Chairman's Statement

Dear shareholders,

I am pleased to present herewith the 2015 Interim Report of the Company.

FINANCIAL RESULTS

For the six months ended 30th June, 2015, the Group achieved an unaudited profit attributable to shareholders of HK\$50.8 million, as compared to the profit of HK\$10.2 million attained in the same period in 2014.

With the gradual diversification of its business portfolio, the Group as a whole has attained satisfactory results in respect of its overall business operations during the period under review, despite a relatively challenging environment experienced by the tourism and hotel industries in Hong Kong. Operating profit before depreciation, finance costs and tax for the period amounted to HK\$530.4 million, which was an increase of approximately 37.3% over the HK\$386.3 million recorded for the corresponding half year in 2014. As previously explained, to accord with the applicable accounting standards, the operating hotel properties owned within the Group are subject to depreciation charges. Total depreciation charges for the period amounted to HK\$287.4 million (2014 – HK\$248.2 million), which are mostly related to the hotel properties. Although these depreciation charges do not have an immediate impact on cash flows, they have nonetheless adversely affected the reported profit.

BUSINESS OVERVIEW

As the ultimate holding company of a business conglomerate, the Company has been playing an important role in exploring and identifying appropriate business opportunities for its member companies, with the objective that the Group as a whole will sustain continuing growth.

The Company first embarked on its initial investment in the aircraft ownership and leasing business in 2012 with the acquisition of an 84.9% effective interest in a Boeing 737-800 aircraft. Since then, Regal Hotels International Holdings Limited, a listed subsidiary of the Group, has made significant investments in this new business sphere, through the platform that the Company established. As of this date, the Group as a whole, including those held by Regal, holds a portfolio of fourteen aircraft, which are yielding steady recurring revenues.

The Group intends to further increase its investments in this new line of business. The Company together with Regal are presently assessing and determining for the aircraft ownership and leasing business a corporate and asset holding structure that can best facilitate its future expansion.

The Group has recently revived its financial services business, through the reactivation of Cityline Finance Limited, a wholly owned subsidiary of the Company. Cityline is a licensed money lender in Hong Kong and its business is principally targeting on property mortgage financings. In the recent sale programme launched by P&R Holdings Limited, a subsidiary of the Group held through Paliburg Holdings Limited, in respect of the residential units in Rainbow Lodge in Yuen Long, Cityline also provides services as the coordinating arranger for the second mortgages to be made available to the unit purchasers. When the businesses of Cityline grow as planned, Cityline can also be used as a platform for participation by other member companies for provision of financings to customers, if circumstances are appropriate.

The Group now comprises five listed companies, with the Company as the ultimate holding company. As at 30th June, 2015, the Company held 62.2% interest in Paliburg, the immediate listed subsidiary of the Company. Paliburg held an effective 65.3% controlling shareholding interest in Regal which, in turn, held 74.6% interest in the issued units of Regal Real Estate Investment Trust. Through P&R Holdings, a joint venture 50:50 owned by each of Paliburg and Regal, the Group held an effective 71.8% controlling shareholding interest in Cosmopolitan International Holdings Limited (comprising interests in its ordinary shares and convertible preference shares).

Chairman's Statement (Cont'd)

The operational performance and business review of the listed members of the Group during the period under review are highlighted below.

PALIBURG HOLDINGS LIMITED

For the six months ended 30th June, 2015, Paliburg attained an unaudited consolidated profit attributable to shareholders of HK\$54.9 million, as compared to HK\$16.2 million for the corresponding period in 2014.

During the period under review, the Paliburg group's business operations have overall performed satisfactorily. The operating profit before depreciation, finance costs and tax of the Paliburg group for the period amounted to HK\$503.1 million, which represents an increase of approximately 33.4% over the comparative amount of HK\$377.2 million in 2014. As the entire portfolio of hotel properties are effectively self-operated, they are also treated in Paliburg's consolidated financial statements as property, plant and equipment and subject to depreciation charges. Total depreciation charges for the half year, which are mostly related to the hotel property portfolio, amounted to HK\$282.0 million (2014 – HK\$242.9 million) which, although of a non-cash nature, have nonetheless adversely affected Paliburg's reported profit.

BUSINESS OVERVIEW

PROPERTIES

The Paliburg group's property development and investment businesses in Hong Kong are now principally undertaken through P&R Holdings, which is effectively a subsidiary of the Paliburg group.

During the period under review, the property market in Hong Kong overall remained stable, despite the hefty stamp duty levied by the Hong Kong Government to deter speculative activities. Newly built residential apartments, particularly those smaller-sized units that cater to small families, continued to be in very strong demand, with residential property price indices generally reaching new highs.

P&R Holdings formally launched in June 2015 the presale of the apartment block, named Domus, in the residential project at Tan Kwai Tsuen Road in Yuen Long, and all the 134 units were sold in one day. The 36 luxurious garden houses, which constitute the main component of the project and named Casa Regalia, are planned to be marketed for sale within the next few months.

Earlier this month, P&R Holdings further launched the sale programme for the ten residential duplex units remaining in Rainbow Lodge in Yuen Long. The market response was equally very favourable and all the ten units were sold within a short period of time.

To replenish its land bank after the sale of the two iclub hotel developments in Sheung Wan and Fortress Hill to Regal REIT, P&R Holdings successfully secured from the Urban Renewal Authority in June 2015 the contract for the development of a new hotel project located at Anchor Street/Fuk Tsun Street in Tai Kok Tsui, Kowloon, which is planned to be developed into a multi-storey hotel building comprising about 288 guest rooms, with ancillary accommodation.

Further details on the development projects and properties of P&R Holdings are contained in the section headed "Management Discussion and Analysis" in this Interim Report.

REGAL HOTELS INTERNATIONAL HOLDINGS LIMITED

For the six months ended 30th June, 2015, Regal attained an unaudited consolidated profit attributable to shareholders of HK\$123.8 million, as compared to HK\$167.1 million recorded for the same period in 2014.

Despite the challenging business environment encountered by the tourism industry in Hong Kong in the period under review, the Regal group has maintained steady results in respect of its overall business operations. The operating profit before depreciation, finance costs and tax of the Regal group for the half year amounted to HK\$579.2 million, which slightly exceeded the comparative profit of HK\$573.3 million recorded in 2014. Depreciation charges on the Regal group's hotel properties in Hong Kong for the period amounted to HK\$225.7 million (2014 – HK\$202.7 million) which, though having no impact on cash flows, have adversely affected its reported profit.

BUSINESS OVERVIEW

HOTELS

MARKET OVERVIEW

For the period under review, most of the advanced world economies sustained gradual recoveries. The International Monetary Fund has projected global growth at 3.3% in 2015, which is marginally lower than in 2014, with a gradual pickup in advanced economies and a slowdown in emerging market and developing economies. While the economy in the United States is expected to continue to strengthen, it is generally believed that the US Dollar interest rate may revert to an upward trend and if its interest rate indeed begins to rise in the not too distant future, it may have a significant impact on the global economy. In the emerging market economies, the continued slowdown reflected several factors, including lower commodity prices and tighter external financial conditions, structural bottlenecks, rebalancing in China, and economic distress related to geopolitical factors. Through various accommodative fiscal policies to support domestic demand, China was able to maintain a growth rate of 7% year-on-year in its GDP for both the first and second quarters of 2015. China remains one of the highest growth economies globally and a key economic partner to Hong Kong.

Meanwhile, Hong Kong's economy expanded moderately by 2.6% in the first half of 2015 and the GDP for the whole year is forecast to grow by 2% to 3% in real terms. In the same period, total visitors to Hong Kong amounted to over 29.3 million, representing a modest increase of 2.8% year-on-year, with visitors from Mainland China accounting for about 78% of the total headcount. In this total headcount, overnight visitors amounted to 12.7 million, which actually decreased by 3.8% year-on-year, primarily due to the substantial decline in the number of visitors from Mainland China under the Individual Visit Scheme since March 2015. At the same time, the value of total retail sales in Hong Kong contracted by 1.6% year-on-year, with the adverse change most notable in the high end consumer goods sector.

Against this backdrop, the average hotel room occupancy for all the surveyed hotels under different categories in Hong Kong for the half year ended 30th June dropped from 89% in 2014 to 85% in 2015, with the average achieved room rate also shrinking by 8.7% over the same comparative period, based on information published by the Hong Kong Tourism Board.

The setback in Hong Kong's tourism and related business sectors in recent months can be attributed to a number of factors, including the strengthening of the Hong Kong Dollar, the lowering of spending by stay-over visitors, the spill-over effects from the Occupy Central movement and, more recently, the anti-parallel trading activities that have deterred many Mainland travellers from visiting Hong Kong. The implementation of the "one trip per week" policy for Shenzhen residents, who are mostly same day visitors, has, however, had no significant impact on the local hotel market.

Chairman's Statement (Cont'd)

HOTEL OWNERSHIP

REGAL REAL ESTATE INVESTMENT TRUST

Regal Portfolio Management Limited, a wholly owned subsidiary of the Regal group, acts as the REIT Manager of Regal REIT.

For the six months ended 30th June, 2015, Regal REIT recorded an unaudited consolidated loss before distribution to unitholders of HK\$1,376.9 million, as compared to the profit of HK\$319.6 million attained in the corresponding period in 2014. When reviewing these comparative results of Regal REIT, it should be noted that the loss incurred by Regal REIT was solely attributable to the reduction of HK\$1,631.4 million in the fair value of Regal REIT's investment properties portfolio based on their independent market valuations as at 30th June, 2015, as compared to those last prevailing as at 31st December, 2014. If the fair value changes are excluded, the core profit before distribution to the unitholders of Regal REIT for the period under review would amount to HK\$254.6 million, an increase of approximately 3.6% over HK\$245.6 million attained for the corresponding period in 2014.

The five initial Regal Hotels, which are operating as full-service hotels under the "Regal" brand name, were initially leased by Regal REIT to a wholly owned subsidiary of the Regal group for terms up to 31st December, 2015. At an extraordinary general meeting of Regal REIT held on 14th April, 2015, the independent unitholders approved the extension of the lease agreements for the five initial Regal Hotels for another 5 years to 31st December, 2020, with the market rental packages for the extended term continuing to be determined annually by a jointly appointed independent professional property valuer. The market rental review for 2016 is being conducted by the independent professional property valuer and will be determined before the end of September 2015.

At that same general meeting, the unitholders of Regal REIT also approved revisions to the trust deed of Regal REIT to align with the amendments to the REIT Code that became effective in August 2014. The objectives of the revisions were principally to provide additional flexibility and discretion to Regal REIT, allowing it to invest in certain financial instruments and to undertake property development activities under certain thresholds. With the widening of its investment boundaries, Regal REIT is placed in a more advantageous position when pursuing investment opportunities in the future.

Apart from the five initial Regal Hotels, Regal REIT also owns the three other hotels in Hong Kong that are operating under the "iclub by Regal" brand name. The "iclub" brand is a new line of hotels developed by the Regal group, which are typically positioned as upscale select-service hotels, with contemporary and stylish décor, and equipped with tech-savvy facilities.

The first hotel under the "iclub" brand was the iclub Wan Chai Hotel, which has been self-operated by Regal REIT since 2011. This hotel has since its opening been well received by individual and business travellers, but due to the stiff market competition arising as a result of the various market factors mentioned above, its operating performance in the period under review has also been adversely affected. Though this hotel managed to maintain virtually full occupancy during the period, the average achieved room rate retracted by 22.2%. Aggregate net property income (NPI) from this property, including increased lease rentals from the non-hotel portions, amounted to HK\$11.5 million for the first half year, which was a reduction of approximately 20.0% as compared with the same period last year.

The other two iclub hotels, namely, the iclub Sheung Wan Hotel and the iclub Fortress Hill Hotel, have also been leased to the same lessee of the Regal group under initial lease terms up to 31st December, 2019, with an option to Regal REIT to extend the leases for another five years. Rentals for the first three years of the lease terms are fixed, while the rentals for the remainder of the lease terms will be determined annually through independent market rental reviews.

HOTEL OPERATIONS

Due to the setback encountered by the tourism industry in Hong Kong in the period under review, the five initial Regal Hotels in Hong Kong attained a combined average occupancy rate of 83.0%, a decrease of 9.9 percentage points as compared with the same period last year. Their combined average room rate over the same period also decreased by 3.7%, resulting in a reduction in RevPAR (Revenue per Available Room) of 14.0% year-on-year. Although the room business of these hotels has been adversely affected, the food and beverage businesses for the first half year have conversely achieved substantial improvement and generated total revenue of HK\$302.5 million, reflecting a year-on-year increase of 12.4%. Aggregate NPI for these five hotels for the period amounted to HK\$372.6 million, as compared with HK\$447.2 million attained in the same period in 2014, which is slightly below the prorated base rent of HK\$381.5 million payable to Regal REIT under the leases.

The occupancy levels of the other two new iclub hotels at Sheung Wan and Fortress Hill during the half year under review were 91.2% and 73.6%, respectively. Although these occupancy levels are considered satisfactory for new start-up hotels under the prevailing market conditions, there are still much rooms for improvement. As previously mentioned, any shortfall in the income from the operation of these two hotels below the lease payments payable by the lessee during the first three years of the lease terms will be fully reimbursed by P&R Holdings.

To combat the competitive environment, the Regal group will continue to invest resources to enhancing its market network and positioning and, in the meantime, will further streamline its business operations to contain costs.

The Regal group acquired, in October 2014, through a wholly owned subsidiary the La Mola Hotel & Conference Centre in Spain, which is a 4-star luxury hotel with about 186 rooms situated on the outskirts of Barcelona neighbouring a major category golf course. The hotel is currently self-managed by the Regal group under an external franchise arrangement. The Regal group is determining for this hotel an operating mode that can best suit its market position and, at the same time, is also planning a renovation programme to upgrade this hotel property.

HOTEL MANAGEMENT

Regal Hotels International Limited, the wholly owned management arm of the Regal group, is the hotel manager providing hotel management services to all the five full-service Regal Hotels and the three select-service iclub Hotels owned by Regal REIT in Hong Kong.

In China, the Regal group is providing hotel management services to seven operating hotels, including four in Shanghai, one in Xi'an and two in Dezhou, including the latest Regal Kangbo Hotel and Residence in Dezhou which was just opened in early August 2015. Two more hotels to be managed by the Regal group, namely, the Regal Financial Center Hotel in Foshan and the iclub Yuhong Hotel in Zhengzhou, are scheduled to be opened within the fourth quarter of 2015. Six other hotels are in the pipeline, which are planned to come on stream in 2016 and 2017.

In addition, the Regal group is also directly managing the La Mola Hotel & Conference Centre in Barcelona, Spain that it acquired in 2014.

Chairman's Statement (Cont'd)

PROPERTIES

As mentioned above, the Regal group holds a 50% joint venture interest in P&R Holdings, through which its property development and investment businesses are presently principally conducted.

Of the 19 luxury garden houses retained by the Regal group in Regalia Bay, Stanley, one of the houses was recently sold in May 2015, pending completion of the sale and purchase. The Regal group may lease out some more of these retained houses for rental income, pending their gradual disposals at satisfactory prices.

OTHER INVESTMENTS

The Regal group maintains a sizable investment portfolio comprising primarily listed securities, investment funds, bonds as well as treasury and yield enhancement products, including the holding of approximately 10% interest in the issued shares of Asia Standard Hotel Group Limited, a company listed in Hong Kong principally engaged in hotel and investment businesses. This investment portfolio has on the whole appreciated in value during the period under review.

The Regal group completed the acquisition of a fleet of twelve Embraer aircraft in February 2015 for an aggregate purchase price of US\$34.5 million. One of these Embraer aircraft, an ERJ 170 model aircraft, was sold in June 2015 and generated attractive return as compared to its acquisition cost. Together with the other two aircraft previously acquired, being one Airbus 321-211 which is wholly owned and another Airbus A321-200 which is effectively 85%-owned, the Regal group now owns a portfolio of thirteen aircraft, twelve of which are under leases to airline operators operating in different parts of the world, yielding satisfactory rental income. The lease for the one remaining Embraer aircraft expired recently and negotiations are being conducted for its re-lease or sale.

The Regal group intends to further expand its aircraft ownership and leasing business and is reviewing from time to time new investment opportunities for the acquisition of additional aircraft. The Regal group is also considering certain restructuring proposals for the holding of these assets, with a view to ultimately establishing this new line of business as an independent operating business unit.

COSMOPOLITAN INTERNATIONAL HOLDINGS LIMITED

For the six months ended 30th June, 2015, Cosmopolitan recorded an unaudited consolidated loss attributable to shareholders of HK\$164.0 million, as compared to the loss of HK\$78.1 million for the corresponding six months in 2014.

As explained in the profit warning announcement of Cosmopolitan dated 14th August, 2015, the increased loss recorded for the period under review was primarily due to the recognition of additional financial liability associated with the outstanding subscription option for the subscription of the optional convertible bonds due 2017, which was granted to the Paliburg group in conjunction with the issue of the convertible bonds due 2017 of the Cosmopolitan group in August 2014. Under the prevailing accounting standards and policies adopted by the Cosmopolitan group, such subscription option is required to be recognised as a derivative financial liability and its fair value is measured at each reporting date by reference to an independent professional appraisal. As the market price of Cosmopolitan's shares as at 30th June, 2015 had risen substantially over that prevailing as at the year end of 2014, additional derivative financial liability in a sum of HK\$121.5 million was recognised in respect of such subscription option, resulting in a loss in the same amount for the period under review. However, it should be noted that such financial liabilities are non-cash in nature and do not have any impact on the cash flows of the Cosmopolitan group nor will they affect its business operations.

BUSINESS OVERVIEW

The Cosmopolitan group's principal business activities are engaged in property development and investment, with a primary focus in Mainland China, investment in financial assets and other investments.

Through various accommodative fiscal policies to support domestic demand, China was able to maintain a growth rate of 7% year-on-year in its Gross Domestic Product for both the first and second quarters of 2015. However, the increased volatility in its financial market could still pose potential downside risk. The Cosmopolitan group is also monitoring the recent devaluation of the Renminbi and any impact it may have on its financial position if such downward adjustment should persist.

After a relatively stagnant period, the property market in the first and second tier cities in China has begun to regain some momentum over the past few months, both in terms of transacted price and turnover volume, led by prime cities like Beijing, Shanghai and Shenzhen.

The Cosmopolitan group is undertaking three ongoing property projects in China, which are respectively a composite development consisting of hotel, commercial, office, service apartment and residential components in Chengdu, a mixed use development comprising commercial, office and residential components in Tianjin and a re-forestation and land grant project in Urumqi, Xinjiang. Depending on the market conditions, the Cosmopolitan group plans to launch the presale of some of the residential units in both the Chengdu and the Tianjin projects within the next few months.

Further details on the development projects undertaken by the Cosmopolitan group in China are also contained in the section headed "Management Discussion and Analysis" in this Interim Report.

OUTLOOK

REGAL GROUP

Although the second half of the year is traditionally the high season for the local hotel industry, the outlook of the hotel businesses for the coming few months continues to be full of challenges. The tourism related industries hope that more Mainland cities will be included in the Individual Visit Scheme to open up new sources of overnight visitors to Hong Kong. On the other hand, Hong Kong will need to put in additional resources to expand its tourist attractions and the Hong Kong community as a whole should also work more closely together to re-cultivate a harmonious environment to maintaining Hong Kong's position as one of the most favourite tourist and shopping destinations in Asia as well as in the world, making it worthy of its long-held reputation.

The Regal group believes that the recent setback experienced by the tourism market in Hong Kong should be temporary and that the prospects of the hotel businesses in Hong Kong in the long term will remain favourable. The REIT Manager will continue to prudently pursue accretive investment opportunities for Regal REIT, both locally and overseas, with a view to further strengthening its recurring income base.

Apart from the strategic controlling interest in Regal REIT, the Regal group owns a substantial portfolio of diversified business interests, including the 50% joint venture interest in P&R Holdings, the growing aircraft ownership and leasing business and other investments.

The directors of Regal group are optimistic that, with its solid financial strength, the Regal group will continue to achieve steady progress in the years ahead.

Chairman's Statement (Cont'd)

COSMOPOLITAN GROUP

China will continue to be one of the highest growth economies globally, albeit at a slower pace. The Cosmopolitan group will continue to focus its resources on its ongoing property projects in China and, in the meantime, is also actively reviewing a number of investment opportunities which can complement its present principal activities as well as expand its overall business base.

PALIBURG GROUP

When the various transport infrastructures linking with the Mainland are gradually completed, including the Guangzhou-Shenzhen-Hong Kong Express Rail Link and the Hong Kong-Zhuhai-Macao Bridge, Hong Kong will further integrate as a crucial gateway to China. This is anticipated to bring an increasing number of visitors to Hong Kong and will further stimulate its economic growth.

The sale programmes recently launched for the apartments units in the Tan Kwai Tsuen development and the remaining duplex residential units in Rainbow Lodge, both in Yuen Long, have been very well received. Following on this successful track, the marketing programme for the luxurious garden houses in the Tan Kwai Tsuen development, which constitute the main component of the project, is scheduled to be launched shortly.

The majority of the other projects presently undertaken by P&R Holdings, including the hotel project at Ha Heung Road in To Kwa Wan, the shopping mall project in Ma On Shan, the residential project in Kau To, Sha Tin and the commercial/residential joint venture project with the URA in Sham Shui Po, are all expected to be completed before the end of 2017.

While certain of these development projects, such as the shopping mall project in Ma On Shan, is presently intended to be retained as investment property after completion to boost recurring rental income, most of the other development projects of P&R Holdings are planned for sale, which are expected to generate substantial profits and cash flows for both the Regal group and the Paliburg group as a whole.

The directors of Paliburg are hopeful that the Paliburg group will continue to achieve satisfactory results in the coming years.

Chairman's Statement (Cont'd)

CENTURY CITY GROUP

The Group has substantially grown in size and diversity during the past few years. The new projects and investments acquired in this past period have been planned for completion or realisation that spans over the next few years.

The Directors are optimistic that when these new projects and investments come into fruition, the financial position of the Group as a whole will be further substantially strengthened, building for the Group a solid foundation for its future expansion.

Building on the surge in brand awareness, the *Bodhi and Friends* products and edutainment content have attracted enormous interest among licensing partners and are in the final stages of concluding strategic business deals with top global leaders in toys and consumer products, children publishing and computer software. CIT is expecting to launch before Christmas 2015 a series of revolutionary smart toys connected to edutainment content aimed at enhancing parent-child interaction and optimising the learning experience. A chain of indoor discovery centres designed to foster innovation via interactive media and creative exploration is under planning, with the first prototype centres targeted for prime locations in first and second tier cities in China starting from 2016. With a diverse team of creative and professional talent and key strategic partnerships, CIT is well positioned to become a leading player in the global edutainment space capitalising on the surge of China as both the world's largest children consumer market as well as a new cultural force.

HANG FOK PROPERTIES LIMITED

Hang Fok is an entity that is 50% beneficially owned by each of the Paliburg group and the Regal group and is effectively a subsidiary of the Group. Hang Fok holds equity interests in a joint venture project company involved in a development project in the Central Business District in Beijing, the PRC. As previously reported, Hang Fok was engaged in a series of legal actions in the PRC with the other joint venture parties in the Beijing project, some of which were initiated by Hang Fok to protect its equity interests in the Beijing project. Appropriate provisions had been made by Hang Fok in the prior years and the interest held by the Group in the project was carried in the consolidated financial statements at an insignificant amount as at 31st December, 2013. In the process of the legal actions taken, the other joint venture parties have funded the joint venture project company and procured the latter to deposit an amount of approximately RMB195 million into the court in the PRC in August 2014, as repayment proceeds of certain of the shareholder's loans, plus accrued interest thereon, made by Hang Fok to the joint venture project company, which is pending collection by Hang Fok. Accordingly, Hang Fok had recorded a recovery of loans receivable and related interest income of approximately HK\$159.0 million and HK\$84.2 million respectively, which was reflected in the results of the Group in the financial year ended 31st December, 2014. The Group will continue to exercise strenuous efforts with a view to salvaging the value of the Group's interest in this development project.

FINANCIAL REVIEW

ASSETS VALUE

As at 30th June, 2015, the Group's net assets attributable to equity holders of the parent amounted to HK\$8,564.0 million, representing HK\$2.67 per ordinary share.

CAPITAL RESOURCES AND FUNDING

Funding and Treasury Policy

The Group adopts a prudent funding and treasury policy with regard to its overall business operations. Cash balances are mostly placed on bank deposits, and treasury and yield enhancement products are deployed when circumstances are considered to be appropriate.

Property development projects in Hong Kong are financed partly by internal resources and partly by bank financing. Project financing is normally arranged in local currency to cover a part of the land cost and a major portion or the entire amount of the construction cost, with interest calculated by reference to the interbank offered rates and the loan maturity tied in to the estimated project completion date. Property development projects in the PRC are presently financed by internal resources. Project financing may be arranged on appropriate terms to cover a part of the land cost and/or construction cost, and with the loan maturity tied in to the estimated project completion date.

The Group's banking facilities are mostly denominated in Hong Kong dollar with interest primarily determined with reference to interbank offered rates, while its senior unsecured notes were denominated in US dollar and Hong Kong dollar with fixed coupon interest rates. The use of hedging instruments for interest rate purposes to cater to business and operational needs is kept under review by the Group's management from time to time. As the Hong Kong dollar is pegged to the US dollar, the exchange risks are considered to be insignificant and no currency hedging has been deployed. As regards the Group's overseas investments which are based in currencies other than US dollar and Hong Kong dollar, the Group will consider hedging part or all of the investment amounts into US dollar or Hong Kong dollar to contain the Group's exposure to currency fluctuation.

Cash Flows

Net cash flows generated from operating activities during the period under review amounted to HK\$28.2 million (2014 - net cash flows used in operating activities of HK\$118.8 million). Net interest payment for the period amounted to HK\$133.3 million (2014 - HK\$126.6 million).

As at 30th June, 2015, the gearing ratio of the Group was 28.4% (31st December, 2014 - 26.3%), representing the Group's borrowings net of cash and bank balances and deposits of HK\$10,536.1 million (31st December, 2014 - HK\$9,851.7 million), as compared to the total assets of the Group of HK\$37,078.0 million (31st December, 2014 - HK\$37,391.8 million).

1. Accounting Policies

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants. The accounting policies adopted in the preparation of the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31st December, 2014, except for the adoption of the following new and revised Hong Kong Financial Reporting Standards ("HKFRSS"), which are effective for the Group's annual periods beginning on or after 1st January, 2015.

Amendments to HKAS 19 Defined Benefit Plans: Employee Contributions

Annual Improvements Amendments to a number of HKFRSs

2010-2012 Cycle

Annual Improvements Amendments to a number of HKFRSs

2011-2013 Cycle

The adoption of these new and revised HKFRSs has had no significant financial effect on the Group's results of operation and financial position.

2. Operating Segment Information

For management purposes, the Group is organised into business units based on their products and services and has seven reportable operating segments as follows:

- (a) the property development and investment segment comprises the development and sale of properties, the leasing of properties and the provision of estate agency services;
- (b) the construction and building related businesses segment engages in construction works and building related businesses, including the provision of development consultancy and project management services, property management and also security systems and products and other software development and distribution;
- (c) the hotel operation and management and hotel ownership segment engages in hotel operations and the provision of hotel management services, and the ownership in hotel properties for rental income through Regal Real Estate Investment Trust ("Regal REIT");
- (d) the asset management segment engages in the provision of asset management services to Regal REIT;
- (e) the financial assets investments segment engages in trading of financial assets at fair value through profit or loss and other financial assets investments;
- (f) the aircraft ownership and leasing segment engages in the aircraft ownership and leasing for rental income; and
- (g) the others segment mainly comprises the provision of financing services, travel agency services, sale of food products and development and distribution of multimedia entertainment and digital educational content and multi-platform social games.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. The adjusted profit/(loss) before tax is measured consistently with the Group's profit before tax except that certain interest income, finance costs, head office and corporate gains and expenses are excluded from such measurement.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

Following the acquisition of additional aircraft during the current period by Regal Hotels International Holdings Limited ("RHIHL"), a listed subsidiary of the Company, together with its subsidiaries (the "RHIHL Group"), the RHIHL Group has increased its focus on the aircraft ownership and leasing business. A change on the reporting structure of operating segments was made for facilitating management to make decisions about operating matters, resources allocation and performance assessment. Accordingly, an additional reportable operating segment of "Aircraft ownership and leasing" was separately disclosed and certain comparative amounts previously reported under the reportable operating segment of "Others" have been reclassified and restated to conform with the current period's presentation.

The following table presents revenue and profit/(loss) information for the Group's operating segments:

The provision for Hong Kong profits tax has been calculated by applying the applicable tax rate of 16.5% (2014 - 16.5%) to the estimated assessable profits which were earned in or derived from Hong Kong during the period.

Taxes on the profits of subsidiaries operating overseas are calculated at the rates prevailing in the respective jurisdictions in which they operate.

No provision for tax was required for the associates as no assessable profits were earned by the associates during the period (2014 - Nil).

7. Dividend

The Directors have declared the payment of an interim dividend of HK\$0.63 cent (2014 - HK0.63 cent) per ordinary share for the financial year ending 31st December, 2015, absorbing a total amount of approximately HK\$20.2 million (2014 - HK\$20.2 million).

8. Earnings Per Ordinary Share Attributable to Equity Holders of the Parent

(a) Basic earnings per ordinary share

The calculation of basic earnings per ordinary share is based on the profit for the period attributable to equity holders of the parent of HK\$50.8 million (2014 - HK\$10.2 million) and on the weighted average of 3,203.8 million (2014 - 3,210.1 million) ordinary shares of the Company in issue during the period.

(b) Diluted earnings per ordinary share

No adjustment has been made to the basic earnings per ordinary share amount presented for the periods ended 30th June, 2015 and 2014 as the Company had no potentially dilutive ordinary shares in issue and therefore no diluting events existed throughout the periods.

9. Debtors, Deposits and Prepayments

Included in the balance is an amount of HK\$231.4 million (31st December, 2014 - HK\$126.6 million) representing the trade debtors of the Group. The aged analysis of these debtors as at the end of the reporting period, based on the invoice date, is as follows:

Credit terms

Trade debtors, which generally have credit terms of 30 to 90 days, are recognised and carried at their original invoiced amounts less impairment which is made when collection of the full amounts is no longer probable. Bad debts are written off as incurred.

The Group seeks to maintain strict control over its outstanding receivables and overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade debtors relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over these balances. Trade debtors are non-interest bearing.

Included in the balance is an amount due from a related company of HK\$1.3 million (31st December, 2014 - HK\$1.3 million) which is unsecured, non-interest bearing and repayable on demand.

10. Creditors and Accruals

Included in the balance is an amount of HK\$86.3 million (31st December, 2014 - HK\$136.2 million) representing the trade creditors of the Group. The aged analysis of these creditors as at the end of the reporting period, based on the invoice date, is as follows:

| | 86.3 | 136.2 |

The trade creditors are non-interest bearing and are normally settled within 90 days.

Included in the balance are amounts due to an associate and a related company of HK\$2.8 million (31st December, 2014 - HK\$1.6 million) and HK\$4.4 million (31st December, 2014 - HK\$4.4 million), respectively, which are unsecured, non-interest bearing and have no fixed terms of repayment.

The agreement for term loan facilities of HK\$4,500.0 million and a revolving loan facility of up to HK\$300.0 million (the "2013 IH Facilities") was entered into on 23rd July, 2013 by Regal REIT, through its wholly owned subsidiaries, namely, Bauhinia Hotels Limited and Rich Day Investments Limited as the borrowers, for a term of five years to July 2018, and is secured by three of the five Initial Hotels, namely, Regal Airport Hotel, Regal Hongkong Hotel and Regal Riverside Hotel. As at 30th June, 2015, the outstanding amount on the 2013 IH Facilities was HK\$4,500.0 million comprised solely of the full amount of the term loan facilities. On 23rd July, 2015, Regal REIT group cancelled the HK\$300.0 million revolving loan facility under the 2013 IH Facilities as there are other unutilised revolving loan facilities available which bear lower rates of interest. Report on Review of Interim Financial Information

To the Board of Directors of Century City International Holdings Limited (Incorporated in Bermuda with limited liability)

Introduction

We have reviewed the interim financial information of Century City International Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 22 to 47 which comprises the condensed consolidated statement of financial position as at 30th June, 2015 and the related condensed consolidated statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended, and explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 *Interim Financial Reporting* ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants.

The Directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with HKAS 34. Our responsibility is to express a conclusion on this interim financial information based on our review. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with HKAS 34.
