How do we calculate the cash settlement amount?

The warrants are in registered form and exercisable only in the relevant board lots.

If on any expiry date the cash settlement amount is greater than zero, the warrants will be automatically exercised.

Every board lot will entitle you to receive from us the cash settlement amount (less any exercise expenses) in Hong Kong dollars calculated by us as equal to:

For a series of call Warrants:

$$\frac{\text{entitlement} \times (\text{average price}^{**} - \text{exercise price}) \times \text{one board lot}}{\text{Number of warrants per entitlement}}$$

For a series of put Warrants:

$$\frac{\text{entitlement} \times (\text{exercise price} - \text{average price}^{**}) \times \text{one board lot}}{\text{Number of warrants per entitlement}}$$

If the cash settlement amount is a negative amount it shall be deemed to be zero.

** "Average price" means the arithmetic mean of the closing price of a Unit (as derived from the daily quotation sheet of the stock exchange) for each of the five business days (being a day (excluding Saturdays) on which the stock exchange is scheduled to open for dealings in Hong Kong and banks are open for business in Hong Kong) immediately preceding the expiry date, subject to adjustment in accordance with the terms and conditions of the warrants.
