries of the Group are required by the Foreign Enterprise Law of the PRC to contribute to and maintain a non-distributable statutory reserve fund whose utilisation is subject to approval by the relevant PRC authorities.

The Group is in compliance with the externally imposed capital requirement for the financial years ended 31 December 2014 and 2013.

38. Fair values

The carrying amounts of the current financial assets and financial liabilities in the consolidated financial statements approximate their fair values due to the relative short term maturity of these financial instruments.

The available-for-sale financial asset of the Group (Note 20) was not stated at fair value but at cost less any accumulated impairment losses because its fair value could not be reasonably assessed and therefore, no disclosure of its fair values was made.

2. In respect of proposed Resolutions 4 and 5, the Board of Directors, in consultation with the Nominating Committee, recommends to members the re-election of Mr. Tong Ding Eu and Mr. Chan Soo Sen.

As at the date of this notice, each of the following Directors, save as disclosed herein, did not have any other interest in shares of the Company within the meaning of Part XV of the Securities and Futures Ordinance in Hong Kong.

Save as disclosed herein, each of the following Directors does not hold any other position with the Company or any other member of the Company's group (the "Group"), nor has any directorships in other listed public companies in the last three years, and no Director has any relationship with any other Directors, senior management, substantial shareholders or controlling shareholders (as defined in the Listing Rules) of the Company.

Save as disclosed herein, there is no other matter in relation to the following Directors that needs to be brought to the attention of the shareholders and there is no other information relating to the following Directors which is required to be disclosed pursuant to any of the requirements of Rule 13.51(2)(h) to (v) of the Listing Rules.

NOTICE OF ANNUAL GENERAL MEETING

Mr. Tong Din Eu, aged 50, was appointed as an Independent Non-Executive Director of our Company on 8 August 2011. Mr. Tong holds a Bachelor Degree in Accountancy from the National University of Singapore and passed the examinations to be a Chartered Financial Analyst. Mr. Tong has many years of experience in corporate finance and had advised many regional initial public offerings and merger & acquisitions transactions.

There is no service contract entered into between Mr. Tong and the Company, but his appointment will be subject to the rotation and retirement requirements in accordance with the Articles of Association of the Company.

Mr. Tong is entitled to receive an annual director's fee of S\$60,000 per annum as determined by the Board with reference to his experience and responsibility with the Company, the remuneration benchmarks in the industry and the prevailing market situation.

As at the date of this notice, Mr. Tong had an interest in 749,000 shares in the Company.

Mr. Tong Ding Eu will, upon re-election as a Director of the Company, remain as a Chairman of the Audit Committee and will be considered independent for the purpose of Rule 704(8) of the Listing Manual of the SGX-ST and Rule 3.13 of the Listing Rules.

Mr. Chan Soo Sen, aged 58, was appointed as an Independent Non-Executive Director on 29 June 2006. Mr. Chan was a Minister of State and had served in several ministries including the Ministry of Education, Ministry of Trade and Industry and Ministry of Community Development, Youth and Sports. Before entering the political scene, Mr. Chan started up the China-Singapore Suzhou Industrial Park as the founding Chief Executive Officer in 1994, laying the foundation and framework for infrastructure and utilities development. Mr. Chan holds a Master of Management Science from the University of Stanford, United States of America and is a director of a few listed companies in Singapore and an Adjunct Professor in the Nanyang Technological University.

There is no service contract entered into between Mr. Chan and the Company, but his appointment will be subject to the rotation and retirement requirements in accordance with the Articles of Association of the Company.

Mr. Chan is entitled to receive an annual director's fee of S\$50,000 per annum as determined by the Board with reference to his experience and responsibility with the Company, the remuneration benchmarks in the industry and the prevailing market situation.

Mr. Chan was first appointed to the Board in 2006 and would, therefore, serve for more than nine years in end June 2015. For the purpose of complying with Code Provision A.4.3 of the Corporate Governance Code as set out in Appendix 14 of the Listing Rules, Mr. Chan, will retire at the forthcoming Annual General Meeting and being eligible, offer himself for re-election. He has no financial or family relationships with any other Directors, senior management or substantial or controlling shareholders of the Company. He has met the independence guidelines set out in Rule 704(8) of the Listing Manual of the SGX-ST and Rule 3.13 of the Listing Rules. Mr. Chan has given to the Company an annual confirmation of his independence. The Board, therefore, considers him to be independent and believes that he should be re-elected, in particular because of his experience and contribution to the Board.

Mr. Chan will, upon re-election as director of the Company, remain as a member of the Audit Committee and will be considered independent for the purpose of Rule 704(8) of the Listing Manual of the SGX-ST and Rule 3.13 of the Listing Rules.

NOTICE OF ANNUAL GENERAL MEETING

EXPLANATORY NOTE ON SPECIAL BUSINESS TO BE TRANSACTED:

The Ordinary Resolution 7 proposed in item (7), if passed, will empower the Directors of the Company from the date of the above meeting until the date of the next Annual General Meeting, to allot and issue new shares in the Company (whether by way of rights, bonus or otherwise). The number of shares which the Directors may issue under this Resolution shall not exceed 20% of the total number of issued shares excluding treasury shares in the capital of the Company. This authority will, unless previously revoked or varied at a general meeting, expire at the next Annual General Meeting of the Company.

As at the date of this notice, the issued share capital of the Company comprised 1,217,617,800 shares (excluding 1,000,000 treasury shares). Subject to the passing of ordinary resolution no. 7 and on the basis that no further shares are issued or repurchased after the date of this notice and up to the Annual General Meeting, the Company will be allowed to issue a maximum of 243,523,560 shares.

As at the date of this notice, the executive directors of the Company are Mr. Chen Wei Ping and Mr. Chew Hwa Kwang, Patrick; and the independent non-executive directors of the Company are Mr. Chan Soo Sen, Dr. Xu Wei Dong and Mr. Tong Din Eu.

Notes:

1. A member of the Company entitled to attend and vote at a meeting of the Company is entitled to appoint more than one proxy to attend and vote in his stead. Such proxy need not be a member of the Company.
2. Where a member appoints more than one proxy, the appointments shall be deemed to be in the alternatives unless he specifies the proportion of his shareholding (expressed as a percentage of the whole) to be represented by each proxy.
3. The instrument appointing a proxy must be signed by the appointor or his duly authorised attorney or if the appointor is a corporation, it must be executed either under its common seal or signed by its attorney or a duly authorised officer of the corporation.
4. A corporation which is a member may also appoint by resolution of its directors or other governing body such person as it thinks fit to act as an authorised representative or representatives in accordance with its Articles of Association and Section 179 of the Companies Act, Chapter 50 of Singapore, to attend and vote on its behalf.
5. The instrument appointing a proxy or proxies (together with the power of attorney, if any, under which it is signed or a certified copy thereof), must be deposited at the registered office of the Company, 4 Shenton Way, #18-03 SGX Centre 2, Singapore 068807 (for Singapore shareholders), or at the Hong Kong share registrar of the Company, Boardroom Share Registrars (HK) Limited, at 31/F, 148 Electric Road, North Point, Hong Kong (for Hong Kong Shareholders) at least 48 hours before the time fixed for holding the Annual General Meeting.
6. A member should insert the total number of Ordinary Shares held. If the member has Ordinary Shares entered against his name in the Depository Register (as defined in Section 130A of the Companies Act, Chapter 50 of Singapore), he should insert that number of Ordinary Shares. If the member has Ordinary Shares registered in his name in the Register of Members, he should insert that number of Ordinary Shares. If the member has Ordinary Shares entered against his name in the Depository Register as well as Ordinary Shares registered in his name in the Register of Members, he should insert the aggregate number of Ordinary Shares. If no number is inserted, this form of proxy will be deemed to relate to all the Ordinary Shares held by the member.
7. The Company shall be entitled to reject this instrument of proxy if it is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified in this instrument of proxy. In addition, in the case of a member whose Ordinary Shares are entered in the Depository Register, the Company shall be entitled to reject this instrument of proxy which has been lodged if such member is not shown to have Ordinary Shares entered against his name in the Depository Register at least 48 hours before the time appointed for holding the Annual General Meeting as certified by The Central Depository (Pte) Limited to the Company.
