## **BUSINESS AT A GLANCE**

China Ludao Technology Company Limited (the "Company") and its subsidiaries (collectively, the "Group") are a leading manufacturer of aerosol products in the People's Republic of China ("PRC"). Our Group is principally engaged in the research and development, manufacture and sale of aerosol and related products. We sell our products on contract manufacturing service ("CMS") basis to overseas markets and on original brand manufacturing ("OBM") basis in the PRC market. Our products can be divided into four major categories, namely (i) household and auto care products, (ii) air-fresheners, (iii) personal care products, and (iv) insecticides.

For the six months ended 30 June 2015 (the "Reporting Period"), the turnover of the Group was approximately RMB126.9 million representing an increase of approximately 22.7% as compared to the corresponding period of 2014. However, due to the issuance of share options, our Group incurred a net loss of approximately RMB9.6 million as compared to a net profit of approximately RMB8.9 million for the corresponding period in 2014.

Our OBM business which offer products under our own brand names of "Green Island", "Ludao"("綠島"), "JIERJIA"("吉爾佳") and "EAGLEIN KING"("鷹王"), mainly through a network of distributors, who further resell our OBM products to wholesalers, retailers and end-users in the PRC. Due to the slowdown of the PRC economy, the Group's sale of OBM products has decreased. We will put additional effort in promoting our products in chain stores and supermarket as well as e-commerce platform to expand our sales channel.

As announced by the Company on 15 June 2015, the construction of the new production plant had been completed with new production lines installed and is currently undergoing production trials. The new production plant, located at Sanmen Industry Zone in Zhejiang Province with a site area of approximately 7,038 square metres, is expected to increase the Group's annual production capacity of its aerosol products by approximately 100 million cans when fully operational. Five advanced automatic aerosol production lines had since been installed and are undergoing production trials. The new production plant will assist the Company in meeting the recent increase in demand from the Company's CMS customers and enable the Company to further develop its own branded products.

Looking ahead, the board (the "Board") of directors of the Company (the "Directors") are still optimistic towards both the domestic market and overseas market. We are still working towards in becoming the leading domestic enterprise in aerosol manufacturing in the PRC. Our Group will explore different ways to expand the domestic distribution channel and promote our own brand name products.

## MANAGEMENT DISCUSSION AND ANALYSIS

## **Financial Review**

#### Turnover

#### CMS

For the six months ended 30 June 2015, the turnover for the Group's CMS business was approximately RMB89.9 million (2014: RMB60.3 million), representing an increase of approximately 49.1% as compared to the corresponding period in 2014.

The global economy recovered gradually during 2015 with steady growth in the retail markets. The Group's CMS business has benefited from such recovery as evidenced by the increase in sales orders from overseas customers. However, there are concerns that such trend may not be sustainable. As such, the Group will continue to maintain high quality products with competitive prices and strengthen its CMS business in the second half of 2015.

#### OBM

The turnover for OBM business of the Group for the six months ended 30 June 2015 was approximately RMB37.0 million (2014: RMB43.1 million), representing a decrease of approximately 14.2% as compared to the corresponding period in 2014.

With the gradual decelerating growth in the total retail sales of consumer goods in the PRC and the increasing competition in the aerosol products segment, the Group's OBM business had been adversely affected by the slowdown in order placement from domestic customers. The Group will strive to counterbalance such impact through the continuous development of innovative products, enrichment of the product line and promotion of the product image and its brand name. Based on the loyalty gained from our domestic customers and the well-established market position in the industry, the Group is still optimistic towards its OBM business.

## Cost of Sales

Cost of sales of the Group for the six months ended 30 June 2015 was approximately RMB96.0 million (2014: RMB80.3 million), representing an increase of approximately 19.5% as compared to the corresponding period of 2014. Such increase was in line with the overall increase in the Group's sales of approximately 22.7%.

## Gross Profit and Gross Profit Margin

For the six months ended 30 June 2015, the Group recorded gross profit of approximately RMB30.9 million (2014: RMB23.1 million) and the gross profit margin was approximately 24.4% (2014: 22.3%). The significant increase in gross profit was primarily due to our increase in sales to CMS customers and which has a relatively higher gross profit margin than our OBM products.

#### Other Income and Other Gains - Net

Other income and other gains of the Group was approximately RMB2.1 million (2014: RMB3.6 million), representing a decrease of approximately RMB1.5 million as compared to the corresponding period of 2014. The decrease was primarily due to the decrease in government grants of RMB2.8 million for the six months ended 30 June 2015.

#### Expenses

#### Selling Expenses

Selling expenses mainly consist of staff salaries, allowance and bonus, entertainment expenses, travelling and transportation expenses, advertising expenses and exhibition expenses. For the six months ended 30 June 2015, selling expenses was approximately RMB6.0 million (2014: RMB5.7 million), representing an increase of approximately 5.3% as compared to the corresponding period of 2014. The increase was primarily due to the increase in transportation expenses incurred from the sales to the Group's overseas customers during the period.

#### Administrative Expenses

Administrative expenses mainly represented the staff salaries and benefit expenses, depreciation and amortisation, travelling and transportation expenses, office expenses, research and development, tax and entertainment expenses. For the six months ended 30 June 2015, administrative expenses was approximately RMB33.7 million (2014: RMB9.9 million), representing an increase of approximately 240.4% as compared to the corresponding period of 2014. The significant increase in administrative expenses was primarily due to share option expenses incurred during the six months ended 30 June 2015 of approximately RMB20.9 million.

#### Finance (costs)/income - net

For the six months ended 30 June 2015, the Group recorded net finance costs of approximately RMB0.7 million (2014 net finance income: RMB0.4 million), representing a decrease of approximately RMB1.1 million as compared to the corresponding period of 2014. The change from net finance income to net finance costs was primarily due to the increase in interest expense incurred from bank borrowings of approximately RMB0.7 million.

#### Income Tax Expenses

The income tax expenses of the Group for the six months ended 30 June 2015 was RMB2.3 million, representing a decrease of approximately RMB0.1 million as compared with approximately RMB2.4 million for the corresponding period of 2014. Effective income tax rate (before share option expenses) for the current period was approximately 17.0%, which was lower as compared with approximately 21.2% for the corresponding period of 2014. The lower effective income tax rate was due to a decrease in non-deductible expenses (excluding share option expense) incurred outside the PRC.

## Net (Loss)/Profit

The Group's incurred net loss for the six months ended 30 June 2015 of approximately RMB9.6 million (2014 net profit: RMB8.9 million), representing a decrease of approximately RMB18.5 million as compared to the corresponding period of 2014. Such decrease was primarily due to the net impact of (i) increase in gross profit of approximately RMB7.8 million; and (ii) increase in administrative expenses of approximately RMB23.8 million which is primarily due to share option expenses. For illustrative purpose only, the Company recorded net profit of approximately RMB11.3 million before share option expenses for the six months ended 30 June 2015, which represent an increase in net profit of approximately 27% as compared to the corresponding period in 2014.

## **Highlights of Balance Sheet**

### Trade Receivable

As at 30 June 2015, trade receivable of RMB17.1 million was overdue, representing a decrease of approximately 10.0% as compared to the amount of RMB19.0 million for the year ended 31 December 2014. Concern has been raised by the Board to the management of the Group and assessment on the outstanding balance of the trade receivable has been performed, in particular to the aging of such debts, payment histories, trading records and other available information regarding the respective customers.

Despite the fact that the credit period granted to customers is normally between 0 to 180 days and trade receivables of RMB17.1 million was overdue, provision of doubtful debt was not considered necessary by the Board after taking into account the following factors:

- (i) RMB12.1 million was settled by the customers in respect of the overdue trade receivables of RMB17.1 million; and
- (ii) These related to a number of independent customers that have good track records with the Group for 2-10 years.

The management is of the view that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality after making assessment of the above factors. The management has confidence to recover the outstanding balances in the third quarter of 2015.

## Prepayment & deposits

Prepayment & deposits primarily consist of prepayment to suppliers for raw materials, deposits for price-locking agreements and other miscellaneous prepayment & deposits. Breakdown is as follow:

Other prepayments & deposits	1,083	2,286

Of the RMB17.0 million prepayment of raw materials, the Company had made RMB14.5 million prepayment to five different major suppliers.

Deposits for price-locking agreements had decreased by RMB5.1 million as the price of tinplate aerosol cans had dropped due to the decrease in the price of tin and as such, a lower deposit for the price-locking agreement was negotiated.

The unused net proceeds have been placed in interest bearing deposits with licensed banks in Hong Kong and PRC in accordance with the intention of the Board as disclosed in the prospectus dated 30 September 2013.

## **Fund Raising Activities**

The Directors have considered various ways of raising funds and considered that the placings of new shares of the Company (the "Shares") represent an attractive opportunity to raise capital for the Company while broadening the shareholder base and capital base of the Company. During the Reporting Period, the Group has earned support to raise funds by placing of new shares. These additional funds serve as significant financial support for enhancing liquidity and future development.

On 11 May 2015, the Company issued 80,000,000 new Shares of HK\$0.01 each to not less than six independent third parties at a price of HK\$1.33 per share under the general mandate granted to the Directors at the annual general meeting of the Company held on 8 May 2014. Such placing was announced on 27 April 2015 and the closing price of the Shares was HK\$1.66 on the last trading day as at 27 April 2015. For the period under review, in the opinion of the Directors, the Company has complied with the code provisions set out in the Corporate Governance Code (the "CG Code") as set out in Appendix 14 of the Listing Rules except CG Code provision A.2.1.

Pursuant to CG Code provision A.2.1, the role(s) of chairman and chief executive should be separate and should not be performed by the same individual. As the duties of chairman and chief executive of the Company are performed by Mr. Yu Yuerong, the Company has deviated from the CG Code. The Board believes that it is necessary to vest the roles of chairman and chief executive in the same person due to its unique role, Mr. Yu's experience and established market reputation in the industry, and the importance of Mr. Yu in the strategic development of the Company. The dual role arrangement provides strong and consistent market leadership and is critical for efficient business planning and decision making of the Company. As all major decisions are made in consultation with the members of the Board, and there are three independent non-executive Directors on the Board offering independent perspectives, the Board is therefore of the view that there are adequate safeguards in place to ensure sufficient balance of powers within the Board. The Board will also continue to review and monitor the practices of the Company for the purpose of complying with the CG Code and maintaining a high standard of corporate governance practices of the Company.
