note: As mentioned in Note 11 to the consolidated financial statements, the Group disposed of certain subsidiaries during the year ended 31 March 2015. The results of the disposed subsidiaries for the years presented have been reclassified for separate disclosure as discontinued operations above while the results for each of the three years ended 31 March 2013 have not been reclassified and represented both the continuing and discontinued operations.

# CHAIRMAN'S STATEMENT

On behalf of the board (the "Board") of directors (the "Directors") of Highlight China IoT International Limited (the "Company") and its subsidiaries (collectively, the "Group"), I am pleased to present the Group's audited consolidated results for the year ended 31 March 2015.

#### **BUSINESS REVIEW**

During the year ended 31 March 2015, the garment industry had operated in an environment full of challenges and opportunities. Nevertheless, the Group's customised out-sourcing capabilities enabled the Group to navigate successfully through the global macro-economic pressure and associated unfavourable consumer spending environment. The export market demonstrated a mixed picture. The unresolved debt crisis in the Eurozone has weighed on consumer confidence and has led to persistently low demand. On the other hand, the United States of America ("USA"), the Group's major export destination, has shown soft signs of recovery.

According to the Major Shippers Report released by the USA Department of Commerce, imports of apparel increased by approximately 2.5% to approximately US\$81.8 billion during January to December of 2014, as compared to the corresponding period in the previous year. Although the USA recorded a soft rebound, retailers have become increasingly price cautious in order to remain resilient. Thanks to the Group's successful implementation of its one-stop shop approach in garment sourcing and the Group's network of quality garment suppliers, the Group was able to remain competitive.

## **Continuing and Discontinued Operations**

The Company disposed of its garment manufacturing and trading business ("Discontinued Operations") for a cash consideration of HK\$270 million on 22 July 2014 (the "Disposal"), together with a tax indemnity receivable of HK\$3,425,000 (details of which were disclosed in the circular of the Company dated 18 June 2014 and Note 11, under sub-heading "Losses arising from the Disposal" of the audited consolidated financial statements in this report).

The Disposal enables the Company to better focus on the Group's garment sourcing business ("Continuing Operation") and to further leverage the Group's advantages. The Company recorded a loss of approximately HK\$24 million from the Disposal, an analysis of which is disclosed in Note 11, under sub-heading "Losses arising from the Disposal" of the audited consolidated financial statements in this report.

For the year ended 31 March 2015, the Group's total revenue (including Continuing Operations and Discontinued Operations) decreased by approximately 28.7% on a year-on-year basis to approximately HK\$668 million (2014: approximately HK\$937 million). The decrease in total revenue (including Continuing Operations and Discontinued Operations) during the year ended 31 March 2015 was mainly attributable to the incorporation of performance of the Discontinued Operations only up to 22 July 2014 upon completion of the Disposal, details of which were disclosed in Note 11 to the audited consolidated financial statements in this report.

Gross profit (including Continuing Operations and Discontinued Operations) decreased by approximately 45.2% to approximately HK\$91 million (2014: approximately HK\$167 million) and gross profit margin decreased from approximately 17.8% for the year ended 31 March 2014 to approximately 13.7% in the current financial year.

Loss (including Continuing Operations and Discontinued Operations) attributable to owners of the Company for the year ended 31 March 2015 was approximately HK\$7 million, representing an approximately 136.0% decrease as compared to the previous year (2014: profit of HK\$19 million).

# CHAIRMAN'S STATEMENT (Continued)

Loss (including Continuing Operation and Discontinued Operations) for the year ended 31 March 2015 of approximately HK\$6.4 million (2014: profit of HK\$11.6 million) included professional fees of approximately HK\$8.4 million, tax arising on disposal of HK\$1.2 million and impairment loss recognised on the disposal group of approximately HK\$18.8 million directly related to the Disposal (collectively, "One-off Expenses"). If the One-off Expenses were excluded, the profit (including Continuing Operation and Discontinued Operations) attributable to the owners of the Company would be approximately HK\$22 million. Details of such loss was disclosed in Note 11, under the sub-heading "Losses arising from the Disposal" to the audited consolidated financial statements in this report.

Total comprehensive expense (including Continuing Operation and Discontinued Operations) for the year ended 31 March 2015 amounted to approximately HK\$14 million (2014: income of HK\$13 million), representing a decrease of approximately 207.8%. The decrease was primarily due to the release of foreign currency translation reserve of approximately HK\$8 million upon the Disposal and the One-off Expenses in relation to the Disposal mentioned above.

#### **Garment Sourcing Business — continuing operation**

For the year ended 31 March 2015, revenue contributed from the garment sourcing business of the Group ("Garment Sourcing Business") increased by approximately 29.6% to approximately HK\$366 million (2014: HK\$282 million). Such increase was mainly attributable to the Group's ability to source quality products at competitive prices from different garment sub-contractors, enabling the Group to successfully capture the recovering orders from the USA and Canada during the year under review. Such competitive advantages allowed the Group to grasp greater market shares in North America. With the Group's flexibility and capability to fulfill orders with a diversified garment sub-contractor network, the Group is capable of serving its customers with competitive prices, fast lead time and quality workmanship.

The Garment Sourcing Business recorded a loss attributable to the owners of the Company of approximately HK\$1 million (2014: profit of HK\$7 million) due to the increase in selling and administrative expenses, including sampling expenses, rental of a new office in Wanchai, and remuneration of newly appointed Directors, while gross profit was maintained at approximately HK\$27 million (2014: HK\$27 million).

#### Major Disposal of Subsidiaries and Change in Controlling Shareholders

As disclosed in the Company's announcement dated 22 July 2014, all conditions precedent to the sale and purchase agreement relating to the Disposal were fulfilled and completion of the Disposal took place on 22 July 2014 in accordance with the terms thereof. In other words, the Company disposed of its garment manufacturing and trading business to Sure Strategy Limited ("Sure Strategy") for HK\$270 million in cash as consideration and tax indemnity receivable of HK\$3,425,000 (details of which were disclosed in Note 11, under the sub-heading "Losses arising from the Disposal" to the audited consolidated financial statements in this report).

Immediately after completion of the acquisition of shares of the Company (the "Shares") pursuant to a share sale agreement dated 14 March 2014, Unitech Enterprises Group Limited ("Unitech") became interested in 320,000,000 Shares, representing approximately 61.56% of the entire issued share capital of the Company on 22 July 2014. Accordingly, Kingston Securities Limited, on behalf of Unitech, made an unconditional mandatory cash offer (the "Share Offer") for all the issued Shares not already owned and/or agreed to be acquired by Unitech and/or parties acting in concert with it. The composite document on the Share Offer was despatched to the shareholders of the Company (the "Shareholders") on 25 July 2014 (the "Despatch Date").

Upon the close of the Share Offer on 15 August 2014, Shareholders holding 2,326,500 Shares had accepted the Share Offer, as a result of which Unitech held 322,326,500 Shares, representing approximately 62.01% of the total issued Shares.

Details of the above were also disclosed in the Company's composite document dated 25 July 2014 and announcement dated 15 August 2014.

## CHANGE IN COMPOSITION OF THE BOARD AND BOARD COMMITTEES

During the year ended 31 March 2015 and up to the date of this report, the Company has had the following changes in the composition of its Board and Board committees:

On 26 July 2014 (being the date immediately after the Despatch Date), in connection with the Share Offer, three new executive Directors, namely Mr. Gao Zhiyin, Mr. Gao Zhiping and Mr. Shi Jiguo, and one independent non-executive Director, namely Dr. Chen Yifan, were appointed by the Board.

With effect from 16 August 2014, being the day immediately after the first closing date of the Share Offer, each of Mr. Choi Lin Hung, Mr. Lau Kwok Wa, Stanley and Mr. Ng Tze On resigned as an executive Director, each of Mr. Chen Tien Tui and Mr. Li Ming Hung resigned as a non-executive Director and each of Mr. Lau Chi Kit, Mr. Mak Chi Yan, Mr. Wong Wai Kit, Louis and Mr. Yuen Kin Kei resigned as an independent non-executive Director.

On the same day (i.e. 16 August 2014), (i) Mr. Choi Lin Hung also resigned as the chairman of the Board and the chief executive officer of the Company and ceased to be the authorised representative of the Company under Rule 3.05 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") and under Part 16 of the Companies Ordinance (Chapter 622 of the Laws of Hong Kong); (ii) Mr. Gao Zhiyin, an executive Director, was appointed as the chairman of the Board and the authorised representative of the Company under Rule 3.05 of the Listing Rules; (iii) Mr. Gao Zhiping, an executive Director, was appointed as the chief executive officer of the Company; (iv) Mr. Lau Chi Kit was re-appointed as an independent non-executive Director; and (v) Mr. Lam Kai Yeung was appointed as an independent non-executive Director.

On the same day (i.e. 16 August 2014), the composition of the Board committees was then as follows:

- The audit committee of the Company (the "Audit Committee") comprised three independent non-executive Directors,
   namely Mr. Lam Kai Yeung (chairman), Mr. Lau Chi Kit and Dr. Chen Yifan.
- The remuneration committee of the Company (the "Remuneration Committee") comprised two independent nonexecutive Directors, namely Dr. Chen Yifan (chairman) and Mr. Lau Chi Kit and one executive Director, namely Mr. Gao Zhiyin.
- The nomination committee of the Company (the "Nomination Committee") comprised one executive Director, namely
   Mr. Gao Zhiyin (chairman) and two independent non-executive Directors, namely Mr. Lau Chi Kit and Dr. Chen Yifan.

Details of above were disclosed in the Company's announcements dated 22 July 2014 and 18 August 2014.

On 9 April 2015, Dr. Chen Yifan resigned as an independent non-executive Director. Upon his resignation, Dr. Chen Yifan also ceased to be the chairman of the Remuneration Committee and a member of the Audit Committee and the Nomination Committee.

On the same day (i.e. 9 April 2015), the Board appointed Mr. Lam Kai Yeung, an independent non-executive Director, as the chairman of the Remuneration Committee and a member of the Nomination Committee.

Following the resignation of Dr. Chen Yifan as an independent non-executive Director with effect from 9 April 2015, the number of independent non-executive Directors fell below the minimum number as required under Rule 3.10(1) of the Listing Rules and the number of members of the Audit Committee fell short of the requirement under Rule 3.21 of the Listing Rules.

# CHAIRMAN'S STATEMENT (Continued)

As at the date of this report, the composition of the Board committees was as follows:

- The Audit Committee comprised two independent non-executive Directors, namely Mr. Lam Kai Yeung (chairman) and Mr. Lau Chi Kit.
- The Remuneration Committee comprised two independent non-executive Directors, namely Mr. Lam Kai Yeung (chairman)
   and Mr. Lau Chi Kit and one executive Director, namely Mr. Gao Zhiyin.
- The Nomination Committee comprised one executive Director, namely Mr. Gao Zhiyin (chairman) and two independent non-executive Directors, namely Mr. Lau Chi Kit and Mr. Lam Kai Yeung.

Details of the above were disclosed in the Company's announcement dated 9 April 2015.

#### **Prospects and Development Plan**

The Group has continued the Garment Souring Business after the Disposal. The Group will conduct a detailed review of its operations and formulate feasible business strategies with a view to developing a sustainable corporate strategy to broaden the Group's income stream, which may include rebalancing the resources of the Group should appropriate opportunities arise.

During the year under review, the Board had been reorganized. Under the leadership of the reorganized Board, the Board intends to explore new business opportunities in the internet, IoT ("Internet of Things"), tri-network integration and new media industries by utilizing the experience of Unitech (being the controlling Shareholder) and resources, identify suitable projects and new investment opportunities in other sectors.

As disclosed in the Company's announcement dated 25 March 2015, an agreement (the "Agreement") was entered into by the Company as purchaser and Unitech and other sellers (the "Sellers") in relation to the proposed transfer of the entire issued share capital of Highlight Holding Limited from the Sellers to the Company pursuant to the terms of the Agreement (the "Acquisition") and the assignment of loan from Unitech to the Company at a total consideration of HK\$36,450,903,600, which shall be satisfied by the issue and allotment of Shares by the Company to the Sellers at an issue price of HK\$2.87 per Share.

The Acquisition constitutes a very substantial acquisition for the Company, a connected transaction of the Company as Unitech is a connected person of the Company by virtue of it being the controlling Shareholder and a reverse takeover for the Company. Closing of the Acquisition is conditional upon the satisfaction of the conditions precedent as set out in the Agreement.

The Board will strive to explore new business opportunities and thus enhance financial performance, so as to create better returns for Shareholders in the long run.

# MATERIAL DISPOSAL OF SUBSIDIARIES AND PROPOSED ACQUISITION

Save as disclosed in the paragraph under the section headed "Major Disposal of Subsidiaries and Change in Controlling Shareholders" and "Prospects and Development Plan" above, the Group did not make any material disposal of subsidiaries and did not have any proposed material acquisition during the year ended 31 March 2015.

Gao Zhiyin

Chairman

Hong Kong, 30 June 2015

# MANAGEMENT DISCUSSION AND ANALYSIS

#### **FINANCIAL REVIEW**

# **Liquidity and Financial Resources**

The Group maintained a healthy financial position for the year ended 31 March 2015 with cash and cash equivalents amounting to approximately HK\$9 million as at 31 March 2015. The Group did not have any bank borrowing as at 31 March 2015.

As at 31 March 2015, the Group's gearing ratio, being net debt (represented by bank borrowings net of cash and cash equivalents) divided by shareholders' equity, was zero (2014: 17.1%), as the Group did not have any bank borrowing as at 31 March 2015. The Group's current ratio, being total current assets divided by total current liabilities, was approximately 1.4 as at 31 March 2015 (2014: 2.0).

For the year ended 31 March 2015, the Group's bank borrowings were in Hong Kong dollars ("HK\$") and US dollars ("US\$"). The majority of interest-bearing bank borrowings of the Group were on Hong Kong Interbank Offer Rate ("HIBOR") and London Interbank Offer Rate ("LIBOR") basis.

# Foreign Exchange and Risk Management

The Group's working capital is mainly financed through internally generated cash flows. The management of the Group regularly monitors the funding requirements of the Group to support its normal operations and development plans. Most of the Group's cash balances were deposits in US\$ and HK\$ with major global financial institutions and most of the Group's monetary assets, revenues, monetary liabilities and payments were held in US\$ and HK\$.

Foreign exchange risks arising from sales and purchases transacted in different currencies are normally managed by the Group through the use of foreign exchange forward contracts. Pursuant to the Group's policy in place, foreign exchange forward contracts or any other financial derivatives contracts are entered into by the Group for hedging purpose. The Group has not entered into any financial derivatives contracts for speculation. The Group had no outstanding financial derivatives contracts as at 31 March 2015.

# **Capital Expenditure and Commitments**

During the year ended 31 March 2015, the Group disposed of property, plant and equipment through the Disposal that included the manufacturing and trading of garment business, with an aggregate carrying value of approximately HK\$151.9 million. For the Continuing Operation, the Group did not have any material investment in property, plant and equipment in the year ended 31 March 2015. Nevertheless, during the year ended 31 March 2015, the Group invested approximately HK\$10.5 million on additions to property, plant and equipment.

As at 31 March 2015, the Group had no commitment (as at 31 March 2014: Nil) in respect of acquisition of new machineries nor had any other significant capital commitments.

### **Charges on Assets**

As at 31 March 2015, the Group had no pledged assets.

# MANAGEMENT DISCUSSION AND ANALYSIS (Continued)

### **Employee Information**

As at 31 March 2015, the Group employed approximately 20 employees (excluding Directors). The total salaries and related costs of Continuing Operation (excluding Directors' fee) amounted to approximately HK\$9,660,000 for the year ended 31 March 2015. The Group offers its employees competitive remuneration schemes which are generally structured with reference to market terms and individual qualifications. Salaries and wages are normally reviewed annually based on performance appraisals and other relevant factors. In addition, bonuses are normally paid to those eligible based on the Group's and individual's performance.

The Company maintains a share option scheme (the "Share Option Scheme"), pursuant to which share options are granted to selected eligible participants including employees of the Group, with a view to providing those eligible participants with appropriate incentive to contribute to the success of the Group. During the year ended 31 March 2015, all share options with the exercise prices of HK\$0.6 and HK\$0.844 granted under the Share Option Scheme had been exercised in full and there is no outstanding share option.

# CORPORATE GOVERNANCE REPORT

## **CORPORATE GOVERNANCE PRACTICES**

Save for the deviation disclosed below, the Company had complied with all the code provisions ("Code Provisions") under the Corporate Governance Code ("CG Code") contained in Appendix 14 to the Listing Rules throughout the year ended 31 March 2015.

Under Code Provision A.2.1, the roles of chairman and chief executive should be separate and should not be performed by the same individual.

The roles of the chairman and the chief executive officer of the Company were not separate and both were performed by Mr. Choi Lin Hung until 16 August 2014, being the date of change of Board composition, details of which were disclosed in the announcement of the Company dated 18 August 2014. Since the Directors met regularly to consider major matters affecting the operations of the Company, the Directors considered that this structure did not impair the balance of power and authority between the Directors and the management of the Company before the change of Board composition on 16 August 2014.

Since 16 August 2014, Mr. Gao Zhiyin has been appointed as the chairman of the Company and Mr. Gao Zhiping has been appointed as the chief executive officer of the Company.

Therefore, the roles of the chairman and the chief executive officer of the Company are now separate and performed by Mr. Gao Zhiyin and Mr. Gao Zhiping respectively since 16 August 2014. The Board believes that such arrangement is in the best interest of the Company and the Shareholders as a whole.

# MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has established a code of conduct regarding Directors' securities transactions on terms no less exacting than the required standard set out in the Model Code. Having made specific enquiries to the Directors, all Directors confirmed that they had complied with the required standard set out in the Model Code during the year ended 31 March 2015.

### **BOARD OF DIRECTORS**

The Board currently comprises six Directors, including three executive Directors, namely Mr. Gao Zhiyin (chairman), Mr. Gao Zhiping (chief executive officer) and Mr. Shi Jiguo; and three independent non-executive Directors, namely Mr. Lau Chi Kit, Mr. Lam Kai Yeung and Mr. Ma Ming.

The relationship among members of the Board and biographical details of the in this report, Directors who are currently serving on the Board are set out on pages 10 to 12 of this annual report. To the best knowledge of the Company and save as disclosed under section headed "Biographical Details of Directors" in this report, there is no financial, business, family or other material or relevant relationship(s) among members of the Board.

All Directors are subject to retirement by rotation and if eligible, may offer themselves for re-election at the annual general meeting of the Company in accordance with the provisions of the Bye-laws.

The Board collectively monitors performance and the related risks and controls in pursuit of the strategic objectives of the Company. Day-to-day management of the Company is delegated to the executive Directors and senior management of the Company in charge of the Group's business.

To implement the strategies and plans effectively, executive Directors and the management meet on a regular basis to review the performance of the business of the Group, co-ordinate overall resources and make financial and operational decisions.

## **COMPLIANCE WITH LISTING RULES**

The Board discovered that Dr. Chen Yifan, a former independent non-executive Director, did not fulfill the independence criteria under Rule 3.13 of the Listing Rules. Dr. Chen Yifan resigned as an independent non-executive Director with effect from 9 April 2015. Upon his resignation, Dr. Chen Yifan also ceased to be the chairman of the Remuneration Committee and a member of the Audit Committee and the Nomination Committee. Details are set out below:

In its preparation for Acquisition having received legal advice, the Board discovered that Dr. Chen Yifan, who was appointed as an independent non-executive Director on 26 July 2014 (the "Appointment Date"), did not satisfy the independence criteria set out in Rule 3.13 of the Listing Rules for the following reasons:

- (1) From the Appointment Date to 15 December 2014, China TriComm Ltd. ("China TriComm") and Irixi Holding Limited ("Irixi") together held approximately 30.7% of the issued share capital of in Enablence Technologies Inc. ("Enablence"), which is a Canadian company listed on the TSX Venture Exchange (TSX.V:ENA). China TriComm is 100% owned by Unitech, the Company's controlling shareholder held as to 60% and 40% by executive Directors, Mr. Gao Zhipin and Mr. Gao Zhiping, respectively, whilst Irixi was in turn 60% held by China TriComm and 40% by Win Brand Limited ("Win Brand") (an independent third party at the relevant time). Enablence was therefore a core connected person of the Company pursuant to the Listing Rules at the relevant time. Dr. Chen had been and remains the chief executive officer of Enablence. Accordingly, Dr. Chen Yifan did not fulfill the independence requirement under Rule 3.13(7) of the Listing Rules by virtue of him being an executive of a core connected person of the Company. From 15 December 2014 onwards, due to the further issue of shares by Enablence to an independent third party, the interests of China TriComm and Irixi in Enablence fell to below 30%, and Enablence ceased to be a core connected person of the Company thereafter.
- (2) From 6 March 2015 and up to 9 April 2015 (the resignation date of Dr. Chen Yifan), as a result of the issue of shares by Win Brand to Dr. Chen, Dr. Chen became a shareholder of Win Brand holding approximately 66.67% of its issued share capital. Win Brand held a 40% interest in Irixi. As a result, Dr. Chen did not fulfill the independence requirement under Rule 3.13(4) of the Listing Rules by virtue of his material interest in the business activity of or involvement in any material business dealings with Irixi, which was 60% held by Mr. Gao Zhiyin, an executive Director and a controlling Shareholder.

The Board and Dr. Chen Yifan have confirmed that the above non-compliance with Rule 3.13 of the Listing Rules was due to inadvertent oversight and misunderstanding of Rule 3.13 of the Listing Rules. For future appointments of independent non-executive Directors, the Board confirms that it will undertake thorough investigation of the background of the candidate, including its directorships, management roles and shareholdings in other companies, family relationships and the existence of business dealings with the Group and its connected persons, in order to ascertain whether the candidate fulfills the independence criteria under Rule 3.13 of the Listing Rules. Further, the Board will seek legal advice on the requirements of Rule 3.13 of the Listing Rules prior to the appointment as appropriate.

# **COMPLIANCE WITH LISTING RULES (continued)**

Nevertheless, following the resignation of Dr. Chen Yifan as an independent non-executive Director on 9 April 2015, the number of independent non-executive Directors fell below the minimum number as required under Rule 3.10(1) of the Listing Rules and the number of members of the Audit Committee fell short of the requirement under Rule 3.21 of the Listing Rules.

Following the appointment of Mr. Ma Ming as an independent non-executive Director and a member of the Audit Committee on 8 July 2015, the Company has recomplied with the requirements of Rule 3.10(1) and Rule 3.21 of the Listing Rules.

Save for disclosed above, during the year ended 31 March 2015, the Board had complied with the requirements of Rules 3.10(1) and 3.10(2) of the Listing Rules in relation to the appointment of a minimum of three independent non-executive Directors and at least one independent non-executive Director having appropriate professional accounting or financial management experience. Details of the above were also disclosed in the Company's announcements dated 9 April 2015 and 8 July 2015.

# **BOARD MEETINGS**

Apart from the regular board meetings, the Board met on other occasions when a board-level decision on a particular matter was required.

The Board meets regularly to review and determine the corporate strategies and overall strategic policies. Each of the Directors has full access to relevant information at the meetings. The Board has met four times during the year ended 31 March 2015 and conducted the following activities at such regular meetings, among other things:

- (a) approved the interim and annual results, interim and annual reports, and matters to be considered at annual general meeting of the Company;
- (b) reviewed and approved corporate strategies of the Group for the financial year ending 31 March 2015;
- (c) reviewed the connected transactions and continuing connected transactions;
- (d) reviewed the performance and financial position of the Group;
- (e) reviewed, discussed and approved the matters in relation to change of Board composition and Board committees; and
- (f) reviewed, among others, the Agreement and the Acquisition.

### **Corporate Governance Functions**

Pursuant to the Board's terms of reference, the Board shall ensure the effectiveness of the corporate governance and system of internal non-financial controls of the Group. The Board shall introduce and propose relevant principles concerning corporate governance and to review and determine the corporate governance policy, so as to effect high standard of corporate governance practices in the Group. The duties of the Board shall include the following aspects:

- (a) to develop and review the Group's policies and practices on corporate governance;
- (b) to review and monitor the Group's policies and practices on compliance with legal and regulatory requirements;

# **BOARD MEETINGS (continued)**

### **Corporate Governance Functions (continued)**

- (c) to review and approve the annual corporate governance report and related disclosures in annual and interim reports of the Group and ensure compliance with relevant requirements under the Listing Rules or the rules of any other stock exchange in respect of which the securities of the Company are listed or quoted, or other laws, regulations, rules and codes as may be applicable to the Group (the "Applicable Laws");
- (d) to make sure that appropriate monitoring systems are in place to ensure compliance against the relevant internal control systems, processes and policies, and in particular to monitor the implementation of the Group's plans to maintain a high level of compliance with its own risk management standard;
- (e) to monitor if each of the Audit Committee, Remuneration Committee and Nomination Committee (or such other Board committee(s) from time to time established) has duly discharged their respective duties and obligations in accordance with their respective terms of reference, the Listing Rules and any Applicable Laws; and
- (f) to review the Group's compliance with the CG Code from time to time adopted by the Group and the disclosure in the corporate governance report to be contained in the Company's annual reports.

#### **Chairman and Chief Executive**

Code Provision A.2.1 stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual.

The roles of the chairman and the chief executive officer of the Company were not separate and both were performed by Mr. Choi Lin Hung until 16 August 2014, being the date of change of Board composition, details of which were disclosed in the announcement of the Company dated 18 August 2014. Since the Directors met regularly to consider major matters affecting the operations of the Company, the Directors considered that this structure did not impair the balance of power and authority between the Directors and the management of the Company before the change of Board composition on 16 August 2014.

Since 16 August 2014, Mr. Gao Zhiyin has been appointed as the chairman of the Company and Mr. Gao Zhiping has been appointed as the chief executive officer of the Company.

Therefore, the roles of the chairman and the chief executive officer of the Company are now separate and performed by Mr. Gao Zhiyin and Mr. Gao Zhiping respectively since 16 August 2014. The Board believes that such arrangement is in the best interest of the Company and the Shareholders as a whole.

#### Terms of appointment of independent non-executive Directors

Each of newly appointed and reappointed independent non-executive Directors has entered into an appointment letter with the Company for a fixed term of three years. The term of each of the independent non-executive Directors shall be renewable for successive terms of three years each, subject to retirement by rotation and re-election at the annual general meeting ("AGM") pursuant to its Bye-laws unless terminated by not less than one month's notice in writing.

# **BOARD MEETINGS (continued)**

#### Terms of appointment of independent non-executive Directors (continued)

Save as disclosed in the section headed "Compliance with Listing Rules" on pages 26-27 in this report, during the year under review, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors with at least one independent non-executive Director possessing appropriate professional qualifications, or accounting or related financial management expertise.

Each of existing independent non-executive Directors namely Mr. Lau Chi Kit and Mr. Lam Kai Yeung has made an annual confirmation of independence and Mr. Ma Ming, who was appointed on 8 July 2015, has made a confirmation of independence to the Company. Based on the contents of such confirmation, the Company considers that the existing independent non-executive Directors are independent and that they all meet the specific independence guideline as set out in Rule 3.13 of the Listing Rules.

#### **BOARD COMMITTEES**

The Board has established three Board committees including the Nomination Committee, the Remuneration Committee and the Audit Committee (collectively, the "Board Committees"). Details of the change of Board Committees are set out on pages 6 to 7, headed "Change in Composition of the Board and Board Committees" of this annual report.

The Board has delegated some of its functions to the Board Committees, details of which are discuss below.

#### **Nomination Committee**

The Nomination Committee currently comprises one executive Director, namely Mr. Gao Zhiyin (chairman) and two independent non-executive Directors, namely Mr. Lau Chi Kit and Mr. Lam Kai Yeung. It was established on 19 March 2012 and its duties are clearly defined in its written terms of reference which have been prepared and adopted according to the Code Provisions. The terms of reference of Nomination Committee can be found in the websites of the Stock Exchange and the Company.

The duties of the Nomination Committee are, but not limited to, to review, formulate and consider the nomination procedures as regards the appointment, reappointment and removal of Directors and to make recommendations to the Board regarding candidates to fill vacancies on the Board. No director takes part in any discussions and decisions about his own appointment.

Proposals for the appointment of a new director, if any, will be considered and reviewed by the Nomination Committee prior to recommending them to the Board for approval. All candidates to be selected and qualified to be members of the Board must also meet the standards as set forth in Rules 3.08 and 3.09 of the Listing Rules. A candidate who is to be appointed as an independent non-executive Director should also meet the independence criteria set out in Rule 3.13 of the Listing Rules. The Board will also seek legal advice on the requirements of Rule 3.13 of the Listing Rules prior to the appointment of any independent non-executive Director as appropriate.

Two meetings of the Nomination Committee were held during the year ended 31 March 2015 (with individual member's attendance as set out on page 32 under the section of "Number of Meetings and Directors' Attendance" of this report).

The Nomination Committee conducted the following duties during the year ended 31 March 2015, among other things:

- reviewed the size, structure and the composition of the Board;
- reviewed the independence of independent non-executive Directors;
- made recommendations to the Board on the nomination of Directors for re-election at the annual general meeting; and
- made recommendations to the Board on the nomination and appointment of new Directors.

# **BOARD COMMITTEES (continued)**

#### **Remuneration Committee**

The Remuneration Committee currently comprises two independent non-executive Directors, namely Mr. Lam Kai Yeung (chairman) and Mr. Lau Chi Kit and one executive Director, namely Mr. Gao Zhiyin. It was established by the Board on 8 September 2010 and its duties are clearly defined in its written terms of reference which have been prepared and adopted according to the Code Provisions. The terms of reference of Remuneration Committee can be found in the websites of the Stock Exchange and the Company.

The Remuneration Committee is primarily responsible for making recommendations to the Board regarding the Group's policy and structure for remuneration of Directors and senior management and determining the specific remuneration packages of individual Director and senior management of the Company. The remuneration of Directors is determined with reference to duties and responsibilities of the role, experience and the prevailing market conditions.

Two meetings of the Remuneration Committee were held during the year ended 31 March 2015 (with individual member's attendance as set out on page 32 of this annual report under the section of "Number of Meetings and Directors' Attendance") and conducted the following activities:

- reviewed the appropriateness of service contracts of executive Directors and appointment letters of independent nonexecutive Directors; and
- made recommendations to the Board on the remuneration packages of newly appointed Directors.

No Director took part in any discussions and decisions about his own remuneration during financial year ended 31 March 2015.

Pursuant to Code Provision B.1.5, a company should disclose details of any remuneration payable to members of the senior management by band for the year ended 31 March 2015 in its annual report. In the opinion of the reorganized Board, the Company has no senior management after completion of the Disposal and up to the date of this annual report and no members of senior management would be included in this annual report.

# **BOARD COMMITTEES (continued)**

#### **Audit Committee**

The Audit Committee currently comprises three independent non-executive directors, namely Mr. Lam Kai Yeung (chairman), Mr. Lau Chi Kit and Mr. Ma Ming. It was established by the Board on 8 September 2010 and its duties are clearly defined in its written terms of reference which have been prepared and adopted according to the Code Provisions. The terms of reference of Audit Committee can be found in the websites of the Stock Exchange and the Company.

The Audit Committee provides an important link between the Board and the Company's auditor in matters coming within the scope of the Group's audit. It also reviews the interim and annual results of the Company prior to recommending them to the Board for approval, the effectiveness of the external and internal audit and of internal controls and risk evaluation.

During the year ended 31 March 2015, the Audit Committee convened two meetings (with individual member's attendance as set out on page 32 of this report under the section of "Number of meetings and directors' attendance") and conducted the following activities:

- (a) reviewed the independence of the external auditors and engagement of external auditors;
- (b) reviewed the interim and annual result announcements, interim and annual reports of the Company together with the external auditors and management of the Company and related results announcements;
- (c) reviewed with external auditors the internal controls and financial matters of the Group in pursuance of the written terms of reference:
- (d) discussion of audit findings with external auditor; and
- (e) reviewed and approved the Group's continuing connected transactions.

There was no disagreement between the Board's and the Audit Committee's view on the selection and appointment of the external auditor.

The Audit Committee has reviewed the audited results of the Group for the year ended 31 March 2015 with the management and the Company's external auditor and recommended its adoption by the Board.

# **NUMBER OF MEETINGS AND DIRECTORS' ATTENDANCE**

Attendance records of the Directors at Board Meetings (BM), Audit Committee Meetings (ACM), Remuneration Committee Meetings (RCM), Nomination Committee Meetings (NCM), Annual General Meeting (AGM) and Special General Meeting (SGM) held for the year ended 31 March 2015 are set out below:

note: Mr. Ma Ming was appointed as an independent non-executive Director and a member of the Audit Committee on 8 July 2015.

## **DIRECTORS' AND OFFICERS' INSURANCE**

The Company has arranged appropriate insurance cover in respect of potential legal actions against the Directors and its officers.

# DIRECTORS' INDUCTION & CONTINUOUS PROFESSIONAL DEVELOPMENT

Every newly appointed Director receives a comprehensive induction package to ensure that he has a proper understanding of the operations, business and governance policies of the Group. In addition, our external legal adviser conducts training for new Directors so that they are aware of the responsibilities and obligations as a director under the Listing Rules, applicable legal requirements and other regulatory requirements.

Pursuant to Code Provision A.6.5, all directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. During the year ended 31 March 2015, the Directors (excluding outgoing Directors) participated in continuous professional development by reading materials which were provided by the company secretary of the Company on the topic related to "the change of risk management and internal control in corporate governance report" as follows:

|   | Reading materials |

### SHAREHOLDERS' RIGHTS

#### Convening a special general meeting on requisition

- 1.1 Shareholders have the right to call for a special general meeting on requisition in the manner prescribed by and set out in the Bye-laws and the Companies Act.
- 1.2 Bye-law 65 provides that "The Directors may, whenever they think fit, convene a special general meeting, and special general meetings shall also be convened on requisition, as provided by the Companies Act, and, in default, may be convened by the requisitionists."
- 1.3 Pursuant to section 74 of the Companies Act, Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company (the "General Meeting Requisitionists") may by written requisition (the "General Meeting Requisition") to the Board or the secretary of the Company (the "Company Secretary"), require a special general meeting to be called by the Board for the transaction of any business specified in such requisition.
- 1.4 The General Meeting Requisition must state the purpose of the meeting, and must be signed by the General Meeting Requisitionists; the General Meeting Requisition may consist of several documents in like form each signed by one or more General Meeting Requisitionists.
- 1.5 The General Meeting Requisition shall be deposited at the registered office of the Company at Clarendon House, 2 Church Street, Hamilton HM 11, Bermuda and copied to the head office and principal place of business of the Company at Rooms 4114 4119, 41st Floor, Sun Hung Kai Centre, No. 30 Harbour Road, Wanchai, Hong Kong and marked for the attention of the Board or the Company Secretary.
- 1.6 If the Board fails to proceed to convene such meeting within 21 days from the date of the deposit of General Meeting Requisition as set out in the paragraph 1.2 above, the General Meeting Requisitionists, or any of them representing more than one half of their total voting rights, may themselves convene a meeting, but any meeting so convened shall not be held after the expiration of three months from the date of the deposit of the General Meeting Requisition.
- 1.7 Any reasonable expenses incurred by the General Meeting Requisitionists by reason of the failure of the Directors to duly convene a meeting shall be repaid to the General Meeting Requisitionists by the Company.

### INDEPENDENT AUDITOR'S REPORT

# Deloitte. 德勤

#### TO THE MEMBERS OF HIGHLIGHT CHINA IOT INTERNATIONAL LIMITED

高鋭中國物聯網國際有限公司

(FORMERLY KNOWN AS FORD GLORY GROUP HOLDINGS LIMITED 福源集團控股有限公司)

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Highlight China IoT International Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 39 to 108, which comprise the consolidated statement of financial position as at 31 March 2015, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

# DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Company's immediate and ultimate holding company is Unitech, a company incorporated in the British Virgin Islands (the "BVI") with limited liability, since 22 July 2014. Unitech was owned as to 60% by Mr. Gao Zhiyin and owned as to 40% by Mr. Gao Zhiping. Prior to this date, the Company's ultimate holding company was Victory City International Holdings Limited ("VC"), a company incorporated in Bermuda as an exempted company with limited liability under The Companies Act 1981 of Bermuda (as amended) and its shares are listed on the Stock Exchange, and the Company's immediate holding company was Sure Strategy Limited, a company incorporated in the BVI with limited liability.

The functional currency of the Company is United States dollars ("US\$"). The consolidated financial statements are presented in Hong Kong dollars ("HK\$") because the Company's shares are listed on the Stock Exchange and most of its potential investors are located in Hong Kong.

# 2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

The Group has applied the following amendments to HKFRSs and a new Interpretation issued by the HKICPA for the first time in the current year.

Amendments to HKFRS 10, Investment Entities

HKFRS 12 and HKAS 27

Amendments to HKAS 32 Offsetting Financial Assets and Financial Liabilities

Amendments to HKAS 36 Recoverable Amount Disclosures for Non-Financial Assets

Amendments to HKAS 39 Novation of Derivatives and Continuation of Hedge Accounting

HK(IFRIC) – Int 21 Levies

The application of the amendments to HKFRSs and the new interpretation in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

For the year ended 31 March 2015

# 2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (continued)

#### New and revised HKFRSs issued but not yet effective

The Group has not early applied the following new and revised HKFRSs that have been issued but not yet effective:

Amendments to HKFRSs Annual Improvements to HKFRSs 2011 – 2013 Cycle<sup>1</sup>

Amendments to HKFRSs 2012 – 2014 Cycle<sup>3</sup>

- Effective for annual periods beginning on or after 1 July 2014, with earlier application permitted.
- <sup>2</sup> Effective for annual periods beginning on or after 1 July 2014, with limited exceptions. Earlier application is permitted.
- Effective for annual periods beginning on or after 1 January 2016, with earlier application permitted.
- Effective for annual periods beginning on or after 1 January 2017, with earlier application permitted.
- 5 Effective for annual periods beginning on or after 1 January 2018, with earlier application permitted.

The directors of the Company anticipate that the application of the new and revised HKFRSs will have no material impact on the consolidated financial statements.

For the year ended 31 March 2015

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 "Shares based payment", leasing transactions that are within the scope of HKAS 17 "Leasing", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 "Inventories" or value in use in HKAS 36 "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received, including losses indemnify by buyers, and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/ permitted by applicable HKFRSs).

#### **Business combinations**

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 "Income Taxes" and HKAS 19 "Employee Benefits" respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 "Share-based Payment" at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" are measured in accordance with that Standard.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Business combinations (continued)**

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

#### Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less any accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating unit ("CGU") (or group of CGUs), that is expected to benefit from the synergies of the combination.

A CGU to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the CGU to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the CGU is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit pro rata on the basis of the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant CGU, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Investment in a joint venture

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, an investment in a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. When the Group's share of losses of joint venture exceeds the Group's interest in that joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture.

An investment in a joint venture is accounted for using the equity method from the date on which the investee becomes a joint venture. On acquisition of the investment in a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Service income and subcontracting income are recognised when services are provided.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

For the year ended 31 March 2015

### 3. **SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The Group as lessor

Rental income from operating leases is recognised in the profit or loss on a straight-line basis over the term of the relevant lease.

#### The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease.

#### Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating lease, in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is released over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Property, plant and equipment

Property, plant and equipment including leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes (other than construction in progress as described below) are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment other than construction in progress less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

### **Intangible asset**

#### Intangible asset acquired separately

Intangible asset with indefinite useful life that is acquired separately is carried at cost less subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

#### **Derecognition of intangible assets**

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss in the period when the asset is derecognised.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Impairment losses on tangible and intangible assets other than goodwill

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the CGU to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGUs, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or a CGU) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a CGU) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

#### Impairment losses on disposal group

The Group recognises an impairment loss for any initial or subsequent write-down of the disposal group to fair value less costs to sell, to the extent that it has not been recognised.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's entities are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of foreign currency translation reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

#### **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Retirement benefit costs

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the consolidated statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in accumulated profits and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement.

The Group presents the first two components of defined benefit costs in profit or loss. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the consolidated statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

#### **Share-based payment transactions**

#### **Equity-settled share-based payment transactions**

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share based transactions are set out in Note 31.

The fair value of services received determined by reference to the fair value of share options granted is expensed in full at the grant date when the share options vested immediately or on a straight-line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At the end of each reporting period, the Group revises its estimate of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share option reserve.

For share options that vest immediately at the date of grant, the fair value of the share options granted is expensed immediately to profit or loss.

When share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will be transferred to accumulated profits.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

#### **Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from '(loss) profit before taxation' as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

#### **Deferred tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and interest in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interest are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

#### Current and deferred tax for the year

Current and deferred tax is recognised in profit or loss.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

#### **Financial assets**

Financial assets are classified as financial assets at FVTPL and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL.

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Financial instruments (continued)**

#### Financial assets (continued)

#### Financial assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

The Group's financial assets classified as financial assets at FVTPL are derivatives that are not designated as hedging instruments.

Financial assets at FVTPL are measured at fair value, with any gains or losses arising from remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial assets and is included in the "other gains and losses" line item from Discontinued Operations as disclosed in Note 11. Fair value is determined in the manner described in Note 6.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and bills receivables, other receivables and bank balances and cash) are carried at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

For the year ended 31 March 2015

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Financial instruments (continued)**

#### Financial assets (continued)

#### Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments and observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss. Changes in the carrying amount of the allowance account are recognised in profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Financial instruments (continued)**

#### Financial liabilities and equity instruments

#### Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### Financial liabilities

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

#### Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liabilities are either held for trading or designated at FVTPL on initial recognition.

A financial liability is classified as held for trading if:

- it has been acquired principally for the purpose of repurchasing in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

The Group's financial liabilities classified as financial liabilities at FVTPL are derivatives that are not designated as hedging instruments.

Financial liabilities at FVTPL are measured at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss includes any interest paid on the financial liabilities and is included in the "other gains and losses" line item from discontinued operations as disclosed in Note 11. Fair value is determined in the manner described in Note 6.

#### Other financial liabilities

Other financial liabilities including trade and bills payables, other payables, amount(s) due to the immediate holding company/a former subsidiary/related companies and bank borrowings are subsequently measured at amortised cost using the effective interest method.

### 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Financial instruments (continued)**

#### Financial liabilities and equity instruments (continued)

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

#### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

#### **Derivative financial instruments**

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately.

#### **Derecognition**

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

For the year ended 31 March 2015

#### 4. KEY SOURCES OF ESTIMATION UNCERTAINTY

Key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities recognised in the consolidated financial statements within the next financial year, are discussed below.

#### Impairment loss of trade receivables

The assessment of the impairment loss on trade receivables of the Group is based on the evaluation of collectability and aging analysis of accounts and on management's judgment. A considerable amount of judgment is required in assessing the ultimate realisation of these receivables, including the current creditworthiness of each customer. If the financial conditions of the Group's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. Impairment is made based on the estimation of the future cash flow discounted at the original effective rate to calculate the present value. At 31 March 2015, the carrying amount of trade and bills receivables was HK\$83,311,000 (2014: HK\$116,800,000, net of allowance for doubtful debts of HK\$878,000).

#### Write-down of inventories

Management reviews the inventories at the end of each reporting period, and write-down obsolete and slow-moving inventory items identified that are no longer suitable for use in operation. Allowance was made by reference to the latest market value for those inventories identified. Where the net realisable value is less than expected, a material write down may arise. At 31 March 2015, the carrying amount of inventories was HK\$3,809,000 (2014: HK\$180,593,000).

#### **Income taxes**

Deferred tax asset in relation to unused tax losses of approximately HK\$6,251,000 (2014: HK\$45,687,000) was not recognised in the consolidated statement of financial position due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the expectation for future profit streams changes, recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such change takes place.

For the year ended 31 March 2015

#### 5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that the entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt, which includes bank borrowings disclosed in Note 28, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, reserves and accumulated profits.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors of the Company consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues, and share buy-backs as well as the issue of new debt or the redemption of existing debts.

#### (b) Financial risk management objectives and policies

The Group's major financial instruments include trade and bills receivables, other receivables, derivative financial instruments, bank balances and cash, trade and bills payables, amounts due to the immediate holding company/ a former subsidiary/related companies and bank borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### **Market risk**

#### (i) Currency risk

Several subsidiaries of the Company have foreign currency sales, purchases and bank balances and cash, which expose the Group to risk due to changes in foreign exchange rates. The Group entered into structured currency forward contracts in 2014 to cover the anticipated foreign currency exposures. These contracts were arranged mainly to hedge the currency fluctuation of Renminbi ("RMB") against US\$, which is the functional currency of the relevant group entities.

At the end of the reporting period, the Group is exposed to foreign currency risk arising from the Group's monetary assets and monetary liabilities that are denominated in currencies other than the functional currency of the relevant group entities are as follows:

|                         | Liabi    | lities   | Assets   |          |  |

During the year ended 31 March 2014, the Group was also exposed to foreign currency risk arising from intercompany balances denominated in currencies other than the functional currencies of the relevant group entities. The sensitivity analysis of the balances is disclosed below.

Sensitivity analysis

At 31 March 2015, the Group was mainly exposed to foreign currency risk of RMB (2014: HK\$, RMB, JOD and IDR).

The following table detailed the Group's sensitivity to increase and decrease in functional currency of the relevant group entities against the relevant foreign currencies by 5%, and vice versa. A positive number below indicated an increase in Group's profit where functional currency strengthens by 5% against foreign currencies. If functional currency weaken by 5% against foreign currencies, there would be an equal and opposite impact on the profit or loss of the Group. 5% was the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis included only outstanding foreign currency denominated monetary items and adjusts their translation at year end for a 5% change in foreign currency rates. The sensitivity analysis included intercompany balances where the denomination of the amount was in a currency other than the functional currency of the relevant group entities. On this basis, there would be a decrease/increase in post-tax profit as follow, where the functional currency of the relevant group entities weaken against the foreign currencies by 5%, and vice versa.

|                | 2015<br>HK\$'000 | 2014<br>HK\$'000 |
|----------------|------------------|------------------|
| Profit or loss | 265              | 2,570            |

At 31 March 2014, as set out in Note 24, the Group had outstanding structured foreign currency forward contracts which also exposed the Group to currency fluctuation risks.

For the structured currency forward contracts outstanding at 31 March 2014, if US\$ was strengthened against RMB by 5%, the profit for the year ended 31 March 2014 would decrease by HK\$32,276,000; if US\$ was weakened against RMB by 5%, the profit for the year ended 31 March 2014 would increase by HK\$1,867,000.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure in last year.

#### (b) Financial risk management objectives and policies (continued)

#### Market risk (continued)

#### (ii) Interest rate risk

The Group is exposed to cash flow interest rate risk due to the fluctuation of the prevailing market interest rates on its bank balances and floating rate bank borrowings. Most of the Group's bank borrowings carry interest based on Hong Kong Interbank Offer Rate ("HIBOR") or London Interbank Offer Rate ("LIBOR") plus a spread. The management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

#### Sensitivity analysis

In the opinion of the directors, no sensitivity analysis is prepared for the interest rate risk for variable-rate bank balances since the impact to the Group's results is not significant.

The sensitivity analyses below have been determined based on the exposure to floating rate of bank borrowings as at 31 March 2014. The analysis is prepared assuming the amount of bank borrowings outstanding at the end of the reporting period date was outstanding for the whole year. A 25 basis point increase or decrease in interest rate is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points higher/lower and all other variables were held constant, the Group's profit for the year ended 31 March 2014 would decrease/increase by HK\$232,000.

#### **Credit risk**

As at 31 March 2015, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise its credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

At 31 March 2015, the Group had a concentration of credit risk as the top five trade debtors accounted for approximately 96% (2014: 41%) of its total trade debt balance. In view of this, senior management members regularly visit these customers to understand their business operations and cash flows position. In this regard, management considers that this credit concentration risk has been significantly mitigated.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

#### Liquidity risk

In management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

In addition, the following table details the Group's liquidity analysis for its derivative financial liabilities as at 31 March 2014. The table has been drawn up based on the undiscounted contractual net cash (inflows) and outflows on derivative liabilities that settle on a net basis. The liquidity analysis for the Group's derivative financial liabilities are prepared based on the contractual maturities as the management considers that the contractual maturities are essential for an understanding of the timing of the cash flows of derivatives.

Bank borrowings with a repayment on demand clause are included in the "on demand or less than 1 month" time band in the above maturity analysis. As at 31 March 2014, the aggregate carrying amounts of these bank borrowings amounted to approximately HK\$111,206,000. Taking into account the Group's financial position, the directors did not believe that it is probable that the banks would exercise their discretionary rights to demand immediate repayment. The directors believed that such bank borrowings would be fully repaid in accordance with the scheduled repayment dates set out in the loan agreements. However, in accordance with Hong Kong Interpretation 5 Presentation of Financial Statements Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause, all such bank loans had been classified as current liabilities.

The following table discloses the maturity analysis in accordance with scheduled repayment dates set out in the facility letters.

# 6. FINANCIAL INSTRUMENTS (continued)

### (c) Fair value

This note provides information about how the Group determines fair value of derivative financial instruments.

### Fair value of financial instruments that are measured at fair value on a recurring basis

The Group's derivative financial instruments are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

| Financial assets/        | Fair va       | Fair value as at          |           | Valuation technique(s)                  |
|--------------------------|---------------|---------------------------|-----------|---|

| currency contracts       |               | Liabilities – HK\$306,000 |           |   |
| classified as derivative |               | (Both not designated      |           | The key input is the average            |
| financial instruments    |               | for hedging)              |           | implied volatility of the exchange rate |
|                          |               |                           |           | as at valuation date.                   |

note: The higher the average implied volatility of the exchange rate used, the lower the fair value. If the average implied volatility of the exchange rate is increased/ decreased by 5% and held other variables constant, the Group's pretax profit for the year ended 31 March 2014 would have been decreased/ increased by HK\$266,000/HK\$251,000 respectively. Due to the terms of the contracts, changes in the inputs adopted in the valuation model would lead to asymmetric changes in the fair values.

There were no transfers among the different levels of the fair value hierarchy for both years.

# 7. REVENUE

The Group's revenue for the year from continuing operation represents the amounts received and receivables for sourcing of garment products, less sales returns and allowances.

Structured

For the year ended 31 March 2015

### 8. SEGMENT INFORMATION

The Group was involved in (i) garment trading business (trading and sourcing) and (ii) garment manufacturing business, which were included in the operating segment of "Segment A" and "Segment B" as defined in the Group's last year's consolidated financial statements under HKFRS 8.

Following the completion of disposal of subsidiaries as detailed in Note 11, the Group derives all its revenue from the garment sourcing business. The chief operating decision maker monitors the revenue, result, assets and liabilities of the garment sourcing business as a whole based on the monthly management accounts which are substantially in conformity with HKFRSs and considers the segment revenue and segment result of the Group represented revenue and profit for the year for continuing operation as stated in the consolidated statement of profit or loss and other comprehensive income respectively. Accordingly, no further segment information is presented.

### **Geographical information**

The Group's operation is mainly located in Hong Kong and the United States of America ("USA").

During each of the two years ended 31 March 2015, (i) no emoluments were paid by the Group to the directors or the five highest paid individuals as an inducement to join or upon joining the Group or as compensation for loss of office and (ii) none of the directors waived any emoluments.

# 11. DISCONTINUED OPERATIONS/DISPOSAL OF SUBSIDIARIES

On 14 March 2014, the Company and Sure Strategy entered into a conditional disposal agreement for the disposal of its garment manufacturing and trading business (the "Disposal") (the "Disposal Agreement").

Sure Strategy was the Company's former immediate holding company. Sure Strategy was then owned as to 49% by Merlotte Enterprise Limited (a company incorporated in the BVI and is wholly-owned by Mr. Choi Lin Hung, who was a former director of the Company and one of the Company's ultimate beneficial shareholders before the Disposal) and as to 51% by Victory City Investments Limited, a company incorporated in the BVI with limited liability and a wholly-owned subsidiary of VC.

# 11. DISCONTINUED OPERATIONS/DISPOSAL OF SUBSIDIARIES (continued)

According to the Disposal Agreement, Sure Strategy agreed to purchase, and the Company agreed to sell the entire issued share capital of Ford Glory Holdings Limited (a wholly-owned subsidiary of the Company and an investment holding company prior to the Disposal), which, together with its subsidiaries held the garment manufacturing and trading business at a cash consideration of HK\$270,000,000 and a tax indemnity and a tax indemnity from Sure Strategy in which Sure Strategy would fully indemnify the Group in respect of tax liability resulting from the Disposal of any amount that exceeds HK\$1,200,000. The Disposal was approved by the Shareholders at the SGM and the Disposal was completed on 22 July 2014, on which date the control of Ford Glory Holdings Limited was passed to Sure Strategy.

The Group ceased the garment manufacturing and trading business ("Discontinued Operations") upon the completion of Disposal. Accordingly, the results of garment manufacturing and trading business for the year have been separately presented as Discontinued Operations in the consolidated statement of profit or loss and other comprehensive income. The presentation of comparative financial information for the year ended 31 March 2014 has been restated to conform to current year's presentation.

The loss from the Discontinued Operations for the year is analysed as follows:

| purposes of diluted (loss) earnings per share   | 508,437,671      | 487,024,966      |

### From continuing operation

The calculation of the basic and diluted (loss) earnings per share from continuing operations attributable to the owners of the Company is based on the following data:

Earnings figures are calculated as follows:

|  | 2015     | 2014     |
|--|----------|----------|
|  | HK\$'000 | HK\$'000 |
| (Loss) profit for the year attributable to owners of the Company Less: (loss) profit for the year from Discontinued Operations | (6,833)  | 18,961   |
| attributable to owners of the Company  | (5,477)  | 12,355   |
| (Loss) earnings for the purpose of basic and diluted (loss) earnings per share from continuing operation                       | (1,356)  | 6,606    |

The computation of diluted loss per share does not assume the conversion of the Company's share options since their exercise would result in a decrease in loss per share from continuing operation.

For the purposes of impairment testing, goodwill was allocated to a group of CGUs, which are included in the garment manufacturing and trading business. The segment represents the lowest level within the Group at which the goodwill is monitored for internal management purposes.

At 31 March 2014, the recoverable amount of these units was determined based on a value in use calculation. That calculation used cash flow projections based on financial budgets approved by management covering a 5-year period, and a discount rate of 10%. The cash flows beyond the 5-year period were extrapolated using zero growth rate. The key assumptions for the value in use calculations related to the estimation of cash inflows/outflows which included budgeted sales and gross margin, such estimation is based on the unit's past performance and management's expectations for the market development. Management believed that any reasonably possible change in any of these assumptions would not cause the carrying amount to exceed the recoverable amount.

# 17. INTANGIBLE ASSET (continued)

The intangible asset represents a trademark acquired. While the trademark has a registered life of 7 years, the directors are of the opinion that it can be renewed at minimal cost upon expiration of its registration and practically has indefinite useful life. Accordingly, no amortisation is recognised on the trademark while impairment testing will be performed at lease annually.

The trademark has been allocated to a cash-generating unit under the garment manufacturing and trading business. During the year ended 31 March 2015, the management determined that the intangible asset is fully impaired, an impairment loss of HK\$1,000,000 is recognised in the profit or loss.

# 18. INTEREST IN A JOINT VENTURE

|  | 2015     | 2014     |

The joint venture is inactive and has insignificant assets and liabilities. The Group has discontinued recognition of its share of losses in prior years. The amounts of income, expenses and unrecognised share of the joint venture, both for the year and cumulatively, are insignificant.

During the year ended 31 March 2015, the interest in a joint venture is disposed of through the disposal of subsidiaries as detailed in Note 11.

At the end of the reporting period, the Group had unused tax losses of HK\$6,251,000 (2014: HK\$45,687,000) available for offset against future profits. No deferred tax asset has been recognised in relation to such losses due to the unpredictability of future profit streams (2014: Nil). Such unused tax losses may be carried forward indefinitely.

Under the Enterprise Income Tax Law of the PRC withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred taxation has been fully provided for in respect of the undistributed profits from these PRC subsidiaries in the consolidated financial statements.

# 21. TRADE AND BILLS RECEIVABLES (continued)

Before accepting any new customer, the Group assesses and understands the potential customer's credit quality. Management reviews each customers credit quality regularly. All trade receivables that are neither past due nor impaired have good credit quality after taking into account the repayment history of the trade customers. The Group has not identified any credit risk on these trade receivables.

Included in the Group's trade receivable balance are debtors with an aggregate carrying amount of approximately HK\$7,707,000 (2014: HK\$6,895,000) which were past due at the reporting date but for which the Group has not provided for impairment loss.

### Ageing of trade receivables which are past due but not impaired

|               | 2015     | 2014     |

| Over 120 days | 7,707    | 6,895    |

The Group did not hold any collateral against the above amounts. However, management believes that these amounts are still recoverable because there has not been an adverse change in the relevant entities' credit quality. The Group has assessed the credit quality of the trade receivables by using internal assessment, taking into account the repayment history and financial background of the trade customers and has not identified any credit risk on these trade receivables.

The Group has provided fully for all receivables over 365 days because historical experience is such that receivables that are past due beyond 365 days are generally not recoverable.

### 22. TRANSFER OF FINANCIAL ASSETS

The following were the Group's bills receivables as at 31 March 2014 that were transferred to banks by discounting those bills receivables on a full recourse basis. As the Group had not transferred the significant risks and rewards relating to these bills receivables, it continued to recognise the full carrying amount of the bills receivables and had recognised the cash received on the transfer as an unsecured borrowing (see Note 28). These financial assets were carried at amortised cost in the Group's consolidated statement of financial position.

During the year ended 31 March 2014, the Group discounted bills receivables with recourse in aggregated amounts of HK\$32,581,000 to banks for short term financing. In the opinion of the directors, the receipts from the bills discounting were in substance from trade customers and were presented as operating cash flow in the consolidated statement of cash flows.

The Group entered into certain contracts with financial institutions to hedge against an increase in RMB/US\$ exchange rate for certain agreed periods of time. The Group and the respective financial institutions would settle on a net basis with reference to the fluctuation of the RMB/US\$ exchange rate against the pre-determined exchange rate on a monthly basis over the contract periods. Certain of these contracts included knock-out provision whereby the contracts would automatically be terminated in certain scenarios.

The fair values of the structured currency forward contracts were determined by using the Monte Carlo Simulation Method.

### 30. RETIREMENT BENEFIT PLANS

### (i) Defined contribution plan

The Group has operated a defined contribution retirement benefit scheme for all qualifying employees in Hong Kong since 1 April 1995. The assets of the scheme are held separately from those of the Group in a provident fund managed by an independent trustee. The retirement benefits scheme contributions represent contributions payable to the fund by the Group at rates specified in the rules of the scheme. Where there are employees who leave the scheme prior to vesting fully in the contributions, the contributions payable by the Group are reduced by the amount of forfeited contributions. According to the Mandatory Provident Fund ("MPF") legislation regulated by the Mandatory Provident Fund Schemes Authority in Hong Kong, with effect from 1 December 2000, the Group is also required to participate in a MPF scheme operated by approved trustees in Hong Kong and to make contributions for its eligible employees. The contributions borne by the Group are calculated at 5% of the salaries and wages (monthly contribution is limited to 5% of HK\$30,000 (2014: HK\$25,000) for each eligible employee) as calculated under the MPF legislation.

For the year ended 31 March 2015

# 30. RETIREMENT BENEFIT PLANS (continued)

### (i) Defined contribution plan (continued)

Both the defined contribution retirement benefits scheme and the MPF scheme co-existed within the Group in both years.

As at 31 March 2015 and 2014, there were no forfeited contributions available to offset future employers' contributions to the scheme.

The Company's subsidiaries in the PRC were members of the state-managed retirement benefits scheme operated by the government of the PRC. The retirement scheme contributions, which were based on certain percentage of the salaries of the relevant subsidiaries' employees, were charged to the statement of profit or loss and other comprehensive income in the period to which they related and represented the amount of contributions payable by these subsidiaries to the scheme.

In addition, certain overseas subsidiaries of the Company are required to contribute amounts based on employees' salaries to the retirement benefit schemes as stipulated by relevant local authorities. The employees are entitled to these subsidiaries' contributions subject to the regulations of the relevant local authorities.

### (ii) Defined benefit plan

The Company's subsidiary incorporated in Indonesia, which was disposed of as at 22 July 2014 as set out in Note 11, had a defined benefit pension plan (the "Plan") for qualifying employees who were recruited by the subsidiary. The defined benefit pension plan required contributions to be made to separately administered funds.

Under the Plan, the employees were entitled to retirement benefits varying between nil and 100 per cent of final salary on attainment of a retirement age of 55. No other post-retirement benefits were provided to these employees.

The Plan in Indonesia exposed the Group to actuarial risks such as interest rate risk and salary risk.

Interest risk A decrease in the bond interest rate would increase the plan liability; however, this would

be partially offset by an increase in the return on the Plan's debt investments.

Salary risk The present value of the defined benefit plan liability was calculated by reference to

the future salaries of plan participants. As such, an increase in the salary of the Plan

participants would increase the Plan's liability.

The most recent actuarial valuations of the present value of the defined benefit obligation were carried out at 31 March 2014 by Padma Radya Aktuaria, Fellow of the Society of Actuaries of Indonesia. The present value of the defined benefit obligation, the related current service cost and past service cost, were measured using the projected unit credit method.

# 30. RETIREMENT BENEFIT PLANS (continued)

### (ii) Defined benefit plan (continued)

The remeasurement of the net defined benefit liability is included in other comprehensive income.

The amount included in the consolidated statement of financial position arising from the Group's obligations in respect of its defined benefit pension plans is as follows:

|  | 2015     | 2014     |
|--|----------|----------|
|  | HK\$'000 | HK\$'000 |
|  |          |          |
| Present value of defined benefit obligations | -        | 1,494    |

Movements in the present value of the defined benefit obligations in the current year were as follows:

|  | 2015     | 2014     |
|--|----------|----------|
|  | HK\$'000 | HK\$'000 |
|  |          |          |
| Defined benefit obligations at beginning of the year             | 1,494    | 1,841    |
| Current service cost   | 69       | 358      |
| Interest cost  | 116      | 86       |
| Actuarial gains arising from changes in financial assumptions    | -        | (701)    |
| Actuarial (gains) and losses arising from experience adjustments | (175)    | 189      |
| Exchange difference  | (50)     | (279)    |
| Disposal of subsidiaries (Note 11)                               | (1,454)  | -        |
| Defined benefit obligations at end of the year                   | -        | 1,494    |

Significant actuarial assumptions for the determination of the defined obligation were discount rate, expected salary increase and mortality. The sensitivity analyses below had been determined based on reasonably possible changes of the respective assumptions occurring at 31 March 2014, while holding all other assumptions constant.

- If the discount rate was 100 basis points higher (lower), the defined benefit obligation would decrease by HK\$197,000 (increase by HK\$240,000).
- If the expected salary growth increased (decreased) by 1%, the defined benefit obligation would increase by HK\$245,000 (decrease by HK\$204,000).

For the year ended 31 March 2015

# 30. RETIREMENT BENEFIT PLANS (continued)

### (ii) Defined benefit plan (continued)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the consolidated statement of financial position.

### 31. SHARE-BASED PAYMENT TRANSACTIONS

### **Share Option Scheme of the Company**

Pursuant to a written resolution passed on 2 June 2010, the Company adopted a share option scheme (the "Scheme"). The purpose of the Scheme is to provide incentives to eligible participants including eligible directors and eligible employees. The Scheme will remain in force for a period of ten years from the date of its adoption.

The maximum number of shares to be issued upon the exercise of all outstanding options granted and yet to be exercised under the Scheme and any other share option scheme of the Group must not in aggregate exceed 30% of the issued share capital of the Company from time to time. The total number of shares which may be issued upon exercise of all options (excluding, for this purpose, options which have lapsed in accordance with the terms of the Scheme and any other share option scheme of the Group) to be granted under the Scheme and any other share option scheme of the Group must not in aggregate exceed 10% of the Shares in issue on the date of adoption of the Scheme. Such 10% limit may be refreshed, subject to specific approval by the shareholders of the Company, from time to time with reference to the issued share capital of the Company for the time being. Subject to specific approval by the shareholders of the Company, the total number of shares issued and which may fall to be issued upon exercise of the options granted under the Scheme and any other share option scheme of the Group (including both exercised or outstanding options) to each participant in any 12-month period shall not exceed 1% of the issued share capital of the Company for the time being.

Options granted must be taken up within 21 days from the date of grant, upon payment of HK\$1 per grant of option(s). Options may, subject to the black-out periods under the Model Code for Securities Transactions by Directors of Listed Issuers contained in Appendix 10 to the Listing Rules, generally be exercised at any time from the date of grant to the 10th anniversary of the date of grant. In each grant of options, the Board of Directors of the Company may at its discretion determine the specific exercise period and exercise price. The exercise price shall not be less than the highest of (i) the closing price of shares on the Stock Exchange on the date of the offer of grant; (ii) the average closing price of shares on the Stock Exchange for the five trading days immediately preceding the date of the offer of grant; and (iii) the nominal value of the shares.
