Interim Report 2016

Creating Long-term Value in Asia

Corporate Profile

First Pacific is a Hong Kong-based investment management and holding company with operations located in Asia-Pacific. Our principal business interests relate to telecommunications, consumer food products, infrastructure and natural resources

Within these sectors, our **mission** is to unlock value in our investee companies by:

- Delivering dividend returns to shareholders;
- Delivering share price/value appreciation of First Pacific and the investee companies; and
- Making further investment in our businesses.

Our investment criteria are clear:

- Investments must be related to our areas of expertise and experience (telecommunications, consumer food products, infrastructure and natural resources);
- Investee companies must have a strong or dominant market position in their sectors;
- They must possess the potential for significant cash flows;
 and
- We must obtain management control or significant influence to ensure our goals can be met.

Our **strategies** are threefold:

- Identify undervalued or underperforming assets with strong growth potential and possible synergies;
- Manage investments by setting strategic direction, developing business plans and defining targets; and
- Raise standards to world-class levels at the investee companies.

First Pacific portfolio has a balance of more mature assets in PLDT Inc. ("PLDT") and PT Indofood Sukses Makmur Tbk ("Indofood") which deliver steady dividend flows allowing investment for growth in Metro Pacific Investments Corporation ("MPIC"), Goodman Fielder Pty Limited ("Goodman Fielder"), Philex Mining Corporation ("Philex"), PacificLight Power Pte. Goal	Achievement
Reduce significantly First Pacific's Head Office net debt level	Partly achieved and ongoing On 27 May 2016, Metro Pacific Holdings, Inc. ("MPHI"), a Philippine affiliate of First Pacific, sold 4.1% of diluted interest of MPIC to GT Capital Holdings, Inc. ("GT Capital") for a net consideration of US\$168.6 million. The proceeds will be used for debt reduction.
Continue to seek new investment opportunities when appropriate	Achieved and ongoing First Pacific Group, through MPIC, expanded its infrastructure portfolio by investing in: Global Business Power Corporation ("GBPC") for electricity generation; Cebu-Cordova Bridge Project for toll roads; Metro Iloilo Water District for the supply of bulk treated water; Eco-System Technologies International, Inc. ("ESTII") for wastewater and sewage treatment and Sacred Heart Hospital of Malolos Inc. ("SHHMI") for hospital services.
Guide PLDT through its digital transformation	Ongoing The acquisition of further telecommunications spectrum during the period will strengthen PLDT's service offerings for advanced mobile phone 4G technology. To this end, PLDT's capital expenditure budget for 2016 has been increased to accommodate the new planned spending.
Execute turnaround in Australia and support Goodman Fielder's export initiatives and expansion in Asia	Ongoing Management is executing a business turnaround in Australia to improve profit performance, driven by cost savings, operational efficiencies and new product launches. The China strategy is being implemented with an initial focus on dairy products such as UHT milk, whipping cream, yoghurts and cheese, while in ASEAN markets Goodman Fielder is building its distribution capabilities for the sale of high-quality Australian and New Zealand products.
Assist Philex to complete the definitive feasibility study for the Silangan project	Ongoing The project has secured all major permits including environmental compliance certification for surface mining and approval by the Department of Environment and Natural Resources of the amended Declaration of Mining Project Feasibility for surface mining. The project's feasibility study is under peer review and further optimization by third-party consultants with completion targeted for early 2017.
Work with management of PLP to achieve profitability	Ongoing The electricity generation industry in Singapore is going through evolutionary changes influenced by the market participants themselves. PLP is fully engaged in working to change and adapt to market conditions to achieve profitability.
Work with management of RHI and First Coconut Manufacturing Inc. ("FCMI") with the aim of developing these companies as major players in the Philippines' sugar and coconut industries, respectively	Ongoing Both companies are focusing on securing reliable supplies of raw materials as an important part of laying down the foundation for their long-term growth.

Goal	Achievement
Grow consolidated service revenues, excluding international long distance ("ILD")/national long distance ("NLD"), by increasing wireless service revenues and sustaining double digit gains in the data and broadband businesses	Mostly achieved and ongoing Consolidated service revenues (excluding ILD and NLD) rose 2% to Pesos 72.1 billion (US\$1.5 billion) as data, broadband and digital platform service revenues rose 23% to Pesos 29.5 billion (US\$627.7 million) and accounted for 36% of consolidated service revenues. On a segment basis, fixed line service revenues (excluding ILD and NLD) rose 9% period-on-period, while wireless service revenues (excluding ILD and NLD) declined by 3% compared to the first half of 2015.
Meet core income guidance of Pesos 28 billion	Ongoing Core income declined 6% to Pesos 17.7 billion (US\$376.6 million) in the first half of 2016. With net gain from the sale of 25% interest in Beacon Electric offset by lower equity in earnings in Beacon Electric and taking into consideration lower EBITDA and higher financing costs due to higher capital expenditure, core income guidance was revised upward to Pesos 30 billion for the year as a whole.
Further establish the PLDT group's fixed and wireless networks' dominance and reliability to support the data and broadband businesses, with 2016 capital expenditure budget of Pesos 43 billion	Ongoing During the period, data and broadband revenues rose 25% to Pesos 29.3 billion (US\$623.4 million), accounting for 41% of consolidated service revenues (excluding ILD and NLD). 2016 capital expenditure was revised upward to Pesos 48 billion (US\$1.0 billion), with the increase to finance utilization of newly acquired spectrum including the 700 MHz band from San Miguel Corporation ("SMC").
Expand the PLDT group's suite of offers in digital services, particularly via digital platforms and mobile financial services	Achieved and ongoing PLDT's digital mobile and commerce arm Voyager Innovations, Inc. offers various consumer lending platforms; a mobile payments platform, PayMaya, as a prepaid wallet for e-commerce payments and remittances; and digital commerce solutions for B2B2C including TackThis! and Takatack, while freenet enables enterprises to reach digital consumers.

Goal	Achievement
Continue to accelerate growth, both organically and inorganically	Achieved and ongoing Consolidated net sales rose 4.4% to Rupiah 34.1 trillion (US\$2.5 billion) mainly driven by higher sales contributions from Consumer Branded Products ("CBP"). CBP group's total sales value grew 9.4%, driven by existing and new products. In the first half of 2016, this group launched more than 30 new products including new concepts such as Indomie Real Meat and Indomie Bite Mie.
Maintain a healthy balance sheet	Ongoing Gross debt to equity ratio and net debt to equity ratio as of 30 June 2016 stood at 0.66 times and 0.39 times respectively, similar to the figures at the end of 2015.

Goal	Achievement
Continue the development of major projects in light rail and roads which were won in 2015 bidding	Achieved and ongoing To date, 14 light rail vehicles ("LRV") were restored which increased the total number of LRVs in operation to 91, while projects for rail replacement, central station unification and facilities improvement are underway. The integration of toll collection systems for Subic Clark Tarlac Expressway ("SCTEX") and North Luzon Expressway ("NLEX") was completed in March 2016, while preparation and construction of other road projects are continuing as scheduled.
Bid on further public-private partnership ("PPP") projects in the Philippines, expand MPIC's regional presence and pursue opportunities in non- or less-regulated infrastructure businesses	Ongoing MPIC is working on the resubmission of proposals for the Metro Rail Transit 3 ("MRT3") rail line as requested by the new Administration of the Philippine Government. MPIC through MetroPac Water Investments Corporation ("MWIC") invested in an unregulated business Eco-System Technologies International, Inc. ("ESTII") which is involved in the wastewater management business.
Resolve tariff claims in the domestic toll road and water businesses as well as other disputes in light rail and electricity distribution	Ongoing Delay in tariff adjustments at Meralco, Maynilad, NLEX and Manila-Cavite Toll Expressway ("CAVITEX") are expected to make progress in the second half of 2016 with the instalment of a new Administration. The final hearing for arbitration filed by Maynilad is expected to take place in December 2016.
Establish specialty hospitals in the Philippines to improve patient outcomes while reducing costs to patients	Ongoing Three joint ventures signed for specialty/non-hospital healthcare formats, further expand the scope of health service offerings from the Hospitals group.

Goal	Achievement
Increase sales and profitability in South East Asia and China	Ongoing Sales in Fiji and China rose 15% and 5%, respectively. In South East Asia, Goodman Fielder is increasing its sales and distribution capabilities, including recent commencement of distributor partnerships in Vietnam and the Philippines. As a result, higher export volumes and sales are expected from the second half of this year, led by the sales of products in dairy, grocery and baking-related categories. Sales of UHT and flavored milk products continue to develop and the business will expand into higher margin dairy products such as dairy creams, yogurts and cheeses.
Improve sustainability and growth of profits for the bread business in Australia	Ongoing Volume shortfalls across all categories were partly offset by stronger results in Home Baking. Cost-out and logistics improvements will also help to offset the shortfalls. Discussions continue with retailers on reducing wastage of unsold bread loaves. Material and logistics costs improved in the period, and related cost-out programs will continue to drive operational efficiencies and improve profitability of the baking division.
Refinance debt due in 2016 at a significantly lower net cost	Ongoing Discussion of refinancing of approximately A\$200 million (US\$149 million) is underway and is expected to be finalized in the fourth quarter of this year.

Goal	Achievement
Complete the definitive feasibility study of the Silangan project	Ongoing The project has secured all major permits including environmental compliance certification for surface mining and approval by the Department of Environment and Natural Resources of the amended Declaration of Mining Project Feasibility for surface mining. The project's feasibility study is under peer review and further optimization by third-party consultants with targeted completion by early 2017.
Continuously improve productivity amidst weak metal prices	Achieved and ongoing Tonnage milled rose 5% to 4.7 million tonnes and the operating cost per tonne of ore milled declined 11% to Pesos 741 (US\$15.8) period-on-period.
Explore tenements around Padcal mine to extend the mine life	Ongoing Drilling activities in Bumolo resulted in the estimation of a maiden inferred resource of 21.7 million tonnes at 0.2% copper and 0.3 gram/tonne gold at 0.274% copper equivalent cut-off. Additional drilling programs are ongoing to further identify the quality and quantity of the initial findings.

FPM Power/ PacificLight

Goal	Achievement
Diversify its gas portfolio	Ongoing PLP continues to search for means of reducing its fuel costs by diversifying its gas portfolio. It has successfully done so for the near term through securing better terms in its gas supply agreement and is looking for additional opportunities for the medium and long term.
Leverage its efficiency advantage and operational flexibility to increase its retail portfolio	Achieved and ongoing The proportion of total sales volume devoted to the retail market through PacificLight Energy Pte. Ltd. rose to 68% of total volume of electricity sold compared to 55% period-on-period.
Achieve a total contract level of 85-90% for its generation	Achieved and ongoing Total contract sales accounted for 98% of total volume of electricity sold and 68% of overall generating capacity.

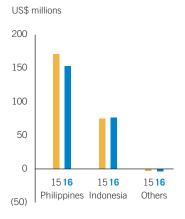

Goal	Achievement
Increase reliability of cane supply	Ongoing Shortage in supply of sugar cane in the Philippines worsened in the period due to the impact of El Niño. RHI improved its competitiveness by implementing a new cane purchase program and offering incentives to sugar cane planters. It was able to secure 1.8 million tonnes of sugar cane compared with 1.7 million tonnes in the first half of 2015.
Lift core net earnings	Ongoing Core net income in the period was adversely impacted by higher cost of sugar cane due to cane supply competition, extended facility upgrade of ethanol plants and higher interest expense. RHI is in discussions with sugar cane planters for securing additional supply of sugar cane, the completion of ethanol facilities expansion this year can also enhance production efficiency.
Increase ethanol production	Achieved and ongoing Sales volume of ethanol rose 32% to 39.0 million liters from 29.5 million liters in the first half of 2015 reflecting inclusion of San Carlo Bioenergy, Inc.'s ("SCBI") six months of sales compared with two months in the first half of 2015.
Complete rights issue	Achieved RHI completed its rights issue in May 2016, raised Pesos 1.1 billion (US\$23.4 million) by issuing 266.8 million new common shares at Pesos 4.19 (US\$0.089) per share. The fund raised will be primarily used for loan repayment and capital expenditure.

Review of Operations – First Pacific

Turnover up 3% to US\$3.4 billion from US\$3.3 billion	 reflecting higher revenues at Indofood and MPIC higher revenues from RHI compared with four months in the first half of 2015 following the consolidation of RHI from 27 February 2015 partly offset by lower revenue at PLP
Recurring profit down 10% to US\$157.8 million from US\$174.8 million	 reflecting a decrease in contribution from PLDT an increase in loss from FPM Power partly offset by higher profit contributions from Indofood, Philex, FPW and MPIC
Non-recurring losses to US\$40.8 million from US\$0.2 million	 mainly reflecting PLDT's impairment provision for its investment in Rocket Internet shares in the period
Reported net profit down 19% to US\$127.6 million from US\$157.4 million	 reflecting lower recurring profit and higher non-recurring losses partly offset by foreign exchange and derivative gains in the period compared to losses in the first half of 2015

The Group's operating results are denominated in local currencies, principally the peso, the rupiah, the Australian dollar (A\$) and the Singapore dollar (S\$), which are translated and consolidated to provide the Group's results in U.S. dollar. Divestment

On 27 May 2016, MPHI, a Philippine affiliate of First Pacific, sold 4.1% diluted interest of MPIC to GT Capital for a net consideration of US\$168.6 million. Post the transaction together with the dilution impact from MPIC's share placement to GT Capital for Pesos 22.0 billion (US\$467.2 million), MPHI's economic interest in MPIC was reduced to approximately 42.0% from approximately 52.0%.

Interim Distribution

First Pacific's Board of Directors, taking into consideration cash flow trends and following consistent prudent risk management practices, declared an interim distribution of HK8 cents (U.S. 1.03 cents) per share, unchanged from a year earlier. The interim distribution represents a 28% payout of the Group's 2016 first half recurring profit to shareholders, higher than the committed payout of 25%.

Debt Profile

At 30 June 2016, net debt at the Head Office stood at US\$1.5 billion while gross debt stood at US\$1.8 billion with an average maturity of approximately 3.6 years. Approximately 18% of the Head Office borrowings were floating rate bank loans while fixed rate bonds comprised the remainder. Unsecured debts accounted for approximately 61% of Head Office borrowings. The blended interest rate was approximately 5.3% per annum.

Among the outstanding debts, plans are underway to partially refinance the US\$300 million bonds issued in July 2010 due to mature in July 2017, taking into account the US\$168.6 million net proceeds from the sale of MPIC shares.

There is no Head Office recourse for the borrowings of subsidiary and affiliate companies.

Interest Cover

For the first half of 2016, Head Office recurring operating cash inflow before interest expense was approximately US\$120.1 million. Net cash interest expense declined 2% to approximately US\$45.7 million reflecting a lower average debt level as the Company bought back approximately US\$13.0 million of bonds which mature in 2023 during the period. For the 12 months ended 30 June 2016, the cash interest cover was above 2.0 times.

Foreign Currency Hedging

The Company actively reviews the potential benefits of hedging based on forecast dividend flows and enters into hedging arrangements (including the use of forward exchange contracts) for managing its foreign currency exposure in respect of dividend income and payments in foreign currencies on a transactional basis.

2016 Outlook

The First Pacific Group of companies continues to evolve as the units respond to changing market conditions. Most clearly at PLDT, market evolution is transforming the Philippines' biggest telecommunications company into a digital service and content provider, repositioning itself to return to earnings growth. MPIC expects to record another year of record high earnings as demand for its products and services continues to grow. At Indofood, continuing growth and a focus on delivering high-quality food products at competitive prices are expected to result in strong financial results by year-end. For First Pacific, debt reduction is easing pressure on cash flow during a period of reduced dividend income. It is expected that a return to growth will begin following stabilization in 2016.

PLDT contributed profit of US\$78.4 million to the Group (1H15: US\$97.4 million), representing approximately 35% (1H15: 40%) of First Pacific's aggregate contribution from operations for the period. The 20% reduction in profit contribution principally reflecting the decline in prepaid cellular service revenues, higher handset subsidies and provisions, and a 5% depreciation of the peso against the U.S. dollar, partly offset by an increase in other income, higher fixed line service revenues and lower manpower reduction costs.

Consolidated core net income down 6% to Pesos 17.7 billion (US\$376.6 million) from Pesos 18.9 billion (US\$425.3 million)	 principally reflecting the decline in prepaid cellular service revenues, higher costs in connection with growing the postpaid business and data usage, including handset subsidies and provisions partly offset by an increase in other income in relation to the sale of the 25% interest in Beacon Electric to MPIC, higher fixed line service revenues and lower manpower reduction costs
Reported net income down 33% to Pesos 12.5 billion (US\$265.2 million) from Pesos 18.7 billion (US\$420.8 million)	 reflecting lower core net income additional impairment of the investment in Rocket Internet due to the further decline in its share price during the period
Consolidated service revenues down 1% to Pesos 80.6 billion (US\$1.7 billion) from Pesos 81.2 billion (US\$1.8 billion)	 reflecting continued structural change in the revenue mix excluding revenue declines from international and national long distance businesses, consolidated service revenues rose 2% owing mainly to higher revenues from data and broadband revenues from data, broadband and digital platforms rose 23%, accounting for 36% of total consolidated service revenues combined revenues from cellular SMS and domestic voice, accounting for 53% of total consolidated service revenues, decreased 9% ILD and NLD revenues, accounting for 11% of total consolidated service revenues, declined 17% for fixed line service revenues, increases in data and broadband revenues were partially offset by the decline in ILD and NLD revenues for wireless service revenues, declines in SMS, domestic voice and ILD more than offset the rise in data and broadband revenues
EBITDA down 13% to Pesos 30.8 billion (US\$655.3 million) from Pesos 35.5 billion (US\$797.6 million)	 principally due to higher subsidies of smartphones partly offset by lower selling and promotion expenses higher provisions for receivables and inventory in relation to growing the postpaid business and encouraging data usage
EBITDA margin to 38% from 44%	 decrease is partly due to the impact of continuing structural change in the revenue mix where higher margin traditional businesses are replaced by lower margin data and broadband businesses, in line with industry trends EBITDA margin for the fixed line segment at 39% and for the wireless segment at 32%

Capital Expenditure

From 2006 to 2015, PLDT spent approximately Pesos 302 billion (US\$6.7 billion) in capital expenditure. Capital expenditure for 2016 is estimated at Pesos 48 billion (US\$1.0 billion) which includes Pesos 5 billion (US\$106.2 million) to roll out network facilities that will utilize the spectrum acquired from SMC at end-May 2016, including the 700 MHz band. During the period, capital expenditure rose 44% to Pesos 20.0 billion (US\$425.5 million) for expanding the PLDT group's 3G and 4G/LTE coverage and capacity, additional fiber optic cabling to augment the fiber assets of the group, full integration on the Sun and Smart networks, and data center expansion. A sizeable amount of capital expenditure is to build out a superior network that will deliver the best data experience to PLDT's customers.

Debt Profile

As at 30 June 2016, PLDT's consolidated net debt was US\$2.8 billion compared with US\$2.4 billion at 31 December 2015 as a result of higher level of capital expenditure. Total gross debt was unchanged at US\$3.4 billion, of which 37% was denominated in U.S. dollars. Only 9% of the total debt was unhedged after taking into account U.S. dollar cash on hand and currency hedges in place. 67% of the total debts were due to mature beyond 2018. Post-interest rate swaps, 91% of total debt are fixed-rate loans. The average pre-tax interest cost increased to 4.4% from 4.2% in full year 2015. The debt profile remains healthy.

PLDT is rated investment grade by Fitch Ratings, Moody's Investors Service and Standard and Poor's Financial Services, unchanged from year-end 2015.

Capital Management

Interim Dividend

Considering the higher capital expenditure required to support increasing network traffic due to higher data usage by customers, PLDT's Board of Directors revised the regular dividend payout to 60% of core net income from 75%, with a "look back" policy at yearend to assess the possibility of paying a special dividend.

The PLDT Board of Directors approved an interim dividend of Pesos 49 (US\$1.04) per share payable on 1 September 2016 to shareholders on record as of 16 August 2016.

Share Buyback

PLDT has not bought back shares since November 2010 under its share buyback program. In 2008, PLDT's Board of Directors approved a program to buy back up to 5 million shares. So far in the program PLDT had bought back 2.7 million shares at an average cost of Pesos 2,388 (US\$51) per share for a total consideration of Pesos 6.5 billion (US\$138.3 million).

Additional Investment and Asset Divestment

On 30 May 2016, PLDT and Globe Telecom, Inc. announced the acquisition of the telecommunications businesses of SMC for a total consideration of Pesos 70 billion (US\$1.5 billion), consisting of Pesos 52.8 billion (US\$1.1 billion) for the equity interest, and Pesos 17.2 billion (US\$366.0 million) in assumed liabilities. Each of PLDT and Globe have a 50% equity interest in the acquired businesses. As part of the transaction, 85MHz of spectrum in various bands were returned to the government, while each of PLDT and Globe entered into co-use arrangements with the National Telecommunications Commission ("NTC") for 140MHz each across various spectrum bands. PLDT's share of the total consideration was Pesos 26.45 billion (US\$562.8 million) in equity and Pesos 8.55 billion (US\$181.9 million) in assumed liabilities. Half of the equity portion has been paid with the remaining to be paid in two equal portions in December 2016 and in May 2017. Post-closing financial due diligence is ongoing. On 12 July 2016, PLDT filed with the Court of Appeals of the Philippines a Petition for Certiorari and Prohibition with Urgent Application for Issuance of a Temporary Restraining Order and/or Writ of Preliminary Injunction against the Philippine Competition Commission's view to protect the "deemed approved" status of the transaction.

On 30 May 2016, PLDT's subsidiary PLDT Communications and Energy Ventures, Inc. ("PCEV") sold a 25% interest in Beacon Electric Asset Holdings, Inc. ("Beacon Electric") to Metro Pacific Investments Corporation ("MPIC") for a consideration of Pesos 26.2 billion (US\$557.4 million). PCEV had received Pesos 17.0 billion (US\$361.7 million) in cash and the balance of Pesos 9.2 billion (US\$195.7 million) is to be received in annual installments until June 2020.

Fixed Line

Growth in the fixed line businesses continues, with service revenues, net of interconnection costs, rising 7% to Pesos 30.9 billion (US\$657.4 million), reflecting higher revenues from fixed line data and broadband, and domestic voice businesses, partly offset by lower ILD and NLD revenues.

Fixed line data and broadband, and domestic voice and others revenues, respectively, represented 59% and 31% of total fixed line service revenues and increased 12% and 4% during the period, while ILD and NLD revenues accounted for 10% of total fixed line service revenues and declined 7%.

The number of PLDT fixed line subscribers increased 5% to 2.4 million period-on-period, of which approximately 1.3 million or 57% had broadband subscriptions.

Review of Operations – PLDT

Wireless

Wireless service revenues declined 5% to Pesos 52.7 billion (US\$1.1 billion), reflecting decreases in SMS and voice revenues offsetting increases in revenues from wireless data and broadband. Revenues from wireless data, broadband and digital platforms; SMS and domestic voice; and ILD services represented 27%, 65% and 8% of total wireless service revenues, respectively. Wireless data, broadband and digital-related revenues rose 29%, reflecting higher smartphone penetration in the subscriber base, as well as increased data usage among those owning smartphones. SMS and domestic voice, and ILD revenues declined 12% and 23%, respectively, as more users switched to lower cost over-the-top services.

The PLDT group's combined cellular subscriber base declined to 64.5 million (31 December 2015: 64.9 million), while wireless broadband subscribers grew to 4.0 million (31 December 2015: 3.9 million), bringing the group's total wireless subscriber base to 68.5 million.

Prepaid subscribers accounted for 95% of the PLDT group's total cellular subscriber base, while postpaid accounted for the remaining 5%.

Data and Broadband

All of the PLDT group's data and broadband businesses' grew in the period, with total data and broadband revenues increasing 25% to Pesos 29.3 billion (US\$623.4 million), accounting for 41% of consolidated service revenues (excluding ILD and NLD). The rise reflects increases of 55%, 22%, 16% and 12% in mobile internet, corporate data and data centers, fixed line broadband and wireless broadband revenues, respectively.

PLDT has the largest number of broadband subscribers in the Philippines. Its combined broadband subscriber base rose to 5.4 million (31 December 2015: 5.2 million) of which 75% were wireless broadband subscribers. The number of PLDT fixed broadband subscribers grew 7% to 1.3 million. As at the end of 30 June 2016, smartphone ownership rose to about 48% of PLDT's cellular subscriber base, and mobile internet usage grew 24% in volume terms.

PLDT operates the largest data center business in the Philippines with seven data centers supporting the growth of Philippine corporates, the business process outsourcing industry and businesses of all sizes. Corporate data and data center revenues rose 22% to Pesos 6.5 billion (US\$138.3 million) and accounted for 22% of total data and broadband revenues.

With the popularity of social networks and the growing availability of affordable data-capable devices, and the overall growth of Philippine businesses, including the BPO industry, the upward momentum in PLDT's data and broadband businesses is expected to continue. The buildout of a superior data network, complemented by access to additional frequencies from the acquisition of SMC's telecommunications businesses, will further enable PLDT to deliver a quality customer experience and offer a wide range of content offerings and affordable broadband services to the Philippine market.

Meralco

PLDT's indirect subsidiary PCEV owns 25% of Beacon Electric. As at 30 June 2016, Beacon Electric owned approximately 34.96% of Meralco.

Meralco, the largest electricity distribution utility in the Philippines, has a franchise to distribute electricity in most of Luzon until 2028. The franchise area produces nearly half of the Philippines' gross domestic product and Meralco accounts for over half of the total electricity sales in the Philippines.

Meralco's performance in the first half of 2016 can be found in the MPIC section of this document.

2016 Outlook

PLDT's dominant market position places it in a unique position to lead in the development of the Philippines' digital economy. It is presently undergoing a 'digital pivot', a transformational journey that is expected to take three years to complete, in order for PLDT to better position itself to serve the emerging digital native and digital enterprise. Progress is being made at different paces by the various businesses. The fixed line and enterprise businesses have gathered momentum in building their data and digital revenues. The wireless business is also gaining ground but has much further to go in an environment where competition remains keen. Nevertheless, PLDT is guiding for full-year core income of Pesos 30 billion.

Reconciliation of Reported Results Between PLDT and First Pacific

PLDT's operations are principally denominated in peso, which averaged Pesos 47.00 (1H15: Pesos 44.51) to the U.S. dollar. Its financial results are prepared under Philippine Generally Accepted Accounting Principles (GAAP) and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on International Financial Reporting Standards (IFRSs), however, certain adjustments need to be made to PLDT's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual operating items which are reallocated and presented separately. Adjustment for 1H16 of Pesos 5.4 billion mainly represents impairment provision for investment in Rocket Internet shares (1H15: Nil).

Others: The adjustments principally relate to the elimination of unrealized gains arising from transactions between the Group and its associate/joint venture, the accrual of withholding tax on PLDT's net income in accordance with the requirements of Hong Kong Accounting Standard (HKAS) 12 "Income Taxes", and the recognition of amortization for certain intangible assets identified as a result of the Group's acquisition of an additional 2.7% interest in PLDT in November 2011.

⁽iii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

Review of Operations – Indofood

Indofood's contribution to the Group increased 2% to US\$76.6 million (1H15: US\$75.0 million) principally reflecting higher core net income, partly offset by a 3% depreciation of the average rupiah exchange rate against the U.S. dollar.

Core net income up 7% to Rupiah 2.2 trillion (US\$165.6 million) from Rupiah 2.1 trillion (US\$160.0 million)	 reflecting a 4% rise in operating profit higher profitability from CBP, Bogasari and Distribution groups partly offset by weaker performance at the Agribusiness group and lower profit contribution from China Minzhong Food Corporation Limited ("CMZ")
Net income up 29% to Rupiah 2.2 trillion (US\$166.3 million) from Rupiah 1.7 trillion (US\$133.1 million)	 mainly reflecting higher core net income recorded foreign exchange gains in 2016 compared to losses in 2015
Consolidated net sales up 4% to Rupiah 34.1 trillion (US\$2.5 billion) from Rupiah 32.6 trillion (US\$2.5 billion)	 driven by higher sales contributions from CBP, Bogasari and Distribution groups partly offset by a decrease at the Agribusiness group sales contribution from CBP, Bogasari, Agribusiness and Distribution groups amounted to 52%, 23%, 17% and 8% of the total, respectively
Gross profit margin to 28.8% from 27.4%	mainly on lower key raw material costs
Consolidated operating expenses up 6% to Rupiah 5.6 trillion (US\$417.5 million) from Rupiah 5.3 trillion (US\$407.4 million)	 due mainly to higher salaries, wages and employee benefits and advertising and promotion expenses
EBIT margin remained at 11.8%	
Net gearing at 0.39 times from 0.34 times at the end of 2015	

Debt Profile

As at 30 June 2016, Indofood recorded gross debt of Rupiah 28.6 trillion (US\$2.2 billion), up 4% from Rupiah 27.6 trillion (US\$2.0 billion) as at 31 December 2015. Of this total, 44% matures within one year and the remainder matures between July 2017 and June 2022, while 51% was denominated in rupiah and 49% was denominated in foreign currencies.

Additional Investment and Asset Held for Sale

On 29 February 2016, PT Wushan Hijau Lestari, a 65%-owned subsidiary of PT Perusahaan Perkebunan London Sumatra Indonesia Tbk ("Lonsum"), acquired a 100% interest in PT Pasir Luhur ("PL") for a total consideration of Rupiah 55 billion (US\$4.1 million). PL owns approximately 900 hectares of tea plantation located at West Java, Indonesia.

On 31 December 2014, Indofood received a letter of intent from China Minzhong Holdings Limited ("CMZ BVI") to purchase approximately 52.94% of the issued share capital of CMZ at S\$1.2 (US\$0.89) per share. On 14 October 2015, Indofood and CMZ BVI entered into a binding memorandum of understanding ("MOU"). As at 30 December 2015, Indofood received earnest payments of S\$40.0 million (US\$29.4 million) from CMZ BVI, one of the principal terms of the MOU. Indofood and CMZ BVI will continue to discuss and work towards the finalization of a definitive sale and purchase agreement. Following the completion of the proposed transaction, Indofood's interest in CMZ will be reduced to 29.94%.

CBP

The CBP group comprises the following divisions: Noodles, Dairy, Snack Foods, Food Seasonings, Nutrition & Special Foods, and

Indofood's Noodles division is one of the world's largest producers of instant noodles with annual production capacity of over 17 billion packs. During the period, CBP launched Indomie Real Meat in two flavors: Chicken Mushroom and Beef Rendang, Indomie Bite Mie in three flavors: Seaweed, Shrimp Tempura and BBQ Pizza, and Sarimi Tongseng Ayam in single pack and Isi 2 (one pack consisting of two noodle blocks).

PT Indolakto, the dairy operating subsidiary, has an annual production capacity of more than 600,000 tonnes. It is one of the largest dairy products manufacturers in Indonesia, producing sweetened condensed milk, creamer, UHT milk, sterilized bottled milk, pasteurized liquid milk, lactic acid beverages, powdered milk, ice cream and butter. During the period, it introduced flavor extensions for Indomilk UHT milk, namely Banana Milk and Strawberry Milk.

The Snack Foods division has an annual production capacity of around 45,000 tonnes, producing flavored and salted chips using potatoes, cassavas, soybeans and sweet potatoes, as well as extruded snacks and biscuits. The division also continued to focus on innovation and during the period it introduced popular products such as Chitato Indomie Goreng, Chitato Foodie and Qtela Opak.

The Food Seasonings division has an annual production capacity of more than 135,000 tonnes, manufacturing a wide range of products, including instant seasonings, chili sauces, soy sauces, tomato sauces and other condiments.

The Nutrition & Special Foods division has an annual production capacity of around 25,000 tonnes, producing and marketing baby cereal, biscuits and puddings for babies and children, milk for expectant and lactating mothers, cereal snacks and cereal drinks.

The Beverages division's product portfolio includes ready-to-drink teas, ready-to-drink coffees, packaged water, carbonated soft drinks and fruit flavored drinks with a combined annual production capacity of around 3 billion liters.

Sales by the CBP group rose 9% to Rupiah 17.8 trillion (US\$1.3 billion), driven by both volume growth and higher average selling prices.

The EBIT margin improved to 14.9% from 13.1% primarily due to improved gross profit margins.

Overall market conditions in the first half of 2016 were better than last year, with demand for most fast-moving consumer goods increasing from last year. Indofood expects this condition to be sustained for the remainder of the year.

Bogasari

Bogasari produces wheat flour and pasta for domestic and international markets. Its sales rose 4% to Rupiah 10.0 trillion (US\$746.7 million) on higher sales. The EBIT margin increased to 8.9% from 7.9%.

The flour industry is expected to benefit from the improving fast-moving consumer goods industry and an increasing preference by younger people for flour-based foods.

Review of Operations – Indofood

Agribusiness

The Agribusiness group consists of two divisions: Plantations and Edible Oils & Fats ("EOF"), which operate through IndoAgri and its main operating subsidiaries PT Salim Ivomas Pratama Tbk ("SIMP") and Lonsum in Indonesia. The Agribusiness group is one of Indonesia's largest palm oil producers with leading businesses in Indonesia's branded cooking oil segment. It also has equity investments in sugar production in Companhia Mineira de Açúcar e Álcool Participacoes ("CMAA") in Brazil and in RHI in the Philippines.

For facilities expansion projects, the construction of two new milling facilities, one each in South Sumatra and in Kalimantan, is expected to be completed within this year as planned. The construction of another new mill in Kalimantan and the expansion of the refinery at Surabaya are expected to be completed in 2017.

Plantations

SIMP and Lonsum have a total planted area of 299,497 hectares. Oil palm is the dominant crop, with 24% of oil palms younger than seven years and an average age of approximately 14 years. Total planted area of oil palm was 246,345 hectares, compared to 246,359 hectares as of December 2015. This division has a total annual processing capacity of 6.4 million tonnes of fresh fruit bunches ("FFB"). In the first half of 2016, crude palm oil ("CPO") production decreased 21% to 353 million tonnes due to the effect of El Niño during the second half of 2015. As at 30 June 2016, RSPO and ISPO certified CPO production were approximately 377,000 and approximately 180,000 tonnes, respectively.

In Indonesia, total planted area of sugar cane decreased 4% from the end of 2015 to 12,835 hectares in South Sumatra. Sugar production rose 16% to approximately 18,000 tonnes in the first half of 2016.

In Brazil, the planted area of sugar cane decreased 0.4% to 52,640 hectares. The reduction in the sugar cane planted area was mainly due to replanting in progress. CMAA's performance was adversely impacted by lower selling prices of electricity generation and losses related to Brazilian currency fluctuation. Indofood's 50% share of CMAA's loss was Rupiah 118 billion (US\$8.8 million).

EOF

This division manufactures cooking oils, margarines and shortenings with an annual refinery capacity of 1.4 million tonnes of CPO. Approximately 59% of this division's input needs are sourced from the Plantations division's CPO production.

Agribusiness sales declined 1% to Rupiah 6.7 trillion (US\$499.4 million), reflecting lower average selling prices and sales volumes of CPO and rubber, partly offset by higher sugar and palm kernel related product sales. The EBIT margin declined to 7.5% from 9.6%. For sales volume, CPO declined 10% to approximately 388,000 tonnes, palm kernel related products declined 13% to approximately 89,000 tonnes, rubber down 28% to approximately 6,000 tonnes, and sugar rose 16% to approximately 18,000 tonnes.

As a diversified and vertically integrated agribusiness with a dominant presence in Indonesia, Indofood's operations continue to be supported by positive market factors that include good demographics, strong economic fundamentals, and a fast-growing middle class with rising discretionary incomes.

The outlook for the agribusiness remains optimistic but they are cautiously managing their activities during this challenging period to mitigate risks and exposures. It will place a stronger emphasis on extracting the optimum from its value chain, and proactively improve operations, increase yields, raise productivity and control costs.

Distribution

The Distribution group is a major component of Indofood's Total Food Solutions chain of operations as it has the most extensive distribution network of stock points in Indonesia among domestic consumer food producers.

Distribution's sales rose 4% to Rupiah 2.7 trillion (US\$203.5 million) mainly benefiting from higher sales by CBP businesses. The EBIT margin rose to 4.0% from 3.3%.

The Distribution group continues to strengthen its distribution network serving over 400,000 registered retail outlets in Indonesia for increasing product penetration and high product visibility in retail outlets.

2016 Outlook

Overall market condition in the first half of 2016 is better than last year, supported by improving economic growth and a manageable inflation rate. Indofood remains positive for the outlook for the remainder of the year.

Reconciliation of Reported Results Between Indofood and First Pacific

Indofood's operations are principally denominated in rupiah, which averaged Rupiah 13,414 (1H15: Rupiah 13,009) to the U.S. dollar. Its financial results are prepared under Indonesian GAAP and reported in rupiah. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Accordingly, certain adjustments need to be made to Indofood's reported rupiah results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

Rail

- 55.0% in Light Rail Manila Corporation ("LRMC"), the operator of Light Rail Transit 1 ("LRT1")
- 20.0% in AF Payments Inc. ("AFPI")

MPIC's contribution to the Group increased 1% to US\$70.2 million (1H15: US\$69.8 million), reflecting higher contributions from its power, toll roads, hospitals and rail businesses, partly offset by a lower contribution from its water business due to the expiry of income tax holiday of Maynilad, a higher MPIC head office net interest expense, lower average shareholding in MPIC and a 5% depreciation of the average peso exchange rate against the U.S. dollar.

Consolidated core net income up 13% to Pesos 6.6 billion (US\$141.4 million) from Pesos 5.9 billion (US\$132.2 million)	 reflecting strong growth at all of MPIC's operating companies, except Maynilad due to the expiration of its income tax holiday power, water, toll roads, hospitals and rail accounted for 52%, 22%, 22%, 3% and 1%, respectively, of MPIC's consolidated profit contribution from operations a 39% increase in contribution from Meralco/Beacon Electric to Pesos 4.1 billion (US\$86.7 million), a higher average shareholding in Meralco and lower net interest expense at Beacon Electric a 26% decline in contribution from Maynilad to Pesos 1.8 billion (US\$38.3 million) as the increases in billed volume and average effective tariff were offset by an increase in tax expense due to the expiration of Maynilad's income tax holiday in December 2015 a 32% rise in contribution from MPTC and DMT to Pesos 1.8 billion (US\$38.1 million). MPTC's performance reflected higher contributions from NLEX and SCTEX a 33% increase in contribution from Hospitals to Pesos 249 million (US\$5.3 million) a turnaround of contribution of Pesos 159 million (US\$3.4 million) from the light rail business from a pre-operating loss for the same period in 2015 partly offset by a higher MPIC head office net interest expense arising from debt financing for investments in various projects and interest accretion on amounts due to Beacon Electric in relation to its acquisition of an additional 10% interest in Meralco and to PCEV in relation to its acquisition of an additional 25% common and preferred shares in Beacon Electric
Consolidated reported net income up 25% to Pesos 7.0 billion (US\$148.5 million) from Pesos 5.6 billion (US\$125.0 million)	 due largely to higher core net income a non-recurring income of Pesos 336 million (US\$7.1 million) principally reflecting reduced expected future tax liabilities related to Maynilad following a reassessment of future net deferred tax liabilities
Revenues up 24% to Pesos 21.7 billion (US\$462.6 million) from Pesos 17.6 billion (US\$395.4 million)	 reflecting revenue growth at Maynilad, MPTC and Hospitals, and new contribution from Rail business

Debt Profile

As at 30 June 2016, MPIC reported consolidated debt of Pesos 88.2 billion (US\$1.9 billion), up 1% from Pesos 87.6 billion (US\$1.9 billion) as at 31 December 2015. Of the total, 94% was denominated in pesos. Fixed-rate loans accounted for 95% of the total and the average pre-tax interest cost was approximately 5.8%.

Interim Dividend

MPIC's Board of Directors declared an interim dividend of Peso 0.032 (U.S. 0.068 cent) per share payable on 26 September 2016 to shareholders on record as of 1 September 2016. This interim dividend represents a payout ratio of 15% of core net income.

Additional Investments

On 7 March 2016, MPHHI completed the acquisition of a 51.0% interest in SHHMI for a total consideration of Pesos 150 million (US\$3.2 million). SHHMI plans to use the funds paid by MPHHI to increase its bed capacity and to enhance its medical facilities.

On 15 April 2016, MPTC signed a joint venture agreement with the City of Cebu and the Municipality of Cordova for the financing, design, construction, implementation, operation and maintenance of the 8.25 kilometers Cebu-Cordova Bridge Project. The estimated construction cost is expected to be no more than Pesos 27.9 billion (US\$592.9 million). Construction is expected to be completed by 2020.

On 5 May 2016, MWIC signed a joint venture agreement with the Metro Iloilo Water District for the supply of bulk treated water and the rehabilitation, expansion, operation and maintenance of certain water facilities, with an estimated project cost of Pesos 2.8 billion (US\$59.6 million).

Review of Operations – MPIC

On 27 May 2016, Beacon Electric, through its wholly-owned entity, Beacon Powergen Holdings, Inc. ("Beacon Powergen") acquired a 56% interest in GBPC for a total consideration of Pesos 22.1 billion (US\$470.2 million) of which half was paid in cash and the remaining half in vendor finance to be settled through a 10-year fixed interest rate peso denominated loan.

On 30 May 2016, MPIC acquired an additional 25.0% interest in Beacon Electric from PLDT's subsidiary PCEV for a consideration of Pesos 26.2 billion (US\$557.4 million). MPIC has paid Pesos 17.0 billion (US\$361.7 million) in cash to PCEV upfront and the balance of Pesos 9.2 billion (US\$195.7 million) to be settled in annual installments until June 2020.

On 16 June 2016, MWIC acquired a 65.0% interest in ESTII for a total consideration of Pesos 1.8 billion (US\$38.3 million). ESTII's core businesses are related to wastewater and sewage treatment plant facilities.

On 29 July 2016, MPHHI completed the acquisition of a 93.0% interest in MVMC for a total consideration of Pesos 993 million (US\$21.1 million). MVMC is a prominent tertiary hospital in Marikina with 140 beds, its newly built 7-storey Medical Arts Building has 44 clinics for MVMC's more than 270 accredited doctors.

Equity Placement

On 27 May 2016, MPIC raised Pesos 22.0 billion (US\$467.2 million) new equity by placing 3.6 billion of new shares to GT Capital. The funds were primarily used for the acquisition of an additional 25% interest in Beacon Electric from PCEV and the acquisition of a 56% interest in GBPC by Beacon Electric. GT Capital also acquired another 1.3 billion shares of MPIC from MPHI which brings its economic interest in MPIC to 15.6%.

Power

Meralco operates a franchise that runs until 2028 for electricity distribution to a region that produces over half of the Philippines' gross domestic product.

Meralco's operating performance was strong during the period, driven by sustained economic growth and robust consumer demand resulting from low inflation, interest rates and fuel prices. The volume of electricity sold rose 11% to 19,717 GWh, with residential, commercial and industrial demand recording 17%, 11% and 6% increases, respectively.

Natural gas accounted for 46% of Meralco's total fuel sources, followed by coal at 37%. The remaining 17% included hydro, geothermal and biomass sources.

System loss was further reduced to 6.46% at end-June 2016 from 6.60% a year earlier, reflecting Meralco's continuing investment in operating efficiencies. Capital expenditure declined 14% to Pesos 4.5 billion (US\$95.7 million) during the transition to a new regulatory period. On 15 June 2016, Meralco received approval from the Energy Regulatory Commission of Pesos 15.5 billion (US\$329.8 million) for capital expenditure on system quality and various power station expansion projects.

Revenues decreased 4% to Pesos 128.8 billion (US\$2.7 billion), mainly reflecting a 9% decrease in the average distribution rate and lower pass-through charges despite the higher availability of Meralco's contracted power plants. The decline eroded the positive impact of an 11% growth in energy sales, a 4% increase in number of customers and an 8% rise in non-electricity revenues.

During the period, MPIC added GBPC to its power generation portfolio through Beacon Electric. GBPC is a holding company, through its subsidiaries, is a leading power producer in the Visayas region and Mindoro Island with current generation capacity of 702 MW, an additional 150 MW is expected to commence operation this year, of which 70 MW is contracted to Meralco. Its fuel sources are coal and diesel.

In the first half of 2016, GBPC's electricity sold rose 4% to 1,787 GWh. Revenues declined 5% to Pesos 8.5 billion (US\$180.9 million) reflecting lower market prices, partly offset by lower fuel and other pass-through costs.

Meralco PowerGen Corporation ("Meralco PowerGen"), Meralco's wholly-owned power generation subsidiary, is developing several power projects with a total planned capacity of over 3,000 MW through San Buenaventura Power, Redondo Peninsula Energy, Atimonan One Energy, St. Raphael Power and Mariveles Power. It also has investments in GBPC's power assets and the PLP power plant in Singapore.

Water

Maynilad is the biggest water utility in the Philippines. It operates a concession that runs until 2037 for water distribution and sewerage services for the West Zone of Metro Manila.

During the period, Maynilad's average non-revenue water fell to 29.3% from 32.3%. Revenues rose 8% to Pesos 10.1 billion (US\$214.9 million), reflecting a 4% increase in billed water volume to 247.6 million cubic meters, a 5% increase in billed customers to 1.3 million and a 5% increase in inflationary adjustment. Core income declined 25% to Pesos 3.6 billion (US\$76.6 million), resulting from the expiration of an income tax holiday.

Maynilad's water tariff under the rate rebasing for the period from 2013 to 2017 received a favorable award in arbitration proceedings on 29 December 2014. However, the Metropolitan Waterworks and Sewerage System ("MWSS") of the Philippines has not yet acted on the arbitration award. Maynilad continues the arbitration process, and a new hearing is expected to take place in December 2016. Despite the subsequent delay in the tariff increase it is entitled to, Maynilad remains committed to providing affordable, clean and safe water to its customers, and continues to invest in wastewater treatment facilities.

The investment in ESTII allows MPIC to diversify its water-related investment and invest in the high-growth wastewater engineering procurement and construction ("EPC") and operations and maintenance ("O&M") market.

Toll Roads

MPTC operates NLEX, CAVITEX, SCTEX and the Subic Freeport Expressway in the Philippines, and has investments in DMT in Thailand and CII B&R in Vietnam. The concession for NLEX runs until 2037, for CAVITEX until 2033 for the original toll road and to 2046 for its extension, for SCTEX until 2043, for DMT until 2034 and for CII B&R and various roads and bridges ranging from 2018 to 2034.

During the period, revenues rose 27% to Pesos 5.9 billion (US\$125.5 million), reflecting strong traffic growth on the NLEX and CAVITEX and the inclusion of SCTEX.

Capital expenditure increased 26% to Pesos 2.4 billion (US\$51.1 million) mainly reflecting the cost of integrating SCTEX with NLEX which was completed in March 2016, Segments 2 and 3 of NLEX road widening project with target completion by 2016 and the construction of Segment 10 of the NLEX Harbour Link with completion planned in 2017.

In the Philippines, the integration of SCTEX with NLEX was completed in March 2016. The construction of the CAVITEX C5 South Link is expected to be completed in 2019, while it would be in 2020 for Cavite-Laguna Expressway ("CALAX") and the Cebu-Cordova Bridge, and in 2021 for NLEX Citi Link.

For the Connector Road with estimated project cost of Pesos 17.5 billion (US\$371.9 million), there was no comparative bid submitted during the "Swiss Challenge" process, MPTC is expected to receive the award of the project during 2016.

In Vietnam, CII B&R expects to complete the construction of the first 37-kilometer section of its 53-kilometer toll roads this year and by 2018 for the remaining 16-kilometer section.

Hospitals

MPIC's Hospital group comprises 12 full-service hospitals and MegaClinic, a mall-based diagnostic and surgical center, and has indirect ownership in two healthcare colleges. MPIC is the largest private provider of premier hospital services in the Philippines with approximately 2,800 beds as at end-June 2016.

Revenues rose 25% to Pesos 9.3 billion (US\$197.9 million), reflecting higher contribution from all of its operating units. The number of out-patients rose 31% to 1.3 million and in-patients rose 25% to 73,416.

The Hospital division plans to expand its portfolio to 5,000 beds. Current priorities include implementing synergies across its hospital network, expanding capacity and enhancing facilities of its existing hospitals, establishing a central laboratory for the Hospitals division and improving healthcare delivery.

Rail

LRMC commenced operation of LRT1, its first rail project, in September 2015, in a concession which runs until 2047. During the period, it recorded revenues of Pesos 1.5 billion (US\$31.9 million). LRT1's average daily ridership for the period was at 405,568.

Review of Operations – MPIC

In February 2016, LRMC signed a Pesos 24.0 billion (US\$510.6 million) loan facility for the LRT1 project, of which Peso 15.3 billion (US\$325.5 million) is for the construction of the Cavite Extension while the remaining is for the rehabilitation of the existing LRT1 system. Since takeover in September 2015, 14 LRV were restored which increased the total number of LRV in operation to 91.

Projects for rail replacement, lining and leveling are progressing as scheduled and are expected to be completed by 2017. Other ongoing enhancement projects involve various improvements for stations and depots, the unification of the central station and preparations for the Grantor's delivery of the right of way for the Cavite Extension.

MPIC is working on the re-submission of proposals for MRT3 rail line as requested by the new Administration of the Philippine Government.

As at 30 June 2016, there were approximately 2.1 million Automated Fare Collection System's beep™ cards registered for use on LRT1, LRT2 and MRT3 network. AFPI successfully created an integrated contactless payment solution for its rail network. AFPI has expanded the use of the beep™ cards in certain bus lines in Metro Manila and recently, the CAVITEX on a trial basis. AFPI expects to further expand usage of the beep™ cards in the public transport sector, toll roads and retail establishments.

2016 Outlook

The arrival into power of a new business-friendly Administration in the Philippine Government is expected to result in better prospects for resolution of the many continuing tariff disputes involving MPIC businesses. Continuing strong economic growth is lifting revenues at all businesses while Management's enduring vigilance over costs and efficiency is feeding directly to the bottom line. In all, the outlook for the MPIC group of companies is for stronger earnings in 2016, creating a stable foundation for further growth and investment.

Reconciliation of Reported Results Between MPIC and First Pacific

MPIC's operations are principally denominated in peso, which averaged Pesos 47.00 (1H15: Pesos 44.51) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to MPIC's reported peso results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

For the six months ended 30 June Peso millions	2016	2015

⁽i) First Pacific presents net income after deduction of preference dividends.

⁽ii) Differences in accounting treatment under Philippine GAAP, compared with Hong Kong GAAP, and other presentational differences. The principal adjustment includes:

Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual operating items which are reallocated and presented separately. Adjustment for 1H16 of Pesos 213 million principally represents Pesos 545 million of reversal of net deferred tax liabilities for future related to Maynilad following a reassessment and Pesos 121 million of reversal of provision for liabilities, partly offset by Pesos 453 million of project expenses. Adjustment for 1H15 of Pesos 357 million principally represents project expenses.

⁽iii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains (net of related tax) are excluded and presented separately.

FPW contributed a profit of US\$7.2 million to the Group (1H15: 6.4 million). The 13% increase in profit contribution reflected six months of contribution in the period versus three months in the first half of 2015, partly offset by a 5% depreciation of the average Australian dollar exchange rate against the U.S. dollar.

During the period, Goodman Fielder recorded core net income of A\$20.7 million (US\$15.2 million), sales of A\$953.3 million (US\$701.0 million), normalized EBIT at A\$57.5 million (US\$42.3 million) and EBIT margin at 6.0%. Capital expenditure decreased 61% to A\$35.2 million (US\$25.9 million).

International Business

Papua New Guinea's market leadership for the flour and snack categories continued in the period, as sales volume of GF Pro Bakers Flour and Meadow Fresh UHT milk introduced in late 2015 remained strong, while sales volume of Flame Stock Feed rose 19%.

In Fiji, sales of poultry, snack foods and ice cream products remained strong and grew by 12%. In China, sales volume of UHT milk rose 48% to 8,670 million liters. Sales volumes of UHT milk also grew in PNG, Fiji, Vietnam and Malaysia. However, the positive impact from higher sales volume was offset by the depreciation of the Papua New Guinean Kina and the Renminbi against the U.S. dollar.

With the milk facility expansion at Christchurch in New Zealand completed in late 2015, Goodman Fielder's export volumes of its Meadow Fresh UHT milk to Southeast Asia rose approximately 50% during the period. In addition to UHT milk, Goodman Fielder is working on increasing exports of its dairy creams, yogurts, butter and cheese products to the foodservice and retail markets across China and South East Asia.

New Zealand Business

Puhoi Valley premium organic milk and flavored milk were launched in late 2015 and recorded strong performance in the period. In March 2016, Puhoi Valley Kawau Blue was named the best cheese at the New Zealand Champion of Cheese awards. Puhoi Valley also won the washed rind cheese category with their cellar range washed rind winning a perfect score of 100 from the judges. Puhoi Valley's Fresh Goat cheese made Cheese awards history by becoming the first goat cheese to win the Champion Export Cheese Award. It has only been exported since the end of 2015. Baking products sales volume and prices remained under pressure due to continuing price constraints.

The expanded UHT milk facility at Christchurch increased Goodman Fielder's efficiency and production capacity, while lower raw milk prices eroded the margin of its dairy products.

Continued sales to large retail customers of fresh white milk during the period has assisted with Dairy margins. The New Zealand business is focusing on a number of cost-out initiatives.

Australia Business

In Australia, the reassessment of logistics arrangements carried out by the new management has begun showing positive results. During the period, costs in relation to logistics were reduced by approximately 15%, and the local business was stabilized period-on-period. Praise, Australia's most popular salad dressing and mayonnaise brand, continues to maintain strong market share.

The June 2016 closing of a bread manufacturing facility in Tamworth will allow Goodman Fielder to move production to facilities in Sydney and Canberra.

Review of Operations – FPW/Goodman Fielder

New product initiatives are being launched to drive sales growth. For example, the introduction of White Wings 'Cake in a Cup' in May 2016, which is focused on convenience snacking, has generated strong volume growth with an expected annualized net sales value growth of A\$3.0 million (US\$2.2 million) for the home baking category.

Debt Profile

As at 30 June 2016, Goodman Fielder's net debt stood at A\$457.2 million (US\$340.7 million) with maturity ranging from 2016 to 2020, and 31% of total borrowings were at fixed rate. Fixed rate borrowings are drawn in U.S. dollars and hedged to A\$167.9 million. In addition, Australian dollar and New Zealand dollar borrowings are funded by a diverse panel of domestic and international banks.

2016 Outlook

After 15 months of new management at Goodman Fielder, the outlook is more positive than it has been in recent years. Recent management initiatives to improve operating efficiencies and cost structures are expected to lift profitability for the second half of this year. An increased capital expenditure budget is also planned to support growth opportunities and various management initiatives. These investments will improve the manufacturing footprint with enhanced scale in key growth markets and categories, and support the business for longer-term, sustainable growth.

Reconciliation of Reported Results Between FPW/Goodman Fielder and First Pacific

Goodman Fielder's operations are principally denominated in A\$, which averaged A\$1.360 (April to June 2015: A\$1.287) to the U.S. dollar. Its financial results are prepared under Australian GAAP and reported in A\$. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Australian GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to Goodman Fielder's reported A\$ results to ensure full compliance with Hong Kong GAAP. An analysis of these adjustments follows.

10.5	9.4 9.8
21.3 (0.6)	19.2 0.2
20.7	19.4 (3.1)
19.6	16.3
14.4	12.7 6.4
	20.7 (1.1) 19.6

- Differences in accounting treatment under Australian GAAP, compared with Hong Kong GAAP, and other presentational differences. The principal adjustments include:
 Reclassification of non-recurring items: Certain items, through occurrence or size, are not considered usual operating items which are reallocated and presented separately. Adjustment for 1H16 of A\$10.8 million principally represents write-off of deferred tax assets related to prior years of A\$6.3 million, site closure costs of A\$2.8 million and project expenses of A\$1.7 million. Adjustment for April to June 2015 of A\$9.8 million principally represents losses arising from unwinding cross currency interest rate swaps of A\$8.0 million after the early settlement of related debts following a change in control of Goodman Fielder and change of control related expenses of A\$0.5 million (which are pre-acquisition in nature and hence eliminated at First Pacific level) and manpower rightsizing costs of A\$1.3 million.
 - Acquisition accounting: A fair value assessment was performed at the date of acquisition of Goodman Fielder and certain revaluation increment adjustments have been made to its property, plant and equipment and inventories. The adjustments principally relate to recognition of additional depreciation based on the fair value of its property, plant and equipment and the reversal of the revaluation increment adjustment made to Goodman Fielder's inventories at the date of acquisition into its post-acquisition cost of sales
- (ii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

Philex's natural resources portfolio as at 19 August 2016 comprises:

Philex for metal-related assets

- 100% in Padcal mine
- 100% in Silangan Mindanao Exploration Co., Inc. ("SMECI")
- 100% in Silangan Mindanao Mining Co., Inc.
- 99.3% in Lascogon Mining Corporation
- 100% in Philex Gold Philippines, Inc.
- 5% in Kalayaan Copper Gold Resources, Inc.

PXP Energy Corporation ("PXP")*, formerly Philex Petroleum Corporation, for energy-related assets

- 53.4% Pitkin Petroleum Limited which owns oil and gas exploration assets in Peru Block Z-38
- 58.2% in Forum Energy Limited ("Forum") which owns 70.0% of Service Contract ("SC") 72, currently in the exploration stage and a 2.3% interest in the Galoc oil field (SC 14C-1) which is in the production stage, both of these assets are located in the West Philippine Sea
- 50.0% in SC 75 and 70.0% in SC 74, both located in Northwest Palawan
- 19.8% held by Philex, 25.0% held by First Pacific and 7.7% held by Two Rivers Pacific Holdings Corporation, a Philippine affiliate of First Pacific.
- 48.8% held directly by PXP, 18.4% held by its 51.2%-owned Canadian subsidiary FEC Resources, Inc., and 3.3% held by First Pacific.

Philex's contribution to the Group increased 55% to US\$4.5 million (1H15: US\$2.9 million) on the strength of lower production costs and expenses, as well as higher gold prices. These positive factors were partly offset by lower volumes of metal sold and lower copper prices. The average realized price for gold rose 6% to US\$1,263 per ounce (1H15: US\$1,190 per ounce), while the average realized copper price fell 18% to US\$2.14 per pound (1H15: US\$2.61 per pound), the lowest level since 2005.

Gold production decreased 8% to 49,589 ounces (1H15: 53,689 ounces) due to lower gold grades, while copper production increased 3% to 17.3 million pounds (1H15: 16.9 million pounds) as a result of higher tonnage milled. The efforts to increase metal output from the second quarter of 2016 resulted in higher tonnage. The improved production in the second quarter of 2016 was driven by improved equipment efficiency and better ore grades, particularly in June 2016, as new draw points started to deliver higher grades. Gold grade averaged 0.436 gram/tonne in June compared with an average of 0.406 gram/tonne for the period. Copper grades were also higher in June at 0.215% against 0.206% average for the period.

Review of Operations – Philex

During the period, Philex retired US\$6.5 million of outstanding short-term debts. As at 30 June 2016, it had Pesos 349 million (US\$7.4 million) of cash and cash equivalents and Pesos 9.4 billion (US\$200.2 million) of borrowings comprising convertible notes issued by SMECI and short-term bank loans.

Core net income up 49% to Pesos 774 million (US\$16.5 million) from Pesos 520 million (US\$11.7 million)	 reflecting a higher production of copper and increase in gold prices lower operating costs and expenses through cost management initiatives
Net income up 28% to Pesos 779 million (US\$16.6 million) from Pesos 607 million (US\$13.6 million)	■ reflecting higher core net income
Revenue flat at Pesos 4.8 billion (US\$102.1 million) from Pesos 4.8 billion (US\$107.8 million) (restated)	 reflecting higher output of copper which was offset by an 18% decline in prices a 6% improvement in gold price was offset by lower ore grade of gold and metal recovery revenues from gold, copper and silver contributed 62%, 37% and 1% of the total, respectively
EBITDA up 14% to Pesos 1.7 billion (US\$36.2 million) from Pesos 1.5 billion (US\$33.7 million)	reflecting lower operating expenses through cost management initiatives
Operating cost per tonne of ore milled down 11% to Pesos 741 (US\$15.8) from Pesos 830 (US\$18.6)	 arising from continued organizational optimization initiatives with comparatively lower total cost allocated over higher tonnage
Capital expenditure (including exploration costs) down 51% to Pesos 1.2 billion (US\$25.5 million) from Pesos 2.5 billion (US\$56.2 million)	 reflecting lower capital expenditure for Silangan project due to the near completion of the feasibility study

The mine life of Philex's major operating metal asset Padcal mine was extended to 2022 in October 2015 with additional resources and reserves declared. The maiden inferred resource estimate from the Bumolo exploration increases the likelihood of further extension of Padcal's mine life. Additional work is required to further identify the quality and quantity of the initial findings.

Property Dividend

On 29 February 2016, Philex's Board of Directors approved a property dividend of record as at 15 March 2016, in which every 100 shares of Philex will be entitled to receive 17 shares of PXP. Philex's registered shareholders in the U.S. received the equivalent property dividend in the form of cash. The transaction was completed with Philex's shareholding in PXP declining by 45.0% to 19.8%, and First Pacific and its Philippine affiliate Two Rivers Pacific Holdings Corporation's economic interest increasing to 25.0% and 7.7%, respectively. Subsequently, PXP will be deconsolidated from Philex.

Interim Dividend

With the significantly improved first half results, Philex's Board of Directors declared on 27 July 2016 an interim dividend of Peso 0.03 (U.S. 0.064 cent) per share payable on 24 August 2016 to shareholders on record as of 10 August 2016.

Silangan Project

The gold copper mine development project is located in Surigao del Norte, Northeastern Mindanao in the Philippines. The project has secured all major permits including environmental compliance certification for surface mining and approval by the Department of Environment and Natural Resources of the amended Declaration of Mining Project Feasibility for surface mining. The project's definitive feasibility study is under peer review by third-party consultants with targeted completion by early 2017. Meantime, community development and environment enhancement programs are ongoing while the feasibility study is progressing.

Mineral Resources and Proved Reserves

Listed below are the mineral resources and proved reserves of the Padcal mine and the mineral resources of the Silangan project based on the most recent data:

PXP

During the period, petroleum revenues declined 29% to Pesos 59 million (US\$1.3 million) (1H15: Pesos 83 million (US\$1.9 million)) as a result of lower crude oil prices and lower output in the Galoc oil field. Costs fell 50% to Pesos 90 million (US\$1.9 million) (1H15: Pesos 179 million (US\$4.0 million)) because of cost cutting initiatives and lower production.

SC72

The property covered by SC 72 is located in Reed Bank (Rector Bank) which lies within the Philippines' Exclusive Economic Zone ("EEZ") as defined under the United Nations Convention on the Law of the Sea ("UNCLOS"). Its second sub-phase of exploration activities is currently suspended due to a force majeure imposed since 15 December 2014.

On 12 July 2016, the Permanent Court of Arbitration made a favorable decision confirming that PXP's service contracts, particularly SC 72, are within the Philippine's EEZ. PXP, through Forum, will take guidance from the Philippine Government in respect of any future activity in SC 72 and other areas covered by the Tribunal's decision.

2016 Outlook

On current trends, the operational results at the Padcal mine will be stronger than in 2015, though the uncertainty over future metal prices, particularly for copper, brings uncertainty to the anticipated full-year results. The improved price for gold, however, has been favorable in the first half and Philex aims to take full advantage of a sustained trend by ramping up production from June. Continuing exploration in the vicinity of the Padcal mine is anticipated to deliver further results in the course of the second half of 2016. It is also expected that the peer review of the Silangan Project's definitive feasibility study will be finished by early 2017.

Reconciliation of Reported Results Between Philex and First Pacific

Philex's operations are principally denominated in peso, which averaged Pesos 47.00 (1H15: Pesos 44.51) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to Philex's reported peso results to ensure full compliance with Hong Kong GAAP. - (i) Differences in accounting treatments under Philippine GAAP, compared with Hong Kong GAAP, and other presentational differences. The principal adjustments include:
 - Reclassification of non-recurring items: Certain items, through occurrence or size are not considered usual operating items which are reallocated and presented separately. Adjustment for 1H15 of Pesos 107 million represents a gain on sale of available-for-sale assets.
 - Revenue recognition regarding sale of mine products: Philex recognizes revenue based on the production of mine products. HKAS 18 "Revenue" requires the recognition of revenue based on the satisfaction of certain conditions, which includes the transfer of significant risks and rewards of ownership of the products to the buyers and the absence of continuing managerial involvement to the degree usually associated with ownership and effective control over the products sold.
 - Depreciation of revaluation increment of assets: A fair value assessment was performed at the date of acquisition of Philex and certain revaluation increment adjustments have been made to its property, plant and equipment. The adjustment relates to the recognition of additional depreciation based on the revalued fair value of these property, plant and equipment over the remaining life of the mine.
 - Others: The adjustments principally relate to accrual of withholding tax on Philex's net income in accordance with the requirements of HKAS 12 "Income Taxes" and the adjustments for the Group's direct share of PXP results.
- (ii) To illustrate the underlying operational results and profit contributions, foreign exchange and derivative gains/losses (net of related tax) are excluded and presented separately.

FPM Power/ Pacific Light

First Pacific through a 60/40-owned entity with Meralco PowerGen holds a 70% interest in PLP. PLP is the first power plant in Singapore fully fueled by liquefied natural gas, equipped with efficient facilities for power generation. The plant's fuel is provided by BG Group under a long-term agreement until 2024 through SLNG Terminal developed by the Singaporean Government. Its combined cycle combustion turbine power plant consists of two 400 gross megawatts natural gas-fired turbines with net capacity of 781 megawatts. PLP launched commercial operations of the power plant on 1 February 2014.

First Pacific's share of FPM Power's loss widened by 45% to US\$10.9 million (1H15: US\$7.5 million), reflecting a lower contribution from the retail market, non-recognition of deferred tax credits arising from tax losses and capital allowances and a long outage of the plant in January 2016 and four incidents of forced outages in the period. This was slightly offset by a 2% depreciation of the average Singapore dollar exchange rate against the U.S. dollar.

During the period, the volume of electricity sold rose 19% to approximately 2,353 gigawatt hours (1H15: 1,983 gigawatt hours), of which 98% was for retail, futures, contracts for difference and vesting contracts and the remaining 2% for merchant market sales. PLP's generation market share for the period was approximately 8.4%.

Core net loss up 53% to S\$57.1 million (US\$41.5 million) from S\$37.3 million (US\$27.6 million)	 reflecting a lower contribution from the retail market lower oil prices resulting in lower average selling prices per unit of electricity one long outage and four incidents of forced outages in the period non-recognition of deferred tax credits arising from tax losses and capital allowances slightly offset by a 2% depreciation of the average Singapore dollar exchange rate against the U.S. dollar
Net loss up 38% to S\$54.9 million (US\$39.9 million) from S\$39.8 million (US\$29.5 million)	 reflecting higher core net loss the recognition of provision for onerous contracts as non-recurring losses partly offset by a foreign exchange gains on US\$ denominated shareholders' loans compared with a loss in the first half of 2015
Revenues down 19% to S\$356.5 million (US\$259.3 million) from S\$439.2 million (US\$325.1 million)	 reflecting a 34% decrease in average selling prices due to lower fuel costs and intense competition as a result of lower oil prices, despite higher volume of electricity generated and sold
Operating expenses down 4% to \$\$11.5 million (US\$8.4 million) from \$\$12.0 million (US\$8.9 million)	 reflecting savings achieved in operating expenses
EBITDA at a loss of S\$2.8 million (US\$2.0 million) from a profit of S\$6.1 million (US\$4.5 million)	 reflecting lower contribution from retail and pool market due to intense competition partly offset by reduction in fixed costs

Review of Operations – FPM Power/PLP

Debt Profile

As at 30 June 2016, FPM Power's net debt stood at US\$506.5 million while gross debt stood at US\$548.6 million with 7% maturing within one year and the remaining debts maturing from 2018 up to 2021. All of the borrowings were floating-rate bank loans, with 97% effectively changed to fixed rates through interest rate swap arrangements.

2016 Outlook

Continuing low crude oil prices and strong competition in the Singapore market will put pressure on profitability in 2016 and beyond.

Reconciliation of Reported Results Between FPM Power/PLP and First Pacific

PLP's operations are principally denominated in S\$, which averaged S\$1.375 (1H15: S\$1.351) to the U.S. dollar. Its financial results are prepared under Singapore GAAP and reported in S\$. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Singapore GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to PLP's reported S\$ results to ensure full compliance with Hong Kong GAAP. FP Natural Resources/

Disposal and Additional Investment

On 18 February 2016, FP Natural Resources sold its entire 14.8% interest in Victorias Milling Company, Inc. ("VMC") to VMC and LT Group in two transactions for a total consideration of approximately Pesos 2.2 billion (US\$46.0 million). The proceeds raised were used to participate in RHI's rights issue and invest in FCMI.

On 18 May 2016, FP Natural Resources and its Philippine affiliate First Agri Holdings Corporation increased their economic interest in RHI to 59.7% from 50.8% for a consideration of Pesos 1.1 billion (US\$23.4 million) by participating in RHI's rights issue.

Review of Operations

First Pacific and its indirect agribusiness subsidiary IndoAgri, through a 70/30-owned entity FP Natural Resources and a Philippine affiliate have an aggregate 59.7% interest in RHI and 100.0% in FCMI.

RHI is the leading sugar milling operator and the biggest ethanol producer in the Philippines, and FCMI engages in crushing of copra, and refining coconut oil and production of crude coconut oil in the Philippines.

During the period, FP Natural Resources' contribution to the Group decreased 82% to US\$0.2 million (1H15: US\$1.1 million). RHI recorded a core net income of Pesos 197 million (US\$4.2 million) despite higher material costs for sugar and ethanol production, and decline in sales of premium raw sugar, while FCMI recorded a core net loss of Pesos 70 million (US\$1.5 million).

Together with its associate Hawaiian-Philippine Company, Inc. ("HPC"), RHI is one of the largest raw sugar producers in the Philippines, accounting for 17% of the Philippines' raw sugar production. It has three sugar mills, one in Batangas and two in Negros Occidental, with combined milling capacity of 34,500 tonnes of sugar cane per day. Its refinery facility in Batangas has capacity of 18,000 Lkg per day. RHI also has two ethanol plants in Negros Occidental with daily production capacity of 285,000 liters.

During the period, RHI sold 1.4 million Lkg of refined sugar (1H15: 1.1 million Lkg), 1.1 million Lkg of raw sugar (1H15: approximately 538,000 Lkg), 50,279 Lkg of premium raw sugar (1H15: approximately 200,000 Lkg) and 39.0 million liters of ethanol (1H15: 29.5 million liters) in the Philippines.

Core net income down 33% to Pesos 215 million (US\$4.6 million) from Pesos 320 million (US\$7.2 million)	 principally due to higher cost of sugar cane, extended facility upgrade for ethanol, and higher interest expense due to a higher debt level continued shortage in supply of sugar cane in the Philippines earlier commencement of off-season maintenance activities in 2016 partly offset by a 34%, 101% and 32% increase in sales volume of refined sugar, raw sugar and ethanol, respectively, and higher average selling prices of all products
Reported net income down 38% to Pesos 197 million (US\$4.2 million) from Pesos 320 million (US\$7.2 million)	■ reflecting a lower core net income
Revenue up 43% to Pesos 7.8 billion (US\$164.9 million) from Pesos 5.4 billion (US\$121.3 million)	 mainly driven by improved sales volumes and higher average selling prices of sugar and ethanol

Review of Operations - FP Natural Resources/RHI/FCMI

Operating expenses down 18% to Pesos 456 million (US\$9.7 million) from Pesos 559 million (US\$12.6 million)	 reflecting cost control initiatives and lower taxes the consolidation of SCBI's six months of operating expenses while it was two months in the first half of 2015
EBITDA down 3% to Pesos 873 million (US\$18.6 million) from Pesos 904 million (US\$20.3 million)	 reflecting higher cost of cane for sugar and extended facility upgrade for ethanol earlier commencement of off-season maintenance activities in 2016 partly offset by the higher average selling prices of all products and higher volumes of refined sugar, raw sugar and alcohol
EBITDA margin down to 11.3% from 16.7%	due to lower EBITDA

Debt Profile

As at 30 June 2016, long-term debt of RHI stood at Pesos 4.0 billion (US\$84.8 million) with maturities ranging from two to eight years at an annual interest of approximately 4.5%. Short-term debt stood at Pesos 5.1 billion (US\$108.7 million) with an average interest of approximately 3.2%.

2016 Outlook

High production costs are expected for the remainder of 2016. RHI's profitability will be slightly boosted with improved competitiveness in attracting cane supply from independent sugar farmers, improved production efficiency resulting from capital investments, and higher average prices of raw and refined sugar, and higher sales of ethanol.

Reconciliation of Reported Results Between FP Natural Resources/RHI/FCMI and First Pacific

RHI's operations are principally denominated in peso, which averaged Pesos 47.00 (1H15: Pesos 44.51) to the U.S. dollar. Its financial results are prepared under Philippine GAAP and reported in peso. First Pacific's financial results are prepared under Hong Kong GAAP and reported in U.S. dollars. Philippine GAAP and Hong Kong GAAP are largely based on IFRSs, however, certain adjustments need to be made to RHI's reported peso results to ensure full compliance with Hong Kong GAAP. Depreciation of revaluation increment of assets: A fair value assessment was performed at the date of FP Natural Resources' acquisition of a controlling interest in RHI of 27 February 2015 and certain revaluation increment adjustments have been made to its property, plant and equipment. The adjustment relates to the recognition of additional depreciation based on the revalued fair value of these property, plant and equipment.

⁻ Others: The adjustments relates to accrual of withholding tax on RHI's net income in accordance with the requirements of HKAS12 "Income Taxes".

Head Office Net Debt

The decrease in net debt principally reflects the net proceeds on sale of 1.3 billion common shares in MPIC of US\$168.6 million. The Head Office's borrowings at 30 June 2016 comprise bonds of US\$1,461.7 million (with an aggregated face value of US\$1,471.3 million) which are due for redemption between 2017 and 2023 and a bank loan of US\$316.8 million (with a principal amount of US\$320 million) which is due for repayment in 2018.

- (i) Includes short-term deposits, pledged deposits and restricted cash
- Group adjustments mainly represents elimination of goodwill arising from acquisitions prior to 1 January 2001 against the Group's retained earnings and other standard consolidation adjustments to present the Group as a single economic entity.

Head Office's gearing decreased which reflects the net proceeds on sale of 1.3 billion MPIC shares.

Indofood's gearing increased because of an increase in its net debt, which mainly reflects the appreciation of the rupiah against the U.S. dollar during the period and its payments for capital expenditure and dividends to shareholders, partly offset by its operating cash inflow, despite an increase in its equity reflecting the appreciation of the rupiah against the U.S. dollar and its profit recorded during the period.

MPIC's gearing decreased because of a growth of its equity as a result of its share placement and profit recorded during the period, partly offset by an increase in its net debt, which principally reflects its payments for acquisition of additional interests in Beacon Electric and Maynilad's and MPTC's payments for capital expenditure, partly offset by the proceeds from share placement and operating cash inflow.

FPM Power's gearing increased mainly because of an increase in its net debt as a result of the appreciation of the S\$ against the U.S. dollar during the period and its operating cash outflow.

FP Natural Resources' gearing decreased mainly reflecting a decrease in its net debt as a result of the proceeds from its sale of investments in Victorias Milling Company, Inc., partly offset by its repayment of advances to First Pacific and RHI's payments for capital expenditure.

The Group's gearing decreased to 0.57 times which reflects an increase in the Group's equity as a result of sale of MPIC shares, MPIC's share placement, an appreciation of the rupiah and its profit recorded during the period, partly offset by a higher net debt level reflecting Indofood's payments for capital expenditure and dividends and MPIC's payments for additional investments in Beacon Electric.

PLDT's gearing increased because of an increase in net debt mainly reflecting its payments for capital expenditure and its reduced equity reflecting dividends paid. FPW's gearing decreased principally because of a growth of FPW's equity as a result of an appreciation of the A\$ against the U.S. dollar and its profit recorded during the period, despite an increase in its net debt reflecting an appreciation of the A\$ against the U.S. dollar during the period and its payments for capital expenditure, partly offset by its operating cash inflow. Philex gearing increased principally because of its payments for capital expenditure, coupled with its reduced equity mainly because of its declaration of a property dividend of PXP shares.

The change in PLDT's debt maturity profile from 31 December 2015 to 30 June 2016 principally reflects loan repayments and new borrowings arranged to finance capital expenditure and/or refinance its loan obligations which were utilized for service improvements and expansion programs. The change in FPW's debt maturity profile from 31 December 2015 to 30 June 2016 principally reflects its new short-term borrowings. The decrease in Philey's debt principally reflects loan repayments.

Charges on Group Assets

At 30 June 2016, certain bank and other borrowings were secured by the Group's property, plant and equipment, accounts receivable, pledged deposits, cash and cash equivalents and inventories amounting to a net book value of US\$1,288.9 million (31 December 2015: US\$1,280.2 million), receipts from future toll collections and funds in the related accounts of CIC and the Group's interests of 11.1% (31 December 2015: 6.9%) in PLDT, 35.5% (31 December 2015: 40.2%) in MPIC, 100% (31 December 2015: 100%) in CIC, 100% (31 December 2015: 100%) in AIF Toll Road Holdings (Thailand) Limited, 25.9% (31 December 2015: 25.9%) in DMT, none (31 December 2015: 93.7%) in SCBI and none (31 December 2015: 45.1%) in HPC.

Financial Risk Management

Foreign Currency Risk

(A) Company Risk

As the Head Office debts are currently denominated in U.S. dollars, foreign currency risk relates mainly to the receipt of cash dividends and to the translation of non-U.S. dollar denominated investments in subsidiary and associated companies and joint ventures.

The Company actively reviews the potential benefits of hedging based on forecast dividend flows and enters into hedging arrangements (including the use of forward exchange contracts) for managing its foreign currency exposure in respect of dividend income and payments in foreign currency on a transactional basis. However, the Company does not actively seek to hedge risks arising on the translation of foreign currency denominated investments due to (i) the non-cash nature of such exposure until the values of the investments are realized and (ii) the high costs associated with such hedging. Accordingly, the Company is exposed to the impact of foreign currency fluctuations on the translated U.S. dollar value of its foreign currency denominated investments.

With the exception of the Head Office, the principal components of the Group's NAV mainly relate to investments denominated in the peso and the rupiah. Accordingly, any change in these currencies, against their respective 30 June 2016 exchange rates, would have an effect on the Group's NAV in U.S. dollar terms.

The following table illustrates the estimated effect on the Group's adjusted NAV for a one per cent change of the peso and rupiah exchange rates against the U.S. dollar.

Company	Basis	Effect on adjusted NAV ⁽ⁱ⁾ US\$ millions	Effect on adjusted NAV per share HK cents

- (ii) Based on quoted share prices of RHI at 30 June 2016 applied to the Group's effective economic interest and the value of other assets measured at cost
- (iii) Based on the investment cost in SMECI's convertible notes

(B) Group Risk

The results of the Group's operating entities are denominated in local currencies, principally the peso, the rupiah, A\$, the New Zealand dollar (NZ\$) and S\$, which are translated and consolidated to give the Group's results in U.S. dollars.

Net Debt by Currency

It is often necessary for operating entities to borrow in U.S. dollars, which results in the risk of a translation impact on local currency results. A summary of consolidated and associated companies' and joint venture's net debt by currency follows.

Consolidated

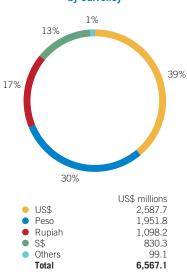

US\$ millions	US\$	Peso	Rupiah	S\$	Others	Total

Stock Market Indices

Philippine Composite Index (PCI)
 Jakarta Composite Index (JCI)
 Singapore Straits Times Index (SSTI)

As a result of unhedged U.S. dollar net debt, the Group's results are sensitive to fluctuations in U.S. dollar exchange rates. The following table illustrates the estimated effect on the Group's reported profitability for a one per cent change in the principal operating currencies of subsidiary and associated companies and joint venture. This does not reflect the indirect effect of fluctuating exchange rates on revenues and input costs at the operating company level.

US\$ millions	Total US\$ exposure	Hedged amount	Unhedged amount	Profit effect of 1% change in currency	Group net profit effect

⁽i) As the Group reports its results in U.S. dollars, unhedged U.S. dollar net debt at Head Office does not give rise to any significant exchange exposure.

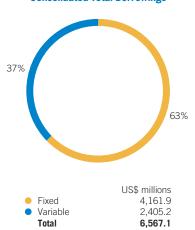

Equity Market Risk

As the majority of the Company's investments are listed, the Company is exposed to fluctuations in the equity market values of such investments. In addition, the value of the Company's investments may be impacted by sentiment towards specific countries.

First Pacific's listed investments are located in the Philippines, Indonesia and Singapore. Accordingly, in addition to operating factors within the Company's control, the Company also has an equity market risk in respect of general investor sentiment towards these countries. Changes in the stock market indices of the Philippines, Indonesia and Singapore are summarized as follows:

	Philippine Composite Index	Jakarta Composite Index	Singapore Straits Times Index
At 31 December 2015	6,952	4,593	2,883
At 30 June 2016	7,796	5,017	2,841

The accompanying notes form an integral part of these Condensed Interim Consolidated Financial Statements.

1. **Basis of Preparation and Impact of Revised HKFRSs**

(A) **Basis of Preparation**

The condensed interim consolidated financial statements have been prepared in accordance with HKAS 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants (HKICPA) and the disclosure requirements of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the Listing Rules) issued by The Stock Exchange of Hong Kong Limited (SEHK). The condensed interim consolidated financial statements have been prepared on a basis consistent with the accounting policies adopted in the Group's 2015 audited financial statements, except for the adoption of revised financial reporting standards effective on 1 January 2016 as described below.

(B) Impact of Revised HKFRSs

During 2016, the Group has adopted the following revised Hong Kong Financial Reporting Standards (HKFRSs) (which include all HKFRSs, HKASs and Hong Kong (International Financial Reporting Interpretations Committee) - Interpretations) effective for annual periods commencing on or after 1 January 2016 issued by the HKICPA:

HKAS 16 and HKAS 41 Amendments **HKAS 1 Amendments** HKAS 16 and HKAS 38 Amendments HKAS 27 (2011) Amendments HKFRS 10. HKFRS 12 and HKAS 28 (2011) Amendments HKFRS 11 Amendments Improvements to HKFRSs

"Agriculture: Bearer Plants"

"Disclosure Initiative"

"Clarification of Acceptable Methods of Depreciation and Amortization"

"Equity Method in Separate Financial Statements"

"Investment Entities: Applying the Consolidation Exception" "Accounting for Acquisitions of Interests in Joint Operations"

"Annual Improvements to HKFRSs 2012-2014"

The Group's adoption of the above pronouncements, except for HKAS 16 and HKAS 41 Amendments, has had no effect on both the profit attributable to owners of the parent for the six-month periods ended 30 June 2016 and 30 June 2015 and the equity attributable to owners of the parent at 30 June 2016, 31 December 2015 and 1 January 2015.

The Group adopted HKAS 16 and HKAS 41 Amendments with effect from 1 January 2016. Under the amendments, bearer plants are defined as living plants that are used in the production or supply of agricultural produce and expected to bear produce for more than one period, and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales. Biological assets that meet the definition of bearer plants are no longer be within the scope of HKAS 41 "Agriculture". Instead, bearer plants are measured under HKAS 16 "Property, Plant and equipment" at accumulated cost (before maturity) using the cost model (after maturity). Depreciation for bearer plants is calculated on a straight-line basis over the economic useful lives of 25 years for oil palm and rubber trees, and four years for sugar cane. However, the agricultural produce growing on bearer plants will remain within the scope of HKAS 41 and to be measured at fair value less costs to sell. The Group has applied the amendments retrospectively. The effects of the above change are summarized below:

Operating Segmental Information

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group), whose operating results are regularly reviewed by the Group's chief operating decision maker who makes decisions about how resources are to be allocated to the segment and assesses its performance, and for which discrete financial information is available to him.

The Board of Directors considers the business of the Group from both product or service and geographical perspectives. From the product or service perspective, the Group's business interests are divided into four main segments, which are telecommunications, consumer food products, infrastructure and natural resources. Geographically, the Board of Directors considers the businesses of the Group are operating in the Philippines, Indonesia, Australasia and Singapore and the turnover information of continuing operations is based on the locations of the customers. Details of the Group's principal investments are provided on pages 89 to 91.

The Board of Directors assesses the performance of the operating segments based on a measure of recurring profit. This basis measures the profit attributable to owners of the parent excluding the effects of foreign exchange and derivative gains/losses, gain on changes in fair value of biological assets and non-recurring items. Non-recurring items represent certain items, through occurrence or size, which are not considered as usual operating items.

The revenue, results and other information for the six months ended 30 June 2016 and 2015, and total assets and total liabilities at 30 June 2016 and 31 December 2015 regarding the Group's operating segments are as follows.

6. A Discontinued Operation

On 31 December 2014, Indofood engaged in a discussion with CMZ BVI, a company beneficially owned by the management of CMZ, to divest a majority interest of approximately 52.9% in CMZ at a price of \$\$1.2 (US\$0.89) per share, thereby reducing Indofood's interests in CMZ from 82.9% to approximately 30%. On 14 October 2015, Indofood and CMZ BVI entered into a binding MOU which sets out the terms upon which they will continue to discuss and work towards finalization of a definitive sale and purchase agreement for the proposed transaction. In consideration of Indofood entering into the MOU, CMZ BVI paid Indofood earnest sums of \$\$40 million (US\$29.4 million) by 30 December 2015, which shall be treated as part of the consideration payable to Indofood upon the consummation of the proposed transaction. CMZ was classified as a disposal group held for sale at 31 December 2014 and 2015 and 30 June 2016 and a discontinued operation in the Group's 2014 and 2015 annual consolidated financial statements and 2015 and 2016 condensed interim consolidated financial statements. The potential divestment is expected to be completed during 2016. Prior to the classification as a discontinued operation, the operation of CMZ was reported as the cultivation and processed vegetables group of the Group's consumer food products business segment and the People's Republic of China geographical segment.

7. Profit Attributable to Owners of the Parent

The profit attributable to owners of the parent includes US\$9.5 million of net foreign exchange and derivative gains (2015: US\$17.4 million of loss), which represent the foreign exchange translation differences on the Group's unhedged foreign currency denominated net borrowings and payables and the changes in the fair values of derivatives, US\$1.1 million (2015: US\$0.2 million (Restated)) of gain on changes in fair value of biological assets and US\$40.8 million (2015: US\$0.2 million) of net non-recurring losses.

Analysis of Foreign Exchange and Derivative Gains/(Losses), Net

For the six months ended 30 June US\$ millions	2016	2015
Foreign exchange and derivative gains/(losses), net - Subsidiary companies - Associated companies and joint ventures	21.2 1.3	(47.5) (0.9)
Subtotal (Note 2) Attributable taxation and non-controlling interests	22.5 (13.0)	(48.4) 31.0
Total	9.5	(17.4)

The non-recurring losses represent certain items, through occurrence or size, which are not considered as usual operating items. 2016's non-recurring losses of US\$40.8 million mainly represent PLDT's impairment provision for its investment in Rocket Internet shares (US\$29.3 million), MPIC's project expenses (US\$4.3 million) and PLP's provision for onerous contracts (US\$3.7 million).

8. **Earnings Per Share Attributable to Owners of the Parent**

The calculation of the basic earnings per share is based on the profit for the period attributable to owners of the parent of US\$127.6 million (2015: US\$157.4 million) and the weighted average number of ordinary shares of 4,271.8 million (2015: 4,280.1 million) in issue less shares held for a share award scheme of 6.9 million (2015: 7.7 million) during the period.

The calculation of the diluted earnings per share is based on: (a) the profit for the period attributable to owners of the parent of US\$127.6 million (2015: US\$157.4 million) reduced by the dilutive impacts of US\$0.1 million (2015: US\$0.1 million) in respect of the exercise of share options issued by the Group's subsidiary and associated companies and (b) a share base equal to the aggregate of the weighted average number of ordinary shares of 4,271.8 million (2015: 4,280.1 million) in issue less shares held for a share award scheme of 6.9 million (2015: 7.7 million) during the period (as used in the basic earnings per share calculation) and the weighted average number of ordinary shares of 2.5 million (2015: 27.3 million) assumed to have been issued at no consideration on the deemed exercise of all dilutive share options of the Company during the period.

Ordinary Share Interim Distribution

At a meeting held on 19 August 2016, the Directors declared an interim cash distribution of U.S. 1.03 cents (2015: U.S. 1.03 cents) per ordinary share, equivalent to a total amount of US\$43.8 million (2015: US\$44.2 million).

On 15 April 2016, 19,573,275 share awards were granted as Purchase Awards and 4,416,489 share awards were granted as Subscription Awards under the Company's Share Award Scheme. The average fair value of shares granted as calculated by Towers Watson Hong Kong Limited, by adjusting the closing share price at the grant date by the present value of expected dividend payments during the vesting period, was HK\$4.71 per share or an aggregate value of US\$14.5 million for all shares granted. The assumptions used were as follows:

Share price at the date of grant HK\$4.95 per share 2.4% per annum Expected dividend yield Average risk-free interest rate (based on the Hong Kong Exchange Fund Notes) 0.6% per annum

On 30 June 2016, 893,070 share awards were granted as Purchase Awards under the Company's Share Award Scheme. The average fair value of shares granted as calculated by Towers Watson Hong Kong Limited, by adjusting the closing share price at the grant date by the present value of expected dividend payments during the vesting period, was HK\$5.35 per share or an aggregate value of US\$0.6 million for all shares granted. The assumptions used were as follows:

Share price at the date of grant HK\$5.62 per share Expected dividend yield 2.4% per annum Average risk-free interest rate (based on the Hong Kong Exchange Fund Notes) 0.4% per annum

Further information regarding the Company's Share Award Scheme has been set out on pages 192 to 195 of the Company's 2015 Annual Report.

⁽i) Provisional amounts determined based on management's best estimates of the fair values of the identifiable assets acquired, liabilities and contingent liabilities assumed, and subject to revision upon their further assessment

(ii) Represents the fair value of a 34.0% equity interest in RHI previously held by the Group

On 19 May 2016, MetroPac Movers, Inc. (MMI), a subsidiary company of MPIC, acquired a logistics business and certain assets at a consideration of Pesos 2.2 billion (US\$46.1 million). The transaction costs of US\$0.3 million incurred by MMI for this business combination have been recognized as administrative expenses in the condensed consolidated income statement.

On 16 June 2016, MWIC, a subsidiary company of MPIC, acquired a 65.0% interest in ESTII at a consideration of Pesos 1.8 billion (US\$38.3 million). ESTII principally engages in the business of designing, supplying, constructing, installing and operating and maintaining wastewater and sewage treatment plant facilities in the Philippines. The transaction costs of US\$0.1 million incurred by MWIC for this business combination have been recognized as administrative expenses in the condensed consolidated income statement.

The net assets of the logistics business and ESTII recognized in the Group's 2016 condensed interim consolidated financial statements were based on provisional assessments of their fair values while the Group is still evaluating the fair values of their assets acquired and liabilities and contingent liabilities assumed. The valuation and assessment had not been completed by the date the Group's 2016 condensed interim consolidated financial statements were approved for issue by the Board of Directors. If new information obtained within one year of the acquisition dates about facts and circumstances that existed at the acquisition dates identify adjustments to the above provisional amounts, or any provisions that existed at the acquisition dates, then the accounting for the acquisition will be revised.

The goodwill arising from MPIC's acquisition of the logistic business and ESTII pertains, but is not limited to, the expected synergies in the Group arising from the acquisition. None of the goodwill recognized is expected to be deductible for income tax purposes.

Since the dates of acquisition, the above acquired subsidiary companies recorded in aggregate a turnover of US\$1.4 million and profit for the period of US\$0.1 million which are included in the condensed consolidated income statement of the Group. If the acquisitions had taken place on 1 January 2016, the turnover and profit for the period ended 30 June 2016 of the Group would have been US\$3,436.7 million and US\$365.1 million, respectively.

2015's net cash outflow of US\$104.5 million mainly relates to RHI's acquisition of SCBI, an ethanol manufacturing company in the Philippines, and Indofood's acquisition of Asian Assets Management Pte. Ltd, a company based in Singapore which has a 100% interest in PT Aston Inti Makmur (AIM). AIM principally engages in property business and operates its own office building, Ariobimo Sentral Building located in Jakarta, Indonesia.

(D) Increased Investments in Associated Companies

2015's cash outflow of US\$519.4 million relates to MPIC's partial payments to Beacon Electric for its acquisition of an additional 10% direct interest in Meralco in April 2015 and final payment for its acquisition of a 5% direct interest in Meralco in June 2014.

Investments in Joint Ventures (E)

2015's cash outflow of US\$423.4 million relates to the Group's additional investments to increase its effective interest in Goodman Fielder by 40.2% to 50.0%.

(F) Proceeds from Issue of Shares to Non-controlling Shareholders by Subsidiary Companies

2016's cash inflow of US\$471.7 million mainly represents MPIC's proceeds from share placement (US\$467.2 million) (2015: US\$197.2 million).

(G) **Proceeds from Divestment of Interests in a Subsidiary Company**

2016's cash inflow of US\$168.6 million represents the Group's net proceeds from sale of MPIC shares.

20. Commitments and Contingent Liabilities

(A) Capital Expenditure

Authorized, but not contracted for	783.8	1,353.6		
Contracted, but not provided for	213.5	207.5		
Total	997.3	1,561.1		

The Group's capital expenditure commitments principally relate to Indofood's and RHI's purchase of property, plant and equipment and construction of infrastructures for Maynilad's water, MPTC's toll road and LRMC's rail businesses.

(B) Contingent Liabilities

- (a) At 30 June 2016, except for US\$66.9 million (31 December 2015: US\$73.4 million) of guarantees given by Indofood for loan facilities obtained by certain plantation farmers in relation to arrangements for those farmers' production and sale of fresh fruit bunches to Indofood, the Group had no significant contingent liabilities (31 December 2015: Nil).
- (b) On 29 June 2011, the Supreme Court of the Philippines, or the Court, promulgated a Decision in the case of Wilson P. Gamboa vs. Finance Secretary Margarito B. Teves, et. al. (G.R. No. 176579) (the "Gamboa Case"), holding that "the term 'capital' in Section 11, Article XII of the 1987 Constitution refers only to shares of stock entitled to vote in the election of directors and thus only to voting common shares, and not to the total outstanding capital stock (common and non-voting preferred shares)". This decision reversed earlier opinions issued by the Philippine Securities and Exchange Commission (SEC) that non-voting preferred shares are included in the computation of the 60%-40% Filipino-alien equity requirement of certain economic activities, such as telecommunications (which is a public utility under Section 11, Article XII of the 1987 Constitution).

Although PLDT is not a party to the Gamboa Case, in its decision, the Court directed the Philippine SEC "to apply this definition of the term 'capital' in determining the extent of allowable foreign ownership in PLDT, and if there is a violation of Section 11, Article XII of the 1987 Constitution, to impose the appropriate sanctions under the law." Although the parties to the Gamboa Case filed Motions for Reconsideration of the decision and argued their positions before the Court, the Court ultimately denied the motions on 9 October 2012.

Meanwhile, on 5 July 2011, the Board of Directors of PLDT approved the amendments to the Seventh Article of Amended Articles of Incorporation of PLDT, or the Amendments to the Articles, which subclassified its authorized preferred capital into preferred shares with full voting rights, or Voting Preferred Shares, and serial preferred shares without voting rights. The Amendments to the Articles were subsequently approved by the stockholders of PLDT and the Philippine SEC.

On 15 October 2012, PLDT and BTF Holdings, Inc. (BTFHI), a Filipino corporation and a wholly-owned company of The Board of Trustees for the Account of the Beneficial Trust Fund created pursuant to the PLDT's Benefit Plan, entered into a Subscription Agreement, pursuant to which PLDT issued 150 million Voting Preferred Shares to BTFHI at Peso 1 per share reducing the percentage of PLDT's voting stock held by foreigners from 56.62% (based on Voting Common Shares) as at 15 October 2012 to 18.37% (based on Voting Common and Preferred Shares) as at 15 April 2013.

On 20 May 2013, the Philippine SEC issued SEC Memorandum Circular No. 8, Series of 2013, or the Philippine SEC Guidelines, which PLDT believes was intended to fulfill the Court's directive to the Philippine SEC in the Gamboa Case. The Philippine SEC Guidelines provided that "the required percentage of Filipino ownership shall be applied to BOTH: (a) the total number of outstanding shares of stock entitled to vote in the election of directors; AND (b) the total number of outstanding shares of stock, whether or not entitled to vote in the election of directors." PLDT believes it was, and continues to be, compliant with the Philippine SEC Guidelines. As at 29 July 2016, PLDT's foreign ownership was 29.49% of its outstanding shares entitled to vote (Common and Voting Preferred Shares), and 16.21% of its total outstanding capital stock. Therefore, PLDT believes that as at 29 July 2016, PLDT is in compliance with the requirement of Section 11, Article XII of the 1987 Constitution.

On 10 June 2013, Jose M. Roy III filed a petition for certiorari with the Supreme Court against the Philippine SEC, Philippine SEC Chairperson Teresita Herbosa and PLDT, claiming: (1) that the Philippine SEC Guidelines violate the Court's decision in the Gamboa Case (on the basis that (a) the 60-40 ownership requirement be imposed on "each class of shares" and (b) Filipinos must have full beneficial ownership of 60% of the outstanding capital stock of corporations subject to the foreign ownership requirements); and (2) that the PLDT Beneficial Trust Fund is not a Filipino-owned entity and consequently, the corporations owned by PLDT Beneficial Trust Fund, including BTFHI, cannot be considered Filipino-owned corporations.

PLDT raised several procedural and substantive arguments against the petition, including in particular, that (a) the Philippine SEC Guidelines merely implemented the dispositive portion of the decision in the Gamboa Case, and that the dispositive portion of the Gamboa Case that defines "capital" is properly reflected in the Philippine SEC Guidelines, and (b) the fundamental requirements which need to be satisfied in order for PLDT Beneficial Trust Fund and BTFHI to be considered Filipino (for PLDT Beneficial Trust Fund's Trustees to be Filipinos and for 60% of the Fund to accrue to the benefit of Philippine nationals) are satisfied with respect to the PLDT Beneficial Trust Fund, and therefore, PLDT Beneficial Trust Fund and BTFHI are Filipino shareholders for the purposes of classifying their 150 million Voting Preferred Shares in PLDT. As a result, more than 60% of PLDT's total voting stock is Filipino-owned and PLDT is compliant with the Constitutional ownership requirements.

In 2013, the Philippine SEC and Chairperson Teresita Herbosa also raised a number of arguments for dismissal of the petition for being procedurally flawed and for lack of merit.

In May 2014, the petitioner filed a consolidated reply and a motion for the issuance of a temporary restraining order to prevent PLDT from holding its 2014 annual stockholders meeting. The temporary restraining order was denied and PLDT held its 2014 annual meeting on 10 June 2014 as scheduled.

On 10 February 2015, PLDT filed a consolidated memorandum setting forth its arguments against the petition.

As at 2 August 2016, the resolution of the petition remained pending with the Supreme Court.

⁽i) Adjusted for the effect of the Company's rights issue completed in July 2013 for the prices prior to the trading of the Company's shares on an ex-rights basis on 6 June 2013 and the Company's rights issue completed in December 2009 for the prices prior to the trading of the Company's shares on an ex-rights basis on 29 October

On 15 April 2016, 2,524,350 share options under a share option scheme (the Scheme) approved by the shareholders of the Company (at the Company's annual general meeting held on 31 May 2012) were granted. The average fair value of options granted as calculated by Towers Watson Hong Kong Limited, based on the binomial model, was HK\$1.05 each or an aggregate value of US\$0.3 million for all options granted. The assumptions used were as follows:

Share price at the date of grant

Exercise price

Expected volatility (based on historical volatility of the Company's shares commensurate with the average expected life of the options granted)

Option life

Expected dividend yield

Average risk-free interest rate (based on the Hong Kong Exchange Fund Notes)

HK\$4.95 per share HK\$4.972 per share

> 29% 6 years 2.4% per annum 1.0% per annum

⁽ii) Mr. Graham L. Pickles retired from the Board of Directors with effect from 3 June 2015 and his outstanding share options were reclassified under "Senior Executives".

⁽iii) The weighted average closing prices of the Company's shares immediately before and at the dates on which these share options were exercised are HK\$7.66 and HK\$7.73, respectively.

The number of outstanding share options vested and exercisable at 30 June 2015 was 121,195,653. These share options have a weighted average exercise price of HK\$6.76.

Taking into account the expected turnover rate of the senior executives and the early exercise behavior, the average expected life of the options granted was estimated to be around 5 years. The early exercise behavior assumes that option holders will exercise the options when the share price is at least 150% higher than the exercise price. No other feature of the option granted was incorporated into the measurement of fair value.

The binomial model, applied for determining the estimated values of the share options granted under the Scheme, was developed for use in estimating the fair value of the traded options that are fully transferable. Such an option pricing model requires input of highly subjective assumptions, including the expected share price volatility. As the Company's share options have characteristics significantly different from those of the traded options, changes in the subjective input assumptions can materially affect the estimated value of the options granted.

At the date of approval of the condensed interim consolidated financial statements, the Company had 186,356,065 share options outstanding under the schemes, which represented approximately 4.4% of the Company's shares in issue as at that date.

Further information regarding the Company's share option scheme has been set out on pages 211 to 216 of the Company's 2015 Annual Report.

22. Related Party Transactions

Significant related party transactions entered into by the Group during the period are disclosed as follows:

(A) Asia Link B.V. (ALBV), a wholly-owned subsidiary company of the Company, has a technical assistance agreement with Smart, a wholly-owned subsidiary company of PLDT, for ALBV to provide Smart with technical support services and assistance in the operations and maintenance of cellular mobile telecommunications services for a period of four years from 23 February 2012, subject to renewal upon mutual agreement between the parties. The agreement expired on 23 February 2016 and was renewed for a period of two years to 23 February 2018. The agreement provides for payments of technical service fees equivalent to 0.4% (2015: 0.4%) of the consolidated net revenue of Smart.

For the period ended 30 June 2016, the fees under the above arrangement amounted to Pesos 95 million (US\$2.0 million) (2015: Pesos 103 million or US\$2.3 million). At 30 June 2016, the outstanding technical service fee payable amounted to Pesos 15 million (US\$0.3 million) (31 December 2015: Pesos 46 million or US\$1.0 million).

The number of outstanding share options vested and exercisable at 30 June 2015 was 12,987,088. These share options have a weighted average exercise price of

- (B) In December 2014, ALBV entered into a subscription agreement with SMECI, a wholly-owned subsidiary company of Philex, in respect of the subscription for the convertible notes issued by SMECI with a principal amount of Pesos 5.04 billion (US\$107.1 million) (out of the total Pesos 7.2 billion (US\$153.0 million) convertible notes issued by SMECI), principally for financing capital expenditure of the Silangan project and repaying the advances from Philex. The convertible notes bear interest at a coupon rate of 1.5%, payable semi-annually every 18 June and 18 December and has a maturity of eight years, with a one-time redemption option exercisable by SMECI on the first anniversary of the issuance of the notes (i.e., 18 December 2015). A redemption premium, payable at a rate of 3% per annum, retroactive from the issue date and compounded semi-annually, will apply if SMECI exercises the redemption option or upon the maturity of the convertible notes. SMECI did not exercise the one-time redemption option on 18 December 2015. During the period ended 30 June 2016, ALBV accrued interest income of US\$2.4 million (2015: US\$2.4 million) on these notes.
- (C) On 30 May 2016, MPIC acquired from PCEV, a subsidiary of PLDT, an additional 25% interest in Beacon Electric's common shares (Pesos 20.4 billion or US\$434.3 million) and preferred shares (Pesos 5.8 billion or US\$123.1 million) at a total consideration of Pesos 26.2 billion (US\$557.4 million), of which Pesos 17.0 billion (US\$361.7 million) was settled in cash in May 2016. The outstanding payable of Pesos 9.2 billion (US\$195.7 million) will be settled in annual installments until June 2020. At 30 June 2016, the outstanding consideration payable due in June 2017 of Pesos 2.0 billion (US\$42.4 million) (with a present value of US\$34.4 million) was included in the current portion of deferred liabilities, provisions and payables (Note 16) and the remaining outstanding consideration due between June 2018 to June 2020 of Pesos 7.2 billion (with a present value of US\$139.0 million) was included in the non-current portion of deferred liabilities, provisions and payables (Note 16).
- (D) In March 2013, Meralco PowerGen, through its wholly-owned subsidiary company, MPG Asia Limited, provided a loan of US\$110.0 million to FPM Power. In June 2014, MPG Asia Limited provided an additional loan of US\$3.5 million to FPM Power. The loans are unsecured, interest-free and have no fixed terms of repayment. The loans of US\$113.5 million (31 December 2015: US\$113.5 million) remained outstanding at 30 June 2016 and are included in the current portion of deferred liabilities, provisions and payables (Note 16).
- (E) At 30 June 2016, Petronas Power Sdn. Bhd. (Petronas), the 30% shareholder of PLP, has outstanding loans due from PLP of approximately US\$118.1 million (31 December 2015: US\$110.5 million), which have been included in non-current portion of deferred liabilities, provisions and payables (Note 16). The loans are unsecured, subject to a variable Singapore Swap Offer Rate and London Interbank Offered Rate, which are payable semi-annually. The tenor for each loan shall be 10 years. For the period ended 30 June 2016, PLP accrued interest expenses of US\$4.2 million (2015: US\$3.5 million) to Petronas, which were compounded as part of the outstanding loans from Petronas. At 30 June 2016, PLP has approximately US\$22,815 (31 December 2015: US\$22,512) of outstanding interest payable due to Petronas which has been included in accounts payable, other payables and accruals.
- (F) At 30 June 2016, Mr. Robert C. Nicholson, a Director of the Company, owned US\$400,000 (31 December 2015: US\$400,000) of bonds due 2017 issued by FPMH Finance Limited, US\$200,000 (31 December 2015: US\$200,000) of bonds due 2020 issued by FPT Finance Limited and US\$600,000 (31 December 2015: US\$600,000) of bonds due 2019 issued by FPC Finance Limited, all of which are wholly-owned subsidiary companies of the Company. For the period ended 30 June 2016, Mr. Nicholson received interest income of US\$39,125 (2015: US\$39,125) on these bonds.
- (G) At 30 June 2016, Mr. Edward A. Tortorici, a Director of the Company, owned US\$600,000 (31 December 2015: US\$600,000) of bonds due 2019 issued by FPC Finance Limited, a wholly-owned subsidiary company of the Company. For the period ended 30 June 2016, Mr. Tortorici received interest income of US\$18,000 (2015: US\$18,000) on these bonds.
- (H) At 30 June 2016, Ambassador Albert F. del Rosario, who has been re-appointed as a Director of the Company with effect from 30 June 2016, owned US\$200,000 of bonds due 2020 issued by FPT Finance Limited and US\$200,000 of bonds due 2019 issued by FPC Finance Limited, both of which are wholly-owned subsidiary companies of the Company.

(B) Fair Values of Financial Instruments

The fair values of the financial assets and liabilities are determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

- Fair values of cash and cash equivalents and short-term deposits, pledged deposits, restricted cash, current accounts and other receivables, accounts payable, other payables and accruals, short-term borrowings and other current liabilities approximate to their carrying amounts largely due to the short-term maturities of these instruments.
- Fair values of non-current accounts and other receivables and other assets are evaluated based on the discounted values of the expected future cash flows using the interest rates that are specific to the tenor of the instruments' cash
- Fair value of available-for-sale assets is derived from quoted market prices in active markets, if available. If such information is not available, the carrying amounts of available-for-sale assets are measured at cost less impairment
- Fair value of unquoted available-for-sale assets is measured by reference to the most recent transaction prices or carried at cost less any accumulated impairment losses.
- Long-term borrowings with fixed interest rates and other non-current financial liabilities are evaluated based on the discounted value of the expected future cash flows using the prevailing market rates for similar types of liabilities. Fair values of long-term borrowings with variable interest rates approximate to their carrying amounts because of regular repricing based on market conditions. Fair values of listed bonds are derived from quoted market prices in active markets.
- Derivative assets/liabilities in respect of derivative financial instruments, such as fuel swaps, foreign exchange forward contracts and interest rate swaps, are valued using valuation techniques with market observable inputs. The most frequently applied valuation techniques include the use of present value calculations of future cash flows by reference to current forward fuel prices and exchange rates for contracts with similar maturity profiles and market values for similar instruments with similar maturity profiles.

The following table shows a comparison between the carrying amounts and fair values of the Group's financial instruments with carrying amounts not equal or reasonably approximating to their fair values at 30 June 2016. The Group's financial instruments with carrying amounts equal or reasonably approximating to their fair values and unquoted available-for-sale assets that are measured at cost less any accumulated impairment losses at 30 June 2016 are not included in this table.

Net Amount	6,085.0	6,353.1	6,045.5	6,150.3

(C) Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments:

- Level 1: fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: fair values measured based on the most recent transaction prices and valuation techniques for which all inputs which have a significant effect on the recorded fair values are observable, either directly or indirectly
- Level 3: fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair values that are not based on observable market data (unobservable inputs)

The Group held the following financial instruments measured at fair value as at the end of the reporting period.

	At 30 June 2016				At 31 Decen	nber 2015		
US\$ million	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

Net Amount	121.3	95.2	-	216.5	157.4	(48.5)	_	108.9

⁽i) Included within accounts receivable, other receivables and prepayments

The fair values of unlisted investments, derivative assets and derivative liabilities in Level 2 are measured by reference to the most recent transaction prices and using the valuation techniques as described in Note 23(B) to the condensed interim consolidated financial statements, respectively.

For financial instruments that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. During the year, there were no transfers among Level 1, Level 2 and Level 3 fair value measurements.

24. Comparative Amounts

As explained in Note 1(B) to the condensed interim consolidated financial statements, due to the Group's adoption of the amendments to HKAS 16 and 41 "Agriculture: Bearer Plants" with effect from 1 January 2016, certain prior year adjustments have been made and certain comparative amounts have been restated to conform with the current period's accounting treatments and presentation.

25. Approval of the Condensed Interim Consolidated Financial Statements

The condensed interim consolidated financial statements of the Company were approved and authorized for issue by the Board of Directors on 19 August 2016.

Review Statement of the Audit and Risk Management Committee

In accordance with the requirements of paragraph 39 of Appendix 16 of the Listing Rules issued by SEHK, the Audit and Risk Management Committee has reviewed the Interim Report for the six months ended 30 June 2016, including the accounting policies and practices adopted by the Group. The Audit and Risk Management Committee also has discussed financial reporting, auditing, risk management and internal control matters with the Company's management and its external auditors.

Corporate Governance Report

Corporate Governance Practices

First Pacific is committed to building and maintaining high standards of corporate governance. During the period, the Company's Corporate Governance Committee, comprised a majority of Independent Non-executive Directors ("INEDs") and chaired by an INED, was delegated with the responsibility for supervision of the Company's corporate governance functions, carried out a review of its corporate governance practices to ensure compliance with the Listing Rule requirements.

Throughout the period, First Pacific has applied the principles and complied with most of the Code Provisions and, where appropriate, adopted the Recommended Best Practices contained in the CG Code with the following exceptions:—

Code Provision C.2.5: Issuers should have an internal audit function. Issuers without an internal audit function should review the need for one on an annual basis and should disclose the reasons for the absence of such a function in the Corporate Governance Report.

Since the Group has multiple listed companies in Philippines, Indonesia and Singapore, as well as a joint venture company in Australia, each of which has its own internal audit and/or risk management functions to monitor the internal control system for operational, financial and compliance and risk management functions. Accordingly, the Company can rely on group resources to carry out internal audit/risk management functions for members of the Group. Taking this into account, the Company does not consider it necessary to have a separate internal audit function. The Company will review the need for such function on an annual basis.

Recommended Best Practice B.1.8: Issuers should disclose details of any remuneration payable to members of senior management, on an individual and named basis, in their annual reports.

The Company does not disclose such information as a large number of the senior executives employed by the Group are employed in jurisdictions that do not require disclosure of such information.

Recommended Best Practices C.1.6 and C.1.7: An issuer should announce and publish quarterly financial results within 45 days after the end of the relevant quarter.

The Company does not issue quarterly financial results as most of our major operating units based in the Philippines, Indonesia and Singapore already issue quarterly reports. As such, we believe that the relevant information is already available in the public domain.

On 30 June 2016, the Company re-appointed Ambassador Albert F. del Rosario as a Non-executive Director to replace Mr. Napoleon L. Nazareno, who resigned from the Board due to personal reasons.

Compliance of the Model Code for Securities Transactions by Directors of Listed Issuers

The Company has adopted its own Model Code for Securities Transactions by Directors (the "Model Code") on terms no less exacting than the required standards of the Model Code for Securities Transactions by Directors of Listed Issuers, as set out in Appendix 10 of the Listing Rules. All Directors have confirmed, following specific enquiries by the Company, that they have complied with the required standards set out in the Model Code throughout the period.

Continuing Connected Transactions

During the period, the INEDs agreed with the Directors in relation to the following continuing connected transactions and approved the disclosure of the transactions in the form of a published announcement:

29 July 2016: following the previous announcement made on 15 October 2014 relating to certain continuing connected transactions in respect of the Indofood Group's noodles business, plantations business, insurance business, distribution business, flour business, beverage business and dairy business and the respective Annual Caps for 2014, 2015 and 2016, the Annual Cap in respect of a continuing connected transaction between PT Indolakto, a subsidiary of Indofood, and PT Nippon Indosari Corpindo, an associate of Mr. Salim, has been increased from US\$0.3 million (equivalent to approximately HK\$2.3 million) to US\$1.0 million (equivalent to approximately HK\$7.8 million) as a result of expansion of the Dairy Business, thereby increasing the aggregated Annual Cap in respect of the Dairy Business Transactions relating to associates of Mr. Salim from US\$6.1 million (equivalent to approximately HK\$47.6 million) to US\$6.8 million (equivalent to approximately HK\$53.0 million) for 2016. Furthermore, SIMP, a member of the Indofood Group, proposed to enter into a revolving loan agreement with the Plantation Joint Venture companies ("the Borrowers") whereby SIMP will provide a revolving loan facility of up to US\$40 million (equivalent to approximately HK\$312 million) to the Borrowers, which are the Company's connected subsidiaries relating to the Indofood Group's plantations business, in order to finance the immediate and urgent working capital requirements of the Borrowers and to facilitate the smooth running of their operations. In compliance with the Listing Rule requirements, the Company announced the revised Annual Cap in respect of the Dairy Business Transactions relating to associates of Mr. Salim for 2016 as well as the entering into of the revolving loan agreement between SIMP and the Borrowers on 29 July 2016.

Internal Control and Risk Management

The Board is responsible for maintaining adequate systems of risk management and internal controls in the Group and reviewing their effectiveness through the Audit and Risk Management Committee.

During the period ended 30 June 2016, the Audit and Risk Management Committee reviewed and advised that:

- The risk management and internal control systems of the Group function effectively and are designed to provide reasonable assurance that material assets are protected, business risks attributable to the Group are identified and monitored, material transactions are executed in accordance with management's authorization and the financial statements are reliable for publication and compliant with all relevant laws and regulations.
- There are processes in place for identifying, evaluating and managing the material business risks faced by the Group. Such processes are incorporated in all the Group's businesses.
- There are adequate resources, qualified and experienced staff, training programs and budget for the Group's accounting and financial reporting function.

Interests of Directors and Substantial Shareholders

Interests of Directors in the Company and its Associated Corporations

As at 30 June 2016, the interests and short positions of the Directors and chief executive of the Company in the shares of the Company, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) ("SFO")) which (a) were recorded in the register required to be kept under section 352 of Part XV of the SFO; or (b) were notified to the Company and SEHK pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers as adopted by the Company ("Model Code") were as follows:
