GEOGRAPHICAL DESTINATION OF PRODUCTS

The Group is principally engaged in the design, manufacture and sale of magnetics used in consumer electronics, data processing appliances and other electronics systems for coupling, isolation, filtering, interfacing and timing control applications. All of the Group's magnetics are sold under its own brandname "Datatronics". A majority of the Group's products are customized magnetics tailored-made according to the requirements and specifications of its customers. The Group also offered standard catalogue magnetics to its customers.

The Group focuses on the high-end segment of the magnetics industry. It has a customer base over 300 customers comprising manufacturers of telecommunication and data processing equipment, technology equipment, motor vehicles, aerospace and medical equipment.

The Group's world-class design and manufacturing capabilities, together with the breadth of its product offerings, provide her with a competitive advantage that enable her to anticipate and deliver highly customized solutions for their customers' product needs. In addition, their global presence enable them to participate in many relevant product and geographic markets and provide her with proximity to their global customer base.

THE GROUP'S PRODUCT LINE

The Company designs and manufactures both standard and customized magnetic components in a large variety of products:

- Transformers
- Lan Filter Modules
- Digital Delay Modules
- Inductors/Chokes
- ASDL Transformer
- Planar Magnetics
- Magnetics for Aviation Applications
- Magnetic Components for DC/DC Converters
- Magnetics for Hybrid Network Assemblies
- Magnetics for Power Conversion
- Magnetics for Energy Savings
- Magnetics for Medical Devices/Equipment
- Magnetics for Internet Equipment
- Magnetics for Data Acquisition/Transmitter and Signal Conditioning

GENERAL

MARKETS SERVED

The Company's products to-day find application in a wide range of state-of-the-art electronic equipment that include the following:

- Telecommunications
- Communications
- Aerospace
- Instrumentation
- Industrial Equipment

The directors consider the following to be the key factors contributing to the Group's success:

- the extensive experience and expertise of the Group's management team in the magnetics industry;
- its well-established business relationship with customers;
- its forefront technology and technical know-how to assist and bridge its customers to new technologies;
- its ability to satisfy customers' needs by offering customized products that meet their reliability, quality and delivery requirements;
- its logistic center located in Southern California, U.S. and Paris, France to support delivery and service to customers;
- the wide range of product it offers;
- "Just-in-time" delivery and "Ship-to-stock" Program certified with numerous key customers;
- its reputation for high quality and high reliability products;
- "One stop solution";
- capacity to grow due to more demands for high reliability products in U.S. and Europe;
- cost competitive;
- the barrier of entrance for competitors is very high; and
- its established relationship with major suppliers which enables the Group to obtain a stable supply of materials for the Group's products.

CHAIRMAN'S STATEMENT

OVERVIEW

Datronix is pleased to report to our shareholders that the Group achieved a profit after tax of HK\$21.9 million (2015: HK\$2.8 million) for the year ended 31 December 2016. Notwithstanding the softened demand that challenged our sales, our Group continued to reduce operating costs, increase manufacturing flexibility and remain price competitive.

Revenue for year 2016 reported at HK\$267.0 million, compared to HK\$279.7 million in same period of last year. As the global commodity price decreased, along with the labor cost decreased, the Group reached a gross margin of 37.1% in 2016, while it was 34.6% in 2015. Our operating profits ended at HK\$25.9 million as a result of decrease in depreciation of the Renminbi deposits, decrease in the fair value loss on investment property, and receipt of rental income; while offset by decrease in interest income.

Financial position of Datronix remained solid with cash balance of HK\$367.3 million and there is no issuance on debt for year 2016.

MARKET REVIEW

Communication and Networking

Communication segment reported HK\$74.0 million for year 2016, compared to HK\$81.0 million in 2015. This segment contributed 28% of the Group's total turnover. The communication and networking customers showed a weakening demand in 2016.

Data Processing

Sales for this segment were HK\$14.0 million in 2016, compared to HK\$18.0 million in 2015. Data processing segment contributed 5% of the Group's turnover.

Industrial Application

Industrial application segment sales reported HK\$102.7 million in 2016 compared to HK\$111.5 million in 2015. The industrial application segment customers showed signs of slow down in 2016. This segment contributed 38% of the Group's total turnover.

High Precision and Reliability Segment

This segment demands precise technology, advance technical know-how and good workmanship by the Group. The sophistication of workmanship aids the Group to achieve a higher margin on our products. Our previous investment and development in the healthcare industry has shown signs of return. Sales on high reliability segment has reported HK\$76.3 million in 2016, compared to HK\$69.2 million in 2015 an improvement of 10.4%. This segment contributed 29% of the Group's turnover.

CHAIRMAN'S STATEMENT

ACHIEVEMENT AND AWARDS

In recognition of our quality, value of our products and of the Group's service and performance, Datronix has to date received 40 awards from our customers.

LOOKING FORWARD

Under the new U.S. administration that brings more uncertainty to the global economy and trade, Datronix needs to plan and position ourselves better. Though our customer's drive to reduce costs may incur, we continue to explore new opportunities by providing superb quality and extraordinary customer service to increase business.

We would like to take this opportunity to thank our shareholder, business partners, customers and bankers for their continuous support to the Group and to all the staff for their contributions for the past year.

MANAGEMENT DISCUSSION & ANALYSIS

BUSINESS AND FINANCIAL REVIEW

Notwithstanding the softened demand that challenged our sales, our Group continued to reduce operating costs, increase manufacturing flexibility and remain price competitive. Revenue for year 2016 reported at HK\$267.0 million, a decrease of 5% compared to HK\$279.7 million in same period of last year. Gross profit was HK\$99.2 million for year 2016, an improvement of 2% from 2015 due to reduction in production cost. Our operating profit increased to HK\$25.8 million, an increase from HK\$5.8 million in 2015, due to reduction in exchange loss and investment property valuation. Profit attributable to shareholders reached HK\$21.9 million in 2016 while we reported HK\$2.8 million in 2015.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 31 December 2016, the Group had a total equity of approximately HK\$729 million (2015: HK\$725 million), and cash and cash equivalents of approximately HK\$367 million (2015: HK\$340 million), which were predominately denominated in US dollars and Renminbi.

For the year ended 31 December 2016, the Group had not arranged for any banking facilities and other resources for financing. With the above cash on hand, the Group has adequate resources to meet its working capital needs in the near future.

The Group has strong financial position. There were no bank and other loan for the year ended 31 December 2016.

The Group had limited exposure to foreign exchange fluctuations in normal business transactions as most of its accounts receipts and payments are in US dollars.

EMPLOYEES AND REMUNERATION POLICY

As at 31 December 2016, the Group employed approximately 1,087 personnel around the world, with approximately 113 in Hong Kong, 940 in the PRC and 34 overseas. The Group has a staff education sponsorship program and also provides training courses to staff on operation system, product and technology development, and product safety.

The remuneration policy for the Group's employees is reviewed by management on a regular basis. Competitive remuneration packages will be offered to employees based on business performance, market practices and the performance of individual employees. The Group has adopted a mandatory provident fund scheme for its Hong Kong employees.

CONTINGENT LIABILITIES

The Group did not have any material contingent liability as at 31 December 2016 (2015: Nil).

CAPITAL COMMITMENTS

The Group did not have any capital commitment outstanding at the year end and contracted but not provided for property, plant and equipment in the financial statement (2015: Nil).

DIRECTORS' REPORT

CONNECTED TRANSACTIONS

The related party transactions disclosed in note 28, Related Party Transactions, item (a) of Sales to DRI, to the financial statements constituted connected transactions under Chapter 14A of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules").

Datatronic Limited ("DL"), a wholly owned subsidiary of the Company, and Datatronics Romoland, Inc. ("DRI") entered into a 6th Datatronic Master Supply Agreement on 3 September 2013 ("the 6th Datatronic Master Supply Agreement") which superseded the 5th Master Supply Agreement dated 28 September 2010 in respect of the supply of magnetics to DRI by DL.

The 6th Datatronic Master Supply Agreement for a fixed term of three years from 1 January 2014 and on effectively the same terms and conditions of the Master Supply Agreement, 2nd Master Supply Agreement, 3rd Master Supply Agreement, 4th Master Supply Agreement and 5th Master Supply Agreement, was entered into on 3 September 2013 superseding the 5th Master Supply Agreement until terminated by either party giving to the other party not less than three months' written notice. Pursuant to the 6th Datatronic Master Supply Agreement, the selling prices of the magnetics under the Datatronic Master Supply Agreement are to be agreed between DL and DRI. DL will determine the price of the magnetics required by DRI according to its pricing policy of obtaining a reasonable profits margin for its sales in accordance with the prevailing market conditions, on normal commercial terms and at arm's length basis. DL would ascertain the prevailing market conditions by comparing the sales prices of the other customers of DL (the "Other Price") and those of similar products in the market in general (the "Market Price"). Benchmark on reasonable profits margin is set. DL would closely monitor the sales activities of its customers and would get research reports on its major customers who are listed companies in the US from time to time so as to ascertain the prevailing market conditions. DL will take into account all the factors stated above which include the Other Price and the Market Price and make sure that the profit margin obtained is no less favorable to the Group when compared with the Other price and the Market Price. The Group is granted a first refusal right by DRI to the effect that only if DL declines to supply the magnetics, DRI may source the same from any third-party supplier, provided that the terms of purchase shall not be more favourable than those offered to DL. The total purchases made by DRI under the 6th Datatronic Master Supply Agreement during the year ended 31 December 2016 was approximately HK\$53,122,000 (2015: HK\$45,004,000).

Innovative Power Inc. ("IPI"), a wholly owned subsidiary of the Company, and DRI entered into a IPI Master Supply Agreement on 3 September 2013 ("the IPI Master Supply Agreement") in respect of the supply of telemetric coil and perfect layered wounds coils and provide technological services to DRI by IPI.

DIRECTORS' REPORT

CONNECTED TRANSACTIONS – CONTINUED

The IPI Master Supply Agreement is for an initial term of three years from 1 January 2014 and shall continue thereafter until terminated by either party giving the other party not less than three months' written notice. Any continuation after the initial term shall also be subjected to Independent Shareholders' approval. Pursuant to IPI Master Supply Agreement, IPI has agreed to sell products and/or to provide technological services to DRI for a three years term up to 31 December 2016 and subject to the terms and condition set out therein at a price to be agreed by the parties. IPI will determine the price of the products required by DRI according to its pricing policy of obtaining a reasonable profits margin for its sales in accordance with the prevailing market conditions, on normal commercial terms and at arm's length basis. IPI would ascertain the prevailing market conditions by comparing the Other Price and Market Price. Benchmark on reasonable profits margin is set. IPI would closely monitor the sales activities of its customers and would get research reports on its major customers who are listed companies in the US from time to time so as to ascertain the prevailing market conditions. IPI will take into account all the factors stated above, namely the Other Price and the Market Price and make sure that the profit margin obtained is no less favorable to the Group when compared with the Other price and the Market Price. In relation to the technological service fee, IPI would determine the same by reference to the actual time spent by the in-house expertise and the degree of complication of the services rendered. IPI would determine the service fee by reference to fees charged by IPI for similar services and by reference to the fee charged by other companies providing service in similar nature. Under the IPI Master Supply Agreement, IPI is granted a first refusal right by DRI to the effect that only if the IPI declines to supply the magnetics, DRI may source the same from any third-party supplier, provided that the terms of purchase shall not be more favourable than those offered to IPI. The total purchases made by DRI under IPI Master Supply Agreement during the year ended 31 December 2016 was approximately HK\$24,000 (2015: HK\$114,000).

The Directors, including the Independent Non-executive Directors, of the Company have reviewed the connected transactions and have confirmed that the connected transactions were entered into:

- (i) in the ordinary and usual course of business;
- (ii) on terms no less favourable than those available to independent third parties; and
- (iii) on terms that are fair and reasonable and in the interests of the shareholders as a whole.

DIRECTORS' REPORT

CONNECTED TRANSACTIONS – CONTINUED

In accordance with Rule 14A.56 of the Listing Rules, the auditor of the Company provided a letter to the Board of Directors confirming that the continuing connected transactions:

1. nothing has come to its attention that the transactions have not been approved by the Board;
2. nothing has come to its attention that the transactions were not, in all material respects, in accordance with the pricing policies of the Company;
3. nothing has come to its attention that the transactions were not entered into, in all material respects, in accordance with the relevant agreements governing the transactions; and
4. nothing has come to its attention that the transactions have exceeded the maximum aggregate annual value disclosed in the previous announcement date 3 September 2013 made by the Company in respect of the disclosed continuing connected transactions.

COMPETING BUSINESS

AUDITOR

The financial statements have been audited by BDO Limited. A resolution for its reappointment as the Company's auditors for the ensuing year is to be proposed at the forthcoming Annual General Meeting.

On behalf of the Board

Siu Paul Y.

Chairman

Hong Kong, 22 March 2017

CORPORATE GOVERNANCE REPORT

The Directors recognise the importance of incorporating elements of good corporate governance in the management structure and internal control procedures of the Group so as to achieve effective accountability. The Directors continuously observe the principles of good corporate governance in the interests of the Company and its shareholders and devote considerable efforts to identifying and formalizing best practice.

During the year, the Company has complied with the code provisions set out in the Corporate Governance Code (the “Code”) as contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) except for the following deviation:

Code Provision A.2.1

Under the provision A.2.1, the roles of chairman and chief executive officer should be separate and should not be performed by the same individual.

The roles of chairman and chief executive officer of the Company have been performed by Mr. Siu Paul Y.. The Board considered that the non-segregation has the advantage of a strong and consistent leadership which is conducive to making and implementing decisions quickly and consistently.

Code Provision A.4.1

The non-executive directors were not appointed for specific terms but are subject to retirement by rotation and re-election at the annual general meetings of the Company in accordance with the Bye-laws of the Company.

Code Provision A.4.2

Under the provision A.4.2, all directors appointed to fill a casual vacancy should be subject to election by shareholders at the first general meeting after their appointment and every director, including those appointed for a specific term, should be subject to retirement by rotation at least once every three years.

In accordance with the Bye-laws of the Company, the chairman of the Company will not be subject to retirement by rotation or be taken into account in determining the number of directors to retire in each year.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (“the Model Code”) as set out in Appendix 10 to the Listing Rules. All directors have confirmed, following specific enquiry of all directors, that they have fully complied with the required standard set out in the Model Code throughout the year.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE REPORT

NOMINATION COMMITTEE – CONTINUED

The Nomination Committee had reviewed the structure, size and the composition of the Board in consideration of re-election of retiring Directors in 2016 Annual General Meeting and reviewed the Board Diversity Policy of the Company during the year.

Board Diversity Policy

During the year, the Board reviewed a board diversity policy. All Board appointments will continue to be made on meritocracy and selection of candidate will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The nomination committee will review the board diversity policy, as appropriate, to ensure its continued effectiveness from time to time.

CORPORATE GOVERNANCE FUNCTION

The Board is responsible for performing the corporate governance duties as set out in the Code which includes to develop and review the Group's policies and practices on corporate governance, to review and monitor the training and continuous professional development of the Directors and senior management; to review and monitor the Group's policies and practices on compliance with legal and regulatory requirements; to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees and directors and to review the Group's compliance with the Code and disclosure in this Corporate Report.

AUDITOR'S REMUNERATION

During the year under review, the remuneration paid to the Company's auditor, Messrs. BDO Limited, is set out as follows:

Services rendered	Fees paid/ payable HK\$'000
Audit services	760

INTERNAL CONTROL AND RISK MANAGEMENT

The Board is responsible for overseeing the Company's system of internal control.

To facilitate the effectiveness and efficiency of operations and to ensure compliance with relevant laws and regulations, the Group emphasizes on the importance of a sound internal control system which is also indispensable for mitigating the Group's risk exposures. The Group's system of internal control is designed to provide reasonable, but not absolute, assurance against material misstatement or loss and to manage and eliminate risks of failure in operational systems and fulfilment of the business objectives.

The internal control system is reviewed by the Board in order to make it practical and effective in providing reasonable assurance in relation to protection of material assets and identification of business risks. The Board is satisfied that, based on information furnished to it and on its own observations, the present internal controls of the Group are satisfactory.

CORPORATE GOVERNANCE REPORT

INTERNAL CONTROL AND RISK MANAGEMENT – CONTINUED

The Group is committed to the identification, monitoring and management of risks associated with its business activities and has implemented a practical and effective control system which includes a defined management structure with limits of authority, a sound cash management system and periodic review of the Group's performance by the Audit Committee and the Board.

The Company does not have an internal audit function and is currently of the view that there is no immediate need to set up an internal audit function within the Group in light of the size, nature and complexity of the Group's business. It was decided that the Board would be directly responsible for internal control of the Group and for reviewing its effectiveness.

The Board has conducted review of the effectiveness of the system of internal control system and risk management system and is of the view that the systems of internal control and risk management adopted for the year ended 31 December 2016 are sound and are effective to safeguard the interests of the shareholders' investment and the Company's assets. Such review is conducted annually and cycles reviewed are under rotation basis. The scope of review was previously determined and approved by the Board.

The Audit Committee has received the risk management and internal control evaluation reports submitted by the management of the Company. The reports summarised information relating to the work carried out in the following areas:

1. the results of selective testing of internal control procedures, operation, and financial records of the Company;
2. a general evaluation of risk management and internal control systems installed by the Company; and
3. an outline of major control issues, if any, noticed during the year under review.

The Audit Committee has reviewed the reports and discussed with the management. The Audit Committee acknowledged that the management has been progressively implementing adequate and effective risk management and internal control systems in order to ensure the effective functioning of the Company's operations.

COMPANY SECRETARY

Ms. Leung Sau Fong is the Company Secretary of the Company. Ms. Leung is a director of a corporate secretarial services provider in Hong Kong. The primary contact person of the Company with Ms. Leung is Mr. Siu Paul Y., the Chairman and Chief Executive Officer of the Company.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

ENVIRONMENTAL, SOCIAL AND GOVERNANCE POLICY

Environment, Social and Governance are essential parts of our business. They form the pillars for our sustainable growth. At Datronix, we believe that we have an obligation – to our employees, our communities, our investors, our customers and the environment – to operate in a sustainable manner.

Sustainability at Datronix is based on our guiding principles: reducing our environmental impact through resources conservation and waste reduction, creating a healthy and safe working environment; operating profitably; fostering a culture of involvement in sustainability through stakeholder engagement; and enabling our customers to become more sustainable through their use of our products.

ENVIRONMENT

We continue to develop our products with better environmental, health and safety performance for both employees and customers. During the manufacturing and the use of our products, we continue to find ways to reduce the pollutions and carbon emissions. Throughout our production lines and offices, we are committed to enhancing the efficiency of the use of energy, materials and other natural resources and measuring and minimizing our environmental impact wherever possible. In our product supply chain, we continue to increase the tracking of sustainability of our suppliers by using reporting metrics to ensure our suppliers are operating in a sustainable way.

SOCIAL

We engage our employees, customers, regulators, business partners and community through variety of stakeholder engagement channels. We strive to provide equal opportunities to employees regardless of gender, race, national or ethnic origin, religion, cultural background, disability, marital status, family status, sexual orientation, age or political opinion.

COMPLIANCE

We adopt a combination of self and third party audits and certifications systems to ensure the legal and corporate compliance are fulfilled and report the results of compliance together with our environmental, social and governance performance to employees, executive management and other stakeholders on regular basis.

We acknowledge that achieving our goals and objectives will require many changes to be made over time. However we strongly believe that our environmental, social and governance efforts serve the interests of both current and future generations and constitute the foundation for the long-lasting success.

TO THE SHAREHOLDERS OF DATRONIX HOLDINGS LIMITED

(incorporated in Bermuda with limited liability)

OPINION

We have audited the consolidated financial statements of Datronix Holdings Limited (the "Company") and its subsidiaries (the "Group") set out on pages 40 to 98, which comprise the consolidated statement of financial position as at 31 December 2016, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment testing of goodwill

Refer to note 18 to the consolidated financial statements

The Group had goodwill of approximately HK\$9,486,000 arising from the Company's acquisition of a business in 2012 at consideration of approximately HK\$12,327,000 (equivalent to US\$1,600,000).

Management concluded that there was no impairment of the goodwill based on the recoverable amount of the cash-generating unit ("CGU") which was determined by a value-in-use calculation based on cash flow projections from formally-approved budgets covering a five-year period. The preparation of cash flow projections requires significant management judgement with respect to assumptions in relation to discount rate and underlying cash flows, in particular future operating margin and growth rate.

Our response:

Our procedures in relation to management's impairment assessment included:

- Assessing the valuation methodology;
- Challenging the reasonableness of the key assumptions based on our knowledge of the business and industry; and
- Reconciling input data to supporting evidence, such as approved budgets, and considering the reasonableness of these budgets.

We found the assumptions made by management in relation to the value-in-use calculation were reasonable based on available evidence. The significant inputs are appropriately disclosed on page 79.

INDEPENDENT AUDITOR'S REPORT

KEY AUDIT MATTERS – CONTINUED**Impairment testing of inventories**

Refer to note 20 to the consolidated financial statements

The Group had inventories of approximately HK\$77,963,000 which consist of raw materials, work-in-progress and finished goods.

The Group's management writes down slow moving or obsolete inventories based on an assessment of net realisable value. Inventory will be written down where events or changes in circumstances indicate that the net realisable value is less than cost. The determination of net realisable value requires the use of judgment and estimates. The change in estimation will impact carrying value of the inventories and may lead to a revision of the amount of inventories written down in the period. The Group recognised an impairment loss on inventory of approximately HK\$2,753,000 for the year.

Our response:

Our procedures in relation to management's impairment assessment included:

- Assessing the reasonableness of the inventory provision policy applied by the management;
- Discussing with operating staff or managers who have knowledge of the condition of inventories, utilisation pattern and turnover days and considering whether the provisions made by management are consistent with those assessments made by operating personnel;
- Assessing the ageing of inventories prepared by management;
- Observing obsolete inventories by performing physical inventory inspection; and
- Challenging the reasonableness of the written down amount recognised for the year.

We found that management's estimation of net realisable value and impairment loss of inventories are reasonable based on the available evidence.

INDEPENDENT AUDITOR'S REPORT

OTHER INFORMATION IN THE ANNUAL REPORT

The directors are responsible for the other information. The other information comprises the information in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

DIRECTORS' RESPONSIBILITIES FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The audit committee of the Company (the "Audit Committee") assists the directors in discharging their responsibilities in this regard.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 90 of the Bermuda Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS – CONTINUED

- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

1. GENERAL

Datronix Holdings Limited (the “Company”) was incorporated in Bermuda on 15 February 2000 as an exempted company with limited liability under the Companies Act 1981 of Bermuda (as amended). Its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) since 22 June 2001.

The Company is an investment holding company. Its subsidiaries are principally engaged in the manufacturing of electronic components in the People’s Republic of China (the “PRC”) and trading of electronic components to customers in the United States of America (the “US”), Europe, Hong Kong and other countries. The Company and its subsidiaries are collectively referred to as the Group.

The address of its registered office is Clarendon House, 2 Church Street, Hamilton HM11, Bermuda. The address of its principal place of business is 19th Floor, North Point Industrial Building, 499 King’s Road, North Point, Hong Kong.

The Company’s immediate and ultimate holding company is Onboard Technology Limited, a company incorporated in British Virgin Islands. The Company’s ultimate controlling party is Mr. Siu Paul Y.

Amendments to HKFRS 10, HKFRS 12 and HKAS 28	Investment Entities: Applying the Consolidation Exception
Amendments to HKFRS 11	Accounting for Acquisitions of Interests in Joint Operations
HKFRS 14	Regulatory Deferral Accounts

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – CONTINUED**(a) Adoption of new/revised HKFRSs – effective 1 January 2016 – Continued**
Amendments to HKAS 1 – Disclosure Initiative

The amendments are designed to encourage entities to use judgement in the application of HKAS 1 when considering the layout and content of their financial statements.

Included in the clarifications is that an entity’s share of other comprehensive income from equity accounted interests in associates and joint ventures is split between those items that will and will not be reclassified to profit or loss, and presented in aggregate as a single line item within those two groups.

The adoption of the amendments has no impact on these financial statements.

Amendments to HKAS 16 and HKAS 38 – Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments to HKAS 16 prohibit the use of a revenue-based depreciation method for items of property, plant and equipment. The amendments to HKAS 38 introduce a rebuttable presumption that amortisation based on revenue is not appropriate for intangible assets. This presumption can be rebutted if either the intangible asset is expressed as a measure of revenue or revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendments are applied prospectively.

The adoption of the amendments has no impact on these financial statements as the Group has not previously used revenue-based depreciation methods.

Amendments to HKAS 16 and HKAS 41 – Agriculture: Bearer Plants

The amendments define bearer plants and require biological assets that meet the definition to be accounted for as property, plant and equipment in accordance with HKAS 16. The agricultural produce of bearer plants remains within the scope of HKAS 41. The amendments are applied retrospectively.

The adoption of the amendments has no impact on these financial statements as the Group has no bearer plants.

Amendments to HKAS 27 – Equity Method in Separate Financial Statements

The amendments allow an entity to apply the equity method in accounting for its investments in subsidiaries, joint ventures and associates in its separate financial statements. The amendments are applied retrospectively in accordance with HKAS 8.

The adoption of the amendments has no impact on these financial statements as the Company has not elected to apply the equity method in its separate financial statements.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – CONTINUED**(a) Adoption of new/revised HKFRSs – effective 1 January 2016 – Continued**
Amendments to HKFRS 10, HKFRS 12 and HKAS 28 – Investment Entities: Applying the Consolidation Exception

The amendments clarify that the exemption from preparing consolidated financial statements for an intermediate parent entity is available to a subsidiary of an investment entity (including investment entities that account for their subsidiaries at fair value rather than consolidating them). An investment entity parent will consolidate a subsidiary only when the subsidiary is not itself an investment entity and the subsidiary’s main purpose is to provide services that relate to the investment entity’s investment activities. A non-investment entity applying the equity method to an associate or joint venture that is an investment entity may retain the fair value measurements that associate or joint venture used for its subsidiaries. An investment entity that prepares financial statements in which all its subsidiaries are measured at fair value through profit or loss should provide the disclosures related to investment entities as required by HKFRS 12. The amendments are applied prospectively.

The adoption of the amendments has no impact on these financial statements as the Company is neither an intermediate parent entity nor an investment entity.

Amendments to HKFRS 11 – Accounting for Acquisitions of Interests in Joint Operations

The amendments require an entity to apply the relevant principles of HKFRS 3 Business Combinations when it acquires an interest in a joint operation that constitutes a business as defined in that standard. The principles of HKFRS 3 are also applied upon the formation of a joint operation if an existing business as defined in that standard is contributed by at least one of the parties. The amendment are applied prospectively.

The adoption of the amendments has no impact on these financial statements as the Group has not acquired or formed a joint operation.

(b) New/revised HKFRSs that have been issued but are not yet effective

The following new or revised HKFRSs, potentially relevant to the Group’s operations, have been issued but are not yet effective and have not been early adopted by the Group. The Group’s current intention is to apply these changes on the date they become effective.

Amendments to HKAS 7	Disclosure Initiative ¹
Amendments to HKAS 12	Recognition of Deferred Tax Assets for Unrealised Losses ¹

31 December 2016

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – CONTINUED**(b) New/revised HKFRSs that have been issued but are not yet effective – Continued*****Amendments to HKAS 7 – Disclosure Initiative***

The amendments introduce an additional disclosure that will enable users of financial statements to evaluate changes in liabilities arising from financing activities.

Amendments to HKAS 12 – Recognition of Deferred Tax Assets for Unrealised Losses

The amendments relate to the recognition of deferred tax assets and clarify some of the necessary considerations, including how to account for deferred tax assets related to debt instruments measured of fair value.

HKFRS 9 – Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at Fair Value through Other Comprehensive Income (“FVTOCI”) if the objective of the entity’s business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at FVTOCI. All other debt and equity instruments are measured at Fair Value through Profit and Loss (“FVTPL”).

HKFRS 9 includes a new expected loss impairment model for all financial assets not measured at FVTPL replacing the incurred loss model in HKAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities designated at FVTPL, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

The Group is still assessing the impact and hence no disclosures have been made regarding the potential impact of the application of the new standard.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – CONTINUED

(b) New/revised HKFRSs that have been issued but are not yet effective – Continued

HKFRS 15 – Revenue from Contracts with Customers

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. HKFRS 15 supersedes existing revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and related interpretations.

HKFRS 15 requires the application of a 5 steps approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

HKFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under HKFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

The Group is still assessing the impact and hence no disclosures have been made regarding the potential impact of the application of the new standard.

Amendments HKFRS 15 – Revenue from Contracts with Customers (Clarifications to HKFRS 15)

The amendments to HKFRS 15 included clarifications on identification of performance obligations; application of principal versus agent; licenses of intellectual property; and transition requirements.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – CONTINUED**(b) New/ revised HKFRSs that have been issued but are not yet effective – Continued*****HKFRS 16 – Leases***

HKFRS 16, which upon the effective date will supersede HKAS 17 “Leases” and related interpretations, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under HKFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, HKAS 17.

In respect of the lessor accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group has already commenced an assessment of the impact of adopting the above Standards and amendments to existing Standards to the Group. The Group is not yet in a position to state whether these new pronouncements will result in substantial changes to the Group’s accounting policies and financial statements.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

3. BASIS OF PREPARATION

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with all applicable HKFRSs, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rule”).

(b) Basis of measurement

The consolidated financial statements have been prepared under the historical cost basis except for certain leasehold land and buildings and investment property, which are measured at revalued amounts or fair values as explained in the accounting policies set out below.

(c) Functional and presentation currency

The functional currency of the Company is Hong Kong dollar (“HK\$”). Each entity in the Group maintains its books and records in its own functional currency. The consolidated financial statements are presented in HK\$. The board of directors considered that it is more appropriate to present the financial statements in HK\$ as the shares of the Company are listed on the Main Board of the Stock Exchange.

4. SIGNIFICANT ACCOUNTING POLICIES

(a) Business combination and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Inter-company transactions and balances between group companies together with unrealised profits are eliminated in full in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of impairment on the asset transferred, in which case the loss is recognised in profit or loss.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective dates of acquisition or up to the effective dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(a) Business combination and basis of consolidation – Continued

Acquisition of subsidiaries or businesses is accounted for using the acquisition method. The cost of an acquisition is measured at the aggregate of the acquisition-date fair value of assets transferred, liabilities incurred and equity interests issued by the Group, as the acquirer. The identifiable assets acquired and liabilities assumed are principally measured at acquisition-date fair value. The Group's previously held equity interest in the acquiree is re-measured at acquisition-date fair value and the resulting gains or losses are recognised in profit or loss. The Group may elect, on a transaction-by-transaction basis, to measure the non-controlling interests that represent present ownership interests in the subsidiary either at fair value or at the proportionate share of the acquiree's identifiable net assets. All other non-controlling interests are measured at fair value unless another measurement basis is required by HKFRSs. Acquisition-related costs incurred are expensed unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interest and the non-controlling interest are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

(b) Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

(c) Research and development costs

Expenditure on internally developed products is capitalised if it can be demonstrated that:

- it is technically feasible to develop the product for it to be sold;
- adequate resources are available to complete the development;
- there is an intention to complete and sell the product;
- the Group is able to sell the product;
- sale of the product will generate future economic benefits; and
- expenditure on the project can be measured reliably.

Capitalised development costs are amortised over the periods the Group expects to benefit from selling the products developed. The amortisation expense is recognised in profit or loss and included in cost of sales.

Development expenditure not satisfying the above criteria and expenditure on the research phase of internal projects are recognised in profit or loss as incurred.

(d) Goodwill

Goodwill is initially recognised at cost being the excess of the aggregate of consideration transferred and the amount recognised for non-controlling interests over the fair value of identifiable assets, liabilities and contingent liabilities acquired.

Where the fair value of identifiable assets, liabilities and contingent liabilities exceed the fair value of consideration paid, the excess is recognised in profit or loss on the acquisition date, after re-assessment.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired.

For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro-rata on the basis of the carrying amount to each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**(e) Property, plant and equipment**

Leasehold land and buildings in Hong Kong and buildings in the PRC are stated at valuation less accumulated depreciation. Revaluations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period. Increases in value arising on revaluation are recognised in other comprehensive income and accumulated in equity under the heading of property revaluation reserve. Decreases in value arising on revaluation are first offset against increases on earlier valuations in respect of the same property and thereafter recognised in profit or loss. Any subsequent increases are recognised in profit or loss up to the amount previously charged and thereafter to the property revaluation reserve.

Upon disposal, the relevant portion of the revaluation reserve realised in respect of previous valuations is released from the property revaluation reserve to retained earnings.

Other property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Property, plant and equipment are depreciated so as to write off their cost or valuation net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The annual depreciation rates are as follows:

Leasehold land and buildings	4% to 4.5% or over the lease terms, whichever is shorter
Machinery and equipment	15% to 30%
Furniture and fixtures	15%
Motor vehicles	18% to 25%

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are revised annually.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on disposal.

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(f) Investment property

Investment property is property held either to earn rentals or for capital appreciation or for both, but not held for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is measured at cost on initial recognition and subsequently at fair value with any change therein recognised in profit or loss.

(g) Revenue recognition

Revenue from sales of goods is recognised on transfer of risks and rewards of ownership, which is at the time of delivery and the title is passed to customer.

Interest income is accrued on a time basis on the principal outstanding at the effective interest rate.

(h) Payments for leasehold land held for own use under operating leases

Payments for leasehold land held for own use under operating leases represent up-front payments to acquire long-term interests in lessee-occupied properties. These payments are stated at cost and are amortised over the period of the lease on a straight-line basis as an expense.

(i) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on the straight-line basis over the lease term.

The Group as lessee

Assets held under finance leases are initially recognised as assets at their fair value or, if lower, the present value of the minimum lease payments. The corresponding lease commitment is shown as a liability. Lease payments are analysed between capital and interest. The interest element is charged to profit or loss over the period of the lease and is calculated so that it represents a constant proportion of the lease liability. The capital element reduces the balance owed to the lessor.

The total rentals payable under the operating leases are recognised in profit or loss on a straight-line basis over the lease term. Lease incentives received are recognised as an integrated part of the total rental expense, over the term of the lease.

The land and buildings elements of property leases are considered separately for the purposes of lease classification.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**(j) Financial Instruments***(i) Financial assets*

The Group classifies its financial assets at initial recognition, depending on the purpose for which the asset was acquired. Financial assets at fair value through profit or loss are initially measured at fair value and all other financial assets are initially measured at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. Regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or convention in the marketplace concerned.

Loans and receivables

These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade debtors), and also incorporate other types of contractual monetary asset. Subsequent to initial recognition, they are carried at amortised cost using the effective interest method, less any identified impairment losses.

(ii) Impairment loss on financial assets

The Group assesses, at the end of each reporting period, whether there is any objective evidence that financial asset is impaired. Financial asset is impaired if there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and that event has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- granting concession to a debtor because of debtor's financial difficulty; and
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(j) Financial Instruments – Continued

(ii) *Impairment loss on financial assets – Continued*

For loans and receivables

An impairment loss is recognised in profit or loss and directly reduces the carrying amount of financial asset when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. The carrying amount of financial asset is reduced through the use of an allowance account. When any part of financial asset is determined as uncollectible, it is written off against the allowance account for the relevant financial asset.

Impairment losses are reversed in subsequent periods when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

(iii) *Financial liabilities*

The Group classifies its financial liabilities, depending on the purpose for which the liabilities were incurred. Financial liabilities at fair value through profit or loss are initially measured at fair value and financial liabilities at amortised costs are initially measured at fair value, net of directly attributable costs incurred.

Financial liabilities at amortised cost

Financial liabilities at amortised cost including trade and other payables, are subsequently measured at amortised cost, using the effective interest method. The related interest expense is recognised in profit or loss.

Gains or losses are recognised in profit or loss when the liabilities are derecognised as well, through the amortisation process.

(iv) *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

(v) *Equity instruments*

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

(vi) *Derecognition*

The Group derecognises a financial asset when the contractual rights to the future cash flows in relation to the financial asset expire or when the financial asset has been transferred and the transfer meets the criteria for derecognition in accordance with HKAS 39.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expired.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**(k) Impairment of non-financial assets**

At the end of each reporting period, the Group reviews the carrying amounts of the following assets to determine whether there is any indication that those assets have suffered and impairment loss or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- investments in subsidiaries (recognised in the Company's statement of financial position (see note 31)); and
- payment for leasehold land held for own use under operating leases

If the recoverable amount (i.e. the greater of the fair value less costs of disposal and value in use) of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the impairment loss is treated as a revaluation decrease under that HKFRSs.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another HKFRS, in which case the reversal of the impairment loss is treated as a revaluation increase under that HKFRS.

(l) Employee benefits*(i) Defined contribution retirement plan*

Contributions to defined contribution retirement plans are recognised as an expense in profit or loss when the services are rendered by the employees.

(ii) Long service payments

The Group's net obligations in respect of long service payments are the amounts of future benefits that employees have earned in return for their services in the current and prior periods.

(iii) Termination benefits

Termination benefits are recognised on the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises restructuring costs involving the payment of termination benefits.

(m) Inventories

Inventories are initially recognised at cost, and subsequently at the lower of cost and net realisable value. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in-first-out method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

(n) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, which will probably result in an outflow of economic benefits that can be reasonably estimated.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, the existence of which will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(o) Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates expected to apply in the period when the liability is settled or the asset is realised based on tax rates that have been enacted or substantively enacted at the end of reporting period.

An exception to the general requirement on determining the appropriate tax rate used in measuring deferred tax amount is when an investment property is carried at fair value under HKAS 40 “Investment Property”. Unless the presumption is rebutted, the deferred tax amounts on these investment properties are measured using the tax rates that would apply on sale of these investment properties at their carrying amounts at the reporting date. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all the economic benefits embodied in the property over time, rather than through sale.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, associates and jointly controlled entities, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

4. SIGNIFICANT ACCOUNTING POLICIES – CONTINUED**(p) Foreign currency**

Transactions entered into by group entities in currencies other than the currency of the primary economic environment in which they operate (the “functional currency”) are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income, in which case, the exchange differences are also recognised in other comprehensive income.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. HK\$) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as foreign exchange reserve (attributed to non-controlling interests as appropriate). Exchange differences recognised in profit or loss of Group entities’ separate financial statements on the translation of long-term monetary items forming part of the Group’s net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as exchange reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the exchange reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation on or after 1 January 2005 are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of reporting period. Exchange differences arising are recognised in the exchange reserve.

(q) Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions apply:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a); or
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the group or to the group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

NOTES TO THE FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(a) Critical judgments in applying accounting policies*(i) Current taxation and deferred taxation*

Judgment is required in determining the amount of the provision for taxation and the timing of payment of the related taxation. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business.

(ii) Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. In determining the functional currencies of the group entities, judgment is required to determine the currency that mainly influences sales prices for goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services. The functional currencies of the group entities are determined based on management's assessment of the economic environment in which the entities operate and the entities' process of determining sales prices.

NOTES TO THE FINANCIAL STATEMENTS

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – CONTINUED

(b) Key sources of estimation uncertainty

In addition to information disclosed elsewhere in these financial statements, other key sources of estimation uncertainty that have a significant risk of resulting a material adjustment to the carrying amounts of assets and liabilities within next financial year are as follows:

(i) *Useful lives of property, plant and equipment*

The Group's management determines the estimated useful lives and related depreciation charges for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. It could change significantly as a result of technical innovations and competitor actions in response to severe industry cycles. Management will increase the depreciation charge where useful lives are less than previously estimated lives, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

(ii) *Impairment of goodwill*

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value.

(iii) *Estimated net realisable value of inventories*

The Group's management writes down for slow moving or obsolete inventories based on an assessment of the net realisable value of the inventories. Inventory will be written down where events or changes in circumstances indicate that the net realisable value is less than cost. The determination of net realisable value requires the use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact carrying value of the inventories and revision on the amount of inventories written down in the period in which such estimate has been changed. The Group recognised impairment loss on inventory of approximately HK\$2,753,000 for the year (2015: HK\$1,950,000)

5. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY – CONTINUED

(b) Key sources of estimation uncertainty – Continued

(iv) Fair value measurement

A number of assets and liabilities included in the Group's financial statements require measurement at, and/or disclosure of, fair value.

The fair value measurement of the Group's financial and non-financial assets and liabilities utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the 'fair value hierarchy'):

- Level 1: Quoted prices in active markets for identical items (unadjusted) ;
- Level 2: Observable direct or indirect inputs other than Level 1 inputs; and
- Level 3: Unobservable inputs (i.e. not derived from market data).

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

The Group measures a number of items at fair value:

- Revalued land and buildings – Property, Plant and Equipment (note 14).
- Investment property (note 15).

For more detailed information in relation to the fair value measurement of the items above, please refer to the applicable notes.

(v) Impairment of trade receivables

The Group recognised an impairment loss on trade receivables for estimated losses resulting from the inability of the debtors to make required payments. The Group bases the estimates of future cash flows on the ageing of the receivable balances, debtors' credit-worthiness, and historical write-off experience. If the financial condition of the debtor were to deteriorate, actual write-offs would be higher than estimated. Details of movements in provision for impairment of trade receivables are disclosed in note 22.

6. SEGMENT INFORMATION

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions.

The Group is principally engaged in manufacturing and trading electronic components in both Hong Kong and oversea markets. The Group's chief operating decision-maker regularly reviews the consolidated financial information of the Group as a whole to assess the performance and consider there is only one operating segment for the Group.

(a) Geographical information

The following table sets out the information about the geographical location of the Group's revenue from external customers and non-current assets other than financial instruments ("Specified non-current assets").

The Group comprises the following main geographical segments:

	Revenue from external customers (by customers' location)		Specified non-current assets (by assets' location)

For leasehold land and buildings in Hong Kong, the valuation was determined using a market comparison approach. The fair value of leasehold land and buildings is based on prices for recent market transactions in similar properties and adjusted to reflect the conditions and locations of the Group's properties. The significant input into this valuation approach is price per square feet, which has been adjusted to reflect the time of transaction, location, size, level and age of property, site view and building quality.

For buildings in PRC, the valuation was determined using depreciated replacement cost approach. The fair value of buildings is based on estimation of new replacement cost of the buildings and other site works of which adjustments are then made to account for age, condition, and functional obsolescence, while taking into account the site formation cost and those public utilities connection charges to the properties. These adjustments are based on unobservable inputs. The key inputs are estimated cost of construction per square meter and age adjustment on the cost of buildings.

Information about fair value measurements using significant unobservable inputs (Level3) is provided below.

14. PROPERTY, PLANT AND EQUIPMENT – CONTINUED

Description	Fair value at 31 December 2016 (HK\$'000)	Valuation technique(s)	Significant unobservable inputs	Range of unobservable inputs (probability- weighted average)	Relationship of unobservable inputs to fair value
Leasehold land and buildings in Hong Kong	182,200 (2015: HK\$185,600)	Market comparison approach	Age of property factor Quality factor	(9%)-0% (2015: (14%)-8%) 8%-20% (2015: 5%-25%)	Lower age and higher quality will result in correspondingly higher fair value.
Buildings in PRC	17,880 (2015: HK\$18,950)	Depreciated replacement cost approach	Age adjustment on the cost of buildings, taking into account the remaining useful life of buildings.	62%-88% (2015: 67%-90%)	Lower the age of buildings will result in correspondingly higher fair value.

There were no changes to the valuation techniques during the year.

The fair value measurements are based on the above properties' highest and best use, which does not differ from their actual use.

Had the Group's leasehold land and buildings been carried at cost less accumulated depreciation, the carrying amount of the Group's leasehold land and buildings as at 31 December 2016 would have been approximately HK\$17,878,000 (2015: HK\$19,179,000).

18. IMPAIRMENT TESTING ON GOODWILL

For the purpose of impairment testing, goodwill is allocated to the single cash generating unit ("CGU") identified, the magnetic components production.

The recoverable amounts of the CGU have been determined from value in use calculations based on cash flow projections from formally approved budgets covering a five-year period. Cash flow beyond the five-year period are extrapolated using an estimated weighted average growth rate of 0% (2015: 0%), which does not exceed the long-term growth rate for the magnetic component production industry.

	2016	2015
Pre-tax discount rate	16%	16%
Operating margin within the five-year period	16%–24%	16%–24%
Growth rate within the five-year period	0%–5%	0%–5%
Wage inflation	6%	6%

The discount rate used is pre-tax and reflect specific risks relating to the relevant CGU. The operating margin and growth rate within the five-year period have been based on estimation on the Group's similar products. Wage inflation has been based on the Group's past experience in the same manufacturing business.

(Credit)/debit to profit or loss (note 10)	(490)	11	(479)
Credit to other comprehensive income (note 11)	(339)	–	(339)
At 31 December 2016	27,923	24	27,947

The Group has not recognised deferred tax assets in respect of tax losses of approximately HK\$9,837,000 during the year (2015: HK\$11,245,000) due to the unpredictability of taxable profits in the foreseeable future. The tax losses do not expire under current tax legislations.

No deferred tax liability has been recorded on temporary differences of approximately HK\$15,251,000 (2015: HK\$13,184,000) relating to the undistributed earnings of the PRC subsidiary because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

27. RESERVES – CONTINUED**(c) Nature and purpose of reserves***(i) Share premium*

The share premium account represents the excess of the nominal value of the ordinary shares issued by the Company and the net proceeds from the issuance of ordinary shares after deduction of the share issuing expenses.

(ii) Capital reserve

Capital reserve of the Group represents the difference between the nominal value of the ordinary shares issued by the Company and the aggregate of the share capital and share premium of subsidiaries acquired through exchanges of shares pursuant to the reorganisation.

(iii) Property revaluation reserve

Property revaluation reserve represents gains/losses arising on the revaluation of properties held for own use.

(iv) Exchange reserve

The reserve represents the exchange difference arising from the translation of foreign operations. The reserve is dealt with accordance with the accounting policy set out in note 4(p).

(v) Contributed surplus

Contributed surplus of the Company represents the difference between the nominal value of the ordinary shares issued by the Company and the net asset value of subsidiaries acquired through an exchange of shares pursuant to the reorganisation.

(vi) Retained earnings/accumulated losses

Cumulative net gains and losses recognised in profit or loss.

Under the Companies Act 1981 of Bermuda (as amended), retained earnings and contributed surplus are distributable to owners of the Company, subject to the condition that the Company cannot declare or pay a dividend, or make a distribution out of retained earnings and contributed surplus if (i) it is, or would after the payment be, unable to pay its liabilities as they become due, or (ii) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT

The Group's major financial instruments include, cash and cash equivalents, trade and other receivables and trade and other payables. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include credit risk, liquidity risk, interest rate risk and currency risk. The Group does not hold or issue derivative financial instruments either for hedging or trading purposes. The policies on how to mitigate these risks are set out as below.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Credit risk

As at 31 December 2016, the maximum exposure to credit risk is represented by the carrying amount of each financial asset in the consolidated statement of financial position.

Trade receivables

In respect of trade receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer rather than the industry and country in which customers operate and therefore significant concentration of credit risk primarily arise when the Group has significant exposure to individual customers. At the end of the reporting period, the Group has a certain concentration of credit risk as approximately 20% (2015: 26%) and 63% (2015: 70%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

In order to minimise risk, the management has a credit policy in place and the exposure to these credit risks are monitored on an ongoing basis. Credit evaluations of its customers' financial position and condition is performed on all customers periodically. These evaluations focus on the customer's past history of making payments when due and current liability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. The Group does not require collateral in respect of its financial assets. Debts are usually due within 90 days from the date of billing.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT – CONTINUED**(i) Credit risk – Continued***Deposits with banks*

The Group mitigates its exposure to credit risk by placing deposits with the financial institutions with established credit rating. Given the high credit ratings of the banks, management does not expect any counterparty to fail to meet its obligations.

(ii) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demand, subject to board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient amount of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The total contractual undiscounted cash flows of the Group's non-derivative financial liabilities are the same as their carrying amounts as their remaining contractual maturities are within one year as set out as below:

	2016 HK\$'000	2015 HK\$'000
Trade and other payables	18,950	18,326

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT – CONTINUED**(iii) Fair value and cash flow interest rate risks**

Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As the Group has no interest-bearing liabilities, the Group's expenses and financing cash flows are independent of changes in market interest rates.

The Group is exposed to cash flow interest rate risks as the Group has significant cash and cash equivalents which are interest-earning. The management monitors interest rate exposures and considered that there is no significant impact on cash flow interest rate risk. The Group's interest rate profile as monitored by management is set out in (i) below.

(i) Interest rate profile

The following table details the interest rate profile of the Group's interest-earning financial assets at the end of the reporting period:

	2016		2015	
	Effective interest rate %	One year or less HK\$'000	Effective interest rate %	One year or less HK\$'000
Cash and cash equivalents	2.15%	323,968	3.26%	340,457

(ii) Sensitivity analysis

At 31 December 2016, it is estimated that a general increase/decrease of 30 basis points in interest rates, with all other variables held constant, would increase/decrease the Group's profit after tax and retained earnings by approximately HK\$972,000 (2015: HK\$1,021,000). Other components of consolidated equity would not be affected (2015: HK\$Nil) by the changes in interest rates.

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to the exposure to interest rate risk for cash and cash equivalents in existence at that date. The 30 basis point increase/decrease represents management's assessment of a reasonably possible change in interest rates over the period until the end of the next annual reporting period. The analysis is performed on the same basis for 2015.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT – CONTINUED**(iv) Currency risk**

Presently, there is no hedging policy with respect to the foreign exchange exposure. The Group is exposed to foreign currency risk primarily through sales and purchases that are denominated in a currency other than the functional currency of operation to which they relate.

(i) Exposure to currency risk

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. The Group is mainly exposed to the fluctuation of United States dollars, Renminbi, Euros and Pound Sterling. For presentation purposes, the amounts of the exposure are shown in Hong Kong dollars, translated using the spot rate at the year end date.

	2016			
	United States dollars HK\$'000	Renminbi HK\$'000	Pound Sterling HK\$'000	Euro HK\$'000
Cash and cash equivalents	181,742	125,131	753	1,720
Trade and other receivables	8,228	–	6	–
Trade and other payables	(2,375)	(11)	–	–
Overall exposure arising from recognised assets and liabilities	187,595	125,120	759	1,720

	2015			
	United States dollars HK\$'000	Renminbi HK\$'000	Pound Sterling HK\$'000	Euro HK\$'000
Cash and cash equivalents	53,682	225,172	749	363
Trade and other receivables	6,834	–	6	–
Trade and other payables	(4,919)	(15)	–	–
Overall exposure arising from recognised assets and liabilities	55,597	225,157	755	363

(ii) Sensitivity analysis

The following table indicates the approximate change in the Group's profit after tax (and retained earnings) and other components of consolidated equity in response to reasonably possible changes in the foreign exchange rates to which the Group has significant exposure at the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT – CONTINUED**(iv) Currency risk – Continued***(ii) Sensitivity analysis – Continued*

	2016		2015	
	Increase/ (decrease) in foreign exchange rates %	Effect on profit after tax and retained earnings HK\$'000	Increase/ (decrease) in foreign exchange rates %	Effect on profit after tax and retained earnings HK\$'000
Monetary net assets denominated in Renminbi	3% (3%)	3,754 (3,754)	3% (3%)	6,755 (6,755)

Other components of consolidated equity would not be affected (2015: HK\$Nil) by the changes in foreign exchange rates.

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the end of the reporting period and had been applied to each of the Group entities' exposure to currency risk for non-derivative financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant.

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rates over the period until the end of the next annual reporting period. In this respect, it is assumed that the pegged rate between the Hong Kong dollars and the United States dollars would be materially unaffected by any changes in movement in value of the United States dollars against other currencies. Results of the analysis as presented in the above table represent an aggregation of the effects on each of the Group entities profit after tax and equity measured in the respective functional currencies, translated into Hong Kong dollars at the exchange rate ruling at the end of the reporting period for presentation purposes. The analysis is performed on the same basis for 2015.

The foreign exchange rates movement between Pound Sterling, Euro and Hong Kong dollars has insignificant impact to the results and financial positions of the Group.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2016

32. FINANCIAL RISK MANAGEMENT – CONTINUED**(v) Fair values**

The directors consider that the carrying amount of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

33. CAPITAL RISK MANAGEMENT

The Group regards the equity attributable to the Company's owners, comprising issued share capital, share premium, retained earnings and other reserves as its capital structure. The Group's objective when managing capital structure is to ensure that entities in the Group will be able to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders. In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Total debt is calculated as the total of trade and other payables and provision of employee benefits. Capital includes equity attributable to owners of the Company.

	2016 HK\$'000	2015 HK\$'000
Total debt	36,417	36,748
Less: Cash and cash equivalents	(367,251)	(340,457)
Net debt	(330,834)	(303,709)
Equity attributable to the owners of the Company	729,470	724,675
Net debt and equity	398,636	420,966
Gearing ratio	(83%)	(72%)

34. SUMMARY OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES BY CATEGORY

The following table shows the carrying amount and fair value of financial assets and liabilities as defined in notes 4(j)(i) and 4(j)(iii):

	Carrying amount and fair value	
	2016 HK\$'000	2015 HK\$'000
Financial assets		
Loans and receivables		
– Cash and cash equivalents	367,251	340,457
– Trade receivables	27,499	29,672
– Deposits and other receivables	1,317	1,929
– Amount due from ultimate holding company	70	63
– Amounts due from related companies	131	109
	396,268	372,230
Financial liabilities		
Financial liabilities measured at amortised cost		
– Trade and other payables	18,950	18,326

The above financial instruments are not measured at fair value. Due to their short term nature, the carrying value of the above financial instruments approximates fair value.

35. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the Board of Directors on 22 March 2017.
