MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

Since the establishment of the Company, Changshouhua Food is committed to products' research and development as well as innovation of its production technology and improvement of the production capacity. Since the establishment of the brand of "長壽花" (Longevity Flower), the Company has been developing and expanding its sales channels, and for many years, the sales volume of its products has been far higher than its competitors. Changshouhua's brand position as a pioneer and market leader in the PRC corn oil industry is deeply rooted. In recent years, the Group has been focusing on brand-building with an aim to increasing the proportion of sales of own-brand products and made active efforts in developing new edible oil products under the brand of "長壽花" (Longevity Flower).

The Group managed to maintain a double-digit growth of sales volume under the efforts made last year. The optimization of sales and the high-end wholesale of distributors and direct retails channels results in significant growth of the overall gross profit. In response to the dynamic industrial changes in edible oils market in the PRC, the Group carried out development plan for brand upgrading, product diversification and expansion and optimization of sales network. Subsequently, the Group changed the spokesperson for brand upgrading, and further integrated and optimised the sales network in line with the regional business development. In addition, the food products under the Changshouhua Kitchen series were launched in 2016.

Financial Review

For the year ended 31 December 2016, the revenue of the Group's products was only from the sales in the PRC. Due to the recovery of PRC edible oil industry and the promotion of the five-year Business Development Plan, the revenue of the Group increased by approximately 15.3% to approximately RMB3,207.2 million (2015: approximately RMB2,782.4 million). The sales of (i) own-brand edible oil/food products under the kitchen series; (ii) non-branded edible oil; and (iii) corn meal contributed to approximately RMB2,291.3 million, RMB587.9 million and RMB328.0 million (2015: approximately RMB2,075.7 million, RMB454.4 million and RMB252.3 million) respectively and accounted for approximately 71.5%, 18.3% and 10.2% (2015: approximately 74.6%, 16.3% and 9.1%) respectively of the Group's total revenue.

The following table sets forth the breakdown of revenue by product categories:

	For the year ended 31 December 2016		For the year ended 31 December 2015	
	RMB'000	Overall Proportion %	RMB'000	Overall Proportion %

Own-brand edible oil/Food products under the kitchen series

The Group put high premium on high-end revenue and enhanced its sales quality through the optimization of sales and the high-end wholesale distributors and direct retails channels in 2016. For the year ended 31 December 2016, driven by the obvious improvement in gross profit of corn oil, overall gross profit of own-brand products increased by approximately 23.9% to approximately RMB707.2 million. During the year, the Group commenced the business development in high quality green and healthy foods and has introduced small size packing condiments, millet, northeast rice, mung beans and other grains successively.

Non-branded edible oil

For the year ended 31 December 2016, gross profit of non-branded edible oil increased significantly by approximately 49.2% to approximately RMB37.9 million, mainly due to an increase of gross profit margin and sales volume of nonbranded corn oil.

By-product — corn meal

Due to the recovery of the PRC poultry farming industry in 2016, for the year ended 31 December 2016, the gross loss of corn meal declined to approximately 5.3%.

Cost of Sales

The cost of sales mainly included costs of raw materials, direct labour and manufacturing overhead. Direct labour costs include wages and other compensation paid to production workers. Manufacturing overhead includes depreciation, freight costs, electricity, steam power, indirect labour and packing expenses. For the year ended 31 December 2016, overall cost of sales increased by approximately 10.9% to approximately RMB2,479.6 million. The costs of raw materials constituted the largest component of total cost of sales and accounted for approximately 90.2% of the total cost of sales for the year ended 31 December 2016 (2015: approximately 89.8%).

Other Income

For the year ended 31 December 2016, other income decreased by approximately 16.4% to approximately RMB66.8 million (2015: approximately RMB79.9 million), mainly due to a decrease in income of bank interest and the government grants and subsidies.

Other income mainly comprised sales of scrap materials of approximately RMB31.0 million (2015: approximately RMB29.2 million), bank interest income of approximately RMB20.4 million (2015: approximately RMB36.9 million), compensation income from insurance company of approximately RMB553,000 (2015: approximately RMB35,000) and government grants and subsidies of approximately RMB6.5 million (2015: approximately RMB11.9 million).

Selling and Distribution Costs

Selling and distribution costs amounted to approximately RMB374.2 million for the year ended 31 December 2016 (2015: approximately RMB249.2 million). Selling and distribution costs mainly comprised transportation fees of approximately RMB67.8 million (2015: approximately RMB31.8 million), advertising and promotion expenses of approximately RMB92.1 million (2015: approximately RMB68.8 million), expenses of representative offices of approximately RMB114.9 million (2015: approximately RMB68.4 million) and sales staff costs of approximately RMB83.8 million (2015: approximately RMB66.4 million).

For the year ended 31 December 2016, the Group established new representative offices, expanded selling and distribution network in more cities in the PRC and increased the number of wholesale distributors to 1,489 (as at 31 December 2015: 1,457). Therefore, expenses of representative offices increased during the period.

In line with the new spokesperson and brand upgrading, the advertising and promotion expenses increased significantly by approximately RMB23.3 million. During the year, the promotion activities increased due to the optimized resource allocation of the Group, thus the expenses of representative offices increased significantly by approximately RMB46.5 million. The sales staff costs increased by approximately RMB17.4 million, mainly due to the restructuring of marketing staff during the year, which increased the number of salespersons and promotion staff in average for the whole year.

Administrative Expenses

For the year ended 31 December 2016, administrative expenses increased by approximately 11.7% to approximately RMB97.9 million (2015: approximately RMB87.7 million). Other administrative expenses mainly comprised: (i) administrative staff costs of approximately RMB30.8 million (2015: approximately RMB21.3 million); (ii) depreciation and amortisation expenses of approximately RMB18.0 million (2015: approximately RMB10.6 million); (iii) other taxes of approximately RMB14.0 million (2015: approximately RMB14.5 million); and (iv) legal and professional fees of approximately RMB4.3 million (2015: approximately RMB4.1 million).

The increase in other administrative staff costs was mainly due to the increase in the number of administrative staff and training expenses to cope with the continuous expansion of the Group's business. To a lesser extent, the Group also held more activities such as merchants sales conventions and new conferences.

Profit before Income Tax and Profit Attributable to Owners of the Company

For the year ended 31 December 2016, benefited from the significantly improvement of the overall gross profit, the Group's profit before income tax and profit attributable to owners of the Company increased by approximately 16.4% to approximately RMB316.1 million (2015: approximately RMB271.5 million) and approximately 24.9% to approximately RMB263.2 million (2015: approximately RMB210.8 million) for the year ended 31 December 2016.

The Group's net profit margin for the year ended 31 December 2016 was approximately 8.2% (31 December 2015: approximately 7.6%). The basic earnings per share attributable to owners of the Company amounted to approximately RMB45.9 cents for the year ended 31 December 2016 (approximately RMB36.8 cents for the year ended 31 December 2015).

Acquisition of Property, Plant and Equipment

As at 31 December 2016, deposits paid for the Group's construction or acquisition of production plant, equipment and land use right amounted to approximately RMB19.5 million (2015: approximately RMB13.5 million). The new corn oil plant of the Group in Guangzhou will be commenced construction in 2017.

Trade and Notes Receivables

As at 31 December 2016, trade and notes receivables increased by approximately 12.9% to approximately RMB530.4 million (2015: approximately RMB469.7 million). The increase in trade and notes receivables is mainly due to the increase in sales in the 4th quarter of the financial year as compared with the corresponding period in 2015, resulting from the Group's new branding strategy and increase in the sales volume in direct retail chain.

Prepayments, Deposits and Other Receivables

As at 31 December 2016, prepayments, deposits and other receivables amounted to approximately RMB101.9 million (2015: approximately RMB134.7 million), which mainly comprised (i) deposits paid for purchase of raw materials of approximately RMB52.8 million (2015: approximately RMB76.7 million); and (ii) other receivables of approximately RMB31.4 million (2015: approximately RMB32.0 million).

Five-Year Business Development Plan (2016-2020) Progress

In response to the China's ever changing edible oils industry, the Group announced that it had formulated a five-year business development plan in the 2015 interim results announcement in order to better cope with future challenges under our business model

1. Brand upgrading

In line with the new spokesperson of the brand, the establishment of brand image of "長壽花" (Longevity Flower) as a high-quality, green and healthy product in medium and high-end markets is further enhanced.

Reviewing and changing packaging on a regular basis

The Group reviews and changes packaging on a regular basis, in an effort to refresh products and maintain its young and vibrant brand image.

The Fifth National wholesale distributors Conference of Changshouhua

The Group communicated with 1,100 wholesale distributors from more than 30 provinces and municipalities. The event served as the preparation for the orders and work for the coming peak season of sales.

Advertising campaigns

In line with the new spokesperson of the brand, there was significant increase in advertising campaigns launched extensively in different areas through different media channels.

Product diversification 2.

The Group aims to attract more potential consumers by further diversifying its product categories:

Changshouhua rice germ oil

Extracted through physical refining process, the Group's rice germ oil is rich in vitamin E, phytocholesterols and contains 13,800 ppm of oryzanol, the highest in the industry, featuring "a natural balance of nutrients and original oryzanol". Apart from direct retail channels, the Company has gradually expanded into the wholesale distributors' network and e-commerce channel.

Changshouhua rapeseed oil

Two distinctive rapeseed oil products, special flavoured rapeseed oil and pure flavoured rapeseed oil, have started their sales in Yangtze River Basin region.

Changshouhua peanut oil/olive oil/sunflower seed oil

The Group continued to enrich consumer choice by introducing healthy oil products, such as peanut oil, sunflower seed oil and olive oil, to complement the edible oil products under the brand of "長壽花" (Longevity Flower).

Food products under the Changshouhua Kitchen series

The Group has introduced grains such as small size packing condiments, millet, Northeast Rice, mung beans and other products for trial sale at Changshouhua Kitchen experience stores in 2016 and sales through wholesale distributors and e-commerce channel. The Group plans to develop a series of food products under the brand of "Changshouhua Kitchen" in long term to enrich the categories of high-quality green and healthy foods for customers.

3. Expanding and optimising sales network

For the year ended 31 December 2016, the Group had 1,489 wholesale distributors and 153 retailers for its distribution network, covering all provincial-level administrative regions in mainland China (except Tibet) with approximately 170,000 domestic sales locations. The Group's future objective is to gradually expand its distribution network into all counties, townships and communities in the PRC.

Expansion in sales channel cooperation

In addition to the continuous close cooperation with retailers and the promotion of a cooperative alliance model, the Group also reviews and optimises the layout of traditional sales channels on a regular basis, such as developing cooperation with small and medium-sized supermarkets, reviewing the list of partner dealers regularly, introducing new cooperative dealers and improving the market coverage of sales terminals. To keep up with the trend of combining e-commerce with the Internet, the e-commerce department will be an important sales channel in the future.

In addition, the Group has successively opened Changshouhua Kitchen experience stores in order to complement the future series of "Changshouhua Kitchen" products and offer consumers the one-stop shopping experience of healthy kitchen supplies.

Sales network layout and expansion in specific regions

The Group aims to unleash the potential of third and fourth-tier Chinese cities and build on an extensive wholesale distribution network which almost covers all county-level cities across the country to further its network expansion and improve market coverage. In the future, the Group will solidify its leading position by allocating its resources to brand development and cooperation with direct retail stores such as supermarkets and hypermarkets across seven major regions, including Zhejiang Province, Shandong Province, Beijing and Tianjin, Guangdong Province, Hubei Province, Chongqing and the three provinces in northeast China. In five provinces, namely Henan, Hebei, Jiangsu, Shanxi and Sichuan, the Group will mainly rely on wholesale distributors, to ensure a more effective and extensive sales network and that its products reach target consumers.

Capital Structure

The Company's issued share capital as at 31 December 2016 is HK\$57,356,000, divided into 573,560,000 shares of HK\$0.1 each.

CORPORATE GOVERNANCE REPORT

The Company is committed to maintaining good corporate governance standard and procedures to ensure the integrity, transparency and quality of disclosure in order to enhance the shareholders' value.

Corporate Governance Practices

The Company has adopted the code provisions set out in the Corporate Governance Code ("CG Code") in Appendix 14 to the Listing Rules as its own code of corporate governance.

During the year ended 31 December 2016, the Company was in compliance with the relevant code provisions set out in the CG Code except for the deviation explained below.

Code provision A.2.1 of the CG Code requires that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Wang Mingxing, the Chairman of the Company, was also acting as the chief executive officer of the Company. The Board believes that vesting the roles of both chairman and chief executive officer in the same person has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. The Board believes that the balance of power and authority for the present arrangement will not be impaired and is adequately ensured by current Board which comprises experienced and high calibre individuals with sufficient number thereof being independent non-executive Directors.

Save as the aforesaid and in the opinion of the Directors, the Company had met the relevant code provisions set out in the CG Code during the year ended 31 December 2016.

Directors' Securities Transactions

The Company has adopted the code of conduct regarding directors' securities transactions as set out in the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix 10 to the Listing Rules. Having made specific enquiry of all Directors, the Company confirmed that all Directors had complied with the required standard set out in the Model Code throughout the year.

Board of Directors

The Board is responsible for the leadership and control of the Company, and is responsible for setting up the overall strategy as well as reviewing the operation and financial performance of the Group. The Board reserved for its decision or consideration matters covering overall Group strategy, major acquisitions and disposals, annual budgets, annual and interim results, recommendations on Directors' appointment or re-appointment, approval of major capital transactions and other significant operational and financial matters. The management was delegated the authority and responsibility by the Board for the daily management of the Group. In addition, the Board has also delegated various responsibilities to the Board committees. Further details of these committees are set out in this report.

The Board currently consists of eight Directors, including five executive Directors and three independent non-executive Directors:

Executive Directors

Mr. Wang Mingxing (Chairman and Chief Executive Officer)

Mr. Wang Mingfeng

Mr. Wang Mingliang

Mr. Cheng Wenming

Mr. Huang Da

Independent non-executive Directors

Mr. Wang Aiguo Mr. Liu Shusong Mr. Wang Ruiyuan

Mr. Wang Mingxing is the younger brother of Mr. Wang Mingfeng and the elder brother of Mr. Wang Mingliang, and all three of them are shareholders of Shandong Sanxing Group Company Limited ("Shandong Sanxing") which wholly and beneficially owns Zouping Sanxing Grease Industry Company Limited ("Sanxing Grease"), the controlling Shareholder.

Save as aforesaid, the Board members have no financial, business, family or other material/relevant relationships with each other. Such balanced board composition is formed to ensure strong independence exists across the Board. The composition of the Board reflects the balanced skills and experience for effective leadership. The biographical information of the Directors are set out on pages 15 to 17 under the section headed "Biographical Details of Directors and Senior Management".

The Board decides on corporate strategies, approves overall business plans and evaluates the Group's financial performance and management. Specific tasks that the Board delegates to the Group's management include the implementation of strategies approved by the Board, the monitoring of operating budgets, the implementation of risk management and internal control systems, and the ensuring of compliance with relevant statutory requirements and other rules and regulations.

Board Meetings

The Board has four scheduled meetings a year at approximately quarterly interval and additional meetings will be held as and when required. The four scheduled Board meetings for a year are planned in advance. During the regular meetings of the Board for the year, the Board reviewed the operation and financial performance of the Group, and also reviewed and approved the annual and interim results of the Company.

During the year ended 31 December 2016, the Board held four meetings. All Directors were given an opportunity to include any matters in the agenda for regular Board meetings, and were also given sufficient time to review documents and information relating to matters to be discussed in Board meetings in advance.

Directors' Responsibilities for the Consolidated Financial Statements

The Board acknowledges its responsibility to prepare the Company's consolidated financial statements for each financial year which give a true and fair view of the state of affairs of the Group and the Company and of the results and cash flows of the Group for that year. In preparing the consolidated financial statements for the year ended 31 December 2016, the Board has selected suitable accounting policies and applied them consistently; made judgments and estimates that are prudent, fair and reasonable and prepared the accounts on a going concern basis.

The Directors are responsible for taking all reasonable and necessary steps to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

The Directors, having made appropriate enquiries, consider that the Group has adequate resources to continue in operational existence for the foreseeable future and that, for this reason, it is appropriate to adopt the going concern basis in preparing the consolidated financial statements.

Risk Management and Internal Control

During the year, the Group has complied with Principle C.2 of the CG Code by establishing appropriate and effective risk management and internal control systems. Management is responsible for the design, implementation and monitoring of such systems, while the Board oversees management in performing its duties on an ongoing basis. Main features of the risk management and internal control systems are described in the sections below:

Risk Management System

The Group adopts a risk management system which manages the risk associated with its business and operations. The system comprises the following phases:

- Identification: identify ownership of risks, business objectives and risks that could affect the achievement of objectives;
- Evaluation: analyze the likelihood and impact of risks and evaluate the risk portfolio accordingly.
- Management: consider the risk responses, ensure effective communication to the Board and on-going monitor the residual risks.

Based on the risk assessments conducted in 2016, no significant risk was identified.

Internal Control System

The Company has in place an internal control system which is compatible with the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") 2013 framework. The framework enables the Group to achieve objectives regarding effectiveness and efficiency of operations, reliability of financial reporting and compliance with applicable laws and regulations. The components of the framework are shown as follow:

- Control Environment: a set of standards, processes and structures that provide the basis for carrying out internal control across the Group.
- Risk Assessment: a dynamic and iterative process for identifying and analyzing risks to achieve the Group's objectives, forming a basis for determining how risks should be managed.
- Control Activities: action established by policies and procedures to help ensure that management directives to migitate risks to the achievement of objectives are carried out.
- Information and Communication: internal and external communication to provide the Group with the information needed to carry out day-to-day controls.
- Monitoring: ongoing and separate evaluations to ascertain whether each components of internal control is present and functioning.

In order to enhance the Group's system of handling inside information, and to ensure the truthfulness, accuracy, completeness and timeliness of its public disclosures, the Group also adopts and implements an inside information policy and procedures. Certain reasonable measures have been taken from time to time to ensure that proper safeguards exist to prevent a breach of a disclosure requirement in relation to the Group, which include:

- The access of information is restricted to a limited number of employees on a need-to-know basis. Employees who are in possession of inside information are fully conversant with their obligations to preserve confidentiality.
- The Executive Directors are designated persons who speak on behalf of the Company when communicating with external parties such as the media, analysts or investors.

Based on the internal control reviews conducted in 2016, no significant control deficiency was identified.

Internal Auditors

The Group has an Internal Audit ("IA") function, which is consisted of professional staff with relevant expertise (such as Certified Public Accountant). The IA function is independent of the Group's daily operation and carries out appraisal of the risk management and internal control systems by conducting interviews, walkthroughs and tests of operating effectiveness.

An IA plan has been approved by the Board. According to the established plan, review of the risk management and internal control systems is conducted annually and the results are reported to the Board via Audit Committee afterwards.

Effectiveness of the Risk Management and Internal Control Systems

The Board is responsible for the risk management and internal control systems of the Group and ensuring review of the effectiveness of these systems has been conducted annually. Several areas have been considered during the Board's review, which include but not limited to (i) the changes in the nature and extent of significant risks since the last annual review, and the Group's ability to respond to changes in its business and the external environment (ii) the scope and quality of management's ongoing monitoring of risks and of the internal control systems.

The Board, through its review and the review made by IA function and Audit Committee, concluded that the risk management and internal control systems were effective and adequate. Such systems, however, are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss. It is also considered that the resources, staff qualifications and experience of relevant staff were adequate and the training programs and budget provided were sufficient.

Business Review

Company's Business

The business review of the Group for the year ended 31 December 2016 is set out in the sections headed "Chairman's Statement" and "Management Discussion and Analysis" on pages 5 to 14 of this report.

Principal Risks and Uncertainties Facing the Company

The Group's financial condition, results of operations, and business prospects may be affected by a number of risks and uncertainties directly or indirectly pertaining to the Group's businesses. The followings are the key risks and uncertainties identified by the Group. There may be other risks and uncertainties in addition to those shown below which are not known to the Group or which may not be material now but could turn out to be material in the future.

Market Risk

Market risk is the risk that deteriorates profitability or affects ability to meet business objectives arising from the movement in market prices. The management of the Group manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Foreign exchange risk

The Group's principal business is located in the PRC and its major transactions are conducted in Renminbi.

The Renminbi is not freely convertible. There is a risk that the Chinese government may take actions affecting exchange rates which may have a material adverse effect on the Group's net assets, earnings and any dividends it declares if such dividend is to be exchanged or converted into foreign exchange. The Group has not entered into any hedging transactions to manage the potential fluctuation in foreign currencies.

Liquidity Risk

Liquidity risk is the potential that the Group will be unable to meet its obligations when they fall due because of an inability to obtain adequate funding or liquidate assets. In managing liquidity risk, the Group monitors cash flows and maintains an adequate level of cash and cash equivalent to ensure the ability to finance the Group's operations and reduce the effects of fluctuation in cash flows.

Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Responsibility for managing operational risks basically rests with every function at divisional and departmental levels.

Key functions in the Group are guided by their standard operating procedures, limits of authority and reporting framework. The management will identify and assess key operational exposures regularly so that appropriate risk response can be taken.

Important Events Since the End of the Financial Year

There has been no material event since the end of the financial year.

Future Development in the Company's Business

The future development in the Company's business is set out in the "Five-Year Business Development Plan (2016–2020)" under section headed "Management Discussion and Analysis" of this report.

Analysis Using Financial Key Performance Indicators

For the analysis using financial key performance indicators, please refer to the sections headed "Financial and Operating Highlights" and "Management Discussion and Analysis" of this report.

Environmental Policies and Performance

With increasing concerns of environmental issues, both in governmental and civilian sectors become hypersensitive, despite certain expensive environment-friendly measures have been planned and will be implemented, we still concern that some more strict requirements could be put into practice.

Compliance with the Relevant Laws and Regulations

The Company was incorporated in the Cayman Islands and therefore the Company is subject to The Companies Law (2013 Revision) of the Cayman Islands. In addition, the Company is registered as a non-Hong Kong Company under Part 16 of the Companies Ordinance (Chapter 622, Laws of Hong Kong) (the "Companies Ordinance") and therefore is subject to the relevant provisions under the Companies Ordinance.

The Company is listed on the Stock Exchange and therefore the Company is subject to the governance of the Listing Rules including the disclosure requirements and corporate governance provisions therein. Under the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong) (the "SFO"), the Company is required to maintain a register of interests in shares and short positions and a register of directors' and chief executives' interests and short positions and is obliged to disclose price sensitive or inside information.

The principal activities of the Company's subsidiaries are production and sale of (i) corn oil, including non-branded corn oil and own-brand corn oil; (ii) other oil, mainly refined edible sunflower seed oil, olive oil, peanut oil and rice germ oil; and (iii) corn meal in the PRC. Therefore, the Group is subject to the relevant laws and regulations in the PRC.

Key Relationships with Employees, Customers and Suppliers

The Company recognizes that employees are our valuable assets. Thus the Group provides competitive remuneration package to attract and motivate the employees. The Group regularly reviews the remuneration package of employees and makes necessary adjustments to conform to the market standard.

The Group also understands that it is important to maintain good relationship with business partners, including customers and suppliers, and bank enterprises to achieve its long-term goals. Accordingly, the management have kept good communication, promptly exchanged ideas and shared business update with them when appropriate. During the year under review, there was no material and significant dispute between the Group and its business partners or bank enterprises.

Share Capital

Details of movements in the Company's share capital for the year ended 31 December 2016 are set out in note 25 to the consolidated financial statements.

Pre-Emptive Rights

There are no provisions for pre-emptive rights under the Articles or the laws of the Cayman Islands, being the jurisdiction in which the Company was incorporated, which would oblige the Company to offer new shares on a pro rata basis to existing Shareholders.

Model Code for Securities Transactions by Directors

The Company has adopted the Model Code set out in Appendix 10 to the Listing Rules as the code of conduct regarding securities transactions by the Directors. Having made specific enquiry of all Directors, the Company confirmed that all Directors had complied with the required standard set out in the Model Code throughout the year.

Connected Transactions

The Group has entered into a number of transactions with entities which are connected persons (as defined in Chapter 14A of the Listing Rules) of the Company, and such transactions constitute connected transactions and continuing connected transactions of the Company under Chapter 14A of the Listing Rules. These relevant entities include:

- (1) 山東三星 (Shandong Sanxing), a company owned as to 24.4% by Mr. Wang Mingxing, 24.8% by Mr. Wang Mingfeng and 24.4% by Mr. Wang Mingliang, all being executive Directors of the Company, which is therefore a connected person of the Company;
- 三星油脂, the sole shareholder of SanXing Trade, the controlling Shareholder holding approximately 52.14% of the issued share capital of the Company, which is therefore a connected person of the Company; and
- 山東明達熱電有限公司 (Shandong Mingda Heat and Electricity Company Limited) ("Shandong Mingda"), a company wholly-owned by Shandong Sanxing, which is therefore an associate of Shandong Sanxing and a connected person of the Company.

Exempt Continuing Connected Transactions

The following continuing connected transactions (as defined in the Listing Rules) constitute exempt continuing connected transactions for the Company under Rule 14A.76(1) of the Listing Rules and are fully exempted from shareholders' approval, annual review and all disclosure requirements under Chapter 14A of the Listing Rules:

Trademark Licence Agreements

Sanxing Grease and 山東三星玉米產業科技有限公司 (Shandong Sanxing Corn Industry Technology Company Limited) ("Corn Industry"), an indirectly wholly-owned subsidiary of the Company, entered into two trademark licence agreements ("Trademark Licence Agreements") dated 16 November 2009, pursuant to which Sanxing Grease agreed to grant a licence to Corn Industry to use the registered trademarks 長壽花 (Longevity Flower) and 金銀花 (Gold & Silver Flower) on an exclusive, sole and royalty-free basis for a term of 10 years commencing from 16 November 2009, which is automatically renewable on a 10-year term upon expiry of the then current term, unless Corn Industry terminates the agreements by written notice prior to the expiry of the term of the agreements. According to the Trademark License Agreements, Corn Industry has options to acquire the registered trademarks 長壽花 (Longevity Flower) and 金銀花 (Gold & Silver Flower) at any time during the term of the agreements for a nominal consideration of RMB10 for each registered trademark.

Non-Exempt Continuing Connected Transactions

The following continuing connected transactions constitute non-exempt continuing connected transactions for the Company under Chapter 14A of the Listing Rules:

Corn Industry and Shandong Mingda entered into a master supply agreement (the "Master Supply Agreement")
dated 30 March 2015 (subsequently supplemented by a supplemental agreement entered into by Corn Industry and
Shandong Mingda dated 6 May 2016), pursuant to which Shandong Mingda agreed to supply steam and/or
electricity to Corn Industry for a term up to 31 December 2017.

The cap for the annual transaction amount for the procurement of steam and/or electricity under the Master Supply Agreement for the year ended 31 December 2016 is RMB65.0 million.

The actual transaction amount for the procurement of steam and/or electricity pursuant to the Master Supply Agreement for the year ended 31 December 2016 amounted to approximately RMB47.8 million.

2. Corn Industry and Sanxing Grease entered into a sale and purchase agreement (the "Sale and Purchase Agreement") dated 30 March 2015 (subsequently supplemented by a supplemental agreement entered into by Corn Industry and Sanxing Grease dated 6 May 2016), pursuant to which Sanxing Grease agreed to supply crude corn oil to Corn Industry for a term up to 31 December 2017.

The cap for the annual purchase fee for the procurement of crude corn oil under the Sale and Purchase Agreement for the year ended 31 December 2016 is RMB525.0 million.

The actual purchase fee for the procurement of crude corn oil pursuant to the Sale and Purchase Agreement for the year ended 31 December 2016 amounted to approximately RMB398.3 million.

The independent non-executive Directors have reviewed the above non-exempt continuing connected transactions and confirmed that the transactions have been entered into:

- 1. in the ordinary and usual course of the Group's business;
- 2. on normal commercial terms which are no less favourable to the Company than terms available to independent third parties; and
- 3. in accordance with the relevant agreement governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

The auditor of the Company has provided a letter to the Directors of the Company confirming the matters stated in Rule 14A.38 of the Listing Rules in respect of the continuing connected transactions as set out above which took place during the year.

Save as disclosed above, other related party transactions entered into by the Group which also constitute connected transactions (including continuing connected transactions), but are exempted from disclosure requirement under Chapter 14A of the Listing Rules, are set out in note 29 to the consolidated financial statements.

Major Customers and Suppliers

During the year ended 31 December 2016, approximately 9.1% of the Group's turnover and approximately 31.1% of the Group's purchases were attributable to the Group's five largest customers and five largest suppliers, respectively. Approximately 14.1% of the Group's purchases were attributable to the Group's largest supplier. To the best knowledge of the Directors, none of the Directors or chief executive of the Company or any shareholder owning more than 5% of the Company's share capital or their respective associates, had any interest in the Group's five largest suppliers.

Public Float

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained a sufficient public float as required under the Listing Rules during the year ended 31 December 2016 and up to the date of this report.

Audit Committee

The Company established the Audit Committee on 23 November 2009 with written terms of reference in compliance with the CG Code.

The Audit Committee comprises three independent non-executive Directors, namely Mr. Wang Aiguo (as chairman), Mr. Wang Ruiyuan and Mr. Liu Shusong. The Audit Committee has reviewed the audited consolidated financial statements of the Group for the year ended 31 December 2016.

During the year ended 31 December 2016, the Audit Committee reviewed the annual and interim results of the Group, which were in the opinion of the Audit Committee that the preparation of such results complied with the applicable accounting standards and the Listing Rules.

Corporate Governance

A report on the principal corporate governance practices adopted by the Company is set out on pages 18 to 29 of the 2016 Annual Report.

Auditor

The Company has not changed its external auditor during the past three years.

A resolution will be submitted to the 2017 AGM to re-appoint BDO Limited as auditor of the Company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ABOUT THE REPORT

Introduction of the Report

The environmental, social and governance report (the "ESG Report") issued by Changshouhua Food Company Limited (the "Company" or "Changshouhua Food") stated that the Company and its subsidiaries (collectively, the "Group" or "We") have fully implemented the concept of sustainable development and performed the corporate social responsibilities. The ESG Report elaborated various work of the Group fulfilling the principle of sustainable development and its performance of social governance in 2016.

Scope of the Report

The ESG Report focused on the environmental and social performance of the core business of the Group (including its corn oil processing plants and refining & filling plants) in the People's Republic of China (PRC) during 1 January 2016 to 31 December 2016 (the "Year"). For details of the corporate governance, please refer to Corporate Governance Report on Page 18 to 29 of the annual report of the Company.

Reporting Framework

The ESG Report was prepared based on "Environmental, Social and Governance Reporting Guide" under Appendix 27 of the Rules Governing the Listing of Securities issued by the Stock Exchange of Hong Kong Limited (the "Stock Exchange").

Stakeholder Engagement

The preparation of the ESG Report, which was supported by staff from the Group's different departments, enabled us to have a better understanding of our current environmental and social development. The information we gathered were not only the summary of the environmental and social work carried out by the Group in 2016, but also the basis for us to develop short and long term sustainable development strategies.

Information and Feedbacks

For detail information about the environmental and corporate governance, please refer to the official website (http://www.chinacornoil.com/) and the annual report of Changshouhua Food Company Limited. Your opinions will be highly valued by the Company. If you have any advices or suggestions, please email to cornoil@163.com.

RIGOROUS PROCESS

Supplier Selection

The Group is committed to becoming a well-known Chinese manufacturer of edible corn oil, attaching importance to the quality assurance of the products. We have strict requirements for the suppliers who cooperate with us as the quality of the purchased materials directly affects the quality of the products. When the Purchasing Department determines the required products to be purchased, we review the relevant qualifications, product and quality system of the supplier, including obtaining a copy of the license. We assign the personnel of the Quality Control (QC) Department to sample the product samples for inspection. When there are suppliers with similar qualifications, we prioritize suppliers near to the factory locations of the Group to reduce the carbon footprint due to long-distance transport while reducing logistics costs.

After suppliers' review and execution of the contract, the QC Department samples the incoming products of each truck in batches for testing and retains those samples. We will stop receiving the supplies, discuss with the supplier's personnel and remind them to improve the product quality if the product quality requirements under the contract cannot be met in the test. The supplies will not be received until they meet the contract requirements. During the cooperation with the supplier, we conduct a regular assessment to ensure that the supplier can provide high quality products. After a certain period of cooperation with the supplier, we update the list of qualified suppliers and remove the suppliers that have been eliminated.

Quality Assurance

As one of the leading enterprises in the corn oil industry, the Group has always made food safety a top priority of enterprise production, constantly putting product quality and customer demand first and serving customers with high quality corn oil. In order to better ensure product quality and safety, we have achieved automation during the whole process from procurement to pressing, refining and packaging. All of which are controlled step by step by improving a series of control systems such as improvement of production, testing, storage, sales, etc. as well as in accordance with the Food Safety Law of the PRC so as to achieve zero-pollution production process and to produce healthy, green and safe corn oil.

The Group has been awarded the honors including "China Nutrition Industry Demonstration Base (中國營養產業示範基地)" issued by China National Food Industry Association, "Certificate of Industrialization Demonstration Projects of the National Torch Program (國家火炬計劃產業化示範項目證書)" issued by the Ministry of Science and Technology of the PRC; the "Longevity Flower" products are identified as "Nutrition and Health Food (營養健康食品)" by China National Food Industry Association. The Group is also proactive in being in line with the international management system. The Group has been certified by the GB/T19001-2008/ISO9001:2008 quality management system and GB/T22000-2006/ ISO22000:2005 food safety management system.

Safe raw and auxiliary materials

The crude oil is refined and processed after pressing and leaching. The refining process includes degumming, dephosphorization, deacidification, bleaching, dewaxing and deodorization. These processes require the addition of raw and auxiliary materials such as phosphoric acid, liquid alkali, clay, etc. As an edible oil producer, we attach importance to the quality of raw and auxiliary materials used in the production process. On this account, we have established a set of raw and auxiliary tracking process. After delivery to the factory, the raw and auxiliary materials should pass the quality inspection procedures. Only the qualified raw and auxiliary materials can be transported to the warehouse for storage. For the raw and auxiliary materials that cannot pass the quality inspection, the inspection personnel will first submit the feedback of the unqualified materials to Supply Department. The Supply Department will be responsible for the communication with the suppliers and return those unqualified raw and auxiliary materials to the suppliers.

The Group insists on using the raw and auxiliary materials that have reached the national standard and refuses to use those failed to meet the standard which may further affect the quality of the entire batch of corn oil.

Rigorous production process

The staff responsible for the production must strictly follow the process disciplines and perform the operations according to the specifications and standard operating procedures. Every employee entering the production site is required to comply with the requirements of hygiene standards and achieve cleanliness, sanitation, cleaning and disinfection of the personal positions and maintain good personal and environmental hygiene. These employees must wear neat uniforms, work caps and work shoes before entering the production area and get disinfected as required by the procedures. Any employee with failure of disinfection or improper dress shall not be permitted for such entrance to ensure that our products are not affected by the hygiene of employees. In addition, our production management staff should ensure that the food storage facilities are safe, harmless and pollution free. They shall supervise and inspect employees to maintain daily personal hygiene while monitoring the temperature and humidity of the production site within the specified range to ensure that food quality is controlled.

Careful storage and transportation management

In order to keep the corn oil in the best condition, the Group has formulated the storage and transportation management system and strictly managed the operation of the warehouse. According to the guidelines of storage and transportation management system, the stock of raw materials and the final products are stored according to the provisions at the specified storage period and storage conditions. These materials and products are regularly inspected for the appearance and shelf life. "Five preventions" should be achieved, including: prevention of fire, moisture, water, mold and leakage. In the event of any problem found in storage, the Storage and Transportation Department will deal with the problem on a timely basis to make an immediate report and record of the defective products. During the transportation process, we also require that the handling staff should protect the logo and prevent missing or rubbing off of the same. Any product released should be handled with care to prevent damage to the packaging. Containers, tools and equipment for the storage, transport and handling of food shall also be safe, harmless, kept clean so as to prevent food contamination, and meet the special requirements including temperature necessary for food safety. Transportation along with toxic or hazardous substances is not permitted in order to provide safe and high quality products for customers.

Rigid inspection process

In the production process, the laboratory staff will regularly tests the procedures on the production line in strict accordance with the inspection and test system. Work-in-progress, which passed the test, is permitted for the next production stage. Production personnel and laboratory personnel will evaluate the non-conforming porting and further actions shall be taken to solve such problem. Such products should be labeled and separately stored. The final products should be sampled and tested by the laboratory technician based on sampling basis of the final products. The results are recorded in the test report for review.

Before the delivery of the products, the laboratory personnel take the samples of each lot on a sampling basis after determination of the sampling quantity and plan in accordance with the product requirements and standards. After sampling, the samples should be immediately sealed, stored and kept for testing to ensure that such samples will not subject to change or missing before the testing and are properly kept. For the samples to be tested, the re-test samples should be retained according to the provisions. If the shelf life of the products is two years, the period of retention of retest samples should be no less than two years. In case of any quality problem in subsequent lot of products, samples may be immediately taken for testing.

Product Traceability System

In view of the traceability of the products sold by the Group, we have established the labeling and traceability control procedures and product labeling management system and abided by the provisions of the Product Quality Law of the PRC so that traceability will be achieved throughout the food chain. For product storages, we mark the name, date of manufacture, shelf life ad storage conditions of the products at the storage location to store the products under given conditions and prevent mixing up. For the packaging of pre-packaged food, we clearly mark on the product label the important information including specification, date of manufacture, ingredients, shelf life, product standard code, storage conditions, production license certification number, etc. in accordance with national laws, regulations and food safety standards so that customers have access to read the product information before any purchase. In the event of product quality, the Group will find the product of batch with such problem according to the date of manufacture, product standard code, etc. on the product and take relevant measures for treatment.

Establishment of Complaint Handling Mechanism

The Group has formulated the product sales and consumer complaint handling system to control the quality of service and meet the requirements of the customers to the greatest extent. Customers can inform our staff with regard to product quality problem or service requirements by letter, by phone or by a visit to the store. After receiving the complaint, the Business Section will proceed with the same and record the acceptance of customer complaints, including the name, date of manufacture of the product subject to complaints, quality problem referred to in the complaint. For such complaints, the corresponding department shall make investigations and analyze the cause that may give rise to customer complaint so as to take appropriate measures. Upon completion of the complaint handling, the Business Section will visit the customer and further collect the product quality requirements and service requirements of the customer so that we can take corrective and preventive measures to continuously improve the quality of the service.

ENVIRONMENTAL PROTECTION

Well-established System

The Group keeps in mind the importance of business operation to environmental influence while developing to be a leading brand in the PRC edible corn oil consumer market. For this purpose, we have been always abiding by the Environmental Protection Law of the PRC, the Law of the PRC on Prevention and Control of Atmospheric Pollution, the Law of the PRC on Prevention and Control of Environmental Pollution by Solid Waste, the Law of the PRC on Promoting Clean Production, the Law of the RPC on Prevention and Control of Environmental Noise Pollution and other relevant laws and regulations, and have established complete environmental management system. The environmental management system of Shandong Sanxing Corn Industry Technology Company Limited subordinated to the Group (the "Subsidiary") even complies with GB/T24001-2004/ISO14001:2004 The Requirements of Environmental Management System and User's Guide.

In addition, we have established the environmental protection department to implement the Environmental and Occupational Health and Safety Operation Control Programs (《環境和職業健康安全運行控制程序》). The designated personnel shall not only execute the occupational health and safety policies, but also monitor the disposal of solid wastes, gas and wastewater generated in the production of edible oil, so as to ensure the satisfaction of environmental protection requirements.

Emission Reduction

As a responsible enterprise, the Group strives to reduce the emissions produced from business operation, so as to achieve the environmental protection objectives under the Environmental and Occupational Health and Safety Operation Control Programs.

Air emission

The air emission of the Group is the flue gas produced during the combustion of natural gas, which is emitted outside through the 15m chimney stack. The air emission from vacuumization in the infusion process during production is conveyed to the sealed pool through pipelines, rather than being emitted outside. The dust produced when packaging germ dregs are dedusted and filtered with bag duster, and the remaining gas is emitted outside in height. Staff members will inspect the duster on a daily basis to ensure its effective operation. The staff who works under the dusty environment is required to wear anti-dust respirator and participate in occupational health examination on a regular basis, so as to prevent the discomfort caused by dust inhalation.

Wastewater

The wastewater of the Group includes production wastewater and domestic sewage. The wastewater from squeezing plant are mainly wastewater with solvent in diversion box in infusion process, condensate water from heat exchanger, and cleaning wastewater of equipment and floor, which are conveyed through underground pipes to external sewage disposal plant for unified treatment, while the wastewater from decoloration, deacidification and deodorization processes in refining plant and the cleaning wastewater of equipment and floor is flowed into the external sewage disposal station for oil removal and unified treatment. And the daily domestic sewage of the Group is treated in the septic tank, and then flowed into the local sewage disposal plant along municipal sewage discharge network for centralized treatment.

Wastes

We adhere to the principle of facilitating the comprehensive utilization of solid wastes to dispose the Group's solid wastes in accordance with relevant requirements under the Standards for Pollution Control on the Storage and Disposal Site for General Industrial Solid Wastes (GB18599-2001), so as to turn industrial wastes into useful materials for rational utilization.

The hazardous wastes of the Group from the production of corn oil include scrap saponins and clay waste. Scrap saponins is sent to resource regeneration companies for treatment (to be used as raw materials for example), while clay waste is removed by qualified unites. The hazardous wastes in offices including waste cartridges of printers and waste packages of chemical reagents are collected together by us and then recycled by suppliers.

The non-hazardous wastes of the Group include the waste germ dregs, by-product from the production of corn oil and are sold to feed mill to be used as raw material, thus reducing the discarded non-hazardous wastes. Furthermore, the non-hazardous wastes in offices including cartons and printing papers are collected together by us and then recycled by suppliers.

Resources Conservation

In addition to emission reduction, the Group also makes certain contribution to our environment by vigorously promoting the concept of resources conservation inside the Group and improving the environmental awareness of our staff.

Energy and resources management

With an aim to reduce energy consumption of the Group, we require all departments and staff to aware of the consumption of energy and resources in daily work and living, and cultivate a good habit of energy saving, such as turning off the light when leaving the workplace, water conservation and paper saving. Air conditioners shall be turned off half an hour before off-duty, and the temperature shall be set at no less than 26°C in summer and no more than 18°C in winter

In the production process, we also strictly execute technological procedures and control all energy-consumption indexes to reduce energy waste. Raw and auxiliary materials used for production shall be accessed and used at a strict expenditure rate, and process control shall be completed to lower fraction defective and improve utilization ratio as far as possible, thus reducing the resources consumption at a maximum extent.

Control on office and living supplies

The Group has adopted a series of measures for the control on office and living supplies. Our staff are encouraged to convey a general notice through office network or by email, or by call, so as to reduce the distribution of records and reports. For the printed documents, our staffs are suggested to minimize the font size and line space in the manner of printing or copying on both sides, and use the reverse side of other facsimile transmission papers and writing papers, so as to reduce the usage of papers.

The facility management department of the Group shall be responsible for recording the water consumption and electricity consumption used for production in each month, and control and improve the water consumption and electricity consumption of the Group by comparing the product outputs in each month, which are assessed with the quarterly economic indicators calculated by the finance department. For instance, the Water-saving Improvement Control Procedures (《節水改進控制程序》) will apply in case of any abnormity in water consumption in that month, such as adoption of water-saving faucets, adjustment of water supply pressure and lowering hydraulic pressure as far as possible at the premise of ensuring production demand, thus controlling the water consumption.

TALENTS CULTIVATION

Improving Recruitment Process

The Group has always adhered to the philosophy of "People-oriented and Pursuit of Excellence", and strictly abided by the requirements of the PRC Labor Law, the PRC Labor Contract Law and other relevant laws and regulations. The Group has established explicit recruitment process and organizes relevant recruitment activities to attract talents to join our Group based on the job requirements of each department. The human resources department select applicants based on the recruitment criteria and job requirements. Applicants who meet the basic requirements of the jobs they applied for are given equal interview opportunity and none of them are unfairly treated due to his/her gender, age, race, religion belief or disability. In order to prevent forced labour, we give applicants a detailed introduction of the job including job duties, welfare and salary package at the time of interview and ensure every applicant has an informed understanding about the job. We will not enter into labour contracts with applicants unless we have reached an agreement with them and both parties are willing to enter into the contract. On the on board date, employees are required to present the original copy of their identification certificates and provide a photocopy thereof to the human resources department in order to ensure no child labour is employed by the Group by mistake.

Upon joining the Group, employees are provided with competitive salary package in order to attract and stimulate them to work for the Group. In addition to the salary increase after the completion of the probation period, we review employees' salary package regularly and make appropriate adjustment in line with the salary benchmark in the industry. At the end of each year, the Group conducts employee performance assessment, and performance bonus will be paid to employees according to their assessment results and those with excellent performance are given promotion opportunity. In accordance with the requirements of the PRC Labor Law, employees shall work eight hours per day and five days per week (namely 40 hours a week). During the employment, employees are entitled to maternity leave, marriage leave, funeral leave and annual leave as stipulated by law. An employee may terminate the labour contract with us in advance provided that an agreement has been reached between the Group and such employee. Upon termination of the labour contract, we pay the remaining wages of the resigned employee in time in accordance with the national provisions.

During the Year, we hosted an award ceremony to recognize cadres and employees with excellent performance, dealers and marketing elites. Meanwhile, we also organized recreational activities such as Chinese New Year party, oath taking rally for the Hundred-day Action project of "Safety, Environmental Protection, Energy Conservation and Innovation" to boost employee morale and increase their sense of belonging.

Health and Safety

Employees are our valuable assets. We abided by the requirements of the Prevention and Control of Occupational Diseases Law of the PRC, Emergency Response Law of the PRC and the Law of PRC on Work Safety and other laws and regulations. The Group has obtained the certification of GB/T28001-2011/OHSAS18001:2007 Occupational Health and Safety Management System.

The Group organizes physical examination for its employees. Every new and temporary employee shall pass the physical examination and obtain the health certificate before engaging in his/her job. Production and processing staff and other relevant employees shall take the physical examination at least once a year and accept temporary examination when necessary. We have created employee health record for each employee and keep a record of the health condition of employees who directly contact with food. We also provide health and safety education to new or temporary employees, who are not allowed to engage in their jobs before taking the courses.

In addition, a leading group has been established to take charge of the sanitation management matters in accordance with the Sanitation Management System of Manufacturing Workplace and Plant Area (《生產車間廠區衛生管理制度》) of the Group in order to ensure the plant area is clean and tidy at all times. All equipment in the workplace are subject to routine repair and maintenance, in order to ensure they are operated in a clean and safety condition, and workers are working in a safety environment.

Development and Training

The Group is committed to enhancing the professional knowledge and expertise of employees and it prepares an annual training program every year. We provide employees with corresponding training programs such as internal training and on-the-job training specific to different job requirements in accordance with the training program. Upon completion of the training, employees have to take relevant examinations to determine whether he/she is qualified. In addition, employees engaging in the special type of work are required to pass relevant examinations and obtain the qualification certificate in order to be employed.

As an edible oil manufacturer, the Group attaches great importance to safety training. Therefore, during the Year, we provided employees with a series of safety trainings, including training on safety warning marks, special training on heatstroke prevention, training on work injury and traffic safety, training on safety and production system, training on emergency rescue plan, and training on basic safety knowledge, in order to enhance employees' safety awareness. Besides safety training, we also offered expertise-related on-the-job training, including training on refining and packaging, and training on responsibility construction of crush plant. In addition, we provided employees with internal training such as training related to business cases, key working disciplines and professional knowledge, with the aim of enhancing their knowledge to the Group.

Advancing Corruption-free Management

The Group abides by the requirements of the Criminal Law of the PRC. A discipline inspection department has been set up to monitor and inspect the implementation of various activities and rules and regulations, implement the decisions on corruption-free management, ensure various bidding and tendering process complying with laws and regulations, handle complaints, reports, calls and letters concerning various irregularities, and investigate into the responsibility of the person in breach of the rules and regulations of the Group. The discipline inspection department is responsible for the internal corruption-free education, strengthens the fostering of corruption-free culture, and plays an important role in pushing forward corruption-free management of the Group.

In order to achieve the strategic goal of the Group, further improve the overall image of the Group, regulate cadres and employees' personal behaviors, and to create good and corruption-free working environment, employees are required to sign the Ethical Conduct Commitment and prohibited from taking advantage of position in committing bribery, blackmail, fraud, extortion against and illegally accepting property from others. In addition, the cadre is also required to sign the Corruption-Free Management Responsibility Statement, and the leading groups shall be responsible for the corruption-free management within their authorities. Each year, according to the requirements of the corruption-free management, the discipline inspection department carries out a responsibility assessment against the relevant leading group to review the achievements made by the Group in corruption-free management.

In respect of the cooperation between the Group and its suppliers, the Group enters into an anti-commercial bribery agreement with each supplier, under which a supplier commits that it will not secure a transaction opportunity by means of providing our employees with any material or spiritual benefits such as referral fees and free travel opportunities. We have established a whistleblower hotline through which suppliers may report any of our employees who seek for personal rewards for its own benefits to the senior management of the Group, and the Group will take corresponding actions.

CARE FOR THE COMMUNITY

Community Work

In the development history of the Group, we have been adhered to the enterprise tenet of "commitment to operational excellence, contributing society in good faith (追求卓越經營,真誠回報社會)", as well as honest and trustworthy. The Group keeps in mind contributing society and actively cares for and supports the development of education and charity undertakings while developing its business. Therefore, we donated RMB300,000 to Liumiao Huimin Middle School (劉廟回民中學) in Yangxin County, Shandong in 2011, which was used to construct a playground and support the education development of Minority.

In addition to the active support of education undertakings, the Group has been supporting disaster relief activities in the PRC. In 2008, we donated approximately RMB200,000 and corn oil products with a value of approximately RMB50,000 to seismic area of Wenchuan, Sichuan; in 2010, we donated approximately RMB300,000 to seismic area of Yushu, Qinghai; in 2012, we donated corn oil products with a value of approximately RMB200,000 to disaster area of Fangshan, Beijing. During the Year, our Changshouhua marketing center in Hubei Region donated 2,000 barrels of Changshouhua golden embryo corn oil to Caidian District severely afflicted by flood after "Wuhan Heavy Rainfall Event in 6 July ('7.6'武 漢特大降雨)", hoping to make a contribution to solve the seriously inadequate goods and materials in the disaster area.

In addition, we have participated in "Donation Day" activity with all the raised fund of RMB100,000 every year used to support charity projects from 2012 to 2015. During the Year, we made donations through Zouping County Government who then made the donation.

Employee Caring

The Group has been helping employees suffering from financial difficulties in a long term, including badly-off employees caused by serious disease or other reasons. We have relieved their financial pressure through donation, and persist in visiting them on an annual basis.

In our future development road, the Group will continue to pay high attention to food safety, enhance moral and conscientiousness self-discipline, consciously quarantee food safety, safeguard customer benefits, and take into account social demands, so as to promote the on-going development of the Group.

TO THE SHAREHOLDERS OF CHANGSHOUHUA FOOD COMPANY LIMITED

(incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Changshouhua Food Company Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 56 to 107, which comprise the consolidated statement of financial position as at 31 December 2016, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and the notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with International Code of Ethics for Professional Accountants (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment of trade receivables

Trade receivables were significant to the Group and represented approximately 21% of net assets as at 31 December 2016.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

In respect of the amount of trade receivables, no impairment allowance was provided by management as at 31 December 2016. This conclusion was based on the assessment on the existence of impairment indicators with respect to the specific risks associated with each customer and the estimation of the recoverable amount of each customer. These assessments and estimations involved significant management judgement.

Refer to notes 4.6, 5 and 18 to the consolidated financial statements.

Our responses:

Our audit procedures in relation to the management's impairment assessment included:

- Reviewing and testing subsequent settlements from customers;
- Reviewing and testing the ageing of trade receivables; and
- Challenging the reasonableness of management's estimation in expected timing of collection and ultimate realisation of these receivables, including credit worthiness and collection history of the customer.

Other Information in the Annual Report

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibilities for the Consolidated Financial Statements

The directors are responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with the terms of our engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2016

1. Corporate Information

Changshouhua Food Company Limited (the "Company") was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of Cayman Islands on 9 September 2009.

The registered office of the Company is located at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The principal place of business of the Company and its subsidiaries (the "Group") is located at Handian Industrial Park, Zouping County, Shandong Province, the People's Republic of China (the "PRC"). The Company's shares have been listed on the Mainboard of The Stock Exchange of Hong Kong Limited (the "HKEX") since 18 December 2009.

The principal activity of the Company is investment holding. The principal activities of the Company's subsidiaries are set out in note 34(a) to the consolidated financial statements.

In the opinion of the directors, the ultimate parent of the Company is 山東三星集團有限公司 ("Shandong Sanxing"), which is established in the PRC.

The consolidated financial statements for the year ended 31 December 2016 were approved by the board of directors on 29 March 2017.

2. Adoption of New and Revised Standards

2.1 New and revised standards adopted by the Group

In the current year, the Group has applied for the first time the following new and revised International Financial Reporting Standards ("IFRSs") and International Accounting Standards ("IASs") issued by the International Accounting Standards Board ("IASB"), which are relevant to and effective for the Group's financial statements for the annual period beginning on 1 January 2016.

IFRSs (Amendments)
Amendments to IAS 1
Amendments to IAS 16 and
IAS 38

IFRS 14

Annual Improvements 2012–2014 Cycle

Disclosure Initiative

Clarification of Acceptable Methods of Depreciation

and Amortisation

Regulatory Deferral Accounts

The adoption of these new and revised standards has no material impact on the Group's financial statements.

For the year ended 31 December 2016

2. Adoption of New and Revised Standards (Continued)

2.2 New and revised IFRSs in issue but not yet effective

The following new and revised IFRSs, potentially relevant to the Group's financial statements, have been issued, but are not yet effective and have not been early adopted by the Group.

Amendments to IAS 7 Disclosure Initiative¹

Amendments to IAS 12 Recognition of Deferred Tax Assets for Unrealised Losses¹

Amendments to IFRS 2 Classification and Measurement of Share-Based Payment Transactions²

IFRS 9 Financial Instruments²

IFRS 15 Revenue from Contracts with Customers²

Amendments to IFRS 15 Revenue from Contracts with Customers (Clarification of IFRS 15)²

IFRS 16 Leases³

- 1 Effective for annual periods beginning on or after 1 January 2017
- 2 Effective for annual periods beginning on or after 1 January 2018
- 3 Effective for annual periods beginning on or after 1 January 2019

Amendments to IAS 7 — Disclosure Initiative

The amendments introduce an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities.

Amendments to IAS 12 — Recognition of Deferred Tax Assets for Unrealised Losses

The amendments relate to the recognition of deferred tax assets and clarify some of the necessary considerations, including how to account for deferred tax assets related to debt instruments measured of fair value.

Amendments to IFRS 2 — Classification and Measurement of Share-Based Payment Transactions
The amendments provide requirements on the accounting for the effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments; share-based payment transactions with a net settlement feature for withholding tax obligations; and a modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

For the year ended 31 December 2016

2. Adoption of New and Revised Standards (Continued)

2.2 New and revised IFRSs in issue but not yet effective (Continued)

IFRS 9 — Financial Instruments

IFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at fair value through other comprehensive income ("FVTOCI") if the objective of the entity's business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at FVTOCI. All other debt and equity instruments are measured at fair value through profit or loss ("FVTPL").

IFRS 9 includes a new expected loss impairment model for all financial assets not measured at FVTPL replacing the incurred loss model in IAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

IFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from IAS 39, except for financial liabilities designated at FVTPL, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, IFRS 9 retains the requirements in IAS 39 for derecognition of financial assets and financial liabilities.

IFRS 15 — Revenue from Contracts with Customers

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. IFRS 15 supersedes existing revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and related interpretations.

IFRS 15 requires the application of a 5 steps approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to each performance obligation

Step 5: Recognise revenue when each performance obligation is satisfied

IFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under IFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

For the year ended 31 December 2016

2. Adoption of New and Revised Standards (Continued)

2.2 New and revised IFRSs in issue but not yet effective (Continued)

Amendments to IFRS 15 — Revenue from Contracts with Customers (Clarification to IFRS 15)

The amendments to IFRS 15 included clarifications on identification of performance obligations; application of principal versus agent; licenses of intellectual property; and transition requirements.

IFRS 16 — Leases

IFRS 16, which upon the effective date will supersede IAS 17 "Leases" and related interpretations, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more 12 months, unless the underlying asset is of low value. Specifically, under IFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes noncancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, IAS 17.

In respect of the lessor accounting, IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group will apply the above new standards and amendments to standards when they become effective. The Group is in the process of making an assessment of the impact of the above new standards and amendments to standards.

For the year ended 31 December 2016

3. Basis of Preparation

3.1 Statement of compliance

The consolidated financial statements have been prepared in accordance with IFRSs which collective term includes all applicable individual IFRSs and Interpretations approved by the IASB, and all applicable individual IASs and Interpretations as originated by the Board of the International Accounting Standards Committee and adopted by the IASB. The consolidated financial statements also include the applicable disclosure requirements of the Hong Kong Companies Ordinance and the Listing Rules.

3.2 Basis of measurement

The consolidated financial statements have been prepared under the historical cost basis.

3.3 Functional and presentation currency

The consolidated financial statements are presented in Renminbi ("RMB"), which is the same as the functional currency of the Company.

4. Summary of Significant Accounting Policies

4.1 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries made up to 31 December each year.

Inter-company transactions and balances between group companies together with unrealised gains and losses are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit and loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective dates of acquisition or up to the effective dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

4.2 Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, interest in subsidiaries is stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.3 Goodwill

Goodwill is initially recognised at cost being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests in the acquiree and the acquisition date fair value of the acquirer's previously held equity interest in the acquiree over the fair value of identifiable assets and liabilities acquired.

Where the fair value of identifiable assets and liabilities exceed the aggregate of the fair value of consideration paid, the amount of any non-controlling interest in the acquiree and the acquisition date fair value of the acquirer's previously held equity interest in the acquiree, the excess is recognised in profit or loss on the acquisition date, after re-assessment.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit ("CGU") is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. A CGU to which goodwill has been allocated is tested for impairment annually, by comparing its carrying amount with its recoverable amount (see note 4.16), and whenever there is an indication that the unit may be impaired.

For goodwill arising on an acquisition in a financial year, the CGU to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the CGU is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro-rata on the basis of the carrying amount to each asset in the unit. However, the loss allocated to each asset will not reduce the individual asset's carrying amount to below its fair value less cost of disposal (if measurable) or its value in use (if determinable), whichever is the higher. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

4.4 Property, plant and equipment

Property, plant and equipment, other than construction in progress ("CIP"), are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.4 Property, plant and equipment (Continued)

Property, plant and equipment are depreciated so as to write off their cost net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The useful lives are as follows:

Buildings The shorter of the lease terms and 20 years

Plant and machinery 10 years
Office equipment 3 to 5 years
Motor vehicles 4 to 5 years

CIP, which represents buildings under construction and plant and machinery pending installation, is stated at cost less accumulated impairment losses. Cost comprises direct costs incurred during the periods of construction, installation and testing. No depreciation is provided on CIP until such time as the relevant assets are completed and ready for intended use. When the assets concerned are available for use, the costs are transferred to property, plant and equipment and depreciated in accordance with the policy as stated above.

The gain or loss arising on retirement or disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on retirement or disposal.

4.5 Leasing

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases. Where the Group has the right to use the assets held under operating leases, payments made under the leases are charged to profit or loss on a straight line basis over the lease terms except where an alternative basis is more representative of the time pattern of benefits to be derived from the leased assets. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rental are charged to profit or loss in the accounting period in which they are incurred.

4.6 Financial instruments

(a) Financial assets

The Group classifies its financial assets at initial recognition, depending on the purpose for which the asset was acquired. Financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. All financial assets are recognised when, and only when, the Group becomes a party to the contractual provisions of the instrument.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.6 Financial instruments (Continued)

(a) Financial assets (Continued)

The Group's financial assets are classified as loans and receivables, which are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market principally through the provision of goods and services to customers (trade debtors) and also other types of contractual monetary assets. Subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses. Amortised cost is calculated taking into account any discount or premium on acquisition and includes fees that are an integral part of the effective interest rate and transaction cost.

(b) Impairment loss on financial assets

The Group assesses, at the end of each reporting period, whether there is any objective evidence that financial asset is impaired. Financial assets are impaired if there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- granting concession to a debtor because of debtor's financial difficulty; and
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation.

An impairment loss on loans and receivables is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the original effective interest rate.

In relation to trade receivables, a provision for impairment is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Group will not be able to collect all of the amounts due under the original terms of the invoice. Except for trade receivables, the carrying amount of loans and receivables is directly reduced by any identified amount of impairment. Impaired debts are derecognised when they are assessed as uncollectible. Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly.

Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.6 Financial instruments (Continued)

(c) Financial liabilities

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred. Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial liabilities at amortised cost including trade payables, accrued liabilities, other payables, dividend payable, amounts due to related companies and borrowings are subsequently measured at amortised cost using the effective interest method. The related interest expense is recognised in accordance with the Group's accounting policy for borrowing costs. Gains or losses are recognised in profit or loss when the liabilities are derecognised.

(d) Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(e) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(f) Derecognition

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with IAS 39.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amount is recognised in profit or loss.

4.7 Land use rights

The operating or finance lease determination is stated in note 4.5 and also applied to leases of land. Land use rights in the PRC are accordingly determined to be operating leases.

Land use rights represent up-front payments to acquire long term interests in the usage of land in the PRC. They are stated at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is calculated on a straight-line basis over the period of the leases.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.8 Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

4.9 Cash and cash equivalents

Cash and cash equivalents include cash at banks and in hand, demand deposits with banks and short term highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and form an integral part of the Group's cash management.

4.10 Revenue recognition

Revenue is recognised to the extent when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably. Revenue is measured at the fair value of the consideration received, net of allowances for returns, trade discounts and value-added tax. The following specific recognition criteria must also be met before revenue is recognised:

- (i) Sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the customers, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold. Normally, risk is transferred upon dispatch of goods.
- (ii) Interest income is recognised on a time-proportion basis using the effective interest method.
- (iii) Dividend is recognised when the right to receive payment is established.

4.11 Cost of sales

Direct costs of production, which include primarily raw materials costs, labour costs, electricity costs, depreciation expenses, taxes and repair and maintenance expenses are recognised in inventories and then as cost of sales when the revenue from sale of goods is recognised.

4.12 Income taxes

Income taxes for the year comprise current tax and deferred tax.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.12 Income taxes (Continued)

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting period, that are unpaid at the reporting date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognised as a component of tax expense in profit or loss.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates expected to apply in the period when the liability is settled or the asset is realised based on tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income.

Current tax assets and current tax liabilities are presented in net if, and only if,

- (a) the Group has the legally enforceable right to set off the recognised amounts; and
- (b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The Group presents deferred tax assets and deferred tax liabilities in net if, and only if,

- (a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- (b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either:
 - (i) the same taxable entity; or
 - (ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.13 Foreign currency translation

Transactions entered into by the consolidated entities in currencies other than the functional currency are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. RMB) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as translation reserve. Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as translation reserve.

4.14 Employee benefits

(a) Defined contribution retirement plan

The employees of the Group's subsidiaries which operate in the PRC are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of its payroll costs to the central pension scheme. The contributions are charged to the profit or loss as they become payable in accordance with the rules of the central pension scheme.

(b) Short-term employee benefits

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date.

Non-accumulating compensated absences such as sick leave and maternity leave are not recognised until the time of leave.

For the year ended 31 December 2016

4. Summary of Significant Accounting Policies (Continued)

4.15 Share-based payments

Where share options are awarded to employees and others providing similar services, the fair value of the services received is measured by reference to the fair value of the options at the date of grant is recognised in profit or loss over the vesting period with a corresponding increase in the share option reserve within equity. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at the end of each reporting period so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all non-market vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also recognised in profit or loss over the remaining vesting period.

4.16 Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of property, plant and equipment, land use rights, deposits paid and other non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased.

An impairment loss is recognised as an expense immediately for the amount by which the asset's recoverable amount is estimated to be less than its carrying amount. Recoverable amount is the higher of fair value, reflecting market conditions less costs of disposal, and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of time value of money and the risk specific to the asset.

For the purposes of assessing impairment, where an asset does not generate cash inflows largely independent from those from other assets, the recoverable amount is determined for the smallest group of assets that generate cash inflows independently (i.e. a CGU). As a result, some assets are tested individually for impairment and some are tested at CGU level.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Value in use is based on the estimated future cash flows expected to be derived from the asset or CGU (see note 4.3), discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

4.17 Borrowing costs

Borrowing costs attributable directly to the acquisition, construction or production of qualifying assets which require a substantial period of time to be ready for their intended use or sale, are capitalised as part of the cost of those assets. Income earned on temporary investments of specific borrowings pending their expenditure on those assets is deducted from borrowing costs capitalised. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

4.18 Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a present obligation (legal or constructive) as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation. All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future uncertain events not wholly within the control of the Group, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

Contingent liabilities are recognised in the course of the allocation of purchase price to the assets and liabilities acquired in a business combination. They are initially measured at fair value at the date of acquisition and subsequently measured at the higher of the amount that would be recognised in a comparable provision as described above and the amount initially recognised less any accumulated amortisation, if appropriate.

4.19 Segment reporting

Operating segments, and the amounts of each segment item reported in the consolidated financial statements, are identified from the financial information provided regularly to the Group's most senior management for the purpose of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purpose unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type of class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

4.20 Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if:
 - (i) The entity and the Group are members of the same group meaning that each parent, subsidiary and fellow subsidiary is related to the others;
 - (ii) One entity is an associate or joint venture of the other entity or an associate or joint venture of a member of a group of which other entity is a member;
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third party and other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a);
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity or of a parent of the entity; or
 - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

4. Summary of Significant Accounting Policies (Continued)

4.21 Government grants

Government grants are recognised when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as revenue in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

5. Critical Accounting Estimates and Judgments

In the process of applying the Group's accounting policies, which are described in note 4, management has made various estimates and judgments which are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Estimates and judgments are continually evaluated. The key sources of estimation uncertainty and accounting judgments that result in significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next financial year or significantly affect the amounts recognised in the consolidated financial statements are discussed below:

(i) Impairment of receivables

The Group's management determines the provision for impairment of receivables. This estimate is based on the evaluation of collectability and ageing analysis of receivables and on management's judgment. A considerable amount of judgment is required in assessing the expected timing of collection and ultimate realisation of these receivables, including credit worthiness and collection history of each customer and other debtors. Management will reassess the provision at the reporting date. If the financial conditions of the customers or debtors of the Group deteriorate thus resulting in impairment as to their ability to make payment, additional allowances may be required.

(ii) Useful lives and residual values of items of property, plant and equipment

The Group's management determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of the property, plant and equipment of similar nature and functions. Management will revise the depreciation charge where useful lives are different to those previously estimated, or will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

(iii) Net realisable value of inventories

Net realisable value of inventories is the estimated selling price in the ordinary course of business less estimated costs of completion and selling expenses. These estimates are based on the current market condition and the historical experience of selling products of similar nature. It could change significantly as a result of competitors' actions in response to severe industry cycles. Management reassesses the estimations at the reporting date.

For the year ended 31 December 2016

5. Critical Accounting Estimates and Judgments (Continued)

(iv) Provision for taxes

The Group is mainly subject to various taxes in the PRC including corporate income tax, value-added tax and other surtaxes. Significant judgment is required in determining the amount of the provision for taxes and the timing of related taxes. The Group recognises liabilities for anticipated tax based on estimates of whether additional taxes will be due. Where the final outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax provisions in the period in which such determination is made.

(v) Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the CGU to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate the present value.

6. Segment Information

The Group has identified its operating segments and prepared segment information based on the regular internal financial information reported to the Group's executive directors for their decisions about resources allocation to the Group's business components and review of these components' performance.

The executive directors have identified the reportable and operating segments by major product and service lines. During the year ended 31 December 2016, the Group has reorganised its internal reporting structure. Accordingly, the comparative segment information has been re-presented to conform to current year's presentation. The Group's reportable and operating segments for financial reporting purposes have been reorganised as production and sale of (i) Own brand products, including own brand corn oil and other edible oil under the brand of "長壽花" (Longevity Flower); (ii) Non-branded products, mainly non-branded corn oil and other edible oil; and (iii) Corn meal.

For the purposes of assessing segment performance and allocating resources between segments, the directors assess segment profit or loss by gross profit or loss as measured in the Group's financial statements under IFRSs.

For the purpose of presenting geographical location of the Group's revenue from external customers and the Group's non-current assets, country of domicile is determined by reference to the country where the majority of the Company's subsidiaries operate.

For the year ended 31 December 2016

6. Segment Information (Continued)

Reportable segment revenue represented revenue of the Group in the consolidated income statement. A reconciliation between the reportable segment profit and the Group's profit before income tax is set out below:

	2016 RMB'000	2015 RMB'000
Reportable segment profit	727,674	545,939
Other income	66,818	79,893

Other operating expenses	(157)	(367)
Finance costs	(6,125)	(17,095)
Profit before income tax	316,082	271,523

All of the Group's revenue from external customers and the Group's non-current assets are located in the PRC (i.e. the country of domicile of the Company).

7. Revenue and Other Income

Revenue from the Group's principal activities represented the net invoiced value of goods sold, net of allowances for returns, trade discounts and value-added tax. An analysis of the Group's revenue and other income is as follows:

	2016 RMB'000	2015 RMB'000
Revenue		
Sale of goods	3,207,224	2,782,426

Depreciation expenses have been included in:

- cost of sales of approximately RMB73,388,000 (2015: RMB62,846,000); and
- administrative expenses of approximately RMB14,364,000 (2015: RMB7,811,000).
- Amortisation of land use rights has been included in administrative expenses.

9. Finance Costs

	2016 RMB'000	2015 RMB'000
Interest on bank and other borrowings	6,125	17,095

At the reporting date, the Group had no forfeited contributions available to reduce its contributions to the pension scheme.

For the year ended 31 December 2016

10. Income Tax Expense

	2016 RMB'000	2015 RMB'000
Current tax — Provision for PRC corporate income tax	52,839	60,752

Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands ("BVI"), the Group is not subject to any taxation under the jurisdictions of the Cayman Islands and the BVI during the years.

PRC corporate income tax is provided at the rates applicable to the subsidiaries in the PRC on the income for statutory reporting purpose, adjusted for income and expense items which are not assessable or deductible for income tax purposes based on existing PRC income tax regulations, practices and interpretations thereof.

山東三星玉米產業科技有限公司 ("Corn Industry") has been accredited as a High-tech Enterprise by the Accrediting Bodies under the Administrative Measures for Determination of High and New Technology Enterprises on 30 November 2012 and is subject to preferential tax rate of 15% for two years commencing from 1 January 2013. In 2015, Corn Industry has been re-qualified as a High-tech Enterprise for three years and is accordingly entitled to the tax rate of 15% for the year ended 31 December 2016.

No deferred tax asset has been recognised in respect of the unused tax losses of approximately RMB97,256,000 (2015: RMB83,657,000), that are available, within a maximum period of five years in the PRC, for offsetting against future taxable profits of the relevant entities in the Group in which the losses arose, due to the unpredictability of future profit streams.

Deferred tax liabilities have not been established for the withholding tax that would be payable on the undistributed earnings of subsidiaries of approximately RMB1,467,420,000 (2015: RMB1,282,007,000) as the Group is in a position to control the dividend policies of the subsidiary and it is probable that such amount will be reinvested in the foreseeable future.

The Group did not have any other significant temporary differences which gave rise to a deferred tax asset or liability as at 31 December 2015 and 2016.

A reconciliation of income tax expense and accounting profit at the applicable tax rates is as follows:

	2016 RMB'000	2015 RMB'000
Profit before income tax	316,082	271,523
Tax calculated at the rates applicable to profits in the tax jurisdictions concerned Tax effect of tax losses not recognised Tax effect of income not taxable for tax purpose Utilisation of tax losses previously not recognised	55,486 5,833 (7,523) (957)	55,172 6,426 (846)
Income tax expense	52,839	60,752

For the year ended 31 December 2016

11. Dividends

The directors recommend the payment of a final dividend to the shareholders of Hong Kong 10 cents per share for the year ended 31 December 2016 (2015: Hong Kong 10 cents per share), subject to shareholders' approval at the forthcoming annual general meeting. The proposed final dividend declared after the reporting date has not been recognised as liability at the reporting date, but reflected as an appropriation of retained profits for the year.

12. Earnings Per Share

The calculations of the basic earnings per share attributable to owners of the Company are based on the following data:

	2016 RMB'000	2015 RMB'000
	KIVID 000	NIVID 000
Earnings		
Earnings for the purpose of basic earnings per share	263,243	210,771
Number of shares		
Weighted average number of ordinary shares for the purposes of basic earnings per share	573,560,000	573,560,000

The Group had no potential dilutive ordinary shares in issue during the year ended 31 December 2016.

No diluted earnings per share has been presented for the year ended 31 December 2015 because the exercise price of the Company's share options was higher than the average market price for shares during the period when those options are outstanding.

For the year ended 31 December 2016

14. Property, Plant and Equipment (Continued)

As at 31 December 2016, certificates of ownership in respect of certain buildings of the Group in the PRC with an aggregate net carrying amount of approximately RMB170,348,000 (2015: RMB194,612,000) had not been issued by the relevant PRC authorities. The directors anticipate that these certificates will be issued in the near future and are of the opinion that the Group is entitled to lawfully and validly occupy and use the properties, and therefore the aforesaid matter did not have any significant impact on the Group's financial position as at 31 December 2016.

15. Land Use Rights

The Group's interests in land use rights represent prepaid operating lease payments and their net carrying amounts are analysed as follows:

	RMB'000

	2016 RMB'000	2015 RMB'000
Cost:		
At beginning and end of the year	62,762	62,762

Goodwill acquired through business combination has been allocated to the CGU of own brand corn oil for impairment testing.

The recoverable amount for the own brand corn oil CGU was determined based on value in use calculations, covering a detailed five-year budget plan, followed by an extrapolation of expected cash flows at the average growth rates of 3% (2015: 3%) and discount rate of 13.5% (2015: 13.6%) estimated by the management.

Assumptions were used in the value in use calculation of the own brand corn oil CGU for 31 December 2016 and 31 December 2015. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted gross margins — The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

Discount rate — The discount rate used is before tax and reflects specific risks relating to the relevant units.

Raw materials price inflation — The basis used to determine the value assigned to raw materials price inflation is the forecast price indices during the budget year for the country from where the raw materials are sourced, i.e. the PRC.

Apart from the considerations described in determining the value in use of the own brand corn oil CGU above, the Group's management is not currently aware of any other probable changes that would necessitate changes in the key estimates.

18. Trade and Notes Receivables

	2016 RMB'000	2015 RMB'000
Trade receivables	528,650	465,615
Notes receivable	1,700	4,090
	530,350	469,705

The Group's trading terms with its customers are mainly on credit, except for new customers where payment in advance is normally required. The credit period is generally 45 to 180 days. Trade and notes receivables are non-interest bearing. They are recognised at their original invoice amounts which represent their fair values at initial recognition.

The ageing analysis of trade and notes receivables at the reporting date, based on invoice date and net of impairment provision, is as follows:

	2016 RMB'000	2015 RMB'000
Within 60 days	318,587	270,501
61–90 days	100,528	65,829
91–180 days	67,633	89,003
181–365 days	26,197	28,701
Over 365 days	17,405	15,671
	530,350	469,705

At each of the reporting dates, the Group reviews receivables for evidence of impairment on both an individual and collective basis.

For the year ended 31 December 2016

18. Trade and Notes Receivables (Continued)

The ageing analysis of trade and notes receivables that are past due but are not considered impaired is as follows:

	2016 RMB'000	2015 RMB'000
Neither past due nor impaired	478,231	406,052
Not more than 3 months past due	42,288	48,589

6 to 12 months past due	3,200	5,546
	520.250	460 705
	530,350	469,705

Receivables that were neither past due nor impaired related to a wide range of customers for whom there was no recent history of default.

Receivables that were past due but not impaired related to a number of customers that have a good track record of repayment with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

The short-term bank deposits earn 5.5% (2015: 3.46%) interest per annum. They have a maturity of within 1 year and are eligible for immediate cancellation without receiving any interest for the last deposit period. The other bank deposits earn interest at floating rates based on daily bank deposit rates.

The Group's cash and bank balances denominated in RMB were amounted to approximately RMB1,035,260,000 (2015: RMB918,964,000) and were deposited with banks in the PRC. The RMB is not freely convertible into other currencies. Under the PRC Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for foreign currencies through banks that are authorised to conduct foreign exchange business.

22. Trade Payables

Trade payables are non-interest bearing and are normally settled on 30 days terms.

The ageing analysis of trade payables at the reporting date, based on invoice date, is as follows:

26. Reserves

Details of the movements on the Group's reserves are as set out in the consolidated statement of changes in equity on page 59.

(i) Other reserves

The subsidiaries of the Group established in the PRC are required to transfer 10% of its profits after income tax as determined in accordance with the accounting regulations in the PRC to the surplus reserve until the reserve balance reaches 50% of the respective registered capital of the PRC subsidiaries. Such reserve may be used to reduce any losses incurred or for capitalisation as paid-up capital of the PRC subsidiaries.

(ii) Capital reserve

Capital reserve of the Group represents the difference between the registered capital of Corn Industry and the net assets value transferred from Sanxing Grease to Corn Industry pursuant to a group restructuring ("Restructuring Exercise") carried out by the Group to rationalise the structure of the Group in preparation of the initial public offering of the Company's shares on the HKEX.

(iii) Merger reserve

The merger reserve of the Group represented the difference between (a) the sum of nominal value of the combined capital and share premium of the subsidiaries acquired in pursuant to the Restructuring Exercise; and (b) the nominal value of the share capital of the Company issued in exchange thereof pursuant to the Restructuring Exercise.

For the year ended 31 December 2016

27. Share Option Scheme

On 14 May 2010, the Company granted to certain eligible participants a total of 25,000,000 share options to subscribe for ordinary shares of HK\$0.10 each in the share capital of the Company under the share option scheme adopted by the Company on 23 November 2009. The share options granted are exercisable as follows:

- (i) the first 50% of the share options between the first and fifth anniversary of the date of grant; and
- (ii) the remaining share options between the second and fifth anniversary of the date of grant.

The following table discloses the movements of the share options during the year ended 31 December 2015.

	Number of share options

30. Transfer of Financial Assets

At 31 December 2016, the Group endorsed certain notes receivable accepted by banks in the PRC (the "Endorsed Notes") to certain of its suppliers in order to settle the trade and other payables due to these suppliers with an aggregate carrying amount of approximately RMB31,580,000 (2015: RMB63,783,000). The Endorsed Notes had a maturity from three to six months at the end of the reporting period. In accordance with the relevant laws and regulations in the PRC, the holders of the Endorsed Notes have a right of recourse against the Group if the accepting banks default (the "Continuing Involvement"). In the opinion of the directors, the Group has transferred substantially all risks and rewards relating to the Endorsed Notes. Accordingly, it has derecognised the full carrying amounts of the Endorsed Notes and the associated trade and other payables. The maximum exposure to loss from the Group's Continuing Involvement in the Endorsed Notes and the undiscounted cash flows to repurchase these Endorsed Notes is equal to their carrying amounts. In the opinion of the directors of the Company, the fair values of the Group's Continuing Involvement in the Endorsed Notes are not significant.

During the year, the Group has not recognised any gain or loss on the date of transfer of the Endorsed Notes. No gains or losses were recognised from the Continuing Involvement, both during the year or cumulatively. The endorsement has been made evenly throughout the year.

31. Financial Risk Management and Fair Value Measurements

The Group is exposed to financial risks through its use of financial instruments in its ordinary course of operations. The financial risks included market risk (including currency risk and interest risk), credit risk and liquidity risk. The Group does not have written risk management policies and guidelines. However, the board of directors of the Company meets periodically to analyse and formulate measures to manage the Group's exposure to the financial risk, including principally changes in interest rates and currency exchange rates. Generally, the Group employs a conservative strategy regarding its risk management. As the Group's exposure to market risk is kept at a minimum level, the Group has not used any derivatives or other instruments for hedging purposes. The Group does not hold or issue derivative financial instruments for trading purposes.

For the year ended 31 December 2016

31. Financial Risk Management and Fair Value Measurements (Continued)

(b) Interest rate risk

Interest rate risk relates to the risk that the fair value or cash flows of a financial instrument will fluctuate because of the changes in market interest rates. The Group's interest rate risk arises primarily from floating-rate bank borrowing, fixed-rate other borrowings (note 24) and bank balances which were bearing fixed or floating interest rate (note 21). The Group's policy is to manage its interest rate risk, working within an agreed framework, to ensure that there are no undue exposures to significant interest rate movements and rates are approximately fixed when necessary.

(ii) Interest rate sensitivity analysis

The following tables illustrate the sensitivity of the profit for the year and retained profits to a reasonably possible change in interest rates of +25 basis points and -25 basis points (2015: +/-25 basis points), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on the Group's financial instruments held at each reporting date. All other variables are held constant. There is no impact on other components of consolidated equity in response to the possible change in interest rates.

31. Financial Risk Management and Fair Value Measurements (Continued)

(c) Credit risk

Credit risk refers to the risk that the counterparty to a financial instrument would fail to discharge its obligation under the terms of the financial instrument and cause a financial loss to the Group. The Group's exposure to credit risk mainly arises from granting credit to customers in the ordinary course of its business.

The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporates this information into its credit risk controls. The Group's policy is to deal only with creditworthy counterparties.

The Group's management considers that all the financial assets that are not impaired for each of the reporting dates under review are of good credit quality, including those that are past due.

None of the Group's financial assets are secured by collateral or other credit enhancements.

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The credit risk of liquid funds and other short-term financial assets is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

(d) Foreign currency risk

Currency risk refers to risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group is exposed to foreign currency risk primarily through borrowings that are denominated in a currency other than the functional currency of the entity within the Group to which they related. The currencies give rise to this risk are mainly HK\$, Euro ("EUR") and United States Dollar ("US\$").

Foreign currency risk exposure

31. Financial Risk Management and Fair Value Measurements (Continued)

(d) Foreign currency risk (Continued)

(ii) Foreign currency sensitivity analysis

The following table illustrates the sensitivity of the Group's profit for the year and retained profits in regards to a 1% (2015: 1%) appreciation in the Group entities' functional currencies against HK\$, EUR and US\$. All other variables are held constant. The rate is used when reporting foreign currency risk internally to key management personnel and represents management's best assessment of the possible change in foreign exchange rates. There is no impact on other components of consolidated equity in response to the general fluctuation in the following foreign currency rates.

The sensitivity analysis of the Group's exposure to foreign currency risk at the reporting date has been determined based on the assumed percentage changes in foreign currency exchange rates taking place at the beginning of the financial year and held constant throughout the year.

	2016				2015	
	HK\$	EUR	US\$	HK\$	EUR	US\$
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
Effect on profit for the						
year and retained profits	2,049	_	185	1,765	_	(177)

A weakening of the Group's entities' functional currencies against the respective foreign currencies at the respective reporting date would have had the equal but opposite effect to the amounts shown above, on the basis that all other variables remain constant.

These are the same method and assumption used in preparing the sensitivity analysis included in the consolidated financial statements of the year ended 31 December 2015.

(e) Liquidity risk

Liquidity risk relates to the risk that the Group will not be able to meet its obligations associated with its financial liabilities. The Group is exposed to liquidity risk in respect of settlement of bank and other borrowings, trade payables and other financing obligations, and also in respect of its cash flow management.

The cash flow management of all operating entities is centralised, including the raising of funds to cover expected cash demands. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The table below analyses the Group's financial liabilities based on the remaining contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows and the earliest date the Group can be required to pay.

For the year ended 31 December 2016

31. Financial Risk Management and Fair Value Measurements (Continued)

(e) Liquidity risk (Continued)

Specifically, for interest-bearing bank borrowing which contains a repayment on demand clause which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the earliest period in which the entity can be required to pay, that is if the lender was to invoke its unconditional rights to call the loan with immediate effect. The maturity analysis for other borrowings is prepared based on the scheduled repayment dates.

	2016	2015
	RMB'000	RMB'000
Within one year or on demand		
— Trade payables	52,632	87,864
 Accrued liabilities and other payables 	124,142	100,792
— Dividend payable	21,883	18,768
— Amounts due to related companies	5,043	6,776
— Unsecured bank borrowing	179,046	167,460
— Unsecured other borrowings	36,920	40,109
	419,666	421,769

The table that follows summarises the maturity analysis of interest-bearing bank borrowing with a repayment on demand clause based on agreed scheduled repayments set out in the loan agreement. The amounts include interest payments computed using contractual rates. As a result, these amounts were greater than the amounts disclosed in the "within one year or on demand" time band in the maturity analysis above. Taking into account the Group's financial position, the directors do not consider that it is probable that the bank will exercise its discretion to demand immediate repayment. The directors believe that such bank loan will be repaid in accordance with the scheduled repayment dates set out in the loan agreement.

	2016 2015
RM	B'000 RMB'000

Total contractual undiscounted cash flows 18	0,717 168,297

(f) Fair value

The fair values of the Group's financial instruments as at 31 December 2015 and 2016 were not materially different from their carrying amounts. Fair value estimates are made at a specific point in time and are based on relevant market information about the financial instruments.

For the year ended 31 December 2016

32. Capital Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, to maintain an optimal capital structure to reduce the cost of capital and to support the Group's stability and growth. The Group actively and regularly reviews and manages its capital structure, taking into consideration the future capital requirements of the Group, to ensure optimal shareholder returns.

The Group monitors capital using a gearing ratio calculated on the basis of interest-bearing bank and other borrowings over total equity. The Group aims to maintain the gearing ratio at a reasonable level.

The gearing ratio is regularly reviewed by senior management. The gearing ratios as at the end of the reporting periods are as follows:
