#### **Income Statement**

Profit after tax for the quarter ended 30 September 2016 was US\$11.0 million, a decrease of 65% compared to US\$31.4 million in the previous corresponding quarter. The following review sets out the factors that affected profit after tax for the quarter:

#### Revenue

Revenue decreased by 15% to US\$97.8 million quarter-on-quarter due mainly to lower revenue generated from both hotel and gaming segments. The weakening of GBP against USD has generally lowered revenue in USD terms.

However, this was offset by higher revenue generated from Bass Strait oil and gas royalty income due to higher gas production as well as the appreciation of AUD against USD by 6% during the period.

#### Cost of sales

The decrease in cost of sales was mainly due to the weakening of GBP against USD and lower gaming duty associated with lower gaming revenue in current quarter.

#### Other operating income

The decrease in other operating income for the quarter was mainly due to a one-off compensation received from the cessation of management of 19 regional Thistle Hotels received in previous corresponding quarter.

#### Administrative expenses

The decrease in administrative expenses for the quarter was mainly attributable to the weakening of GBP against USD as well as reflecting overall cost disciplines for the Group.

#### Other operating expenses

The increase in other operating expenses was mainly due to the provision relates to a legal claim against a subsidiary in the United Kingdom which provided a guarantee in relation to a hotel property previously leased and operated by another subsidiary.

#### Net financing costs

Lower financing costs for the quarter was primarily due to the weakening of GBP against USD.

#### Income tax expense

Lower income tax expense was associated with lower earnings from the hotel segment.

#### **Statement of Comprehensive Income**

Total comprehensive loss for the quarter was US\$18.2 million. This included a net foreign exchange loss of US\$28.2 million as a result of translating the books of the Group's UK subsidiaries which are denominated in GBP into the Group's reporting currency, which is USD. As at the end of 30 September 2016, the GBP depreciated by 4% against the USD as compared to 30 June 2016.

## **Statement of Financial Position**

The Group's net assets before non-controlling interests decreased by 2% from US\$1,051.2 million as at 30 June 2016 to US\$1,032.9 million as at 30 September 2016. This was mainly attributable to net foreign exchange translation loss referred to above.

Excluding the effects of currency translation, other significant factors that affected the Group's net assets as at 30 September 2016 were as follows:

- a) Trade and other receivables – decrease was primarily due to lower prepayment for the hotel segment during the quarter.
- b) Cash and cash equivalents – increase due to the receipt of royalty income and lower capital expenditure spending during the quarter.
- c) Short term loans and borrowings – increase was due to higher outstanding overdraft during the quarter.
- d) Trade and other payables – decrease was mainly due to scheduled settlements of creditor liabilities.
- e) Corporate tax payable – increase was mainly due to tax provision from the hotel earnings during the quarter.
- f) Provisions – increase was mainly due to the provision relates to a legal claim against a subsidiary in United Kingdom.
- g) Pension surplus– increase was due to actual pension payment made during the quarter.
- h) Derivative financial liability – increase was mainly due to fair value adjustment for a forward interest rate swap contract.

## **Statement of Cash Flows**

Lower net cash inflow of US\$24.8 million at the end of the quarter compared with net cash inflow of US\$42.6 million in the previous corresponding quarter. This was primarily due to the receipt of one-off compensation for the cessation of management of 19 regional Thistle Hotels in previous corresponding quarter.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

The Group has not previously released any forecast or prospect statements.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months**

Volatility in the UK hotel industry is expected to continue in the months ahead. Performance of our London hotels may be negatively impacted during this period. The weakness in the British Pound could provide a boost for inbound travel into United Kingdom, but at the same time adversely impact our hotel division's revenue growth and the carrying value of our hotel properties in USD terms. The Group will continue with its hotel refurbishment programme and expects to launch three refurbished hotels in the next year, and maintains a cautious outlook.

In the global oil market, oil prices have recovered from recent lows but are not expected to improve significantly in the coming year. This will continue to impact the Group's oil and gas royalty revenues.
