BUSINESS REVIEWS

Established since 1856 in Switzerland, Ernest Borel has a proud heritage spanning nearly 160 years. Throughout the course of its history and across its operations, the Group has upheld the principles of producing high precision “Swiss-made” products and implementing stringent quality controls. Under its own brand “Ernest Borel”, the Group is engaged in the design, production, marketing and sale of mechanical and quartz premium watches. As one of the oldest Swiss premium watchmakers, Ernest Borel has adopted the “dancing couple” as its icon, which embodies “romance and elegance”. Together with its distinctive market position, Ernest Borel has gained leadership among brands of watches for couples in Switzerland. The extensive distribution network of the Group covers retail markets in the People’s Republic of China (the “**PRC**”, and for the purpose of this announcement, excludes the Hong Kong Special Administrative Region (“**Hong Kong**”), the Macau Special Administrative Region (“**Macau**”) and Taiwan), Hong Kong, Macau and Southeast Asia. As at 30 June 2015, the Group has a total of 1,060 points of sale (“**POS**”).

In the first half of 2015, the Group has operated amidst an unfavourable business environment as consumer sentiment has been affected by the slowdown in economic growth of PRC which led to a downturn in the retail market. For the six months ended 30 June 2015, Ernest Borel recorded revenue of HK\$206.6 million while revenue of the corresponding period last year was HK\$271.8 million. The decline in revenue was mainly attributable to a reduced volume of orders placed by watch retailers and authorised distributors due to the slowdown in economic growth of PRC and weakened consumer sentiment. Owing to a shift in product mix of lower gross profit margin product under weakened consumer sentiment, gross profit and gross profit margin dropped to HK\$122.2 million (2014: HK\$182.7 million) and 59.2% (2014: 67.2%) respectively. Profit attributable to equity holders decreased to HK\$10.2 million (2014: HK\$13.5 million).

The PRC Market

The PRC market remains as the core business market of the Group. We had a total of 849 POS operated by more than 170 watch retailers across 23 provinces, autonomous regions and municipalities in the PRC as at 30 June 2015, representing an increase of 1 POS from 848 POS in the corresponding period last year.

During the period under review, the economic growth in the PRC has recorded its lowest level in six years. Local consumers were prudent about purchasing high-end consumer products due to the uncertainties in the external economic environment. Along with the intense competition among its peers, the Group has been confronted with additional tough challenges. As a result, revenue generated from the PRC declined to HK\$153.1 million from HK\$203.3 million in the corresponding period last year, accounting for approximately 74.1% of the total revenue.

Hong Kong, Macau and Southeast Asia Markets

As at the end of the reporting period, we have 185 POS in the Hong Kong, Macau and Southeast Asia markets. The growth in the luxury goods retail industry in Hong Kong and Macau has been credited to the influx of high net-worth and middle-class visitors from the PRC. As the PRC's economic expansion has weakened, the number of visitors to Hong Kong under the Individual Visit Scheme has continued to decline, when coupled with the expensive shop rental, has caused the revenue derived from this business segment to decline to HK\$48.4 million from HK\$64.4 million in the corresponding period in 2014.

FINANCIAL REVIEW

Revenue and segment information

Our revenue decreased by HK\$65.2 million, or approximately 24.0% from HK\$271.8 million for 1HFY2014 to HK\$206.6 million for 1HFY2015. The decrease in revenue of mechanical watches and quartz watches were mainly due to slow-down in the economic growth of PRC, weakened consumer sentiment and reduced volume of orders placed by watch retailers and authorised distributors.

MANAGEMENT DISCUSSION AND ANALYSIS

Performance by geographical location

	1HFY2015	1HFY2014	Changes	
	HKD'000	HKD'000	HKD'000	%
PRC Market	153.1	203.3	(50.2)	-24.7%
Hong Kong, Macau and Southeast Asia Markets	48.4	64.4	(16.0)	-24.8%
Other Markets mainly in United States and Europe	5.1	4.1	1.0	24.4%
Total	206.6	271.8	(65.2)	-24.0%

The PRC market

The PRC continues to be our major market, representing approximately 74.1% of our revenue for 1HFY2015. Sales in this region showed a decrease of approximately 24.7% from HK\$203.3 million for 1HFY2014 to HK\$153.1 million for 1HFY2015 due to slowdown in economic growth.

Hong Kong, Macau and Southeast Asia markets

Hong Kong, Macau and Southeast Asia markets accounted for approximately 23.4% of our total revenue for 1HFY2015. Sales in this market decreased by approximately 24.8% from HK\$64.4 million for 1HFY2014 to HK\$48.4 million for 1HFY2015. The decrease was mainly attributable to the decline in number of tourists and local consumption.

Other markets

Revenue from other markets, namely, markets in the United States and Europe recorded an increase from HK\$4.1 million for 1HFY2014 to HK\$5.1 million for 1HFY2015.

Cost of Sales

Cost of sales decreased by approximately 5.4% from approximately HK\$89.2 million for 1HFY2014 to approximately HK\$84.4 million for 1HFY2015. Reasons which led to the decrease were mainly attributable to decrease in cost of watch components in 1HFY2015.

Gross profit

Our gross profit decreased by HK\$60.5 million or approximately 33.1% from HK\$182.7 million for 1HFY2014 to HK\$122.2 million for 1HFY2015. The decrease in gross profit is mainly attributable to decrease in revenue and the decline in gross profit margin from 67.2% for 1HFY2014 to 59.2% for 1HFY2015. The decrease in gross profit margin was primarily due to the shift of in product mix to lower gross profit margin models under current weakened consumer sentiment.

Other gains and losses

We recorded other gains of HK\$4.8 million for 1HFY2015 as compared to losses of HK\$6.4 million for 1HFY2014. This was primarily due to the exchange net gain of HK\$3.0 million mainly arising from appreciation of the Swiss Franc against the Hong Kong dollar and fair value gain on derivative financial instruments of HK\$2.2 million.

Distribution costs

Our selling and distribution costs decreased by HK\$21.2 million or approximately 20.7% from HK\$102.6 million for 1HFY2014 to HK\$81.4 million for 1HFY2015, representing approximately 39.4% of our total revenue for 1HFY2015 (1HFY2014: approximately 37.7%). The decrease was primarily attributable to a decrease in advertising and marketing expenses from HK\$55.1 million for 1HFY2014 to HK\$37.0 million for 1HFY2015 as we reduced the scale of our marketing and advertising activities.

Administrative expenses

Our administrative expenses increased to HK\$31.9 million for 1HFY2015 from HK\$29.5 million for 1HFY2014, representing an increase of HK\$2.4 million or approximately 8.1%. The increase in administrative expenses was primarily due to an increase in pre-option expense of HK\$1.4 million and other general office expenses.

MANAGEMENT DISCUSSION AND ANALYSIS

Listing expenses

Our listing expenses decreased from HK\$18.5 million for 1HFY2014 to HK\$nil million for 1HFY2015. This decrease was primarily due to no professional fees were incurred during 2015 in relation to the global offering of the Shares as the Company had already been listed on 11 July 2014.

Finance costs

Our finance costs decreased by HK\$0.6 million or approximately 24.0% from HK\$2.5 million for 1HFY2014 to HK\$1.9 million for 1HFY2015 as a result of a decrease in bank borrowings during the six months ended 30 June 2015.

Taxation

Our income tax decreased from HK\$10.2 million for 1HFY2014 to HK\$2.3 million for 1HFY2015, representing a decrease of HK\$7.9 million or approximately 77.5%. This decrease was primarily attributable to the occurrence of deferred tax income amounting to HK\$3.2 million for 1HFY2015 as compared to deferred tax expense amounting to HK\$3.6 million for 1HFY2014, and decrease in our profits tax.

Profit for the year attributable to owners of our Company

Our net profit for the year decreased by approximately HK\$3.3 million or around 24.4% from HK\$13.5 million for 1HFY2014 to HK\$10.2 million for 1HFY2015 and the net profit margin decreased from approximately 5.0% for 1HFY2014 to approximately 4.9% for 1HFY2015, mainly due to a decrease in revenue of approximately 24.0%.

Inventory

Inventory was approximately HK\$559.1 million as at 30 June 2015, representing an increase of HK\$61.1 million, or around 12.3%, from HK\$498.0 million as at 31 December 2014.

The increase in inventory was mainly attributable to three main reasons. Firstly, an increase in watch movement reserves for contingency purposes in the event that one of our watch suppliers decided to withhold the supply of mechanical movements to third parties. Secondly, we had an increased number of work-in-progress and finished goods as we added new models during 1HFY2015 to better cater to the tastes and preference of our end customers along with the expansion of our distribution network in different markets which warranted a correspondingly increase of stocks. Lastly, average inventories turnover days are longer for premium branded watches as compared to branded watches to end customers because premium brands rarely offer discounts for the purpose of maintaining their brand images.

Trade and other receivables and payables

The Group's trade and other receivables amounted to approximately HK\$156.9 million and approximately HK\$129.8 million as at 31 December 2014 and 30 June 2015 respectively. Such decrease in trade and other receivables is attributable to a decrease in revenue in 1HFY2015.

The Group's trade and other payables decreased slightly from approximately HK\$67.2 million as at 31 December 2014 to approximately HK\$53.9 million as at 30 June 2015 resulting primarily from a decrease in purchase of watch component in 1HFY2015.

Liquidity, financial resources and capital structure

As at 30 June 2015, we had non-pledged cash and bank balances of HK\$150.3 million (31 December 2014: HK\$141.3 million). Based on the borrowings of HK\$175.3 million (31 December 2014: HK\$128.7 million) and shareholders' equity of HK\$676.3 million (31 December 2014: HK\$682.5 million), our gearing ratio (being loans divided by shareholders' equity) was approximately 25.9% (31 December 2014: approximately 18.9%). As at 30 June 2015, part of our borrowing amounting to HK\$75.5 million was repayable over one year and the remaining balance amounting to HK\$99.8 million was repayable within one year.

MANAGEMENT DISCUSSION AND ANALYSIS

Foreign exchange exposure

Certain of the members of our Group have foreign currency sales, which expose us to foreign currency exchange fluctuation risk. In addition, certain of our trade receivables, other receivables and deposits, bank balances, other payables and accrued expenses, and our intra— group balances were denominated in foreign currencies.

We monitor foreign exchange trends and will consider hedging significant foreign currency exposure should the need arise.

Charge on assets

Our outstanding bank borrowings were secured by:

- (a) charges over our time deposits with a carrying amount of HK\$6.0 million (31 December 2014: HK\$6.0 million);
- (b) charges over deposits placed for a life insurance policy with a carrying amount of HK\$12.2 million (31 December 2014: HK\$9.5 million); and
- (c) charges over trade receivables with a carrying amount of HK\$nil million (31 December 2014: 8.6 million).

Employees and Remuneration Policies

As at 30 June 2015, the Group had a total of 331 full-time employees, representing an increase of approximately 1.5% compared to 326 employees as at 31 December 2014. Total staff costs for 1HFY2015 increased to approximately HK\$39.5 million from approximately HK\$38.3 million for 1HFY2014, mainly due to the occurrence of equity-settled share-based payment of HK\$1.4 million in 1HFY2015.

All of our full-time employees are paid a fixed salary and may be granted other allowances, based on their positions. Members of the sales staff are also eligible for commissions based on their ability to meet sales targets. In addition, year end bonuses may also be awarded to the employees at our discretion and based on employee performance. Yearly performance appraisals are conducted to ensure that the employees receive feedback on their performance. Our Company has adopted a pre-IPO share option scheme (the “**Pre-IPO Share Option Scheme**”) and a share option scheme (the “**Share Option Scheme**”) on 24 June 2014, which became effective on 11 July 2014, the date on which the shares of the Company were initially listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**” and the “**Listing Date**”, respectively). Certain Directors and employees have been granted options under the Pre-IPO Share Option Scheme during FY2014. No option has been granted under the Share Option Scheme during 1HFY2015.

The Group provides training to its employees on a regular basis to keep them abreast of their knowledge in the Group’s products, technology developments and market conditions of its industry. In addition, the Group’s senior management also participates in conferences and exhibitions to deepen their knowledge in the industry.

Capital commitment

As at 30 June 2015, there were capital commitments in the amount of HK\$1.1 million which represented the balance payment in relation to the acquisition of a parcel of land in Switzerland for our new production facility (31 December 2014: HK\$1.2 million).

MANAGEMENT DISCUSSION AND ANALYSIS

Prospects

As the PRC economy remains weak and the retail markets in both the PRC and Hong Kong are unlikely to improve in the short term, the operating environment is likely to remain challenging to the premium watch industry as a whole during this financial year.

Facing the challenges in the market, the management is fully aware of the importance of improving profit margin and profitability. With this in mind, Ernest Borel is adjusting its design and marketing strategies and devote greater effort towards the sales of medium and medium- high-end watches with an aim to penetrate the corresponding consumer segment and reach out to potential customers. Meanwhile, the Group is also enhancing its design and production capabilities, and will introduce a new range of watches in the second half of the year to enrich its current product mix and address market demands. Moreover, the Group will continue to adopt and leverage our vertically-integrated business model in order to effectively control all key stages of the entire production chain. In this way we can ensure that the entire process, covering product design and development, procurement of materials and components, production, logistics, quality control, promotion and distribution, maintaining a high level of operating efficiency so as to lower production costs.

Furthermore, in order to fully realise the competitive strength of online to offline (O2O) operation that has been growing significantly, the Group has been actively exploring and developing its ecommerce platform. It targets online customers, providing them with a more convenient, highly flexible as well as easier channel to purchase watches of Ernest Borel. Moreover, the Group will expand and strengthen its distribution network in the PRC prudently and progressively while exploring the second-, third- and fourth-tier cities with potential to set up POS. While advertising will be carefully targeted, emphasis will shift to implementing marketing initiatives and conducting promotional activities where our POS are located. Through working closely with local retailers and authorised distributors, we will leverage their local market knowledge for our marketing and promotional initiatives and forge closer ties in a bid to generate greater synergies.

Moving forward, the Group will leverage its in-depth experience in the industry and flexibly adjust the strategies and sales plans to respond to market dynamics so as to cope with the operating conditions. Supported by Ernest Borel's long and distinguished history of producing premium Swiss-made watches and as one of the best-selling brands in the premium watch market in the PRC, the management still believes that the Group will gradually resume growth when the operating environment improves.

The purpose of the Share Option Scheme is to help motivate eligible persons to optimize their future performance and efficiency to the Group and/or reward them for their past contributions, to attract and retain or otherwise maintain on-going relationships with such eligible persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group.

TO THE BOARD OF DIRECTORS OF ERNEST BOREL HOLDINGS LIMITED

(incorporated in Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the condensed consolidated financial statements of Ernest Borel Holdings Limited (the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 24 to 44, which comprise the condensed consolidated statement of financial position as of 30 June 2015 and the related condensed consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and certain explanatory notes. The Main Board Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 “Interim Financial Reporting” (“**IAS 34**”) issued by the International Accounting Standards Board. The directors of the Company are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with IAS 34. Our responsibility is to express a conclusion on these condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of these condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

REPORT ON REVIEW OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.
