- ER will make all payments to be made by it without a deduction or withholding for or on account of any tax, duties, assessments or governmental charges (a “**Tax Deduction**”), unless such Tax Deduction is required by law. If a Tax Deduction is required by law, the amount of the payment due from ER shall be increased to an amount which (after making any Tax Deduction) leaves an amount equal to the payment which would have been due if no Tax Deduction had been required. With respect to overdue trade payables, all trade payables reflected on the ER Group’s consolidated balance sheet as of the Exchange Date shall be deemed to be overdue trade payables and shall be called the “Exchange Date Overdue Trade Payables”. To the extent the ER Group repays in excess of USD60mm of Exchange Date Overdue Trade Payables (the “Exchange Date Overdue Trade Payable Limit”) in any semiannual fiscal period, any such excess amount will reduce the Cash Threshold (as defined below) dollar-for-dollar (<i>provided that</i> the ER Group cannot repay Exchange Date Overdue Trade Payables such that the Cash Threshold is reduced to less than zero) – Spending on capex (excluding capitalized pre-stripping costs) (the “Capex Costs”) up to a maximum aggregate amount of USD25mm per fiscal year (the “Capex Limit”). (together, the “**Permitted Cash Uses**”)

- If, at the end of any semiannual fiscal period, the ER Group’s aggregate cash balance after the Permitted Cash Uses exceeds the Cash Threshold, such excess amount will constitute “**ER Excess Cash**”. For the avoidance of doubt, any balance in the DSRA will not count towards the amount of cash held by the ER Group for the purposes of this calculation
- Any ER Excess Cash shall first be used to pay the Cash Sweep Premium (as defined below).
- For so long as any New Secured Notes remains outstanding, after payments of the Cash Sweep Premium have reached the Cash Sweep Cap (as defined below):
 - Any ER Excess Cash shall be deposited in the DSRA no later than 15 business days after the release of the ER and MMC financial statements in respect of such period (which shall be released concurrently);

The USD10mm balance of the DSRA can also be used for buybacks to the extent the notional value outstanding of the New Secured Notes is less than USD10mm

With respect to any buyback of the New Secured Notes via a tender offer or reverse Dutch auction, ER may determine in its discretion the price to be offered. However, the funds in the DSRA may be used only for such buybacks or the redemption of the New Secured Notes

- The “**Cash Threshold**” is initially USD25mm and after an Expansion Trigger Event will be USD50mm (subject in each case to reduction as described above to the extent capex spend exceeds the Capex Limit or payments of the Exchange Date Overdue Trade Payables exceed the Exchange Date Overdue Trade Payable Limit). At the end of any semiannual fiscal period, the Cash Threshold (with respect to that semiannual fiscal period only) will be increased by any Excluded Cash Credit
- “**Excluded Cash**” means, during any semiannual fiscal period, the aggregate amount of any cash received from (a) indebtedness incurred under clauses (i), (ii) (but only to the extent the proceeds of such Indebtedness to be used for open market purchases of the New Secured Notes), (iv) and (v) of the definition of Permitted Indebtedness; (b) equity investments in ER; and (c) interest on cash deposits in bank accounts held by the ER Group (excluding interest on any amounts held in the DSRA)
