## CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "Board") of directors (the "Directors") of Good Resources Holdings Limited ("Good Resources" or the "Company"), I am pleased to report the annual results of the Company and its subsidiaries (collectively, the "Group") for the year ended 30 June 2017.

### A YEAR IN REVIEW

During the financial year of 2016/2017, the revenue of the Group is mainly generated from loan financing segment which still delivered a steady performance for the year. With effective cost controls and stringent capital expenditure, together with disposal gain from investment project, the Group was able to achieve positive results compared with last year's performance.

To tap into opportunities arising from the Mainland's "One Belt, One Road" Initiative, we are investing in a business which principally engaged in the construction of optical fibre cable network, base transceiver stations and network community in a developing country "Myanmar". In Myanmar, there is an enormous demand for optical fibre cable, base transceiver stations and information stations from primary telecom operators, content and service providers, financial institutions such as banks, and various government agencies of Myanmar. We target to focus on construction and operation of basic telecommunication facilities, investment in cloud storage facilities and Internet Data Centre (IDC), as well as the cultivation of emerging mobile internet operators in Myanmar. Currently, the business of the Company in Myanmar is just in the beginning stage. We hope that the telecom business can diversify the business segment of the Group and not only benefit the Company but also stakeholders of the Company in the near future.

After the financial year ended, in light of shares prices of the Company not reflecting the net asset value per shares recently, management believes that repurchases of shares would benefit the Company and its shareholders as a whole. The Company had conducted a series of repurchases of shares of the Company from 17 July 2017 to 18 August 2017 in a total number of 88,470,000 shares of the Company at an aggregate consideration of approximately HK\$39 million (the "Share Repurchases") which were cancelled on 30 August 2017. The cost of Share Repurchases was fully funded by the available cash of the Company.

### OUTLOOK

The Group continues to endeavour to be "the trusted financial investment management company in Hong Kong capital market guided by the vision to become an efficient investment platform with an influence on the world's financial industry,"

In the uncertain global economic and political environment, the Company keeps on generating revenue for the Company in a conservative and pragmatic way. We expect the loan financing continues to contribute a stable revenue to the Group in the coming year. In order to allocate the resources of the Company effectively, we will continue to proactively explore investment opportunities to create long-term value to our shareholders and stakeholders.

# CHAIRMAN'S STATEMENT

## APPRECIATION

On behalf of the Board, I would like to thank our valued customers, suppliers and business associates for their invaluable contributions and support. I also want to express my gratitude to our management team and all staff of the Group for their effort during the year. Last but not least, I am most grateful to our shareholders for their ongoing support.

**LU Sheng**  
*Chairman*

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

The principal businesses of the Group include (i) the provision of financial services and (ii) investment holding.

### Provision of financial services

The Group's financial services have total loans (net of impairment losses) outstanding as at 30 June 2017 of approximately HK\$1,367,552,000, which has decreased by approximately 16% compared to loans (net of impairment losses) outstanding as at 30 June 2016 of approximately HK\$1,629,003,000. In Hong Kong, the Group is conducting its money lending business through Golden Wayford Limited, a wholly owned subsidiary of the Company, which was granted a money lenders licence by the licensing court in Hong Kong pursuant to the Money Lenders Ordinance (Chapter 163 of the Laws of Hong Kong). The Group is also carrying on the financial leasing business, commercial factoring business and general loan financing activities in the PRC through an indirect wholly-owned PRC subsidiary located at the Shanghai Pilot Free Trade Zone.

The financial services segment has continued to generate interest incomes from loan financing during the year and has accounted for majority of the Group's turnover for the year ended 30 June 2017 (the "Year"). The segment becomes the core sources for the Group's profit and also as one the main business of the Group in the long run.

### Investment holding

The Group's investment portfolio segment comprised of (i) sub-group of Golden 11 Investment International PTE Ltd. ("Golden 11"); and (ii) financial instrument investments.

- (i) Golden 11 has invested in business infrastructure for optical fibre network, base stations and network at Myanmar along the railway line in Yongon. Golden 11 has not generated income yet but the local team of Golden 11 has started in formulating telecom business strategy and negotiating with the suppliers, potential customers and local government to facilitate its business development strategy and bring income for the Group in near future.
- (ii) The Group held investment in convertible note issued by Airspan Network Inc. ("Airspan") with fair value of approximately HK\$69,045,000, representing approximately 2.3% of the Group total assets as at 30 June 2017. The investment provides the Group with interest income approximately HK\$6,199,000 for the Year and a potential extension is under discussion between the Group and the issuer and no agreement has been reached as at the reporting date.

The Group intends to continue deploying its strategy to maintain its investment portfolios and seek other potential investments to diversify its investment portfolios in order to broaden the income sources of the Group.

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW

For the year ended 30 June 2017, the turnover of the Group decreased by approximately HK\$7,463,000 to approximately HK\$137,684,000 (2016: approximately HK\$145,147,000), representing a decrease of approximately 5.14% from last year. Decrease in turnover was primarily caused by the decrease in turnover related to interest income by approximately HK\$7,310,000 to approximately HK\$137,614,000 (2016: approximately HK\$144,924,000). The Group recorded a profit attributable to owners of the Company of approximately HK\$75,178,000 for the Year under review compared to a loss of approximately HK\$16,161,000 of last year. The change from a loss into profit position was mainly due to combined impacts of:

- (i) Profit impact due to the gain on disposal of majority equity interest in Metro Leader Limited and entire equity interest in Prominent Wise Limited and the remeasurement gain in the retained 10% issued share capital of Metro Leader Limited, which in a total profit of approximately HK\$49,749,000 was recorded in the Year (2016: Nil);
- (ii) Myanmar's telecommunication market will see a solid growth driven by the replacement of 2G networks with 3G/4G networks and the introduction of Myanmar's fourth operator who targets rural areas and competes on price in early 2017. With the open of Myanmar market, we expect to face with very strong competition against the large and middle size enterprises. In order to cope with the fast-changing market and foreseeable keen competition in particular in pricing, the management have carefully considered to shift its business strategy so as to gain competitive advantage in pricing and increase the market penetration rate in a short period of time, therefore the relevant key assumptions in the forecast have been moderated based on the latest market development. According to the latest valuation, the recoverable amount of the Cash Generating Unit is lower than the carrying amount, therefore an impairment loss on goodwill of approximately HK\$12,386,000 was recognised in "Other Net Losses" in the consolidated statement of comprehensive income in Note 9;
- (iii) As at 30 June 2017, loans receivable of approximately HK\$1,396,048,000 (2016: approximately HK\$1,629,003,000) of the Group were outstanding. The Group carried out an impairment assessment for each individual balance, considering the ageing of the receivable balances, debtors' creditworthiness, past repayment history and other specific circumstances and market conditions. After the impairment review, management have recognised impairment losses of approximately HK\$28,496,000 (2016: Nil) which represents approximately 2% of the loan portfolio. As such, the Group has approximately HK\$1,367,552,000 loans receivable, comprising approximately HK\$1,309,992,000 neither past due nor impaired and approximately HK\$57,560,000 past due but not impaired, at the end of reporting period;
- (iv) The general and administrative expenses for the Year amounted to approximately HK\$58,396,000, representing an approximately 53.17% decrease as compared with 2016 of approximately HK\$124,688,000. The decrease in general and administrative expense was mainly due to the decrease in staff costs of approximately HK\$13,493,000 to approximately HK\$31,848,000 (2016: approximately HK\$45,341,000) attributable to the decrease in average headcount, legal and professional fees of approximately HK\$17,822,000 to approximately HK\$2,366,000 (2016: approximately HK\$20,188,000), consultancy expense of approximately HK\$9,231,000 to approximately HK\$1,678,000 (2016: approximately HK\$10,909,000), and rental expense of approximately HK\$8,798,000 to approximately HK\$8,694,000 (2016: approximately HK\$17,492,000);
- (v) Profit impact for increase in other revenue by approximately HK\$7,352,000 to HK\$19,646,000 (2016: approximately HK\$12,294,000) mainly due to the increase in bank balance and deposit and the recognition of the relevant of bank interest income of approximately HK\$6,970,000 to approximately HK\$11,636,000 (2016: approximately HK\$4,666,000); and

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW (continued)

- (vi) Profit impact for decrease in taxation charge by approximately HK\$9,916,000 to HK\$25,222,000 (2016: HK\$35,138,000) mainly because less corporate income tax has been charged for the loan financing profit generated in the PRC.

## PROSPECT

Although there is a keen competitive loan financing market in both Hong Kong and China, the Group continues to identify its loan financing services to maintain stability in our core operations. It is expected that there still has a stable revenue generated from loan financing services in the coming year. With Mainland China initiating the "One Belt, One Road" economic development strategy, we hope the investment of the Company in Myanmar can create positive value to the shareholders and the stakeholders of the Company as soon as possible in the near future.

The Group will maintain its stable financial profile to keep its sustainability. The Group keeps proactively exploring further potential investment opportunities in other industries in order to broaden the source of revenue and diversify business risk in the best interest of shareholders of the Company.

## USE OF PROCEEDS AND UPDATES

The net proceeds received by the Company in May 2015 from the completion of the subscription agreement dated 29 January 2015 between the Company and Tiancheng International Holdings Investment Limited (the details of which were set out in the circular (the "Circular") of the Company dated 12 March 2015). The net proceeds were intended to be applied in accordance with the proposed application as set out in pages 16 and 17 of the Circular and in page 8 of Annual Report 2016. The actual proceeds received was HK\$2,464.8 million and intended to apply the net proceeds as below:

- (a) approximately HK\$1,847.1 million for the loan/lease financing activities of the Group within the financial services segment;
- (b) approximately HK\$39 million for investment in the online bank business in form of joint venture;
- (c) approximately HK\$78 million for investment in Golden 11 and loans to shareholders of Golden 11;
- (d) approximately HK\$500.7 million for the purposes of further development of Golden 11 and fulfilling the capital contribution commitment of approximately HK\$38 million of Golden 11, future investment opportunities in the clean energy, internet banking (non-greenfield stage), biopharmaceutical, financial investment, bulk commodities, cultural industries or other major sectors.

The actual use of the net proceeds from the subscription agreement up to 30 June 2017 has been utilized in the following manner:

- (a) used as intended;
- (b) used as intended;
- (c) used as intended;
- (d) approximately HK\$38 million was used for fulfilling the capital contribution commitment of Golden 11 sub-group; an additional working capital of approximately HK\$9 million has been provided to Golden 11 for business development during the Year; and the remaining balance yet to be utilised and is placed in licensed banks.

### NON-EXECUTIVE DIRECTOR AND INDEPENDENT NON-EXECUTIVE DIRECTORS

The Board currently has one Non-executive Director ("NED") and three Independent Non-executive Directors ("INEDs") with one of them possessing appropriate professional qualifications, or accounting or related financial management expertise. Currently, the Independent Non-executive Directors are appointed for specific terms and are subject to retirement by rotation and reelection at the annual general meeting of the Company in accordance with the Bye-laws of the Company.

The roles of the Independent Non-executive Directors include the following:

- Provision of independent judgment at the Board;
- Dealing with issues arising from potential conflicts of interests between the major shareholders (or, as the case may be, Directors, or management and the minority shareholders);
- Serving on audit, nomination and remuneration committees; and
- Scrutinizing the performance of the Group as necessary.

Pursuant to Rule 3.13 of the Listing Rules, the Company received annual independence confirmation letters from Mr. Chau On Ta Yuen, Mr. Zhang Ning, Mr. Wong Hok Bun, Mario and Ms. Kwan Shan respectively. The Company considers all INEDs to be independent in accordance with the independence guidelines set out in the Listing Rules.

The Board conducts at least four regular Board meetings a year at approximately quarterly intervals in addition to other Board meetings that are required for significant and important issues, and for statutory purposes. Appropriate and sufficient information is provided to Board members in a timely manner to keep them abreast of the Group's latest developments and thus assist them in discharging their duties.

## CORPORATE GOVERNANCE REPORT

The Board has established Board Committees, namely Audit Committee, Remuneration Committee and Nomination Committee to oversee particular aspects of the Company's affairs and to assist in the execution of the Board's responsibilities.

### AUDIT COMMITTEE

The Audit Committee comprises one NED and two INEDs of the Company:

Mr. Chau On Ta Yuen (*Chairman of Audit Committee*)  
Mr. Lo Wan Sing, Vincent  
Mr. Wong Hok Bun, Mario (*appointed on 31 May 2017*)  
Ms. Kwan Shan (*resigned on 31 May 2017*)

The Audit Committee was set up with the responsibilities of reviewing and providing supervision over the Group's financial reporting process and internal controls. It is responsible to evaluate the overall effectiveness of the internal control and risk management frameworks, to review the accounting principles and practices adopted by the Group and other financial reporting matters and ensure the completeness, accuracy and fairness of the financial statements, to monitor compliance with statutory and listing requirements and to oversee the relationship with the external auditor.

The Audit Committee reviews the interim and annual reports before submission to the Board. At least one member has an appropriate professional qualification or accounting or related financial management expertise. The Audit Committee focuses not only on the impact of the changes in accounting policies and practices but also on the compliance with accounting standards, the Listing Rules and the legal requirements in the review of the Company's interim and annual reports. Senior representatives of the external auditor, Executive Directors and senior executives are invited to attend the meetings, if required. Each of the Audit Committee members has unrestricted access to the Group's external auditor and the management.

### Summary of Works

Audit Committee held three meetings during the year. The Audit Committee reviewed the annual and interim results of the year and discuss the valuation of the investments; made recommendations to the Board on the terms of engagement of the external and internal auditors; and reviewed the system of internal control, risk management and its other duties in accordance with the Audit Committee's terms of reference.

As a resolution will be submitted to the forthcoming annual general meeting of the Company to re-appoint the current external Auditor, Messrs. BDO Limited, no explanation from the Audit Committee is applicable to the reason why the Board has taken a different view from that of the Audit Committee regarding the selection, appointment, resignation or dismissal of the external Auditor.

### REMUNERATION COMMITTEE

The Remuneration Committee comprises one NED and three INEDs:

Mr. Zhang Ning (*appointed as Chairman of Remuneration Committee on 14 July 2016*)  
Mr. Lo Wan Sing, Vincent  
(*Chairman of Remuneration Committee up to 14 July 2016, re-designated as Member of Remuneration Committee from 14 July 2016*)  
Mr. Chau On Ta Yuen  
Mr. Wong Hok Bun, Mario (*appointed on 31 May 2017*)  
Ms. Kwan Shan (*resigned on 31 May 2017*)

The Remuneration Committee was set up with the responsibility for providing recommendations to the Board the remuneration policy of all the Directors and the senior management. The Remuneration Committee is authorized to investigate any matter within its Terms of Reference and seeks any information it requires from any employee or Director of the Company and obtains outside legal or other independent professional advice at the cost of the Company if it considers necessary.

## REMUNERATION COMMITTEE (continued)

### Summary of Works

During the year, the Remuneration Committee held four meetings and reviewed the remuneration packages of the all the Directors and the senior management and made recommendations to the Board on the remuneration of the newly appointed Executive Director in accordance with the Remuneration Committee's terms of reference. Pursuant to code provision B1.5 of the CG Code, the details of the annual remuneration of the members of the senior management by band for the year ended 30 June 2017 is as follows:

Remuneration Band (in HK\$)	No. of individuals
Below HK\$1,000,000	2
HK\$1,000,001 to HK\$1,500,000	3

Details of the remuneration of each Director for the year ended 30 June 2017 are set out in Note 13 to the consolidated financial statements.

## NOMINATION COMMITTEE

The Nomination Committee consists of the Chairman of the Board, one NED, and three INEDs:

Mr. Lu Sheng (*Chairman of Nomination Committee*)  
Mr. Chau On Ta Yuen  
Mr. Lo Wan Sing, Vincent  
Mr. Zhang Ning (*appointed on 14 July 2016*)  
Mr. Wong Hok Bun, Mario (*appointed on 31 May 2017*)  
Ms. Kwan Shan (*resigned on 31 May 2017*)

The Nomination Committee is responsible for nominating potential candidates for directorship, reviewing the nomination of Directors and making recommendations to the Board on such appointments.

The Nomination Committee is scheduled to meet at least once a year for the review of the structure, size and composition (including skills, knowledge and experience) of the Board. In addition, the Nomination Committee also meets as it is required to consider nomination of related matters.

### Summary of Works

Nomination Committee held two meetings during the year. The Nomination Committee reviewed the board diversity policy, the structure, size and composition of the Board and made recommendations on any proposed changes to the Board to complement the Company's strategy and the appointment of the newly appointed Directors in accordance with the Nomination Committee's terms of reference.

### Board Diversity Policy

The Nomination Committee adopted a board diversity policy (the "Board Diversity Policy"). A summary of this policy, together with the measurable objectives set for implementing this Policy, and the progress made towards achieving those objectives are disclosed as below.

### Summary of the Board Diversity Policy

The Company recognized and embraced the benefits of having a diverse Board to the quality of its performance. The Board Diversity Policy aimed to set out the approach to achieve diversity on the Board. In designing the Board's composition, Board diversity has been considered from a number of measurable aspects including gender, age, ethnicity, knowledge and length of services. All Board appointments will be based on meritocracy, and candidates will be considered against objective criteria, having due regards for the benefits of diversity on the Board.

# CORPORATE GOVERNANCE REPORT

## Measurable Objectives

Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of services. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

## Implementation and Monitoring

The Nomination Committee reviewed the Board's composition under diversified perspectives, and monitored the implementation of the Board Diversity Policy annually.

As at the date of this report, the Board comprises six Directors. Two of them are ED, one of them are NED, three of them are INEDs, and thereby to promote critical review and control of the management process. The Board is also characterised by significant diversity, whether considered in terms of age, length of services, professional background and skills.

The Nomination Committee has reviewed the Board Diversity Policy to ensure its effectiveness and considered that the Group achieved the Board Diversity Policy.

## ATTENDANCE RECORD AT BOARD AND BOARD COMMITTEE MEETINGS

The Board and the Board committees meet regularly every fiscal year and additional meetings would be arranged if and when necessary. Fifteen meetings were held by the Board during the year ended 30 June 2017. Attendance of the meetings of the Board and those of the committees are set out as follows:

4. Ms. Kwan Shan resigned as Independent Non-executive Director on 31 May 2017.

## MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted the Model Code for Securities Transactions By Directors of Listed Issuers set out in Appendix 10 to the Listing Rules (the "Model Code") during the year under review. The Company has made specific enquiry with all directors and all of them confirmed that they have complied with the required standard set out in the Model Code for the year ended 30 June 2017.

## DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibilities for the preparation of the financial statements of the Group and ensure that the financial statements are in accordance with statutory requirements and applicable accounting standards. The Directors also ensure the timely publication of the financial statements of the Group.

The statement of the external Auditor of the Company, Messrs. BDO Limited, about their reporting responsibilities on the financial statements of the Group is set out in the Independent Auditor's Report from pages 38 to 42.

The Directors confirm that, to the best of their knowledge, information and belief having made all reasonable enquiries, they are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

## AUDITOR'S REMUNERATION

The remuneration in respect of audit and non-audit services provided by the external auditors for the year ended 30 June 2017 are HK\$1,150,000 and HK\$330,000 respectively.

## INTERNAL CONTROL AND RISK MANAGEMENT

To facilitate the effectiveness and efficiency of operations and to ensure compliance with relevant laws and regulations, the Group emphasizes on the importance of a sound internal control system which is also indispensable to mitigating the Group's risk exposures. The Group's system of internal control is designed to provide reasonable, rather than absolute, assurance against material misstatement or loss and to manage but not eliminate risks of failure in operational systems and fulfillment of the business objectives.

The internal control system is reviewed on an ongoing basis by the Board in order to make it practical and effective in providing reasonable assurance in relation to protection of material assets and identification of business risks.

The Group is committed to the identification, monitoring and management of risks associated with its business activities and has implemented a practical and effective control system which includes a defined management structure with limits of authority, a sound cash management system and periodic review of the Group's performance by the Audit Committee and the Board.

During the Year under review, the Board through the Audit Committee had conducted an annual review on the risk management of the Group including risk management functions of the Group. Appropriate measures have been put in place to manage the risks. No major issue was raised for improvement.

The Board currently takes the view that there is no immediate need to set up an internal audit function in light of the size, nature and complexity of the Group's business. The internal audit function was carried out by an independent accounting firm. During the Year, the Audit Committee and an independent accounting firm has conducted a review of the effectiveness of the internal control system of the Company and is satisfied that the internal control systems within the Group are effective.

### TO THE SHAREHOLDERS OF GOOD RESOURCES HOLDINGS LIMITED

天成國際集團控股有限公司

*(incorporated in Bermuda with limited liability)*

#### Opinion

We have audited the consolidated financial statements of Good Resources Holdings Limited (the "Company") and its subsidiaries (together as the "Group") set out on pages 43 to 103, which comprise the consolidated statement of financial position as at 30 June 2017, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 30 June 2017, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the HKICPA's "Code of Ethics for Professional Accountants" (the "Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### *Impairment assessment of goodwill*

The Group had goodwill of HK\$27,833,000 as at 30 June 2017. Management have performed an impairment review under Hong Kong Accounting Standard 36 "Impairment of Assets". Recoverable amount of cash generating unit is determined based on value in use calculations, which include significant assumptions and judgements made by management concerning the estimated future cash flows. Based on the value in use calculations, an impairment loss of HK\$12,386,000 (2016: Nil) was recognised.

We identified the impairment assessment of goodwill as a key audit matter because of its significance to the consolidated financial statements and because this area involves a significant degree of judgement and estimation made by management, in particular the estimation of future cash flows and discount rate.

The accounting policy, significant accounting judgements and estimates, key assumptions used in the impairment model and disclosures are included in Notes 3, 4 and 18 to the consolidated financial statements.

Our response:

Our procedures in relation to management's impairment assessment of goodwill included:

- Assessing the valuation methodology;
- Challenging the reasonableness of key assumptions based on our knowledge of the business and industry; and
- Reconciling input data to supporting evidence, such as latest financial forecasts approved by the management and considering the reasonableness of these forecasts.

### *Impairment assessment of loans receivable*

The Group had loans receivable of HK\$1,396,048,000 as at 30 June 2017. The Group's methodology and assumptions used for estimating both the amount and timing of future cash flows for loans receivable normally encompass the nature and value of collateral held and anticipated receipts. The Group carried out an impairment assessment for each individual balance, considering the ageing of the receivable balances, debtors' creditworthiness, past repayment history and other specific circumstances and market conditions. In the impairment review, management have recognised impairment losses of HK\$28,496,000 (2016: Nil).

We identified the impairment assessment of loans receivable as a key audit matter because of its significance to the consolidated financial statements and the assessment of impairment for loans receivable involved significant management judgements and estimations used on the expected future cash flows based on the creditability of the counterparties, nature and value of collateral held and anticipated receipts.

The accounting policy, significant accounting judgements and estimates and disclosures for the recognition of impairment of loans receivable are included in Notes 3, 4 and 21 to the consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT

Our response:

Our procedures in relation to management's impairment assessment of loans receivable included:

- Obtain an understanding of the Group's methodology and assumptions used for estimating the impairment allowance on loans receivable;
- Select samples based on the significance of the outstanding loan amounts and examine their financial performance by reviewing the credit assessment performed by the Group, including recoverable cash flows, repayment history and compare the current market value of collateral;
- Obtain direct confirmation of selected accounts; and
- Examine the ageing analysis, check subsequent settlement and consider the credit standing and historical repayment pattern of the counterparties.

### Other Information in the Annual Report

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Directors' Responsibilities for the Consolidated Financial Statements

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are also responsible for overseeing the Group's financial reporting process. The Audit Committee assists the directors in discharging their responsibility in this regard.

# INDEPENDENT AUDITOR'S REPORT

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act 1981, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### (b) Potential impact arising on HKFRSs not yet effective (continued)

Those new/revised HKFRSs that might have material impact on the Group’s financial statements are set out below:

#### HKFRS 15 – Revenue from Contracts with Customers

The new standard establishes a single revenue recognition framework. The core principle of the framework is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. HKFRS 15 supersedes existing revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and related interpretations.

HKFRS 15 requires the application of a 5 steps approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to each performance obligation
- Step 5: Recognise revenue when each performance obligation is satisfied

HKFRS 15 includes specific guidance on particular revenue related topics that may change the current approach taken under HKFRS. The standard also significantly enhances the qualitative and quantitative disclosures related to revenue.

#### HKFRS 9 – Financial Instruments

HKFRS 9 introduces new requirements for the classification and measurement of financial assets. Debt instruments that are held within a business model whose objective is to hold assets in order to collect contractual cash flows (the business model test) and that have contractual terms that give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (the contractual cash flow characteristics test) are generally measured at amortised cost. Debt instruments that meet the contractual cash flow characteristics test are measured at FVTOCI if the objective of the entity’s business model is both to hold and collect the contractual cash flows and to sell the financial assets. Entities may make an irrevocable election at initial recognition to measure equity instruments that are not held for trading at FVTOCI. All other debt and equity instruments are measured at FVTPL.

## 2. ADOPTION OF HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### (b) Potential impact arising on HKFRSs not yet effective (continued)

#### HKFRS 9 – Financial Instruments (continued)

HKFRS 9 includes a new expected loss impairment model for all financial assets not measured at FVTPL replacing the incurred loss model in HKAS 39 and new general hedge accounting requirements to allow entities to better reflect their risk management activities in financial statements.

HKFRS 9 carries forward the recognition, classification and measurement requirements for financial liabilities from HKAS 39, except for financial liabilities designated at FVTPL, where the amount of change in fair value attributable to change in credit risk of the liability is recognised in other comprehensive income unless that would create or enlarge an accounting mismatch. In addition, HKFRS 9 retains the requirements in HKAS 39 for derecognition of financial assets and financial liabilities.

#### HKFRS 16 – Leases

HKFRS 16 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statement of both lessors and lessees. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value.

A lessee is required to recognise a right-of-use asset and a lease liability at the commencement of lease arrangement. Right-of-use asset includes the amount of initial measurement of lease liability, any lease payment made to the lessor at or before the lease commencement date, estimated cost to be incurred by the lessee for dismantling or removing the underlying assets from and restoring the site, as well as any other initial direct cost incurred by the lessee. Lease liability represents the present value of the lease payments. Subsequently, depreciation and impairment expenses, if any, on the right-of-use asset will be charged to profit or loss following the requirement of HKAS 16 “Property, Plant and Equipment”, while lease liability will be increased by the interest accrual, which will be charged to profit or loss, and deducted by lease payments.

#### Amendments to HKFRS 10 and HKAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments clarify the extent of gains or losses to be recognised when an entity sells or contributes assets to its associate or joint venture. When the transaction involves a business the gain or loss is recognised in full, conversely when the transaction involves assets that do not constitute a business the gain or loss is recognised only to the extent of the unrelated investors’ interests in the joint venture or associate.

The Group is in the process of making an assessment of the potential impact of these new/revised HKFRSs and the directors are not yet in a position to conclude whether the application of these new/revised HKFRSs will have material impact on the Group’s financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 3. SIGNIFICANT ACCOUNTING POLICIES

### Statement of compliance

The consolidated financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations (hereinafter collectively referred to as the “HKFRSs”) and the disclosure requirements of the Hong Kong Companies Ordinance. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange.

### Basis of measurement

The consolidated financial statements have been prepared under the historical cost basis except for certain financial instruments, which are measured at fair value, as explained in the accounting policies set out below.

### Functional and presentation currency

The consolidated financial statements are presented in Hong Kong dollar (“HK\$”), which is the same as the functional currency of the Company.

### Business combination and basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries up to 30 June each year. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective dates of acquisition or up to the effective dates of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

Acquisition of subsidiaries or businesses is accounted for using the acquisition method. The cost of an acquisition is measured at the aggregate of the acquisition-date fair value of assets transferred, liabilities incurred and equity interests issued by the Group, as the acquirer. The identifiable assets acquired and liabilities assumed are principally measured at acquisition-date fair value. The Group’s previously held equity interest in the acquiree is re-measured at acquisition-date fair value and the resulting gains or losses are recognised in profit or loss. The Group may elect, on a transaction-by-transaction basis, to measure the non-controlling interests that represent present ownership interests in the subsidiary either at fair value or at the proportionate share of the acquiree’s identifiable net assets. All other non-controlling interests are measured at fair value unless another measurement basis is required by HKFRSs. Acquisition-related costs incurred are expensed unless they are incurred in issuing equity instruments in which case the costs are deducted from equity.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interest. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for in the same manner as would be required if the relevant assets or liabilities were disposed of.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Subsidiaries

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure, or rights, to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

In the Company's statement of financial position, investments in subsidiaries are stated at cost less impairment loss, if any. The results of subsidiaries are accounted for by the Company on the basis of dividend received and receivable.

### Joint arrangements

The group is a party to a joint arrangement where there is a contractual arrangement that confers joint control over the relevant activities of the arrangement to the group and at least one other party. Joint control is assessed under the same principles as control over subsidiaries.

The group classifies its interests in joint arrangements as either:

- Joint ventures: where the group has rights to only the net assets of the joint arrangement; or
- Joint operations: where the group has both the rights to assets and obligations for the liabilities of the joint arrangement.

In assessing the classification of interests in joint arrangements, the Group considers:

- The structure of the joint arrangement;
- The legal form of joint arrangements structured through a separate vehicle;
- The contractual terms of the joint arrangement agreement; and
- Any other facts and circumstances (including any other contractual arrangements).

The Group accounts for its interests in joint ventures in the same manner as investments in associates (i.e. using the equity method).

Any premium paid for an investment in a joint venture above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is capitalised and included in the carrying amount of the investment in joint venture. Where there is objective evidence that the investment in a joint venture has been impaired the carrying amount of the investment is tested for impairment in the same way as other non-financial assets.

The Group accounts for its interests joint operations by recognising its share of assets, liabilities, revenues and expenses in accordance with its contractually conferred rights and obligations.

The Company's interests in joint ventures are stated at cost less impairment losses, if any. Results of joint ventures are accounted for by the Company on the basis of dividends received and receivable.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of property, plant and equipment includes its purchase price and the costs directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as an expense in profit or loss during the financial period in which they are incurred.

Property, plant and equipment are depreciated so as to write off their cost net of expected residual value over their estimated useful lives on a straight-line basis. The useful lives, residual value and depreciation method are reviewed, and adjusted if appropriate, at the end of each reporting period. The useful lives are as follows:

Telecommunications infrastructure and network equipment	5-10 years
Leasehold improvements	Over the term of the relevant lease
Furniture, fixtures and equipment	3-5 years
Motor vehicles	10 years

An asset is written down immediately to its recoverable amount if its carrying amount is higher than the asset's estimated recoverable amount.

The gain or loss on disposal of an item of property, plant and equipment is the difference between the net sale proceeds and its carrying amount, and is recognised in profit or loss on disposal.

Construction in progress is stated at cost less any impairment losses. Cost comprises direct costs of construction as well as borrowing costs capitalised during the periods of construction and installation. Capitalisation of these costs ceases and the construction in progress is transferred to the appropriate class of property, plant and equipment when substantially all the activities necessary to prepare the assets for their intended use are completed. No depreciation is provided for in respect of construction in progress until it is completed and ready for its intended use.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Intangible assets

Intangible assets acquired separately are initially recognised at cost. The cost of intangible assets acquired in a business combination is fair value at the date of acquisition. Subsequently, intangible assets with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Amortisation is provided on a straight-line basis over the useful lives as follows:

Operating lease	Over the unexpired term of the lease
Licence	15 years

The amortisation expense is recognised in profit or loss and included in administrative expenses.

### Goodwill

Goodwill is initially recognised at cost being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests in the acquiree and the acquisition date fair value of the acquirer's previously held equity interest in the acquiree over the fair value of identifiable assets and liabilities acquired.

Goodwill is measured at cost less impairment losses. For the purpose of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units that are expected to benefit from the synergies of the acquisition. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. A cash-generating unit to which goodwill has been allocated is tested for impairment annually, by comparing its carrying amount with its recoverable amount, and whenever there is an indication that the unit may be impaired.

For goodwill arising on an acquisition in a financial year, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that financial year. When the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit first, and then to the other assets of the unit pro-rata on the basis of the carrying amount to each asset in the unit. However, the loss allocated to each asset will not reduce the individual asset's carrying amount to below its fair value less cost of disposal (if measurable) or its value in use (if determinable), whichever is the higher. Any impairment loss for goodwill is recognised in profit or loss and is not reversed in subsequent periods.

### Non-current assets and disposal groups classified as held for sale

Non-current assets and disposal groups are classified as held for sale when:

- they are available for immediate sale;
- management is committed to a plan to sell;
- it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn;
- an active programme to locate a buyer has been initiated;
- the asset or disposal group is being marketed at a reasonable price in relation to its fair value; and
- a sale is expected to complete within 12 months from the date of classification.

Non-current assets and disposal groups classified as held for sale are measured at the lower of:

- their carrying amount immediately prior to being classified as held for sale in accordance with the Group's accounting policy; and
- fair value less costs to sell.

Following their classification as held for sale, non-current assets (including those in a disposal group) are not depreciated.

The results of operations disposed of during the year are included in profit or loss up to the date of disposal.

### Financial instruments

Financial assets and financial liabilities are recognised on the statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### *Financial assets*

The Group's financial assets are classified into one of the three categories, comprising financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. The accounting policies adopted in respect of each category of financial assets are set out below.

#### *Financial assets at fair value through profit or loss*

Financial assets are classified as at fair value through profit or loss where the financial asset is either held for trading or it is designated at initial recognition as at fair value through profit or loss. Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. The net gain or loss recognised in profit or loss does not include any dividend or interest earned on these financial assets. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments.

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At the end of each reporting period subsequent to initial recognition, loans and receivables (including loans receivable, trade and other receivables, bank balances and cash and amounts due from subsidiaries) are carried at amortised cost using the effective interest method, less any identified impairment losses. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

A loan receivable under sale and leaseback arrangement, which in substance does not involve a lease and represents loan made to a borrower/lessee secured on the underlying assets, is also classified as loans and receivables.

#### *Available-for-sale financial assets*

These assets are non-derivative financial assets that are designated as available-for-sale or are not included in other categories of financial assets. Subsequent to initial recognition, these assets are carried at fair value with changes in fair value recognised in other comprehensive income, except for impairment losses and foreign exchange gains and losses on monetary instruments, which are recognised in profit or loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses.

### Financial instruments (continued)

#### *Financial assets (continued)*

##### *Impairment of financial assets*

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the asset have been impacted.

Objective evidence of impairment could include:

- Significant financial difficulty of the issuer or counterparty;
- Default or delinquency in interest or principal payments;
- It becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- Significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

##### *For Loans and receivables*

An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired and is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate, where the effect of discounting is material. This assessment is made collectively where financial assets carried at amortised cost share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which has been determined had no impairment loss been recognised in prior years.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of an asset, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against the corresponding asset directly and any amounts held in the allowance account relating to that asset are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### *Financial assets (continued)*

#### *Impairment of financial assets (continued)*

#### *For Available-for-sale financial assets*

Where a decline in the fair value constitutes objective evidence of impairment, the amount of the loss is removed from equity and recognised in profit or loss.

Any impairment losses on available-for-sale debt investments are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investment, any increase in fair value subsequent to an impairment loss is recognised in other comprehensive income.

For available-for-sale equity investment that is carried at cost, the amount of impairment loss is measured as the difference between the carrying amount of the asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss is not reversed.

#### *Financial liabilities and equity instruments issued by the Group*

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policies adopted in respect of financial liabilities and equity instruments are set out below.

#### *Financial liabilities*

Financial liabilities including trade and other payables and amounts due to subsidiaries are initially measured at fair values, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method.

#### *Equity instruments*

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### *Financial liabilities and equity instruments issued by the Group (continued)*

##### *Convertible notes*

Convertible notes are regarded as compound instruments, consisting of a liability component and an equity component. At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible debt. The difference between the proceeds of issue of the convertible notes and fair value assigned to the liability component, representing the embedded option for the holder to convert the convertible notes into a fixed number of the Company's own equity instruments, is included in convertible notes reserve.

In subsequent periods, the liability component of the convertible notes is carried at amortised cost using the effective interest method, until extinguished on conversion or maturity.

Issue costs are apportioned between the liability and equity components of the convertible notes based on their relative carrying amounts at the date of issue. The portion relating to the equity component is charged directly to equity.

The interest expense on the liability component is calculated by applying the prevailing market interest rate of similar non-convertible debt to the liability component of the convertible notes. The difference between this amount and the interest paid is added to the carrying amount of the convertible notes.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial asset or liability, or where appropriate, a shorter period.

##### *Derecognition of financial assets and liabilities*

Financial assets are derecognised when the contractual rights to the future cash flows in relation to the financial assets expire or when the financial assets have been transferred and the transfer meets the criteria for derecognition in accordance with HKAS 39.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Impairment of non-financial assets

At the end of each reporting period, the Group reviews the carrying amounts of property, plant and equipment, intangible asset with finite useful life, investments in subsidiaries and joint venture to determine whether there is any indication that those assets have suffered an impairment loss or an impairment loss previously recognised no longer exists or may have decreased. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

### Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts.

Interest income from a financial asset is accrued on a time-apportioned basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Dividend income from investments held for trading is recognised when the Group's rights to receive payment have been established.

Rental income under operating leases is recognised on a straight-line basis over the term of the relevant lease.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Income taxes

Income taxes for the year comprise current tax and deferred tax.

Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for tax purposes. Except for goodwill and recognised assets and liabilities that affect neither accounting nor taxable profits, deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Deferred tax is measured at the tax rates expected to apply in the period when the liability is settled or the asset is realised based on tax rates that have been enacted or substantively enacted at the end of reporting period.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Income taxes are recognised in profit or loss except when they relate to items recognised in other comprehensive income in which case the taxes are also recognised in other comprehensive income.

### Leases

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### *The Group as lessor*

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are recognised as an expense on the straight-line basis over the lease term.

#### *The Group as lessee*

The total rentals payable under the operating leases are recognised in profit or loss on a straight-line basis over the lease term. Lease incentives received are recognised as an integrated part of the total rental expense, over the term of the lease.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Foreign currencies

Transactions entered into by group entities in currencies other than the currency of the primary economic environment in which they operate (the "functional currency") are recorded at the rates ruling when the transactions occur. Foreign currency monetary assets and liabilities are translated at the rates ruling at the end of reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

On consolidation, income and expense items of foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the average exchange rates for the year, unless exchange rates fluctuate significantly during the year, in which case, the rates approximating to those ruling when the transactions took place are used. All assets and liabilities of foreign operations are translated at the rate ruling at the end of reporting period. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity as translation reserve. Exchange differences recognised in profit or loss of group entities' separate financial statements on the translation of long-term monetary items forming part of the Group's net investment in the foreign operation concerned are reclassified to other comprehensive income and accumulated in equity as translation reserve.

On disposal of a foreign operation, the cumulative exchange differences recognised in the translation reserve relating to that operation up to the date of disposal are reclassified to profit or loss as part of the profit or loss on disposal.

### Employee benefits

#### (i) Short term benefits

Salaries, annual bonuses, and paid annual leaves are accrued in the year in which the associated services are rendered by employees.

#### (ii) Pension obligations

Contributions to the Mandatory Provident Fund scheme as required under the Hong Kong Mandatory Provident Fund Schemes Ordinance are charged to profit or loss when incurred. The Group has no further payment obligations once the contribution has been made.

# NOTES TO THE FINANCIAL STATEMENTS

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Provision and contingent liabilities

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made for the amount of obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligation, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### Share-based payments

Where share options are awarded to employees of the Group or other providing similar services, the fair value of the options at the date of grant is recognised in profit or loss over the vesting period with a corresponding increase in the share-based compensation reserve within equity. Non-market vesting conditions are taken into account by adjusting the number of equity instruments expected to vest at the end of each reporting period so that, ultimately, the cumulative amount recognised over the vesting period is based on the number of options that eventually vest. Market vesting conditions are factored into the fair value of the options granted. As long as all other vesting conditions are satisfied, a charge is made irrespective of whether the market vesting conditions are satisfied. The cumulative expense is not adjusted for failure to achieve a market vesting condition.

Where the terms and conditions of options are modified before they vest, the increase in the fair value of the options, measured immediately before and after the modification, is also recognised in profit or loss over the remaining vesting period.

Where equity instruments are granted to parties other than employees, the fair value of goods or services received is recognised in profit or loss unless the goods or services qualify for recognition as assets, or except where the fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the Group obtains the goods or the counterparty renders the service. A corresponding increase in equity is recognised.

When the option is exercised, the amount recognised in the share-based compensation reserve is transferred to share premium account. When the option lapses, the amount recognised in the share-based compensation reserve is released directly to retained profits.

### Related parties

- (a) A person or a close member of that person's family is related to the Group if that person:
- (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of key management personnel of the Group or the Company's parent.
- (b) An entity is related to the Group if any of the following conditions apply:
- (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of the employees of the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a group of which it is a party, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity and include:

- (i) that person's children and spouse or domestic partner;
- (ii) children of that person's spouse or domestic partner; and
- (iii) dependents of that person or that person's spouse or domestic partner.

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The estimates and assumptions that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

### Impairment of other receivables and loans receivable

The Group makes provision for impairment of other receivables and loans receivable and based on an estimate of the recoverability of these receivables. Provisions are applied to these receivables where events or changes in circumstances indicate that the balances may not be collectible. The identification of impairment of these receivables requires the use of estimates. Where the expectation is different from the original estimates, such difference will impact carrying value of receivables and provision for impairment losses in the period in which such estimate has been changed.

### Provision for taxes

The Group through its investments in subsidiaries is subject to certain taxes in the People's Republic of China (the "PRC") and Hong Kong including enterprise income tax, capital gain tax and Hong Kong Profits Tax. Significant judgement is required in determining the amount of the provision for taxes and the timing of related taxes. The Group recognises the liabilities for anticipated taxes based on the Group's interpretation of prevailing tax laws and practices. Where the final outcome of these matters is different from the amounts that were initially recorded, such difference will impact the tax provisions in the period in which such determination is made.

### Impairment of goodwill and intangible assets

Determining whether goodwill or an intangible asset is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated and the intangible asset relates. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value.

## 4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

### Fair value of measurement

The Group's financial assets at fair value through profit or loss are measured at fair value.

The fair value measurement of the Group's financial assets utilises market observable inputs and data as far as possible. Inputs used in determining fair value measurements are categorised into different levels based on how observable the inputs used in the valuation technique utilised are (the "fair value hierarchy"):

- Level 1: Quoted prices in active markets for identical items (unadjusted);
- Level 2: Observable direct or indirect inputs other than Level 1 inputs;
- Level 3: Unobservable inputs (i.e. not derived from market data).

The classification of an item into the above levels is based on the lowest level of the inputs used that has a significant effect on the fair value measurement of the item. Transfers of items between levels are recognised in the period they occur.

A more detailed information in relation to the fair value measurement of these assets is disclosed in Note 32.

## 5. CAPITAL RISK MANAGEMENT

The Group's objectives of managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital. There was no change in capital management policies and objectives from prior periods.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position and makes adjustment to the capital structure in light of changes in economic conditions.

Consistent with industry practice, the Group monitors its capital structure on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and bank balances. Total capital is calculated as equity as shown in the consolidated statement of financial position, plus net debt (excess of borrowings over cash and bank balances), as appropriate.

During the year ended 30 June 2017, the Group's strategy, which was unchanged from 2016, was to maintain a zero or minimal gearing ratio.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 5. CAPITAL RISK MANAGEMENT (continued)

The gearing ratio as at 30 June 2016 and 2017 were as follows:

	2017 HK\$'000	2016 HK\$'000
Total borrowings	–	–
Less: Bank balances and cash	<b>(1,347,820)</b>	(980,003)
Bank deposits with maturity over three months	–	(53,682)
Net debt	<b><u>(1,347,820)</u></b>	<b><u>(1,033,685)</u></b>
Total capital	<b><u>2,801,434</u></b>	<b><u>2,756,101</u></b>
Gearing ratio	<b><u>N/A</u></b>	<b><u>N/A</u></b>

## 6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include other receivables, loans receivable, available-for-sale financial asset, investments in convertible notes, bank balances and cash, bank deposits, other payables, accruals and deposits received. Details of these financial instruments are disclosed in the respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

### Credit risk

In order to minimise credit risk, the Group's management has delegated to a team the responsibility for the determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group's management reviews the recoverable amount of each individual debt, including loans receivable, loans receivable under sale and leaseback arrangements, other receivables, deposits and prepayments, regularly to ensure that adequate impairment losses are recognised for irrecoverable debts. For loans receivable, the Group will consider, but not limited to, the business prospect, the financial performance and position of borrowers through business due diligence works performed by in-house staff. For loans receivable under sale and leaseback arrangements, the Group holds collaterals from the borrowers/lessees. In this regard, management considers that the Group's credit risk is significantly reduced. As at 30 June 2017, loans receivable and loans receivable under sale and leaseback arrangements are principally due from ten (2016: eleven) borrowers or counterparties and the other receivables, deposits and prepayments are also due from a limited numbers of counterparties as at 30 June 2016 and 30 June 2017. The Group therefore has certain concentration of credit risk to a number of counterparties.

The credit risk on bank deposits is limited because the counterparties are banks with good reputation.

## 6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Equity price risk

The Group has no significant equity price risk as at 30 June 2017.

### Interest rate risk

The Group's bank balances have exposure to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on bank deposits. The directors consider the Group's exposure of the short-term bank deposits to interest rate risk is not significant as interest bearing bank deposits have short maturity periods. The Group's loans receivable carry at fixed interest rate and therefore these are not subject to cash flow interest rate risk.

The Group has no significant interest-bearing financial liabilities. Accordingly, management considers the Group has no significant cash flow interest rate risk from financial liabilities.

The Group does not have an interest rate hedging policy. However, management monitors interest rate exposures and will consider hedging significant interest rate exposures should the need arise.

### Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash. The Group maintains its financial position with adequate cash and cash equivalents of HK\$1,347,820,000 (2016: HK\$980,003,000) as at 30 June 2017.

The following table details the remaining contractual maturities at the end of reporting period of the Group's non-derivative financial liabilities which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates, or if floating, based on current rates at the end of reporting period) and the earliest date the Group can be required to pay.

## NOTES TO THE FINANCIAL STATEMENTS

## 6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Foreign currency risk

Majority of the group entities' transactions are denominated and settled in their respective functional currencies. Accordingly, there is no significant exposure to foreign currency risk except that the Group entities operating in Hong Kong have bank deposits of approximately HK\$7,543,000 (2016: HK\$94,048,000) denominated in Renminbi included in bank balances and cash as at 30 June 2017. Had the exchange rate of Renminbi against Hong Kong dollar increased/decreased by 5%, the profit for the year ended 30 June 2017 and equity as at 30 June 2017 would increase/decrease by approximately HK\$377,000 (2016: loss would decrease/increase and equity would increase/decrease by approximately HK\$4,702,000). The above analysis is prepared based on the reasonably possible changes in an exchange rate to which the Group has significant exposure at the end of each reporting period.

## 7. TURNOVER

Turnover represents the aggregate of amounts received and receivable from third parties, less returns and allowance and is analysed as follows:

	2017 <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Loan interest income	137,614	144,924
Dividend income from investments held for trading	70	223
	<b>137,684</b>	145,147

## 8. SEGMENT REPORTING

### Reportable segments

The Group determines its operating segments based on the reports reviewed by the chief operating decision-maker that are used to make strategic decisions. The chief operating decision-maker has been identified as the Executive Directors of the Company.

An operating segment is a component of the Group that is engaged in business activities from which the Group may earn revenue and incur expenses, and is identified on the basis of the internal management reporting information that is provided to and regularly reviewed by the Group's directors in order to allocate resources and assess performance of the segment.

The Executive Directors have determined that the Group had two reportable segments – "Financial Services" and "Investment Portfolio". The financial services segment, mainly the money lending business in Hong Kong and loan financing business in the PRC, continues to generate interest incomes from those business. Riding the One Belt, One Road initiative, the investment portfolio segment has been expanding and it includes but not limited to equity investments and acquisition of companies.

Segment information about these reportable segments is presented below:

For the purpose of impairment testing, cost of goodwill is allocated to the cash generating unit (“CGU”) in relation to the investment in Golden 11 Investment International PTE Ltd. (“Golden 11”) under the investment portfolio operating segment. There is no quoted market price in an active market and the fair values of the CGU cannot be reliably measured. The recoverable amount of the CGU has been determined from value-in-use calculations, with references to the valuation performed by an independent firm of professionally qualified valuers, based on cash flow projections from formally approved budgets covering a four-year period. Cash flow beyond the forecast period is extrapolated using an estimated average growth rate of 3% (2016: 3%), which the management considers to be reasonable as a long-term average growth rate for the network facilities service industry in countries considered to be comparable to Myanmar. Cash flows for the first four financial periods are based on expected sales orders estimated by management. The discount rate of 43.85% (2016: 45.49%) used is pre-tax and reflects specific risks relating to the CGU.

Myanmar’s telecommunication market will see a solid growth driven by the replacement of 2G networks with 3G/4G networks and in early 2017 the introduction of Myanmar’s fourth operator who targets rural areas and competes on price. With the opening of Myanmar market, we expect to face with very strong competition against the large and middle size foreign enterprises. In order to cope with the fast-changing market and foreseeable keen competition in particular in pricing, management have carefully considered to shift its pricing strategy so as to increase the market penetration in a short period of time. The relevant key assumptions in the forecast have accordingly been moderated based on the latest market development. According to the latest valuation, the recoverable amount of the CGU is lower than the carrying amount and an impairment loss on goodwill of HK\$12,386,000 has been recognised in “Other Net Losses” in the consolidated statement of comprehensive income in Note 9.

	2017 <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Unlisted equity securities outside Hong Kong (denominated in USD)	<b>4,306</b>	–

As disclosed in Note 10, the Company holds 10% equity interest of Metro Leader upon the completion of Disposal on 17 November 2016. The investment is classified as available-for-sale financial asset as the Group does not have the power to control or significant influence on the investee. It is stated at cost as there has no active market for determining its fair value as at year end.

### 21. LOANS RECEIVABLE

	2017 <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Loans receivable	<b>1,126,541</b>	1,367,425
Loans receivable under sale and leaseback agreements	<b>241,011</b>	261,578
	<b>1,367,552</b>	1,629,003

The carrying amounts of the Group's loans receivable are mainly denominated in the respective functional currencies of the group entities. The loans receivable under sale and leaseback arrangements which in substance do not involve a lease and represent loans made to borrowers/lessees secured on the underlying assets.

The analysis of the carrying amount of loans receivable (net of impairment losses) is as follows:

	2017 <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Current	<b>287,399</b>	1,569,138
Non-current	<b>1,080,153</b>	59,865
	<b>1,367,552</b>	1,629,003

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

### 21. LOANS RECEIVABLE (continued)

The analysis of loans receivable which are neither past due nor impaired, and past due but not impaired as at the end of reporting period, based on the respective maturity dates of the loans, is as follows:

	2017 HK\$'000	2016 HK\$'000
Neither past due nor impaired	1,309,992	1,362,726
Past due but not impaired:		
– No more than 3 months past due	–	223,607
– Over 3 months but no more than 6 months past due	–	42,670
– More than 12 months past due	57,560	–
	<u>57,560</u>	<u>266,277</u>
	<u>1,367,552</u>	<u>1,629,003</u>

At the end of reporting period, loans receivable which were neither past due nor impaired related to a number of borrowers for whom there was no recent history of default. As at 30 June 2017, for the balance which past due but not impaired, it is related to a borrower for which the balance has been settled subsequently to the end of the reporting period. As at 30 June 2016, for those balances which were past due but not impaired, they related to a number of borrowers for which management have assessed their financial position and performance as well as collaterals, if any, and considered the balances will be receivable in full and accordingly, no recognition of impairment loss is considered necessary.

As at 30 June 2017, loans receivable of HK\$28,496,000 (2016: Nil) were impaired. The impairment loss on loans receivable have been included in 'Other net losses' in the consolidated statement of comprehensive income as detailed in Note 9. The individually impaired receivables mainly relate to two borrowers, which are in unexpectedly difficult economic situations. It was assessed that the receivables are not expected to be recovered.

As at 30 June 2017, loans receivable of HK\$845,130,000 (2016: HK\$695,276,000) were secured on certain assets (mainly property, plant and equipment and inventories) of the borrowers or their related parties. The directors considered that the estimated fair value of these collaterals was not less than the carrying amount of the respective loans receivable as at 30 June 2017.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

### 22. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Financial assets at fair value through profit or loss include the following:

	2017 <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Unlisted convertible promissory note with fixed interest (denominated in USD)	<b>69,045</b>	78,102
Investments in equity securities listed in Hong Kong	–	1,932
	<b>69,045</b>	80,034

The convertible promissory note entitles the Group to convert the principal and accrued interest into shares of the issuer (the "Option") at certain conversion prices depending on various circumstances upon the conditions of conversion have been fulfilled at the next equity financing date as defined in the terms and conditions of the convertible promissory note. The convertible promissory note is subordinated the right of payment to a bank of the issuer and it shall rank pari passu with the most senior existing debt of the issuer that does not arise from the bank.

The convertible promissory note had matured on 30 June 2017 and upon mutual agreement of the Group and the issuer, the maturity date can be extended. As at the reporting date, the potential extension is under discussion between the Group and the issuer and no agreement has been reached.

The Option will expire when the convertible promissory note is redeemed or three months after the next equity financing date, whichever is the earlier.

The fair value of the convertible promissory note as at end of the current period is determined by the directors of the Company with reference to the valuation performed by an independent firm of professionally qualified valuers. Changes in fair values of financial assets at fair value through profit or loss are recorded in "Other net losses" in the consolidated statement of comprehensive income.

### 23. BANK DEPOSITS WITH MATURITY OVER THREE MONTHS

The balances at 30 June 2016 represented bank deposits with original maturity of more than three months but no more than one year which are not classified as cash and cash equivalents for the purpose of consolidated statement of cash flows.

### 24. BANK BALANCES AND CASH

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates.

	<b>66,504</b>	15,794

Operating lease payments represent rentals payable by the Group for its office premises, directors' quarters and railway sites. The leases were negotiated for a term of two to fifteen years at fixed rentals.

### 30. RETIREMENT BENEFITS SCHEME

The Group participates in a MPF Scheme established under the Hong Kong Mandatory Provident Fund Schemes Ordinance since December 2000. The assets of the MPF Scheme are held separately from those of the Group, in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules.

During the year, the total amount contributed by the Group to the MPF Scheme and charged to profit or loss represents contributions payable by the Group at rates specified in the rules of the scheme.

# NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

## 31. RELATED PARTY DISCLOSURES

During the year, the Group has the following material related party transactions:

- (a) Three loans were made to the minority shareholder of a subsidiary amounting to HK\$55,585,000 as at 30 June 2017 (2016: HK\$51,696,000). The loans carry interest at 8% per annum and are secured on shares of that subsidiary held by the minority shareholder. The loans are repayable in September 2018 and March 2019, of which approximately HK\$34,558,000 will be due in September 2018.
- (b) Included in other receivables, deposits and prepayments as at 30 June 2017, was an amount of HK\$6,598,000 (2016: HK\$6,606,000) due from the minority shareholder of a subsidiary. It was unsecured, interest-free and repayable on demand.
- (c) The remuneration of directors and other members of key management of the Group during the year was as follows:

	<b>2017</b> <i>HK\$'000</i>	2016 <i>HK\$'000</i>
Short-term benefits	<b>8,478</b>	9,732
Post-employment benefits	<b>53</b>	22
	<b>8,531</b>	9,754

The remuneration of directors is determined by the remuneration committee having regard to the level and composition of pay and the general market conditions in the respective countries and businesses.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

### 32. SUMMARY OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES BY CATEGORY

The carrying amounts of the financial assets and financial liabilities recognised at the end of reporting period were categorised as follows:

	2017 HK\$'000	2016 HK\$'000
<b>Financial assets</b>		
Fair value through profit or loss		
– Investments held for trading	–	1,932
– Convertible promissory note	<b>69,045</b>	78,102
	<b>69,045</b>	80,034
Available-for-sale financial asset	<b>4,306</b>	–
Loans and receivables at amortised costs (including bank balances and cash)	<b>2,732,630</b>	2,714,098
	<b>2,805,981</b>	2,794,132
<b>Financial liabilities</b>		
Financial liabilities at amortised cost	<b>49,993</b>	69,373

The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of investments held for trading with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market price; and
- the fair values of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

HKFRS 13 requires disclosures for financial instruments that are measured at fair value by level of the following fair value measurement hierarchy:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: Inputs for the asset or liability that are not based on observable market data.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2017

### 32. SUMMARY OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES BY CATEGORY (continued)

The following table provides an analysis of financial instruments carried at fair value by level of fair value hierarchy:

	Level 1 <i>HK\$'000</i>	Level 2 <i>HK\$'000</i>	Level 3 <i>HK\$'000</i>	Total <i>HK\$'000</i>
<b>At 30 June 2017</b>				
<b>Financial assets at fair value through profit or loss</b>				
Unlisted investment in convertible promissory note	-	-	<b>69,045</b>	<b>69,045</b>
<b>At 30 June 2016</b>				
<b>Financial assets at fair value through profit or loss</b>				
Investments held for trading	1,932	-	-	1,932
Unlisted investment in convertible promissory note	-	-	78,102	78,102
	<b>1,932</b>	<b>-</b>	<b>78,102</b>	<b>80,034</b>

For the unlisted investment in convertible promissory note, the fair value of the host debt is estimated using a discounted cash flow method and the fair value of the conversion option is estimated using a scenario based discounted cash flow method.

#### Significant unobservable inputs

Credit spread	12.07%
Liquidity risk premium	1.50%

Had the credit spread and liquidity risk premium increased by 10%, it would decrease the fair value of the unlisted investment in convertible promissory note by HK\$791,000 (2016: HK\$880,000). Had the credit spread and liquidity risk premium decreased by 10%, it would increase the fair value of the unlisted investment in convertible promissory note by HK\$805,000 (2016: HK\$900,000).

The following table shows the reconciliation of Level 3 fair value measurement of the unlisted investment in convertible promissory note:

	2017 <i>HK'000</i>	2016 <i>HK'000</i>
At 1 July	<b>78,102</b>	77,637
Change in fair value (included in other net losses)	<b>(9,057)</b>	465
At 30 June	<b>69,045</b>	78,102

The directors consider that the carrying amounts of financial assets and financial liabilities carried at amortised cost in the financial statements approximate their fair values.
