## Chairman's Statement

Dear shareholders,

On behalf of the Board of Directors, I am pleased to present the annual results of the Company and its subsidiaries (the "Group") for the year ended 31 December 2016, which consists of reporting on the activities, results and strategies of the Company.

### BUSINESS ENVIRONMENT

The year 2016 had proven to be challenging throughout the global economy market. In particular, Asian market has maintained volatile through out these periods. The expansionary fiscal orientation supported the growth in these regions. Central banks may have been cautious in their conduct of monetary policy for good reasons, but liquidity was kept ample through calibrated downward adjustments in key rates.

Moving forward, we expect the pace of output growth in both Global and Asia market remain largely unchanged, with most governments expressing their intention to strengthen their pump-priming efforts in the near term to counter sluggish external demand.

Facing the above challenges, the Company continues to realign its business strategies and increased its efforts to innovate its core products and services to better face the increasing needs of its market.

### FINANCIAL AND BUSINESS REVIEW

For the 2016 financial year, the Group reported total revenue of HK\$34.4 million, which represents an increase of 1.0% compared to the financial year of 2015. The key contributor to the Group in terms of turnover is the Internet and Mobile's Applications and Related Accessories segment.

### THANK YOU

I would like to take this opportunity to express my sincere gratitude to our shareholders, business partners and customers for their continued support, as well as to the Group's management team and staff for their tireless dedication and efforts in developing the long term prospects of the Group.

# Management Discussion and Analysis

## BUSINESS REVIEW

In the financial year of 2016, the Group recorded a turnover of approximately HK\$34.4 million, representing an increase of 1.0% compared to the same period in 2015. The slightly increase in turnover was mainly attributable to the application development income generated by continuous efforts in diversification into settlement application market.

The Group recorded a gross loss of approximately HK\$1.2 million for the year ended 31 December 2016 as against a gross profit of approximately HK\$2.3 million for the year ended 31 December 2015 due to higher cost of sales encountered in the second half of 2016 in relation to the application development. The Group reported a net loss of approximately HK\$183.7 million for the year ended 31 December 2016. The net loss was mainly attributable to net effect of (i) the significant decrease in the fair value of the financial assets at fair value through profit or loss; (ii) increase in other operating expenses; and (iii) the change in fair value of derivative financial assets, which is the early redemption option of the Company embedded in convertible notes.

## Performance of business segments

The Group is an international developer and solutions provider in the biometric, RFID and security industries and delivers high-performing, convenient security systems for enterprises and consumers. During the year, the Group's business is divided generally into two categories: "Trading of Security and Biometric Products" and "Internet and Mobile's Application and Related Accessories".

The Group continues to believe that the "Internet and Mobile's Application and Related Accessories" segment as a key growth area, is in-line with the rapid growth of the mobile and gaming industry and in particular in application development for merchants, online gaming and utilities applications for IOS and Androids and mass advertising.

The Group's Trading of Security and Biometric Products segment consists of biometrics and RFID products for consumer applications.

Business Segment	Year ended 31 December				HK\$ y-o-y growth %

The loss attributable to the non-controlling interests of approximately HK\$6.9 million for the year ended 31 December 2016 (2015: loss attributable to the non-controlling interests of approximately HK\$4.3 million).

### REVIEW OF THE GROUP'S FINANCIAL POSITION AS AT 31 DECEMBER 2016

#### Liquidity and capital resources

The Group funds its operations with sales revenue from its operating activities. The Group also has cash inflows from interest income and collections. Key drivers in the Group's sources of cash are primarily the Group's sales, and their inflow depends on the Group's ability to collect payments. There have been no material changes in the Group's underlying drivers during the period under review.

The Group did not incur any capital expenditure during the year of 2016 (2015: HK\$Nil).

## Management Discussion and Analysis

The Group has internal budgeting systems in place to ensure that if and when cash is committed to fund major expenditures there is sufficient cash flow to maintain the Group's daily operations and meet all of its contractual obligations.

As at 31 December 2016, the Group did not have any term loan facility (2015: HK\$Nil).

Save as disclosed above, there were no other charges on assets as at 31 December 2016 (2015: HK\$Nil).

The Group had cash and cash equivalents of approximately HK\$442.5 million as at 31 December 2016 compared to approximately HK\$305.7 million as at 31 December 2015.

### Working Capital

Debtors have increased by 124.6% from approximately HK\$16.4 million in 2015 to approximately HK\$36.9 million in the same period in 2016. This is in line with the continued consolidation and realignment of the Group business.

### CAPITAL COMMITMENTS

The Group had no capital commitments as at 31 December 2016 and 2015.

### GEARING RATIO

As at 31 December 2016, the Group's gearing ratio was approximately 10.7%, as compared to Nil as at 31 December 2015. The gearing ratio was calculated as the Group's total debt divided by its total capital, the total debt of the Group was approximately HK\$105.0 million as at 31 December 2016. Total capital is calculated as total shareholder equity of HK\$877.2 million plus debt.

### CONTINGENT LIABILITIES

As at 31 December 2016, the Group had no contingent liabilities (2015: Nil). The Company has not been acted as a guarantor of its subsidiaries to secure any interest-bearing borrowings.

### FOREIGN EXCHANGE RISK MANAGEMENT

Certain of the Group's bank balances are denominated in Pounds, Ringgit, United States Dollars ("US\$"), United Arab Emirates Dirham and Renminbi ("RMB"), each of which is a currency other than the functional currency of the relevant group entities, which exposes it to foreign currency risk. The Group has not used any financial instruments to hedge against this currency risk. However, the Group monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

### HUMAN RESOURCES

As at 31 December 2016, in addition to the Directors, there were approximately 40 employees (31 December 2015: 40) of the Group stationed in the Group's offices in Hong Kong, the People's Republic of China (the "PRC") and Malaysia. Total staff costs for the year ended 31 December 2016 were approximately HK\$6.9 million, compared with approximately HK\$6.5 million in 2015. The saving was attributable to the Group's continuous efforts to reduce its overheads and re-allocate the project resources by increasing collaboration with third party partners, hence reducing the dependency on internal manpower needs.

The Group offers training and development courses for its employees to enhance the staff's working capabilities. Remuneration packages are linked to individual performance, the Group's business performance, and taking into consideration of the industry practices and market conditions, reviewed on an annual basis. Directors' remuneration is determined with reference to his duties and responsibilities with the Company, the Company's standards for emoluments and market conditions. Share options are also granted to eligible employees based on individual's performance as well as the Group's performance.

### MANAGEMENT OUTLOOK

The Group had continued the efforts to consolidate and realign its businesses to enable the Group to achieve improvements in its financial position. The Group will continue to work towards, attaining a stable platform for sustainability and basis for continuous growth. The Group had cash and cash equivalents of approximately HK\$442.5 million as at 31 December 2016 compared to approximately HK\$305.7 million as at 31 December 2015.

Save for Mr. Liu Wen has entered into a service agreement with the Company with no fixed term of services, each of independent non-executive Directors has entered into a formal appointment letter with the Company for a term of one year subject to termination by either party giving the other not less than three months' prior written notice.

In accordance with bye-law 87(1) of the bye-laws of the Company (the "Bye-laws"), all Directors (including executive Directors and independent non-executive Directors) are subject to retirement by rotation at least once every three years. This year, in accordance with bye-law 87(1) of the Bye-laws, Mr. Liu Wen and Mr. Wang Zhongling will retire and will seek re-election at the forthcoming annual general meeting.

## Corporate Governance Report

In accordance with Bye-law 86(2) of the Bye-laws, any Director appointed by the Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election at that meeting. Ms. Lo Suet Lai will retire and seek re-election at the forthcoming annual general meeting.

### BOARD MEETINGS AND BOARD PRACTICES

The Board meets at least four times a year and also meets on other occasions when a board-level decision on a particular matter is required. The company secretary of the Company (the “Company Secretary”) will assist the Chairman to prepare the agenda of meetings and each Director may request to include any matters in the agenda. The Company Secretary is responsible for distributing detailed documents to Directors prior to the meetings of the Board to ensure that the Directors are able to make informed decisions regarding the matters to be discussed in the meetings so that they may receive accurate, timely and clear information. All Directors may access the advice and services of the Company Secretary who regularly updates the Board on governance and regulatory matters. All Directors will also be provided with sufficient resources to discharge their duties, and upon reasonable request, the Directors will be able to seek independent professional advice in appropriate circumstances, at the Company’s expense. The Company Secretary is also responsible for ensuring the procedures of the Board meetings are observed and providing the Board with opinions on matters in relation to the compliance with the procedures of the Board meetings. All minutes of Board meetings were recorded in sufficient detail the matters considered by the Board and decisions reached.

### DELEGATION OF POWERS

The Board delegates day-to-day operations of the Group to executive Directors and management of the Company with department heads responsible for different aspects of the business/functions, while reserving certain key matters in making strategic decision for its approval. When the Board delegates aspects of its management and administration functions to management, it gives clear directions as to the powers of management, in particular, with respect to the circumstances where management need to report back and obtain prior approval from the Board before making decisions or entering into any commitments on behalf of the Company.

### INDEPENDENT NON-EXECUTIVE DIRECTORS

On 30 June 2016, the Company failed to comply with Rules 3.10(1), 3.21 and 3.25 of the Hong Kong Listing Rules after the retirement of Mr. Tse Chin Pang as an independent non-executive Director, chairman of the remuneration committee, member of the audit committee and nomination committee of the Company. Following the appointment of Ms. Lo Suet Lai on 12 September 2016, the Company has fulfilled the requirements of the Hong Kong Listing Rules.

Save as disclosed above, there are three independent non-executive directors representing at least one-third of the Board pursuant to rules 3.10(1) and 3.10A of the Hong Kong Listing Rules. Among the three independent non-executive directors, one has appropriate professional qualification in accounting or related financial management expertise as required by rule 3.10(2) of the Hong Kong Listing Rules.

The Board evaluates the independence of all independent non-executive Directors on an annual basis and has received written confirmation from each independent non-executive Director regarding his/her independence. ## Statement of Directors' Responsibilities in respect of Consolidated Financial Statements

The Directors are responsible for the preparation of consolidated financial statements for each financial year. The consolidated financial statements must give a true and fair view of the state of affairs of the Group, and the Group's profit and loss for that period.

When preparing consolidated financial statements, the Directors are required to:

- Select suitable accounting policies and apply them consistently
- Make judgments and estimates that are reasonable
- State whether they adhered to applicable accounting standards subject to any material departures disclosed and explained in the consolidated financial statements
- Prepare the consolidated financial statements on a going concern basis, unless it is inappropriate to presume that the Company will continue in business

The Directors must keep proper accounting records, which disclose, with reasonable accuracy at any time, the financial position of the Group. The Directors must ensure that the consolidated financial statements comply with applicable laws and follow International Financial Reporting Standards. The Directors must also safeguard the assets of the Group, and take reasonable steps to prevent and detect fraud or other irregularities.

### OPINION

We have audited the consolidated financial statements of China E-Wallet Payment Group Limited (formerly known as RCG Holdings Limited)(the “**Company**”) and its subsidiaries (collectively referred to as the “**Group**”) set out on pages 45 to 112, which comprise the consolidated statement of financial position as at 31 December 2016, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“**IFRSs**”) issued by the International Accounting Standards Board (“**IASB**”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“**HKSAs**”) issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* sections of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the “**Code**”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Key audit matter

#### How our audit addressed the key audit matter

##### Impairment assessment of goodwill and intangible assets

Refer to Note 17 and Note 18 to the consolidated financial statements.

Management performed impairment assessment of brand name and distribution network and concluded that an impairment loss on goodwill and intangible assets approximately HK\$26,066,000 and HK\$9,411,000 respectively were recognised. This conclusion was based on value in use model that required significant management judgement with respect to the discount rate and the underlying cash flows, in particular future revenue growth and capital expenditure. Independent external valuation were obtained in order to support management's estimates.

Our procedures in relation to management impairment assessment included:

- Evaluating of the independent valuer's competence, capabilities and objectivity;
- Assessing the methodologies used and the appropriateness of the key assumption based on our knowledge of the relevant industry and using our valuation experts;
- Challenging the reasonableness of key assumptions based on our knowledge of the business and industry; and
- Checking, on a sampling basis, the accuracy and relevance of the input data used.

We found that the assumptions were supported by the available evidence.

## Independent Auditors' Report

### Key audit matter

### How our audit addressed the key audit matter

#### Valuation of redemption option of convertible notes

Refer to Note 20 and Note 31 to the consolidated financial statements

Management has estimated the fair value of the Group's redemption option of convertible notes of approximately HK\$182,198,000 as at 31 December 2016, with fair value gain for the year ended 31 December 2016 recorded in the consolidated statement of profit or loss and other comprehensive income of approximately HK\$31,062,000. Independent external valuations were obtained in order to support management's estimates. The valuations are dependent on certain key assumptions that required significant management judgement, including risk-free rates and dilution effect.

Our procedures in relation to management's valuation of redemption option of convertible notes included:

- Evaluating of the independent valuer's competence, capabilities and objectivity;
- Assessing the methodologies used and the appropriateness of the key assumption based on our knowledge of the convertible notes and using our valuation experts; and
- Checking, on a sampling basis, the accuracy and relevance of the input data used.

We found that the assumptions were supported by the available evidence.

## OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon ("**Other Information**").

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the Other Information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have nothing to report in this regard.

### **RESPONSIBILITIES OF THE DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

### **AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

## Independent Auditors' Report

### AUDITORS' RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditors' report is Hon, Koon Fai, Alex.

# Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

## 1. GENERAL INFORMATION

The Company was incorporated and registered as an exempted company with limited in Bermuda and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). Ms. Cheng Hei Yu is the substantial shareholder of the Company. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information to the annual report.

The Company acts as an investment holding company. The activities of its principal subsidiaries are set out in note 21.

The consolidated financial statements are presented in Hong Kong dollars (“HK\$”), which is also the functional currency of the Company and all values are rounded to nearest thousand except otherwise indicated.

## 2. STATEMENT OF COMPLIANCE

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board. In addition, the financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the disclosure requirements of Hong Kong Companies Ordinance.

## 3. BASIS OF PREPARATION

The consolidated financial statements have been prepared under the historical cost basis, except for certain financial instruments which have been measured at fair value at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of International Financial Reporting Standards (“IFRSs”) 2, leasing transactions that are within the scope of International Accounting standards (“IAS”) 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in IAS 2 or value in use in IAS 36.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 3. BASIS OF PREPARATION (CONTINUED)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies applied in the preparation of these consolidated financial statements are set out in note 6. These policies have been consistently applied to all the years presented, unless otherwise stated. Certain comparative figures of prior years have been re-presented to conform with current year's presentation.

### 4. APPLICATION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRSs")

In the current year, the Group has applied for the first time, the following new and revised standards, amendments and interpretations ("new and revised IFRSs") issued by the IASB, which are effective for the Group's financial year beginning on or after 1 January 2017:

Amendments to IFRSs	Annual Improvements to IFRSs 2012-2014 Cycle
Amendments to IFRS 10, IFRS 12 and IAS 28	Investment Entities: Applying the Consolidation Exception
Amendments to IFRS 11	Accounting for Acquisitions of Interest in Joint Operations
IFRS 14	Regulatory Deferral Accounts
Amendments to IAS 1	Disclosure Initiative
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to IAS 16 and IAS 41	Agriculture: Bearer Plants
Amendments to IAS 27	Equity Method in Separate Financial Statements

The application of the amendments to IFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 5. ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Group has not early applied the following new and revised IFRSs that have been issued but are not yet effective:

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2019, with earlier application permitted.

<sup>4</sup> Effective for annual periods beginning on or a date to be determined.

<sup>5</sup> Effective for annual periods beginning on or after 1 January 2017 to 1 January 2018, as appropriate.

#### IFRS 9 Financial Instruments

IFRS 9 issued in 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in 2014 mainly to include (a) impairment requirements for financial assets and (b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments.

One of the key requirements of IFRS 9 that are applicable to the Group includes the impairment of financial assets, of which IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39 Financial Instruments, Recognition and Management. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The directors of the Company are of the view that the expected credit loss model may result in early provision of credit losses which are not yet incurred. However, it is not practicable to provide a reasonable estimate of the effect from using an expected credit loss model in respect of its financial assets until a detailed review has been completed.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 5. ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

#### IFRS 15 Revenue from Contracts with Customers

In 2014, IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 Revenue, IAS 11 Construction Contracts and the related Interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under IFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

The directors of the Company are in the process of reviewing the effect of the application of IFRS 15 on the amounts reported and disclosures made in the Group's consolidated financial statements.

#### IFRS 16 Leases

IFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. IFRS 16 will supersede the current lease guidance including IAS 17 Leases and the related interpretations when it becomes effective.

IFRS 16 distinguishes leases and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases (off balance sheet) and finance leases (on balance sheet) are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees (i.e. all on balance sheet) except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. Furthermore, the classification of cash flows will also be affected as operating lease payments under IAS 17 are presented as operating cash flows; whereas under the IFRS 16 model, the lease payments will be split into a principal and an interest portion which will be presented as financing and operating cash flows respectively.

### 5. ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (CONTINUED)

#### IFRS 16 Leases (Continued)

In contrast to lessee accounting, IFRS 16 substantially carries forward the lessor accounting requirements in IAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by IFRS 16.

As at 31 December 2016, the Group as lessee has non-cancellable operating lease commitments of HK\$2,987,000. IAS 17 does not require the recognition of any right-of-use asset or liability for future payments for these leases; instead, certain information is disclosed as operating lease commitments in note 36. A preliminary assessment indicates that these arrangements will meet the definition of a lease under IFRS 16, and hence the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases upon the application of IFRS 16. The new requirement to recognise a right-of-use asset and a related lease liability is expected to have a significant impact on the amounts recognised in the Group's consolidated financial statements and the directors are currently assessing its potential impact. It is not practicable to provide a reasonable estimate of the financial effect until the directors complete the review.

The directors of the Company anticipate that the application of the other new and revised IFRSs will have no material impact on the consolidated financial statements of the Group.

### 6. SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including special purpose entities) controlled by the Company (its subsidiaries). Control is achieved where the Company:

- has power to over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee;
- and has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interest even if this results in the non-controlling interests having a deficit balance.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (a) Basis of consolidation (Continued)

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

#### (b) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree.

Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with IAS 12 Income Taxes and IAS 19 Employee Benefits respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with IFRS 2 Share-based Payment at the acquisition date (see note above); and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (b) Business combinations (Continued)

When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination.

Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with IAS 39, or IAS 37 Provisions, Contingent Liabilities and Contingent Assets, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with its associate, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

#### (c) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see note above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (c) Goodwill (Continued)

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss in the consolidated statement of comprehensive income. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described at note 17.

#### (d) Intangible assets

##### *Intangible assets acquired separately*

Intangible assets acquired separately and with finite useful lives are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is provided on a straight-line basis over their estimated useful lives. Alternatively, intangible assets with indefinite useful lives are carried at cost less any subsequent accumulated impairment losses.

Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the income statement when the asset is derecognised.

#### (e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

##### *Sale of goods*

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied.

- (i) the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (ii) the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (iii) the amount of revenue can be measured reliably;
- (iv) it is probable that the economic benefits associated with the transaction will flow to the Group; and
- (v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (e) Revenue recognition (Continued)

##### *Rendering of services*

Revenue from provision of biometric and RFID solution services and development of internet and web software are recognised when the services are rendered.

##### *Interest income*

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and amount of income can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### (f) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is provided at rates calculated to write off the cost of property, plant and equipment, less their estimated residual value, over their expected useful lives, using straight-line method.

The principal annual rates are as follows:

Leasehold improvements	20%
Furniture, fixtures and equipment	20%
Mould	20%
Motor vehicles	20%
Development tools	20%

The carrying values of property, plant and equipment are reviewed for impairment if events or changes in circumstances indicate the carrying value may not be recoverable.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

#### (g) Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (g) Impairment of tangible and intangible assets other than goodwill (Continued)

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount.

An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease (see note above).

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase (see note above).

#### (h) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is based on the cost of purchase on a weighted average basis. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### (i) Foreign currencies

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Hong Kong Dollars ("HKD"), which is the functional currency of the Company and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (i) Foreign currencies (Continued)

Exchange differences are recognised in the income statement in the period in which they arise except for:

- exchange differences which relate to assets under construction for future productive use, which are included in the cost of those assets where they are regarded as an adjustment to interest costs on foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks; and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in the income statement on disposal of the net investment.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are expressed in Hong Kong dollars using exchange rates prevailing at the end of the reporting date. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

On the disposal of a foreign operation (ie. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset. All of the exchange differences accumulated inequity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Goodwill and fair value adjustments of identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translation at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

#### (j) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statements of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (j) Taxation (Continued)

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Information and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting date, to recover or settle the carrying amount of its assets and liabilities.

#### (k) Retirement benefit costs

The Group operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the "MPF Scheme") for its subsidiaries in Hong Kong under the Hong Kong Mandatory Provident Fund Schemes Ordinance, for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

Pursuant to the relevant laws and regulations, the subsidiaries in Malaysia make contributions to the state pension scheme, the Employees Provident Fund ("EPF"). Contributions are made based on a percentage of the employees' basic salaries and such contributions are recognised as an expense in the income statement as incurred.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (k) Retirement benefit costs (Continued)

Pursuant to the relevant regulations of the government of the People's Republic of China (the "PRC"), the subsidiaries operating in the PRC have participated in central pension schemes (the "Schemes") operated by local municipal governments, whereby the subsidiaries in the PRC are required to contribute a certain percentage of the basic salaries of their employees to the Scheme to fund their retirement benefits. The local municipal government undertakes to assume the retirement benefits obligations of all existing and future retired employees of the subsidiaries in the PRC. The only obligation of the Group with respect to the Schemes is to pay the ongoing required contributions under the Schemes mentioned above.

Contributions under the Schemes are charged to the income statement as incurred. There are no provisions under the Schemes whereby forfeited contributions may be used to reduce future contributions.

#### (l) Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in income statement.

##### *Financial assets*

Financial assets are classified into the following specified categories: financial assets 'at fair value through profit or loss' (FVTPL), 'held-to-maturity' investments, 'available-for-sale' (AFS) financial assets and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at fair value through profit or loss.

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (I) Financial instruments (Continued)

##### *Financial assets (Continued)*

##### *Financial assets at fair value through profit or loss*

Financial assets are classified as at fair value through profit or loss when the financial asset is (i) contingent consideration that may be paid by an acquirer as part of a business combination to which IFRS 3, applies (ii) held for trading, or (iii) it is designated as at fair value through profit or loss.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at fair value through profit or loss upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and IAS 39 permits the entire combined contract (asset or liability) to be designated as at fair value through profit or loss.

FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other gains and losses' line item in the consolidated income statement.

Fair value is determined in the manner described in note 20.

##### *Convertible notes*

The component parts of convertible notes issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (I) Financial instruments (Continued)

##### *Financial assets (Continued)*

##### *Convertible notes (Continued)*

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to share premium. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to convertible equity reserve. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible notes using the effective interest method.

##### *AFS financial assets*

AFS financial assets are non-derivatives that are either designated as AFS or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

Listed equity instruments by the Group that are traded in an active market are classified as AFS and are stated at fair value at the end of each reporting period. Fair value is determined in the manner described in note 19. Changes in the carrying amount of AFS monetary financial assets relating to changes in foreign currency rates (see above), interest income calculated using the effective interest method and dividends on AFS equity investments are recognised in income statement. Other changes in the carrying amount of available-for-sale financial assets are recognised in other comprehensive income and accumulated under the heading of available-for-sale securities revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to income statement.

Dividends on AFS equity instruments are recognised in income statement when the Group's right to receive the dividends is established.

AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of each reporting period.

## Notes to the Consolidated Financial Statements

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (l) Financial instruments (Continued)

##### *Financial assets (Continued)*

##### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade receivables, deposits, prepayments and other receivables, and cash and bank balances) are measured at amortised cost using the effective interest method, less any impairment.

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

##### *Impairment of financial assets*

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For AFS equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as a default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 180 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (l) Financial instruments (Continued)

##### *Financial assets (Continued)*

##### *Impairment of financial assets (Continued)*

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

When an AFS financial asset is considered to be impaired, cumulative gains or losses previously recognized in other comprehensive income are reclassified to profit or loss in the period.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

In respect of AFS equity securities, impairment losses previously recognised in profit or loss are not reversed through profit or loss. Any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income and accumulated under the heading of available-for-sale securities revaluation reserve. In respect of AFS debt securities, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

##### *Financial liabilities and equity instruments*

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (l) Financial instruments (Continued)

##### *Financial liabilities and equity instruments (Continued)*

##### *Other financial liabilities*

Other financial liabilities (including trade and bills payables, accruals and other payables, amount due to a shareholder, amount due to a related company and borrowings) are subsequently measured at amortised cost using the effective interest method.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, (where appropriate) a shorter period, to the net carrying amount on initial recognition.

##### *Derecognition*

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognized in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (m) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand, demand deposits with banks and other financial institutions, and other short-term highly liquid investments that are directly convertible to a known amount of cash and are insignificant risk of change in value.

#### (n) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in the income statement in the period in which they are incurred.

#### (o) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

##### *The Group as lessee*

Assets held under finance leases are initially recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see note above). Contingent rentals are recognised as expenses in the periods in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

#### (p) Related parties transactions

A party is considered to be related to the Group if:

- (a) A person or a close member of that person's family is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) the entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiaries is related to the others);
  - (ii) one entity is an associate or joint venture of the other entity for an associate (or joint venture of a member of a group which the other entity is a member);
  - (iii) both entities are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group. If the Group is itself such a plan, the sponsoring employees are also related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is member of the key management personnel of the entity (or of a parent of the entity); or
  - (viii) the entity, or any number of a group of which is a part, provides key management personnel services to the Group or the Group's parent.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

A transaction is considered to be a related party transaction when there is a transfer of resources and obligations between related parties.

### 6. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (q) Contingent liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

#### (r) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of operating segments, has been identified as the key managements of the Company.

The key management consider the business for both business and geographic respective. Business respective include Trading of Security & Biometric Products, Solutions, Projects and Service, Internet & Mobile Application & Related Accessories and Commodities Trading operating segments. Geographic respective include Southeast Asia (include China) and Middle East.

### 7. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements in conformity with IFRSs requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Although these estimates are based on management's best knowledge of current events and actions, actual results may differ from those estimates.

The critical accounting estimates and assumptions used and area involving a high degree of judgements are described below:

#### (a) Estimated impairment of goodwill

The management of the Group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 6(c). The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. The management would refer to the valuation performed by independent qualified valuers. In performing the valuation, the valuers have based on method of valuation which involves certain estimates and assumptions.

#### (b) Useful lives of property, plant and equipment

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management estimates the useful lives of these assets to be 3-5 years. As changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, future depreciation charges could be revised. Management will increase the depreciation charge where useful lives are less than previously estimated lives, or it will write off or write down technically obsolete or non-strategic assets that have been abandoned or sold.

## Notes to the Consolidated Financial Statements

### 7. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

#### (c) Income taxes

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required in determining the worldwide provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

#### (d) Impairment of trade and other receivables

The debt profile of trade and other receivables is reviewed on a regular basis to ensure that the trade and other receivables balances are collectible and follow up actions are promptly carried out if the agreed credit periods have been exceeded. However from time to time, the Group may experience delays in collection. Where recoverability of trade and other receivables balances are called into doubts, specific provisions for trade and other receivables are made based on credit status of the debtors, the aged analysis of the receivables balances and written-off history. Certain receivables may be initially identified as collectible, yet subsequently become uncollectible and result in a subsequent write-off of the related receivables to the consolidated statement of comprehensive income. Changes in the collectability of trade and other receivables for which provision are not made could affect the results of operations.

#### (e) Fair value of financial instruments

The fair value of financial instruments that are not traded in an active market is determined by valuation techniques. The Group uses its judgment to select a variety of methods and make assumptions that are primarily based on market conditions existing at the end of each reporting period.

#### (f) Impairment of intangible assets

The directors of the Company reconsidered the recoverability of the Group's intangible assets "logo", "contract rights", "product development and design", "mobile applications software and technology" and "brand name and distribution networks". The recoverable amounts of the intangible assets have been determined based on value-in-use calculations. The value-in-use calculation requires the Group to estimate the future cash flows expected to arise from the intangible assets and a suitable discount rate in order to calculate the present value. The management refers to the valuation performed by independent qualified valuers. In performing the valuation, the valuers have based on method of valuation which involves certain estimates and assumptions.

#### (g) Impairment of available-for-sale financial assets

The directors of the Company considered the recoverability of the Group's available-for-sale financial assets. by its the recoverable amount of the available-for-sale financial assets which have been determined based on fair value which derived from quoted bid prices in the market. When the fair value of available for- sales financial assets decrease, the directors required to uses its judgements to consider whether the decrease in fair value is significant and prolonged and recognised the impairment.

#### (h) Fair value measurement of derivative financial instruments

The derivative financial instruments have been valued based on valuation technique. The valuation required the Group to make estimates about earning volatility, earning growth rate and discount rate, and hence they are subject to uncertainty. Further details are contained in Notes 20 and 31 to the consolidated financial statements.

### 8. REVENUE AND SEGMENT INFORMATION

The chief operating decision-maker has been identified as the key management. This key management reviews the Group's internal reporting in order to assess performance and allocate resources. Key management has determined the operating segments based on these reports.

The key management considers the business from both a business and geographic perspective. From business perspective, key management assesses the performance of Trading of Security & Biometric Products, Internet & Mobile's Application & Related Accessories and Commodities Trading operating segments.

- Trading of Security & Biometric Products segment consists of biometrics and RFID products for consumer applications. Examples include the m-series fingerprint door locks and FX-Secure-Key. Also, it carries biometric and RFID products and components for commercial use, such as i-series and s-series fingerprint authentication devices, together with EL-1000 and XL-1000 controllers forming access control, r-series RFID readers and controllers and K-series multi-modal security devices combining facial recognition, fingerprint authentication, password and RFID. The Group predominantly sells to distributors, system integrators and security system providers;
- Internet & Mobile's Application & Related Accessories segment are mobile and gaming industry and in particular in Online gaming, Utilities Applications for IOS, translations business and Mass Advertising;
- Commodities Trading Segment are trading of commodity good.

The accounting policies of the reportable segments are the same as the Group's accounting policies. Segments performance is evaluated base on reportable segments gross (loss)/profit, which is a measure of segment (loss)/profit.

### 17. GOODWILL (CONTINUED)

The carrying amount of goodwill allocated to cash-generating units (“CGUs”) that are significant individually or in aggregate is as follows:

	2016 HK\$'000	2015 HK\$'000
Provision of applications on mobile platforms (note a)	–	–
Provision of advertising on mobile platforms (note b)	–	26,066
	–	26,066

The directors of the Company had assessed the recoverable amount of goodwill as at 31 December 2016 by reference to the valuations as at 31 December 2016 performed by an independent firm of qualified valuer.

Note:

- (a) The directors of the Company has appointed an independent valuer to perform a business valuation on the CGU of provision of applications on mobile platforms containing goodwill and intangible assets which was acquired from the business combination during year ended 31 December 2016.

For the purpose of impairment testing, the carrying amounts of goodwill and mobile application software and technology (including in intangible assets set out in note 18) after impairment loss, have been allocated to the CGU for provision of advertising and entertainment applications on mobile platforms are as follows:

	2016 HK\$'000	2015 HK\$'000
Goodwill	–	–
Intangible asset:		
Mobile application software and technology (note 18)	10,309	20,619
	10,309	20,619

The recoverable amount of provision of applications on mobile platforms has been determined on the basis of value in use calculation and is based on certain key assumptions. The value in use calculation is based on cash flow projections prepared from financial budgets approved by the directors of the Company covering a 5-year period and a discount rate of 13.28% (2015: 15.55%). Cash flows beyond the 5-year period are extrapolated using a 5% (2015: 5%) growth rate and the growth rate does not exceed the average long-term growth rate for the industry.

The cash flow projections are prepared base on the expected gross margins determined based on past performance of provision of advertising and entertainment applications on mobile platforms and management expectations for market developments. The discount rates was estimated reflect current market assessment of the time value of money and the risk specific to the relevant CGUs in the market.

During the year ended 31 December 2016, no impairment loss of goodwill and intangible assets were recognised to the consolidated statement of profit or loss and other comprehensive income.

The directors of the Company believe that as the CGU of provision of applications on mobile platforms containing goodwill has been reduced to its recoverable amount of approximately HK\$10,309,000 (2015: HK\$20,619,000), any adverse change in assumption used in the calculation of recoverable would result in further losses.

## Notes to the Consolidated Financial Statements

For the year ended 31 December 2016

### 17. GOODWILL (CONTINUED)

Note: (Continued)

- (b) The recoverable amount of provision of advertising on mobile platforms has been determined on the basis of value in use calculation and is based on certain key assumptions. The value in use calculation is based on cash flow projections prepared from financial budgets approved by the directors of the Company covering a 5-year period and a discount rate of 14.36% (2015: 16.76%). Cash flows beyond the 5-year period are extrapolated using a 5% (2015: 5%) growth rate and the growth rate does not exceed the average long-term growth rate for the industry.

During the year ended 31 December 2016, the impairment loss of goodwill and intangible assets were recognised to the consolidated statement of profit or loss and other comprehensive income was approximately HK\$26,066,000 (2015: HK\$nil) and approximately HK\$9,411,000 (2015: HK\$nil) respectively as the advertising on mobile platforms.

The cash flow projections are prepared based on the expected gross margins determined based on past performance of provision of advertising on mobile platforms and management's expectations for the market development. The discount rates was estimated using pre-tax rates that reflect current market assessments of the time value of money and the risk specific to the relevant CGUs in the market.

The directors of the Company has appointed an independent valuer to perform a business valuation on the CGU of provision of advertising on the mobile platforms containing goodwill and intangible assets which was acquired from the business combination during year ended 31 December 2016.

For the purpose of impairment testing, the carrying amounts of goodwill and brand name and distribution network (including intangible assets set out in note 18) after impairment loss, have been allocated to the CGU for provision of advertising on mobile platforms are as follows:

	2016 HK\$'000	2015 HK\$'000
Goodwill	–	26,066
Intangible asset:		
Brand name and distribution network (note 18)	47,289	56,700
	<b>47,289</b>	82,766

The key assumptions used in the value in use calculations are as follows:

Budgeted market share and sales	Average market share and sales in the period immediately before the budget period is expected to be unchanged over the budget period. The values assigned to the assumptions reflect past experience, except for the growth factor, which is consistent with management plans for focusing operations by the industry. Management believes that the planned market share growth and budgeted sales over the budget period is reasonably achievable.
Budgeted gross margin	Average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements.

#### (b) Financial risk management objective and policies

##### *Market Risk*

##### *Price Risk*

The Group's major financial instruments include financial assets at fair value through profit or loss, derivative financial assets, trade receivable, other receivables, trade payables and other payables. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The Group is exposed to equity price risk mainly through its investment in listed equity securities. The directors of the Company manage this exposure by maintaining a portfolio of investments with different risk and return profiles. The Group's equity price risk is mainly concentrated in equity securities listed in Hong Kong industry sector quoted in The Stock of Exchange of Hong Kong Limited for the year ended 31 December 2016. The directors of the Company will monitor the risks and consider hedging the risk exposure should the need arise.

### 33. FINANCIAL INSTRUMENTS (CONTINUED)

#### (b) Financial risk management objective and policies (Continued)

##### *Market Risk (Continued)*

##### *Equity price sensitivity analysis*

The sensitivity analysis below have been determined based on the exposure to equity price risk at the end of the reporting period.

If the prices had been 15% higher/lower (2015: 15% higher/lower):

- post-tax profit for the year ended 31 December 2016 would increase/decrease by HK\$22,811,000 (2015: post-tax profit increase/decrease by HK\$37,233,000) as a result of change in fair value of financial assets at fair value through profit or loss.
- other comprehensive income for the year ended 31 December 2016 would increase/decrease by HK\$2,884,000 (2015: other comprehensive income increase/decrease by HK\$nil) as a result of change in fair value of available-for-sales financial assets.

##### *Foreign currency risk*

The Group has not used any financial instruments to hedge against significant foreign currency exposure should the need arise.

The following table details the Group's sensitivity to a 5% increase and decrease in Hong Kong Dollars against the relevant foreign currencies. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at each of reporting period for a 5% change in foreign currency exchange rates.

The table below analyses the effect on the Group's exchange difference in the consolidated statement of profit or loss and other comprehensive income arising from the denominated monetary item in the next year should the foreign currencies exchange rate be changed.

### 33. FINANCIAL INSTRUMENTS (CONTINUED)

#### (b) Financial risk management objective and policies (Continued)

##### *Market Risk (Continued)*

##### *Foreign currency risk (Continued)*

Since US\$ is pegged to HK\$, the Group does not expect any significant movement in HK\$/US\$ exchange rate and this is excluded from the sensitivity analysis above. Management considered the exposure of US\$ are insignificant. Management will monitor foreign exchange exposure to mitigate the foreign currency risk.

##### *Credit risk*

It is the risk that a counterparty is unable to pay amount in full when due. It arises primarily from the Group's trade receivables. The Group limits its exposure to credit risk by rigorously selecting counterparties. The Group mitigates its exposure to risk relating to trade receivables by dealing with diversified customers with sound financial standing. The Group seeks to maintain strict control over its outstanding receivables and has a credit control policy to minimise credit risk. In addition, all receivables balances are monitored on an ongoing basis and overdue balances are followed up by senior management. The amounts presented in the consolidated statement of financial position are net of allowances for doubtful receivables, if any, estimated by the management based on prior experience and the current economic environment. The Group reviews the recoverable amount of each individual debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors believe that the credit risk is significantly reduced. The Group has a concentration of credit risk in certain individual customers. At the end of each reporting period, the five largest receivable balances accounted for 34.5% as at 31 December 2016 (2015: 79.3%) of the trade receivables and the largest trade receivable was 8.2% (2015: 21.6%) of the Group's total trade receivables. The Group seeks to minimise its risk by dealing with counterparties which have good credit history. Majority of the trade receivables that are neither past due nor impaired have no default payment history.

In relation to the Group's deposits with bank, the Group limits its exposure to credit risk by placing deposits with financial institutions with high credit rating and no recent history of default. The directors consider that the Group's credit risk on the bank deposits is low. Management continues to monitor the position and will take appropriate action if their ratings should change. As at 31 December 2016 and 2015, the Group has no significant concentration of credit risk in relation to deposits with bank.

### 33. FINANCIAL INSTRUMENTS (CONTINUED)

#### (c) Fair value estimation

Financial instruments that are measured in the consolidated statement of financial position at fair value, this requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

- Level 1: fair value measured using quoted prices (unadjusted) in active markets for identical financial instruments
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data
- Level 3: Fair values using valuation techniques in which any significant input is not based on observable market data

Except for the liability component of convertible notes which recorded at amortised cost as below, the Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the Group's statement of financial position approximate to their fair values.

	31 December 2016		31 December 2015	
	Carrying amount HK\$'000	Fair value HK\$'000	Carrying amount HK\$'000	Fair value HK\$'000
Convertible notes	104,973	104,349	–	–

The fair value of the liability component is the present value of the contractually determined stream of future cash flows discounted at the interest applied at that time by the market to instruments of comparable credit status and providing substantially the same cash flows, on the same terms, but without conversion option.

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value:

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
<b>As at 31 December 2016</b>				
Financial assets at fair value through profit or loss:				
Listed equity securities in Hong Kong	182,122	–	–	182,122
Derivative financial instruments:				
Redemption option of convertible notes (Note)	–	182,198	–	182,198
Available-for-sales financial assets:				
Listed equity securities in Hong Kong	23,026	–	–	23,026
	205,148	182,198	–	387,346
<b>As at 31 December 2015</b>				
Financial assets at fair value through profit or loss:				
Listed equity securities in Hong Kong	297,273	–	–	297,273
	297,273	–	–	297,273

Note: Convertible notes are measured at fair value at the end of each reporting period. Convertible notes are determined with Binomial option pricing model as valuation technique and all inputs are observable except the credit spread which should be considered as Level 2.

#### (d) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of debt and equity balance.

The Group's overall strategy remains unchanged from 2015 to 2016.

The capital structure of the Group consists of net debts (promissory note and convertible note as details in note 30 and 31 respectively offset by cash at bank and on hand) and equity of the Group (comprising issued capital, reserves, and retained earnings as stated in consolidated statement of changes in equity).

The gearing ratio at end of the reporting period was as follows.

	2016 HK\$'000	2015 HK\$'000
Debt (i)	104,973	–
Less: Cash at bank and on hand (note 24)	(442,496)	(305,721)
Net debt	(337,523)	(305,721)
Equity (ii)	877,215	664,602
Net debt to equity ratio	N/A	N/A

(i) Debt is defined as promissory note and convertible notes as described in note 30 and 31 respectively.

(ii) Equity includes all capital and reserves of the Group that are managed as capital.

## Notes to Consolidated Financial Statements

For the year ended 31 December 2016

### 38. SHARE-BASED COMPENSATION RESERVE (CONTINUED)

- (d) According to the Black-Scholes Options Pricing Model, the values and adjusted values of the options granted are as follows:

Date of grant	26 January 2016
Option value	HK\$0.13
Variables:	
– Exercise price (adjusted)	HK\$0.237
– Closing price at date of grant	HK\$0.237
– Risk free rate	1.47%
– Expected volatility (note (i))	89%
– Expiration of the option	25 January 2019
