## FINANCIAL HIGHLIGHTS

#### **FINANCIAL POSITION**

As at 31st December 2015, cash and bank balances held by the Group amounted to approximately HK\$1,211,671,000, which was HK\$28,363,000 lower than the balance as at 31st December 2014 mainly due to the devaluation of Renminbi ("RMB"). During the year, the Group recorded a net cash inflow from operating activities of HK\$229,292,000 and received interest income of HK\$34,096,000. However, the Group also paid dividends of HK\$225,886,000, purchased fixed assets of HK\$18,208,000 and recorded decrease in cash and bank balances from foreign exchange rate changes of HK\$49,259,000. As at 31st December 2015, the Group did not have any bank loans or overdrafts.

The Group conducted the business mainly in the China Mainland market through its PRC subsidiaries. Most of the relevant transactions were denominated in RMB and transactions involving foreign currencies were minimal. These PRC subsidiaries paid dividends in RMB to the Hong Kong holding companies regularly which in turn placed them as bank deposits in Hong Kong. As at 31st December 2015, 72.6% and 25.6% of the Group's cash and bank balances were in RMB and Hong Kong dollar respectively, compared with those of 91.6% and 6.3% at the end of last year. During the year, the Group converted a part of its RMB bank deposits kept in Hong Kong into Hong Kong dollar to reduce the exchange risk resulting from the fluctuation of RMB.

As at 31st December 2015, the Group's current assets and current liabilities were HK\$1,672,031,000 and HK\$363,816,000 respectively, with a current ratio at 4.6. Total current liabilities were 10.1% of the average capital and reserves attributable to owners of the Company of HK\$3,596,618,000.

As at 31st December 2015, the Group did not have any material contingent liabilities or capital commitments and had not charged any of the Group's assets.

#### **GROUP RESULTS**

#### Turnover and gross profit

During the year under review, global economy was unstable following the turmoil of the China Mainland financial market and devaluation of RMB. The Group with a major presence in the Mainland market, recorded a total turnover for the year of HK\$1,509,640,000, representing a year-on-year drop of 2%. The decrease was coming from the apparel business in the China Mainland and the Singapore markets and mainly related to exchange rate fluctuations. Income from the Group's property investment and licensing businesses were all higher than that of last year.

Gross profit for the year was HK\$905,524,000, representing an increase by 5% from HK\$858,614,000 of last year. Overall gross profit margin was approximately 60%, up by about 4.3 percentage points from 55.7% of last year. Gross profit margin for our apparel business in China Mainland was 54.6%, representing an increase of 5.4 percentage points. This is mainly due to the reversal of impairment for inventories and better product cost control in China during the year. Besides, due to effective control, direct operating expenses for investment properties remained stable despite of the growth in rental income during the year.

#### Operating expenses and operating profit

Selling and marketing costs for the year increased by 12% to HK\$400,068,000. The growth in sales of the Group's e-commerce operation in China during the year caused the increases in relevant commission expenses. Besides, the Group put more resources in advertising and promotion activities and in shop decoration following the launch of new decoration design during the year. Due to the higher proportion of turnover generated from self-operated retailing and e-commerce businesses which incurred more selling expenses, percentage of selling and marketing costs to the overall turnover increased from 23.1% of last year to 26.5%.

Administrative expenses of the Group during the year were HK\$217,657,000, increased by 9% from last year. This was due to the devaluation of RMB during the year which resulted in an exchange loss (mainly on RMB deposits in Hong Kong) of HK\$28,416,000, while exchange loss for last year was HK\$8,027,000. Administrative expenses for the year will be 1% lower than last year if effects on exchange loss were excluded.

During the year, the Group recorded fair value gains on investment properties of HK\$169,135,000. Other gains for last year included fair value gains on investment properties of HK\$107,831,000 and gains on disposal of assets classified as held for sale (the properties in Anhua Road, Changning District, Shanghai) of HK\$90,682,000.

Operating profit for the year amounted to HK\$456,934,000 which marked a decrease of 9% from HK\$501,040,000 of last year. The operating profit margin was approximately 30.3% and was lower than last year's 32.5% by 2.2 percentage points mainly due to the decrease in other gains resulted from the one off gain from the disposal of property in last year.

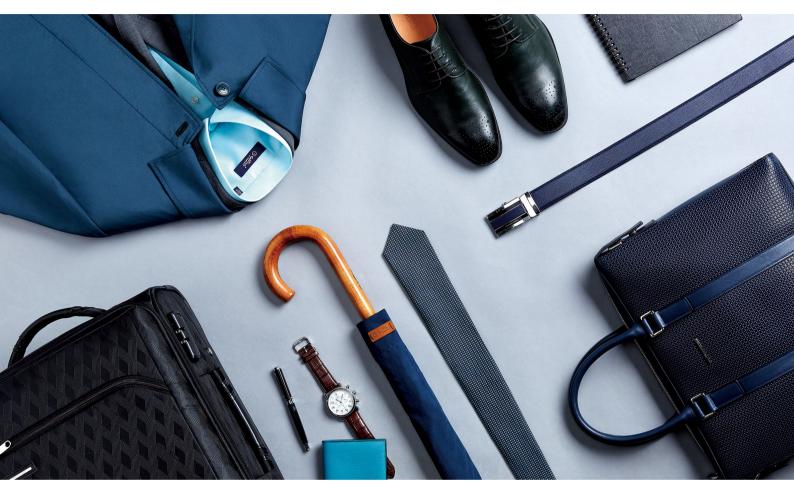

#### Profit attributable to owners of the Company

Profit attributable to owners of the Company for the year was HK\$401,872,000, decreased by 5% from HK\$421,042,000 of last year. Profit for the year would be HK\$247,212,000 if fair value gains after tax on investment properties of HK\$154,660,000 were excluded. Such profit marked a decrease of 3% from HK\$255,382,000 of last year if the fair value gains after tax on investment properties of HK\$97,648,000 and gains after tax on disposal of assets classified as held for sale of HK\$68,012,000 were excluded. However, profit will be 5% higher than last year if effects on exchange loss were also excluded.

#### **FINAL DIVIDEND**

The Directors have recommended the payment of a final dividend of 14.0 HK cents per share (2014: 16.0 HK cents per share) for the year ended 31st December 2015, totalling HK\$137,496,000 (2014: HK\$157,138,000). Subject to the shareholders' approval at the forthcoming annual general meeting, the final dividend will be paid on or about 7th June 2016 to shareholders whose names appear on the Register of Members as at 27th May 2016.

#### **BUSINESS REVIEW**

#### **Apparel Business**

#### China Mainland and Hong Kong SAR Markets

During the year under review, China Mainland's economy continued to slow down alongside a drop in GDP growth. With the financial market fluctuating, the stock market plummeting from its high of the early months and the RMB devaluing in the second half of the year, downside pressure was the greatest in years. This dealt a heavy blow to consumer confidence despite repeated government stimuli to boost domestic demand. In the circumstances, the Group's apparel business was faced with immense difficulties in the local market

In China Mainland, the Group has been conducting its apparel operation primarily through wholesaling to distributors in various cities and provinces, through self-operated retail shops (including factory outlets) located mainly in Guangzhou, Shanghai and Beijing, as well as

through e-commerce. For the year as a whole, overall turnover decreased by approximately 2% when compared with last year due to devaluation of RMB. However, turnover was in line with last year in term of RMB which was the result of the growth in e-commerce being offset by decrease in other lines of businesses.

Regarding our wholesaling operation, business of the Group's distributors has not improved as they were still struggling with gloomy market sentiment and sluggish inventory turnover. Also, department stores asked our distributors for increasing expenses and higher discounts to customers. During the year, the Group mainly sold its 2015 collections to distributors with the sales amount comparable with that of last year. To ease their operating pressure, distributors were allowed to return off-season stocks for our e-commerce sales, resulting in a year-on-year decrease of approximately 7% in sales to distributors in RMB.

The Group has made it a practice to regularly review the performance of local distributors. To further expand sales for the Goldlion brand, appropriate assistance has been offered to distributors in order to enhance their sale capabilities.

Affected by weak spending and unfavorable retail market conditions, sales of self-operated retail shops were less satisfactory than expected. In the middle of the year, the Group took over 15 retail shops in Chongqing that were originally operated by our local distributor. Annual sales of self-operated retail shops, excluding those in Chongqing, fell by about 10%. Except for the Guangzhou area, the amount of which remained unchanged, sales of comparable retail outlets in Beijing and Shanghai both registered double-digit decreases.

The weak market necessitated a bigger discount to be offered at our factory outlets, resulting in a year-on-year decrease of approximately 9% in overall sales.

At the end of the year, the Group had approximately 1,020 retail outlets (including factory outlets) in China, among which about 100 were self-operated. The total number of retail outlets was about 100 less than that at the end of last year owing to the closure of certain low performers. The Group will continue to review the business of its outlets to ensure operational cost-effectiveness.

Launched in the second half of 2013, e-commerce became increasingly established during the year. Overall sales increased by about 86% from last year, which is better than our expectation. Without compromising offline sales, online stores were opened at major e-commerce websites in China Mainland primarily for clearing off-season inventories. In view of the rapid growth in e-sales in the Mainland market, e-commerce is expected to become a driver of the Group's business growth.

Due to the sales growth of e-commerce operations which have been set up mainly for clearing off-season stocks, overall inventory balance at end of the year was lower than that of last year. As a result, a reversal of impairment for inventories in China by approximately HK\$27,420,000 was recognized during the year.

Licensing income for the year amounted to HK\$94,094,000, representing an increase of around 5% from last year. The growth was mainly attributable to the annual increment of license fees stipulated in the licensing agreements. During the year, the Group granted licenses for distribution of shoes, leather goods, undergarments, woollen sweaters and casual wear in the China Mainland market. The Group also strengthened supervision over licensees and provided them with appropriate support through our designated licensing department. The aim is to ensure that they are in line with the Group's brand development.

#### Singapore and Malaysia Markets

For the year as a whole, overall sales of the Group's businesses in Singapore and Malaysia amounted to HK\$110,490,000, representing a decrease of approximately 13% when compared with last year. The drop was partly attributable to the weak Singapore Dollar, the exchange rate of which was 7% lower than that of the previous year. In local currency, sales also reduced by approximately 7% from last year due to the weak market condition.

During the year, both Singapore and Malaysia continued to suffer from an economic slowdown. Retail weakened across the board with visitors and consumer spending both dwindling, greatly impacting on the Group's local business.

Sales of comparable retail outlets decreased by about 8% in local currency when compared with last year. The total number of outlets remained the same as that of last year since the opening of 2 shops towards the end of the year was offset by the closure of 2 counters in department stores that went out of business. At the end of the year, there were a total of 10 Goldlion shops and 22 counters in Singapore compared with 21 counters in Malaysia.

The Group's vigorous efforts in cost control during the year have successfully brought down overall operating costs. There was, however, a slide in gross profit margin along with sales in addition to an inventory impairment of HK\$3,558,000 caused by an increase in off-season stocks. As a result, a loss of HK\$5,417,000 was registered for the Singapore and Malaysia markets against an operating profit for last year of HK\$2,340,000.

#### **Property Investment and Development**

The Group's investment property portfolio had no significant changes since the end of last year and business has continued to remain stable during the year. Fair value gains on investment properties recognized by the Group after independent professional valuations amounted to HK\$169,135,000. These included gains of HK\$111,233,000 from investment properties in Hong Kong, the growth of which was largely attributable to the upward rental trend in the local properties held by the Group and the buoyancy of the local property market. The fair value gains for last year stood at HK\$107,831,000.

Rental income and building management fees for the year amounted to HK\$156,673,000 and HK\$41,707,000 respectively, representing an increase of around 3% in total over last year. Direct operating expenses on investment properties were comparable with last year's under the Group's stringent cost controls. Operating profit for the business unit excluding fair value gains on investment properties and gains from disposals of property was therefore approximately 11% higher than last year.

Leasing of Goldlion Digital Network Centre in Tianhe, Guangzhou, continued to grow steadily and occupancy rate was maintained at around 94%. Coupled with renewal of leases at a satisfactory rental level, this has led to a year-on-year increase of approximately 4% in rental income and building management fees in RMB.

In Shenyang, leasing of Goldlion Commercial Building was likewise stable, with overall occupancy rate maintained at 100%. Following renewal of a major lease at a higher rental level, rental income and building management fees in RMB for the year increased by approximately 3% over last year.

In Hong Kong, on account of higher rental levels under new leases, total rental income and building management fees of the Group's local properties increased by approximately 8% over last year. As at the end of year, all local properties held by the Group were leased out. Regarding Goldlion Holdings Centre in Shatin, the Group has already applied to the Lands Department for waiver for conversion of the land use by end of the year following the approval of the revitalization project by the Town Planning Board.

Regarding the piece of land with a site area of approximately 75,949 square meters in Meixian, the certificate of land use right was not granted until early this year owing to resettlement delays. With part of the land formation works undertaken during the year, the project is currently at the initial planning phase and caution will be exercised when executing the development plan.

#### **PROSPECTS**

Although some economic analyses predicted a negative outlook for China Mainland economy, the Group is optimistic about its long-term economic development. After years of rapid growth, the current slowdown is only a healthy adjustment that paves way for stronger development in the long run. Since the market is likely to remain volatile in the short term, business environment is expected to be fraught with difficulties and challenges in 2016, especially in the first half of the year when all unfavorable factors come into effect. Sales of 2016 spring and summer products are therefore expected to be highly affected accordingly, especially our wholesaling business to distributors.

At present, wholesaling to distributors remains to be the Group's most important business segment. To ensure sustainable development, the Group will take measures to provide distributors with a more favorable operating environment and to foster their confidence. The Group will supply them with better quality, more fast moving and competitive products and will increase the return and exchange ratio beginning with the 2016 fall and winter products. Total preliminary order amount from the 2016 fall and winter collections sales fair held in early March is just slightly lower than those for the corresponding season last year, indicating that the distributors' confidence has already bottomed out. The goods ordered will be delivered during the second half of the year.

Considering the on-going adjustment in China Mainland's retail market, it is unlikely that the Group's business of self-operated retail shops and factory outlets will make any major breakthrough in 2016.

With regard to the Group's e-commerce, sales have initially been a success. In view of the rapid surge in online sales in recent years, remarkable growth is expected to continue. Taking into account the drop in off-season stocks, the proportion of special selected items to be sold online will be raised to sustain growth.

The rapid change in the China Mainland market in recent years suggests that conventional business model may not be able to respond most effectively to the latest market developments. To ensure business growth in the foreseeable future, the Group will closely monitor the development of the macro market environment in its review and enhancement of existing operations. Feasible and profitable business strategies will also be formulated to this end.

In Singapore, the Group has been troubled by a lack of breakthroughs and high operating costs in recent years. To improve operating results, series of measures are being taken such as the opening of a number of shops that offer haute couture products. Besides enhancing our brand image, this will hopefully lead to a boost in business.

As for property investment, the Group will continue to enhance the leasing potential of the properties on hand for maintaining a steady growth in rental income. In Hong Kong, detailed planning for the revitalization of Goldlion Holdings Centre in Shatin will begin once relevant approval procedures are cleared. In Meizhou, the Group will commence works when appropriate based on the development plan.

#### **ACKNOWLEDGEMENT**

On behalf on the Board, I would like to extend my gratitude to our staff for their dedication and continuous support.

#### **BOARD OF DIRECTORS** (continued)

#### **Board Meetings** (continued)

Dates of regular Board meetings are scheduled in the prior year to provide sufficient notice for all the Directors an opportunity to attend. For special Board meeting, reasonable notice is given.

The Company Secretary assists the Chairman in establishing the meeting agenda, and each of the Directors may request inclusion of items in the agenda. Board members are also provided with timely and adequate information prior to the Board meetings, and on an on-going basis, can have separate and independent access to the Group's senior management. Where queries are raised by Directors, prompt and full responses will be given if possible.

At the Board meetings, there is open atmosphere for Directors to contribute alternative views and major decisions would only be taken after a full discussion at the meetings. For matters on transactions where Directors are considered having conflict of interests, the Directors concerned would not be counted in quorum of meeting and shall abstain from voting of the relevant resolution.

The Directors can have separate and independent access to the Company Secretary. Minutes of the meetings are kept by the Company Secretary and are open for inspection by Directors.

All Directors have full and timely access to all relevant information about the Group so that they can discharge their duties and responsibilities as Directors effectively. Where any member of the Board, whether individual or as a group, needs independent professional advice, the Company will appoint a professional advisor to render such service. The costs of such professional services will be borne by the Company.

A directors' and officers' liabilities insurance in respect of legal actions against Directors and officers has also been arranged.

#### **Chairman and Chief Executive Officer**

The roles of Chairman and Chief Executive Officer of the Company are segregated and are not performed by the same individual. Currently, Dr. Tsang Hin Chi is the Chairman of the Board and Mr. Tsang Chi Ming, Ricky, a son of Dr. Tsang Hin Chi, serves as the Company's Chief Executive Officer.

There are clear and written definitions of the responsibilities and functions between the Chairman and the Chief Executive Officer. The Chairman focuses on the Group's strategic development and provides leadership to the Board. He also ensures that good corporate governance practices and procedures are established and all Directors are properly briefed on issues arising at the Board meetings and receive, in a timely manner, adequate information which is accurate, clear, complete and reliable.

The Chief Executive Officer is being assisted by senior management of the Group in assuming his executive duties and responsibility for the Group's day-to-day operation and the effective implementation of corporate strategy and policies, and is answerable to the Board.

The Chairman had held a meeting with the non-executive Directors (including independent non-executive Directors) without the presence of executive Directors.

#### **BOARD OF DIRECTORS** (continued)

#### Appointments, re-election and removal of directors

All Directors have formal agreements or appointment letters setting out the key terms and conditions of their appointment. In accordance with the Company's Articles of Association, any Director appointed to fill casual vacancy should be subject to election at the first general meeting after their appointment and every Director has been subject to retirement by rotation at least once every three years. Each of the non-executive Directors has entered into formal appointment letter setting out their specific term of appointment. Subject to the provisions of the Company's Articles of Association, each of the non-executive Directors has a term of three years commencing from the date of the annual general meeting at which they are re-elected.

The Board has established the Nomination Committee with specific terms of reference. The Nomination Committee consists of three independent non-executive Directors, a non-executive Director and an executive Director. List of members of Nomination Committee is set out in the "Corporate Information" on page 2.

With a view to ensuring that the Board has members with the right profile of expertise, skill and ability as well as an appropriate balance of independent directors, the Nomination Committee is responsible for formulating policy and making recommendations to the Board on nominations, appointment of Directors and Board succession. The Committee develops selection procedures for candidates, and considers different criteria including appropriate professional knowledge and industry experience, as well as consult external recruitment professionals when required. The Committee also reviews the size, structure and composition of the Board and assesses the independence of the independent non-executive Directors. The Committee is provided with sufficient resources enabling it to perform its duties and it can seek independent professional advice at the Company's expense if necessary.

The Company has adopted a Board diversity policy setting out approach to achieve diversity on the Board. Board appointments are based on merit and candidates are considered against objective criteria, having due regard to diversity on the Board, including but not limited to race, gender, age, cultural and educational background, professional experience, skill and knowledge. The Nomination Committee will monitor the implementation of the Diversity Policy and review as appropriate.

The Nomination Committee held one meeting during the year to discuss the nomination of retiring Directors at the annual general meeting and other relevant matters. The attendance records are as follows:

#### **Compliance with Model Code**

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 of the Listing Rules. All the Directors confirmed that they have complied with the relevant requirements under the Model Code during the year.

B: reading newspapers, journals and updates relating to the economy, general business or director's duties and responsibilities

#### REMUNERATION COMMITTEE

The Board has established the Remuneration Committee in 2005 with specific terms of reference. The Remuneration Committee is currently consisting of three independent non-executive Directors, a non-executive Director and an executive Director. List of members of Remuneration Committee is set out in the "Corporate Information" on page 2.

The key role of the Committee is to formulate a formal and transparent procedure for setting of remuneration policy, to review and recommend to the Board the remuneration policy, and to review the remuneration packages of the executive Directors and members of the senior management. The main objective of the remuneration policy is to ensure that the Company is able to attract, retain and motivate a high-calibre team of staff.

In determining remuneration packages, the Company mainly considers employment conditions within the same industry and in comparable companies, as well as the Group's relative performance and the performance of the individual staff.

In respect of the requirement under Code Provision B.1.2(c), the Company has adopted the model in which the Remuneration Committee should make recommendations to the Board on the remuneration packages of individual executive Directors and senior management. The Remuneration Committee reviews remuneration packages of the executive Directors and senior management regularly to ensure that those packages are commensurate with their performance. The chairman of the Committee will report the work, findings and recommendations to the Board after each meeting.

The Board provides sufficient resources (including access to independent professional advice if necessary) to the Remuneration Committee to enable it to discharge its duties effectively.

To maintain a proper management control, no Director and member of the senior management can determine his own remuneration.

The Remuneration Committee held two meetings during the year and the attendance records were as follows:

Members	Attendar	rce (%)
Mr. Nguyen, Van Tu Peter (Chairman)	(2/2)	100%
Dr. Lau Yue Sun	(2/2)	100%

Mr. Tsang Chi Ming, Ricky	(2/2)	100%

#### **ACCOUNTABILITY AND AUDIT**

#### Financial reporting

The Board is responsible for overseeing the preparation of financial statements of each financial period which give a true and fair view of the state of affairs of the Group and the results for the corresponding period, as well as price-sensitive announcements and other financial disclosures as required. The Company's financial statements are prepared in accordance with all relevant statutory requirements and applicable accounting standards. In preparing the financial statements for the year, the Directors have:

- selected suitable accounting policies and applied them consistently;
- adopted accounting principles generally accepted in Hong Kong and comply with accounting standards issued by the Hong Kong Institute of Certified Public Accountants;
- made judgements and estimates that are reasonable; and have prepared the financial statements on the going concern basis.

#### **Audit Committee**

The Audit Committee was established in 1998. Currently the Committee comprises three independent non-executive Directors and a non-executive Director, and is chaired by Mr. Li Ka Fai, David. Mr. Li is a fellow member of the Hong Kong Institute of Certified Public Accountants and has extensive accounting and auditing experiences.

The Audit Committee is primarily assisting the Board in fulfilling its oversight responsibilities for financial reporting, risk management and evaluation of internal controls and auditing processes. It also reports to the Board on the matters relating to the Audit Committee under the relevant regulations. List of members of Audit Committee is set out in the "Corporate Information" on page 2.

The Committee is also empowered to investigate any matters relating to the Group's accounting, auditing, internal controls and financial practices, with full access to records, resources and personnel, to enable it to discharge its functions properly.

In respect of maintaining an appropriate relationship with the Company's auditors, the Committee is responsible for making recommendations to the Board on the appointment, reappointment and removal of the Company's external auditors, and to approve their remuneration and terms of engagement, and any questions of resignation or dismissal of the auditors. The Committee reviews and monitors the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standards. The Committee also discusses with the auditors the nature and scope of the audit and reporting obligations before the audit commences.

The Audit Committee will review the external auditor's management letter, any material queries raised by the external auditors to management about accounting records, financial statements or systems of control and management's response. The chairman of the Committee will report the work, findings and recommendations to the Board after each meeting.

The Committee had held a meeting with the external auditors without the presence of the management to discuss various auditing issues. The Committee has also conducted regular reviews on the nature and extent of non-audit services supplied by the external auditors.

#### **ACCOUNTABILITY AND AUDIT (continued)**

**Audit Committee** (continued)

The Audit Committee held four meetings during the year and the attendance records were as follows:

Members	Attendar	Attendance (%)	
Mr. Li Ka Fai, David (Chairman)	(4/4)	100%

#### Internal controls

The Board has ultimate responsibility for maintaining a sound and effective internal control system, which is designed to provide reasonable but not absolute assurance against material errors, losses or fraud. The Board, through the Audit Committee, has conducted regular reviews on the effectiveness of the system.

The Group's internal control system comprises an established organizational structure and comprehensive policies and working procedures. Areas of responsibilities of each business and operational unit are reasonably defined to ensure sufficient segregation of duties.

The key procedures that the Board established to provide effective controls are as follows:

- a distinct organizational structure exists with defined lines of authority and control responsibilities;
- a comprehensive management accounting system is in place to provide financial and operational performance indicators to the management and the relevant financial information for reporting and disclosure purpose;
- policies and procedures are designed for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information used within the business or for publication;
- systems and procedures are also in place to identify, measure, manage and control risks including reputation,
   strategic, legal, credit, market, liquidity, interest rate and operational risks;
- procedures are designed to ensure compliance with applicable laws, rules and regulations;
- Audit Committee reviews recommendations submitted by external auditors to the Group's management in connection with the annual audit and interim review.

#### **ACCOUNTABILITY AND AUDIT** (continued)

#### **Internal controls** (continued)

The Group's Internal Audit Department plays a major role in monitoring the internal control of the Group. The Department conducts systematic reviews of the Group's internal control system by using a risk-based audit approach and reviews the effectiveness of the Group's system of internal control against the framework of the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in order to provide reasonable assurance of the effectiveness of the system. The Department reports directly to the Audit Committee and has free access to review all aspects of the Group's activities and controlling system. The Department summarizes audit findings and control weaknesses and reports to the Audit Committee on a regular basis.

The whistle-blowing procedure of the Group is in place during the year. The procedure is to provide a reporting channel to employees of the Group, in confidence, to raise concerns about possible improprieties or frauds in financial reporting, internal control or other matters to the Audit Committee.

During the year, the Audit Committee, as delegated by the Board, has reviewed the adequacy and effectiveness of the Group's internal controls, including financial, operational and compliance controls as well as risk management functions. The annual review also considered the adequacy of resources, staff qualifications and experience, training programs and budgets of the Group's accounting and financial reporting function.

#### External auditors and their remuneration

The external audit function provides an objective assessment of the financial information presented by the management, and is considered one of the essential elements to ensure effective corporate governance. A statement by the Company's external auditors, PricewaterhouseCoopers, in respect of their reporting responsibilities is set out in the Independent Auditor's Report on page 37.

During the year, total auditors' remuneration in relation to statutory audit work of the Group amounted to HK\$3,642,000, of which a sum of HK\$3,130,000 was paid to PricewaterhouseCoopers. The remuneration for PricewaterhouseCoopers and its affiliated firms, for services rendered is broken down below:

	HK\$
Statutory audit and interim review fee	3,130,000
Tax consulting services	73,000
Total	3,203,000

#### **COMMUNICATION WITH SHAREHOLDERS**

The Board strives for timeliness and transparency in its disclosures to shareholders and the public. The Company disseminates its information to shareholders in a timely manner through various channels including interim and annual reports, published announcements, press releases and shareholders' circulars. Regular meetings are held with investors, analysts, bankers and the press. The Group has a corporate website where shareholders and members of the public are able to access to up-to-date corporate information and events related to the Group.

Contact details of the Company (including telephone and fax numbers, postal and email addresses) are listed in the "Corporate Information" on page 2. Shareholders can send their enquiries to the Company through these channels. Shareholders can also contact Computershare Hong Kong Investor Services Limited, the share registrar of the Company, if they have any enquiries about their shareholdings and entitlements to dividend.

Shareholders' views on matters relating to the Group are always welcomed by the Company. The Company encourages shareholders to attend at the shareholders' meetings to express any concerns they may have with the Board and management directly.

The annual general meeting of the Company provides a useful platform for dialogue and interaction with all the shareholders. At the annual general meeting, the Chairman as well as chairmen of the Board Committees, or in their absence, members of the Committees and the Company's external auditors are available to answer shareholders' questions.

Proceedings of the annual general meeting are reviewed regularly to ensure that the Company follows good corporate governance practices. The notice of annual general meeting is distributed to all shareholders at least twenty clear business days prior to the date of meeting and the accompanying circular also sets out details of each proposed resolution and other relevant information as required under the Listing Rules. The chairman of the annual general meeting proposes separate resolutions for each issue to be considered and exercises his power under the Articles of Association of the Company to put each proposed resolution to the vote by way of a poll. The procedures for demanding and conducting a poll are explained at the meeting prior to the polls being taken. Voting results are posted on the websites of the Company and the Stock Exchange on the day of the meeting.

## INDEPENDENT AUDITOR'S REPORT

羅兵咸永道

#### TO THE MEMBERS OF GOLDLION HOLDINGS LIMITED

(incorporated in Hong Kong with limited liability)

We have audited the consolidated financial statements of Goldlion Holdings Limited (the "Company") and its subsidiaries set out on pages 38 to 95, which comprise the consolidated balance sheet as at 31st December 2015, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

### DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants, and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **OPINION**

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and its subsidiaries as at 31st December 2015, and of their financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

#### 2.1 Basis of preparation

The consolidated financial statements include the financial statements of the Company and its subsidiaries made up to 31st December.

The consolidated financial statements of the Company have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRS") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). They have been prepared under the historical cost convention, as modified by the revaluation of investment properties.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are especially significant to the consolidated financial statements are disclosed in note 4.

#### (a) Amended standards adopted by the Group

The following amendments to standards have been adopted by the Group for the first time for the financial year beginning on or after 1st January 2015:

- Amendments from annual improvements to HKFRSs 2012 Cycle, on HKFRS 8, "Operating segments", HKAS 16, "Property, plant and equipment", HKAS 24, "Related party disclosures" and HKAS 38, "Intangible assets".
- Amendments from annual improvements to HKFRSs 2013 Cycle, on HKFRS 3, "Business combinations", HKFRS 13, "Fair value measurement" and HKAS 40, "Investment property".

The amendments do not have a significant impact on the Group's consolidated financial statements.

For the year ended 31st December 2015

#### (c) New Hong Kong Companies Ordinance (Cap. 622)

In addition, the requirements of Part 9 "Accounts and Audit" of the new Hong Kong Companies Ordinance (Cap. 622) come into operation during the financial year, as a result, there are changes to presentation and disclosures of certain information in the consolidated financial statements.

(d) The following new and amended standards have been issued but are not effective for the financial year beginning 1st January 2015 and have not been early adopted

The Group plans to adopt the above new standards and amendments when they become effective. The Group has already commenced an assessment of the related impact of adopting the above new standards and amendments to the Group. The Group is not yet in a position to state whether substantial changes to the Group's accounting policies and financial statements presentation will result.

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.2 Subsidiaries

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

Intra-group transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

#### 2.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer.

#### 2.4 Foreign currency translation

#### (a) Functional and presentation currency

Items included in the financial statements of each of the group entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollars, which is the Company's functional and the Group's presentation currency.

#### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the income statement.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **2.4** Foreign currency translation (continued)

#### (c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) all resulting currency translation differences are recognized in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Currency translation differences arising are recognized in other comprehensive income.

#### (d) Disposal of foreign operation and partial disposal

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation), all of the currency translation differences accumulated in equity in respect of that operation attributable to owners of the Company are reclassified to the income statement.

In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated currency translation differences are re-attributed to non-controlling interests and are not recognized in the income statement.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.5 Property, plant and equipment

Land and buildings comprise mainly factories, retail outlets and offices other than investment properties as mentioned in note 2.7. Leasehold land classified as finance lease and all other property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed in the income statement during the financial period in which they are incurred.

Leasehold land classified as a finance lease commences amortization from the time when the land interest becomes available for its intended use. Amortization on leasehold land classified as finance lease and depreciation on other assets is calculated using the straight-line method to allocate their costs to their residual values over their estimated useful lives, as follows:

Leasehold land classified as a finance leaseRemaining lease termBuildings2% to 5%Plant and machinery10% to 20%Furniture and fixtures20% to 33%Computers20% to 33%Motor vehicles20% to 25%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 2.8).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount. These are included in the income statement.

#### 2.6 Land use rights

Land use rights are stated at cost less accumulated amortization and accumulated impairment losses. Cost mainly represents consideration paid for the rights to use the land on which plants and buildings are situated for a period of between 40 to 70 years from the dates the respective rights were granted. Amortization of land use right is calculated on a straight-line basis over the period of the rights.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.7 Investment properties

Investment properties, principally comprising leasehold land, land use right and buildings, are held for long-term rental yields or for capital appreciation or both, and are not occupied by the Group. They also include properties that are being constructed or developed for future use as investment properties. Land held under operating leases is classified and accounted for as investment properties when the rest of the definition of investment property is met. The operating lease is accounted for as if it was a finance lease.

Investment properties are measured initially at their costs, including related transaction costs. After initial recognition, investment properties are carried at fair value, representing open market value determined at each reporting date by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If the information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Changes in fair values are recorded in the income statement as part of other gains.

#### 2.8 Impairment of investments in subsidiaries and non-financial assets

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

Assets that have indefinite useful lives are not subject to amortization and are tested annually for impairment. All assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffer an impairment are reviewed for possible reversal of the impairment at each reporting date.

#### 2.9 Property under development held for sale

Property under development is stated at the lower of cost and net realizable value. Net realizable value is determined by reference to the sale proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses and the anticipated costs to completion based on prevailing marketing conditions.

Development cost of property primarily comprises land use rights, construction costs and professional fees incurred during the development period.

Property under development is classified as current asset unless the construction period of the relevant property development project is expected to complete beyond normal operating cycle.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.10 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises materials, direct labour and an appropriate proportion of all production overhead expenditure. Net realizable value is the estimated selling price in the ordinary course of business less applicable variable selling expenses.

#### 2.11 Financial assets

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's loans and receivables comprise "trade and other receivables" and "cash and cash equivalents" in the balance sheet (notes 2.12 and 2.13).

Regular way purchases and sales of financial assets are recognized on the trade-date – the date on which the Group commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

#### 2.12 Trade and other receivables

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators that the receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the assets is reduced through the use of an allowance account, and the amount of the loss is recognized in the income statement within administrative expenses. When a trade receivable is deemed uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against administrative expenses in the income statement.

#### 2.13 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.14 Assets classified as held for sale

Non-current assets are re-classified as held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. They are stated at the lower of carrying amount and fair value less costs to sell, except for investment properties. Investment properties, if held for sale, continue to be measured in accordance with the policies set out in note 2.7.

#### 2.15 Share capital

Ordinary shares are classified as equity. Where any group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to owners of the Company until the shares are cancelled or reissued. Where such shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to owners of the Company.

#### 2.16 Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

#### 2.17 Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognized in the consolidated income statement, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **2.17** Current and deferred income tax (continued)

Deferred income tax liabilities are provided on temporary differences arising from investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognized on deductible temporary differences arising from investments in subsidiaries only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the temporary difference can be utilized.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### 2.18 Employee benefits

#### (a) Employee leave entitlements

Employee entitlements to annual leave and long service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity or paternity leave are not recognized until the time of leave.

#### (b) Profit sharing and bonus plans

The expected costs of profit sharing and bonus payments are recognized as a liability when the Group has a present legal or constructive obligation as a result of services rendered by employees and a reliable estimate of the obligation can be made.

Liabilities for profit sharing and bonus plans are expected to be settled within the next twelve months and are measured at the amounts expected to be paid when they are settled.

#### (c) Pension obligations

The Group operates defined contribution retirement schemes which are available for all qualified employees in Hong Kong and Singapore. The assets of the schemes are held separately from those of the Group in independently administered funds. For the retirement schemes for Hong Kong and Singapore employees, monthly contributions made by the Group and the employees are calculated as a fixed percentage of the employees' basic salaries or a fixed sum for each employee where appropriate. Contributions to these schemes by the Group are expensed as incurred and/or are reduced by contributions forfeited by employees who leave the schemes prior to vesting fully in the Group's contributions.

The Group also participates in the employee pension schemes operated by the municipal governments of various cities in China Mainland and is required to make annual contributions to these schemes. The municipal governments are responsible for the entire pension obligations payable to retired employees. The only obligation of the Group is to pay the ongoing required contributions under these schemes. The contributions are charged to the income statement as incurred.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.19 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating sales within the Group.

The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

#### (a) Sales of goods – wholesale

Sales of goods are recognized when a group entity has delivered products to the customer, the customer has accepted the products and collectibility of the related receivables is reasonably assured.

#### (b) Sales of goods – retail

Sales of goods are recognized when a group entity sells a product to the customer. Retail sales are usually in cash or by credit card. The recorded revenue is stated without deduction of credit card fees payable for the transaction. Such fees are included in selling and marketing costs.

#### (c) Sales of properties

Revenue from sales of properties is recognized when a group entity has delivered the relevant properties to the purchaser and collectibility of related receivable is reasonably assured. Deposits and instalments received on properties sold prior to the date of revenue recognition are included in the balance sheet under current liabilities.

### (d) Gross rental income from investment properties

Gross rental income from investment properties is recognized on a straight-line basis over the periods of the respective leases.

#### (e) Licensing income and building management fee

Licensing income and building management fee income are recognized on an accrual basis in accordance with the substance of the relevant agreements.

#### 2.20 Interest income

Interest income is recognized on a time-proportion basis using the effective interest method.

#### 2.21 Leases (as the lessee for operating leases)

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor), including upfront payment made for land use rights, are charged to the income statement on a straight-line basis over the period of the lease.

For the year ended 31st December 2015

# 2 BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.22 Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the Group's financial statements in the period in which the dividends are approved by the Company's shareholders for final dividend and Board of Directors for interim dividend.

#### 3 FINANCIAL RISK MANAGEMENT

#### 3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk and cash flow interest rate risk), credit risk, and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

#### (a) Market risk

(i) Foreign exchange risk

Foreign exchange risk is the risk that the value of an asset, liability or highly probable forecast transaction denominated in foreign currency will fluctuate because of changes in foreign exchange rates. The Group operates in various regions and is exposed to foreign exchange risk primarily arising from bank deposits, cash and cash equivalents, trade receivables and interest receivables which are denominated in Renminbi and Singapore dollar, and net investments in foreign subsidiaries in China Mainland and Singapore.

At 31st December 2015, if Hong Kong dollar had weakened/strengthened by 6% against Renminbi with all other variables held constant, post-tax profit for the year would have been HK\$18,772,000 (2014: HK\$18,625,000) higher/lower, mainly as a result of foreign exchange gains/losses on translation of Renminbi denominated bank deposits, cash and cash equivalents, trade receivables and interest receivables.

Management believes that a 7% appreciation/depreciation of Singapore dollar against Hong Kong dollar would not have a material effect on the Group's post-tax profit for the year. Therefore, no sensitivity analysis for Singapore dollar is presented.

#### (ii) Cash flow interest rate risk

Cash flow interest rate risk is the risk that the future cash flows associated with a financial instrument will fluctuate because of changes in market interest rates. The Group's income and operating cash flows are substantially independent of changes in market interest rates, except for the interest income derived from bank deposits. Apart from bank deposits, the Group has no significant interest bearing assets or liabilities.

For the year ended 31st December 2015

#### 3 FINANCIAL RISK MANAGEMENT (continued)

#### **3.1** Financial risk factors (continued)

#### (b) Credit risk

The Group is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due. Credit risk is managed on a group basis and individual basis. Credit risk arises from cash and cash equivalents and deposits with banks, credit exposures to wholesale and retail customers and other parties, including outstanding receivables and deposits and other receivables. Impairment provisions are made for losses that have been incurred at the balance sheet date.

The Group limits its exposure to credit risk by rigorously selecting its counterparties including the deposit-takers and debtors and by diversification. Bank deposits are placed only with major and sizeable banks approved by the Board from time to time and there is no significant concentration risk to a single counterparty.

The Group mitigates its exposure to risks relating to trade receivables by its established procedures in granting credit only to customers with sound credit track records. Sales to retail customers are settled in cash or using major credit cards. No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by these counterparties.

As at 31st December 2015, the financial assets of the Group that are exposed to credit risk and their maximum exposures are as follows:

	As at 31st Dec	cember 2015	As at 31st Dec	cember 2014

For the year ended 31st December 2015

#### 3 FINANCIAL RISK MANAGEMENT (continued)

#### 3.1 Financial risk factors (continued)

#### (c) Liquidity risk

Liquidity risk is the risk that funds will not be available to meet liabilities as they fall due, and it results from amount and maturity mismatches of assets and liabilities. Prudent liquidity risk management includes maintaining sufficient cash, the availability of funding from an adequate amount of committed credit facilities and the ability to close out market positions. The Company employs projected cash flow analysis to manage liquidity risk by forecasting the amount of cash required and monitoring the working capital of the Group to ensure that all liabilities due and known funding requirements could be met. In addition, banking facilities have been put in place for contingency purposes. As at 31st December 2015, the Group's total available banking facilities amounted to HK\$19,600,000 (2014: HK\$21,000,000).

The table below analyzes the Group's financial liabilities that will be settled on a net basis into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal the carrying balances, as the impact of discounting is not significant.

	2015	2014
	HK\$'000	HK\$'000
Trade payables and other payables		
Less than 1 year	86,611	117,620

#### 3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets.

For the year ended 31st December 2015

#### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### 4.1 Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (a) Write-down of inventories to net realizable value

Net realizable value of inventories is the estimated selling prices in the ordinary course of business, less estimated selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of change in customer taste and competitor actions in response to severe industry cycle. The Group reassesses these estimates at each balance sheet date.

#### (b) Income taxes

The Group is subject to income taxes in a number of different jurisdictions. Significant judgement is required in determining the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax assets relating to certain temporary differences and tax losses are recognized when management considers to be probable that future taxable profit will be available against which the temporary differences or tax losses can be utilized. The outcome of their actual utilization may be different.

#### (c) Useful lives and residual values of property, plant and equipment

The Group determines the estimated useful lives, residual values and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. The Group will increase the depreciation charge prospectively where useful lives are less than previously estimated lives. Actual economic lives may differ from estimated useful lives; actual residual values may differ from estimated residual values. Periodic review could result in a change in depreciable lives and residual values and therefore depreciation expense in the future periods.

#### (d) Estimate of fair value of investment properties

The fair values of investment properties are determined by using valuation techniques. Details of the judgements and assumptions involved are disclosed in note 8.

For the year ended 31st December 2015

#### 4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (continued)

#### 4.1 Critical accounting estimates and assumptions (continued)

#### (e) Provision for sales return

Sales return provisions are recorded based on the estimated return of goods. The Group estimates the sales return provision based on accumulated experience and the terms in the sales contracts with distributors. Management reassesses the provision at each balance sheet date to ensure the current provision is still appropriate.

# 4.2 Critical judgements in applying the entity's accounting policies Distinction between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property. In making its judgement, the Group considers whether the property generates cash flows largely independently of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to properties but also to other assets used in the production or supply process.

Certain properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions can be sold separately (or leased out separately under a finance lease), the portions are accounted for separately. If the portions cannot be sold separately, the property is accounted for as investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is applied in determining whether ancillary services are so significant that a property does not qualify as an investment property. The Group considers each property separately in making its judgement.

#### 5 OPERATING SEGMENTS

The Group has three reportable segments. The segments are managed separately as each business offers different products and services and requires different marketing strategies. The following summary describes the operations in each of the Group's reportable segments:

Apparel in China Mainland and Hong Kong SAR – Distribution and manufacturing of garments, leather goods and accessories and licensing of brand name in China Mainland and Hong Kong SAR.

Apparel in Singapore and Malaysia – Distribution and manufacturing of garments, leather goods and accessories in Singapore and Malaysia.

Property investment and development – Investment in and development of properties in China Mainland and Hong Kong SAR.

The Group reports the results of its operating segments based on the internal reports reviewed by the chief operating decision maker for the purpose of making strategic decisions.

#### Valuation techniques

For commercial units located in Harbin, China Mainland, the valuation was determined by using the sale comparison approach (Level 2 approach). Sales prices of comparable properties in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square meter.

For other investment properties, the valuations were based on income capitalization approach (term and reversionary method) which largely used unobservable inputs (e.g. market rent, yield, etc) and taking into account the significant adjustment on term yield to account for the risk upon reversionary after expiry of current lease and adjustment on rental value to account for the actual location, type and quality of the properties and supported by the terms of any existence lease, other contracts and external evidence such as current market rents for similar properties (Level 3 approach).

#### 10 PROPERTY UNDER DEVELOPMENT HELD FOR SALE

The Group's interests in property under development held for sale are analyzed as follows:

	2015 HK\$'000	2014 HK\$'000
Land use rights	122,819	_
Development costs	4,336	_
	127,155	_

The property under development held for sale is located in Meixian Area, China Mainland. Under the said Land Use Rights Grant Contract entered between the Meixian Bureau of Land and the Group on 24th January 2014, the delay in commencing construction works of the project after 18th June 2014 may be subject to a penalty. Due to the fact that handover of the land has been delayed and after taking into account of an independent legal advice, the Directors are of the view that the imposition of a penalty by the relevant authority is remote.

The amount of property under development held for sale expected to be completed and realized within the Group's normal operating cycle is HK\$127,155,000 (2014: nil).

For the year ended 31st December 2015

#### TRADE RECEIVABLES, PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES 13

(continued)

Notes:

- (a) Purchase deposits represent the amounts paid by the Group in advance to suppliers mainly for the apparel operation in its ordinary course of business.
- (b) Deposits represent the amounts paid by the Group for acquisition of land use right. The land use certificate was obtained on 4th January 2015 and the deposits were transferred to property under development held for sale for the year ended 31st December

Prepayments, deposits and other receivables do not contain impaired assets.

The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. The Group does not hold any collateral as security.

The Group's sales are on cash on delivery, letter of credit or credit terms ranging from 30 days to 90 days after delivery. At 31st December 2015, an ageing analysis of the trade receivables based on invoice date was as follows:

	2015 HK\$'000	2014 HK\$'000
1-30 days	60,564	67,104
31-90 days	12,371	34,827
Over 90 days	9,586	2,542
	82,521	104,473

There is no concentration of credit risk with respect to trade receivables, as the Group has a large number of customers dispersed in China Mainland and Singapore. The credit quality of trade receivables neither past due nor impaired has been assessed by reference to historical information about the counterparty default rates. The existing counterparties have not defaulted in the past.

As of 31st December 2015, trade receivables of HK\$21,529,000 (2014: HK\$30,236,000) were past due but not considered impaired. The ageing analysis of these trade receivables is as follows:

	2015 HK\$'000	2014 HK\$'000
Overdue less than or up to 3 months	17,815	28,511
Overdue over 3 months and up to 6 months	1,755	1,725
Overdue over 6 months	1,959	-
	21,529	30,236

For the year ended 31st December 2015

#### 13 TRADE RECEIVABLES, PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES (continued)

As of 31st December 2015, trade receivables of HK\$30,000 (2014: HK\$819,000) were considered impaired and were provided in full. The individually impaired receivables mainly relate to distributors and department stores. An ageing analysis of these receivables is as follows:

	2015	2014
	HK\$'000	HK\$'000
Overdue over 6 months	30	819
	30	819

The carrying amounts of the Group's trade receivables, prepayments, deposits and other receivables are denominated in the following currencies:

## 25 INCOME TAX EXPENSE (continued)

Hong Kong profits tax has been provided at the rate of 16.5% (2014: 16.5%) on the estimated assessable profit for the year.

Taxation on profits generated in the PRC has been calculated on the estimated assessable profit for the year at the rate of 25% (2014: 25%). Taxation on profits outside Hong Kong and the PRC has been calculated on the estimated assessable profit for the year at the rates of taxation prevailing in the countries in which the Group operates.

The tax on the Group's profit before income tax differs from the theoretical amount that would arise using the tax rate of the home country of the Company as follows:

	2015	2014
	HK\$'000	HK\$'000
Profit before income tax	492,373	532,646

	206,244	235,707

#### Note:

At a meeting held on 18th March 2016, the Directors declared a final dividend of 14.0 HK cents per ordinary share. This proposed dividend is not reflected as a dividend payable in these financial statements, but will be reflected as an appropriation of retained earnings for the year ending 31st December 2016.

## **27 EARNINGS PER SHARE**

#### (a) Basic

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the number of ordinary shares in issue during the year.

	2015	2014
Profit attributable to owners of the Company (HK\$'000)	401,872	421,042
Number of shares in issue	982,114,035	982,114,035
Basic earnings per share (HK cents)	40.92	42.87

#### (b) Diluted

The calculation of diluted earnings per share is based on the Group's profit attributable to owners of the Company of HK\$401,872,000 (2014: HK\$421,042,000) and the number of ordinary shares in issue of 982,114,035 (2014: 982,114,035) during the year.

Diluted earnings per share equals basic earnings per share as there were no potential dilutive ordinary shares in issue during the years ended 31st December 2015 and 2014.

For the year ended 31st December 2015
