## **THE COMPANY'S BUSINESS OPERATION AND FINANCIAL POSITION**

The current businesses of the Company in all respects are under normal operation. The operational data of the Group for the financial year ended 31 December 2015 in comparison with the corresponding period in 2014 is as follows:

Revenue decreased by approximately 50.6% to approximately RMB620 million for the financial year ended 31 December 2015 from approximately RMB1,260 million for the financial year ended 31 December 2014. In particular:

- (i) revenue in the bedding products segment decreased by approximately 58.0% for the financial year ended 31 December 2015 as comparing with the corresponding period in 2014; and
- (ii) revenue in the cotton yarns segment dropped by approximately 45.1% for the financial year ended 31 December 2015 as comparing with the corresponding period in 2014.

The Directors believe that the major reason for such decreases in revenue was mainly due to decline in domestic purchasing power as a result of the economic slowdown in China.
