# Chairman's Statement

## Dear Shareholders,

On behalf of Hong Kong Resources Holdings Company Limited (“HKRH” or the “Group”), I present to you the Group’s results for the year ended 30 June 2016.

Despite Mainland China has shown sign of economic slowdown, with its GDP growth dropped to 6.9% in 2015, it remains one of the fastest growing economies in the world. The Group will continue to promote our brand “3D-GOLD” to secure higher recognition and trust and continue to seize the market opportunities to increase the number of shops and revenue mix of Mainland China, Hong Kong and Macau.

We are also striving for sustainable business development, with key investments made in (i) the e-commerce platforms, (ii) entertainment industry and (iii) the new investment in clean energy. The Group believes these investments will pay off in the future.

Moving forward, we will continue to devote resources to bolstering existing businesses in order to capture the market potential and we look forward to achieving mutually beneficial results, in turn, creating greater value for HKRH and delivering better returns to our shareholders and investors.

In closing, on behalf of the Board, I extend my sincere appreciation to the management team and staffs of the Group for their contribution and also give our gratitude to all our shareholders for their continuous support in this challenging year. We expect the year ahead to be full of opportunities and challenges. As always, we strive to create greater value for our shareholders and investors.

**Mrs. Wong Chew Li Chin**

*Chairman*

# Management Discussion and Analysis

## OVERVIEW

The Group is principally engaged in trademark licensing and retailing for selling gold and jewellery products in Hong Kong, Macau and other regions (“Mainland China”) in the People’s Republic of China (the “PRC”).

According to the Hong Kong Tourism Board, during the first six months of 2016 visitor arrivals from Mainland China decreased 10% over the same period in last year. Yet the retail value index for jewellery, watches & clocks, and valuable gifts as surveyed by the government fell 21% during the same period. In addition, the anti-corruption drive and the tight money situation on the Mainland, as well as the political disputes in Hong Kong, all took their toll on consumer sentiments. High-priced gift and luxury items became slow moving.

The Group recorded a turnover of approximately HK\$1,156 million for the Year, representing a decrease of 16% as compared to the turnover of approximately HK\$1,371 million Last Year. The loss for the year was approximately HK\$121 million for the Year compared to the loss of approximately HK\$160 million Last Year, representing a decrease of 24%. Included in the loss for the year are non-cash items of loss in fair value of gold loans of HK\$19 million (2015: gain of HK\$46 million), loss in fair value of financial liabilities at fair value through profit or loss of HK\$2 million (2015: HK\$15 million) and gain on fair value of derivatives financial instruments of HK\$37 million (2015: HK\$24 million).

## FINANCIAL REVIEW

Domestic consumption showed a decline in contribution to China’s economic growth, which in turn impacted the retail market and mass luxury sector. The Group continues to operate in an increasing challenging macro-economic and retail environment, with focus on improving profitability.

Sales from retailing and franchising of gold and jewellery products in Mainland China have continued to be the major source of income, which accounted for 65% of turnover. The turnover of the Group for the Year amounted to HK\$1,156 million (2015: HK\$ 1,371 million), a decrease of 16% from Last Year. Mainland China recorded turnover of HK\$756 million, a decrease of 15% from Last Year. As a result of the opening of 1 new store and closure of 1 non-performing store, Hong Kong and Macau recorded turnover of HK\$399 million, a decrease of 14% from Last Year. We have recorded a decline in overall same-store-growth of 15% (2015: decline of 15%), of which same store growth in Mainland China decline by 17% (2015: decline of 39%) and same store growth in Hong Kong and Macau decline by 14% (2015: a growth of 114%).

# Management Discussion and Analysis

During the Year, the turnover derived from the franchise operation of HK\$1,146 million (2015: HK\$1,548 million), which is a result of the sales of goods to franchisee of HK\$1,131 million (2015: HK\$1,510 million) and receipt of license fees of HK\$68 million (2015: HK\$91 million). The license fee received is reflected directly to gross profit. Through working closely with our franchisees to improve their profitability, we expect improvements in the Group's financial results.

As a result of the above, the turnover has decreased by 16% and the gross profit decreased by 18%, for the Year to HK\$1,156 million and HK\$327 million, respectively. Despite of the decrease in turnover, the implemented initiatives has resulted in positive impact to the Group, whereby, the gross profit margin has remained steadily at 28% for the Year (2015: 29%). Sales of our principal products, gold products and gem-set jewellery, consisted of 63% (2015: 61%) and 20% (2015: 19%), respectively of total turnover.

In line with the decrease in turnover, the Group's selling and distribution expenses have decreased to HK\$316 million (2015: HK\$362 million), but with the percentage of total turnover has increased from 26% to 27% this Year. Advertising and promotional expenses amounted to HK\$25 million (2015: HK\$40 million), representing a rate of 2% (2015: 3%) of the total revenue. Rental expenses amounted to HK\$141 million (2015: HK\$163 million), representing 12% (2015: 13%) of total revenue. The rental reduction was generally in line with the market trend, yet the percentage to turnover remained at a relatively low level. It is the Group's intention to discuss with the various landlord on the level of rentals in spite of the current economic environment.

The Group's general and administrative expenses have decreased by HK\$30 million to HK\$109 million (2015: HK\$139 million). The Group has implemented cost control policy and reduced the general and administrative expenses.

The priority of the management for the Year continues to focus on improving operational performance. The proactive initiatives have resulted in a gradual improvement on the Group's financial results for the Year, where there is a reduction in loss for the Year to HK\$121 million (2015: HK\$160 million).

## FINAL DIVIDENDS

The Board has resolved not to declare any final dividend in respect of the year ended 30 June 2016 to the holders of ordinary shares of the Company.

## BUSINESS REVIEW

### Retail operation

Overall turnover from the Hong Kong and Macau retail operations has reached HK\$399 million (2015: HK\$464 million) and HK\$756 million (2015: HK\$893 million) from the Mainland China operations. The decrease in total turnover for the Year was mainly due to the general downturn in the economy which has impacted on the consumer sentiment, as compared to Last Year.

As at 30 June 2016, the Group has 6 points-of-sale in Hong Kong, 3 points-of-sale in Macau and 355 points-of-sale in Mainland China under the brandname "3D-GOLD". Of the points-of-sale in Mainland China, 82 are self-operated points-of-sale and 273 are licensee points-of-sale. During the Year, 50 new shops and counters have opened in Mainland China and 60 loss making stores were closed.

Over 80% of our self-operated points-of-sale are located at department stores in Mainland China at prime shopping districts and are subject to turnover rent. The Hong Kong and Macau operations are, on the other hand, subject to fixed rentals, with some of the lease arrangements being committed to paying either minimum guaranteed amounts or monthly payments in the amounts equivalent to certain prescribed percentage of monthly sales as rental payments, whichever is the higher. Management are discussing with the various landlords to have the effective rentals maintained at a reasonable level.

# Management Discussion and Analysis

Our strategy in Mainland China is to continue to focus on the growth of licensee stores, with a target of 20% self-operated stores and 80% license stores in the long run. Our model gives us the option to leverage on the capital, local knowledge and premises of our licensees: a flexible and fast roll out strategy that requires minimal capital outlay from the Group. Our model enables the management to make critical decisions at times of market changes with minimal adverse impact on the Group.

With a view to improve the profitability, the management has focused on the following areas with various measures: (i) to adjust the sales network by focusing on profit making stores and closing down non-performing stores, (ii) introducing a new regional franchisee system to strengthen the retail operations, (iii) continuing to develop and promote new series products, (iv) persistent costs control; and (v) improving cash flow.

The opening, renewal and closing of our points-of-sales in Hong Kong, Macau, and Mainland China will be reviewed continually to ensure consistence with our overall business plan and strategies. Our growth plans will be continuously adjusted, based on the financial returns, marketing benefits and strategic advantages. Prospectively, the Mainland China market will remain the key growth driver in the future.

## Products and Design

The Group has continued to advance its product designs and innovations. Through continuous enhancement in product quality, the Group is committed to offering product series which are able to meet with our customers' preferences.

During the Year, the Group has enlarged its product portfolio to capture different market segments. Newly launched products include:

- “Peter Rabbit” Collection;
- “Love Lane” Collection;
- “Cool Love” Collection;
- “Winding Love” Collection;
- “Summer Melody” Collection;
- “Les fleurs” Diamond and Pearl Collection;
- Pure Gold Monkey Collection

## Marketing and Promotion

The Group strongly believes in the value of a strong brand. A strong jewellery brand means trust worthiness, quality and design; trust facilitates the buying decision. The Group continues to promote the “3D-GOLD” brand through a comprehensive marketing programme and to present a corporate image of superior quality.

The Group's marketing programme includes joint promotions, sponsorships and exhibitions as follows:

- Being the title sponsor of the HK Gala Premiere of “To The Fore”;
- Specially designed the “Winding Love” Collection for placement in the movie, “To The Fore”;

# Management Discussion and Analysis

- Trophy sponsorship of the “International KamCha Competition 2015 (HK Style Milk Tea)” for the 5th consecutive year;
- Being the co-sponsor of “Kelly let’s celebrate! World tour” concert;
- Being the title sponsor of “Janice Yan Concert in Hong Kong”;
- Being the title, scepter and crown sponsor of “Miss Chinese International Pageant for 2016” for the 6th consecutive year and a presentation ceremony has been held in the Tsimshatsui shop of Hong Kong.

## Awards and Achievements

The Group has also achieved a number of industry awards as recognition of its efforts in promoting service excellence, industry best practice and its contributions to the jewellery retail sector. The awards include “Green Office Awards Labelling Scheme (GOALS)” awarded by World Green Organization and “Hong Kong Awards for Environmental Excellence” awarded by Environmental Campaign Committee.

## Entertainment Business

Leveraging on the resources and capabilities, the Group is exploring new business opportunities to generate additional revenue from entertainment business. The Group has continued to participate in entertainment events, television programs and content production, while the management has extended the entertainment business by increasing participation in investment and promotion of movies and entertainment events. During the Year, the Group has invested in the following entertainment events:

- “#TWINS #LOL #LIVE IN HK” Concert;
- “Janice Yan Concert in Hong Kong”;
- “Lang Lang Live In HK” Concert.;
- “Priscilla-ism” Concert;
- Stage play of “詹瑞文《新男人之虎》笑完武士”;
- Stage play of “牡丹亭驚夢”;
- “Lowell Lo Beyond Imagination Concert Live 2016”;
- “Song Joong Ki Asia Tour Fanmeeting in Hong Kong 2016”;
- “#TWINS #LOL #WORLD TOUR #GUANGZHOU” Concert; and
- Movie of “Call of Heros”.

# Management Discussion and Analysis

## E-Commerce

To further broaden the sales channel, the Group has launched an e-commerce platform “Zun1” ([www.zun1.com](http://www.zun1.com)) and social network platform ([www.54qn.cn](http://www.54qn.cn)) to capture the high ground in the fast emerging cyber market in Greater China and other regions. The Group has continued its investment in this e-commerce platform, and expects it can generate return and synergy in the future years.

## Clean Energy

The Group continues to invest in Gane Energy & Resources (China) Limited (“Gane China”), a company engaged in the research, development and commercialisation of a new liquid fuel made from methanol and other oxygenated species for use in large industrial compression ignition engines. The fuel is targeted initially for use in electricity generators and heavy industrial equipment and later for mobile applications such as heavy mining trucks, trains and ships. The use of the fuel and the treatment of the engine exhaust are intended to result in exhausts which have concentrations of specific pollutants (such as sulphur dioxide, nitrogen oxides and particulate matter), that are lower than those of diesel, without the need for capital intensive exhaust treatments.

Gane China has carried out testing of the new fuel during the Year and further testing will be conducted. It is expected that the new fuel will be generally well received in the PRC market due to its environmental friendly features. With the Group’s strong business network in PRC, it is expected the Group can help initiate the new fuel in the PRC market, which will help develop the business of Gane China and in turn, benefit the Group.

At the date of the report, the Group has direct interest of 24% in the clean energy investments.

## OUTLOOK

Given the uncertainty in the global economy, economic slowdown in Mainland China and decline in the consumption of luxury goods as a result of the promotion of anti-corruption by the Chinese government, the Group remains prudent about our business growth in the coming year. Looking ahead, we are positive about the business outlook in the medium to long run, despite short term market volatilities. Mainland China will continue to be our major market. Although the economic growth in Mainland China is said to be lower than the targeted, it remains one of the fastest growing economies in the world and support the Group’s optimistic business outlook in the medium to long run.

The management expects the next financial year to be a period of stabilizing our business performance. The strategic direction we are taking is to restore the long term sustainable growth and profitability of the Group. The market volatilities may result in, however, uncertainty on our short term performance. We will continue to enhance the process controls, improve our brand positioning, assist our franchisees to improve profitability, introduce products with higher gross profit margins, and maintain effective cost controls.

The Group has been exploring new business opportunities to generate additional revenue from entertainment business and increase in participation in entertainment events. In addition, the Group will also continue its investments in clean energy business.

Ultimately, we look forward to achieve our goal, which will result in growth and value to our investors and other stakeholders.

## INVESTOR RELATION

The Group values its relationships with investors. Committed to maintaining close ties to professionals from the asset management community, the Group has heightened the transparency of its operations, and has maintained through open and effective communication, to enable investors and the investment community to understand our management philosophy and long-term development plans.

# Management Discussion and Analysis

Throughout the year, the Group has arranged one-on-one meetings and visits for fund managers. The Group welcomes and treasures investors' comments as it strengthen our value to the investors. The Group's effort to create value for investors will continue.

# Corporate Governance Report

The Company is committed to establishing and maintaining a high standard of corporate governance in every aspect of its conduct of business operations. The Company believes that by adopting and embracing a well-balanced set of corporate governance principles will ensure that the best interests of shareholders and other stakeholders, customers, suppliers and other business counter parties are served.

The Company's code on corporate governance practices was adopted with reference to the code provisions on Corporate Governance Code and Corporate Governance Report (the "**CG Code**") contained in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "**Listing Rules**").

The Company principally complied with the CG Code throughout the year ended 30 June 2016, except for the following deviations:

CG Code A.2.1 stipulates that the roles of chairman and chief executive should be separate and should not be performed by the same individual. The Company does not at present have any office with the title "chief executive". The Board is of the view that currently vesting the roles of chairman and chief executive in the chairman of the Company provides the Group with strong and consistent leadership and allows for more effective and efficient business planning and decisions as well as execution of long term business strategies.

CG Code A.4.1 stipulates that the non-executive directors should be appointed for a specific term, subject to re-election. The Company has not fixed the term of appointment for non-executive directors and independent non-executive directors. However, all non-executive directors and independent non-executive directors are subject to retirement by rotation at least every three years and re-election at the annual general meeting of the Company pursuant to the Company's bye-laws. As such, the Board considers that sufficient measures have been taken to ensure the Company's corporate governance practices are no less exacting than those in the CG Code.

The current corporate governance practices of the Company will be reviewed and updated in a timely manner in order to comply with the Listing Rules.

## DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "**Model Code**") set out in Appendix 10 to the Listing Rules. All directors of the Company (the "**Director(s)**") have confirmed, following specific enquiry by the Company, that they have complied with the required standards set out in the Model Code throughout the Year.

Mr. Fan Chun Wah, Andrew ( <i>appointed on 31 July 2015</i> )	6/6
Ms. Estella Yi Kum Ng ( <i>resigned on 31 July 2015</i> )	N/A

The primary responsibilities of the Board are to establish the Group's vision, strategic direction, general policies and strategic business plans; to monitor and control the operating and financial performance of the Group; to implement the best corporate governance practices throughout the Group; and to set appropriate policies to assess and manage risks in pursuit of the strategic objectives of the Group.

The Board has delegated the daily operations of the Company to the Management comprising all executive Directors, management staff, and operating heads of different business units. The main responsibilities of the Management are to implement the strategies and business plans set by the Board and to manage the Group's business operations in accordance with the policies and directives of the Board.

Save for the relationships disclosed in the Profiles of Directors set out on pages 20 to 21 of this annual report, the Directors do not have any financial, business, family or other material/relevant relationship with each other. In addition, the much recently advocated board diversity in gender, age, profession, culture and religion are being observed by the Company in boardroom composition.

The Directors have been informed of the requirement under CG Code A.6.5 regarding continuous professional development. The Company has received from each of the Directors a written record of his or her continuous professional development.

The Company has arranged appropriate liability insurance to indemnify the Directors for their liabilities arising out of corporate activities. The insurance coverage is reviewed annually.

## PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

During the Year, neither the Company nor any of its subsidiaries had purchased, sold or redeemed any of the Company's listed securities.

## DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS OF SIGNIFICANCE

Save as disclosed in sections headed "CONNECTED TRANSACTIONS" and "CONTINUING CONNECTED TRANSACTIONS" below and note 36 to the consolidated financial statements, no transaction, arrangement or contract of significance in relation to the Group's business to which the Company or any of its subsidiaries or fellow subsidiaries was a party and in which a director of the Company or his/her connected entity had a material interest, whether directly or indirectly, subsisted at the end of the Year or at any time during the Year.

## APPOINTMENT OF INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received, from each of the Independent Non-executive Directors, an annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules. The Company considers all of the Independent Non-executive Directors are independent.

## PLACING OF SHARES

On 7 October 2015, the Company entered into a placing agreement ("Placing Agreement") with Get Nice Securities Limited ("Placing Agent") whereby the Company conditionally agreed to place, through the Placing Agent, on a best effort basis, up to 300,000,000 new ordinary shares of the Company ("Shares") to not less than six independent investors at a price of HK\$0.123 per Share ("Placing"). The Board considered that the Placing represented a good opportunity to raise additional funds for the Company while broadening the shareholder and capital base of the Company. The Placing was completed on 11 November 2015 and 300,000,000 Shares were placed to not less than six placees which were institutional or professional investors. The placing Shares were issued under a specific mandate granted to the Directors at the special general meeting of the Company held on 4 November 2015. The gross proceeds from the Placing was HK\$36,900,000 and the net proceeds was approximately HK\$36,000,000. The Company has fully utilised the net proceeds as to approximately HK\$35,280,000 for the subscription of shares in the capital of Global Mastermind Capital Limited and as to approximately HK\$720,000 for the working capital of the Group. The net proceeds raised per Share was approximately HK\$0.120 per Share. The closing price of the Shares as quoted on the Stock Exchange was HK\$0.126 per Share on 7 October 2015. Details of the above are set out in the announcements of the Company dated 7 October 2015, 15 October 2015, 20 October 2015, 4 November 2015 and 11 November 2015 and the circular to shareholders issued by the Company on 15 October 2015.

## CONNECTED TRANSACTIONS

The Group has conducted the following connected transactions during the Year:

On 1 September 2015, China Gold Silver Group Company Limited ("CGS") entered into a license agreement ("License Agreement") with GS Tech Company Limited ("GS Tech") for acquiring the license to use the computer programs ("Computer Programs") in respect of certain computerized systems to be installed at the CGS Group's retail outlets and/or head offices. Pursuant to the License Agreement, CGS shall pay to GS Tech a lump sum license fee covering the use of computer programs by the CGS Group's existing retail outlets and head offices at the time of execution of the License Agreement, and an additional license fee for each and every new retail outlet and head office opened after the date of execution of the License Agreement. During the year ended 30 June 2016, the license fee charged by GS Tech to CGS pursuant to the License Agreement was approximately HK\$7,560,000. CGS is a subsidiary of the Company and is owned as to 50% by the Company. As Mr. Wong Ho Lung Danny is an executive director of CGS and one of the discretionary beneficiaries of the Wong's family trust which indirectly owns 92% of GS Tech, GS Tech is a connected person of the Company at the subsidiary level and the License Agreement constitutes a connected transaction for the Company under Chapter 14A of the Listing Rules. Details of the above are set out in the announcement of the Company dated 1 September 2015.

On 11 November 2015, the Company entered into a subscription agreement ("Subscription Agreement") with Luk Fook 3D Management Company Limited ("Luk Fook"), pursuant to which Luk Fook has conditionally agreed to subscribe for, and the Company has conditionally agreed to allot and issue 31,899,993 Shares at a subscription price of HK\$0.123 per Share ("Subscription"). Since Luk Fook owns 50% interest in the capital of CGS, a subsidiary of the Company, Luk Fook is a connected person of the Company at the subsidiary level and the Subscription Agreement constitutes a connected transaction for the Company under Chapter 14A of the Listing Rules. The Subscription was completed on 30 December 2015 and 31,899,993 Shares were issued to Luk Fook under a specific mandate granted to the Directors at the special general meeting of the Company held on 17 December 2015. The gross proceeds from the Subscription was approximately HK\$3,900,000 and the net proceeds was approximately HK\$3,600,000. The Company has fully utilised the net proceeds of approximately HK\$3,600,000 for general working capital of the Group. The net proceeds raised per Share was approximately HK\$0.113 per Share. The closing price of the Shares as quoted on the Stock Exchange was HK\$0.144 per Share on 11 November 2015. Details of the above are set out in the announcements of the Company dated 11 November 2015, 27 November 2015, 17 December 2015 and 30 December 2015 and the circular to shareholders issued by the Company on 27 November 2015.

## CONTINUING CONNECTED TRANSACTIONS

On 5 July 2013, the Company entered into a legal services agreement with Philip K.H. Wong, Kennedy Y.H. Wong & Co. ("PWKW"), whereby PWKW shall provide secretariat and legal services to the Group for a term of three years from 1 April 2013 to 31 March 2016 for a fee of not more than HK\$5,000,000 for each year during the term. During the year ended 30 June 2016, the fee charged by PWKW to the Company pursuant to the legal services agreement was approximately HK\$39,000. PWKW is a law firm of which Dr. Wong Kennedy Ying Ho, a former director of the Company and the spouse of Mrs. Wong Chew Li Chin, the chairman and executive director of the Company, is one of the founders and the managing partner. The above transaction is regarded as a continuing connected transaction pursuant to Chapter 14A of the Listing Rules. Details of the above are set out in the announcement of the Company dated 5 July 2013.

# Directors' Report

On 6 June 2014, China Gold Silver Group Company Limited ("CGS") and Maxigood Enterprises Limited ("Maxigood") entered into a framework agreement for supply of goods ("Supply Agreement"), pursuant to which Maxigood shall sell to CGS, and CGS shall purchase from Maxigood, raw materials and/or finished goods in respect of platinum and gold jewellerys and gold ornaments, gem-set jewellerys, jadeites, gemstones and other accessory items for a term of the period from 6 June 2014 to 30 June 2016. The maximum annual amount of consideration payable by CGS to Maxigood under the Supply Agreement shall be no more than HK\$260,000,000, HK\$520,000,000 and HK\$780,000,000 for each of the three years ending 30 June 2014, 2015, and 2016, respectively. During the year ended 30 June 2016, the purchases of CGS and its subsidiaries from Maxigood and its fellow subsidiaries pursuant to the Supply Agreement amounted to approximately HK\$183,429,000. CGS is owned as to 50% by each of the Company and Luk Fook 3D Management Company Limited ("Luk Fook"), and is accounted for as a subsidiary of the Company. Luk Fook and Maxigood are wholly-owned subsidiaries of Luk Fook Holdings (International) Limited ("Luk Fook Holdings"). As such, Luk Fook, Luk Fook Holdings and Maxigood are connected persons of the Company at the subsidiary level and the Supply Agreement constitutes a continuing connected transaction for the Company under Chapter 14A of the Listing Rules. CGS and Maxigood renewed the supply agreement on 29 June 2016 for a further term of three years from 1 July 2016 to 30 June 2019 with the maximum annual amount of consideration payable by CGS to Maxigood thereunder to be no more than HK\$300,000,000, HK\$385,000,000 and HK\$480,000,000 for each of the three years ending 30 June 2017, 2018, and 2019, respectively. Details of the above are set out in the announcements of the Company dated 28 January 2014, 6 June 2014 and 29 June 2016.

On 6 June 2014, 3D-GOLD Management Services Limited ("3DM"), a wholly owned subsidiary of CGS, and Luk Fook entered into a competitiveness enhancement agreement ("Competitiveness Enhancement Agreement"), pursuant to which Luk Fook shall provide to CGS and its subsidiaries ("CGS Group") such services and assistance that enhance and improve operation efficiency and competitiveness, and improve product quality and standards of the businesses of the CGS Group, being the trading and sale of gold, platinum and jewellery products in Hong Kong, Macau and Mainland China through retailing, franchising and e-commerce under the brand names of "3D-GOLD", 「金至尊」, "La Milky Way" and 「銀河明星」 and other brand(s) currently owned or licensed to the CGS Group, and such other business or activities, brand(s) and territories as the shareholders of CGS may agree from time to time for a term of the period from 6 June 2014 to 30 June 2016. The maximum annual service fee payable by 3DM to Luk Fook pursuant to the Competitiveness Enhancement Agreement shall be no more than HK\$2,500,000, HK\$10,000,000 and HK\$10,000,000 for each of the three years ending 30 June 2014, 2015, and 2016, respectively. During the year ended 30 June 2016, no fee was charged by Luk Fook to 3DM pursuant to the Competitiveness Enhancement Agreement. The Competitiveness Enhancement Agreement constitutes a continuing connected transaction for the Company under Chapter 14A of the Listing Rules. 3DM and Luk Fook renewed the competitiveness enhancement agreement on 29 June 2016 for a further term of three years from 1 July 2016 to 30 June 2019 with the maximum annual service fee payable by 3DM to Luk Fook thereunder to be no more than the lower of (i) 6% of the audited consolidated profit of the CGS Group before taxation and deduction of the service fee payable under the Competitiveness Enhancement Agreement for the financial year or (ii) HK\$10,000,000 for each of the three years ending 30 June 2017, 2018, and 2019, respectively. Details of the above are set out in the announcements of the Company dated 28 January 2014, 6 June 2014 and 29 June 2016.

On 1 September 2015, CGS entered into a service agreement ("Service Agreement") with GS Tech Company Limited ("GS Tech"), a company incorporated in Hong Kong and 92% indirectly owned by the Wong's family trust, of which Mr. Wong Ho Lung Danny, an executive director of CGS and one of the discretionary beneficiaries, pursuant to which CGS shall pay to GS Tech a monthly maintenance fee covering the maintenance services provided by GS Tech for the Computer Programs used by the CGS Group's retail outlets and head offices for a term of the period from 1 September 2015 to 30 June 2018. The maximum annual maintenance fee payable by CGS to GS Tech pursuant to the Service Agreement shall be no more than HK\$4,600,000, HK\$5,800,000 and HK\$6,700,000 for each of the three years ending 30 June 2016, 2017 and 2018, respectively. During the year ended 30 June 2016, the service fee charged by GS Tech to CGS pursuant to the Service Agreement was approximately HK\$3,380,000. The Service Agreement constitutes a continuing connected transaction as GS Tech is a connected person of the Company at the subsidiary level under Chapter 14A of the Listing Rules. Details of the above are set out in the announcement of the Company dated 1 September 2015.

# Directors' Report

On 14 December 2015, 至尊金業(深圳)有限公司 (“CGS Shenzhen”), a wholly owned subsidiary of CGS, entered into a framework agreement (“Framework Agreement”) with 重慶福華珠寶首飾有限公司 (“Chongqing Fook-Wah”) for a term of the period from 14 December 2015 to 30 June 2018. The Framework Agreement governs the terms in respect of the opening of franchised retail outlets by Chongqing Fook-Wah in the PRC, which include, for each franchised retail outlet to be opened, the entering into of (i) a franchise agreement between CGS Shenzhen and Chongqing Fook-Wah; (ii) a service agreement between 重慶金至尊營銷策劃有限公司 (“CGS Marketing”) and Chongqing Fook-Wah; and (iii) a purchase agreement between 重慶金至尊飾品設計有限公司 (“CGS Design”) and Chongqing Fook-Wah. Pursuant to the franchise agreement and service agreement, Chongqing Fook-Wah shall be granted the license from CGS Shenzhen to use the “3D-GOLD” brand and CGS Marketing shall provide support services in relation to the use of the brand by Chongqing Fook-Wah, respectively. Pursuant to the purchase agreement, CGS Design shall supply, and Chongqing Fook-Wah shall purchase from CGS Design, finished goods in respect of platinum and gold jewellerys and gold ornaments, gem-set jewellerys, gemstones and other accessory items. The maximum annual service fee payable by Chongqing Fook-Wah to CGS Shenzhen and CGS Marketing for the support services in relation to the use of the brand pursuant to the framework agreement and service agreement shall be no more than RMB13,600,000, RMB18,800,000 and RMB25,200,000 (equivalent to approximately HK\$16,592,000, HK\$22,936,000 and HK\$30,744,000) for each of the three years ending 30 June 2016, 2017 and 2018, respectively. The maximum amount payable by Chongqing Fook-Wah to CGS Design for the purchase of finished goods pursuant to the purchase agreement shall be no more than RMB4,000,000, RMB6,900,000 and RMB10,400,000 (equivalent to approximately HK\$4,880,000, HK\$8,418,000 and HK\$12,688,000) for each of the three years ending 30 June 2016, 2017 and 2018, respectively. During the year ended 30 June 2016, the service fee charged by CGS Shenzhen and CGS Marketing to Chongqing Fook-Wah pursuant to the framework agreement and service agreement was approximately RMB3,975,000 (equivalent to approximately HK\$4,419,000), and the purchases of Chongqing Fook-Wah from CGS Design pursuant to the purchase agreement amounted to approximately RMB1,076,000 (equivalent to approximately HK\$1,268,000). As Chongqing Fook-Wah is indirectly owned as to 51% by Luk Fook Holdings, Chongqing Fook-Wah is a connected person of the Company at the subsidiary level and the transactions contemplated under the Framework Agreement, franchise agreement, service agreement and purchase agreement constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules. Details of the above are set out in the announcement of the Company dated 14 December 2015.

On 29 June 2016, each of 金至尊實業發展(深圳)有限公司 (“3D Shenzhen”) and 重慶金至尊珠寶有限公司 (“3D Chongqing”), both are wholly owned subsidiaries of CGS, entered into a renovation agreement with 瀋陽市福寶裝飾有限公司 (“Luk Fook (Shenyang)”), pursuant to which 3D Shenzhen and 3D Chongqing shall pay to Luk Fook (Shenyang) renovation fees for renovation services provided by Luk Fook (Shenyang) to 3D Shenzhen and 3D Chongqing for their respective self-operated retail outlets for a term of three years from 1 July 2016 to 30 June 2019. The maximum annual renovation fee payable by 3D Shenzhen and 3D Chongqing to Luk Fook (Shenyang) under the renovation agreements shall be no more than RMB12,000,000, RMB12,760,000 and RMB14,520,000 (equivalent to approximately HK\$14,160,000, HK\$15,056,800 and HK\$17,133,600) for each of the three years ending 30 June 2017, 2018 and 2019, respectively. As Luk Fook (Shenyang) is a joint venture company indirectly owned as to 51% by Luk Fook Holdings, Luk Fook (Shenyang) is a connected person of the Company at the subsidiary level and the renovation agreements constitute continuing connected transactions of the Company under Chapter 14A of the Listing Rules. Details of the above are set out in the announcement of the Company dated 29 June 2016.

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) “Assurance Engagements Other Than Audits or Reviews of Historical Financial Information” and with reference to Practice Note 740 “Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules” issued by the Hong Kong Institute of Certified Public Accountants. The auditor has issued his unqualified letter containing his findings and conclusions in respect of the continuing connected transactions disclosed by the Group as above in accordance with Main Board Listing Rule 14A.56. A copy of the auditor's letter has been provided by the Company to the Stock Exchange.

The independent non-executive directors have reviewed the continuing connected transactions and the report of the auditor and have confirmed that the transactions have been entered into by the Group in the ordinary course of its business, on normal commercial terms and in accordance with the terms of agreement governing such transactions that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

# Independent Auditor's Report

TO THE SHAREHOLDERS OF  
HONG KONG RESOURCES HOLDINGS COMPANY LIMITED  
香港資源控股有限公司  
(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Hong Kong Resources Holdings Company Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 41 to 127, which comprise the consolidated statement of financial position as at 30 June 2016, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## DIRECTORS’ RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 30 June 2016, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### HKFRS 9 *Financial Instruments*

HKFRS 9 issued in 2009 introduced new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for general hedge accounting. Another revised version of HKFRS 9 was issued in 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a “fair value through other comprehensive income” (“FVTOCI”) measurement category for certain simple debt instruments.

Key requirements of HKFRS 9 are described below:

- All recognised financial assets that are within the scope of HKAS 39 “Financial Instruments: Recognition and Measurement” are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

## 2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (Continued)

### New and revised HKFRSs in issue but not yet effective (Continued)

#### HKFRS 9 *Financial Instruments* (Continued)

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities' credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.
- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The directors are in the process of assessing the financial impact of the application of HKFRS 9 on the consolidated financial statements.

#### HKFRS 16 *Leases*

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. It distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Subject to limited exceptions for short-term leases and low value assets, distinctions of operating and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees. However, the standard does not significantly change the accounting of lessors.

Application of HKFRS 16 will result in the Group's recognition of right-of-use assets and corresponding liabilities in respect of many of the Group's lease arrangements. These assets and liabilities are currently not required to be recognised but certain relevant information is disclosed as commitments in note 32 to the consolidated financial statements. The directors of the Company anticipate that the application of HKFRS 16 in the future will have an impact on the Group's consolidated financial statements; however, it is not practicable to provide a reasonable estimate of the effect until the Group performs a detailed review.

Other than disclosed above, the directors anticipate that the application of the other new and revised HKFRSs will have no material impact on the consolidated financial statements.

## 3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are within the scope of HKAS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The significant accounting policies are set out below.

### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Basis of consolidation (Continued)

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

- the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Group, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

### Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Revenue recognition (Continued)

Sales of goods that result in award credits for customers are accounted for as multiple element revenue transactions and the fair value of the consideration received or receivable is allocated between the goods sold and the award credits granted. The consideration allocated to the award credits is measured by reference to the fair value of the awards for which they could be redeemed. Such consideration is not recognised as revenue at the time of the initial sale transaction – but is deferred and recognised as revenue when the award credits are redeemed and the Group's obligations have been fulfilled.

Franchise income and licence income in respect of the use of the trademark “3D-GOLD” are recognised on an accrual basis in accordance with the relevant agreements.

Consultancy fee income is recognised on an accrual basis in accordance with the terms of the contract.

Television programmes and content production income is recognised by reference to the stage of completion in accordance with the terms of the contracts.

Net return from performance events organised by co-investors is recognised when the events are completed and the revenue is agreed with co-investors.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

### Property, plant and equipment

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Intangible assets

#### *Intangible assets acquired separately*

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

#### *Internally-generated intangible assets – research and development expenditure*

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Intangible assets** (Continued)

#### ***Intangible assets acquired in a business combination***

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at costs less accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets that are acquired separately. Alternatively, intangible assets acquired in a business combination with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains and losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### **Investments in a film and entertainment events**

Investments in a film and entertainment events are stated at cost less accumulated amortisation and impairment losses. Investments in a film and entertainment events are amortised on the proportion of actual income earned during the year to the total estimated income over their economic beneficial period. Additional amortisation/impairment loss is made if future estimated projected revenues are adversely different from the previous estimation. Estimated projected revenues are reviewed at regular intervals.

#### **Impairment on tangible and intangible assets**

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

Recoverable amount is the higher of fair value less costs of disposal to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

# Notes to the Consolidated Financial Statements

## 3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **Impairment on tangible and intangible assets** *(Continued)*

If the recoverable amount of an asset (or a cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

### **Investments in an associate and joint ventures**

An associate is an entity over the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of an associate and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of an associate and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture equals or exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

### **Investments in an associate and joint ventures** *(Continued)*

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of Assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate or a joint venture of the Group (such as a sale or contribution of assets), profits and losses resulting from the transactions with the an associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the an associate or joint venture that are not related to the Group.

### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined using the first-in, first-out method or specific identification basis depending on the nature of the inventories. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

### **Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on monetary items are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### *The Group as lessee*

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's policy on borrowing costs (see the accounting policy below). Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### Equity-settled share-based payment transactions

#### *Share options granted to employees*

The fair value of services received is determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over vesting period or recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share option reserve).

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Equity-settled share-based payment transactions (Continued)

#### Share options granted to employees (Continued)

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share option reserve.

When share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will be transferred to accumulated losses.

#### Share options granted to consultants

Share options issued in exchange for services are measured at the fair values of the services received, unless that fair value cannot be reliably measured, in which case the services received are measured by reference to the fair value of the share options granted. The fair values of the services received are recognised as expenses, with a corresponding increase in equity (share option reserve), when the counterparties render services, unless the services qualify for recognition as assets.

### Retirement benefit costs

Payments to defined contribution retirement benefit plan, state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

### Taxation

Taxation represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “loss before taxation” as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### **Taxation** (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and an associate, and interests in joint arrangements, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

### **Financial assets**

The Group's financial assets are classified as financial assets at fair value through profit or loss ("FVTPL"), available-for-sale ("AFS") financial assets, and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial instruments (Continued)

#### Financial assets (Continued)

##### Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

##### Financial assets at FVTPL

Financial assets at FVTPL are financial assets held for trading.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are measured at fair value, with any gains or losses arising from remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets. Fair value is determined in the manner described in note 38(c).

##### AFS financial assets

AFS financial assets are non-derivatives that are either designated as available-for-sale or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at FVTPL.

Equity and debt securities held by the Group that are classified as AFS financial assets and are traded in an active market are measured at fair value at the end of each reporting period. Changes in the carrying amount of AFS monetary financial assets relating to interest income calculated using the effective interest method and dividends on AFS equity investments are recognised in profit or loss. Other changes in the carrying amount of AFS financial assets are recognised in other comprehensive income and accumulated under the heading of investment revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss (see the accounting policy in respect of impairment of financial assets below).

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial instruments (Continued)

#### Financial assets (Continued)

##### AFS financial assets (Continued)

Dividends on AFS equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of each reporting period (see the accounting policy in respect of impairment of financial assets below).

##### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables, loan to a related party, amount due from an associate, pledged bank deposits, and bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

##### Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets, other than those of FVTPL, are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For AFS equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- disappearance of an active market for that financial asset because of financial difficulties.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial instruments (Continued)

#### Financial assets (Continued)

##### Impairment of financial assets (Continued)

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the credit period of 30 to 90 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods (see the accounting policy below).

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of AFS equity investments, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of investment revaluation reserve.

#### Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial instruments (Continued)

#### Financial liabilities and equity instruments (Continued)

##### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

##### Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liabilities are either held for trading or those designated as at FVTPL on initial recognition.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing in the near future; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Gold loans, which are designated at fair value through profit or loss, and other financial liabilities at FVTPL are measured at fair value with any gain or losses arising on remeasurement recognised directly in profit or loss in the period in which they arise. The net gain or loss recognised in profit or loss excludes any interest paid on the financial liabilities. Fair value is determined in the manner described in note 38(c).

##### Other financial liabilities

Other financial liabilities including trade and other payables, franchisee guarantee deposits, amounts due to joint ventures, bank and other borrowings, and loan from a non-controlling shareholder of a subsidiary are subsequently measured at amortised cost, using the effective interest method.

# Notes to the Consolidated Financial Statements

## 3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Financial instruments (Continued)

#### Financial liabilities and equity instruments (Continued)

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis other than those financial liabilities classified as at FVTPL, of which the interest expense is excluded from net gains or losses.

##### *Convertible bonds contain liability component and conversion option derivative*

Convertible bonds issued by the Group that contain both liability and conversion option derivative components are classified separately into respective items on initial recognition. Conversion option that will be settled other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is a conversion option derivative. At the date of issue, both the liability and conversion option derivative components are recognised at fair value.

In subsequent periods, the liability component of the convertible bonds is carried at amortised cost using the effective interest method. The conversion option derivative is measured at fair value with changes in fair value recognised in profit or loss.

Transaction costs that relate to the issue of the convertible bonds are allocated to the liability and conversion option derivative components in proportion to their relative fair values. Transaction costs relating to the conversion option derivative components are charged to profit or loss immediately. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the convertible bonds using the effective interest method.

##### *Embedded derivatives*

Derivatives embedded in non-derivative host contracts are treated as separate derivatives when they meet the definition of a derivative, their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

# Notes to the Consolidated Financial Statements

## 3. SIGNIFICANT ACCOUNTING POLICIES (*Continued*)

### **Financial instruments** (*Continued*)

#### ***Derecognition***

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### **Critical judgements in applying accounting policies**

The following are the critical judgements, apart from those involving estimations (see below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

#### ***Control over CGS***

On 6 June 2014, the Company disposed of its 50% equity interest in CGS to an independent third party (the "Purchaser"). Upon completion of the disposal, the Company holds a 50% equity interest in CGS, and CGS is continued to be accounted for as a subsidiary of the Company.

# Notes to the Consolidated Financial Statements

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

### **Critical judgements in applying accounting policies** *(Continued)*

#### ***Control over CGS*** *(Continued)*

In assessing whether the Group has control over CGS, the directors of the Company consider whether the Group has the practical ability to direct the relevant activities of CGS and its subsidiaries unilaterally. In making their judgment, the directors take into account the facts that (i) the power of the board of directors of CGS and its subsidiaries including but not limited to the approval of annual budget, business plan, capital expenditure and appointment of the chief financial officer and (ii) the Company has the right to nominate the chairman of the board of directors of CGS and its subsidiaries and the chairman is entitled to a second or casting vote in case of an equality of votes at board meetings. The directors concluded that casting vote of the chairman is substantive, which provides the Company the power over the relevant activities which are directed by voting rights of the board of directors of CGS and its subsidiaries. As such, the Company has sufficient dominant voting interest to direct the relevant activities of CGS and its subsidiaries and therefore directors of the Company are of the view that the Group has control over CGS and its subsidiaries.

### **Key sources of estimation uncertainty**

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### ***Estimated impairment of intangible assets***

Determining whether intangible assets are impaired requires an estimation of the recoverable amount of these intangible assets. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the intangible assets and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 30 June 2016, the carrying amount of the Group's intangible assets is HK\$168,066,000 (2015: HK\$169,433,000).

#### ***Estimated impairment of inventories***

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of changes in customer taste and competitor actions in response to changes to adverse economic conditions. As at 30 June 2016, the carrying amount of the Group's inventories is HK\$790,579,000 (2015: HK\$843,720,000).

# Notes to the Consolidated Financial Statements

For the year ended 30 June 2016

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY *(Continued)*

### **Key sources of estimation uncertainty** *(Continued)*

#### ***Estimated impairment of trade receivables***

When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 30 June 2016, the carrying amount of the Group's trade receivables is HK\$78,990,000 (2015: HK\$97,802,000).

#### ***Fair value measurements and valuation processes***

Certain assets and liabilities of the Group are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation. At the end of each reporting period, the Group works closely with the qualified external valuers to establish and determine the appropriate valuation techniques and inputs for Level 2 and Level 3 fair value measurements. The Group will first consider and adopt Level 2 inputs where inputs can be derived from observable quoted prices in the active market. When Level 2 inputs are not available, the Group will adopt valuation techniques that include Level 3 inputs. Where there is a material change in the fair value of the assets, the causes of the fluctuations will be reported to the directors of the Company.

Information about the valuation techniques and inputs used in the determination of the fair value of various assets and liabilities are disclosed in note 38(c).

## 5. TURNOVER AND SEGMENT INFORMATION

### (a) Turnover

An analysis of the Group's turnover for the year is as follows:

	2016 HK\$'000	2015 HK\$'000
Sales of goods	1,082,800	1,256,725
Franchise income	4,309	9,008
Licence income	67,888	90,597

### (b) Segment information

Information reported to the executive directors of the Company, being the chief operating decision makers, for the purposes of resource allocation and assessment of segment performance focuses on types of goods and geographical location. This is the basis upon which the Group is organised.

Specifically, the Group's operating and reportable segments under HKFRS 8 "Operating Segments" are as follows:

- Retail and franchising operations for selling gold and jewellery products in Mainland China; and
- Retail operations for selling gold and jewellery products in Hong Kong and Macau.

Major products of the Group include gold products and jewellery products.

Information regarding the above segments is reported below.

## 10. TAXATION

	2016 HK\$'000	2015 HK\$'000
Current tax:		
PRC Enterprise Income Tax	2,504	5,878
Under (over) provision in prior years:		
Hong Kong Profits Tax	9,457	2
PRC Enterprise Income Tax	(1,677)	–
	7,780	2
Deferred taxation (note 19)	10,284 (1,520)	5,880 14,841
	8,764	20,721

Hong Kong Profits Tax is calculated at 16.5% on the estimated assessable profits for both years. No provision for taxation in Hong Kong has been made in the both years as the Group incurred tax losses in Hong Kong.

Pursuant to the Enterprise Income Tax Law and Implementation Rules of the PRC, subsidiaries of the Company established in the PRC are subject to an income tax rate of 25% for both years. Certain subsidiaries established in Chongqing, a municipality in Western China, were engaged in a specific state-encouraged industry as defined under the new “Catalogue of Encouraged Industries in the Western Region” (effective from 1 October 2014) pursuant to《財政部、海關總署、國家稅務總局關於深入實施西部大開發戰略有關稅收政策問題的通知》(Caishui [2011] No. 58) issued in 2011 and were subject to a preferential tax rate of 15% when the annual revenue from the encouraged business exceeded 70% of the total revenue in a fiscal year for these relevant subsidiaries.

No provision for the Macau Complementary Tax has been made as the Group has no assessable profits in Macau for both years.

During the financial years ended 30 June 2012 to 2015, the Hong Kong Inland Revenue Department (the “IRD”) had issued tax enquiries to a non-wholly owned subsidiary of the Company (the “Subsidiary”) on the offshore claim of its royalty income received/receivable from certain non-Hong Kong fellow subsidiaries. The years of assessment affected are from 2010/11 to 2014/15.

Subsequent to end of the reporting period, against the background and following subsequent negotiations with the IRD, the Subsidiary has reached a compromise settlement with the IRD for the tax dispute for the years of assessment from 2010/2011 to 2014/2015 and the additional tax provision of HK\$9.5 million has been recognised in the consolidated financial statements.

For the year ended 30 June 2016

## 10. TAXATION (Continued)

The taxation for the year can be reconciled from the loss before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2016 HK\$'000	2015 HK\$'000
Loss before taxation	(112,094)	(139,248)
Tax at domestic rates applicable to profits of taxable entities in the respective jurisdictions (Note)	(18,371)	(27,407)
Tax effect of income not taxable for tax purpose	(6,423)	(4,777)
Tax effect of expenses not deductible for tax purpose	10,418	20,502
Tax effect of tax losses not recognised	19,888	15,441
Utilisation of tax losses previously not recognised	(2,147)	–
Reversal of deferred tax assets on tax losses previously recognised	–	15,054
Tax effect of share of results of joint ventures	–	4
Underprovision in respect of prior years	7,780	2
Others	(2,381)	1,902
Taxation for the year	8,764	20,721

Note: As the Group operates in several different tax jurisdictions, the tax rate applied in the tax reconciliation represents the weighted average domestic tax rates of the individual tax jurisdiction.

## 11. DIVIDENDS

The Board has resolved not to recommend a final dividend in respect of the years ended 30 June 2016 and 30 June 2015 to the holders of ordinary shares of the Company.

# Notes to the Consolidated Financial Statements

## 12. LOSS PER ORDINARY SHARE

	2016 HK\$'000	2015 HK\$'000
Loss:		
Loss for the year attributable to owners of the Company for the purposes of basic loss per ordinary share	(62,650)	(93,862)
Effect of dilutive potential ordinary share		
– Interest on CB 2019 (as defined in note 22(a))	6,381	5,568
– Change in fair value in derivatives embedded in CB 2019	(32,245)	(17,866)
Loss for the year attributable to owners of the Company for the purposes of diluted loss per ordinary share	(88,514)	(106,160)
	2016 '000	2015 '000
Number of shares:		
Weighted average number of ordinary shares for the purposes of basic loss per ordinary share (Note)	3,397,516	3,188,782
Effect of dilutive potential ordinary shares:		
CB 2019	317,111	317,111
Weighted average number of ordinary shares for the purposes of diluted loss per ordinary share	3,714,627	3,505,893

Note:

The computation of diluted loss per ordinary share did not assume the exercise of share options and bonus warrants because their exercise price is higher than the average share price, and the conversion of CGS CB 2018 (as defined in note 22(a)) since their conversion would result in a decrease in loss per ordinary share.

## 14. TRADE AND OTHER RECEIVABLES AND DEPOSITS PAID

	2016 HK\$'000	2015 HK\$'000
Deposits paid under non-current assets represent:		
Rental and utility deposits	8,225	17,010
Trade and other receivables and deposits paid under current assets comprise:		
Trade receivables	93,867	114,171
Less: allowance for doubtful debts	(14,877)	(16,369)
	78,990	97,802
Other receivables and deposits paid (Note)	75,345	91,969
	154,335	189,771

Note: Included in other receivables is a loan receivable of HK\$7,780,000 (2015: HK\$7,754,000) from an independent third party which is unsecured, interest-free and repayable within one year from the end of the reporting period.

Retail sales are usually made in cash, through credit cards or through reputable and dispersed department stores. The Group generally allows a credit period of 30 to 90 days to its debtors.

Included in trade receivables as at 30 June 2016 is trade receivable from a fellow subsidiary of a non-controlling shareholder of a subsidiary of HK\$404,000 (2015: HK\$939,000).

Included in other receivables and deposits paid as at 30 June 2016 is consultancy fee receivable from an associate of HK\$1,350,000 (2015: an available-for-sale investment with a common director of the Company of HK\$1,424,000).

The following is an aged analysis of trade receivables presented based on the invoice date, net of allowance, at the end of the reporting period.

	2016 HK\$'000	2015 HK\$'000
0-30 days	62,095	77,593
31-60 days	4,925	8,405
61-90 days	3,118	4,565
Over 90 days	8,852	7,239
	78,990	97,802

Included in the Group's trade receivables balance are debtors with aggregate amount of HK\$17,833,000 (2015: HK\$30,967,000) which are past due as at the end of the reporting period for which the Group has not provided for impairment loss.

## 14. TRADE AND OTHER RECEIVABLES AND DEPOSITS PAID (Continued)

Aging of trade receivables which are past due but not impaired is as follows:

	2016 HK\$'000	2015 HK\$'000
1-30 days	5,862	14,861
31-60 days	3,123	5,951
61-90 days	2,529	3,178
Over 90 days	6,319	6,977
Total	17,833	30,967

Movement in the allowance for doubtful debts on trade receivables is as follows:

	2016 HK\$'000	2015 HK\$'000
At beginning of the year	16,369	39,243
Impairment loss (reversed) recognised	(1,121)	4,836
Written off as uncollectible	–	(27,710)
Exchange realignment	(371)	–
At end of the year	14,877	16,369

The allowance of doubtful debts of HK\$14,877,000 (2015: HK\$16,369,000) mainly relate to customers which are under liquidation or in severe financial difficulties. It was assessed that the amounts are unlikely to be recovered. The Group does not hold any collateral over these balances.

In determining the recoverability of trade and other receivables, the Group considers any change in the credit quality of the debtors from the date credit was initially granted up to the end of the reporting period. Based on past experiences, management of the Group is of the opinion that no further provision for impairment is necessary in respect of these balances as there is no significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

Notes:

- (a) The trademarks have contractual lives of 10 years commencing in December 2008 and April 2009 of “3D-Gold”, respectively, and are renewable at minimal cost. The directors of the Company are of the opinion that the Group has the intention and ability to renew trademarks continuously. As a result, trademarks are considered by the directors of the Company as having an indefinite useful life because it is expected to contribute to net cash inflows indefinitely. The trademarks will not be amortised until its useful life is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired.

On 30 June 2016, management of the Group conducted impairment review on the trademarks. The recoverable amounts of the trademarks have been determined based on a value in use calculation, which is based on the financial budgets approved by management covering a five-year period and a discount rate of 17% (2015: 17%). The cash flows beyond the five-year period are extrapolated using a 1% (2015: 3%) growth rate. The key assumptions for the value in use calculations are discount rate and growth rate. The growth rate does not exceed the long-term average growth rate for the relevant industry. Based on the assessments, management expects the carrying amount of the trademarks to be recoverable and there is no impairment of the trademarks. Management considers that any reasonable possible change in these key assumptions would not cause the carrying amount of the trademarks to exceed the recoverable amount.

## 15. INTANGIBLE ASSETS (Continued)

Notes: (Continued)

- (b) The amount represents trademarks on certain watches which have contractual lives of 10 years commencing in February 2012 and are renewable at minimal cost. The trademarks will not be amortised until its useful life is determined to be finite, but subject to impairment test annually. Management expected that the carrying amount of the trademarks cannot be recoverable and, therefore, full impairment was recognised in profit or loss in prior years.
- (c) License represents 10 year's non-exclusive rights to use a cartoon image on all web applications on internet and mobile devices, including but not limited to apps on iphones and ipads. The cost is amortised on a straight-line method to profit or loss over 10 years. During the year, management expected that the carrying amount of the license cannot be recoverable and, therefore, full impairment was recognised in profit or loss.
- (d) Core technology includes packaged contents and application templates for production of software, Apps for sales and Apps under development and completed Apps for the application for mobile devices. The costs include expenditure (including but not limited to staff costs, depreciation charges of certain computer equipment, production office rent and rates, outsourced freelance costs and IT development fees) that are directly attributable to the development of the application for mobile devices. The costs are amortised on a straight-line method to profit or loss over the estimated useful life of 5 years. Apps under development are not amortised.

During the year, management conducted a review of these core technology and Apps and determined a number of those assets were impaired with reference to the estimated future profitability of these assets. Accordingly, impairment losses of approximately HK\$477,000 (2015: HK\$4,539,000) on core technology and Apps have been recognised in profit or loss.

		60,528	33,704
Current:			
Investments in entertainment events		5,726	–
		66,254	33,704

Notes:

- (a) The amount as at 30 June 2015 represented equity investments in two private limited liability companies incorporated in Hong Kong and Australia respectively that are measured at cost less impairment at the end of the reporting period because the range of reasonable fair value estimates was so significant that the directors of the Company are of the opinion that their fair values could not be measured reliably. One of these investee companies is principally engaged in the research and development of a new liquid fuel while the other one has the license rights on the new liquid fuel for use in Hong Kong, Macau, Taiwan and other parts of China.
- During the year, the Group exercised an option to subscribe for additional 12 new shares of the private limited liability company incorporated in Hong Kong (the "Investee Company") (note 22(b)(i)). Upon the completion of the exercise of option, the Group's interest in the Investee Company increased from 15.9% to 24.0% and it has become an associate of the Group since then. Accordingly, total investment cost of the Investee Company amounting to HK\$27,903,000 is reclassified from available-for-sale investments to interest in an associate.
- (b) The listed investment is stated at its fair value, determined by reference to bid prices quoted in an active market. The management considered that the investment at the end of the reporting period is held for strategic purpose and is not to be disposed of in the foreseeable future.
- (c) Based on the agreement entered into between a wholly owned subsidiary of the Company and an independent third party, the Group invested in a film with total investment amounting to RMB15,500,000 (equivalent to HK\$19,340,000) and is entitled to a return of certain percentage of the profit to be derived from the release of the film worldwide in any media and in any format. The film is released in the PRC and Hong Kong in August 2016. As at 30 June 2016, the Group has paid RMB15,500,000 (equivalent to HK\$19,340,000) (30 June 2015: RMB13,950,000 (equivalent to HK\$15,474,000)).

Certain deferred tax assets and liabilities have been offset for the purpose of consolidated statement of financial position presentation.

Note: Such deferred tax liabilities are attributable to taxable temporary differences arising on initial recognition of assets at fair values which were acquired in business combination in prior years.

As at 30 June 2016, the Group has unused tax losses of HK\$561,404,000 (2015: HK\$449,686,000) available to offset against future profits. No deferred tax asset has been recognised in respect of unused tax losses due to the unpredictability of future profit streams.

## 19. DEFERRED TAXATION (Continued)

Unutilised tax losses for which no deferred tax assets is recognised will expire as follows:

	2016 HK\$'000	2015 HK\$'000
2016	–	374
2017	975	1,052
2018	1,248	6,041

2021	8,923	–
Carried forward indefinitely	532,578	421,613
	561,404	449,686

Under the Enterprise Income Tax Law of PRC, withholding tax is imposed on dividends declared in respect of profits earned by PRC subsidiaries from 1 January 2008 onwards. Deferred taxation has not been provided for in the consolidated financial statements in respect of temporary differences attributable to accumulated profits of the PRC subsidiaries amounting to HK\$275,098,000 (2015: HK\$259,362,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

## 22. CONVERTIBLE BONDS AND DERIVATIVE FINANCIAL INSTRUMENTS

### (a) Convertible bonds

#### *Convertible bonds due 2019 ("CB 2019")*

In connection with the disposal of 50% of the Group's interest in CGS on 6 June 2014, the Company entered into a subscription agreement with an independent third party (the "Purchaser") for the issue of CB 2019 with aggregate principal amount of HK\$57,080,000. CB 2019 bears interest at the rate of 3% per annum payable annually in arrears on 31 December and the convertible bonds mature on the date falling on the fifth anniversary from the date of issue of such convertible bond.

The conversion can be made at anytime commencing on the date falling the second anniversary of the issue date and expiring on the date which is 3 days preceding the maturity date, at a conversion price of HK\$0.18 per ordinary shares, subject to anti-dilutive adjustments.

Upon issue of CB 2019, an amount of HK\$28,666,000 and HK\$56,036,000 were recognised as liability and derivative embedded in CB 2019 at initial recognition, respectively.

As at 30 June 2016, CB 2019 with a carrying amount of HK\$37,465,000 (2015: HK\$32,784,000) (principal amount of HK\$57,080,000) remains outstanding.

#### *CGS Convertible bonds due 2018 ("CGS CB 2018")*

As announced by the Company on 26 August 2013, CGS and the Company entered into the subscription agreement ("Original Agreement") with an independent third party (the "Subscriber") in respect of the issue of CGS CB 2018 in the aggregate principal amount of US\$5,000,000, convertible into shares of CGS.

As announced by the Company on 13 January 2014, CGS, the Subscriber, an another independent third party (the "New Subscriber") and the Company entered into the Novation and Supplemental Agreement for the purpose of assigning and transferring the interests and rights in respect of the Subscriber under the Original Agreement to the New Subscriber and to amend, vary and modify the Original Agreement. The convertible bonds with aggregate principal amount of US\$5,000,000 will due four years from the issue date (or as extended once by one year by mutual agreement of the parties thereto). CGS CB 2018 bears interest at the rate of 5% per annum payable annually on the last business day of each calendar year. The conversion can be made on the maturity date, on the date of flotation of CGS, or at such earlier date as the bondholder and CGS shall agree, at a conversion price of US\$24,390.24 per ordinary share of CGS, subject to anti-dilutive adjustments.

Upon issue of CGS CB 2018, an amount of HK\$25,773,000 and HK\$12,986,000 were recognised as liability and derivative embedded in CGS CB 2018 at initial recognition, respectively.

At 30 June 2016, CGS CB 2018 with a carrying amount of HK\$36,894,000 (2015: HK\$31,790,000) (principal amount of US\$5,000,000) remains outstanding.

#### (iii) CGS Share Option

In connection with the disposal of 50% of the Group's interest in CGS on 6 June 2014, CGS issued its share option ("CGS Share Option") to the Purchaser at a cash consideration of US\$1. Upon full exercise of the CGS Share Option, the Purchaser shall be entitled to subscribe for such number of new shares of CGS, free from all encumbrances and ranking *pari passu* with other CGS shares then existing, that may result from dividing US\$5,000,000 by the CGS Share Option exercise price, i.e. US\$24,390.24 per share subject to anti-dilutive adjustments. The CGS Share Option shall remain valid and in force during the period between the date of issue of the CGS Share Option and 3 months (or such longer period as CGS and the Purchaser may agree) after (i) 15 January 2018, or (ii) the date as extended once by one year by mutual agreement of CGS and the Purchaser (both days inclusive). Such share option was vest immediately upon its issuance. The CGS Share Option shall be exercisable in full (and not in part) upon any of the following events occurring:

- (a) the earlier of the following date or period:
  - (i) during the 10 business day immediately before 15 January 2018, or the date as extended once by one year by mutual agreement of CGS and the Purchaser;
  - (ii) on the flotation date; or
  - (iii) such other date or period as may be mutually agreed by CGS and the Purchaser in writing;provided always that such exercise right of the Purchaser shall be subject to the conversion by the holder of the CGS CB 2018 in accordance with the terms and conditions thereof; or
- (b) automatically and immediately upon the bondholder of CGS CB 2018 exercising its right to convert any of the outstanding principal of CGS CB 2018 in accordance with the conditions of CGS CB 2018.

Assuming exercise of the CGS Share Option in full as at 30 June 2016, a total of 205 shares of CGS will be issued to Purchaser, representing approximately 6.15% (2015: 6.15%) of the existing issued share capital of CGS as at 30 June 2016, and approximately 5.48% of the issued share capital of CGS as enlarged by the issue of share capital upon the conversion of CGS CB 2018 and the CGS Share Option.

The fair value of the CGS Share Option at 30 June 2016 amounting to HK\$6,000 (2015: HK\$1,840,000) is based on valuation carried out on those dates by an independent valuer. The change in fair value of HK\$1,834,000 (2015: HK\$2,691,000) has been credited to profit or loss for the year ended 30 June 2016.

## 25. AMOUNTS DUE TO JOINT VENTURES AND LOAN FROM A NON-CONTROLLING SHAREHOLDER OF A SUBSIDIARY

The amounts due to joint ventures were unsecured, interest free and fully repaid during the year.

The loan from a non-controlling shareholder of a subsidiary is unsecured, interest-free and mutually agreed by the Group and the lender not to be repaid within one year after the end of the reporting period, except for an amount of HK\$20,000,000 (2015: HK\$20,000,000) which is unsecured, interest bearing at 2% per annum and repayable on 5 May 2017 (2015: 5 May 2016).

## 26. FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial liabilities at fair value through profit or loss comprise:

	2016 HK\$'000	2015 HK\$'000
Bullion forward contract (Note (a))	—	832
Gold bullion contracts through margin account (Note (b))	—	659
	—	1,491

Notes:

- (a) The Group used bullion forward contract to reduce its exposure to fluctuations in the gold prices. The Group does not currently designate any hedging relationship on the bullion forward contracts for the purpose of hedge accounting.

The bullion forward contract was measured at fair value at the end of the reporting period. The fair value was determined based on the quoted market prices at the end of the reporting period. The total notional value of the outstanding bullion forward contract as at 30 June 2015 amounted to RMB91,310,000 which had a maturity period of 12 months since date of inception. Such contract was matured during the year.

- (b) The amount as at 30 June 2015 represented the fair value of the open position of gold bullion contracts through margin account with an aggregated notional value of United States dollars ("US\$") US\$18,014,000. The contracts contained terms enabling the Group either to take delivery of the gold bullion or closing out the position and settling net in cash at the Group's discretion. The fair value was determined based on the quoted market price at the end of the reporting period. Such contract was matured during the year.

These new shares rank *pari passu* with the existing shares in all aspects.

## 31. SHARE-BASED PAYMENT TRANSACTIONS

The Company adopted a share option scheme at the special general meeting held on 23 January 2009 by way of an ordinary resolution (the “2009 Share Option Scheme”) for the purpose of providing incentives or rewards to eligible persons for their contribution or potential contribution to the Group. Eligible persons including but not limited to the Group’s shareholders, directors, employees, business partners, customers and suppliers.

Pursuant to the 2009 Share Option Scheme, the Board of Directors of the Company (the “Board”) may grant options to the eligible persons to subscribe for the Company’s shares for a consideration of HK\$1 for each lot of share options issued. The exercise price is to be determined by the Board and shall not less than the highest of (i) the closing price of the Company’s shares as stated in the daily quotations sheet issued by the Stock Exchange for the date of grant; (ii) the average closing price of the Company’s shares as stated in the daily quotations sheet issued by the Stock Exchange for the five business days immediately preceding the date of grant and (iii) the nominal value of a share of the Company.

Pursuant to the 2009 Share Option Scheme, the maximum number of shares in the Company in respect of which options may be granted when aggregated with any other share option schemes of the Company (the “Scheme Mandate Limit”) is not permitted to exceed 45,179,000 shares, representing 10% of the issued share capital of the Company as at the date of adoption of the 2009 Share Option Scheme or approximately 8.52% of the issued share capital of the Company as at 31 March 2009. During the year ended 30 June 2012, the Scheme Mandate Limit of 2009 Share Option Scheme was refreshed. Under the refreshed limit, the Board may grant options to eligible participants under the 2009 Share Option Scheme to subscribe a maximum of 194,608,603 shares, representing 10% of the issued share capital of the Company as at 31 August 2010, the date on which the Scheme Mandate Limited was approved by the Shareholders. The maximum number of share options were adjusted to 200,559,168 shares as a result of completion of the rights issue. As at 30 June 2016, the number of options which remain outstanding under the 2009 Share Option Scheme was 91,127,780 (2015: 91,127,780) which, if exercise in full, representing 0.25% (2015: 0.28%) of the enlarged capital of the Company. Subject to the issue of a circular and the approval of the shareholders of the Company in general meeting and/or such other requirements prescribed under the Rules Governing the Listing of Securities on The Stock Exchange from time to time, the Board may refresh the limit at any time to 10% of the total number of shares in issue as at the date of approval by the shareholders of the Company in general meeting. Notwithstanding the foregoing, the shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2009 Share Option Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the shares issue from time to time.

# Notes to the Consolidated Financial Statements

## 31. SHARE-BASED PAYMENT TRANSACTIONS (Continued)

No option may be granted to any person if the total number of shares of the Company already issued and issuable to him under all the options granted to him in any 12-month period up to and including the date of grant exceeding 1% of the total number of shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to the issue of a circular by the Company and the approval of the shareholders in general meeting. The participant and his associates (as defined in the Listing Rules) are abstained from voting and/or other requirements prescribed under the Listing Rules from time to time. Options granted to substantial shareholders or independent non-executive directors in excess of 0.1% of the Company's share capital or with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

The period during when an option may be exercised will be determined by the Board at its absolute discretion, save that no option may be exercised more than 10 years from the date of grant.

(a) The following table sets out the movements of the Company's share options during the current and prior years:

## 32. OPERATING LEASES

### The Group as lessee

The Group had made the following lease payments during the year as follows:

	2016 HK\$'000	2015 HK\$'000
Operating lease rentals in respect of retail shops, offices and warehouses		
Minimum lease payments	77,129	78,049
Contingent rental	71,861	93,930
	148,990	171,979

At the end of the reporting period, the Group had commitments for future minimum lease payments for retail shops, offices and warehouses under non-cancellable operating leases which fall due as follows:

	2016 HK\$'000	2015 HK\$'000
Within one year	57,144	74,526
In the second to five years inclusive	24,278	70,201
	81,422	144,727

Leases are negotiated for lease terms of one to five years (2015: one to five years).

The above lease commitments represent basic rents only and do not include contingent rents payable in respect of certain retail shops leased by the Group. In general, these contingent rents are calculated based on the relevant retail shops' turnover pursuant to the terms and conditions as set out in the respective rental agreements. It is not possible to estimate in advance the amount of such contingent rent payable.

The lease commitments as at 30 June 2015 included the non-cancellable operating leases with a fellow subsidiary of a non-controlling shareholder of a subsidiary amounted HK\$326,000 in the band of "within one year" and HK\$353,000 in the band of "in the second to five years inclusive". The lease was early terminated during the year ended 30 June 2016.

## 33. CAPITAL COMMITMENTS

## 34. RETIREMENT BENEFIT PLANS

The Group operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong. The assets of the schemes are held separately from those of the Group, in funds under the control of trustees. The retirement benefits scheme contributions charged to profit or loss represent contributions paid or payable by the Group to the scheme at 5% of each of the employees' monthly relevant income capped at HK\$30,000 per month.

The employees employed in the PRC are members of the state-managed retirement benefit schemes operated by the PRC government. The subsidiary established in the PRC is required to contribute a certain percentage of their basic payroll to the retirement benefit schemes to fund the benefits.

The employees employed in Macau are members of the defined contribution retirement benefit plan. The subsidiary established in Macau is required to contribute Macao patacas ("MOP") 30 per month for each employee to the retirement benefit plan to fund the benefits.

The only obligation of the Group with respect to the retirement benefit schemes is to make the required contributions under the schemes.

As at 30 June 2015 and 30 June 2016, the Group had no significant obligation apart from the contribution as stated above.

## 35. PLEDGE OF ASSETS

As at 30 June 2016, the Group's bank deposits with carrying amount of HK\$347,749,000 (2015: the Group's bank deposits and trade receivables with carrying amounts of HK\$418,412,000 and HK\$80,459,000 respectively) were pledged to banks as securities to obtain the banking facilities granted to subsidiaries of the Group.

## 36. RELATED PARTY DISCLOSURES *(Continued)*

### (b) Related party balances

Details of the Group's outstanding balances with related parties are set out on the consolidated statement of financial position and in notes 14, 21, 22, 24, 25 and 29.

### (c) Compensation of key management personnel

Directors are key management personnel of the Company whose remuneration is disclosed in note 9.

## 37. CAPITAL RISK MANAGEMENT

Management of Group manages capital to ensure that the entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The overall strategy remains unchanged from prior year.

The capital structure of entities in the Group consists of debts, which include convertible bonds disclosed in note 22, bank and other borrowings disclosed in note 28, gold loans disclosed in note 29, loan from a non-controlling shareholder of a subsidiary disclosed in note 25, and equity attributable to owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure on a regular basis. As part of this review, the directors consider the cost of capital and the risks associated with each class of capital. As at 30 June 2016, the net going ratio of the Group is 145% (2015: 81%). The directors balance its overall capital structure through the payment of dividends and new share issues as well as the issue of new debts or the redemption of existing debts.

## 38. FINANCIAL INSTRUMENTS (Continued)

### (b) Financial risk management objectives and policies

The Group's major financial instruments include available-for-sale investments, trade and other receivables, loan to a related party, amount due from an associate, derivative financial instruments, pledged bank deposits, bank balances and cash, trade and other payables, franchise guarantee deposits, financial liabilities at fair value through profit or loss, amounts due to joint ventures, bank and other borrowings, gold loans, loan from a non-controlling shareholder of a subsidiary and convertible bonds. Details of these financial instruments are disclosed in the respective notes. The risks associated with certain of these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### Market risk

During the current year, there has been no change to the exposure of entities in the Group to market risks or the manner in which it manages and measures the risk.

#### Interest rate risk

The Group is exposed to fair value interest rate risk in relation to loan to a related party (note 21), bank and other borrowings (note 28), gold loans (note 29) and fixed-rate convertible bonds (note 22(a)). The Group is also exposed to cash flow interest rate risk in relation to its floating-rate bank balances and bank borrowings. Management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of PBOC, HIBOR and LIBOR arising from the Group's RMB denominated borrowings, HK\$ denominated borrowings and US\$ denominated borrowings, respectively.

#### Interest rate risk sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates of floating-rate bank borrowings only as management consider reasonable possible change in interest rate on floating-rate bank balances would not have material financial impact to the Group. The analysis is prepared assuming the amounts of liabilities outstanding at the end of the reporting period were outstanding for the whole year. Other than that, a 50 basis points (2015: 50 basis points) increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points (2015: 50 basis points) higher and all other variables were held constant, the result of the Group would have been impacted as follows:

	2016 HK\$'000	2015 HK\$'000
Increase in loss for the year	3,135	2,685

If interest rates had been 50 basis points (2015: 50 basis points) lower and all other variables were held constant, the result of the Group would have been impacted as follows:

	2016 HK\$'000	2015 HK\$'000
Decrease in loss for the year	3,135	2,685

## 38. FINANCIAL INSTRUMENTS (Continued)

### (b) Financial risk management objectives and policies (Continued)

#### Market risk (Continued)

##### Currency risk

The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange fluctuations arise. Certain of the Group's financial assets and liabilities are denominated in HK\$, RMB, MOP, US\$ or AUD which are currencies other than the functional currencies of the respective group entities (see respective notes). The Group manages its foreign currency risk by constantly monitoring the movement of the foreign exchange rates.

The carrying amounts of the monetary assets and liabilities, which are loans to related parties, trade and other receivables, bank balances and cash, bank and other borrowings, loan from a non-controlling shareholder of a subsidiary and convertible bonds, that are denominated in currencies other than the functional currencies of the respective group entities of the Group at the end of the reporting period are as follows:

	Assets		Liabilities	
	2016	2015	2016	2015
	HK\$'000	HK\$'000	HK\$'000	HK\$'000
HK\$	29,516	84,380	185,141	174,914
RMB	308	629	999	–
MOP	1,494	4,378	–	–
US\$	8,426	9,384	40,255	31,791
AUD	42,588	19,654	–	–

The sensitivity analysis does not include MOP denominated assets held by entity with HK\$ as its functional currency as it is expected that there would be no material currency risk exposure.

##### Currency risk sensitivity analysis

The foreign currency risk of the Group is mainly concentrated on the fluctuations of RMB against HK\$, US\$ and AUD. The sensitivity analysis below includes currency risk related to HK\$, US\$ and AUD denominated monetary items of group entities whose functional currencies are RMB and also currency risk related to RMB denominated monetary items of group entities whose functional currencies are HK\$ and US\$.

The following table details the sensitivity of the Group to a 5% increase and decrease in RMB against HK\$, US\$ and AUD respectively. 5% is the sensitivity rate which represents management's assessment of the reasonably possible change in foreign exchange rates.

The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 5% change in foreign currency rates. The sensitivity analysis includes external receivables or payables as well as receivables from and payables to foreign operation within the Group where the denomination of the receivable or payable is in a currency other than the functional currency of the respective group entity. A positive number below indicates a decrease in loss where RMB strengthens against HK\$, US\$ and AUD. For a 5% weakening of RMB against HK\$, US\$ and AUD, there would be an equal and opposite impact and the balances below would be negative.

<b>Loss for the year</b>		
RMB against HK\$	7,781	4,558
RMB against US\$	1,591	1,120
RMB against AUD	2,129	983

##### Price risk

The Group is engaged in the sale of jewellery includes gold products. The gold market is influenced by global as well as regional supply and demand conditions. A significant decline in prices of gold could adversely affect the Group's financial performance. In order to reduce the commodity price risk, the Group uses gold loans as well as financial derivatives instruments, such as gold bullion contracts through margin account and bullion forward contracts to reduce its exposure to fluctuations in the gold price on gold inventory.

In addition, the Group is exposed to equity price risk through its investments in listed equity securities as disclosed in note 18. Management of the Group monitors the price risk and will consider hedging the risk exposure should the need arise.

##### Price risk sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to price risks at the end of the reporting period.

If the market price of gold had been higher or lower by 10%, the loss after taxation for the year would increase or decrease approximately by HK\$12,702,000 (2015: HK\$40,563,000), arising from the changes in fair value of gold loans and financial liabilities at fair value through profit or loss.

If the price of the equity investment had been 10% (2015: 10%) higher/lower, investment valuation reserve would increase/decrease by HK\$3,780,000 (2015: nil) for the Group as a result of the changes in fair value of available-for-sale investments.

##### Credit risk

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties and financial guarantees provided by the Group is arising from:

- the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position; and
- the amount of contingent liabilities in relation to financial guarantee issued by the Group as disclosed in note 36.

## 38. FINANCIAL INSTRUMENTS *(Continued)*

### (b) Financial risk management objectives and policies *(Continued)*

#### **Credit risk** *(Continued)*

In order to minimise the credit risk, management of the Group has monitoring procedures to ensure that appropriate actions are taken to recover overdue debts. In addition, management of the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the credit risk is significantly reduced.

Other than concentration of credit risk on liquid funds which are deposited with several banks with high credit ratings, the credit risk on liquid funds is limited because the counterparties are banks with good reputation.

The Group has no significant concentration of credit risk, with exposure spread over a large number of shopping malls and department stores.

#### **Liquidity risk**

Regarding the liquidity risk, management monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. As at 30 June 2016, the Group has available unutilised revolving banking facilities of HK\$138,131,000 (2015: HK\$493,952,000). Management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following tables detail the Group's contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on agreed repayment dates. The tables include both interest and principal cash flows.

In addition, the following tables detail the Group's liquidity analysis for its derivative financial instruments. The tables have been drawn up based on the undiscounted contractual net cash (inflows) and outflows on derivative instruments that settle on a net basis, and the undiscounted gross (inflows) and outflows on those derivatives that require gross settlement. When the amount payable is not fixed, the amount disclosed has been determined by reference to the market value existing at the end of the reporting period. The liquidity analysis for the Group's derivative financial instruments are prepared based on the contractual maturities as management consider that the contractual maturities are essential for an understanding of the timing of the cash flows of derivatives.

##### Liquidity table (Continued)

Bank loans with a repayment on demand clause are included in the «on demand or in 30 days» time band in the above maturity analysis. As at 30 June 2016, the aggregate amounts of these bank loans amounted to HK\$150,000,000 (2015: HK\$63,678,000). Taking into account the Group's financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment.

For the purpose of managing liquidity risk, management reviews the expected cash flow information of the Group's bank loans with a repayment on demand clause based on the scheduled repayment dates set out in the agreement as set out in the table below:

	On demand or in 30 days HK\$'000	31 to 90 days HK\$'000	91 to 365 days HK\$'000	Total undiscounted cash flows HK\$'000	Carrying amounts HK\$'000

The amounts included above for variable interest rate instruments for non-derivative financial liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

### (c) Fair value measurements of financial instruments

This note provides information about how the Group determines fair values of various financial assets and financial liabilities.

#### Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

## 38. FINANCIAL INSTRUMENTS (Continued)

### (c) Fair value measurements of financial instruments (Continued)

#### Fair value of the Group's financial assets and financial liabilities that are measured at fair value on a recurring basis (Continued)

There is no transfer between different levels of the fair value hierarchy for the years ended 30 June 2015 and 30 June 2016.

#### Reconciliation of Level 3 fair value measurements

	CGS Share Option HK\$'000	Conversion option derivatives HK\$'000
At 1 July 2014	4,531	61,878
Fair value gain recognised in profit or loss	(2,691)	(21,058)
At 30 June 2015	1,840	40,820
Fair value gain recognised in profit or loss	(1,834)	(34,890)
At 30 June 2016	6	5,930

#### Fair value of financial assets and financial liabilities that are not measured at fair value on a recurring basis (but fair value disclosures are required)

The directors of the Company consider that the carrying amounts of financial assets and liabilities recorded as amortised cost in the consolidated financial statements approximate to their fair values.

The fair value of such financial assets and financial liabilities (categories within Level 3 hierarchy) are determined in accordance with general accepted pricing models based on discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.
