RMB

4,390.6 million

Becoming a world-class investment group underpinned by the twin drivers of “insurance-oriented integrated financial capability” & “global industrial integration capability taking roots in China”

#### Note to the cover design

Fosun always adheres to the “Insurance + Investment” twin-driver investment model and perseveres in “Combining China’s Growth Momentum with Global Resources”, while focusing on B2F (Business to Family) business model to mapping out a global strategy by concentrating on “wealth, health and happiness” lifestyle.

Fosun believes that more thorough and safer globalization depends on localization of talents and platforms and in-depth industrial specialization. Therefore, Fosun always proactively pushes forward with its globalization strategy, continues to push ahead with “localization” and consistently “deepens the development of its industries”. Fosun has acquired and established regional investment platforms and overseas offices, and has accelerated its strategic planning for emerging markets such as Brazil, Russia and India to realize a new round of growth.

Facing new changes brought about by the global market and growth of China’s economy, Fosun has been more focused on discovering, investing and nurturing “Unicorns” as well as implementing its light-asset strategy since 2016. Fosun has also devoted to penetrating its internal and external core resources, polishing its products with artisan spirit, with a view to providing families with one-stop solution integrating wealth, health and happiness.

Platform, Unicorn and Product have become main themes of Fosun’s development.

In addition, Fosun has been keen on the development of internet in the past few years. At this front, Fosun will actively participate in the “supply-side reform” initiated by the government and capitalize on the explosive growth of the C2M (Customer to Maker) business model, thus bringing B2B (Business to Business) internet innovation from behind the stage to the front stage. This was aimed at building the entire ecosystem for the future. Fosun has attached great importance to the new “C2M” business model, which is oriented to consumers. The business model enabled the upgrading of traditional service industries through investment in platforms with huge amount of data and capacity for immense data input based on mobile internet technology. It integrates logistics, information, capital and talents to restructure the commercial ecosystem, and serves as a seamless interface between customers and the providers of services and products, thus eliminating intermediaries and enhancing customer loyalty. Furthermore, the business model will enable Fosun to meet diverse and personalized demands efficiently and at a low cost.

Going forward, Fosun will continue to embrace internet, capitalize on the growing trend of C2M and establish C2M ecosystem for its businesses.

# BUSINESS OVERVIEW

Fosun has been persistently taking roots in China and investing in China's growth fundamentals. It has been actively implementing its investment model of "Combining China's Growth Momentum with Global Resources". Fosun is dedicated to making a major stride towards becoming a world-class investment group underpinned by the twin drivers of "insurance-oriented integrated financial capability" and "global industrial integration capability taking roots in China". Today, Fosun's businesses include two major segments, being integrated finance (wealth) and industrial operations.

## INTEGRATED FINANCE (WEALTH)

The Group's integrated finance (wealth) business includes three major segments, namely insurance, investment, wealth management and innovative finance.

### Insurance

The Group's insurance segment mainly includes Fosun Insurance Portugal (the largest insurance group in Portugal which occupies a leading market share in the businesses of life insurance and general insurance and has a diversified distribution platform and a brand portfolio highly recognized by the market), Yong'an P&C Insurance (an insurance company headquartered in Xi'an with a nationwide presence, which operates all kinds of non-life insurance business), Pramerica Fosun Life Insurance (its principal scope of business includes insurance businesses such as life insurance, health insurance, casualty insurance and reinsurance of the above-mentioned insurance businesses), Peak Reinsurance (its principal scope of business includes providing life and non-life reinsurance as well as investing by using its investable assets), Ironshore (a global insurance company focusing on specialty insurance), MIG (a professional property and casualty insurer and insurance administration services company focused on niche markets).

### Investment

We adhere to our unique investment model of "Combining China's Growth Momentum with Global Resources" and capture investment opportunities benefiting from China's growth momentum through our in-depth understanding of China's macroeconomic and microeconomic trends and our insightful analysis of the global market, together with our established operational experience that has been accumulated over many years and our strong execution

capabilities. The investment business includes three major parts, namely strategic investment, private equity investment/venture capital investment/capital contribution to the Group's asset management business as a limited partner (PE/VC/LP investments), and secondary market investments.

### Wealth Management and Innovative Finance

In terms of wealth management, the Group engages in raising and managing funds from third parties and collects management fee and shares of investment gains through the asset management business. We act as a general partner of the funds that we manage. The funds currently managed by the Group mainly include various RMB funds and USD funds, covering various types of assets portfolio, such as growth funds and property development funds, such as Zhejiang Growth Fund, Weishi Fund, Fosun Capital, Fosun Chuanghong, Star Capital, Shanghai Sunvision Xicheng Equity Investment Center (Limited Partnership), Shanghai Sunvision Binhe Equity Investment Center (Limited Partnership), Ji'nan Financial Investment Development Fund Partnership (Limited Partnership), Pramerica-Fosun China Opportunity Fund, Carlyle-Fosun, Ji'nan Financial Fosun Weishi Equity Investment Fund Partnership (Limited Partnership), Shenzhen Fosun Ellassay Fashion Investment Fund (Limited Partnership), real estate series funds of Forte, CMF and others. Meanwhile, the Group also actively expanded the size of assets management through acquisition. The Group acquired IDERA, a Japanese real estate capital management company in May 2014. The Group also acquired 60% equity interest in Resolution Property, a European real estate capital management company headquartered in London in June 2015. In August 2015, the Group established Fosun Eurasia Capital, a Russian asset management limited company. The closing of the Group's H&A acquisition has taken place in September 2016, H&A

specializes in the areas of private banking, asset management, financial markets and fund custodian services to individual, corporate and institutional clients, particularly the small and medium sized enterprises. Moreover, we own the entire or partial equity interest in Fosun Finance Company, Fosun Hani Securities and Hangzhou Financial Investment Leasing. The above-mentioned businesses will further increase our integrated financial capabilities to consolidate domestic and overseas financial resources. In terms of innovative finance, the Group actively plan for a new type of financial industry with internet cloud computing technology as its core, and has successfully invested and developed several projects with industrial depth and multi-dimension ecosystem features, including Mybank, Cainiao, Chuangfu Finance Leasing, Yuntong Small Loan and Fosunling.

## INDUSTRIAL OPERATIONS

The Group's industrial operations include four key segments, including health, happiness, property development and sales, and resources.

### Health

We operate businesses of the health segment principally through subsidiaries, Fosun Pharma, Star Healthcare and Luz Saúde, as well as a joint venture, Starcastle Senior Living. Fosun Pharma is a leading healthcare company in China listed on the SSE (Stock Code: 600196) and the Hong Kong Stock Exchange (Stock Code: 02196). Its main business includes pharmaceutical manufacturing and research and development, healthcare services, diagnosis products and medical devices, and pharmaceutical distribution and retail. Fosun Pharma has established a leading position in the

pharmaceutical distribution sector through its shareholding in Sinopharm. Star Healthcare is a wholly-owned company of the Group, combining the internal and external outstanding medical resources of the Group, with an aim to provide one-stop and whole-process health management service and third-party insurance service for mid- to high-end customer members. Starcastle Senior Living is a joint venture company established by the Group and Fortress Investment Group LLC for the purpose of developing properties for senior citizens in China. We operate Luz Saúde under Fosun Insurance Portugal, which is one of the largest groups providing healthcare services in the Portuguese market.

### Happiness

We operate happiness industries adapting to the living style of middle class principally through acquiring shareholdings in Yuyuan, Club Med, Atlantis, Studio 8, BONA, Cirque du Soleil and Thomas Cook.

### Property Development and Sales

We operate our property development and sales business principally through Forte, The Bund Finance Center and Resource Property.

### Resources

We engage in the development and sales of natural resources business such as iron ore, petroleum and natural gas through our subsidiaries, Hainan Mining and ROC. Hainan Mining is a company listed on the SSE (Stock Code: 601969), and its core business includes mining and sales of iron ore. ROC is one of the main independent upstream oil and gas companies in Australia and has established petroleum and natural gas mining businesses in China, Southeast Asia and Australia.

# INTEGRATED FINANCE (WEALTH)

The Group's integrated finance (wealth) business includes three major segments: insurance, investment and wealth management and innovative finance.

Insurance

Wealth  
Management  
and  
Innovative  
Finance

Investment

## INSURANCE Note

The Group's insurance segment mainly includes Fosun Insurance Portugal, Yong'an P&C Insurance, Pramerica Fosun Life Insurance, Peak Reinsurance, Ironshore and MIG.

The Group has regarded insurance as a good means to connect Fosun's investment capability to high quality long-term capital. On one hand, the above-mentioned insurance companies can improve their profits from underwriting by leveraging on the Group's extensive industrial operations experience and expertise in insurance and finance, and on the other hand may also help the Group to realize higher investment revenue through effective investment practices. As a result, insurance plus investment will be our core business in the future.

During the Reporting Period, the revenue and profit attributable to owners of the parent of the insurance segment were as follows:

	<b>For the six months ended 30 June 2016</b>	For the six months ended 30 June 2015	Change over the same period of last year
Revenue	13,094.2	5,331.0	+145.6%
Profit attributable to owners of the parent	1,011.3	1,788.5	-43.5%

Unit: RMB million

During the Reporting Period, the increase in revenue of the insurance segment was mainly attributable to the expansion of insurance business, including the growth of self-business and new insurance company business captured through mergers and acquisitions. The decrease in the profit attributable to owners of parent of the insurance segment was mainly affected by the weakness of global economy and the shrinkage of entire insurance industry.

Note: Financial data presented in this section are based on local general accounting standards of individual portfolio companies.

Revenue	8,753.8	7,319.6	+19.6%
Profit attributable to owners of the parent	726.9	579.2	+25.5%

During the Reporting Period, the increase in both revenue and profit attributable to owners of the parent of the health segment was mainly due to the continuous and steady business growth from manufacturing, distribution service of medical devices and healthcare service segments of Fosun Pharma.

### Fosun Pharma

In the first half of 2016, amidst the severe situation that was full of challenges and uncertainties in the economies of the world and the PRC, continuous reform of the medical system in the PRC and the limited growth of pharmaceutical manufacturing industry brought policy opportunities to the development of medical services. During the Reporting Period, Fosun Pharma adhered to its business philosophy of “Innovation for Good Health”, focused on its core pharmaceutical and healthcare businesses, continued to develop product innovation and improve management, actively promoted the strategies of organic growth, external expansion and integrated development, thereby maintaining the balanced growth of its principal businesses.

During the Reporting Period, the revenue of Fosun Pharma increased by 17.15% as compared to the same period of 2015 to RMB6,878 million, and excluding the impact of the disposal of Handan Pharmaceutical Co., Ltd. (“Handan Pharmaceutical”), revenue would have increased by 18.77% as compared with the same period of 2015. Of which, the revenue from pharmaceutical manufacturing and research and development (R&D) segment of Fosun Pharma amounted to RMB4,797 million, representing an increase of 17.66% as compared to the same period of 2015, and excluding the impact of the disposal of Handan Pharmaceutical, revenue from pharmaceutical manufacturing and R&D would have increased by 20.03% as compared with the same period of 2015. The revenue from healthcare service business amounted to RMB752 million, representing an increase of 11.57% as compared to the same period of 2015.

From January to June 2016, Fosun Pharma recorded profit before tax of RMB1,930 million and profit attributable to owners of the parent of RMB1,500 million, representing an increase of 6.61% and 15.10%, respectively, as compared to the same period of 2015. Net cashflow from operating activities continued to rise, increasing to RMB936 million for the first half of 2016, representing an increase of 38.17% as compared to the same period of 2015.

During the Reporting Period, the pharmaceutical manufacturing and R&D segment of Fosun Pharma continued to grow steadily and the development of its professional operational team was further strengthened. In the first half of 2016, the sales of Fosun Pharma's major products in therapeutic areas such as cardiovascular system, anti-infection and central nervous system maintained rapid growth. Among new and recent products, the cardiovascular therapeutic product You Di Er (alprostadil dried emulsion) and the metabolism system therapeutic product You Li Tong (febuxostat tablets) maintained prominent growth exceeding 100% as compared to the same period of last year.

As at the end of the Reporting Period, Fosun Pharma had 172 pipeline drug, generic drug, generic biopharmaceutical drug and vaccine projects. During the Reporting Period, Fosun Pharma continued to increase the investment in R&D. The R&D expense in the pharmaceutical manufacturing and R&D segment amounted to RMB243 million, representing a 4.14% growth from the same period of 2015 and accounting for 5% of the revenue of the pharmaceutical manufacturing and R&D segment.

In the first half of 2016, Fosun Pharma continued to reinforce its substantially completed strategic deployment of healthcare services segment with high-end healthcare institutions in the more developed coastal cities and specialty and general hospitals in second-tier and third-tier cities in the PRC. It established regional medical centers and a supply chain spanning health industries and explored models of cooperation with local large state-owned companies, public hospitals and university-affiliated hospitals to accelerate its internet medical development strategy and enhance operating capabilities and profitability. During the Reporting Period, the "Phase II district project of Qingdao Qilu Hospital of Shandong University" and the Wenzhou Geriatric Hospital, in both of which Fosun Pharma took part, commenced and started operation respectively, laying foundations of a new model for social enterprises' participation in the healthcare services segment. Fosun Pharma participated in the reorganization of healthcare operations of relevant medical institutions previously in the Xuzhou Coal Mining Group, which was a breakthrough of Fosun Pharma in reorganizing healthcare operations of state-owned companies as it would facilitate the exploration of cooperating and managing medical institutions with such large local institutions and large insurers. Such a breakthrough was momentous towards the reformation of hospital with mixed ownership and integration of the healthcare supply chain. Furthermore, Fosun Pharma commenced its blood dialysis specialty franchise medical operation through Hunan Jingren Medical Investment Management Co., Ltd.. Moreover, through further involvement in the "B" round financing of "Mingyi Zhudao" platform, a seamless integration of online and offline services was achieved and a closed circuit of O2O was formed so as to explore the innovation of medical services operation and model.

Fosun Pharma continued to push the development of the medical diagnosis and medical devices segment forward. During the Reporting Period, Fosun Pharma actively fostered the business development of Alma Lasers Ltd., commenced preparations for the listing of the Sisram Medical Limited and its subsidiaries and Yaneng Bioscience (Shenzhen) Co., Ltd. in Hong Kong and enhanced the expansion of the distribution business of Chindex Medical Limited. The volume of surgery by Da Vinci surgical robotic system maintained a significant increase in the first half of 2016.

As at the end of the Reporting Period, the Group held 12.35% equity interest in Zhongshan Public Utilities. Zhongshan Public Utilities, being an industry-leading professional integrated environmental service operator, acquired 100% equity interest in Zhongshan Utilities Gongcheng Co., Ltd. during the Reporting Period, improving the environmental protection industrial layout, enhancing the company's ability to expand projects and boosting the implementation of Zhongshan Public Utilities' overall strategy. During the Reporting Period, net profit of Zhongshan Public Utilities attributable to shareholders of the listed company amounted to RMB468.28 million, a decline of 50.1% over the same period of 2015.

## Silver Cross

Silver Cross was an overseas investment made by the Group and the transaction was completed in July 2015. As at the end of the Reporting Period, the Company indirectly held 87.2% equity interest in Silver Cross through its wholly-owned subsidiary.

Silver Cross, which was established in 1877 by William Wilson, has established itself as a leading UK nursery brand. Silver Cross incorporates the latest product design with engineering mechanism to offer its customers a range of multifunctional and lightweight strollers alongside its hand-built legacy prams and complemented by its nursery furniture range. Silver Cross has an international distribution network covering UK, Europe, the Middle East, Asia and Asia Pacific regions. In UK, it has a significant retail presence with a strong national retail footprint and an extensive network of 170 independent retailers. Silver

Cross has flagship stores in Shanghai, Hong Kong and Moscow and sells through a number of high-end maternal and infant chain stores. The key growth market like Southeast Asia region has also proven to be very successful for Silver Cross. Silver Cross's products have won numerous high profile awards such as Illustrious Junior Design Award and Which? Best Buy Award. During the Reporting Period, its operating revenue amounted to GBP20.9 million, profit before tax was GBP2.9 million.

## HAPPINESS

During the Reporting Period, the revenue and profit attributable to owners of the parent of the happiness segment were as follows:

Unit: RMB million

	<b>For the six months ended 30 June 2016</b>	For the six months ended 30 June 2015	Change over the same period of last year
Revenue	5,809.9	—	N/A
Profit attributable to owners of the parent	365.4	207.6	+76.0%

During the Reporting Period, revenue of the happiness segment was, in principle, contributed by the operating income from Club Med. By completing the Group's public offer, Club Med was finally delisted from Euronext in March 2015. The increase in the profit attributable to owners of parent of the happiness segment was mainly attributable to the well performance of Club Med during the first half of 2016.

## Yuyuan

Yuyuan is mainly engaged in commercial retail, and wholesale and retail of gold and jewelry, and it holds certain equity interest in Zhaojin Mining. During the Reporting Period, Yuyuan recorded operating revenue of RMB8,787.42 million, representing a decrease of 7.61% over the same period of last year. Profit before tax was RMB186.00 million, representing a decrease of 63.32% over the same period of last year. The net profit attributable to shareholders of the listed company amounted to RMB142.89 million, representing a decrease of 65.45% over the same period of last year. Yuyuan recorded lower operating revenue mainly due to decreased revenue from the gold and jewelry segment as compared to the same period in 2015. Yuyuan recorded lower net profit mainly due to the time lag between the time for recognition of profit or loss in gold leasing and the time for realization of profit or loss upon sales of leased gold as a result of adopting financial

instruments by Yuyuan when it obtained spot gold through gold leasing and Shanghai Gold Exchange and in the meantime conducted hedging transactions through derivative financial instruments such as gold T+D deferred transactions, gold forward transactions and gold futures transactions to lock the cost. In the event of significant fluctuations in gold prices, the “gain or loss on fair value changes” in gold leasing will affect the operating results of an accounting period to a certain extent.

Shanghai Yuyuan Gold and Jewellery Group Co., Limited (上海豫園黃金珠寶集團有限公司) under Yuyuan owns two major brands of “Laomiao Gold” and “Yayi Jewellery”. As at the end of the Reporting Period, the number of chain stores of the two brands amounted to 1,783.

The Group will assist Yuyuan to develop the potential value of vast tourist traffic flows, explore O2O business models and actively seek opportunities for consolidation of high-quality assets in the industry to create value for the shareholders.

## Club Med

Despite the unstable geopolitical environment that has affected the outbound markets and some of its destinations, including terrorist attacks occurred in North Africa, Turkey, France and Belgium during the past year, Club Med still managed to record the best results in the recent decade during the first half of the 2016 financial year.

During the Reporting Period, the number of tourists at Club Med increased by 6% year-on-year, revenue increased by 2% year-on-year, and operating profit of Euro68.5 million was recorded from resorts, representing a year-on-year increase of 40%. The growth in results was mainly attributable to the outstanding performance of skiing resorts and the increase in the number of tourists for long-haul travel destinations in Europe.

During the Reporting Period, Club Med opened one new resort, namely the four-star resort in Sanya of Hainan Island in China. Meanwhile, Club Med also reduced the number of operating days accordingly in resorts located at destinations affected by terrorist attacks or perceived to have hidden safety hazards.

Club Med will continue to accelerate its development pace in China according to its plan. During the Reporting Period, the number of tourists in the Greater China Region increased by 45% year-on-year to 93,000, representing 15% of the total number of tourists.

## Atlantis

The Atlantis project is located in Haitang Bay, Sanya, Hainan, China, and is a large-scale high-end theme resort hotel project with a water park and aquarium as its signature jointly developed by the Group and Kerzner Group. The scale of the project amounts to nearly RMB10 billion and it is designated as the key construction project of Hainan Province. The project commenced construction in 2013 and has been topped out in July 2016. It is expected to be completed by the end of 2016 and will commence trial operation in the second half of 2017. Its saleable properties will be on pre-sale from October this year and the sales and accounts receivable for the whole property is expected to amount to approximately RMB8 billion. As of

30 June 2016, RMB3,623.0 million was invested and the second phase of this project has already obtained the “Construction Works Commencement Permit” in January 2016.

Name of project	Usage	Land area (sq.m.)	Total GFA (sq.m.)	Ownership of interest	Land cost (RMB million)	Development progress	Expected completion date	Construction and installation costs (RMB million)
Atlantis	Accommodation, food and beverage, cultural, sports and entertainment	537,420.2	492,215.1	99.98%	2,177.4 <sup>Note</sup>	Under development	2016	1,345.4

Note: The municipal infrastructure facilities related fees and deed taxes were added into the land cost, as compared to 2015.

## Studio 8

Studio 8 is an important investment made by the Group in the film industry, a significant step for the Group to enter the film and television entertainment industry. As at the end of the Reporting Period, the Group held 80% equity interest in the Class A investors of Studio 8. The Group exercises significant influence over the distribution arrangement of movies produced by Studio 8 in mainland China, Hong Kong, Macau and Taiwan, whereby the Group will build a global media entertainment, investment, financing and operating platform with its base in China’s culture consumer market and focusing on the global film and television entertainment industry. During the Reporting Period, Studio 8 and Columbia TriStar Motion Picture Group, a company under Sony, co-invested and produced *Billy Lynn’s Long Halftime Walk* directed by Ang Lee, which will be released in November 2016 globally (including China). The second film *The Solutrean* completed filming smoothly and entered into the post-production stage. Currently, there are over 30 projects under research and development, it is expected to announce the greenlight projects soon.

## BONA

Investment in BONA is an important strategic move of the Group in the film and television entertainment industry. In June 2015, the Group, together with Mr. Yu Dong, the founder, chairman of the board and chief executive officer of BONA, and Sequoia Capital China Fund, issued a non-binding privatization offer to BONA, privatization and delisting were completed in April 2016. At present, BONA is under the process of reorganization. As at the end of the Reporting Period, the Group held 5.23% equity interest in domestic entity of BONA and 5.7% equity interest in its overseas entity. The Group believes that rapid and robust growth will continue in the film and entertainment market of China in the future. BONA has extensive experience in local film production, distribution and cinema operation in China. It has also achieved remarkable performance in recent years and takes the lead in the local film market. The Group will consistently integrate resources and complementary advantages to support the sustainable growth of BONA in the future.

### Cirque du Soleil

Cirque du Soleil from Canada, was an overseas investment completed by the Group in July 2015. After co-investments by the management, CMF and Zhejiang Growth Fund, two funds managed by the Group, together with Yuyuan jointly held 24.81% equity interest in Cirque du Soleil as at the end of the Reporting Period. Among which, CMF held approximately 14.04% equity interest, while Zhejiang Growth Fund and Yuyuan held approximately 7.96% and 2.81% equity interest, respectively.

Cirque du Soleil is primarily a creative content provider for a wide variety of unique projects. In addition to shows, the company, which has its international headquarters in Montréal, extends its creative talent to other spheres of activity. While maintaining stringent standards of artistic quality and originality, Cirque du Soleil brings to each innovative project the same energy and spirit that characterizes each of its shows. Cirque du Soleil is a Quebec-based organization providing high-quality artistic entertainment. During the first half of 2016, Cirque du Soleil launched touring performances of *Avatar*, regular performances of *Paramour* in Broadway of New York and Mexico theme touring performance of *Luzia*. The investment in Cirque du Soleil is a renewed plan for the Group's happiness segment after privatization of Club Med by the Group. In future, the Group, together with TPG VII CDS Holdings and Cirque du Soleil, will cooperate to drive the business development of Cirque du Soleil in the market of China.

### Thomas Cook

During the Reporting Period, the Group held an aggregate of 8.45% equity interest in Thomas Cook. Thomas Cook is one of the leading leisure travel groups in the world with deep-rooted branding tradition and leading position in the European tourism market. During the first half of 2016 financial year, revenue of GBP2.67 billion was recorded, representing a decrease of 2.6% over the same period of last year. After eliminating the effects of exchange rate and oil prices, comparable revenue increased by GBP9 million. Operating EBIT losses decreased by GBP10 million compared with the same period of last year and the amount of losses incurred was GBP160 million. Website design and payment connection have been completed for the travel agency, KUYI, jointly established by the Group and Thomas Cook group and regular business operations have commenced to offer domestic, overseas and MICE (meetings, incentives, conferencing/conventions, exhibitions and events) travel services to the growing middle class population both inside and outside China. As at the end of the Reporting Period, the Group held 51% shareholding in KUYI.

## PROPERTY DEVELOPMENT AND SALES

During the Reporting Period, the revenue and profit attributable to owners of the parent of the property development and sales segment were as follows:

Unit: RMB million

	<b>For the six months ended 30 June 2016</b>	For the six months ended 30 June 2015	Change over the same period of last year
Revenue	3,951.0	4,199.2	-5.9%
Profit attributable to owners of the parent	425.0	57.3	+641.7%

During the Reporting Period, the decrease in revenue of the property development and sales segment was mainly due to that most of properties of Forte were sold but not booked and the property area (booked area) declined compared with the same period of last year. The increase in profit attributable to owners of the parent of the property development and sales segment was mainly contributed by the fair value adjustment of investment properties of Forte.

### Forte

With the successive introduction of a number of government policies to support the property market in 2015, positive stimulations to China's real estate markets in various regions were resulted with rebounding transaction volumes in various regions, both transaction volume and price also rebounded in first-tier important cities and second-tier provincial capital cities. During the first half of 2016, riding on the trend from 2015, land kings emerged frequently in different cities and the product prices of various sectors in the real estate industry were also reactivated accordingly.

Against the backdrop of active transactions in the real estate market during the first half of 2016, Forte started to count stock, launch new projects and grab key opportunities since the beginning of the year with the objectives of maintaining or even increasing prices, eliminating inventory, enhancing liquidity and reducing consolidated gearing ratio. In respect of operation, as Hive City strategy was implemented and commenced in each of the projects, by combining with property resources of Fosun and leveraging on the services of Cirque du Soleil, Club Med and Starcastle Senior Living, product capabilities for customers gradually emerged, with increasing recognition, and reflected in the product price premium. In terms of new business, based on the community resources accumulated in project developments over the years by Forte, the "F • LIN" brand created internally and management team entered the home care market which is the largest source of demand in the senior living business in China. Meanwhile, under the support of Fosun, funding structure and funding cost were optimized continuously to create more diversified sources of funds at reasonable cost for business developments.

During the first half of 2016, in the market environment of rising land cost, Forte adhered to the Hive City strategy to seek for investment opportunities with reasonable cost and consolidated benefits within core cities in China. Meanwhile, Forte updated its branding slogan to "converging the world, enjoying life (匯世界, 會生活)" which explained our Hive City strategy: by setting the roots in China, global resources of wealth, health and happiness industries will converge to create space for happy living for customers of Forte. By leveraging on more global resources and diverse product lines of the Group internally, Forte has been actively transforming into a real estate enterprise with industrial characteristics, and achieving a breakthrough in the light-asset model to enhance consolidated corporate capabilities, endeavoring to achieve the corporate vision of becoming a real estate developer with integrated global resources.

The establishment work of Fosun United Health Insurance shall be completed within one year from the date of receiving the approval reply. The investment is another important strategic measure of the Group in building a wealthy, healthy and happy ecosystem, aiming to provide more diversified and customized insurance and health services for family customers by combining the Group’s resources in the insurance and health sectors to create synergies.

## FUTURE DEVELOPMENT

Fosun always adheres to the “insurance + investment” twin-driver investment model and perseveres in combining China’s growth momentum with global resources, while focusing on the business-to-family (**B2F**) business model to mapping out global strategies by concentrating on “wealth, health and happiness” lifestyle. In 2016, facing new changes brought about by the global market and growth of China’s economy, Fosun will continue to embrace internet, capitalize on the growing trend of C2M and build up the entire eco-system for its businesses. In the second half of 2016, Fosun will accelerate the optimization of its debt structure, improve liquidity of its assets, and work towards the goal of having the global rating of its debts upgraded to investment grade. Meanwhile, Fosun will proactively push forward with its globalization strategy, continue to push ahead with “localization” and consistently deepen the development of its industries. Fosun will speed up its strategic planning for emerging markets such as Brazil, Russia and India to realize a new round of growth while aspiring to become the world’s first-class investment group dedicated to China’s growth momentum.

## FINANCIAL REVIEW

### NET INTEREST EXPENDITURES

Net interest expenditures, net of capitalized amounts of the Group, increased to RMB2,125.4 million for the six months ended 30 June 2016 from RMB2,007.8 million for the six months ended 30 June 2015. The increase in net interest expenditures was mainly attributable to the growth in scale of total borrowings. For the six months ended 30 June 2016, the interest rates of borrowings were approximately between 0.37% and 8.7% as compared with approximately between 0.44% and 11.0% for the same period of last year.

### TAX

Tax of the Group decreased to RMB1,343.5 million for the six months ended 30 June 2016 from RMB1,518.3 million for the six months ended 30 June 2015. The decrease in tax was mainly resulted from the decrease in taxable profit from the Group.

### CAPITAL EXPENDITURES AND CAPITAL COMMITMENT

The capital expenditures of the Group mainly consist of additions to property, plant and equipment, prepaid land lease payments, exploration and evaluation assets, mining rights and intangible assets. We have been increasing our investment in the research and development of pharmaceutical products in order to produce more proprietary products with higher gross profit margin. We continued our commitment in property development, but will adjust our strategy according to market conditions. With an aim to further strengthen our leading role in the happiness industry, we have made extra efforts in the happiness segment.

As at 30 June 2016, the Group's capital commitment contracted but not provided for was RMB28,412.9 million. These were mainly committed for property development, purchase of plant and machinery and investments. Details of capital commitment are set out in note 17 to interim condensed consolidated financial statements.

### INDEBTEDNESS AND LIQUIDITY OF THE GROUP

As at 30 June 2016, the total debt of the Group was RMB119,171.6 million, representing a slight increase over RMB115,110.0 million as at 31 December 2015, which was mainly due to the increase in borrowings as a result of business expansion of all segments of the Group. As at 30 June 2016, mid-to-long-term debt of the Group accounted for 66.4% of total debt, as compared with 57.4% as at 31 December 2015. As at 30 June 2016, cash and bank and term deposits decreased by 12.8% to RMB41,195.8 million as compared with RMB47,219.2 million (restated) as at 31 December 2015.

Unit: RMB million

## TOTAL DEBT TO TOTAL CAPITALIZATION RATIO

As at 30 June 2016, the ratio of total debt to total capitalization was 52.3% as compared with 53.6% (restated) as at 31 December 2015. This ratio has decreased as a result of the increase of the total capitalization. Healthy debt ratios and abundant funds can reinforce the Group's ability to defend against risk exposure, and provide support to the Group in capturing investment opportunities.

## BASIS OF CALCULATING INTEREST RATE

To stabilize interest expenses, the Group endeavored to maintain appropriate borrowings at fixed interest rates and floating interest rates. The Group made timely adjustment to the debt structure according to the interest rate policy, seeking to optimize the interest rate level. As at 30 June 2016, 43.8% of the Group's total borrowings bore interest at a fixed interest rate.

## THE MATURITY PROFILE OF OUTSTANDING BORROWINGS

The Group sought to manage and extend the maturity of outstanding borrowings, so as to ensure that the outstanding borrowings of the Group due to mature every year would not exceed the expected cash flow of that year and the Group's re-financing ability for the relevant liabilities in that year.

Outstanding borrowings classified by year of maturity as at 30 June 2016 are as follows:

- **33.6%** Within one year
- **20.8%** In the second year
- **37.9%** In the third to fifth years, inclusive
- **7.7%** Over five years

## AVAILABLE FACILITIES

As at 30 June 2016, save for cash and bank and term deposits of RMB41,195.8 million, the Group had unutilized banking facilities of RMB162,349.4 million. The Group has entered into cooperation agreements with various major banks in China. According to these agreements, the banks granted the Group general banking facilities to support its capital needs. Prior approval of individual projects from banks in accordance with bank regulations of China must be obtained before the use of these banking facilities. As at 30 June 2016, available banking facilities under these arrangements totalled approximately RMB241,849.4 million, of which RMB79,500.0 million was utilized.

## PLEGDED ASSETS

As at 30 June 2016, the Group had pledged assets of RMB47,971.3million (31 December 2015: RMB50,485.9 million) for bank borrowings. Details of pledged assets are set out in note 12 to interim condensed consolidated financial statements.

## CONTINGENT LIABILITIES

The Group's contingent liabilities were RMB5,731.0 million as at 30 June 2016 (31 December 2015: RMB8,045.7 million). Details of contingent liabilities are set out in note 18 to interim condensed consolidated financial statements.

## INTEREST COVERAGE

For the six months ended 30 June 2016, EBITDA divided by net interest expenditures was 5.1 times as compared with 5.0 times for the same period in 2015, the increase was mainly due to the 8.0% increase of the Group's EBITDA during the Reporting Period compared with the same period of last year.

## FINANCIAL POLICIES AND RISK MANAGEMENT

### General policy

The Company maintains the financial independence of different business segments. Nevertheless, the Company also gives appropriate guidance on the fund management of different segments so as to ensure that risks of the Group are well monitored and financial resources are effectively applied. To maintain multiple financing channels, the Group tries to obtain funds from different channels through banks and capital markets etc.. Finance arrangements are organized to meet the needs of business development and match the Group's cash flow.

### Foreign currency exposure

RMB is the functional and presentation currency of the Group. As a result of the launching of global strategy, the proportion of assets denominated in currencies other than RMB held by the Group had continuously increased. Financial settlement and currency conversion as at the reporting date of these non-RMB assets may generate a certain amount of foreign exchange losses or gains, thereby affecting the Group's profits or net assets. Since the exchange rate reform in August 2015, the exchange rate of RMB against USD depreciated for a time and the volatility increased. We are uncertain of the trend of the exchange rate of RMB in the future. The cost of conversion of RMB into foreign currencies will be subject to the fluctuation of the exchange rate of RMB.

### Interest rate exposure

The Group uses bank loans and other borrowings to meet its capital expenditure and working capital requirements from time to time and is subject to the risk of interest rate fluctuation. Since a certain amount of the Group's borrowings is provided at floating interest rates which are subject to change by the lenders as required by amendments of regulations of China and the market conditions in and outside mainland China, the interest expenses of the Group will increase if the People's Bank of China or foreign banks increase their interest rates.

### Application of derivatives

The Group will apply derivative instruments as necessary to hedge the risk exposure instead of speculation.

## FORWARD-LOOKING STATEMENTS

This interim report includes certain forward-looking statements which involve the financial conditions, results and businesses of the Group. These forward-looking statements are the Group's expectation or beliefs on future events and they involve known and unknown risks and uncertainties, which may cause actual results, performance or development of the situation to differ materially from the situation expressed or implied by these statements.

# NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2016

## 1. CORPORATE INFORMATION

Fosun International Limited (the “Company”) was incorporated as a company with limited liability in Hong Kong on 24 December 2004 under the Hong Kong Companies Ordinance.

The registered office of the Company is located at Room 808, ICBC Tower, 3 Garden Road, Central, Hong Kong.

The principal businesses of the Company and its subsidiaries (collectively referred to as the “Group”) include integrated finance (wealth) and industrial operations. The integrated finance (wealth) business includes the three major segments: insurance, investment and wealth management and innovative finance while the industrial operations include four key segments: health, happiness, property development and sales and resources.

The holding company and the ultimate holding company of the Company are Fosun Holdings Limited and Fosun International Holdings Ltd., which are incorporated in Hong Kong and the British Virgin Islands, respectively. The ultimate controlling shareholder is Mr. Guo Guangchang.

The shares of the Company have been listed on the Main Board of the Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”) since 16 July 2007.

## 2. BASIS OF PREPARATION AND CHANGES TO THE GROUP’S ACCOUNTING POLICIES

### 2.1 Basis of preparation

The unaudited interim condensed consolidated financial statements, which comprise the interim condensed consolidated statement of financial position of the Group as at 30 June 2016 and the related interim condensed consolidated statement of profit or loss, interim condensed consolidated statements of comprehensive income, changes in equity and cash flows for the six months ended 30 June 2016 (the “Period”), have been prepared in accordance with HKAS 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 December 2015.

### 2.2 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s annual consolidated financial statements for the year ended 31 December 2015, except for the adoption of new standards and amendments effective as of 1 January 2016. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these new standards and amendments apply for the first time in 2016, they do not have a material impact on the annual consolidated financial statements of the Group or the interim condensed consolidated financial statements of the Group. The nature and the impact of each new standard or amendment is described below:

#### **HKFRS 14 *Regulatory Deferral Accounts***

HKFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of HKFRS. Entities that adopt HKFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and other comprehensive income. The standard requires disclosure of the nature of, and risks associated with, the entity’s rate-regulation and the effects of that rate-regulation on its financial statements. HKFRS 14 is effective for annual periods beginning on or after 1 January 2016. Since the Group is an existing HKFRS preparer and is not involved in any rate-regulated activities, this standard does not apply.

## **2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES**

*(Continued)*

### **2.2 New standards, interpretations and amendments adopted by the Group** *(Continued)*

#### **Amendments to HKFRS 11 *Joint Arrangements: Accounting for Acquisitions of Interests***

The amendments to HKFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business, must apply the relevant HKFRS 3 Business Combinations principles for business combination accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation if joint control is retained. In addition, a scope exclusion has been added to HKFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments have no significant impact on the Group.

#### **Amendments to HKAS 16 and HKAS 38: *Clarification of Acceptable Methods of Depreciation and Amortisation***

The amendments clarify the principle in HKAS 16 Property, Plant and Equipment and HKAS 38 Intangible Assets that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact to the Group given that the Group has not used a revenue-based method to depreciate its non-current assets.

#### **Amendments to HKAS 27: *Equity Method in Separate Financial Statements***

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying HKFRS and electing to change to the equity method in their separate financial statements will have to apply that change retrospectively. First-time adopters of HKFRS electing to use the equity method in their separate financial statements will be required to apply this method from the date of transition to HKFRS. The amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the Group's separate financial statements as the Group does not elect to change to the equity method in their separate financial statements.

#### **Annual Improvements 2012-2014 Cycle**

These improvements are effective for annual periods beginning on or after 1 January 2016. They include:

#### **HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations***

Assets (or disposal groups) are generally disposed of either through sale or distribution to owners. The amendment clarifies that changing from one of these disposal methods to the other would not be considered a new plan of disposal, rather it is a continuation of the original plan. There is, therefore, no interruption of the application of the requirements in HKFRS 5. This amendment must be applied prospectively.

## 2. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

(Continued)

### 2.2 New standards, interpretations and amendments adopted by the Group (Continued)

#### **HKFRS 7 Financial Instruments: Disclosures**

(i) Servicing contracts

The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and the arrangement against the guidance for continuing involvement in HKFRS 7 in order to assess whether the disclosures are required. The assessment of which servicing contracts constitute continuing involvement must be done retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendments.

(ii) Applicability of the amendments to HKFRS 7 to condensed interim financial statements

The amendment clarifies that the offsetting disclosure requirements do not apply to condensed interim financial statements, unless such disclosures provide a significant update to the information reported in the most recent annual report. This amendment must be applied retrospectively.

#### **HKAS 19 Employee Benefits**

The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. This amendment must be applied prospectively.

#### **HKAS 34 Interim Financial Reporting**

The amendment clarifies that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the interim financial report (e.g., in the management commentary or risk report). The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time. This amendment must be applied retrospectively.

These amendments do not have any impact on the Group.

### 2.3 Prior year restatement

#### **2.3.1 Restatement of prior years' financial statements as a result of business combinations for entities under common control**

In June 2016, Yadong Fosun Industrial Technology Development Co., Ltd., an indirectly wholly owned subsidiary of the Company, completed the acquisition of 35.21% equity interest in Shanghai Fosun Chuanghong Equity Investment Fund Partnership (L.P.) ("Chuanghong Fund") at a purchase consideration of RMB582,000,000. After the completion of the acquisition, Chuanghong Fund was accounted for as a subsidiary of the Group. Since the Company and Chuanghong Fund were under common control of Mr. Guo Guangchang ("Mr. Guo", the ultimate controlling shareholder of the Company) before and after the completion of the aforesaid acquisition, the business combination of Chuanghong Fund has been accounted for under pooling of interest method.

Business combinations arising from transfers of interests in entities that are under the control of the ultimate shareholder that controls the Group are accounted for as if the acquisitions had occurred at the beginning of the earliest date presented or, if later, at the date that common control was established. The assets and liabilities acquired are recognised at the carrying amounts recognised previously in the acquired entities' financial statements.

Upon transfer of interest in an entity to another entity that is under the control of the ultimate shareholder that controls the Group, any difference between the Group's interest in the carrying value of the assets and liabilities and the cost of transfer of interest in the entity is recognised directly in equity.

The consolidated statement of comprehensive income includes the results of each of the combining entities from the earliest date presented or since the date when the combining entities first came under the common control, where this is a shorter period.

All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full on consolidation.

The opening balances as at 1 January 2015 and comparative information as at 31 December 2015 and for the period ended 30 June 2015 have been restated in the interim condensed consolidated financial statements.

#### **2.3.2 Restatement of prior years' financial statements as a result of finalized purchase price allocation of the acquisition of Club Med**

In February 2015, Club Med Invest (former name: Gaillon Invest II), an indirectly owned subsidiary of the Company, acquired 100% of the equity interests in Club Med, at a total consideration of Euro916,664,000 (equivalent to RMB6,240,832,000). The assessment of the fair values of the identifiable assets and liabilities of Club Med was still undergoing and the information of the fair values of the identifiable assets and liabilities was provisional as at 31 December 2015.

During the Period, the Company finalized the assessment of the fair value of the identifiable assets and liabilities of Club Med and the Company retrospectively adjusted the provisional amounts recognised at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date.

The comparative information as at 31 December 2015 and comparative information for the period ended 30 June 2015 have been restated in the interim condensed consolidated financial statements.

## 3. SEASONALITY OF OPERATIONS

The Group's operations are not subject to seasonality.

## 4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has seven reportable operating segments as follows:

- (i) Insurance segment engages in the operation of and investment in the insurance businesses;
- (ii) Investment segment comprises, principally, the investments in strategic investments, private equity investments/venture capital investments/capital contribution to the Group's asset management business as a limited partner (PE/VC/LP investments) and secondary market investments; and
- (iii) Wealth management and innovative finance segment mainly comprises wealth management and innovative finance business. Wealth management engages in the asset management business and the operation of and investment in banking and other financial business, while innovative finance comprises the operation of and investment in the financial industry using internet cloud computing technology.

Insurance segment, investment segment, wealth management and innovative finance segment listed above all belong to one integrated finance (wealth) sector of the Group.

- (iv) Health segment engages in the research and development, manufacturing, sale and trading of pharmaceutical and medical products and providing healthcare services;
- (v) Happiness segment comprises principally the operation and investments in the wholesale and retail of gold and jewellery, tourism and entertainment industries;
- (vi) Property development and sales segment engages in the development and sale of properties; and
- (vii) Resources segment engages in the mining and ore processing of various metals and the oil and gas exploration.

Health segment, happiness segment, property development and sales segment and resources segment listed above all belong to one industrial operations sector of the Group.

As Nanjing Nangang Iron & Steel United Co., Ltd. has ceased to be a subsidiary of the Company since the end of 2015, the Group's investments in the steel industry were classified into the investment segment since 1 January 2016.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. During the Period, as the management changes the structure of the Group's internal organisation to match its business development strategy in a manner that causes to change the Group's composition of its reportable segments, some entities within the Group were re-structured to reflect such change.

Segment performance is evaluated based on reportable segment profit or loss, which is a measure of adjusted profit or loss after tax. The adjusted profit or loss after tax is measured consistently with the Group's profit or loss after tax except that head office and corporate expenses are excluded from such measurement.

Inter-segment sales and transfers are transacted with reference to the fair selling prices used for sales made to third parties at the then prevailing market prices.

<b>Tax expenses for the Period</b>		<b>1,343,521</b>	<b>1,518,315</b>

Notes:

- (1) Taxes on profits assessable elsewhere have been calculated at the tax rates prevailing in the jurisdictions in which the Group operates. Hong Kong profits tax has been provided at the rate of 16.5% (six months ended 30 June 2015: 16.5%) on the estimated assessable profits arising in Hong Kong during the Period.

The provision of current income tax of Alma Lasers Ltd. ("Alma Lasers"), a subsidiary of Shanghai Fosun Pharmaceutical (Group) Co., Ltd. ("Fosun Pharma") incorporated in Israel, is based on a preferential rate of 16% (six months period ended 30 June 2015: 16%).

The provision of income tax of Fidelidade - Companhia de Seguros, S.A., Multicare - Seguros de Saúde, S.A. and Fidelidade Assistência - Companhia de Seguros, S.A., subsidiaries incorporated in Portugal acquired by the Group in 2014, is based on a rate of 29.5% (six months period ended 30 June 2015: 30.3%).

The provision for income tax of Ironshore Inc. ("Ironshore") and its subsidiaries incorporated in the United States acquired by the Group in 2015, is based on a rate of 35%. Its principal operating subsidiary, Ironshore Insurance Ltd. operating in Bermuda is exempt from all Bermuda income, withholding and capital gains taxes. Ironshore Insurance Ltd. would be exempt until March 2035 pursuant to the Bermuda Exempted Undertakings Tax Protection Act 1966, and Amended Act of 1987.

The provision for income tax of Meadowbrook Insurance Group Inc. and its subsidiaries incorporated in the United States acquired by the Group in 2015, is based on a rate of 35%.

The provision for income tax of Club Med Holding and its subsidiaries incorporated in France acquired by the Group in 2015, is based on a rate of 38%.

- (2) The provision for Mainland China current income tax is based on a statutory rate of 25% (six months ended 30 June 2015: 25%) of the assessable profits of the Group as determined in accordance with the Enterprise Income Tax Law of the PRC which was approved and became effective on 1 January 2008, except for certain subsidiaries of the Group in Mainland China, which were taxed at preferential rates of 0% to 20%.
- (3) According to the tax notices issued by the relevant local tax authorities, the Group commenced to pay LAT at rates ranging from 0.5% to 5% on proceeds from the sale and pre-sale of properties from 2004. Prior to 2007, except for the mentioned amount paid to the local tax authorities, no further provision for LAT had been made. The directors considered that the relevant tax authorities would be unlikely to impose additional LAT levies other than the amount already paid based on the relevant percentages of the proceeds from the sale and pre-sale of the Group's properties.

During the Period, the prepaid LAT of the Group amounted to RMB77,090,000 (six months ended 30 June 2015: RMB165,044,000). In addition, based on the latest understanding of the LAT regulations from the State Administrative of Taxation, the Group made an additional LAT provision in the amount of RMB71,478,000 (six months ended 30 June 2015: RMB49,959,000) in respect of the sales of properties up to 30 June 2016 in accordance with the requirements set forth in the relevant PRC tax laws and regulations.

During the Period, unpaid LAT provision in the amount of RMB33,187,000 (six months ended 30 June 2015: RMB10,704,000) was reversed to the interim condensed consolidated statement of profit or loss upon the completion of the liquidation and clearance with the local tax authorities by certain subsidiaries of the Group.

## 9. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amount is based on the profit for the Period attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 8,603,950,710 (six months ended 30 June 2015: 7,109,048,484 ordinary shares) in issue during the Period.

The calculation of the diluted earnings per share amounts is based on the profit for the Period attributable to ordinary equity holders of the parent, adjusted to reflect the interest on the convertible bonds. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the Period, as used in the basic earnings per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

The calculations of the basic and diluted earnings per share are based on:

(iii) Acquisition of subsidiaries accounted for as business combination under common control

Details of acquisition of subsidiaries accounted for as business combination under common control are set out in note 2.3.1.

## 17. COMMITMENTS

The Group had the following capital commitments at the end of the reporting period:

	30 June 2016 RMB'000 (Unaudited)	31 December 2015 RMB'000 (Audited)
Contracted, but not provided for: In respect of:		
Plant and machinery	1,066,738	1,881,272

## 18. CONTINGENT LIABILITIES

The Group had the following contingent liabilities:

	<b>30 June 2016 RMB'000 (Unaudited)</b>	31 December 2015 RMB'000 (Audited)
Guarantees given to bank loans and corporate bonds of:		
Related parties	<b>2,857,749</b>	5,319,000
Qualified buyers' mortgage loans*	<b>2,873,279</b>	2,726,667
	<b>5,731,028</b>	8,045,667

- \* As at 30 June 2016, the Group provided guarantees of approximately RMB2,873,279,000 (31 December 2015: RMB2,726,667,000) in favour of their customers in respect of mortgage loans provided by banks to such customers for their purchases of the Group's developed properties where the underlying real estate certificates can only be provided to the banks in a time delayed manner due to administrative procedures in the PRC. These guarantees provided by the Group will be released when the customers pledge their real estate certificates as security to the banks for the mortgage loans granted by the banks.

The directors consider that in case of default in payments, the net realizable value of the related properties can cover the outstanding mortgage principals together with the accrued interest and penalties and therefore no provision has been made for the guarantees in the interim condensed consolidated financial statements.

## 19. RELATED PARTY TRANSACTIONS

- (1) During the Period, the Group had the following material transactions with related parties in addition to the transactions disclosed in note 12 and note 2.3.1:

	<b>126,760,662</b>	122,001,399	<b>124,299,118</b>	121,108,004

Management has assessed that the fair values of cash and bank, trade and notes receivables, trade and notes payables, insurance and reinsurance debtors and creditors, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, the current portion of amounts due from related companies and amounts due to related companies and the holding company approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The Group's corporate finance team is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The corporate finance team reports directly to the chief financial officer. At each reporting date, the corporate finance team analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the non-current portion of financial liabilities included in other long term payables, non-current portion of loans receivable, interest-bearing bank and other borrowings and convertible bonds have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for the non-current portion of amounts due to related companies, financial liabilities included in other long term payables, loans from related companies, finance lease payables and non-current portion of interest-bearing bank and other borrowings as at 30 June 2016 was assessed to be insignificant. The fair value of the convertible bonds and other listed bonds is based on the quoted market price which represents the fair value for both the liability and equity components of the convertible bonds and the fair values of listed bonds and senior notes are based on quoted market prices.

## 20. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS *(Continued)*

The Group enters into derivative financial instruments with various counterparties, principally financial institutions with high credit ratings. Derivative financial instruments include foreign exchange futures, forward currency contracts and interest rate swaps. As at 30 June 2016, the fair values of foreign exchange futures were measured using quoted market prices while the fair values of forward currency contracts and interest rate swaps were measured using valuation techniques similar to forward pricing and swap models, using present value calculations. The models incorporate various market observable inputs including the credit quality of counterparties, foreign exchange spot and forward rates and interest rate curves. The carrying amounts of the foreign exchange futures, forward currency contracts and interest rate swaps are the same as their fair values.

The fair values of listed equity investments without a lock-up period are based on quoted market prices. The fair values of listed equity investments with a lock-up period have been estimated based on assumptions that are supported by observable market prices and discount for lack of marketability. The directors believe that the estimated fair values resulting from the valuation technique, which are recorded in the consolidated statement of financial position, and the related changes in fair values, which are recorded in other comprehensive income or profit or loss, are reasonable, and that they were the most appropriate values at the end of the reporting period.

As at 30 June 2016, the fair value has not been disclosed for certain available-for-sale investments in equity instruments that do not have a quoted market price in an active market and is measured at cost less any impairment because their fair value cannot be measured reliably. The reason why the fair value cannot be measured reliably is that the variability in the range of reasonable fair value estimates is significant for that investment or the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value. The carrying amount of these available-for-sale investments was RMB11,388,735,000 (31 December 2015: RMB12,360,301,000). All of them are unlisted equity investments held by the Group in China, North America, European and other countries, which are intended to be disposed of by the Group after getting listed on the designated stock exchanges in the future.

During the Period, the available-for-sale investments whose fair value could not be reliably measured with carrying amount of RMB1,618,025,000 were derecognised and the relevant gain on disposal amounted to RMB727,090,000 was recognized in the interim condensed consolidated statement of profit or loss.

Below is a summary of significant unobservable inputs to the valuation of financial instruments as at 30 June 2016:

### Unobservable inputs and sensitivity analysis for Level 3 assets

The financial assets measured at fair value held by Portuguese Insurance Group which were classified in Level 3 primarily correspond to debt securities and investment funds not quoted in an active market.

The fair value of debt securities, which consist of public and corporate bonds, is determined using broker quotes that cannot be corroborated with observable market transactions. Significant unobservable inputs for these bonds would include proprietary cash flow models and issuer spreads, which are comprised of credit, liquidity, and other security-specific features of the bonds. An increase (decrease) in these issuer spreads would result in a lower (higher) fair value. Due to the unobservable nature of these quotes, we do not assess whether applying reasonably possible alternative assumptions would have an impact on the fair value of the Level 3 bonds.

The fair values of investment funds classified in Level 3 are based on net asset value (NAV) reports provided by the management of such funds. Based on the unobservable nature of these NAV's, we do not assess whether applying reasonably possible alternative assumptions would have an impact on the fair value of the Level 3 investment funds.

## 20. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS *(Continued)*

### Fair value hierarchy

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

Level 1: Fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Fair values measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: Fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value are not based on observable market data (unobservable inputs)

### Assets measured at fair value:

## 21. EVENTS AFTER THE REPORTING PERIOD

- (i) In July 2016, Fosun Industrial Holdings Limited ("**Fosun Industrial Holdings**", a direct wholly-owned subsidiary of the Company) issued a firm proposal to invest in Banco Comercial Português, S.A. ("**BCP**") by way of capital increase reserved to Fosun Industrial Holdings (or its affiliates) (following such capital increase, the shareholding of Fosun Industrial Holdings in BCP is expected to be approximately 16.7%). The subscription price of this capital increase shall not be higher than Euro0.02 per share and the total maximum consideration will be Euro236 million. In addition, Fosun Industrial Holdings is also considering potentially increasing its shareholding in BCP to 20% - 30% by acquiring shares in the secondary market or by capital injection in the future. The completion of the proposed transaction is subject to the proposed guideline agreement and a subscription agreement being signed and the satisfaction (or, as the case may be, waiver) of such conditions precedent to completion as may be specified therein. BCP will be accounted for as an associate of the Group after the completion of the acquisition.
- (ii) In July 2016, Fosun Pharma proposed to invest in no more than USD1,261.37 million to acquire in aggregate approximately 79.997% equity interest in Gland Pharma Limited ("**Gland**") and to subscribe for the Convertible Preference Shares to be issued by Gland representing approximately 6.083% equity interest of Gland. A contingent consideration with the upper limit of USD50 million should be paid by Fosun Pharma based on the sale of enoxaparin products by Gland.
- (iii) In April 2016, Shanghai Stock Exchange approved Forte to non-publicly issue corporate bonds to the qualified investors. Pursuant to the approval, a par value of the corporate bonds to be issued should not exceed RMB8 billion (inclusive). On 18 August 2016, Forte issued the first tranche of three-year corporate bonds with a par value of RMB3 billion and a coupon rate of 4.38% per annum. According to the term of the corporate bonds, Forte shall be entitled to adjust upwards the coupon rate and the investors shall be entitled to sell back the corporate bonds at the end of the second year.

## 22. COMPARATIVE AMOUNTS

Certain comparative amounts have been reclassified to conform with the current period's presentation and as stated in note 2.3 to the interim condensed consolidated financial statements, the comparative amounts have been restated to reflect the prior year adjustments.

In addition, as stated in note 4 to the interim condensed consolidated financial statements, the comparative segment information has been restated to reflect the change of the reporting segments of the Group.

## 23. APPROVAL OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The interim condensed consolidated financial statements were approved and authorised for issue by the board of directors on 30 August 2016.

# STATUTORY DISCLOSURES

## INTERIM DIVIDEND

The Board has resolved not to declare or distribute any interim dividend for the Reporting Period.

## SHARE OPTION SCHEME

The Share Option Scheme was adopted by the Company on 19 June 2007. The primary purpose of the Share Option Scheme is to provide incentive and/or reward to eligible persons for their contribution to, and continuing efforts to promote the interests of the Group.

In order to consistently implement the core values of entrepreneurship of the Company, encourage value creation, active commitment and business contribution by its core management staff, continue to improve on its multi-layered and long-term incentives mechanism, and actively promote management innovation and cultural heritage, the Company has decided to grant share options (the “Options”) to the first 18 global core management staff (the “Grantees”) during the Reporting Period.

The following table discloses movements in the Company’s outstanding Options during the Reporting Period.

Name of Grantee	Date of grant of the Options	On 1 January 2016	Granted during the Reporting Period	Number of the Options		On 30 June 2016	Exercise period of the Options <sup>Note</sup>	Exercise price of the Options per Share (HKD)
				Exercised during the Reporting Period	Expired/ lapsed/ cancelled during the Reporting Period			
Ding Guoqi	8 January 2016	—	10,000,000	—	—	10,000,000	8 January 2021 to 7 January 2026	11.53
Qin Xuetang	8 January 2016	—	10,000,000	—	—	10,000,000	8 January 2021 to 7 January 2026	11.53
Chen Qiyu	8 January 2016	—	10,000,000	—	—	10,000,000	8 January 2021 to 7 January 2026	11.53
Xu Xiaoliang	8 January 2016	—	10,000,000	—	—	10,000,000	8 January 2021 to 7 January 2026	11.53
Other Grantees	8 January 2016	—	71,000,000	—	—	71,000,000	8 January 2021 to 7 January 2026	11.53

Notes: The Options are exercisable by each Grantee in three tranches as set out below:

- up to the first 20% of the Options, at any time from the date falling on the fifth anniversary of the date of grant till the end of the 10-year period commencing on the date of the grant of Options (the “Option Period”);
- up to a further 30% of the Options, at any time from the date falling on the sixth anniversary of the date of grant till the end of the Option Period; and
- in respect of the remaining 50% of the Options, which, for the avoidance of doubt, comprise those Options which have not been exercised (and not lapsed) since the fifth anniversary of the date of grant, at any time from the date falling on the seventh anniversary of the date of grant till the end of the Option Period.

The exercise of the Options by the Grantees is conditional upon the fulfilment of certain performance targets relating to the Group (the “Performance Target”). The Performance Target has been determined by the Board and specified in the respective grant letters of each Grantee. Unless the Performance Target is met, the Options granted to the Grantees will lapse.

## SISRAM MEDICAL PLAN

On 28 May 2015, the shareholders of the Company approved the adoption of the Sisram Medical Plan (as defined in the announcement of the Company dated 23 April 2015), whereby it was proposed that options in Sisram Medical Ltd. (“Sisram Medical”) would be granted (“Sisram Options”).

The purpose of Sisram Medical Plan is to enhance the management participation in Alma Lasers Ltd., as it is important that they would be offered an opportunity to obtain ownership interest in Sisram Medical and to enjoy the results of Sisram Medical attained through their efforts and contributions.

As at the end of the Reporting Period, no Sisram Option has been granted under the Sisram Medical Plan. The Sisram Medical Plan shall terminate at the end of ten years from its day of adoption, unless terminated earlier in accordance with the terms of the Sisram Medical Plan.

## SHARE AWARD SCHEME

The Share Award Scheme was adopted by the Company on 25 March 2015.

The purposes of the Share Award Scheme are (i) to align the interests of the eligible persons with those of the Group through ownership of Shares, dividends and other distributions paid on Shares and/or the increase in value of the Shares; and (ii) to encourage and retain eligible persons to make contributions to the long-term growth and profits of the Group.

On 1 April 2016, the Board resolved to award an aggregate of 5,410,000 award shares to 69 selected participants under the Share Award Scheme. The award shares were settled by way of (i) issue and allotment of 5,150,000 Shares (the “**New Award Shares**”) pursuant to a specific mandate; and (ii) 260,000 Shares which were lapsed before vesting under the 2015 Award. Subject to the satisfaction of the vesting criteria and conditions of the Share Award Scheme, the New Award Shares shall be transferred to the selected participants upon expiry of the respective vesting period. As at the end of the Reporting Period, the New Award Shares have been fully issued.

## EMPLOYEES AND REMUNERATION POLICIES

As at 30 June 2016, the Group had approximately 56,000 employees.

In 2016, the Human Resources division of Fosun established strategic themes of the C2M ecosystem by leveraging on the Group’s platform, Unicorn and product capabilities, continued to build an elite organization by reinforcing recruitment and training of talents to improve the multi-level “partnership model”, and facilitated transformation of the Group into an exponential organization. It is to strengthen the value creation with portfolio companies, focus on the appropriateness of talent structure and sustainability of talent supply, and improve the effectiveness of talent management.

The recruitment committee scheme was established and the internal referral system was also promoted to improve the successful rate of talent acquisition. Through the first global campus recruitment, a batch of “post-90s” excellent investment personnel were recruited successfully from domestic and overseas top class universities and colleges, serving as fresh blood supply for implementing our global layout strategy. The function of “an easy-accessed business school” was utilized constantly to create and explore various learning opportunities, linking up potential talent training camps at various stages. Through establishing a mobile e-learning platform with both independently-developed and out-sourced learning resources, fragmented time was fully utilized to attain continuous learning effect.

Through adjusting the organization structure, a flat organization was promoted to enhance organization capabilities and efficiency. More transparency was provided on promotion criteria and career path for talents. Meanwhile, further improvements were made to the “partnership models” at various levels and to all ancillary measures for implementing the global partner Share Option Scheme and key talent Share Award Scheme. The fixed-income investment incentive scheme and the strategic investment incentive scheme were defined and continuous efforts were exerted to optimize and enhance the effectiveness of various incentives. To align the interests of investment personnel with those of the shareholders, the Group optimized the co-investment management policy, implemented the co-investment mechanism of “sharing gains and risks”, and further improved the procedures and processes of co-investment.
