This announcement is made by E-Commodities Enterprises Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“**Listing Rules**”) and the Inside Information Provisions (as defined in the Listing Rules) of Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) (“**Securities and Futures Ordinance**”).

The board of directors (the “**Board**”) of the Company wishes to inform shareholders and potential investors of the Company that after a preliminary review of the Group’s unaudited consolidated management accounts for the year ended 31 December 2016 and information currently available, the Group is expected to record a net profit attributable to shareholders of approximately HKD2.5 to HKD3 billion for the year ended 31 December 2016 as compared to the net loss attributable to shareholders from continued operations of approximately HKD1.615 billion recorded over the same period in 2015. The Board believes such profit is primarily attributable to:

1. supply-side policy reform under PRC national policies addressing over-capacity in the production of coal which has stabilized and even increased the price of thermal and coking coal;
2. an overall improvement in the coal market during the second half of 2016 which, together with policy reforms mentioned above, has resulted in a move from oversupply to greater balance between supply and demand;
3. the successful completion of the rights issue and the restructuring of the Company’s 8.5% senior notes due 2016 which were issued by the Company on 8 April 2011 as described in the Company’s announcements dated 27 and 28 June 2016 and 23 June 2016, respectively, which have resulted in an extraordinary gain of approximately HKD2 billion;
4. there being no impairments in the year ended 31 December 2016 similar to those recognized in the corresponding period in 2015 which were significant contributors to the loss recorded in that period; and
5. an improvement in the Company’s operational performance through (i) higher revenue, buoyed in part by an improving industry sector, continuing efforts to boost the Company’s business, including through the development of the Company’s new business model; and (ii) more stringent risk management in the commodities logistical and trading business sector.

The Company is still in the process of finalising the annual results of the Group for the year ended 31 December 2016. The information contained in this announcement is based on a preliminary assessment by the Board solely on the basis of the unaudited consolidated management accounts of the Group and the current information available, which have not yet been reviewed or audited by the independent external auditors of the Company. Further details of the Group’s performance will be disclosed in the annual results for the year ended 31 December 2016 to be published by the Company by the end of March 2017.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.
