# Important Notice

The Board of Directors, the Supervisory Committee, Directors, Supervisors and senior management of the Company undertake that the information in this annual report is true, accurate and complete and contains no false record, misleading statement or material omission, and assume individual and joint liabilities to the information in this report.

This report was considered and approved at the fourth meeting of the fourth session of the Board of the Company.

Director(s) absent from the meeting

Position of absent Directors	Name of absent Directors	Reasons for absence	Name of proxies
Director	Sun Hongning	Business engagement	Zhou Yi
Independent Non-executive Director	Liu Yan	Business engagement	Chen Chuanming

None of the Directors and Supervisors had objections towards this report.

The annual financial report prepared by the Company in accordance with the CASBE and the IFRS was audited by KPMG Huazhen LLP and KPMG respectively, which issued a standard unqualified audit report to the Company.

Zhou Yi, officer in charge and officer in charge of accounting of the Company, and Fei Lei, officer in charge of the accounting office of the Company (head of accounting department), hereby warrant and guarantee that the financial report contained in the annual report is true, accurate and complete.

**The profit distribution plan or the reserve capitalization plan for the Reporting Period considered by the Board:**

As audited by KPMG Huazhen LLP, the profit for the year of the parent company for 2016 was RMB4,638,186,983.63. According to the relevant requirements of the Company Law, Securities Law, Financial Rules for Financial Enterprises (《金融企業財務規則》) and the Articles of Association of the Company, the Company had appropriated 10% statutory surplus reserve, 10% general risk reserve and 10% trading risk reserve of RMB1,391,456,095.08 in total, after which, the profit available for distribution for the year was RMB3,246,730,888.55.

Plus the balance of undistributed profit of RMB10,929,349,736.65 in previous years and less the dividend of RMB3,581,384,400.00 distributed according to the profit distribution plan of the Company for 2015, the accumulated profit available for distribution to investors in cash for the year was RMB10,594,696,225.20.

In light of the relevant provisions of the *Guidelines No. 3 on the Supervision and Administration of Listed Companies – Distribution of Cash Dividends of Listed Companies* issued by CSRC and the *Guidelines of Shanghai Stock Exchange on Distribution of Cash Dividends of Listed Companies* and the actual needs of the business development of the Company, it is recommended that the profits be distributed as follows:

The Company will make profit distribution by way of cash dividend for 2016, to distribute cash dividend to all the holders of A shares and H shares whose names appear on the register of shareholders on the record date for cash dividend distribution for 2016, the amount of which will be RMB5.00 (tax included) per 10 shares in cash based on the total share capital of 7,162,768,800.00 shares as of the end of 2016, with an aggregate amount of RMB3,581,384,400.00. The undistributed profit of RMB7,013,311,825.20 will be carried forward to the next year. Cash dividend is denominated and declared in RMB and paid to holders of A shares in RMB and to holders of H shares in HKD. The actual distribution amount in HKD would be calculated at the rate of average basic exchange rate of RMB against HKD issued by the People's Bank of China for the five business days prior to the 2016 annual general meeting of the Company.

This profit distribution plan will be submitted to the annual general meeting of the Company for 2016 for consideration, and it is expected that the annual dividend for 2016 will be distributed to the shareholders of the Company within two months, after such plan is approved at the general meeting but in any event no later than August 31, 2017.

**Forward-looking statements including future plans and development strategies involved in this annual report do not constitute the Company's substantive commitments to investors. The investors are advised to pay attention to investment risks.**

**There is no non-operating misappropriation of funds of the Company by any controlling shareholders and their related parties during the Reporting Period.**

**The Company has not provided any guarantees in favor of others in violation of the decision-making procedures during the Reporting Period.**

The report of the Company is prepared in both Chinese and English. In the event of any inconsistency, the Chinese version should prevail.

## Warning on Major Risks

Most of the Company's assets are located in China, and a substantial majority of its revenue is derived from the securities markets in China, so the Company's business is highly dependent on the economic and market conditions in China. On the one hand, like other companies in the securities industry, the Company's business is directly affected by the inherent risks associated with the securities markets, such as market volatility and fluctuations in the trading volume. On the other hand, the Company's business is also subject to general economic and political conditions, such as macroeconomic and monetary policies, legislation and regulations affecting the financial and securities industries, upward and downward trends in the business and financial sectors, inflation, currency fluctuations, availability of short-term and long-term market funding sources, cost of funding and the level and volatility of interest rates. The Company can provide no assurance that the favorable domestic economic and market conditions will be sustained.

In recent years, along with the continuously deepening reform on the capital market in China, weakening barrier of license in the securities industry and the continuous diversification of securities businesses and products, the domestic securities industry is facing intensifying competition, and the Company's business may be materially and adversely affected if it fails to compete effectively. Affected by factors such as the penetration of mobile device account opening and the strengthening of marketization of fee, the commission rates of securities brokerage business may continue to go downward, the trading volume in the market can hardly remain at a high level, and the spreads of capital-based intermediary business may narrow down, all of which may adversely affect the growth of the Company's brokerage and wealth management businesses. With the advancement of the reform on the regulatory system and the strengthening of law enforcement, the investment banking business of the Company will be faced with severe challenges in various aspects such as trading execution, customer exploration, pricing and distribution capability. In the meanwhile, the income of our investment banking business may also be adversely affected by the fluctuations of the capital market. Along with the tighter regulation of asset management channel business of securities firms and the intensified competition among mixed businesses or unfavorable economic and market conditions, the assets under the Company's management may be reduced or the performance of the Company's asset management may be affected, which may result in a negative impact on the Company's capacity of charging asset management fees or performance rewards. Since the domestic derivatives market still needs to develop and improve, it is difficult for the Company to effectively defend itself from market risks. In the meanwhile, the Company actively takes measures to maintain the stability of the capital market, conducts return swaps trading transactions twice with China Securities Finance and sharply expands the scale of directional investment. The performance of the Company's investment and trading business is closely related to the performance of the domestic securities market. The Company strives to expand its business coverage and provide new products and new services, while business innovation may cause the Company to be exposed to increased risks or additional risks.

During the Reporting Period, the regulatory rating of the Company has been lowered to BBB under Category B, which may limit the Company's abilities to carry out pilot projects and launch new businesses, and the Company's performance and profits and subsequent conduction of innovative businesses may be affected. Due to the expansion of the Company's traditional and innovative businesses, the Company needs to maintain sufficient liquidity for business operations, and in the event that the cash generated from the operating activities is not sufficient to meet the liquidity or regulatory capital requirements, the liquidity, profit and businesses of the Company may be adversely affected. The Company follows its internal risk management framework and procedures to manage risks, while the risk management policies, procedures and the internal control of the Company may not reduce the risks in a sufficient and effective manner or enable the Company to avoid risks not identified yet or unpredictable. In the meanwhile, under the rapidly developing market conditions, the information and empirical data on which the risk management methods of the Company are based may become inappropriate due to changes in the market and regulatory environment. The Company's operations depend on key management and professional staff, and the success of its business is dependent to a large extent on the continuity of its senior management and its ability to attract and retain key personnel. However, the market is filled with intensified competition for outstanding professionals, and if the Company is unable to attract or retain such key personnel, the Company's business and prospects may be adversely affected. As a pioneer for the application of IT in the securities industry, the Company considerably relies on its IT system to record in time and precisely process transactions and provide on-line products and services, and the information technology failures may cause the Company's business operations to be adversely affected. Any force majeure, natural disaster or outbreak of any epidemic or infectious disease in the future may restrict the Company's business activities in affected regions, which, in turn, may cause the business, financial condition and operating results of the Company to be materially and adversely affected.

For the specific analysis on various types of risks and the specific measures already or to be taken by the Company, please refer to the various risk factors in operating activities and control measures.

# Definitions

# Chairman's Statement

Dear Shareholders,

---

The year of 2016 was the 10th year since Huatai Securities embarked on the road to comprehensive reform and transformation. After ten years' strategic efforts, we gradually transformed into a leader in the age of industry transformation and a forerunner of key business areas from an enterprise in the securities industry that relied heavily on traditional brokerage business. With this opportunity, we would like to share some of our thoughts here.

---

In order to motivate reform and transformation, one should change the habitual thinking and reliance on old ways as well as possessing the courage to be the first to exploit a new path to differentiation and excellence. In view of this, commission income from the brokerage business is no longer our sole pursuit, and we no longer rely on the passageway investment banking business. We refuse to drift with the current and we re-discover the original nature of financial services — the client-oriented concept. In this way, we embrace the use of Internet, transform our organisation structure and reshape the business system, forging the core abilities of whole business chain.

As of the end of 2016, the Company's total assets amounted to RMB401,450,397 thousand, with RMB84,357,457 thousand of total equity attributable to the Company. The Company's revenue and other income reached RMB24,631,628 thousand, with RMB6,270,612 thousand of profits attributable to the shareholders of the Company for the year. Although the Company's overall performance experienced a marked decrease due to market adjustments, the decrease was significantly below the industry average. Meanwhile, the revenue structure and business structure were further optimized, the proportion of income from non-passageway business increased obviously, and the development pattern was more adaptable and responsive to the policy and market changes. Our perseverance has laid a solid foundation for the next stage of reform.

Thanks to our adoption of the mobile Internet strategies, we have ranked the first for three consecutive years for the market share of equity fund trading volume of our brokerage business and the volume kept growing for four consecutive years, reaching 8.85% in 2016, which was ahead of our counterparts in the industry. The number of monthly active users on the mobile financial service terminal, ZhangLe Fortune Path, ranked the first among Apps of securities companies. The capital intermediary business ranked the third in the industry for three consecutive years.

Through upholding marketization and professional services, our investment banking business has made the most rapid growth among all investment banks in recent years. The bold and decisive reform on organizational structure has laid the foundation for transformation. The merger and acquisition business has driven the development of businesses such as IPO and refinancing, focusing on the emerging industries and completing various cross-market landmark projects. In 2016, our merger and acquisition business ranked the first in the industry by the number of projects in the industry for five consecutive years. Equity underwriting ranked the third in the industry by amount, reaching a record high.

Our asset management business kept improving its scale and ranking and has ranked in the top tier in the brokerage asset management industry. The total AUM of the asset management business has exceeded RMB880 billion, standing at the forefront of the industry. The fixed income products have been improved and the advantages of investment have been further consolidated. Asset securitization has established a leading position in the industry.

As for the field of investment and trading, we insisted on the non-directional strategy and achieved positive returns for equity despite the unfavourable investment market environment in 2016. We have also set up a comprehensive FICC business system, which has effectively prevented the company from negative impacts of the major adjustment of the bond market at the end of 2016 and dominated the market in terms of relative risk return rate.

Considering the asset allocation demand of high net worth clients in China and learning from the customer service system in mature markets, we successfully completed the acquisition of a US company, AssetMark, in 2016, which can provide a powerful platform for wealth management transformation and the connection with international resources. It showcased a key step we took in the layout of international development.

We often review and reflect on our previous performances but what we have achieved should not become the burden of our transformation. The implementation of every strategy is based on the accumulation of made efforts over the years, and it is not an easy task to put things into practice. Therefore, we shall have the utmost determination and courage to make constant improvements so as to stand out among peers and become a first-class comprehensive financial institution.

The key direction of domestic financial reform of the moment is to put efforts on developing the capital market. The regulatory ideas of compliance, more stringent standards and the comprehensiveness of compliance are promoted. Under the new regulatory environment, higher standard is set for the requirements of service capability and competitiveness of securities companies. In the long term, more rigid regulations are conducive to the rapid development of organizations which place clients' needs in priority, possess core professional abilities and create actual values.

Looking into 2017, we will make ourselves stand out and stand firm amid the changing trend and further optimize the client-oriented service system.

To begin with, we will continue to promote the transformation from traditional retail brokerage business to wealth management business. We will explore client demands and enhance online-offline interaction, in an effort to provide further differentiated services. At the same time, we will learn from advanced overseas experience in order to optimize the service process and technology platform, enhancing the core ability of asset allocation and investment management for clients.

Secondly, we will reform the institutional business structure and enhance the advantage of the whole business chain. Our investment banking business will take the lead to jointly develop the comprehensive businesses of asset management, research and trading, to enhance its influence over A shares and the Hong Kong stock market. In this way, we can provide full-cycle services to corporate clients with excellent and well-rounded expertise.

Thirdly, we will promote the strategy of internationalized development and accelerate the connection of domestic resources and international markets. Following the general trend for individual, corporate and institutional clients to make overseas investment, financing and globalized asset allocation, we can make breakthroughs in the investment banking business through cross-border acquisitions. With the onshore and offshore connection of wealth management platform, we can cater to the needs for overseas asset allocation of residents, implementing the layout with specific goals.

We strongly believe that opportunities are everywhere in this age of industry transformation, but certain confusion and challenges are inevitable as well. Therefore we must adhere to the clearly defined strategies and enforce the changes effectively as a trailblazer. We look forward to another great ten years of Huatai.

Zhou Yi

## VI. OTHER INFORMATION OF THE COMPANY

### (I) Historical development of the Company, mainly including the reorganization and capital increases

- The predecessor of the Company was Jiangsu Securities Company (江蘇省證券公司), which was established in December 1990 as approved by the headquarters of PBOC with a registered capital of RMB10 million, obtained the business license on 9 April 1991, and officially opened for business on 26 May 1991.
- In 1994, the Economic Reform Commission of Jiangsu Province issued two documents, namely "Su Ti Gai Sheng [1993] No. 74" and "[1994] No. 36", to approve the conversion of the Company to be a directional stock raising company with a registered capital of RMB202 million.
- In June 1997, as considered and approved at the annual general meeting of the Company in 1996 and approved by the headquarters of PBOC and CSRC via two documents of "Yin Fu [1997] No. 501" and "Zheng Jian Ji Zi [1998] No. 43", respectively, the Company implemented the capital increase program to increase its capital to RMB404 million, changed its name to "江蘇證券有限責任公司" (Jiangsu Securities Co., Ltd.), and completed the business registration for such change on 21 April 1998.

4. In May 1998, as considered and approved at the annual general meeting of the Company in 1997, the Company implemented the capital increase program to increase its capital to RMB828 million, and completed the business registration for such change on 18 January 1999.
5. In March 1999, as considered and approved at the general meeting of the Company and approved by CSRC via the document of “Zheng Jian Ji Gou Zi [1999] No. 152” in December 1999, the Company changed its registered capital to RMB850.32 million, changed its name to “华泰证券有限责任公司” (Huatai Securities Limited Liability Company), and completed the business registration for such changes on 21 December 1999.
6. In April 2001, as considered and approved at the general meeting of the Company and approved by CSRC via the document of “Zheng Jian Ji Gou Zi [2002] No. 96” in April 2002, the Company increased its registered capital from RMB850.32 million to RMB2,200 million, and completed the business registration for such change on 24 May 2002.
7. In 2007, as considered and approved at the general meeting of the Company and approved by CSRC via the document of “Zheng Jian Ji Gou Zi [2007] No. 311” on 29 November 2007, the Company was converted into “华泰证券股份有限公司” (Huatai Securities Co., Ltd.) in its entirety with its registered capital increased from RMB2,200 million to RMB4,500 million. On 7 December 2007, the Company completed the business registration for such changes.
8. In 2009, as considered and approved at the general meeting of the Company and approved by CSRC via the Reply on Approving Huatai Securities Co., Ltd. to Change Registered Capital, Acquire Xintai Securities Co., Ltd. (华泰证券有限责任公司) via Absorption and Change the Business Scope (Zheng Jian Xu Ke [2009] No. 715) on 30 July 2009, the Company increased its registered capital from RMB4,500 million to RMB4,815,438,725. The Company completed the business registration for such change on 31 July 2009.
9. In February 2010, as considered and approved at the general meeting of the Company and approved by CSRC via the Reply on Approving Huatai Securities Co., Ltd. to Conduct the Initial Public Offering (Zheng Jian Xu Ke [2010] No. 138) on 1 February 2010, the Company conducted the IPO of 784,561,275 RMB-denominated ordinary shares (A shares), and was successfully listed on Shanghai Stock Exchange in the same month, after which, the registered capital of the Company was RMB5,600 million. The Company completed the business registration for such changes on 23 February 2010.
10. On 11 December 2014, the Resolution on Issuance of H Shares and Listing in Hong Kong by the Company was considered and approved at the fourth extraordinary general meeting of the Company in 2014. The Listing Committee of the Hong Kong Stock Exchange held listing hearing on 7 May 2015 to consider the Company’s application for issuing no more than 1,610,000,000 overseas listed foreign shares and listing on the Main Board of the Hong Kong Stock Exchange. The Company completed the Hong Kong public offering and international placing of 1,400,000,000 H Shares on 22 May 2015, and on 1 June, the 1,400,000,000 H Shares initially public offered by the Company and the 140,000,000 H Shares transformed from state-owned shares which were held by relevant state-owned shareholders of the Company and transferred to the NSSF by them because of reduction of holding, totaling 1,540,000,000 overseas listed foreign shares (H Shares), were listed and traded on the Main Board of the Hong Kong Stock Exchange. On 19 June 2015, certain joint global coordinators (on behalf of the international underwriters) exercised the over-allotment option referred to in the prospectus for the offering of H Shares, to require the Company to additionally issue 162,768,800 H Shares (hereinafter referred to as the “Over-allotted Shares”), and the Listing Committee of the Hong Kong Stock Exchange subsequently approved the listing and trading of the Over-allotted Shares and the H Shares to be held by the NSSF after the conversion (hereinafter referred to as the “Converted H Shares”). Such Over-allotted Shares and Converted H Shares were listed and traded on the Main Board of the Hong Kong Stock Exchange on 24 June 2015. As a result, the total share capital of the Company was changed from 5,600,000,000 shares to 7,162,768,800 shares. The Company completed the business registration for such changes on 7 July 2015.

## (II) Organization Structure of the Company

### (III) Subsidiaries of the Company

As of the end of the Reporting Period, the Company had 4 wholly-owned subsidiaries and 3 controlling subsidiaries in mainland China and abroad. The basic information is as follows:

Name of subsidiaries	Address	Date of establishment	Registered capital (in 10,000)	Person in charge	Contact number
Huatai Financial Holdings (Hong Kong)	Unit 8-12, 58/F, The Center, 99 Queen's Road Central, Hong Kong	23 November 2006	HKD880,000	Zhou Yi	025-83389999
Huatai Zijin Investment	180 Hanzhong Road, Nanjing	12 August 2008	RMB600,000	Zhou Yi	025-83389999

# Summary of the Company's Business

## I. DESCRIPTIONS OF OUR PRINCIPAL BUSINESS LINES, OPERATION MODELS AND INDUSTRY CONDITIONS DURING THE REPORTING PERIOD

### (I) Our principal business lines, operation models and the key drivers to our performance during the Reporting Period

We are a leading integrated securities group in China, with a substantial customer base, a leading e-Platform and a highly collaborative full-service business model. We provide comprehensive securities and financial services through our branches and e-Platform to individual, institutional and corporate clients to meet their financial needs. Our principal business lines comprise brokerage and wealth management, investment banking, asset management, investment and trading business, overseas business and other businesses. We continue to implement our full-service business strategy which is led by investment banking, underpinned by brokerage and wealth management and supported by asset management, as well as investment and trading, thus enabling us to acquire differentiated core competitiveness. We plan to leverage our competitive advantages in the securities business to actively expand our full service operations, and aim to become a leading integrated financial group with strong local advantages and a global vision.

#### 1. Brokerage and wealth management businesses

Brokerage and wealth management businesses mainly consist of securities and futures brokerage, sales of financial products, institutional sales and research, and capital-based intermediary businesses. For securities and futures brokerage, we mainly execute trades on behalf of our clients in stocks, funds, bonds and futures to provide convenient trading services. For sales of financial products, we primarily sell various financial products managed by us and other financial institutions and provide asset allocation services to our clients. For institutional sales and research, we market and sell securities products and services to institutional clients and provide professional research services to facilitate their investment decisions. In respect of capital-based intermediary business, we provide diversified financing services including margin financing and securities lending as well as securities-backed lending to our clients.

Key drivers to the brokerage and wealth management business include fee and commission income, and interest income. The segment revenue and other income from our brokerage and wealth management business during the Reporting Period amounted to RMB15,559,308 thousand, representing a year-on-year drop of 45.72%; the segment expenses were RMB9,986,520 thousand, decreased by 39.44% over the same period of last year; and the segment profit ratio was 35.82%, decreased by 6.65 percentage point as compared to that of last year.

#### 2. Investment banking business

Investment banking business primarily consists of equity underwriting, debt underwriting, financial advisory and OTC business. For equity underwriting business, we provide IPO and equity services for PRC corporate clients. For debt underwriting business, we provide various types of bond financing services for PRC corporate clients. For financial advisory business, we center on advising M&A from industry distribution and strategy perspective for PRC corporate clients. For OTC business, we provide recommendation services as chief agency broker to help unlisted companies enter into the NEEQ for share quotation and transfer and arrange follow-on financing for listed companies; and Jiangsu Equity Exchange which the Company funded can also provide cross-selling opportunities for our other business lines and help us explore and identify more investment opportunities for our private equity funds.

Key drivers to investment banking include advisory fees, underwriting and sponsorship fees. The segment revenue and other income from our investment banking business during the Reporting Period amounted to RMB2,512,098 thousand, representing a year-on-year increase of 31.69%; the segment expenses were RMB1,567,059 thousand, increased by 24.19% over the same period of last year; and the segment profit ratio was 37.62%, increased by 3.68 percentage point as compared to that of last year.

### 3. Asset management business

Our asset management business mainly consists of asset management for securities firms, private equity fund management and asset management for fund companies. For asset management business for securities firms, which consists of collective asset management business, targeted asset management business, specialized asset management business and mutual fund management business (including large collective asset management schemes), we participate in the operation of asset management business for securities firms via Huatai Asset Management, our wholly-owned subsidiary. For private equity fund management business, we operate direct investment business, which includes investment in, and management of private equity funds, through our wholly-owned subsidiary Huatai Zijin Investment. For asset management business for fund companies, we hold non-controlling interests in two mutual fund management companies, namely China Southern Asset Management and Huatai-PineBridge, through which we participate in the operation of asset management business for fund companies.

Key drivers to asset management business include management fee, performance fee and investment income. The segment revenue and other income from our asset management during the Reporting Period amounted to RMB3,173,989 thousand, representing a year-on-year increase of 26.66%; the segment expenses were RMB1,017,082 thousand, increased by 19.27% over the same period of last year; and the segment profit ratio was 67.92%, increased by 2.35 percentage point as compared to that of last year.

### 4. Investment and trading business

Our investment and trading business primarily consists of equity investment and trading, fixed-income investment and trading, OTC financial products and trading. For our equity investment and trading business, we engage in the investment and trading of stocks, ETFs and derivatives for our own account and also engage in market-making services for exchange-traded financial products. For our fixed-income investment and trading business, we engage in the trading of various types of fixed-income securities and derivative instruments on interbank bond market and stock exchanges and engage in market making services in interbank bond market. For OTC financial products and trading business, we offer and trade OTC financial products, mainly including equity return swaps, structured notes and asset management schemes, for clients. We also engage in providing market-making and quotation services on the NEEQ.

Key drivers to investment and trading business include investment income. The segment revenue and other income from our investment and trading business during the Reporting Period amounted to RMB2,337,922 thousand, representing a year-on-year drop of 48.29%; the segment expenses were RMB902,133 thousand, decreased by 42.66% over the same period of last year; and the segment profit ratio was 61.41%, decreased by 3.79 percentage point as compared to that of last year.

### 5. Overseas business and others

We engage in the operation of overseas business, mainly consisting of investment banking, sales and trading, and asset management business, via Huatai Financial Holdings (Hong Kong), a wholly-owned subsidiary of the Company. For investment banking business, we acted as sponsors for PRC and foreign companies in IPOs on the Hong Kong Stock Exchange, equity and debt underwriting, advising on cross-border M&A and providing financing solutions for clients. For sales and trading business, we provide securities trading and market-making service, and fixed-income, credit, futures contracts and structured products, as well as customized products for clients. We also provide our retail and institutional clients with global securities and futures brokerage and financing services. For asset management business, we provide portfolio and fund management services for our institutional clients, high net-worth and retail customers. We have developed various types of Renminbi asset management products by leveraging Hong Kong's position as the leading offshore Renminbi center.

Key drivers to overseas operations include brokerage commission, underwriting sponsorship fee, advisory fee, interest income and asset management fee. In addition, there are other drivers from the headquarters, such as interest income and expenses arising from the use of general operating capital, the expenditure of the middle and back offices, and the income from the investment to associated companies. The segment revenue and other income from our overseas business and others during the Reporting Period amounted to RMB1,089,259 thousand, representing a year-on-year drop of 44.73%; the segment expenses were RMB3,059,638 thousand, decreased by 43.33% over the same period of last year; and the segment profit ratio was -139.12%, decreased by 13.09 percentage points as compared to that of last year.

## (II) Descriptions of the development stage and periodic characteristics of our industry and our position in the industry during the Reporting Period

We conduct business operations in the securities industry. The operating income and profit levels of the securities industry are highly dependent on the changes of the securities market trend and characterized by strong periodicity and fluctuations. Our securities-related businesses are dependent on and also benefit from the economic growth and the development and performance of the capital market in the PRC, and are also influenced by various factors including economic environment, regulatory environment, investor sentiment and international market.

Currently, the PRC securities industry is in the period of strategic opportunity for leap-forward development. Although the PRC economic growth has been slow, the macro-economic situation is generally favorable and still remains within a reasonable range, showing a trend for improvement on the basis of stability, and the economic structure is continuously optimized. The securities industry will face unprecedented new opportunities and new space for development with the reform and opening up of the financial system, the deepening development of the multi-layered capital market, and the continuous furtherance of the reform on the financial regulation mechanism and the transformation of securities regulation. Securities industry will play an increasingly important role in serving the development of the real economy and the supply-side structural reform, supporting the innovation in national strategy and industrial transformation and upgrade, and meeting the diversified investment demands of the investors. Also, the securities industry is shifting its focus from traditional passageway businesses centered on light assets to capital intermediary businesses centered on heavy assets with the business scope of PRC securities industry continuously expanded, product types enriched, business functions constantly improved, profit model consistently optimized, the internet-based development of securities businesses significantly accelerated and the internationalization of securities businesses stepped up.

Over our 25 years of development, we achieved rapid growth by successfully capitalizing on the transformation and development opportunities of the PRC securities industry. We completed a series of successful mergers and acquisitions and our A Share and H Share IPOs, and navigated through market cycles, financial crises and regulatory reforms. Meanwhile, we have actively integrated and updated intermediary businesses, including brokerage and wealth management, investment banking and asset management, energetically developed capital-based intermediary businesses, constantly promoted the performance of our investment and trading activities and captured innovative growth potential. We outperformed our competitors through strategic transitions to achieve market-leading positions in multiple business lines.

According to Wind information, as at the end of the Reporting Period, we continued to rank No. 1 in the securities industry in terms of equity fund trade volume, and ranked No. 2 in the securities industry in terms of the balance of margin financing and securities lending business. According to statistics in the monthly reports of Shanghai Stock Exchange and Shenzhen Stock Exchange, as at the end of the Reporting Period, we ranked No. 3 in the securities industry in terms of the balance of stock pledged repo business. According to the statistics of Wind Info, during the Reporting Period, we ranked No. 3 in the securities industry in terms of the amount of equity underwritten as the lead underwriter; we ranked No. 7 in the securities industry in terms of the amount of bond underwritten as the lead underwriter; we ranked No. 1 in the securities industry in terms of the amount of convertible bonds (including exchangeable bonds) underwritten as the lead underwriter; we ranked No. 1 and No. 3 in the securities industry in terms of the number and amount of M&A and reorganization transactions led by us, respectively. According to the statistics of Wind Info, during the Reporting Period, Huatai Asset Management ranked No. 2 and No.3 in the securities industry in terms of the issuance volume and size of enterprise asset securitization business, respectively. According to the statistical data provided by Analysts, as at the end of Reporting Period, our mobile terminal "ZhangLe Fortune Path" ranked No. 1 among the brokers' APPs in terms of the average daily number of active users.

Please see the Rankings of Securities Companies in Terms of Operating Results in 2016 (as of the issuance date of this report, the relevant rankings have not been published on the website of Securities Association of China) published on the website of Securities Association of China for the final rankings of the Company in terms of the indicators such as total assets, net asset value, operating income and net profit in 2016.

## II. ANALYSIS ON THE CORE COMPETITIVE STRENGTHS DURING THE REPORTING PERIOD

The Company is one of the first comprehensive securities companies approved by CSRC, and is also an innovative pilot securities company early reviewed and approved by the Securities Association of China. Over the years, the Company has always been adhering to the core values of “high efficiency, honesty, stability and innovation” and the operating concept of “centering on customer services, taking customer needs as orientation and aiming to satisfy the customers”, and has gradually formed the Company’s own unique core competitive strengths and gained great popularity and influence in the market.

### (I) Advantages of corporate governance structure

In order to establish a modern corporate system, the Company strengthened and continuously refined its corporate governance structure. A corporate governance structure with checks and balances has been formed which features the separation among Shareholders’ General Meeting, the Board, the Supervisory Committee and the operation management. Under such structure, they perform their respective functions at various levels and are held accountable within respective responsibilities and authorization, ensuring the prudent and standardized operation of the Company. During the Reporting Period, the Company re-elected the Board and the Supervisory Committee, adjusted the composition of the special committees under the Board, appointed senior management and amended a number of important governance documents, to continue promoting the modernization of the corporate governance system and competence. Standardized and reasonable corporate governance structure guaranteed the excellent and scientific decision-making ability of the Company. During the Reporting Period, the Company was awarded the “2016 Best Corporate Governance Awards — Special Mentions” granted by the Hong Kong Institute of Certified Public Accountants.

### (II) Advantages of capital scale

Capital scale is one of the key factors that can determine the competition position, profitability, anti-risk capability and development potential of a securities firm. Ample capital scale is the foundation for the rapid development of a securities firm. During the Reporting period, the Company completed the issuance of two tranches of subordinate bonds with an aggregate amount of RMB8 billion and two tranches of corporate bonds with an aggregate amount of RMB14 billion. The Company recorded a constant capital increase and a sharp rise in the scale of net capital and net assets by virtue of listing and issuance of A+H shares, financing with various types of bonds and endogenous growth. Its capital structure was continuously improved and its capital scale stood at the forefront of the industry. The capital strength of the Company has entered a new phase, forming a solid capital foundation for business transformation, accelerating business innovation and driving forward significant strategic projects of the Company.

### (III) Advantages of risk management and internal control

The Company deeply recognized the necessity and importance of risk management and internal control, and placed emphasis on and consistently adhered to the corporate culture of operating in compliance with laws and regulations. During the Reporting Period, the Company continuously adjusted and improved the risk management system and the internal control system in accordance with relevant regulatory policies, market development conditions and business conditions, introduced advanced concepts and methods of risk management and effectively enhanced its ability of forward-looking identification and pre-warning for risks. As a result, the efficiency and ability of specialized risk management were substantially improved and the transformation and upgrade of risk management and internal control systems were advanced, to further adapt to the whole business chain strategy and requirements of all-round transformation and upgrade of the Company. The sound, effective, active and prompt risk management system and internal control mechanism effectively guaranteed the continuous, healthy and standardized development of every business of the Company.

### (IV) Advantages of comprehensive financial services

The Company continued to deepen the construction of the whole business chain system and further propelled business innovation and transformation. With continual increase in business qualifications and further improvement in business system and structure, it outperformed its peers in all of its primary businesses. During the Reporting Period, the Company completed the acquisition of AssetMark, and proactively applied for the expansion of foreign exchange business and the uplift of limit amount on margin refinancing business. With the expansion of the scope of the business, the Company gradually established an integrated financial holding group comprising securities, funds, futures and overseas businesses, with remarkable advantages in scale effect, cross-selling potential and comprehensive financial services. The Company could provide systematic, one-stop and professional financial services to customers by integrating its internal and external resources according to the customers' demands, which would help maintain and further enhance its core competitive strengths.

### (V) Advantages of online and offline channels

In recent years, the Company continued to propel the internet development strategy centered on the mobile internet platforms, and managed to efficiently provide customers with standard services at low costs through internet platforms. The internet platform has become a significant foundation for the Company to attract customers at a large scale, serve customers in high efficiency and retain customers by various methods. Meanwhile, the Company actively upgraded the functions of its traditional offline business outlets, continuously improved the layout of its business outlets and pooled the resources of its business outlets with a focus on providing customized and comprehensive financial services to high-net-worth, institutional and corporate clients. Supported by the reasonably distributed business outlets and industry-leading internet platforms, the Company's operating efficiency and synergic marketing ability were continuously enhanced, which was conducive to providing targeted high-quality services for over 11 million clients of the Company.

### (VI) Advantages of innovation capability

Innovation is an inexhaustible driving force of the market development and also the basic means to strengthen the competitiveness of securities institutions. The Company is one of the innovative pilot securities companies early examined and approved, and innovation is always an important part of the Company's core values. The Company always takes innovation as the key driving force for its strategic transformation and emphasizes the role of innovation in business development and contribution to profit. It persistently pursues development through innovation, with good results achieved. The Company has been designated by regulatory authorities as one of the first companies to participate in new business pilots for many times, and has always been one of the leading companies in various aspects when piloting such new businesses. In recent years, while speeding up the innovative transformation of its traditional business, the Company also steadily promoted innovation business, which showcased the synergy between innovation and traditional businesses and increased the proportion of income from innovation business.

## (VII) Advantages of human resource

As of the end of the Reporting Period, there were 5,281 employees in the parent company, 4,631 of whom were with bachelor's degree and above, accounting for 87.69%. The Company continuously deepened the marketization reform on human resources management, strengthened the hiring of high-end talents with innovative and global vision, enhanced employee training programs, created a long-term system for effective talent evaluation focusing on the improvement of the employees' professional qualifications and market competitiveness. The operating management and core management team of the Company have a deep understanding of macroeconomic situation and industry development and also have rich working experience in strategic management and business operation, and excellent team leadership. High-quality management team and employees are one of the most important resources in the Company, which provide a solid foundation for supporting business development of the Company and shaping its core competitive strength.

## (VIII) Advantages of information technology

The Company always emphasizes forward-looking innovation of information technology, as it strives to keep the information technology up to date and entrench its pioneering position. The Company vigorously drove the independent development and operation of key IT platforms and carried on products and technology innovation centered on platforms, by centralizing client service platform, data center, product platform, trading platform and risk management platform, with an aim to improve its own unique core strengths in IT. Besides, the Company accelerated the building of a broader and integrated operation and maintenance system, actively promoted the transformation of the mode of IT operation and maintenance and continuously enhanced the support obtained from professional IT operation and maintenance, so as to achieve more efficient resources allocation and more precise marketing promotion. Efficient information technology system and services can integrate company resources more reasonably and enhance the competence of operation and management and sustainable development.

## (IX) Advantages of brand influence

The Company continuously strengthened asset optimization management of the brand, explored and deepened the brand connotation, and built and improved the brand marketing and promotion system at multi-levels and in multi-phases. The Company continuously ramped up brand communication, and drove and promoted business marketing by brand marketing. As such, it expanded its brand influence across China. At the same time, the Company continued facilitating the construction of corporate culture, strengthened internal cohesion and external influence to furnish strong spirit driving force and support to its development, with the aim of coordination between the corporate culture construction and brand fostering. Good brand image can help improve customers' recognition of the Company and customer loyalty, and can also inspire its employees and improve employees' loyalty, which will provide strong driving force and support for the healthy, harmonious and sustainable development of the Company.

In recent years, the Company vigorously advanced the strategy of internationalization, promoted the linkage between domestic and foreign businesses, and spared no efforts in creating a platform for the development of overseas business. With the completion of the Company's A+H share deployment, capital increase in Huatai Financial Holdings (Hong Kong) and acquisition of AssetMark, the Company has further extended the layout of its overseas business, accelerated its process of internationalization and expanded its business fields. Therefore, the Company could better seize the opportunities in cross-border business and satisfy the customers' demands in this regard and further improve its comprehensive income, market competitiveness and international influence. During the Reporting Period, the Company's core competitiveness has not been adversely affected by the resigning of core management team and key technicians, facilities or technology upgrade and the loss of concession. The Company will cautiously analyze and investigate the opportunities and challenges brought by the changes in economic environment, market and business. Under multi-business operation, the Company strives to enhance its integrated competitive strength.

### 3. Prospect of year 2017

In 2017, as for equity securities investment and trading business, the Company will still persist in multi-business diversification and “de-directional” development mode. Besides, we will actively explore new investment path and mode, constantly improve integrative investment and research system, quicken the development process of investment and research management system, promote the achievement of systematization, informatization and precision management of business, and greatly improve investment and trading capability. As for exchange traded quantified hedging investment, the Company will still keep strengthening the learning and utilization of advanced financial instruments and technologies. Besides, we will actively expand strategy research and improve the quantitative investment system, effectively carry out transactional investment business, and combine investment with trading business. As for fixed-income investment and trading business, the Company will fully strengthen position risk management. Besides, we will adhere to the concept that value can be created via research and risk management, constantly promote deep cooperation in the business system, improve sales & trading platform, further strengthen the market competitiveness of fixed income, bulk commodity and foreign exchange transaction, and establish differentiated profit model. As for OTC financial products and trading business, the Company will strengthen product and service innovation. Besides, we will constantly improve product design and customer service ability, greatly promote OTC derivatives business, and build OTC market platform with investment, financing and trading. As for alternative investment business, the Company will further research and develop new strategies. Besides, we will seize various investment opportunities occurring in the market and steadily improve investment returns.

## (V) Overseas business and others

### 1. Market environment

During the Reporting Period, the global economy was unstable and still in the midst of adjustment after the international financial crisis. The economy of main developed countries had a slow recovery speed, the economy of emerging countries had a slow growth speed, and global economy presented a weak recovery situation as a whole. Under the background that the two-way opening depth and range of capital market continuously developed, cross-border wealth management and investment & financing demands continuously increased, and Chinese-funded securities traders with profound customer foundation will have new opportunities.

### 2. Operation measures and achievements

During the Reporting Period, Huatai Financial Holdings (Hong Kong) constantly promoted the development of overseas business and deepened business line management and resources integration. Besides, it achieved business transformation and upgrade, from the business mode concentrating on retail brokerage to a financial service platform with multiple business lines. As of the end of the Reporting Period, as for securities trading, Huatai Financial Holdings (Hong Kong) achieved 15,695 customers, with the total assets under custody of HKD6.327 billion and the total stocks trading volume of HKD26.869 billion; as for futures contract trading, it achieved 1,092 customers, with funds under custody reached HKD0.11 billion and the total futures trading of 74.4 thousand board lots; as for advising on securities, it provided research reports and advisory services for about 3,500 customers; as for advising on corporate finance, it participated in 3 IPO projects, 1 allotment project and 6 bond issue projects, with a total underwriting quantity of 10 and the total amount of trading and issuance reaching about 3.545 billion dollars; as for financing for securities deposits, it achieved 4,723 credit capital accounts, with the accumulated credit amount of HKD91.2615 million; as for providing assets management, it achieved a total amount of funds under custody funds of HKD260.698 billion (including the scale of funds under custody of AssetMark). Besides, during the Reporting Period, Huatai Financial Holdings (Hong Kong) also completed 13 financial advisory projects and 7 structured investments and financing projects.

During the Reporting Period, the Company finished the acquisition of a US company AssetMark. AssetMark is a leading turnkey asset management platform (TAMP) in the market as a third party financial service organization that provides a series of services such as investment strategies and assets portfolio management, customer relationship management and asset custody, as well as an advanced and convenient technology platform. As of the end of the Reporting Period, the asset under management of the AssetMark platform reached USD32.251 billion with over 7,200 investment service consultants.

In addition, there were other drivers from the headquarters, such as interest income and expenses arising from the use of general working capital, the expenses of the middle and back offices, and the income from the investment to associates. The current operating income of other businesses decreased significantly over the same period in 2015, mainly due to the decrease in interest and investment incomes of liquidity management, while the significant decrease in cost was due to the decrease in operating revenue and the decrease in accrual labor cost of headquarters.

### 3. Prospect of year 2017

In 2017, the Company will build a globalized management system covering all business lines, greatly strengthen internationalized risk prevention, control and management ability and constantly improve overseas market service ability. As for investment banking, the Company will further exploit and accumulate project resources, and provide customers with integral financial plan and overseas financing support of full life circle by taking cross-border acquisition and merger as the sally port. As for sales & trading business, the Company will constantly improve the cross-market service system and ability, and expand the customer service range. As for assets management business, the Company will vigorously develop overseas customers, actively exploit new products and business modes, and constantly improve global asset allocation capability. Besides, the Company will accelerate the construction of overseas financial product platform, and strengthen cross-market asset allocation foundation. Meanwhile, the Company will embark on deep cooperation with AssetMark in the area of wealth management to gradually promote improvement of technology platform, optimization of management service process and synergy of products, so as to enhance the core competitiveness of the Company.

#### (VI) Business innovation and its effects on the Company's operating performance and future development, as how to control relevant risks

##### 1. Main business innovation and its effects on the Company's operating performance and future development

As for credit innovation business, during the Reporting Period, the Company actively promoted pilot project for innovation of private equity financing business so as to meet customers' financing demand for subscribing listed companies' private equity stocks. Besides, the Company also actively promoted pilot projects for innovation of share financing business of asset management plan. Credit innovation business was carried out to supplement the Company's existing product lines and business scope; not only can it help create interest income, but also improve customer structure and business operation mode, strengthen the Company's profitability, and further improve the Company's brand influence.

As for OTC derivatives business, during the Reporting Period, supervision for OTC derivatives market became stricter. The Company actively paid attention to business and market development opportunities, enhanced the research on market trend, constantly explored business innovative development mode, enriched and improved business contents, and further developed business scope and depth. OTC derivatives, as the stabilizer of investment business, can provide more room for innovation on investment business, help promote product diversification in capital market, meet diversified demands of customers, and further enlarge the source of income of securities traders.

As for exchange traded option business, in 2015, after being approved by Shanghai Stock Exchange, the Company became a participant of stock option trading of Shanghai Stock Exchange, and started stock option brokerage and proprietary businesses. Besides, the Company became the major market maker of Shanghai 50 ETF option contract varieties after being approved by CSRC and Shanghai Stock Exchange. During the Reporting Period, the Company actively carried out option market making business; the exposure of position risk was controllable and exercise of options was stable; the Company ranked A in monthly ranking for major market maker and annual Grade-A market maker. Exchange-traded option business has enriched quantitative investment strategies and provided diversified investment and risk management tools.

As for precious metal brokerage, it helps individual & institutional clients open precious metal spot contract transaction account and handle trading business. As of the end of the Reporting Period, the Company has developed 2 institutional clients and 18 individual clients, with an accumulated amount of Ag (T+D) reaching RMB123.6 thousand, and an accumulated amount of Au (T+D) reaching RMB262.4 thousand. Carrying out this business can help increase new agent transaction qualifications, enrich the varieties of agent transaction business, expand customers' investment and asset allocation scope, widen business income channel and strengthen business differentiation advantage.

## 2. Risk control for business innovation

During the Reporting Period, the Company constantly facilitated business innovation activities, promoted the innovation of the Company's new business lines, new products, services and management modes, and improved its innovation ability. During innovation business operation, the Company adhered to the principle — “satisfying market needs, pursuing legally viable approach, enhancing risk control and ensuring efficiency”, further improved the risk control measures for organizational mechanisms, authorization for decision-making, systems & procedures and other aspects as per the risk characteristics of innovation business, prevented the risks of insufficient awareness on the risks of innovation business, unreasonable business design and imperfect control mechanism, and ensured that all innovation businesses could be carried out constantly and steadily on the premise that the risks are measurable, controllable and bearable.

As for credit innovation business, during the Reporting Period, the Company released “share financing business of asset management plan” and other innovation business varieties. The Company made pertinent customer credit checking and extension management, pledged goods admittance management, project review management and other risk management mechanisms as per the risk management for original credit business as well as specific characteristics of innovation business, and strengthened the management of pledged goods market risk and liquidity risk, customers or the counter-party's credit risk and other business risks.

As for OTC derivatives business, the Company prepared risk control measures and system covering all business process nodes by taking counter-party assessment, selection of subject securities, setting of transaction limits, risk hedging management, daily marking-to-market and risk disposition into consideration. Besides, the Company took positive measures in the aspects of model verification and estimate value re-checking so as to prevent model risk. During business operation, business front-line personnel were responsible for daily marking-to-market; the Risk Management Department was responsible for secondary monitoring and detailing the assessment for credit risk, market risk and liquidity risk on the basis of the original risk management measures so as to ensure the risk level in the business process can meet all limit index requirements.

As for exchange traded option business, the Company carried out whole process monitoring and assessment for the risk condition during option business operation, prepared risk limitation, operation procedures and emergency plan, set up risk hedging mechanism, and conducted daily marking-to-market, including but not limited to the capital scale of option business, exposure and the issue of Greek alphabet, gain/loss rate of investment project, occupation condition of margin, etc. Wherein, the occupation condition of margin included ratio of daytime real-time margin and ratio of end-of-day maintenance margin; early warning mechanism was set to ensure business risks are controllable.

As for precious metal brokerage, the Company established normative systems & procedures, post division and customer propriety management requirements, etc., improved the risk monitoring indexes in the aspects of front control, risk pre-warning and query, established customer performance guarantee rate, dynamic tracking, pre-warning and monitoring mechanism for customer's unusual transaction, and established daily marking-to-market, position limit management, large trader reporting, warehousing management, risk trial and other management mechanisms. Besides, the Company carried out whole process monitoring and assessment for the risk condition during precious metal brokerage, conducted daily monitoring for the overall condition of precious metal brokerage, customer propriety requirements, customer risk condition and customers' unusual transaction, and made corresponding measures and risk warning mechanism.

## II. Main operations during the Reporting Period

### 1. Revenue and other income

For the year ended 31 December 2016, the revenue and other income realized by the Group were RMB24.632 billion, with a year-on-year drop of RMB14.784 billion at 37.51%. It was due to the performance decline of the Company resulting from the severe volatility of the stock market in 2016 which saw a depressed trade, including:

- (1) Fee and commission income was RMB11.410 billion, accounting for 46.32%, with a year-on-year decrease of 43.52%. This was mainly due to the impact of the market environment, the single side trading volume of the two stock exchanges falling 48.71% as compared to the same period in 2015, and the fee and commission expenses significantly reduced.
- (2) Interest income was RMB8.878 billion, accounting for 36.04%, with a year-on-year decrease of 25.36%. This was mainly due to the balance of the market's trading on margin financing and securities lending at the end of 2016 with a decrease of 20.01% compared with that at the end of 2015, while the daily balance of the company's trading on margin financing and securities lending fell compared with that in 2015, of which the interest income dropped.
- (3) The net investment income was RMB3.976 billion, accounting for 16.14%, down by 41.16%. It was mainly due to the fact that the stock market, bond market and foreign exchange market in 2016 underwent adjustment and significant change, and the market environment was more complicated than that in 2015, and thus the proprietary investment business experienced a decline.

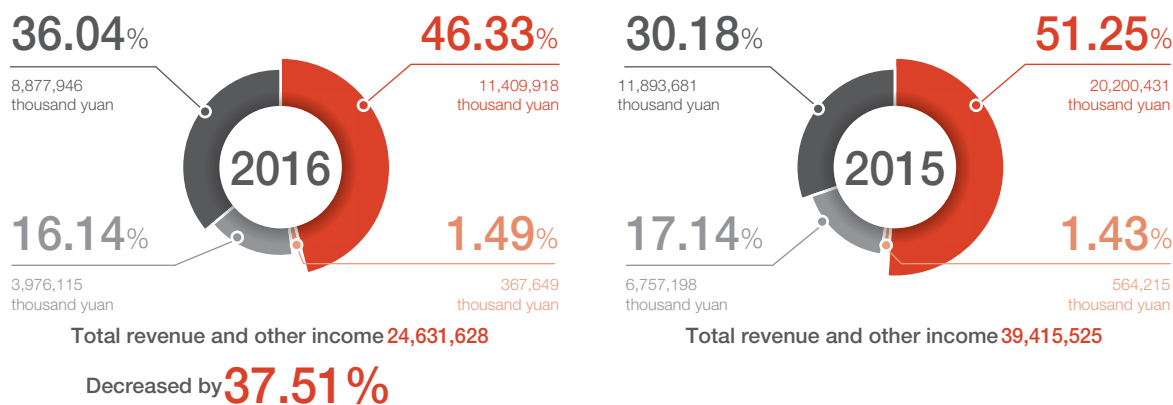

Below is the structure of the Group's revenue and other income during the Reporting Period:

Unit and Currency: RMB'000

Item	2016		2015		Growth and Drop	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Fee and commission income	11,409,918	46.33%	20,200,431	51.25%	(8,790,513)	(43.52)%
Interest income	8,877,946	36.04%	11,893,681	30.18%	(3,015,735)	(25.36)%
Net investment income	3,976,115	16.14%	6,757,198	17.14%	(2,781,083)	(41.16)%
Other incomes and gains	367,649	1.49%	564,215	1.43%	(196,566)	(34.84)%
Total revenue and other income	24,631,628	—	39,415,525	—	(14,783,897)	(37.51)%

### Composition of income

- Fee and commission income
- Interest income
- Net investment income
- Other incomes and gains

## 2. Total expenses

For the year ended on 31 December 2016, the Group's total expenses were RMB16.492 billion, representing a year-on-year decrease of 35.51%. The decrease was mainly due to the drop in cost and other expenses resulting from the decrease in revenue and other income as compared to the corresponding period of 2015, which including:

- (1) Fee and commission income of RMB2.562 billion, with a year-on-year decrease of 54.87%. This was mainly due to the sharp decrease of equity fund, the brokers commission and operating expenses reduced year-on-year, and the drop of corresponding fees payable to the exchange as well as the commission income from brokerage.
- (2) Interest expense of RMB5.393 billion, with a year-on-year decrease of 30.96%. This was mainly due to the decline of the funds required in the capital intermediary business, so the corresponding interest expenses declined;
- (3) Employee cost of RMB5.648 billion, with a year-on-year decrease of 30.62%. This was mainly due to the decline in operating income of the Company, resulting in the decline of salaries of the client managers and performance bonuses for employees.

- (4) Other expenses include depreciation and amortization expenses, business tax and surtax, as well as asset impairment losses (reversal)/provision and other operating expenses. Other operating expenses during the Reporting Period were RMB2.889 billion, representing a year-on-year decrease of 26.74%. The decrease was attributable to the decrease in operating income and the corresponding decrease in the accrual expenses to the exchange and other operating expenses.

Unit and Currency: RMB'000

Item	2016		2015		Increase or decrease	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Fee and commission expenses	(2,561,665)	15.53%	(5,675,615)	22.19%	3,113,950	(54.87)%
Interest expenses	(5,393,487)	32.70%	(7,812,191)	30.55%	2,418,704	(30.96)%
Staff cost	(5,648,420)	34.25%	(8,141,192)	31.84%	2,492,772	(30.62)%
Depreciation and amortization expenses	(408,527)	2.48%	(332,752)	1.30%	(75,775)	22.77%
Business tax and surcharges	(450,613)	2.73%	(1,722,544)	6.74%	1,271,931	(73.84)%

Asset impairment-loss	36,753	(0.22)%	(73,259)	0.29%	110,012	(150.17)%
Total expenses	(16,492,187)	100%	(25,572,104)	100%	9,079,917	(35.51)%

### 3. Analysis of revenue and other income and expenses

#### 1/Analysis of segment revenue and other income

Unit and Currency: RMB'000

Business segment	Amount of segment revenue and other income of this period	Total ratio of segment revenue and other income of this period (%)	Segment revenue and other income in the same period of last year	Total ratio of segment revenue and other income in the same period of last year (%)	YoY increase or decrease of ratios of segment revenue and other income
Brokerage and wealth management	15,559,308	63.17	28,666,367	72.73	decrease by 9.56 percentage points
Investment banking	2,512,098	10.20	1,907,598	4.84	increase by 5.36 percentage points
Asset management	3,173,989	12.89	2,505,858	6.36	increase by 6.53 percentage points
Investment and trading	2,337,922	9.49	4,521,327	11.47	decrease by 1.98 percentage points
Overseas business and others	1,089,259	4.42	1,970,915	5.00	decrease by 0.58 percentage points

During the Reporting Period, the consolidated revenue and other income of the Company were RMB24,631,629 thousand, representing a year-on-year decrease of 37.51%. Among the main businesses, the year-on-year decrease of revenues from brokerage and wealth management business and investment and trading business were RMB13,107,059 thousand and RMB2,183,405 thousand respectively, while the revenues from investment banking business and asset management business were RMB604,500 thousand and RMB668,131 thousand respectively.

As for the income structure, the market share of the Company's stock fund transaction continued to increase and ranked first in the market, but the percentage of income from brokerage and wealth management in total revenue and other income dropped by 9.56 percentage points compared with that of 2015, which was due to the sharp fluctuation in the Shanghai and Shenzhen stock index, the dramatic decline in trading volume and the decrease in the balance of margin financing and securities lending in the market. However, the Company takes the expansion in market financing as an opportunity to increase the business scale and income of investment banking and asset management. The percentage of the revenues from two businesses to the total segment revenue and other revenues increased by 5.36 percentage points and 6.53 percentage points year on year.

## 2/Breakdown of segment expenses

Unit and Currency: RMB'000

Business segment	Segment expenses of this period	Total ratio of segment expenses of this period (%)	Segment expenses of the same period of last year	Total ratio of segment expenses of the same period of last year (%)	YoY change of ratio of segment expenses
Brokerage and wealth management	(9,986,520)	60.55	(16,490,926)	64.49	Decrease by 3.94 percentage points
Investment banking	(1,567,059)	9.50	(1,261,818)	4.93	Increase by 4.57 percentage points
Asset management	(1,017,082)	6.17	(852,766)	3.33	Increase by 2.84 percentage points
Investment and trading	(902,133)	5.47	(1,573,213)	6.15	Decrease by 0.68 percentage points
Overseas business and others	(3,059,638)	18.55	(5,399,064)	21.11	Decrease by 2.56 percentage points

According to the ratio of expenses of each business segment to the total expenses of the Company, the percentage of expenses of brokerage and wealth management, investment and trading, overseas business and other business to the total expenses of the Company decreased year-on-year by 3.94%, 0.68% and 2.56% respectively; the percentage of expenses of investment banking and asset management to total expenses increased year-on-year by 4.57% and 2.84% respectively. The income from the brokerage and wealth management and investment and trading reduced year-on-year greatly, and the corresponding expenses also declined, so the ratio of segment expenses decreased. The income from investment banking and asset management and the corresponding expenses increased, and in 2016 the overall expenses of the Company showed a year-on-year sharp decline, so the percentage of expenses of investment banking and asset management increased.

## 4. Cash flow

Unit and Currency: RMB'000

Item	Current amount	Amount of the corresponding period of the previous year	Amount increased or decreased	Increase or decrease rate (%)
Net cash (used in)/generated from operating activities	22,019,862	(46,417,732)	68,437,594	(147.44)
Net cash (used in)/generated from investing activities	(4,462,651)	(21,122,340)	16,659,689	(78.87)
Net cash (used in)/generated from financing activities	(5,009,663)	53,833,089	(58,842,752)	(109.31)
Net (decrease)/increase in cash and cash equivalents	12,547,548	(13,706,983)	26,254,531	(191.54)

During the Reporting Period, the net increase of the cash and cash equivalents of the Group was RMB12,547,548 thousand, including:

- (1) The net cash inflow generated from operating activities was RMB22,019,862 thousand, with a year-on-year decrease of 147.44%, largely due to the decrease in cash held on behalf of brokerage clients.
- (2) The net cash outflow used in investing activities was RMB4,462,651 thousand, with a year-on-year decrease of 78.87%, largely due to the decrease in cash paid for securities investment.
- (3) The net cash outflow used in financing activities was RMB5,009,663 thousand, with a year-on-year decrease of 109.31%, largely due to the substantial decrease in financing scale of the Company this year.

## 5. R&D expenses

Unit: Ten Thousand Yuan Currency: RMB

R&D expenses for current period	9,586.93
Capitalized R&D expenses for current period	19,760.95
Total R&D expenses	29,347.88
The proportion of total R&D expenses to net assets (%)	0.34
The proportion of total R&D expenses to operating income (%)	1.73
Number of R&D personnel of the Company	560
The proportion of the number of R&D personnel to total number of the staff of the Company (%)	8.04
Proportion of capitalized R&D expenses (%)	67.33

To fully transform the wealth management mode and increase the influence of "ZhangLe Fortune Path", the Company kept giving priority to R&D. To improve operating profits and management efficiency in long term, the Company injected RMB293,478,800 in total in R&D and hardware by self-development, joint development and entrusting development.

## 6. Details of the material changes in the composition or sources of the Company's profit

Unit and Currency: RMB'000

Item	Current amount	Amount of corresponding period of last year	Year-on-year change (%)	Major influencing factors
Total revenue and other income	<b>24,631,628</b>	39,415,525	(37.51)	Decrease in equity fund trading volume and scale of capital-based intermediary business, and reduction of income from investment

As of 31 December 2016, the non-current assets of the Group reached RMB65.917 billion, increasing by RMB21.113 billion as compared to the beginning of the year. It was because the available-for-sale financial assets increased by RMB5.594 billion, financial assets held under resale agreements increased by RMB5.087 billion, other intangible assets by RMB5.084 billion, refundable deposits by RMB2.149 billion, and goodwill by RMB2.04 billion. As of 31 December 2016, the total non-current liabilities of the Group reached RMB82.662 billion, decreasing by RMB8.539 billion as compared to the beginning of the year. It was mainly because the long-term bonds decreased by RMB19.426 billion, financial assets sold under repurchase agreements by RMB10.8 billion and the financial liabilities measured at fair value whose changes were recorded in the profits and losses of the current period increased by RMB18.215 billion.

As of 31 December 2016, the total non-current assets of the Group was RMB335.533 billion, decreasing by RMB72.278 billion as compared to the beginning of the year. It was mainly because financial assets measured at fair value whose changes were recorded in the profits and losses of the current period reduced by RMB48.225 billion, the cash held on behalf of the brokerage clients reduced by RMB37.376 billion, the lent funds receivable reduced by RMB10.827 billion, and financial assets held under resale agreements increased by RMB15.610 billion. As of 31 December 2016, the total non-current liabilities of the Group reached RMB233.128 billion, decreasing by RMB46.757 billion as compared to the beginning of the year. It was mainly because the account payable to brokerage clients reduced by RMB35.639 billion, other amounts payables and accrued expenses reduced by RMB19.648 billion, the financial liabilities measured at fair value and whose changes were recorded in the profits and losses of the current period reduced by RMB11.724 billion and the long-term bonds due within one year increased by RMB22.902 billion.

## 2. The limitation condition of the prime assets as of the end of the Reporting Period

As of the end of the Reporting Period, no prime assets of the Company were seized, detained, frozen, mortgaged or pledged, and they were not under the circumstance that they can, or cannot be realized or can be used to pay the debts under a certain condition. There is no circumstance and any arrangement in which the prime assets were occupied, used or benefited, and the disposal of them was not limited.

### 3. Description of assets measured at fair value, changes in measurement attributed of main assets and other related information

Fair value refers to the price received by selling one asset or the price paid for transferring one liability by the market participants during the orderly transactions on the measurement date.

When the Group estimates the fair value, it considers the characteristics (including the status and location of the assets, the limitation to sell or use them, etc.) that the market participants consider when they price the related assets or liabilities at the measurement, and adopts the currently suitable valuation techniques that are supported by adequate available data and information. The valuation techniques used include market approach, income approach and cost approach.

As fair value has an important impact on the financial condition and operating results of the Company, the Company continues to improve the measurement, audit, reporting and disclosure of fair value. During the Reporting Period, the Company classified financial instruments in strict accordance with the accounting policies and accounting system adopted by the Board of Directors, and confirmed their fair values.

During the Reporting Period, the impact of changes in profits and losses of fair value on the Company's profits was as follows:

Unit and Currency: RMB (Yuan)

Item	Impact on the profits of 2016	Impact on the profits of 2015
Financial assets measured at fair value whose changes are recorded in the profits and losses of the current period	(960,864,499.50)	(48,085,136.36)
Financial liabilities measured at fair value whose changes are recorded in the profits and losses of the current period	(793,484,550.93)	780,673,651.69
Derivatives	1,414,644,981.30	(1,448,622,228.43)
Total	(339,704,069.13)	(716,033,713.10)

### 4. Asset structure and asset quality

As of 31 December 2016, the shareholders' equity of the Group amounted to RMB85.66 billion, representing an increase of RMB4.131 billion as compared to that at the beginning of the year, largely due to the increase in profits of the Group.

The asset structure of the Group continued to be optimized, and the assets have good quality and liquidity. As of 31 December 2016, the assets of the Group amounted to RMB401.45 billion, decreasing by RMB51.164 billion as compared to that at the beginning of the year, a fall of 11.3%. Specifically, the cash and bank balances and the provision of settlement fund accounted for 11.57% of the total assets; the financial assets measured at fair value and whose changes are recorded in the profits and losses of the current period, the available-for-sale financial assets, the accounts receivable, other accounts receivable and prepayments accounted for 33.11% of the total assets; the lent funds receivable accounted for 14.10% of the total assets, the cash held on behalf of the brokerage clients accounted for 23.56% of the total assets; the financial assets held under resale agreements accounted for 11.54% of the total assets; the property and equipment accounted for 0.89% of the total assets. Most of the assets show strong ability to be cashed. The Group's assets show strong liquidity, and the asset structure is reasonable. As of 31 December 2016, the proportion of current assets to current liabilities is 143.93%, basically the same as that of the beginning of the year.

As of 31 December 2016, the Company obtained funds through loans, debt financing instruments, and such means of financing as interbank lending and repurchase. At the end of the Reporting Period, the loans and debt financing of the Group amounted to RMB84,579,071,422.44. The details are as follows:

Unit and Currency: RMB (Yuan)

Loans and debt financing programs	At the end of 2016
Interbank lending	6,650,000,000.00
Short-term borrowing	460,255,000.00
Short-term financing funds payable	1,621,000,000.00
Bonds payable	75,847,816,422.44
Total	84,579,071,422.44

Loans and debt-financing with a financing maturity of more than one year is RMB49.948 billion, accounting for 59.05%. Among them, programs with a financing maturity of one to two years were worth RMB13.592 billion, two to five years were RMB30.365 billion, and more than five years were RMB5.991 billion. Loans and debt-financing programs with a financing maturity of less than one year were RMB 34.631 billion, accounting for 40.95%.

By the end of 2016, the Group's loans with fixed interest rate and debt financing were RMB83.778 billion, of which the balance of interbank lending was RMB6.65 billion, the balance of income receipts was RMB6.18 billion, the balance of corporate bonds was RMB30.583 billion, the balance of subordinated debts was RMB37.6 billion, and the balance of foreign debts was RMB2.765 billion.

At the end of 2016, the cash and cash equivalents of the Group amounted to RMB31.652 billion, and RMB cash and cash equivalents accounted for 88.63%.

As of 31 December 2016, the Company has paid up the long-term bank loans.

## 5. Profitability of the Company during the Reporting Period

During the Reporting Period, the revenue and profits of the Company decreased significantly compared with that of 2015, largely due to the sharp decline in total securities and funds trading volume in the market, the daily average business scale of margin financing and securities lending, etc. In addition, the large fluctuation in stock market led to the significant decrease in the net income from brokerage business, the income from interest of margin financing and securities lending and the income from proprietary investment. However, the Company centered on marketization, continued to deepen the reform and transformation, and endeavored to reduce the decline rate by increasing the market share of the brokerage business and expanding the securities-pledge business. The Company also made expansion in market financing as an opportunity to increase the business scale and income of investment banking and asset management. The decline in revenues and profits of the Company was not as serious as that of the industry average level.

## 6. Description of the changes of the consolidation scope of statement

### 1/ Mergers of enterprises not under the same Group this year

The Company finished acquiring the equity of AssetMark on 31 October 2016. As of the closing date, AssetMark has become a subsidiary of the Company. The Company indirectly holds its shares and includes it in the consolidated financial statements. Please see Note 24(c) of Notes to the Financial Statement. As of 31 December 2016, the Company indirectly held 98.595% of AssetMark's shares, and other shares were held by the management and employees of AssetMark.

### 2/ Scope changes as a result of the establishment of new subsidiaries

On 31 December 2016, the subsidiaries established this year were included in the consolidation scope. The management of the Company believed that the Company actually controls the newly established subsidiaries, so cost method for long-term equity investment is used for accounting. The 13 new subsidiaries of the Group are included in the consolidated statements.

### 3/ Changes of the consolidation scope as a result of new structured entities incorporated into the consolidation scope

As to the manager or investment adviser and investor of structured entities, the Group assessed the return that the Group was entitled to for the shares held, and combined the influential structured entities whose managers' remuneration made the Group face variable return (mainly refers to asset management plan). The structured entities of the Group, which were included in the consolidated statement this year, decreased by 7 compared with that of last year.

## 7. The Company's income tax policy during the Reporting Period

During the Reporting Period, the corporate income tax was subject to the Corporate Income Tax Law of the PRC and the Enforcement Regulations of Corporate Income Tax Law of the PRC. The calculation and payment methods of the income tax shall be subject to Announcement of the State Administration of Taxation on Issuing the Measures for the Consolidated Collection of Corporate Income Tax on Trans-regional Business Operations (GJSWZJGG [2012] No. 57). The income tax rate of the Company and its domestic subsidiaries is 25%. The Company enjoys the preferential policy of calculating and deducting R&D expenses, and the profit tax rate of the Hong Kong subsidiary of the Company is 16.5%. Other overseas subsidiaries of the Company are subject to income taxes at tax rates applicable in their jurisdictions.

## 8. Analysis on the financing channels and financing capacity of the Company

### 1/ Financing channels of the Company

The Company's financing channels included equity financing and debt financing. In terms of financing maturity, the Company's short-term financing channels mainly included carrying out credit lending via interbank market, carrying out bond repurchase via interbank market and exchange market, issuing short-term financing notes, corporate bonds, subordinated debt and income credential, carrying out income rights financing in relation to margin financing and securities lending, and asset securitization, etc.; the Company's medium & long-term financing channels mainly include issuing corporate bonds, long-term subordinated debt, project loan and equity refinancing, etc. After years of effective efforts, the Company exploited and established a short, medium & long-term financing platform with new-type financing tools and multiple financing channels, which plays a key role in the rapid development process of the Company's business.

## 2/ Liquidity management policy and measures of the Company

The Company always attaches importance to liquidity management. As for funds management, it adhered to the principle — “full amount concentrated, allocated in a unified way, valued by classification and monitored timely”. In terms of management and development strategies, it paid attention to matching business scale with liabilities. Based on reasonable asset allocation and diversified debt financing, the Company ensured reasonable matching of duration, scale of assets & liabilities and proper liquidity.

The Company followed the general comprehensive, prudential, predictive principles for liquidity risk management according to the centralized management and hierarchical control management model, established liquidity risk management system based on comprehensive risk management framework, as well as sound liquidity risk management system appropriate to the Company's strategy, implemented liquidity risk management policy with the preference for “safety”, or the Company ensured no liquidity risk that would cause significant impact on sustainable operation, so as to fully guarantee the steady, safe and orderly operation of the business of the Company.

To ensure liquidity safety, the Company's main measures include: first, constantly improving the capital planning system, strengthening the management of capital position and cash flow monitoring, and ensuring the security of the daytime liquidity; second, strengthening the management of assets and liabilities duration matching, establishing reserves of high quality liquid assets to improve the diversity and stability of financing; third, improving the liquidity risk reporting system to ensure that the management in a timely manner to understand the status of the liquidity risk and its management; fourth, constantly improving liquidity management platform to implement effective identification, measurement, monitoring and control on liquidity risk through the information system to ensure that liquidity risk can be measured, controlled and afforded; fifth, analyzing the stress situation of the Company's cash flow and financing gap, evaluating the Company's ability to bear liquidity risk, analyzing the stress test results, and continuously rising pressure resistance ability of the Company's liquidity risk; sixth, organizing formulation, exercise and evaluation of the liquidity risk contingency plan, and improving the Company's ability to handle liquidity risks.

## 3/ Analysis of financing capability and financing strategy of the Company

The Company has regulated management, good prestige, strong capital strength, profitability and debt payment ability, good relationships with commercial banks, plenty of bank credit, steady growth of credit line, and strong short-term and long-term financing abilities. As listed securities dealer, the Company can also solve the long-term development of the capital requirements through equity refinancing mode. Thus, the Company, with a strong financing ability, can raise the funds required for the operation through regulatory permitted form of financing mode. The Company will combine the business development situation and take the regulatory permitted financing mode in the future. The financing costs of these financing ways are mainly affected by the changes of capital market interest rates, so the Company will strengthen the tracking and analysis of market interest rate, choose appropriate financing ways and timing, and make every effort to reduce the financing costs under the precondition of ensuring the Company's business needs.

For both liquidity and profitability, the Company held a certain amount of bank deposits and fixed-income products. Interest rate changes will bring direct impact to the Company's interest income in cash, the market price of the bonds held by investment and investment income, etc.. Margin capital intermediary business, such as corporate debt financing, is directly related to interest rates and bring direct impact on the appropriate interest income and financing interest payments. At the same time, the Company's stock investment was also indirectly affected by interest rate changes. In addition, because the Company has registered overseas subsidiaries, whose capital is contributed in foreign currency, the Company holds foreign currency funds and assets, and the change of exchange rate has an impact on the Company's financial situation.

To maintain the liquidity of the Company's assets and rate of return, the Company's own capital is uniformly managed by capital management department, a sound management system and corresponding business processes provided. The Company optimizes the distribution of assets and liabilities structure by timely adjusting all kinds of asset structure, strengthens the research on the interest rate and exchange rate market, and uses the appropriate interest rate, exchange rate and other derivative financial tools to avoid risks and reduce the influence of these factors.

#### 4/ Contingencies and their impact on the financial position of the Company

At the end of Reporting Period, the Company's contingencies mainly included providing counter-guarantee to the Bank of China Co., Ltd. for the USD400 million of foreign debt issued by Hong Kong subsidiary of the Company, and contingent liabilities formed by pending litigation and arbitration (see the notes of audit report for details), and the above matters had less effect on the Company's financial situation.

### (III) Analysis of industry operation

#### 1. Analysis of the overall operation of the securities industry during the Reporting Period

During the Reporting Period, affected by the fall of stocks and debts price in the market, volume shrinkage, fall of commission rates, tighter supervision and other factors, the annual business performance of the securities industry declined greatly year-on-year. However, due to significant expansion of assets and significant increase of capital strength benefiting from the sustained industry business diversification in recent years, the securities industry's profitability and asset level during the Reporting Period are still in the subprime level of the recent five years.

Currency: RMB

Profit and loss items	2016	2015	Increase or decrease over a year before

Net income of asset management business	29.646 billion	9.04%	27.488 billion	4.78%	7.85%	
Securities investment income (including changes in fair value)	56.847 billion	17.33%	141.354 billion	24.58%	(59.78)%	
Net interest income	38.179 billion	11.64%	59.125 billion	10.28%	(35.43)%	
Total operating income	327.994 billion	100.00%	575.155 billion	100.00%	(42.97)%	

Note: during the analysis, the data is selected from the operating data of securities company, which is published by the securities association of China, but is not audited, and statistical caliber is that for parent company.

- (1) Securities brokerage business. In 2016, influenced by the factors such as volume shrinkage and drop commission rates, the securities industry achieved a acting sale of securities business net income of RMB105.295 billion (including seat leasing), which was 60.87% lower than that of 2015. Operating income contribution of the securities industry decreased from 46.79% in 2015 to 32.10%. The balance of customers' transaction settlement funds at the end of 2016 was RMB1.44 trillion (including credit trading funds), which reduced by 30.10% with respect to the end of 2015; market value of securities under custody was RMB33.77 trillion, increasing by 0.42% with respect to the end of 2015.
- (2) Investment banking business. In 2016, listing process of the securities market was stable and growing, mergers and acquisitions was active, and the securities industry realized a net income of underwriting, sponsoring and financial advisory business of RMB68.415 billion, which increased by 28.73% with respect to 2015. Operating income contribution of the securities industry increased from 9.24% in 2015 to 20.85% in 2016.
- (3) Securities investment business. In 2016, influenced by the factors such as stock index downward at the end of year, market fluctuation and the like, the securities investment income of securities business (including changes in fair value) was RMB56.847 billion, which is 59.78% lower than that of 2015. Operating income contribution of the securities industry decreased from 24.58% in 2015 to 17.33% in 2016.
- (4) Asset management business. In 2016, the asset management business of securities companies showed an upward trend, and securities industry achieved a net income of asset management business for RMB29.646 billion, an increase of 7.85% compared to that of 2015. Operating income contribution of the securities industry increased from 4.78% in 2015 to 9.04%. At the end of 2016, the total funds under custody of asset management business are RMB17.82 trillion, an increase of 50.00% with respect to the end of 2015.
- (5) Net interest income. In 2016, influenced by the factors such as the deterioration of market conditions and decrease of capital demand, credit class business scale of the securities company is in continuous contraction, the securities industry realized interest net income of RMB38.179 billion, which is 35.43% lower than that of 2015. Operating income contribution of the securities industry increased from 10.28% in 2015 to 11.64%. According to the WIND information, by the end of 2016, the market of margin financing and securities lending, balance of margin financing and the balance of securities lending are RMB939.249 billion, RMB935.770 billion and RMB3.479 billion respectively, indicating a change of -20.01%, -20.11% and 17.53% with respect to those of the end of 2015 respectively.

## (IV) Analysis of investment

## 1. Analysis of total external equity investments

As of the end of the Reporting Period, the long-term equity investment of the Group was RMB3.377 billion, increasing by RMB703 million from RMB2.674 billion at the beginning of the year, an increase of 26.29%.

Unit: ten thousand yuan Currency: RMB

## 2. Use of proceeds

### 1/ Overview of use of proceeds

#### ① Overview of use of proceeds from issuance of A Shares

Approved by the *Approval for the Initial Public Offering by Huatai Securities Co., Ltd.* (Zheng jian Xu Ke [2010] No. 138) issued by CSRC, the Company issued 784,561,275 ordinary shares to the public on 9 February 2010, each stock of which was RMB1.00 at an offering price of RMB20.00, and the total amount of proceeds raised was RMB15,691,225,500.00. The proceeds after deducting the underwriting fee and sponsoring fee of RMB130 million were RMB15,561,225,500.00, which were provided in place on 12 February 2010, and verified by Jiangsu Tianheng Certified Public Accountants Co., Ltd. with the capital verification report of "Tian Heng Yan Zi [2010] No. 009". As of 31 December 2012, all the proceeds raised from the IPO were used up and accumulated proceeds of RMB15.681 billion (including interest of proceeds of RMB119,808,200) were used up. All of accounts designated for the use of proceeds had been cancelled with settlement of interests.

## ② Overview of use of proceeds from issuance of H Shares

Approved by the CSRC, the Company completed the issuance of H Shares in 2015. Proceeds from the issuance of H Shares were verified by KPMG Huazhen LLP, and KPMG capital verification report (YZ No. 1501031) was issued.

According to the Capital Verification Report issued by KPMG Huazhen LLP, the net proceeds from the issuance of H Shares in 2015 were RMB30,587,689,604.94 (excluding related listing fees), and the proceeds after deducting the underwriting and issuing fees were RMB30,015,054,696.76. As of the end of the Reporting Period, interest income and exchange gains and losses of the Company on the basis of the proceeds from the issuance of H Shares were RMB81,321,752.25. As of the end of the Reporting Period, the total proceeds were RMB29,968,849,951.28 (including the interest of the proceeds and exchange gains and losses).

As of the date of this report, the Company, with respect to its IPO on the Hong Kong Stock Exchange and the issuance of new shares by an over-allotment option, has used the proceeds of: RMB18,352,613,762.96 for capital intermediary business, such as developing securities margin trading, RMB3,058,768,960.49 for expanding investment and transaction businesses, RMB3,058,768,960.49 for investment to Huatai Zijin and capital increment to Huatai Ziguan Company, RMB3,058,768,960.49 for expanding overseas business, and RMB2,439,929,306.85 for operating capital and other general enterprise purposes. Apart from the above usages, surplus capital of the Company's proceeds, about RMB700,161,405.91 (including interest of the proceeds and exchange gains and losses), were not used, which were put into the bank account of the Company. As of 31 December 2016, planned usage of the Company H Share raised funds was consistent with the content of the prospectus disclosure. The Company will continue to put proceeds from H Share issuance into operation according to the development strategy, market conditions and usage plan of proceeds from H Share issuance.

General description on utilization condition of raised fund			—			

Note: in the general usage condition of A Share raised funds, total investment raised funds are more than total original raised funds RMB119,808,200, and it is interest income generated by special raised funds account.

## 2/ Changes in raised funds

No changes of raised fund of the Company during the Reporting Period

## 3. Projects financed by funds not raised from others

During the Reporting Period, the Company did not have non-raised fund investment projects that the total project investment funds are more than 10% of the non-audited net assets of the Company in the last year.

## (V) Sales of major assets and equity interests

No significant asset or equity sales during the Reporting Period.

## (VI) Bankruptcy reorganization, merger or division, major asset disposal, acquisition, replacement, stripping, reorganization and other conditions of the Company

### 1. The acquisition of the equity of AssetMark Financial Holdings, Inc.

The Company and its subsidiary, Huatai International Finance Limited (hereinafter referred to as "Huatai International Finance") signed stock purchase agreement with AqGen Liberty Holdings LLC. (hereinafter referred to as "AqGen Liberty") on 11 April 2016. Huatai International Finance is conditional to agree to acquire target stocks from AqGen Liberty, namely all issued share capital of AssetMark, directly or through the affiliated company according to the terms, conditions and price specified in the share purchase agreement.

On 4 July 2016, according to the *Letter of Report Documents on No Objection for Capital Increment from Huatai Securities Co., Ltd. to Huatai Financial Holdings (Hong Kong) Limited, and Acquisition of AssetMark Financial Holdings, Inc. by Huatai Financial Holdings (Hong Kong)* (JGBH [2016] No.1529), Securities Fund Supervision Department of CSRC had no objection for the contributed capital of HKD7.8 billion invested by the Company to Huatai Financial Holdings (Hong Kong) and acquired the report document of the Company about acquisition for AssetMark.

On 31 October 2016, as the transaction was approved by American supervision organization and Chinese supervision organization and all transactions prerequisites were met, the Company conducted closing. Final trading consideration paid by the Company was USD768 million. Since the closing date, AssetMark became a subsidiary in indirect holding of the Company.

The Group is committed to expanding existing business and increasing the income source of the Group, so as to enhance shareholder value. This acquisition will bring significant strategic value to the Group: (1) the opportunity to expand investment management services ability. The investment management ability, investment portfolio speciality and concept leader status of AssetMark will strengthen the Group's leading position in the domestic securities industry. (2) Potential of establishing a world level technical solution. This acquisition will provide an opportunity to share best practices for the Group and AssetMark, increase investment and expand existing ability, and establish an enhanced technical solution platform for the customers of the Group.

### 2. Bankruptcy reorganization, merger or division, major asset disposal, acquisition, replacement, stripping, reorganization and other conditions of the Company did not exist during the Reporting Period.

## 3. Explanation on compliance of ineligible accounts, judicially frozen accounts, risk disposal accounts and pure capital accounts

As of 31 December 2016, our company has 4,373 unqualified securities accounts, 150 judicially frozen accounts, 88,795 risk disposal accounts, and 660,901 pure capital accounts.

The following quality criteria have been met in the compliance management of various accounts by the Company: (1) all accounts involved in the securities transactions are eligible accounts, except for dormant securities accounts, remaining ineligible securities accounts, judicially frozen accounts and risk disposal accounts which are restricted in use; (2) consistency of key information of customers including name and ID number is ensured through regular comparison of capital account information and securities account information so as to avoid opening of any illegible account. The Company has made elaboration on any inconsistencies of key information of customers caused by discrepancy of information registration rules between depository banks and registration companies or disposal methods of Chinese characters that are rarely used.

Long-term account regulation and management measures are: strengthening daily management of accounts, setting strict requirements on account opening, strengthening verification of identities of investors, continuing to implement and make innovations on account management measures and continuing to improve the long-term account regulation and management mechanism. The Company further improved customer files management system, strengthened management of files of customers opening accounts on the internet and made continuous efforts in the management of paper files and electronic files.

### III. Discussion and analysis of the Company's future development

#### (I) Competition landscape and development trend of the industry

At present, China's economy is at a crucial stage of restructuring, transformation and upgrading, and in comprehensive critical period of deepening reform. The new normal of economic development offered a solid foundation and broad space for the capital market reform and development. As an important platform for the resource allocation in China, capital market will play an important role in the key stage of economic transformation. In the years to come, along with the in-depth advancing of economic supply-side structural reform and the innovation-driven development strategy, the deepening acceleration of financial marketization reform, the continuous improvement of the multi-level capital market system, the development of a more comprehensive policies, laws and regulations system, and the achievements resulting from transformation of the securities supervisory environment, China's securities industry will usher in a new historical stage of rapid development, the securities industry's important role in serving the development of the real economy will be consolidated and enhanced.

In the new historic period, with the traditional brokerage business transformation and the advancement of the continuously diversified product varieties, the brokerage business scope is expanded continuously, the product category is enriched, the connotation the contents of the service is further widened, the demonstration of a pattern of comprehensive development in the securities industry, brokerage business model will embrace a comprehensive innovation. The integration of internal and external resources and the evolvement towards comprehensive financial service providers will be the inevitable trend of this era. Driven by the cross-licensing of operating institutions for securities, funds and futures as well as the advancement on the application for securities business licenses by qualified financial institutions, the market barrier has been loosen, and the financial institutions are infiltrating into the securities industry. With the boundaries between sectors being increasingly blurred, the value of securities company license is shrinking, competition arising from mixed operations between securities firms and various financial institutions is becoming increasingly fierce, with cross-industry competition in the financial sector increasingly intensified. With the continuously propelled construction of the multi-layer capital market, and the reform, transformation and development of the securities industry, the business scope and space of securities firms will continue expanding and their businesses, and the diversification pattern of development will become the trend for the business development for securities companies. At the same time, higher marketization of the industry and increasingly intensified competition will force securities firms to shift from the homogeneous competition to differentiated competition. The new rules on the regulation of investor qualifications will also expedite the securities companies' implementation of client and product classification, which means differentiated competition will be the breaking point of the transformation of securities companies. Under the implementation of new risk control rules and the continuous development of innovative financing channels of the securities companies, the capital need of securities companies keeps increasing. As more securities companies carry out all-round financing activities through diversified channels such as capital increase and share issuance, the asset scale and capital strength of the securities companies will be significantly enhanced, and scale operation will become an important feature and the core theme for future development of the securities industry.

At present, in the face of the gradually tightened regulation and increasingly intense market competition, the securities companies with strong business strength and sound risk control system will embrace a new development opportunity. The polarization of the industry landscape may accelerate, which will gradually become an industry trend to achieve epitaxial expansion and development through M&A and other ways, and market concentration will be escalated. Along with the optimization of Shanghai-Hong Kong Stock Connect, the starting of Shenzhen-Hong Kong Stock Connect, the loosened restriction over the asset allocation ratio and quota of QFII, RQFII, and the progress made in the research of Shanghai-London Stock Connect, the internationalization of the capital market and the securities industry is accelerated. At the same time, securities companies have speeded up their expansion pace of cross border business, with more securities firms sought expansion opportunities by way of listing and financing overseas, outbound investment and cross-border mergers or acquisitions, and made more efforts on the development of international business. As regulatory authorities regulate, renovate, and smoothly propel the integration of internet and finance, the layout of securities firms' online securities business will continue to be deepened, and mobile trend of internet finance will continue to be deepened in the securities industry, and the service mode of the securities companies will evolve to the intelligent finance with the organic integration of online and offline. In addition, as the progress in the legalized regulation accelerates, along with the deepening of the market regulation and rectification, readiness of the appropriate management system framework, and the establishment and improvement of the risk control index system emphasizing net capital and liquidity as the core, the long-term stable and healthy development of capital market is further ensured, and the securities industry will achieve the development of standardization and legalization.

Looking into the future, the adjustment of economic structure and the transformation and upgrading of the industry will be the focus and key aspects of the overall development of China. Along with the continuous propulsion of the comprehensive reform program of top-level design, such as supply-side structural reform, reform of state-owned enterprises, reform in the mixed ownership model and the further development and improvement of the fundamental institutions of the capital market, the expansion of the capital market both in space and depth, the accelerating reform of the business environment and profit mode of the securities industry, securities companies will face strategic challenge in the way of achieving substantial development.

In the securities brokerage business sector, with the rapid development of the internet finance, the promotion of the off-site account opening business, as well as the implementation of the "multiple accounts for an individual" policy and the advancing of the marketization for commission rate, the intensified industry competition, and the drop of the commission rate will further compress profitability. Therefore, transformation to comprehensive finance service providers will be the development trend of the securities brokerage business. In the financing sector such as margin financing and securities lending, with the continuous improvement of the regulatory rules, further expansion of the range of the underlying stocks and adjustment/improvement of the permissible conversion rate between the margins and securities, margin financing and securities lending will present a stable development trend and the business structure will be continuously optimized and improved. In the investment banking sector, with the acceleration of IPO, continuous breakthrough in the innovation of the products in the bond market as well as the implementation of new rules and auxiliary measures on re-financing, merger and acquisition and reorganization, securities companies' investment banking business will benefit from the comprehensive propulsion of multi-dimensional reforms of China and the overall market expansion. Securities companies with significant comprehensive strength are expected to reveal better performance growth. In the field of asset management, with the increasing demand for wealth management of residents, the asset management business of securities companies has large room for development. Influenced by multiple factors such as the issuing of new rules on asset management and the tightening regulation, the asset management business of securities companies is slowing down on expansion and the active asset management plan will be the focal point of the development of asset management business. In the securities investment sector, with the continuous diversification and improvement of investment trading strategies and investment trading tools, the increasingly broadened business scope and development space of the securities investment business and the progress on risk hedging capability, the requirements of investors for diversified asset allocation and risk control can be better satisfied. In other business sectors, with the improvement of the auxiliary measures such as categorisation of the market, expansion by market makers and the market transaction mechanism and the advancement on service innovation, the NEEQ will have a significant opportunity of development, following the implementation of the after-events filing mechanism and the management method of the negative list, the continuous rising issuance efficiency of the asset securitization business and increasingly diversified basic asset categories and transaction structures, the asset

securitization business will be an important development direction for the transformation of the active management business; under the regulation and management of the new rules on the filing and registration of private equity funds, the acceleration of the private equity products issuance, the expansion of the scale of private equity fund, securities companies will benefit more from the brokerage business and it is expected to be another important profit growth point for securities companies. With the improvement of the business regulation system and basic frame, and the benefit from the growth in the amount of investors and the deepening of the market, the inventory and trading volume of the stock option market may indicate a continuous growth and this will further expand the income channel for securities companies. With the expansion of the OTC market, alternative investment, internet securities, derivatives and cross-border businesses etc., securities companies with a permission for pilot business are expected to gain profits and the business scope of securities companies will also be further expanded.

## (II) The Company's development strategy

### 1. The Company's future opportunities and challenges

#### 1/ The Company's current and future development opportunities mainly include:

- ① at present, the economic development of China has entered into a new normal phase. As monetary policies will remain steady and moderate and the importance of the capital market is becoming more prominent, vigorously developing the capital market has become an important supporting point in financial reform. The Company is well aware of current strategic opportunities in the industry and has adhered to self-reform in response to industrial changes. The Company will also fully enhance its core competitiveness and establish a service system covering the whole business chain, so as to ensure the greatest results from the future opportunities in the industry.
- ② Under the guidance of regulation pursuant to the law, strict regulation and comprehensive regulation, an investor protection system and the management capability regarding investors' appropriateness will become an important aspect of differentiated competitiveness. The Company has adhered to its customer-oriented policy and continued to improve the CRM customer management system. It provides various levels and tiers of services for customers with full respect to customers' different needs. Such strict regulatory environment is in favour of distinguishing the competent players with a sound investor protection system and management capability in investors' appropriateness. Hence, the Company will continue to carry out self-reform in order to seize the re-shuffling opportunity in the industry.
- ③ The technological reform brought by the Internet still continues, as such, the securities industry carries out reform in mode of operation and management through the Internet. Meanwhile, with leading data of the Internet platform, the coverage of security market will be greatly expanded. The Company has placed emphasis on technology investment and has formed unique competitiveness in financial technology. The Company will continue to use the Internet to further boost its internal operational efficiency, improve the customer service system and enhance online-offline interaction, in an effort to further strengthen its market competitiveness by using financial technology represented by the Internet.
- ④ With the orderly advancing of the two-way opening of the capital market, the business of securities companies in the PRC will expand to the international market. It will help them increase their international competitiveness at a larger scope, a higher level and a deeper degree. The successful listing of the Company in Hong Kong and the completion on share acquisition of AssetMark will further facilitate its development in overseas business, expand its business development space and enhance its leading edge on cross-border interactive development.

## 2/ The Company's current and future challenges mainly include:

- ① How to adapt to the market environment and the development trend of the securities industry, innovate the building of the talent team and management system, build an integrated HR management frame, continuously perfect the mechanism for talent introduction and cultivation and incentive and constraint, increase the international horizon and professional level of staff, comprehensively serve and support the transformation, upgrade, and substantial development of the Company are important issues for the Company to work on actively.
- ② With the Company becoming increasingly internationalized and the rise of percentage of the assets and income of overseas business, the Company is faced with a more complex market environment and regulation requirements. How to cultivate and increase the international competitiveness of the Company in terms of high-quality services and high-efficiency operation management are major issues for the Company to face in the long run.

## 2. The Company's development strategy

- (1) Strategic guiding principles: Adapting to the new market environment and regulatory environment by capitalizing on the financial system reform and development of capital market in the PRC; focusing on satisfying customers' needs for integrated financial services; setting the establishment of differentiated core competitiveness and the construction of a new business model as priority so as to unswervingly promote transformation, innovation, coordination, regulation and international business.
- (2) Strategic vision: Striving to become a first-class integrated financial group with both local advantages and global vision, and become a financial institution with international competitiveness, brand influence and system importance.
- (3) Values and operation philosophy: By adhering to the core values of "high efficiency, integrity, stability and innovation" and committing to the operation philosophy of "providing client-oriented services to meet clients' needs and achieve clients' satisfaction", to be accountable to all clients, shareholders, staff and society to achieve harmony and unity.
- (4) Strategic measures: Developing an all-rounded business chain; pushing forward innovation and development; focusing on the layout of financial technology; strengthening group governance in a comprehensive manner and accelerating its pace in international development.

## 3. New businesses the Company intends to carry out

In 2017, the Company intends to launch the following innovative businesses or products, mainly including: stock option brokerage; Hong Kong Stock Connect; spot commodity contract agent of precious metals; pilot consumption payment services of customers' capital; counter market services; self-initiated financing of listed companies via equity incentive; custody of securities investment funds; integrated custody of private equity funds; outsourcing of private equity fund; underwriting of exchangeable corporate bonds, preferred stock, perpetual bond, green bond, panda bond and other debts; cross-border M&A; direct investment funds; securities companies' public funds management; asset securitization; proprietary trading of ordinary options; specialized option trading; market making of stock options; cross-border option trading; OTC derivatives; market making of the NEEQ; proprietary gold spot contracts; carry trade for cash bond; spread trading and inter-type trading for IRS and treasury bond futures; futures asset management; risk management subsidiaries; option business and fund distribution business etc.

### (III) Operating plan

The year of 2017 is a year of reform during which the Company should reshape itself and advance its ability and it is also a year for the Company to fight for transformation and upgrade and strive to the top in the industry. The Company will continue centering on customers, stick to the development strategy of covering the whole business chain, vigorously promote the deepened transformation of the business and service structure, evolve from defining and categorizing the customer groups with a single business angle, so as to accurately seize the diversified requirements and differentiated features of customers, to continue exploring the market and create values for customers through professional financial services. The general guiding principles of the operation and management of the Company in 2017 is: focusing on creating values for customers, restructuring the business system, fully implementing the transformation on wealth management, integrating and upgrading the institutional business system, concretely improving the investment management ability, achieving breakthrough at the focal points of the international business, digging the whole business chain coordination efficiency, building up the future-oriented differentiated competitive advantages based on professional capabilities and laying a solid foundation in order to realize a new development goal. The Company has prepared an annual operation plan according to the guiding principle of the operation and management mentioned above:

#### 1. Further advance transformation of comprehensive wealth management and strive to create new advantages in retail and wealth management.

The retail business and wealth management are two major platforms that accumulate a large scale of customers and assets, which are also large platforms to integrate resources of the whole business chain system and provide customers with comprehensive financial services. The Company will stick to the transformation for comprehensive wealth management, face extensive customer groups, strive to provide professional, comprehensive securities and financial services, and transfer the development base from agency trade to professional financial services. The work mainly includes: return to the nature of finance, create a retail customer oriented professional marketing service system based on the internet; make efforts to expand the defining scope of customers and accelerate the construction of an comprehensive wealth management system centered on asset configuration.

#### 2. Comprehensively deepen business interaction and resource collaboration, make efforts to create a new pattern for the development of institution business.

The institutional business is a professional service provider, high-end customer introducer, diversified asset creator and also an important pushing force for building differentiated capability. Building the institutional customer service system should be the key task. The Company will build and perfect the interaction mechanism, make efforts to increase the ability to serve institutional customers and facilitate to make innovation and breakthroughs for institutional businesses. The work mainly includes: create a top investment bank platform by focusing on the demand of the companies to grow bigger and stronger; advance the construction of institutional sales and transaction platform by focusing on the demand of professional institutional investors; and create an investment management service brand by focusing on the investment and management demand of institutional customers.

### 3. Make efforts to increase the ability on investment and management and strengthen the core competitive advantage for future development.

The ability on investment and management not only presents at the aspect of proprietary capital management but also at client capital management. The Company will continue building and perfecting the investment and study system and business operating platform integrating financial products, investment strategy, centralized trading and risk management. The Company will continue advancing systematization, informatization and precision of investment management and make efforts to improve the ability on investment and trading. The work mainly includes: stick to the fundamental principle of “low risk, large scale and absolute profit” and further strengthen the leading position of FICC business; stick to diversified and “de-directional” development and continue improving the management ability on large-scale capital in equity investment and trading business; make efforts to increase the capability on active management and accelerate the upgrade of the asset management business.

### 4. Further deepen and improve the management system, promote the construction of the integrated international business platform both at home and abroad.

Internationalization is strategic layout direction of the Company and also an important profitability support in the future. The company in Hong Kong should be considered as a bridgehead so as to form a real internationalization development pattern based on global market and integrated service by means of inner generation and outer extension. It must center on the construction of integrated management system, accelerate to build a compliance and risk management system for the global market business, explore an integrated assessment management system both domestically and externally, and continue to improve the service ability in the overseas market. The work mainly includes: fully utilize AssetMark to create a featured platform for overseas assets allocation of Chinese residents; be capable of serving the global capital market with the subsidiary in Hong Kong as a platform.

### 5. Deeply advance transformation and upgrade of compliance and risk management, comprehensively improve the ability on risk identification and prevention.

The Company will enhance the precise compliance management ability and active risk management ability, make efforts to advance the transformation and upgrading of compliance and risk management, enhance the executive power of the system and ensure safe and stable development of the Company. The work mainly includes: adhere to the bottom line of compliance, build an active and benefit-oriented compliance management mode; build and perfect a comprehensive risk management system that adapts to the development strategy of the Group and make efforts to improve the professional ability on risk management; fully implement the reform on the capital operation system and improve the management level on liquidity risk, etc.

### 6. Comprehensively reform the management notion and create a first-class team with market competitiveness

The Company will further comb the business procedures and service specification with the management notion of modern financial institutions according to the demands of customers, shift the management emphasis to service system building and normative development and enhance inspection on execution of the system and specification. The work mainly includes: comprehensively reform the management idea; deeply advance the collaborative linkage within the Group; realize strategic integration and service integration; build a team of talents by keeping introducing and cultivating talents.

## 7. Comprehensively enhance the building of IT and intermediate and backstage operation system and create differentiated competitive advantages.

The function of the IT intermediate & backstage system of securities companies is one of the important manifestations for differentiated operation. The IT system planning, independent development ability and support ability for operation of the large backstage are some of the key factors to see if they can seize the market opportunity and present differentiation with other competitive institutions. The work mainly includes: make efforts to promote independent development and operation of key IT platforms, continue improve the ability on professional IT operation and maintenance and operational support etc.

### (IV) The Company's fund requirements for the purpose of maintaining current business and completing investment projects under construction

As of the end of the Reporting Period, the Company was at the forefront of the industry in terms of total assets, net assets, net capital and other indicators. The company has built an assets & liabilities system and liquidity management system that not only meet the requirement of strategy and regulation of the Company but is also helpful for the development of businesses via optimizing allocation of assets and liabilities. The Company will enhance the management on capital, liabilities and business within the industry, improve the financing ability, optimize the structure of assets and liabilities and lower the financing cost via enriching the financing sources and expanding the financing channels for various stocks and bonds; realize mobility matching of large assets and liabilities by enhancing the liquidity arrangement of assets to guarantee the equilibrium of the gross volume and reasonable structure of the assets and liabilities of the Company and realize dynamic equilibrium of security, mobility and profitability as well as ensure that the capital strength of the Company matches with its position in the industry.

### (V) Potential risks and risk prevention measures

According to the characteristics of the Company and the principles of relevance and importance, the Company may face the following major risk factors which may adversely affect the Company's future development strategy, operational objectives and business operations: market risk, credit risk, liquidity risk, operational risk, compliance risk and information & technology risk etc. Detailed analysis is listed below:

#### 1. Market risk

During the Reporting Period, the Company mainly faced market risks from the following two aspects: one is the potential loss risk in the Company's daily operation due to changes in market factors, mainly representing the impact of the changes of volume of market transactions, the market share for brokerage business, commission rates and scale of asset management business and other factors that may affect the profitability of the Company; the other one is the potential loss risk in the Company's assets, proprietary position or assets management products and combinations of the above due to changes in market prices such as share prices, interest rates and exchange rates, which mainly exists in the proprietary business and asset management business and other investment-related business of securities companies.

The Company took a variety of measures to prevent market risks during the Reporting Period. Generally speaking, the Company has built a relatively complete quota management system and ensured that the risk is under control by front end control via the system. Besides, it also conducts pressure tests in a regular and irregular way to ensure that the overall risks of the Company are under control. The Company adheres to the idea of value-oriented and diversified investment for individual share investment in the aspect of equity portfolio investment, adheres to the risk control idea of “hedging control risk” for quantitative business and derivatives, strictly controls the business exposure at default and lowers the market sensitiveness of the portfolios. The Company uses various derivatives to control the sensitiveness of the interest rate for portfolios at the aspect of constant return equity investment, controls the duration of bond portfolios at a relatively low level and reduces the market value fluctuation of portfolios.

## 2. Credit risk

During the Reporting Period, the Company mainly faced with three kinds of credit risks, namely: (i) loss risks on the Company’s funding and interest fees caused by default of financing customers in financing businesses such as margin financing and securities lending, stock repurchase and securities-backed lending; (ii) risk of losses on company guarantee delivery fund caused by default of brokerage customers in guarantee delivery businesses such as stock option and bonds repurchase; and (iii) risk of losses in invested fund or capital receivable of the Company caused by default of issuer of bonds or counterparties in investment deals such as bond investment and OTC derivatives trading.

During the Reporting Period, the Company enhanced the construction of the credit risk management system. The Company has combed the credit risks by category, studied and built a quantitative analysis system for credit risks, unified measurement and management on credit risks; enhanced credit management on relevant customers or counterparties of credit businesses, built a unified management system for poor credit behaviours of customers or counterparties. The Company has improved the application system of the risk control tool and built a counter-cyclical management mechanism for risk control measures for all its financing businesses; enhanced the monitoring system for business risks, built and implemented the monitoring analysis and pressure testing system, as well as the ability of timely finding and handling current risks and potential risks. For the guarantee of delivery businesses, the Company has enhanced adequacy management for customers, as well as properly revised the access standard for customers of bonds repurchase business according to the regulation requirements. For investment deals, the Company starts to study the management system for internal assessment and credit level of the bond issuers or counterparties as well as to enhance rear-end management of risk items, closely following the handling process of default events, controlling risk losses of the business, strengthening the studies on credit liabilities, strictly screening the investment target during the investment process and keeping optimizing the credit structure of portfolios.

## 3. Liquidity risk

During the Reporting Period, the Company mainly faced with two aspects of liquidity risks: one is the liquidity risk of assets, which refers to the loss risk of proprietary investment and customer assets caused by untimely realization of assets or the unreasonably high cost for realization, mainly existent in the proprietary investment and assets management businesses; the other one is liquidity risk of liabilities, which refers to the risk of failing to pay debts on time or pay the normal business expenditures by the Company due to a lack of cash or the risk of assets management products that are unable to cope with large-scale redemption by customers due to insufficient working capital.

With respect to the proprietary business, during the Reporting Period, the Company paid close attention to the market change, focused on evaluating the ability to encash proprietary positions, dynamically adjusted assets allocation, reasonably controlled the investment scale of various securities so as to avoid excessive concentration on investment and ensure the liquidity of portfolios. With respect to the assets management business, the Company has enhanced analysis on the customer redemption funds and reasonably arranged the liquidity of the assets management plans via maintaining the proportion of partial cash assets and early warning for large-scale redemption. As for capital management, the Company strengthened detection and measurement of daily liquidity gaps and constantly optimized the structure of assets and liabilities of the Company. The Company also continuously improved the liquidity management platform, which has greatly increased the efficiency and effectiveness of liquidity risk management.

## 4. Operational risk

The operational risks the Company is faced with mainly include risks on financial or other losses caused by inadequate or problematic internal procedures, staff, information technology system and external events and the types of losses may be caused mainly include loss of assets, external compensation, impairment of carrying amount, regulatory fines and confiscation and legal costs.

During the Reporting Period, the Company has improved the organizational structure, work division on functions, rules and regulations, management tool and information systems etc. in the operational risk field, strengthened the system based real time control measures and prevented and reduced the operational risk via various measures. The Company has revised the Operational Risk Management Guide and normalized professional domains such as business continuity management, outsourcing risk management and information safety; constantly improved the internal control and operation risk management system of the Group, implemented a unified operational risk management methodology and advanced the normalization and unification of the risk management idea and method; sorted out the process optimization based on hierarchical authorization, emphasized the process efficiency under the precondition of risk under control and enhanced the execution of the risk management measure. The Company has optimized the linkage management mechanism for three major tools of operational risk management, perfected the operational risk and internal control management system, carried out remaining risk assessment, monitoring key risk indicators, collected and analyzed operational risk incidents; enhanced the operational risk assessment and control for innovative businesses.

## 5. Compliance risk

Compliance risk refers to exposure to asset loss or reputation loss as a result of legal sanctions or regulatory measures imposed on securities companies due to violation of laws, rules and standards by operational management or professional conduct performed by securities companies or their employees.

During the Reporting Period, the Company continuously improved the compliance management system, strengthened the management of front-line compliance risk control staff and has completed the centralized compliance risk control work for 28 branches, further enhancing the professionalism and effectiveness of compliance officers at the grassroots level; continuously improved business compliance management mechanism, and enhanced the control and support for main business through compliance assessment, process analysis, provision of tips & supervision and meeting attendance, etc.; further improved the compliance training system and enriched training forms, striving to infuse business personnel with regulatory requirements and compliance consciousness and urging the business department to complete the self-regulation as early as possible; carefully carried out compliance audit, timely pointed out compliance issues or defects and proposed regulation suggestions to promote the compliance operation of related business or products; intensified the compliance inspection, particularly special inspection, conducted several inspections in key fields based on problems and risks, duly proposed the improvement requirements for problems found and tracked the implementation of rectification; carried out "risk-based" anti-money laundering work principle, orderly implemented various key tasks against money laundering and fulfilled the obligations of customer ID identification, customer risk level classification and reporting of large-amount and suspicious transactions; optimized and upgraded the compliance management system, anti-money laundering customer risk level evaluation system and contract management system and comprehensively improved the work efficiency of compliance management.

## 6. Information technology risk

Information technology risk mainly refers to abnormal operation of company information system or data damage or leakage caused by various internal and external reasons, making information system unable to continuously ensure stable, efficient and safe business management in aspects of business realization, response speed, handling capacity, data encryption, etc. and bringing certain loss to the securities company.

The businesses and middle office and back office management of the Company are highly dependent on the support of information technology system and the information system has become the key facilities to support the operation of businesses of the Company. During the Reporting Period, the Company continuously increased the investment in information technology, gradually established a professional information technology services management system oriented to business line, further improved the information system construction and safety management level, ensured the security, reliability and stability of the Company's operational management support information system and effectively prevented the risks of information technology.

### (VI) Establishment of the monitoring and complementary mechanism of the Company's dynamic risk control indexes

#### 1. Establishment of the monitoring and complementary mechanism of the dynamic risk control indexes

Monitoring of dynamic risk control indicators and supplement mechanism are an important risk control means of the Company. During the Reporting Period, the Company timely revised the *Management Method for Risk Control Indicators of Huatai Securities Co., Ltd.* and other related systems, established a dynamic monitoring mechanism for risk control indicators mainly based on net asset and liquidity and assigned full-time operators to conduct daily monitoring, duly reported and handled various abnormalities in accordance with the requirements of *Decision on Modifying the Management Method for Risk Control Indicators of Security Companies* (Order No. 125 by CSRC), *Regulation on Calculation Standards for Risk Control Indicators of Security Companies* (Announcement No. [2016]10 by the CSRC), letters from the CSRC securities fund institution supervision department and other documents, with the combination of business development and market change; increased stricter corporate monitoring standards as the monitoring threshold and formed a three-stage risk control indicator monitoring standard based on the regulatory standards for dynamic risk control indicators and early warning standards specified by the CSRC to launch corresponding reporting route and response plan according to different early warning level and ensure that the net asset, liquidity and other risk control indicators always comply with the requirements of supervision department; upgraded and reconstructed the original net asset and liquidity dynamic monitoring system in accordance with regulation requirements to ensure that the dynamic monitoring system can effectively support the monitoring for corporate net asset, liquidity and risk control indicators.

The Company has established a dynamic complementary mechanism for net asset, liquidity and risk control indicators. The Company's complementary pathways of risk control indexes for net capital include but not limited to capital fund raising for increase in capital and share, issuance of subordinated bonds, compression of highly-risky investment types and scale, and reduction or suspension of profit distribution, etc. The Company's complementary pathways of liquidity include but not limited to external financing (interbank borrowing, bond repurchase, corporate bond, short-term corporate bond, subordinated debt, short-term financing bill, financing of creditor's rights and income rights for credit business, credit business assets-backed securities, income receipts, refinancing integrated fund, gold lease, etc.), cashable part liquid reserve, control or adjustment of business scale, etc.

## 2. Pre-warning standards for the triggering of risk control indexes, non-conformities, corrective measures adopted and rectification effect during the Reporting Period

During the Reporting Period, the Company conducted sensitivity analysis or pressure test for capital increase in subsidiary, acquisition of equity interests in AssetMark, provision of net capital guarantee, issuance of debt financing tools, cash dividends, upper limit of proprietary investment scale, establishment of branches, engagement in new business, issuance of wealth management products, etc. and implemented above-mentioned matters as far as the analysis and test results meet the regulatory requirements. During the Reporting Period, the corporate operational risks were basically controlled within the affordable range; asset quality was high; business management regulations and main risk control indicators of the Company were in line with the regulatory requirements; there were no such circumstances that the risk control indicators violated the pre-warning standards and that the indicators were not in compliance with the provided standards. As on 31 December 2016, the parent company's net capital was RMB45.122 billion, decreased by 33.89% compared to the RMB68.251 billion (The net capital at the end of 2015 and relevant ratios were restated in line with relevant regulations including the Measures for the Risk Control Indexes of Securities Companies (ZJHL No. 125)) on 31 December 2015; the net asset of the parent company was RMB75.942 billion, the index of "net capital/net asset" was 59.42%, the index of "risk coverage" was 206.71%, the index of "capital leverage" was 21.35%, the index of "liquidity coverage ratio" was 246.05%, and the index of "net stable funding ratio" was 139.68%.

## IV. Explanations on the Company's failure to make disclosure in accordance with the standards due to inapplicability of standards or special reasons and the reasons thereof

During the Reporting Period, the Company did not fail to make disclosure in accordance with the standards due to the inapplicability of standards or special reasons

## V. Other disclosures

### (I) Share capital

For the Company's share capital for the year ended 31 December 2016 and the changes therein, please refer to the section of "Changes in Ordinary Shares and Shareholders" of this report.

### (II) Pre-emptive rights

According to the PRC laws and of the Articles of Association, none of the shareholders of the Company has any pre-emptive rights.

### (III) Sufficient public float

As at the date of this annual report, based on the information available to the public and as far as the Directors are aware of, the Directors believe that the Company has sufficient public float which satisfies the minimum public float requirement under Rule 8.08 of the Hong Kong Listing Rules.

#### (IV) Directors' interests in competing business

None of the Directors has any interest in any business that competes or is likely to compete, either directly or indirectly, with the business of the Company.

#### (V) Service contracts of Directors and Supervisors

According to rules 19A.54 and 19A.55 of the Hong Kong Listing Rules, the Company has entered into a contract with each of the Directors and Supervisors in respect of (among other matters) compliance of relevant laws and regulations, as well as Articles of Association and provisions on arbitration. Save as disclosed above, none of the Directors or Supervisors has entered into or is proposed to enter into any service contracts with the Company in their respective capacities as Directors/Supervisors (other than contracts expiring or determinable by the relevant employer within one year without the payment of compensation other than statutory compensation).

#### (VI) Directors' and Supervisors' interests in material contracts

During the Reporting Period, the Directors or Supervisors of the Company or entities that are connected to them did not have any material interests, whether directly or indirectly, in any material contract entered into by the Company or its subsidiaries.

#### (VII) Permitted indemnity provision — liability insurance for Directors, Supervisors and senior management

As authorized in 2014 annual general meeting, the Company has taken out a liability insurance policy for Directors, Supervisors and, senior management and other relevant competent persons. Appropriate insurance coverage has been arranged for Directors, Supervisors and senior management of the Company against potential legal actions and liabilities to reasonably avoid management and legal risks faced by Directors, Supervisors and senior management of the Company and to procure the full discharge of duties by the Directors, Supervisors and senior management.

#### (VIII) Resumes of Directors, Supervisors and senior management

For the resumes of corporate Directors, Supervisors and senior management, please refer to "Directors, Supervisors, Senior Management and Staff", "I. Changes in Shareholding Structure and Remuneration", "(I) Changes in shareholding structure and remuneration of current and retired Directors, Supervisors and senior management during the Reporting Period" and "primary work experience".

#### (IX) Remuneration policy

For the remuneration and share incentive scheme of the Directors, Supervisors and senior management, please refer to "Directors, Supervisors, Senior Management and Staff", "I. Changes in Shareholding Structure and Remuneration", "(I) Changes in shareholding structure and remuneration of current and retired Directors, Supervisors and senior management during the Reporting Period", "(II) Option incentive conferred to Directors, Supervisors and Senior Management Officers during the Reporting Period" and "(III) Remuneration of Directors, Supervisors and senior management".

### (X) Share option scheme

The Company did not establish any share option scheme.

### (XI) Major customers and suppliers

The Company provides services to a wide range of institutions and individual clients across a spectrum of sectors. The Company's clients range from retail customers, wealth clients, high-net-worth individuals, institutional clients to corporate clients. The clients are primarily located in China. The successful listing in Hong Kong and smooth implementation of its deployment strategies in the international market will facilitate the Company in carrying out overseas operations, exploring customer resources and expanding the room for further development of the Company's businesses. In 2016, the revenue attributable to the five largest clients accounted for less than 30% of the total operating revenue of the Company.

The Company has no major supplier due to the nature of its business.

### (XII) Relationship with employees, customers, suppliers and other persons with important relationship

For the employee's remuneration and training plan, please refer to "Directors, Supervisors, Senior Management and Staff", "VI. Information about the Staff of the Parent Company and Major Subsidiaries", "(II) Remuneration policy" and "(IV) Training programs". For the relationship between the Company and securities brokers, please refer to "Directors, Supervisors, Senior Management and Staff", "(VII) Customer Solicitation and Customer Service by the Brokers Commissioned by the Company" of the report. For the relationship between the Company and major customers and suppliers, please refer to "Management Discussion and Analysis and Report of the Board", "V. Other disclosures" and "(XI) Major customers and suppliers".

### (XIII) Business review

For the business analysis made by using key financial indicators, please refer to "Company Profile and Key Financial Indicators" of the report.

### (XIV) Corporate governance

For the corporate governance condition of the Company, please refer to "Corporate Governance Report" of the report.

### (XV) Environmental Policies and Performance of the Company

The Company actively promoted the concept of environment protection, focused on cultivating the energy conservation and environmental protection awareness of employees, and devoted itself to providing a safe and comfortable working environment for employees.

The Company insisted on low-carbon and energy-saving principle and put effort to build a resource-efficient enterprise. The Company has been promoting public transportation, encouraging employees to make use of mass transit to commute, and if it is not convenient, car pooling is also suggested in order to practice economy and reduce tail gas pollution; what is more, it devoted great efforts to further introduce paperless office and promote electronic office by using e-mail and video conference.

It built an environmental office environment to comprehensively ensure the physical and mental health of clients and employees. The Huatai Securities Plaza project was completed during the Reporting Period. When it moved to the final stage of project construction, the Company took measures to reduce pollution and noise as far as possible, and to provide a comfortable and good environment for employees to work and rest. During the decoration of the office and business place of its branches, the Company stuck to the environmental protection concept, and insisted on applying environmentally friendly materials to minimize the harm to the environment; the furniture procurement bidding set forth compulsory standards and other quality technology standards, and requested raw material inspection report and certificate of origin of material, etc.

Great efforts were made to develop green finance. The Company responded to the calls of the PRC government on establishing a green finance system and carried out green development activities. During the Reporting Period, Huatai United Securities achieved a big breakthrough in products including green finance bonds, green corporate bonds and green enterprise bonds. It issued RMB50 billion SPD Bank green finance bond, the first ever green finance bond; it also issued RMB1 billion Datang Corporation Renewable Power, a small public offering green corporate bond, and RMB1 billion private equity green corporate bond. According to the Environmental Public Welfare List released by Securities Association of China, on 4 November 2016, the number of green bonds mainly underwritten by Huatai United Securities ranked No. 2, and the issuing scale ranked No. 8. Huatai United Securities was also awarded the Contribution Award for Green Corporate Bond of SSE in 2016. Huatai United Securities laid emphasis on supporting the financing of environmental enterprises engaging in energy saving and emission reduction, pollution abatement, ecological protection, etc. It led the mergers and acquisitions projects including Kingland Technology acquiring Mu He Water-saving, New Hope acquiring Besun Agricultural and MGrass Ecology acquiring Lulu Xin, the total amount of transaction was RMB2.5 billion. Huatai Asset Management made use of the asset management business as a securities trader and issued the nation's first Central Enterprises Green ABS, first Environment Protection ABS of the solid waste disposal industry — China Renewable Resources ABS. It also established a special plan of green asset support of Huatai Asset Management-Gezhou Dam water & electricity feed-in tariff right of charge, which was an innovation in assisting with the development of green industry.

## (XVI) Compliance with Relevant Laws and Regulations

As a public company listed both in Mainland China and Hong Kong, the Company abode, in strict accordance, by domestic and foreign laws, regulations and normative documents including the Company Law, Securities Law, Regulation on the Supervision and Administration of Securities Companies, Rules for Governance of Securities Companies, Code of Corporate Governance for Listed Companies in China, XIV of Appendix of Hong Kong Listing Rules: Code of Enterprise Administration and Cooperate Governance Report and the Articles. ## I. Proposal of profit distribution for ordinary shares or capitalization from capital reserve

### (I) Formulation, implementation or adjustment of cash dividend policy

Article 255 of the Articles of Association specifies the decision-making procedures of the Company's profit distribution policy and proposal and their adjustment. According to the Company's profit distribution policy, "the Company emphasizes a reasonable investment return to the investors and implements a continual and steady policy of profit distribution. The Company's profit distribution may not exceed its accumulated distributable profits nor impair the Company's sustainable capability of operation. The Company may distribute dividends in form of cash, shares or a combination of cash and shares. Except for the special circumstance under which the Company fails to comply with the regulatory requirements regarding net capital due to the Company's plan to make material investment or significant cash disbursement within the next twelve months, the Company shall distribute its dividends in form of cash if the Company's profits for the current year and the accumulated undistributed profits are positive. If the Company's accumulated profits distributed in form of cash for the last three years were no less than 30% of the annual average distributable profit for the last three years, when proposed by the Board and approved by the Shareholders' General Meeting, an interim dividend distribution may also be made in the form of cash. The Company may distribute dividends in the form of shares based on the annual profits and cash flow and subject to the satisfaction of the minimum ratio for cash dividend and the reasonableness of the Company's capital."

For the last three years (including the Reporting Period), the Company had not implemented any plan or proposal regarding capitalization from capital reserve to share capital. The details of the dividend distribution plan or proposal of ordinary shares of the Company for the last three years were as follows:

The year 2014: the Company recorded a net profit of RMB4,486,276,132.08 attributable to the shareholders of ordinary shares of the Company. On the basis of the total share capital of 5,600,000,000 shares as of 31 December 2014, the Company proposed the distribution of cash dividend of RMB5.00 (tax inclusive) for every ten shares to all shareholders. The total amount of cash dividend distributed was RMB2,800,000,000.00 (tax inclusive), accounting for 62.41% of the net profit for the year attributable to the shareholders of ordinary shares of the Company.

The year 2015: the Company recorded a net profit of RMB10,696,870,875.92 attributable to the shareholders of ordinary shares of the Company. On the basis of the total share capital of 7,162,768,800 shares as of 31 December 2015, the Company proposed the distribution of cash dividend of RMB5.00 (tax inclusive) for every ten shares to all shareholders. The total amount of cash dividend distributed was RMB3,581,384,400.00 (tax inclusive), accounting for 33.48% of the net profit for the year attributable to the shareholders of ordinary shares of the Company.

The year 2016: the Company recorded a net profit of RMB6,270,611,459.43 attributable to the shareholders of the Company. On the basis of the total share capital of 7,162,768,800 shares as of 31 December 2016, the Company proposed the distribution of cash dividend of RMB5.00 (tax inclusive) for every ten shares to all shareholders. The total amount of cash dividend was RMB3,581,384,400.00, accounting for 57.11% of the net profit for the year attributable to the shareholders of ordinary shares of the Company in the year.

Cash dividend is denominated and declared in RMB and paid to holders of A shares and the investors of the Southbound Trading business in RMB and to holders of H shares (excluding the investors of the Southbound Trading business) in HKD. The actual distribution amount in HKD would be calculated at the rate of average basic exchange rate of RMB against HKD published by PBOC for five business days prior to the 2016 annual general meeting of the Company.

The formulation and implementation of the profit distribution policy of the Company, in particular the cash dividend policy, were in compliance with relevant provisions of the securities industry, the requirements of the Articles of Association and the resolutions of shareholders' general meetings of the Company. Criteria and proportion of dividend distribution were clear and definite, and relevant decision-making procedures and mechanism were sound and complete. The independent non-executive Directors conducted due diligence and played their due roles, and channels were provided for minority shareholders to fully express their opinions and requests which fully protected their legal rights and interests. The conditions and procedures for the adjustments or changes of the Company's profit distribution policy were legitimate and transparent.

(II) Plan or proposal of the profit distribution for ordinary shares or capitalization from capital reserve to share capital for the last three years (including the Reporting Period)

Unit and Currency: RMB (Yuan)

Dividend year	Number of dividend shares per 10 shares (share)	Dividends per 10 shares (RMB yuan) (tax inclusive)	Number of increased shares per 10 shares (share)	Amount of cash dividends (tax inclusive)	Net profit attributable to the shareholders of ordinary shares of the company in the consolidated statement	Percentage of net profit attributable to the shareholders of ordinary shares of the company in the consolidated financial statements (%)
2016	—	5.00	—	3,581,384,400.00	6,270,611,459.43	57.11

### (III) Tax Reduction and Exemption

#### 1. A-share holders

According to the provisions in the Notice on Issues Regarding Differentiated Individual Income Tax Policy for Dividends and Bonuses of Listed Company (Cai Shui [2015] No. 101) (《關於上市公司股息紅利差別化個人所得稅政策有關問題的通知》(財稅[2015]101號)) and the Notice on Issues Regarding the Implementation of Differentiated Individual Income Tax Policy for Dividends and Bonuses of Listed Company (Cai Shui [2012] No. 85) (《關於實施上市公司股息紅利差別化個人所得稅政策有關問題的通知》(財稅[2012]85號)) jointly issued by the Ministry of Finance, State Administration of Taxation and the CSRC, for individual shareholders of the Company, if the term of shareholding (a period from the date when the individual acquire the listed shares on public offering and transferring markets by the individual to the date one day before the shares are transferred and settled) is within one month (inclusive), all the dividend and bonus incomes thereof are counted as taxable income at the effective tax rate of 20%; if the term of shareholding is between one month and one year (inclusive), temporarily, 50% of the dividend and bonus incomes are counted as taxable income at the effective tax rate of 10%; if the term of shareholding exceeds one year, temporarily, the dividend and bonus incomes are exempted of individual income taxes. When dividends and bonus incomes are distributed by a listed company, such company, temporarily, shall not withhold or pay any individual income taxes on behalf of the individuals whose term of shareholding is within one year (inclusive); instead, the taxable incomes shall be calculated by a securities registration and settlement company based on the term of shareholding when the individual transfers those shares and the company shall withhold and pay the taxes through the securities registration and settlement company. For dividend and bonus incomes obtained by securities investment funds from listed companies, the individual income taxes thereof are calculated and levied pursuant to the provisions in the document of Cai Shui [2015] No. 85.

For QFII, according to the provisions in the Notice on Issues Regarding Withholding and Payment of Corporate Income Taxes when PRC Resident Enterprises Distribute Dividends, Bonuses and Interests to the QFII (Guo Shui Han, [2009] No. 47) (《關於中國居民企業向QFII支付股息、紅利、利息代扣代繳企業所得稅有關問題的通知》(國稅函[2009]47號)) issued by State Administration of Taxation, the listed company withholds and pays corporate income taxes at a uniform tax rate of 10%. If the dividend and bonus incomes obtained by QFII shareholders are meant to claim the treatment as stipulated in tax treaties (arrangements), application for tax refund can be submitted to the governing tax authority after the acquisition of such dividends and bonuses according to regulations.

According to the provisions in the Notice on Tax Policy Regarding Shanghai-Hong Kong Stock Connect Pilot Programs (Cai Shui [2014] No. 81) (《關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2014]81號)) issued by the Ministry of Finance, State Administration of Taxation and CSRC, for the dividend and bonus incomes obtained by investors (including enterprise and individual) on Hong Kong market from investing in A Shares listed on Shanghai Stock Exchange, the implementation of differentiated taxation is suspended before Hong Kong Securities Clearing Company Limited meets the conditions to provide the investor's identification, term of shareholding and other specific data. The listed company withholds and pays the income taxes at the tax rate of 10%, which should be duly declared to the governing taxation authority. For Hong Kong investors who are tax residents of foreign countries that have entered a tax treaty with the PRC specifying an income tax rate for dividend and bonus incomes below 10%, the rate for dividend and bonus income tax is less than 10%, the enterprises or individuals can, by themselves or entrust a withholding agent to apply to the governing tax authorities of the listed company for the treatment as stipulated in such tax treaties. The governing tax authorities shall refund the taxes according to the discrepancy between the levied taxes and taxes payable based on the tax treaty after verifying and approving the application.

For institutional investors, the taxes on their dividends and bonus incomes shall be paid on their own.

## 2. H-share holders

According to the provisions in the Notice by the State Administration of Taxation on Issues Regarding the Administration of Individual Income Tax Collection after the Annulment of Document Guo Shui Fa [1993] No. 045 (Guo Shui Han [2011] No. 348) (《國家稅務總局關於國稅發[1993]045號文件廢止後有關個人所得稅徵管問題的通知》(國稅函[2011]348號)), for the dividend and bonus incomes from shares offered in Hong Kong by domestic non-overseas investment enterprises acquired by individual shareholders as overseas residents, the withholding agent shall legally lawfully withhold and pay the individual income taxes according to item "interest, dividend and bonus income". For shares offered in Hong Kong by domestic non-overseas investment enterprises, the individual shareholders as overseas residents can claim related tax preferences according to the provisions in the tax treaty signed by the country to which the resident identity belongs and the PRC and in the tax arrangements between Mainland China and Hong Kong (Macau). According to the related tax treaties and tax arrangements, the tax rates for dividends are normally 10%. To simplify administration of tax collection, when the domestic non-overseas investment enterprises offering shares in Hong Kong allocate distributable dividend and bonuses, the individual income taxes are generally withheld at the tax rate of 10% and such application is not necessary. If the dividend tax rate is not 10%, individual income taxes shall be withheld as per the following provisions: (1) for residents under relevant tax treaty subject to tax rates below 10% pursuant to relevant treaties, the withholding agent can apply related treatment under such treaties on behalf of the residents and the governing tax authority will refund the additional tax payments after verifying and approving the application; (2) for residents subject to tax rate over 10% but lower than 20% pursuant to relevant treaties, when the withholding agent distributes dividend and bonus, the individual income tax shall be withheld and paid at the actual tax rate specified in the treaties and application for approval is not necessary; (3) for residents from the country which did not enter into any tax treaty with the PRC, when the withholding agent distributes dividend and bonus, the individual income tax shall be withheld and paid at the tax rate of 20%.

According to the provisions in the Notice on Issues regarding Withholding and Payment of Corporate Income Taxes when PRC Resident Enterprises Distribute Dividends to Non-resident Enterprise H Share Holders (Guo Shui Han [2008] No. 897) (《關於中國居民企業向境外H股非居民企業股東派發股息代扣代繳企業所得稅有關問題的通知》(國稅函[2008]897號) issued by the State Administration of Taxation, when PRC resident enterprises distribute annual dividends and bonuses to overseas non-resident enterprise H Share holders for the year 2008 and subsequent years, the corporate income tax shall be withheld and paid by PRC resident enterprises at the uniform tax rate of 10% on behalf of such shareholders.

According to the provisions in the Notice on Tax Policy Regarding Shanghai-Hong Kong Stock Connect Pilot Programs (Cai Shui [2014] No. 81) (《關於滬港股票市場交易互聯互通機制試點有關稅收政策的通知》(財稅[2014]81號)) issued by the Ministry of Finance, State Administration of Taxation and CSRC, for dividends and bonuses acquired by Mainland individual investors by investing in listed H Shares at the Hong Kong Stock Exchange via Shanghai-Hong Kong Stock Connect, such H Share companies shall withhold the individual income tax at a tax rate of 20%. For dividends and bonuses acquired from Mainland securities investment funds by investing in listed shares at the Hong Kong Stock Exchange via Shanghai-Hong Kong Stock Connect, the individual income tax shall be levied as per above regulations. For dividends and bonuses acquired by Mainland enterprise investors from investing in listed shares at the Hong Kong Stock Exchange via Shanghai-Hong Kong Stock Connect, such H Share companies shall not withhold or pay any income taxes on the dividends and bonuses, as the income tax should be paid by the investing enterprises on their own. Meanwhile, for the dividends and bonuses acquired by Mainland resident enterprises for continuous holding of relevant H Shares for 12 months, the corporate income tax shall be exempted according to laws.

According to the current practices of Inland Revenue Department of Hong Kong, no tax shall be levied for dividends distributed by the Company in Hong Kong.

The shareholders of the Company shall pay relevant taxes and/or be entitled tax reliefs according to above provisions.

## II. Performance of undertakings

- (I) Undertakings of the Company, shareholders, de facto controllers, purchasers, Directors, Supervisors, senior management and other connected parties, made and/or remain effective during the Reporting Period

Accounting firm for the auditing of internal controls	KPMG Huazhen LLP	—

### Description of appointment and removal of accounting firm

During the Reporting Period, as approval at the Annual General Meeting of the Company for 2015, the Company reappointed KPMG Huazhen LLP to audit the financial statements and internal controls of the Company and its holding subsidiaries for 2016 and issue the A Share audit report and internal control audit report, and reappointed KPMG to audit and issue the H Share audit report. The total audit service fees are RMB4.55 million (including the audit fee for internal control).

## VI. Risk of suspension of listing

During the Reporting Period, the Company was not exposed to any risks of suspension of listing.

## VII. Bankruptcy and restructuring

The Company was not involved in any bankruptcy or restructuring during the Reporting Period.

## VIII. Material litigation, arbitration

### (I) Litigation, arbitration disclosed in ad hoc announcements without subsequent development

Summary and type of event	Query indexes
<p>The debt disputes between Huatai United Securities, Stone Group (四通集團) and Stone Group Financial Company (四通集團財務公司): There were three debt disputes due to the illegal appropriation of funds of Huatai United Securities by Stone Group Financial Company, a subsidiary of Stone Group Corporation which was a former shareholder of Huatai United Securities. Two of the disputes had been ruled by the intermediate people's court in Shenzhen via a civil verdict (2001) SZFJ First Instance No. 315 and a civil mediation notice (2002) SZFJ First Instance No. 430. According to the civil verdict and civil mediation notice, the Stone Group was demanded to pay Huatai United Securities RMB73.45 million with interests and RMB99.40 million with interests. The civil verdict and civil mediation notice have taken effect and are now in the process of implementation. The last dispute was filed by Huatai United Securities to the high people's court in Beijing in June 2008 to demand an aggregate payment of approximately RMB260 million, including a debt of RMB237.7536 million and interest of RMB21.8772 million, due from Stone Group Corporation. It was ruled by the High People's Court in Beijing via a civil verdict (2008) Gao Min Chu Zi No. 1080 made on 17 December 2009. The other party did not make any appeal and the judgement of the first trial became effective, pursuant to which, Stone Group should pay the Company a principal of RMB175.5340 million with interests. The verdict is now in the process of implementation.</p>	<p>Could be retrieved in the annual reports for the Year 2011–2015</p>

Summary and type of event	Query indexes
<p>Debt disputes between Huatai United Securities, China Huacheng Group Financial Co., Ltd. (中國華誠集團財務有限責任公司) (hereinafter referred to as “Huacheng Group”) and Huacheng Investment Management Co., Ltd. (華誠投資管理有限公司) (hereinafter referred to as “Huacheng Investment”): China Huacheng Group Financial Co., Ltd. misappropriated the funds of branches of Huatai United Securities of more than RMB37.20 million. Cash of RMB17.38 million in aggregate was detained from three branches and the head office of Huatai United Securities by various local courts due to debt disputes between Huacheng Group and its creditors. However, Huacheng Group refused to pay the debts. In December 2003, Huatai United Securities submitted a lawsuit to the Intermediate People’s Court in Shenzhen to demand Huacheng Investment and Huacheng Group to severally and jointly settle the debts. After the filing of the lawsuit, all local courts were instructed by the Supreme People’s Court that no litigation involving Huacheng Investment and its subsidiaries shall be accepted, heard or executed. The lawsuit has been adjourned since then. In May 2009, Huacheng Investment was ruled bankrupt and put under liquidation by the court. In August 2009, Huatai United Securities filed a claim of RMB125.98 million (sum of principal and interest) to the liquidation committee. However, the debt was unconfirmed because it had not been verified by the court. In March 2010, the intermediate people’s court in Shenzhen resumed the hearing of the case and approved all of the claims of Huatai United Securities after the first trial. Huacheng Investment and Huacheng Group were demanded to pay RMB54.584 million and litigation fee of RMB282,000. After that, Huatai United Securities filed its claim of the debts and litigation fee to the liquidation committee of Huacheng Investment. On 21 December 2012, Huatai United Securities has issued a civil award from No. 2 Intermediate People’s Court in Beijing (hereinafter referred to as the “No. 2 Intermediate Court”) stating that the liquidation of Huacheng Investment was completed. During the liquidation of Huacheng Investment, Huatai United Securities was distributed 2,764,400 shares in Huafang Co., Ltd. and cash of RMB1,824,000. In July 2012, Huacheng Group was ruled bankrupt and put under liquidation by the court. In June 2013, the liquidator issued a List of Debts for Verification for the debt confirmation of Huatai United Securities. On 21 March 2014, No. 2 Intermediate Court convened a meeting of creditors of Huacheng Group. At the meeting, the liquidator stated that “as Huatai United Securities Co., Ltd. denied the capacity of Huacheng Investment as its shareholder, it is not a creditor to the debts owed by Huacheng Group”. Accordingly, Huatai United Securities submitted a lawsuit regarding the confirmation of debts to No. 2 Intermediate People’s Court in Beijing. On 18 November 2014, No. 2 Intermediate Court announced its judgment of (2014) Er Zhong Min Chu Zi No. 6794. Pursuant to which, Huatai United Securities shall be a creditor to the debts of Huacheng Group in the amount of RMB39,387,194.72. The equity dispute between the two parties was ruled by the No. 2 Intermediate Court via the civil verdict of (2015) Er Zhong Min (Shang) Chu Zi No. 05326 issued on 26 October 2015, denying the lawsuit for the confirmation of Huacheng’s equity. The capital cancellation for the 2.52 million shares originally registered under Huacheng Investment has been confirmed as effective.</p>	<p>Could be retrieved in the annual reports for the Year 2011–2015</p>

Summary and type of event	Query indexes
<p>A considerable overloss occurred in futures account of Zhang Xiaodong, a client of Huatai Futures on 16 April 2013, with the overloss amount of RMB22,639,786.41. Since Zhang Xiaodong failed to repay the overloss amount lent by Huatai Futures, on 27 December 2013, Huatai Futures brought a civil suit against Zhang Xiaodong to the No. 1 intermediate people's court in Shanghai, requiring Zhang Xiaodong to reimburse the overloss amount paid by Huatai Futures for him and bear all legal costs. The No. 1 Intermediate People's Court in Shanghai held a hearing on 29 May 2014, and delivered a verdict ((2014) Hu Yi Zhong Min Liu (Shang) Chu Zi No. 1) ((2014) 滬一中民六(商)初字第1號)) on 25 June, pronouncing that the defendant Zhang Xiaodong shall repay RMB22,639,786.41 to the Huatai Futures within ten days after the verdict became effective, and supporting the Huatai Futures' demand that Zhang Xiaodong shall bear the court case hearing cost. Huatai Futures applied to the No. 1 Intermediate People's Court in Shanghai for compulsory enforcement of overloss amount of Zhang Xiaodong on 11 November 2014; currently, the case is in the process of implementation. With respect to the application for enforcement through the defendant's properties, Huatai Futures received enforcement ruling from the Intermediate People's Court in Sanmenxia, Henan Province at the end of June 2015: since the person subject to enforcement was temporarily unable to repay the debt, the case failed to be executed effectively, and the court terminated the procedure of enforcement. If the person subject to enforcement was found to have properties to be executed, Huatai Futures may apply to the court for resuming enforcement at any time. In accordance with relevant finance system regulations, such overloss of client was treated as "risk loss receivables" in the year 2013. Huatai Futures made provision for futures risk in accordance with relevant regulations of finance management in the futures industry, and no bad debt provision was required for such overloss.</p>	<p>Could be retrieved in the annual reports for the Year 2013–2015</p>

- Huatai Securities raised objection to enforcement for the deposit receipts under pledge: as the manager of “Jinling No. 6 Targeted Assets Management Plan of Huatai Securities” (hereinafter referred to as “Jinling No. 6 Plan”), Huatai Securities, according to the investment directive from the client, invested in the right to yields of deposit receipts held by Kunshan Kaihong Car Trade Co., Ltd. (hereinafter referred to as “Kunshan Kaihong”) with the capital under the targeted plan on 22 April 2014, and Kunshan Kaihong agreed to repurchase all such deposit receipts on 21 April 2016. To guarantee normal performance of repurchase terms, Kunshan Kaihong pledged the deposit receipts (RMB25 million) to Huatai Securities. Due to other disputes of Kunshan Kaihong, its relevant assets (including the deposit receipts of RMB25 million pledged for such business) were frozen by the People’s Court in Kunshan. According to the provisions of relevant contracts, if the transferor of deposit receipts was involved in disputes, the manager of Jinling No. 6 Plan was able to exercise the right of pledge in advance. In October 2015, Huatai Securities raised objection to enforcement to the People’s Court in Kunshan, requesting the court to defreeze the deposit receipts of RMB25 million pledged by the aforesaid enterprise to Huatai Securities. The People’s Court in Kunshan has accepted the objection raised by Huatai Securities (acceptance No. (2016) Su0583 Zhi Yi No. 9). The case was judged in May 2016 upholding the appeal of Huatai Securities, and the underlying deposit receipts were defrozeed. However, the People’s Court in Wujiang District of Suzhou enforced the freeze in order of the deposit receipts in relation to other disputes of Kunshan Kaihong. Huatai Securities raised an objection to the enforcement to the Peoples’ Court in Wujiang District of Suzhou in May 2016, which was however rejected by the court. Huatai Securities then brought legal proceedings to the Peoples’ Court in Wujiang District of Suzhou for the objection to enforcement in

June 2016. The People's Court in Wujiang District of Suzhou has accepted the legal proceeding regarding the objection to enforcement raised by Huatai Securities (acceptance No. (2016) Su0509 Min Chu No. 8451). The case was in trial on 22 November 2016, and a judgement upholding Huatai Securities' right of pledge on the deposit receipts involved in the case was made by the Peoples' Court in Wujiang District of Suzhou on 18 January 2017. Currently, the underlying deposit receipts are defrozeed. As the manager of the Jinling No. 6 Plan, Huatai Securities has been entrusted by the clients of the plan to institute the proceedings, and the losses or profits arising wherefrom will be included in the assets under the plan. The assets under the plan are independent from the assets of Huatai Securities, and this lawsuit has no adverse effect on the Company's profits during and after the Period.

2. Debt dispute between Huatai United Securities and Beijing Huazi Syndicate Group (北京華資銀團集團): As Beijing Huazi Syndicate Group failed to repay its debt to Huatai United Securities according to the agreement, Huatai United Securities filed a lawsuit to the Peoples' Court in Futian District of Shenzhen in January 2011 against Beijing Huazi Syndicate Group to demand payment of the principal and interest thereon of RMB34.5789 million in aggregate. After the first trial in February 2011, the court ordered the payment to Huatai United Securities of RMB24.30 million plus interest calculated at the interest rate of bank deposit during the same period by Beijing Huazi Syndicate Group. Beijing Huazi Syndicate Group filed an appeal to the Intermediate People's Court in Shenzhen in June 2011 against the judgement. The appeal was dismissed and the verdict of the court of first instance sustained. The verdict is now in the process of implementation. Regarding to the legal proceedings instituted by Huatai United Securities against Huang Zuxiang, Huang Ping, Huang Zufeng and the deputes between Beijing Huazi Syndicate Group and Huatai United Securities, No. 3 Intermediate People's Court in Beijing issued a civil verdict (2015) San Zhong Min (Shang) Chu Zi No. 03020 on 4 December 2015, demanding Huang Zuxiang and Huang Zufeng, as shareholders of Huazi Syndicate Group, to settle the principal of the debt of RMB24.30 million as well as case acceptance fee of RMB91,000 on behalf of Huazi Syndicate Group. Huang Zuxiang and Huang Zufeng have not performed the debt settlement order since 2016. On 31 May 2016, Huatai United Securities applied for verdict enforcement at No. 3 Intermediate People's Court in Beijing.
3. China Nuclear Energy Industry Corporation (hereinafter referred to as "Nuclear Energy Corp") brought legal proceedings regarding to a deposit receipts dispute against Huacheng Group and Huacheng Investment. The No. 2 Intermediate Court issued a civil verdict (1998) Er Zhong Jing Chu Zi No. 1218 on 10 February 1999. After the verdict came into effect, Nuclear Energy Corp applied for verdict enforcement at the No. 2 Intermediate Court on 12 July 1999. The No. 2 Intermediate Court, according to law, impounded the equity shares of United Securities Co., Ltd. (hereinafter referred to as "United Securities") held by Huacheng Investment. After that, Nuclear Energy Corp acquired 36.60 million shares of United Securities held by Huacheng Investment through auction. United Securities considered the contribution of RMB14.98 million at the beginning of the investment in United Securities by Huacheng Investment as overstated (deduction enforced by the court), and therefore filed a writ and raised an objection to enforcement to the High People's Court in Beijing and the Supreme People's Court. The No. 2 Intermediate Court and Nuclear Energy Corp finally deducted the 13.48 million shares of United Securities (equivalent to RMB14.98 million) from the 36.60 million shares of United Securities acquired through auction by Nuclear Energy Corp, and the remaining equity of 23.12 million shares were transferred to Nuclear Energy Corp. However, the aforesaid 13.48 million shares were requested to continue to be frozen under the name of Nuclear Energy Corp in the No. 2 Intermediate Court.

At the end of 2003, United Securities instituted proceedings in court against Huacheng Group and Huacheng Investment, the proceedings were halted as the Supreme People's Court informed all the courts over the country to temporarily refuse to accept cases in relation to Huacheng Group and its subsidiaries through an openly transmitted telegraph. Therefore, United Securities initiated the negotiation with Nuclear Energy Corp in relation to the application of freezing the 13.48 million shares in the No. 2 Intermediate Court under the name of Nuclear Energy Corp. The two parties reached a mutual consent on the basis of mutual benefit. United Securities agreed that the aforesaid 13.48 million shares would continue to be under the name of Nuclear Energy Corp, provided that the entire equity would be split up in two parts in 40-60 proportion, in which Nuclear Energy Corp obtained 5.5 million shares, and the remaining 7.98 million shares were obtained by United Securities as the settlement of the debt owed by Huacheng Investment. In 2008, the 13.48 million shares of Huacheng Investment were transferred to Nuclear Energy Corp. By then, Nuclear Energy Corp, on behalf of United Securities, held the 7.98 million shares, which were originally held by Huacheng Investment in United Securities.

In 2009, Huatai Securities restructured United Securities. United Securities changed its name to Huatai United Securities Co., Ltd. After the split off, Nuclear Energy Corp held 10.98 million shares of Huatai United Securities, in which 8.586 million shares were held on its behalf, and 2.394 million shares were held as warehouse. Huatai Securities then negotiated with Nuclear Energy Corp, agreeing that Nuclear Energy Corp transferred 2 million shares of the 2.394 million entrusted shares to Huatai Securities, and the transfer payment was made to Huatai United Securities. The remaining 394,000 shares together with the 8.586 million shares (8.98 million shares in total) were converted to equity interest in Huatai Securities. Nevertheless, the issue of the 2 million entrusted shares held by Nuclear Energy Corp was yet to be settled.

On 23 December 2014, People's Court in Xicheng District of Beijing accepted the case regarding contract dispute between Huatai United Securities and Nuclear Energy Corp. On 28 June 2016, people's court in Xicheng District of Beijing issued a civil verdict of (2015) Xi Min (Shang) Chu Zi No. 1048, Huatai United Securities obtained the judgement in its favor. The court judged that the defendant should continue to perform the Entrusted Equity Agreement and the Entrusted Equity Listing Transfer Agreement, and complete the equity transfer of the 2 million equity shares within 30 days commencing on the effective date of the judgement, as well as pay the proceeds from the equity transfer to Huatai United Securities. The judgement has come into effect, and is currently the process of implementation. (The amount involved in the above litigation was estimated based on the data of net assets of Huatai United Securities as of the end of the Reporting Period)

4. Debt dispute between Huatai Securities and Sichuan Shengda Group Co., Ltd. (四川聖達集團有限公司): The interest of corporate bond of Sichuan Shengda Group Co., Ltd. of 2012 ("2012 Shengda bond", bond code: 1280443) was not able to be paid to Huatai Securities in full and the principal amount of the bond was not able to be paid for redemption in full upon maturity. Huatai Securities and other creditors jointly entrusted the Chengdu branch of the Bank of Tianjin Co., Ltd. to raise a litigation at the Higher People's Court in Sichuan Province on 7 June 2016 according to the decision made in the meeting of bondholders, requesting Sichuan Shengda Group Co., Ltd. to repay the principal amounts and interests. The total principal amount was RMB300 million, based on the coupon rate of 7.25% calculating from 6 December 2014 till the date of repayment, and the penalty interest was calculated based on the annual interest rate of 3.625% from 6 December 2015 till the date of repayment (of which RMB50 million is attributable to Huatai Securities). As of 31 December 2016, the principal, interest and interest penalty receivable by Huatai Securities from Sichuan Shengda Group Co., Ltd. were RMB50 million, RMB7.5082 million and RMB1.9416 respectively. The case is currently under trial.
5. Bill dispute under No. 1 Targeted Assets Management Plan of Bank of Huafu Xiamen (華福廈門銀行) of Huatai Securities: Xiamen Bank Co., Ltd, the consignor of No. 1 Targeted Assets Management Plan of Bank of Huafu Xiamen of Huatai Securities ("No. 1 of Bank of Huafu Xiamen"), in view of disputes of the relevant bill disputes over No. 1 Targeted Assets Management Plan filed a lawsuit on contract disputes to the High People's Court in Fujian Province on 17 October 2016 against the Shenzhen Branch of Bank of Ningbo Co., Limited (寧波銀行股份有限公司), with the litigation amount accounting to RMB473.845 million for the time being (up to 17 October 2016). The Shenzhen Branch of Bank of Ningbo Co., Limited, as the defendant, after receiving the materials on claim including the notice of response to action from the High People's Court in Fujian Province, submitted the Application for the Objection to the Jurisdiction to the High People's Court in Fujian Province on 18 November 2016 to raise its objection to the jurisdiction. The competent court will commence the trial when the jurisdiction of this case is confirmed.

As the manager of No. 1 Targeted Assets Management Plan of Bank of Huafu Xiamen (華福廈門銀行), Huatai Asset Management was listed as third person of the civil action, and was not asked to bear the compensation liability. There was no adverse effect on the profits of Huatai Asset Management during and after the Period.

### (III) The punishment and denouncement received by the Company this year

During the Reporting Period, the Company received an Investigation Notice (Ref.: Yu Securities Investigation No. 2015004) (《調查通知書》(編號: 渝證調查字2015004號)) from the CSRC on 24 August 2015 notifying the Company that, due to its activities including failing to comply with client review and inspection procedures and know-your-client requirements that may involve suspected breaches of laws and regulations, the CSRC had decided to initiate investigation proceedings against the Company in accordance with the relevant requirements under the Securities Law of the PRC (For details see the Company's announcement of Lin No. 2015-069). The Company received the Notice of Proposed Administrative Penalty (CF Zi [2015] No. 72) (《行政處罰事先告知書》(處罰字[2015]72號)) (For details see the Company's announcement of Lin No. 2015-073) from the CSRC on 10 September 2015. During the Reporting Period, the Company received the Determination on Administrative Penalty ([2016] No. 126) (《行政處罰決定書》([2016]126號)) from the CSRC on 28 November 2016, which stated that: "Through investigation, Huatai Securities is suspected of committing the following illegal behaviors: For the third party transaction terminal software connected with the outside of Hangzhou Hang Seng Network Technology Service Co., Ltd (杭州恒生網絡技術服務有限公司) and Hithink Royalflush Information Network Co., Ltd (浙江核新同花順網絡信息股份有限公司). Huatai Securities did not conduct software certification and failed to control effectively, and failed to implement effective management on external system access, lacking in knowledge about the identities of relevant clients. As at the investigation day, Huatai Securities had 455 client accounts using HOMS System of Hangzhou Hang Seng Network Technology Service Co., Ltd (hereinafter referred to as HOMS), and 61 client accounts using the System of Hithink Royalflush Information Network Co., Ltd. (hereinafter referred to as "Royalflush") to connect to illegal transactions. For such clients, Huatai Securities did not collect or guarantee authenticity, accuracy, integrity, coherence and readability of the information of the client transaction terminations as per requirements, nor did it adopt reliable measures to collect and record information related to client identity recognition. In conclusion, Huatai Securities did not verify to know the identity information of clients in accordance with Article 6, Article 8 and Article 13 of Regulation on Strengthening Management of Client Information (Including Client Transaction Terminal Information) of Securities & Futures Institutions, as well as Article 50 of Securities Account Management Rule of China Securities Depository and Clearing Company Limited, in violation of the provisions of Article 28 (1) of Regulation on the Supervision and Administration of Securities Companies, constituting the behavior mentioned in Article 84 (4) of Regulation on the Supervision and Administration of Securities Companies, and obtaining profits of RMB18,235,275.00. After the CSRC issued the Opinions in Relation to the Rectification of Illegal Activities in the Securities Business (CSRC Announcement No. [2015]19) (《關於清理整頓違法從事證券業務活動的意見》)(證監會公告([2015]19號)) on 12 July 2015, Huatai Securities still failed to take effective measures to strictly examine the authenticity of the customers' identities, failed to prevent customers from engaging in illegal trading activities through securities trading channels, and opened 102 new sub-accounts for customers, which constituted serious and severe violations. The aforesaid facts can be proved by evidence such as inquiry records of relevant personnel, historical records of authorization and transaction data of HOMS and Royalflush access accounts, explanation from Huatai Securities and commission calculation data. Based on the facts, nature, circumstance and the harmfulness to the public caused by the breach by the relevant parties, the CSRC made the following decisions pursuant to Article 84 of the Regulations on Supervision and Management of Securities Companies: an order to Huatai Securities to rectify and warning are given and the illegal income of RMB18,235,275.00 would be confiscated, and a fine of RMB54,705,825.00 was imposed."

According to the relevant regulatory requirements on external access information system, the Company began to clear and sort out external information system and accounts since June 2015. In August 2015, the Company cut off the special access line of Hundson HOMS, limited the access from Royalflush assets management platform, and shut down the external connection system with fund-matching financing risks. As of 19 August 2015, all accounts connecting with HOMS were cleared out, and account white list control mechanism was put into use for all systems connected with the outside. The Company organized and completed the technical due diligence and evaluation on existing external connection system.

During the Reporting Period, the Company further standardized the application process, such as access, evaluation, test, interface and circuit, of external information system, to realize standardized management to external access information system. In order to track the potential new illegal access behavior, the Company established a customer transaction monitoring system to conduct monthly monitoring and analysis of transactions for customer having been accessed, the report on transaction terminal code, and the access suspected to be unauthorized. The Company conducted and completed the special transformation relating to feature codes of existing external connection system, established verification mechanism of feature code data, and formed an abnormal data report based on the monthly summary. The Company implemented the system improvement based on an analysis of an abnormal reasons of feature code. During the Reporting Period, the Company continued to promote the standardization of the transaction terminal codes, and continuously monitored, monthly investigated, and timely improved the system.

## IX. Punishment on and rectification of the Company and its Directors, Supervisors, senior management, controlling shareholders, de facto controllers and purchasers

During the Reporting Period, none of the Directors, Supervisors, senior management, shareholders holding over 5% of equity interest or de facto controllers of the Company was investigated by competent authorities, imposed with coercive measures by a judiciary authority or disciplinary department, transferred to a judicial authority or held criminally liable, banned from accessing to market, identified as an unsuitable person, punished by other administrative departments or publicly condemned by a stock exchange.

For details of punishment on and rectification of the Company during the Reporting Period, please refer to “(III) The punishment and denouncement received by the Company for the year” under “Major Events” “VIII. Material litigation, arbitration”.

## X. Integrity of the Company and its controlling shareholders and de facto controllers

During the Reporting Period, the Company and its de facto controllers maintained excellent integrity and there were no such cases as non-performance of effective court judgment or overdue of relative large liability.

## XI. Share incentive scheme, employee stock ownership plan or other employee incentives and their implication

During the Reporting Period, the Company did not implement any share incentive scheme, employee stock ownership plan or other employee incentives.

## XII. Material connected transaction

Details on the connected transactions under the relevant accounting standards can be found in note 58 to the consolidated financial statements. The Company confirmed that the related-party transactions were not qualified as the connected transactions or the continuing connected transactions as defined in Chapter 14A of the Hong Kong Listing Rules (as the case may be), and were in compliance with the disclosure requirements under Chapter 14A of the Hong Kong Listing Rules.

### XIII. Material contracts and performance of obligation thereof

Conditions of guarantees

1. Huatai International Finance I Limited under Huatai Financial Holdings (Hong Kong) completed the first tranche of offshore bond on 8 October 2014. In order to enhance the debt service guarantee for the first foreign bonds and reduce the issuing rate, the authorized person of the Company authorized at the Company's Annual General Meeting for 2013, determined to have the Bank of China Macau Branch provide a guarantee for the first tranche of offshore bonds with a standby L/C. At the same time, according to the resolution of the 9th meeting of the third session of the Board, the Company issued a Letter of Counter Guarantee to the Bank of China with regard to the standby L/C opened for the first tranche of offshore bonds issued by the Company. The amount of the counter guarantee did not exceed the principal, interest and other relevant expenses of the bonds, totalling US Dollars equivalent to RMB3 billion. It was a guarantee with joint and several liability. And the guarantee period would last until 6 months after the expiration of the standby L/C.
  2. In January 2015, Huatai Asset Management was officially founded. In order to ensure that all risk control indicators of Huatai Asset Management remain in conformity with the regulatory requirements, as considered and approved at the 16th meeting of the third session of the Board of the Company and the Annual General Meeting for 2014, the Company provided a net capital guarantee with the maximum amount of RMB1.2 billion for Huatai Asset Management and promised that it would provide cash within the said limit unconditionally should such business need arises in Huatai Asset Management. As considered and approved at the 35th meeting of the third session of the Board of the Company and the 2nd Extraordinary General Meeting in 2016, the Company provided a net capital guarantee with the maximum amount of RMB5 billion for Huatai Asset Management and promised that it would provide cash within the said limit unconditionally should such business need arises in Huatai Asset Management.

- (10) Selecting staff to take temporary posts: according to poor areas' demands, select politically qualified staff with high professional level and strong capability ability of organization and coordination to take temporary posts in poor areas to carry out targeted poverty alleviation.

## 2. Outline of Targeted Poverty Alleviation of the Year

In 2016, while focusing on the transformation, upgrading, innovation and development of our Company, we assumed social responsibilities to actively promote targeted poverty alleviation programs, making efforts to improve both social benefits and economic benefits of the Company. We provided the counterpart-assistance to Northern Jiangsu, which achieved remarkable results. The Company has been providing counterpart-assistance to Northern Jiangsu area for 22 consecutive years, and in this year, the targeted area changed from Suining County, Jiangsu Province to Feng County, Jiangsu Province. In this year, the Company allocated poverty alleviation of RMB450,000 for the construction of "repository for the preservation of 600 tons of fruit and vegetables" project in Honglou Village, Liangzhai Town, Feng County. After the completion of the project, the management of agricultural industrialization will be directly promoted, and part of the rural surplus labor can be settled, and drive relevant industrial development such as packaging, transportation and maintenance. Currently, some business owners have entered into lease contracts with the village with a prepaid rental of RMB150,000, which greatly enhances the village's own capabilities to build up capabilities and strengths. After one-year struggle and effort, collective economic income of Honglou Village amounted to RMB225,000, which exceeded the anti-poverty standard of RMB180,000 in Jiangsu Province. The income of 39 farmer families of low income registered poor family (totally 109 people) amounted to more than RMB6,000 per capita, and they shook off poverty. Secondly, the policy of "a company, a county" made a breakthrough. In October 2016, the Company actively responded to the action of "a company, a county" published by the Securities Association of China to help the national poor counties in pairs, and reached twinning intentions with Jinzhai County, Anhui Province, and focused capitalizing on the resources and advantages of the Company to provide comprehensive financial services to Jinzhai County, Anhui Province. According to the needs of Jinzhai, we carried out training on unscrambling capital policy on poverty alleviation, and special training on investment promotion for enterprises intended for listing to the officials of all levels in Jinzhai, which unscrambled detailedly on the current situation of capital market, policy of poverty alleviation and its operation, and the conditions and key points for IPO. According to the practical situation in Jinzhai, we provided many constructive proposals on investment promotion and capital introduction, and nearly 500 people attended this training. In addition, the Company utilized its own advantage as an intermediary agent for the two ends of investment and financing, actively helping the enterprises intended for listing in Jinzhai to conduct tutoring training and to conduct investment promotion based on the industrial characteristics of Jinzhai. We introduced and assisted 4 companies to register in Jinzhai. What is more, we engaged in more commonweal undertakings to help the distressed. The Company insisted on engaging in commonweal undertakings to help the distressed in various ways in the year of 2016, involving many aspects including study assistance, aiding of the poor, commonweal sponsorship and helping the disaster-struck areas, the commonweal expenses of which were RMB8.5953 million. The Company built "the Home of Our Children" in centralized regions of left-behind children including the Anqing Hetu Primary School in Anhui province (安徽省安慶河圖小學) and Suqian Cangji Central Primary School in Jiangsu province (江蘇省宿遷倉集中心小學) through the program of "For Children, For Tomorrow" donated by the Company through the China Charity Federation while helping actively with the location and construction of "the Home of Our Children" in Jinzhai region in Anhui province which was the Company's chosen place for aiding of the poor. By the fellowship of RMB0.7 million donated by Jiangsu Foundation for poverty alleviation, in five cities of Northern Jiangsu, there were 350 poor but excellent senior high school student facing college entrance examination in high school were subsidized. When facing natural disasters, the Company had a swift response to help disaster-struck areas, and the total donation to disaster-struck areas suffering from tornado and hail such as Funing, Sheyang in Jiangsu province, was up to RMB3.03 million. With the encouragement from the Company, employees participated in commonweal undertakings actively, and donated RMB0.5482 million to disaster-struck areas of Funing and Sheyang, which fully carried forward the spirit of unity and mutual assistance in times of difficulties. In the commonweal program series of "the Commonweal Heart of Huatai", RMB0.11 million were raised. Meanwhile, employees of the Company responded actively to the activities proposing of "Caring Children Living in the Mountains, Sharing the warmth of Winter Together" by the Securities Industry Association in Jiangsu (江蘇證券業協會), and donated 266 clothes, 482 books, 75 study tools and 12 toys.

### (II) Proposal or resolution on annual distribution

Audited by KPMG Huazhen (SGP), the parent company realized net profit of RMB4,638,186,983.63 in 2016, among which, 10% was withdrawn for statutory surplus reserves, 10% for general risk reserves and 10% for trading risk reserves as prescribed in the Company Law, Securities Law, Financial Rules for Financial Enterprises and Articles of Association. After the withdrawal (RMB1,391,456,095.08 in total), the profit available for distribution this year is RMB3,246,730,888.55.

The accumulative total of the profits available for distribution in cash to investors this year was the above amount plus the undistributed profits of the previous years of RMB10,929,349,736.65 and minus the dividends of RMB3,581,384,400.00 distributed by the Company this year according to the profit distribution plan (PDP) of 2015, namely, RMB10,594,696,225.20.

In light of the relevant provisions of the Guidelines No. 3 on the Supervision and Administration of Listed Companies — Distribution of Cash Dividends of Listed Companies and the Guidelines of Shanghai Stock Exchange on Distribution of Cash Dividends of Listed Companies issued by CSRC and the actual needs of the business development of the Company, it is recommended that the profits would be distributed as follows:

The profits of the year of 2016 will be distributed in cash dividend payment method. The Company will pay cash dividends to all A Share holders and H Share holders named at the Register of Members on the record date of such cash dividend distribution for 2016. On the basis of the total share capital of 7,162,768,800.00 shares as of the end of 2016, the distribution of cash dividend would be RMB5.00 (tax inclusive) for every ten shares to all shareholders. The total amount was RMB3,581,384,400.00. The undistributed profits of RMB7,013,311,825.20 will be transferred to the following year. The cash dividends will be denominated and distributed in RMB. A Share holders will be paid in RMB and H Share holders in HKD. The actual amounts distributed in HKD are converted based on the average benchmark exchange rate for RMB to HKD released by PBOC for the five working days prior to the date of the Annual General Meeting of the Company for 2016.

This Profit Distribution Plan shall be presented at the Annual General Meeting of the Company for 2016 for consideration and the Company will pay the dividends for 2016 to shareholders within two months after the Plan is approved at the Meeting and no later than 31 August 2017. The date for the Annual General Meeting for 2016, the record date for determining the right to receive the dividends for 2016 and the right to attend the Annual General Meeting for 2016, as well as the closure date for register will be published in due course.

4	Jiangsu SOHO Holdings Group Co., Ltd.	A shares	Beneficial owner (Note 1)	209,206,717	2.92	3.84	Long position
		A shares	Interest in a controlled corporation (Note 4)	86,880,000	1.21	1.60	Long position
5	NSSF	H Shares	Beneficial owner (Note 1)	142,346,200	1.99	8.28	Long position
6	BlackRock, Inc.	H Shares	Interest in a controlled corporation (Note 1)	102,208,924	1.28	5.35	Long position
		H Shares	Interest in a controlled corporation (Note 1)	234,000	0.00	0.01	Short position

- Note 1: According to the information disclosed on the websites of the Hong Kong Stock Exchange ([www.hkex.com.hk](http://www.hkex.com.hk)) and China Securities Depository and Clearing Co., Ltd ([www.chinaclear.cn/](http://www.chinaclear.cn/)), as at 31 December 2016, Jiangsu Guoxin held 1,250,928,425 A shares, Communications Holding Limited held 440,632,218 A shares, Govtor Capital Group Co., Ltd. held 342,028,006 A shares, Jiangsu SOHO Holdings Group Co., Ltd. held 209,206,717 A shares and NSSF held 142,346,200 H Shares. Under Section 336 of the SFO, forms disclosing of interests shall be submitted by shareholders of the Company upon satisfaction of certain conditions. Changes of shareholders' shareholdings in the Company are not required to inform the Company and the Hong Kong Stock Exchange, except for the satisfaction of certain conditions. Therefore, there could be difference between substantial shareholders' latest shareholdings in the Company and the shareholding information as reported to Stock Exchange;
- Note 2: A shareholder has a "long position" if such shareholder has an interest in shares, including interests through holding, writing or issuing financial instruments (including derivatives) under which: (i) such shareholder has a right to take the underlying shares; (ii) such shareholder is under an obligation to take the underlying shares; (iii) such shareholder has a right to receive money if the price of the underlying shares increases; or (iv) such shareholder has a right to avoid or reduce a loss if the price of the underlying shares increases; and
- Note 3: A shareholder has a "short position" if such shareholder borrows shares under a securities borrowing and lending agreement, or holds, writes or issues financial instruments (including derivatives) under which: (i) such shareholder has a right to require another person to take the underlying shares; (ii) such shareholder is under an obligation to deliver the underlying shares; (iii) such shareholder has a right to receive money if the price of the underlying shares declines; or (iv) such shareholder has a right to avoid or reduce a loss if the price of the underlying shares declines
- Note 4: Jiangsu SOHO Holdings Group Co., Ltd. held 71.58% of the equity interest of Jiangsu SOHO International Group Corporation, and therefore was deemed to be interested in 86,880,000 shares in which Jiangsu SOHO International Group Corporation was interested.

Save as disclosed above, the Company is not aware of any other person (other than the Directors, Supervisors and chief executive of the Company) having any interests or short positions in the shares or underlying shares of the Company as at 31 December 2016 required to be recorded in the register pursuant to Section 336 of the SFO.

## VIII. Directors, Supervisors and Chief Executive's Interests and Short Positions in the Shares, Underlying Shares or Debentures of the Company and Its Associated Corporations

As at 31 December 2016, according to the information obtained by the Company and so far as the Directors are aware, interests and short positions held by Directors, Supervisors and chief executive of the Company in the shares, underlying shares or debentures of the Company or its associated corporations (within the meaning of Part XV of the SFO), which shall be notified to the Company and the Hong Kong Stock Exchange pursuant to Section 347 of Part XV of the SFO, were as follows:

No.	Name	Class of shares	Nature of interest	Number of shares held (share)	Percentage of total issued shares of the Company (%)	Percentage of	
						A shares/H Shares of the Company (%)	Long position/short position/shares available for lending
1	Zhou Yi	H Shares	Beneficiary of the trust (Note 1)	353,261	0.005	0.02	Long position

- Note 1: In July 2015, due to the significant fluctuation in share price of the Company, H Shares of the Company were purchased through the targeted asset management scheme for qualified domestic institutional investors (QDII) in compliance with the relevant laws and regulations so as to actively help to maintain the stability of the capital market.

Save as disclosed above, the Company was not aware of any other Directors, Supervisors and chief executive of the Company having any interests and short positions (including interests or short positions which had been taken or deemed to have been under such provisions of SFO) in the shares or underlying shares or debentures of the Company or its associated corporations on 31 December 2016, which shall be notified to the Company and the Hong Kong Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO, or required to be recorded in the register under the provision of Section 352 of the SFO, or shall be notified to the Company and the Hong Kong Stock Exchange under the provision of the Model Code.

## IX. Repurchase, Sale or Redemption of the Listed Securities of the Company and Its Subsidiaries

During the Reporting Period, neither the Company nor any of its subsidiaries had repurchased, sold or redeemed any listed securities of the Company and its subsidiaries.

# Preferential Shares

During the Reporting Period, the Company did not have any matters relating to preferential shares.

## Arrangement to purchase shares and debentures

At no time during the Reporting Period was the Company, its holding company or any of its subsidiaries or fellow subsidiaries a party to any arrangement that enable the Directors and Supervisors to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or other body corporate.

# Directors, Supervisors, Senior Management and Staff

#### Explanation of Other information:

- On 21 December 2015, independent non-executive Director Mr. Chen Zhibin submitted his resignation as independent non-executive Director of the third session of the Board and a member of Audit Committee under the Board in accordance with relevant regulations. However, since the resignation of Mr. Chen Zhibin would cause the number of independent non-executive Directors of the Company less than one third of the Board members, according to the requirements of relevant laws and regulations and the Articles of Association, the application of resignation of Mr. Chen Zhibin shall come into effect after successive independent non-executive Directors fill in his positions. On 18 March 2016, the first extraordinary general meeting ("EGM") of the Company in 2016 considered and approved the resolution regarding the election of independent non-executive Director, and the meeting voted Mr. Yang Xiongsheng as independent non-executive Director of the third session of the Board. On 5 April 2016, the Company received the "Approval Concerning the Appointment of Yang Xiongsheng as an Independent Non-executive Director of a Securities Company (Su Zheng Jian Ji Gou Zi [2016] No. 73)" by Jiangsu Securities Regulatory Bureau. According to relevant rules and the resolution of the first EGM of the Company in 2016, Mr. Yang Xiongsheng will replace Mr. Chen Zhibin to serve as independent non-executive Director of the third session of the Board from the date of resolution. During the Reporting Period, Mr. Chen Zhibin performed his duty to 5 April 2016 in effect. In January 2017, the Company compensated RMB30 thousand (the total amount before income tax) to Mr. Chen Zhibin as independent non-executive Director allowance for the period of performance in effect during the Reporting Period.
- The first meeting of the fourth session of the Board approved the resolution regarding the Appointment of Senior Management of the Company, where the Board agreed to appoint Wang Chong as Chief Risk Officer of the Company according to the nomination by President Zhou Yi. Mr. Wang Chong will officially take the office of chief risk officer of the Company after applying for and obtaining his qualification as a Manager-level Member of Senior Management of a Securities Company.
- During the Reporting Period, Mr. Qi Liang, the former deputy president of the Company received remuneration from Huatai-PineBridge Investments, a joint-stock Company of the Company before his resignation as deputy president of the Company.
- During the Reporting Period, Directors, Supervisors and the senior management of the Company did not hold any share and option of the Company.
- During the Reporting Period, the Company did not carry out any option incentive scheme for Directors, Supervisors and the senior management of the Company. Directors, Supervisors and the senior management of the Company did not hold any option of the Company.
- During the Reporting Period, no current or retired Director, Supervisor and senior management was punished by any securities regulatory authority in the past three years.

## (II) Option incentive conferred to Directors, Supervisors and Senior Management Officers during the Reporting Period

During the Reporting Period, situation which the Company conferred option incentive to Directors, Supervisors and senior management officers did not exist.

## II. Employment of Directors, Supervisors and Senior Management Officers

### III. Remuneration of the Directors, Supervisors and Senior Management

Decision-making procedures of remuneration of the Directors, Supervisors and senior management	The Remuneration and Appraisal Committee of the Board is responsible for advising the Board on the remuneration structure and policies of the Directors and senior management of the Company. The Board makes decisions on matters relating to the remuneration of and reward and punishment of senior management in accordance with relevant national policies, and matters relating to the remuneration of Directors and Supervisors shall be determined at the general meeting.
The basis for determining the remuneration of the Directors, Supervisors and senior management	The external Directors and external Supervisors of the Company do not receive remuneration from the Company; Standard of remuneration of the independent Directors is determined with reference to that of the listed peers and based on actual situation of the Company; Remuneration of internal Directors, employee Supervisors and the senior management applies relevant policies of governing authorities and the remuneration assessment system of the Company, and determined in accordance with job responsibilities and the result of annual performance, as it is linked to position and performance.
Actual payments of remuneration of the Directors, Supervisors and senior management	Please refer to "Directors, Supervisors, Senior Management and Staff" "I. Changes in Shareholding Structure and Remuneration" — "(I) Changes in Shareholding Structure and Remuneration of Current and Retired Directors, Supervisors and Senior Management during the Reporting Period" in this section of the report for further information.
Total remuneration actually obtained by the Directors, Supervisors and senior management at the end of the Reporting Period	Approximately RMB36.8812 million

On 7 December 2015, independent non-executive Director Mr. Shen Kunrong submitted his resignation as independent non-executive Director of the third session of the Board and a member of Development Strategy Committee under the Board in accordance with relevant regulations. On 21 December 2015, independent non-executive Director Mr. Chen Zhibin submitted his resignation as independent non-executive Director of the third session of the Board and a member of Audit Committee under the Board in accordance with relevant regulations. However, since the resignation of Mr. Shen Kunrong and Mr. Chen Zhibin would cause the number of independent non-executive Directors of the Company less than one third of the Board members, according to the requirements of relevant laws and regulations and the Articles of Association of the Company, the application of resignation of Mr. Shen Kunrong and Mr. Chen Zhibin shall come into effect after successive independent non-executive Directors fill in their positions. On 18 March 2016, the first EGM of the Company in 2016 considered and approved the resolution regarding the Election of Independent Non-executive Directors of the Company and elected Mr. Chen Chuanming and Mr. Yang Xiongsheng as independent non-executive Directors of the third session of the Board. As Mr. Chen Chuanming has obtained the qualification to serve as an independent non-executive Director of a securities company as approved by Jiangsu Securities Regulatory Bureau in advance, according to the Articles of Association, Mr. Chen Chuanming succeeded Mr. Shen Kunrong to perform the duties as an independent non-executive Director in the third session of the Board as from 18 March 2016 and he shall hold the office till the end of the third session of the Board. On 5 April 2016, the Company received from Jiangsu Securities Regulatory Bureau the Approval for the Qualification of Yang Xiongsheng as Independent Non-executive Director of Securities Company (Su Zheng Jian Ji Gou Zi [2016] No. 73). According to relevant regulations and resolutions of the first EGM of the Company in 2016, Mr. Yang Xiongsheng succeeded Mr. Chen Zhibin to perform the duties as an independent non-executive Director in the third session of the Board with immediate effect and he shall hold the office till the end of the third session of the Board.
2. On 22 March 2016, the Board received the written resignation notice by vice president Mr. Qi Liang. Mr. Qi Liang submitted his resignation as vice president of the Company due to personal work changes. The resignation takes effect as from the date of submission.
3. On 25 March 2016, the Supervisory Committee received the written resignation notice by Supervisor Ms. Dong Junzheng. Ms. Dong Junzheng submitted her resignation as Supervisor of the third session of the Supervisory Committee due to her personal work assignment. According to relevant laws and regulations and the Articles of Association, Supervisor Ms. Dong Junzheng's resignation takes effect upon the receipt of her resignation notice by the Supervisory Committee.
4. On 7 June 2016, Mr. Sun Lu, Mr. Wang Shuhua and Ms. Xu Min submitted resignation as non-executive Directors of the Board and members of various special committees under the Board due to work arrangement, and Mr. Gao Xu submitted resignation as Supervisor due to work arrangement. The 2015 shareholders' Annual General Meeting of the Company convened that day considered and approved the resolution on the Election of Non-executive Directors of the Third Session of the Board and the resolution on the Election of Mr. Wang Huiqing as Supervisor of the Third Session of the Supervisory Committee and elected Mr. Gao Xu, Mr. Chen Ning and Mr. Xu Qing as non-executive Directors of the third session of the Board and Mr. Wang Huiqing as Supervisor of the third session of the Supervisory Committee. Whereas Mr. Gao Xu, Mr. Chen Ning, Mr. Xu Qing and Mr. Wang Huiqing have obtained the qualifications to serve as Directors or Supervisors of a securities company as approved by Jiangsu Securities Regulatory Bureau in advance, according to the Articles of Association, with immediate effect, Mr. Gao Xu, Mr. Chen Ning and Mr. Xu Qing succeeded Mr. Sun Lu, Mr. Wang Shuhua and Ms. Xu Min to perform the duties as Non-executive Directors in the third session of the Board, respectively, and they shall hold the office till the end of the third session of the Board; Mr. Wang Huiqing succeeded Mr. Gao Xu to perform the duties as Supervisor in the third session of the Supervisory Committee and he shall hold the office till the end of the third session of the Supervisory Committee.
5. On 20 June 2016, at the 33rd meeting of the third session of the Board, Mr. Zhou Yi was elected as Chairman of the third session of the Board and he shall hold the office till the end of the third session of the Board.

6. On 21 December 2016, the Company convened the third EGM of the Company in 2016 and successfully re-elected the Board and the Supervisory Committee. Former non-executive Director Mr. Cai Biao and independent non-executive Director Mr. Bai Wei, Supervisor Mr. Song Weibin and employee Supervisor Mr. Zhang Hui resigned due to the expiration of their terms; Ms. Liu Yan became a new independent non-executive Director; and Mr. Meng Qinglin became a new employee Supervisor.
7. On 21 December 2016, the first meeting of the fourth session of the Board considered and approved the resolution on the Appointment of Senior Management of the Company, where the Board agreed to appoint Wang Chong as Chief Risk Officer of the Company according to the nomination by President Zhou Yi. Mr. Wang Chong will officially take the office of Chief Risk Officer of the Company after he applies for and obtains the qualification as a manager-level member of senior management of a securities company. On 16 March 2017, the Company received the Approval on Wang Chong's Qualification to Work as a manager-level member of senior management in Securities Companies (Su Zheng Jian Xu Ke Zi [2017] No.14) from the Jiangsu Securities Regulatory Bureau. Mr. Wang Chong has served as the Chief Risk Officer of the Company since the date of approval.

## V. Special Committees Under the Board

5 special committees, namely, Compliance and Risk Management Committee, Audit Committee, Development Strategy Committee, Nomination Committee and Remuneration and Appraisal Committee were established under the Board, members of which were as follows:

Compliance and Risk Management Committee (3 in total): Pu Baoying (chairman (convener) of the Compliance and Risk Management Committee), Zhou Yong and Xu Qing;

Audit Committee (3 in total, including more than 1/2 of independent non-executive Directors): Lee Chi Ming (chairman (convener) of the Audit Committee), Chen Ning and Yang Xiongsheng;

Development Strategy Committee (3 in total): Zhou Yi (chairman (convener) of Development Strategy Committee), Gao Xu and Liu Hongzhong;

Nomination Committee (3 in total, including more than 1/2 of independent non-executive Directors): Chen Chuanming (chairman (convener) of the Nomination Committee), Sun Hongning and Liu Yan;

Remuneration and Appraisal Committee (3 in total, including more than 1/2 of independent non-executive Directors): Chen Chuanming (chairman (convener) of the Remuneration and Appraisal Committee), Sun Hongning and Liu Yan.

## (II) Remuneration policy

The Company attaches importance to the fairness of remuneration distribution in terms of both internal and external comparison and implements a remuneration distribution system based on market standards and weighted by the result of performance evaluation. The Company constantly refines the incentive mode and improves the management level of marketization, and promotes the business transformation of the Company. Staff remuneration of the Company consists of fixed salary, performance bonus and employee benefit.

Pursuant to relevant laws and regulations, the Company sets up social insurances (pension insurance, medical insurance, unemployment insurance, job-related injury insurance and maternity insurance) and housing fund accounts for the staff, and makes full payments to the above social insurance and housing funds according to regulations. Meanwhile, in order to improve employees' medical insurance level, the Company establishes supplementary commercial medical insurance and accident insurance on the basis of the basic medical insurance, providing staff with supplementary medical care at the Company's cost.

For the information on the remuneration of employees of the Company in the Reporting Period, please refer to the note 16 to the consolidated financial statements of this annual report.

## (III) Retirement benefits

The Group has provided a pension plan for full-time employees in Mainland China as required by the government. Namely, the Group pays endowment insurance premiums to the social insurance institution designated by the government on a monthly basis, which account for a certain percentage of the total salaries of the staff. After the retirement of the employees, the government is obliged to pay the pensions to them. According to the aforesaid Defined Contribution Plan (DCP), the Group shall not be liable for the post-retirement benefits beyond the above contributions. Contributions to the Plan will be included in the cost at the time of occurrence.

## (IV) Training programs

In line with the development trend of industry innovation and transformation, the Company continued to center its training on the aspects including business innovation, induction education, management capability and cultivation of internal trainers, propelled the training work with a combination of centralized trainings and external trainings as well as on-site trainings and internet trainings; its annual training plan is implemented smoothly. During the whole year, the Company completed 35 centralized trainings and 155 off-site trainings, with approximately 2,864 participants on site and over 1,500 participants by the way of remote video or internet trainings. 98.4% of the participants completed the studies provided by the internet training school. In 2016, the Company's internal trainers provided 339 hours of lectures in total, and developed 68 courses and 18 WeChat courses. The Company improved outbound training courses, customized the training programs based on the principle of specialization and personalization, and arranged overseas training programs in succession for financial technology and Internet finance to the United States, which provided a strong support for the transformation and development of the Company business. In order to promote the construction of the whole business chain and adapt to the innovation trend of the industry, the Company's organized the Huatai Forum and provided training courses on the whole business chain through the internet school and remote videos, which actively propelled the construction of the whole business chain of the Company. The Company also established an internal regular training mechanism for every department, and organized every department to formulate and implement its own annual training curriculum with a total of 247 courses.

## VII. Customer Solicitation and Customer Service by the Brokers Commissioned by the Company

The Company implements a securities brokerage system in compliance with the regulatory rules. On 31 December 2016, the Company had a total of 3,684 sales staffs, of whom 1,126 worked with labor contract and 2,558 worked with commission contract.

In building its sales team, the Company upheld the commitment to expand the business in compliance with regulations and protect the rights and interests of investors, so as to achieve a concentrated and unified management through the improvement of effective management system covering qualification management, training management, behavioral code, information inquiry, customer survey, abnormal transaction monitoring, mal-practice punishment, performance evaluation, etc. The Company and its branches duly performed the responsibilities and watched over each other, as regular inspection and non-scheduled spot-check are introduced to ensure the standardization and effectiveness of management.

During the Reporting Period, all the branches of the Company implemented corporate rules on the daily operation management of sales staff stringently. The sales staff monitoring system were able to early learn the abnormal transaction behaviors of customers in advance as made possibly by designated sales persons, so the risk control staffs could check and review the risk to allow all branches to properly handle the complaints of customers in time, discover and report the mal-practices of sales staff to the supervisory division in time, hold the responsible persons into account, and correct the relevant problems spotted in self-check timely.

The sales team has played an active role in market expansion and customer development of the Company, and accomplished expected results.

# Corporate Governance Report

## I. Description of corporate governance

As a company listed both in the Mainland China and Hong Kong, the Company has operated business in a standard manner and in strict compliance with the requirements set forth in the laws, regulations and normative documents of the PRC and the overseas jurisdiction where the shares of the Company are listed, and has made continuous efforts to maintain and enhance the good image of the Company in the market. The Company keeps improving its corporate governance structure, compliance risk control and internal control system according to the requirements of the Company Law, the Securities Law, the Regulations on Supervision and Management of Securities Companies, the Rules for Governance of Securities Companies, the Rules for Corporate Governance of Listed Companies, the Corporate Governance Code and Corporate Governance Report as set out in Appendix 14 to the Hong Kong Listing Rules and other relevant laws and regulations as well as the Articles of Association, in order to establish a modern corporate system, and shape a corporate governance structure where checks and balances among the general meeting, the Board, the Supervisory Committee and the operation management are maintained, with each of them being separated from the other and performing its own functions and responsibilities corresponding to its position within the specified terms of reference, thereby ensuring all the operational activities of the Company are carried out smoothly and in accordance with relevant laws and regulations.

### (I) Corporate governance

During the Reporting Period, the Company conducted its operations and management in a standard and orderly manner. Various rules and regulations have been formulated and continuously refined in strict compliance with the requirements of laws, regulations and normative documents for standardization of its operation. During the Reporting Period, since the CSRC has revised and issued Guidelines for Articles of Association of Chinese Listed Companies, Rules for Shareholders' Meeting of Listed Companies and other regulations, the Company revised and improved the Articles of Association and Rules of Procedures of the General Meeting of the Company according to relevant laws and regulations and actual conditions, which was approved by the shareholders' meeting of the Company, in order to meet the relevant regulatory requirements. Meanwhile, in order to improve the work efficiency of operation management and lift standard development level, the Company also revised and improved the Working Rules of the President of the Company, which was approved by the shareholders' meeting of the Company. Besides, the Company established the fourth Board and fourth Supervisory Committee during the Reporting Period after passing the review of 37th meeting of third Board and 16th meeting of third Supervisory Committee and the approval of the third temporary shareholders' meeting in 2016 and according to the election conditions of congress of workers and staff of the Company. Owing to the establishment and continuous improvement of the above systems, the Company saw a continuous improvement in its corporate governance structure and corporate governance level.

The convening, holding and voting procedures of the general meeting, the Board and Supervisory Committee were standard, legal and valid, and the Company disclosed truthful and accurate information in a complete, timely and fair manner. The Company carried out investor relationship management in a standard and professional manner, and carried out insider information management and registration of insiders in strict compliance with the requirements of the System regarding Insider Registration and Management and Confidentiality of the Company and other relevant rules. The Company adhered to the principle of scientificity, standardization and transparency when practicing corporate governance. The Company obtained the "special mention" prize for best corporate governance of Hong Kong Society of Accountants in 2016 during the Reporting Period.

## 1. Shareholders and the general meeting

The general meeting is the supreme authority of the Company, and all shareholders exercise their powers through such meeting. The Company convened and held general meetings in strict compliance with the Articles of Association, Rules of Procedures of the General Meeting and other relevant regulations, and ensured all shareholders, especially the minority shareholders, enjoyed equal status and full exercise of their rights. The largest shareholder and the actual controller of the Company exercised their rights in accordance with the laws, regulations and the Articles of Association, and neither directly or indirectly intervened in the decisions and operations of the Company beyond the general meeting nor appropriated any fund of the Company or requested the Company to provide any external guarantee. The Company was completely independent from its largest shareholder and actual controller in terms of staff, assets, finance, organization and business.

## 2. Directors and the Board

The appointment and change of Directors were in strict compliance with the Articles of Association. The number and composition of the Board conformed to the requirements of the relevant laws and regulations. The Board has continuously improved its rules of procedures. All the Board meetings were duly convened and held, and all voting procedures at the meetings were legal and valid. The Company has established a working system for Independent Directors, and all the independent Directors have independently and objectively worked to protect the legitimate rights and interests of the Company and its shareholders, and played a role of check and balance in the decisions-making process of the Board. All Directors performed their respective responsibilities with due diligence in accordance with relevant requirements, and worked to protect the interests of the Company and all shareholders.

There is no financial, business, family or other significant/related relationship between the Directors, Supervisors and senior management of the Company.

The Company believes that the increasing diversity of the Board is one of the key factors that help support its strategic objectives and maintain sustainable development. Therefore, the Company should, when determining the composition of the Board, consider the diversity of Board members in several aspects, including but not limited to gender, age, culture, educational background, professional experience, skills, knowledge and popularity in service. The determination of the members should be based on the value of the candidates and the contribution that they could make to the Board. All nominations of the Board should be in the principle of "merit-based". When the candidates are selected, the benefits from the diversity of Board members should be taken into full consideration according to their objective conditions. The Nomination Committee will report annually on the diversified composition of the Board in the annual report, inspect the implementation of the abovementioned policy on diversification of board members and review such policy in due course so as to ensure its effectiveness.

## 3. Supervisors and the Supervisory Committee

The appointment and change of the Supervisors were in strict compliance with the Articles of Association. The number and composition of the Supervisory Committee conformed to the requirements of the relevant laws and regulations. The Supervisory Committee has continuously improved its rules of procedure. All the meetings of the Supervisory Committee were duly convened and held, and all voting procedures at the meetings were legal and valid. The Supervisory Committee is responsible to the general meeting. Based on the principle of being responsible to all shareholders, the Supervisory Committee effectively supervised the legality and compliance of the Company's finance and the performance of duties by the Board and the management of the Company. All Supervisors diligently performed their duties, attended all meetings of the Supervisory Committee and sat in the meetings of the Board as non-voting delegates, made reports to the general meeting and submitted its work report.

#### 4. Senior management of the Company

The appointment and change of the senior management were in strict compliance with the Articles of Association. The procedures for appointment of senior management complied with the Company Law and the Articles of Association. The Company has formulated the Working Rules of the President and the Working Rules of the Secretary to the Board and other rules and regulations. The senior management of the Company conducted operations and performed their duties legally and diligently in accordance with the laws, regulations and authorizations of the Board, in order to maximize shareholders' benefits and social benefits.

#### 5. Information disclosure and transparency of the Company

The Company disclosed information in a truthful, accurate, complete and timely manner in strict compliance with the requirements of laws, rules and relevant regulations, and ensured that all shareholders had an equal access to the relevant information of the Company, thereby ensuring the transparency of the Company. The Company strengthened the management of insider information, worked to ensure the confidentiality of insider information, and safeguarded the principle of fairness in information disclosure in strict compliance with the System regarding Insider Registration and Management and Confidentiality of the Company. The Board designated the secretary to the Board to be responsible for the Company's information disclosure, and the Office of the Board also assisted the secretary in information disclosure. Meanwhile, the Company also arranged specific person to answer telephone enquiries of investors and questions from investors via e-mails, actively entertained institutional investors during their on-site survey, and set up an investor relations section on the Company's website.

#### 6. Stakeholders

The Company gave full respects to the shareholders, customers, staff and other stakeholders and protected their legitimate rights and interests from the perspective of system building and in each link of business operation, ensured the development of the Company in a sustainable, harmonious, healthy and standard way, in order to achieve all-win results for the Company and all stakeholders, thus maximizing the Company's profits and social benefits.

During the Reporting Period, according to the requirements of the regulatory departments, the Company further improved its organizational structure, institutional building and strengthened management of insider information, and ensured the actual status of the corporate governance of the Company complied with the requirements of the normative documents published by the CSRC regarding the corporate governance of listed companies. Meanwhile, the Company strictly complied with all the code provisions as set out in the Corporate Governance Code and Corporate Governance Report, and met most of the recommended best practices in the Corporate Governance Code.

#### (II) Formulation and implementation of insider registration and management system

The Company formulated the System regarding Insider Registration and Management and Confidentiality in April 2010 in accordance with the requirements of relevant laws and regulations, normative documents and the Articles of Association and in light of the actual situation of the Company, which was considered and approved at the 17th meeting of the first session of the Board, in order to strengthen the management of insider information, maintain the confidentiality of insider information, ensure fair information disclosure and protect the legitimate rights and interests of investors.

In December 2011, according to the Provisions on the Establishment of an Insiders Registration and Management System by Listed Companies (CSRC Announcement [2011] No. 30) by CSRC and the Circular on Filing Records of Insiders by Listed Companies (SSE Circular [2011] No. 1501) by Shanghai Stock Exchange, the Company made amendments to the System regarding Insider Registration, Management and Confidentiality, which were considered and approved at the 7th meeting of the second session of the Board.

In March 2015, in order to meet the relevant regulatory requirements regarding the listing of the H Shares of the Company, the Company made amendments to the System regarding Insider Registration and Management and Confidentiality, which were considered and approved at the 16th meeting of the third session of the Board.

During the Reporting Period, the Company made more efforts to maintain the confidentiality of insider information, performed its obligation of insider registration, management and confidentiality diligently, kept records of the names of insiders who had accessed to the insider information at the stage of negotiation, planning, demonstration and consultation and contracting as well as in the processes of reporting, delivery, preparation, auditing, resolution and disclosing before its final disclosure in strict compliance with the requirements of System regarding Insider Registration, Management and Confidentiality, and kept records of information relating to insiders and memos of progress of major events, in order to effectively prevent insider trading and properly carry out information disclosure.

During the Reporting Period, the Company organized internal investigation into the trading of shares and derivatives of the Company by insiders, and found that none of the holders of insider information had made use of insider information in share transactions before any significant-price-sensitive-nature information disclosure that may affect the share price of the Company, and the Company has not received any punishment or administrative measure imposed by regulatory departments due to the implementation of the Insider Registration and Management System or the possible involvement in insider trading.

### (III) Corporate governance policies and the Board's responsibilities on corporate governance

The Company followed all the principles in the Corporate Governance Code and the Corporate Governance Report as set out in Appendix 14 to the Hong Kong Listing Rules to be its own corporate governance policies and has been in strict compliance with the Listing Rules. In respect of the corporate governance function, the terms of reference of the Board shall at least include:

1. to formulate and review the corporate governance policies and practices of the Company;
2. to review and monitor the training and continuous professional development of the Directors and the senior management;
3. to review and monitor the Company's policies and practices on compliance with laws and regulatory requirements;
4. to formulate, review and monitor the code of conduct and compliance manual (if any) applicable to monitor employees and Directors; and
5. to review the Company's compliance with the Corporate Governance Code and disclosure in the Corporate Governance Report.

#### (IV) Securities transactions by Directors, Supervisors and employees

During the Reporting Period, the Company adopted the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 to the Hong Kong Listing Rules as the code of conduct for securities transactions of the Company by all Directors and Supervisors. According to the domestic regulatory requirements, the Company convened the 13th meeting of the third session of the Board on 25 November 2014 to consider and approve the Administrative System regarding the Shares of the Company Held by Directors, Supervisors and Senior Management (the “Administrative System”) in order to regulate holding and trading in the shares of the Company by Directors, Supervisors and senior management. On 6 March 2015, the Company made amendments to the Administrative System in order to meet the relevant regulatory requirements regarding the listing of the H Shares of the Company, which were considered and approved at the 16th meeting of the third session of the Board. The compulsory provisions contained in the Administrative System are stricter than those under the Model Code. Having made all enquiries with Directors, Supervisors and senior management, the Company confirmed that all Directors, Supervisors and senior management had strictly complied with the relevant requirements under the Administrative System and Model Code during the Reporting Period. The Board of the Company will, from time to time, carry out inspection on corporate governance and operation of the Company, in order to ensure the relevant provisions under the Hong Kong Listing Rules were well observed and to protect the interests of the shareholders. Please refer to the section of “Directors, Supervisors, Senior Management and Staff” — “I. Changes in Shareholding Structure and Remuneration” — “(I) Changes in shareholding structure and remuneration of current and retired Directors, Supervisors and senior management during the Reporting Period” for details about the shareholding of the Directors, Supervisors and senior management of the Company.

## Explanations on general meetings

During the Reporting Period, the Company held four general meetings in total, the details of which are as follows:

1. The Company's first extraordinary general meeting in 2016, with scene & network voting methods adopted, was held in Renaissance Nanjing Olympic Centre Hotel (No. 139, Aoti Street, Jianye District, Nanjing). The general meeting was organized by the Board of Directors and hosted by the Executive Director — Zhou Yi. Certain Directors, Supervisors and the secretary to the Board attended the meeting and certain senior management of the Company and witnessing lawyers employed by the Company and relevant personnel of Computershare Hong Kong Investor Services Limited sat in the meeting. The meeting was convened and held and its voting method was in conformity with relevant regulations such as Company Law and Articles of Association and so on. Details of relevant announcements on the resolutions of the general meeting can be found at <http://www.sse.com.cn> (Shanghai Stock Exchange website), <http://www.hkexnews.hk> (disclosure website of Hong Kong Stock Exchange), our Company's website <http://www.htsc.com.cn> and China Securities Journal, Shanghai Securities News, Securities Daily and Securities Times published on 19 March 2016.
2. The annual general meeting in 2015 of the Company, with scene & network voting methods adopted, was held in Renaissance Nanjing Olympic Centre Hotel (No. 139, Aoti Street, Jianye District, Nanjing). The general meeting was organized by the Board of Directors and hosted by the Executive Director — Zhou Yi. Certain Directors, Supervisors and the secretary to the Board attended the meeting and certain senior management of the Company and witnessing lawyers employed by the Company and relevant personnel of Computershare Hong Kong Investor Services Limited sat in the meeting. The meeting was convened and held and its voting method was in conformity with relevant regulations such as Company Law and Articles of Association and so on. Details of relevant announcements on the resolutions of shareholders' meeting can be found at <http://www.sse.com.cn> (Shanghai Stock Exchange website), <http://www.hkexnews.hk> (disclosure website of Hong Kong Stock Exchange), our Company's website <http://www.htsc.com.cn> and China Securities Journal, Shanghai Securities News, Securities Daily and Securities Times published on 9 June 2016.
3. The Company's second extraordinary general meeting in 2016, with scene & network voting methods adopted, was held in Renaissance Nanjing Olympic Centre Hotel (No. 139, Aoti Street, Jianye District, Nanjing). The shareholders' meeting was organized by the Board of Directors and hosted by the Chairman — Zhou Yi. Certain Directors, Supervisors and the secretary to the Board attended the meeting and certain senior management of the Company and witnessing lawyers employed by the Company and relevant personnel of Computershare Hong Kong Investor Services Limited sat in the meeting. The meeting was convened and held and its voting method was in conformity with relevant regulations such as Company Law and Articles of Association and so on. Details of relevant announcements on the resolutions of shareholders' meeting can be found at <http://www.sse.com.cn> (Shanghai Stock Exchange website), <http://www.hkexnews.hk> (disclosure website of Hong Kong Stock Exchange), our Company's website <http://www.htsc.com.cn> and China Securities Journal, Shanghai Securities News, Securities Daily and Securities Times published on 14 September 2016.
4. The Company's third extraordinary general meeting in 2016, with scene & network voting methods adopted, was held in Renaissance Nanjing Olympic Centre Hotel (No. 139, Aoti Street, Jianye District, Nanjing). The shareholders' meeting was organized by the Board of Directors and hosted by the Chairman — Zhou Yi. Certain Directors, Supervisors and the secretary to the Board attended the meeting and certain senior management of the Company and witnessing lawyers employed by the Company and relevant personnel of Computershare Hong Kong Investor Services Limited sat in the meeting. The meeting was convened and held and its voting method was in conformity with relevant regulations such as Company Law and Articles of Association and so on. Details of relevant announcements on the resolutions of shareholders' meeting can be found at <http://www.sse.com.cn> (Shanghai Stock Exchange website), <http://www.hkexnews.hk> (disclosure website of Hong Kong Stock Exchange), our Company's website <http://www.htsc.com.cn> and China Securities Journal, Shanghai Securities News, Securities Daily and Securities Times published on 22 December 2016.

None of the shareholders of the Company are holders of preference shares with voting rights recovered. Therefore, none of the extraordinary general meetings was convened by holders of preference shares with voting rights restored, nor was any general meeting proposed to be convened, convened or chaired by the holders of preference shares with voting rights recovered during the Reporting Period.

### Explanation on the failing to attend Board meetings in person for two consecutive times

Due to business engagement, Mr. Sun Lu failed to attend the 28th, 29th & 30th meetings of the third session of the Board in person, and had authorized non-executive Director Ms. Pu Baoying in writing to vote on his behalf.

Due to business engagement, Mr. Wang Shuhua failed to attend the 28th, 29th & 30th meetings of the third session of the Board in person, and had authorized non-executive Director Ms. Pu Baoying in writing to vote on his behalf.

Due to business engagement, Ms. Pu Baoying failed to attend the 36th & 37th meetings of the third session of the Board in person, and had respectively authorized non-executive Directors Mr. Gao Xu & Mr. Chen Ning in writing to vote on his behalf.

Due to business engagement, Mr. Gao Xu failed to attend the 37th meeting of the third session of the Board and the 1st meeting of the fourth session of the Board in person, and had authorized non-executive Director Mr. Chen Ning in writing to vote on his behalf.

Due to business engagement, Mr. Sun Hongning failed to attend the 37th meeting of the third session of the Board and the 1st meeting of the fourth session of the Board in person, and had authorized executive Director Mr. Zhou Yi in writing to vote on his behalf.

Number of Board meetings held within the year	12
Of which: number of on-site meetings	3
Number of meetings held by teleconference	4
Number of meetings held both on-site and via teleconference	5
Board meetings	All resolutions were passed unanimously by poll

### (II) Objections raised by independent Directors

During the Reporting Period, no objections were raised by independent non-executive Directors to resolutions at the Board meetings or other meetings.

### (III) Board of Directors and the operating management

#### 1. Composition of the Board

According to relevant regulations of *Articles of Association* of the Company, the Board shall be composed of 13 Directors, with the number of independent Director accounting for at least 1/3 of the total number; the Board shall have one staff representative Director who is selected by the Company's staff in a democratic way via congress of workers and staff, general membership meeting or other forms and is directly allowed to enter the Board. On 21 December 2016, the non-staff representative Director of the fourth session of the Board was selected in the Company's third extraordinary general meeting in 2016. As of the Reporting Period, there were 12 members in the Board, including 1 executive Director (Zhou Yi), 6 non-executive Directors (Pu Baoying, Gao Xu, Chen Ning, Sun Hongning, Xu Qing, Zhou Yong) and 5 independent non-executive Directors (Chen Chuanming, Liu Hongzhong, Lee Chi Ming, Yang Xiongsheng, Liu Yan), and congress of workers and staff will be held as soon as possible to select one appropriate staff representative Director to perform the duty of Director in the Board.

The Directors are elected or changed via the general meeting for a term of three years, from the date on which their appointments are approved by the general meeting and their qualifications of being Directors of securities companies are obtained and approved by the CSRC or its delegated authority. Directors are eligible for re-election upon the expiration of their terms. However, the successive terms of independent non-executive Directors may not be more than 6 years. According to relevant regulations of Rule 3.13 of the Hong Kong Listing Rules, the Company received the annual written confirmation from each independent non-executive Director with regards to his/her independence. Based on these confirmations and the relevant information available to the Board, the Board continues to confirm that they are independent.

The Company covered liability insurance for Directors, Supervisors and senior executives according to the authorization of the 2014 annual general meeting, to protect them against from the compensation liabilities that may arise from performing their duties and to reasonably avoid management risk and legal risk which the Directors, Supervisors and senior management may be exposed to, and to encourage them to earnestly fulfill their duties and responsibilities.

#### 2. Duties and responsibilities of the Board

The Board is the decision-making body of the Company, which is responsible to report its work to the general meeting. According to the *Articles of Associations* of the Company, the Board shall exercise the following major functions and powers: to convene general meeting and report to general meeting; to carry out the resolutions of the general meetings; to resolve on the business & investment plans of the Company; to prepare annual financial budget plan and final accounting plan of the Company; to prepare profit distribution plan and loss remedy plan of the Company; to formulate proposals on increasing or decreasing the registered capital, issuing bonds or other securities and the listing plan thereof; to formulate plans for material acquisition, purchase of shares of the Company, merger, division, dissolution or transformation of the Company; to determine, within the authority granted by the general meeting, such matters as external investment, acquisition and disposal of assets, asset mortgage, external guarantee, consigned wealth management, connected transactions, etc.; to decide on the establishment of the Company's internal management organizations; to appoint or dismiss the Company's president and secretary to the Board; to appoint or dismiss the vice president, financial controllers and other senior management of the Company according to the nominations by the president, and to decide the matters on their remuneration and rewards as well as penalties; to set up the basic management system of the Company; to formulate the proposals for any amendment to the Articles of Association; to manage the Company's information disclosure; to propose to the general meeting the appointment or replacement of the accounting firms which provide audit services for the Company; to listen to the work reports of the president and review his/her work; to formulate the risk control system of the Company; to determine Directors' remunerations and distribution plan thereof; and to exercise other functions and powers authorized by laws, administrative regulations, departmental rules or the Articles of Association.

### 3. Duties and responsibilities of the operation management

According to the regulations of *Articles of Association* of the Company, the principal person in charge of operational management of the Company shall report the conditions of the signing and execution of material contracts, usage of fund as well as profit and loss of the Company to the Board or Supervisory Committee as required by the Board of Directors or Supervisory Committee. The principal person in charge of the operation and management refers to the Company's president, or the person in charge of the management committee or executive committee exercising the power of the president of the Company. The Company's president shall be responsible for the Board, and exercise the following functions and powers: to manage the daily business operations of the Company, organize and implement the resolutions of the Board, and report work to the Board; to formulate the development plan, annual operational & investment plans of the Company; to organize and implement the plan for the establishment of internal management structure of the Company; to prepare the plan for the setting of internal management of the Company to formulate the basic management system of the Company; to prepare the specific rules of the Company; to represent the Company to handle important external businesses and matters; to propose to the Board for the appointment or removal of the Company's vice president, financial controller, chief compliance officer, chief risk officer and other senior management; to decide to appoint or dismiss executives except for those who are appointed or dismissed by the Board; to decide the rewards and punishments, promotion and demotion, salary increase and decrease, appointment, dismissal and recruitment of staff of the Company; to temporarily handle the emergencies in business activities which shall be decided by the Board and reported to the Board after that; and to exercise other functions and powers authorized by the Articles of Association or the Board.

### 4. Implementation by the Board of resolutions passed at general meetings

- (1) On 9 October 2015, *Proposal on General Mandate for Issuance of Domestic Debt Financing Tools by the Company* was reviewed and passed at the Company's first extraordinary general meeting of the Company in 2015. According to the resolution, after being approved by *Letter on Unanimity for Listing Transfer of Subordinated Bonds of Huatai Securities Co., Ltd. in 2016* (SZH [2016] No. 1832) of Shanghai Stock Exchange, the Company issued subordinated bonds for two times during the Reporting Period, with the total amount of RMB8 billion.
- (2) On 9 October 2015, *Proposal on General Mandate for Issuance of Domestic Debt Financing Tools by the Company* was reviewed and passed at the first extraordinary general meeting of the Company in 2015. Pursuant to the resolution, and the Reply of the Examination and Approval on the Public Issuance of Company Bonds from Huatai Securities Co., LTD. to Qualified Investors (CSRC No. [2016]2577) by the CSRC, during the Reporting Period, the corporate bonds phase II was issued, with a total amount of RMB14 billion.
- (3) On 7 June 2016, the 2015 annual shareholders general meeting of the Company considered and approved the Company's Proposal on Annual Profit Distribution for 2015. According to the resolution, during the Reporting Period, based on a total share of 7,162,768,800 on 31 December 2015, the Company distributed a total of RMB3,581,384,400.00 to all shareholders with every 10 shares in cash dividend of RMB5.00 (including tax); and all remaining undistributed profits will be distributed annually after carry-over. During the Reporting Period, the profit distribution plan was completed.
- (4) On 7 June 2016, the 2015 annual general meeting of the Company considered and approved the Proposal of the Expectation of Regular Ordinary Connected Transactions in 2016 of the Company. According to the resolution, during the Reporting Period, for details of the actual performance of regular ordinary connected transactions of the Company, please refer to "Major Events" "XII. Material connected transaction" of this report.
- (5) On 7 June 2016, the 2015 annual shareholders general meeting of the Company considered and approved the Proposal of the Expectation of Proprietary Investment Quota of the Company in 2016. According to the resolution, during the Reporting Period, related business indicators of the Company were controlled within the authorized scope of the shareholders' general meeting.

- (6) On 7 June 2016, the 2015 annual shareholders general meeting considered and approved the Proposal of Renewing Hiring Contract with The Accounting Firm of The Company. According to the resolution, during the Reporting Period, the company continued to hire KPMG Huazhen LLP to handle 2016 annual accounting statements and the internal control auditing services for the Company and its subsidiary companies, and to issue the audit report of A shares and Internal Control Auditing Report; the Company also hired KPMG for auditing services of H Shares for the Company, and to issue audit report of H Shares.
- (7) On 13 September 2016, the Company considered and approved the Proposal of Providing Net Capital Guarantee for the Fully-owned Subsidiary Huatai Asset Management in the second shareholders' extraordinary general meeting of the Company in 2016. According to the resolution, during the Reporting Period, the company provided the highest quota of RMB5 billion of newly increased net capital for its fully-owned subsidiary Huatai Asset Management and promised whenever its business needs cash, the Company will unconditionally provide cash within the above quota.

## 5. Training of Directors

Trainings are provided to Directors on an on-going basis. The Company attaches great importance to the ongoing training of Directors, to ensure that the Directors form an appropriate understanding of the operation of the Company and its business and they understand their duties and responsibilities as a directors as required by the CSRC, Shanghai Stock Exchange, the Hong Kong Stock Exchange and as stipulated in the Articles of Association and other relevant laws and regulatory requirements. During the Reporting Period, the Company's Directors attach great importance to updating professional knowledge and skills, to adapt to the needs of the development of the company. In addition to participation in regular training held by regulatory organizations and self-regulatory organizations and complete required ongoing trainings, the Office of the Board also prepared the Work Newsletter of the Company regularly and sent it to the Directors to enable them to understand the latest policies and regulations and industrial trends and enhance their knowledge and understanding of the culture and operation of the Company. In addition, the Company continuously improved the internal work procedures, established multi-level information communication mechanism, and set up information communication platform, in order to ensure the access to information for Directors to perform their responsibilities and constantly improve their overall performance capability.

During the Reporting Period, the main trainings of the Directors were as follows:

#### (IV) Chairman and President

Chairman and President are two different positions, and according to the provisions of the Articles of Association, the chairman is the legal representative of the Company, responsible for managing the operations of the Board, ensuring that the Board acts in compliance with the best interests of the Company, ensuring the effective operation of the Board, ensuring that the Board has fulfilled its responsibilities, ensuring that discussions about all significant matters are held so that Directors get accurate, timely and explicit data. President manages the daily work of the Company, attends Board meetings, reports to the Board and exercises the functions and powers according to the responsibility scope of the president.

On 21 December 2016, in the first session of the fourth Board meeting, the Company elected Mr. Zhou Yi as the fourth chairman of the Board and continued to hire Mr. Zhou Yi as the president of the company. According to provisions of A.2.1 of "Corporate Governance Code", the roles of the chairman and chief executive shall be different and shall not be assumed by the same person at the same time. Given the fact that Mr. Zhou Yi has been supervising daily operation and management of the Company, formulating strategies of the Company and its business, nominating and determining senior management personnel of the Company since he joined the Group in August 2006, the Board believes that Mr. Zhou Yi simultaneously assuming the duty of effective management and business development is in the best interest of the Company. As a result, the Board thinks that the Company's arrangement is appropriate even in the circumstance that it contradicts the provisions of A.2.1 of "Corporate Governance Codes". Despite the above situations, the Board thinks that this management structure of the company is effective and has enough checks and balances.

## (V) Non-executive Directors

As of the end of the Reporting Period, the Company has 6 non-executive Directors, 5 independent non-executive Directors. For details of their terms of office, please refer to "Directors, Supervisors, Senior Management and Staff", "I. Changes in Shareholding Structure and Remuneration" and "(I) Changes in shareholding structure and remuneration of current and retired Directors, Supervisors and senior management during the Reporting Period" in this report.

## (VI) Performance of duties by Independent Non-Executive Directors

### 1. Regular reporting of relevant works

In the annual report compilation process, independent non-executive Directors of our Company have performed all the responsibilities according to the requirements of the CSRC and the provisions of the Work System of Independent Directors of the Company.

On 1 February 2016, in the first meeting of the Audit Committee of the third session of Board in 2016, the Audit Committee listened to the report of the auditing scope, main members of the professional service team, the overall arrangements for the auditing, the auditing plan and focus, the audit work of internal control of the Company in 2015 by personnel from KPMG Huazhen, LLP. Three of the four members in the Audit Committee are independent non-executive Directors, who put forward opinions and suggestions to the supplement and perfection of the 2015 Annual Audit Plan of the Company from different perspectives in their roles as members of the Audit Committee and as independent non-executive Directors.

On 25 February 2016, in the second meeting of the Audit Committee of the third session of the Board in 2016, the Audit Committee considered and approved the Proposal on the 2015 Annual Audit Plan of the Company. Three of the four members in the Audit Committee are independent non-executive Directors, who examined the 2015 Annual Audit Plan of the Company from different perspectives in their roles as members of the Audit Committee and as independent non-executive Directors.

On 28 March 2016, in the third meeting of the Audit Committee of the third session of the Board, the Audit Committee examined the 2015 Annual Report of the Company, the Internal Control Evaluation Report of 2015, the performance of duties of the Audit Committee in 2015 and the Internal Auditing Plan of 2016, etc., and listened to the report on the annual internal auditing work of the Company in 2015. Three of the four members in the Audit Committee are independent non-executive Directors, who examined relevant proposals and gave opinions from different perspectives in their roles as members of the Audit Committee and as independent non-executive Directors.

On 12 August 2016, in the fifth meeting of 2016 of the Audit Committee of the third session of the Board, the Audit Committee listened to the report of KPMG Huazhen LLP on the interim review of H Shares in 2016 and 2016 Annual Auditing Plan of the Company. Two of the three members in the Audit Committee are independent non-executive Directors, who discussions, exchanged views and made comments and suggestions from different perspectives in their roles as members of the Audit Committee and as independent non-executive Directors.

## 2. Consideration about connected transactions

On 29 March 2016, all the independent non-executive Directors of the Company gave independent opinions on Plan for Proposal on the Anticipation of Ordinary Connected Transactions of the Company for 2016. They were of the opinion that the relevant connected transactions were fair with reference to the market price for pricing the transactions without compromising the interests of the Company and other shareholders; the connected transactions were all derived in the ordinary operation of the Company and would help carry out the businesses of the Company and bring some income to the Company; the procedures for approval for relevant connected transactions complied with the laws, regulations and normative documents as well as Articles of Association of the Company and Decision-making System for Connected transactions.

## 3. Other performance of duties

On 27 January 2016, all the independent non-executive Directors of the Company gave independent opinions on the matter of nominating Mr Chen Chuanming and Mr Yang Xiongsheng as nominees of the independent non-executive Directors of the third session of the Board. On 29 March 2016, all the independent non-executive Directors of the Company gave special clarification and independent opinions on external guarantees carried out in 2015, gave special clarification and independent opinions on fund intercourse between the Company and the controlling shareholders & other related parties, gave independent opinions on the Proposal on Profit Distribution Plan of the Company in 2015, gave independent opinions on the internal control evaluation report of the Company in 2015, gave independent opinions on continuing the employment of the accounting firm and gave independent opinions on changes in accounting estimates of the Company in 2015. On 15 April 2016, all the independent non-executive Directors of the Company gave independent opinions on the matter of nomination of Mr. Gao Xu, Mr. Chen Ning and Mr. Xu Qing as nominees of the independent non-executive Directors of the third session of the Board. On 28 October 2016, all the independent non-executive Directors of the Company gave independent opinions on the matter of nomination of the independent non-executive Directors of the fourth session of the Board. On 21 December 2016, all the independent non-executive Directors of the Company gave independent opinions on the matter of employment of senior management personnel for the Company by the fourth sessions of Board.

## VI. IMPORTANT ADVICE AND RECOMMENDATIONS FROM THE SPECIAL COMMITTEES OF THE BOARD IN PERFORMING DUTIES DURING THE REPORTING PERIOD AND DISCLOSURE OF DISSENTING EVENTS

The Board has established the Development Strategy Committee, Compliance and Risk Management Committee, Remuneration and Appraisal Committee, Nomination Committee and Audit Committee.

### (I) Development Strategy Committee of the Board

The major duties of the Development Strategy Committee of the Board include: understanding and grasping the complete situation of the Company's operation; understanding, analyzing and grasping the current situation of the international and domestic industry; understanding and grasping the relevant policies of the State; studying the short-term, medium-term and long-term development strategies of the Company or relevant issues; providing consultancy advice on the Company's long-term development strategies, major investments, reforms and other major decisions; considering and approving the special study report on the development strategy; publishing daily research reports in regular or irregular manner; and other duties assigned by the Board.

During the Reporting Period, the Development Strategy Committee of the Board convened a total of two meetings, the details of which were as follows:

1. The Development Strategy Committee of the third session of the Board convened the first meeting of 2016 by way of teleconference on 29 June 2016 and considered and approved the Resolution on the 13th Five-Year Development Strategy Plan for the Company.
2. The Development Strategy Committee of the fourth session of the Board convened the first meeting of 2016 by way of teleconference on 30 December 2016 and considered and approved the Resolution on the Work Summary for 2016 and Work Thoughts for 2017.

Attendance of members of the Development Strategy Committee at meetings held during the Reporting Period:

Name	Position	Attendance in person/Number of meetings requiring attendance
Zhou Yi (Chairman)	Executive Director	2/2
Gao Xu	Non-executive Director	2/2
Chen Chuanming	Independent non-executive Director	1/1
Liu Hongzhong	Independent non-executive Director	1/1

## (II) Compliance and Risk Management Committee of the Board

The main duties of the Compliance and Risk Management Committee include: considering and approving the general objective and basic policies of compliance management and risk management, and putting forward some suggestions; considering and approving the establishment of the institution for compliance management and risk management, and its duties, and putting forward some suggestions; evaluating the risk for major decisions to be considered and approved at the Board meeting and solutions to such major risks, and putting forward some suggestions; considering and approving the compliance report and risk evaluation report required to be considered and approved by the Board, and putting forward some suggestions; and such other duties as stipulated in the Articles of Association.

During the Reporting Period, the Compliance and Risk Management Committee of the Board convened a total of three meetings, the details of which were as follows:

1. The Compliance and Risk Management Committee of the third session of the Board convened the first meeting of 2016 by way of teleconference on 28 March 2016, and considered and approved the Resolution on the Annual Compliance Report of 2015 of the Company, the Resolution on the Assessment Report on the Internal Control of the Company for 2015.
2. The Compliance and Risk Management Committee of the third session of the Board convened the second meeting of 2016 in Nanjing on 18 August 2016, and considered and approved the Resolution on the Interim Compliance Report of the Company in 2016. Pu Baoying, the chairman of the committee and a non-executive Director, Xu Qing, a member of the committee and a non-executive Director, and Cai Biao, a member of the committee and a non-executive Director, inquired and discussed issues such as management on ordinary marketing personnel and brokers, internal audit process for the compliance report, operation of the client revisiting mechanism, assignment of work for the compliance and legal department and risk management department as well as effective evaluation and improvement on compliance. The compliance director of the company Li Yun, general manager of the compliance and legal department Zhou Xiang and general manager of the risk management department Wang Chong made explanations and descriptions respectively. At the meeting, while fully recognizing the achievement of compliance and risk Management work of the Company, Xu Qing, a member of the committee and a non-executive Director, reminded that the Company should pay more

attention to relevant regulations on supervision, try to communicate in advance, educate clients to be good investors, strictly follow the supervision regulations when developing new clients, check and be strict in selecting clients to prevent those unqualified from becoming the client. Pu Baoying, the chairman of the committee and a non-executive Director, reminded that compliance is the bottom line and risk management is the life line. Although the Directors, Supervisors and senior management will be punished in case of any compliance failure, it will also cause a great adverse impact on the development of the Company. Therefore, compliance is the fundamental guarantee of the interest of both the Company and its shareholders, and it is suggested that the Company should enhance the awareness of compliance and risk management among new staff so as to guard the development of the businesses of the Company.

3. The Compliance and Risk Management Committee of the third session of the Board convened the third meeting of 2016 by way of teleconference on 6 December 2016, and considered and approved the Resolution on the Determination of the Function of Capital Operation Department and the Adjustment of Functions of Relevant Departments.

Attendance of members of the Compliance and Risk Management Committee at meetings held during the Reporting Period:

Name	Position	Attendance in person/Number of meetings requiring attendance
Sun Lu	Former non-executive Director	1/1
Pu Baoying (Chairman)	Non-executive Director	2/2
Cai Biao	Former non-executive Director	3/3
Zhou Yong	Non-executive Director	2/3
Xu Min	Former non-executive Director	1/1
Xu Qing	Non-executive Director	2/2

### (III) Auditing Committee of the Board

The main duties of the Audit Committee of the Board include: monitoring the annual audit and making judgment on the truthfulness, accuracy and integrity of the audited information contained in the financial reports before submitting the reports to the Board; monitoring the integrity of the Company's financial statements and annual report and accounts, interim report and quarterly reports, and reviewing significant financial reporting judgments contained in them. The committee shall pay special attention to the following: changes in accounting policies and practices; matters concerning significant judgment; significant adjustments due to the audit, assumptions of on-going operations of the Company and its qualified opinions, as well as the compliance with the accounting standards and the Listing Rules or relevant laws and regulations of the listing place where the financial reporting shall be made. The committee shall propose the engagement or removal of external auditors, supervise the performance of external auditors and ensure coordination between internal and external auditors. In addition, the Audit Committee shall also ensure that the internal audit function is adequately resourced and has appropriate standing within the Company, and shall review and monitor its effectiveness; consider and make recommendations on the appointment, reappointment, remuneration and terms of engagement of external auditors or any matters regarding their resignation or dismissal. The Audit Committee shall act as the main representative that oversees the Company's relationship with external auditors; discusses the nature and scope of the audit and reporting obligations with external auditors before the commencement of audit and reviews of the effectiveness of the audit procedure and the objectivity and independence of external auditors from time to time; reviews the external auditor's management letter, any material queries raised by the auditor to the management about accounting records, financial accounts or monitoring system and the management's response thereto. The Audit Committee shall ensure that the Board will provide a timely response to the issues raised in the external auditor's management letter; review the Company's financial controls, risk management and internal control system and the Group's financial and accounting policies and practices; review the risk management and internal control system with management to ensure that

management has performed its duty so as to have an effective internal control system. The Audit Committee shall review major investigation findings on risk management and internal control matters as well as management's response to these findings as delegated by the Board or on its own initiative; report the above matters to the Board; review arrangements employees of the Company can use, in confidence, to raise concerns about possible improprieties in financial reporting, internal control or other matters. The Audit Committee shall ensure that proper arrangements are in place for fair and independent investigation of these matters and for appropriate follow-up actions; study other programs defined by the Board; and perform other duties stipulated by the Articles of Association and the Listing Rules or laws and regulations of the places where the Company is listed.

During the Reporting Period, the Audit Committee of the Board convened seven meetings, the details of which were as follows:

1. The first meeting of the Audit Committee of the third session of the Board for 2016 was convened in the way of video and on-site conference on 1 February 2016, at which KPMG Huazhen LLP reported their audit work scope for 2015, key members of the professional team, general arrangement of auditing, auditing plan and focused areas, internal control. Their personnel discussed and communicated with the Audit Committee, and the draft of audit report for 2015 of the Company was reviewed. At the meeting, Lee Chi Ming, the chairman of the committee and an independent Director, inquired the auditing status of the internal control and the coverage rate of samples of internal control auditing of the Company, and proposed the auditing personnel to closely follow the regulatory requirements on the method on risk disclosure and Report Guide on Environment, Society and Governance (ESG) by the Hong Kong Stock Exchange after listening to the explanation and reporting of relevant personnel. Pu Baoying, a member of the committee and a non-executive Director, inquired how to carry out risk management for the management and operation process of the first-class investment company and second-class investment company during the auditing process and gave the suggestions of making preparations and preventing risks in advance after listening to the explanation and reporting. Liu Hongzhong, a member of the committee and a non-executive Director, inquired on issues of credit risk in the turbulent stock market in 2015. The auditing personnel fully explained and eliminated the concerns of the members. Chen Zhibin, a member of the committee and a non-executive Director, reminded the auditing personnel that they should pay attention to new risk points after listening to their reporting.
2. The second meeting of the Audit Committee of the third session of the Board for 2016 was convened by the way of teleconference on 25 February 2016, and considered and approved the Resolution on the Auditing Plan of the Company for 2015.
3. The third meeting of the Audit Committee of the third session of the Board for 2016 was convened in Nanjing on 28 March 2016, and considered and approved the Financial Final Report of the Company in 2015, the Financial Budget Report of the Company in 2016, the Proposal on Profit Distribution of the Company in 2015, the Proposal on Annual Report of the Company in 2015, the Proposal on Internal Control Assessment Report of the Company in 2015, the Report on Performance of Duties by the Audit Committee of the Board of the Company in 2015, the Proposal on the Increase of the Audit Service Fee of the Company in 2015, the Proposal on Renewal of the Company's Accountant, the Proposal on Estimating the Ordinary Connected Transactions of the Company in 2016, the Proposal on Request for Reviewing the Special Report on the Estimated Accounting Changes of the Company in 2015 and the Internal Audit Work Plan of the Company in 2016 and a report on the internal audit work of the Company in 2015 was given. When reviewing the Financial Final Report of the Company in 2015, Lee Chi Ming, a member of the committee and an independent non-executive Director, asked about cost control since the operation and management expense was higher than the budget, and Liu Hongzhong, a member of the committee and a non-executive Director, asked about the systematic risk of the investment banking industry and the average level in the industry, since the investment banking business did not reach the budget. The general manager of the financing planning department of the Company Fei Lei gave detailed explanations. When reviewing the Financial Budget Report of the Company in 2016, Liu Hongzhong thought that the financial budget was conservative in general because the growth of M2, which was estimated to be 11%, was lower than that in the government work report. For this issue, Fei Lei explained that the financial budget of the Company was controlled based on the assumption of neutrality. When reviewing Proposal on Annual Report of the Company in 2015, Lee Chi Ming, the chairman of the committee, reminded that attention must be paid to relevant regulatory requirements with respect to the disclosures in the annual report and ESG report. Relevant auditors of KPMG Huazhen LLP explained that the Company

would make disclosures as required by the ASBE, CSRC and the Shanghai Stock Exchange in terms of A shares and no major change occurred to the disclosure; the Company would make disclosures following the IFRS and the Listing Rules as well as strictly following relevant stipulations of the Hong Kong Stock Exchange; it has had new stipulations for ESG and risk management in 2016 and KPMG Huazhen LLP will assist the Company to abide by relevant stipulations. When reviewing the Internal Audit Work Plan of the Company in 2016, the committee chairman Lee Chi Ming inquired the number of personnel for internal audit on how the overseas business was audited and the general manager of the Audit Department Li Jie gave detailed explanations.

4. The fourth meeting of the Audit Committee of the third session of the Board for 2016 was convened in the way of teleconference on 27 April 2016, and considered and approved the Resolution on the First Quarterly Report of the Company in 2016.
5. The fifth meeting of the Audit Committee of the third session of the Board for 2016 was convened in the way of teleconference and on-site meeting on 12 August 2016. Yang Xiongsheng, the independent non-executive Director and a member of the committee, authorized and delegated Lee Chi Ming, the independent Director and chairman of the committee, to attend the meeting on his behalf. Staffs of the KPMG Huazhen LLP gave the interim review work report for H Shares of the Company in 2016 and auditing plan for the annual report of 2016 at the meeting. The staffs of KPMG Huazhen LLP reported the scope, time schedule, review plan, concerned domains and the result of the interim review to the Audit Committee at the meeting. Lee Chi Ming, the independent Director and chairman of the committee, and Chen Ning, the non-executive Director and a member of the committee, inquired the impact of the turbulence of the securities market in the first half of 2016 on the Company, key domains for internal control audit and worksheet for internal control audit, etc. and the general manager of the financial planning department of the Company Fei Lei and the staff of KPMG Huazhen LLP provided explanations and answers to all their questions.
6. The sixth meeting of the Audit Committee of the third session of the Board for 2016 was convened in Nanjing on 18 August 2016, and considered and passed the Proposal on the Financial Statement in the First Half Year of the Company in 2016 and Proposal on Interim Report of the Company in 2016. At the meeting, Chen Ning, the non-executive Director and a member of the committee, was very concerned about the consolidated statement of cash flow of the Company and inquired the reasons of “cash payment for other business activities” was much more than that of the previous year and “cash paid to the staff and for the staff” increased compared with that of the same period of last year. The general manager of the Financial Planning Department Fei Lei explained that the reason for the first issue was that the consolidated assets management plan was included and the reason for the second issue was that the payment to staff in 2015 was delayed to 2016 and the reason why the total payment was increased was that the performance of the Company in 2015 was better. Yang Xiongsheng, the independent non-executive Director and a member of the committee, inquired issues such as the difference on disclosures between the Hong Kong Stock Exchange and Shanghai Stock Exchange, special requirements of the Hong Kong Stock Exchange. on accounting treatment and disclosure, how the bailout funds in the second half of 2015 was calculated as well as the difference in the calculation standard between net assets and net capital of the Company. After getting the detailed explanations of the general manager of the financial planning department Fei Lei and relevant personnel of KPMG Huazhen LLP, he requested the audit personnel to pay close attention to the items that are easy to draw the attention of regulatory authorities and the audit work must comply with relevant stipulations of the regulatory departments both in Hong Kong and Mainland China. The independent non-executive Director and committee chairman Lee Chi Ming inquired issues such as the internal control audit of relevant risk management and liquidity management and the general manager of the financial planning department Fei Lei gave explicit explanations on these issues.

7. The seventh meeting of the Audit Committee of the third session of the Board for 2016 was convened in Nanjing on 27 October 2016, and considered and approved the Proposal on the Financial Statement of the Company from January to September of 2016. At the meeting, the independent non-executive Director and committee chairman Lee Chi Ming, the independent non-executive Director and committee member Yang Xiongsheng and the non-executive Director and committee member Chen Ning inquired the issues such as the increase of receivables in the balance sheet, the difference between the budget and the actual condition, whether there were classical data for judging the asset and liability, how the policy of replacing business tax with value-added tax affected the Company's management and whether the CSRC required the Company to submit relevant statements. The general manager of the financial planning department Fei Lei gave explicit explanations on these issues.

Attendance of the members of the Audit Committee at the meetings held during the Reporting Period:

Name	Position	Attendance in person/Number of meetings requiring attendance
Lee Chi Ming (Chairman)	Independent non-executive Director	7/7
Pu Baoying	Non-executive Director	4/4
Liu Hongzhong	Independent non-executive Director	4/4
Chen Zhibin	Former independent non-executive Director	3/3
Chen Ning	Non-executive Director	3/3
Yang Xiongsheng	Independent non-executive Director	3/4

#### (IV) Nomination Committee of the Board of Directors

The main duties of the Nomination Committee of the Board include: reviewing the structure, headcount and composition (including skills, knowledge and experience) of the Board at least once each year and making recommendations regarding any proposed changes in the Board in line with the Company's strategies; considering and making suggestions on the criteria and procedures for selection of Directors and senior management members; searching for qualified candidates for Director and senior management, and selecting from the list nominated by Directors or making recommendation to the Board; reviewing and making suggestions on the qualification requirements for Director and senior management; assessing the independence of independent non-executive Directors; making recommendations to the Board on the appointment or reappointment of Directors and succession planning for Directors (in particular the chairman and the president); and other responsibilities stipulated in the Articles of Association or as required by the Board.

During the Reporting Period, the Nomination Committee of the Board of the Company convened four meetings,

1. The first meeting of the Nomination Committee of the third session of the Board for 2016 was convened by teleconference on 26 January 2016. The Proposal on Selecting Mr Chen Chuanming as Independent Non-executive Director of the third Session of the Board of Directors of the Company and Proposal on Selecting Mr Yang Xiongsheng as Independent Non-executive Director of the third Session of the Board of Directors of the Company were considered and approved at the meeting.
2. On 14 April 2016, the Nomination Committee of the third session of the Board of Directors held the second meeting for 2016 by teleconference and the Proposal on the Selecting the Non-executive Directors of the 3rd session of Board of Directors of the Company was considered and approved.

3. On 27 October 2016, the third meeting of the Nomination Committee of the third session of the Board of Directors for 2016 was held by teleconference and the Proposal on Selecting the Non-independent Directors of the fourth session of the Board of Directors of the Company and the Proposal on Selecting the Independent Directors of the fourth session of the Board of Directors of the Company were considered and approved.
4. On 20 December 2016, the fourth meeting of the Nomination Committee of the third session of the Board of Directors for 2016 was held by teleconference and the Proposal on Employing Senior Management Personnel for the Company was considered and approved.

Attendance of the members of the Nomination Committee at the meetings held during the Reporting Period:

Name	Position	Attendance in person/Number of meetings requiring attendance
Bai Wei (Former chairman)	Former independent non-executive Director	4/4
Sun Hongning	Non-executive Director	4/4
Liu Hongzhong	Independent non-executive Director	4/4
Chen Chuanming (current chairman) <sup>(Note 1)</sup>	Independent non-executive Director	/
Liu Yan	Independent non-executive Director	/

Note 1: Mr. Chen Chuanming and Ms. Liu Yan have been our independent non-executive directors and members of Nomination Committee since 21 December 2016. The Nomination Committee has not convened any meeting since their appointment.

## (V) Remuneration and Appraisal Committee of the Board

The main duties of the Remuneration and Appraisal Committee include: reviewing and providing opinions on the appraisal and remuneration management system for Directors and senior management, and making recommendations to the Board on the Company's overall policy and structure for remuneration of the Directors and senior management, and on the establishment of a formal and transparent procedure to develop remuneration policy; reviewing and approving the management's remuneration proposals with reference to the Board's corporate goals and objectives; conducting assessment on and making recommendations to the Directors and senior management: making recommendations on the remuneration packages, including benefits in kind, pensions and compensation payments (including any compensation payable for loss or termination of their appointment), for certain executive Directors and senior management, and making recommendations to the Board on the remuneration of non-executive Directors; considering salaries paid by comparable companies, time commitment and responsibilities and engagement condition elsewhere in the Group; reviewing and approving compensation payable to executive Directors and senior management for any loss or termination of office or appointment to ensure that it is consistent with the relevant contractual terms. In case of inconsistency with the relevant contractual terms, the compensation shall be fair and not be excessive; reviewing and approving compensation arrangements relating to dismissal or removal of Directors for misconduct to ensure that they are consistent with the contractual terms. In case of inconsistency with the relevant contractual terms, the compensation shall be reasonable and appropriate; ensuring that no Director or any of his associates is involved in determining his/her own remuneration; and other responsibilities stipulated in the Articles of Association.

The Remuneration and Appraisal Committee of the Board of Directors held two meetings in the Reporting Period and the detailed information is as follows:

1. On 28 March 2016, the Remuneration and Appraisal Committee of the third session of the Board held its first meeting for 2016 in Nanjing. Director Sun Hongning authorized the independent non-executive Director and committee chairman Bai Wei to attend the meeting. Report on the Performance Appraisal and Remuneration of Directors of the Company in 2015 and Report on Responsibilities Fulfillment, Performance Appraisal and Remuneration for Senior Management Personnel of the Company in 2015 were considered and approved. At the meeting, independent non-executive Director and committee chairman Bai Wei inquired on issues such as remuneration restriction by the Company according to the policy, remuneration restriction conditions of other companies in the industry, remuneration restriction conditions of fund companies and the assessing methods of KPI values. General manager of the HR Department Zhang Hui and vice-general manager Sun Yan gave explicit explanations on these issues respectively. Independent non-executive Director and committee member Liu Hongzhong raised a question on why the resigned independent non-executive Director still performed duties in the Company in December 2015 and the securities agent Zhao Yuankuan gave explanations to eliminate the doubt according to the regulatory stipulations and Articles of Association.
2. On 22 September 2016, the second meeting of the Remuneration and Appraisal Committee of the third session of the Board for 2016 was held by teleconference and the Proposal on Plan and Target of Performance of Senior Management Personnel of the Company in 2016 was considered and approved.

Attendance of the members of the Remuneration and Appraisal Committee at the meetings held during the Reporting Period:

Name	Position	Attendance in person/Number of meetings requiring attendance
Bai Wei (Former chairman)	Former independent non-executive Director	2/2
Sun Hongning	Non-executive Director	1/2
Liu Hongzhong	Independent non-executive Director	2/2
Chen Chuanming (current chairman) <sup>(Note 1)</sup>	Independent non-executive Director	/
Liu Yan	Independent non-executive Director	/

Note 1: Mr. Chen Chuanming and Ms. Liu Yan have been our independent non-executive directors and members of Nomination Committee since 21 December 2016. The Nomination Committee has not convened any meeting since their appointment.

## VII. PERFORMANCE OF DUTIES OF SUPERVISORS

The Supervisory Committee is a supervisory body of the Company and shall be accountable to the general meeting. As required by the Company Law and Articles of Association, the Supervisory Committee is responsible for monitoring the Company's financial activities and internal control, and overseeing the legality and compliance of the performance of duties by the Board, the management and its members.

For the year 2016, in strict compliance with the relevant requirements of the Company Law, the Securities Law, the Articles of Association and the Rules of Procedures for the Supervisory Committee, the Supervisory Committee of the Company earnestly performed its duties as required by law and effectively monitored the Company's financial conditions, the legality and compliance of the Board's significant decisions and the performance of duties by the management, and safeguarded the legitimate rights and interests of the Company and its shareholders acting in the spirit of being accountable to all the shareholders.

## (I) Performance of duties of Supervisors

During the Reporting Period, the Supervisory Committee of the Company convened 6 meetings. For details, please refer to “Corporate Governance Report” “IV. Meetings of the Supervisory Committee during the Reporting Period” of this section.

All the members of the Supervisory Committee attended the meetings of Supervisory Committee, Board meetings and the general meetings during the Reporting Period as follows:

Conditions for attending the Supervisory Committee									
Name of supervisor	Position	Number of meetings of Supervisory Committee requiring attendance in the year	Attendance in person	Attendance		Absence	Whether or not he/she failed to attend the meeting in person for two successive times	Attendance at Board meeting in the year	Attendance at the general meeting
				in the way of teleconference	Attendance by proxy

Meng Qinglin	Employee Supervisor	1	1	0	0	0	No	1	1
Number of meetings of Supervisory Committee convened during the year									6
Of which: number of meetings held on-site									5
Number of meetings in the way of teleconference									1
Number of meetings held on-site and in the way of teleconference									0

## (II) Independent opinions of the Supervisory Committee

During the Reporting Period, the Supervisory Committee convened 6 meetings in total in the whole year, at which 14 proposals and reports were considered. The Supervisors sat in all the Board meetings and general meetings of the Company as non-voting delegates, monitored the decision-making process of the Board on material matters on a real-time basis, and kept abreast of the management's implementation of the decisions made by the Board through carefully reading the reports of the Company, including Work Newsletter (monthly) and Brief Report on Audit Work (quarterly). On this basis, the Supervisory Committee gave independent opinions on the Company's relevant matters as follows:

1. For the legal operation of the Company: during the Reporting Period, the Company was under legal operation in compliance with relevant laws and regulations such as the Company Law, the Securities Law and the Articles of Association as well as the requirements of the Company's systems. Major operational decisions of the Company were reasonable, and the decision-making procedures were lawful. The Company established a relatively sound internal management system and internal control system, under which various regulations were effectively implemented. On 28 November 2016, the Company received a Written Decision of Administrative Penalty from CSRC which conducted an investigation on the illegal and irregular actions of the Company by not examining and investigating the real identities of clients. Then, it instructed the Company to make corrections, sounded a note of warning, confiscated illegal gains of RMB18,235,275.00 and fined RMB54,705,825.00. The Company has finished the rectification after receiving the Advance Notice on Administrative Penalty from the CSRC in September 2015; besides, the Company included the illegal gains and penalty concerning this case in the profit and loss of 2015 in full amount. Therefore, this Written Decision of Administrative Penalty had no major impact on the financial condition of the Company in 2016 and in the future. The termination of this case eliminated the uncertainties that the Company was faced with and it was helpful to the development of the Company in the future. The Supervisory Committee found no conducts violating laws, regulations, Articles of Association or damaging the interests of the Company and its shareholders made by Directors and senior management of the Company when performing their duties. During the Reporting Period, there were no material risks in the Company.
2. For the financial aspect: during the Reporting Period, Supervisors of the Company regularly read the main financial information on the operation of the Company in every month, convened meetings of the Supervisory Committee to review the quarterly reports, semi-annual reports, annual financial reports, annual evaluation reports on internal control and other documents of the Company, and checked the business and financial conditions of the Company. The Supervisory Committee believed that the financial report of the Company for 2016 had been audited by KPMG Huazhen LLP which had issued a standard audit report without qualified opinions. The Company's financial statements were prepared in compliance with the relevant requirements of the ASBE, which truly reflected the financial conditions and operating results of the Company. Regular reports were prepared and reviewed in compliance with relevant laws, regulations and various requirements of the CSRC, the contents of which were true, accurate and complete to reflect the actual conditions of the Company.
3. For the implementation of the registration, management and confidentiality system for insider information holders of the Company: during the Reporting Period, the Company managed to carry out the registration, management, disclosure and filing of insider information and kept the confidentiality thereof in accordance with the requirements of the system, and continued to optimize the working procedures. There were no incidents found in the Company in violation of insider information holders' obligations for registration, management and confidentiality.
4. During the Reporting Period, the Company's related connected transactions were fair and reasonable, and no incidents of damaging the rights and interests of the Company and its shareholders were found in the Company. When considering related matters, independent Directors of the Board of the Company gave independent opinions and related Directors abstained from voting, the procedure of which was legal and valid.

5. As approved by the CSRC, the Company completed IPO of H Shares in 2015. Proceeds from the issuance of H Shares were verified by KPMG Huazhen LLP, and KPMG Huazhen Yanzi No. 1501031 capital verification report was issued. According to the capital verification report issued by KPMG Huazhen LLP, the net amount of funds raised through IPO of H Shares of the Company in 2015 amounted to RMB30,587,689,604.94 after deducting related listing expenses, and proceeds raised amounted to RMB30,015,054,696.76 after deducting the underwriting and issue fees. As of the end of the Reporting Period, in addition to the total proceeds from the IPO of H Shares, the Company obtained a total interest income and exchange gains and losses of RMB81,321,752.25. As of the end of the Reporting Period, an accumulated amount of RMB29,968,849,951.28 was used out of the proceeds from the IPO of H Shares (including interests of proceeds raised and exchange gains and losses).

As of the date of this Annual Report for 2016, the proceeds received by the Company from the IPO of new shares for listing on the Hong Kong Stock Exchange and from the issuance of new shares due to the partial exercise of the over-allotment option were used as follows: RMB18,352,613,762.96 was used for the expansion of capital-based intermediary businesses including margin financing and securities lending, RMB3,058,768,960.49 was used for the expansion of investment and trading business, RMB3,058,768,960.49 was used to increase the capital of Huatai Zijin Investment and Huatai Asset Management, RMB3,058,768,960.49 was used for expanding overseas business, and RMB2,439,929,306.85 was used as working capital and for other general corporate purposes. In addition to the use of proceeds above, the remaining proceeds of the Company were approximately RMB700,161,405.91 (including interests of proceeds raised and exchange gains and losses), which were not utilized yet and deposited into the account opened by the Company in the bank. As of 31 December 2016, the intended use of the proceeds raised from the issuance of H Shares of the Company was in line with that disclosed in the prospectus with no change. Based on the development strategy, market conditions and the intended use of the proceeds raised from the issuance of H Shares, the Company will further utilize the proceeds raised from the issuance of H Shares.

6. During the Reporting Period, the Company has successfully launched two tranches of subordinated bonds of RMB8 billion, two tranches of corporate bonds of RMB14 billion, 65 tranches of structured notes with an aggregate amount of RMB11.615 billion. As of 31 December 2016, the scale of stock of structured notes was RMB6.521 billion. The amount of proceeds raised was used to replenish the Company's working capital, which was consistent with the disclosure in the prospectus.
7. Written review opinions on the annual report of the Company for 2016 prepared by the Board of Directors were as follows:  

The annual report of the Company for 2016 was prepared and reviewed in compliance with the relevant laws, regulations and requirements of regulatory authorities, the contents of which were true, accurate and complete and could reflect the actual conditions of the Company.
8. The Supervisory Committee of the Company reviewed the Assessment Report on Internal Control of the Company for 2016, and had no objections to the contents therein.

## VIII. RISKS FOUND BY THE SUPERVISORY COMMITTEE IN THE COMPANY

During the Reporting Period, the Supervisory Committee of the Company had no objections towards the matters under supervision during the Reporting Period.

## IX. EXPLANATIONS ON THE COMPANY'S INABILITY TO ENSURE INDEPENDENCE AND OPERATE INDEPENDENTLY FROM ITS CONTROLLING SHAREHOLDER IN RESPECT OF BUSINESS, STAFF, ASSETS, ORGANIZATION AND FINANCE

The shareholding structure of the Company is relatively decentralized without controlling shareholders. Since its inception, the Company has been operating in strict compliance with the relevant laws and regulations including the Company Law and the Securities Law as well as the requirements of the Articles of Association. The Company is completely separate from its shareholders in respect of business, staff, assets, organization and finance, owns a complete business system and is capable of operating independently in the market.

### (I) Information about the independence of business

In accordance with the requirements of the Company Law and the Articles of Association, the Company conducts business on its own pursuant to the law within the operating scope approved by the CSRC, and has obtained various business materials required for securities business operation with an independent and complete business system and the ability of self-operation. Its business operation is not controlled or affected by its shareholders or related parties. The Company can compete in the market independently. Shareholders and related parties of the Company did not breach the Company's working procedures or intervene in the Company's internal management or the making of its operational decisions.

### (II) Information about the independence of the staff

The Company set up a dedicated human resources management department, and established independent and complete systems for labor employment, personnel management, salary management and social security. The Directors, Supervisors, and senior management of the Company were selected and employed in compliance with the relevant requirements of the Company Law, the Securities Law, and the Measures for the Supervision and Administration of the Professional Qualifications of Directors, Supervisors and Senior Management of Securities Firms and the Articles of Association. The current Directors, Supervisors and senior management of the Company have obtained the qualifications required for working in securities firms. The senior management of the Company held no positions in its largest shareholder and actual controller and other enterprises under its control. The Company adopts an appointment system for the senior management, a labor contract system for all staff, and enters into Labor Contract with all the staff in accordance with the law. The Company owns independent rights for labor employment and its staff is independent from the shareholders and enterprises under their control without any interference from the shareholders.

### (III) Information about the integrity of the assets

The Company owns main business qualifications, land, real estate, vehicles and other operating equipment required for business operation. The above assets are subject to no mortgage, pledge or other guarantees, and the Company is the legal owner of these assets. The assets of the Company are independent from its largest shareholder and other shareholders. As of the end of the Reporting Period, the Company provided no guarantees for the debts of any of its shareholders and their subsidiaries by using its assets or reputation as the collateral. The Company had full control and use right over its assets, and there had been no circumstance under which the interests of the Company were damaged due to the largest shareholder's occupation of any of its assets and funds.

#### (IV) Information about organizational independence

In strict compliance with the requirements of the Company Law and the Articles of Association, the Company has set up a sound corporate governance structure, under which the general meeting, the Board of Directors, the Supervisory Committee, the management and the relevant operating management departments are formed. The general meeting, the Board of Directors, the Supervisory Committee and the management are in good operation and exercise their respective functions and powers pursuant to the law. The Company owns an independent and complete system for securities business operation and management, and conducts its business on its own. The organizations are set up and run in compliance with the relevant requirements of CSRC. The existing offices and premises of the Company are totally separate from its shareholders without the circumstances of sharing organizations with them or their direct intervention in the Company's business activities.

#### (V) Information about financial independence

As required by the Accounting Standards for Business Enterprises and the Financial Systems of Securities Firms, the Company has established an independent financial accounting and management system, set up an independent accounting department, and employed independent financial accountants. The chief financial officer and financial personnel of the Company held no positions in its shareholders. The Company has opened an independent bank account, applied for an independent tax registration and paid taxes in accordance with laws and regulations. The Company shared no accounts and taxes with its shareholders and related parties.

As of the end of the Reporting Period, the Company provided no guarantees for its shareholders and other related parties. During the Reporting Period, the Company experienced no peer competition and connected transactions resulted from shareholding reform, features of the industry and national policies or mergers and acquisitions.

### X. APPRAISAL MECHANISM FOR SENIOR MANAGEMENT AND THE ESTABLISHMENT AND IMPLEMENTATION OF INCENTIVE MECHANISM DURING THE REPORTING PERIOD

During the Reporting Period, the Company conducted appraisal of its senior management under the principle of goal-sharing, consistency between management and appraisal, and performance linkage. The overall appraisal would be conducted on a yearly basis. At the beginning of the year, the Board of Directors would set the performance appraisal indicators for senior management based on the performance appraisal indicators and goals of the Company and the functional areas managed by senior management; in the mid-year, the comprehensive review would be conducted and specific improvement measures would be formulated based on the accomplishment of the goals set at the beginning of the year; at the end of the year, the Remuneration and Appraisal Committee would be responsible for the performance appraisal of senior management of the Company. Based on the benefits and the development of the Company, it would comprehensively appraise the fulfillment of the annual operating goals of the Company and the responsibilities of its senior management. Meanwhile, based on the results of post performance appraisal and the policy for remuneration distribution provided by the Company and supervising departments, it would put forward the amount of remuneration and the reward rule for senior management which would be reported to the Board of Directors for consideration upon approval by voting.

## XI. Responsibility Statement of Internal Control and the Establishment of Internal Control System

### (I) Statement of the Board

As required by the internal control standard system of the Company, the Board of Directors of the Company bears the responsibility to establish a sound internal control system and put it in place while assessing its effectiveness, and honestly disclose its evaluation report on internal control. The Supervisory Committee shall monitor the establishment and implementation of internal control conducted by the Board of Directors. The management shall be responsible for leading the daily operation of internal control of the Company. The Board of Directors, Supervisory Committee, Directors, Supervisors and senior management of the Company shall ensure that there are no false descriptions, misleading statements or major omissions contained in this report, and shall individually and collectively assume legal responsibilities for the truthfulness, accuracy and completeness of any information contained in this report.

The objective of internal control of the Company is to reasonably ensure the legality and compliance of the operation and management, the security of the assets, and the truthfulness and completeness of the financial report and its relevant information, to improve operating efficiency and effectiveness, and to promote the accomplishment of the development strategy. Due to the inherent limitations of internal control, only reasonable assurance can be provided for the achievement of the above objectives. In addition, internal control may become inappropriate or the level of compliance with control policies and procedures may become lower due to the changes of situation, so it may involve certain risks to speculate the effectiveness of internal control in the future based on the results of internal control evaluation. The Company shall supervise and conduct self-checking on its internal control, and once any defect is identified in its internal control, it will take rectification measures immediately.

### (II) Structure of the internal control system

The Company has established a scientific and efficient internal control structure system, under which each of the Board of Directors, Supervisory Committee, the management, the function management departments and business operations departments has its own responsibilities and performs its own functions.

The Board of Directors of the Company shall be responsible for the effectiveness of internal control of the Company, and it has set up special committees it, including the Compliance and Risk Management Committee and the Audit Committee, to comprehensively monitor the effective implementation of internal control and self-evaluation of internal control. The management departments for internal control mainly consist of the risk management department, legal and compliance department, planning and finance department and audit department. Each department shall implement internal control and fully support the improvement of internal control system and the self-evaluation related work. The audit department shall be responsible for conducting internal control evaluation independently. Meanwhile, the Company has established a leading group for the construction and on-going optimization of the internal control system to continuously improve its construction.

The Company has set up a legal and compliance department, a risk management department and an audit department as dedicated departments for internal control audit and supervision, which independently perform the functions of supervision and audit including compliance audit, risk control, financial audit and business audit while being responsible for making improvement suggestions on the defects of internal control and urging relevant responsible departments to rectify such defects in a timely manner.

### (III) Basis for the establishment of internal control over financial reporting

Based on documents such as the Basic Internal Control Norms for Enterprises (《企業內部控制基本規範》) and the Implementation Guidelines for Enterprise Internal Control (《企業內部控制配套指引》) jointly issued by the Ministry of Finance, the CSRC, the National Audit Office, the CBRC and the CIRC, the Guidelines for Internal Control of Securities Firms (《證券公司內部控制指引》) issued by the CSRC, and the Guidelines of Shanghai Stock Exchange for the Internal Control of Listed Companies (《上海證券交易所上市公司內部控制指引》) issued by the Shanghai Stock Exchange, the Company has established a sound internal control system for financial reporting.

According to the judging standards for major defects, important defects and general defects from the Basic Internal Control Norms for Enterprises, the Guidelines for Internal Control of Securities Firms and the Guidelines of Shanghai Stock Exchange for the Internal Control of Listed Companies, and in consideration of factors including the scale of the Company, industry features and risk levels, the Company determined the internal control defects applicable to the Company and the specific judging standards thereof after researching, which were consistent with those of the previous year.

Major defects refer to the combination of one or more control defects which may cause the enterprise to significantly deviate from its control objectives. Important defects refer to the combination of one or more defects, the severity level and economic consequences of which are lower than those of the major defects, but they may still cause the enterprise to deviate from its control objectives. General defects refer to the defects other than major defects and important defects.

Based on the above judging standards and in combination with daily supervision and special supervision, during the Reporting Period, the internal control system and mechanism of the Company were sound and effectively implemented in the actual work. There were no major defects of internal control over financial reporting found in the Company.

### (IV) Construction of internal control system

In strict compliance with the requirements of the relevant laws and regulations such as the *Company Law*, the *Basic Internal Control Norms for Enterprises*, the *Guidelines for Internal Control of Securities Firms* and the *Guidelines of Shanghai Stock Exchange for the Internal Control of Listed Companies*, in consideration of the industry features and the actual conditions of the Company, and according to the Internal Control Management Measures of the Company, the Company continuously enhances the construction of internal control system, improves the internal control mechanism, normalize the business procedure, perfects management system and ensures that internal control runs through the whole decision-making, implementation and supervision process and covers various business and management links. The Company formulates System Construction Management Measures (《制度建設管理辦法》), standardizes establishment, printing and distribution of the system procedure and flow chart; the Company takes prudent operation, defending and removing risk as the starting points, carries out the principle of “prioritizing system” for business development, establishes uniform management rules, business procedure or operation specification and flow chart for various kinds of business including innovation business, and establishes clear control measures for main risk points and risk nature of the business. Each department regularly or irregularly carries out comprehensive streamlining and perfection for various systems and procedures, and combines with the key point of the business operation to update and refine relevant system and procedures of innovation business. It ensures that the system and procedures comply with the principles of comprehensiveness, prudence, effectiveness, timeliness and the like, so as to avoid blank or loopholes in the system and procedures. Relevant internal control systems of the Company’s financial report are sound, and effectively operated; the quality of financial report can be guaranteed, and high reliability of financial information can be ensured.

## (V) Operation of internal control system

In 2016, the Company further developed continuous optimization work of group internal control. According to the developed methodology and evaluation standard, each department and subsidiary carried out regular self-evaluation and triggering self-evaluation of internal control through operating risk and internal control management system based on the business development and change of condition to realize objective evaluation for the inherent risk, control effectiveness and residual risk. The Company discovered the defects of internal control design and implementation effectiveness through walk-through tests and operation effectiveness test, intensified analysis on high residual risk process, strengthened, implemented and rectified relevant control measures, continuously optimized the control design condition and improved executive efforts. The Company strengthened the internal control inspection of the related branches and subsidiaries, enhanced the assessment of accountability, carried out internal control training and guidance for the branches, and transmitted risk culture. Meanwhile, the Company carried out the operation and Phase-II construction for the risk self-evaluation system of internal control to improve internal control evaluation efficiency. The audit department of the Company issued internal control evaluation report for the internal control standardized condition of the Company independently. By combining with the suggestions of external consulting agency, the Company rectified, the identified issues from the internal control scheme in time.

## (VI) Conclusion of internal control evaluation

In order to strengthen and standardize the internal control of the Company, improve the operation and management level and risk prevention capabilities of the Company and promote the sustainable development of the Company, the management of the Company attached great importance to the advice and suggestions from the Board of Directors and the functional departments for internal control, and effectively improved the standardization level of business and internal control management level of the Company.

Based on the requirements of the relevant laws and regulations such as the Basic Internal Control Norms for Enterprises, the Guidelines for Assessment of Enterprise Internal Control, the Guidelines for Internal Control of Securities Firms and the Guidelines of Shanghai Stock Exchange for the Internal Control of Listed Companies, the Company conducted self-evaluation on the effectiveness of design and operation of the internal control as of 31 December 2016 and issued the 2016 Evaluation Report of Internal Control. Based on the judgement of the major defects of internal control over financial reporting of the Company, and as at the base date of evaluation report of internal control, there were no major defects of internal control over financial reporting. In the opinion of the Board of Directors, the Company has kept an effective internal control over financial reporting in all material respects according to the requirements of the normative system of enterprise internal control and relevant regulations.

Based on the judgement of the major defects of internal control over non-financial reporting of the Company, and as at the base date of evaluation report of internal control, there were no major defects of internal control over non-financial reporting.

There were no factor affecting the conclusion of the effectiveness evaluation of internal control from the base date of evaluation report of internal control to the issue date of evaluation report of internal control.

## (VII) The Board's working plan for internal control in 2017

In order to keep the adaptability and continuous effectiveness of internal control, the Company continuously adjusted and improved its internal control based on relevant requirements including the Basic Internal Control Norms for Enterprises and its supporting guidelines and the Notice on the Fully Implementation of the Establishment of Internal Control System of Provinces-based Enterprises (Su Guo Zi [2013] No. 73) (《關於全面開展省屬企業內部控制體系建設工作的通知》(蘇國資[2013]73號)) issued by the State-owned Assets Supervision & Administration Commission of Jiangsu Province and Jiangsu Provincial Department of Finance and in consideration of its own development needs. During the Reporting Period, the Company established an ongoing optimization plan for internal control in 2017, and will continuously implement the optimization of internal control within the Group.

## XII. Disclosure of self-evaluation report of internal control

When disclosing the annual report for 2016, the Company will also disclose the Evaluation Report of Internal Control of Huatai Securities Co., Ltd. for 2016 at the same time, which will be published on the website of the Shanghai Stock Exchange (<http://www.sse.com.cn>), the website of HKEX ([www.hkexnews.hk](http://www.hkexnews.hk)) and the Company's official website ([www.htsc.com.cn](http://www.htsc.com.cn)) on 31 March 2017.

## XIII. Information about the audit report of internal control

The KPMG Huazhen LLP engaged by the Company conducted an audit on the internal control of the Company, and issued an audit report of internal control without qualified opinions. When disclosing the annual report for 2016, the Company will also disclose the Audit Report of Internal Control of Huatai Securities Co., Ltd. at the same time, which will be published on the website of the Shanghai Stock Exchange (<http://www.sse.com.cn>), the website of HKEX ([www.hkexnews.hk](http://www.hkexnews.hk)) and the Company's official website ([www.htsc.com.cn](http://www.htsc.com.cn)) on 31 March 2017.

Whether to disclose the internal control audit report: Yes

## XIV. Building of the compliance management system of the Company and the inspections and audits finished by the compliance and audit departments during the Reporting Period

The Company always places emphasis on the enterprise culture of operation in compliance with regulations, strict management, prudent and standard operation. During the Reporting Period, in accordance with the relevant laws and regulations and the regulatory requirements, the Company further established a sound compliance management system, improved the organizational structure for compliance management, and continued to strengthen the compliance management of the Company to keep continuous and standardized development of the business lines of the Company.

## (I) Organizational structure for compliance management

Since its establishment, the Company has been adjusting and improving the organizational structure for compliance management and the relevant systems based on the changes of the market environment and the regulatory requirements and the development needs of business. The Company has established a multi-level organizational structure system for compliance management, comprising of the Board of Directors and its Compliance and Risk Management Committee, the Chief Compliance Officer, the legal and compliance department, the compliance officers of various departments and branches.

The Board of Directors is the supreme decision-making body for the compliance management of the Company and responsible for the approval, assessment, implementation and supervision of the basic policies for compliance management and assumes responsibilities for the effectiveness of the compliance management of the Company. The Compliance and Risk Management Committee under the Board is responsible for overseeing the overall risk management of the Company, and controlling the risks within a reasonable range to ensure the internal management system, business rules, significant decisions and main activities of the Company are in compliance with laws and regulations, and the risks can be controlled and accepted.

The chief compliance officer is in charge of compliance of the Company, conducts audit, inspection and supervision on the compliance of the management and performance of the Company and its staff, and helps the management effectively identify and manage compliance risks. The chief compliance officer is a member of the senior management, and is appointed by the Board. The chief compliance officer does not hold any concurrent posts or take charge of any departments that conflict with his/her compliance management duties.

The Company has established a legal and compliance department to assist the chief compliance office in performing specific compliance management duties. The legal and compliance department is mainly responsible for the following matters: the establishment of the compliance and management system of the Company; compliance training, inspection and guidance; assessment and unified disposal of compliance risks; compliance examination and compliance reports; cooperation with external compliance supervision and management institutions; anti-money laundering and Chinese Wall; establishment of the legal system of the Company; review of legal documents; handling legal affairs; and assessment of and consultation on legal risks.

All departments and branches of the Company have their own compliance officers. A compliance officer is mainly responsible for the compliance management work of the department or branch it belongs to, performs such duties as carrying out timely and effective monitoring, inspection, assessment and reporting on the implementation of compliance policies and procedures by such department or branch and its staff, and is responsible for the department or branch's communication and exchange of information with the legal and compliance department and other compliance management works in its own department or branch. During the Reporting Period, the Company centralized the compliance risk control of 28 branches, and all compliance risk control personnel previously belonging to different securities branches were assembled and managed by branches, in order to achieve professional, intensive and disciplined management of compliance risk management team in our branches step by step, and set up effective defensive lines to prevent, mitigate and handle internal risks, and enhance the compliance risk management ability of front line positions.

## (II) Compliance system building of the Company

The Company has established a complete compliance management system and kept improving it. During the Reporting Period, the Company further refined and improved all compliance management systems in compliance with the requirements of the Securities Law, the Regulations on Supervision and Management of Securities Companies, the Trial Provisions for the Compliance Management of Securities Companies (《證券公司合規管理試行規定》) and other laws and regulations and normative documents and in combination with the Company's operation, management and operating practices.

During the Reporting Period, the Company established the Judicial Assistance Management Measures to specify the departmental duties and archives management and evaluation and accountability requirements in judicial assistance works, revised and released the Internal Control System of Anti-money Laundering (2016 revised version) 《反洗錢內部控制制度(2016年修訂)》 to specify the key arrangements of the Company's anti-money laundering, in consideration of the regulatory requirements and specific situation of the Company, by adding the annual reporting and quarterly reporting system of anti-money laundering, and self-evaluation of anti-money laundering risks; revised and released the Work Structure and Responsibilities of Anti-money Laundering (2016 revised version) 《反洗錢工作組織架構與職責(2016年修訂)》, to adjust the basic structure of the Company's anti-money laundering and further specify the role and responsibilities of each department of the headquarters and branches; formulated the Introducing Compliance Review Standard of the Sales of Private Financial Products on Consignment to standardize the private financial products compliance review procedure in a normative form so as to define the compliance standards for introducing private financial products for consignment selling of the Company.

As of the end of the Reporting Period, the Company has established the following basic compliance management systems: the Compliance Management System (Revised), the Working Measures for Daily Compliance Management (Revised), the Trail Measures for Assessment of the Performance of Compliance Management, the Implementing Rules for Assessment of the Performance of Compliance Management (Revised), the Measures for Assessment of the Effectiveness of Compliance Management, the Staff Compliance Manual, the Administrative Measures for the Preparation of Regular Compliance Report, the Regulations on the Management of Securities Investment by Working Staff of the Company, the Regulations on the Management of Chinese Wall (Revised), the System for Internal Control of Anti-money Laundering (Revised), the Anti-money Laundering Confidentiality System, the Working Rules for Integrity Management, the Administrative Measures for Self-discipline and Collaboration, the Measure for Routine Work of Compliance Liaison (Revised) and the Regulations on the Management of Compliance Risk Control Staff in the Branches (Revised), Anti-money Laundering Work Organizational Structure and Duties (Revised) and Judicial Assistance Management Measures, etc..

### (III) Implementation of the compliance management mechanism

Since the full implementation of the compliance management system, the Company saw continuous improvement of its compliance management work, and continued to benefit from observance with the philosophy of "Creating Value through Compliance Management" and saw significant improvement in the standardization of operations. During the Reporting Period, the compliance department provided all departments and branches with comprehensive compliance consultation service, and put forward recommendations on common issues in time and monitored and gave guidance over the rectification and improvement of the relevant system and procedures by relevant departments; carried out compliance review within the whole Group and focused on the implementation of the requirements of compliance management, and strengthened cross-examination in order to improve the accuracy and effectiveness of compliance review; reinforced routine compliance examination, and conducted regular and irregular specialized compliance examination in line with business innovations and regulatory requirements, in order to screen potential risks effectively and identify compliance issues in time; submitted quarterly, interim and annual compliance reports to regulatory institutions in time and submitted temporary reports as needed; implemented compliance performance assessment to relevant departments and branches in accordance with the performance assessment criteria and deducted the responsible persons' bonus proportionally, which significantly improved the authority and effectiveness of compliance risk control and provided a major assurance for the effective implementation of the compliance management system; further increased the frequencies and efforts of compliance training, and further broadened the coverage of compliance training through video training and online training so as to raise the awareness of regulatory requirements and compliance of its staff; optimized and updated the compliance management system, optimized the money laundering risk assessment system, launched the new version of contract management system, and increased the efficiency of compliance management work.

#### (IV) Information about inspections carried out by the compliance department during the Reporting Period

During the Reporting Period, the Company's compliance department took the lead in completing "looking back the two aspects to be strengthened and two aspects to be limited", investment banking business and precious metal business package prevention as well as other special self-inspection works, along with carrying out regular and special inspections over 7 branch agencies and organizing special self-inspection on clients' unusual transaction and self-discipline collaborative works. Recommendations for improvement were put forward in time and the implementation of rectification measures has been tracked. In addition, the compliance department, during the Reporting Period, took the lead in carrying out and launching the on-site inspection of releasing securities research report business. Recommendations for improvement were put forward in time and the implementation of rectification measures has also been tracked.

#### (V) Auditing and inspection performances of audit department during the Reporting Period

During the Reporting Period, the audit department, in accordance with the current laws and regulations as well as corporate rules, adhered to the corporate business development, and carried out the legality, compliance and validity auditing on internal control, compliance management, money-laundering risk, financial accounting, operating protection, business management, innovative business, client data and services of each branches and securities branches and each department of the Company and its subsidiaries in line with the working policy of "auditing by law, serving the overall situation, highlighting the key points and being realistic and pragmatic".

During the Reporting Period, the audit department initiated and completed 126 audit report items in total, including regular auditing works of 17 business and management departments of the Company headquarters, such as brokerage business headquarters, fixed income department, wealth management department, equity investment department, general business department, financial planning department and the auditing for the departure of the general manager, the regular auditing works of 4 subsidiaries such as Huatai United Securities and Huatai Asset Management, the auditing works for the departure and mandatory leave of the general managers in 17 branches in Suzhou, Shanghai, Changzhou and Zhejiang and other cities, the auditing work for the departure and mandatory leave of the general managers in 78 securities branches in locations such as Hanzhongmen Street, Nanjing, Bohai Street, Yingkou, the Raffles City, Huangpu District, Shanghai and Zhongshan North Road, Nanjing and 4 special auditing works such as corporate internal control evaluation and compliance management validity evaluation. The Company was rectifying and following up with 1 problem identified from audit items in the last three years and 5 items reported were under inspection.

Based on the aforesaid auditing works, the Company's audit department, while engaging in improvement of the auditing work system and assurance of the independence, objectivity and impartiality of its auditing works, reasonably determines the priorities and scope of auditing work with emphasis on grasping the policy limit, making fact and nature of fact clearly ascertained with irrefutable evidence; in particular, the compliance management and risk control are deemed as the main content in audit examination to guide the audited unit to strengthen the basic works in the aspects of compliance management, risk control, business operation and internal management for the sake of potential risk elimination and putting risk management work on a firm footing, giving a full play to the audit work in corporate internal control capacity improvement.

## XV. Other Information

### (I) Company secretary

Pursuant to Rule 3.28 and Rule 8.17 of the Hong Kong Listing Rules, the Company must appoint an individual as its company secretary who, by virtue of his/her academic or professional qualifications or relevant experience, is, in the opinion of the Hong Kong Stock Exchange, capable of discharging the duties of a company secretary.

Currently, Mr. Jiang Jian and Ms. Kwong Yin Ping Yvonne serve as the joint company secretaries of the Company. Mr. Jiang Jian has abundant experience in board and company management matters, but does not possess any of the qualifications under Rule 3.28 and Rule 8.17 of the Hong Kong Listing Rules, and may not be able to fully fulfill the requirements of the Hong Kong Listing Rules. Accordingly, the Company has appointed Ms. Kwong Yin Ping Yvonne, who is a member of the Hong Kong Institute of Chartered Secretaries and fully complies with the requirements stipulated under Rule 3.28 and Rule 8.17 of the Hong Kong Listing Rules, to act as the other joint company secretary, for an initial term of three years from the listing date of H Shares to enable Mr. Jiang Jian to acquire the relevant experience under Note (2) to Rule 3.28 of the Hong Kong Listing Rules, so as to fully comply with the requirements set forth under Rule 3.28 and Rule 8.17 of the Hong Kong Listing Rules. During the Reporting Period, the joint company secretaries of the Company discharged their duties in earnest, and ensured the smooth convening of various meetings of the Board; and promoted the effective communication among members of the Board, and between the Directors, shareholders and management of the Company.

During the Reporting Period, pursuant to Rule 3.29 of the Hong Kong Listing Rules, both Mr. Jiang Jian and Ms. Kwong Yin Ping Yvonne had taken no less than 15 hours of professional training to update their skills and knowledge. Ms. Kwong Yin Ping's primary contact person at the Company is Mr. Jiang Jian.

### (II) Responsibilities of the Directors and auditors in respect of the accounts

The following responsibility statement of Directors regarding the financial statements shall be read in conjunction with the responsibility statement of the certified public accountants included in the audit report of this report. Each responsibility statement shall be understood separately.

The Board of Directors confirmed that it took responsibility for the preparation of the annual report for the year ended 31 December 2016.

The Board of Directors is responsible for presenting a clear and well-defined assessment of the annual and interim reports, stock price sensitive information, and other matters that need to be disclosed according to the Hong Kong Listing Rules and other regulatory provisions. The management has provided relevant and necessary explanation and information to the Board of Directors so that the Board of Directors could make informed assessment on the financial data and position of the Group for examination and approval.

To the knowledge of all Directors, the Company does not face any events or situations of significant uncertainty likely to give rise to the significant doubt of the Company's capability of sustained operations. In addition, the Company has arranged appropriate insurance cover for the legal actions and liabilities which the Directors, Supervisors and senior management may be exposed to.

### (III) Performance assessment results for Directors and Supervisors

During the Reporting Period, the Directors and Supervisors of the Company had abided by the relevant provisions of laws, administrative laws and regulations as well as Articles of Association, and performed their duties and obligations honestly and diligently.

All the Directors of the Company have performed their statutory duties honestly, faithfully and diligently in compliance with laws. They have attended Board meetings and various meetings of special committees in accordance with relevant provisions, considered each proposal seriously, offered advice and suggestions on significant strategic decisions and plans, important investment and financing projects, business innovations, connected transactions, compliance management and internal controls, system construction, appointments of senior management, performance assessments, enterprise cultural construction and social responsibilities of the Company, and acted as professional gatekeepers on such issues, which ensured those material decisions to be scientific and standardized as well as the sustainable and innovative development of the Company, and preserved the interests of the shareholders practically.

All the Supervisors of the Company have performed their statutory duties honestly, faithfully and diligently in compliance with laws. They have attended the meetings of the Supervisory Committee in accordance with relevant provisions, attended the on-site Board meetings and shareholders' general meetings, and supervised and inspected the legality of operation, material decisions and important business activities as well as the financial position of the Company.

For the details on the performance of duties of the Company's Directors and Supervisors, please refer to the "Corporate Governance Report" "V. Performance of Duties of Directors" and "VII. Performance of Duties of Supervisors" of this section in the report.

### (IV) Communications with Shareholders

The shareholders' general meeting is the organ of the highest authority of the Company, and the shareholders exercise their rights through the shareholders' general meeting. The Company convenes and holds shareholders' general meetings in strictly compliance with the relevant provisions of Articles of Association and the Rules of Procedures for General Meetings to ensure the equal status of all shareholders, in particular the minority shareholders, and enable them to exercise their rights completely.

The Company pays high attention to the shareholders' opinions and advice, actively and regularly carries out various investor relations activities to keep communication with shareholders and meet their reasonable needs timely. The Company has formulated a series of relatively thorough rules and regulations such as Administrative System Regarding Investor Relationship, to manage investor relationship in accordance with the standards, systems and procedures. Meanwhile, the Company has formed a good interaction and communication with the investors via actively using various channels such as existing investor service hotlines, the special column for investor relations in the Company's website and reception of on-site researchers.

The Board of the Company is willing to listen to the shareholders' advice and encourages shareholders to attend the general meetings to ask the Board or management directly about any doubts they may hold. Shareholders may convene extraordinary general meetings or submit interim proposals to general meetings according to the procedures set out in Article 76 and Article 81 of Articles of Association, which was published on the website of the Shanghai Stock Exchange, the website of HKEX news of the Hong Kong Stock Exchange and the website of the Company. The Company will arrange for the Board to answer the shareholders' questions in its annual general meeting for 2016.

## (V) The implementation of investor relations activities

### 1. Articles of Association amendment

According to the resolution at the 3rd Extraordinary General Meeting of the Company in 2016 and the authorization granted in the resolution in regard to the amendments to the Company's Articles of Association, after the Reporting Period, Jiangsu Securities Regulatory Bureau issued the Su Zheng Jian Xu Ke Zi [2017] No. 9 Document on 2 March 2017 to approve the Company's amendments to the important provisions in the Articles of Association. In the meantime, the Company will actively handle the procedures for registration of the Articles of Association at the Industrial and Commercial Bureau as per the law.

The amendments to the Articles of Association of the Company mainly include: amending Article 125 in accordance with the Guidelines on the Articles of Association of Listed Companies (Revised in 2016) (CSRC Announcement [2016] No. 23) issued by CSRC on 30 September 2016; amending Article 150 and Article 218 in accordance with the Company Law and other laws and regulations as well as the actual situation of the Company in order to maintain the basic stability of the governance structure of the Company and enhance its operational efficiency; and amending Article 155 in order to strengthen the risk control of the Company as the Company's net assets increase continuously.

### 2. Status of investor relations works during the Reporting Period

The investor relations management is one of the Company's most important tasks on the normative development and legal operation of the Company and is highly valued by the Board of the Company. The Company plans, arranges or organizes various investor relations activities with a strong sense of responsibility, including coordinating the reception of visitors, keeping in contact with regulatory authorities, investors, intermediary agencies and news media and so on.

During the Reporting Period, the Company maintained the "Investor Relations" column on the Company's website, and answered the questions on the interactive E-platform on the website of the Shanghai Stock Exchange. The Company had received 40 times of investigations and surveys or telephone interviews from 138 researchers and investors who came from various institutions such as securities companies and funds companies, at home or abroad during the year. The Company had also carried out daily consultation work seriously for investors and answered their questions in details. Meanwhile, in order to assist the issuance of the periodical reports, the Company had held four results presentations and analyst meetings, proactively attended strategy seminars and investment forums held by domestic or foreign securities institutions, and maintained full communications with investors on issues such as the development trend of the industry, operational results of the Company as well as its business development strategy, which promoted the understanding of the investors on the business condition of the Company, marketed the development advantages of the Company, and guided market expectations effectively. The Company persists in inducing and analyzing various questions proposed by institutional investors and researchers to improve the professionalism, normalization and the quality of investor relations management of the Company.

## (VI) Independency of the auditor

According to the relevant provisions in Rule 19A.31 of the Hong Kong Listing Rules, annual accounts should be audited by a prestigious certified public accountant (whether it is an individual, a firm or a company), who (whether it is an individual, a firm or a company) also should be independent of the Chinese issuer to the extent that its independent procedures should be substantially the same as those specified in the statements on independence issued in the Companies Ordinance or by the International Federation of Accountants. According to the relevant provisions in Rule C.3.3 of the Corporate Governance Code and Corporate Governance Report as set out in Appendix 14 to the Hong Kong Listing Rules, the Audit Committee should review and monitor the independence and objectiveness of external auditors as well as the validity of the auditing process in accordance with applicable standards. During the Reporting Period, the Company continued to engage KPMG Huazhen LLP as the auditors of A Shares and KPMG as the auditors of H Shares. The Audit Committee had carried out necessary review and supervision to ensure the independence between the firm and the Company.

## (VII) Auditor's remuneration

For auditor's service fee of the Reporting Period, please refer to "Management Discussion and Analysis and Report of the Board" "V. Other disclosures" "(XXI) Auditors".

During the Reporting Period, the auditor did not charge any non-auditing fee.

# Corporate Bonds

## IX. Interest Payment for and Redemption of Other Bonds and Debt Financing Instruments of the Company

During the Reporting Period, the Company redeemed and paid the interest for the first tranche of subordinated bonds (two-year bonds) privately issued by the Company in 2014 (short name of the bond: "14 Huatai 02", bond code: 123381), with the payment amounting to RMB3,184,500,000.00 (tax included); redeemed and paid the interest for the second tranche of subordinated bonds privately issued by the Company in 2014 (short name of the bond: "14 Huatai 04", bond code: 123344), with the payment amounting to RMB4,236,000,000.00 (tax included); paid the interest of the first tranche of subordinated bonds privately issued by the Company in 2015 (short name of the bond: "15 Huatai 01", bond code: 123265), for the period from 23 January 2015 to 22 January 2016, with interest payment amounting to RMB354,000,000.00 (tax included). The Company redeemed and paid the interest for the second tranche of subordinated bonds privately issued by the Company on 20 April 2015 (short name of the bond: "15 Huatai 02", bond code: 123099), with the payment amounting to RMB7,392,000,000.00 (tax included); paid the interest for the second tranche of the subordinated bonds privately issued by the Company in 2015 (short name of the bond: "15 Huatai 03", bond code: 123100), for the period from 20 April 2015 to 21 April 2016, with interest payment amounting to RMB290,000,000.00 (tax included); paid the interest for the third tranche of the subordinated bonds privately issued by the Company in 2015 (short name of the bond: "15 Huatai 04", bond code: 125978), for the period from 26 June 2015 to 25 June 2016, with the interest payment amounting to RMB990,000,000.00 (tax included). For the details of relevant announcements, please refer to the disclosure of the Company on China Securities Journal, Shanghai Securities News, Securities Times, Securities Daily and the website of Shanghai Stock Exchange ([www.sse.com.cn](http://www.sse.com.cn)).

During the Reporting Period, Huatai Futures redeemed and paid the interest for the subordinated bonds privately issued by Huatai Futures in 2015 (short name of the bond: "15 Huatai Futures", bond code: 125917), with the payment amounting to RMB634,800,000 (tax included).

During the Reporting Period, Huatai International Finance I Limited, a special-purpose company subordinated to Huatai Financial Holdings (Hong Kong), paid USD7.25 million as the interests for offshore bonds on 8 April and 8 October 2016 respectively, or totally USD14.50 million for the year.

## X. Bank Credit of the Company During the Reporting Period

During the Reporting Period, the Company enhanced credit management, and as of the end of 2016, the total credit line obtained by the Company from commercial banks exceeded RMB360.0 billion, representing a significant increase as compared to that as of the end of last year, which effectively supported the development of all the businesses of the Company.

The Company enjoyed a good reputation, and repaid bank loans on time during the Reporting Period without extension or reduction of any loan.

## Xi. Performance of Relevant Covenants and Undertakings in the Prospectus for Corporate Bonds by the Company During the Reporting Period

During the Reporting Period, the Company strictly performed the relevant covenants or undertakings in the prospectus for corporate bonds, and the usage of the proceeds was in line with the covenants in the prospectus. The Company strictly performed its obligations for information disclosure, and paid the interests for the bonds on time to protect the legal interests of the investors. During the Reporting Period, the Company did not default on the redemption and interest payment of issued bonds, and operated stably with satisfactory earnings and no risk of it failing to make payments on time in the future.

## Xii. Major Events of the Company and Their Impact on the Operation and Solvency of the Company

During the Reporting Period, the Company did not experience any major event as set out in Rule 45 of the Administrative Measures for the Issuance and Transaction of Corporate Bonds that could impact the operation and solvency of the Company.

# Consolidated Statements of Profit or Loss and Other Comprehensive Income

For the year ended 31 December 2016  
(Expressed in thousands of Renminbi, unless otherwise stated)

**to the shareholders of Huatai Securities Co., Ltd.**

*(A joint stock company incorporated in the People's Republic of China with limited liability)*

## Opinion

We have audited the consolidated financial statements of Huatai Securities Co., Ltd. (the “Company”) and its subsidiaries (the “Group”) set out on pages 244 to 373, which comprise the consolidated statement of financial position as at 31 December 2016, the consolidated income statement, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2016 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRSs”) issued by the International Accounting Standards Board (“IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”) together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the People’s Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Revenue recognition: Fee and commission income

Refer to note 5 to the consolidated financial statements and the accounting policies on page 270.

The Key Audit Matter	How the matter was addressed in our audit
<p>Fee and commission income represented over 45% of the total revenue of the Group for the year ended 31 December 2016.</p>	<p>Our audit procedures to assess the recognition of fee and commission income included the following:</p>
<p>Fee and commission income mainly comprises brokerage commission income, asset management fees, underwriting and sponsoring fees and financial advisory fees.</p>	<ul style="list-style-type: none"> <li>• assessing the design, implementation and operating effectiveness of key internal controls which govern revenue recognition;</li> </ul>
<p>Brokerage commission income arising from brokerage trading of investment securities is recognised on a trade date basis. Asset management fees, underwriting and sponsoring fees and financial advisory fees are recognised when the corresponding service is provided and when the Group is entitled to receive the fees in accordance with the terms of the related client service agreement.</p>	<ul style="list-style-type: none"> <li>• inspecting client service agreements, on a sample basis, and evaluating whether revenue was recognised in accordance with the terms of the agreements and the Group's revenue recognition policies with reference to the requirements of the prevailing accounting standards;</li> </ul>
<p>The determination of the timing of recognition of asset management fees, underwriting and sponsoring fees and financial advisory fees can involve significant management judgement in assessing when the Group is entitled to receive the fees.</p>	<ul style="list-style-type: none"> <li>• for brokerage commission income, reconciling the daily transaction volume with the transaction data received from exchanges and clearing houses and comparing the commission rates for individual clients with relevant client service agreements on a sample basis;</li> </ul>
<p>We identified the recognition of fee and commission income as a key audit matter because revenue is one of the key performance indicators of the Group and therefore there is an inherent risk that the recognition of revenue could be subject to manipulation to meet targets or expectations.</p>	<ul style="list-style-type: none"> <li>• performing recalculations of asset management fees recognised during the year, on a sample basis, with reference to the value of assets under management and management fee rates as stipulated in the relevant asset management contracts;</li> <li>• selecting a sample of active underwriting, sponsoring and financial advisory transactions for which revenue was recognised during the current year and performing the following procedures:             <ul style="list-style-type: none"> <li>— inquiring of the Group about the project status and inspecting information published on websites of regulators or exchanges to ascertain the completion of the selected projects;</li> </ul> </li> </ul>

## Key audit matters (Continued)

### Revenue recognition: Fee and commission income (Continued)

Refer to note 5 to the consolidated financial statements and the accounting policies on page 270.

The Key Audit Matter	How the matter was addressed in our audit
	<ul style="list-style-type: none"> <li data-bbox="874 577 1433 743">— based on our understanding of the completion status of the selected projects, comparing the fees recognised with details in the relevant client service agreement to assess whether the revenue was recognised in the appropriate accounting period;</li> <li data-bbox="834 771 1433 1110">• assessing, on a sample basis, whether revenue transactions around the financial year end had been recognised in the appropriate financial period by: (i) comparing brokerage commission income calculated automatically on the trade date basis in the brokerage trading system with the related revenue recognised in the revenue ledger; and (ii) inspecting terms in client service agreements in respect of the nature, basis of calculation and timing of revenue recognition for asset management fees, underwriting and sponsoring fees, and financial advisory fees;</li> <li data-bbox="834 1138 1433 1272">• inspecting manual adjustments to revenue raised during and after the reporting period, enquiring of management about the reasons for such adjustments and comparing the details of the adjustments to relevant underlying documentation;</li> <li data-bbox="834 1300 1433 1638">• for the key underlying systems used for the processing of transactions in relation to fee and commission income, utilising our information technology (“IT”) specialists to assess the design, implementation and operating effectiveness of a selection of relevant automated controls within these systems. We also assessed the design, implementation and operating effectiveness of the general IT controls over these underlying systems, including controls over access to these systems and controls over data, program change and computer operation.</li> </ul>

## Key audit matters (Continued)

### Assessing the fair value of financial instruments

Refer to note 61 to the consolidated financial statements and the accounting policies on page 258.

The Key Audit Matter	How the matter was addressed in our audit
<p>As at 31 December 2016, the fair value of the Group's financial assets and financial liabilities totalled RMB126,950 million and RMB28,784 million respectively. Financial assets of RMB59,460 million and financial liabilities of RMB1,555 million were classified under the fair value hierarchy as level 1, financial assets of RMB56,084 million and financial liabilities of RMB15,778 million were classified as level 2 and financial assets of RMB11,407 million and financial liabilities of RMB11,451 million were classified as level 3.</p> <p>The valuation of the Group's financial instruments is based on a combination of market data and valuation models which often require a considerable number of inputs.</p> <p>Many of these inputs are obtained from readily available data for liquid markets. Where such observable data is not readily available, as in the case of certain level 2 and level 3 financial instruments, estimates need to be developed which can involve significant management judgement.</p> <p>We identified assessing the fair value of financial instruments as a key audit matter because of the degree of complexity involved in valuing certain financial instruments and because of the significant degree of judgement exercised by management in determining the inputs used in the valuation models.</p>	<p>Our audit procedures to assess the fair value of financial instruments included the following:</p> <ul style="list-style-type: none"> <li>• assessing the design, implementation and operating effectiveness of key internal controls over the valuation, independent price verification and valuation model approval for financial instruments;</li> <li>• assessing the fair values of all financial instruments traded in active markets by comparing the fair values applied by the Group with publicly available market data;</li> <li>• reading investment agreements entered into during the current year, for a sample of level 2 and level 3 financial instruments to understand the relevant investment terms and identify any conditions that were relevant to the valuation of financial instruments;</li> <li>• engaging our internal valuation specialists to assist us in evaluating the valuation models used by the Group to value certain level 2 and level 3 financial instruments and to perform, on a sample basis, independent valuations of level 2 and level 3 financial instruments and compare these valuations with the Group's valuations. This included comparing the Group's valuation models with our knowledge of current market practice, testing inputs to the fair value calculations and establishing our own valuation models to perform revaluations;</li> <li>• assessing whether the disclosures in the consolidated financial statements reflected the Group's exposure to financial instrument valuation risk with reference to the requirements of the prevailing accounting standards.</li> </ul>

## Key audit matters (Continued)

### Consolidation of structured entities

Refer to note 56 to the consolidated financial statements and the accounting policies on page 275.

The Key Audit Matter	How the matter was addressed in our audit
<p>Structured entities are generally created to achieve a narrow and well defined objective with restrictions around their ongoing activities. The Group may acquire or retain an ownership interest in, or act as a sponsor of, a structured entity through issuing or acquiring a wealth management product, an investment fund, an asset management scheme, a trust scheme or an asset-backed security.</p> <p>In determining whether a structured entity is required to be consolidated by the Group, management is required to consider the power the Group is able to exercise over the activities of the entity and its exposure to and ability to influence its own returns from the entity. In certain circumstances the Group may be required to consolidate a structured entity even though it has no equity interest therein.</p> <p>The factors which management needs to consider when determining whether a structured entity should be consolidated or not are not purely quantitative and need to be considered collectively.</p> <p>As at 31 December 2016, the carrying amount of the Group's interests in structured entities sponsored by third party institutions which the Group did not consolidate was RMB53,555 million whilst the carrying amounts of the Group's interests in structured entities sponsored by the Group which the Group did and did not consolidate were RMB6,808 million and RMB570 million, respectively.</p> <p>We identified the consolidation of structured entities as a key audit matter because it involves significant management judgement in determining whether a structured entity is required to be consolidated by the Group or not and because the impact of consolidating a structured entity on the consolidated statement of financial position could be significant.</p>	<p>Our audit procedures to assess the consolidation of structured entities included the following:</p> <ul style="list-style-type: none"> <li>• making enquiries of management and inspecting relevant documents used by management relating to the judgement process over whether a structured entity is consolidated or not to assess whether the Group has a robust process in this regard;</li> <li>• selecting a sample of structured entities for each key product type and performing the following procedures for each item selected: <ul style="list-style-type: none"> <li>— inspecting the related contracts and internal documents to understand the purpose of the establishment of the structured entity and the involvement the Group has with the structured entity and to assess management's judgement over whether the Group has the ability to exercise power over the structured entity;</li> <li>— evaluating the risk and reward structure of the structured entity including any capital or return guarantee, commission paid and distribution of the returns to assess management's judgement as to exposure, or rights, to variable returns from the Group's involvement in such an entity;</li> <li>— evaluating management's analysis of the structured entity including qualitative analysis and calculations of the magnitude and variability associated with its economic interests in the structured entity to assess management's judgement over the Group's ability to influence its own returns from the structured entity;</li> <li>— evaluating management's judgement over whether the structured entity should be consolidated or not;</li> </ul> </li> <li>• assessing the disclosures in the consolidated financial statements in relation to structured entities with reference to the requirements of the prevailing accounting standards.</li> </ul>

## Key audit matters (Continued)

**Recognition of goodwill and intangible assets arising from the acquisition of AssetMark Financial Holdings, Inc. (“AssetMark”)**

Refer to note 22, note 23 and note 24 (c) to the consolidated financial statements and the accounting policies on pages 255 and 265.

The Key Audit Matter	How the matter was addressed in our audit
<p>The Group acquired a 98.952% equity interest in AssetMark on 31 October 2016 through Huatai Financial Holdings (Hong Kong) Limited, a subsidiary of the Group, for a consideration of approximately USD768 million (equivalent to RMB5,198 million).</p> <p>Management engaged an external appraiser to assess the fair value of the intangible assets acquired and recognised intangibles assets, which mainly comprised existing relationships with broker-dealers and trade names, based on a purchase price allocation report issued by the external appraiser. In determining the fair value of the acquired intangible assets, valuation models, which included discounted cash flow forecasts, were prepared by the external appraiser with reference to financial information compiled by management.</p> <p>The preparation of discounted cash flow forecasts involves the exercise of significant judgement and estimation, in particular in determining the key inputs, which included assets under management, budgeted income, the long-term growth rate, profit margins and the discount rates applied.</p>	<p>Our audit procedures to assess the recognition of goodwill and intangible assets arising from the acquisition of AssetMark included the following:</p> <ul style="list-style-type: none"> <li>• inspecting the acquisition agreement, the board resolution in connection with the acquisition and other relevant documents to identify the key transaction terms and conditions, including the purchase consideration and the completion date, which are relevant in considering the accounting treatment for the acquisition;</li> <li>• comparing details of the consideration transferred with bank statements, bank remittance slips and other relevant documentation;</li> <li>• evaluating the competence, capabilities and objectivity of the external appraiser appointed by management to assess the fair value of the intangible assets acquired;</li> <li>• engaging our internal valuation specialists to assist us in evaluating the valuation methodologies and the key assumptions adopted in the valuation models, with reference to the requirements of the prevailing accounting standards;</li> </ul>

## Key audit matters (Continued)

**Recognition of goodwill and intangible assets arising from the acquisition of AssetMark Financial Holdings, Inc. (“AssetMark”) (Continued)**

Refer to note 22, note 23 and note 24 (c) to the consolidated financial statements and the accounting policies on pages 255 and 265.

The Key Audit Matter	How the matter was addressed in our audit
<p>The Group recognised the excess of the fair value of the consideration transferred over the fair value of the net identifiable assets acquired as goodwill in the consolidated financial statements.</p> <p>As at 31 October 2016, the carrying values of the related goodwill and intangible assets were RMB1,989 million and RMB4,959 million, respectively.</p> <p>We identified assessing the recognition of goodwill and intangible assets arising from the acquisition of AssetMark as a key audit matter because of their significance to the consolidated financial statements and because estimating the fair value of goodwill and identifiable intangible assets arising from the acquisition is highly subjective as significant judgement and estimation is required to be exercised.</p>	<ul style="list-style-type: none"> <li>• challenging the key assumptions and critical judgements adopted in the valuation models by comparing key inputs, which included assets under management, budgeted income, the long-term growth rate and profit margins with historical performance, financial forecasts approved by the Board of Directors, recent business pipeline reports, industry research reports and industry statistics;</li> <li>• evaluating the discount rates applied in the discounted cash flow forecasts by comparing the discount rates in the purchase price allocation report with discount rates we calculated based on market data for similar companies in the same industry;</li> <li>• re-performing the mathematical calculation of goodwill prepared by management and evaluating whether goodwill and intangible assets arising from the acquisition were recognised with reference to the requirements of the prevailing accounting standards;</li> <li>• considering the disclosures in connection with goodwill and intangible assets arising from the acquisition of AssetMark in the consolidated financial statements with reference to the requirements of the prevailing accounting standards.</li> </ul>

## Information other than the consolidated financial statements and auditor's report thereon

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

## Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Pang Shing Chor Eric.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 1 General information

Huatai Securities Co., Ltd. (the “Company”), formerly known as Jiangsu Securities Company, was approved by the People’s Bank of China (“PBOC”), and registered with the Administration for Industry and Commerce of Jiangsu Province on 9 April 1991, with a registered capital of RMB10 million. The Company was renamed as Huatai Securities Limited Liability Company on 21 December 1999 and then renamed as Huatai Securities Co., Ltd. on 7 December 2007 as a result of the conversion into a joint stock limited liability company.

The Company publicly issued RMB784,561 thousand ordinary shares (A shares) in February 2010, and was listed on the Shanghai Stock Exchange on 26 February 2010.

In June 2015, the Company issued RMB1,562,769 thousand H shares, which were listed on the main board of The Stock Exchange of Hong Kong Limited (the “Hong Kong Stock Exchange”).

As at 31 December 2016, the Company’s registered capital was RMB7,162,769 thousand and the Company has a total of 7,162,769 thousand issued shares of RMB1 each.

The Company and its subsidiaries (the “Group”) principally engaged in securities brokerage, securities proprietary trading, securities underwriting and sponsorship, securities investment advisory, asset management, margin financing and securities lending, agency sale of financial products, intermediary introduction business for the futures companies, agency sale and custody of securities investment fund, mutual fund management, brokerage of spot contracts for precious metal such as gold, proprietary trading of spot contract for gold, direct investment business, alternative investment business, stock option market making, futures brokerage business, industrial investment, import and export of commodity, entrepot trade, commodity sales service, hotel operation and other business activities as approved by the China Securities Regulatory Commission (“CSRC”).

## 2 Basis of preparation

### (1) Statement of compliance

These financial statements have been prepared in accordance with all applicable International Financial Reporting Standards (“IFRSs”), which collective term includes International Accounting Standards and related interpretations promulgated by the International Accounting Standards Board (the “IASB”) and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”). A summary of the significant accounting policies adopted by the Group are set out below.

The IASB has issued a number of new and revised IFRSs. For the purpose of preparing the financial statements, the Group has adopted all applicable new and revised IFRSs to the year ended 31 December 2016, except for any new standards or interpretations that are not yet effective for the accounting period ended 31 December 2016. The revised and new accounting standards and interpretations issued but not yet effective for the accounting period ended 31 December 2016 are set out in Note 63.

## 2 Basis of preparation (continued)

### (2) Basis of measurement

The financial statements has been prepared on the historical cost basis except that the following assets and liabilities are measured at their fair value: financial derivatives, non-derivative financial assets and liabilities at fair value through profit or loss and available-for-sale financial assets. The methods used to measure fair value are discussed further in Note 3(e).

### (3) Functional and presentation currency

The financial statements is presented in Renminbi ("RMB"), which is the functional currency of the Group. All financial information presented in RMB has been rounded to the nearest thousand, except when otherwise indicated. The Group translates the financial statements of subsidiaries from their respective functional currencies into the Group's functional currency if the subsidiaries' functional currencies are not the same as that of the Group.

### (4) Use of estimates and judgments

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Judgments made by management in the application of IFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 3(y).

## 3 Significant accounting policies

### (a) Basis of consolidation

#### (i) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised gains arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meet the definition of a financial liability.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (a) Basis of consolidation (continued)

#### (i) Subsidiaries and non-controlling interests (continued)

Non-controlling interests are presented in the consolidated statements of financial position within equity, separately from equity attributable to the shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated income statements and the consolidated statements of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the reporting period between non-controlling interests and the shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 3(e)) or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture (see Note 3(a) (ii)).

In 's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 3(l)), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

#### (ii) Associates and joint ventures

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

A joint venture is an arrangement whereby the Group or Company and other parties contractually agree to share control of the arrangement, and have rights to the net assets of the arrangement.

An investment in an associate or a joint venture is accounted for in the consolidated financial statements under the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale). Under the equity method, the investment is initially recorded at cost, adjusted for any excess of the Group's share of the acquisition-date fair values of the investee's identifiable net assets over the cost of the investment (if any). Thereafter, the investment is adjusted for the post acquisition change in the Group's share of the investee's net assets and any impairment loss relating to the investment (see Note 3(b) and (l)). Any acquisition-date excess over cost, the Group's share of the post-acquisition, post-tax results of the investees and any impairment losses for the year are recognised in profit or loss, whereas the Group's share of the post-acquisition post-tax items of the investees' other comprehensive income is recognised in other comprehensive income.

When the Group's share of losses exceeds its interest in the associate or the joint venture, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the investee. For this purpose, the Group's interest is the carrying amount of the investment under the equity method together with the Group's long-term interests that in substance form part of the Group's net investment in the associate or the joint venture.

### 3 Significant accounting policies (continued)

#### (a) Basis of consolidation (continued)

##### (ii) Associates and joint ventures (continued)

Unrealised profits and losses resulting from transactions between the Group and its associates and joint venture are eliminated to the extent of the Group's interest in the investee, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

If an investment in an associate becomes an investment in a joint venture or vice versa, retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method.

In all other cases, when the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in that investee, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former investee at the date when significant influence or joint control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 3(e)).

In the Company's statement of financial position, investments in associates and joint venture of the Company are accounted for using the equity method, unless it is classified as held for sale (or included in a disposal group that is classified as held for sale).

#### (b) Goodwill

Goodwill represents the excess of:

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit ("CGU"), or groups of CGUs, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see Note 3(l)).

On disposal of a CGU during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

#### (c) Foreign currency

When the Group receives capital in foreign currencies from investors, the capital is translated to RMB at the spot exchange rate on the date of receipt. Other foreign currency transactions are, on initial recognition, translated to RMB at the spot exchange rates or the rates that approximate the spot exchange rates on the dates of the transactions.

A spot exchange rate is an exchange rate quoted by the PBOC, the State Administrative of Foreign Exchange or a cross rate determined based on quoted exchange rates. A rate that approximates the spot exchange rate is a rate determined under a systematic and rational method, normally the average exchange rate of the current period.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (c) Foreign currency (continued)

Monetary items denominated in foreign currencies are translated to RMB at the spot exchange rate at the end of the reporting period. The resulting exchange differences are recognised in profit or loss. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated to RMB using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rate at the date the fair value is determined; the resulting exchange differences are recognised in profit or loss, except for the differences arising from the translation of available-for-sale financial assets, which are recognised as other comprehensive income in capital reserve.

The assets and liabilities of foreign operation are translated to RMB at the spot exchange rate at the end of reporting period. The equity items, excluding “retained profits”, are translated to RMB at the spot exchange rates at the transaction dates. The income and expenses of foreign operation are translated to RMB at the spot exchange rates or the rates that approximate the spot exchange rates at the transaction dates. The resulting translation differences are recognised in other comprehensive income, and presented in the foreign currency translation reserve (translation reserve) in equity. Upon disposal of a foreign operation, the cumulative amount of the translation differences recognised in shareholders’ equity which relates to that foreign operation is transferred to profit or loss in the period in which the disposal occurs.

### (d) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, and short-term, highly liquid investments, which are readily convertible into known amounts of cash and are subject to insignificant risk of change in value.

### (e) Financial instruments

#### (i) Recognition and measurement of financial assets and financial liabilities

A financial asset or financial liability is recognised in the statements of financial position when the Group becomes a party to the contractual provisions of a financial instrument.

The Group classifies financial assets and liabilities into different categories at initial recognition based on the purpose of acquiring assets or assuming liabilities: financial assets and financial liabilities at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets and other financial liabilities.

Financial assets and financial liabilities are measured initially at fair value. For financial assets and financial liabilities at fair value through profit or loss, any directly attributable transaction costs are charged to profit or loss; for other categories of financial assets and financial liabilities, any attributable transaction costs are included in their initial costs.

Financial assets and financial liabilities are categorised as follows:

Financial assets and financial liabilities at fair value through profit or loss (including financial assets or financial liabilities held for trading)

A financial asset or financial liability is classified at fair value through profit or loss if it is acquired or incurred principally for the purpose of selling or repurchasing in the near term, a financial instrument managed in a pattern of short-term profit taking, a derivative, or if it is designated at fair value through profit or loss.

### 3 Significant accounting policies (continued)

#### (e) Financial instruments (continued)

##### (i) Recognition and measurement of financial assets and financial liabilities (continued)

Financial assets and financial liabilities are designated at fair value through profit or loss upon initial recognition when:

- the financial assets or financial liabilities are managed, evaluated and reported internally on a fair value basis;
- the designation eliminates or significantly reduces the discrepancies in the recognition or measurement of relevant gains or losses arising from the different basis of measurement of the financial assets or financial liabilities;
- the financial assets or financial liabilities contains an embedded derivative that significantly modifies the cash flows that would otherwise be required under the contract; or
- the separation of the embedded derivatives from the financial instrument is prohibited.

Subsequent to initial recognition, financial assets and financial liabilities at fair value through profit or loss are measured at fair value, without any deduction for transaction costs that may occur on sale, and changes therein are recognised in profit or loss.

##### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses (see Note 3(e)(iii)).

##### Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Group has the positive intention and ability to hold to maturity, other than

- those that the Group, upon initial recognition, designated as at fair value through profit or loss or as available-for-sale; or
- those that meet the definition of loans and receivables.

Held-to-maturity investments are carried at amortised cost using the effective interest method, less any impairment losses (see Note 3(e)(iii)). A sale or reclassification of a more than insignificant amount of held-to-maturity investments would result in the reclassification of all held-to-maturity investments as available-for-sale, and would prevent the Group from classifying investment securities as held-to-maturity for the current and the following two financial years. However, sales and reclassifications in any of the following circumstances would not trigger a reclassification:

- sales or reclassifications that are so close to maturity that changes in the market rate of interest would not have a significant effect on the financial asset's fair value;
- sales or reclassifications after the Group has collected substantially all of the asset's original principal; and
- sales or reclassifications that are attributable to non-recurring isolated events beyond the Group's control that could not have been reasonably anticipated.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (e) Financial instruments (continued)

#### (i) Recognition and measurement of financial assets and financial liabilities (continued)

##### Available-for-sale financial assets

Available-for-sale financial assets include non-derivative financial assets that are designated as available-for-sale or are not classified as another category of financial assets. Available-for-sale investments comprise equity securities and debt securities. Unquoted equity securities whose fair value cannot be measured reliably are carried at cost. All other available-for-sale investments are measured at fair value after initial recognition.

Interest income is recognised in profit or loss using the effective interest method. Dividend income is recognised in profit or loss when the Group becomes entitled to the dividend (see Note 3(s)(vi)). Impairment losses are recognised in profit or loss (see Note 3(e)(iii)).

Other fair value changes, other than impairment losses (see Note 3(e)(iii)), are recognised in other comprehensive income and presented in the fair value reserve within equity. When the investment is derecognised, the gain or loss accumulated in equity is reclassified to profit or loss.

##### Other financial liabilities

Financial liabilities other than the financial liabilities at fair value through profit or loss are classified as other financial liabilities.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method.

#### (ii) Fair value measurement

If there is an active market for a financial asset or financial liability, the quoted market price without adjusting for transaction costs that may be incurred upon future disposal or settlement is used to establish the fair value of the financial asset or financial liability. For a financial asset held or a financial liability to be assumed, the quoted price is the current bid price. For a financial asset to be acquired or a financial liability assumed, the quoted price is the current asking price. Quoted prices from an active market are prices that are readily and regularly available from an exchange, dealer, broker, industry group or pricing service agency, and represent actual and regularly occurring market transactions on an arm's length basis.

If no active market exists for a financial instrument, a valuation technique is used to establish the fair value. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. Where discounted cash flow technique is used, future cash flows are estimated based on management's best estimates and the discount rate used is the prevailing market rate applicable for instrument with similar terms and conditions at the end of the reporting period. Where other pricing models are used, inputs are based on market data at the end of the reporting period.

In estimating the fair value of a financial asset and financial liability, the Group considers all factors including, but not limited to, risk-free interest rate, credit risk, foreign exchange rate and market volatility, that are likely to affect the fair value of the financial asset and financial liability.

The Group obtains market data from the same market where the financial instrument was originated or purchased.

### 3 Significant accounting policies (continued)

#### (e) Financial instruments (continued)

##### (iii) Impairment of financial assets

The carrying amounts of financial assets other than those at fair value through profit or loss are reviewed by the Group at the end of the reporting period to determine whether there is objective evidence of impairment. If any such evidence exists, impairment losses are provided. Objective evidence of impairment in the financial asset represents events that occur after the initial recognition of the financial assets and have impact on the estimated future cash flows of the asset, which can be estimated reliably.

Objective evidence that financial assets are impaired includes, but not limited to:

- significant financial difficulty of the borrower or issuer;
- a breach of contract by the borrower, such as a default or delinquency in interest or principal payments;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- disappearance of an active market for financial assets because of financial difficulties of the issuer;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the borrower; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

##### Loans and receivables

The Group assess impairment losses on a collective basis. Loans and receivables are grouped for similar aging characteristics for collective assessment. The objective evidence of impairment mainly includes that, though it is unable to identify the decrease of cash flow of each individual asset, after collective assessment based on observable data, there is observable evidence indicating that there is a measurable decrease in the estimated future cash flow from a group of financial assets since the initial recognition of those assets.

##### Held-to-maturity investments

The impairment loss is calculated based on the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate. All impairment losses are recognised in profit or loss.

If, in a subsequent period the amount of an impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. The reversal shall not result in a carrying amount of the financial asset that exceeds the amortised cost at the date of the reversal had the impairment not been recognised.

##### Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognised by reclassifying the losses accumulated in the fair value reserve in equity to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost net of any principal repayment and amortisation and the current fair value, less any impairment loss recognised previously in profit or loss. Changes in cumulative impairment losses attributable to application of the effective interest method are reflected as a component of interest income.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (e) Financial instruments (continued)

#### (iii) Impairment of financial assets (continued)

##### Available-for-sale financial assets (continued)

For the available-for-sale equity investment, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. The determination of what is “significant” or “prolonged” requires judgement. “Significant” is evaluated against the original cost of the investment and “prolonged” against the period in which the fair value has been below its original cost. The Group generally considers a significant decline to be one in which the fair value is below its original cost by 50% or more or a prolonged decline to be one in which fair value is below cost in declining trend for 12 months or longer, upon which impairment loss is recognised. The Group also takes into consideration of other specific relevant factors through the whole investing period when assessing whether there is objective evidence that the available-for-sale equity investment is under a significant or prolonged decline in the fair value.

If, in a subsequent period, the fair value of an impaired available-for-sale debt investments increases and the increase can be related objectively to an event occurring after the impairment loss was recognised, then the impairment loss is reversed, with the amount of the reversal recognised in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity investment is recognised in other comprehensive income.

For investments in equity instruments measured at cost, the amount of any impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset and recognised in profit or loss. Any impairment loss in respect of available-for-sale equity investments carried at cost should not be reversed.

#### (iv) Derecognition of financial assets and financial liabilities

Financial assets (or a part of a financial asset or group of financial assets) are derecognised when the financial assets meet one of the following conditions:

- the contractual rights to the cash flows from the financial asset expire; or
- the Group transfers substantially all the risks and rewards of ownership of the financial assets or where substantially all the risks and rewards of ownership of a financial asset are neither retained nor transferred, the control over that asset is relinquished.

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but retains control, the Group continues to recognise the financial asset and relevant liability to the extent of its continuing involvement in the financial asset.

The financial liability (or part of it) is derecognised only when the underlying present obligation (or part of it) specified in the contracts is discharged, cancelled or expired. An agreement between the Group and an existing lender to replace the original financial liability with a new financial liability with substantially different terms, or a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and recognition of a new financial liability. The difference between the carrying amount of the derecognised financial liability and the consideration paid is recognised in profit or loss.

### 3 Significant accounting policies (continued)

#### (e) Financial instruments (continued)

##### (v) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position when the Group has a legally enforceable right to set off the recognised amounts and the transactions are intended to be settled on a net basis, or by realising the asset and settling the liability simultaneously.

##### (vi) Equity instruments

An equity instrument is a contract that proves the ownership interest of the residual assets after deducting all liabilities of the Group. Considerations received from issuance of equity instruments net of transaction costs are recognised in equity. Considerations and transaction costs paid by the Group for repurchasing its own equity instruments are deducted from equity.

##### (vii) Derivative financial instruments

Derivative financial instruments are initially measured at fair value at the date a derivative contract is entered into and are subsequently measured at fair value. Changes in fair value of these derivative financial instruments other than those designed as hedge instrument are recognised in profit or loss. Fair values are obtained from quoted market prices in active market or are determined using valuation techniques, including discounted cash flow model and options pricing model as appropriate.

All derivatives are recognised as assets when the fair value is positive and as liabilities when the fair value is negative.

Derivative embedded in non-derivative host contracts are treated as separate derivative when their characteristics and risks are not closely related to those of the host contracts and the host contracts are not measured at fair value with changes in fair value recognised in profit or loss. These embedded derivatives are separately accounted for at fair value, with changes in fair value recognised in profit or loss.

##### (viii) Asset-backed securities

The Group securitises the financial assets, which generally results in the sale of these financial assets to structured entities. The structured entities in turn issue asset-backed securities to investors. Interests in the securitised financial assets may be retained in the form of senior or subordinated tranches, or other residual interests. For asset securitisation business, the Group has applied the accounting policies set out in Note 3(a) when assessing consolidation of the structured entities and applied the accounting policies described in Note 3(e)(iv) when assessing whether or not to derecognise the transferred financial assets.

#### (f) Margin financing and securities lending

Margin financing and securities lending refer to the lending of funds by the Group to customers for purchase of securities, or lending of securities by the Group to customers for securities selling, for which the customers provide the Group with collateral.

The Group recognises margin financing receivables as loans and receivables, and recognises interest income using effective interest rate method. Securities lent are not derecognised when the risk and rewards are not transferred, and interest income is recognised using effective interest rate method.

Securities trading on behalf of margin financing or securities lending customers are accounted for as securities brokerage business.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (g) Financial assets held under resale and sold under repurchase agreements

Financial assets held under resale agreements are transactions where the Group acquires financial assets which will be resold at a predetermined price at a future date under resale agreements. Financial assets sold under repurchase agreements are transactions where the Group sells financial assets which will be repurchased at a predetermined price at a future date under repurchase agreements.

The cash advanced or received is recognised as amounts held under resale or sold under repurchase agreements in the statement of financial position. Assets held under resale agreements are recorded in memorandum accounts as off-balance sheet items. Assets sold under repurchase agreements continue to be recognised in the statement of financial position.

The difference between the purchase and resale consideration, and that between the sale and repurchase consideration, is amortised over the period of the respective transaction using the effective interest method and is included in interest income and interest expenses respectively.

### (h) Investments in subsidiaries

In the Group's consolidated financial statements, investments in subsidiaries are accounted for in accordance with the principles described in Note 3(a).

In the Company's statements of financial position, investments in subsidiaries are accounted for using the cost method. The investment is stated at cost less impairment loss (Note 3(l)) in the statements of financial position. Except for declared but not yet distributed cash dividends or profits distribution that have been included in the price or consideration paid in obtaining the investments, the Group recognises its share of the cash dividends or profit distribution declared by the investees as investment income.

### (i) Property and equipment and construction in progress

#### (i) Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the following:

- the cost of materials and direct labour;
- any other costs directly attributable to bringing the assets to a working condition for their intended use;
- when the Group has an obligation to remove the asset or restore the site, an estimate of the costs of dismantling and removing the items and restoring the site on which they are located; and
- capitalised borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. When parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

### 3 Significant accounting policies (continued)

#### (i) Property and equipment and construction in progress (continued)

##### (i) Recognition and measurement (continued)

Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

Costs of construction in progress are determined based on the actual expenditures incurred which include all necessary expenditures incurred during the construction period, borrowing costs eligible for capitalisation and other costs incurred to bring the asset to its intended use.

Items classified as construction in progress are transferred to property and equipment when such assets are ready for their intended use.

##### (ii) Subsequent costs

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

##### (iii) Depreciation

Items of property and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the asset is completed and ready for use.

Depreciation is calculated to write off the cost of items of property and equipment less their estimated residual values using the straight-line basis over their estimated useful lives.

Depreciation is generally recognised in profit or loss, unless the amount is included in the carrying amount of another asset. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term.

The estimated useful lives for the current and comparative years of significant items of property and equipment are as follows:

Types of assets	Estimated useful lives	Estimated residual values	Depreciation rates
Buildings	30–50 years	3%	1.94%–3.23%
Motor vehicles	3–8 years	3%	12.13%–32.33%
Electronic equipment	5 years	3%	19.40%
Furniture and fixtures	2–5 years	3%	19.40%–48.50%

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (j) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment property is accounted for using the cost model and stated in the financial statements at cost less accumulated depreciation, and impairment losses (see Note 3(l)). The cost of investment property, less its estimated residual value and accumulated impairment losses, is depreciated using the straight-line method over its estimated useful life, unless the investment property is classified as held for sale.

	Estimated useful lives	Estimated residual values	Depreciation rates
Investment property	30–35 years	3%	2.77%–3.23%

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalised borrowing costs.

### (k) Other intangible assets

Intangible assets are stated at cost less accumulated amortisation (where the estimated useful life is finite) and impairment loss (see Note 3(l)). For an intangible asset with finite useful life, its cost less impairment loss is amortised on the straight-line method over its estimated useful life.

The respective amortisation periods for intangible assets are as follows:

Types of assets	Estimated useful lives
Existing relationships with broker-dealers	Indefinite
Land-use right	50 years
Trade names	20 years
Software and others	2–20 years

An intangible asset is regarded as having an indefinite useful life and is not amortised when there is no foreseeable limit to the period over which the asset is expected to generate economic benefits for the Group.

### 3 Significant accounting policies (continued)

#### (l) Impairment of non-financial assets

The carrying amounts of the following assets are reviewed at each reporting date to determine whether there is any indication of impairment:

- property and equipment
- investment property
- other intangible assets
- equity investment in subsidiaries, associates and joint venture
- goodwill
- leasehold improvements and long-term deferred expenses

If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and indefinite-lived intangible assets are tested annually for impairment. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Subject to an operating segment ceiling test, CGUs to which goodwill has been allocated are aggregated so that the level at which impairment testing is performed reflects the lowest level at which goodwill is monitored for internal reporting purposes. Goodwill acquired in a business combination is allocated to groups of CGUs that are expected to benefit from the synergies of the combination.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the CGU (group of CGUs), and then to reduce the carrying amounts of the other assets in the CGU (group of CGUs) on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (m) Employee benefits

#### (i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

#### (ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in profit or loss in the periods during which related services are rendered by employees.

#### (iii) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits other than pension plans is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value, and the fair value of any related assets is deducted. The discount rate is the yield at the reporting date on corporate bonds, which have a credit rating of at least AA from rating agency, that have maturity dates approximating the terms of the Group's obligations and that are denominated in the currency in which the benefits are expected to be paid. The calculation is performed using the projected unit credit method. Any actuarial gains and losses are recognised in profit or loss in the period in which they arise.

#### (iv) Termination benefits

Termination benefits are recognised as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the Group has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting date, then they are discounted to their present value.

### (n) Share-based payments

#### (i) Classification of share-based payments

Share-based payment transactions in the Group are cash-settled share-based payments.

### 3 Significant accounting policies (continued)

#### (n) Share-based payments (continued)

##### (ii) Accounting treatment of share-based payments

- cash-settled share-based payments

Where the Group receives services from employees by incurring a liability to deliver cash or other assets for amounts that are determined based on the price of shares or other equity instruments, the service received from employees is measured at the fair value of the liability incurred. If a cash-settled share-based payment do not vest until the completion of services for a period, or until the achievement of a specified performance condition, the Group recognises costs or expenses as services are received, with a corresponding increase in liability, at an amount equal to the fair value of the liability based on the best estimate of the outcome of vesting. Until the liability is settled, the Group will remeasure the fair value of the liability at each balance sheet date and at the date of settlement, with changes recognised in profit or loss for the current period.

When the Group receives services and has the obligation to settle the transaction, but the relevant equity instruments are issued by the Company's ultimate parent or its subsidiaries outside the Group, the Group classifies the transaction as cash-settled.

#### (o) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

##### (i) Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current tax payable also includes any tax liability arising from the declaration of dividends.

##### (ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (o) Income tax (continued)

#### (ii) Deferred tax (continued)

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. For investment property that is measured at fair value, the presumption that the carrying amount of the investment property will be recovered through sale has not been rebutted.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### (iii) Tax exposures

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

### (p) Operating leases

#### (i) Operating lease charges

Rental payments under operating leases are recognised as costs or expenses on a straight-line basis over the lease term. Contingent rental payments are recognised as expenses in the accounting period in which they are incurred.

#### (ii) Assets leased out under operating leases

Property and equipment leased out under operating leases are depreciated in accordance with the Group's depreciation policies described in Note 3(i)(iii). Impairment losses are recognised in accordance with the accounting policies described in Note 3(l). Income derived from operating leases is recognised in the profit or loss using the straight-line method over the lease term. If initial direct costs incurred in respect of the assets leased out are material, the costs are initially capitalised and subsequently amortised in profit or loss over the lease term on the same basis as the lease income. Otherwise, the costs are charged to profit or loss immediately. Contingent rentals are recognised as income in the accounting period in which they are earned.

### 3 Significant accounting policies (continued)

#### (q) Provisions and contingent liabilities

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

#### (r) Fiduciary activities

The Group acts in a fiduciary activity as a manager, a custodian, or an agent for customers. Assets held by the Group and the related undertakings to return such assets to customers are recorded as off-balance sheet items as the risks and rewards of the assets reside with customers.

#### (s) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for services provided in the normal course of business. Revenue is recognised when it is probable that the economic benefits will flow to the Group and when revenue can be measured reliably, on the following basis:

##### (i) Commission income from brokerage business

Brokerage commission income is recognised on a trade date basis when the relevant transactions are executed. Handling and settlement fee income arising from brokerage business is recognised when the related services are rendered.

##### (ii) Underwriting and sponsor fees

Underwriting and sponsor fees are recognised when the obligation of underwriting or sponsorship is completed, that is, the economic interests may flow into the Group and the relevant revenue and costs may be calculated reliably.

##### (iii) Advisory fees

Revenue arising from advisory services is recognised on completion of such services.

##### (iv) Asset management fees

Asset management fees are recognised when the Group is entitled to receive the income under the asset management agreement.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (s) Revenue recognition (continued)

#### (v) Interest income

Interest income is recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash receipts and payments through the expected life of the financial asset. The effective interest rate is established on initial recognition of the financial asset and is not revised subsequently.

The calculation of the effective interest rate includes all fees paid or received, transaction costs, and discounts or premiums that are an integral part of the effective interest rate. Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset.

#### (vi) Dividend income

Dividend income is recognised when the right to receive income is established. Usually this is the ex-dividend date for equity investments.

#### (vii) Other income

Other income is recognised on an accrual basis.

### (t) Expenses recognition

#### (i) Commission expenses

Commission expenses relate mainly to transactions, which are recognised as expenses when the services are received.

#### (ii) Interest expenses

Interest expenses are recognised based on the principal outstanding and at the effective interest rate applicable.

#### (iii) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the terms of the respective leases. Lease incentives received are recognised as an integral part of the total lease expenses, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

### 3 Significant accounting policies (continued)

#### (t) Expenses recognition (continued)

##### (iv) Other expenses (continued)

Other expenses are recognised on an accrual basis.

#### (u) Dividend distribution

Dividends or profit distributions proposed in the profit appropriation plan, which will be authorised and declared after the end of the reporting period, are not recognised as a liability at the end of the reporting period but disclosed in the notes to the financial statements separately.

#### (v) Government grants

Government grants are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received and the Group will comply with the conditions associated with the grant, and are then recognised in profit or loss as other income on a systematic basis over the useful life of the asset.

Grants that compensate the Group for expenses incurred are recognised in profit or loss as other income on a systematic basis in the periods in which the expenses are recognised.

#### (w) Related parties

(i) A person, or a close member of that person's family, is related to the Group if that person:

- (1) has control or joint control over the Group;
- (2) has significant influence over the Group; or
- (3) is a member of the key management personnel of the Group or the Group's parent.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (w) Related parties (continued)

(ii) An entity is related to the Group if any of the following conditions applies:

- (1) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
- (2) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
- (3) Both entities are joint ventures of the same third party.
- (4) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
- (5) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
- (6) The entity is controlled or jointly controlled by a person identified in (i).
- (7) A person identified in (i)(1) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
- (8) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

### (x) Segment reporting

Reportable segments are identified based on operating segments which are determined based on the structure of the Group's internal organisation, management requirements and internal reporting system. An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, whose financial performance are regularly reviewed by the Group's management to make decisions about resource to be allocated to the segment and assess its performance, and for which financial information regarding financial position, financial performance and cash flows is available.

Two or more operating segments may be aggregated into a single operating segment if the segments have same or similar economic characteristics and are similar in respect of the nature of each products and service, the nature of production processes, the type or class of customers for the products and services, the methods used to distribute the products or provide the services, and the nature of the regulatory environment.

Inter-segment revenues are measured on the basis of actual transaction price for such transactions for segment reporting, and segment accounting policies are consistent with those for the consolidated financial statements.

### 3 Significant accounting policies (continued)

#### (y) Significant accounting estimates and judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

##### (i) Impairment of available-for-sale financial assets and held-to-maturity investments

In determining whether there is any objective evidence that impairment has occurred on available-for-sale financial assets and held-to-maturity investments, we assess periodically whether there has been a significant or prolonged decline in the fair value of the investments below its cost or carrying amount, or whether other objective evidence of impairment exists based on the investee's financial conditions and business prospects, including industry outlook, technological changes as well as operating and financing cash flows. This requires a significant level of management judgment which would affect the amount of impairment losses.

##### (ii) Impairment of capital-based intermediary businesses

The Group reviews the capital-based intermediary businesses (including margin financing and securities lending, securities-backed lending and stock repurchase) to assess the impairment on a periodic basis. In determining whether an impairment loss should be recognised in profit or loss, the Group makes judgments as to whether there is any observable data indicating that there is an objective evidence of impairment. The Group makes an estimate of the value of the collaterals received from the customers firstly on an individual basis, then on a collective basis in determining the impairment. The methodology and assumptions used for estimating impairment of capital-based intermediary businesses are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

##### (iii) Impairment of receivables

Receivables that are measured at amortised cost are reviewed at each end of reporting period to determine whether there is objective evidence of impairment. If any such evidence exists, impairment loss is provided. Objective evidence of impairment includes observable data that comes to the attention of the Group about loss events such as a significant decline in the estimated future cash flow of an individual debtor and other factors. If there is an indication that there has been a change in the factors used to determine the provision for impairment, the impairment loss recognised in prior years is reversed.

##### (iv) Impairment of non-financial assets

Non-financial assets are reviewed regularly to determine whether the carrying amount exceeds the recoverable amount of the assets. If any such indication exists, an impairment loss is provided.

Since the market price of an asset (the asset group) cannot be obtained reliably, the fair value of the asset cannot be estimated reliably. In assessing the present value of future cash flows, significant judgements are exercised over the asset's selling price, related operating expenses and discounting rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the selling price and related operating expenses based on reasonable and supportable assumption.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 3 Significant accounting policies (continued)

### (y) Significant accounting estimates and judgements (continued)

#### (v) Depreciation and amortisation

Property and equipment, investment property, intangible assets, leasehold improvements and long-term deferred expenses are depreciated and amortised using the straight-line method over their estimated useful lives after taking into account residual values. The estimated useful lives are regularly reviewed to determine the depreciation and amortisation costs charged in the reporting period. The estimated useful lives are determined based on historical experiences of similar assets and the estimated technical changes. If there is an indication that there has been a change in the factors used to determine the depreciation or amortisation, the amount of depreciation or amortisation will be revised.

#### (vi) Income taxes

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislations. Deferred tax assets are recognised for tax losses not yet used and temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised, management's judgement is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

#### (vii) Determination of consolidation scope

All facts and circumstances must be taken into consideration in the assessment of whether the Group, as an investor, controls the investee. The principle of control includes three elements: (i) power over the investee; (ii) exposure, or rights, to variable returns from involvement with the investee; and (iii) the ability to use power over the investee to affect the amount of investors' returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

For asset management schemes where the Group involves as the manager or investment consultant, the Group assesses whether the combination of investments it holds, if any, together with its remuneration creates exposure to variability of returns from the activities of the asset management schemes that is of such significance indicating that the Group is a principal. The asset management scheme shall be consolidated if the Group acts in the role of principal.

## 4 Taxation

The Group's main applicable taxes and tax rates are as follows:

Tax type	Tax basis	Tax rate
Value-added tax (VAT)	Output VAT is calculated on product sales and taxable services revenue. The basis for VAT payable is to deduct input VAT from the output VAT for the period.	3%–17% <sup>(i)</sup>
Business tax	Based on taxable revenue before 1 May 2016. According to Caishui [2016] No. 36, jointly issued by Ministry of Finance of the People's Republic of China and the State Administration of Taxation, all taxpayers subject to business tax in the Mainland China are included in the scope of the VAT pilot scheme. Effective from 1 May 2016, those taxpayers are required to pay VAT in lieu of business tax.	5%
City maintenance and construction tax	Based on business tax and value added tax paid	1%–7%
Education surcharge	Based on business tax and value added tax paid	2%–3%
Income tax	Based on taxable profits	25% <sup>(iii)</sup>

(i) According to Notice on Clarifying VAT Policies for Financial Services, Real Estate Development, and Educational Ancillary Services (Cai Shui [2016] No. 140) issued by the Ministry of Finance and State Administration of Taxation on 21 December 2016, managers of asset management products shall pay VAT for their taxable activities during the operation of asset management products, effective from 1 May 2016.

(ii) According to Supplementary Notice on Issues concerning VAT Policies for Asset Management Products (Cai Shui [2017] No. 2) issued by the Ministry of Finance and State Administration of Taxation on 6 January 2017, effective from 1 July 2017, managers of asset management products shall pay VAT for their taxable activities during the operation of asset management products according to the current regulations. Where taxable activities occur before 1 July 2017 during the operation of asset management products and VAT has not been paid for such activities yet, VAT will not be paid any longer.

(iii) The income tax rate applicable to the Company and its domestic subsidiaries is 25%. The income tax rate applicable to subsidiaries in Hong Kong is 16.5%. Taxes of other overseas subsidiaries are charged at the relevant local rates.

Interest expenses on placements	154,971	161,778
Interest expenses on short-term debt instruments issued	78,645	1,095,298
Interest expenses on long-term bonds	3,294,413	2,745,891
Interest expenses on gold leasing	372,060	439,628
Interest expenses on short-term bank loans	27,640	1,185
Interest expenses on long-term bank loans	15,009	—
Others	39,654	21,370
Total	5,393,487	7,812,191

## 11 Staff costs

	Note	Year ended 31 December	
		2016	2015
Salaries, bonuses and allowances		5,047,574	7,708,701
Contribution to pension schemes		188,885	133,689
Cash-settled share-based payment expenses	46(a)	3,646	—
Other social welfare		408,315	298,802
Total		5,648,420	8,141,192

The domestic employees of the Group in the PRC participate in social plans, including pension, medical, housing, and other welfare benefits, organised and administered by the governmental authorities. The Group also operates a Mandatory Provident Fund Scheme for all qualifying employees in Hong Kong under the Mandatory Provident Fund Schemes Ordinance. According to the relevant regulations, the premiums and welfare benefits contributions that should be borne by the Group are calculated on regular basis and paid to the labor and social welfare authorities. The contributions to the social security plans are expensed as incurred.

## 12 Depreciation and amortisation expenses

	Year ended 31 December	
	2016	2015
Depreciation of property and equipment	194,049	161,570
Depreciation of investment properties	39,079	34,907
Amortisation of other intangible assets	131,616	80,858
Amortisation of leasehold improvements and long-term deferred expenses	43,783	55,417
Total	408,527	332,752

## 13 Other operating expenses

	Year ended 31 December	
	2016	2015
Rental expenses	246,301	223,510
Securities investor protection funds	241,871	142,037
Stock exchange fees	177,162	183,175
Consulting fees	152,115	60,116
Marketing, advertising and promotion expenses	143,587	66,808
Postal and communication expenses	137,622	146,470
Business travel expenses	111,451	91,217
Business entertainment expenses	105,286	98,871
IT expenses	95,876	37,977
Utilities	40,007	47,633
Auditors' remuneration	9,969	7,330
Cost of commodity sales	2,997	37,515
Penalty provision <sup>(1)</sup>	—	72,941
Others	601,984	598,951
Total	2,066,228	1,814,551

(1) The Group made the penalty provision of RMB72,941 thousand according to the Notice of Proposed Administrative Penalty (CF Zi [2015] No. 72) from the CSRC in 2015. This penalty has been paid by the Group according to the Decision of Proposed Administrative Penalty ([2016] No. 126) from the CSRC in 2016.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 14 (Reversal of)/provision for impairment losses

	Year ended 31 December	
	2016	2015
Provision for impairment losses against accounts receivable	2,774	1,452
Reversal of impairment losses against other receivables and prepayments	(54,499)	(3,985)
(Reversal of)/provision for impairment losses against margin accounts receivable	(646)	59,780
Provision for impairment losses against financial assets held under resale agreements	15,618	16,012
Total	(36,753)	73,259

## 15 Income tax expense

(a) Taxation in the consolidated income statements represents:

	Year ended 31 December	
	2016	2015
Current income tax		
– Mainland China	2,074,627	4,148,728
– Hong Kong	(131,814)	46,485
– Overseas	2,700	–
	1,945,513	4,195,213
Adjustment in respect of prior years		
– Mainland China	(6,472)	(646)
– Hong Kong	–	–
– Overseas	–	–
	(6,472)	(646)
Deferred tax		
Origination and reversal of temporary differences	134,899	(728,978)
Total	2,073,940	3,465,589

- (i) According to the PRC Corporate Income Tax ("CIT") Law that took effect on 1 January 2008, the Company and the Group's subsidiaries in the Mainland China are subject to CIT at the statutory tax rate of 25%.
- (ii) Hong Kong profit tax has been provided at the rate of 16.5% on the estimated assessable profits for the year. Tax of other overseas subsidiaries are charged at the relevant local rates.

## 15 Income tax expense (continued)

(b) Reconciliation between income tax expense and accounting profit at applicable tax rate:

	Year ended 31 December	
	2016	2015
Profit before income tax	<b>8,593,428</b>	14,263,497
National tax calculated using the PRC statutory tax rate	<b>2,148,357</b>	3,565,874
Tax effect of non-deductible expenses	<b>33,977</b>	55,898
Tax effect of non-taxable income	<b>(202,440)</b>	(188,595)
Tax effect of unused tax losses not recognised	<b>100,636</b>	49,846
Effect of different tax rates of the subsidiary	<b>(672)</b>	(24,456)
Utilisation of tax losses previously not recognized	<b>—</b>	(6,164)
Adjustment for prior years	<b>(6,472)</b>	(646)
Others	<b>554</b>	13,832
Actual income tax expense	<b>2,073,940</b>	3,465,589

There were no amounts paid during the reporting period to the directors and supervisors in connection with their compensation for loss of office with the Group, or inducement to join or upon joining the Group. During the reporting period, there was no arrangement under which a director or a supervisor who had resigned waived or agreed to waive any remuneration, except for one independent non-executive director who resigned from his position waived the remuneration in 2016.

## 17 Individuals with highest emoluments

Of the five individuals with the highest emoluments, none are directors or supervisors whose emoluments are disclosed in Note 16. The aggregate of the emoluments are as follows:

	Year ended 31 December	
	2016	2015
Salaries and allowances	12,605	7,024
Discretionary bonuses	48,993	35,767
Employer's contribution to pension schemes	123	281
Share-based payments	1,527	—
Total	63,248	43,072

The highest emoluments are within the following bands:

	Year ended 31 December	
	2016 Number of individuals	2015 Number of individuals
HKD8,500,001 to HKD9,000,000	—	2
HKD9,000,001 to HKD9,500,000	—	—
HKD9,500,001 to HKD10,000,000	1	1
HKD10,000,001 to HKD15,000,000	2	2
HKD15,000,001 to HKD20,000,000	2	—
Total	5	5

No emoluments are paid or payable to these individuals as an inducement to join or upon joining the Company or as compensation for loss of office during the reporting period.

As at 31 December 2016 and 31 December 2015, included in investment properties, there is a carrying amount of RMB142,287 thousand and RMB148,099 thousand respectively, for which the Group has yet to obtain the relevant land or building certificates.

## 22 Goodwill

	As at 31 December	
	2016	2015
Cost	2,040,399	51,342
Effect of exchange rate changes for cost	50,853	—
Less: Provision for impairment losses	—	—
Carrying amount	2,091,252	51,342

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 22 Goodwill (continued)

### Impairment testing on goodwill

Goodwill is allocated to the Group's cash-generating units ("CGU") identified according to operating segment as follows:

	As at 31 December	
	2016	2015
Investment banking	51,090	51,090
Futures brokerage	252	252
Overseas asset management	2,039,910	—
Total	2,091,252	51,342

The Group acquired the investment banking business together with the relevant assets and liabilities, and the interest in Huatai United Securities Co., Ltd. in 2006. The Group recognised the excess of fair value of the consideration transferred over the fair value of the net identifiable assets acquired as the goodwill of the investment banking CGU.

The Group acquired the futures brokerage business together with the relevant assets and liabilities, and the interest in Huatai Futures Co., Ltd. (previously known as Huatai Great Wall Futures Co., Ltd.) in 2006. The Group recognised the excess of fair value of the consideration transferred over the fair value of the net identifiable assets acquired as the goodwill of the futures brokerage CGU.

The Group acquired the overseas asset management business together with the relevant assets and liabilities, and the interest in AssetMark Financial Holdings, Inc. in 2016. The Group recognised the excess of fair value of the consideration transferred over the fair value of the net identifiable assets acquired as the goodwill of the overseas asset management CGU.

The recoverable amounts of each CGU are determined based on value-in-use calculations. These calculations use cash flow projections with reference to financial budgets approved by management covering certain period. Cash-flows beyond the certain period are extrapolated using an estimated annual growth rate based on industry growth forecasts. Management determined the budgeted gross margin based on past performance and its expectation for market development. The discount rates used are the CGUs' specific weighted average cost of capital, adjusted for the risks of the specific CGUs.

As at 31 December 2016, the Group performed its annual goodwill impairment test. No impairments were recognised for the goodwill related to investment banking CGU, futures brokerage CGU and overseas asset management CGU since the recoverable amounts were greater than their carrying amounts, respectively.

## 23 Other intangible assets

	Land-use right	Existing relationships with broker-dealers	Trade names	Software and others	Total
<b>Cost</b>					
As at 1 January 2016	359,161	—	—	487,863	847,024

Acquisition of a subsidiary	—	3,858,784	309,999	790,317	4,959,100
Other additions	—	98,636	7,924	20,340	126,900
Disposals	—	—	—	(384)	(384)
As at 31 December 2016	359,161	3,957,420	317,923	1,427,847	6,062,351
<b>Accumulated amortisation</b>					
As at 1 January 2016	(56,536)	—	—	(365,520)	(422,056)
Charge for the year	(7,195)	—	(2,650)	(121,771)	(131,616)
Disposals	—	—	—	345	345
As at 31 December 2016	(63,731)	—	(2,650)	(486,946)	(553,327)
<b>Carrying amount</b>					
As at 31 December 2016	295,430	3,957,420	315,273	940,901	5,509,024
<b>Cost</b>					
As at 1 January 2015	359,161	—	—	383,683	742,844
Additions	—	—	—	104,719	104,719
Disposals	—	—	—	(539)	(539)
As at 31 December 2015	359,161	—	—	487,863	847,024
<b>Accumulated amortisation</b>					
As at 1 January 2015	(49,340)	—	—	(292,293)	(341,633)
Charge for the year	(7,196)	—	—	(73,663)	(80,859)
Disposals	—	—	—	436	436
As at 31 December 2015	(56,536)	—	—	(365,520)	(422,056)
<b>Carrying amount</b>					
As at 31 December 2015	302,625	—	—	122,343	424,968

Existing relationships with broker-dealers are regarded as having an indefinite useful life because there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the Group.

As at 31 December 2015, there was a carrying amount of RMB299,335 thousand land-use right being mortgaged for the long-term bank loans (Note 53). The Group has no such mortgage arrangement as at 31 December 2016.

(1) Auditors of the respective subsidiaries of the Group are as follows:

- KPMG PRC represents KPMG Huazhen LLP, a firm of certified public accountants registered in PRC;
- KPMG represents KPMG in Hong Kong, a firm of certified public accountants registered in Hong Kong; and
- KPMG LLP represents KPMG in the United States, a firm of certified public accountants registered in the United States.

(2) These subsidiaries are indirectly controlled by the Company.

(3) As at 31 December 2016, the Company indirectly holds less than 50.00% equity interest of Huatai Rulian Funds Mergers (Limited Partnership), Huatai Rulian Equity Management (Limited Partnership), Beijing Huatai Ruihe Medical Industry Investment (Limited Partnership), Nanjing Huatai Rulian NO.1 Funds Mergers (Limited Partnership), Yili Suxin Investment Fund (Limited Partnership). Pursuant to the partnership agreement, the Company has the power over these funds and it is able to use the power to influence the amount of variable returns to the Company. The directors of the Company consider the Company has the power to control these funds and they are therefore accounted for as subsidiaries of the Group.

(4) The acquisition of AssetMark Financial Holdings, Inc. was completed on 31 October 2016. Detailed information of the acquisition is disclosed in Note 24(c).

Cash flows from investing activities	245,998	(46,205)
Cash flows from financing activities	177,290	600,000

## 24 Investments in subsidiaries (continued)

### (c) Acquisition of subsidiary

#### AssetMark Financial Holdings, Inc.

On 11 April 2016, the Group entered into a sale and purchase agreement with AqGen Liberty Holdings LLC, pursuant to which, AqGen Liberty Holdings LLC agreed to sell and the Group agreed to purchase the share capital of AssetMark Financial Holdings, Inc. The acquisition was completed on 31 October 2016, and the acquired interest was 98.952% with the consideration USD768,419 thousand (RMB5,197,664 thousand). The equity interest held by the Group decreased from 98.952% to 98.595% after the acquisition in December 2016. The Group recognised the excess of the consideration transferred over the fair value of the net identifiable assets acquired as the goodwill.

The fair values of the identifiable assets and liabilities of AssetMark Financial Holdings, Inc. as at the date of acquisition were as follows:

	Fair value recognised as at the date of acquisition
Property and equipment	40,451
Other intangible assets	4,959,100
Available-for-sale financial assets	203
Accounts receivable	60,474
Other current assets	259,870
Cash and bank balances	312,647
Employee benefits payable	(116,231)
Other payables and accruals	(697,793)
Current tax liabilities	(81,915)
Deferred tax liabilities	(1,473,149)
<b>Total identifiable net assets at fair value</b>	<b>3,263,657</b>
Goodwill arising from acquisition	
Consideration transferred	5,197,664
Add: Non-controlling interest	55,050
Less: Fair value of net assets acquired	(3,263,657)
<b>Carrying amount of goodwill</b>	<b>1,989,057</b>

Goodwill arose from the acquisition because the cost of the acquisition included a control premium. In addition, the consideration paid for the acquisition effectively included amounts in relation to the benefit of expected synergies, revenue growth, and future market development. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets.

Since the acquisition, AssetMark Financial Holdings, Inc. contributed RMB207,220 thousand to the Group's revenue and RMB19,708 thousand to the consolidated profit for the year ended 31 December 2016.

## 28 Available-for-sale financial assets (continued)

The Company has entered into the agreement with China Securities Finance Corporation Limited (CSF), contributed a total amount of RMB14,440 million in July and September 2015 to the special account established and managed by CSF for unified operation. Risk and income arising from the investment shall be shared by all securities firms according to the proportion of their respective contribution. The investment is under unified operation and management by CSF. As at 31 December 2016, considering the purpose and special feature of this investment, including the investment and divestment decision-making processes, the management consider that there is no objective evidence of impairment due to the significant or non-temporary decrease in fair value. As at 31 December 2016 and 31 December 2015, the fair value of the Company's contribution recognised by the Company was RMB13,621 million and 13,783 million based on the investment account statement provided by CSF.

As at 31 December 2016 and 31 December 2015, the fund investments with lock-up periods held by the Group are RMB2,958 thousand and RMB3,810 thousand respectively. The fair values of these funds have taken into account the relevant features including the restrictions.

As at 31 December 2016 and 31 December 2015, the non-current listed equity securities held by the Group included investments in restricted shares of approximately RMB6,742,362 thousand and RMB1,427,227 thousand, respectively. The restricted shares are listed in the PRC with a legally enforceable restriction on these securities that prevents the Group to dispose of within the specified period. The fair values of these securities have taken into account the relevant features including the restrictions.

The equity interest in unlisted securities held by the Group are issued by private companies. As the reasonable range of fair value estimation is so significant that the directors of the Company are of the opinion that for those of which the fair value cannot be measured reliably, the value of the securities is measured at cost less impairment at the reporting date. And for the fair value of the equity which can be measured reliably, the value of the securities is measured by comparing with comparable companies that are listed and in the same sector.

Non-current available-for-sale investments are expected to be realised or restricted for sale beyond one year from the end of the respective reporting periods. The fair value of the Group's investments in unlisted funds, which mainly invest in publicly traded equities listed in the PRC, are valued based on the net asset values of the funds calculated by the respective fund managers by reference to their underlying assets and liabilities' fair values.

The fair value of the Group's investments in equity securities without restriction, exchange-listed funds and debt securities are determined with reference to their quoted prices as at reporting date.

As at 31 December 2015, the Group has entered into securities lending arrangement with clients that resulted in the transfer of available-for-sale investments with total fair value of RMB2,528 thousand to external clients, and it did not result in derecognition of the financial assets. The fair value of collaterals for the securities lending business is analysed in Note 36(c) together with the fair value of collaterals of margin financing business. The Group has no such securities lending arrangement as at 31 December 2016.

- (b) Reconciliation to the statements of financial position

	As at 31 December	
	2016	2015
Net deferred tax assets recognised in the statement of financial position	556,094	212,609
Net deferred tax liabilities recognised in the statement of financial position	(2,562,144)	(351,819)
Total	(2,006,050)	(139,210)

- (c) Deferred tax assets not recognised

As at 31 December 2016 and 31 December 2015, in accordance with the accounting policy set out in Note 3(o)(ii), the Group has not recognised unused tax losses of RMB796,965 thousand and RMB199,383 thousand respectively as deferred tax assets, as it is not probable that future taxable profits against which the losses can be utilised will be available in the relevant tax jurisdiction and entity. The tax losses will not expire under current tax legislation.

### 33 Other non-current assets

(a) Analysed by nature:

	As at 31 December	
	2016	2015
Leasehold improvements and long-term deferred expenses	79,070	78,174

(b) The movements of leasehold improvements and long-term deferred expenses are as below:

	As at 31 December	
	2016	2015
Balance at beginning of the year	78,174	108,854

## 36 Margin accounts receivable

(a) Analysed by nature:

	As at 31 December	
	2016	2015
Individuals	53,792,895	66,261,285
Institutions	2,871,343	1,230,613
Less: Impairment losses	(59,134)	(59,780)
<b>Total</b>	<b>56,605,104</b>	<b>67,432,118</b>

As at 31 December 2015, the amount of margin accounts receivable which the Group has transferred to the securitisation vehicle is RMB511,833 thousand, which did not result in derecognition of the financial assets. The securitisation vehicle issued asset-backed securities to investors in 2015 with one year term and was liquidated in 2016.

(b) Analysis of the movement of provision for impairment losses:

	As at 31 December	
	2016	2015
At the beginning of the year	59,780	—
Charge for the year	8,567	80,279
Reversal of impairment	(9,213)	(20,499)
<b>At the end of the year</b>	<b>59,134</b>	<b>59,780</b>

(c) The fair value of collaterals for margin financing and securities lending business is analysed as the followings:

	As at 31 December	
	2016	2015
Fair value of collaterals:		
— Equity securities	156,933,396	206,477,323
— Cash	12,944,433	18,461,809
— Funds	234,571	724,255
— Debt securities	13,045	29,076
<b>Total</b>	<b>170,125,445</b>	<b>225,692,463</b>

The Group evaluates the collectability of receivable from margin clients based on management's assessment on the credit rating, collateral value and the past collection history of each margin client.

<b>Total</b>	<b>64,842,089</b>	<b>334,750</b>	<b>(2,552,026)</b>
Less: settlement		–	91,681
<b>Net position</b>		<b>334,750</b>	<b>(2,460,345)</b>

Under the daily mark-to-market and settlement arrangement, any gains or losses of the Group's position in interest rate swap contracts settling with Shanghai Clearing House, stock index futures, treasury futures and certain commodity futures trading through Huatai Futures Co., Ltd., were settled daily and the corresponding receipts and payments were included in "clearing settlement funds". Accordingly, the Group has maintained no open position for these contracts at 31 December 2016 and 31 December 2015.

## 38 Clearing settlement funds

	As at 31 December	
	2016	2015
Deposits with stock exchanges		
– China Securities Depository and Clearing Corporation Limited	<b>1,222,971</b>	2,549,050
– Hong Kong Securities Clearing Company Limited	<b>2,633</b>	2,070
Deposits with other institutions	<b>3,197</b>	583
<b>Total</b>	<b>1,228,801</b>	<b>2,551,703</b>

### 39 Cash held on behalf of brokerage clients

The Group maintains segregated deposit accounts with banks and authorized institutions to hold clients' monies arising from its normal course of business. The Group has classified the brokerage clients' monies as cash held on behalf of brokerage clients under the current assets section of the consolidated statements of financial position, and recognised the corresponding accounts payable to the respective brokerage clients on the grounds that they are liable for any loss or misappropriation of their brokerage clients' monies. In the PRC, cash held on behalf of brokerage clients for their transaction and settlement funds is restricted and governed by relevant third-party deposit regulations issued by the CSRC. In Hong Kong, cash held on behalf of brokerage clients is restricted and governed by the Securities and Futures (Client Money) Rules under the Securities and Futures Ordinance.

### 40 Cash and bank balances

	As at 31 December	
	2016	2015
Cash on hand	381	334
Bank balances	45,229,651	36,706,281
Total	45,230,032	36,706,615

Bank balances comprise time and demand deposits which bear interest at the prevailing market rates.

### 41 Cash and cash equivalents

	As at 31 December	
	2016	2015
Cash on hand	381	334
Bank balances	45,229,651	36,706,281
Clearing settlement funds	1,228,801	2,551,703
Financial assets held under resale agreements within 3 months	7,932,804	1,972,501
Less: restricted bank deposits	(22,740,023)	(22,635,060)
Total	31,651,614	18,595,759

The restricted bank deposits include bank deposits with original maturity of more than three months held by the Group, minimum liquid capital restriction deposits, bank loan guarantee deposits, default guarantee deposits and risk reserve deposits.

### 42 Short-term bank loans

	As at 31 December	
	2016	2015
Collateralised loans	460,255	688,322

As at 31 December 2016, the interest rates on the short-term loans were in the range of 4.35% to 5.44%. The collateralised loans were pledged by the bank loan guarantee deposits and silver standard warehouse receipts.

# Notes to the Financial Statements

## 43 Short-term debt instruments issued

	Nominal interest rate	Book value as at	Issuance	Redemption	Book value as at
		1 January 2016			31 December 2016
Structured notes	2.00%–8.00%	1,053,004	5,035,260	(4,467,264)	1,621,000

	Nominal interest rate	Book value as at	Issuance	Redemption	Book value as at
		1 January 2015			31 December 2015
Short-term commercial papers	4.15%–5.20%	8,500,000	11,000,000	(19,500,000)	—
Short-term corporate bonds	6.00%	7,000,000	—	(7,000,000)	—
Short-term subordinated bonds	5.10%–5.95%	7,000,000	—	(7,000,000)	—
Structured notes	5.20%–6.03%	2,287,070	14,180,580	(15,414,646)	1,053,004
<b>Total</b>		<b>24,787,070</b>	<b>25,180,580</b>	<b>(48,914,646)</b>	<b>1,053,004</b>

In 2016, the Company has issued 58 tranches of structured notes, bearing interest ranging from 2.00% to 8.00% per annum, repayable within 1 year.

## 44 Placements from other financial institutions

	As at 31 December	
	2016	2015
Interbank lending	—	3,000,000
Placements from China Securities Finance Co., Ltd.	6,650,000	—
<b>Total</b>	<b>6,650,000</b>	<b>3,000,000</b>

As at 31 December 2016, the placements from China Securities Finance Co., Ltd. are secured and bear interest of 3.00% per annum, with maturities within 52 days.

## 45 Accounts payable to brokerage clients

	As at 31 December	
	2016	2015
Clients' deposits for other brokerage business	82,617,056	109,730,352
Clients' deposits for margin financing and securities lending	10,111,781	18,637,027
Total	92,728,837	128,367,379

Accounts payable to brokerage clients represent the monies received from and repayable to brokerage clients, which are mainly held at banks and at clearing houses by the Group. Accounts payable to brokerage clients are interest bearing at the prevailing interest rate.

The majority of the accounts payable balances are repayable on demand except where certain accounts payable to brokerage clients represent monies received from clients for their margin financing activities under normal course of business, such as margin financing and securities lending. Only the excess amounts over the required margin deposits and cash collateral stipulated are repayable on demand.

No aging analysis is disclosed as in the opinion of the directors of the Company, the aging analysis does not give additional value in view of the nature of these businesses.

### (a) Share-based payment of a subsidiary

#### (i) Summary information about share-based payments of a subsidiary

	Year ended 31 December			
	As at 1 January	Accrued for the year	Payments made	As at 31 December
Cash-settled share-based payments				
— USD equivalent to RMB	—	3,646	—	3,646

#### (ii) Cash-settled share-based payments

AssetMark Holdings, LLC, a subsidiary of the Group, granted a share-based compensation to all officers of its subsidiary, AssetMark Financial Holdings, Inc., at 1 November 2016. The share-based compensation is calculated based on the fair value of Class C common units of AssetMark Holdings, LLC. The vesting conditions consist of service time and performance conditions. The options will vest in 3 years after the grant date and are exercisable with a period of 4 to 8 years. The number of share-based compensation units granted during the year is 8,092.04, and the number of units of share-based compensation forfeited during the year is 17.00. The number of units of share-based compensation remained as at 31 December 2016 is 8,075.04. The remaining contractual life of the share-based compensation outstanding at 31 December 2016 is 7.8 years.

## 46 Employee benefits payable (continued)

### (a) Share-based payment of a subsidiary (continued)

#### (ii) Cash-settled share-based payments (continued)

As at 31 December 2016, the accumulated amount of liabilities arising from cash-settled share-based payments was USD526 thousand, equivalent to RMB3,646 thousand, and total expenses recognised for the year arising from cash-settled share-based payments amounted to RMB3,646 thousand.

Share-based payments for services are calculated at fair value. The method for determining the fair value of liabilities based on the shares or other equity instruments assumed by the Group is Monte Carlo simulation.

## 47 Other payables and accruals

	As at 31 December	
	2016	2015
Payables to interest holders of consolidated structured entities <sup>(1)</sup>	68,380,572	85,761,379
Payable to open-ended funds	5,169,259	3,546,983
Interest payable	2,155,236	2,692,345
Payable for office building construction	799,554	881,348
Payable for equity return swaps	711,543	3,408,998
Settlement payables	632,679	132,137
Other tax payable	385,413	507,656
Fee and commission payable	217,276	185,990
Dividend to be converted to the investment capital of consolidated structured entities	156,862	308,238
Payable to the securities investor protection fund	131,333	58,952
Futures risk reserve	107,404	92,132
Payable to brokerage agents	52,964	139,936
Payable for asset-backed securities asset management scheme	—	475,000
Payable for commodity trading	—	140,755
Others <sup>(2)</sup>	771,600	988,213
<b>Total</b>	<b>79,671,695</b>	<b>99,320,062</b>

(1) The financial liabilities arising from the consolidated structured entities with underlying investments in money market and fixed income instruments are classified as other payables and accruals in these consolidated financial statements. It is because, the Group has an obligation to pay other investors upon maturity dates of the structured entities based on the net book value and related terms of those consolidated asset management schemes.

(2) The balance of others mainly represents payable to the joint bonds underwriters, and sundry payables arising from normal course of business.

## 54 Share capital, reserves and retained profits (continued)

### (b) Share capital

All shares issued by the Company are fully paid common shares. The par value per share is RMB1. The Company's number of shares issued and their nominal value are as follows:

	As at 31 December 2016		As at 31 December 2015	
	Number of shares (Thousand)	Nominal value	Number of shares (Thousand)	Nominal value
Registered, issued and fully paid:				
A shares of RMB1 each	5,443,723	5,443,723	5,443,723	5,443,723
H shares of RMB1 each	1,719,046	1,719,046	1,719,046	1,719,046
Total	7,162,769	7,162,769	7,162,769	7,162,769

On 1 June 2015, the Company completed its initial public offering of 1,400,000,000 H shares on the Main Board of the Hong Kong Stock Exchange. On 19 June 2015, the Company partially exercised the over-allotment option and issued 162,768,800 H shares.

According to the relevant requirements of PRC regulators, existing shareholder of the state-owned shares of the Company have transferred an aggregate number of 156,276,880 state-owned shares of the Company to the National Social Security Fund of the PRC, and such shares were then converted into H shares on a one-for-one basis.

The H shares rank pari passu in all respects with the existing A shares including the right to receive all dividends and distributions declared or made.

### (c) Capital reserve

Capital reserve mainly includes share premium arising from the issuance of new shares at prices in excess of face value and the difference between the considerations of acquisition of equity interests from non-controlling shareholders and the carrying amount of the proportionate net assets.

The Company was listed on the Main Board of the Hong Kong Stock Exchange on 1 June 2015. The excess of the proceeds over the nominal value of the total number of ordinary shares issued which amounted to RMB28,590,928 thousand was credited to the capital reserve, net of offering expenses (of which the inter-group transactions were eliminated on consolidation) of RMB441,058 thousand.

### (d) Surplus reserve

Pursuant to the Company Law of the PRC, the Company is required to appropriate 10% of its net profit to the statutory surplus reserve until the balance reaches 50% of its registered capital.

Subject to the approval of the shareholders, the statutory reserve may be used to offset accumulated losses, or converted into capital of provided that the balance of the statutory surplus reserve after such capitalisation is not less than 25% of the registered capital immediately before the capitalisation.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 54 Share capital, reserves and retained profits (continued)

### (e) General reserve

General reserve includes general risk reserve and transaction risk reserve.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007, the Company appropriates 10% of its annual net profit to the general risk reserve.

In accordance with the requirements of the CSRC Circular regarding the Annual Reporting of Securities Companies in 2007 (Zhengjian Jigou Zi [2007] No. 320) issued on 18 December 2007 and in compliance with the Securities Law, for the purpose of covering securities trading losses, the Company appropriates 10% from its annual net profit to the transaction risk reserve.

The Company's subsidiaries appropriate their profits to the general reserve according to the applicable local regulations.

### (f) Fair value reserve

The fair value reserve comprises the cumulative net changes in fair values of available-for-sale financial assets until the assets are derecognised or impaired.

### (g) Translation reserve

The translation reserve mainly comprises foreign currency differences arising from the translation of the financial statements of foreign currencies.

### (h) Dividends

Pursuant to the resolution of the general meeting of the shareholders dated 7 June 2016, the Company was approved to distribute cash dividends of RMB5.00 (tax inclusive) per 10 Shares to our existing holders of A Shares and H shares, with total cash dividends amounting to RMB3,581,384 thousand.

## 55 Commitments

### (a) Capital commitments

Capital commitments outstanding at 31 December 2016 and 31 December 2015 not provided for in the financial statements were as follows:

	As at 31 December	
	2016	2015
Contracted, but not provided for	73,041	685,483

The above-mentioned capital commitments mainly represent the construction of properties of the Group.

## 55 Commitments (continued)

### (b) Operating lease commitments

As at 31 December 2016 and 31 December 2015, the total future minimum lease payments under non-cancellable operating leases are payable as follows:

	As at 31 December	
	2016	2015
Within 1 year (inclusive)	223,519	193,132
1–2 years (inclusive)	154,874	139,112
2–3 years (inclusive)	131,189	87,255
After 3 years	61,362	70,516
Total	570,944	490,015

## 56 Interests in structured entities

### (a) Interests in structured entities consolidated by the Group

Structured entities consolidated by the Group mainly stand for the asset management schemes where the Group involves as manager or investment consultant and also as investor, the Group assesses whether the combination of investments it holds together with its remuneration creates exposure to variability of returns from the activities of the asset management product to a level of such significance that it indicates that the Group is a principal.

As at 31 December 2016 and 31 December 2015, the Group consolidates 29 and 36 structured entities respectively, which are mainly asset management schemes. As at 31 December 2016 and 31 December 2015, the total assets of the consolidated structured entities are RMB84,733,108 thousand and RMB93,767,004 thousand respectively, and the carrying amount of interests held by the Group in the consolidated structured entities are RMB6,808,105 thousand and RMB5,816,381 thousand respectively.

### (b) Interests in structured entities sponsored by the Group but not consolidated

Structured entities for which the Group served as general partner or manager, therefore has power over them during the reporting periods are asset management schemes. Except for the structured entities that the Group has consolidated as set out in Note 56(a), the Group's exposure to the variable returns in the structured entities in which the Group has interest are not significant. The Group therefore did not consolidate these structured entities.

As at 31 December 2016 and 31 December 2015, the total assets of these unconsolidated structured entities managed by the Group amounted to RMB835,989,087 thousand and RMB551,860,637 thousand respectively. As at 31 December 2016 and 31 December 2015, the carrying amount of interests held by the Group in these unconsolidated structured entities are RMB570,174 thousand and RMB168,274 thousand respectively.

During the years ended 31 December 2016 and 31 December 2015, income derived from these unconsolidated structured entities held by the Group amounted to RMB1,015,178 thousand and RMB337,287 thousand respectively.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 56 Interests in structured entities (continued)

### (c) Interests in structured entities sponsored by third party institutions

The types of structured entities that the Group does not consolidate but in which it holds interests include funds, asset management schemes, trust schemes, and wealth management products issued by banks or other financial institutions. The nature and purpose of these structured entities are to generate fees from managing assets on behalf of investors. These vehicles are financed through the issue of units to investors.

The carrying amount of the related accounts in the consolidated statements of financial position is equal to the maximum exposure to loss of interests held by the Group in the unconsolidated structured entities sponsored by third party institutions as at 31 December 2016 and 31 December 2015, which are listed as below:

	As at 31 December 2016		
	Available-for-sale financial assets	Financial assets at fair value through profit or loss	Total

## 60 Financial instruments and risk management

The Group monitors and controls key exposures to the credit risk, market risk, liquidity risk and operational risk from its use of financial instruments.

### (a) Credit risk

Credit risk represents the potential loss that may arise from the failure of a debtor or counterparty to meet its obligation or commitment to the Group.

During the reporting period, the Group was exposed to three types of credit risk: (i) default risk of the issuer or counterparty in debt securities trading; (ii) risk of losses arising from default of customers in credit business such as margin financing and securities lending, securities-backed lending and stock repurchases; (iii) counterparty credit risk from a counterparty's default on the derivative transaction, such as swap or forward. The risk exposure is determined by the change in the market prices of the derivatives.

The Group uses its risk management systems to monitor its credit risk on a real time basis, keep track of the credit risk of the Group's business products and its transaction counterparties, provide analyses and pre-warning reports, and adjust its credit limits in a timely manner. The Group will also measure the credit risks of its major operations through stress test and sensitivity analysis.

For credit risk in debt securities trading, the Group monitors the issuer and bonds during the reporting period. The Group established the credit rating framework and conducted research on the debt securities held by the Group. The Group also assessed the creditability of counterparties to mitigate related default risk. In respect of margin financing and securities lending, securities-backed lending, stock repurchases business and OTC derivative transaction, the Group evaluate the customers, aiming to have a thorough picture of the customers' credit level and risk tolerance and determine the customers' credit rating. Penalties for defaults were specified in contracts and risk disclosure statements. The Group monitors the collateral of the margin financing and securities lending, securities-backed lending, stock repurchases business and OTC derivative transaction and promptly communicated with customers on any abnormalities identified to avoid defaults. In respect of innovative credit business, preliminary due diligence was performed with a comprehensive project feasibility report and a due diligence report submitted for approval by the Group before a project can be launched.

Non-rated <sup>(1)</sup>	26,928,346	22,560,807
Total	51,278,921	56,393,519

(1) Non-rated financial assets mainly represent debts instruments issued by the Ministry of Finance of the People's Republic of China, the PBOC, and policy banks, which are creditworthy issuers in the market, private bonds and trading securities, which are not rated by independent rating agencies.

### (b) Liquidity risk

Liquidity risk arises in the investment activities, financing activities and capital management of the Group. Liquidity risk includes: (1) market liquidity risk of being unable to make a large size transaction at a reasonable price while trading volume in market is comparatively small; (2) funding liquidity of being unable to meet financial obligations when they come due.

# Notes to the Financial Statements

## 60 Financial instruments and risk management (continued)

### (b) Liquidity risk (continued)

The following tables show the details of the remaining contractual maturities at the end of the reporting period of the Group's non-derivative financial liabilities and derivative financial liabilities. Analysis of non-derivative financial liabilities are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date the Group can be required to pay:

Financial Liabilities	As at 31 December 2016								
	Carrying amount	Overdue/ repayable on demand	Less than 1 month	More than 1 month but less than 3 months	More than 3 months but less than 1 year	More than 1 year but less than 5 years	More than 5 years	Undated	Total

### (c) Market risk

Market risk is the risk of loss, in respect of the Group's income and value of financial instruments held, arising from the adverse market movements such as changes in interest rates, stock prices, foreign exchange rates and so on. The objective of market risk management is to monitor and control the market risk within the acceptable range and to maximise the risk adjusted return.

#### (i) Interest rate risk

Interest rate risk refers to the likelihood of loss that may arise from adverse movements in the market interest rate. The Group's interest rate risk mainly arises from interest rate policy changes and the mismatch of interest-sensitive assets and liabilities.

The Group mainly manages interest rate risk through structuring and adjusting its asset portfolio. The Group's asset portfolio management aims at mitigating risks and improving profitability by diversification of assets.

## 60 Financial instruments and risk management (continued)

### (c) Market risk (continued)

#### (i) Interest rate risk (continued)

##### Sensitivity analysis

For those financial instruments held by the Group which expose the Group to fair value interest rate risk at the end of the reporting period, the Group adopts sensitivity analysis to measure the potential effect of changes in interest rates on the Group's net profit and equity. Assuming all other variables remain constant, interest rate sensitivity analysis is as follows:

	Sensitivity of net profit	
	As at 31 December	
	2016	2015
Move in yield curve		
Up 100 basis points	(486,257)	(741,509)
Down 100 basis points	504,109	812,227

	Sensitivity of equity	
	As at 31 December	
	2016	2015
Move in yield curve		
Up 100 basis points	(487,657)	(744,112)
Down 100 basis points	505,529	814,934

The sensitivity analysis above indicates the instantaneous change in the Group's net profit and equity that would arise assuming that the change in interest rates had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the end of the reporting period. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group's net profit and equity is estimated as an annualised impact on interest expense or income of such a change in interest rates.

## 60 Financial instruments and risk management (continued)

### (c) Market risk (continued)

#### (ii) Currency risk

Currency risk is the risk arising from foreign exchange business of the Group, which is attributable to the fluctuation of foreign exchange rates. The Group adopts sensitivity analysis to measure currency risk.

Assuming all other risk variables remained constant and without consideration of risk management measures undertaken by the Group, a 10% strengthening of the RMB against the US dollar ("USD") and HKD at the reporting date would have increased/(decreased) the Group's equity and net profit by the amount shown below, whose effect is in RMB and translated using the spot rate at the reporting date:

Sensitivity of net profit		
As at 31 December		
Currency	2016	2015
USD	1,977	95,975
HKD	(54,442)	(70,651)

Sensitivity of equity		
As at 31 December		
Currency	2016	2015
USD	(56,715)	38,500
HKD	(54,442)	(70,651)

A 10% weakening of the RMB against the USD and HKD at balance date would have had the equal but opposite effect on them to the amounts shown above, on the basis that all other variables remained constant.

Due to the above assumptions, the result of sensitivity analysis on exchange rate changes may be different, compared with the actual changes in the Group's net profit and equity of may arise with this.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 60 Financial instruments and risk management (continued)

### (c) Market risk (continued)

#### (iii) Price risk

The Group is exposed to equity price changes arising from equity investments concluded in financial instruments at fair value through profit or loss and available-for-sale financial instruments. Price risk the Group facing is mainly the proportionate fluctuation in the Group's net profit due to the price fluctuation of the held for trading financial instruments and the proportionate fluctuation in the Group's equity due to the price fluctuation of the held for trading and available-for-sale financial instruments.

#### Sensitivity analysis

The analysis below is performed to show the impact on Group's net profit and equity due to change in the prices of equity securities by 10% with all other variables held constant.

	Sensitivity of net profit	
	As at 31 December	
	2016	2015
Increase by 10%	73,554	5,565,907
Decrease by 10%	(73,554)	(5,565,907)

	Sensitivity of equity	
	As at 31 December	
	2016	2015
Increase by 10%	3,282,411	8,369,220
Decrease by 10%	(3,282,411)	(8,369,220)

The sensitivity analysis indicates the instantaneous change in the Group's net profit and equity that would arise assuming that the changes in the stock market index or other relevant risk variables had occurred at the end of the reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to equity price risk at the end of the reporting period. It is also assumed that the fair values of the Group's equity investments would change in accordance with the historical correlation with the relevant stock market index or the relevant risk variables, and that all other variables remain constant. The analysis is performed on the same basis for 2016 and 2015.

## 60 Financial instruments and risk management (continued)

### (d) Capital management

The Group's objectives of capital management are:

- (i) To safeguard the Group's ability to continue as a going concern so that they can continue to provide returns for shareholders and benefits for other stakeholders;
- (ii) To support the Group's stability and growth;
- (iii) To maintain a strong capital base to support the development of their business; and
- (iv) To comply with the capital requirements under the PRC, Hong Kong and the United States regulations.

As at 16 June 2016, Administrative Measures for Risk Control Indicators of Securities Companies (Revision 2016) (the "Revised Administrative Measures") and Calculation Standard for Risk Control Indicators of Securities Companies were issued by the CSRC. The Company is required to meet the following standards for risk control indicators on a continual basis from 1 October 2016:

- (i) The ratio of net capital divided by the sum of its various risk capital provisions shall be no less than 100% ("Ratio 1");
- (ii) The ratio of net capital divided by net assets shall be no less than 20% ("Ratio 2");
- (iii) The ratio of net capital divided by liabilities shall be no less than 8% ("Ratio 3");
- (iv) The ratio of net assets divided by liabilities shall be no less than 10% ("Ratio 4");
- (v) The ratio of the value of equity securities and derivatives held divided by net capital shall not exceed 100% ("Ratio 5");
- (vi) The ratio of the value of non-equity securities and derivatives held divided by net capital shall not exceed 500% ("Ratio 6");
- (vii) The ratio of core net capital divided by on balance sheet and off balance sheet assets shall be no less than 8% ("Ratio 7");
- (viii) The ratio of high quality liquidity assets divided by net cash outflows for the next 30 days shall be no less than 100% ("Ratio 8");
- (ix) The ratio of available stable funds divided by required stable funds shall be no less than 100% ("Ratio 9"); and
- (x) The ratio of margin financing (including securities lending) divided by net capital shall not exceed 400% ("Ratio 10").

Net capital refers to net assets minus risk adjustments on certain types of assets as defined in the Revised Administrative Measures.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 60 Financial instruments and risk management (continued)

### (d) Capital management (continued)

As at 31 December 2016, the Company maintained the above ratios as follows:

	As at 31 December 2016
Net Capital	45,122,196
Ratio 1	206.71%
Ratio 2	59.42%
Ratio 3	38.09%
Ratio 4	64.10%
Ratio 5	55.38%
Ratio 6	65.95%
Ratio 7	21.35%
Ratio 8	246.05%
Ratio 9	139.68%
Ratio 10	193.75%

In accordance with Administrative Measures for Risk Control Indicators of Securities Companies (Revision 2008) issued by the CSRC, the Company is required to meet the following standards for risk control indicators on a continual basis:

- (i) The ratio of net capital divided by the sum of its various risk capital provisions shall be no less than 100% ("Ratio 1");
- (ii) The ratio of net capital divided by net assets shall be no less than 40% ("Ratio 2");
- (iii) The ratio of net capital divided by liabilities shall be no less than 8% ("Ratio 3");
- (iv) The ratio of net assets divided by liabilities shall be no less than 20% ("Ratio 4");
- (v) The ratio of the value of equity securities and derivatives held divided by net capital shall not exceed 100% ("Ratio 5"); and
- (vi) The ratio of the value of fixed income securities held divided by net capital shall not exceed 500% ("Ratio 6").

As at 31 December 2015, the Company maintained the above ratios as follows:

	As at 31 December 2015
Net Capital	52,362,034
Ratio 1	880.74%
Ratio 2	70.34%
Ratio 3	39.67%
Ratio 4	56.41%
Ratio 5	79.45%
Ratio 6	72.99%

## 60 Financial instruments and risk management (continued)

### (d) Capital management (continued)

Similar to the Company, certain subsidiaries of the Group are also subject to capital requirements under the PRC, Hong Kong and the United States regulatory requirements, respectively. These subsidiaries comply with the capital requirements during the years ended 31 December 2016 and 31 December 2015.

### (e) Transfer of financial assets

The Group transferred financial assets to certain counterparties through repurchase agreements, securities lending and asset-backed securities scheme. These securities, margin accounts receivable and securities-backed lending are not derecognised from the consolidated statement of financial position because the Group retains substantially all the risks and rewards of these securities, margin loans and securities-backed lending.

The Group entered into repurchase agreements with certain counterparties to sell debt securities classified as financial assets at fair value through profit or loss, margin accounts receivable and financial assets held under resale agreements. Sales and repurchase agreements are transactions in which the Group sell a security, rights and interests in a margin accounts receivable or securities-backed lending and agree to repurchase it at the agreed date and price. The repurchase prices are fixed and the Group is still exposed to substantially all the credit risks, market risks and rewards of those securities and rights and interests sold. These securities, margin accounts receivable and financial assets held under resale agreements are not derecognised from the consolidated statement of financial position because the Group retains substantially all the risks and rewards of these financial assets.

The Group entered into securities lending agreements with clients to lend out its equity securities and exchange-traded funds classified as fair value through profit or loss and available-for-sale financial assets. As stipulated in the securities lending agreements, the legal ownership of these equity securities and exchange-traded funds is transferred to the clients. Although the clients are allowed to sell these securities during the covered period, they have obligations to return these securities to the Group at specified future dates. The Group has determined that it retains substantially all the risks and rewards of these securities and therefore has not derecognised these securities in the consolidated statement of financial position.

The Group sells margin accounts receivable to the securitisation vehicle, which in turn issue asset-backed securities to investors with the purchased assets as the underlying assets. Such securitisation vehicle is consolidated by the Group, consequently the underlying assets are transferred from the Group to the investors. The Group has the obligation to pass cash flows from the underlying assets to the investors.

The cash flows that the securitisation vehicle collect from the transferred assets has not been passed through to investors without material delay, and the Group has the obligation to repurchase these margin accounts receivable on specified future dates and at agreed-upon prices. Thus the Group has not derecognised these financial assets in the consolidated statements of financial position. The consideration received from the investors is recognised as a financial liability.

## 60 Financial instruments and risk management (continued)

### (e) Transfer of financial assets (continued)

The following tables provide a summary of carrying amounts and fair values of the transferred financial assets that are not derecognised in their entirety and the associated liabilities:

#### As at 31 December 2016

	Financial assets at fair value through profit or loss		Available-for-sale financial assets	Margin accounts receivable		Financial assets held under resale agreements	Total
	Sales and repurchase agreements	Securities lending	Securities lending	Margin loans receivable		Securities-backed lending	
				backed repurchase	Asset-backed securities		
Carrying amount of transferred assets	–	–	–	7,431,807	–	1,366,900	8,798,707
Carrying amount of associated liabilities	–	–	–	(5,800,000)	–	(1,252,000)	(7,052,000)
Net position	–	–	–	1,631,807	–	114,900	1,746,707

#### As at 31 December 2015

	Financial assets at fair value through profit or loss		Available-for-sale financial assets	Margin accounts receivable		Financial assets held under resale agreements	Total
	Sales and repurchase agreements	Securities lending	Securities lending	Margin loans receivable		Securities-backed lending	
				backed repurchase	Asset-backed securities		
Carrying amount of transferred assets	507,720	65,609	2,528	20,853,545	511,834	1,426,200	23,367,436
Carrying amount of associated liabilities	(511,059)	–	–	(17,700,000)	(475,000)	(1,000,000)	(19,686,059)
Net position	(3,339)	65,609	2,528	3,153,545	36,834	426,200	3,681,377

### (f) Offsetting financial assets and financial liabilities

The Group offsets the related financial assets and financial liabilities when the Group currently has a legally enforceable right to set off the balances, and intends either to settle on a net basis, or to realise the balances simultaneously.

The Group has entered into master netting arrangements with counterparties for the derivative instruments.

Under the agreement signed between the Group and the customers, money obligations receivable and payable with the same customers on the same settlement date are settled on net basis.

## 60 Financial instruments and risk management (continued)

### (f) Offsetting financial assets and financial liabilities (continued)

Under the agreement of continuous net settlement made between the Group and clearing house, money obligations receivables and payables with clearing house on the same settlement date are settled on net basis.

As at 31 December 2016

## 60 Financial instruments and risk management (continued)

### (f) Offsetting financial assets and financial liabilities (continued)

Except for the enforceable master netting arrangements and the offset-right of the financial instruments under the similar agreements disclosed above, the collateral of which, such as financial assets held under resale agreements and financial assets sold under repurchase agreements are disclosed in the corresponding notes, which are generally not on the net basis in the consolidated statement of financial position.

However, the risk exposure associated with favorable contracts is reduced by a master netting arrangement to the extent that if a default occurs, all amounts with the counterparty are terminated and settled on a net basis. As at 31 December 2016 and 31 December 2015, the fair value of the collaterals related to the above items exceeded the book value of those financial instruments, net exposure is insignificant after setting off the collaterals.

## 61 Fair value information

### (a) Fair value of financial instruments

The Group adopts the following methods and assumptions when evaluating fair values:

- (i) Financial assets including cash and bank balances, cash held for brokerage clients, clearing settlement funds, financial assets held under resale agreements, and financial liabilities including placements from other financial institutions, short-term bank loans and financial assets sold under repurchase agreements are mainly short-term financing or floating interest rate instruments. Accordingly, the carrying amounts approximate the fair values.
- (ii) Financial instruments at fair value through profit or loss, derivatives and available-for-sale financial assets are stated at fair value unless the fair values cannot be reliably measured. For the financial instruments traded in active open markets, the Group uses market prices or markets rates as the best estimate for their fair values. For the financial instruments without any market price or market rate, the Group determines the fair values of these financial assets and financial liabilities by discounted cash flow or other valuation methods.
- (iii) The fair values of held-to-maturity investments, short-term debt instruments issued and long-term bonds are determined with reference to the available market prices or quotes from brokers or agents. If there is no quoted market price in an active market, the Group refers to the yield of financial instruments with similar characteristics such as credit risk and maturity, to estimate the fair values using pricing models or discounted cash flow.
- (iv) Accounts receivable, other receivables and prepayments, margin accounts receivable, and accounts payable to brokerage clients are within one year. Accordingly, the carrying amounts approximate the fair values.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 61 Fair value information (continued)

### (b) Fair value of other financial instruments (carried at other than fair value)

The carrying amount and fair value of held-to-maturity investments, short-term debt instruments issued and long-term bonds which are not presented at fair value are listed as below:

#### Carrying amount

	As at 31 December	
	2016	2015
<i>Financial assets</i>		
– Held-to-maturity investments	5,000	5,000
Total	5,000	5,000
<i>Financial liabilities</i>		
– Short-term debt instruments issued	(1,621,000)	(1,053,004)
– Long-term bonds	(75,847,816)	(72,372,178)
Total	(77,468,816)	(73,425,182)

#### Fair value

	2016			
	Level I	Level II	Level III	Total
<i>Financial assets</i>				
– Held-to-maturity investments	–	5,091	–	5,091
Total	–	5,091	–	5,091
<i>Financial liabilities</i>				
– Short-term debt instruments issued	–	–	1,621,000	1,621,000
– Long-term bonds	70,813,922	–	4,900,000	75,713,922
Total	70,813,922	–	6,521,000	77,334,922

	2015			
	Level I	Level II	Level III	Total

– Held-to-maturity investments	–	5,132	–	5,132
Total	–	5,132	–	5,132
<i>Financial liabilities</i>				
– Short-term debt instruments issued	–	–	(1,053,004)	(1,053,004)
– Long-term bonds	(62,807,111)	–	(9,600,000)	(72,407,111)
Total	(62,807,111)	–	(10,653,004)	(73,460,115)

## 61 Fair value information (continued)

### (b) Fair value of other financial instruments (carried at other than fair value) (continued)

The fair values of the financial assets and financial liabilities included in the level II and III categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

Except for the above, the directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost and available-for-sale financial assets at cost less impairment in the Group's statements of financial position approximate their fair values.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 61 Fair value information (continued)

### (c) Fair value hierarchy

The table below analyses financial instruments, measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

	2016			
	Level I	Level II	Level III	Total
Assets				
Financial assets at fair value through profit or loss				
Financial assets held for trading

For the year ended 31 December 2016, there was a transfer from Level III to Level II due to the listing of equity securities with lock-up period. There was no significant transfer among Level I and Level II. For the year end 31 December 2015, there were no significant transfer among Level I, Level II and Level III of the fair value hierarchy.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 61 Fair value information (continued)

### (c) Fair value hierarchy (continued)

#### (i) Financial instruments in Level I

The fair value of financial instruments traded in active markets is based on quoted market prices at the date of the statement of financial position. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price within bid-ask spread. These instruments are included in Level I. Instruments included in Level I comprise primarily securities traded on the Shanghai Stock Exchange and the Shenzhen Stock Exchange classified as trading securities or available for sale.

#### (ii) Financial instruments in Level II

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level II.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level III.

#### (iii) Valuation methods for specific investments

As at 31 December 2016 and 31 December 2015, the Group's valuation methods for specific investments are as follows:

- (1) For exchange-listed equity securities, fair value is determined based on the closing price of the equity securities as at the reporting date within bid-ask spread. For those which has no quoted market price or those with lock-up periods as at the reporting date, valuation techniques are used to determine the fair value.
- (2) For exchange-listed investment funds, fair value is determined based on the closing price within bid-ask spread as at the reporting date or the most recent trading date. For open-end funds and wealth management products, fair value is determined by trading price which is based on the net asset value as at the reporting date.
- (3) For debt securities listed through exchanges, fair values are determined based on the closing price within bid-ask spread of the debt securities at the date of statements of financial position.
- (4) For debt securities traded through the inter-bank bond market and OTC market, fair values are determined using valuation techniques.
- (5) For gold leasing and derivative financial instruments, fair value is determined using valuation techniques.

## 61 Fair value information (continued)

### (c) Fair value hierarchy (continued)

#### (iv) Financial instruments in Level III

The following table shows a reconciliation from the beginning balances to the ending balances for fair value measurement in Level III of the fair value hierarchy:

	Financial assets at fair value through profit or loss	Available-for-sale financial assets	Derivative financial assets	Financial liabilities at fair value through profit or loss	Derivative financial liabilities	Total
As at 1 January 2016	1,444,571	9,298,723	156,585	—	(295)	10,899,584
Gains or losses for the year	5,522	8,183	(17,539)	(585,431)	2,550	(586,715)
Changes in fair value recognised in other comprehensive income	—	2,912,765	—	—	—	2,912,765
Purchases	60,000	4,432,424	—	(10,855,480)	(10,018)	(6,373,074)
Sales and settlements	(778,663)	(5,997,170)	(118,804)	—	(2,646)	(6,897,283)
As at 31 December 2016	731,430	10,654,925	20,242	(11,440,911)	(10,409)	(44,723)
Total gains or losses for the year included in profit or loss for assets held at the end of the reporting period	3,055	—	—	(585,431)	(3,575)	(585,951)

	Financial assets at fair value through profit or loss	Available-for-sale financial assets	Derivative financial assets	Financial liabilities at fair value through profit or loss	Derivative financial liabilities	Total
As at 1 January 2015	186,371	5,793,995	—	—	—	5,980,366
Gains or losses for the year	51,650	167,308	156,585	—	154	375,697

Total gains or losses for the year included in profit or loss for assets held at the end of the reporting period	14,641	—	156,585	—	(295)	170,931

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 61 Fair value information (continued)

### (c) Fair value hierarchy (continued)

#### (iv) Financial instruments in Level III (continued)

For financial instruments in Level III, prices are determined using valuation methodologies such as discounted cash flow models and other similar techniques. Determinations to classify fair value measures within Level III of the valuation hierarchy are generally based on the significance of the unobservable inputs to the overall fair value measurement. The following table presents the related valuation techniques and inputs of the major financial instruments in Level III.

Financial assets and liabilities	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of unobservable input(s) to fair value
Wealth management products and private placement bonds	Level III	Discounted cash flow model	Risk adjusted discount rate	The higher the risk adjusted discount rate, the lower the fair value
Private convertible bonds	Level III	Discounted cash flow model	Risk adjusted discount rate	The higher the risk adjusted discount rate, the lower the fair value
		Option pricing model	Stock price volatility	The higher the stock price volatility, the higher the fair value
Unlisted equity investment	Level III	Market comparable companies	Discount for lack of marketability	The higher the discount, the lower the fair value
Over-the-counter options	Level III	Black-Scholes option pricing model	Price of underlying assets	N/A
			Price volatility of underlying assets	N/A

## 63 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 December 2016

Up to the date of issue of the financial statements, the IASB has issued a number of amendments and new standards which are not yet effective for the year ended 31 December 2016 and which have not been adopted in the financial statements. These include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
IFRS 15, Revenue from contracts with customers	1 January 2018
IFRS 9, Financial instruments	1 January 2018
IFRS 16, Leases	1 January 2019
Amendments to IAS 7, Statement of Cash Flow	1 January 2017
Amendments to IAS 12, Recognition of Deferred Tax Assets for Unrealised Losses	1 January 2017
Amendments to IAS 40, Investment Property	1 January 2018
Amendments to IFRS 2, Share-based payment	1 January 2018
Amendments to IFRS 10 and IAS 28, Sales or Contribution of Assets between An Investor and Its Associate or Joint Venture	No mandatory effective date yet determined
Annual Improvements 2014–2016 Cycle, Amendments to IFRS 1, IFRS 12 and IAS 28	

The Group is in the process of making an assessment of what the impact of these amendments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the Group's results of operations and financial position, except for the following.

### IFRS 9, Financial instruments

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the recognition in other comprehensive income of 'own credit risk' related gains and losses that are part of the fair value changes of financial liabilities designated as measured at fair value through profit or loss; this version of IFRS 9 also carried forward the derecognition requirements of IAS 39. In November 2013 the new requirements for general hedge accounting were added to IFRS 9. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments. The implementation date of IFRS 9 is 1 January 2018.

# Notes to the Financial Statements

(Expressed in thousands of Renminbi, unless otherwise stated)

## 63 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 December 2016 (continued)

Key requirements of IFRS 9 that are relevant to the Group are:

- All recognized financial assets that are within the scope of IAS 39 Financial Instruments: Recognition and measurement are required to be subsequently measured at amortized cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortized cost. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss.
- In relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognized. The measurement of the loss allowance generally depends on whether there has been a significant increase in credit risk since initial recognition of the instrument. IFRS 9 requires an entity to recognize lifetime expected credit losses for all financial instruments for which there have been significant increases in credit risk since initial recognition considering all reasonable and supportable information, including that which is forward-looking.

The Group is in the process of assessing the potential impact on the financial statements resulting from the adoption of IFRS 9. So far it has concluded that the adoption of IFRS 9 may have an impact on the Group's results and financial position, including the classification categories and the measurement of financial assets, and disclosures. For instance, the Group will be required to replace the incurred loss impairment model in IAS 39 with an expected loss impairment model that will apply to various exposures to credit risk. IFRS 9 will also change the way the Group classifies and measures its financial assets, and will require the Group to consider the business model and contractual cash flow characteristics of financial assets to determine classification and subsequent measurement. Until a detailed review of the impact of adopting IFRS 9 is performed, the Group cannot provide a reasonable estimate that quantifies the impact on its financial statements nor can it yet conclude whether that impact will be significant or not.

### IFRS 15, Revenue from contracts with customers

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 Revenue, IAS 11 Construction contracts and IFRIC 13 Customer Loyalty Programmes. It also includes guidance on when to capitalise costs of obtaining or fulfilling a contract not otherwise addressed in other standards, and includes expanded disclosure requirements.

## 63 Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 December 2016 (continued)

### IFRS 16, Leases

IFRS 16 provides comprehensive guidance for the identification of lease arrangements and their treatment by lessees and lessors. In particular, IFRS 16 introduces a single lessee accounting model, whereby assets and liabilities are recognised for all leases, subject to limited exceptions. It replaces IAS 17 Leases and the related interpretations including IFRIC 4 Determining whether an arrangement contains a lease.

The Group does not plan to early adopt the above new standards or amendments. With respect to IFRSs 9, 15 and 16, given the Group has not completed its assessment of their full impact on the Group, their possible impact on the Group's results of operations and financial position has not been quantified.

## 64 Events after the reporting date

### (a) Issuance of long-term bonds

On 24 February 2017, the Company completed the issuance of the first tranche of long-term bonds with total nominal value of RMB8 billion. The long-term bonds with nominal value of RMB6 billion bear interest at 4.50% per annum with a maturity of 1.5 years, while the remaining long-term bonds with nominal value of RMB2 billion bear interest at 4.65% per annum with a maturity of 3 years.

### (b) Profit distribution plan after accounting periods

On 30 March 2017, based on the total ordinary shares of 7,162,768,800 of the Company, the Board proposed the cash dividends of RMB5.00 (tax inclusive) per 10 ordinary shares distributed to all the shareholders, with total cash dividend amounting to RMB3,581,384 thousand (2015: RMB3,581,384 thousand).

The proposal is pending for the approval of the general meeting of the shareholders. The cash dividend are not recognized as a liability as at 31 December 2016.
