

Hong Kong Exchanges and Clearing Limited (“**HKEX**”), The Stock Exchange of Hong Kong Limited (the “**Stock Exchange**”) and Hong Kong Securities Clearing Company Limited take no responsibility for the contents of this document, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this document.

This document, for which we accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the “**Rules**”) for the purpose of giving information with regard to us. We, having made all reasonable enquiries, confirm that to the best of our knowledge and belief the information contained in this document is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this document misleading.

This document is for information purposes only and does not constitute an invitation or offer to acquire, purchase or subscribe for the Warrants.

Investors are warned that the price of the Warrants may fall in value as rapidly as it may rise and holders may sustain a total loss of their investment. Prospective purchasers should therefore ensure that they understand the nature of the Warrants and carefully study the risk factors set out in the Base Listing Document (as defined below) and this document and, where necessary, seek professional advice, before they invest in the Warrants.

The Warrants constitute general unsecured contractual obligations of us as the Issuer and of no other person and will rank equally among themselves and with all our other unsecured obligations (save for those obligations preferred by law) upon liquidation. If you purchase the Warrants, you are relying upon the creditworthiness of us, and have no rights under the Warrants against the Fund which has issued the underlying Units, the manager or the trustee of the Fund or any other person. If we become insolvent or default on our obligations under the Warrants, you may not be able to recover all or even part of the amount due under the Warrants (if any).

Launch Announcement

and

Supplemental Listing Document for Warrants over Unit Fund

The Hongkong and Shanghai Banking Corporation Limited

(incorporated in Hong Kong with limited liability under the Companies Ordinance of Hong Kong)

Key Terms

Warrants Stock code	17967
Liquidity Provider Broker ID	9731
Issue size	20,000,000 Warrants
Style	European style cash settled
Type	Call
Fund	CSOP FTSE China A50 ETF
Units	Existing issued HKD-traded units of the Fund (stock code: 2822)
Board Lot	200 Warrants
Issue Price per Warrant	HK\$0.60
Cash Settlement Amount per Board Lot (if any) payable at expiry	<p><i>For a series of call Warrants:</i></p> $\frac{\text{Entitlement} \times (\text{Average Price} - \text{Exercise Price}) \times \text{one Board Lot}}{\text{Number of Warrant(s) per Entitlement}}$ <p><i>For a series of put Warrants:</i></p> $\frac{\text{Entitlement} \times (\text{Exercise Price} - \text{Average Price}) \times \text{one Board Lot}}{\text{Number of Warrant(s) per Entitlement}}$
Exercise Price	HK\$14.88
Average Price¹ (for all series)	The arithmetic mean of the closing prices of one unit for each Valuation Date
Entitlement	1 Unit
Number of Warrant(s) per Entitlement	1 Warrant
Maximum number of Units to which the Warrants relate	20,000,000 Units
Launch Date (for all series)	19 October 2017
Issue Date (for all series)	25 October 2017
Listing Date (for all series)	26 October 2017
Valuation Date² (for all series)	Each of the five Business Days immediately preceding the Expiry Date
Expiry Date³	30 April 2018
Settlement Date (for all series)	The third CCASS Settlement Day after the later of: (i) the Expiry Date; and (ii) the day on which the Average Price is determined in accordance with the Conditions
Settlement Currency	Hong Kong dollars
Implied Volatility⁴	20.51%
Effective Gearing⁴	9.15x
Gearing⁴	24.37x
Premium⁴	5.88%

¹ As derived from the daily quotation sheet of the Stock Exchange, subject to any adjustment to such closing prices as may be necessary to reflect any event as contemplated in Condition 6 such as capitalisation, rights issue, distribution or the like.

² Subject to any potential postponement upon the occurrence of a Market Disruption Event, provided that no Valuation Date shall fall on or after the Expiry Date. Please see Condition 4 for details

³ If such day is a Saturday, Sunday or public holiday in Hong Kong, the immediately succeeding day which is not a Saturday, Sunday or public holiday in Hong Kong.

⁴ The data may fluctuate during the life of the Warrants and may not be comparable to similar information provided by other issuers of derivative warrants. Each issuer may use different pricing models.

IMPORTANT INFORMATION

The Warrants are listed structured products which involve derivatives. Do not invest in them unless you fully understand and are willing to assume the risks associated with them.

What documents should you read before investing in the Warrants?

You must read this document together with our base listing document dated 11 April 2017 (the “**Base Listing Document**”) as supplemented by any addendum thereto (together, the “**Listing Documents**”), in particular the section “Terms and Conditions of the Unit Fund Warrants (Cash Settled)” (the “**Conditions**”) set out in our Base Listing Document. This document (as read in conjunction with our Base Listing Document and each addendum referred to in the section headed “Product Summary Statement”) is accurate as at the date of this document. You should carefully study the risk factors set out in the Listing Documents. You should also consider your financial position and investment objectives before deciding to invest in the Warrants. We cannot give you investment advice. You must decide whether the Warrants meet your investment needs before investing in the Warrants.

Is there any guarantee or collateral for the Warrants?

No. Our obligations under the Warrants are neither guaranteed by any third party, nor collateralised with any of our assets or other collaterals. When you purchase our Warrants, you are relying on our creditworthiness only, and of no other person. If we become insolvent or default on our obligations under the Warrants, you can only claim as an unsecured creditor of the Issuer. In such event, you may not be able to recover all or even part of the amount due under the Warrants (if any).

What are the Issuer’s credit ratings?

The Issuer’s long-term debt ratings are:

<i>Rating agency</i>	<i>Rating as of the date of this document</i>
Moody’s Investors Service, Inc.	Aa3 (stable outlook)
S&P Global Ratings	AA- (stable outlook)

Rating agencies usually receive a fee from the companies that they rate. When evaluating our creditworthiness, you should not solely rely on our credit ratings because:

- a credit rating is not a recommendation to buy, sell or hold the Warrants;
- ratings of companies may involve difficult-to-quantify factors such as market competition, the success or failure of new products and markets and managerial competence;
- a high credit rating is not necessarily indicative of low risk. Our credit ratings as of the date of this document are for reference only. Any downgrading of our ratings could result in a reduction in the value of the Warrants;
- a credit rating is not an indication of the liquidity or volatility of the Warrants; and
- a credit rating may be downgraded if the credit quality of the Issuer declines.

The Warrants are not rated. The Issuer’s credit ratings are subject to change or withdrawal at any time within each rating agency’s sole discretion. You should conduct your own research using publicly available sources to obtain the latest information with respect to the Issuer’s ratings from time to time.

Is the Issuer regulated by the Hong Kong Monetary Authority referred to in Rule 15A.13(2) or the Securities and Futures Commission referred to in Rule 15A.13(3)?

We are a licensed bank regulated by the Hong Kong Monetary Authority, and a registered institution under the Securities and Futures Ordinance (Cap. 571) of Hong Kong to carry on type 1 (Dealing in Securities), type 2 (Dealing in Futures Contracts), type 4 (Advising on Securities), type 5 (Advising on Futures Contracts), type 6 (Advising on Corporate Finance) and type 9 (Asset Management) regulated activities.

Is the Issuer subject to any litigation?

Except as set out in the Listing Documents, there are no legal or arbitration proceedings (including any such proceedings which are pending or threatened of which we are aware) which may have, or have had in the previous 12 months, a significant effect on us and our subsidiaries.

Has our financial position changed since last financial year-end?

Except as set out in the Listing Documents, there has been no material adverse change in our financial or trading position or prospects or indebtedness since 31 December 2016.

PRODUCT SUMMARY STATEMENT

The Warrants are listed structured products which involve derivatives. This statement provides you with key information about the Warrants. You should not invest in the Warrants based on the information contained in this statement alone. You should read and understand the remaining sections of this document, together with the other Listing Documents, before deciding whether to invest.

Overview of the Warrants

- **What is a derivative warrant?**

A derivative warrant is an instrument which gives the holder a right to “buy” or “sell” the Fund at a pre-set price called the exercise price on or prior to the expiry date. Investing in a derivative warrant does not give you any right in the Fund. Derivative warrants usually cost a fraction of the price of the Fund and may provide a leveraged return to you. Conversely, such leverage could also magnify your losses.

A call warrant is designed for an investor holding a view that the price of the Fund will increase during the term of the warrant.

A put warrant is designed for an investor holding a view that the price of the Fund will decrease during the term of the warrant.

- **How and when can you get back your investment?**

The Warrants are European style cash settled derivative warrants linked to the Fund. European style warrants can only be exercised on the expiry date. When the Warrants are exercised, the holder is entitled to a cash amount called the “**Cash Settlement Amount**” net of any Exercise Expenses (as defined under the heading “Exercise Expenses” in the sub-section titled “What are the fees and charges?” below) according to the terms and conditions in the Listing Documents. **If the Cash Settlement Amount is equal to or less than the Exercise Expenses, you will lose all of your investment in the Warrants.**

- **How do the Warrants work?**

The potential payoff at expiry for the Warrants is calculated by reference to the difference between the Exercise Price and the Average Price of the Fund.

A call Warrant will be automatically exercised at expiry without the need for the holder to deliver an exercise notice if the Average Price of the Fund is greater than the Exercise Price. The more the Average Price is above the Exercise Price, the higher the payoff at expiry. If the Average Price is at or below the Exercise Price, you will lose all of your investment in the call Warrant.

A put Warrant will be automatically exercised at expiry without the need for the holder to deliver an exercise notice if the Average Price of the Fund is below the Exercise Price. The more the Average Price is below the Exercise Price, the higher the payoff at expiry. If the Average Price is at or above the Exercise Price, you will lose all of your investment in the put Warrant.

- **Can you sell the Warrants before the Expiry Date?**

Yes. We have made an application for listing of, and permission to deal in, the Warrants on the Stock Exchange. All necessary arrangements have been made to enable the Warrants to be admitted into the Central Clearing and Settlement System (“CCASS”). Issue of the Warrants is conditional upon listing approval being granted. From the Listing Date up to the last trading day of the Warrants (both dates inclusive), you may sell or buy the Warrants on the Stock Exchange. There shall be three CCASS Settlement Days between the last trading day of the Warrants and the Expiry Date. No application has been made to list the Warrants on any other stock exchange.

The Warrants may only be transferred in a Board Lot (or integral multiples thereof). Where a transfer of Warrants takes place on the Stock Exchange, currently settlement must be made not later than two CCASS Settlement Days after such transfer.

The Liquidity Provider will make a market in the Warrants by providing bid and/or ask prices. See the section headed “Liquidity” below.

- **What is your maximum loss?**

The maximum loss in the Warrants will be your entire investment amount plus any transaction costs.

- **What are the factors determining the price of a derivative warrant?**

The price of a derivative warrant generally depends on the price of the Fund (being the Fund for the Warrants). However, throughout the term of a derivative warrant, its price will be influenced by a number of factors, including:

- the exercise price of the derivative warrants;
- the value and volatility of the price of the Fund (being a measure of the fluctuation in the price of the Fund over time);
- the time remaining to expiry: generally, the longer the remaining life of the derivative warrant, the greater its value;
- the interim interest rates and expected distributions on the Fund;
- the liquidity of the Fund;
- the supply and demand for the derivative warrant;

- our related transaction cost; and
- the creditworthiness of the issuer of the derivative warrant.

As the price of a derivative warrant is not only affected by the price of the Fund, movements in the price of a derivative warrant may not be proportionate or may even be opposite to the price movement of the Fund. For example:

- if the price of the Fund increases (in respect of a call warrant) or decreases (in respect of a put warrant), but the volatility of the price of the Fund decreases, the price of the warrant may decrease;
- if a warrant is deep-out-of-the-money (eg. when the fair market value is less than HK\$0.01), the price of the warrant may be insensitive to any increase (in respect of a call warrant) or decrease (in respect of a put warrant) in the price of the Fund;
- if the outstanding volume of a series of warrants in the market is high, the supply and demand of the warrant may have a greater impact on the warrant price than the price of the Fund; and/or
- the decrease in time value may offset any increase (in respect of a call warrant) or decrease (in respect of a put warrant) in the price of the Fund, especially when the warrant is close to its expiry where the time value decreases at a faster pace.

Risks of investing in the Warrants

You must read the section headed “Key Risk Factors” in this document together with the risk factors set out in our Base Listing Document. You should consider all these factors collectively when making your investment decision.

Liquidity

- **How to contact the Liquidity Provider for quotes?**

Liquidity Provider: HSBC Securities Brokers (Asia) Limited
 Address: Levels 17 and 18, HSBC Main Building, 1 Queen’s Road Central, Hong Kong
 Telephone Number: (852) 2822 1849

The Liquidity Provider is regulated by the Stock Exchange and the Securities and Futures Commission. It is an affiliate of the Issuer and will act as our agent in providing quotes. You can request a quote by calling the Liquidity Provider at the telephone number above.

- **What is the Liquidity Provider’s maximum response time for a quote?** The Liquidity Provider will respond within 10 minutes and the quote will be displayed on the Stock Exchange’s designated stock page for the Warrants.
- **Maximum spread between bid and ask prices:** 20 spreads
- **Minimum quantity for which liquidity will be provided:** 20 Board Lots
- **What are the circumstances under which the Liquidity Provider is not obliged to provide liquidity?**
 There will be circumstances under which the Liquidity Provider is not obliged to provide liquidity. Such circumstances include:
 - (i) during the first 5 minutes of each morning trading session or the first 5 minutes after trading commences for the first time on a trading day;
 - (ii) during a pre-opening session or a closing auction session (if applicable) or any other circumstances as may be prescribed by the Stock Exchange;
 - (iii) when the Warrants or the Fund are suspended from trading for any reason;
 - (iv) when there are no Warrants available for market making activities. In such event, the Liquidity Provider shall continue to provide bid prices. Warrants held by us or any of our affiliates in a fiduciary or agency capacity are not Warrants available for market making activities;
 - (v) when there are operational and technical problems beyond the control of the Liquidity Provider hindering the ability of the Liquidity Provider to provide liquidity;
 - (vi) if the Fund or the stock market experiences exceptional price movement and high volatility over a short period of time which materially affects the Liquidity Provider’s ability to source a hedge or unwind an existing hedge; or
 - (vii) if the theoretical value of the Warrants is less than HK\$0.01. If the Liquidity Provider chooses to provide liquidity under this circumstance, both bid and ask prices will be made available.

You should read the sub-section entitled “Possible limited secondary market” under the “Key Risk Factors” section for further information on the key risks when the Liquidity Provider is not able to provide liquidity.

How can you obtain further information?

- **Information about the underlying Company and the Fund**

You may obtain information on the Fund (including the Fund's financial statements) by visiting the Stock Exchange's website at www.hkex.com.hk or (if applicable) the Fund's website(s) as follows:

<i>Fund</i>	<i>Website</i>
CSOP FTSE China A50 ETF	www.csopasset.com/etf

- **Information about the Warrants after issue**

You may visit the Stock Exchange's website at www.hkex.com.hk/eng/prod/secprod/dwrc/dw.htm or our website at www.warrants.hsbc.com.hk/cgi/warrants/warrant_doc.cgi to obtain information on the Warrants or any notice given by us or the Stock Exchange in relation to the Warrants.

- **Information about us**

You should read the section "Updated Information about Us" in this document. You may visit www.hsbc.com to obtain general corporate information about us.

We have included references to websites in this document to indicate how further information may be obtained. Information appearing on those websites does not form part of the Listing Documents. We accept no responsibility for the accuracy or completeness of the information appearing on those websites. You should conduct your own due diligence (including without limitation web searches) to ensure that you are viewing the most up-to-date information.

What are the fees and charges?

- **Trading Fees and Levies**

The Stock Exchange charges a trading fee of 0.005 per cent. and the Securities and Futures Commission charges a transaction levy of 0.0027 per cent. for each transaction effected on the Stock Exchange payable by each of the seller and the buyer and calculated on the value of the consideration for the Warrants. The levy for the investor compensation fund is currently suspended.

- **Exercise Expenses**

You are responsible for any Exercise Expenses. Exercise Expenses mean any charges or expenses including any taxes or duties which are incurred in respect of the exercise of the Warrants. Any Exercise Expenses will be deducted from the Cash Settlement Amount (if any). If the Cash Settlement Amount is equal to or less than the Exercise Expenses, no amount is payable. As at the date of this document, no Exercise Expenses are payable for cash settled warrants (including the Warrants).

- **Stamp Duty**

No stamp duty is currently payable in Hong Kong on transfer of cash settled warrants (including the Warrants).

You should note that any transaction cost will reduce your gain or increase your loss under your investment in the Warrants.

What is the legal form of the Warrants?

Each series of the Warrants will be represented by a global certificate in the name of HKSCC Nominees Limited who is the only legal owner of the Warrants. We will not issue definitive certificates for the Warrants. You may arrange for your broker to hold the Warrants in a securities account on your behalf, or if you have a CCASS Investor Participant securities account, you may arrange for the Warrants to be held in such account. You will have to rely on the records of CCASS and/or the statements you receive from your brokers as evidence of your beneficial interest in the Warrants.

Can we adjust the terms or early terminate the Warrants?

The occurrence of certain events (including, without limitation, a rights issue, bonus issue or cash distribution by the Fund, a subdivision or consolidation of the Fund) may entitle us to adjust the terms and conditions of the Warrants. However, we are not obliged to adjust the terms and conditions of the Warrants for every event that affects the Fund.

We may early terminate the Warrants if it becomes illegal or impracticable for us (i) to perform our obligations under the Warrants as a result of a change in law event, or (ii) to maintain our hedging arrangement with respect to the Warrants due to a change in law event. In such event, the amount payable by us (if any) will be the fair market value of the Warrants less our cost of unwinding any related hedging arrangements as determined by us, which may be substantially less than your initial investment and may be zero.

Please refer to Conditions 6, 7 and 14 for details about adjustments or early termination events. Such events may negatively affect your investment and you may suffer a loss.

Mode of settlement for the Warrants

The Warrants will be automatically exercised on the Expiry Date in integral multiples of the Board Lot if the Cash Settlement Amount is positive. If the Cash Settlement Amount is zero or negative, or is equal to or less than the Exercise Expenses, you will lose all of your investment.

We will deliver a cash amount in the Settlement Currency equal to the Cash Settlement Amount net of any Exercise Expenses (if any) no later than the Settlement Date to HKSCC Nominees Limited (as the registered holder of the Warrants), which will then distribute such amount to the securities account of your broker (and if applicable, its custodian) or to your CCASS Investor Participant securities account (as the case may be). You may have to rely on your broker (and if applicable, its custodian) to ensure that the Cash Settlement Amount (if any) is credited to your account maintained with your broker. Once we make the payment to HKSCC Nominees Limited, who operates CCASS, you will have no further right against us for that payment, even if CCASS or your broker (and if applicable, its custodian) does not transfer your share of payment to you, or is late in making such payment transfer.

Payment of the Cash Settlement Amount (if any) may be delayed if a Settlement Disruption Event occurs on the Settlement Date, as a result of which we are unable to deliver such amount through CCASS on such day. See Condition 4 for further information.

Where can you inspect the relevant documents of the Warrants?

The following documents are available for inspection during usual business hours on any weekday (Saturdays, Sundays and holidays excepted) until the Expiry Date at HSBC Main Building, 1 Queen's Road Central, Hong Kong:

- each of the Listing Documents (in separate English and Chinese versions), including:
 - this document
 - our Base Listing Document
 - the addendum to our Base Listing Document dated 23 August 2017
- our latest audited consolidated financial statements and any interim or quarterly financial statements;
- a copy of the consent letter of our auditors referred to in our Base Listing Document.

The Listing Documents are also available on the website of the HKEX at www.hkexnews.hk and our website at www.hsbc.com.

各上市文件亦可於香港交易所披露易網站(www.hkexnews.hk)以及本公司網站www.hsbc.com瀏覽。

Are there any dealings in the Warrants before the Listing Date?

It is possible that there may have been dealings in the Warrants before the Listing Date. If there are any dealings in the Warrants by us or any of our subsidiaries or associated companies from the Launch Date prior to the Listing Date, we will report those dealings to the Stock Exchange by the Listing Date and such report will be released on the website of the Stock Exchange.

Has the auditor consented to the inclusion of its report to the Listing Documents?

Our auditor (“**Auditor**”) has given and has not since withdrawn its written consent to the inclusion of its report dated 21 February 2017 and/or the references to its name in our Base Listing Document, in the form and context in which they are included. Its report was not prepared exclusively for incorporation into our Base Listing Document. The Auditor does not own any of our shares or shares in any member of our group, nor does it have the right (whether legally enforceable or not) to subscribe for or to nominate persons to subscribe for our securities or securities of any member of our group.

Selling restrictions

The Warrants have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), and will not be offered, sold, delivered or traded, at any time, indirectly or directly, in the United States or to, or for the account or benefit of, any U.S. person (as defined in the Securities Act).

The offer or transfer of the Warrants is also subject to the selling restrictions specified in our Base Listing Document.

Disclaimer

The name of the Fund is included here for identification purposes only. “FTSE[®]” is a trade mark of the London Stock Exchange Group companies (“**LSEG**”) and is used by FTSE International Limited (“**FTSE**”) under licence. The warrants are not sponsored, endorsed, sold, or promoted by FTSE, LSEG or CSOP Asset Management Limited (“**CSOP**”). FTSE, LSEG and CSOP make no representations or warranties with respect to this document or to the owners of the warrants or any member of the public regarding the advisability of investing in the warrants. FTSE, LSEG and CSOP have no obligation or liability in connection with the operation, marketing, trading or sale of the warrants.

Capitalised terms and inconsistency

Unless otherwise specified, capitalised terms used in this document have the meanings set out in the Conditions. If this document is inconsistent with our Base Listing Document, this document shall prevail.

KEY RISK FACTORS

You must read these key risk factors together with the risk factors set out in our Base Listing Document. These key risk factors do not necessarily cover all risks related to the Warrants. If you have any concerns or doubts about the Warrants, you should obtain independent professional advice.

Non-collateralised structured products

The Warrants are not secured on any of our assets or any collateral.

Credit risk

If you invest in the Warrants, you are relying on our creditworthiness and of no other person. If we become insolvent or default on our obligations under the Warrants, you can only claim as unsecured creditor regardless of the performance of the Fund and you may not be able to recover all or even part of the amount due under the Warrants (if any). You have no rights under the terms of the Warrants against the Company.

Warrants are not principal protected and may expire worthless

Although the cost of a Warrant may cost a fraction of the value of the Fund, the Warrant's price may change more rapidly than the price of the Fund. Given the gearing feature inherent in the Warrants, a small change in the price of the Fund may lead to a substantial price movement in the Warrants. You may suffer higher losses in percentage terms if you expect the level of the Fund to move one way but it moves in the opposite direction.

Unlike stocks, the Warrants have a limited life and will expire on the Expiry Date. In the worst case, the Warrants may expire with no value and you will lose all of your investment. Derivative warrants may only be suitable for experienced investors who are willing to accept the risk that they may lose all their investment.

The Warrants can be volatile

Prices of the Warrants may rise or fall rapidly. You should carefully consider, among other things, the following factors before dealing in the Warrants:

- (i) the prevailing trading price of the Warrants;
- (ii) the Exercise Price of the Warrants;
- (iii) the value and volatility of the price of the Fund;
- (iv) the time remaining to expiry;
- (v) the probable range of the Cash Settlement Amount;
- (vi) the interim interest rates and expected distributions on the Fund;
- (vii) the liquidity of the Fund;
- (viii) the related transaction costs (including the Exercise Expenses, if any);
- (ix) the supply and demand for the Warrants; and
- (x) the creditworthiness of the Issuer.

The price of a Warrant may be affected by all these factors in addition to the trading price of the Fund. Therefore, movements in the price of the Warrants may not be proportionate or may even be opposite to the price movement of the Fund. You should consider all these factors collectively when making your investment decision.

Time decay

All other factors being equal, the value of a Warrant is likely to decrease over time. Therefore, the Warrants should not be viewed as a product for long term investments.

Not the same as investing in the Fund

Investing in the Warrants is not the same as investing in the Fund. You have no rights in the Fund throughout the term of the Warrants. Changes in the market value of the Warrants may not correspond with the movements in the price of the Fund, especially when the theoretical value of the Warrants is at HK\$0.01 or below. If you buy the Warrants with a view to hedge against your exposure

to the Fund, it is possible that you could suffer loss in your investment in the Fund and the Warrants.

Suspension of trading

If trading in the Fund is suspended on the Stock Exchange, trading in the Warrants will be suspended for a similar period. In the case of a prolonged suspension period, the price of the Warrants may be subject to a significant impact of time decay due to such prolonged suspension and may fluctuate significantly upon resumption of trading, which may adversely affect your investment.

Possible limited secondary market

The Liquidity Provider may be the only market participant for the Warrants and therefore the secondary market for the Warrants may be limited. The more limited the secondary market, the more difficult it may be for you to realise the value in the Warrants prior to expiry.

You should also be aware that the Liquidity Provider may not be able to provide liquidity when there are operational and technical problem hindering its ability to do so. Even if the Liquidity Provider is able to provide liquidity in such circumstances, its performance of liquidity provision may be adversely affected. For example:

- (i) the spread between bid and ask prices quoted by the Liquidity Provider may be significantly wider than its normal standard;
- (ii) the quantity for which liquidity will be provided by the Liquidity Provider may be significantly smaller than its normal standard; and/or
- (iii) the Liquidity Provider's response time for a quote may be significantly longer than its normal standard.

Adjustment related risk

The occurrence of certain events (including, without limitation, a rights issue, bonus issue or cash distribution by the Fund, a subdivision or consolidation of the Fund and a restructuring event affecting the Fund) may entitle us to adjust the terms and conditions of the Warrants. However, we are not obliged to adjust the terms and conditions of the Warrants for every event that affects the Fund. Any adjustment or decision not to make any adjustment may adversely affect the value of the Warrants. Please refer to Condition 6 and 14 for details about adjustments.

Possible early termination

The Warrants will lapse and cease to be valid in the event of termination of the Fund or liquidation of the trustee of the Fund. We may also early terminate the Warrants if it becomes illegal or impracticable for us (i) to perform our obligations under the Warrants as a result of a change in law event, or (ii) to maintain our hedging arrangement with respect to the Warrant due to a change in law event. In such event, the amount payable by us (if any) will be the fair market value of the Warrants less our costs of unwinding any related hedging arrangements as determined by us, which may be substantially less than your initial investment and may be zero. Please refer to Condition 7 for details about our early termination rights.

Time lag between exercise and settlement of the Warrants

There is a time lag between exercise of the Warrants and payment of the Cash Settlement Amount net of Exercise Expenses (if any). There may be delays in the electronic settlement or payment through CCASS.

Conflict of interest

We and our subsidiaries and affiliates engage in a wide range of commercial and investment banking, brokerage, funds management, hedging, investment and other activities and may possess material information about the Fund or issue or update research reports on the Fund. Such activities, information and/or research reports may involve or affect the Fund and may cause consequences adverse to you or otherwise create conflicts of interests in connection with the issue of the Warrants. We have no obligation to disclose such information and may issue research reports and engage in any such activities without regard to the issue of the Warrants.

In the ordinary course of our business, we and our subsidiaries and affiliates may effect transactions for our own account or for the account of our customers and may enter into one or more transactions with respect to the Fund or related derivatives. This may indirectly affect your interests.

No direct contractual rights

The Warrants are issued in global registered form and are held within CCASS. You will not receive any definitive certificate and your name will not be recorded in the register of the Warrants. The evidence of your interest in the Warrants, and the efficiency of the ultimate payment of the Cash Settlement Amount net of Exercise Expenses (if any), are subject to the CCASS Rules. You will have to rely on your broker (or, if applicable, its direct or indirect custodians) and the statements you receive from it as evidence of your interest in the Warrants. You do not have any direct contractual rights against us. To assert your rights as an investor in the Warrants, you will have to rely on your broker (and, if applicable, its direct or indirect custodian) to take action on your behalf. If your broker or, if applicable, its direct or indirect custodian:

- (i) fails to take action in accordance with your instructions;
- (ii) becomes insolvent; or
- (iii) defaults on its obligations,

you will need to take action against your broker in accordance with the terms of arrangement between you and your broker to establish your interest in the Warrants first before you can assert your right of claim against us. You may experience difficulties in taking such legal proceedings. This is a complicated area of law and you should seek independent legal advice for further information.

Risks related to the Fund in general

Subject to the circumstances as set out in the subsection titled "Conflict of interest" above, neither we nor any of our affiliates have the ability to control or predict the actions of the trustee or the manager of the Fund. Neither the trustee nor the manager of the Fund (i) is involved in the offer of the Warrants in any way, or (ii) has any obligation to consider your interest in taking any corporate actions that might affect the value of the Warrants.

The manager of the Fund is responsible for making investment and other trading decisions with respect to the management of the Fund consistent with its investment objectives and in compliance with the investment restrictions as set out in the constitutive documents of the Fund. The manner in which the Fund is managed and the timing of actions may have a significant impact on the performance of the Fund. Hence, the market price of the Units is also subject to these risks.

There is also a risk that the investment objectives and/or investment restrictions as set out in the constitutive documents of the Fund are materially changed or are not complied with or the method of calculating the net asset value of the Fund is materially changed. In addition, the applicable laws and regulations governing the Fund may also restrict the operations of the Fund and restrict its ability to achieve the investment objectives.

Risks related to an exchange traded fund ("ETF")

The Fund is an ETF. An ETF is exposed to the political, economic, currency and other risks related to the underlying equity(ies), assets or index that the ETF is designed to track.

Risk specific to ETF investing through RQFII and China Connect

CSOP FTSE China A50 ETF is an ETF issued and traded outside the PRC which invests directly in the mainland Chinese securities markets through the RMB Qualified Foreign Institutional Investor ("RQFII") regime and the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect (collectively, "China Connect"). You should note that, amongst others:

- (a) the novelty and untested nature of such ETF make it riskier than traditional ETFs investing directly in more developed markets. The policy and rules for RQFII and China Connect prescribed by the mainland China government are new and subject to change, and there may be uncertainty to their implementation. The uncertainty and change of the laws and regulations in mainland China may adversely impact on the performance of the Fund and the trading price of the Units;
- (b) such ETF primarily invests in securities traded in the mainland Chinese securities markets and is subject to concentration risk. Investment in the mainland Chinese securities markets (which are inherently stock markets with restricted access) involves certain risks and special considerations as compared with investment in more developed economies or markets, such as greater political, tax, economic, foreign exchange, liquidity and regulatory risks. The operation of such ETF may also be affected by interventions by the applicable government(s) and regulators in the financial markets;
- (c) a RQFII ETF will utilize its manager's RQFII quota allocated to such fund under the RQFII regime. In the event that RQFII quota allocated to the RQFII ETF is reached and the manager is unable to acquire additional RQFII quota for the RQFII ETF, the manager may need to suspend creation of further Units of the RQFII ETF, and therefore may affect liquidity in Unit trading of the RQFII ETF. In such event, the trading price of a Unit of the RQFII ETF is likely to be at a significant premium to its net asset value, and may be highly volatile; and
- (d) although there is no longer an aggregate quota limitation, trading eligible mainland Chinese securities through China Connect is still subject to a daily quota ("Daily Quota"). Unlike the RQFII regime (where a certain amount of investment quota is granted to each RQFII licence holder), the Daily Quota under China Connect is applicable to the whole market and limits the maximum net buy value of cross-boundary trades under China Connect each day. Daily Quota limitations may prevent such ETF from purchasing the eligible mainland Chinese securities when it is otherwise advantageous to do so. In particular, once the remaining balance of the relevant Daily Quota drops to zero or the Daily Quota is exceeded, buy orders will be rejected (although such ETF will be permitted to sell its eligible mainland Chinese

securities regardless of the quota balance). If such ETF becomes unable to invest directly in or alternatively hold the eligible mainland Chinese securities, the value of the Units of such ETF may be adversely affected.

The above risks may have a significant impact on the performance of the Units and the price of the Warrants. Please read the offering documents of the ETF to understand its key features and risks.

Risk related to dual counter ETFs

The ETF units are traded in both Renminbi (“RMB”) and HKD under the Stock Exchange’s dual counter model. The Warrants are related to the ordinary HKD traded units of the Fund only. You need to consider the following additional risks in light of the novelty and relatively untested nature of the Stock Exchange’s dual counters model:

- (a) movements in the trading prices of RMB-traded units should not directly affect the price of the Warrants;
- (b) if there is a suspension of inter-counter transfer of such units between the HKD counter and the RMB counter for any reason, such units will only be able to be traded in the relevant currency counter on the Stock Exchange, which may affect the demand and supply of such units and have an adverse effect on the price of the Warrants; and
- (c) the trading prices on the Stock Exchange of HKD-traded units and RMB-traded units may deviate significantly due to different factors, such as market liquidity, RMB conversion risk, supply and demand in each counter and the exchange rate between offshore RMB and HKD. Changes in the trading price of the underlying asset in HKD or RMB (as the case may be) may adversely affect the price of the Warrants.

The Listing Documents should not be relied upon as the sole basis for your investment decision

The Listing Documents do not take into account your investment objectives, financial situation or particular needs. Nothing in the Listing Documents should be construed as a recommendation by us or our affiliates to invest in the Warrants or the Fund.

Not the ultimate holding company of the group

We are not the ultimate holding company of the group to which we belong. The ultimate holding company of the group to which we belong is HSBC Holdings plc.

Credit ratings

Our credit ratings as of the date of this document are for reference only. Any downgrading of our ratings could result in a reduction in the value of the Warrants.

Two or more risk factors may simultaneously affect the Warrants

Two or more risk factors may simultaneously have an effect on the value of a Warrant such that the effect of any individual risk factor may not be predicted. No assurance can be given as to the effect any combination of risk factors may have on the value of a Warrant.

The Financial Institutions (Resolution) Ordinance may adversely affect the Warrants

On 7 July 2017, the Financial Institutions (Resolution) Ordinance (Cap. 628 of the Laws of Hong Kong) (the “FIRO”) came into operation. The FIRO provides for, among other things, the establishment of a resolution regime for authorised institutions and other within scope financial institutions as designated by the relevant resolution authorities, which includes us as the issuer of the Warrants. The resolution regime seeks to provide the relevant resolution authorities with administrative and other powers to bring about timely and orderly resolution in order to stabilise and secure continuity for a failing authorised institution or within scope financial institution. In particular, subject to certain safeguards, the relevant resolution authority is provided with powers to affect contractual and property rights as well as payments (including in respect of any priority of payment) that creditors would receive in resolution. These may include, but are not limited to, powers to cancel, write off, modify, convert or replace all or a part of the Warrants or cash payment under the Warrants, and powers to amend or alter the contractual provisions (including the terms and conditions) of the Warrants, all of which may adversely affect the value of the Warrants, and as a result, the holders thereof may suffer a loss of some or all of their investment. All holders of the Warrants will be subject to and bound by the FIRO. **In the worst case scenario, you may get nothing back and the maximum loss could be 100% of your initial investment amount.**

Updated information about Us

With effect from 14 September 2017, Ms Louisa CHEANG Wai Wan has been appointed as a Director of the Issuer.

With effect from 3 October 2017, Mr CHOI Yiu Kwan has been appointed as an Independent Non-executive Director of the Issuer.
