Chairman's Statement

Dear Shareholders,

On behalf of the board of directors (the "Board") of China Shineway Pharmaceutical Group Limited (the "Company" or "SHINEWAY"), I am pleased to present the annual report of the Group for the year ended 31 December, 2015.

In the last five years, in response to the changing market conditions, SHINEWAY started its infrastructure reform according to its long term development direction, reconsolidated its resources, continued its innovation development and established its long term development strategy plan according to the practical situation in its market place. In 2015, according to our strategy plan, business infrastructure from suppliers to distribution was established. Suitable products were added to our existing product portfolio. The current business covered modern Chinese medicine research and development, production, sales, internet business and prescription granules business.

The sales and marketing management system changed from channel management to terminal management in 2015. The development of terminal management system was established steadily. The research and development system as well as the technology innovation system moved to a new level. The group was gradually transforming to a high technology enterprise. SHINEWAY successfully acquired Beijing Wanter Bio-Pharmaceutical Co., Ltd. in 2015. With biopharmaceutical products including Pseudomonas Aeruginosa injection and others, we started our business in biopharmaceutical sector. The prescription granule department and e-commerce departments were also established. The new business management infrastructure was up and running. Chinese prescription granule products were launched in 2015 and SHINEWAY became the one and only one Chinese prescription granule manufacturer in Hebei. With the support of every staff of the Company, we continued our quality production, integrated our resources, successfully controlled our costs and implemented our result oriented management system. With all the necessary control adjustments, we implemented our management system with all the necessary refinement, normalization and standardization. 2015 was a year for SHINEWAY to set up its foundation, to reform its sales platform and product structure. As general administrative expenses were increased, profit for the years was decreased. Our operating income and profit amounted to RMB2,055 million and RMB658 million respectively.

The Group recorded sales revenue of approximately RMB2,055 million in 2015, representing a year-on-year decrease of approximately 7.8%. The Group's profit for the year amounted to approximately RMB658 million in 2015, representing a year-on-year decrease of approximately 6.7%. The sales of injection products recorded a decrease of approximately 13.4% over the previous year. The sales of soft capsule products recorded a decrease of approximately 8.0% over the previous year. The sales of granule products recorded an increase of approximately 10% as compared with the previous year.

Chairman's Statement

SHINEWAY's innovation research and development system and management system achieved significant achievement in 2015, including the three-level R&D system that further expand our area of research and development. Projects under research and development covered Chinese medicine, chemical drugs, biochemical drugs and healthcare products. We had 4 new drug projects in 2015 and the total number of on-going projects amounted to 26. We obtained 2 clinical trials approvals, submitted 25 new patent applications and received 9 patent authorizations in 2015. Development of healthcare products focused on middle to high end products to meet the demands from the healthcare product market. 9 supplement products and 6 food products were launched. The cumulative number of patent application is 134 and 52 of them are authorized, including 7 patents authorized in seven nations and regions including United States, European Unions and Russia. SHINEWAY had already passed the certification of the intellectual property management system. Our proprietary product Shujin Tongluo granule obtained the national patent award. We undertook over 40 national science and technology major projects cumulatively.

Phase III SLT Clinical Trial was launched in Australia that marked our solid footprints in the worldwide Chinese medicine market.

SHINEWAY's Medical Department started our evidence-based research on products launched including Shu Xie Ning injection and Huamoyan granule etc. That provided solid academic and sales support for our frontline sales and marketing team.

SHINEWAY was listed in the "Top 100 Pharmaceutical Manufacturers in China Pharmaceutical Industry" and the "Top 10 Enterprises in the Hebei Pharmaceutical Industry". SHINEWAY received many awards including the First Prize for the "Quality Technology in Hebei".

2016 is a year of implementation for SHINEWAY. With the new infrastructure and new situation of the pharmaceutical industry, we will intensify our strategic and innovation focus according to our strategic direction. We will further strengthen our academic sales capabilities and specific brand management capabilities. With the accelerated development of retail sales and hospital sales network, we will reinforce our development and management in hospital, retail and primary health-care sectors. We will uplift our modern Chinese medicine business, expedite the bio-pharmaceutical business, develop the supplement market, speed up our e-commerce business, promote our healthcare products and accelerate the prescription granule business. SHINEWAY will continue our technology innovation, strengthen our research and development investment, focus on gross profit contribution, increase our performance efficiency, lower the manufacturing costs, improve the synergy between departments, improve our operation under the new market norm and develop our healthcare business. For bio-pharmaceutical business, we will develop our business based on existing products. With addition products from research and development and acquisition, bio-pharmaceutical business will be our future growth driver.

Chairman's Statement

SHINEWAY's accomplishments are inseparable from our staff's hard work. On behalf of the Board, I would like to extend my sincere gratitude and high respect to our diligent staff for their dedication and efforts during the year.

Li Zhenjiang
Chairman of the Board

Hong Kong, 30 March 2016

Management Discussion and Analysis

BUSINESS REVIEW

Under the influences of the environmental policies such as the continued steady growth of the pharmaceutical industry, the issuance of the new Essential Drug List tenders for the medicines, medicine bidding, implementation of the new GMP and GSP and the extension of the work arrangements on the health care system reform, the Group coped with changes with market oriented, all of these led 2015 to be a year during which the corporation made a solid foundation, integrated resources, constantly innovated and developed steadily.

China Shineway is rated as the National Technological Innovation Demonstration Enterprise and National Demonstration Enterprise on the Integration of Information Technology and Industrialization, and also included in the first batch of the National Intellectual Property Superior Enterprises. The National and Local United Engineering Laboratory for the Development Technology of the New Chinese Medicine injection (中藥注射劑新藥開發技術國家地方聯合工程實驗室) located in SHINEWAY is approved by the National Development and Reform Commission. China Shineway is awarded the Second Prize of the National Science and Technology Advancement Award (國家科技進步二等獎) in the comprehensive quality control system for traditional Chinese medicine injection and its application in Qing Kai Ling, Shu Xie Ning and Shen Mai Injections. In terms of new areas, the Group sets up the Heibei prescriptive Chinese medicine granules research center (河北省中藥配方顆粒研究中心) with the Heibei University of Chinese Medicine. Besides, the Group actively carries out the postmarketing safety re-evaluation work on material basis with Chinese medicine injection products by collectively complete the material foundation and standards elevation for a variety of Chinese medicine injections, evidence-based medical research is also being carried out step by step, in which the Shen Mai Injection was completed 30,000 cases of clinical trial, which had a positive model function of promoting the improvement of the product quality standards to align with the national standards. The strength of tackling the key problem of the Group was constantly enhanced, and the improving work of the standards for 23 breeds such as Pediatric Qing Fei Hua Tan granules and Huamoyan granule was completed, so as to improve the product quality. In addition, Huamoyan granule, Jiangzhi Tongluo Soft Capsule, Shujin Tongluo Granule and Shineway Massage Cream are included in the Chinese Pharmacopoeia (2015 version). All of the injection products of the Group have passed the new GMP certification and Shineway Pharmaceutical Sales Company Limited has passed the new GSP certification, which enhanced our enterprise brand competition. On 30 November 2015, Phase III SLT Clinical Trial was launched in Australia. SLT is an innovative component traditional Chinese medicine jointly researched by the Group, Xiyuan Hospital of China Academy of Traditional Chinese Medical Sciences (中國中醫科學院西苑醫院) and University of Western Sydney for treatment of Gerontic Vascular Dementia. It is also the first component traditional Chinese medicine of the world on which a randomized, double-blind, placebo-controlled, multi-center clinical research in line with the international standards was conducted both in China and Australia, developing a new road for traditional Chinese medicine to go abroad.

The Group recorded decline in both its turnover and profit as compared to last year. For the year 2015, the Group recorded a turnover of RMB2,054,809,000, a decline of 7.8% from previous year. Sales by product form for the year are set out as follows:

	Sales (RMB)	**Growth Rate**	**Product Mix**
Injections	1,166,627,000	-13.4%	56.8%
Soft Capsules	410,470,000	-8.0%	20.0%
Granules	392,850,000	10.0%	19.1%
Other product formats	84,862,000	8.2%	4.1%

The Group's profit attributable to owners of the Company for 2015 is RMB657,906,000, representing a drop of 6.7% from year 2014. The decrease in profit was mainly attributable to the decreased turnover and operating profit.

Injection Products

During 2015, the Group sold RMB1,166,627,000 of injection products, representing a drop of 13.4% from year 2014. Amongst these injection products, Qing Kai Ling injection remained the key product of the Group. Injection products accounted for 56.8% of the Group's turnover in 2015, while they contributed 60.4% of the turnover in prior year.

The Group believes that it is currently the largest Chinese medicine injections manufacturer in the PRC in terms of sales volume and production capacity. The Group's injection production capacity is approximately 3.2 billion vials per annum.

The Group positively undertakes the basic research for the medicinal materials and the re-evaluation work for the safety of the Chinese medicine injection, further strengthen the safety of the Chinese medicine injection and the controllability on its quality. While those manufacturers with serious adverse reaction, backward technologies and lower quality will be eliminated, which will help to improve the industry concentration and expedite the survival of the fittest in the pharmaceutical industry. The good curative effect of Chinese medicine injection will be recognized by the market and the Group's advantages of quality, cost, size and brand will become more prominent.

In the coming year, the Group will continue focus on academic education to expand our point of sales and further strengthen promotion efforts of end user market to ensure better growth of our injection products.

Management Discussion and Analysis

Soft Capsule Products

In 2015, the Group recorded RMB410,470,000 on sales of soft capsule products, representing a drop of 8.0% from last year.

Soft capsule products accounted for 20.0% of the Group's turnover in 2015, as compared to 20.0% in last year. The Group's current production capacity for soft capsules is 3.5 billion capsules per annum. The Group believes that it is currently the largest Chinese medicine soft capsules manufacturer in the PRC in terms of sales volume and production capacity.

The Group will continue to strengthen our brand promotion and marketing effect on our soft capsules products to advance their business growth in the coming year.

Granule Products

Sales of granule products in 2015 increased by 10.0%, amounted to RMB392,850,000. This was mainly attributable to the year-on-year sales increase of Pediatric Qing Fei Hua Tan Granule, Huamoyan Granule, Fen An Ka Min Granule and Pediatric Paracetamol Artificial Cow-bezoar and Chlorphenamine Maleate Granule.

Granule products accounted for 19.1% of the Group's turnover in 2015 as compared to 16.0% in 2014.

The Group has annual production capacity for granule products of 3.4 billion bags per annum. The Group believes that it is currently the largest Chinese medicine granules manufacturer in PRC in terms of sales volume and production capacity.

Other Products

Sales of other products in 2015 increased by 8.2% compared to last year, amounted to RMB84,862,000. The increase was mainly attributable to the rise in sales of Spirulina capsules, Dandeng Tongnao capsules and our ointment products as compared with last year.

Key Products

The six key products of the Group were Qing Kai Ling Injection, Shen Mai Injection, Shu Xie Ning Injection, Wu Fu Xin Nao Qing Soft Capsule, Huo Xiang Zheng Qi Soft Capsule and Pediatric Qing Fei Hua Tan Granule.

Qing Kai Ling Injection – a widely used anti-viral medicine for treatment of viral diseases including respiratory tract infection, viral hepatitis, cerebral haemorrhage and cerebral thrombosis

Our Qing Kai Ling Injection is the major contributor to the Group's turnover, owing to the price reduction as a result of medicine bidding, its sales in 2015 decreased from last year.

Qing Kai Ling Injection is listed in the "National Catalogues of Medical Insurance and Occupational Injury Insurance". It is designated by the State Administration of Traditional Chinese Medicine as an "Indispensable Chinese Medicine for the Emergency Wards of Chinese Hospitals". It is also recommended by the Ministry of Health of the PRC for treating Human Transmitted Avian Flu and the A(H1-N1) Flu. The product has broad clinical applications. Qing Kai Ling Injection produced by the Group is a famous anti-viral medicine.

Qing Kai Ling Injection has been included by the Ministry of Health in the Essential Drug List in 2010. The Group believes that it is the largest manufacturer of Qing Kai Ling Injection in the PRC based on sales volume and sales amount. The Group will further enhance market coverage and penetration of end networks, as well as to strengthen marketing and promotion effort at the points of sales. Qing Kai Ling Injection will sustain steady growth.

Shen Mai Injection – for treatment of coronary heart disease, viral myocarditis and pulmonary heart disease

Owing to the price reduction as a result of medicine bidding, sales of Shen Mai Injection in 2015 decreased compared with last year.

Shen Mai Injection is included in the National Catalogues of Medical Insurance and Occupational Injury Insurance and the Essential Drug List. It is also included in the recommendation of the Ministry of Health of the PRC for treating Avian Flu and the A(H1-N1) Flu.

The Group believes that it is the largest manufacturer of Shen Mai Injection in the PRC based on sales volume. The Group will strive to further expand market share and penetration for Shen Mai Injection to generate further growth in the coming years.

Management Discussion and Analysis

Shu Xie Ning Injection – for treatment of cardio-cerebrovascular disease

In 2015, sales of Shu Xie Ning Injection decreased compared with last year.

Shu Xie Ning Injection is included in the National Catalogues of Medical Insurance and Occupational Injury Insurance and is one of the first tier medicines for treatment of cardiovascular diseases. The Group will continue to further enhance market coverage and penetration, foster marketing effort at the points of sales, and look for strategic distributors and rationalize distribution channels to achieve continuous growth.

Wu Fu Xin Nao Qing Soft Capsule – for prevention and treatment of coronary heart disease and cerebral arteriosclerosis

In 2015, sales of Wu Fu Xin Nao Qing Soft Capsule decreased compared with last year.

Wu Fu Xin Nao Qing Soft Capsule is ranked among the top ten cardiovascular Chinese medicines in the country. The "Wu Fu" trademark was certified as a "China Famous Trademark". It is also one of the lowest in cost of average daily dosage among similar cardiovascular medicines. The Group will continue to strengthen our effort on promoting the "Wu Fu" brand and deepen our end-user market coverage and exercise more support to our distributors by increasing promotional activities and education to the end-users to broaden its sale.

Huo Xiang Zheng Qi Soft Capsule – for prevention and treatment of heat stroke, stomachache, nausea and diarrhoea, acclimatization sickness

In 2015, sales of Huo Xiang Zheng Qi Soft Capsule increased compared with last year.

Huo Xiang Zheng Qi Soft Capsules is listed in the National Catalogues of Medical Insurance and Occupational Injury Insurance. It is also recommended by the Ministry of Health of the PRC for Avian Flu and the A(H1-N1) Flu. Due to its effective efficacy and the high bioavailability of soft capsule, Huo Xiang Zheng Qi Soft Capsule is a very popular OTC Chinese medicine.

The Group will continue to expand end market coverage. Furthermore, we will expedite partnership with strategic distributors and chain drugstores, and increase promotion to strive for better growth of Huo Xiang Zheng Qi Soft Capsule.

Pediatric Qing Fei Hua Tan Granule – for children infected by respiratory related disease

In 2015, sales of Pediatric Qing Fei Hua Tan Granule increased compared with last year.

Pediatric Qing Fei Hua Tan Granule has superb curative effect and has become a famous brand of children coughing medicine. The Group will adjust sales strategy and utilize the synergistic advertisement effect of both internet and TV, while continue to increase advertising and joint promotional campaign with chain drug stores at the same time. It is expected the sales of our Pediatric Qing Fei Hua Tan Granule will further increase and the sales of our entire "Shen Miao" series products will be benefited by the synergistic effect of this product.

Management Discussion and Analysis

Emerging Products

Huang Qi Injection – for treatment of viral myocarditis, heart malfunction and hepatitis

In 2015, sales of Huang Qi Injection increased compared with last year.

Huang Qi Injection is listed in the National Catalogues of Medical Insurance and Occupational Injury Insurance. Viral myocarditis has become more prevalent in recent years. With a proven efficacy on such illness, Huang Qi Injection has strong market potential. The Group will continue to further enhance market coverage and penetration and growth in sales of Huang Qi Injection is expected in the coming years.

Qing Kai Ling Soft Capsule – for treatment of high fever, viral influenza and respiratory tract infection

In 2015, sales of Qing Kai Ling Soft Capsule decreased compared with last year.

Qing Kai Ling Soft Capsule is both a prescription and non-prescription medicine.

Benefited greatly by the synergistic effect of Qing Kai Ling Injection, the Group will further expedite partnership with strategic distributors and chain drug stores, and increase promotion effort to ensure sales momentum of this product.

Huamoyan Granule – for treatment of both acute and chronic synovitis and treatment after joints surgery

In 2015, sales of Huamoyan Granule increased compared with last year.

Synovitis is currently a relatively common type of arthropathy which widely affects the mid-aged group, senior citizens, athletes and patients after joint surgeries. Huamoyan Granule produced by the Group is the first innovative medicine approved by the State Food and Drug Administration for the treatment of synovitis. It is an original and self-developed product with proprietary formulations, marking a milestone for the treatment of synovitis and bringing the same to a new height. With the Group's intensified presence in the end market of hospitals and the advancement of the promotion to professionals and academics, this product has obtained sound performance and returns from the market with an on-going momentum for growth.

Shujin Tongluo Granule – for treatment of spondylosis, neck stiffness and symptoms such as pains of neck, shoulder and back

In 2015, sales of Shujin Tongluo Granule increased compared with last year.

The increase in the number of people who tilt down their heads during work has resulted in a growing prevalence of spondylosis nowadays, and the disease has also shown a trend of younger. Shujin Tongluo Granule produced by the Group is currently the only proprietary and multi-target Chinese medicine in the market which addresses both symptoms and root causes to continuously mitigate the symptoms of spondylosis. It also has a noticeable effect on curing both nerve root type and vertebral artery type of spondylosis, hence offering clinical doctors with a new choice for the treatment of spondylosis. After the ongoing academic promotion in recent years, Shujin Tongluo Granule has achieved strong market growth. Shujin Tongluo Granule has its own intellectual proprietary, due to its rigorous prescription, rational and clinical efficacy, it was awarded by the State Intellectual Property Office the "China Patent Excellence Award" this year.

Jiangzhi Tongluo Soft Capsule – for treatment of symptoms such as hyperlipidemia, chest and hypochondrium pain and chest tightness

In 2015, sales of Jiangzhi Tongluo Soft Capsule decreased compared with last year.

Jiangzhi Tongluo Soft Capsule produced by the Group is a national key new product jointly certified by four ministries and commissions, including the Ministry of Science and Technology of the PRC. It is used for the revitalisation of blood and "Qi" circulation and for lowering blood cholesterol. Jiangzhi Tongluo Soft Capsule is superior to the existing blood cholesterol drugs in terms of effectiveness, and its liver protection ability provides what other similar clinical products lack, and is therefore a clear choice for patients undergoing long-term hyperlipidemia treatment. The Group will continue to promote the product to professionals and academics, provide physicians with information regarding the product and increase brand awareness so as to establish it as the best brand among other cholesterol-regulating drugs.

New Products

Dan Deng Tong Nao Hard Capsule and Soft Capsule – for treatment of stroke caused by congestion, appropriate for treatment and recovery of ischemic infarction

This product is a nation-wide medical insurance product, with superior formula, typical material and unique material source. In the formula, salvia miltiorrhiza, as sovereign drug, is made from little purple salvia miltiorrhiza in Yunnan with erigeron breviscapus, ligusticum wallichii, arrowroot as auxiliary materials, and erigeron breviscapus is a kind of typical medicine material in Yunnan. The Group treats it as a rapid growth product in 2016.

Management Discussion and Analysis

Yiqi Tongluo Granule – for treatment of qi deficiency and blood stasis during the main and collateral channels (mild to moderate cerebral infarction) recovery period of stroke

This product is based on classic Buyanghuanwu Decoction and mainly contains medicinal materials for activating blood and dissolving stasis to enhance cerebral blood flow. The medicine was developed after years by China PLA General Hospital and the Company and examined in a systematic clinical pesticide effect study and standardized clinical trial with a definite and safe treatment effect. The Group treats it as a large-potential medicine to be developed in 2016.

Research and Development

The Group strategically established own R&D system including two major parts: internal R&D system and external R&D system. The internal R&D system set up three-level R&D system in a systematic way, while the external R&D system comprises the internal and international R&D system. Planned and organized for three years, the internal three-level R&D system of the Group has been completed.

The formation of internal three-level R&D system of the Group: the named three-level R&D system has following compositions and corresponding functions. 1) the first-level R&D system Operates with SHINEWAY Medicine Research Center as core, SHINEWAY Medicine Research Center is located at Yanjiao district of Hebei province, near to Beijing city, and its main function is to develop new medicines. 2) the second-level R&D system comprises two departments, namely technological department and medical department. This system plays a role of quality optimization and evidence-based medicine research of the listed products. Technological department is responsible for quality optimization of the listed products, including optimization of technology, quality improvement, energy conservation and waste gas emission mitigation, cost reduction, and establishment of corresponding technological platform in accordance with the production technology categories of products. Medical department is responsible for evidence-based medicine research of products including underlying evidence-based research and clinical evidence-based research, and mainly to provide the market department with evidence-based information and to assist it to develop new market. 3) the third-level R&D system represents the technician in the front line of production. This system operates by form of R&D groups with workshops as units, vice director of the workshop as headman, and technician or artisan as members. Its main function is to supervise the implementation of SOP and GMP for specific product in production, guarantee the quality of products, resolve technological difficulties in time, and report to senior organization for settlement in respect of significant problems.

In 2015, affected by the substantial adjustment of national medicine appraisal and approving policies, some projects under research went slowly to consolidate their base. Phase II SLT Clinical Trial was completed and Phase III SLT Clinical Trial was launched in Australia. Two new medicine projects obtained clinical approval, TDF project completed its process testing and another three chemical medicines went through moderate trial. Directors' Report

Principal Risks and Uncertainties

There are a number of risks and uncertainties which may affect the performance and operation of the Group. The followings are summary of principal risks and uncertainties identified by the Group.

Compliance with GMP standard

In accordance with applicable laws and regulations, the Group is required to comply with Good Manufacturing Practice ("GMP") standard by certain time limits. The Group has been granted the relevant certificates by China Food and Drug Administration ("CFDA"). There can be no assurance that the Group may be able to renew those certificates when they expire and in the event that those certificates are not renewed upon their expiry, the Group's business may be materially and adversely affected.

Product Liability

As the insurance is not mandately required, the Group has no effective product liability insurance policy in respect of the manufacture and distribution of pharmaceutical products in the PRC. In the event of any product liability claim or proceedings pertaining to the products of the Group, the Group may suffer significant cost, attorney fees and damage on its relationship with customers.

Healthcare Reform in China

The healthcare system in the PRC is undergoing a crucial reform period, where laws, regulations and policies in effect governing the medical, healthcare and pharmaceutical industry are constantly evolving. Moreover, regulatory bodies in the PRC may regularly or unexpectedly amend its implementation practices. Accordingly, past enforcement actions taken may not be reflective of future actions. Any enforcement action taken by the government against SHINEWAY may affect the Group materially and adversely. It may also incur significant costs, divert the resources and attention of the management and result in negative publicity and reputation damage. In addition, such changes may be applied on a retrospective basis, thus leading to more uncertainties and risks in respect of our business and operation.

Tender and Price Control

The Group has to participate in a government-led tender process every year or every few years. In the event that the Group fail to win the tender in a provincial tender process, the sale of products in such province will be affected and will lose market share in such province. Moreover, certain new methods have been recently adopted in the provincial tender process, which may exert further downward pressure against the price of pharmaceutical products and our market share, revenue and profitability may be adversely affected.

Schroders Plc	Beneficial owner	41,873,988	5.06%

Notes:

(1) Interests of Forway and Fiducia Suisse SA in the Shares were duplicated.

(2) The entire issued share capital of Forway is owned by Fiducia Suisse SA in its capacity as the trustee of The Li Family 2004 Trust, a discretionary trust, the founder (as defined in the SFO) of which is Li Zhenjiang and the discretionary objects of which are family members of Li Zhenjiang (excluding Li Zhenjiang himself).

Save as disclosed above, as at 31 December 2015, the Company had not been notified by any persons who (other than the Directors or chief executive of the Company) had interests or short positions in the shares or underlying shares of the Company which would fall to be disclosed to the Company under Divisions 2 and 3 of Part XV of the SFO.

SHARE OPTION SCHEME

The Company adopted a share option scheme on 10 November 2004 and was expired on 9 November 2014 (the "2004 Scheme"). All outstanding options granted under the 2004 Scheme will continue to be valid and exercisable in accordance with the provisions of the 2004 Scheme. The Company adopted a new share option scheme at an extraordinary general meeting of the Company held on 29 May 2015 (the "2015 Scheme"). The purpose of the 2015 Scheme is to provide the Company with a flexible means of incentivizing, rewarding, remunerating, compensating and/or providing benefits to the following participants, and for such other purposes as the Board may approve from time to time:

(i) any executive or non-executive director including any independent non-executive director or any employee (whether full-time or part-time) of any member of the Group;

(ii) any discretionary object of a discretionary trust established by any substantial shareholder of the Company or any employee, executive or non-executive director of any member of the Group;

(iii) any consultant, professional and other advisers to any member of the Group;

(iv) any chief executive or substantial shareholder of any member of the Group;

(v) any associate of any director, chief executive or substantial shareholder of any member of the Group; and

(vi) any employee (whether full-time or part-time) of substantial shareholder of any member of the Group to take up Options.

The maximum number of shares in respect of which options may be granted under the 2015 Scheme and any other share option schemes of the Company shall not in aggregate exceed 82,700,000 representing 10% of the shares in issue as at 29 May 2015 (being the date of the extraordinary general meeting approving the 2015 Scheme) and as at the date of this annual report.

The maximum number of shares of the Company issued and to be issued upon exercise of the options granted to each participant (including both exercised and unexercised options) under the 2015 Scheme and any other share option scheme (if any) adopted by the Company in any 12-month period must not exceed 1% of the shares of the Company in issue unless otherwise approved by the Company's shareholders. Where any grant of options to a substantial shareholder, an independent non-executive director, or any of their respective associates (including a discretionary trust whose discretionary objects include a substantial shareholder or an independent non-executive director or a company beneficially owned by any substantial shareholder or independent non-executive director of the Company) would result in the shares of the Company issued and to be issued upon exercise of all options already granted and to be granted to such person in any 12-month period up to and including the date of the grant:

(i) representing in aggregate over 0.1% of the total number of shares of the Company in issue; and

(ii) having an aggregate value, based on the closing price of the shares of the Company as stated in the daily quotations sheets issued by the Stock Exchange on the date of grant, in excess of HK$5 million,

Such grant of option shall be subject to prior approval of the shareholders of the Company who are not the grantee, his associates all core connected persons of the Company as defined in the Listing Rules.

Option granted must be taken up within 14 days from the date of offer, upon payment of HK$1 per option. Subject to terms and conditions upon which the option was granted, options may be exercise at any time from the date of grant of the share option to the 10th anniversary of the date of grant. The exercise price is determined by the Directors, and will not be less than the highest of (i) the closing price of the Company's shares on the date of grant, (ii) the average closing price of the shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Company's share. The 2015 Scheme has a life of 10 years and will expire on 28 May 2015.

On 12 February 2015, Shineway Pharmaceutical, a wholly-owned subsidiary of the Company, and Shineway Medical entered into a general services agreement ("General Services Agreement I"). Pursuant to the General Services Agreement I, Shineway Medical has agreed to provide Shineway Pharmaceutical with property management services, staff benefits facilities and production support services for a term commencing from 1 January 2015 until 31 December 2017. The transaction amount and cap amount of such transaction for the year ended 31 December 2015 are RMB8,339,000 and RMB8,400,000 respectively (2014: RMB7,971,000 and RMB8,000,000 respectively).

The proposed annual caps for General Services Agreement I for the year ending 31 December 2016 and 31 December 2017 are RMB8,700,000 and RMB9,000,000 respectively.

General Services Agreement between 河北神威藥業有限公司 (Hebei Shineway Pharmaceutical Company Limited) ("Hebei Shineway") and Shineway Medical Science & Technology (Lang Fang) Co., Ltd ("Shineway Lang Fang")

On 12 February 2015, Hebei Shineway, a wholly-owned subsidiary of the Company, and Shineway Lang Fang entered into a general services agreement ("General Services Agreement II"). The spouse of Mr. Li Zhenjiang, an executive Director, holds 30% of equity interest in Shineway Lang Fang. Accordingly, Shineway Lang Fang is a connected person of the Company within the meaning of the Listing Rules. Pursuant to the General Services Agreement II, Shineway Lang Fang has agreed to provide Hebei Shineway with property management services, staff benefits facilities and production support services for a term commencing from 1 January 2015 until 31 December 2017. The transaction amount and cap amount of such transaction for the year ended 31 December 2015 are RMB2,396,000 and RMB2,400,000 respectively (2014: RMB2,297,000 and RMB2,300,000 respectively).

The proposed annual caps for General Services Agreement II for the year ending 31 December 2016 and 31 December 2017 are RMB2,500,000 and RMB2,600,000 respectively.

Land Lease Agreement with Shineway Medical

On 12 February 2015, a land lease agreement (the "Land Lease Agreement I") was entered into between Shineway Pharmaceutical and Shineway Medical. Pursuant to the Land Lease Agreement I, Shineway Medical has conditionally leased to Shineway Pharmaceutical a land with an area of approximately 49,276 square meters owned by Shineway Medical for a period of three years from 1 January 2015. The leased land is restricted to the operation of a building complex, plaza and animal centre. The transaction amount and cap amount of such transaction for the year ended 31 December 2015 both are RMB1,277,100 (2014: RMB1,170,000).

The proposed annual caps for Land Lease Agreement I for the year ending 31 December 2016 and 31 December 2017 are RMB1,277,100.

Land Lease Agreement with Shineway Lang Fang

On 12 February 2015, a land lease agreement (the "Land Lease Agreement II") was entered into between Hebei Shineway and Shineway Lang Fang. Pursuant to the Land Lease Agreement II, Shineway Lang Fang has conditionally leased to Hebei Shineway a land with an area of approximately 20,986 square meters owned by Shineway Lang Fang for a period of three years from 1 January 2015. The leased land is restricted to the entrance and injection workshop. The transaction amount and cap amount of such transaction for the year ended 31 December 2015 both are RMB1,012,397 (2014: RMB931,000).

The proposed annual caps for Land Lease Agreement II for the year ending 31 December 2016 and 31 December 2017 are RMB1,012,397.

Sales to Hebei Shineway Chain Drugstores Co., Ltd. ("Shineway Drugstores")

On 12 February 2015, a Supply Agreement (the "Supply Agreement") was entered into between the Company and Shineway Drugstores, a connected person of the Company by virtue of being indirectly owned 80% by the spouse of Mr. Li Zhenjiang, an executive Director. Pursuant to the Supply Agreement, the Company agrees to procure the subsidiaries of the Company to supply Chinese pharmaceutical products researched, manufactured and wholesaled by the Group to Shineway Drugstores. The transaction amount and cap amount of such transaction for the year ended 31 December 2015 are RMB15,929,000 and RMB38,000,000 respectively. The proposed annual caps for Supply Agreement for the year ending 31 December 2016 and 31 December 2017 are RMB50,000,000 and RMB60,000,000 respectively.

As one or more applicable percentage ratios (other than the profits ratio) in respect of the annual caps for the transactions contemplated under each of (1) the aggregate of the General Services Agreement I and the Land Lease Agreement I, (2) the aggregate of the General Services Agreement II and the Land Lease Agreement II and (3) the Supply Agreement, on an annual basis, exceeds 0.1% but is less than 5%, the transactions contemplated under the aforesaid agreements are subject to the reporting and announcement requirements under the Listing Rules and are exempt from the independent shareholders' approval requirement under the Listing Rules. One of the applicable percentage ratios in respect of the annual caps for the Tenancy Agreement exceeds 0.1% but is less than 5% and is a de minimis continuing connected transaction under Rule 14A.76(1) of the Listing Rules. Consequently, the Tenancy Agreement is exempted from the requirements of announcement, circular and independent shareholders' approval.

The independent non-executive Directors have reviewed the continuing connected transactions disclosed above and confirmed that the transactions have been entered into:

(a) in the ordinary and usual course of business of the Group;

(b) on normal commercial terms or better; and

(c) according to the agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The management has monitored and ensured that (a) the connected transactions have been conducted in accordance with the pricing policies or mechanisms (if applicable) under the agreements, including the pricing range, the process for estimating the prices for the goods or services, and the procedures for obtaining quotations or tenders, as appropriate; and (b) the Company's internal control procedures are adequate and effective to ensure that connected transactions are so conducted.

Pursuant to Rule 14A.56 of the Listing Rules, the Company has engaged the auditor of the Company to perform certain work in accordance with Hong Kong Standard on Assurance Engagements 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on continuing connected transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants. The auditor has provided a letter to the Board and confirmed that for the year ended 31 December 2015 the continuing connected transactions (i) have received the approval of the Board; (ii) are in accordance with the pricing policies of the Group for those transactions that involve provision of goods or services by the Group; (iii) have been entered into in accordance with the relevant agreement governing the transactions and (iv) have not exceeded the cap disclosed in the previous continuing connected transaction announcement of the Company dated 12 February 2015.

The related party transactions in note 35 to the consolidated financial statements of this annual report fall under the definition of "continuing connected transactions" in Chapter 14A of the Listing Rules. The Company confirms that it has complied with the disclosures requirements in accordance with Chapter 14A of the Listing Rules.

EMOLUMENT POLICY

The emolument policy of the employees of the Group is set up by the Remuneration Committee on the basis of their merit, qualification and competence.

On behalf of the Board

Li Zhenjiang
Chairman of the Board

Hong Kong, 30 March 2016

Corporate Governance Report

Dear Shareholders,

CORPORATE GOVERNANCE PRACTICES

The Group is firmly committed to statutory and regulatory corporate governance standards and adhere to the principles of corporate governance emphasising transparency, independence, accountability, responsibility and fairness. The Board believes that good corporate governance practices are essential elements in guiding the growth and management of the business of the Group. Therefore the Board reviews its corporate governance practices from time to time to ensure that they protect the shareholders' interest, comply with legal and professional standards and reflect the latest local and international circumstances and development. The Board will continue to commit itself to achieving a high quality of corporate governance.

Throughout the year ended 31 December 2015, the Company has applied and complied with the principles in the Corporate Governance Code (the "Code") set out in Appendix 14 to the Listing Rules, except for code provision A.2.1 as described below.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as the code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard set out in the Model Code. The prohibitions on securities dealing and disclosure requirements in the Model Code apply to specified individuals including the Group's senior management and also persons who are privy to price sensitive information of the Group. Having made specific enquiry with the Directors, all Directors confirmed that they had complied with the required standard set out in the Model Code regarding Directors' securities transactions during the financial year.

BOARD OF DIRECTORS

As at the date of this annual report, the Board comprises five executive Directors and three independent non-executive Directors. The names of the Directors and their respective biographies are set out on pages 29 to 31 of this annual report.

Every newly appointed Director will be given an induction so as to ensure that he/she has appropriate understanding of the Group's business and of his/her duties and responsibilities under the Listing Rules and the relevant statutory and regulatory requirements. The Directors may request the Company to provide independent professional advice at the Company's expense to discharge his/her duties to the Company.

The Company had arranged for appropriate liability insurance for the directors and officers of the Group for indemnifying their liabilities arising from corporate activities.

Corporate Governance Report

The Board oversees the Group's strategic development, and determines the objectives, strategies and policies of the Group. The Board also monitors and controls operating and financial performance in pursuit of the Group's strategic objectives. All Board members have access to appropriate business documents and information about the Group on a timely basis. All Directors and board committees have access to external legal counsel and other professionals for independent advice at the Group's expense if they require it. The Board has also reviewed and ensured compliance of the relevant legal and regulatory requirements, the code of conducts, the Code and the disclosure in the Corporate Governance Report. The Board represents shareholders in overseeing the Group's business. The Directors recognise their responsibilities to enhance shareholders' value and to conduct themselves in accordance with their duty of care and loyalty.

Three board committees, namely, the audit committee (the "Audit Committee"), the remuneration committee (the "Remuneration Committee") and the nomination committee (the "Nomination Committee"), have been established to oversee particular aspects of the Group's affairs. The Board has delegated the day-to-day management and operations of the Group's businesses to the management of the Company and its subsidiaries respectively. Major corporate matters that are specifically delegated by the Board to the management include the preparation of financial statements for board approval before publishing, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures, and compliance with relevant statutory requirements, rules and regulations.

The Board had met four times during the year to review the financial performance of the Group, major issues (whether or not required by the Listing Rules) and also on other occasions when Board decisions were required. The views of independent non-executive Directors were actively solicited by the Group if they were unable to attend meetings of the Board.

The major issues which were brought before the Board for their decisions during the year include:

1. formulation of operational strategies and review of its financial performance and results and the internal control system;

2. proposals related to potential acquisitions, investments, or any significant capital expenditures; and

3. the declaration of interim dividend and recommendation to shareholders on final dividend.

From April 2012 onwards, all Directors have been provided, on a monthly basis, with the Group's management information updates to give them aware of the Group's affairs and facilitates them to discharge their duties under the relevant requirements of the Listing Rules.

The Board held four Board meetings and one annual general meeting ("AGM") in 2015. Details of the attendance of the Board are as follows:

	Attended/Held	
	Board Meeting	**AGM**
Executive Directors		
Mr. Li Zhenjiang *(Chairman)*	4/4	1/1
Ms. Xin Yunxia	4/4	1/1
Mr. Li Huimin	4/4	1/1
Ms. Lee Ching Ton Brandelyn	4/4	1/1
Mr. Chen Zhong	4/4	1/1
Dr. Wang Zheng Pin (resigned on 1 January 2016)	4/4	1/1
Independent Non-executive Directors		
Mr. Hung Randy King Kuen	4/4	1/1
Ms. Cheng Li	4/4	1/1
Mr. Sun Liutai	4/4	1/1

The Directors acknowledged that they are responsible for the preparation of the accounts which give a true and fair view of the affairs of the Group. The auditor is responsible to form an independent opinion, based on their audits, on the Group's financial statements and express their opinions.

The Board has the overall responsibility to ensure that the Company maintains sound and effective internal controls to safeguard the shareholders' investments and the Company's assets. The internal audit department has been conducting regular review of the system's effectiveness and reports to the Directors and the audit committee on its material findings.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The Code provision A.2.1 of the Code stipulates that the roles of chairman of the board (the "Chairman") and chief executive officer should be separate and should not be performed by the same individual. The division of responsibilities between the Chairman and chief executive officer should be clearly established and set out in writing. The Company does not use the title "Chief Executive Officer". The duty of chief executive officer has been assumed by the president of the Company (the "President").

Mr. Li Zhenjiang has been both the Chairman and President. His responsibilities are clearly set out in writing and approved by the Board. Given the Group's current stage of development, the Board considers that vesting the roles of Chairman and President in the same person facilitates the execution of the Group's business strategies and maximizes effectiveness of its operations. The Board shall nevertheless review the structure from time to time and shall consider any appropriate adjustments should new circumstances arise.

Corporate Governance Report

CONTINUOUS PROFESSIONAL DEVELOPMENT

Directors' training is an ongoing process. During the year, the Company had provided to the Directors regular updates and presentations on changes and developments to the Group's business and to the legislative regulatory environments in which the Group operates. All Directors are also encouraged to attend relevant training courses at the Company's expense. All Directors are required to provide the Company with their record of training they received during the year ended 31 December 2015. During the year ended 31 December 2015, the Board has reviewed and monitored the training and continuous professional development of Directors and senior management.

Pursuant to code provision A.6.5 of the Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure that their contribution to the Board remains informed and relevant. During the year ended 31 December 2015, all Directors have participated in continuous professional development by attending training courses and/or referring materials on the topics related to corporate governance and regulations:

REMUNERATION COMMITTEE

The Company established the Remuneration Committee with written terms of reference as disclosed on the Company's websites and the website of the Stock Exchange. The primary duties of the Remuneration Committee include the following:

I. to make recommendation to the Board on (a) the Company's policy and structure for all remuneration of Directors and senior management, and (b) the Company's establishment of a formal and transparent procedure for developing policy on such remuneration;

2. to determine the specific remuneration packages of all executive Directors, and senior management, including benefits in kind, pension rights, and compensation payments (including any compensation for loss or termination of office or appointment);

3. to make recommendation to the Board on the remuneration of independent non-executive Directors;

4. to have due consideration of all relevant factors such as salaries paid by comparable companies, time commitment and responsibilities of the Directors, employment conditions elsewhere in the Group and desirability of performance-based remuneration;

5. to review and approve performance-based remuneration by reference to corporate goals and objectives resolved by the Board from time to time;

6. to review and approve the compensation payable to executive Directors and senior management in connection with any loss or termination of their office or appointment to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is otherwise fair and not excessive for the Company;

7. to review and approve the compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is otherwise reasonable and appropriate; and

8. to ensure that no Director or any of his associates is involved in deciding his own remuneration.

As at the date of this annual report, the members of the Remuneration Committee comprises two independent non-executive Directors, Ms. Cheng Li and Mr. Sun Liutai, and executive Director Ms. Xin Yunxia. Ms. Cheng Li is the chairman of the Remuneration Committee. The Remuneration Committee met two times during the year to assess the performance of executive Directors.

Individual attendance of each Remuneration Committee member was as follows:

	Attendance
Ms. Cheng Li *(Chairman)*	2/2
Mr. Sun Liutai	2/2
Ms. Xin Yunxia	2/2

The emolument policy of the employees of the Group was set up by the Remuneration Committee on the basis of their merit, qualification and competence.

The emoluments of the Directors are determined by the Remuneration Committee, having regard to the Group's operating results, individual performance and comparable market statistics.

Further details on the emolument policy and basis of determining the emolument payable to the Directors are disclosed on page 47 of this annual report.

The Group's share option scheme as described on pages 40 to 43 of this annual report is adopted as the Group's long term incentive scheme.

NOMINATION COMMITTEE

The Nomination Committee was established with written terms of reference in compliance with the Code. The members of the Nomination Committee comprises one executive Director Mr. Li Zhenjiang and two independent non-executive Directors, Mr. Sun Liutai and Mr. Hung Randy King Kuen. Mr. Li Zhenjiang is the chairman of the Nomination Committee. The Nomination Committee is responsible for reviewing the structure, size and composition of the Board, making recommendation to the Board on selection of candidates for directorships, appointment, reappointment of Directors and Board succession and assessing the independence of independent non-executive Directors. In recommending candidates for appointment to the Board, the Nomination Committee will consider candidates on merit against objective criteria and with due regards to the benefits of diversity on the Board. Diversity of the Board will be considered from a number of perspective, including but not limited to gender, age, cultural and educational background, industry experience, technical and professional skills and/or qualifications, knowledge, and length of services and time to be devoted as a director. The Company will also take into account factors relating to its own business model and specific needs from time to time. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

The Nomination Committee did not hold any meeting during the year ended 31 December 2015.

All Directors are appointed for a fixed term. The Articles of Association required that one-third of the Directors (including executive and independent non-executive Directors) shall retire each year. The Directors to retire each year shall be those appointed by the Board during the year and those who have been longest in office since their election or re-election. A retiring Director is eligible for re-election.

AUDIT COMMITTEE

As at the date of this annual report, the Audit Committee comprises Mr. Sun Liutai, Ms. Cheng Li and Mr. Hung Randy King Kuen. All of the members of the Audit Committee are independent non-executive Directors. Mr. Sun Liutai, who has appropriate professional qualifications or accounting or related financial management expertise, is the chairman of the Audit Committee. No member of this committee is a member of the former or external auditor of the Company. The committee members possess diversified industry experience.

The Audit Committee's primary responsibilities include overseeing the relationship with the Company's external auditor, review of financial information of the Group, and oversight of the Group's financial reporting system, internal control procedures and risk management. The Company has adopted terms of reference of the audit committee which complies with the provisions of the Code. The terms of reference of the Audit Committee is available on the Company's websites and the website of the Stock Exchange.

Individual attendance of each Audit Committee member during the year ended 31 December 2015 was as follows:

	Attendance
Mr. Sun Liutai *(Chairman)*	4/4
Ms. Cheng Li	4/4
Mr. Hung Randy King Kuen	4/4

The Audit Committee met on four occasions during the year and the report on the work performed by the Audit Committee can be found on page 59 of this annual report.

INTERNAL CONTROL

The Board is responsible for ensuring that sound and effective internal control systems are maintained within the Group. The Group has adopted a set of internal control procedures and policies to safeguard the assets, to ensure proper maintenance of accounting records and reliability of financial reporting, and to ensure compliance with relevant legislation and regulations. The internal control systems are designed to ensure that the financial and operational functions, compliance control, material control, asset management and risk management functions are in place and functioning effectively.

The Board and the Audit Committee have delegated the Group's internal audit department to conduct periodic review of the effectiveness of the internal control systems of the Group covering all material controls, including financial, operational and compliance controls as well as risk management functions.

Based on the assessments made by the Group's internal audit department, the Board considered that the internal control systems of the Group are effective and adequate and the Audit Committee has found no material deficiencies on the internal control based on the assessments made by the Group's internal audit department.

AUDITOR'S REMUNERATION

Since 2004, Deloitte Touche Tohmatsu has been appointed as the Group's external auditor by shareholders annually. During the year, the fees charged to the accounts of the Company and its subsidiaries for Deloitte Touche Tohmatsu's statutory audit services amounted to HK$1,960,000 (2014: HK$1,915,000), and in addition to a total of HK$410,000 (2014: HK$410,000) for other services, including the review of interim financial statements.

ACCOUNTABILITY AND AUDIT

The Directors acknowledged their responsibility to present a balanced, clear and understandable assessment of the Group's performance, position and prospects in the consolidated financial statements of the annual and interim reports. They are not aware of material uncertainties relating to events or conditions that might cast significant doubt upon the Company's ability to continue as a going concern.

The statement by the auditor of the Company regarding their reporting responsibilities on the financial statements of the group is set out in the Independent Auditor's Report on pages 60 to 61.

In preparing the financial statements for the year ended 31 December 2015, the Directors have adopted appropriate accounting policies and applied them consistently, and have made judgments and estimates that are prudent and reasonable.

The Group has announced its annual and interim results in a timely manner within the limits of three months and two months respectively after the end of the relevant financial periods, as laid down in the Listing Rules.

COMMUNICATION WITH SHAREHOLDERS

The Group attaches great priority to communication with shareholders and investors. Since our listing on the Main Board of the Stock Exchange in December 2004, the Group has regularly met with investors to increase corporate transparency. During the year ended 31 December 2015, the Group met and/or held telephone conferences with a number of investors and participated in institutional investor conferences. We held a number of site visits for investors.

To foster effective communication, the Company provides extensive information in its annual report, interim report, press releases and also disseminates information relating to the Group and its business electronically through its websites and the website of the Stock Exchange.

Since October 2005, to enable the shareholders to better evaluate the operations and performance of the Group, the Group has been announcing quarterly financial information on turnover in due course after the relevant period ended.

The Company regards the annual general meeting as an important event as it provides an important opportunity for direct communication between the Board and shareholders. Directors and senior management will make an effort to attend the annual general meeting. The chairman of the Board, as well as the respective chairmen of the Audit Committee and the Remuneration Committee and external auditor will usually be available during the annual general meeting to address shareholders' queries. All shareholders are given at least 20 clear business days' notice of the annual general meeting and they are encouraged to attend the annual general meeting and other shareholders' meetings. Questions from the shareholders at such meetings are encouraged and welcomed.

SHAREHOLDERS' RIGHTS

(i) Procedures for members to convene an extraordinary general meeting ("EGM")

Shareholder(s) holding at the date of deposit of the requisition not less than one-tenth of the paid-up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition sent to the Board or the Company Secretary of the Company, to require an EGM to be called by the Board for the transaction of any business specified in such requisition; and such meeting shall be held within two months after the deposit of such requisition. If within twenty-one days of such deposit the Board fails to proceed to convene such meeting, the Shareholder(s) concerned himself (themselves) may do so in the same manner.

If the requisition is in order, the Company Secretary will ask the Board to convene an EGM by serving sufficient notice in accordance with the statutory requirements to all the registered members. On the contrary, if the requisition is invalid, the Shareholders concerned will be advised of this outcome and accordingly, an EGM will not be convened as requested.

The notice period to be given to all the registered members for consideration of the proposal raised by the shareholders concerned at a EGM varies according to the nature of the proposal, as follows:

- not less than twenty-one clear days' notice in writing if the proposal constitutes a special resolution of the Company; and

- not less than fourteen clear days' notice in writing if the proposal constitutes an ordinary resolution of the Company.

(ii) Procedures for putting enquiries to the Board

Shareholder(s) may at any time put forward their enquiries to the Board by sending letter to:
Company Secretary
China Shineway Pharmaceutical Group Limited
Suite 5201, 52/F
Central Plaza
18 Harbour Road
Wan chai, Hong Kong

(iii) Procedures for putting forward proposals at shareholders' meetings

According to our articles of association, any shareholder(s) duly qualified to attend and vote at general meetings of the Company wish(es) to propose a person (other than himself) for election as a director (the "Candidate") at a general meeting of the Company, the following documents must be lodged at the head office or registered office: (i) a written notice of such proposed duly signed by the shareholder(s) concerned; and (ii) a written consent duly signed by the Candidate indicating his/her willingness to be elected. The period for lodgment of the above documents (being a period of at least seven days) shall commence no earlier than the day after the despatch of the notice of the meeting appointed for such election and end no later than seven days prior to the date of such meeting.

INVESTOR RELATIONSHIP

During the year, there is no significant change in the Company's memorandum and articles of association. The Company's memorandum and articles of association are available on the website of the Company and that of the Stock Exchange.

CODE OF CONDUCT

Employees of the Group have maintained high levels of ethical standards. The Group published an employee handbook, setting out standards of professional and ethical conduct for all employees of the Group. Trainings on the contents of the employee handbook have been held regularly. The employees at all levels are expected to act in an honest, diligent and responsible manner.

Audit Committee Report

Dear Shareholders,

The Audit Committee formally met four times during the year and other informal meetings were conducted as and when necessary. These meetings were held together with senior management and external auditor as and when necessary, to consider the external auditor's proposed audit fees, their independence and scope of the audit; review the internal control and risk management systems; review the interim and annual financial statements, particularly judgmental areas, accounting principles and practice adopted by the Group; review the external auditor's management letter and management's response; and review the Group's adherence to the Corporate Governance Code as set out at Appendix 14 to the Listing Rules.

The Audit Committee recommended the Board to re-appoint Deloitte Touche Tohmatsu as external auditor for the fiscal year 2016 and recommended to approve the interim and annual reports.

TO THE SHAREHOLDERS OF CHINA SHINEWAY PHARMACEUTICAL GROUP LIMITED
中國神威藥業集團有限公司
(incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of China Shineway Pharmaceutical Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 62 to 126, which comprise the consolidated statement of financial position as at 31 December 2015, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditor's Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2015, and of its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes:

(a) Merger reserve of the Group represents the difference between the net asset value of the subsidiaries and the nominal amount of the Company's shares which were issued as consideration for the subsidiaries at the time of the group reorganisation in preparation for the listing of the Company's shares.

(b) Statutory surplus reserve fund and discretionary surplus reserve fund are appropriated each year by certain subsidiaries on the basis of 10% of the profit after taxation as determined by the board of directors of the relevant subsidiaries and at the rate decided by the shareholders annually, respectively, in accordance with the Articles of Associations ("Articles") of the relevant subsidiaries. According to the provision of the Articles, in normal circumstances, this reserve should only be used for making up losses, capitalisation into capital and expansion of production and operation.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2015

1. GENERAL

The Company is a listed company registered as an exempted company with limited liability in the Cayman Islands under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands on 14 August 2002 and its shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). Its ultimate holding company is Forway Investment Limited, a company incorporated in the British Virgin Islands ("BVI") with limited liability. The address of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section to the annual report.

The consolidated financial statements are presented in Renminbi ("RMB"), which is also the functional currency of the Company.

The Company acts as an investment holding company. The principal activities of its principal subsidiaries are set out in note 38 to the consolidated financial statements.

2. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

In the current year, the Group has applied the following amendments to IFRSs issued by the International Accounting Standards Board (the "IASB") for the first time in the current year.

Amendments to IAS 19	Defined benefit plans: Employee contributions
Amendments to IFRSs	Annual improvements to IFRSs 2010 – 2012 cycle
Amendments to IFRSs	Annual improvements to IFRSs 2011 – 2013 cycle

The application of the amendments to IFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

2. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs") (Continued)

The Group has not early applied the following new and revised IFRSs that have been issued but are not yet effective:

IFRS 9	Financial instruments[1]
IFRS 14	Regulatory deferral accounts[2]
IFRS 15	Revenue from contracts with customers[1]
IFRS 16	Leases[3]
Amendments to IFRSs	Annual improvements to IFRSs 2012-2014 cycle[4]
Amendments to IFRS 10, IFRS 12 and IAS 28	Investment entities: Applying the consolidation exception[4]
Amendments to IFRS 10 and IAS 28	Sale or contribution of assets between an investor and its associate or joint venture[5]
Amendments to IFRS 11	Accounting for acquisitions of interests in joint operations[4]
Amendments to IAS 1	Disclosure initiative[4]
Amendments to IAS 7	Disclosure initiative[6]
Amendments to IAS 12	Recognition of deferred tax assets for unrealised losses[6]
Amendments to IAS 16 and IAS 38	Clarification of acceptable methods of depreciation and amortisation[4]
Amendments to IAS 16 and IAS 41	Agriculture: Bearer plants[4]
Amendments to IAS 27	Equity method in separate financial statements[4]

1 Effective for annual periods beginning on or after 1 January 2018, with earlier application permitted.
2 Effective for first annual IFRS financial statements beginning on or after 1 January 2016.
3 Effective for annual periods beginning on or after 1 January 2019.
4 Effective for annual periods beginning on or after 1 January 2016, with earlier application permitted.
5 Effective for annual periods beginning on or after a date to be determined.
6 Effective for annual periods beginning on or after 1 January 2017.

IFRS 15 "Revenue from contracts with customers"

IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 "Revenue", IAS 11 "Construction contracts" and the related interpretations when it becomes effective.

2. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs") (Continued)

IFRS 15 "Revenue from contracts with customers" (Continued)

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under IFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

The directors of the Company anticipate that the application of IFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 15 until the Group performs a detailed review.

IFRS 16 "Leases"

IFRS 16 was issued on 13 January 2016 and is effective for annual periods beginning on or after 1 January 2019. IFRS 16 replaces all existing lease accounting requirements and represents a significant change in the accounting and reporting of leases, with more assets and liabilities to be reported on the consolidated statement of financial position and a different recognition of lease costs. The directors of the Company are in the process to assess the impact of IFRS 16 on the Group's consolidated financial statements.

The directors of the Company anticipate that the application of the other new and revised IFRSs will have no material effect on the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis and in accordance with International Financial Reporting Standards. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance ("CO").

The disclosure requirements set out in the Listing Rules regarding annual accounts have been amended with reference the provisions of the new Hong Kong Companies Ordinance (Cap. 622) regarding preparation of accounts and directors' reports and to streamline with IFRSs. Accordingly the presentation and disclosure of information in the consolidated financial statements for the financial year ended 31 December 2015 have been changed to comply with these new requirements. Comparative information in respect of the financial year ended 31 December 2014 are presented or disclosed in the consolidated financial statements based on the new requirements. Information previously required to be disclosed under the predecessor CO or Listing Rules but not under the new CO or amended Listing Rules are not disclosed in these consolidated financial statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2 "Share-based payment", leasing transactions that are within the scope of IAS 17 "Leases", and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 "Inventories" or value in use in IAS 36 "Impairment of assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the asset or liability.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 "Income taxes" and IAS 19 "Employee benefits" respectively;

- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 at the acquisition date; and

- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 "Non-current assets held for sale and discontinued operations" are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another standard.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill

Goodwill arising from an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (on groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually or more frequently when there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes (other than construction in progress as described below) are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets other than construction in progress less their residual values over their useful lives using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment (Continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

The Group's financial assets comprise loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables, bills receivables, amount due from a related company, pledged bank deposits and bank balances and cash) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contracts, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade and other receivables and bills receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period normally ranging from six months to one year, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables and bills receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable or bills receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, in a subsequent period, if the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments
An equity instrument is any contract that evidences a residual interest in the assets of the group entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial liabilities
Financial liabilities including trade and other payables, bills payables, bank borrowing and amounts due to related companies are subsequently measured at amortised cost, using the effective interest method.

Effective interest method
The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effective of any changes in estimate being accounted for on a prospective basis.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment losses on tangible and intangible assets other than goodwill (see the accounting policy in respect of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful life to determine whether there is any indication that those assets have suffered an impairment loss. If any such indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment losses on tangible and intangible assets other than goodwill (see the accounting policy in respect of goodwill above) (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised in profit or loss immediately.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the first-in, first-out method.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is charged to profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets acquired separately.

Retirement benefit costs

Payments to defined contribution retirement benefit plans/state-managed retirement benefit schemes are charged as an expense when employees have rendered service entitling them to the contributions.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payment arrangements

Equity-settled share-based payment transactions

Share options granted to employees
For grants of share options that are conditional upon satisfying specified vesting conditions, the fair value of services received is determined by reference to the fair value of share options granted at the date of grant and is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share options reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share options reserve.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before taxation" as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years, and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

4. KEY SOURCE OF ESTIMATION UNCERTAINTY

The following is the key assumption concerning the future, and other key source of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

Estimated impairment of goodwill and intangible assets

Determining whether goodwill and intangible assets are impaired requires an estimation of the value in use of the cash-generating units to which goodwill and intangible assets have been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. As at 31 December 2015, the carrying amount of goodwill and intangible assets are RMB159,291,000 (2014: RMB99,654,000) and RMB388,744,000 (2014: RMB23,286,000), respectively. Details of the recoverable amount calculation are disclosed in note 16.

5. TURNOVER AND SEGMENT INFORMATION

Operating segments

The Group's operation was regarded as a single segment, being an enterprise engaged in research and development, manufacture and trading of Chinese pharmaceutical products. The Chairman of the Board of Directors of the Group, being the chief operating decision maker ("CODM"), reviews the revenue and the profit for the year of the Group as a whole for performance assessment and resource allocation. No analysis of segment assets or segment liabilities is presented as they are not regularly provided to the CODM. Therefore, the operation of the Group constitutes one single reportable segment.

Revenue from major products

The following is an analysis of the Group's revenue from its major products:

	2015	2014
	RMB'000	RMB'000
Injections	**1,166,627**	1,347,450
Soft capsules	**410,470**	446,130
Granules	**392,850**	357,202
Others	**84,862**	78,419
	2,054,809	2,229,201

5. TURNOVER AND SEGMENT INFORMATION (Continued)

Geographical information

Sales of the Group to external customers were substantially made in the People's Republic of China (the "PRC") including Hong Kong.

All non-current assets of the Group including goodwill are located in the PRC including Hong Kong.

Information about major customers

For each of the year ended 31 December 2015 and 2014, there was no customer with turnover accounted for more than 10% of the Group's total turnover.

6. INVESTMENT INCOME

	2015 **RMB'000**	2014 RMB'000
Interest on bank deposits	**52,254**	54,678

Investment income from short-term debt related products (Note b)	**37,523**	75,025
	97,410	129,703

Notes:

(a) These debt related products were entered into and matured during the year ended 31 December 2015 with effective interest rate ranged from 5.3% to 6.0% per annum. No debt related products were entered during the year ended 31 December 2014.

(b) These short-term debt related products were entered into and matured during both years with effective interest rate ranged from 4.0% to 6.4% (2014: 5.5% to 6.5%) per annum. In the opinion of the directors of the Company, these short-term debt related products are in large amounts, with quick turnover and short maturities. Accordingly, the cash receipts and payments for these short-term debt related products are presented on a net basis in the consolidated statement of cash flows.

7. FINANCE COSTS

	2015 RMB'000	2014 RMB'000
Interest on bank borrowings	**61**	16,861

Others	**(5)**	18
Taxation charge for the year	**139,450**	159,046

Hong Kong Profits Tax is calculated at 16.5% (2014: 16.5%) on the estimated assessable profits for the year. The Company and its subsidiaries operating in Hong Kong do not have assessable profits, accordingly, no provision for Hong Kong Profits Tax has been made in the consolidated financial statements.

The provision for PRC Enterprise Income Tax ("PRC EIT") is based on the estimated taxable income for PRC taxation purpose at the rate of taxation applicable for both years. Under the Law of the PRC on EIT (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25%.

8. TAXATION (Continued)

A subsidiary which is operating in Western China has been granted tax concession by the local tax bureau and is entitled to PRC EIT at concessionary rate of 9% for the year (2014: 15%). The tax concession granted to that subsidiary operating in Western China will expire in 2017. Certain subsidiaries which are recognised as High and New-tech Enterprise have been granted tax concessions by the local tax bureau and are entitled to PRC EIT at concessionary rate of 15% for both periods. The tax concessions granted to certain subsidiaries recognised as High and New-tech Enterprise will expire in 2017. In addition, a subsidiary which is operating in agricultural products business has been granted tax exemption by the local tax bureau.

Under the applicable corporate tax law in Australia, income tax is charged at 30% of the estimated assessable profits. No provision for Australian income tax has been made in the consolidated financial statements as the subsidiary operating in Australia has no assessable profits for both years.

9. PROFIT FOR THE YEAR

	2015 **RMB'000**	2014 RMB'000
Profit for the year has been arrived at after charging (crediting):		
Directors' emoluments (see note 10)	**15,041**	42,367

10. DIRECTORS', CHIEF EXECUTIVE'S AND EMPLOYEES' EMOLUMENTS (Continued)

The executive directors' emoluments shown above were mainly for their services in connection with the management of the affairs of the Company and the Group. The independent non-executive directors' emoluments shown above were mainly for their services as directors of the Company.

Mr. Li Zhenjiang is also the chief executive of the Company and his emoluments disclosed above included those for services rendered by him as chief executive.

The five highest paid individuals of the Group included 5 directors (2014: 5), details of whose emoluments are set out above.

During the year, no remuneration was paid by the Group to the directors or highest paid individuals as an inducement to join or upon joining the Group or as compensation for loss of office. None of the directors has waived any remuneration during the year.

The remuneration of directors and key executives is determined by the remuneration committee having regard to the Group's operating results, individual performance and market statistics.

11. DIVIDENDS

	2015 RMB'000	2014 RMB'000
Dividends recognised as distributions during the year:		
Final dividend paid for 2014 of RMB12 cents (2013: RMB12 cents) per share	**99,240**	99,240
Special dividend paid for 2014 of RMB10 cents (2013: RMB10 cents) per share	**82,700**	82,700
Interim dividend paid for 2015 of RMB11 cents (2014: RMB11 cents) per share	**90,970**	90,970
	272,910	272,910
Dividends proposed:		
Proposed final dividend of RMB12 cents (2014: RMB12 cents) per share	**99,240**	99,240
Proposed special dividend of RMB9 cents (2014: RMB10 cents) per share	**74,430**	82,700
	173,670	181,940

The final dividend of RMB12 cents per share and special dividend of RMB9 cents per share, totalling RMB21 cents, have been proposed by the directors and is subject to approval by the shareholders in the annual general meeting.

12. EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share attributable to the owners of the Company is based on the following data:

	2015	2014
	RMB'000	RMB'000
Profit for the year attributable to owners of the Company for the purpose of basic and diluted earnings per share	**657,906**	704,775

	Number of ordinary shares	
	2015	2014
Number of ordinary shares for the purpose of basic and diluted earnings per share	**827,000,000**	827,000,000

The computation of diluted earnings per share for the year ended 31 December 2015 and 2014 has not assumed the exercise of the Company's share options because the adjusted exercise prices of the share options (after the adjustment of the fair value of the unvested share options) were higher than the average market prices of those shares for the outstanding period during the year ended 31 December 2015 and 2014.

13. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment, other than construction in progress, are depreciated over their estimated useful lives after taking into account their estimated residual values using the straight-line method as follows:

Buildings	20 years or over the unexpired lease terms, whichever is shorter
Plant and machineries	3 to 10 years
Office equipment	5 years
Motor vehicles	3 years

The buildings are located in the PRC.

14. PREPAID LEASE PAYMENTS

	2015 RMB'000	2014 RMB'000
Leasehold land in the PRC	**158,528**	145,466
Less: Amount charged within one year (included in other receivables)	**(4,033)**	(3,658)

At 31 December	**158,528**	145,466

The lease term over which the prepaid lease payments are amortised ranged from 45 to 50 years.

15. INTANGIBLE ASSETS

Movement of intangible assets are as follows:

	2015 RMB'000	2014 RMB'000
At 1 January	**23,286**	518
Addition	**11**	–
Acquisition of subsidiaries (note 30)	**377,632**	24,851
Amortisation for the year	**(12,185)**	(2,083)
At 31 December	**388,744**	23,286

The intangible assets represent patents with finite useful lives. Such intangible assets are amortised on straight-line basis over the useful lives from 2 to 20 years.

16. GOODWILL

	2015 RMB'000	2014 RMB'000
COST		
At 1 January	**99,654**	91,663
Acquisition of subsidiaries (note 30)	**59,637**	7,991
At 31 December	**159,291**	99,654

The management annually determines if there is impairment of its cash-generating unit ("CGU") containing goodwill.

For the purpose of impairment testing, goodwill has been allocated to the CGU including ten subsidiaries with principal activities of manufacturing and trading of Chinese pharmaceutical products (2014: nine). These ten subsidiaries are Shineway Pharmaceutical Company Limited, Hebei Shineway Pharmaceutical Company Limited, Shineway Pharmaceutical Sales Company Limited, Shineway Pharmaceutical (Hainan) Company Limited, Xizang Shineway Pharmaceutical Company Limited, Shineway Pharmaceutical (Chengdu) Company Limited, Shineway Pharmaceutical (Zhangjiakou) Company Limited, Shineway Pharmaceutical (Sichuan) Company Limited, Shineway Pharmaceutical Group (Shandong) Company Limited and Beijing Wanter Bio-Pharmaceutical Co., Ltd.. During the year ended 31 December 2015, management of the Group has determined that there is no impairment of its CGU containing goodwill.

16. GOODWILL (Continued)

The recoverable amount of the above CGU has been determined based on a value in use calculation which uses cash flow projections based on most recent financial budgets approved by management covering a five-year period, and discount rate of 10.6% (2014: 8.5%). Cash flows beyond the five-year period have been extrapolated using an estimated constant growth rate of 1% (2014: 7%) which does not exceed the average growth rate for the relevant markets. Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the unit's past performance and management's expectations for the market development. The management believe that any reasonable possible change in the key assumptions on which the recoverable amount is based would not cause the carrying amount of the Group of units to exceed the aggregate of its recoverable amount.

17. DEFERRED TAXATION

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	2015	2014
	RMB'000	RMB'000
Deferred tax assets	**23,061**	24,116
Deferred tax liabilities	**(62,952)**	(23,638)

At 31 December 2015	4,824	16,878	471	(62,064)	(39,891)

Note: Others mainly represent deferred tax liabilities on undistributed profits of the PRC subsidiaries.

At the end of the reporting period, the Group has unused tax losses of approximately RMB167,344,000 (2014: RMB140,710,000) available for offset against future profits. No deferred tax asset has been recognised in respect of such tax losses due to the unpredictability of future profit streams. Included in the unrecognised tax losses are losses of RMB67,928,000 (2014: RMB42,276,000) that will expire in 5 years (2014: 5 years). Other losses may be carried forward indefinitely.

Under the EIT Law, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated undistributed profits of the PRC subsidiaries amounting to RMB3,333,562,000 (2014: RMB2,836,099,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Shineway Drugstores is ultimately controlled by the controlling shareholder of the Company.

The Group allows a credit period of 30 days to Shineway Drugstores. The amount due from Shineway Drugstores aged within 6 months based on invoice date at the end of the reporting period. Such a balance is unsecured, interest-free and repayable on demand.

21. PLEDGED BANK DEPOSITS

At 31 December 2015, pledged bank deposits of RMB43,247,000 represented certain bank deposits pledged to banks to secure bills payables of the Group amounting to RMB43,247,000. At 31 December 2014, pledged bank deposits of RMB240,410,000 represented certain bank deposits pledged to banks to secure bills payables and bank borrowing of the Group amounted to RMB28,481,000 and RMB200,000,000, respectively. The pledged bank deposits carry fixed interest rate ranged from 1.55% to 2.05% (2014: 3.05% to 3.30%) per annum. The pledged bank deposits will be released upon the settlement of the relevant bills payables and bank borrowing.

22. BANK BALANCES AND CASH

At the end of the reporting period, bank balances and cash of RMB2,351,162,000 (2014: RMB2,644,326,000) were denominated in RMB which is not a freely convertible currency in the international market. The exchange rate of RMB is regulated by the Government of the PRC and the remittance of these funds out of the PRC is subject to exchange restrictions imposed by the Government of the PRC.

The effective interest rate on bank balances ranged from 0.01% to 1.35% (2014: 0.01% to 2.60%) per annum as at 31 December 2015.

Included in bank balances are the following amounts denominated in currencies other than the functional currency of the relevant group entity to which they relate.

	2015	2014

23. TRADE AND BILLS PAYABLES (Continued)

An aged analysis of the Group's trade and bills payables at the end of the reporting period is as follows:

	2015 RMB'000	2014 RMB'000
Within 6 months	**211,678**	193,669
Over 6 months but less than 1 year	**1,131**	1,866
Over 1 year but less than 2 years	**4,055**	2,465
Over 2 years	**7,262**	4,487
	224,126	202,487

Trade and bills payables principally comprise amounts outstanding for trade purchases and ongoing costs. The average credit period taken for trade purchase ranges from two months to six months.

Other payables and accrued expenses of the Group mainly represent payables for acquisition of property, plant and equipment, receipt in advance from customers, promotion expense payable, deposits received from sales personnel and value added tax payables.

Included in the deferred income at 31 December 2015 are government subsidies amounting to RMB29,708,000 (2014: RMB38,179,000) in relation to research and development expenses on certain new products not yet recognised. The subsidy is recognised as deferred income because there is an obligation to repay the subsidy if the related research is not successfully completed. The amount will be recognised in profit or loss when the related research is successfully completed. During the year, the Group received RMB16,338,000 (2014: RMB12,110,000) government subsidies in relation to research and development expenses and recognised RMB26,809,000 (2014: RMB281,000) in profit or loss as the related researches are successfully completed.

At 31 December 2015, the deferred income included a government subsidy amounting to RMB67,511,000 (2014: RMB71,244,000) received in 2011 in relation to a development project, including the construction of production premises and acquisition of plant and machineries, in the 邛崍醫藥產業園 ("Qionglai Pharmaceutical Area") in Sichuan Province in the PRC. The grant is recognised as deferred income and to be credited to profit or loss on a systematic basis over the useful lives of the related assets when the assets are ready for management's intended use. The Group has an obligation to repay the grant if the grant is not utilised for the development project. The development project was completed in 2014 and deferred income has been amortised and recognised as other income in profit or loss over the useful lives of the related assets. Deferred income amounting to RMB3,733,000 (2014: RMB3,422,000) is transferred to profit or loss.

26. BANK BORROWING

As at 31 December 2014, the bank borrowing was secured and repayable within one year and the Group has pledged certain pledged bank deposits of RMB211,929,000 to the bank to secure the bank borrowing granted to the Group. The bank borrowing carried a fixed interest at 2.85% per annum.

28. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders. The Group’s overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes the borrowing disclosed in note 26, net of cash and cash equivalents, and equity attributable to owners of the Company, comprising issued share capital and reserves.

The Group actively and regularly reviews and manages its capital structure and makes adjustments to it in light of the changes in the Group’s business and economic conditions.

Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, bills receivables, amount due from a related company, pledged bank deposits, bank balances and cash, trade and other payables, bills payables, bank borrowing and amounts due to related companies. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (foreign currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Foreign currency risk

Several subsidiaries of the Company have foreign currency bank balances, which expose the Group to foreign currency risk. Approximately 2% (2014: 1%) of the Group's bank balances and cash are denominated in currencies other than the functional currency of the relevant group entities.

Sensitivity analysis

The Group is mainly exposed to HKD and AUD as disclosed in note 22 with the functional currency of those subsidiaries in RMB.

The following table details the Group's sensitivity to a 5% (2014: 5%) increase and decrease in RMB against HKD and AUD. 5% (2014: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in relevant foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% (2014: 5%) change in HKD and AUD. A negative number below indicates a decrease in profit for the year where RMB strengthens 5% (2014: 5%) against HKD and AUD. For a 5% (2014: 5%) weakening of RMB against HKD and AUD, there would be an equal and opposite impact on the profit for the year.

	2015	2014
	RMB'000	RMB'000
HKD	**(358)**	(1,284)
AUD	**(2,836)**	–

In management's opinion, the sensitivity analysis is unrepresentative of the foreign currency risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk

Interest bearing financial instruments are mainly time deposits, pledged bank deposits and bank borrowing which are all short-term in nature and carry fixed interest rates. The Group is exposed to fair value interest rate risk in relation to the pledged bank deposits, fixed-rate time deposits, and bank borrowing (see notes 21, 22 and 26 for details). The Group is also exposed to cash flow interest rate risk relates to short-term debt-related products and debt-related products entered and matured during the year and bank balances. The Group currently does not have an interest rate hedging policy. The directors of the Company continuously monitor interest rate exposure and will consider enter into interest rate hedging should the need arise. The directors considered the Group's exposure of the bank balances to interest rate risk is not significant and therefore no sensitivity analysis is presented.

Credit risk

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of those financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual bill, trade and other receivables at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

29. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued)

Credit risk (Continued)

With respect to credit risk arising from the short-term debt-related products and debt-related products entered into and matured during the year, the directors of the Company considered that the Group's exposure to credit risk arising from default of the counterparties over the underlying assets of these products is limited as the investment decisions by the management of the Group are made with reference to the risk level of these products suggested by the banks and to the historical default rate of these products. The Group does not expect any significant loss on these products.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounted for 99% (2014: 97%) of the total trade and bill receivables as at 31 December 2015.

The credit risk on bank deposits is limited because the counterparties are financial institutions with high credit standing.

Liquidity risk

The directors of the Company have built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Financial risk management objectives and policies (Continued)

Liquidity risk (Continued)

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for non-derivative financial liabilities are based on the agreed repayment dates.

Fair value measurement of financial instruments

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost approximate their fair values.

30. ACQUISITION OF SUBSIDIARIES

For the year ended 31 December 2015

In August 2015, the Group acquired 60% equity interest in Yunnan Shineway Spirin Pharmaceutical Company Limited 雲南神威施普瑞藥業有限公司 ("Shineway Spirin"), which is engaged in the manufacturing and trading of pharmaceutical products and related business in the PRC, at a cash consideration of RMB42,000,000. This transaction has been accounted for using the acquisition method.

	RMB'000
Assets acquired and liabilities recognised at the date of acquisition are as follow:	
Property, plant and equipment	8,719
Intangible assets	21,347
Inventories	10,604
Trade receivables	4,921
Bills receivables	378
Prepayment, deposits and other receivables	25,059

Goodwill arose on the acquisition of Shineway Spirin because the cost of the combination included a control premium. In addition, the consideration paid for the combination effectively included amounts in relation to the benefit of expected synergies, revenue growth, future market development and the assembled workforce of Shineway Spirin. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets.

30. ACQUISITION OF SUBSIDIARIES (Continued)

For the year ended 31 December 2015 (Continued)

None of the goodwill arising on this acquisition is expected to be deductible for tax purposes.

During the period, Beijing Wanter contributed RMB4,721,000 to the Group's turnover and made a loss of RMB8,987,000 for the period between the date of acquisition and the end of the reporting period.

Had the acquisition of Beijing Wanter been effected at the beginning of the year, the total amount of revenue of the Group for the year ended 31 December 2015 would have been RMB639,414,000, and the amount of the profit for the year would have been RMB2,067,631,000 The proforma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed at the beginning of the year, nor is it intended to be a projection of future results.

For the year ended 31 December 2014

In March 2014, the Group acquired 100% equity interest in Shineway Pharmaceutical Group (Shandong) Company Limited 神威藥業集團(山東)有限公司 (formerly known as 濟南全力製藥有限公司) ("Shineway Shandong"), which is engaged in the manufacturing and trading of pharmaceutical products and related business in the PRC, at a cash consideration of RMB8,000,000. This transaction has been accounted for using the acquisition method.

During the year ended 31 December 2014, Shineway Shangdong contributed RMB1,915,000 to the Group's turnover and made a loss of RMB611,000 for the period between the date of acquisition and the end of the reporting period.

Had the acquisition of Shineway Shandong been effected on 1 January 2014, the total amount of revenue of the Group for the year ended 31 December 2014 would have been RMB2,230,040,000, and the amount of the profit for the year would have been RMB704,121,000. The proforma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed at the beginning of the year, nor is it intended to be a projection of future results.

31. SHARE-BASED PAYMENT TRANSACTIONS

The Company has a share option scheme which was adopted pursuant to a resolution passed on 10 November 2004 (the "Old Scheme") for a period of 10 years. A new share option scheme (the "New Scheme") was adopted at the extraordinary general meeting of the Company held on 29 May 2015 for a period of 10 years. The primary purpose of the Old Scheme and New Scheme is to provide incentives to:

(a) director or employee of any members of the Group;

(b) any discretionary object of a discretionary trust established by any substantial shareholder of the Company or employee of any member of the Group;

(c) any consultant, professional and other advisers to any member of the Group;

(d) any chief executive or substantial shareholder of any member of the Group;

(e) any associate of any director, chief executive or substantial shareholder of any member of the Group; and

(f) any employee (whether full-time or part-time) of substantial shareholder of any member of the Group to take up options.

The Old Scheme has expired on 9 November 2014 and the New Scheme will expire on 28 May 2025.

31. SHARE-BASED PAYMENT TRANSACTIONS (Continued)

The total number of shares in respect of which options might be granted under the New Scheme was not permitted to exceed 10% of the shares of the Company in issue at any point of time, without prior approval from the Company's shareholders. The number of shares issued and to be issued in respect of which options granted and might be granted to any individual in any one year was not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company's shareholders. Options granted to substantial shareholders, independent non-executive directors, or any of their respective associates (including a discretionary trust whose discretionary objects include a substantial shareholder or an independent non-executive director or a company beneficially owned by any substantial shareholder or independent non-executive director of the Company) in excess of 0.1% of the Company's share capital or with a value in excess of HK$5,000,000 must be approved in advance by the Company's shareholders.

Options granted must be taken up within 14 days from the date of offer, upon payment of HK$1 per option. Options might be exercised at any time from the date of grant of the share option to the 10 anniversary of the date of grant. The exercise price was determined by the directors of the Company, and would not be less than the higher of (i) the closing price of the Company's shares on the date of grant; (ii) the average closing price of the shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Company's share.

Details of specific categories of options granted under the Old Scheme are as follows:

During the year ended 31 December 2014, 2,000,000 options were granted on 7 November 2014. The estimated fair value of the options granted on that date was HK$9,586,000.

31. SHARE-BASED PAYMENT TRANSACTIONS (Continued)

These fair values were calculated using the Binomial model. The inputs into the model were as follows:

Grant date	**7.11.2014**
Share price (HK$)	13.54
Exercise price (HK$)	14.12
Expected volatility	46.70%
Expected life (years)	6
Risk-free rate	1.42%
Expected dividend yield	3.00%

Expected volatility was determined by using the historical volatility of the Company's share price over the previous 6 years. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations. Change in the subjective input may materially affect the fair value estimates.

The Group recognised a total expense of RMB17,753,000 (2014: RMB31,512,000) for the year ended 31 December 2015 in relation to share options granted by the Company.

No share options have been granted pursuant to the New Scheme during year ended 31 December 2015.

32. RETIREMENT BENEFITS PLANS

The employees of the Group's PRC subsidiaries participate in retirement and medicare insurances in accordance with the PRC laws and related regulations. When an employee joins the Group, he is enrolled with the local retirement plan. Contributions to the retirement insurance, borne by the Group and the employee jointly at the proportions stipulated by the local Municipal Government, are paid to the social insurance institutions monthly. When the employee retires, he receives his retirement funds from the insurance company directly and is also entitled to enjoy medical benefits after retirement provided by the insurance company. Other than the contributions, the Group has no forfeited contribution nor obligation for any related retirement benefits.

The Group operates a Mandatory Provident Fund Scheme (the "MPF Scheme") for all qualifying employees in Hong Kong. The assets of the MPF schemes are held separately from those of the Group, in funds under the control of trustees. The Group contributes 5% of relevant payroll costs, with maximum of HK$1,500 per employee per month, to the MPF Scheme, which contribution is matched by employees.

The total expense recognised in the consolidated statement of profit or loss and other comprehensive income of RMB51,897,000 (2014: RMB40,315,000) represents contributions payable to this plan by the Group at rates specified in the rules of the plan.

33. OPERATING LEASE COMMITMENTS

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:
