CORPORATE PROFILE

China Creative Global Holdings Limited (formerly known as China Creative Home Group Limited) (the "Company") and its subsidiaries (collectively, the "Group" or "China Creative Global") is principally engaged in design, development, manufacture and sales of home decor products and electric fireplaces. The Shares of the Company (the "Shares") was listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") in 2013. The Group mainly sells products in the People's Republic of China (the "PRC" or "China") under the "Allen (亚伦)" brand and to overseas customers including the US, Canada, Germany, France and the U.K. on original design manufacturing ("ODM")/original equipment manufacturing ("OEM") basis. Our home decor products include gardening decorations (e.g. fountains, waterfalls and patio furniture such as tables and stools) and indoor crafts (e.g. mini-figurines, vases, photo frames and sculptures), which are offered under three series: (i) polyresin series; (ii) porcelain series and (iii) inorganic series. Our electric fireplaces are divided into two categories: (i) framed electric fireplaces and (ii) non-framed electric fireplaces. Framed electric fireplaces are further categorised into three series according to the materials of their frames or mantels: (i) inorganic series; (ii) wood series and (iii) natural stone series.

The Group's design and technical team consists of more than 90 staff. In 2016, the Group has offered more than 4,000 pieces of home decor items and 200 models of electric fireplaces. Currently, the Group owns 64 patents in the PRC. The "Allen (亚伦)" brand has been recognised as the Wellknown Trademark of the PRC in respect of home decor products by the State Administration for Industry and Commerce in the PRC in 2011 and as the Famous Trademark of Fujian Province in respect of its electric fireplaces by the Administration for Industry and Commerce of Fujian Province in 2012. It was selected in 2011 by the China Association for Engineering Construction Standardisation as the only electric fireplace manufacturer in the PRC to be involved in the process of developing and compiling the industry regulation standard of electric fireplaces in the PRC in recognition of its national market- leading position.

The Group's current production facilities are located in Luojiang and Quangang in Fujian Province, and Bengbu in Anhui Province with a total gross floor area of approximately 145,650 square metres. As of 31 December 2016, the Group's total effective designed annual production capacity was 627,500 units of electric fireplaces and 52,200 tonnes of polyresin and inorganic home decor products.

CHAIRMAN'S STATEMENT

CHAIRMAN'S STATEMENT

To Our Shareholders,

On behalf of the board of directors of the Company (the "Board"), I am pleased to present the annual report of the Group for the year ended 31 December 2016 ("year under review").

In retrospect, the global economy continued to experience uncertainties and adversities in 2016. The PRC, although having attained more growth than most major economies, concluded with a GDP of RMB74,412.7 billion which represents the weakest annual growth rate of 6.7% since the year 1990. It is expected that the global economy will take a long route to full recovery, which demonstrates some lingering challenges for businesses. Especially, with the PRC government's economic insight of redirecting the focal point to domestic consumption and the service sector, the manufacturing sector is propelled to exploring new market opportunities in both domestic and foreign regions. In the face of challenges from all grounds, the Group is greatly determined to pave new paths by upgrading the business with elements in respect of high-tech and innovation, preparing itself to best seize lucrative opportunities and maintain its market competitiveness.

For the year ended 31 December 2016, the Group's revenue amounted to RMB349.7 million, representing a year-on-year decrease of 72.7%. Loss attributable to owners of the Company amounted to RMB95.5 million (2015: profit attributable to owners of RMB299.0 million). Together with the unfavourable operating environment, the principal reasons for the loss attributable to owners are heightened costs and expenses, impairment provision of property, plant and equipment, losses from investment property values, and the lack of gains from derivative instruments.

Electric fireplaces remains the Group's pivotal line of products as it stands for RMB201.6 million in revenue, 57.6% of the year's total. Home decor products remains as another vital line of the business, contributing RMB148.1 million of revenue to the Group, as 42.4% of its total.

During the year, the Group marked a milestone in diversifying its product portfolio and launched the latest product line of Allen fresh air system in the PRC market, attesting its ample capacity in product innovation and development. The fresh air system targets towards higher-end consumers and institutions with a recognised concern for air quality of the indoors such as schools, residential and office buildings, elderly homes and medical facilities. With its well-established quality and technologies of air purifying products, the Group is one of the drafters of the Standard of Fresh Air System for China Housing (中國住宅新風系統標準) and a long-term partner with Chinese Academy of Sciences (中國科學院) in the development of air purifying materials, technologies and equipment.

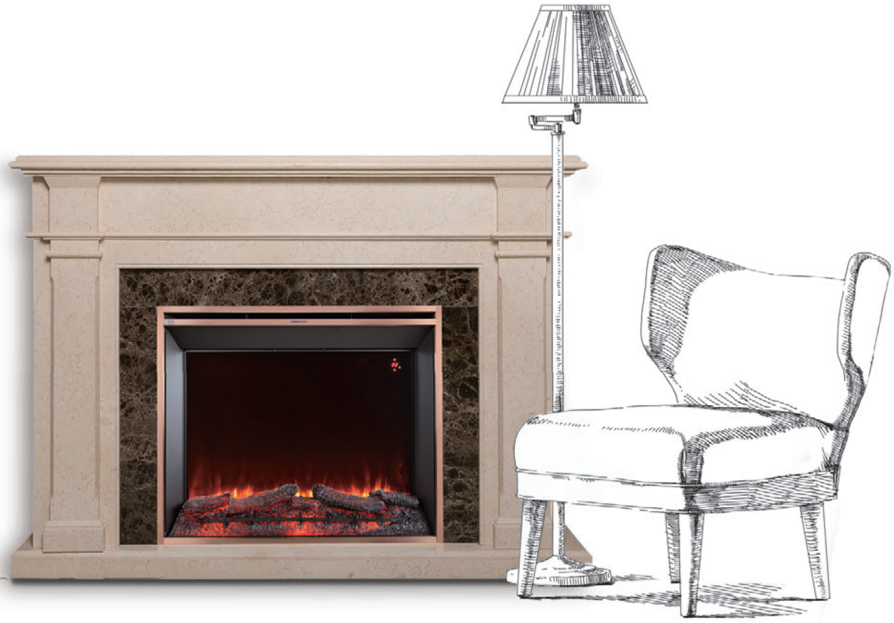
E-commerce is undeniably becoming a necessary sales channel for the business due to market trends, hence the Group has established sales channels on tubatu.com (土巴兔) and developed its O2O business for "Allen" (亚伦) products.

In line with the goal of overseas market expansion, the Group has been engaging in the addition of new production facilities. Phase two of facilities in Anhui was put into operation for production of electric fireplaces in 2016. Construction of phase three was completed during the year under review. These new facilities altogether supply an additional annual production capacity of 200,000 units of electric fireplaces for the Group, widening the room to profitable mass production. For the year under review, revenue from overseas markets amounted to RMB104.5 million, equal to 29.9% of the Group's total revenue.

The Group completed the purchase of 49% stake of Radiant Forever Development Limited by the end of 2016, whose wholly-owned subsidiary Changsha Innovation Semiconductor Co. Ltd (長沙創芯集成電路有限公司) ("Changsha Innovation") specializing in designing and manufacturing 6-inch wafer – a top-level technique amongst the industry in the PRC. It is believed that this sets up a broader base of income for the Group and reinforces its integrated circuit related business by adding on professional expertise to the current groundwork of research and development, backing its future financial performance and profitability. Also for the year under review, the Group started a new Mergers and Acquisition Department to study and acquire high potential business targets worldwide which featured with technological innovation, expansion and diversification of its business.

PROSPECTS FOR 2017

Looking forward, the Board believes that the year of 2017 channels a journey of change and growth. From its economic perspective, the PRC government set out various plans of reform as the country enters an economic period of the "new normal". Domestic consumer spending is expected to be encouraged and concurrently in place are incentives and subsidies for the high-tech industry. Thus, the Group envisions 2017 as an exploring field filled with both rewarding and challenging encounters. Understanding the importance of business sustainability, the Group will carry on the search of household furnishing business opportunities in the overseas markets, as well as internally expand and diversify its business model with the pursuit of technological innovation and advancement.



CHAIRMAN'S STATEMENT

The Allen fresh air system was launched at the time of growing emphasis of air quality within the domestic market. As a product made for the up-and-coming demand of consumers, the Group will constantly conduct improvement plans and boost its applicability to a wide range of audience. Considering the relatively quiet competition which is distant from e-commerce because of the need of project-based on-site installation, the Group is confident in expanding market share of the fresh air system and will retain it as one of the prime products of 2017.

The business is moving in a direction of high-tech company by drawing close ties with Changsha Innovation, a member of the high-tech industry supported by state policies. The Group projects plans in 2017 for high-tech advancement which will give access to professional talents and resources such as research capabilities, plants and equipment. Our existing product portfolio including electric fireplaces and the fresh air system will be upgraded with high-tech smart features that will also be more environmentally friendly and beneficial to the health of consumers. In the long run, there will be other high-tech visions pertaining to projects for 6-inch to 8-inch wafer, drones, driverless cars, new material and the high-speed rail. Not only will these forward strides refine the technicality of our smart household products, but also the Group's overall competitiveness and market share.

I believe that the Group is fully prepared to take on the upcoming opportunities and challenges in the context of maintaining its existing businesses. With new projects and orientation, the Group will spare no effort in grasping market trends and sharpening its competitive edge, in turn optimizing returns for our shareholders.

APPRECIATION

On behalf of the Board, I would like to express our earnest appreciation to customers, bankers, investors and business partners for their abiding support and trust to the Group. Meanwhile, I take this opportunity to relay our gratitude to the management and all staff members for their contributions to the Group over the past year. Hereafter, the Group will explore all avenues and ascend to its best in its existing businesses to yield desirable returns for our shareholders.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY REVIEW

During the year of 2016, global economic and political conditions have posed downward pressure on most countries. The PRC's economic growth continues to slow down, reaching its slowest pace since 1990. As described by its officials, the PRC has entered its economical new normal, indicating an even slower pace but an increasing per capita income and a growing consumer market.

According to the National Bureau of Statistics of China, per capita disposable income in the PRC in 2016 was RMB23,821, presenting an increase of 8.4% as compared with that of last year. Per capita consumption expenditure also increased 8.9% to RMB17,111. The trends of expenditure structure also showed that people are more willing to spend on enhancing their household conditions.

According to a World Health Organization ("WHO") release on 27 September 2016, a new WHO air quality model confirms that 92% of the world's population lives in places where air quality levels exceed WHO limits. Every year, air pollution is causing deaths of millions of people. In the PRC, air pollution has become a nationwide concern. On 31 December 2016, 61 Chinese cities announced air pollution alert, opening up the year 2017 under smog. The worsening air condition has boosted sales of air purifiers in the PRC.

BUSINESS REVIEW

China Creative Global is principally engaged in the business of design, development, manufacture and sales of home decor products, electric fireplaces and air purifiers. The Group sells its products domestically in PRC under its "Allen" (亚伦) brand and export its products on ODM/OEM basis to countries including the U.S., Canada, Germany, France and the U.K..

The revenue of the Group for the year ended 31 December 2016 decreased by 72.7% to RMB349.7 million from RMB 1,281.9 million for the year ended 31 December 2015. The loss attributable to the owners of the Company was RMB95.5 million whereas the profit attributable to the owners of the Company of RMB299.0 million was recorded for the year ended 31 December 2015. This was mainly due to (1) slowdown of economic growth in the PRC; (2) impairment provision of property, plant and equipment; (3) an increase in finance costs; (4) fair value loss on investment property; and (5) no fair value gain on derivative instruments was recognized.

Electric fireplaces and air purifiers, and home decor products are the two major segments of the Group, respectively accounted for 57.6% and 42.4% of the Group's revenue for the year ended 31 December 2016, while the proportions were 60.2% and 39.8% respectively last year.

During the year ended 31 December 2016, RMB245.2 million (2015: RMB1,038.8 million), or 70.1% (2015: 81.0%) of the Group's revenue were generated from PRC market. Revenue from international market amounted to RMB104.5 million (2015: RMB243.2 million), taking up 29.9% (2015: 19.0%) of the total revenue.

On 18 November 2016, through a wholly-owned subsidiary, China Prosper Int'l Limited, the Group entered into the sale and purchase agreement with an independent third party to purchase 49% of the issued share capital of Radiant Forever Development Limited (the "Target Company"), at a cash consideration of HKD205.0 million and 50,000,000 ordinary shares of the Company. The transaction was completed on 9 December 2016 and the total consideration was HKD236.5 million. The Target Company is an investment holding company, which wholly owns Changsha Innovation Semiconductor Co. Ltd (長沙創芯集成電路有限公司), having principal business activities as design, manufacturing and sales of integrated circuits in the PRC. The acquisition presents a valuable opportunity to broaden the income base of the Group and facilitate the development of the Group's integrated circuit related business, which is expected to give a positive impact to the operations, financial results and profitability of the Group in the future.

BUSINESS REVIEW (Continued)

The Group considers innovation as the core element of its development. The design and technical team consists of 91 staff as at 31 December 2016. It launched 2 lines with a total of over 500 new products for the year ended 31 December 2016.

The Group continues to broaden its income sources by securing a team of e-commerce experts and actively expanding its online sales channels on T-mall and Tubatu.com.

PROSPECTS

Given the current economic trends in the PRC, the Group keeps cautious in its future development. Meanwhile, riding on the profound history and widely-acknowledged product quality, the Group continues to develop in Chinese home furnishing market.

The Group keeps diversifying its business and promoting the development of technology innovation. Further than the acquisition of the 49% stake in Changsha Innovation Semiconductor Co. Ltd, the Group set up a Mergers and Acquisition Department to search all over the world for targets related to the Group's expansion.

The Group places priority on the development of its newly launched product line – Allen fresh air system. The Group's fresh air system has 6 main features, which are: (i) highly effective PM2.5 purification; (ii) high energy efficiency; (iii) minimizing pollution caused by renovation and risks from viruses and bacteria, (iv) smart system; (v) managing airflow to ventilate the whole room, and avoid mildew and bad smell; (vi) no need to open windows to circulate air and free consumers from outside noises. Since there are fewer competitors in the fresh air system market and it requires project-based on-site installation for fresh air systems thus faces less competition from the e-commerce, the Group believes that it can further enlarge the market share and expand fresh air system business.

The Group values its corporate responsibilities as much as its business growth. As one of the drafters of the Standard of Fresh Air System for China Housing and a long-term partner with Chinese Academy of Sciences (中國科學院) in the development of air purifying materials, technologies and equipment, the Group recently participated in one of the charity activities in "China Campus Health Action – Bud Project" ("中國校園健康行動－蓓蕾工程") with its cutting-edge air purifying technologies, with an aim to help create healthy environment in the schools in key polluted areas in the PRC.

Riding on its rich history, outstanding product development capacity and the reputation of "Allen" (亚伦) brand, the Group aims to broaden its income sources by providing elegant electric fireplaces, highly-efficient fresh air systems and distinctive home decor products, while developing high-tech and environment-friendly business segments.

FINANCIAL ANALYSIS

Revenue

Our revenue decreased by RMB932.2 million from RMB1,281.9 million to RMB349.7 million, represented a decrease of 72.7% compared with last year. The decrease was mainly driven by the lower market demand.

Revenue analysis by product type is as follows:

	2016		2015	
	RMB'000	% of revenue	RMB'000	% of revenue
Electric fireplaces				
Frame electric fireplaces				
– Wood series	112,690	32.2	346,785	27.0
– Natural stone series	1,534	0.4	71,639	5.6
– Inorganic series	36,930	10.6	128,368	10.0
Non-framed electric fireplaces	22,890	6.5	42,317	3.3
Air purifiers	8,118	2.3	169,942	13.2
Others	19,462	5.6	13,094	1.1
	201,624	57.6	772,145	60.2
Home decor products				
– Polyresin series	112,839	32.3	266,356	20.8
– Porcelain series	12,210	3.5	150,804	11.8
– Inorganic series	23,071	6.6	92,621	7.2
	148,120	42.4	509,781	39.8
	349,744	100	1,281,926	100

Note: Included in sales of porcelain series home decor products are sales of humidifiers of RMB0.3 million (2015: RMB40.1 million).

The decrease in the sales of electric fireplaces and home decor products was primarily due to the decrease in sales volume and average selling prices.

FINANCIAL ANALYSIS (Continued)

Gross Profit And Gross Profit Margin

Our gross profit decreased from RMB473.4 million for the year ended 31 December 2015 to RMB92.5 million for the year ended 31 December 2016, represented a decrease of 80.5% compared with last year mainly due to the decrease in sales and gross profit margin.

The gross profit margin decreased from 36.9% for the year ended 31 December 2015 to 26.4% for the year ended 31 December 2016. The decrease was primarily due to the decrease in average selling prices.

Selling And Distribution Costs

Our selling and distribution costs decreased by RMB24.6 million, or approximately 47.2%, from RMB52.1 million for the year ended 31 December 2015 to RMB27.5 million for the year ended 31 December 2016 primarily due to decrease in delivery expenses, advertising and promotion expenses, and staff cost.

Administrative Expenses

Our administrative expenses decreased by RMB5.4 million, or approximately 6.4%, from RMB84.9 million for the year ended 31 December 2015 to RMB79.5 million for the year ended 31 December 2016. The decrease was mainly due to decrease in research and development expenses partly set off by increase in depreciation expenses primarily due to the completion of office buildings in Anhui in the second half of 2015 and the increase in staff costs due to the general increase in staff wages.

Impairment provision of property, plant and equipment

The Group had property, plant and equipment before impairment provision of approximately RMB428.0 million located in Anhui, the PRC. Since the operation in Anhui has been making losses in two consecutive years, management has performed an impairment assessment, taking into account the current status of the assets and market price/transactions for similar assets. Based on the result of the assessment, carrying amount of the property, plant and equipment in Anhui is lower than its recoverable amount, and therefore, an impairment provision of RMB54.0 million has been made during the year.

Other Income

Our other income decreased by RMB6.0 million or approximately 56.1%, from RMB10.7 million for the year ended 31 December 2015 to RMB4.7 million for the year ended 31 December 2016 primarily due to the decrease in rental income and interest income.

FINANCIAL ANALYSIS (Continued)

Other (Losses)/Gains – Net

Our other losses consists of fair value loss on investment property of RMB12.0 million and foreign exchange loss of RMB0.8 million for the year ended 31 December 2016. For the year ended 31 December 2015, the other gains mainly consisted of fair value gain on investment property of RMB0.3 million, foreign exchange gain of RMB5.5 million, and gain upon lapse of warrants of RMB18.0 million.

Finance Costs

Our finance costs increased by RMB12.7 million, or approximately 352.8%, from RMB3.6 million for the year ended 31 December 2015 to RMB16.3 million for the year ended 31 December 2016. The increase was mainly due to the increase in borrowings and foreign exchange loss arising from borrowings denominated in HKD.

Share of Loss of an Associate

The Group acquired 49% of the entire issued share capital in Radiant Forever Development Limited in December 2016. Subsequent to the acquisition date, RMB0.5 million loss arising from the associate was shared to the Group.

Income Tax Expenses

Our income tax expenses decreased by RMB66.1 million, or approximately 96.9%, from RMB68.2 million for the year ended 31 December 2015 to RMB2.1 million for the year ended 31 December 2016, primarily as a result of the decrease in our profit.

(Loss)/profit for the Year Attributable to Owners of the Company

Loss attributable to owners of the Company was RMB95.5 million, for the year ended 31 December 2016 while profit attributable to owners of the Company was RMB299.0 million for the year ended 31 December 2015. Basic loss per share was RMB5 cents for the year ended 31 December 2016 while basic earnings per share was RMB16 cents for the year ended 31 December 2015. The decrease was mainly due to the decrease in our gross profit and increase in impairment provision of property, plant and equipment.

MANAGEMENT DISCUSSION AND ANALYSIS

CAPITAL STRUCTURE, LIQUIDITY, FINANCIAL AND CAPITAL RESOURCES

In order to achieve better cost control and minimise the costs of funds, the Group's treasury activities are centralised and cash is generally deposited with banks and denominated mostly in RMB, HKD and USD. As at 31 December 2016, the Group had net current assets of RMB921.3 million (2015: RMB1,040.8 million), of which cash and cash equivalents were RMB817.2 million (2015: RMB720.2 million).

The Group principally meets its working capital and other liquidity requirements through a combination of operating cash flows, capital contributions and borrowings. As at 31 December 2016, the Group's borrowings amounted to RMB176.1 million (2015: RMB49.0 million) and these borrowings were denominated in HKD and RMB. As at 31 December 2016, the effective interest rate on the Group's bank borrowings was 7.66% (2015: 6.51%).

	2016	2015
Current ratio[1]	**12.8**	5.3
Gearing ratio (%)[2]	**7.8%**	2.1%

(1) Current ratio is calculated based on our total current assets divided by our total current liabilities.

(2) Gearing ratio calculated based on our total debts (being our borrowings) divided by our total equity.

FOREIGN EXCHANGE RISK

Our functional currency is RMB. Our Group's foreign exchange risk mainly relate to fluctuations in exchange rates of RMB against our bank balances denominated in USD and HKD, trade receivables denominated in USD and borrowings denominated in HKD, and these may affect our operation results. Our Group does not have a hedging policy. However, our management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

CHARGE ON ASSETS

At 31 December 2016, the Group had pledged its certain property, plant and equipment, land use rights, and assets classified as held for sale with net book value of RMB179.2 million mainly for the purpose of securing bank borrowings.

WORKING CAPITAL MANAGEMENT

Our Group recognizes the importance of a strong and stable cash flows from operations to stay competitive and capture every business opportunity.

Our net current assets decreased from RMB1,040.8 million as at 31 December 2015 to RMB921.3 million as at 31 December 2016, representing an decrease of RMB119.5 million or 11.5%. The decrease in working capital is mainly a result of the decrease in trade receivables, and partly set off by increase in cash and cash equivalents, and the decrease in trade and other payables.

USE OF PROCEEDS FROM GLOBAL OFFERING

The shares of the Company were listed on the Main Board of the Stock Exchange on 20 December 2013. Net proceeds from the global offering were approximately HKD597.2 million (after deducting the underwriting commission and relevant expenses). As at 31 December 2016, the unused proceeds were deposited in licensed banks in the PRC.

	Percentage to Total Amount	Net Proceeds HKD' million	Utilised Amount as at 31 December 2016 HKD' million	Unutilised Amount as at 31 December 2016 HKD' million

EMPLOYEES AND EMOLUMENTS

As at 31 December 2016, we employed a total of 912 full time employees in the PRC and Hong Kong which included management staff, product designers, technicians, salespersons and workers. For the year ended 31 December 2016, the Group's total expenses on the remuneration of employees was RMB79.2 million, representing 22.7% of the revenue of the Group.

Our emolument policies are formulated based on the performance of individual employee which will be reviewed periodically. Apart from the provident fund scheme (operation in accordance with the provisions of the Mandatory Provident Fund Schemes Ordinance for Hong Kong employees) or social insurance fund (including retirement pension insurance, medical insurance, unemployment insurance, injury insurance and maternity insurance for the PRC employees), discretionary bonuses and employee share options are also awarded to employees according to the assessment of individual performance. Since the adoption of the share option scheme on 2 December 2013 and up to 31 December 2016, no options have been granted.

CAPITAL EXPENDITURE

For the year ended 31 December 2016, the capital expenditure of the Group amounted to RMB18.1 million. It was mainly addition to property, plant and equipment in the PRC.

MATERIAL ACQUISITION AND DISPOSALS AND SIGNIFICANT INVESTMENTS

In November 2016, the Group had entered into an agreement to acquire 49% of the entire issued share capital in Radiant Forever Development Limited, which through its subsidiary, which is engaged in design, manufacturing and sales of integrated circuits in the PRC, from an independent third party. The transaction was completed in December 2016.

Saved as disclosed above, the Group did not have any material investments or capital assets, or material acquisitions or disposals of subsidiaries or significant investments for the year ended 31 December 2016.

CONTINGENT LIABILITIES

As at 31 December 2016, the Group did not have any significant contingent liabilities.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

The chairman of the Company, Mr. Chen Fanglin, leads the Board in the determination of the strategy of the Group and in the achievement of its objectives. He is responsible for organising the business of the Board, ensuring its effectiveness and setting its agenda but not involved in the day-to-day business of the Group.

The Company at present does not have a Chief Executive Officer. Nevertheless, the duties and responsibilities of the Chief Executive Officer of daily operations of the Group are carried out by the executive Directors, other than the Chairman, and they are accountable to the Board for the financial and operational performance of the Group.

INDEPENDENT NON-EXECUTIVE DIRECTORS

The independent non-executive Directors are highly skilled professionals with a broad range of expertise and experience in the fields of accounting, finance and business. Their skills, expertise and number in the Board ensure that strong independent views and judgement are brought in the Board's deliberations and that such views and judgement carry weight in the Board's decision-making process. Their presence and participation also enable the Board to maintain high standards of compliance in financial and other mandatory reporting requirements, and provide adequate checks and balances to safeguard the interests of shareholders of the Company and the Company.

Each independent non-executive Director gives the Company an annual confirmation of his independence. The Company considers such Directors to be independent under the guidelines set out in Rule 3.13 of the Listing Rules.

Each Director, upon reasonable request, is given access to independent professional advice in circumstances he may deem appropriate and necessary for the discharge of his duties to the Company, at the expense of the Company.

APPOINTMENTS, RE-ELECTION AND ROTATION OF DIRECTORS

Pursuant to the articles of association of the Company (the "Articles"), the Directors shall have the power from time to time and at any time to appoint any person as a Director either to fill a casual vacancy on the Board or as an addition to the existing Board. Any Director appointed by the Board to fill a casual vacancy shall hold office until the first general meeting after his appointment and be subject to re-election at such meeting and any Director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

According to the Articles and in the opinion of the Board, the Directors, namely Mr. Chen Fanglin, Mr. Chen Jiang, Mr. Xu Qiang and Mr. Dai Jianping will retire at the forthcoming annual general meeting. All of the above retiring Directors, being eligible, will offer themselves for re-election at the same meeting.

Where vacancies arise at the Board, candidates will be proposed and put forward to the Board by the Nomination Committee (as defined below) as set out below under the section headed "Nomination Committee".

TRAINING, INDUCTION AND CONTINUING DEVELOPMENT OF DIRECTORS

Each newly appointed Director receives comprehensive, formal and tailored induction on the first occasion of his/her appointment so as to ensure that he/she has appropriate understanding of the business and operations of the Company and that he/she is fully aware of his/her responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

According to the code provision A.6.5 of the Corporate Governance Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills to ensure that their contribution to the Board remains informed and relevant. The Company should be responsible for arranging and funding suitable training, as well as placing an appropriate emphasis on the roles, functions and duties of the Directors.

The Directors confirm that they have complied with the relevant code provision. The Company had received from each of the Directors the record of training the Directors received.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers contained in Appendix 10 to the Listing Rules (the "Model Code") as its own code of conduct for dealing in securities of the Company by the Directors.

Specific enquiries have been made with all Directors, and all Directors confirmed in writing that they have complied with the required standards set out in the Model Code regarding their securities transactions for the year.

BOARD COMMITTEES

The Company has established a remuneration committee (the "Remuneration Committee"), an audit committee (the "Audit Committee") and a nomination committee (the "Nomination Committee"), for overseeing particular aspects of the Company's affairs.

Remuneration Committee

The Remuneration Committee comprises all independent non-executive Directors, namely, Mr. Dai Jianping, Mr. Ng Wing Keung, and Ms. Sun Kam Ching, and an executive Director, Mr. Shen Jianzhong. Ms. Sun Kam Ching is the chairman of the Remuneration Committee.

The major duties of the Remuneration Committee are as follows:

(a) to make recommendations to the Board on the Company's policy and structure for all Directors' and senior management's remuneration and on the establishment of a formal and transparent procedure for developing remuneration policy;

(b) to determine, with delegated responsibility, the remuneration packages of individual executive Directors and senior management, including benefits in kind, pension rights and compensation payments, including any compensation payable for loss or termination of their office or appointment;

BOARD COMMITTEES (Continued)

Remuneration Committee (Continued)

(c) to make recommendations to the Board of the remuneration of non-executive Directors;

(d) to consider salaries paid by comparable companies, time commitment and responsibilities and employment conditions elsewhere in the Group;

(e) to review and approve management's remuneration proposals by reference to the Board's corporate goals and objectives;

(f) to review and approve compensation payable to the executive Directors and senior management for any loss or termination of office or appointment to ensure that it is consistent with contractual terms and is otherwise fair and not excessive;

(g) to review and approve compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that they are consistent with contractual terms and are otherwise reasonable and appropriate; and

(h) to ensure that no Director or any of his associates is involved in deciding his own remuneration.

The Remuneration Committee's specific terms of reference are available on request to any shareholder of the Company and are posted on the Stock Exchange's website and the Company's website, www.cchome.hk.

During the year, the Remuneration Committee convened one meeting:

	Number of meetings attended/held	Attendance rate (%)

Mr. Dai Jianping	1/1	100%
Mr. Ng Wing Keung	1/1	100%
Mr. Shen Jianzhong	1/1	100%

During the year, the Remuneration Committee has reviewed the remuneration policy and structure of the executive Directors and senior management of the Company, and offered advice on the same to the Board. The Remuneration Committee also resolved to make recommendations to the Board on the remuneration packages of individual executive Directors and senior management.

Audit Committee

The Audit Committee comprises all independent non-executive Directors, namely, Mr. Dai Jianping, Mr. Ng Wing Keung, and Ms. Sun Kam Ching. Mr. Ng Wing Keung is the chairman of the Audit Committee.

BOARD COMMITTEES (Continued)

Audit Committee (Continued)

Under its terms of reference, the Audit Committee shall assist the Board in fulfilling its corporate governance and oversight responsibilities in relation to financial reporting, internal control structure, risk management systems and internal and external audit functions. The Audit Committee is further authorised by the Board to investigate any activity within its terms of reference, and is tasked with recommending to the Board appropriate actions emanating from such investigations. The Audit Committee has unrestricted access to personnel records, internal and external auditors, risk assessment and assurance and senior management, as may be appropriate in the discharge of its functions.

During the year, the Audit Committee discharged its responsibilities by:

(1) making recommendations to the Board on the reappointment of the external auditor and approval of the remuneration and terms of engagement of the external auditor;

(2) monitoring the external auditor's independence and objectivity and the effectiveness of the audit process in accordance with applicable standard, and discussing with the external auditor the nature and scope of the audit and reporting obligations;

(3) implementing the Company's policy on the engagement of an external auditor to supply non-audit services;

(4) reviewing, and monitoring the integrity of, the financial statements of the Company to ensure that the information presents a true and balanced assessment of the Company's financial position;

(5) reviewing the Company's financial controls, and unless expressly addressed by a separate Board risk committee, or by the Board itself, reviewing internal control and risk management systems to ensure that management has discharged its duty to have effective internal control and risk management systems;

(6) considering major investigation findings on risk management and internal control matters as delegated by the Board or on its own initiative and management's response to these findings;

(7) where an internal audit function exists, reviewing the internal audit programme, ensuring co-ordination between the internal and external auditors, and ensuring that the internal audit function is adequately resourced and has appropriate standing within the Company, and reviewing and monitoring its effectiveness;

(8) reviewing the Company's financial and accounting policies and practices;

(9) reviewing the external auditor's management letter, material queries raised by the external auditor to the management, if any, in respect of the accounting records, financial accounts or systems of control and the management's response to such queries; and

(10) reporting to the Board on the matters set out in the Corporate Governance Code on the Audit Committee.

BOARD COMMITTEES (Continued)

Audit Committee (Continued)

The Audit Committee is authorised by the Board to obtain external legal or other independent professional advice and to secure the attendance of outsiders with relevant experience and expertise if it considers necessary in the performance of its functions. The Audit Committee is provided with sufficient resources by the Company to discharge its duties. The Audit Committee's specific terms of reference are available on request to any shareholder of the Company and are posted on the Stock Exchange's website and the Company's website, www.cchome.hk.

During the year, the Audit Committee convened two meetings:

	Number of meetings attended/held	Attendance rate (%)
Mr. Ng Wing Keung *(Chairman)*	2/2	100%
Mr. Dai Jianping	2/2	100%
Ms. Sun Kam Ching	2/2	100%

During the year and up to the date of this report, the Audit Committee together with management has reviewed the Corporate Governance Code, the accounting principles and practices adopted by the Group and discussed the Group's internal control and financial reporting matters, including a review of the annual results for the year ended 31 December 2016 and the interim results, with recommendation to the Board for approval. The Audit Committee has also recommended to the Board that, subject to shareholders' approval at the forthcoming annual general meeting, PricewaterhouseCoopers be re-appointed as the external auditors of the Company.

Nomination Committee

The Nomination Committee comprises all independent non-executive Directors, namely, Mr. Dai Jianping, Mr. Ng Wing Keung, and Ms. Sun Kam Ching, and an executive Director, Mr. Shen Jianzhong. Mr. Dai Jianping is the chairman of the Nomination Committee.

The primary duties of the Nomination Committee are (among other things) to make recommendations to the Board on appointment of Directors and succession planning for Directors.

Where vacancy on the Board exists, the Nomination Committee will carry out a selection process by making reference to the skills, experience, professional knowledge, personal integrity and time commitments of the proposed candidates, the Company's needs and other relevant statutory requirements and regulations, and select or make recommendations to the Board on the selection of candidates for directorship.

The Nomination Committee's specific terms of reference are available on request to any shareholder of the Company and are posted on the Stock Exchange's website and the Company's website, www.cchome.hk.

BOARD COMMITTEES (Continued)

Nomination Committee (Continued)

During the year, the Nomination Committee convened one meeting:

	Number of meetings attended/held	Attendance rate (%)
Mr. Dai Jianping *(Chairman)*	1/1	100%
Mr. Ng Wing Keung	1/1	100%
Ms. Sun Kam Ching	1/1	100%
Mr. Shen Jianzhong	1/1	100%

During the year, the Nomination Committee has reviewed the structure, size and composition (including the skills, knowledge and experience) of the Board, conducted performance evaluations to assess whether the independent non-executive Directors have spent enough time in fulfilling their duties, assessed the independence of independent non-executive Directors, and had been keeping under review the leadership needs of the organisation, both executive and non-executive, with a view to ensuring the continued ability of the organisation to compete effectively in the marketplace. The Nomination Committee has also adopted the following diversity policy on the Board:

We embrace and encourage our employees' differences in age, color, disability, ethnicity, family or marital status, gender identity or expression, language, national origin, physical and mental ability, political affiliation, race, religion, sexual orientation, socio-economic status, veteran status, and other characteristics that make our Directors unique.

CORPORATE GOVERNANCE

The Board has carried out its duties and responsibilities as set out in code provision D.3 in the Corporate Governance Code ("Code Provisions"), including the development of policies and practices on corporate governance, monitoring the training and continuous professional development of Directors and senior management, as well as reviewing the compliance with the Corporate Governance Code, disclosure in this report and legal and regulatory requirements of the Group. During the year, the Company had complied with the Code Provisions.

FINANCIAL REPORTING, RISK MANAGEMENT AND INTERNAL AUDIT

Financial reporting

The Directors acknowledge their responsibility for the preparation of the financial statements of the Company to ensure that these financial statements give a true and fair presentation in accordance with the Hong Kong Financial Reporting Standards.

The statement by the auditor about their reporting responsibilities is set out in the independent auditor's report on pages 41 to 45.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

Risk management and Internal control

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and maintaining sound and effective risk management and internal control systems (including reviewing their effectiveness) to safeguard Shareholders' investment and the Group's assets.

The internal control system of the Group is designed for identifying and managing risks that are significant to the fulfilment of the Group's business objectives. The Group's management continues to allocate resources for an internal control and risk management system compatible with the Committee of Sponsoring Organisations of the Treadway Commission ("COSO") framework to provide reasonable, though not absolute, assurance against material misstatement or loss and to manage rather than eliminate the risk of failure to achieve business objectives.

Through the Audit Committee, the Board continues to review the effectiveness of risk management and internal control systems which include financial, operational, compliance, risk identification and assessment and risk response implementation controls. This process consists of (i) assessing such systems by the Group's internal audit function; (ii) operational management's assurance of their maintenance of effective risk management systems and internal controls; and (iii) identifying control issues by the external auditor during statutory audit. The Audit Committee reviews the adequacy of resources, qualifications, experiences and training requirements of staff responsible for accounting, financial reporting, treasury, financial analysis and internal audit functions. Review of the effectiveness of the risk management and internal control system has been conducted by management who provides the confirmation to the Board through the Audit Committee.

The Group also has an internal audit function to review risk management and internal control regularly by (i) evaluating the control environment and risk identification and assessment processes; (ii) assessing the adequacy of risk response measures and internal controls; and (iii) testing the implementation of such measures and the functioning of key controls through audit sampling.

FINANCIAL REPORTING, RISK MANAGEMENT AND INTERNAL AUDIT (Continued)

Risk management and Internal control (Continued)

The Group is fully aware of its obligations under the Listing Rules and the Securities and Futures Ordinance, which has established the internal policy to regulate the handling and dissemination of inside information. The Group conducts its affairs with close regard to the disclosure requirement under the Listing Rules as well as the "Guidelines on Disclosure of Inside Information" published by the Securities and Future Commission. The internal policy is updated whenever required and adopted accordingly to guide its stakeholder communications and the determination of inside information in order to ensure consistent and timely disclosure.

The Group has established an ongoing process for identifying, evaluating and managing the significant risks faced, including strategic planning, corporate governance, financial reporting, core business processes, and compliance and risk management. Review of the significant risks faced has been conducted to ensure the effectiveness and adequacy of the risk management and internal control system for the year ended 31 December 2016.

For the year under review, the Board considers that the risk management and internal control systems of the Group are adequate and effective and the Company has complied with the relevant code provisions in the Corporate Governance Code on internal control.

In the meeting held on 28 March 2017, the Audit Committee has also reviewed and considered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting and financial reporting function. The findings of the Audit Committee have been reported to the Board.

Independent auditor

The Audit Committee reviews and monitors the independent auditor's independence, objectivity and effectiveness of the audit process. It receives each year letter from the independent auditor confirming their independence and objectivity and holds meetings with representatives of the independent auditor to consider the scope of its audit, approve its fees, and the scope and appropriateness of non-audit services, if any, to be provided by it. The Audit Committee also makes recommendations to the Board on the appointment and retention of the independent auditor.

The remuneration paid or payable to the independent auditor of the Company in respect of the audit services for the year ended 31 December 2016 amounted to approximately RMB3.4 million. The remuneration paid or payable to the independent auditor of the Company in respect of other non-audit services for the year ended 31 December 2016 amounted to approximately RMB0.4 million.

The Board may, at its discretion, grant options pursuant to the Share Option Scheme to the Directors (including executive Directors and independent non-executive Directors), the Directors of the Company's subsidiaries and employees of the Group and any other persons (including consultants or advisers) whom the Board considers, in its absolute discretion, have contributed or will contribute to the Group. The Directors were authorised to grant options to subscribe for shares of the Company and to allot, issue and deal with the shares pursuant to the exercise of options granted under the Share Option Scheme and to take all such steps as may be necessary and/or desirable to implement and give effect to the Share Option Scheme. The maximum number of shares in respect of which options may be granted under the Share Option Scheme and under any other share option schemes of the Company must not in aggregate exceed 10% of the total number of shares in issue immediately following completion of the Global Offering (as defined in the Company's prospectus dated 10 December 2013), being 180,000,000 Shares, excluding any shares that may be issued under the options which have lapsed in accordance with the terms of the Share Option Scheme (or any other share option schemes of the Company), unless otherwise approved by the shareholders of the Company in general meeting and/or such other requirements prescribed under the Listing Rules from time to time.

Unless otherwise approved by the shareholders of the Company in general meeting, the number of shares that may be granted to an eligible participant under the Share Option Scheme and any other share option schemes of the Company (including both exercised and outstanding options) shall not exceed 1% of the shares in issue of the Company within any 12-month period. Any grant of options to a Director, or substantial shareholder (as defined in the Listing Rules) of the Company or any of their respective associates (as defined in the Listing Rules) is required to be approved by our independent non-executive Directors. Unless otherwise approved by the shareholders of the Company in general meeting and/or such other requirements prescribed under the Listing Rules, the number of shares that may be granted to a substantial shareholder or any independent non-executive Director or their respective associates under the Share Option Scheme and any other share option schemes of the Company (including both exercised and outstanding options) shall not exceed 0.1% of the shares in issue, having an aggregate value in excess of HKD5 million, within any 12-month period.

There is no minimum period for which an option must be held before it can be exercised, and the period during which an option may be exercised will be determined by the Board in its absolute discretion, however, no options shall be exercised 10 years after they have been granted. The subscription price of a share in respect of a particular option shall be not less than the highest of (a) the official closing price of the Shares on the daily quotation sheet of the Stock Exchange; (b) the average official closing price of the shares on the daily quotation sheet of the Stock Exchange for the five business days immediately preceding the date of grant; and (c) the nominal value of a share. The Share Option Scheme shall take effect from the date it is adopted and shall remain effective within a period of 10 years from that date.

From the date that the Share Option Scheme became effective and unconditional and up to the date of this annual report, no share options were granted under the Share Option Scheme.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S SECURITIES

The Company has not redeemed any of the shares during the year ended 31 December 2016. Neither the Company nor any of its subsidiaries had purchased or sold any of the Company's securities during the year ended 31 December 2016.

PUBLIC FLOAT

Rule 8.08(1)(a) of the Listing Rules requires that at least 25% of an issuer's total issued share capital must at all times be held by the public. Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained sufficiency of public float at all times during the year ended 31 December 2016.

CONNECTED TRANSACTIONS

On 28 September 2013, the Group entered into a rental agreement with Quanzhou Xinliya Trading Co., Ltd., a connected party controlled by Mr. Chen Fanglin, to lease from such connected party certain premises at a monthly rental of RMB72,000. All of the percentage ratios (other than profit ratio) on an annual basis is less than 0.1% and therefore, the rental agreement is exempted from the reporting, annual review, announcement and independent shareholders' approval requirements of the Listing Rules. The rental agreement has been ended on 30 November 2016.

RELATED PARTY TRANSACTIONS

Details of the significant related party transactions undertaken in the normal course of business are provided under Note 32 to the financial statements, and none of which constitutes a discloseable connected transaction as defined under the Listing Rules.

DEED OF NON-COMPETITION

The Company entered into a deed of non-competition (the "Deed of Non-Competition") with Mr. Chen Fanglin, China Wisdom Asia Limited, Central Profit Group Limited, Chen Xiangqun and Regal One Success Limited (collectively referred to as the "Covenantors") on 2 December 2013 so as to better safeguard the Group from any potential competition and to formalise the principles for the management of potential conflicts between them and to enhance our corporate governance in connection with the listing of the shares on the Stock Exchange.

The independent non-executive Directors have reviewed compliance by the Covenantors and confirm that based on confirmations and information provided by each of the Covenantors, they were in compliance with the Deed of Non-Competition during the year ended 31 December 2016.

The independent non-executive Directors were not required to review any matter in relation to compliance and enforcement of the Deed of Non-Competition during the year ended 31 December 2016.

DIRECTORS' REPORT

PERMITTED INDEMNITY PROVISIONS

At no time during the financial year and up to the date of his report, there was or is, any permitted indemnity provision being in force for the benefit of any of the directors of the Company or an associated company.

AUDIT COMMITTEE

The Company has established the Audit Committee pursuant to a resolution of the Directors passed on 2 December 2013. The Audit Committee comprises three independent non-executive Directors, namely Mr. Ng Wing Keung, Mr. Dai Jianping and Ms. Sun Kam Ching. Mr. Ng Wing Keung is the chairman of the Audit Committee. The rights and duties of the Audit Committee comply with the code provisions of the CG Code. The Audit Committee is responsible for reviewing and supervising the Group's financial reporting process and internal control system and providing advice and recommendations to the Board.

The Audit Committee had reviewed the audited results of the Group for the financial year ended 31 December 2016.

AUDITOR

The financial statements have been audited by PricewaterhouseCoopers who retire and, being eligible, offer themselves for re-appointment in the forthcoming Annual General Meeting.

CLOSURE OF REGISTER OF MEMBERS

In order to determine the entitlement to attend the annual general meeting of our Company to be held on 26 May 2017 (the "Annual General Meeting"), the register of members of the Company will be closed from 23 May 2017 to 26 May 2017 (both days inclusive), during which period no transfer of shares can be registered. INDEPENDENT AUDITOR'S REPORT

羅兵咸永道

TO THE SHAREHOLDERS OF CHINA CREATIVE GLOBAL HOLDINGS LIMITED
(formerly known as China Creative Home Group Limited)
(incorporated in the Cayman Islands with limited liability)

OPINION

What we have audited

The consolidated financial statements of China Creative Global Holdings Limited (the "Company") (formerly known as China Creative Home Group Limited) and its subsidiaries (the "Group") set out on pages 46 to 107, which comprise:

- the consolidated statement of financial position as at 31 December 2016;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include a summary of significant accounting policies.

Our opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters identified in our audit are summarised as follows:

- Impairment of property, plant and equipment
- Recoverability of trade receivables

Key Audit Matter	How our audit addressed the Key Audit Matter
Impairment of property, plant and equipment	
Refer to Notes 5.1 and 15 to the consolidated financial statements. As at 31 December 2016, the Group had property, plant and equipment before impairment provision of approximately RMB428 million located in Anhui, the People's Republic of China. For the year ended 31 December 2016, the Group's operation in Anhui, which represents a separate cash generating unit ("CGU"), has been making losses in two consecutive years and management considers that there is an indicator that property, plant and equipment located in Anhui may be impaired. Therefore, management has performed an impairment assessment on the property, plant and equipment of that CGU. In view of the current status of that CGU, management considered that the recoverable amount of that CGU calculated based on fair value less costs of disposal would be higher than the amount estimated by using value-in-use calculation. Therefore, management decided to determine the recoverable amount of that CGU based on fair value less costs of disposal. To determine the recoverable amount, management has engaged an independent professional valuer ("Valuer") to perform a valuation, taking into account the current status of the assets and market price/transactions for similar assets.	Our procedures in relation to management's impairment assessment of property, plant and equipment included: – Understanding the impairment assessment methodology used by management to estimate the fair value less costs of disposal for the property, plant and equipment of that CGU; – Assessing the competence, independence and integrity of the Valuer; – Obtaining and reading the valuation report issued by the Valuer for the property, plant and equipment of that CGU and discussing with the Valuer to understand the methodology and assumptions used; – Performing sample tests on the completeness of the information of the property, plant and equipment of that CGU provided to the Valuer by management; and – Comparing the input data used by the Valuer such as the current status of the assets and market price/transactions for similar assets to external market data on a sample basis. We found the judgements and estimates used in the impairment assessment of the property, plant and equipment of that CGU were supportable in light of the available and comparable evidence.

Key Audit Matter	How our audit addressed the Key Audit Matter
Impairment of property, plant and equipment	
Based on the result of the assessment, the recoverable amount of the assets of that CGU is lower than its carrying amount by approximately RMB54 million. Therefore, management has provided an impairment provision of approximately RMB54 million for the property, plant and equipment. We focused on this area because of the significant judgements and estimates involved in the impairment assessment by management.	
Recoverability of trade receivables	
Refer to Notes 5.3 and 20 to the consolidated financial statements. As at 31 December 2016, the Group had trade receivables of RMB71.7 million, of which RMB46.2 million was past due and a provision for doubtful debts of RMB2.4 million has been made. Management is required to exercise significant judgement in assessing the recoverability of the trade receivables. In making its judgement, management considers a wide range of factors such as aging profile of the trade receivables, payment trends, results of follow-up procedures performed by sales personnel and customers' financial position. We focused on this area because of the size of the balance and significant judgements made by the management in assessing the recoverability of trade receivables.	Our procedures in relation to management's assessment on the recoverability of trade receivables included: – Understanding and evaluating the design and operating effectiveness of the Group's credit controls; – Checking the accuracy of the aging profile of the trade receivables to sales invoices on a sample basis; – Testing the settlements made by the customers subsequent to the year end date by tracing to the corresponding bank statements on a sample basis; and – Discussing with management about the results of follow-up procedures performed by sales personnel, the latest financial position of the customers and management's assessment on the recoverability of trade receivables. Based on the above, we found that the significant judgements made by management is properly supported by the available evidence.

OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF DIRECTORS AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Cecilia, Lai Ting Yau.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 GENERAL INFORMATION

China Creative Global Holdings Limited (the "Company") formerly known as China Creative Home Group Limited was incorporated in the Cayman Islands on 7 July 2011 as an exempted company with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of its registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, the Cayman Islands.

The Company is an investment holding company. The Company and its subsidiaries (together the "Group") are principally engaged in the business of design, development, manufacturing and sales of home decor products, electric fireplaces and air purifiers primarily in the People's Republic of China (the "PRC").

The Company's shares are listed on the Main Board of The Stock Exchange of Hong Kong Limited.

These consolidated financial statements are presented in thousands of units of Renminbi ("RMB'000"), unless otherwise stated and have been approved for issue by the Board of Directors on 28 March 2017.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants and have been prepared under the historical cost convention, as modified by the revaluation of investment property and assets classified as held for sale, which are carried at fair value.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.1 Basis of preparation (Continued)

During the year ended 31 December 2016, the Group has adopted the following new standards and amendments to existing standards which are mandatory for accounting periods beginning on 1 January 2016:

HKAS 1 (Amendment)	Disclosure Initiative
HKAS 16 and HKAS 38 (Amendment)	Clarification of Acceptable Methods of Depreciation and Amortization
HKAS 16 and HKAS 41 (Amendment)	Agriculture: Bearer Plants
HKAS 27 (Amendment)	Equity Method in Separate Financial Statements
HKFRS 10, HKFRS 12 and HKAS 28 (Amendment)	Investment Entities: Applying the Consolidation Exception
HKFRS 11 (Amendment)	Accounting for Acquisitions of Interests in Joint Operations
HKFRS 14	Regulatory Deferral Accounts
Annual Improvements Project	Annual Improvements 2012-2014 Cycle

The adoption of these new standards and amendments to existing standards does not have significant impact to the Group's results of operation and financial position.

The following are new standards and amendments to existing standards that have been published and mandatory for the Group's accounting periods beginning after 1 January 2016, but have not been early adopted by the Group.

		Effective for annual periods beginning on or after
HKFRS 2 (Amendment)	Classification and Measurement of Share-based Payment Transactions	1 January 2018
HKAS 7 (Amendment)	Statement of Cash Flows	1 January 2017
HKAS 12 (Amendment)	Income Taxes	1 January 2017
HKFRS 9	Financial Instruments	1 January 2018
HKFRS 16	Leases	1 January 2019
HKFRS 10 and HKAS 28 (Amendment)	Sale or Contribution of Assets Between Investor and its Associate or Joint Venture	To be determined
HKFRS 15	Revenue from Contracts with Customers	1 January 2018

The Group will adopt the above new standards and amendments to existing standards as and when they become effective. The Group has already commenced the assessment of the impact to the Group and is not yet in a position to state whether these would have a significant impact on its results of operations and financial position.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidated financial information

A subsidiary is an entity (including a structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognized amounts of acquiree's identifiable net assets.

Intra-group transactions, balances, and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated. When necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

Transactions with non-controlling interests that do not result in a loss of control are accounted for as equity transactions – that is, as transactions with the owners of the subsidiary in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying amount of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that the amounts previously recognized as other comprehensive income are reclassified to profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.2 Consolidated financial information (Continued)

Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving a dividend from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 Associate

An associate is an entity over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in an associate is accounted for using the equity method of accounting. Under the equity method, the investment is initially recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The Group's investment in an associate includes goodwill identified on acquisition. Upon the acquisition of the ownership interest in an associate, any difference between the cost of the associate and the Group's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as goodwill.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognized in other comprehensive income is reclassified to profit or loss where appropriate.

The Group's share of post-acquisition profit or loss is recognized in the statement of profit or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group's share of loss in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the amount adjacent to 'share of loss of an associate' in the statement of profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.3 Associate (Continued)

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognized in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealized losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

Gain or losses on dilution of equity interest in an associate are recognized in the statement of profit or loss.

2.4 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors of the Group that makes strategic decisions.

2.5 Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). These consolidated financial statements are presented in RMB, which is the functional currency of the Company and presentation currency of the Group.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.5 Foreign currency translation (Continued)

(c) Group companies

The results and financial position of all the Group's entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

– assets and liabilities for each statement of financial position of the Group's entities are translated at the closing rate at the date of that statement of financial position;

– income and expenses for each statement of comprehensive income of the Group's entities are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and

– all resulting currency translation differences are recognized as other comprehensive income.

2.6 Property, plant and equipment

Property, plant and equipment, except for construction in progress, are stated at cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the profit or loss during the financial year in which they are incurred.

Construction in progress is stated at cost less accumulated impairment losses. Direct and indirect costs relating to the construction in progress, including borrowing costs during the construction period, are capitalized as the costs of the assets. Cost on completed construction work is then transferred to appropriate category of property, plant and equipment.

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their costs over their estimated useful lives, as follows:

Buildings	30 years
Plant and machinery	5 – 10 years
Office equipment	5 years
Motor vehicles	4 years

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.6 Property, plant and equipment (Continued)

No depreciation is provided in respect of construction in progress until the completion of construction. Depreciation commences when construction in progress is transferred to property, plant and equipment and ready for their intended use.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.9).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized in the profit or loss.

If the land use rights and the attached properties for own-use become an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognized in equity as a revaluation of the leasehold land or land use rights and the attached properties. Any resulting increase in the carrying amount of the property is recognized in the profit or loss to the extent that reverses a previous impairment loss, with any remaining increase recognized directly to revaluation surplus within other comprehensive income. Any resulting decrease in the carrying amount of the property is initially charged as other comprehensive loss against any previously recognized revaluation surplus, with any remaining decrease charged to the profit or loss. Any revaluation reserve balance of the property is transferred to retained earnings in the statement of comprehensive income upon the subsequent disposal of the investment property.

2.7 Land use rights

Land use rights represent upfront operating lease payments made for the land and are stated at cost less amount written off on a straight-line basis over the lease period and impairment loss.

2.8 Investment property

Investment property, principally comprising leasehold land and buildings, is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group. It also includes property that are being constructed or developed for future use as investment property.

Investment property comprises land and buildings held under operating leases.

Land held under operating leases are accounted for as investment property when the rest of the definition of an investment property is met. In such cases, the operating leases concerned are accounted for as if they were finance leases.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.8 Investment property (Continued)

Investment property is initially measured at cost, including related transaction costs and where applicable borrowing costs. After initial recognition at cost, investment property is carried at fair value, representing open market value determined at each reporting date by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If the information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Changes in fair values are recorded in the profit or loss as part of other gain or loss.

2.9 Impairment of non-financial assets

Assets that have an indefinite useful life or have not yet been available for use are not subject to amortization and are tested annually for impairment. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating unit). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

2.10 Assets classified as held for sale

Assets are classified as held for sale when their carrying amounts are to be recovered principally through sale transactions and sales are considered highly probable. The assets are stated at the lower of carrying amount and fair value less costs of disposal. Deferred tax assets, assets arising from employee benefits, financial assets (other than investments in subsidiaries) and investment property, even if held for sale, would continue to be measured in accordance with the policies set out elsewhere in Note 2.

2.11 Financial assets

(a) Classification

The Group's financial assets are mainly loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the end of the reporting period. These are classified as non-current assets. The Group's financial assets comprise trade and other receivables (Notes 20 and 21), pledged deposits and cash and cash equivalents (Note 22) in the consolidated statement of financial position.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.11 Financial assets (Continued)

(b) Recognition and measurement

Regular way purchases and sales of financial assets are recognized on the trade-date – the date on which the Group commits to purchase or sell the asset. Loans and receivables are subsequently carried at amortized cost using the effective interest method.

2.12 Impairment of financial assets carried at amortized cost

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization, and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

For loans and receivables category, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognized in the profit or loss. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the reversal of the previously recognized impairment loss is recognized in the profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.13 Trade and other receivables

Trade and other receivables are amounts due from customers for goods sold in the ordinary course of business. If collection of trade and other receivables is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

2.14 Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realizable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2.15 Cash and cash equivalents

In the consolidated statement of cash flows, cash and cash equivalents include cash in hand and deposits held at call with banks.

2.16 Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.17 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trade and other payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.18 Borrowings and borrowing costs

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the profit or loss over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of reporting period.

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in the profit or loss in the period in which they are incurred.

2.19 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the profit or loss, except to the extent that it relates to items recognized as other comprehensive income or directly in equity. In this case the tax is also recognized as other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of reporting periods in the countries where the Group's entities operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of reporting periods and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.19 Current and deferred income tax (Continued)

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balance on a net basis.

2.20 Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

2.21 Derivative financial liabilities

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

Changes in the fair value of derivative instruments not qualified for hedge accounting are recognized immediately in the profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.22 Employee benefits

(a) Pension obligations

Full time employees of the Group's PRC entities participate in a government mandated multi-employer defined contribution plan pursuant to which certain pension benefits, medical care, unemployment insurance, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require the Group to accrue for these benefits based on certain percentages of the employees' salaries. Full time employees who have passed the probation period are entitled to such benefits.

The Group also participates in defined contribution schemes which are available to Hong Kong employees. Contributions are made based on a percentage of the employees' basic salaries or a fixed sum and are charged to the profit or loss as incurred. The assets of the schemes are held separately from those of the Group in an independently administered fund.

The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expenses when they are due and are reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Employee leaves entitlement

Employee entitlements to annual leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the reporting date. Employee entitlements to sick leave and maternity leave are not recognized until the time of leave.

(c) Bonus plans

The Group recognizes a liability and an expense for bonuses, based on performance and taking into consideration the profit attributable to the Company's shareholders after certain adjustments. The Group recognizes a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.23 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable for the sales of goods in the ordinary course of the Group's activities. Revenue is shown net of value added taxes and after eliminating sales within the Group. The Group recognizes revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

(a) Sales of goods

Revenue from the sales of goods is recognized when significant risks and rewards of ownership of the goods are transferred to the customer, and the customer has accepted the products and collectability of the related receivables is reasonably assumed.

(b) Interest income

Interest income is recognized on a time-proportion basis using the effective interest method.

(c) Rental income

Rental income from investment property is recognized when it is probable that future economic benefits will flow to the Group, taking into consideration of the credit quality and settlement history of the tenants, and on a straight-line basis over the term of the lease.

2.24 Leases – as a lessee

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit or loss on a straight-line basis over the period of the lease.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.25 Research and development costs

Costs associated with research are recognized as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique products controlled by the Group are recognized as intangible assets when the following criteria are met:

- It is technically feasible to complete the home decor products and electric fireplaces so that it will be available for use;
- Management intends to complete the home decor products and electric fireplaces and use or sell it;
- There is an ability to use or sell the home decor products and electric fireplaces;
- It can be demonstrated how the home decor products and electric fireplaces will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the home decor products and electric fireplaces are available; and
- The expenditure attributable to the home decor products and electric fireplaces during its development can be reliably measured.

Development expenditures that do not meet these criteria are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period.

2.26 Dividend distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the period in which the dividends are declared by the Directors in the case of interim dividends or approved by the Company's shareholders in the case of final dividends.

2.27 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognized because it is not probable that outflow of economic resource will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognized but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognized as a provision.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2.27 Contingent liabilities and contingent assets (Continued)

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain events not wholly within the control of the Group.

A contingent asset is not recognized but is disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When inflow is virtually certain, an asset is recognized.

3 FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

Risk management is carried out by the Group's management under the supervision of the Board of Directors. The Group's management identifies, evaluates and manages significant financial risks in the Group's individual operating units. The Board of Directors provides guidance for overall risk management.

(a) Market risk

(i) Foreign currency risk

The Company and all of its subsidiaries' functional currency is RMB and the major non-RMB assets and liabilities are cash and cash equivalents, trade and other receivables, borrowings and other payables denominated in Hong Kong dollar ("HKD") and the United States dollar ("USD").

The cash and cash equivalents, trade and other receivables, borrowings and other payables denominated in foreign currencies are subject to retranslation at each reporting date. Fluctuation of the exchange rates of RMB against foreign currencies could affect the Group's results of operations.

Management of the Group continues to monitor foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arises.

3 FINANCIAL RISK MANAGEMENT (Continued)

3.1 Financial risk factors (Continued)

(a) Market risk (Continued)

(i) Foreign currency risk (Continued)

As at 31 December 2016, if RMB had weakened/strengthened by 5% against HKD and USD, with all other variables held constant, the Group's post-tax loss for the year would have been approximately RMB5,464,000 higher/lower (2015: post-tax profit would have been approximately RMB3,192,000 higher/lower), mainly as a result of net foreign exchange losses/gains on translation of HKD and USD denominated cash and cash equivalents, trade and other receivables, borrowings and other payables.

(ii) Interest rate risk

Cash flow and fair value interest rate risk refers to the changes in cash flows or fair value of a financial instrument as a result of fluctuations in market interest rates.

Pledged deposits, cash and cash equivalents and borrowings at fixed rates expose the Group to fair value interest-rate risk, and those at variable rates expose the Group to cash flow interest-rate risk.

The Group currently does not use any derivative contracts to hedge its exposure to interest rate risk. Management monitors interest rate fluctuations to ensure that exposure to interest rate risk is within an acceptable level and will consider hedging significant interest rate exposure should the need arises.

As at 31 December 2016, if interest rates on cash and cash equivalents and borrowings with floating rates had been 100 basis-points higher/lower with all other variables held constant, the Group's post-tax loss for the year would have been approximately RMB6,369,000 higher/lower (2015: post-tax profit would have been approximately RMB5,492,000 lower/higher).

3 FINANCIAL RISK MANAGEMENT (Continued)

3.1 Financial risk factors (Continued)

(b) Credit risk

Credit risk mainly arises from cash and cash equivalents, trade receivables and other receivables. The carrying amounts of each of these financial assets represent the Group's maximum exposure to credit risk in relation to its financial assets.

For credit risks in respect of cash and cash equivalents, the Group managed the risk by placing cash and cash equivalents with major local banks and state-owned banks in the PRC and Hong Kong with good credit standing. For credit risk in respect of trade receivables from customers and other receivables, the Group has policies in place to ensure that sales or transactions are made to reputable and credit-worthy customers or counter-parties with an appropriate financial strength and credit history. The management is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. In order to minimize the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts.

In addition, The Group actively monitors the financial situations of its customers who are affected by the market downturn by regularly reviews the credit profiles, business prospects, background and financial capability of the customers. As a result, management has made a provision for doubtful debts of RMB2,378,000 (2015: Nil) for one of the customers during the year ended 31 December 2016.

As at 31 December 2016, there were 2 customers (2015: 1) which individually contributed over 10% of the Group's trade receivables. The amount of trade receivables from these customers amounted to 27% (2015: 17%) of the Group's total trade receivables. The Group had assessed the credit quality of this customer, taking into account their financial positions, past experience and other factors, and considered that the credit risk is limited.

3 FINANCIAL RISK MANAGEMENT (Continued)

3.1 Financial risk factors (Continued)

(c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and through collection from customers. The Group finances its working capital requirements through a combination of funds generated from operations, borrowings (Note 27) and capital injection from owners of the Company. The Group maintains sufficient banking facilities to manage its working capital requirements.

The table below analyzes the Group's non-derivative financial liabilities into relevant maturity grouping based on the remaining period at the end of reporting periods to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1 year or repayable on demand RMB'000	Between 1 to 2 years RMB'000	Between 2 to 5 years RMB'000	Over 5 years RMB'000	Carrying amount RMB'000

	210,660	–	–	–	208,780

3 FINANCIAL RISK MANAGEMENT (Continued)

3.2 Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Directors of the Company regularly monitor the capital structure, which consists of the equity attributable to the Company's shareholders as disclosed in the consolidated statement of financial position. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, issue new shares or dispose of assets to reduce debts.

The Group monitors capital on the basis of the gearing ratio. The ratio is calculated as total debt divided by total equity. Total debt includes all interest bearing borrowings. Total capital represents total equity as shown in the consolidated statement of financial position. The Group's strategy is to maintain a gearing ratio of below 20%.

	2016 **RMB'000**	2015 RMB'000
Total debt	**176,071**	49,000
Total equity	**2,253,465**	2,346,528
Gearing ratio	**7.8%**	2.1%

As at 31 December 2016, the increase in gearing ratio was mainly resulted from increase in borrowings.

4 FAIR VALUE ESTIMATION

The Group's financial instruments carried at fair value as at balance sheet date are measured by the inputs to valuation techniques. Such inputs are categorized into three levels within a fair value hierarchy as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

There has been no transfer of financial assets and liabilities between levels 1, 2 and 3 during the year.

4 FAIR VALUE ESTIMATION (Continued)

Assets and liabilities held by the Group using the fair value method include investment property and assets classified as held for sale (Notes 16 and 23). In addition, management also performed an impairment assessment on the Group's property, plant and equipment in Anhui and the assessment involved fair value method. Details of which are disclosed in Note 15.

For other current financial assets of the Group, including trade and other receivables, pledged deposits, cash and cash equivalents, and current financial liabilities of the Group including trade and other payables and short-term borrowings approximate their fair values due to their short term maturities.

The Group does not have any financial assets/liabilities that are subject to offsetting, enforceable master netting arrangements and similar agreements during the year.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next year are discussed below.

5.1 Impairment of non-financial assets

The Group follows the guidance of HKAS 36 "Impairment of Assets" to determine when assets are impaired, which requires significant judgment.

For the year ended 31 December 2016, the Group's operation in Anhui, which represents a separate CGU, has been making losses in two consecutive years and management considers that there is an indicator that property, plant and equipment located in Anhui may be impaired. Therefore, management has performed an impairment assessment on the property, plant and equipment of that CGU and an impairment provision of RMB54,039,000 has been made as at 31 December 2016. Details of the assessment are disclosed in Note 15.

5.2 Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives, and related depreciation and amortization charges for its property, plant and equipment. The estimates are based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. Management will increase the depreciation and amortization charges where useful lives are less than previously estimated lives. It will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold. Actual economic lives may differ from estimated useful lives. Periodic review could result in a change in depreciable and amortization lives and therefore affect the depreciation and amortization charges in future periods.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (Continued)

5.3 Provision for impairment of receivables and deposits

Significant judgment is exercised on the assessment of the collectability of trade receivables from each customer or counterparty. In making its judgment, management considers a wide range of factors such as results of follow-up procedures performed by sales personnel, payment trends including subsequent payments and customers' or counterparties' financial position.

5.4 Income taxes and deferred income taxes

Significant judgment is required in determining the provision for income taxes and deferred income taxes. There are many transactions and calculations for which the ultimate determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the income tax and deferred income tax provisions in the period in which such determination is made.

Deferred income tax liabilities have not been established for withholding tax that would be payable on certain profits of PRC subsidiaries to be repatriated and distributed by way of dividends as the Directors consider that the timing of the reversal of the related temporary differences can be controlled and such temporary differences will not be reversed in the future.

If those undistributed earnings of the PRC subsidiaries are considered to be repatriated and distributed by way of dividends, deferred income tax liabilities would have been increased by approximately RMB49,688,000 (2015: RMB49,981,000).

5.5 Fair value of investment property

The Group carries its investment property at fair value with changes in the fair value recognized in the profit or loss. Independent valuations are performed at least once a year. In making the judgment, consideration is given to assumptions that are mainly based on market conditions existing at the end of reporting period, expected rental from future leases in the light of current market conditions and appropriate capitalization rates. Changes in subjective input assumptions can materially affect the fair value estimate. The key assumptions used in the valuation in determining the fair value of the Group's investment of property are set out in Note 16.

6 SEGMENT REPORTING

Management has determined the operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

The chief operating decision-maker is identified as the executive directors of the Company. The executive directors consider the business from a product perspective and assess the performance of the operating segments based on a measure of revenue and segment results.

The Group's two reportable operating segments are as follows:

Electric fireplaces and air purifiers	–	Design, development, manufacturing and sales of electric fireplaces and air purifiers
Home decor products	–	Design, development, manufacturing and sales of home decor products and humidifiers

Other activities primarily relate to investment in an associate, provision of corporate services for investment holding companies and holding corporate assets and liabilities. Corporate assets and liabilities mainly include investment property held for rental income, investment in an associate, property, plant and equipment and land use rights for corporate use. These activities are excluded from the reportable operating segments.

Segment assets consist primarily of certain property, plant and equipment, land use rights, inventories, trade receivables, deposits, prepayments and other receivables, pledged deposits and cash and cash equivalents. They exclude investment property, investment in an associate and other assets for corporate functions.

Segment liabilities consist primarily of trade and other payables. They exclude current income tax liabilities, deferred income tax liabilities, general borrowings and other liabilities for corporate functions.

All non-current assets of the Group are located in the PRC.

No provision for Hong Kong profits tax has been made as the Group does not have any assessable profits in Hong Kong for the year (2015: Nil).

(iii) PRC enterprise income tax ("EIT")

Under the Enterprise Income Tax Law of the PRC (the "New EIT Law"), the applicable income tax rate for the Group's entities in the PRC, except for Allen Electronics Co., Ltd. Fujian, is 25%.

Pursuant to the New EIT Law, with respect to a new and high technology enterprise, the tax levied on its income will be charged at a preferential rate of 15% after obtaining the High New Technology Enterprise Certificate (the "Certificate") and completing the tax reduction and exemption filing with the tax authorities. Allen Electronics Co., Ltd. Fujian obtained the Certificate on 5 September 2013 and renewed the Certificate on 1 December 2016. The Certificate will expire on 30 November 2019.

(iv) Withholding tax on distributed profits

Pursuant to the New EIT Law, a 10% withholding tax is levied on dividends declared by PRC companies to their foreign investors. A lower withholding tax rate of 5% is applicable if direct foreign investors with at least 25% equity interest in the PRC company are incorporated in Hong Kong and meet the relevant requirements pursuant to the tax arrangement between the PRC and Hong Kong. Since the equity holder of the PRC subsidiaries of the Company is a Hong Kong incorporated company, the Company has used 5% to provide for deferred tax liabilities on retained earnings which are anticipated to be distributed as at 31 December 2016 and 2015.

12 INCOME TAX EXPENSE (Continued)

The income tax on the Group's (loss)/profit before income tax differs from the theoretical amount that would arise using the domestic tax rates applicable to profits of the Group's entities as follows:

	2016 RMB'000	2015 RMB'000
(Loss)/profit before income tax	(93,374)	367,224
Add: share of loss of an associate (Note 18)	533	–

Under/(over) provision in prior years	484	(889)
Withholding tax	654	4,077
Tax charge	2,144	68,231

13 (LOSS)/EARNINGS PER SHARE

Basic (loss)/earnings per share is calculated by dividing the (loss)/profit attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year.

	2016 RMB'000	2015 RMB'000
(Loss)/profit attributable to owners of the Company	**(95,518)**	298,993
Weighted average number of ordinary shares in issue (in thousands)	**1,983,005**	1,885,773
Basic (loss)/earnings per share (expressed in RMB per share)	**(0.05)**	0.16

Note:

Diluted earnings/(loss) per share for the years ended 31 December 2015 and 2016 equal the basic earnings/(loss) per share as there were no dilutive potential ordinary shares outstanding during the years.

14 DIVIDEND

Dividend declared and proposed:

	2016 RMB'000	2015 RMB'000
Final dividend, proposed after the end of the reporting period, Nil (2015: HKD1.5 cents) per ordinary share	**–**	25,423

On 22 March 2016, the Board of Directors proposed a final dividend of HKD1.5 cent per ordinary share, totaling HKD29,700,000 (equivalent to approximately RMB25,423,000). Such dividend was approved by the shareholders at the annual general meeting of the Company on 10 May 2016 and paid in July 2016.

The Directors do not recommend the payment of a final dividend for the year ended 31 December 2016.

15 PROPERTY, PLANT AND EQUIPMENT (Continued)

Notes:

(a) Depreciation expenses have been charged to the consolidated statement of comprehensive income as follows:

	2016 RMB'000	2015 RMB'000
Cost of sales	7,522	7,591
Administrative expenses	17,564	12,587
Selling and distribution costs	43	84
	25,129	20,262

(b) As at 31 December 2016, the Group had property, plant and equipment of approximately RMB428,006,000 located in Anhui, the PRC. For the year ended 31 December 2016, the Group's operation in Anhui, which represents a separate CGU, has been making losses in two consecutive years and management considers that there is an impairment indicator on property, plant and equipment in Anhui. Therefore, management has performed an impairment assessment on the property, plant and equipment of that CGU. In view of the current status of that CGU, management considered that the recoverable amount of that CGU calculated based on fair value less costs of disposal would be higher than the amount estimated by using value-in-use calculation. Therefore, management decided to determine the recoverable amount of that CGU based on fair value less costs of disposal.

To determine the recoverable amount, management has engaged an independent professional valuer ("Valuer") to perform a valuation, taking into account the current status of the assets and market price or transactions for similar assets. The valuation is categorized under level 2 of the fair value hierarchy.

Based on the result of the assessment, the recoverable amount of the assets of that CGU is lower than its carrying amount by RMB54,039,000. Therefore, management has provided an impairment provision of RMB54,039,000 for the property, plant and equipment.

(c) As at 31 December 2016, bank borrowings (2015: bank borrowings and bills payable) are secured by certain property, plant and equipment with an aggregate net book value of approximately RMB101,825,000 (2015: RMB81,365,000) (Notes 26 and 27)

16 INVESTMENT PROPERTY

Movements in the carrying amounts of investment property are summarized as follows:

	2016 RMB'000	2015 RMB'000
At 1 January	**122,400**	122,100
Fair value (loss)/gain	**(12,000)**	300
At 31 December	**110,400**	122,400

Investment property was valued at 31 December 2016 by an independent professionally qualified valuer, Roma Appraisals Limited, who is a member of the Hong Kong Institute of Surveyors and has appropriate qualifications and recent experiences in the valuation of similar properties.

Management reviews the valuation performed by the independent valuer for financial reporting purposes. The review includes verification of all major inputs to the valuation, assessing property valuation movements and discussions with the independent valuer. Management considers that the current use of the investment property equates the best use.

The valuation of the investment property as at 31 December 2016 is determined using income approach based on significant unobservable inputs and is recognized under level 3 of the fair value hierarchy. The directors and the valuer consider that it is appropriate to use income approach since management will hold the investment property for long-term rental yield and will not dispose of the investment property in the short run.

The key unobservable inputs of the valuation include reversionary yield of approximately 13% (2015: 11%), expected zero vacancy rate (2015: zero) and average monthly rental of RMB21 (2015: RMB26) per square meter during reversionary period. These assumptions are estimated by the valuer based on the risk profile of the property being valued.
