Business Review (Continued)

Licence fee collection and provision of intellectual property enforcement services business (Continued)

As at the date of this report, it is uncertain as to whether the Group can fully recover the Outstanding Operating Fees from MVCM Association. Accordingly, the board (the "Board") of directors (the "Directors") of the Company is of the view that the non-payment of the Outstanding Operating Fees may have adverse impact on the interests of the Group's license fee collection and provision of intellectual property enforcement services business and hence the Group's overall revenue and gross profit for the year ended 31 March 2016. In view of such uncertainties, an impairment loss of trade receivables of approximately RMB30,700,000 (equivalent to approximately HK\$37,700,000) was made for the year ended 31 March 2016 and the recognition of the revenue from the Operating Fees for the period after the second quarter of 2015 is pending, and subject to, the result of the Litigation.

On 1 June 2016, 北京市朝陽區人民法院(The People's Court of Chaoyang, Beijing\*) notified China Music and Song Labs that the application for the Litigation has been accepted. The Litigation is still on a preliminary stage and the Company's PRC legal counsel is currently taking all necessary steps to protect the Company's interests. For details in relation to the Litigation, please also refer to the Company's announcements dated 12 November 2015, 23 May 2016 and 2 June 2016.

For the year ended 31 March 2016, this business segment recorded revenue of approximately HK\$12.8 million compared to approximately HK\$39.7 million for the last financial year, representing a decrease of about 67.8%, which was mainly attributable to the disposal of Hua Rong completed in August 2014 and the Litigation.

For the year ended 31 March 2016, this business segment recorded loss of approximately HK\$36.5 million compared to approximately HK\$182.4 million for the last financial year, representing a decrease of about 80.0%, which was mainly due to the absence of the non-recurring items including (i) the loss on disposal of Hua Rong of approximately HK\$16.0 million; (ii) the amortisation on intangible assets and deferred expenditure of approximately HK\$20.7 million; and (iii) the impairment loss on goodwill and intangible assets of approximately HK\$147.9 million.

China Resources Advertising & Exhibition Company Limited, a direct wholly-owned subsidiary of the Company (together with its subsidiaries, the "CRA Group") is principally engaged in exhibition-related business. The CRA Group has acted as an organizer and contractor for exhibitions and meeting events held in Hong Kong. It has developed over 20 years of relationship with the Hong Kong Trade Development Council ("HKTDC") and has become one of the major agents organising trade fairs for PRC groups whilst most of which were co-organised with the HKTDC. The clients of the CRA Group are primarily PRC based including numerous sub-councils of the China Council for the Promotion of International Trade in the PRC. For the year ended 31 March 2016, this business segment recorded revenue of approximately HK\$54.6 million compared to approximately HK\$66.7 million for the last financial year, representing a decrease of about 18.1%, and loss of approximately HK\$2.5 million compared to approximately HK\$25.7 million for the last financial year, representing a decrease of about 90.3%. The drop in revenue was mainly as a result of the slowing economies in the PRC and the decrease in the loss was mainly due to the absence of (i) the amortisation on intangible assets of approximately HK\$3.2 million; and (ii) the impairment loss on intangible assets of approximately HK\$19.9 million, which were non-recurring items.

## Amendments to HKAS 1 - Disclosure Initiative

The amendments are designed to encourage entities to use judgement in the application of HKAS 1 when considering the layout and content of their financial statements.

An entity's share of other comprehensive income from equity accounted interests in associates and joint ventures will be split between those items that will and will not be reclassified to profit or loss, and presented in aggregate as a single line item within those two groups.

# Amendments to HKAS 16 and HKAS 38 — Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments to HKAS 16 prohibit the use of a revenue-based depreciation method for items of property, plant and equipment. The amendments to HKAS 38 introduce a rebuttable presumption that amortisation based on revenue is not appropriate for intangible assets. This presumption can be rebutted if either the intangible asset is expressed as a measure of revenue or revenue and the consumption of the economic benefits of the intangible asset are highly correlated.

## 香港會計準則第1號之修訂 — 披露計劃

該等修訂旨在鼓勵實體在考慮其財務報表之佈局及內容時運用香港會計準則第1號應用之判斷。

從實體於聯營公司及合營公司之股 本權益呈列實體應佔其他全面收 入,將分為會及不會重新分類至損 益之項目,並於該等兩個組別內共 同作為單一項目呈列。

### 香港會計準則第16號及香港會計 準則第38號之修訂 — 釐清折舊 及攤銷之可接納方法

香港會計準則第16號之修訂禁止 對物業、廠房及設備項目使用以收 入為基準之折舊方法。香港會計準 則第38號之修訂引入一項可被推 翻之假設,即以收入為基準之攤銷 不適用於無形資產。倘無形資產乃 以收入計量,或收入與無形資產之 經濟利益消耗密切相關,則該假設 可被推翻。

Amendments to HKFRS 10 and HKAS 28 — Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments clarify the extent of gains or losses to be recognised when an entity sells or contributes assets to its associate or joint venture. When the transaction involves a business the gain or loss is recognised in full, conversely when the transaction involves assets that do not constitute a business the gain or loss is recognised only to the extent of the unrelated investors' interests in the joint venture or associate.

HKFRS 9 (2014) - Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at fair value through other comprehensive income ("FVTOCI") if the objective of the entity's business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at FVTOCI. All other debt and equity instruments are measured at fair value through profit or loss ("FVTPL").

香港財務報告準則第9號(二零 一四年) — 金融工具

香港財務報告準則第9號引入金融 資產分類及計量之新規定。按業務 模式持有而目的為持有資產以收取 合約現金流量之債務工具(業務模 式測試),以及具產生現金流量之 合約條款且僅為支付本金及未償還 本金利息之債務工具(合約現金流 量特徵測試),一般按攤銷成本計 量。倘該實體業務模式之目的為持 有及收取合約現金流量以及出售金 融資產,則符合合約現金流量特徵 測試之債務工具按公平價值計入其 他全面收益(「按公平價值計入其他 全面收益」)。實體可於初步確認 時作出不可撤銷之選擇,以計量並 非按公平價值計入其他全面收益持 作買賣之股本工具。所有其他債項 及股本工具乃按公平價值計入損益 (「按公平價值計入損益」)。

HKFRS 9 (2014) — Financial Instruments (Continued)

HKFRS 9 includes a new expected loss impairment model for all financial assets not measured at FVTPL replacing the incurred loss model in HKAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities designated at FVTPL, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

HKFRS 15 — Revenue from Contracts with Customers

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. HKFRS 15 supersedes existing revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and related interpretations.

HKFRS 15 requires the application of a 5 steps approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

HKFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under HKFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

#### HKFRS 16 - Leases

HKFRS 16, which upon the effective date will supersede HKAS 17 "Leases" and related interpretations, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under HKFRS 16, a lessee is required to recognise a right-ofuse asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, HKAS 17.

In respect of the lessor accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

#### 香港財務報告準則第16號 — 租賃

香港財務報告準則第16號由生效 當日起將取代香港會計準則第17 號[租賃 |及相關詮釋,其引入單一 承租人會計處理模式,並規定承租 人就為期超過12個月之所有租賃 確認資產及負債,除非相關資產為 低價值資產則作別論。具體而言, 根據香港財務報告準則第16號, 承租人須確認使用權資產(表示其 有權使用相關租賃資產)及租賃負 債(表示其有責任支付租賃款項)。 因此,承租人應確認使用權資產折 舊及租賃負債利息,並將租賃負債 之現金還款分類為本金部分及利息 部分, 並於現金流量表內呈列。此 外,使用權資產及租賃負債初步按 現值基準計量。計量包括不可撤銷 租賃付款,亦包括承租人合理地肯 定將行使選擇權延續租賃或不行使 選擇權終止租賃之情況下,將於選 擇權期間內作出之付款。此會計處 理方法與承租人會計法顯著不同, 後者適用於根據原準則即香港會計 準則第17號分類為經營租賃之租

就出租人會計處理而言,香港財務報告準則第16號大致繼承了香港會計準則第17號之出租人會計處理規定。因此,出租人繼續將其租賃分類為經營租賃及融資租賃,並且對兩類租賃進行不同之會計處理。

The Directors will assess the impact of the application of HKFRS 16. For the moment, it is not practicable to provide a reasonable estimate of the effect of the application of HKFRS 16 until the Group performs a detailed review.

The Group is in the process of making an assessment of the potential impact of these new/revised HKFRSs and the Directors so far concluded that the application of these new/revised HKFRSs will have no material impact on the Group's financial statements.

(c) Disclosures of possible impacts on financial statements on initial adoption of the amended Listing Rules

The amended Listing Rules in relation to the presentation and disclosures in financial statements, including the amendments with reference to the new Companies Ordinance, Cap. 622 (the New Ordinance), will first apply to the Company in this financial year. The Directors consider that there is no impact on the Group's financial position or performance. However the amendments to Listing Rules would have impacts on the presentation and disclosures in the consolidated financial statements.

#### 4. SIGNIFICANT ACCOUNTING POLICIES

## (a) Business combination and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective dates of acquisition or up to the effective dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Acquisition of subsidiaries or businesses is accounted for using the acquisition method. The cost of an acquisition is measured at the aggregate of the acquisition-date fair value of assets transferred, liabilities incurred and equity interests issued by the Group, as the acquirer. The identifiable assets acquired and liabilities assumed are principally measured at acquisition-date fair value. The Group's previously held equity interest in the acquiree is re-measured at acquisition-date fair value and the resulting gains or losses are recognised in profit or loss. The Group may elect, on a transaction-by-transaction basis, to measure the non-controlling interests that represent present ownership interests in the subsidiary either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other non-controlling interests are measured at fair value unless another measurement basis is required by HKFRSs. Acquisition-related costs incurred are expensed unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

Any contingent consideration to be transferred by the acquirer is recognised at acquisition-date fair value. Subsequent adjustments to consideration are recognised against goodwill only to the extent that they arise from new information obtained within the measurement period (a maximum of 12 months from the acquisition date) about the fair value at the acquisition date. All other subsequent adjustments to contingent consideration classified as an asset or a liability are recognised in profit or loss.

## (a) Business combination and basis of consolidation (Continued)

Contingent consideration balances arising from business combinations whose acquisition dates preceded 1 April 2010 (i.e. the date the Group first applied HKFRS 3 (2008)) have been accounted for in accordance with the transition requirements in the standard. Such balances are not adjusted upon first application of the standard. Subsequent revisions to estimates of such consideration are treated as adjustments to the cost of these business combinations and are recognised as part of goodwill.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interest are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

Subsequent to acquisition, the carrying amount of non-controlling interests that represent present ownership interests in the subsidiary is the amount of those interests at initial recognition plus such non-controlling interest's share of subsequent changes in equity. Total comprehensive income is attributed to such non-controlling interests even if this results in those non-controlling interests having a deficit balance.

#### (b) Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: (1) power over the investee, (2) exposure, or rights, to variable returns from the investee, and (3) the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

#### (c) Associates

An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor a joint arrangement. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies. Associates are accounted for using the equity method whereby they are initially recognised at cost and thereafter, their carrying amount are adjusted for the Group's share of the post-acquisition change in the associates' net assets except that losses in excess of the Group's interest in the associate are not recognised unless there is an obligation to make good those losses.

Profits and losses arising on transactions between the Group and its associates are recognised only to the extent of unrelated investors' interests in the associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated against the carrying value of the associate. Where unrealised losses provide evidence of impairment of the asset transferred they are recognised immediately in profit or loss.

Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the associate. Where there is objective evidence that the investment in an associate has been impaired, the carrying amount of the investment is tested for impairment in the same may as other non-financial assets.

#### (d) Goodwill and gain on a bargain purchase

Goodwill is initially recognised at cost being the excess of the aggregate of a consideration transferred and the amount recognised for non-controlling interests over the fair value of identifiable assets acquired, liabilities and contingent liabilities assumed.

Where the fair value of identifiable assets and liabilities exceed the aggregated of fair value of consideration paid and the amount of any non-controlling interest in the acquiree, the excess is recognised in profit or loss on the acquisition date, after re-assessment.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired.

For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro rata on the basis of the carrying amount to each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

Leasehold land and buildings are stated at revalued amount, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. As the fair value of the land cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, the land portion is accounted for as being held under a finance lease. Fair value is determined by the Directors of the Company based on independent valuations which are performed periodically. The valuations are on the basis of open market value. The Directors of the Company review the carrying value of the leasehold land and buildings and adjustment is made where they consider that there has been a material change. Increases in value arising on revaluation are recognised in other comprehensive income and accumulated in equity under other properties revaluation reserve. Decreases in value arising on revaluation are first offset against increases on earlier valuations in respect of the same property and are thereafter recognised in profit or loss. Any subsequent increases are recognised in profit or loss up to the amount previously charged and thereafter to the other properties revaluation reserve.

Upon disposal of leasehold land and buildings, the relevant portion of the other properties revaluation reserve realised in respect of previous valuations is released from the other properties revaluation reserve to retained earnings.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually by comparing their carrying amounts with their recoverable amounts, irrespective of whether there is any indication that they may be impaired. Intangible assets are tested for impairment by comparing their carrying amounts with their recoverable amounts (see note 4(q)). If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount.

An impairment loss is recognised as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years.

Intangible assets with finite lives are tested for impairment when there is an indication that an asset may be impaired (note 4(q)).

## (h) Payments for leasehold land held for own use under operating leases

Payments for leasehold land held for own use under operating leases represent upfront payments to acquire long-term interests in lessee-occupied properties in the People's Republic of China (the "PRC"). These payments are stated at cost and are amortised over the period of the lease on a straight-line basis as an expense.

#### (i) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on straight-line basis over the lease term.

The total rentals payable under the operating leases are recognised in profit or loss on a straight-line basis over the lease term. Lease incentives received are recognised as an integrated part of the total rental expense, over the term of the lease.

#### (i) Financial instruments

#### (i) Financial assets

The Group classifies its financial assets at initial recognition, depending on the purpose for which the asset was acquired. Financial assets at FVTPL are initially measured at fair value and all other financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. Regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

#### Loans and receivables

These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade debtors), and also incorporate other types of contractual monetary asset. Subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses.

## (ii) Impairment loss on financial assets (Continued)

For loans and receivables

An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. The carrying amount of financial asset is reduced through the use of an allowance account. When any part of financial asset is determined as uncollectable, it is written off against the allowance account for the relevant financial asset.

Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For available-for-sale equity investment, any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income.

For available-for-sale equity investment that is carried at cost, the amount of impairment loss is measured as the difference between the carrying amount of the asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. An exception to the general requirement on determining the appropriate tax rate used in measuring deferred tax amount is when an investment property is carried at fair value under HKAS 40 "Investment Property". Unless the presumption is rebutted, the deferred tax amounts on these investment properties are measured using the tax rates that would apply on sale of these investment properties at their carrying amounts at the reporting date. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all the economic benefits embodied in the property over time, rather than through sale.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Exchange differences recognised in the profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as foreign exchange reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the foreign exchange reserve relating to that operation up to the date of disposal are reclassified to the profit or loss as part of the profit or loss on disposal.

#### (p) Share-based payments

Where share options are awarded to employees, the fair value of the options at the date of grant is recognised in profit or loss over the vesting period with a corresponding increase in the employee share-based compensation reserve within equity. Nonmarket vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at the end of each reporting period so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also recognised in profit or loss over the remaining vesting period.

Where equity instruments are granted to persons other than employees, the profit or loss is charged with the fair value of goods or services received unless the goods or services qualify for recognition as assets. A corresponding increase in equity is recognised. For cash settled share based payments, a liability is recognised at the fair value of the goods or services received.

At the end of each reporting period, the Group reviews the carrying amounts of the following assets to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- intangible assets;
- payments for leasehold land held for own use under operating leases;
- interests in subsidiaries and associates;
   and
- film rights and film in progress.

If the recoverable amount (i.e. the greater of the fair value less costs to sell and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the impairment loss is treated as a revaluation decrease under that HKFRS.

A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the reversal of the impairment loss is treated as a revaluation decrease under that HKFRS.

#### (r) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which it is probably will result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. #### (t) Borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

#### (u) Government grants

Government grants are recognised when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as revenue in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are recognised as deferred income in consolidated statement of financial position and consequently are effectively recognised in profit or loss over the useful life of the asset.

#### (v) Financial Guarantee

A financial quarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument. A financial guarantee contract issued by the Group and not designated as at FVTPL is recognised initially at its fair value less transaction costs that are directly attributable to the issue of the financial quarantee contract. Subsequent to initial recognition, the Group measures the financial guarantee contact at the higher of: (i) the amount determined in accordance with HKAS 37 Provisions, Contingent Liabilities and Contingent Assets; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with HKAS 18 Revenue.

The contracted fee of the financial guarantee recognised as other income in profit or loss over the term of the guarantee as income from financial guarantee issued. In addition, provisions are recognised if and when it becomes probable that the holder of the guarantee will call upon the Group under the guarantee and the amount of that claim on the Group is expected to exceed the current carrying amount i.e. the amount initially recognised less accumulated amortisation, where appropriate.

#### 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

Estimates are evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

## (a) Fair value of investment properties and leasehold land and buildings

The fair value of the investment properties and leasehold land and buildings are determined by independent valuers on an open market value for existing use basis. In making their judgment, consideration has been given to assumptions that are mainly based on market conditions existing at the end of reporting period, by reference to recent market transactions and appropriate capitalisation rates based on an estimation of the rental income. These estimates are regularly compared to actual market data and actual transactions entered into by the Group.

## (b) Useful lives of property, plant and equipment

Management determines the estimated useful lives of the property, plant and equipment and will revise depreciation charges when useful lives differ from previous estimates.

## 5. 重大會計判斷及主要估計不確 定性來源

本公司會根據過往經驗及其他因素進行 評估及作出估計,包括預期日後出現在 有關情況下相信屬合理之事件。有重大 風險會對下一個財政年度之資產與負債 之賬面值造成大幅調整之主要假設論述 如下:

#### (a) 投資物業以及租賃土地及樓宇之公 平價值

投資物業以及租賃土地及樓宇之公 平價值乃由獨立估值師按現時使用 基準以公開市值釐定。於作出判斷 時已考慮主要按報告期末之現行市 況所作出、參考最近市場交易以及 按估計租金收入所計算之合適資本 化比率而得出之假設。該等估計乃 定期與實際市場數據及本集團訂立 之實際交易作比較。

#### (b) 物業、廠房及設備之可使用年期

管理層釐定物業、廠房及設備之估 計可使用年期並將於可使用年期有 別於先前估計時修訂折舊開支。

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

#### (c) Impairment test of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

#### (d) Impairment loss on intangible assets

Determining whether an intangible asset is impaired requires an estimation of the future cash flow and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

#### (e) Impairment of interests in associates

The Group's management assesses impairment of interests in associates at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amounts of the assets are determined.

#### 重大會計判斷及主要估計不確 定性來源(續)

#### (c) 商譽減值測試

本集團最少每年釐定商譽是否經已 減值。此乃需要估計獲分配商譽之 現金產生單位之使用價值。本集團 須估計現金產生單位所產生之預期 未來現金流以估計使用價值,並須 選用合適貼現率以計算該等現金流 之現值。

#### (d) 無形資產之減值虧損

於釐定無形資產是否經已減值時須 估計未來現金流及合適貼現率以計 算現值。倘實際未來現金流少於預 期,則可能出現重大減值虧損。

#### (e) 於聯營公司之權益減值

本集團管理層於報告日期透過評估 本集團可能出現資產減值的特定情 況評估於聯營公司之權益減值。倘 存在導致減值的因素,則會釐定資 產的可收回金額。

# 5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

## (e) Impairment of interests in associates (Continued)

Value in use calculations performed in assessing recoverable amounts incorporate a number of key estimates and assumptions about future events, which are subject to uncertainty and might materially differ from the actual results. In making these key estimates and judgements, the management takes into consideration assumptions that are mainly based on market condition existing at the reporting date, appropriate market and discount rates and what information it can obtain from the associates. These estimates are regularly compared to actual market data and actual transactions entered into by the Group.

#### (f) Impairment loss on loans and receivables

The policy for impairment of loans and receivables of the Group is based on the evaluation of collectability and ageing analysis of the loans and receivables and on management's judgment. A considerable amount of judgment is required in assessing the ultimate realisation of these loans and receivables, including the current creditworthiness of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional impairment may be required.

#### (f) 貸款及應收款項之減值虧損

本集團貸款及應收款項之減值政策 乃按貸款及應收款項之收回性評 估及賬齡分析以及管理層之判斷 定。於評估該等貸款及應收款項之 最終變現數額時須作出一定程度之 判斷,包括各客戶之現時信貸評 級。倘本集團客戶之財務狀況有所 減損,則會削弱其還款能力,因而 可能須作額外減值。

Leasehold land and buildings were revalued at 31 March 2016 and 2015 on the open market value basis by APAC Asset Valuation and Consulting Limited ("APAC"). The valuation was mainly arrived at by reference to comparable market transactions. A net revaluation surplus of HK\$480,156 (2015: HK\$546,171) was credited to other properties revaluation reserve, after netting off applicable deferred tax expense of HK\$94,881 (2015: HK\$107,925).

The fair value of the leasehold land and buildings in Hong Kong of HK\$8,900,000 as at 31 March 2016 (2015: HK\$8,600,000) is a Level 2 recurring fair value measurement.

The carrying amount of leasehold land and building of the Group would have been HK\$664,027 (2015: HK\$688,298) had they been stated at cost less accumulated depreciation and accumulated impairment losses.

At 31 March 2016 and 2015, the Group did not pledge any property, plant and equipment.

租賃土地及樓宇經由亞太資產評估及顧問有限公司(「亞太」)按公開市值基準於二零一六年及二零一五年三月三十一日重估。估值主要參考可資比較市場交易得出。重估盈餘淨額480,156港元(二零一五年:546,171港元)已計入其他物業重估儲備,並已扣除適用之遞延税項開支94,881港元(二零一五年:107,925港元)。

於二零一六年三月三十一日,於香港之租賃土地及樓宇之公平價值8,900,000港元(二零一五年:8,600,000港元)為層級2經常性公平價值計量。

倘本集團之租賃土地及樓宇按成本減 累積折舊及累積減值虧損列賬,其賬 面值應為664,027港元(二零一五年: 688,298港元)。

#### 18. GOODWILL AND IMPAIRMENT

(Continued)

In accordance with HKAS 36 "Impairment of assets", management of the Group performed impairment test for goodwill allocated to the Group's various cash generating units ("CGUs") by comparing their recoverable amounts to their carrying amounts at the end of the reporting period. The recoverable amount of a CGU is determined based on value-in-use calculation.

The recoverable amount of the CGU in (a) relation to provision of intellectual property enforcement services was zero and determined from value-in-use calculation based on cash flow projections covering from 2015 to 2022, which is the period whereby an exclusive right has been granted to the Group by the MVCM Association to provide intellectual property enforcement services. Discount rate of 15.5% per annum is used in the calculation which was provided by APAC for the year ended 31 March 2015. The key assumption have been determined by the Group's management based on past performance and its expectations for the industry development. During the year ended 31 March 2015, the goodwill of HK\$79,427,363 was fully impaired and impairment loss on intangible assets of HK\$68,494,242 were provided (note 19(b)). It was because the revenue generated from the CGU has dropped. The Directors considered that the customer, the karaoke venue operators, were affected by the reduction in expenditures in entertainment and recreation activities in the PRC and the industry would experience no growth in future.

#### 18. 商譽及減值(續)

按照香港會計準則第36號「資產之減值」,本集團管理層將本集團各現金產生單位(「CGU」)於報告期末之可收回金額與其賬面值比較,就分配至各CGU之商譽進行減值測試。CGU之可收回金額乃按使用價值計算法釐定。

有關提供知識產權維權服務之 (a) CGU之可收回金額為零,乃按涵 蓋二零一五年至二零二二年之現金 流量預測並按使用價值計算法釐 定,該期間乃音像著作權集體管理 協會向本集團授出獨家權利以提供 知識產權維權服務之期間。於截至 二零一五年三月三十一日 1 年度, 計算採用亞太提供每年15.5%之 貼現率。主要假設乃由本集團管理 層根據過往表現及其對行業發展 之預期而釐定。於截至二零一五 年三月三十一日止年度內, 商譽 79,427,363港元已全數減值及無 形資產之減值虧損68,494,242港 元已計提撥備(附註19(b)),此乃 由於CGU產生之收入下跌所致。 董事認為,客戶、卡拉OK場所經 營商受中國之娛樂及休閒活動開支 減少影響,故行業未來將無增長。

#### 18. GOODWILL AND IMPAIRMENT

(Continued)

On 8 July 2011, the Group acquired the entire issued share capital of BoRen Cultural Development Limited ("BoRen") which is engaged in sub-leasing of properties and facilities in Nanjing, the PRC. The estimated recoverable amount was HK\$103,015,144 and determined from value-in-use calculation. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a fiveyear period. Cash flows beyond the five-year period are extrapolated using a 5% revenue growth rate per annum. Discount rate of 10% per annum was used in the calculation which was provided by APAC in 2015 with reference to similar companies. The key assumptions have been determined by the Group's management based on past performance and its expectations for the industry development. During the year ended 31 March 2015, the goodwill of HK\$16,591,728 was fully impaired, it was mainly due to keen competition in property market and adverse economic environment in the PRC, and significant investments in renovation of leasehold improvements for sustaining the growth in future.

#### 18. 商譽及減值(續)

於二零一一年十月八日,本集團收 (b) 購BoRen Cultural Development Limited博仁文化發展有限公司 (「博仁」)之全部已發行股本, 博仁於中國南京從事物業及設 施分租。估計可收回金額為 103,015,144港元,並按使用價值 計算法釐定。該等計算採用根據管 理層批准涵蓋五年期間之財政預算 作出之税前現金流量預測。五年期 間後之現金流量乃採用每年5%之 收益增長率推算。於二零一五年, 計算採用亞太參考相若公司後提供 每年10%之貼現率。主要假設乃 由本集團管理層根據過往表現及其 對行業發展之預期而釐定。截至二 零一五年三月三十一日十年度,商 譽 16,591,728港元已全數減值, 此乃主要由於中國物業市場競爭激 烈及不利經濟環境,以及於租賃物 業翻修作出重大投資以維持未來增 長所致。

#### 19. INTANGIBLE ASSETS (Continued)

- (a) Provision of copyright licence fees settlement and collection services represents the exclusive right in respect of the karaoke copyright in the PRC managed and administered by the China Audio-Video Copyright Association for a period of 10 years from 27 December 2007. During the year ended 31 March 2015, intangible asset in relation to provision of copyright licence fees settlement and collection services was disposed through disposal of subsidiaries (see note 35(c)).
- (b) The recoverable amount of the CGU of provision of intellectual property enforcement services to which the intellectual property enforcement services right is allocated has been determined by the value-inuse calculation, the details of which are disclosed in note 18(a). As at 31 March 2015, impairment loss of HK\$68,494,242 was recognised due to the reason as described in note 18(a).
- (c) For the purpose of impairment testing on the golf club memberships, the recoverable amount has been determined based on fair value less costs to sell. The fair value less costs to sell is referenced to the second-hand market price of the golf club memberships less estimated costs of disposal. During the years ended 31 March 2016 and 2015, no impairment loss was recognised since the recoverable amount of the golf club memberships exceeded its carrying amount.
- Customer relationship and customer contracts represent the long established relationship China Resources Advertising & Exhibition Company Limited, the Company's subsidiary, and its subsidiaries (the "CRA Group"), which acts as an organiser and contractor for all kinds of exhibition events and meeting events mainly in Hong Kong, with the Hong Kong Trade Development Council ("HKTDC") and various sub-councils of the China Council for the Promotion of International Trade in the PRC for large-scale trade fairs, which are mostly organised by HKTDC. The CRA Group has been consistently appointed by HKTDC as the sole agent of China Pavilion for the Hong Kong Fashion Week.

(d) (Continued)

For the year ended 31 March 2015, the estimated recoverable amounts of the above CGU were zero and determined based on the value-in-use approach. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a six-year period with reference to the remaining useful life of customer relationship and customer contracts. Discount rate of 15% is used in the calculation which was provided by APAC for the year ended 31 March 2015. The key assumptions have been determined by the Group's management based on past performance and its expectations for the industry development. As at 31 March 2015, impairment loss of HK\$19,864,005 was recognised in respect of the customer relationship and customer contracts as the Directors consider the clients of the CRA Group are primarily the PRC based textile manufacturers which are recently facing the industry downturn, and in addition, the drop in the client base of the CRA Group due to the exhibitions held in the PRC attract a significant number of the existing clients of the CRA Group.

#### 36. ACQUISITION OF SUBSIDIARIES

(Continued)

The goodwill arising on the acquisition is attributable to broaden the revenue base of the Group so as to enhance the overall competitive ability of the Group.

The goodwill of approximately HK\$20,023,466 was impaired during the year ended 31 March 2016. (note 18)

Since its acquisition, the Great Group had no revenue contributed to the Group's revenue and incurred a loss of HK\$5,923,889 for the year ended 31 March 2016. Had the above acquisition been the combination taken place on 1 April 2015, the revenue and loss before income tax expenses of the Group for the year ended 31 March 2016 would have been HK\$114,755,340 and HK\$138,719,298 respectively. The pro forma information is for illustrative purposes only and is not necessarily an indication of revenue and results of operations of the Group that actually would have been achieved had the acquisition been completed on 1 April 2015, nor is it intended to be a projection of future results.

The Group has engaged Vigers, an independent valuer, to assess the fair value of the assets and liabilities of the Great Group at the date of acquisition.

The acquisition-related costs of HK\$292,557 have been expensed and are included in other operating expenses.

#### 36. 收購附屬公司(續)

收購所產生之商譽乃由於預期本集團之 整體競爭力因擴大收益基礎而有所提 高。

截至二零一六年三月三十一日止年度,約20,023,466港元之商譽已減值(附註18)。

自其收購起,格瑞特集團並無為本集團之收益帶來收益,且於截至二零一六年三月三十一日止年度產生5,923,889港元之虧損。假設上述收購已於二零一五年四月一日進行,則本集團度之除所得稅開支前收益及虧損分別表之份開支前收益及虧損分別表之份,且並非必然為本集團實際將取得的收益及經營業績,因此不應被視為未來業績的預測。

本集團委聘獨立估值師威格斯評估格瑞 特集團之資產及負債於收購日期之公平 價值。

收購相關成本 292,557港元已支付,並 計入其他經營開支。

#### 43. FINANCIAL RISK MANAGEMENT

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. The Group is also exposed to equity price risk arising from its equity investment in other entities.

Policy for managing these risks is set by the Board following recommendations from the chief financial officer. Certain risks are managed centrally, while others are managed locally following guidelines communicated from the management. The policy for each of the above risks is described in more detail below.

#### (a) Credit risk

Credit risk refers to the risk that counterparties will default on their contractual obligations resulting in financial loss to the Group. The Group exposes to credit risk from loans and receivables. The Group has adopted a credit policy to monitor and mitigate credit risk arising from trade debtors. Credit limit is regularly reviewed and approved by head of credit control. The Group assesses credit risk based on customers' past due records, trading history, financial conditions or credit ratings. The Group and the Company is not exposed to concentration of credit risk. Please refer to note 24 for further analysis of credit risk associated with trade and other receivables.

The credit risk on bank deposits is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The Group's objective is to ensure there are adequate funds to meet commitments associated with its financial liabilities. Cash flows of the Group are closely monitored by senior management on an ongoing basis.

Expected 2016 net profits after taxation and non-controlling interests

Expected 2017 net profits after taxation and non-controlling interests

Annual risk-free rate

(c) 層級3公平價值計量使用之估值技 術及輸入資料

有關收購附屬公司之或然代價

或然代價有關於二零一一年七月八日收購博仁,博仁於中國南京從事物業及設備分租。或然代價之賬面金額已於截至二零一五年三月三十一日止年度悉數減值。

對有關收購附屬公司之或然代價進 行估值時採用二項式期權定價模 式。該模式之重大輸入資料如下:

> RMB2,865,000 人民幣2,865,000元

RMB6,596,000 人民幣6,596,000元

RMB9,847,000 人民幣 9,847,000 元

40%

The fair value of contingent consideration related to acquisition of subsidiaries is determined using binomial option pricing model and the significant unobservable input used in the fair value measurement is expected 2015 - 2017 net profits after taxation and non-controlling interests. The fair value measurement is negatively correlated to the expected 2015 - 2017 net profits after taxation and non-controlling interests. As at 31 March 2014, it is estimated that with all other variables held constant, an increase/decrease in expected 2015 - 2017 net profits after taxation and non-controlling interests by 20%, which is a reasonable magnitude determined by management, would have no effect on the Group's other comprehensive income.
